**CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS**

The disclosure in this Quarterly Report on Form 10-Q (this **Quarterly Report**) contains forward looking statements intended to qualify for the safe harbor contained in Section 27A of the Securities Act of 1933, as amended (the **Securities Act**), and Section 21E of the Securities Exchange Act of 1934, as amended (the **Exchange Act**). Forward-looking statements give our current expectations or forecasts of future events. You can identify these statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as anticipate, estimate, expect, project, intend, plan, seek, believe and other words and terms of similar meaning in connection with a discussion of future operating or financial performance. Examples of forward-looking statements in this Quarterly Report include: (a) the Company's expectations about the seasonality of its tax credit equity and tax exempt bond origination businesses, (b) the Company's expectations as to the extension and/or renewal of certain of its credit facilities, (c) the Company's expectation about the funding sources for the payment of the deferred consideration and the funding sources and amount of the contingent consideration for the acquisition of Glaser Financial Group, Inc., (d) the Company's expectations as to its short- and long-term financing needs and potential sources and (e) the Company's expectation about its interest rate swap transactions.

Any or all of our forward-looking statements in this Quarterly Report may turn out to be wrong. They can be affected by inaccurate assumptions we might make or by known or unknown risks and uncertainties. Many factors mentioned in our discussion in this Quarterly Report will be important in determining future results. Consequently, no forward-looking statement can be guaranteed. Actual future results may vary materially. Factors that may cause our plans, expectations, future financial condition and results to change include, but are not limited to:

changes in demographic, general economic and business conditions, both nationally and in the regions in which we operate;

the performance of the real estate market, generally, and the multifamily housing market specifically;

the availability of capital resources, either due to macroeconomic or company-specific factors;

changes in tax laws or other regulatory systems affecting us or our operations or our failure to comply with applicable tax laws; and

other risk factors described in our current, including our annual report on Form 10-K for the year ended December 31, 2005 (the **2005 Annual Report**), and periodic filings with the Securities and Exchange Commission (the **SEC**) pursuant to the Exchange Act.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

*(unaudited)*

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of presentation**

The consolidated financial statements include the accounts of Municipal Mortgage & Equity, LLC, its wholly owned subsidiaries and its partially owned subsidiaries ( **MuniMae**, **we** or **us**, or **Company** ) in which we have a majority voting interest and control. We also consolidate variable interest entities ( **VIEs** ) of which we are the primary beneficiary. We account for investments in other ventures using the equity method. All significant intercompany balances and transactions have been eliminated.

The accompanying unaudited consolidated financial statements include all adjustments which are necessary, in the opinion of management, to fairly present our financial position and results of operations. All such adjustments are of a normal recurring nature. The statements have been prepared using the accounting policies described in our annual report on Form 10-K for the year ended December 31, 2005 (the **2005 Annual Report** ). Amounts included for the three months ended March 31, 2005 and as of December 31, 2005 are restated as set forth in our 2005 Annual Report. Certain other 2005 amounts have been reclassified to conform to the 2006 presentation with no effect on net income or shareholders' equity.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ( **GAAP** ) requires management to make estimates and judgments that affect the reported amounts of assets and liabilities and disclosures of contingencies at the date of the financial statements and revenues and expenses recognized during the reporting period. We use significant estimates in our determinations of the fair values of our investments in bonds, derivative financial instruments and guarantees because limited markets exist for these items. The estimates are based on assumptions and matters of judgment and therefore cannot be determined with precision. We also use significant estimates and judgments in the evaluation of impairments of assets and the allocation of the costs of business acquisitions. Actual values and results could differ from these and other estimates.

Tabular dollars are in thousands, except per share amounts, unless otherwise noted.

**Tax-exempt bonds, taxable bonds, interests in bond securitizations and loans**

Bonds are accounted for as available-for-sale debt securities and are carried at their estimated fair values. Unrealized gains and losses are recorded as a component of other comprehensive income and realized gains and losses and other-than-temporary impairments are recorded in net income. The fair values of most bonds and interests in bond securitizations are based on quotes from brokers or other external sources. We determine the fair values of bonds that participate in the net cash flows or the net capital appreciation of the underlying collateral property and/or that are wholly collateral dependent and for which a limited market exists, based on discounted cash flow analyses using appropriate discount and capitalization rates. If the fair value of an available-for-sale security is less than its amortized cost and events and circumstances indicate the decline in value is other-than-temporary, an impairment loss is recognized.

Loans receivable are carried at amortized cost net of valuation allowances. When we believe it is probable that we will not collect all amounts due under the terms of the loan, we record a valuation allowance. Loans held for sale are carried at the lower of cost or market and are typically held for less than three months.

Interest income on bonds and loans receivable is recognized using a constant effective yield over the contractual term of each investment. Purchased premiums and discounts, fees and direct loan origination costs are included in the determination of the effective yield of each investment. We recognize participating interest income when received on bonds with participation features. We place investments on non-accrual status when collection of interest is in doubt, which is usually after 90 days of non-payment. Interest payments subsequently received are applied first to accrued interest until such balance is zero. Investments return to accrual status only after all past due interest has been received, and there is no concern related to the collectibility of all principal and interest.

