NOTES TO FINANCIAL STATEMENTS

(Unaudited)

Note 1- INTERIM RESULTS AND BASIS OF PRESENTATION:

The accompanying unaudited financial statements as of December 25, 2015 and December 26, 2014 and for the nine and three months then ended have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q. In the opinion of management, the unaudited financial statements have been prepared on the same basis as the annual financial statements and reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the financial position as of December 25, 2015 and December 26, 2014 and the results of operations and cash flows for the nine and three months then ended. The financial data and other information disclosed in these notes to the interim financial statements related to these periods are unaudited. The results for the nine and three months ended December 25, 2015, are not necessarily indicative of the results to be expected for any subsequent quarter or the entire fiscal year. The balance sheet at March 27, 2015 has been derived from the audited financial statements at that date.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). The Company believes, however, that the disclosures in this report are adequate to make the information presented not misleading in any material respect. The accompanying financial statements should be read in conjunction with the audited financial statements and notes thereto of IEH Corporation for the fiscal year ended March 27, 2015 included in the Company's Annual Report on Form 10-K as filed with the SEC and the attached Management's Discussion and Analysis of Financial Condition and Results of Operations.

Note 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Description of Business:

The Company designs, develops and manufactures printed circuit connectors for high performance applications. We have also developed a high performance plastic circular connector line. All of our products utilize the HYPERBOLOID contact design, a rugged high-reliability contact system ideally suited for high-stress environments. We are the only independent producer of HYPERBOLOID in the United States.

Our customers consist of OEM's (Original Equipment Manufacturers), companies manufacturing medical equipment, and distributors who resell our products to OEMs. We sell our products directly and through regional representatives located in all regions of the United States, Canada, Israel, India, various Pacific Rim countries, South Korea and the European Union (EU).

NOTES TO FINANCIAL STATEMENTS

(Unaudited)

Note 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: ***(continued)***

Description of Business: ***(continued)***

The customers of the Company services are in the following markets: Government, Military, Aerospace, Medical, Automotive, Industrial, Test Equipment and Commercial Electronics. The Company appears on the Military Qualified Product Listing “QPL” to MIL-DTL-55302 and supply customer requested modifications to this specification. Sales to the Commercial Electronic and Military markets were 35% and 58%, respectively, of the Company’s net sales for the year ended March 27, 2015. The Company’s offering of “QPL” items has recently been expanded to include additional products.

In order to remain competitive, the Company has an internal program to upgrade, add and maintain machinery, review material costs and increase labor force productivity. We recently purchased several machines to increase the productivity of certain processes. This will help us meet this goal.

Business New Product Development:

The Company is sought after by many of its customers to design and manufacture custom connectors. This has created many new products that are innovative designs and employ new technologies. The Company continues to be successful because of its ability to assist its customers and create a new design, including engineering drawing packages, in a relatively short period of time. We will continue to support our customers to the best of our ability.

The circular product line of connectors introduced several years ago for the medical industry continues to be very rewarding for the Company. The line has been expanded to include connector cable assemblies utilizing the circular connectors.

A new product line featuring high density connectors is being added to the Company's product offering. This offering should be available within the next few months. The Company expects the new product line to bring additional revenue.

The standard printed circuit board connectors we produce are continually being expanded and utilized in many of the military programs being built today. We have recently received approval for additional products that we can offer under the Military Qualified Product Listing "QPL."

Accounting Period:

The Company maintains an accounting period based upon a 52-53 week year, which ends on the nearest Friday in business days to March 31. The year ended March 27, 2015 was comprised of 52 weeks.

NOTES TO FINANCIAL STATEMENTS

(Unaudited)

Note 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: ***(continued)***

Revenue Recognition:

Revenues are recognized at the shipping date of the Company's products. The Company has historically adopted the shipping terms that title to merchandise passes to the customer at the shipping point (FOB Shipping Point). At this juncture, title has passed, the Company has recognized the sale, inventory has been relieved, and the customer has been invoiced. The Company does not offer any discounts, credits or other sales incentives.

The Company's policy with respect to customer returns and allowances as well as product warranty is as follows:

The Company will accept a return of defective product within one year from shipment for repair or replacement at the Company's option. If the product is repairable, the Company at its own cost, will repair and return it to the customer. If unrepairable, the Company will either offer an allowance against payment or will reimburse the customer for the total cost of product.

Most of the Company's products are custom ordered by customers for a specific use. The Company provides engineering services as part of the relationship with its customers in developing the custom product. The Company is not obligated to provide such engineering service to its customers. The Company does not invoice its customers separately for these services.

Inventories:

Inventories are stated at cost, on a first-in, first-out basis which does not exceed market value.

The Company manufactures products pursuant to specific technical and contractual requirements.

The Company historically purchases material in excess of its requirements to avail itself of favorable pricing as well as the possibility of receiving additional orders from customers. This excess may result in material not being used in subsequent periods, which may result in this material being deemed obsolete.

