PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS

To Be Held December 1, 2005

11:00 a.m.

Solicitation and Revocation of Proxies

The accompanying proxy is solicited by and on behalf of the Board of Directors of Cortex Pharmaceuticals, Inc., a Delaware corporation (the **Company**), and the Company will bear the cost of such solicitation. Solicitation of proxies will be primarily by mail, although some of the officers, directors and employees of the Company may solicit proxies personally or by telephone. The Company has retained Georgeson Shareholder Communications Inc. (**GSC**) as its proxy solicitation agent, and has agreed to pay GSC a fee of \$7,000 plus out of pocket expenses. The Company also will reimburse brokerage houses and other custodians, nominees or fiduciaries for their expenses in sending proxy materials to their principals.

The person named as proxy was designated by the Board of Directors and is a director of the Company. All properly executed proxies will be voted (except to the extent that authority to vote has been withheld) and where a choice has been specified by the stockholder as provided in the proxy it will be voted in accordance with the specification so made. Proxies submitted without specification will be voted **FOR** the election as directors of the nominees proposed by the Board of Directors, **FOR** the approval of an Amendment to the Company's Restated Certificate of Incorporation to increase the authorized number of shares of Common Stock from 50,000,000 to 75,000,000 and **FOR** the ratification of Haskell & White LLP as the Company's independent auditors.

Any stockholder may revoke a proxy at any time before it is voted at the meeting by a proxy bearing a later date. A proxy may also be revoked by any stockholder by delivering written notice of revocation to the Secretary of the Company or by voting in person at the meeting.

This proxy statement and proxy are being mailed to stockholders of the Company on or about October 24, 2005. The mailing address of the executive offices of the Company is 15231 Barranca Parkway, Irvine, California 92618.

Voting at the Meeting

Only record holders of Common Stock of the Company at the close of business on October 17, 2005, will be entitled to notice of, and to vote at, the meeting. As of the record date, there were 32,774,958 shares of the Company's Common Stock outstanding. The presence at the meeting of a majority of the outstanding shares, in person or by proxy relating to any matter to be acted upon at the meeting, is necessary to constitute a

Edgar Filing: CORTEX PHARMACEUTICALS INC/DE/ - Form DEF 14A

quorum for the meeting. Each outstanding share is entitled to one vote on all matters, except as noted below. For purposes of the quorum and the discussion below regarding the vote necessary to take stockholder action, stockholders of record who are present at the meeting in person or by proxy and who vote for or against, abstain or withhold their vote from a matter, including broker non-votes,

are considered stockholders who are present and entitled to vote and count toward the quorum. As used herein, broker non-vote means the votes that are not cast on the matter in question by a broker with respect to shares because (i) the broker has not received voting instructions from the beneficial owner on such matter and (ii) such broker lacks discretionary voting authority to vote the shares on such matter. Brokers holding shares of record for beneficial owners generally are entitled to exercise their discretion to vote on all of the matters included in this proxy unless they receive other instructions from their customers. The effect of proxies marked withheld as to any director nominee or abstain as to a particular proposal and broker non-votes on proposals Nos. 1, 2 and 3 is discussed under each respective proposal.

PROPOSAL 1

ELECTION OF DIRECTORS

The persons named in the enclosed proxy will vote to elect the seven (7) proposed nominees named below unless contrary instructions are given in the proxy. The election of directors shall be by the affirmative vote of the holders of a plurality of the shares voting in person or by proxy at the meeting. Each director is to hold office until the next annual meeting and until his successor is elected and qualified.

The names and certain information concerning the persons nominated by the Board of Directors to become directors at the meeting are set forth below. Each of the proposed nominees currently serves as a member of the Board of Directors. **The Company's Board of Directors recommends that you vote FOR the election of each of the nominees named below.** It is intended that shares represented by the proxies will be voted FOR the election to the Board of Directors of the persons named below unless authority to vote for nominees has been withheld in the proxy. Broker non-votes and proxies marked withheld as to one or more of the nominees will result in the respective nominees receiving fewer votes. However, the number of votes otherwise received by the nominee will not be reduced by such action. Although each of the persons named below has consented to serve as a director if elected and the Board of Directors has no reason to believe that any of the nominees named below will be unable to serve as a director, if any nominee withdraws or otherwise becomes unavailable to serve, the persons named as proxies will vote for any substitute nominee designated by the Board of Directors.

Corporate Governance

The Board of Directors is committed to good business practices, transparency in financial reporting and the highest level of corporate governance. The Board of Directors previously implemented the following policies and procedures:

Independent Directors. A majority of members of the Board of Directors are independent directors, as that term is defined under Section 121A of the AMEX Company Guide. The Board has affirmatively determined that the following five directors are independent: Robert F. Allnut, Charles J. Casamento, Carl W. Cotman, Peter F. Drake and M. Ross Johnson.

