UNION PACIFIC CORPORATION AND SUBSIDIARY COMPANIES

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

For purposes of this report, unless the context otherwise requires, all references herein to the Corporation , UPC , we , us , and our mean U Pacific Corporation and its subsidiaries, including Union Pacific Railroad Company, which will be separately referred to herein as UPRR or the Railroad .

1. Basis of Presentation Our Condensed Consolidated Financial Statements are unaudited and reflect all adjustments (consisting only of normal and recurring adjustments) that are, in the opinion of management, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America. Our Consolidated Statement of Financial Position at December 31, 2007, is derived from audited financial statements. This Quarterly Report on Form 10-Q should be read in conjunction with our Consolidated Financial Statements and notes thereto contained in our 2007 Annual Report on Form 10-K. The results of operations for the three and nine months ended September 30, 2008, are not necessarily indicative of the results for the entire year ending December 31, 2008.

Certain prior year amounts have been reclassified to conform to the current period financial statement presentation. The reclassifications include reporting freight revenues instead of commodity revenues. The amounts reclassified from freight revenues to other revenues totaled $6 million and $15 million for the three months and nine months ended September 30, 2007, respectively. In addition, we modified our operating expense categories to report fuel used in railroad operations as a stand-alone category, to combine purchased services and materials into one line, and to reclassify certain other expenses among operating expense categories. These reclassifications had no impact on previously reported operating revenues, total operating expenses, operating income or net income.

2. Operations and Segmentation The Railroad, along with its subsidiaries and rail affiliates, is our one reportable operating segment. Although revenue is analyzed by commodity group, we analyze the net financial results of the Railroad as one segment due to the integrated nature of our rail network. The following table provides freight revenue by commodity group:

	Three Months Ended September 30,		*Nine Months Ended September 30,*	
Millions of Dollars	***2008***	*2007*	***2008***	*2007*
Agricultural	**$ 848**	$ 670	**$ 2,382**	$ 1,886
Automotive	**324**	348	**1,039**	1,089
Chemicals	**659**	586	**1,916**	1,704
Energy	**1,051**	824	**2,827**	2,316
Industrial Products	**906**	789	**2,556**	2,335
Intermodal	**842**	773	**2,318**	2,168
Total freight revenues	**4,630**	3,990	**13,038**	11,498
Other revenues	**216**	201	**646**	588
Total operating revenues	**$4,846**	$4,191	**$13,684**	$12,086

3. Stock Split On May 28, 2008, we completed a two-for-one stock split, effected in the form of a 100% stock dividend. The stock split entitled all shareholders of record at the close of business on May 12, 2008, to receive one additional share of our common stock, par value $2.50 per share, for each share of common stock held on that date. All references to common shares and per share amounts (excluding the Condensed Consolidated Statements of Changes in Common Shareholders Equity and December 31, 2007, Condensed Consolidated Statements of Financial Position) have been restated to reflect the stock split for all periods presented.

Table of Contents

4. Stock-Based Compensation We have several stock-based compensation plans under which employees and non-employee directors receive stock options, nonvested retention shares, and nonvested stock units. We refer to the nonvested shares and stock units collectively as retention awards. We have elected to issue treasury shares to cover option exercises and stock unit vestings, while new shares are issued when retention shares vest. Information regarding stock-based compensation appears in the table below:

Millions of Dollars	*Three Months Ended September 30,* **2008**	*2007*	*Nine Months Ended September 30,* **2008**	*2007*
Stock-based compensation, before tax:				
Stock options	**$ 6**	$ 5	**$18**	$15
Retention awards	**11**	6	**30**	18
Total stock-based compensation, before tax	**$17**	$11	**$48**	$33
Total stock-based compensation, after tax	**$11**	$ 7	**$30**	$21

Stock Options We estimate the fair value of our stock option awards using the Black-Scholes option pricing model. Groups of employees and non-employee directors that have similar historical and expected exercise behavior are considered separately for valuation purposes. The table below shows the year-to-date weighted-average assumptions used for valuation purposes:

Weighted-Average Assumptions	*Nine Months Ended September 30,* **2008**	*2007*
Risk-free interest rate	**2.8%**	4.9%
Dividend yield	**1.4%**	1.4%
Expected life (years)	**5.3**	4.7
Volatility	**22.2%**	20.9%
Weighted-average grant-date fair value of options granted	**$13.35**	$11.19

The risk-free rate is based on the U.S. Treasury yield curve in effect at the time of grant; the dividend yield is calculated as the ratio of dividends paid per share of common stock to the stock price on the date of grant; the expected life is based on historical and expected exercise behavior; and volatility is based on the historical volatility of our stock price over the expected life of the option.

Table of Contents

A summary of stock option activity during the nine months ended September 30, 2008 is presented below:

	Shares (thous.)	*Weighted-Average Exercise Price*	*Weighted-Average Remaining Contractual Term*	*Aggregate Intrinsic Value (millions)*
Outstanding at January 1, 2008	15,127	$35.77	6.0 yrs.	$409
Granted	1,571	62.40	N/A	N/A
Exercised	(4,161)	31.88	N/A	N/A
Forfeited or expired	(325)	34.11	N/A	N/A
Outstanding at September 30, 2008	12,212	$40.57	6.4 yrs.	$374
Vested or expected to vest at September 30, 2008	10,616	$39.63	6.2 yrs.	$335
Options exercisable at September 30, 2008	8,424	$34.90	5.4 yrs.	$305

Stock options are granted at the closing price on the date of grant, have ten-year contractual terms, and vest no later than three years from the date of grant. None of the stock options outstanding at September 30, 2008 are subject to performance or market-based vesting conditions.

At September 30, 2008, there was $27 million of unrecognized compensation expense related to nonvested stock options, which is expected to be recognized over a weighted-average period of 1.2 years. Additional information regarding stock option exercises appears in the table below:

	Three Months Ended September 30,		*Nine Months Ended September 30,*	
Millions of Dollars	***2008***	*2007*	***2008***	*2007*
Intrinsic value of stock options exercised	**$38**	$29	**$163**	$126
Cash received from option exercises	**17**	16	**79**	94
Tax benefit realized from option exercises	**14**	11	**61**	49
Aggregate grant-date fair value of stock options vested		1	**21**	11

Retention Awards The fair value of retention awards is based on the closing price of the stock at the grant date. Dividend equivalents are paid to participants during the vesting periods.

Changes in our retention awards during the nine months ended September 30, 2008 were as follows:

	Shares (thous.)	*Weighted-Average Grant-Date Fair Value*
Nonvested at January 1, 2008	1,624	$42.04
Granted	652	62.39
Vested	(198)	32.52
Forfeited	(52)	46.07
Nonvested at September 30, 2008	2,026	$49.41

Retention awards are granted at no cost to the employee or non-employee director and vest over periods lasting up to four years. At September 30, 2008, there was $59 million of total unrecognized compensation expense related to nonvested retention awards, which is expected to be recognized over a weighted-average period of 2.2 years.

Performance Retention Awards In January 2008, our Board of Directors approved performance stock unit grants. Other than higher performance targets, the basic terms of these performance stock units are

Table of Contents

identical to those granted in January 2006 and January 2007, including using annual return on invested capital (ROIC) as the performance measure. Stock units awarded to selected employees under these grants are subject to continued employment for 37 months and the attainment of certain levels of ROIC. We expense the fair value of the units that are probable of being earned based on our forecasted ROIC over the 3-year performance period. We measure the fair value of these performance stock units based upon the closing price of the underlying common stock as of the date of grant, reduced by the present value of estimated future dividends. Dividend equivalents are paid to participants only after the units are earned.

The assumptions used to calculate the present value of estimated future dividends related to the January 2008 grant are as follows:

	2008
Dividend per share per quarter	$0.22
Risk-free interest rate at date of grant	2.3%

Changes in our performance retention awards during the nine months ended September 30, 2008, were as follows:

	Shares (thous.)	*Weighted-Average Grant-Date Fair Value*
Nonvested at January 1, 2008	589	$45.27
Granted	325	60.25
Vested	(3)	43.81
Forfeited	(29)	49.65
Nonvested at September 30, 2008	882	$50.66

At September 30, 2008, we had $22 million of total unrecognized compensation expense related to nonvested performance retention awards, which is expected to be recognized over a weighted-average period of 1.4 years. A portion of this expense is subject to achievement of the ROIC levels established for the performance stock unit grants.

5. Retirement Plans

Pension and Other Postretirement Benefits

Pension Plans We provide defined benefit retirement income to eligible non-union employees through qualified and non-qualified (supplemental) pension plans. Qualified and non-qualified pension benefits are based on years of service and the highest compensation during the latest years of employment, with specific reductions made for early retirements.

Other Postretirement Benefits (OPEB) We provide defined contribution medical and life insurance benefits for eligible retirees. These benefits are funded as medical claims and life insurance premiums are paid.

Expense

Both pension and OPEB expense are determined based upon the annual service cost of benefits (the actuarial cost of benefits earned during a period) and the interest cost on those liabilities, less the expected return on plan assets. The expected long-term rate of return on plan assets is applied to a calculated value of plan assets that recognizes changes in fair value over a five-year period. This practice is intended to reduce year-to-year volatility in pension expense, but it can have the effect of delaying the recognition of differences between actual returns on assets and expected returns based on long-term rate of return assumptions. Differences in actual experience in relation to assumptions are not recognized in net income immediately, but are deferred and, if necessary, amortized as pension or OPEB expense.