**Consolidated tax credit equity funds**

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

We consolidate certain of our tax credit equity funds under the following circumstances:

When we guarantee the stream of tax credits to fund investors, we have continuing involvement with the fund and are deemed to have effective control over its assets. As a result, the proceeds from the sale of assets to these funds and any guarantee fees are deferred and reflected as a guarantee liability on our balance sheet. These fees are recognized ratably over the guarantee period using the lease method. If certain performance thresholds of the funds are achieved and our guarantee obligation has been satisfied, the fund is deconsolidated and a gain is recognized based on the difference between the carrying values of the fund assets and our guarantee liability.

## **Table of Contents**

When the fund is considered a VIE and where we have determined we are the primary beneficiary, which is usually during the subscription phase of the fund in which there are multiple investors.

### **Mortgage servicing rights**

When we sell a loan to a third party and retain the right to service the loan, we allocate the carrying amount of the loan between the mortgage servicing right and the loan based on their relative fair values. We record a gain on sale of the loan based on sale proceeds (net of any retained recourse obligation) less the allocated carrying value of the loan. The carrying amount of the retained mortgage servicing right is amortized in proportion to and over the period of estimated net servicing income. Mortgage servicing fees are recognized as income when earned and received. We evaluate mortgage servicing rights for impairment based on their estimated fair values, and if we determine that an impairment exists, we reduce the carrying amount through a valuation allowance.

### **Goodwill and other intangible assets**

We test goodwill and indefinite lived intangible assets for impairment annually or more often if circumstances indicate there may be a reason to believe impairment has occurred. Impairment losses are included in net income in the period of determination. Intangible assets with definite lives are amortized over the estimated useful lives using the straight-line method.

### **Derivative financial instruments**

We use derivative financial instruments to reduce our risk associated with movements in interest rates (interest rate swaps) or as a means to finance certain investments (total return swaps). We also use derivative financial instruments in the ordinary course of our mortgage banking business (forward loan commitments) and to provide credit enhancement on other investments (put options and guarantees). We carry our derivative financial instruments at fair value and have not designated them as hedges. Accordingly, changes in fair values are recorded in net income as they occur.

### **Revenue recognition**

We earn fee income from a variety of services, which are summarized below:

Syndication fees are recognized ratably as tax credit equity funds invest in operating partnerships that own and operate affordable housing projects.

Brokerage fees are recognized when earned upon the closing of the arranged transactions.

Guarantee fees are recognized ratably over the guarantee period.

Asset management and advisory fees are recognized when we have performed the required services, the amount we will receive is determinable and collection is reasonably assured.

Loan servicing fees are recognized as income when received.

### **Stock based compensation**

On January 1, 2006, we adopted Statement of Financial Accounting Standards ( **SFAS** ) No. 123R, Share-Based Payment ( **FAS 123R** ), a revision of SFAS No. 123, Accounting for Stock-Based Compensation, under the modified prospective method. FAS 123R requires us to expense grants made under share option and employee share purchase plan programs in our consolidated statements of net income. The cost will be recognized over the vesting period of the applicable share option or other share-based payment. The adoption of FAS 123R did not have a material impact to our share options since substantially all of our options were vested at the adoption date. As of March 31, 2006 and December 31, 2005, total compensation cost related to nonvested awards not yet recognized was \$5.9 million and \$4.6 million, respectively. The weighted-average period

over which compensation cost on nonvested awards is expected to be recognized was 18.5 months as of March 31, 2006.

**Table of Contents**

The following is a summary of the activity and weighted-average grant-date fair value related to our unvested deferred shares for the three months ended March 31, 2006:

	Number of shares	Weighted- average grant date fair value
Unvested shares at January 1, 2006	287	\$ 24.62

The unrealized losses on the bonds or interests in bond securitizations in the above table were caused primarily by declines in credit quality of the borrowers on specific bonds. All of the bonds are collateralized by operating real estate projects and we expect that they will not be settled at a price less than amortized cost, which for some bonds, has been previously reduced for other-than-temporary impairments. We performed reviews of the properties collateralizing each bond and concluded that it was probable that we will receive all amounts due. Because we have the ability and intent to hold these bonds or interests in bond securitizations until the expected recovery of fair value, which may be at maturity, we do not consider the bonds or interests in bond securitizations to be other-than-temporarily impaired at March 31, 2006.

**Table of Contents****Covenant Compliance**

Under the terms of our various credit facilities, we are required to comply with financial covenants including net worth, interest coverage, leverage, liquidity, collateral and other terms and conditions.

As of March 31, 2006, we were in compliance with our financial covenants.

**NOTE 7 SEGMENT INFORMATION**

Effective January 1, 2006, we reorganized our operations to: (1) better serve our customers; (2) increase our market share in existing businesses; and (3) identify new business opportunities. Accordingly, the business segments have been revised to reflect this new structure. We conduct our business activities primarily through three business segments:

Through our affordable housing finance segment, which we operate under the trade name of MMA Financial, we (1) invest in tax-exempt bonds and bond securitizations; (2) make construction, supplemental and permanent loans; and (3) provide tax credit equity syndication and asset management services and (4) originate, sell and service mortgage loans collateralized by affordable housing projects.