Audit Committee. Each member of the Company's standing Audit Committee is an independent director under Section 121A of the AMEX Company Guide and as that term is used in Item 7(d)(3)(iv) of Schedule 14A under the Securities Exchange Act of 1934, as amended. The Company's Audit Committee is described in further detail below under the heading Board Committees.

Compensation Committee. Each member of the Company's standing Compensation Committee is an independent director under Section 121A of the AMEX Company Guide. The Company's Compensation Committee is described in further detail below under the heading Board Committees.

Nominating Process. The Company does not have a standing Nominating Committee or committee performing similar functions. Rather, all of the directors may participate in the selection of director nominees, subject to the approval of a majority of the independent directors on the Board of Directors, as such term is defined in Section 121A of the AMEX Company Guide. The Board of Directors of the Company believes that it is appropriate not to have a Nominating Committee because the selection of new directors is one of the most important responsibilities that it has to the Company's stockholders. As a result, all of the members of the Board of Directors believe that it is their responsibility to participate in the

selection of new directors. Accordingly, the Board of Directors has determined that the full Board of Directors shall perform the director nomination functions and the Board of Directors has adopted the procedures detailed below under the heading *Director Nomination Process* to outline the responsibilities and powers of, and to provide guidelines for, the Board of Directors when performing its nomination functions. The Board of Directors operates under these referenced guidelines, a copy of which was filed with the Company's proxy statement for the 2004 Annual Meeting of Stockholders, in lieu of a written charter.

Stockholder Communications. Stockholders may communicate with the Board of Directors, its Committees or any of the individual directors by sending written communications addressed to the Board of Directors, a Committee or any of the individual directors, c/o Chief Financial Officer, Cortex Pharmaceuticals, Inc., 15231 Barranca Parkway, Irvine, California 92618. All communications are compiled by the Chief Financial Officer and forwarded to the Board of Directors, Committee or the individual director(s) accordingly. The Chief Financial Officer will acknowledge receipt to the sender, unless the sender has submitted the communication anonymously.

Director Attendance at Annual Meeting of Stockholders. Directors are strongly encouraged to attend annual meetings of the Company's stockholders. Six of the Company's seven directors attended the Company's annual meeting in 2004.

Code of Ethics. In compliance with Section 406 of the Sarbanes-Oxley Act of 2002 and the AMEX corporate governance listing standards, the Company has adopted a Code of Business Conduct and Ethics, which covers all directors and employees, including its principal executive and financial officers. Any amendment or waiver to its Code of Business Conduct and Ethics that applies to its directors or executive officers will be posted on its website at www.cortexpharm.com or in a report filed with the Securities and Exchange Commission on Form 8-K. A copy of its Code of Business Conduct and Ethics is available free of charge upon written request to its Corporate Secretary at 15231 Barranca Parkway, Irvine, California 92618.

Indebtedness of Management. The Company complies with and will operate in a manner consistent with recently-enacted legislation outlawing extensions of credit in the form of a personal loan to or for its directors and executive officers.

Stock Ownership Policy for Directors and Executive Officers. To better align the interests of the Company's directors and Executive Officers with those of its stockholders, to create ownership focus and to build long-term commitment, the Company has adopted a common stock ownership policy for its directors and Executive Officers. The policy requires directors and Executive Officers to acquire and maintain ownership of at least 30,000 shares of the Company's common stock before December 16, 2007, or within three years of commencement of service as a director or Executive Officer, whichever is later. Thereafter, the policy provides for the withholding of fees in the case of directors, and the withholding of salary increases and bonus payments in the case of Executive Officers, until the share ownership level has been achieved by such director or Executive Officer.

Board Committees

Audit Committee. The Audit Committee meets with the Company's independent auditors and management to prepare for and to review the results of the annual audit and to discuss the annual and quarterly financial statements, earnings releases and related matters. The Audit Committee, among other

things, (i) selects and retains the independent auditors, (ii) reviews with the independent auditors the scope and anticipated cost of their audit, and their independence and performance, (iii) reviews accounting practices, financial structure and financial reporting, (iv) receives and considers the auditor's comments as to controls, adequacy of staff and management performance and procedures in connection with audit and financial controls, (v) reviews and pre-approves all audit and non-audit services provided to the Company by the independent auditors, and (vi) reviews and pre-approves all related-party transactions. In November 2004, the Company's Board of Directors approved a change in the Company's fiscal year end from a twelve-month period ending June 30 to a twelve-month period ending December 31. During the six months ended December 31, 2004 and through the date of this proxy statement, the Audit Committee consisted of Dr. Drake as Chairman of the Committee, Mr. Casamento and Dr. Johnson. Report of the Compensation Committee of the Board of Directors on Executive Compensation

The Company's compensation policies applicable to its executive officers are approved by the Compensation Committee of the Board of Directors. The Compensation Committee is currently made up of three non-employee directors, including Dr. M. Ross Johnson, Dr. Carl W. Cotman and Mr. Robert F. Allnutt.