The Company annually reviews its purchase and usage activity of its inventory of parts as well as work in process and finished goods to determine which items of inventory have become obsolete within the framework of current and anticipated orders. The Company based upon historical experience has determined that if a part has not been used and purchased or an item of finished goods has not been sold in three years, it is deemed to be obsolete. The Company estimates which materials may be obsolete and which products in work in process or finished goods may be sold at less than cost. A periodic adjustment, based upon historical experience, is made to inventory in recognition of this impairment.

NOTES TO FINANCIAL STATEMENTS

(Unaudited)

Note 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (*continued*)

Concentration of Credit Risk:

Financial instruments which potentially subject the Company to concentrations of credit risk consist primarily of cash, cash equivalents and accounts receivable.

Under the provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act that was signed into law on July 21, 2010, the Federal Deposit Insurance Corporation (FDIC) will permanently insure all accounts maintained with each financial institution up to $250,000 in the aggregate.

As of December 25, 2015, the Company had funds on deposit in the amount of $2,214,908 in one financial institution comprised of the following:

Non-interest bearing accounts	$1,009,838
Interest bearing account	1,205,070
	$2,214,908

The Company has not experienced any losses in such accounts and believes its cash balances are not exposed to any significant risk.

Property, Plant and Equipment:

Property, plant and equipment are stated at cost less accumulated depreciation and amortization. The Company provides for depreciation and amortization using the Double Declining Balance method over the estimated useful lives (5-7 years) of the related assets.

Maintenance and repair expenditures are charged to operations, and renewals and betterments are capitalized. Items of property, plant and equipment, which are sold, retired or otherwise disposed of, are removed from the asset and accumulated depreciation or amortization accounts. Any gain or loss thereon is either credited or charged to operations.

Income Taxes:

The Company follows the policy of treating investment tax credits as a reduction in the provision for federal income tax in the year in which the credit arises or may be utilized. Deferred income taxes arise from temporary differences resulting from different depreciation methods used for financial and income tax purposes. The Company has adopted the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 740, *Income Taxes,* which includes the provisions of Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes."

Note 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (*continued*)

Net Income Per Share:

The Company has adopted the provisions of ASC Topic 260, *Earnings per Share,* which includes the provisions of SFAS No. 128, "Earnings Per Share," which requires the disclosure of "basic" and "diluted" earnings (loss) per share. Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding during each period. Diluted earnings per share is similar to basic earnings per share except that the weighted average number of common shares outstanding is increased to reflect the dilutive effect of potential common shares, such as those issuable upon the exercise of stock or warrants, as if they had been issued. For the nine months ended December 25, 2015 and December 26, 2014, respectively, there were no items of potential dilution that would impact on the computation of diluted earnings or loss per share.

Fair Value of Financial Instruments:

The carrying value of the Company's financial instruments, consisting of accounts receivable, accounts payable, and borrowings, approximate their fair value due to the relatively short maturity (three months) of these instruments.

Use of Estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual amounts could differ from those estimates.

Impairment of Long-Lived Assets:

The Company has adopted the provisions of ASC Topic, 360, *Property, Plant and Equipment-Impairment or Disposal of Long-Lived Assets* which includes the provisions of SFAS No. 144, "Accounting for The Impairment or Disposal of Long-Lived Assets," and requires that long-lived assets and certain identifiable intangibles to be held and used by an entity be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company has adopted SFAS No. 144. There were no long-lived asset impairments recognized by the Company for the nine months ended December 25, 2015 and December 26, 2014, respectively.

Note 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: ***(continued)***

Reporting Comprehensive Income:

The Company has adopted the provisions of ASC Topic, 220, *Comprehensive Income* which includes the provisions of SFAS No. 130, “Reporting Comprehensive Income.” This Statement established standards for reporting and display of comprehensive income and its components (revenues, expenses, gains and losses) in an entity’s financial statements. This Statement requires an entity to classify items of other comprehensive income by their nature in a financial statement and display the accumulated balance of other comprehensive income separately from retained earnings and additional paid-in capital in the equity section of a statement of balance sheet. There were no material items of comprehensive income to report for the nine months ended December 25, 2015 and December 26, 2014, respectively.

Segment Information:

The Company has adopted the provisions of ASC Topic, 280, *Segment Reporting* which includes the provisions of SFAS No. 131, “Disclosures About Segment of An Enterprise and Related Information.” This Statement requires public enterprises to report financial and descriptive information about its reportable operating segments and establishes standards for related disclosures about product and services, geographic areas, and major customers. The adoption of ASC Topic 280 did not affect the Company’s presentation of its results of operations or financial position.

Research and Development:

The Company provides personalized engineering services to its customers by designing connectors for specific customer applications. The employment of electromechanical engineers is the anticipated cornerstone of the Company’s future growth. The Company maintains a testing laboratory where its engineers experiment with new connector designs based on changes in technology and in an attempt to create innovative, more efficient connector designs.

The Company did not expend any funds on nor receive any revenues related to customer sponsored research and development activities relating to the development of new designs, techniques and the improvement of existing design during the nine months ended December 25, 2015 and December 26, 2014, respectively.

