Luby's Announces First Quarter Fiscal 2008 Results

Diluted EPS of \$0.17

Increase in Store Level Profit

HOUSTON, TX December 27, 2007 Luby's, Inc. (NYSE: LUB) today announced unaudited financial results for the first quarter of fiscal 2008, which ended on November 21, 2007.

First Quarter Fiscal 2008 Highlights:

Net income was \$4.8 million, or \$0.17 per diluted share compared to net income of \$1.9 million, or \$0.07 per diluted share, in the first quarter of fiscal 2007

Income tax benefit of \$1.5 million compared to \$1.1 million income tax expense in the first quarter of fiscal 2007

Additional interest income related to income taxes of 1.9 million

Store level profit, which the Company defines as restaurant sales minus costs of food, payroll and related costs and other operating expenses, were \$11.8 million, or 16.5 percent of restaurant sales in the first quarter fiscal 2008 compared to \$11.7 million, or 15.9 percent of restaurant sales in the first quarter 2007

The Company spent \$7.9 million on capital expenditures in its restaurants and strategic growth plan through upgrades and remodels at existing restaurants and new store development and construction costs

Culinary contract services revenue grew to \$1.7 million compared to \$28,000 in the first quarter fiscal 2007

The \$1.5 million income tax benefit for first quarter of fiscal year 2008 consisted of a net tax benefit of \$2.8 million in net tax benefit partially offset by \$1.3 million income tax expense. The net tax benefit of \$2.8 million included a reversal of tax accruals for contingencies that did not materialize following the completion of tax audits and an income tax refund receivable, partially offset by the reversal of unrealized deferred tax assets related to stock options.

First quarter fiscal 2008 results included from \$1.9 million in interest related to income taxes which included the reversal of previously recognized accrued interest expense associated with settled tax audit contingencies and interest receivable associated with an income tax refund.

Total sales in the first quarter 2008 were \$73.4 million, a decrease of 0.4 percent compared to \$73.7 million in the first quarter of fiscal year 2007. Restaurant sales in the first quarter 2008 were \$71.6 million, a decrease of 2.7 percent compared to \$73.7 million in the first quarter of fiscal year 2007. On a same-store basis, sales declined by approximately \$2.5 million, or 3.4 percent, compared to an increase of 1.7 percent in the first quarter fiscal 2007. The first quarter fiscal 2008 decline was due primarily to decreases in guest traffic partially offset by higher menu prices and more favorable menu mix.

In the first quarter fiscal 2008, we continued to make significant progress toward our stated strategic growth plan. During the quarter, we identified and secured additional new restaurant locations and initiated construction development on new sites. We are confident that our strategic growth plan to build new restaurants, expand our culinary contract business and invest in our existing stores will enhance value for our shareholders, said Chris Pappas, President and CEO.

The restaurant and retail industries continue to face soft consumer demand. However, despite lower sales volumes in the first quarter we were able to improve store level profit, added Mr. Pappas. During the first quarter we launched a number of operational initiatives designed to increase customer traffic and improve customer service to achieve better same-store sales results. Despite the macro economic challenges we continue to believe that Luby's will be solidly positioned when market conditions improve.

Food costs in the first quarter 2008 were 27.4 percent of restaurant sales, an increase of 0.5 percent compared to the same quarter last year. The Company continues to manage food costs by offering menu items and combination meals with favorable cost structures and by employing a variety of other cost control measures.

Payroll and related costs in the first quarter 2008 as a percentage of restaurant sales were 34.1 percent, a decrease 0.3 percent compared to the same quarter last year. The decrease in payroll and related costs was due primarily to lower workers' compensation expense, including the effects of reduced actuarial estimates of potential losses resulting from favorable claims experience partially offset by higher management salary costs as percentage of sales.

Other operating expenses in the first quarter 2008 as a percentage of restaurant sales were 21.9 percent, a decrease of 0.9 percent compared the same quarter last year due primarily to a lower utility and marketing expense.

General and administrative expenses in the first quarter fiscal 2008 as a percentage of total sales were 8.1 percent, an increase of 1.3 percent compared the same quarter last year. The increase was primarily due to increased corporate salaries and professional fees. The increase in corporate salaries includes staffing costs related to the Company's culinary contract business to provide services at healthcare facilities, as well as, new store development and construction staff.

Provision for (reversal of) asset impairments of \$0.7 million in the first quarter fiscal 2008 consisted of \$1.2 million of write-downs taken in the quarter on selected under-performing locations partially offset by a \$0.5 million write-up of a previously impaired location that will be reopened in fiscal 2008.

Company Outlook

The Company plans to open one new restaurant in the third quarter of fiscal 2008 and open three to four new restaurants in the fourth quarter of fiscal 2008

The Company plans to open one replacement restaurant in the second half of fiscal 2008 that will incorporate the design features of Luby's new prototype cafeteria restaurant

The Company plans to remodel the dining facility where Luby's operates at St. Joseph's Hospital in Houston, TX, in the second half of fiscal 2008