The Company's executive compensation programs are designed to attract, motivate and retain the executive talent needed to optimize stockholder value. The programs are designed to enhance stockholder value by aligning the financial interests of the executive officers of the Company with those of its stockholders. A copy of the charter for the Compensation Committee was filed with the Company's proxy statement for the 2004 Annual Meeting of Stockholders. The following report on executive compensation is furnished by the Compensation Committee for the six months ended December 31, 2004.

General Compensation Policy

The Company's compensation policy is designed to attract and retain qualified key executives critical to the Company's success and to provide such executives with performance-based incentives tied to the achievement of Company milestones. One of the primary objectives is to have a substantial portion of each executive officer's total compensation contingent upon the Company's performance as well as upon the individual's contribution to the Company's success as measured by his or her personal performance. Accordingly, each executive officer's compensation package is comprised primarily of three elements: (i) base salary which reflects individual performance and expertise and is designed to be competitive with salary levels in the industry; (ii) variable performance awards payable in cash, stock or stock options and tied to the Company's achievement of certain goals; and (iii) long-term stock-based incentive awards that strengthen the mutuality of interests between the executive officers and the Company's stockholders.

Factors

The principal factors that the Compensation Committee considered in establishing the components of each executive officer's compensation package for the six months ended December 31, 2004 are summarized below. However, the Compensation Committee may in its discretion apply different factors, particularly different measures of financial performance, in setting executive compensation in future fiscal years.

Base Salary

The base salary levels for the executive officers were recommended by the Compensation Committee and established by the Board of Directors for the six months ended December 31, 2004 on the basis of the following factors: personal performance, the estimated salary levels in effect for similar positions (as defined by salary surveys comprising companies of similar size within the pharmaceutical/biotech fields with which the Company competes for executive talent), and internal comparability considerations. Although the Compensation Committee reviewed various compensation surveys, the Compensation Committee did not rely solely upon any specific survey for comparative compensation purposes. Instead, the Compensation Committee made its decisions as to the appropriate market level of base salary for each executive officer on the basis of its understanding of the salary levels in effect for similar positions at those companies with which the Company competes for executive talent.

Annual Incentive Compensation

The Compensation Committee, in consultation with the Chief Executive Officer (except where the Chief Executive Officer's compensation is being determined), may award annual incentives based upon performance targets to executive officers and other employees. The Compensation Committee may also award bonuses in cases where such performance targets are not met if it determines that the circumstances warrant such action. For the transitional six-month period ended December 31, 2004, the performance targets for the executive officers included securing an additional strategic alliance, completing a private placement of the Company's Common Stock and achieving progress milestones in clinical trials. The weight given to each factor varied from individual to individual. Additionally, each executive officer has a discretionary portion of the annual incentive linked to achievement of non-financial goals, which differ depending upon the responsibilities of the executive officer in question.

Long-term Incentive Compensation

The 1996 Stock Incentive Plan also provides the Compensation Committee with the ability to align the interests of the executive officer with those of the stockholders and provide each individual with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the business. The number of shares subject to each option grant is based upon the executive officer's tenure, level of responsibility and relative position in the Company. Stock options totaling 1,754,275 shares were granted to employees, non-employee directors and consultants during the transitional six-month period ended December 31, 2004, of which 1,000,000 were granted to the executive officers. The exercise price for the stock options is no less than the fair market value of the stock on the date of the grant. Options generally vest at a rate of 33 1/3% per year starting on the anniversary date of the option grant and are contingent upon the officer's continued employment with the Company. Accordingly, the option will provide a return to the executive officer only if he or she remains in the Company's employment and the market price of the Company's Common Stock appreciates over the option term.

CEO Compensation

The salary and performance bonus of Dr. Roger G. Stoll, the Company's Chief Executive Officer, is determined in accordance with Dr. Stoll's employment agreement with the Company (see Employment and Consulting Agreements, above).

Policy Regarding Section 162(m) of the Internal Revenue Code

The Compensation Committee has reviewed the Company's executive compensation plans to determine if revisions may be necessary due to provisions of Section 162(m) of the Internal Revenue Code, which generally disallows a tax deduction to public corporations for compensation paid to any of the Company's executive officers in excess of \$1,000,000 during any fiscal year. It is the current policy of the Compensation Committee to preserve, to the extent reasonably possible, the Company's ability to obtain a corporate tax deduction for compensation paid to executive officers of the Company to the extent consistent with the best interests of the Company and its stockholders.