Through our other real estate finance segment, which we operate under the trade name of MMA Realty Capital, we (1) provide loan servicing and investment management services; (2) invest in other types of real estate and real estate loans, including loans held by investment funds that we manage through investments in partnerships and funds; (3) originate, sell and service mortgage loans, primarily to government sponsored enterprises ( **GSEs** ), such as the Federal National Mortgage Association ( **Fannie Mae** ), the Federal Home Loan Mortgage Corporation ( **Freddie Mac** ) and the Government National Mortgage Association ( **Ginnie Mae** ) or agencies such as the Federal Housing Administration ( **FHA** ) and the U.S. Department of Housing and Urban Development ( **HUD** ); (4) invest in community development district bonds; and (5) originate, sell and service mortgage loans collateralized by other real estate projects.

Through our new business segment, we develop new products, expand existing product types and investor relationships and leverage our expertise into new areas.

Segment results reflect the segment earnings measure reviewed by our chief operating decision maker.

The following tables reflect the results of our business segments for the three month periods ended and as of March 31, 2006 and 2005:

<b>Total consolidated income</b>	<b>\$ 70,940</b>	<b>\$ 62,096</b>

Below is a reconciliation of total segment results to consolidated net income for the three month periods ended March 31, 2006 and 2005:

	March 31,	
	2006	2005
<b>Total segment results</b>	\$ 19,618	\$ 22,994

Adjustments for investments in partnerships	(3,375)	(1,735)
<b>Net income</b>	<b>\$ 324</b>	<b>\$ 7,707</b>

Total segment revenues and segment results differ from total consolidated income and net income because they:

include origination, syndication and guarantee fees and other revenues that are deferred or eliminated in the calculation of revenues and net income under GAAP;

include distributions received from our equity method investments rather than our share of net earnings (loss) of the underlying partnerships;

exclude certain indirect operating expenses, certain interest expenses and certain non-cash items including unrealized gains or losses related to derivatives, amortization of intangible assets, non-cash gains and losses associated with sales of loans, certain valuation allowances and impairment losses, changes in accounting principle, deferred income taxes and deferred compensation expense; and

adjust for differences in carrying bases for investments that are sold.

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

During the first quarter 2006 and 2005, we recognized approximately \$0.9 million and \$(0.04) million respectively, of net tax effects associated with the exercise of employee stock options and vesting of deferred shares. These tax effects were added directly to shareholders' equity, and are not reflected in income tax expense on the income statement.

We had a net deferred tax liability of \$2.2 million and \$9.8 million at March 31, 2006 and December 31, 2005, respectively.

**Table of Contents****NOTE 11 REORGANIZATION OF OPERATIONS**

During the fourth quarter of 2005, we adopted a plan to reorganize our operations and recorded a charge to operations of approximately \$5.2 million, consisting primarily of employee termination benefits. As of March 31, 2006, approximately \$0.5 million of these costs remain unpaid.

**NOTE 12 EARNINGS PER SHARE**

The following table reconciles the numerators and denominators in the basic and diluted earnings per share ( **EPS** ) calculations for common shares for the three month periods ended March 31, 2006 and 2005. The effect of potentially dilutive securities are included in the calculation only when dilutive. The computation of diluted EPS for the period ended March 31, 2006 excluded 472,056 deferred shares, as they were anti-dilutive.

**NOTE 13 RELATED PARTY TRANSACTIONS AND TRANSACTIONS WITH AFFILIATES AND NON-PROFIT ENTITIES**

MuniMae Affordable Housing, Inc. ( **MMAH** ) and MuniMae Foundation, Inc. ( **MMF** ) are affiliated non-profit entities organized to promote affordable housing. During June 2005, certain developers for projects being financed by us encountered substantial financial difficulties as a result of, among other problems, inadequate management and supervision of the development of their projects, which included ten affected properties (the **2005 Assets** ). As a result of negotiations with these developers, these developers were required to transfer their interests in the 2005 Assets to MMAH or MMF. For additional background information regarding the 2005 Assets, see Note 18 to our consolidated financial statements in our 2005 Annual Report. As of March 31, 2006, the total carrying value of our investments in the 2005 Assets was \$38.1 million.

Through March 31, 2006, we have provided additional financing of \$3.7 million to certain of the 2005 Assets. We continue to evaluate impairment risk related to all of the 2005 Assets as it relates to us. As of March 31, 2006, two of the tax-exempt bonds related to the 2005 Assets were temporarily impaired by \$0.6 million and were carried at fair values below amortized cost through a charge to other comprehensive income.

During December 2005, we recorded an other-than-temporary impairment loss of \$2.6 million related to a tax-exempt bond with an amortized cost of approximately \$8.4 million and collateralized by one of the 2005 Assets. In January 2006, we exercised our rights as a bondholder and foreclosed on the underlying project. At the time of foreclosure, the project was sold, and the sale proceeds of \$5.8 million were used to redeem the tax-exempt bond, which resulted in no gain or loss.