Table of Contents

The components of our net periodic pension cost were as follows:

	Pension			
	Three Months Ended September 30,		*Nine Months Ended September 30,*	
Millions of Dollars	***2008***	*2007*	***2008***	*2007*
Service cost	**$ 8**	$ 7	**$ 26**	$ 26
Interest cost	**35**	31	**101**	93
Expected return on plan assets	**(38)**	(36)	**(114)**	(108)
Amortization of:				
Prior service cost	**1**	2	**4**	5
Actuarial loss	**3**	5	**6**	13
Net periodic benefit cost	**$ 9**	$ 9	**$ 23**	$ 29

The components of our net periodic OPEB cost/(benefit) were as follows:

	OPEB			
	Three Months Ended September 30,		*Nine Months Ended September 30,*	
Millions of Dollars	***2008***	*2007*	***2008***	*2007*
Service cost	**$**	$	**$ 2**	$ 2
Interest cost	**7**	5	**17**	16
Amortization of:				
Prior service credit	**(9)**	(8)	**(26)**	(24)
Actuarial loss	**5**	1	**8**	6
Net periodic benefit cost/(benefit)	**$ 3**	$ (2)	**$ 1**	$

6. Other Income Our other income included the following:

	Three Months Ended September 30,		*Nine Months Ended September 30,*	
Millions of Dollars	***2008***	*2007*	***2008***	*2007*

Sale of receivables fees	**(5)**	(9)	**(17)**	(26)
Non-operating environmental costs and other	**(10)**	(13)	**(29)**	(18)
Total	**$ 23**	$ 25	**$ 67**	$ 76

7. Income Taxes For all federal income tax years prior to 1995, the Internal Revenue Service (IRS) examinations have been completed and the statute of limitations bars any additional tax assessments. Some interest calculation issues remain open back to 1986. In the third quarter, we signed a closing agreement resolving all tax matters at IRS Appeals for tax years 1995 through 1998. The statute of limitations for these years will expire in 2009, except for calculations of interest. This settlement did not have a material effect on our income tax expense.

The IRS has completed its examinations and issued notices of deficiency for tax years 1999 through 2004. We disagree with many of their proposed adjustments, and we are at IRS Appeals for these years. The IRS is examining our tax returns for tax years 2005 and 2006. Additionally, several state tax authorities are examining our state income tax returns for tax years 2000 through 2006.

At September 30, 2008, our liability for unrecognized tax benefits was $157 million, of which $137 million was classified as current. The majority of this current liability relates to the 1995 through 1998 settlement, which we anticipate will be paid in the fourth quarter.

8. Earnings Per Share The following table provides a reconciliation between basic and diluted earnings per share for the three and nine months ended September 30, 2008:

Millions, Except Per Share Amounts	*Three Months Ended September 30,* **2008**	*2007*	*Nine Months Ended September 30,* **2008**	*2007*
Net income	**$ 703**	$ 532	**$1,677**	$1,364
Weighted-average number of shares outstanding:				
Basic	**506.6**	526.5	**513.1**	534.7
Dilutive effect of stock options	**3.6**	4.1	**3.7**	4.2
Dilutive effect of retention shares and units	**1.1**	0.8	**1.0**	0.6
Diluted	**511.3**	531.4	**517.8**	539.5
Earnings per share basic	**$ 1.39**	$ 1.01	**$ 3.27**	$ 2.55
Earnings per share diluted	**$ 1.38**	$ 1.00	**$ 3.24**	$ 2.53
Stock options excluded as their inclusion would be antidilutive			**0.5**	1.2

9. Comprehensive Income Our comprehensive income was as follows:

Millions of Dollars	*Three Months Ended September 30,* **2008**	*2007*	*Nine Months Ended September 30,* **2008**	*2007*
Net income	**$703**	$532	**$1,677**	$1,364
Other comprehensive income/(loss):				
Defined benefit plans		1	**(4)**	2
Foreign currency translation	**1**	(3)	**10**	
Derivatives		(1)		
Total other comprehensive income/(loss) [a]	**$ 1**	$ (3)	**$ 6**	$ 2
Total comprehensive income	**$704**	$529	**$1,683**	$1,366

[a] Net of deferred taxes of $1 million and $7 million during the three and nine months ended September 30, 2008, respectively, and $(3) million and $(1) million during the three and nine months ended September 30, 2007, respectively.

The components of accumulated other comprehensive loss were as follows:

Millions of Dollars	***Sep. 30, 2008***	*Dec. 31, 2007*
Defined benefit plans	**$(59)**	$(55)
Foreign currency translation	**(5)**	(15)
Derivatives	**(4)**	(4)
Total	**$(68)**	$(74)

Table of Contents

10. Properties The following table lists the major categories of property and equipment, as well as the average composite depreciation rate for each category:

Millions of Dollars, Except Percentages	***Sep. 30, 2008***	*Dec. 31, 2007*	*Depreciation Rate for 2008*
Land	**$ 4,763**	$ 4,760	N/A
Road			
Rail and other track material	**11,226**	10,622	4.1%
Ties	**6,711**	6,354	2.9%
Ballast	**3,579**	3,369	2.9%
Other [a]	**12,351**	11,865	2.3%
Total Road	**33,867**	32,210	3.1%
Equipment			
Locomotives	**5,200**	5,092	4.6%
Freight cars	**2,010**	2,059	4.1%
Work equipment and other	**158**	157	3.5%
Total Equipment	**7,368**	7,308	4.5%
Computer hardware/software and other	**435**	441	13.5%
Construction in progress	**946**	935	N/A
Total properties	**47,379**	45,654	N/A
Accumulated depreciation	**(12,077)**	(11,496)	N/A
Net properties	**$ 35,302**	$ 34,158	N/A

[a] Other includes grading, bridges and tunnels, signals, buildings, and other road assets.

11. Accounts Payable and Other Current Liabilities

Millions of Dollars	***Sep. 30, 2008***	*Dec. 31, 2007*
Accounts payable	**$ 791**	$732
Accrued wages and vacation	**393**	394
Accrued casualty costs	**423**	371
Income and other taxes	**518**	343
Dividends and interest	**273**	284
Equipment rents payable	**98**	103
Other	**599**	675
Total accounts payable and other current liabilities	**$3,095**	$2,902

12. Fair Value Measurements During the first quarter of 2008, we fully adopted Financial Accounting Standards Board (FASB) Statement No. 157, *Fair Value Measurements* (FAS 157). FAS 157 established a framework for measuring fair value and expanded disclosures about fair value measurements. The adoption of FAS 157 had no impact on our financial position or results of operations.

FAS 157 applies to all assets and liabilities that are measured and reported on a fair value basis. This enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The statement requires that each asset and liability carried at fair value be classified into one of the following categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

14

Table of Contents

At September 30, 2008, the fair value of our derivative assets was approximately $3 million (see note 13). We determined the fair values of our derivative financial instrument positions based upon current fair values as quoted by recognized dealers or the present value of expected future cash flows. As prescribed by FAS 157, we recognize the fair value of our derivative assets as a Level 2 valuation.

13. Financial Instruments

Strategy and Risk We may use derivative financial instruments in limited instances for other than trading purposes to assist in managing our overall exposure to fluctuations in interest rates and fuel prices. We are not a party to leveraged derivatives and, by policy, do not use derivative financial instruments for speculative purposes. Derivative financial instruments qualifying for hedge accounting must maintain a specified level of effectiveness between the hedging instrument and the item being hedged, both at inception and throughout the hedged period. We formally document the nature and relationships between the hedging instruments and hedged items at inception, as well as our risk-management objectives, strategies for undertaking the various hedge transactions, and method of assessing hedge effectiveness. Changes in the fair market value of derivative financial instruments that do not qualify for hedge accounting are charged to earnings. We may use swaps, collars, futures, and/or forward contracts to mitigate the risk of adverse movements in interest rates and fuel prices; however, the use of these derivative financial instruments may limit future benefits from favorable price movements.

Market and Credit Risk We address market risk related to derivative financial instruments by selecting instruments with value fluctuations that highly correlate with the underlying hedged item. We manage credit risk related to derivative financial instruments, which is minimal, by requiring high credit standards for counterparties and periodic settlements. At September 30, 2008, and December 31, 2007, we were not required to provide collateral, nor had we received collateral, relating to our hedging activities.

Interest Rate Fair Value Hedges We manage our overall exposure to fluctuations in interest rates by adjusting the proportion of fixed and floating rate debt instruments within our debt portfolio over a given period. We generally manage the mix of fixed and floating rate debt through the issuance of targeted amounts of each as debt matures or as we require incremental borrowings. We employ derivatives, primarily swaps, as one of the tools to obtain the targeted mix. In addition, we also obtain flexibility in managing interest costs and the interest rate mix within our debt portfolio by evaluating the issuance of and managing outstanding callable fixed-rate debt securities.

Swaps allow us to convert debt from fixed rates to variable rates and thereby hedge the risk of changes in the debt s fair value attributable to the changes in interest rates. We account for swaps as fair value hedges using the short-cut method pursuant to FASB Statement No. 133, *Accounting for Derivative Instruments and Hedging Activities* (FAS 133); therefore, we do not record any ineffectiveness within our Condensed Consolidated Financial Statements.

The following is a summary of our interest rate derivatives qualifying as fair value hedges:

Millions of Dollars, Except Percentages	***Sep. 30, 2008***	*Dec. 31, 2007*
Amount of debt hedged	**$250**	$250
Percentage of total debt portfolio	**3%**	3%
Gross fair value asset position	**$ 3**	$ 2

Interest Rate Cash Flow Hedges We report changes in the fair value of cash flow hedges in accumulated other comprehensive loss until the hedged item affects earnings. At September 30, 2008, and December 31, 2007, we recorded reductions of $4 million as an accumulated other comprehensive loss that is being amortized on a straight-line basis through September 30, 2014. As of September 30, 2008, and December 31, 2007, we had no interest rate cash flow hedges outstanding.

Sale of Receivables The Railroad transfers most of its accounts receivable to Union Pacific Receivables, Inc. (UPRI), a bankruptcy-remote subsidiary, as part of a sale of receivables facility. UPRI sells, without recourse on a 364-day revolving basis, an undivided interest in such accounts receivable to investors. The total capacity to sell undivided interests to investors under the facility was $600 million at September 30, 2008, and December 31, 2007. The value of the outstanding undivided interest held by investors under the facility was $600 million at September 30, 2008, and December 31, 2007. The value of the outstanding undivided interest held by investors is not included in our Condensed Consolidated Financial Statements. The value of the undivided interest held by investors was supported by $1,231 million and $1,071 million of accounts receivable held by UPRI at September 30, 2008, and December 31, 2007, respectively. At September 30, 2008, and December 31, 2007, the value of the interest retained by UPRI was $631 million and $471 million, respectively. This retained interest is included in accounts receivable in our Condensed Consolidated Financial Statements. The interest sold to investors is sold at carrying value, which approximates fair value, and there is no gain or loss recognized from the transaction.