Respectfully submitted,

M. Ross Johnson, Chairman
Robert F. Allnutt
Carl W. Cotman

Set forth below is a line graph comparing the cumulative stockholder return on the Company's Common Stock with the cumulative total return of The American Stock Exchange Composite Index and an industry peer group identified by the Company (the Peer Group Index). The Peer Group Index consists of Axonyx, Inc., Indevus Pharmaceuticals, Inc., Spectrum Pharmaceuticals, Inc., Neurobiological Technologies, Inc., StemCells, Inc. and Titan Pharmaceuticals, Inc. The Peer Group Index return consists of the weighted returns of each component issuer according to such issuer's respective stock market capitalization at the beginning of each period for which a return is indicated.

The graph assumes an investment of \$100 in the Company's Common Stock on January 1, 2000, and an investment in each of The American Stock Exchange Composite Index and the Peer Group Index of \$100 on January 1, 2000. The graph covers the period from January 1, 2000 to December 31, 2004.

The calculation of cumulative stockholder return for The American Stock Exchange Composite Index and the Peer Group Index includes the reinvestment of dividends. The calculation of cumulative stockholder return on the Company's Common Stock does not include reinvestment of dividends because the Company did not pay dividends on the Common Stock during the measurement period. The performance shown is not necessarily an indicator of future price performance.

Report of the Audit Committee of the Board of Directors

The Audit Committee has reviewed and discussed the audited financial statements of the Company for the transitional six-month period ended December 31, 2004 with management, including a discussion of the quality, not just the acceptability of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements. The Audit Committee also has discussed with Haskell & White LLP, the Company's independent auditors for the six months ended December 31, 2004, the matters required to be discussed by the Statement on Auditing Standards No. 61 (Communications with Audit Committee). Based on the Audit Committee's review of the matters noted above and its discussions with the Company's independent auditors and the Company's management, the Audit Committee recommended to the Board of Directors that the Company's financial statements be included in the Company's Transition Report on Form 10-K.

CERTAIN TRANSACTIONS

The Company's Restated Certificate of Incorporation provides that, pursuant to Delaware Law, directors of the Company shall not be liable for monetary damages for breach of the directors' fiduciary duty of care to the Company and its stockholders. This provision does not eliminate the duty of care, and in appropriate circumstances equitable remedies such as injunctions or other forms of non-monetary relief remain available under Delaware Law. In addition, each director will continue to be subject to liability for breach of the director's duty of loyalty to the Company, for acts or omissions not in good faith or involving intentional misconduct, for knowing violations of law, for actions leading to improper personal benefit to the director and for payment of dividends or approval of stock repurchases or redemptions that are unlawful under Delaware Law. The provision also does not affect a director's responsibility under any other law, such as the federal securities laws. The Company has entered into Indemnification Agreements with each of its officers and directors that obligate the Company to indemnify them as permitted by applicable law.

See Employment and Consulting Agreements for a description of certain arrangements and transactions with executive officers and directors.

PROPOSAL 2

AMENDMENT OF CERTIFICATE OF INCORPORATION TO INCREASE AUTHORIZED COMMON STOCK

The Board of Directors has unanimously approved a proposed amendment to the Company's Restated Certificate of Incorporation to increase the number of authorized shares of Common Stock of the Company from 50,000,000 to 75,000,000 and to increase the aggregate number of authorized shares of capital stock from 55,000,000 to 80,000,000, with no increase in the 5,000,000 authorized shares of Preferred Stock. If the amendment is approved by the stockholders, the text of paragraph (A)(1) of Article Fourth of the Company's Restated Certificate of Incorporation will be amended and restated to read in its entirety as follows:

FOURTH: (A)(1) - AUTHORIZED CAPITAL. The total number of shares of capital stock which the Company has the authority to issue is 80,000,000 consisting of 75,000,000 shares of Common Stock, \$0.001 par value per share (the Common Stock), and 5,000,000 shares of Preferred Stock, \$0.001 par value per share (the Preferred Stock).

As more fully set forth below, the proposed amendment is intended to improve the Company's flexibility in meeting its future needs for unreserved Common Stock. However, and while this is not the intent of the proposal, in addition to general corporate purposes, the proposed amendment can be used to make more difficult a change in control of the Company.

As of the close of business on September 30, 2005, the Company had 50,000,000 shares of Common Stock issued and reserved for issuance upon conversion of outstanding Series B Convertible Preferred Stock, under all warrant and option agreements, and for potential repayment of the Company's advance from the Institute for the Study of Aging, calculated as follows:

Shares issued and outstanding	32,763,122
Shares issuable upon conversion of outstanding shares of Series B Convertible Preferred Stock	3,679
Shares reserved for issuance under issued and outstanding warrants	10,457,972
Shares reserved for issuance under issued and outstanding options	6,215,057
Shares reserved for issuance under stock option plans	496,494
Shares reserved for potential repayment to The Institute for the Study of Aging	63,676
	50,000,000

After taking into consideration the above shares issued and reserved for issuance and assuming no increase in the number of authorized shares, the Company has no unreserved shares of Common Stock available to raise additional capital.

