**Item 7.01. Regulation FD Disclosure**

Tempur-Pedic International Inc. (the Company) confirmed today that, in connection with the negotiation of its local labor agreement for hourly workers at its manufacturing facility in Denmark, the hourly workers are engaged in an unauthorized work stoppage. On Monday, April 23, 2007, the local labor board ruled the stoppage was prohibited, ordered the union to return to work immediately and assessed hourly fines.

The Company is actively pursuing negotiations and currently expects this matter to be resolved quickly. However, production at the plant is disrupted at this time.

The information in this report shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liability of that section, and shall not be incorporated by reference into any registration statement or other document filed under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

**Forward-looking Statements**

This current report contains forward-looking statements, within the meaning of federal securities laws, which include information concerning one or more of the Company's plans, objectives, goals, strategies, and other information that is not historical information. When used in this current report, the words expects, anticipates, plans, intends, believes, and variations of such words or similar expressions are intended to identify forward-looking statements. All forward-looking statements, including without limitation, statements relating to negotiations, anticipated resolution and plant disruption, are based upon current expectations and beliefs and various assumptions. There can be no assurance that the Company will realize these expectations or that these beliefs will prove correct.

There are a number of risks and uncertainties that could cause actual results to differ materially from the forward-looking statements contained in this current report. Numerous factors, many of which are beyond the Company's control, could cause actual results to differ materially from those expressed as forward-looking statements. These risk factors include general economic and industry conditions and consumer confidence; uncertainties arising from global events; the Company's ability to effectively negotiate with the hourly workers in Denmark and reach a resolution; and the Company's ability to continuously improve its product line, maintain efficient, timely and cost-effective production and delivery of its products, and manage its growth. Additional information concerning these and other risks and uncertainties are discussed in the Company's filings with the Securities and Exchange Commission, including without limitation the Company's annual report on Form 10-K under the headings Special Note Regarding Forward-Looking Statements and Risk Factors. Any forward-looking statement speaks only as of the date on which it is made, and the Company undertakes no obligation to update any forward-looking statements for any reason, including to reflect events or circumstances after the date on which such statements are made or to reflect the occurrence of anticipated or unanticipated events or circumstances.