The value of the outstanding undivided interest held by investors could fluctuate based upon the availability of eligible receivables and is directly affected by changing business volumes and credit risks, including default and dilution. If default or dilution percentages were to increase one percentage point, the amount of eligible receivables would decrease by $6 million. Should our credit rating fall below investment grade, the value of the outstanding undivided interest held by investors would be reduced, and, in certain cases, the investors would have the right to discontinue the facility.

The Railroad services the sold receivables; however, the Railroad does not recognize any servicing asset or liability, as the servicing fees adequately compensate us for these responsibilities. The Railroad collected approximately $4.7 billion and $4.1 billion during the three months ended September 30, 2008 and 2007, respectively, and $13.3 billion and $11.8 billion during the nine months ended September 30, 2008 and 2007, respectively. UPRI used certain of these proceeds to purchase new receivables under the facility.

The costs of the sale of receivables program are included in other income and were $5 million and $9 million for the three months ended September 30, 2008 and 2007, respectively, and $17 million and $26 million for the nine months ended September 30, 2008 and 2007, respectively. The costs include interest, program fees paid to banks, commercial paper issuing costs, and fees for unused commitment availability.

The investors have no recourse to the Railroad s other assets except for customary warranty and indemnity claims. Creditors of the Railroad do not have recourse to the assets of UPRI. In October 2008, we extended the sale of receivables program to August 2009 without any significant changes in terms, except to increase the capacity to sell undivided interests to $660 million.

14. Debt

Credit Facilities On September 30, 2008, $1.9 billion of credit was available under our revolving credit facility (the facility). The facility is designated for general corporate purposes and supports the issuance of commercial paper. We have not drawn on the facility during 2008. Commitment fees and interest rates payable under the facility are similar to fees and rates available to comparably rated, investment-grade borrowers. The facility allows borrowings at floating rates based on London Interbank Offered Rates, plus a spread, depending upon our senior unsecured debt ratings. The facility requires maintaining a debt-to-net-worth coverage ratio. At September 30, 2008, and December 31, 2007, we were in compliance with this covenant. The facility does not include any other financial restrictions, credit rating triggers (other than rating-dependent pricing), or any other provision that could require us to post collateral. The facility expires in April 2012 and includes a change-of-control provision.

At September 30, 2008, we had $200 million of commercial paper outstanding. Our commercial paper balance is supported by our revolving credit facility but does not reduce the amount of borrowings available under the facility. During the nine months ended September 30, 2008, we issued $500 million of commercial paper and repaid $300 million. Despite the deterioration of the credit and financial markets, we were able to issue an additional $75 million of commercial paper in October of 2008. We also repaid $75 million of existing commercial paper during October of 2008. As of October 20, 2008, our current outstanding commercial paper balance totaled $200 million and was issued as follows:

- $25 million issued at 4.2%, maturing in October 2008,
- $75 million issued at 5.2%, maturing in November 2008, and
- $100 million issued at 3.9%, maturing in January 2009.

Shelf Registration Statement and Significant New Borrowings Under our current shelf registration statement, we may issue, from time to time, any combination of debt securities, preferred stock, common stock, or warrants for debt securities or preferred stock in one or more offerings. In July 2008, our Board of Directors authorized the issuance of an additional $3 billion of debt securities under our shelf registration. As a result, at September 30, 2008, we had total authority to issue up to $3.75 billion of debt securities.

On October 7, 2008, we issued $750 million of 7.875% unsecured fixed-rate notes due January 15, 2019. The net proceeds from this offering are for general corporate purposes, including the repurchase of common stock pursuant to our share repurchase program. These debt securities include change-of-control provisions.

We have no immediate plans to issue equity securities; however, we will continue to explore opportunities to replace existing debt or access capital through issuances of debt securities under our shelf registration. Accordingly, we may issue additional debt securities at any time.

On April 17, 2008, we borrowed $100 million under a 5-year-term loan facility (the loan). The loan has a floating rate based on London Interbank Offered Rates, plus a spread, and is prepayable in whole or in part without a premium prior to maturity. The agreement documenting the loan has provisions similar to our revolving credit facility, including identical debt-to-net-worth covenant and change-of-control provisions and similar customary default provisions. The agreement does not include any other financial restrictions, credit rating triggers, or any other provision that would require us to post collateral.

As of September 30, 2008, and December 31, 2007, we have reclassified as long-term debt approximately $650 million and $550 million, respectively, of debt due within one year that we intend to refinance. This reclassification reflects our ability and intent to refinance any short-term borrowings and certain current maturities of long-term debt on a long-term basis.

15. Commitments and Contingencies

Asserted and Unasserted Claims Various claims and lawsuits are pending against us and certain of our subsidiaries. We cannot fully determine the effect of all asserted and unasserted claims on our consolidated results of operations, financial condition, or liquidity; however, to the extent possible, where asserted and unasserted claims are considered probable and where such claims can be reasonably estimated, we have recorded a liability. We do not expect that any known lawsuits, claims, environmental costs, commitments, contingent liabilities, or guarantees will have a material adverse effect on our consolidated results of operations, financial condition, or liquidity after taking into account liabilities previously recorded for these matters.

Personal Injury The cost of personal injuries to employees and others related to our activities is charged to expense based on estimates of the ultimate cost and number of incidents each year. We use third-party actuaries to assist us in measuring the expense and liability, including unasserted claims, on a semi-annual basis. Compensation for work-related accidents is governed by the Federal Employers Liability Act (FELA). Under FELA, damages are assessed based on a finding of fault through litigation or out-of-court settlements.

Table of Contents

Personal injury expense was lower for the nine months ended September 30, 2007 compared to the first nine months of 2008 primarily as a result of completion of actuarial studies during 2007, which reflected improvements in our safety experience and lower than expected ultimate settlement costs. A new actuarial study will be completed during the fourth quarter of 2008.

Our personal injury liability activity was as follows:

	Nine Months Ended September 30,	
Millions of Dollars	***2008***	*2007*
Beginning balance	**$ 593**	$ 631
Accruals	**162**	109
Payments	**(123)**	(131)
Ending balance at September 30	**$ 632**	$ 609
Current portion, ending balance at September 30	**$ 204**	$ 233

Our personal injury liability is discounted to present value using applicable U.S. Treasury rates. Because of the uncertainty surrounding the ultimate outcome of personal injury claims, it is reasonably possible that future costs to settle these claims may range from approximately $632 million to $684 million. We believe that the $632 million liability recorded at September 30, 2008, is the best estimate of the present value of the future settlement costs of personal injury claims.

Asbestos We are a defendant in a number of lawsuits in which current and former employees and other parties allege exposure to asbestos. Additionally, we have received claims for asbestos exposure that have not been litigated. The claims and lawsuits (collectively referred to as claims) allege occupational illness resulting from exposure to asbestos-containing products. In most cases, the claimants do not have credible medical evidence of physical impairment resulting from the alleged exposures. Additionally, most claims filed against us do not specify an amount of alleged damages.

Our asbestos-related liability activity was as follows:

	Nine Months Ended September 30,	
Millions of Dollars	***2008***	*2007*
Beginning balance	**$265**	$302
Accruals/(credits)		(20)
Payments	**(9)**	(10)
Ending balance at September 30	**$256**	$272
Current portion, ending balance at September 30	**$ 11**	$ 13

We have insurance coverage for a portion of the costs incurred to resolve asbestos-related claims, and we have recognized an asset for estimated insurance recoveries at September 30, 2008, and December 31, 2007.

We believe that our estimates of liability for asbestos-related claims and insurance recoveries are reasonable and probable. The amounts recorded for asbestos-related liabilities and related insurance recoveries were based on currently known facts. However, future events, such as the number of new claims filed each year, average settlement costs, and insurance coverage issues, could cause the actual costs and insurance recoveries to be higher or lower than the projected amounts. Estimates also may vary in the future if strategies, activities, and outcomes of asbestos litigation materially change; federal and state laws governing asbestos litigation increase or decrease the probability or amount of compensation of claimants; or there are material changes with respect to payments made to claimants by other defendants.

Table of Contents

Environmental Costs We are subject to federal, state, and local environmental laws and regulations. We have 332 projects with which we are or may be liable for remediation costs associated with alleged contamination or for violations of environmental requirements. This includes 33 projects that are the subject of actions taken by the U.S. government, 18 of which are currently on the Superfund National Priorities List. Certain federal legislation imposes joint and several liability for the remediation of identified projects; consequently, our ultimate environmental liability may include costs relating to activities of other parties, in addition to costs relating to our own activities with each project.

When an environmental issue has been identified with respect to property owned, leased, or otherwise used in our business, we and our consultants perform environmental assessments on the property. We expense the cost of the assessments as incurred. We accrue the cost of remediation where our obligation is probable and such costs can be reasonably estimated. We do not discount our environmental liabilities when the timing of the anticipated cash payments is not fixed or readily determinable. At September 30, 2008, approximately 14% of our environmental liability was discounted at 3.89%, while approximately 13% of our environmental liability was discounted at 4.15% at December 31, 2007.

Our environmental liability activity was as follows:

	Nine Months Ended September 30,	
Millions of Dollars	***2008***	*2007*
Beginning balance	**$209**	$210
Accruals	**34**	28
Payments	**(35)**	(34)
Ending balance at September 30	**$208**	$204
Current portion, ending balance at September 30	**$ 58**	$ 54

The environmental liability includes costs for remediation and restoration of sites, as well as for ongoing monitoring costs, but excludes any anticipated recoveries from third parties. Cost estimates are based on information available for each project, financial viability of other potentially responsible parties, and existing technology, laws, and regulations. We believe that we have adequately accrued for our ultimate share of costs at sites subject to joint and several liability. However, the ultimate liability for remediation is difficult to determine because of the number of potentially responsible parties involved, site-specific cost sharing arrangements with other potentially responsible parties, the degree of contamination by various wastes, the scarcity and quality of volumetric data related to many of the sites, and the speculative nature of remediation costs. Estimates of liability may vary over time due to changes in federal, state, and local laws governing environmental remediation. We do not expect current obligations to have a material adverse effect on our results of operations or financial condition.