Reasons for the Amendment

From its inception, the Company generally has funded its operations through the issuance of Common Stock, securities convertible into its Common Stock, or through collaborative research and licensing agreements secured with larger pharmaceutical companies. While it continues to seek additional corporate alliances to fund the advanced development of its AMPAKINE technology, the Company believes that its ability to attract such alliances and the financial terms of such alliances will be improved if the Company further invests in the early development of its compounds before it secures such collaborative partners. Many of the past efforts to license the Company's technology have involved early stage compounds that the Company was unable to fully develop itself because of inadequate funds. The ability to negotiate a financially strong agreement was undermined by the need to license early stage technology in order to continue the operations of the Company. As a result, the Company was unable to obtain sufficient funds to continue to develop compounds that might have produced superior results and be more attractive licensing candidates. Corporate partnerships often involve the possibility of an equity investment as part of a licensing arrangement. In order to strengthen the Company's financial position and negotiate favorable agreements with other potential licensees, the Board of Directors strongly recommends that stockholders approve the proposal to increase the authorized number of shares of Common Stock.

The Board of Directors believes that the proposed increase in the number of authorized shares of Common Stock is essential to facilitate the Company's efforts to raise additional capital to fund its research and development of the AMPAKINE technology. Such shares could be used for either a private placement for increased funding or to help secure a licensing/development agreement with a larger pharmaceutical partner who may seek an equity arrangement as part of an agreement.

If the stockholders do not approve this proposal to increase the number of authorized shares, the Company will be severely limited in its ability to finance any further development of the AMPAKINE technology. Alternatively, the Company may be required to immediately hold a special stockholders meeting to seek approval to increase the authorized number of shares of Common Stock, which would cost the Company substantial additional expenditures, and may jeopardize any such transaction based on the resultant delays in obtaining such approval.

Moving forward, it is difficult for the Company to estimate its stock price and thus, the number of shares that may be issued to obtain any necessary funding, based on a number of uncertainties, which include, but are not limited to:

The uncertainty of future research and development costs associated with the Company's technology due to the number of unknowns and uncertainties associated with preclinical and clinical trial development, including, but not limited to, the uncertainties relating to (i) future clinical trial results, (ii) the number of patients to be treated in any clinical trial, and (iii) protocol changes and modifications in the design of the Company's clinical studies, each of which may increase or decrease its future expenses;

The uncertainty of future partnering or licensing revenue, including potential equity investments into the Company, whereby the Company would possibly issue stock directly to a strategic partner; and

The uncertainty of the Company's access to the capital markets and its cost of capital.

The increased number of authorized shares of Common Stock will be available for issue from time to time for such purposes and consideration as the Board of Directors may approve and no further vote of stockholders of the Company will be required, except as provided under Delaware law or under the rules of any national securities exchange or market on which shares of Common Stock of the Company are at the time listed. The availability of additional shares for issuance, without the delay and expense of obtaining the approval of stockholders at a special meeting, will afford the Company greater flexibility in acting upon proposed transactions.

The Company currently has no plans to issue any additional shares of Common Stock other than the shares that previously have been reserved for issuance as described above and other than replenishing 2,147,562 shares of Common Stock for issuance pursuant to authorized but unissued stock options to be granted under the Company's 1996 Stock Incentive Plan. In order to ensure that the Company had sufficient authorized shares of Common Stock to complete its private placement on December 14, 2004, the Board of Directors approved the reclassification of up to 1,400,000 shares of the Company's Common Stock that were reserved for issuance under the Company's 1996 Stock Incentive Plan. A total of 1,280,834 shares were reclassified to general authorized and unissued shares of the Company's Common Stock, with a corresponding reduction of 1,280,834 shares in the number of shares issuable under the Company's 1996 Stock Incentive Plan.

Additionally, the Company's 1996 Stock Incentive Plan provides that on the last day of each fiscal year of the Company, a number of shares equal to twenty percent (20%) of the increase in the number of shares of Common Stock outstanding since the last day of the previous fiscal year (except in the case of fiscal year ended June 30, 1997, in which case the added shares of Common Stock shall equal twenty percent (20%) of the increase in the number of shares of Common Stock outstanding since October 25, 1996) shall be added to the aggregate number of shares authorized for issuance under the 1996 Stock Incentive Plan. The shares reserved under the 1996 Stock Incentive Plan were not increased as of the last day of the transitional fiscal year ended December 31, 2004 given that there were no authorized shares of Common Stock available for such increase. If the proposal to increase the authorized shares of Common

Stock is approved, 866,728 shares of such approved increase would be used to replenish the reserved shares under the 1996 Stock Incentive Plan, representing twenty (20%) of the increase in the number of shares of Common Stock outstanding from June 30, 2004 to December 31, 2004.