NOTES TO FINANCIAL STATEMENTS

Note 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: ***(continued)***

Effect of New Accounting Pronouncements:

In February 2013, the FASB issued ASU 2013-02, "Comprehensive Income (Topic 220), Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income". The amendments do not change the current requirements for reporting net income or other comprehensive income in financial statements. However, the amendments require an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under U.S. GAAP that provide additional detail about those amounts. The pronouncement is effective for fiscal years and interim periods ending after December 15, 2012. The adoption of this pronouncement did not have a material effect on our Company's financial position or results of operations.

In October 2012, the FASB issued ASU 2012-04 "Technical Corrections and Improvements." This ASU makes certain technical correction to the FASB Accounting Standards Codification. The new guidance will be effective for fiscal years beginning after December 15, 2012. The adoption of the new amendments did not have a significant impact on our financial statements.

In July, 2012, the FASB issued ASU 2012-02, "Intangibles - Goodwill and Other (Topic). ASU 2012-02 amends the required annual impairment testing of indefinite-lived intangible assets by providing an entity an option to first assess qualitative factors to determine whether it is more likely than not that the fair value of the indefinite-lived asset is less than its carrying amount. If, after assessing the totality of events and circumstances, an entity determines it is not more likely than not that the fair value of the indefinite-lived asset is less than its carrying amount, then performing the two-step impairment test under Topic 350-30 is unnecessary. However, if an entity concludes otherwise, then it is required to perform the impairment testing under Topic 350-30-35-18F by calculating the fair value of the reporting unit and comparing the results with the carrying amount. If the fair value exceeds the carrying amount, then the entity must perform the second step test of measuring the amount of the impairment test under Topic 350-30-35-19. An entity has the option to bypass the qualitative assessment and proceed directly to the two step goodwill impairment test. Additionally, the entity has the option to resume with the qualitative testing in any subsequent period.

The pronouncement is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012 and early adoption is permitted. Our Company's adoption of the new standard did not have a material effect on our Company's financial position or results of operations.

Note 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: ***(continued)***

Effect of New Accounting Pronouncements: ***(continued)***

In December 2011, the FASB issued ASU 2011-11 "Disclosures about Offsetting Assets and Liabilities". Under the new guidance entities must disclose both gross information and net information on instruments and transactions eligible for offset on the balance sheet in accordance with the offsetting guidance in ASC 210-20-45 or ASC 815-10-45, and instruments and transactions subject to an agreement similar to a master netting arrangement. The new guidance will be effective for the Company beginning April 1, 2013. The adoption of these amendments did not have a significant impact on our Company's financial statements.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on our Company's financial statements upon adoption.

Note 3- INVENTORIES:

Inventories are stated at cost, on a first-in, first-out basis, which does not exceed market value.

The Company manufactures products pursuant to specific technical and contractual requirements. The Company historically purchases material in excess of its requirements to avail itself of favorable pricing as well as the possibility of receiving additional orders from customers. This excess may result in material not being used in subsequent periods, which may result in this material being deemed obsolete.

The Company annually reviews its purchase and usage activity of its inventory of parts as well as work in process and finished goods to determine which items of inventory have become obsolete within the framework of current and anticipated orders. The Company based upon historical experience has determined that if a part has not been used and purchased or an item of finished goods has not been sold in three years, it is deemed to be obsolete.

The Company estimates which materials may be obsolete and which products in work in process or finished goods may be sold at less than cost. A periodic adjustment, based upon historical experience, is made to inventory in recognition of this impairment.

Inventories were comprised of the following:

	Dec. 25, 2015	March 27, 2015

Note 6- ACCOUNTS RECEIVABLE FINANCING:

The Company entered into an accounts receivable financing agreement with a non-bank lending institution (“Factor”) whereby it can borrow up to 80 percent of its eligible receivables (as defined in such financing agreement) at an interest rate of 2.5% above JP Morgan Chase’s publicly announced rate with a minimum rate of 12% per annum. The financing agreement has an initial term of one year and will automatically renew for successive one-year terms, unless terminated by the Company or the Factor upon receiving 60 days prior notice. Funds advanced by the Factor are secured by the Company’s accounts receivable and inventories.

Note 9- 2011 EQUITY INCENTIVE PLAN:

On August 31, 2011, the Company's shareholders approved the adoption of the Company's 2011 Equity Incentive Plan ("2011 Plan") to provide for the grant of stock options and restricted stock awards to purchase up to 750,000 shares of the Company's common stock to all employees, consultants and other eligible participants including senior management and members of the Board of Directors of the Company. The 2011 Plan replaced the prior 2002 Employee Stock Option Plan which had expired in accordance with its terms.

Options granted to employees under the 2011 Plan may be designated as options which qualify for incentive stock option treatment under Section 422A of the Internal Revenue Code, or options which do not qualify (non-qualified stock options).