Guarantees At September 30, 2008, we were contingently liable for $467 million in guarantees. We have recorded a liability of $5 million for these obligations as of both September 30, 2008, and December 31, 2007. We entered into these contingent guarantees in the normal course of business, and they include guaranteed obligations related to our headquarters building, equipment financings, and affiliated operations. The final guarantee expires in 2022. We are not aware of any existing event of default that would require us to satisfy these guarantees. We do not expect that these guarantees will have a material adverse effect on our consolidated financial condition, results of operations, or liquidity.

Indemnities Our maximum potential exposure under indemnification arrangements, including certain tax indemnifications, can range from a specified dollar amount to an unlimited amount, depending on the nature of the transactions and the agreements. Due to uncertainty as to whether claims will be made or how they will be resolved, we cannot reasonably determine the probability of an adverse claim or reasonably estimate any adverse liability or the total maximum exposure under these indemnification

arrangements. We do not have any reason to believe that we will be required to make any material payments under these indemnity provisions.

16. Share Repurchase Program On January 30, 2007, our Board of Directors authorized the repurchase of up to 40 million shares of Union Pacific Corporation common stock through the end of 2009. On May 1, 2008, our Board of Directors authorized the repurchase of an additional 40 million common shares by March 31, 2011. As of September 30, 2008, we have repurchased a total of $2.8 billion of Union Pacific Corporation common stock since the original repurchase plan was authorized. Our assessments of market conditions and other pertinent facts guide the timing and volume of all repurchases. We expect to fund our common stock repurchases through cash generated from operations, the sale or lease of various operating and non-operating properties, debt issuances, and cash on hand.

	Number of Shares Purchased [a]		*Average Price Paid [a]*	
	2008	*2007*	***2008***	*2007*
First quarter	**6,512,278**	4,088,000	**$61.83**	$49.34
Second quarter	**6,337,197**	7,299,400	**$75.83**	$58.20
Third quarter	**5,943,111**	9,064,042	**$74.85**	$57.97
Total	**18,792,586**	20,451,442	**$70.67**	$56.33
Remaining number of shares that may yet be repurchased [a]				35,960,372

[a] All share numbers and prices have been restated to reflect the stock split completed on May 28, 2008 (see Note 3).

17. Accounting Pronouncements In March 2008, FASB issued Statement No. 161, *Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133* (FAS 161). FAS 161 amends and expands the disclosure requirements of FAS 133 to clarify how and why companies use derivative instruments. In addition, FAS 161 requires more disclosures regarding how companies account for derivative instruments and the impact derivatives have on a company s financial statements. This statement is effective for us beginning in 2009. We are in the process of evaluating the impact FAS 161 may have on our consolidated financial position, results of operations and cash flows.

In May 2008, the FASB issued Statement No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (FAS 162). FAS 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements that are presented in conformity with generally accepted accounting principles in the United States. FAS 162 is effective 60 days following the SEC s approval of the Public Company Accounting Oversight Board amendments to AU Section 411, The Meaning of Present fairly in conformity with generally accepted accounting principles . FAS 162 is not expected to have a material impact on our financial statements.

In June 2008, the FASB released a staff position on Emerging Issues Task Force Issue 03-6, *Participating Securities and the Two-Class Method under FASB Statement No. 128* (EITF 03-6). The staff position concludes that unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents are participating securities as defined in EITF 03-6; and therefore, should be included in computing earnings per share using the two-class method. As discussed in note 4, Union Pacific pays nonforfeitable dividends to its unvested retention awards and performance retention awards. This staff position will be effective for Union Pacific s financial statements beginning in 2009. We are still evaluating the impact that this staff position will have on the presentation of our basic and diluted earnings per share.

Table of Contents

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

UNION PACIFIC CORPORATION AND SUBSIDIARY COMPANIES

RESULTS OF OPERATIONS

Three and Nine Months Ended September 30, 2008, Compared to

Three and Nine Months Ended September 30, 2007

For purposes of this report, unless the context otherwise requires, all references herein to UPC , Corporation , we , us , and our shall mean U Pacific Corporation and its subsidiaries, including Union Pacific Railroad Company, which we separately refer to as UPRR or the Railroad .

The following discussion should be read in conjunction with the Condensed Consolidated Financial Statements and applicable notes to the Condensed Consolidated Financial Statements, Item 1, and other information included in this report. Our Condensed Consolidated Financial Statements are unaudited and reflect all adjustments (consisting only of normal and recurring adjustments) that are, in the opinion of management, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America (GAAP).

The Railroad, along with its subsidiaries and rail affiliates, is our one reportable business segment. Although revenue is analyzed by commodity, we analyze the net financial results of the Railroad as one segment due to the integrated nature of the rail network.

Available Information

Our Internet website is www.up.com. We make available free of charge on our website (under the Investors caption link) our Annual Reports on Form 10-K; our Quarterly Reports on Form 10-Q; our current reports on Form 8-K; our proxy statements; Forms 3, 4, and 5, filed on behalf of directors and executive officers; and amendments to such reports filed or furnished pursuant to the Securities Exchange Act of 1934, as amended (the Exchange Act), as soon as reasonably practicable after such material is electronically filed with, or furnished to, the Securities and Exchange Commission (SEC). We also make available on our website previously filed SEC reports and exhibits via a link to EDGAR on the SEC s Internet site at www.sec.gov. Additionally, our corporate governance materials, including By-Laws, Board Committee charters, governance guidelines and policies, and codes of conduct and ethics for directors, officers, and employees are available on our website. From time to time, the corporate governance materials on our website may be updated as necessary to comply with rules issued by the SEC and the New York Stock Exchange or as desirable to promote the effective and efficient governance of our company. Any security holder wishing to receive, without charge, a copy of any of our SEC filings or corporate governance materials should send a written request to: Secretary, Union Pacific Corporation, 1400 Douglas Street, Omaha, NE 68179.

References to our website address in this report, including references in Management s Discussion and Analysis of Financial Condition and Results of Operations, Item 2, are provided as a convenience and do not constitute, and should not be deemed, an incorporation by reference of the information contained on, or available through, the website. Therefore, such information should not be considered part of this report.

Critical Accounting Policies and Estimates

We base our discussion and analysis of our financial condition and results of operations upon our Condensed Consolidated Financial Statements. The preparation of these financial statements requires estimation and judgment that affect the reported amounts of revenues, expenses, assets, and liabilities. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. If these estimates differ materially from actual results, the impact on the Condensed Consolidated Financial Statements may

be material. Our critical accounting policies are available in Item 7 of our 2007 Annual Report on Form 10-K. There have not been any significant changes with respect to these policies during the first nine months of 2008.

RESULTS OF OPERATIONS

Quarterly Summary

We reported earnings of $1.38 per diluted share on net income of $703 million in the third quarter of 2008 compared to earnings of $1.00 per diluted share on net income of $532 million for the third quarter of 2007. Year-to-date 2008 net income was $1.7 billion versus $1.4 billion for the same period in 2007. Yield increases, network management initiatives, improved productivity, and reduced workforce levels more than offset cost increases due to higher fuel prices, inflation, and weather-related expenses during both periods. In addition, volume levels declined in the third quarter due to continued softness in some market sectors and business disruptions resulting from Hurricanes Gustav and Ike.

In September of this year, Hurricanes Gustav and Ike hit the Gulf Coast area. Although our infrastructure did not sustain significant damage from the hurricanes, debris and downed power lines blocked our tracks from Houston to Arkansas and Louisiana, impacting our network. In addition, widespread and lengthy commercial power outages severely limited the ability of our customers in the region from resuming production for several weeks. The Railroad s operations were fully restored in October. The network outages and disruptions resulted in lost revenue and higher operating costs, reducing third quarter earnings by an estimated $0.08 per diluted share.

Operationally, we improved our network fluidity despite the disruptions caused by the hurricanes. As reported to the Association of American Railroads (AAR), average train speed and terminal dwell time improved 10% and 3%, respectively, during the third quarter of 2008 compared to 2007. Terminal processing initiatives and improved asset utilization, combined with reduced volume levels, drove the improvement.

Operating Revenues

	Three Months Ended September 30,		*%*	*Nine Months Ended September 30,*		*%*
Millions of Dollars	***2008***	*2007*	***Change***	***2008***	*2007*	***Change***
Freight revenues	**$4,630**	$3,990	**16%**	**$13,038**	$11,498	**13%**
Other revenues	**216**	201	**7**	**646**	588	**10**
Total	**$4,846**	$4,191	**16%**	**$13,684**	$12,086	**13%**

The primary drivers of freight revenues are volume (carloads) and average revenue per car (ARC). ARC varies with changes in price, commodity mix, and fuel surcharges. Other revenues consist primarily of revenues earned by our subsidiaries, revenues from our commuter rail operations, and accessorial revenues, which we earn when customers retain equipment owned or controlled by us or when we perform additional services such as switching or storage.

We recognize freight revenues on a percentage-of-completion basis as freight moves from origin to destination. We allocate freight revenues between reporting periods based on the relative transit time in each reporting period and recognize expenses as we incur them. We recognize other revenues as we perform services or meet contractual obligations. As a result of contract negotiations with some of our customers, we have provided incentives for meeting or exceeding specified cumulative volumes or shipping to and from specific locations, which we record as a reduction to freight revenues based on the actual or projected future shipments.

Freight revenue from five of the six commodity groups increased during the third quarter and year-to-date periods of 2008, with particularly strong growth from agricultural and energy shipments. While

Table of Contents

revenue generated from chemical and industrial products shipments grew in both periods compared to 2007, Hurricanes Gustav and Ike reduced shipments of these commodities. Revenue generated from automotive shipments declined versus 2007. ARC increased during both periods compared to 2007, driven by greater fuel cost recoveries and core pricing improvement. Fuel cost recoveries include fuel surcharge revenue and the impact of resetting the base fuel price for certain traffic, as described below in more detail. Volume declined in both periods compared to 2007 as fewer automotive, intermodal, chemical and industrial products shipments more than offset growth of agricultural and energy shipments.