We did not record any charges to impairments and valuation allowances related to the 2005 Assets during the three months ended March 31, 2006.

**Table of Contents****NOTE 14 COMMITMENTS AND CONTINGENCIES**

The following table summarizes our material commitments and contingencies not set forth on the balance sheet as of March 31, 2006 and December 31, 2005:

<i>(in millions)</i>	<b>March 31, 2006</b>	<b>December 31, 2005</b>
Outstanding letters of credit(1)	\$ 137.9	\$ 136.2
Unfunded loan commitments	363.5	347.9
Unfunded equity commitments(2)	841.4	1,193.0

- (1) In February 2006, we entered into a \$30.0 million letter of credit facility with Bank of America. The letter of credit supports a securitization program previously collateralized with restricted cash of \$17.0 million. \$1.5 million of restricted cash will remain as collateral. The facility maturity date is February 23, 2007.
- (2) Approximately \$458.9 million and \$772.0 million as of March 31, 2006 and December 31, 2005, respectively, related to equity commitments of our consolidated tax credit equity funds.

*Litigation*

We and certain of our subsidiaries are defendants in various litigation matters arising in the ordinary course of business, some of which involve claims for damages that are substantial in amount. Some of these litigation matters are covered by insurance. We record provisions for litigation matters and other claims when we believe a loss is probable and can be reasonably estimated. We continuously monitor these claims and adjust recorded liabilities as developments warrant. We further believe that any losses we may suffer for litigation and other claims in excess of the recorded aggregate liabilities are not material. Accordingly, in our opinion, adequate provision has been made for losses with respect to litigation matters and other claims, and the ultimate resolution of these matters is not likely to have a material effect on our consolidated financial position or results of operations. Our assessment of the potential outcomes of these matters involves significant judgment and is subject to change based on future developments.

**NOTE 15 SUBSEQUENT EVENTS***MMA Renewable Ventures*

In May 2006, we acquired Renewable Ventures LLC, a third-party financier and operator of renewable energy generation facilities for approximately \$3.0 million, including approximately \$0.6 million of common shares. Renamed as MMA Renewable Ventures, it is intended to provide third-party financing solutions for the creation of renewable energy facilities throughout North America. MMA Renewable Ventures will focus initially on investments in solar energy, but will also consider opportunities in other renewable energy technologies and markets, including wind, biofuels, biomass, biogas, and geothermal energy generation. MMA Renewable Ventures will be a part of our new business segment.

*Repurchase Facility*

In May 2006, we entered into a Multifamily and Health Care Mortgage Loan Repurchase Agreement ( **Repurchase Facility** ) with Washington Mutual Bank ( **Bank** ). The Repurchase Facility provides for the Bank to purchase up to \$125.0 million of certain qualifying mortgage loans from us, on a service retained basis, subject to our obligation to repurchase the mortgage loans from the Bank and the other terms and conditions of the Repurchase Facility. These mortgage loans will generally be subject to a commitment by a takeout investor to acquire such loans from us on or before a specified delivery date, and, in any event, will be repurchased by us from the Bank within 90 days of their acquisition by the Bank. The Repurchase Facility terminates on February 1, 2008 or, at the option of the Bank after the giving of 30 days notice, on May 31, 2007.

*Warehousing Facility*

In May 2006, we entered into a Warehousing Credit and Security Agreement ( **Warehousing Facility** ) with the Bank. The Warehousing Facility provides revolving loans to finance specified types of mortgage loans in an amount of up to \$70.0 million. The Warehousing Facility will terminate on April 1, 2008, or, at the option of the Bank, on May 31, 2007. Loans under the Warehousing Facility bear interest at a fixed rate and/or the one month LIBOR plus a spread depending on the balance of non-interest bearing deposit accounts maintained at the Bank.

*Mortgage Asset Purchase Agreement*

In June 2006, we entered into a Mortgage Asset Purchase Agreement and other ancillary agreements ( **Purchase Agreement** ) with Wachovia Bank, National Association ( **Wachovia** ). The Purchase Agreement provides for Wachovia to purchase up to \$260.0 million of certain qualifying mortgage loans from us, subject to our obligation to repurchase such mortgage loan assets from Wachovia and the other terms and conditions of the Purchase Agreement. These mortgage loans will be repurchased by us from Wachovia by September 13, 2006, at which time the facility expires.

### **Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition.**

#### **General Overview**

Municipal Mortgage & Equity, LLC ( **MuniMae**, **we**, **us**, or **Company** ), headquartered in Baltimore, Maryland, is a diversified real estate finance company that arranges debt and equity financing for developers and owners of real estate and clean energy projects and provides investment management and advisory services for institutional investors. For additional information regarding our structure and segments, see Note 7 Segment Information, in the notes to our consolidated financial statements.

Tabular dollars are in thousands, except per share amounts, unless otherwise noted.

#### **Critical Accounting Policies and Related Estimates**

Critical accounting estimates are those that are both important to the presentation of our financial condition and results of operations and require management's most difficult, complex or subjective judgments. We applied our critical accounting policies and estimation methods consistently in all periods presented and have discussed these policies with our Audit Committee. There have been no changes to our critical accounting policies as disclosed in our annual report on Form 10-K for the year ended December 31, 2005 (the **2005 Annual Report** ).