Under the 2011 Plan, the exercise price of an option designated as an incentive stock option shall not be less than the fair market value of the Company's common stock on the day the option is granted. In the event an option designated as an incentive stock option is granted to a ten percent (10%) or greater shareholder, such exercise price shall be at least 110 percent (110%) of the fair market value of the Company's common stock and the option must not be exercisable after the expiration of five years from the day of the grant. The 2011 Plan also provides that holders of options that wish to pay for the exercise price of their options with shares of the Company's common stock must have beneficially owned such stock for at least six months prior to the exercise date.

Exercise prices of non-incentive stock options may be less than the fair market value of the Company's common stock.

The aggregate fair market value of shares subject to options granted to a participant(s), that are designated as incentive stock options, and which become exercisable in any calendar year, shall not exceed $100,000. As of December 25, 2015, no options or restricted stock awards had been granted under the 2011 Plan.

On July 1, 2015, our Board of Directors granted 245,000 options to purchase shares of the Company’s common stock under the 2011 Plan as follows: (i) Michael Offerman, our Chief Executive Officer, was granted 75,000 options; (ii) Robert Knoth, our Chief Financial Officer, was granted 50,000 options; (iii) four non-executive officer key employees were granted 110,000 options; and (iv) each of our non-management directors, Allen Gottlieb and Gerald Chafetz, was granted 5,000 options. The stock options (i) have a ten-year term; (ii) have an exercise price equal to the fair market value of the Company’s common stock as determined under the 2011 Plan, as reported in the OTCBB, on the date of grant ($6.00), except that the options granted to Michael Offerman has an exercise price equal to 110% of such fair market value because he owns ten percent (10%) or greater of the Company’s outstanding common stock; and (iii) were all immediately vested. In the event of the termination of each recipient’s employment by, or association with, the Company (as applicable), the options will remain exercisable in accordance with the terms of the 2011 Plan.

Note 9- 2011 EQUITY INCENTIVE PLAN: *(Continued)*

The table below summarizes the option awards for the named executive officers and non-management directors:

Name	Stock Option Grants
Michael Offerman	75,000
Robert Knoth	50,000
Allen Gottlieb	5,000
Gerald Chafetz	5,000

The Company intends to provide additional information regarding the compensation awarded to the named executive officers and non-management directors in respect of and during the fiscal year ended March 25, 2016, in the proxy statement for the Company's 2015 annual meeting of stockholders.

Note 10- CASH BONUS PLAN:

In 1987, the Company adopted a cash bonus plan ("Cash Bonus Plan") for executive officers. Contributions to the Cash Bonus Plan are made by the Company only after pre-tax operating profits exceed $150,000 for a fiscal year, and then to the extent of 10% of the excess of the greater of $150,000 or 25% of pre-tax operating profits. Accordingly, the Company has accrued a contribution provision of $252,800 for the nine months ended December 25, 2015. For the year ended March 27, 2015, the Company's contribution was $288,000.

Note 11- COMMITMENTS AND CONTINGENCIES:

The Company leases space for its corporate offices (including its manufacturing facility) at 140 58th Street, Suite 8E, Brooklyn, New York. The lease term runs from December 1, 2010 through November 30, 2020. The basic minimum annual rentals are as follows:

Fiscal year ending March:

2016	$43,290
2017	173,180
2018	178,360
2019	183,720
2020	189,200
2021	128,640
	$896,390

The rental expense for the nine months ended December 25, 2015 was $124,830 and $121,230 for the nine months ended December 26, 2014.

Note 11- COMMITMENTS AND CONTINGENCIES: *(Continued)*

The Company has a collective bargaining multi-employer pension plan ("Multi-Employer Plan") with the United Auto Workers of America, Local 259 ("UAW"). Contributions are made by the Company in accordance with a negotiated labor contract and are based on the number of covered employees employed per month. With the passage of the Multi-Employer Pension Plan Amendment Act of 1990 (the "1990 Act"), the Company may become subject to liabilities in excess of contributions made under the collective bargaining agreement. Generally, these are contingent upon termination, withdrawal, or partial withdrawal from the Multi-Employer Plan.

The Company has not taken any action to terminate, withdraw or partially withdraw from the Multi-Employer Plan, nor does it intend to do so in the future. Under the 1990 Act, liabilities would be based upon the Company's proportional share of the Multi-Employer Plan's unfunded vested benefits which is currently not available. The amount of accumulated benefits and net assets of such Plan also is not currently available to the Company. The total contributions charged to operations under the provisions of the Multi-Employer Plan were $84,336 for the nine months ended December 25, 2015 and $93,266 for the nine months ended December 26, 2014.