Our fuel surcharge programs (excluding index-based contract escalators that contain some provision for fuel) generated $750 million and $1.79 billion in freight revenues in the third quarter and year-to-date periods of 2008. Fuel surcharge revenue is not comparable to prior periods due to the implementation of new mileage-based fuel surcharge programs beginning in April 2007 for regulated traffic. Regulated traffic represents approximately 19% of our current revenue base. We also converted a portion of our non-regulated traffic to mileage-based fuel surcharge programs. Additionally, we reset the base fuel price at which the new mileage-based fuel surcharges take effect. The resetting of the fuel price at which the fuel surcharge begins, in conjunction with rebasing the affected transportation rates to include a portion of what had been in the fuel surcharge, did not materially change our freight revenue, as higher base rates offset lower fuel surcharge revenue.

Other revenue increased in the third quarter and year-to-date periods of 2008 versus 2007 driven by higher revenues from both our commuter rail operations and our subsidiary that brokers intermodal services. Accessorial revenues also increased in both periods due to improved collection rates.

The following tables summarize the year-over-year changes in freight revenues, revenue carloads, and ARC by commodity type:

Freight Revenues	*Three Months Ended September 30,*		*%*	*Nine Months Ended September 30,*		*%*
Millions of Dollars	***2008***	*2007*	***Change***	***2008***	*2007*	***Change***
Agricultural	**$ 848**	$ 670	**27%**	**$ 2,382**	$ 1,886	**26%**

Average	**$1,931**	$1,582	**22%**	**$1,835**	$1,577	**16%**

Agricultural Products Price improvements, fuel surcharges, and volume growth generated higher agricultural freight revenue in the third quarter and nine-month periods of 2008 versus 2007. Strong global demand for grain and a weak dollar drove higher shipments of corn and feed grains in both periods and shipments of wheat and food grains for the year-to-date period of 2008. Third quarter wheat and food grain shipments declined versus 2007 due to lower Gulf exports, which reached near record levels in the third quarter of 2007.

Automotive Double-digit declines in shipments of both finished vehicles and auto parts drove freight revenue lower in the third quarter and year-to-date periods of 2008 compared to 2007. Price improvements and fuel surcharges partially offset these lower volumes in both periods. The major manufacturers experienced poor sales and reduced vehicle production during the third quarter and all of 2008 due to the soft economy, which in turn reduced shipments of finished vehicles and parts. In addition, a major parts supplier strike reduced volume levels for the year-to-date period compared to 2007. Shipments of finished vehicles decreased 25% and 21% in the third quarter and year-to-date periods of 2008 versus 2007.

Chemicals The primary drivers of higher revenue from chemicals shipments during both the third quarter and year-to-date periods were price improvements and fuel surcharges, which were partially offset by a decrease in volume levels in both periods. Weak market conditions and business interruptions resulting from Hurricanes Gustav and Ike all contributed to lower liquid and dry chemicals shipments. Plastics shipments also declined in both periods due to the effects of the hurricanes.

Energy Price increases, fuel surcharges, and higher volume produced revenue growth in the third quarter and year-to-date periods of 2008 versus 2007. Shipments from the Southern Powder River Basin of Wyoming were up 7% and 6% in the third quarter and year-to-date periods of 2008 compared to 2007. Mine flooding and network interruptions caused by extensive flooding in the Midwest in June of this year partially offset year-to-date volume levels. Conversely, shipments from the Colorado and Utah mines were down 8% and 3% for the third quarter and year-to-date periods of 2008 versus 2007, due to lower mine production.

Industrial Products Price improvements and fuel surcharges contributed to higher freight revenue in the third quarter and year-to-date periods of 2008 compared to 2007. Lower volume partially offset these increases. Continued softening of the housing market and weak market conditions resulted in lower lumber shipments in the third quarter and nine-month periods of 2008. In addition, cement shipments declined in both periods due to a weak overall residential and construction market. Business interruptions resulting from the hurricanes also reduced various construction-related shipments, primarily stone. Conversely, we had higher steel shipments in both periods compared to 2007 as the weak dollar increased the cost of steel imports, creating a strong market for domestic steel.

Intermodal Price increases and fuel surcharges generated the revenue improvement in the third quarter and year-to-date periods of 2008, partially offset by lower volume levels. International traffic declined 14% and 9% in both periods of 2008 versus 2007, reflecting a general softening of imports from China. Notably, the peak intermodal shipping season, which usually starts in the third quarter, was particularly weak this year. Additionally, continued weakness in domestic housing and automotive sectors translated

Table of Contents

into weak demand in large sectors of the international intermodal market, which also contributed to lower volumes. Domestic traffic increased 2% in the third quarter due to growth of our legacy contract business and some share gain from trucks. Year-to-date, domestic traffic declined slightly compared to 2008 due to the loss of a customer contract and lower volumes from less-than-truckload shippers. Additionally, the flood-related embargo on traffic in the Midwest during the second quarter hindered intermodal volume levels in the year-to-date period.

Mexico Business The results for each commodity group include shipments to and from Mexico. Revenue from Mexico business increased 16% to $422 million in the third quarter and 14% to $1.2 billion in the year-to-date period of 2008 compared to 2007. Price improvements and fuel surcharges contributed to these increases in both periods, partially offset by 8% and 3% declines in volume during the third quarter and year-to-date periods.

Operating Expenses

Millions of Dollars	*Three Months Ended September 30,* **2008**	*2007*	*% Change*	*Nine Months Ended September 30,* **2008**	*2007*	*% Change*
Compensation and benefits	**$1,123**	$1,095	**3%**	**$ 3,356**	$3,405	**(1)%**
Fuel	**1,135**	786	**44**	**3,251**	2,201	**48**
Purchased services and materials	**481**	479		**1,444**	1,400	**3**
Depreciation	**348**	332	**5**	**1,034**	984	**5**
Equipment and other rents	**326**	342	**(5)**	**1,006**	1,035	**(3)**
Other	**218**	152	**43**	**659**	550	**20**
Total	**$3,631**	$3,186	**14%**	**$10,750**	$9,575	**12%**

Operating expenses increased $445 million and $1.2 billion in the third quarter and nine-month periods of 2008 versus the comparable periods in 2007. Fuel price per gallon rose 59% and 56% during the third quarter and year-to-date periods, increasing operating expenses by $411 million and $1.15 billion, compared to 2007. Wage, benefit, and materials inflation, higher depreciation and casualty expense, and costs associated with the January Cascade mudslide and Hurricanes Gustav and Ike also increased expenses in both periods. Cost savings from productivity improvements, better resource utilization, and lower volume-related costs in both periods helped offset these increases.

Compensation and Benefits Compensation and benefits include wages, payroll taxes, health and welfare costs, pension costs, other postretirement benefits, and incentive costs. General wage and benefit inflation and higher pension and postretirement benefits increased expenses in the third quarter and year-to-date periods, reflecting higher salaries and wages. Also, in the third quarter of 2007, we incurred lower backpay expenses associated with the 2007 labor contract ratifications and reduced long-term disability costs, further increasing the year-over-year variance. Conversely, productivity initiatives in all areas, combined with lower volume, led to a 3% and 4% decline in our workforce for the third quarter and nine-month periods of 2008, saving $43 million and $146 million, respectively, compared to 2007.

Fuel Fuel includes locomotive fuel and gasoline for highway and non-highway vehicles and heavy equipment. Diesel fuel prices, which averaged $3.70 per gallon (including taxes and transportation costs) in the third quarter of 2008 compared to $2.32 per gallon in the same period in 2007, increased expenses by $411 million. A 7% improvement in our fuel consumption rate resulted in $54 million of cost savings due to the use of newer, more fuel efficient locomotives; our fuel conservation programs; improved network operations; and a shift in commodity mix, primarily due to growth in bulk shipments. Volume, as measured by gross ton-miles, decreased 3% in the third quarter, lowering expenses by $19 million compared to 2007. Year-to-date, diesel fuel prices averaged $3.36 per gallon (including taxes and transportation costs) compared to $2.15 per gallon in the same period in 2007, increasing expenses by $1.15 billion. A 4% improvement in our fuel consumption rate and a 1% decrease in gross-ton-miles reduced expenses by $97 million and $24 million, compared to 2007.

Table of Contents

Purchased Services and Materials Purchased services and materials expense includes the costs of services purchased from outside contractors; materials used to maintain the Railroad s lines, structures, and equipment; costs of operating facilities jointly used by UPRR and other railroads; transportation and lodging for train crew employees; trucking and contracting costs for intermodal containers; leased automobile maintenance expenses; and tools and supplies. Costs associated with the September hurricanes increased expenses approximately $11 million, but were mostly offset by lower locomotive contract repairs and reduced consulting fees. Year-to-date, higher contract costs (including restoration costs related to the January Cascade mudslide, June Midwest flooding, and September hurricanes) increased expenses $35 million compared to 2007. Higher material costs for freight car wheel sets during the year and an increase in the number of wheel sets required to repair flood damaged freight cars during the third quarter also contributed to higher materials expense in both periods. Conversely, rail scrap proceeds associated with our rail replacement program partially offset these increases in both periods.

Depreciation The majority of depreciation relates to track structure, including rail, ties, and other track material. A higher depreciable asset base, reflecting higher capital spending in recent years, increased depreciation expense in the third quarter and year-to-date periods of 2008.

Equipment and Other Rents Equipment and other rents expense primarily includes rental expense that the Railroad pays for freight cars owned by other railroads or private companies; freight car, intermodal, and locomotive leases; other specialty equipment leases; and office and other rentals. Fewer shipments of finished vehicles, industrial products and intermodal containers combined with improved cycle times, which reflect operational improvement and better asset utilization, reduced our short term freight car rental expense by $17 million and $37 million in the third quarter and year-to-date periods of 2008 compared to 2007. In addition, lower lease expense for freight cars and intermodal containers decreased costs in both periods. Conversely, lease expense for fleet vehicles and other equipment increased costs in the third quarter of 2008 compared to 2007.

