* As permitted by Rule 429 under the Securities Act of 1933, the Prospectus included in this Registration Statement also relates to US aggregate principal amount of unsold securities registered by Registration Statement No. 333-111007. This Registration Statement also constitutes Post-Effective Amendment No. 1 to Registration Statement No. 333-111007.

- (1) An indeterminate aggregate initial offering price or number of the securities of each identified class is being registered as may from time to time be offered at indeterminate prices. Separate consideration may or may not be received for securities that are issuable on exercise, conversion or exchange of other securities or that are issued in units or represented by depository shares.
- (2) Includes an unspecified number of securities that may be offered by affiliates of the Registrants in market-making transactions.
- (3) In accordance with Rules 456(b) and 457(r) the Registrants are deferring payment of all of the registration fee due in connection with the securities offered hereby and the Registrants will pay pay-as-you-go registration fees.
- (4) Each depository share will be issued under a deposit agreement, will represent an interest in a fractional share or multiple shares of preferred stock and will be evidenced by a depository receipt.
- (5) Each unit will be issued under a unit agreement or indenture and will represent an interest in two or more debt securities, warrants, purchase contracts, shares of preferred stock, depository shares and capital securities, which may or may not be separable from one another.

Popular, Inc. from time to time may offer to sell senior or subordinated debt securities, preferred stock, either separately or represented by depository shares, common stock, warrants and purchase contracts, as well as units that include any of these securities or securities of other entities. The debt securities, preferred stock, warrants and purchase contracts may be convertible into or exercisable or exchangeable for common or preferred stock or other securities of Popular, Inc. or debt or equity securities of one or more other entities. Popular Inc.'s common stock is listed on the Nasdaq Stock Market and trades under the ticker symbol **BPOP**.

Popular Capital Trust III, Popular Capital Trust IV, Popular North America Capital Trust II and Popular North America Capital Trust III may offer and sell capital securities, in one or more offerings. Capital securities are preferred securities representing preferred beneficial interests in the applicable issuer trust.

These securities may be offered and sold to or through one or more underwriters, dealers and agents, including Popular Securities, Inc., a broker-dealer subsidiary of Popular, or directly to purchasers, on a continuous or delayed basis.

This prospectus describes some of the general terms that may apply to these securities. The specific terms of any securities to be offered and the specific manner in which they may be offered will be described in a supplement to this prospectus. This prospectus may not be used to sell securities unless accompanied by a prospectus supplement. Each prospectus supplement will indicate if the securities offered thereby will be listed on any securities exchange.

Edgar Filing: POPULAR CAPITAL TRUST III - Form S-3ASR

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

These securities are not deposits or savings accounts but are unsecured obligations of Popular or of one of the trusts referred to above. These securities are not insured by the Federal Deposit Insurance Corporation or any other governmental agency or instrumentality.

Prospectus dated June 12, 2009.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission, which we refer to as the SEC, utilizing a shelf registration or continuous offering process. Under this shelf registration or continuous offering process, we or the trusts may sell any combination of the securities described in this prospectus in one or more offerings.

This prospectus gives you a general description of the securities that we or the trusts may offer. Each time we or the trusts sell securities, we or the trusts will provide a prospectus supplement containing specific information about the terms of the securities being offered. A prospectus supplement may include a discussion of any risk factors or other special considerations applicable to those securities or to us and may also include, if applicable, a discussion of material United States federal income tax considerations and considerations under the Employee Retirement Income Security Act of 1974, as amended, which we refer to as ERISA. A prospectus supplement may also add, update or change information in this prospectus. If there is any inconsistency between the information in this prospectus and the applicable prospectus supplement, you must rely on the information in the prospectus supplement. You should read both this prospectus and any prospectus supplement together with additional information described under [Where You Can Find More Information](#).

The registration statement containing this prospectus, including exhibits to the registration statement, provides additional information about us and the securities offered under this prospectus. The registration statement can be read at the SEC's web site or at the SEC's public reference room described under [Where You Can Find More Information](#).

When you acquire any securities discussed in this prospectus, you should rely only on the information provided in this prospectus and in the applicable prospectus supplement, including the information incorporated by reference herein and therein. Reference to a prospectus supplement means the prospectus supplement describing the specific terms of the securities you purchase. The terms used in your prospectus supplement will have the meanings described in this prospectus, unless otherwise specified. Neither we nor the trusts, nor any underwriters or agents whom we may from time to time retain, have authorized anyone to provide you with different information. Neither we nor the trusts are offering the securities in any jurisdiction where the offer is prohibited. You should not assume that the information in this prospectus, any prospectus supplement, or any document incorporated by reference, is truthful or complete at any date other than the date mentioned on the cover page of these documents.

