### FOR IMMEDIATE RELEASE

## **Alvarion® Launches New High Capacity Point-to-Point Product for License-Exempt and Public Safety Frequency Bands**

*New BreezeNET® B300 delivers 250 Mbps, reaching more than 60 Kilometers with premium networking features for end-to-end broadband wireless solutions*

Tel-Aviv, **May 19, 2009** Alvarion Ltd. (NASDAQ: ALVR), the world's leading provider of WiMAX and wireless broadband solutions, today announced the addition of BreezeNET B300 to its portfolio of BreezeNET B family of point-to-point solutions. BreezeNET B300 high capacity point-to-point backhaul solution supports high bandwidth applications with advanced interference mitigation techniques, and enhanced networking capabilities to reduce network overhead and improve quality of service.

BreezeNET B300 platform provides a secure, reliable robust solution covering the 4.9 GHz and 5 GHz bands in a single software configurable solution. BreezeNET B300 enables aggregated net throughput of up to 250 Mbps and is ideal for high bandwidth applications, and complements the current BreezeNET B family. The BreezeNET B300 provides an efficient and highly secure solution in both LOS (line-of-sight) and NLOS (non-line-of-sight) applications

BreezeNET B300 is a perfect complement to our existing portfolio of industry leading wireless broadband solutions. Alvarion is delivering this solution to the market to support its partners and customers with the growing demand for broadband connectivity among all market segments,

## Edgar Filing: ALVARION LTD - Form 6-K

said Avinoam Barak, president of the Wireless Network Division of Alvarion. The solution was designed to enable a rapid network build-out with a lower upfront investment to increase the ROI. As part of Alvarion's strategy to strengthen its position in carrier and vertical markets, this product enhances our portfolio and allows Alvarion and its partners to provide an end to end wireless solution to the end users.

The BreezeNET B product family for license-exempt wireless point-to-point bridging solutions, provides efficient and secure connectivity solutions for a variety of applications covering the 4.9 GHz and 5 GHz frequency bands in a single platform suited for enterprise and municipal wireless connectivity applications, leased line replacement, video surveillance, disaster recovery and backhaul services between remote locations.