#### **Recent Events**

##### *MMA Renewable Ventures*

In May 2006, we acquired Renewable Ventures LLC, a third-party financier and operator of renewable energy generation facilities for approximately \$3.0 million, including \$0.6 million of common shares. Renamed as MMA Renewable Ventures, it is intended to provide third-party finance solutions for the creation of renewable energy facilities throughout North America. MMA Renewable Ventures will focus initially on investments in solar energy, but will also consider opportunities in other renewable energy technologies and markets, including wind, biofuels, biomass, biogas, and geothermal energy generation. MMA Renewable Ventures will be a part of our new business segment.

#### **Results of Operations and Financial Condition**

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

Operating results for the three-month period ended March 31, 2006 are not necessarily indicative of results for the full year ending December 31, 2006. Our operating results are seasonal in nature with the highest revenues expected in the second half of the year.

**Table of Contents****Period over Period Comparisons***Net Interest Income*

	<b>For the three months ended March 31,</b>	
	<b>2006</b>	<b>2005</b>
Interest on bonds and interests in bond securitizations	\$ 22,311	\$ 21,944
Interest on loans	15,651	12,299
Interest on short-term investments	1,808	265
<b>Total interest income</b>	39,770	34,508
Interest expense	(26,813)	(21,791)
<b>Net interest income</b>	\$ 12,957	\$ 12,717

The increase in interest on bonds was due to a higher weighted average investment in bonds of approximately \$100.0 million. This increase is partially offset by lower rates on new investments than on repaid bonds and unrecognized income related to bonds on non-accrual status.

The increase in interest on loans is due to a 17% increase in the average net loan receivable balance due primarily to new construction loans funded since the first quarter of 2005 and higher interest rates.

The increase in interest on short-term investments is due to higher invested balances coupled with higher interest rates and improvements we made in our management of cash.

The increase in interest expense is primarily due to: (1) an increase in borrowings related to the funding of new loans; (2) a new securitization of bond investments; (3) additional draws on our credit facilities coupled with higher interest rates; and (4) the issuance of \$88.8 million of trust preferred securities in March and June of 2005 at a weighted average rate of 7.86%.

*Fee Income*

	<b>For the three months ended March 31,</b>	
	<b>2006</b>	<b>2005</b>
Syndication fees	\$ 11,629	\$ 9,301
Brokerage fees	663	435
Guarantee fees	4,286	3,428
Asset management and advisory fees	3,437	5,686
Loan servicing fees	3,484	1,222
Other income	1,112	944
<b>Total fee income</b>	\$ 24,611	\$ 21,016

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

Syndication fees are primarily driven by the volume of investments made by sponsored tax credit equity funds in affordable housing projects ( **Project Partnerships** ). The increase in syndication fees resulted from an increase in these investments of approximately \$20.3 million over the comparable period in 2005.

The increase in brokerage fees is due primarily to increased fees from institutional customers related to our MONY Realty Capital, Inc. ( **MRC** ) acquisition in February, 2005.

The increase in guarantee fees is due to the amortization of investor contributions to guaranteed tax credit equity funds made in 2005 and 2006.

The decrease in asset management fees over the comparable period in 2005 is attributable to lower distributions from our tax credit equity funds partially offset by higher fees resulting from our MRC acquisition. In 2005, sales of certain low income housing projects in certain funds produced proceeds sufficient to pay incentive asset management fees. There were no such sales during the first quarter of 2006.

**Table of Contents**

The increase in loan servicing fees is due to the increase in our servicing portfolio from the Glaser Financial Group, Inc. ( **Glaser** ) acquisition in July, 2005 generating \$2.3 million in fees.

*Net Gain (Loss) and Impairments and Valuation Allowances*

	<b>For the three months</b>	
	<b>ended March 31,</b>	
	<b>2006</b>	<b>2005</b>
Net gain (loss) on sale of loans	\$ 5,550	\$ (286)
Net (loss) gain on sale of tax-exempt investments	(205)	914
Net gain on sale of investments in tax credit equity partnerships	115	841
Net gain on derivatives	2,089	2,678
Impairments and valuation allowances	(3,393)	(812)
<b>Total net gain (loss) and impairments and valuation allowances</b>	<b>\$ 4,156</b>	<b>\$ 3,335</b>

The increase in net gain (loss) on sale of loans is due primarily to an increase in gains on sales of immediate delivery loans primarily due to the Glaser acquisition.

The decrease in net (loss) gain on sale of tax-exempt investments is primarily due to the sale of community development district bonds into an off-balance sheet securitization trust in addition to four bonds generating \$0.4 million of net loss in 2006 versus the repayment or sale of five bonds generating \$0.9 million of gain in 2005.

The decrease in net gain on sale of investments in tax credit equity partnerships was due primarily to a reduction in activity from gains related to property sales in guaranteed tax credit equity funds under the lease method.

We recorded \$3.4 million in impairments and valuation allowances during the first quarter of 2006 related to two bonds and four taxable loans. In 2005, we recorded other-than-temporary impairments totaling \$0.8 million on one bond and one taxable loan.