Note 12- SUBSEQUENT EVENTS:

The Company has evaluated all other subsequent events through February 8, 2016, the date the financial statements were available to be issued. Based on this evaluation, the Company has determined that no subsequent events have occurred which require disclosure through the date that these financial statements were available to be issued.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of Section 21E of the Securities and Exchange Act of 1934, as amended (the "Exchange Act") and Section 27A of the Securities Act of 1933 (the "Securities Act"). Statements contained in this report which are not statements of historical facts may be considered forward-looking information with respect to plans, projections, or future performance of the Company as defined under the Private Securities litigation Reform Act of 1995. These forward-looking statements are subject to risks and uncertainties which could cause actual results to differ materially from those projected. The words "anticipate," "believe," "estimate," "expect," "objective," and "think" or similar expressions used herein are intended to identify forward-looking statements. The forward-looking statements are based on the Company's current views and assumptions and involve risks and uncertainties that include, among other things, the effects of the Company's business, actions of competitors, changes in laws and regulations, including accounting standards, employee relations, customer demand, prices of purchased raw material and parts, domestic economic conditions, including housing starts and changes in consumer disposable income, and foreign economic conditions, including currency rate fluctuations. Some or all of the facts are beyond the Company's control.

Except as may be required by applicable law, we do not undertake or intend to update or revise our forward-looking statements, and we assume no obligation to update any forward-looking statements contained in this report as a result of new information or future events or developments. Thus, you should not assume that our silence over time means that actual events are bearing out as expressed or implied in such forward-looking statements. You should carefully review and consider the various disclosures we make in this report and our other reports filed with the SEC that attempt to advise interested parties of the risks, uncertainties and other factors that may affect our business. The following discussion and analysis should be read in conjunction with the financial statements and related footnotes included elsewhere in this quarterly report which provide additional information concerning the Company's financial activities and condition.

Critical Accounting Policies

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, which require the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and revenues and expenses during the periods reported. Actual results could differ from those estimates. The Company believes the following are the critical accounting policies, which could have the most significant effect on the Company's reported results and require the most difficult, subjective or complex judgments by management.

Impairment of Long-Lived Assets:

The Company reviews its long-lived assets for impairment whenever events or circumstances indicate that the carrying amount of an asset may not be recoverable. If the sum of the expected cash flows, undiscounted and without interest, is less than the carrying amount of the asset, an impairment loss is recognized as the amount by which the carrying amount of the asset exceeds its fair value. The Company makes estimates of its future cash flows related to assets subject to impairment review.

Inventory Valuation:

Inventories are stated at cost on first-in, first-out basis, which does not exceed market value. Finished goods and work in process are valued at the lower of actual cost, determined on a specific identification basis, or market. The Company estimates which materials may be obsolete and which products in work in process or finished goods may be sold at less than cost, and adjusts their inventory value accordingly. Future periods could include either income or expense items if estimates change and for differences between the estimated and actual amount realized from the sale of inventory.

PART I: FINANCIAL INFORMATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations *(continued)*

Critical Accounting Policies *(continued)*

Income Taxes:

The Company records a liability for potential tax assessments based on its estimate of the potential exposure. Due to the subjectivity and complex nature of the underlying issues, actual payments or assessments may differ from estimates. Income tax expense in future periods could be adjusted for the difference between actual payments and the Company's recorded liability based on its assessments and estimates.

Revenue Recognition:

Revenues are recognized at the shipping date of the Company's products. The Company has historically adopted the shipping terms that title merchandise passes to the customer at the shipping point (FOB Shipping Point). At this juncture, title has passed, the Company has recognized the sale, inventory has been relieved, and the customer has been invoiced. The Company does not offer any discounts, credits or other sales incentives.

The Company's policy with respect to customer returns and allowances as well as product warranty is as follows:

The Company will accept a return of defective product within one year from shipment for repair or replacement at the Company's option. If the product is repairable, the Company at its own cost will repair and return it to the customer. If unrepairable, the Company will either offer an allowance against payment or will reimburse the customer for the total cost of the product.

Most of the Company's products are custom ordered by customers for a specific use. The Company provides engineering services as part of the relationship with its customers in developing the custom product. The Company is not obligated to provide such engineering service to its customers. The Company does not charge separately for these services.

Research & Development:

The Company provides personalized engineering services to its customers by designing connectors for specific customer applications. The employment of electromechanical engineers is the anticipated cornerstone of the Company’s future growth. The Company maintains a testing laboratory where its engineers experiment with new connector designs based on changes in technology and in an attempt to create innovative, more efficient connector designs.

The Company did not expend any funds on customer sponsored research and development activities for the nine months ended December 25, 2015 and December 26, 2014, respectively, relating to the development of new designs, techniques and the improvement of existing designs.

Comparative Analysis- Nine Months Ended December 25, 2015 and December 26, 2014

Results of Operations

The following table sets forth for the periods indicated, percentages for certain items reflected in the financial data as such items relate to the revenues of the Company:

Relationship to Total Revenues

	Dec. 25, 2015	Dec. 26, 2014
Operating Revenues (in thousands)	$14,922	$12,564
Operating Expenses: (as a percentage of Operating Revenues)		
Costs of Products Sold	65.39%	61.92%
Selling, General and Administrative	15.12%	15.74%
Interest Expense	.08%	.11%
Depreciation and amortization	1.42%	1.85%
TOTAL COSTS AND EXPENSES	82.01%	79.62%
Operating Income	17.99%	20.38%
Other Income	—	—
Income (loss) before Income Taxes	17.99%	20.38%

Income Taxes	(9.25)%	(9.24%)
Net Income	8.74%	11.14%

Operating revenues for the nine months ended December 25, 2015 amounted to $14,922,073 reflecting a 18.77% increase versus $12,564,148 for the nine months ended December 26, 2014. The increase in revenues can be attributed to an increase in commercial sales during the nine months ended December 25, 2015.

