NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the three and six months ended June 30, 2010 and 2009

1. Basis of Presentation

Cheviot Financial Corp. ("Cheviot Financial" or the "Corporation") is a financial holding company, the principal asset of which consists of its ownership of Cheviot Savings Bank (the "Savings Bank"). The Savings Bank conducts a general banking business in southwestern Ohio which consists of attracting deposits and applying those funds to the origination of primarily real estate loans. The Corporation is 62% owned by Cheviot Mutual Holding Company. Earnings per share is reported including all shares held by Cheviot Mutual Holding Company. Cheviot Mutual Holding Company has waived the receipt of dividends declared by the Corporation. Cheviot Savings' profitability is significantly dependent on net interest income, which is the difference between interest income from interest-earning assets and the interest expense paid on interest-bearing liabilities. Net interest income is affected by the relative amount of interest-earning assets and interest-bearing liabilities and the interest received or paid on these balances.

The accompanying unaudited financial statements were prepared in accordance with instructions for Form 10-Q and, therefore, do not include information or footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States of America. Accordingly, these consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto of Cheviot Financial included in the Annual Report on Form 10-K for the year ended December 31, 2009. However, in the opinion of management, all adjustments (consisting of only normal recurring accruals) which are necessary for a fair presentation of the consolidated financial statements have been included. The results of operations for the three and six month periods ended June 30, 2010, are not necessarily indicative of the results which may be expected for the entire year.

2. Principles of Consolidation

The accompanying consolidated financial statements as of and for the three and six months ended June 30, 2010 include the accounts of the Corporation and its wholly-owned subsidiary, the Savings Bank. All significant intercompany items have been eliminated.

3. Liquidity and Capital Resources

Liquidity describes our ability to meet the financial obligations that arise in the ordinary course of business. Liquidity is primarily needed to meet the borrowing and deposit withdrawal requirements of our customers and to fund current and planned expenditures. Our primary sources of funds are deposits, scheduled amortization and prepayments of loan principal and mortgage-backed securities, maturities and calls of securities and funds provided by our operations. In addition, we may borrow from the Federal Home Loan Bank of Cincinnati. At June 30, 2010 and December 31, 2009, we had \$35.9 million and \$33.7 million, respectively, in outstanding borrowings from the Federal Home Loan Bank of Cincinnati and had the capacity to increase such borrowings at those dates by approximately \$133.2 million and \$109.3 million, respectively.

Loan repayments and maturing securities are a relatively predictable source of funds. However, deposit flows, calls of securities and prepayments of loans and mortgage-backed securities are strongly influenced by interest rates, general and local economic conditions and competition in the marketplace. These factors reduce the predictability of these

sources of funds.

3. Liquidity and Capital Resources (continued)

For the six months ended June 30, 2010, loan originations totaled \$21.2 million, compared to \$42.4 million for the six months ended June 30, 2009.