We or the trusts may sell securities to underwriters who will sell the securities to the public on terms fixed at the time of sale. In addition, we or the trusts may sell the securities directly or through dealers or agents designated from time to time. If we or the trusts, directly or through agents, solicit offers to purchase the securities, we and the trusts reserve the sole right to accept and, together with any agents, to reject, in whole or in part, any of those offers. In addition, selling securityholders may sell the securities on terms described in the applicable prospectus supplement.

Any prospectus supplement will contain the names of the underwriters, dealers or agents, if any, together with the terms of offering, the compensation of those underwriters and the net proceeds to us. Any underwriters, dealers or agents participating in the offering may be deemed underwriters within the meaning of the Securities Act of 1933, as amended, which we refer to as the Securities Act.

References in this prospectus to the Company, Popular, Popular, Inc, we, us or our refer to Popular, Inc. and its subsidiaries.

Unless otherwise stated, currency amounts in this prospectus and any prospectus supplement are stated in United States dollars, or \$.

Table of Contents

WHERE YOU CAN FIND MORE INFORMATION

We are required to file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any documents filed by us at the SEC's public reference room at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. Our filings with the SEC are also available to the public through the SEC's Internet site at <http://www.sec.gov>.

We have filed with the SEC a registration statement on Form S-3 relating to the securities covered by this prospectus. This prospectus is a part of the registration statement and does not contain all the information in the registration statement. Whenever a reference is made in this prospectus to a contract or other document of the Company, the reference is only a summary and you should refer to the exhibits that are a part of the registration statement for a copy of the contract or other document. You may review a copy of the registration statement at the SEC's public reference room in Washington, D.C., as well as through the SEC's Internet site.

INCORPORATION OF CERTAIN INFORMATION BY REFERENCE

The SEC's rules allow us to incorporate by reference information into this prospectus. This means that we can disclose important information to you by referring you to another document. Any information referred to in this way is considered part of this prospectus from the date we file that document. Any reports filed by us with the SEC after the date of this prospectus and before the date that the offering of the securities by means of this prospectus is terminated will automatically update and, where applicable, supersede any information contained in this prospectus or incorporated by reference in this prospectus.

We incorporate by reference into this prospectus the following documents or information filed with the SEC (other than, in each case, documents or information deemed to have been furnished and not filed in accordance with SEC rules):

- (1) Annual Report on Form 10-K for the fiscal year ended December 31, 2008;
- (2) Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2009;
- (3) Current Reports on Form 8-K filed on January 9, 2009 and February 23, 2009; and
- (4) Registration Statements filed pursuant to Section 12 of the Exchange Act and any amendments or reports filed for the purpose of updating such description.

All documents filed by the Company under Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 on or after the date of this prospectus and before (1) the completion of the offering of the securities described in this prospectus and (2) the date any broker-dealer subsidiaries stop offering securities pursuant to the prospectus shall be incorporated by reference in this prospectus from the date of filing of such documents.

We will provide without charge to each person, including any beneficial owner, to whom this prospectus is delivered, upon his or her written or oral request, a copy of any or all documents referred to above which have been or may be incorporated by reference into this prospectus excluding exhibits to those documents unless they are specifically incorporated by reference into those documents. You can request those documents from Enrique Martel, Corporate Communications, Popular, Inc., P.O. Box 362708, San Juan, Puerto Rico 009396-2708.

Table of Contents

We have not included or incorporated by reference in this prospectus any separate financial statements of the trusts. We do not believe that these financial statements would provide holders of preferred securities with any important information for the following reasons:

we will own all of the voting securities of the trusts;

the trusts do not and will not have any independent operations other than to issue securities and to purchase and hold our debt securities; and

we are fully and unconditionally guaranteeing the obligations of the trusts as described in this prospectus.

We do not expect that the trusts will be required to file information with the SEC on an ongoing basis for as long as we continue to file our information with the SEC.

NOTE REGARDING FORWARD-LOOKING STATEMENTS AND CERTAIN RISKS

Certain statements in this prospectus are forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements may relate to Popular's financial condition, results of operations, plans, objectives, future performance and business, including, but not limited to, statements with respect to the adequacy of the allowance for loan losses, market risk and the impact of interest rate changes, capital adequacy and liquidity, and the effect of legal proceedings and new accounting standards on Popular's financial condition and results of operations. All statements contained herein that are not clearly historical in nature are forward-looking, and the words anticipate, believe, continues, expect, estimate, intend, project and similar expressions and future or conditional verbs such as will, should, could, might, can, may, or similar expressions are generally intended to identify forward-looking statements.

These forward-looking statements involve certain risks, uncertainties, estimates and assumptions by management. Various factors, some of which are beyond Popular's control, could cause actual results to differ materially from those contemplated by such forward-looking statements. Factors that might cause such a difference include, but are not limited to:

the rate of declining growth in the economy and employment levels, as well as general business and economic conditions;

changes in interest rates, as well as the magnitude of such changes;

the fiscal and monetary policies of the federal government and its agencies;

changes in federal bank regulatory and supervisory policies, including required levels of capital;

the relative strength or weakness of the consumer and commercial credit sectors and of the real estate markets in Puerto Rico and the other markets in which borrowers are located;

the performance of the stock and bond markets;

competition in the financial services industry;

Edgar Filing: POPULAR CAPITAL TRUST III - Form S-3ASR

possible legislative or regulatory changes; and

difficulties in combining the operations of acquired entities.