*Expenses*

	<b>For the three months</b>	
	<b>ended March 31,</b>	
	<b>2006</b>	<b>2005</b>
Salaries and benefits	\$ 20,392	\$ 17,541
General and administrative	14,692	11,049
Depreciation and amortization	6,406	3,744
<b>Total expenses</b>	<b>\$ 41,490</b>	<b>\$ 32,334</b>

The increase in salaries and benefits is attributable primarily to the effects of the MRC and Glaser acquisitions and scheduled merit increases.

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

The increase in general and administrative expenses is primarily attributable to: (1) an increase in professional fees primarily due to additional audit fees related to our restatement of prior years' financial statements in our 2005 Annual Report; (2) increases in office rent from our new offices in Atlanta, Denver, St. Paul and Tampa and the expansion of our office space in Boston; and (3) higher information technology expenses and travel and entertainment expenses resulting primarily from the MRC and Glaser acquisitions and higher unreimbursed deal expenses related to our tax credit equity business. These increases were partially offset by the effects (approximately \$1.7 million) of five fewer tax credit equity funds being consolidated in 2006 as compared to 2005.

**Table of Contents**

The increase in depreciation and amortization expenses is due to amortization of mortgage servicing rights (\$2.8 million) acquired as part of the Glaser acquisition.

*Other Statements of Income Items*

	<b>For the three months</b>	
	<b>ended March 31,</b>	
	<b>2006</b>	<b>2005</b>
Income tax benefit	\$ 6,126	\$ 3,763
Equity in losses of tax credit equity partnerships	(39,493)	(46,646)
Equity in (losses) income of other partnerships	(98)	402
Net income allocable to minority interests	26,996	38,882
Net rental income	6,559	6,572
<b>Total other statements of income items</b>	<b>\$ 90</b>	<b>\$ 2,973</b>

The increase in the income tax benefit is primarily due to an increase in operating losses of our taxable subsidiaries driven primarily by the higher expenses discussed above.

The decrease in equity in losses of tax credit equity partnerships is due primarily to a decrease in the number of tax credit equity funds consolidated.

Equity in the income of other partnerships in 2005 resulted primarily from gains on sales of properties owned by these partnerships. There were no such gains in 2006.

Net income allocable to minority interests is primarily dependent on the equity in losses of tax credit equity partnerships. The consolidation of Project Partnerships and tax credit equity funds has an insignificant impact on our net income as we own less than 1% of these entities. In addition, included in net income allocable to minority interest is approximately \$2.3 million and \$1.0 million in 2006 and 2005, respectively, of expense related to distributions paid on our preferred shareholders' equity in a subsidiary company.

Net rental income is entirely from the operations of consolidated Project Partnerships and primarily fluctuates based on the number of consolidated Project Partnerships.

**Liquidity and Capital Resources**

We believe our financing capacity, bond securitizations, loan sales to government sponsored enterprises ( **GSEs** ), operating cash flow and the issuance of privately placed preferred securities are adequate to meet our current year capital requirements. Due to the delay in filing our 2005 Annual Report and this Quarterly Report on Form 10-Q, we will be unable for at least one year subsequent to the filing date of this Form 10-Q, to access the capital markets to raise public equity or debt using the Securities and Exchange Commission's (the **SEC**) short-form registration procedures, which may mean delays in registering additional securities for sale. In addition, we may face delays in applying to register our securities if the SEC staff decides to review this report or our subsequent filings or our subsequent filings are delayed. Although the late filings will affect our ability to quickly raise public equity or debt, it will not affect our ability to offer securities in private offerings.

*Liquidity*

Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

	March 31,	
	2006	2005
Net cash provided by (used in)		
Operating activities	\$ 77,377	\$ 24,510
Investing activities	(150,815)	(230,770)
Financing activities	(10,835)	171,184
Net decrease in cash and cash equivalents	\$ (84,273)	\$ (35,076)

## **Table of Contents**

Cash flow provided by operating activities increased primarily due to: (1) a \$96.8 million increase in proceeds from the sale of loans held for sale partially offset by; (2) a \$35.5 million decrease primarily attributable to higher payments of estimated taxes, higher operating expenses, payments related to our reorganization efforts and fluctuations in our syndication fee receivable activity and; (3) a decrease in net income of \$7.4 million.

Cash flow used in investing activities decreased primarily due to a net decrease in purchases of bonds and interests in bond securitizations and loan originations of \$51.7 million, a decrease in acquisitions of assets and businesses and purchases of property and equipment of \$11.7 million, and a decrease in net investment in restricted cash and cash equivalents of \$32.6 million, offset by a net increase in principal payments received and proceeds from the sale of bonds of \$10.6 million, and an increase in net investments in partnerships and distributions received from investments in partnerships of \$5.5 million.

Cash flow provided by financing activities decreased primarily due to a decrease in cash from borrowing provided by our credit facilities and securitizations of \$168.0 million, a net decrease in cash from the issuance of common shares of \$60.8 million, and an increase in distributions to common shareholders of \$2.1 million, offset by a net decrease in cash used to pay down credit facilities and debt from securitizations of \$16.4 million, and an increase in cash from tax credit syndication investors of \$31.6 million.