The increase in authorized Common Stock will not have any immediate effect on the rights of existing stockholders. To the extent that additional authorized shares are issued in the future, they would decrease the existing stockholder's percentage equity ownership and, depending on the price at which they are issued, may be dilutive to existing stockholders. The additional shares of Common Stock for which authorization is sought would have identical rights, preferences and privileges to the shares of Common Stock of the Company authorized prior to approval of this proposal. Holders of Common Stock do not have preemptive rights to subscribe to additional securities that may be issued by the Company, which means that current stockholders do not have a prior right to purchase any new issue of capital stock of the Company in order to maintain their proportionate ownership thereof.

In February 2002, the Company adopted a Shareholder Rights Plan and declared a dividend distribution of one Right for each outstanding share of the Company's Common Stock to stockholders of record on the close of business on February 15, 2002. One Right also attaches to each share of Common Stock subsequently issued by the Company. In general, the Rights become exercisable or transferable only upon the occurrence of certain events related to changes in ownership of the Common Stock and would have the effect of substantially diluting the equity interest in the Company to a person's or group's ownership interest in the Common Stock that attempts to acquire the Company on terms not approved by the Company's Board of Directors.

The increase in the authorized Common Stock may facilitate certain other anti-takeover devices that may be advantageous to management if management attempts to prevent or delay a change of control. For example, the Board of Directors could cause additional shares to be issued to a holder or holders who might side with the Board of Directors in opposing a takeover bid. Additionally, the existence of such shares might have the effect of discouraging any attempt by a person or entity, through an acquisition of a substantial number of shares of Common Stock, to acquire control of the Company, since the issuance of such shares could dilute the Common Stock ownership of such person or entity. Employing such devices may adversely impact stockholders who desire a change in management or who desire to participate in a tender offer or other sale transaction involving the Company. At the present time, the Company is not aware of any contemplated mergers, tender offers or other plans by a third party to attempt to effect a change in control of the Company, and this proposal is not being made in response to any such attempts.

The Restated Certificate of Incorporation of the Company authorizes the issuance of 5,000,000 shares of Preferred Stock, of which 514,500 shares remain undesignated as of September 30, 2005. In 2002, the Board of Directors designated 35,000 shares of Preferred Stock as Series A Junior Participating Preferred Stock in connection with its adoption of the Shareholders Rights Plan (discussed above). The Board of Directors, within the limitations and restrictions contained in the Restated Certificate of Incorporation, applicable law and stock exchange regulations, and without further action by the Company's stockholders, has the authority to issue the remaining undesignated Preferred Stock with rights that could, under certain circumstances, have the effect of delaying or preventing a change in control of the Company.

The Company is also governed by Section 203 of the Delaware General Corporation Law (the "Delaware anti-takeover law"), which provides that certain "business combinations" between a Delaware corporation whose stock is generally traded or held of record by more than 2,000 stockholders, such as the Company, and an "interested stockholder" (generally defined as a stockholder who beneficially owns 15% or more of a Delaware corporation's voting stock) are prohibited for a three-year period following the date

that such stockholder became an interested stockholder, unless certain exceptions apply. The term business combination is defined generally to include, among other transactions, mergers, tender offers and transactions which increase an interested stockholder's percentage ownership of stock in a Delaware corporation.

While it may be deemed to have potential anti-takeover effects, the proposed amendment to increase the authorized Common Stock is not proposed for such reason or prompted by any specific effort or takeover threat currently perceived by the Board of Directors. Moreover, the Board of Directors does not currently intend to propose additional anti-takeover measures in the foreseeable future.

Vote Required; Board of Directors Recommendation

The affirmative vote of the holders of a majority of the outstanding shares of Common Stock of the Company is required to authorize the proposed increase in the authorized number of shares of Common Stock. Both abstentions and broker non-votes are not affirmative votes and, therefore, will have the same effect as votes against this proposal 2.

The Board of Directors unanimously recommends that you vote FOR the proposal to amend the Restated Certificate of Incorporation to increase the authorized number of shares of Common Stock from 50,000,000 to 75,000,000. Proxies solicited by management for which no specific direction is included will be voted FOR the proposal unless a vote against the proposal or abstention is specifically indicated.

Board of Directors Reservation of Rights

The Board of Directors retains the authority to take or to authorize discretionary actions as may be appropriate in order to carry out the purposes and intentions of this proposal 2, including, without limitation, editorial modifications or any other change to the proposed amendment to the Restated Certificate of Incorporation which the Board of Directors may adopt without stockholder vote in accordance with Delaware General Corporation Law.