Cost of products sold amounted to $9,757,198 for the nine months ended December 25, 2015, or 65.39% of operating revenues. This reflected a $1,977,341 or 25.42% increase in the cost of products sold from $7,779,857 or 61.92% of operating revenues for the nine months ended December 26, 2014. The increase in cost of products sold can be attributed to an increase in commercial sales and the related production costs associated with the increase for the nine months ended December 25, 2015.

Selling, general and administrative expenses were $2,256,163 or 15.12% of operating revenues for the nine months ended December 25, 2015 compared to $1,977,215 or 15.74% of operating revenues for the nine months ended December 26, 2014. This category of expense increased by $278,948 or 14.11% from the prior nine month period. The increase can be attributed to an increase in sales commissions.

Comparative Analysis - Nine Months Ended December 25, 2015 and December 26, 2014 ***(continued)***

Results of Operations ***(continued)***

Interest expense was $11,788 for the nine months ended December 25, 2015 or .08% of operating revenues. For the nine months ended December 26, 2014, interest expense was $13,282 or .11% of operating revenues. The decrease of $1,494 or 11.25% reflects a decrease in the Company's borrowings during the nine months ended December 25, 2015.

Depreciation and amortization of $212,200 or 1.42% of operating revenues was reported for the nine months ended December 25, 2015 as compared to the nine month period ended December 26, 2014 of $232,100 or 1.85% of operating revenues. The decrease was due to a decrease in capital expenditures during the nine months ended December 25, 2015.

The Company reported net income of $1,305,702 for the nine months ended December 25, 2015 representing basic earnings of $.57 per share as compared to net income of $1,401,749 or $.61 per share for the nine months ended December 26, 2014. The decrease in net income for the current nine month period can be attributed primarily to an increase in cost of products sold during the period.

Income (loss) before Income Taxes	14.49%	22.95%
Income Taxes	(5.39)%	(10.39%)
Net Income	9.10%	12.56%

Operating revenues for the three months ended December 25, 2015 amounted to $4,652,911 reflecting a 1.57% decrease versus $4,726,915 for the three months ended December 26, 2014. The decrease in revenues can be attributed to a decrease in commercial sales during the three months ended December 25, 2015.

Cost of products sold amounted to $3,133,049 for the three months ended December 25, 2015, or 67.34% of operating revenues. This reflected a $289,093 or 10.17% increase in the cost of products sold from $2,843,956 or 60.17% of operating revenues for the three months ended December 26, 2014. The increase in cost of products sold was primarily due to an increase in direct labor cost during the quarter ended December 25, 2015.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Comparative Analysis- Three Months Ended December 25, 2015 and December 26, 2014

Results of Operations

Selling, general and administrative expenses were $789,529 or 16.97% of operating revenues for the three months ended December 25, 2015 compared to $717,366 or 15.18% of operating revenues for the three months ended December 26, 2014. This category of expense increased by $72,163 or 10.06% from the prior three month period. The increase was due primarily to an increase in sales commissions.

Interest expense was $1,668 for the three months ended December 25, 2015 or .04% of operating revenues. For the fiscal three months ended December 26, 2014, interest expense was $5,252 or .11% of operating revenues. The decrease of $3,584 or 68.24% was due to the company reducing its borrowings during the quarter ended December 25, 2015.

Depreciation and amortization of $54,200 or 1.16% of operating revenues was reported for the three months ended December 25, 2015 as compared to the three month period ended December 26, 2014 of $75,000 or 1.59% of operating revenues. The decrease was due to a decrease in capital expenditures during the quarter ended December 25, 2015.

The Company reported net income of $423,677 the three months ended December 25, 2015 representing basic earnings of $.18 per share as compared to net income of $594,339 or $.26 per share for the three months ended December 26, 2014. The decrease in net income for the current three month period can be attributed primarily to a decrease in commercial sales during the quarter.

Liquidity and Capital Resources

The Company reported working capital of $11,325,423 as of December 25, 2015 compared to a working capital of $10,144,556 as of March 27, 2015. The increase in working capital of $1,180,867 was attributable to the following items:

Net income	$1,305,702
Depreciation and amortization	212,200
Capital expenditures	(337,033)
Other transactions	(2)
	$1,180,867

As a result of the above, the current ratio (current assets to current liabilities) was 10.30 to 1 at December 25, 2015 as compared to 11.67 to 1 at March 27, 2015. Current liabilities at December 25, 2015 were $1,217,933 compared to $950,712 at March 27, 2015.

For the nine months ended December 25, 2015, the Company reported $337,033 in capital expenditures and depreciation of $212,200.