### *Distributions*

In January 2006, the Board of Directors declared a distribution of \$0.4925 per common share for the three months ended December 31, 2005 to common shareholders of record on January 30, 2006. The payment date for the distribution was February 10, 2006.

In May 2006, the Board of Directors declared a distribution of \$0.4975 per common share for the three months ended March 31, 2006 to common shareholders of record as of May 10, 2006. The payment date for the distribution was May 23, 2006.

### *Letters of Credit and Unfunded Loan and Equity Commitments*

See Note 14 Commitments and Contingencies in the notes to our consolidated financial statements for information regarding our letters of credit and unfunded loan and equity commitments.

### *Contractual Obligations*

Our 2005 Annual Report contains a detailed description of our contractual obligations. There have been no material changes to the information related to our contractual obligations since December 31, 2005.

### *Off-Balance Sheet Arrangements*

We may invest in bonds that are subordinate in priority of payment to senior bonds that are owned by a third party. Such senior bonds represent our off-balance sheet debt. Senior bonds that are not reflected on our balance sheet at March 31, 2006 and December 31, 2005 totaled \$11.3 million and \$11.5 million, respectively (face amount).

The majority of our securitizations are reflected as indebtedness on our consolidated balance sheet, and off-balance sheet securitizations are not material to our liquidity and capital needs. At March 31, 2006 and December 31, 2005, our total off-balance-sheet debt relating to securitizations was \$137.9 million and \$101.6 million, respectively.

#### *Debt Covenants*

Under the terms of our various credit facilities, we are required to comply with financial covenants including net worth, interest coverage, leverage, liquidity, collateral and other terms and conditions.

As of March 31, 2006, we were in compliance with our financial covenants

## **Table of Contents**

### *Derivatives*

In January 2006, we entered into a LIBOR-based pay fixed, receive variable interest rate swap contract with a total notional amount of \$100.0 million. The effective and termination dates of this swap are March 2, 2006 and March 2, 2016, respectively.

### *Guarantees and Collateral*

See Note 9 Guarantees and Collateral, in the notes to our consolidated financial statements for information regarding our guarantees and collateral.

## **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Other than noted below, there has been no material changes since December 31, 2005 to the information included in Item 7A of our 2005 Annual Report.

## **Item 4. Controls and Procedures**

### **Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), as appropriate, to allow timely decisions regarding required financial disclosure.

In connection with the preparation of this Quarterly Report on Form 10-Q, we carried out an evaluation under the supervision and with the participation of management, including the CEO and CFO, of the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2006. Based upon this evaluation, the CEO and CFO concluded that as of March 31, 2006, our disclosure controls and procedures were not effective because of the material weaknesses described in Item 9A of our Annual Report on Form 10-K for the year ended December 31, 2005 (the 2005 Annual Report), which we are still in the process of remediation.

To address the material weaknesses described in Item 9A of the 2005 10-K, we performed additional analyses and other procedures, including enhanced analyses of transactions and accounts to ensure that our consolidated financial statements were prepared in accordance with generally accepted accounting principles in the United States (GAAP). Accordingly, management believes that the consolidated financial statements included in this Quarterly Report on Form 10-Q fairly present, in all material respects, our financial condition, results of operations and cash flows for the periods presented and that this Quarterly Report on Form 10-Q does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the periods covered by this report.

### **Management's Remediation Initiatives and Interim Measures**

In response to the material weaknesses discovered in its assessment of internal control over financial reporting disclosed in Item 9A of the 2005 Annual Report, management plans to continue to review and make changes to the overall design of its control environment. In particular, management has implemented and/or plans to implement during 2006 the specific measures described below to remediate the material weaknesses described in Item 9A of the 2005 Annual Report. Most of these remediation measures began subsequent to March 31, 2006, and management has not concluded that any of the material weaknesses in our internal control over financial reporting have been remediated. In the absence of full implementation of these remediation measures as of March 31, 2006, management has undertaken additional measures, including enhanced analyses of transactions and accounts, in connection with the March 31, 2006 quarter end financial reporting process, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of our consolidated financial statements included in this Quarterly Report on Form 10-Q.

## Edgar Filing: MUNICIPAL MORTGAGE & EQUITY LLC - Form 10-Q

**1. Control environment** We recognized the need for additional qualified accounting personnel in early 2004 and began recruiting efforts. The following summarizes the actions taken since that time:

By the end of 2004, the accounting staff had more than doubled with most of the new hires starting in the second half of the year.

In the first quarter 2005, we hired a Chief Accounting Officer with 20 years of relevant accounting experience, skills and knowledge who became our Chief Financial Officer effective January 1, 2006;

## Table of Contents

Also in 2005, we hired a Controller (who is now our Chief Accounting Officer) and an Assistant Controller; each with over 15 years of public company and real estate experience;

At the end of 2005, the reporting structures of tax credit equity and fund management accounting and finance functions were realigned to report through the corporate accounting and finance departments, to improve communication and the nature, extent and oversight of financial reporting controls;

In April 2006, we hired a Director of Technical Accounting who has significant experience auditing financial institutions and reviewing SEC filings for financial services registrants;

In May 2006, we hired an Assistant Controller and an Accounting Manager, each with significant experience auditing and working for publicly traded companies;

In July 2006, we hired a Controller who has extensive experience at the SEC and auditing publicly traded companies; and

In May 2006, we engaged a number of temporary employees to assist us in the monthly and quarterly closing processes while we recruit and train additional staff.