Other Other costs include personal injury costs, freight and property damage, insurance, environmental expense, state and local taxes, utilities, telephone and cellular expenses, employee travel expense, and computer software and other general expenses. Other costs were higher in the third quarter and nine-month period of 2008 compared to the same periods of 2007, primarily due to an increase in personal injury expenses. We reduced personal injury expense by $30 million and $47 million in the first and third quarters of 2007 as a result of two actuarial studies, which produced unfavorable comparisons for the third quarter and year-to-date periods ended September 30, 2008. Increased property damage expense, state and local taxes, and higher utility costs in the third quarter and year-to-date periods of 2008 also drove the year-over-year increase.

Non-Operating Items

Millions of Dollars	*Three Months Ended September 30,* ***2008***	*2007*	*% Change*	*Nine Months Ended September 30,* ***2008***	*2007*	*% Change*
Other income	**$ 23**	$ 25	**(8)%**	**$ 67**	$ 76	**(12)%**
Interest expense	**(130)**	(124)	**5**	**(384)**	(357)	**8**
Income taxes	**(405)**	(374)	**8**	**(940)**	(866)	**9**

Other Income Other income decreased in the third quarter and year-to-date periods of 2008 compared to 2007 due to lower gains from real estate sales and decreased returns on cash investments reflecting lower interest rates. Higher environmental expense with respect to our non-operating properties also drove the decline in other income for the year-to-date period versus 2007. Higher rental and licensing income in the third quarter and year-to-date periods partially offset the decreases.

Interest Expense Interest expense increased in the third quarter and year-to-date periods of 2008 versus 2007 due to higher weighted-average debt levels. In the third quarter, the weighted-average debt level was

Table of Contents

$8.4 billion, compared to $7.6 billion in 2007. Year-to-date, the weighted-average debt level was $8.2 billion, compared to $7.2 billion in 2007. A lower effective interest rate of 6.2% and 6.3% in the third quarter and year-to-date periods of 2008, respectively, compared to 6.5% and 6.6% in both periods of 2007 partially offset the higher weighted-average debt levels in both periods.

Income Taxes Income taxes were higher in the third quarter and year-to-date periods of 2008 compared to 2007, driven by higher pre-tax income. Our effective tax rates for the third quarter and year-to-date periods of 2008 were 36.6% and 35.9% compared to 41.3% and 38.8% for the corresponding periods of 2007. The lower effective tax rates in 2008 result from several reductions in tax expense related to federal audits and state tax law changes. In addition, the effective tax rates in 2007 were increased by Illinois legislation that increased deferred tax expense in the third quarter of 2007.

OTHER OPERATING/PERFORMANCE AND FINANCIAL STATISTICS

We report key Railroad performance measures weekly to the Association of American Railroads, including carloads, average daily inventory of rail cars on our system, average train speed, and average terminal dwell time. We provide this data on our website at www.up.com/investors/reports/index.shtml.

Operating/Performance Statistics

Railroad performance measures reported to the AAR, as well as other performance measures, are included in the table below:

	Three Months Ended September 30,			*Nine Months Ended September 30,*		
	2008	*2007*	***Change***	***2008***	*2007*	***Change***
Average train speed (miles per hour)	**23.7**	21.5	**10%**	**22.9**	21.6	**6%**
Average terminal dwell time (hours)	**24.4**	25.2	**(3)%**	**24.7**	25.1	**(2)%**
Average rail car inventory (thou.)	**300.4**	311.8	**(4)%**	**303.3**	310.7	**(2)%**
Gross ton-miles (billions)	**262.4**	269.4	**(3)%**	**776.7**	785.1	**(1)%**
Revenue ton-miles (billions)	**145.8**	144.0	**1%**	**427.4**	418.4	**2%**
Operating ratio	**74.9**	76.0	**(1.1)pt**	**78.6**	79.2	**(0.6)pt**
Employees (average)	**48,324**	50,060	**(3)%**	**48,697**	50,529	**(4)%**
Customer satisfaction index	**83**	79	**4pt**	**82**	80	**2pt**

Average Train Speed Average train speed is calculated by dividing train miles by hours operated on our main lines between terminals. Ongoing network management initiatives, productivity improvements, and lower volume levels contributed to 10% and 6% improvements in average train speed during the third quarter and nine-month periods of 2008 compared to 2007, despite network disruptions resulting from the Cascade mudslide in January, Midwest flooding during the second quarter, and the recent hurricanes in September.

Average Terminal Dwell Time Average terminal dwell time is the average time that a rail car spends at our terminals. Lower average terminal dwell time improves asset utilization and service. Average terminal dwell time improved 3% and 2% in the third quarter and nine-month periods of 2008 compared to 2007. Lower volumes combined with initiatives to more timely deliver rail cars to our interchange partners and customers continue to improve dwell time.

Average Rail Car Inventory Our average rail car inventory is the number of freight cars on-line throughout the system. Lower rail car inventory is desirable for network fluidity. Our rail car inventory improved 4% and 2% during the third quarter and year-to-date periods of 2008 compared to 2007, as we continued to focus on network management initiatives.

Gross and Revenue Ton-Miles Gross ton-miles are calculated by multiplying the weight of loaded and empty freight cars by the number of miles hauled. Revenue ton-miles are calculated by multiplying the

Table of Contents

weight of freight by the number of tariff miles. Gross ton-miles decreased 3%, while revenue ton-miles increased 1% in the third quarter of 2008. Increased agricultural shipments (a higher density commodity) with a longer length of haul drove the growth in revenue ton-miles relative to the 5% carload decline.

Operating Ratio Operating ratio is defined as our operating expenses as a percentage of operating revenue. Our operating ratios were 74.9% and 76.0% in the third quarter of 2008 and 2007, respectively. Price increases, fuel cost recoveries, network management initiatives, and improved productivity more than offset the impact of higher fuel prices.

Employees Productivity initiatives reduced employee levels throughout the Company in the third quarter and nine-month periods of 2008 versus 2007. Fewer train and engine personnel due to improved network productivity and lower volumes drove the change.

Customer Satisfaction Index The customer satisfaction survey asks customers to rate how satisfied they are with our performance over the last 12 months on a variety of attributes. A higher score indicates higher customer satisfaction. The improvement in survey results in the third quarter and year-to-date periods of 2008 generally reflects customer recognition of our improving service.

Debt to Capital / Adjusted Debt to Capital

Millions of Dollars, Except Percentages	***Sep. 30, 2008***	*Dec. 31, 2007*
Debt to Capital:		
Debt (a)	**$ 8,462**	$ 7,682
Equity	**15,735**	15,585
Capital (b)	**$24,197**	$23,267
Debt to capital (a/b)	**35.0%**	33.0%
Adjusted Debt to Capital:		
Debt	**$ 8,462**	$ 7,682
Value of sold receivables	**600**	600
Net present value of operating leases	**3,674**	3,783
Adjusted debt (a)	**12,736**	12,065
Equity	**15,735**	15,585
Adjusted capital (b)	**$28,471**	$27,650
Adjusted debt to capital (a/b)	**44.7%**	43.6%

Adjusted debt to capital is a non-GAAP financial measure under SEC Regulation G and Item 10 of SEC Regulation S-K. We believe this measure is important to management and investors in evaluating the total amount of leverage in our capital structure, including off-balance sheet lease obligations, which we generally incur in connection with financing the acquisition of locomotives and freight cars and certain facilities. We monitor the ratio of adjusted debt to capital as we manage our capital structure to balance cost-effective and efficient access to the capital markets with the Corporation s overall cost of capital. Adjusted debt to capital should be considered in addition to, rather than as a substitute for, debt to capital. The tables above provide a reconciliation from debt to capital to adjusted debt to capital. Our September 30, 2008 debt to capital ratios increased as a result of a $780 million net increase in debt from December 31, 2007, and purchases of our common stock under our share repurchase program, partially offset by an increase in retained earnings due to higher earnings in 2008.

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

Financial Condition

Cash Flows	*Nine Months Ended September 30,*	
Millions of Dollars	***2008***	*2007*
Cash provided by operating activities	**$ 3,038**	$ 2,367
Cash used in investing activities	**(2,009)**	(1,808)
Cash used in financing activities	**(1,050)**	(364)
Net change in cash and cash equivalents	**$ (21)**	$ 195

Cash Provided by Operating Activities Higher net income in the first nine months of 2008 and changes in working capital combined to increase cash provided by operating activities. Higher inventory balances, in part due to higher fuel prices, partially offset this increase.

Cash Used in Investing Activities Increased capital investments and lower proceeds from asset sales drove the increase in cash used in investing activities.

The table below details our cash capital investments:

	Nine Months Ended September 30,	
Millions of Dollars	***2008***	*2007*
Track	**$1,320**	$1,226
Capacity and commercial facilities	**476**	330
Locomotives and freight cars	**127**	212
Other	**94**	74
Total	**$2,017**	$1,842

Cash Used in Financing Activities Cash used in financing activities increased in the first nine months of 2008 versus 2007 due to higher debt repayments of $618 million, an increase of $258 million for the repurchase of common shares and an increase of dividends paid, reflecting our higher quarterly dividend. Higher debt issuances of $266 million partially offset these increases.

Free Cash Flow Free cash flow is a non-GAAP financial measure under SEC Regulation G. We believe free cash flow is important to management and investors in evaluating our financial performance and measures our ability to generate cash without incurring additional external financings. Free cash flow should be considered in addition to, rather than as a substitute for, cash provided by operating activities. The table below reconciles cash provided by operating activities (GAAP measure) to free cash flow (non-GAAP measure).