The net income of $1,305,702 for the nine months ended December 25, 2015 resulted in an increase in stockholders' equity to $13,196,160 as compared to stockholders' equity of $11,890,458 at March 27, 2015.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Liquidity and Capital Resources *(continued)*

The Company has an accounts receivable financing agreement with non-bank lending institution ("Factor") whereby it can borrow up to 80 percent of its eligible receivables (as defined in such financing agreement) at an interest rate of 2.5% above JP Morgan Chase's publicly announced prime rate with a minimum rate of 12% per annum. Funds advanced by the Factor are secured by the Company's accounts receivable and inventories. At December 25, 2015, the Company reported excess payments to the Factor of $492,744. These excess payments are reported in the accompanying financial statements as "Excess payments to accounts receivable factor." The Company reported excess payments to the Factor of $43,041 at March 27, 2015.

In the past two fiscal years, management has been reviewing its collection practices and policies for outstanding receivables and has revised its collection procedures to a more aggressive collection policy. As a consequence of this new policy the Company's experience is that its customers have been remitting payments on a more consistent and timely basis. The Company reviews the collectability of all accounts receivable on a monthly basis. The reserve is less than 1% of average gross accounts receivable and is considered to be conservatively adequate.

The Company has the Multi-Employer Plan with the UAW. Contributions are made by the Company in accordance with a negotiated labor contract and are based on the number of covered employees employed per month. With the passage of the 1990 Act, the Company may become subject to liabilities in excess of contributions made under the collective bargaining agreement. Generally, these are contingent upon termination, withdrawal, or partial withdrawal from the Multi-Employer Plan. The Company has not taken any action to terminate, withdraw or partially withdraw from the Multi-Employer Plan, nor does it intend to do so in the future. Under the 1990 Act, liabilities would be based upon the Company's proportional share of the Multi-Employer Plan's unfunded vested benefits which is currently not available. The amount of accumulated benefits and net assets of such Plan also is not currently available to the Company. The total contributions charged to operations under the provisions of the Multi-Employer Plan were $84,336 for the nine months ended December 25, 2015 and $93,266 for the nine months ended December 26, 2014.

On August 31, 2011, the Company's shareholders approved the adoption of the Company's 2011 Equity Incentive Plan ("2011 Plan") to provide for the grant of stock options and restricted stock awards to purchase up to 750,000 shares of the Company's common stock to all employees, consultants and other eligible participants including senior management and members of the Board of Directors of the Company. The 2011 Plan replaced the prior 2002 Employee Stock Option Plan which had expired on its terms.

Options granted to employees under the 2011 Plan may be designated as options which qualify for incentive stock option treatment under Section 422A of the Internal Revenue Code, or options which do not qualify (non-qualified stock options).

Under the 2011 Plan, the exercise price of an option designated as an incentive stock option shall not be less than the fair market value of the Company's common stock on the day the option is granted. In the event an option designated as an incentive stock option is granted to a ten percent (10%) or greater shareholder, such exercise price shall be at least 110 percent (110%) of the fair market value of the Company's common stock and the option must not be exercisable after the expiration of five years from the day of the grant. The 2011 Plan also provides that holders of options that wish to pay for the exercise price of their options with shares of the Company's common stock must have beneficially owned such stock for at least six months prior to the exercise date.

Exercise prices of non-incentive stock options may be less than the fair market value of the Company's common stock.

The aggregate fair market value of shares subject to options granted to a participant(s), which are designated as incentive stock options, and which become exercisable in any calendar year, shall not exceed $100,000. As of December 25, 2015, no options or restricted stock awards had been granted under the 2011 Plan.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We do not believe that any of our financial instruments have significant risk associated with market sensitivity. For more information on these investments see Note 2 to our financial statements included in this Form 10-Q.

We are not exposed to significant financial market risks from changes in foreign currency exchange rates and are only minimally impacted by changes in interest rates. We have not used, and currently do not contemplate using, any derivative financial instruments.

Interest Rate Risk

At any time, fluctuations in interest rates could affect interest earnings on our cash and marketable securities. We believe that the effect, if any, of reasonably possible near term changes in interest rates on our financial position, results of operations, and cash flows would not be material. Currently, we do not hedge these interest rate exposures.

The primary objective of our investment activities is to preserve capital. We have not used derivative financial instruments in our investment portfolio.

As of December 25, 2015, our unrestricted cash was $2,214,908 of which $1,205,070 was in an interest bearing money market account with and the balance of $1,009,838 was maintained in non-interest bearing checking accounts used to pay operating expenses.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Based on an evaluation of the effectiveness of the Company's "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), the Company's Chief Executive Officer (who is also our President) and its Chief Financial Officer (who is also our Controller and Principal Accounting Officer) have concluded that, as of the end of the period covered by this Report on Form 10-Q, the Company's disclosure controls and procedures were effective at the reasonable assurance level to ensure that information required to be disclosed by the Company in this Report that it files or submit under the Exchange Act is, recorded, processed, summarized and reported within the time periods specified within the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, to allow timely decisions regarding required disclosure.