In June 2006, we began a comprehensive review of the accounting for our business segments, including the development and implementation of aggregated analyses and the use of metrics to enhance monitoring controls and error detection efforts and to more effectively integrate our accounting and financial reporting personnel into our operating businesses. Concurrently, we will reorganize the accounting department activities to develop consistency in accounting for similar transaction types and assess the staffing requirements needed to support the financial reporting requirements for each segment. As a result, we expect to continue to recruit additional qualified staff and train existing staff to meet these requirements.

In July 2006, we engaged consultants to assist us in the documentation and dissemination of clear accounting policies, particularly those related to accounting for the tax credit equity business. We also expect to use these consultants to assist us in performing a comprehensive review of our accounting functions, to identify opportunities for enhanced use of our financial systems, and to assist us in the implementation of best practices.

We expect these activities will assist us in preparing a GAAP-based budget for 2007 as part of the Company's business planning process as another means to monitor and evaluate operating results.

**2. Ineffective financial reporting process** In June 2006, we implemented certain analytical reports and began to design additional reports to detect errors and inconsistencies. We plan to continue these efforts with the goal of implementing segment reporting packages that aggregate similar transaction types and correlate balance sheet and income statement activity. These packages are intended to be used as the basis for quarterly business review meetings between accounting and business segment managers to review reported results of operations and as a forum to discuss planned future transactions. We have also reevaluated our segments, subsequent to our recent reorganization, and have reported their performance in the same manner for external reporting purposes and for reporting to our chief operating decision maker.

In June 2006, we reassigned an Assistant Controller, who has extensive financial systems experience, to lead a group dedicated to enhancing our use of financial systems, including the development of more effective automated analyses, more effective chart of accounts design and the automation of interfaces from certain feeder systems. Also in June 2006, we added to this group a Manager of Financial Systems, who has significant experience with our general ledger and other financial systems, and an Accounting Manager, who has significant experience with the Company's operations.

**3. Accounting for tax credit equity business** In June 2006, we trained our tax credit equity syndication accounting team in (1) the proper recognition of syndication fees, (2) the appropriate accounting for impairments of investments in real estate partnerships and (3) the capitalization of interest on investments in partnerships developing real estate projects. Also in June, we have also begun to design and develop analyses to be used in the review of recorded syndication fee revenue and performed additional review procedures related to consolidated tax credit equity syndication partnerships. We plan to continue this training, increase the staffing levels in our tax credit equity syndication accounting group, and to better document our accounting policies relating to this business.

**4. Accounting for deferral and recognition of bond and loan origination fees and direct costs** In February 2006, we began training our accounting staff in the application of the constant effective yield method of accounting for interest revenue on bonds and loans. In addition, in the course of restating our financial statements in the 2005 Annual Report, we constructed amortization schedules using the actual terms of the related bonds and loans and began amortizing net origination fees and direct costs over the contractual terms of the related instruments, no longer assuming any prepayments. We have also developed analyses comparing the recorded yield on these investments to their expected yields to help us detect errors and are developing a system to better capture the direct costs of originating bonds and loans.

## **Table of Contents**

**5. Accounting for investments in partnerships using the equity method of accounting** In June 2006, we centralized the accounting responsibilities related to all investments in partnerships (excluding those related to our tax credit equity syndication business) and trained the responsible staff in the correct application of the equity method of accounting. We also developed spreadsheet models for each venture that (1) help us account for differences between our cost of the investments and the underlying equity of the investees and (2) calculate our share of the investees' earnings and losses.

**6. Identification and valuation of derivative financial instruments** As part of the restatement of our financial statements in the 2005 Annual Report, we reviewed all of our guarantees to identify embedded derivative financial instruments. We have instituted processes to review all new guarantees and other agreements to identify derivative instruments. In addition, we have performed additional reviews over the accuracy of assumptions used to value all derivatives, including those embedded within our commitments to lend.

**7. Accounting for income taxes** In July 2006, we implemented automated analyses that accurately separate our income and expenses between taxable corporate entities and non taxable partnership entities to assist us in accurately accounting for income taxes.

### **Changes in Internal Control over Financial Reporting**

The discussion above under "Management's Remediation Initiatives and Interim Measures" describes the material planned and actual changes to our internal control over financial reporting during the first quarter of 2006 and subsequent to March 31, 2006 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## **PART II OTHER INFORMATION**

### **Item 1. Legal Proceedings.**

We are party to various legal proceedings from time to time, none of which we currently deem to be material.

### **Item 1A. Risk Factors.**

There have been no material changes with respect to the risk factors disclosed in our 2005 Annual Report on Form 10-K.

### **Item 6. Exhibits.**