	Nine Months Ended September 30,	
Millions of Dollars	***2008***	*2007*
Cash provided by operating activities	**$ 3,038**	$ 2,367
Cash used in investing activities	**(2,009)**	(1,808)
Dividends paid	**(344)**	(272)
Free cash flow	**$ 685**	$ 287

Table of Contents

Financing Activities

Credit Facilities On September 30, 2008, $1.9 billion of credit was available under our revolving credit facility (the facility). The facility is designated for general corporate purposes and supports the issuance of commercial paper. We have not drawn on the facility during 2008. Commitment fees and interest rates payable under the facility are similar to fees and rates available to comparably rated, investment-grade borrowers. The facility allows borrowings at floating rates based on London Interbank Offered Rates, plus a spread, depending upon our senior unsecured debt ratings. The facility requires maintaining a debt-to-net-worth coverage ratio. At September 30, 2008, and December 31, 2007, we were in compliance with this covenant. The facility does not include any other financial restrictions, credit rating triggers (other than rating-dependent pricing), or any other provision that could require us to post collateral. The facility expires in April 2012 and includes a change-of-control provision.

At September 30, 2008, we had $200 million of commercial paper outstanding. Our commercial paper balance is supported by our revolving credit facility but does not reduce the amount of borrowings available under the facility. During the nine months ended September 30, 2008, we issued $500 million of commercial paper and repaid $300 million. Despite the deterioration of the credit and financial markets, we were able to issue an additional $75 million of commercial paper in October of 2008. We also repaid $75 million of existing commercial paper during October of 2008. As of October 20, 2008, our current outstanding commercial paper balance totaled $200 million and was issued as follows:

- $25 million issued at 4.2%, maturing in October 2008,
- $75 million issued at 5.2%, maturing in November 2008, and
- $100 million issued at 3.9%, maturing in January 2009.

Shelf Registration Statement and Significant New Borrowings Under our current shelf registration statement, we may issue, from time to time, any combination of debt securities, preferred stock, common stock, or warrants for debt securities or preferred stock in one or more offerings. In July 2008, our Board of Directors authorized the issuance of an additional $3 billion of debt securities under our shelf registration. As a result, at September 30, 2008, we had total authority to issue up to $3.75 billion of debt securities.

On October 7, 2008, we issued $750 million of 7.875% unsecured fixed-rate notes due January 15, 2019. The net proceeds from this offering are for general corporate purposes, including the repurchase of common stock pursuant to our share repurchase program. These debt securities include change-of-control provisions.

We have no immediate plans to issue equity securities; however, we will continue to explore opportunities to replace existing debt or access capital through issuances of debt securities under our shelf registration. Accordingly, we may issue additional debt securities at any time.

On April 17, 2008, we borrowed $100 million under a 5-year-term loan facility (the loan). The loan has a floating rate based on London Interbank Offered Rates, plus a spread, and is prepayable in whole or in part without a premium prior to maturity. The agreement documenting the loan has provisions similar to our revolving credit facility, including identical debt-to-net-worth covenant and change-of-control provisions and similar customary default provisions. The agreement does not include any other financial restrictions, credit rating triggers, or any other provision that would require us to post collateral.

As of September 30, 2008, and December 31, 2007, we have reclassified as long-term debt approximately $650 million and $550 million, respectively, of debt due within one year that we intend to refinance. This reclassification reflects our ability and intent to refinance any short-term borrowings and certain current maturities of long-term debt on a long-term basis.

Table of Contents

Common Shareholders Equity

Stock Split On May 28, 2008, we completed a two-for-one stock split, effected in the form of a 100% stock dividend. The stock split entitled all shareholders of record at the close of business on May 12, 2008, to receive one additional share of our common stock, par value $2.50 per share, for each share of common stock held on that date.

Share Repurchase Program On January 30, 2007, our Board of Directors authorized the repurchase of up to 40 million shares of Union Pacific Corporation common stock through the end of 2009. On May 1, 2008, our Board of Directors authorized the repurchase of an additional 40 million common shares by March 31, 2011. As of September 30, 2008, we have repurchased a total of $2.8 billion of Union Pacific Corporation common stock since the original repurchase plan was authorized. Our assessments of market conditions and other pertinent facts guide the timing and volume of all repurchases. We expect to fund our common stock repurchases through cash generated from operations, the sale or lease of various operating and non-operating properties, debt issuances, and cash on hand.

	Number of Shares Purchased [a]		*Average Price Paid [a]*	
	2008	*2007*	***2008***	*2007*
First quarter	**6,512,278**	4,088,000	**$61.83**	$49.34
Second quarter	**6,337,197**	7,299,400	**$75.83**	$58.20
Third quarter	**5,943,111**	9,064,042	**$74.85**	$57.97
Total	**18,792,586**	20,451,442	**$70.67**	$56.33
Remaining number of shares that may yet be repurchased [a]				35,960,372

[a] All share numbers and prices have been restated to reflect the stock split completed on May 28, 2008.

Off-Balance Sheet Arrangements, Contractual Obligations, and Commercial Commitments

As described in the notes to the Condensed Consolidated Financial Statements and as referenced in the tables below, we have contractual obligations and commercial commitments that may affect our financial condition. Based on our assessment of the underlying provisions and circumstances of our contractual obligations and commercial commitments, including material sources of off-balance sheet and structured finance arrangements, other than the risks that we and other similarly situated companies face with respect to the current and future condition of the capital markets (as described in Item 1A of Part II of this report), there is no known trend, demand, commitment, event, or uncertainty that is reasonably likely to occur that would have a material adverse effect on our consolidated results of operations, financial condition, or liquidity. In addition, our commercial obligations, financings, and commitments are customary transactions that are similar to those of other comparable corporations, particularly within the transportation industry.

Table of Contents

The following tables identify material obligations and commitments as of September 30, 2008:

Contractual Obligations		*Payments Due by September 30,*						
Millions of Dollars	*Total*	*2009*	*2010*	*2011*	*2012*	*2013*	*After 2013*	*Other*
Debt [a]	$11,619	$1,296	$ 718	$ 836	$1,011	$ 891	$ 6,867	$
Operating leases	5,836	633	583	546	471	386	3,217	
Capital lease obligations [b]	1,914	191	173	179	121	155	1,095	
Purchase obligations [c]	3,519	728	384	346	260	244	1,525	32
Other post retirement benefits [d]	396	39	40	41	41	41	194	
Income tax contingencies [e]	157	137						20
Total contractual obligations	$23,441	$3,024	$1,898	$1,948	$1,904	$1,717	$12,898	$ 52

[a] Excludes capital lease obligations of $1,276 million, unamortized discount of $(106) million, and market value adjustments of $3 million for debt with qualifying hedges that are recorded as assets on the Condensed Consolidated Statements of Financial Position. Includes an interest component of $4,330 million.

[b] Represents total obligations, including interest component of $638 million.

[c] Purchase obligations include locomotive maintenance contracts; purchase commitments for locomotives, ties, ballast, and rail; and agreements to purchase other goods and services. For amounts where we can not reasonably estimate the year of settlement, they are reflected in the Other column.

[d] Includes estimated other postretirement, medical, and life insurance payments and payments made under the unfunded pension plan for the next ten years. No amounts are included for funded pension as no contributions are currently required.

[e] Future cash flows for income tax contingencies reflect the liability recorded, including interest and penalties, in accordance with FIN 48 as of September 30, 2008. Where we can reasonably estimate the years in which these liabilities may be settled, this is shown in the table. For amounts where we can not reasonably estimate the year of settlement, they are reflected in the Other column.

Other Commercial Commitments		*Amount of Commitment Expiration by September 30,*					
Millions of Dollars	*Total*	*2009*	*2010*	*2011*	*2012*	*2013*	*After 2013*
Credit facilities [a]	$1,900	$	$	$	$1,900	$	$
Sale of receivables [b]	600	600					
Guarantees [c]	467	28	47	62	35	7	288
Standby letters of credit [d]	28	28					
Total commercial commitments	$2,995	$656	$ 47	$ 62	$1,935	$ 7	$288

[a] None of the credit facility was used as of September 30, 2008.

[b] $600 million of the sale of receivables program was utilized at September 30, 2008.

[c] Includes guaranteed obligations related to our headquarters building, equipment financings, and affiliated operations.

[d] None of the letters of credit were drawn upon as of September 30, 2008.

Sale of Receivables The Railroad transfers most of its accounts receivable to Union Pacific Receivables, Inc. (UPRI), a bankruptcy-remote subsidiary, as part of a sale of receivables facility. UPRI sells, without recourse on a 364-day revolving basis, an undivided interest in such accounts receivable to investors. The total capacity to sell undivided interests to investors under the facility was $600 million at September 30, 2008, and December 31, 2007. The value of the outstanding undivided interest held by investors under the facility was $600 million at September 30, 2008, and December 31, 2007. The value of the outstanding undivided interest held by investors is not included in our Condensed Consolidated Financial Statements. The value of the undivided interest held by investors was supported by $1,231 million and $1,071 million of accounts receivable held by UPRI at September 30, 2008, and December 31, 2007, respectively. At September 30, 2008, and December 31, 2007, the value of the interest retained by UPRI was $631 million and $471 million, respectively. This retained interest is included in accounts receivable in our Condensed Consolidated Financial Statements. The interest sold to investors is sold at carrying value, which approximates fair value, and there is no gain or loss recognized from the transaction.

The value of the outstanding undivided interest held by investors could fluctuate based upon the availability of eligible receivables and is directly affected by changing business volumes and credit risks, including default and dilution. If default or dilution percentages were to increase one percentage point,

Table of Contents

the amount of eligible receivables would decrease by $6 million. Should our credit rating fall below investment grade, the value of the outstanding undivided interest held by investors would be reduced, and, in certain cases, the investors would have the right to discontinue the facility.

The Railroad services the sold receivables; however, the Railroad does not recognize any servicing asset or liability, as the servicing fees adequately compensate us for these responsibilities. The Railroad collected approximately $4.7 billion and $4.1 billion during the three months ended September 30, 2008 and 2007, respectively, and $13.3 billion and $11.8 billion during the nine months ended September 30, 2008 and 2007, respectively. UPRI used certain of these proceeds to purchase new receivables under the facility.

The costs of the sale of receivables program are included in other income and were $5 million and $9 million for the three months ended September 30, 2008 and 2007, respectively, and $17 million and $26 million for the nine months ended September 30, 2008 and 2007, respectively. The costs include interest, program fees paid to banks, commercial paper issuing costs, and fees for unused commitment availability.

