Mitsui & Co., Ltd.

For Immediate Release

To Whom It May Concern

Mitsui acquires 50% stake in Gulf of Mexico Assets from Pogo Producing Company

Mitsui & Co., Ltd. (Mitsui) announced today that Mitsui and Mitsui Oil Exploration Co., Ltd., (MOECO), in which Mitsui currently holds a 47.35% stake, have entered into a definitive agreement with Pogo Producing Company (Pogo) to acquire an undivided 50% share of Pogo's oil and gas leasehold interests in offshore Gulf of Mexico. The agreement was signed between Pogo and MitEnergy Upstream LLC, a vehicle newly established in the U.S.A. by three parties; Mitsui (35%), Mitsui & Co. (U.S.A.) Inc. (35%) and MOECO (30%). The closing of the transaction is subject to the satisfaction of customary conditions precedent including the approval by U.S. governmental authorities.

While a number of blocks require confirmations from existing asset holders who hold preferential purchase options, there is a total of 85 blocks available for acquisition, with approximately 24 million barrels of oil equivalent estimated proven oil and gas reserves, and the purchase price will amount to approximately US\$500 million (as of the effective date January 1, 2006). More than half of these 85 blocks are currently producing oil and gas, with an expected approximate daily production capacity of up to 12,000 barrels of oil equivalent from those developed blocks, and a relatively short payback period is expected. Additionally, further development and exploration is planned in order to maintain and increase production.

Mitsui has been actively engaged in oil and gas exploration, development and production activities in Oceania, Middle East and Southeast Asia. This is the first time for Mitsui to acquire significant oil and gas interests in the United States, which is the biggest oil and gas market in the world, and the acquisition is positioned as the foothold to further enhance Mitsui's oil and gas business activities in the United States.