Our management, including our Chief Executive Officer and our Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our Company have been detected. Our management, however, believes our disclosure controls and procedures are in fact effective to provide reasonable assurance that the objectives of the control system are met. In connection with their review and assessment of our disclosure controls and procedures, the Company has retained the services of an outside consultant to further assist management in its annual evaluation of such controls and procedures.

Changes in Internal Controls

There have been no changes in our internal control over financial reporting (as defined in Rule 13a – 15(f) under the Exchange Act) during the quarter ended December 25, 2015 that have been materially affected, or are reasonably likely to materially affect our internal controls over financial reporting.

PART II: OTHER INFORMATION

Item 1. Legal Proceedings

The Company is not a party to or aware of any pending or threatened legal proceedings which, in the opinion of the Company's management, would result in any material adverse effect on its results of operations or its financial condition.

Item 1a. Risk Factors

You should carefully consider the risks described below, together with all of following risk factors and the other information included in this report, in considering our business herein as well as the information included in other reports and prospects. The risks and uncertainties described below are not the only ones facing our Company. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may impair our business operations, financial condition and/or operating results. If any of the matters or events described in the following risks actually occurs, our business, financial condition or results of operations could be harmed. In such case, the trading price of our common stock could decline, and you may lose all or part of your investment due to any of these risks.

Risks Related to Our Business

Failure to increase our revenue and keep our expenses consistent with revenues could prevent us from achieving and maintaining profitability.

We have generated net income of $1,453,707, $929,930, and $1,102,424, respectively, for the fiscal years ended March 27, 2015, March 28, 2014 and March 29, 2013 and $1,305,702 for the nine months ended December 25, 2015. We have expended, and will continue to be required to expend, substantial funds to pursue product development projects, enhance our marketing and sales efforts and to effectively maintain business operations. Therefore, we will need to generate higher revenues to achieve and maintain profitability and cannot assure you that we will be profitable in any future period.

Our capital requirements are significant and we have historically partially funded our operations through the financing of our accounts receivable.

We have an existing accounts receivable financing agreement with a non-lending institution ("Factor") whereby we can borrow up to 80 percent of our eligible receivables at an interest rate of 2.5% above JP Morgan Chase's publicly announced prime rate. No assurances can be given that this financing agreement will continue into the future. If we are unable to continue with this agreement, our cash flow might adversely be affected.

Our success is dependent on the performance of our management and the cooperation, performance and retention of our executive officers and key employees.

Our business and operations are substantially dependent on the performance of our senior management team and executive officers. If our management team is unable to perform it may adversely impact our results of operations and financial condition. We do not maintain "key person" life insurance on any of our executive officers. The loss of one or several key employees could seriously harm our business. Any reorganization or reduction in the size of our employee base could harm our ability to attract and retain other valuable employees critical to the success of our business.

PART II: OTHER INFORMATION

Item 1a. Risk Factors *(continued)*

If we lose key personnel or fail to integrate replacement personnel successfully, our ability to manage our business could be impaired.

Our future success depends upon the continued service of our key management, technical, sales, finance, and other critical personnel. We cannot assure you that we will be able to retain them. Key personnel have left our Company in the past and there likely will be additional departures of key personnel from time to time in the future. The loss of any key employee could result in significant disruptions to our operations, including adversely affecting the timeliness of product releases, the successful implementation and completion of Company initiatives, the effectiveness of our disclosure controls and procedures and our internal control over financial reporting, and the results of our operations. In addition, hiring, training, and successfully integrating replacement sales and other personnel could be time consuming, may cause additional disruptions to our operations, and may be unsuccessful, which could negatively impact future revenues.

Our reported financial results could be adversely affected by changes in financial accounting standards or by the application of existing or future accounting standards to our business as it evolves.

As a result of the enactment of the Sarbanes-Oxley Act and the review of accounting policies by the SEC and national and international accounting standards bodies, the frequency of accounting policy changes may accelerate. Possible future changes to accounting standards, could adversely affect our reported results of operations.

Risks Related to Our Common Stock

Our stock price is volatile and could decline; we have a very limited trading market.

The price of our common stock has been, and is likely to continue to be, volatile. For example, our stock price during the fiscal year ended March 27, 2015 traded as low as $2.76 per share and as high as $5.99 per share. During the nine month period ended December 25, 2015, our common stock traded in the range of $5.40 per share to $8.70 per share. We cannot assure you that your initial investment in our common stock will not decline.

termination of each recipient's employment by, or association with, the Company (as applicable), the options will remain exercisable in accordance with the terms of the 2011 Plan.

The table below summarizes the option awards for the named executive officers and non-management directors:

Name	Stock Option Grants
Michael Offerman	75,000
Robert Knoth	50,000
Allen Gottlieb	5,000
Gerald Chafetz	5,000

The Company intends to provide additional information regarding the compensation awarded to the named executive officers and non-management directors in respect of and during the fiscal year ended March 25, 2016, in the proxy statement for the Company's 2015 annual meeting of stockholders.