The investors have no recourse to the Railroad s other assets except for customary warranty and indemnity claims. Creditors of the Railroad do not have recourse to the assets of UPRI. In October 2008, we extended the sale of receivables program to August 2009 without any significant changes in terms, except to increase the capacity to sell undivided interests to $660 million.

OTHER MATTERS

Asserted and Unasserted Claims Various claims and lawsuits are pending against us and certain of our subsidiaries. We cannot fully determine the effect of all asserted and unasserted claims on our consolidated results of operations, financial condition, or liquidity; however, to the extent possible, where asserted and unasserted claims are considered probable and where such claims can be reasonably estimated, we have recorded a liability. We do not expect that any known lawsuits, claims, environmental costs, commitments, contingent liabilities, or guarantees will have a material adverse effect on our consolidated results of operations, financial condition, or liquidity after taking into account liabilities previously recorded for these matters.

Indemnities Our maximum potential exposure under indemnification arrangements, including certain tax indemnifications, can range from a specified dollar amount to an unlimited amount, depending on the nature of the transactions and the agreements. Due to uncertainty as to whether claims will be made or how they will be resolved, we cannot reasonably determine the probability of an adverse claim or reasonably estimate any adverse liability or the total maximum exposure under these indemnification arrangements. We do not have any reason to believe that we will be required to make any material payments under these indemnity provisions.

Accounting Pronouncements In March 2008, the Financial Accounting Standards Board (FASB) issued Statement No. 161, *Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133* (FAS 161). FAS 161 amends and expands the disclosure requirements of FAS 133 to clarify how and why companies use derivative instruments. In addition, FAS 161 requires more disclosures regarding how companies account for derivative instruments and the impact derivatives have on a company s financial statements. This statement is effective for us beginning in 2009. We are in the process of evaluating the impact FAS 161 may have on our consolidated financial position, results of operations and cash flows.

In May 2008, the FASB issued Statement No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (FAS 162). FAS 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements that are presented in conformity with generally accepted accounting principles in the United States. FAS 162 is effective 60 days following the SEC s approval of the Public Company Accounting Oversight Board amendments to AU Section 411, The Meaning of Present fairly in conformity with generally accepted accounting principles . FAS 162 is not expected to have a material impact on our financial statements.

Table of Contents

In June 2008, the FASB released a staff position on Emerging Issues Task Force Issue 03-6, *Participating Securities and the Two-Class Method under FASB Statement No. 128* (EITF 03-6). The staff position concludes that unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents are participating securities as defined in EITF 03-6; and therefore, should be included in computing earnings per share using the two-class method. As discussed in note 4, Union Pacific pays nonforfeitable dividends to its unvested retention awards and performance retention awards. This staff position will be effective for Union Pacific s financial statements beginning in 2009. We are still evaluating the impact that this staff position will have on the presentation of our basic and diluted earnings per share.

CAUTIONARY INFORMATION

Certain statements in this report, and statements in other reports or information filed or to be filed with the SEC (as well as information included in oral statements or other written statements made or to be made by us), are, or will be, forward-looking statements as defined by the Securities Act of 1933 and the Securities Exchange Act of 1934. These forward-looking statements include, without limitation, statements and information set forth under the caption 2008 Outlook in Item 7 of our 2007 Annual Report on Form 10-K, and any other statements or information in this report (including information incorporated herein by reference) regarding: expectations as to operational or service improvements; expectations regarding the effectiveness of steps taken or to be taken to improve operations, service, infrastructure improvements, transportation plan modifications, and management of customer traffic on the system to meet demand; expectations as to cost savings, revenue growth, and earnings; the time by which goals, targets, or objectives will be achieved; projections, predictions, expectations, estimates, or forecasts as to our business, financial and operational results, future economic performance, and general economic conditions; proposed new products and services; estimates of costs relating to environmental remediation and restoration; expectations that claims, litigation, environmental costs, commitments, contingent liabilities, labor negotiations or agreements, or other matters will not have a material adverse effect on our consolidated results of operations, financial condition, or liquidity and any other similar expressions concerning matters that are not historical facts.

Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times that, or by which, such performance or results will be achieved. Forward-looking information is subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements.

Forward-looking statements and information reflect the good faith consideration by management of currently available information, and may be based on underlying assumptions believed to be reasonable under the circumstances. However, such information and assumptions (and, therefore, such forward-looking statements and information) are or may be subject to variables or unknown or unforeseeable events or circumstances over which management has little or no influence or control. The Risk Factors in Item 1A of our Annual Report on Form 10-K, filed on February 28, 2008, could affect our future results and could cause those results or other outcomes to differ materially from those expressed or implied in the forward-looking statements, and this report, including this Item 2, should be read in conjunction with these Risk Factors. To the extent circumstances require or we deem it otherwise necessary, we will update or amend these risk factors in a Form 10-Q or Form 8-K. Amendments and additions to these risk factors are set forth in Item 1A of Part II of this report.

Forward-looking statements speak only as of the date the statement was made. We assume no obligation to update forward-looking information to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information. If we do update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect thereto or with respect to other forward-looking statements.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There were no material changes to the Quantitative and Qualitative Disclosures About Market Risk previously disclosed in our 2007 Annual Report on Form 10-K.

Item 4. Controls and Procedures

As of the end of the period covered by this report, the Corporation carried out an evaluation, under the supervision and with the participation of the Corporation s management, including the Corporation s Chief Executive Officer (CEO) and Executive Vice President Finance and Chief Financial Officer (CFO), of the effectiveness of the design and operation of the Corporation s disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Based upon that evaluation, the CEO and the CFO concluded that, as of the end of the period covered by this report, the Corporation s disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the SEC, and that such information is accumulated and communicated to management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Additionally, the CEO and CFO determined that there have been no changes to the Corporation s internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Corporation s internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are involved in legal proceedings, claims, and litigation that occur in connection with our business. Management routinely assesses our liabilities and contingencies in connection with these matters based upon the latest available information. Consistent with SEC rules and requirements, we describe material pending legal proceedings (other than ordinary routine litigation incidental to our business), material proceedings known to be contemplated by governmental authorities, other proceedings arising under federal, state, or local environmental laws and regulations (including governmental proceedings involving potential fines, penalties, or other monetary sanctions in excess of $100,000) and such other pending matters that we may determine to be appropriate. We do not have any matters or events requiring a disclosure under this Item 1 for the period covered by this report.

Environmental Matters

We received notices from the EPA and state environmental agencies alleging that we are or may be liable under federal or state environmental laws for remediation costs at various sites throughout the United States, including sites on the Superfund National Priorities List or state superfund lists. We cannot predict the ultimate impact of these proceedings and suits because of the number of potentially responsible parties involved, the degree of contamination by various wastes, the scarcity and quality of volumetric data related to many of the sites, and the speculative nature of remediation costs.

Information concerning environmental claims and contingencies and estimated remediation costs is set forth in Management s Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies Environmental, Item 7 of our 2007 Annual Report on Form 10-K.

Other Matters

None.

Item 1A. Risk Factors

The following amendments and additions to the risk factors included under this Item 1A reflect the current conditions of the capital markets, which present uncertainties to all companies that rely on capital markets for liquidity or financing. The information in this Item 1A should be considered in conjunction with the other risk factors identified in our 2007 Annual Report on Form 10-K filed on February 28, 2008 and the statements under the caption Cautionary Information in Item 2 of Part I of this report.

We May Be Affected by General Economic Conditions Prolonged negative changes in domestic and global economic conditions or disruptions of either or both of the financial and credit markets, including the availability of short and long-term debt financing, may affect the producers and consumers of the commodities we carry and may have a material adverse effect on our results of operations, financial condition, and liquidity.

We Utilize Capital Markets We rely on the capital markets to provide some of our capital requirements, including the issuance of long-term debt instruments and commercial paper from time-to-time, as well as the sale of certain of our receivables. Significant instability or disruptions of the capital markets, including the credit markets, or deterioration of our financial condition due to internal or external factors could restrict or prohibit our access to, and significantly increase the cost of, commercial paper and other financing sources, including bank credit facilities and issuance of corporate bonds. Any of these factors alone or in combination could also result in a reduction of our credit rating to below investment grade, which could prohibit or restrict us from utilizing our current sale of receivables program or accessing external sources of short and long-term debt financing and significantly increase the costs associated with utilizing a sale of receivables program and issuing both commercial paper and long-term debt.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of Equity Securities The following table presents common stock repurchases during each month for the third quarter of 2008:

Period	*Total Number of Shares Purchased [a]*	*Average Price Paid per Share*	*Total Number of Shares Purchased as Part of a Publicly Announced Plan or Program [b]*	*Maximum Number of Shares That May Yet Be Purchased Under the Plan or Program [b]*
Jul. 1 through Jul. 31	3,684,021	$73.31	3,627,211	38,276,272
Aug. 1 through Aug. 31	1,488,978	78.99	1,483,800	36,792,472
Sep. 1 through Sep. 30	840,119	74.83	832,100	35,960,372
Total	6,013,118	$74.93	5,943,111	N/A

[a] *Total number of shares purchased during the quarter includes 70,007 shares delivered or attested to UPC by employees to pay stock option exercise prices, satisfy excess tax withholding obligations for stock option exercises or vesting of retention units, and pay withholding obligations for vesting of retention shares.*

[b] *On January 30, 2007, our Board of Directors authorized us to repurchase up to 20 million (40 million post-split) shares of our common stock through December 31, 2009. We may make these repurchases on the open market or through other transactions. Our management has sole discretion with respect to determining the timing and amount of these transactions. On May 1, 2008, our Board of Directors authorized an additional repurchase of 20 million (40 million post-split) shares of our common stock through March 31, 2011.*

Dividend Restriction We have a restriction related to the payment of cash dividends to our shareholders due to a debt-to-net-worth covenant requirement under our current revolving credit facility. The amount of retained earnings available for dividends was $11.3 billion and $11.5 billion at September 30, 2008 and December 31, 2007, respectively.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information

None.