No Dissenters Rights

Under Delaware law, stockholders are not entitled to dissenters' rights of appraisal with respect to this proposal 2.

PROPOSAL 3

RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

The Audit Committee has selected Haskell & White LLP, independent auditors, to audit the financial statements of the Company for the fiscal year ending December 31, 2005. In determining whether the proposal has been approved, abstentions will be counted as votes against the proposal and broker non-votes will not be counted as votes for or against the proposal or as votes present and voting on the proposal. If this proposal is not approved, the Audit Committee shall reconsider its selection and submit its recommendation to the Board of Directors.

Haskell & White LLP was engaged by the Audit Committee effective following the filing of the Company's quarterly report on Form 10-Q for the quarter ended September 30, 2004. Haskell & White LLP audited the financial statements of the Company for the period ended December 31, 2004. A representative of Haskell & White is expected to be present by teleconference at the meeting and will be available to respond to appropriate questions. The representative will also have an opportunity to make a statement if he or she desires to do so. Ernst & Young LLP audited the Company's financial statements for the prior fiscal year ended June 30, 2004. Its representatives are not expected to be present at the meeting.

The Company's Board of Directors recommends that you vote FOR the ratification of Haskell & White LLP as its independent auditors for the fiscal year ending December 31, 2005. Proxies solicited by management for which no specific direction is included will be voted FOR the ratification of Haskell & White LLP as the Company's independent auditors for the fiscal year ending December 31, 2005.

Change in Independent Auditors

The Company's financial statements for the years ended June 30, 2004 and 2003, respectively, were audited by Ernst & Young LLP, independent auditors. The Audit Committee dismissed Ernst & Young LLP and engaged Haskell & White LLP as its independent auditors, to be prospectively effective immediately following the filing of the Company's quarterly report on Form 10-Q for September 30, 2004. The decision to change accountants was recommended and approved by the Audit Committee in an effort to engage a firm more commensurate with the Company's size, scope and service needs in the current accounting environment, including the increased audit requirements imposed by the Sarbanes-Oxley Act of 2002, while maintaining cost-effectiveness for the Company. The reports of Ernst & Young LLP for the years ended June 30, 2004 and 2003, respectively, contained no adverse opinions, disclaimer of opinion or qualification or modification as to uncertainty, audit scope or accounting principles, except that Ernst & Young LLP's report on the Company's financial statements for the fiscal year ended June 30, 2003 contained an explanatory note relating to the Company's change in its revenue recognition policy.

During the fiscal years ended June 30, 2004 and 2003, and the subsequent interim period prior to engaging Haskell & White LLP, there were no disagreements between the Company and Ernst & Young LLP on any accounting principles or practices, financial statement disclosure or auditing scope or procedure, which, if not resolved to the satisfaction of Ernst & Young LLP, would have caused it to make reference to the subject matter of the disagreement in connection with its reports. There were no reportable events as that term is defined in Item 304(a)(1)(v) of Regulation S-K.

Neither the Company, nor anyone else acting on its behalf, consulted with Haskell & White LLP during the Company's fiscal years ended June 30, 2004 or 2003, or the subsequent interim period prior to engaging Haskell & White LLP, with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's financial statements, or any other matters or events set forth in Item 304(a)(2)(i) and (ii) of Regulation S-K.

Audit Fees

The aggregate fees of Haskell & White LLP, the Company's independent auditors, for audit services totaled approximately \$13,000 for the six months ended December 31, 2004, and primarily included fees for interim procedures performed in connection with the audit of the transitional six-month period ended December 31, 2004. The aggregate fees of Ernst & Young LLP, the Company's former independent auditors, for audit services totaled approximately \$88,700 for the fiscal year ended June 30, 2004 and approximately \$87,200 for the fiscal year ended June 30, 2003, including fees associated with the annual audit and the reviews of the Company's quarterly reports on Form 10-Q. For the fiscal year ended June 30, 2004, aggregate fees included amounts for services related to the Company's registration statements filed in connection with its private placements of common stock. For the fiscal year ended June 30, 2003, aggregate fees included amounts for statutory audits required in connection with the Company's Small Business Innovative Research grants from the National Institutes of Health.

Audit-Related Fees

Haskell & White LLP did not provide, did not bill and was not paid any fees for the six months ended December 31, 2004 for audit-related services. Similarly, Ernst & Young LLP did not provide, did not bill and was not paid any fees in the fiscal year ended June 30, 2004 or 2003 for audit-related services.

Tax Fees

Haskell & White LLP did not provide, did not bill and was not paid any fees for tax services during the six months ended December 31, 2004. Fees for tax services provided by Ernst & Young LLP, including tax compliance, tax advice and tax planning totaled approximately \$14,100 in the fiscal year ended June 30, 2004 and \$14,300 in the fiscal year ended June 30, 2003.

All Other Fees

There were no other fees for services provided by Haskell & White LLP for the six months ended December 31, 2004. Additionally, there were no other fees for services provided by Ernst & Young LLP for either the fiscal year ended June 30, 2004 or 2003.

All of the services described under headings **Audit-Related Fees**, **Tax Fees** and **All Other Fees** above were pre-approved by the audit committee.

The Audit Committee has determined that the provision of services, in addition to audit services, rendered by Haskell & White LLP and the fees paid therefor for the six months ended December 31, 2004 were compatible with maintaining Haskell & White LLP's independence.

Policy on Audit Committee Pre-Approval of Audit Services and Permissible Non-Audit Services of Independent Auditors

The Audit Committee's policy is to pre-approve all audit and permissible non-audit services performed by the independent auditors. These services may include audit services, audit-related services, tax services and other services. For audit services, the independent auditor provides the Audit Committee with an audit plan including proposed fees in advance of the annual audit. The Audit Committee approves the plan and fees for the audit.

For non-audit services, the Company's senior management will submit from time to time to the Audit Committee for approval non-audit services that it recommends the Audit Committee engage the independent auditor to provide during the fiscal year. The Company's senior management and the independent auditor will each confirm to the Audit Committee that each non-audit service is permissible under all applicable legal requirements. A budget, estimating non-audit service spending for the fiscal year, will be provided to the Audit Committee along with the request. The Audit Committee must approve both permissible non-audit services and the budget for such services.

STOCKHOLDER PROPOSALS

Any stockholder desiring to submit a proposal for action at the 2006 Annual Meeting of Stockholders and presentation in the Company's proxy statement with respect to such meeting should arrange for such proposal to be delivered to the Company's offices, 15231 Barranca Parkway, Irvine, California 92618, addressed to the Secretary, no later than June 23, 2006 in order to be considered for inclusion in the Company's proxy statement relating to the meeting. Matters pertaining to such proposals, including the number and length thereof, eligibility of persons entitled to have such proposals included and other aspects are regulated by the Securities Exchange Act of 1934, Rules and Regulations of the Securities and Exchange Commission and other laws and regulations to which interested persons should refer.

Additionally, under Rule 14a-4, as promulgated under the Securities and Exchange Act of 1934, as amended, if a stockholder fails to notify the Company of a proposal at least 45 days prior to the month and day of mailing of the prior year's proxy statement, then the Company will be allowed to use its discretionary voting authority when the proposal is raised at the meeting, without any discussion of the matter in the proxy statement. With respect to the Company's 2006 Annual Meeting of Stockholders, a stockholder proposal not previously submitted for the Company's proxy statement may be submitted until September 6, 2006; thereafter, the Company will use its voting authority as described above.

Notwithstanding the foregoing deadlines, in the event that the Company holds its 2006 Annual Meeting of Stockholders in late April or May 2006 (as opposed to December 2006), as is currently anticipated, the Company will provide notice of the revised deadlines in accordance with the rules and regulations of the Securities and Exchange Commission.

SECTION 16(a) BENEFICIAL

OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and executive officers and persons who own more than ten percent of a registered class of the Company's equity securities to file with the Securities and Exchange Commission (the "SEC") initial reports of ownership and reports of changes in ownership of Common Stock and other equity securities of the Company. Officers, directors and ten-percent stockholders are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file. To the Company's knowledge, based solely on the review of copies of such reports furnished to the Company and written representations that no other reports were required, during the six months ended December 31, 2004, all of the Company's officers, directors and ten-percent stockholders complied with all applicable Section 16(a) filing requirements.

TRANSACTION OF OTHER BUSINESS

As of the date of this proxy statement, the Board of Directors is not aware of any matters other than those set forth herein and in the Notice of Annual Meeting of Stockholders that will come before the meeting. Should any other matters arise requiring the vote of stockholders, it is intended that proxies will be voted in respect thereto in accordance with the best judgment of the person or persons voting the proxies.

Please return your proxy as soon as possible. Unless a quorum consisting of a majority of the outstanding shares entitled to vote is represented at the meeting, no business can be transacted. Therefore, **please be sure to date and sign your proxy exactly as your name appears on your stock certificate and return it in the enclosed postage prepaid return envelope. Please act promptly to ensure that you will be represented at this important meeting.**

THE COMPANY WILL PROVIDE WITHOUT CHARGE, AT THE WRITTEN REQUEST OF ANY BENEFICIAL OWNER OF SHARES ENTITLED TO VOTE AT THE ANNUAL MEETING OF STOCKHOLDERS, A COPY (WITHOUT EXHIBITS) OF THE COMPANY'S TRANSITION REPORT ON FORM 10-K AS FILED WITH THE SECURITIES AND EXCHANGE COMMISSION FOR THE SIX MONTHS ENDED DECEMBER 31, 2004.