All forward-looking statements included in this prospectus are based upon information available to Popular as of the date of this document, and we assume no obligation to update or revise any such forward-looking statements.

Table of Contents

POPULAR, INC.

Popular, Inc. is a full service financial institution with operations in Puerto Rico, the mainland United States, the Caribbean and Latin America. Headquartered in San Juan, Puerto Rico, Popular offers financial services in Puerto Rico and the mainland United States and processing services in the Caribbean and Latin America. As of March 31, 2009, Popular had approximately \$37.7 billion in assets, \$27.1 billion in deposits and \$3.1 billion in stockholders' equity. Our executive offices are located at 209 Muñoz Rivera Avenue, Hato Rey, Puerto Rico 00918, and our telephone number is (787) 765-9800.

Popular is a holding company and services its obligations primarily with dividends and advances that it receives from subsidiaries. Popular's subsidiaries that operate in the banking business can only pay dividends if they are in compliance with the applicable regulatory requirements imposed on them by federal and state bank regulatory authorities and regulators. Popular's subsidiaries may be party to credit agreements that also may restrict their ability to pay dividends. Popular currently believes that none of these regulatory or contractual restrictions on the ability of its subsidiaries to pay dividends will affect Popular's ability to service its own debt. Popular must also maintain required capital levels of a bank holding company before it may pay dividends on its stock.

Under the regulations of the Board of Governors of the Federal Reserve System (the "Federal Reserve"), a bank holding company is expected to act as a source of financial strength for its subsidiary banks. As a result of this regulatory policy, the Federal Reserve might require Popular to commit resources to its subsidiary banks when doing so is not otherwise in the interests of Popular or its shareholders or creditors.

Banco Popular De Puerto Rico

Our principal bank subsidiary, Banco Popular de Puerto Rico ("Banco Popular" or the "Bank"), was organized in 1893 and is Puerto Rico's largest bank with consolidated total assets of \$24.3 billion, deposits of \$18.0 billion and stockholders' equity of \$2.0 billion at March 31, 2009. The Bank accounted for 64% of the total consolidated assets of the Company at March 31, 2009. Banco Popular has the largest retail franchise in Puerto Rico and has the largest trust operation in Puerto Rico. The Bank also operates seven branches in the U.S. Virgin Islands, one branch in the British Virgin Islands and one branch in New York. Banco Popular's deposits are insured under the Bank Insurance Fund ("BIF") of the Federal Deposit Insurance Corporation (the "FDIC"). Banco Popular has two subsidiaries, Popular Auto, Inc., a vehicle financing, leasing and daily rental company and Popular Mortgage, Inc., a mortgage loan company.

POPULAR INTERNATIONAL BANK, INC.

PIB is a wholly owned subsidiary of the Popular, Inc. organized in 1992 that operates as an international banking entity under the International Banking Center Regulatory Act of Puerto Rico (the "IBC Act"). PIB is a registered bank holding company under the BHC Act and is principally engaged in providing managerial services to its subsidiaries.

Condensed consolidated financial information of Popular, Inc. with separate columns for Popular, Inc., Popular International Bank, Inc., other subsidiaries of Popular, Inc. on a combined basis, consolidated adjustments and the total consolidated amounts are included in the notes to Popular, Inc.'s consolidated financial statements that are incorporated by reference herein.

Popular International Bank, Inc.'s principal executive offices are located at 209 Muñoz Rivera Avenue, San Juan, Puerto Rico 00918, and its telephone number is (787) 765-9800.

Table of Contents

POPULAR NORTH AMERICA, INC.

Popular North America, Inc. (PNA), a wholly owned subsidiary of PIB and an indirect wholly owned subsidiary of Popular, Inc., was organized in 1991 under the laws of the State of Delaware and is a registered bank holding company under the BHC Act. PNA functions as a holding company for Popular, Inc.'s mainland U.S. operations. As of March 31, 2009, PNA had five direct subsidiaries, all of which were wholly owned: Banco Popular North America (BPNA), a full service commercial bank incorporated in the State of New York; Popular Financial Holdings, Inc., a consumer finance company; BanPonce Trust I, Popular North America Capital Trust I, statutory business trusts; and EVERTEC USA, Inc. which provides processing services.

Condensed consolidated financial information of Popular, Inc. with separate columns for Popular, Inc., Popular North America, Inc., other subsidiaries of Popular, Inc. on a combined basis, consolidated adjustments and the total consolidated amounts are included in the notes to Popular, Inc.'s consolidated financial statements that are incorporated by reference.

Popular North America, Inc.'s principal executive offices are located at 209 Muñoz Rivera Avenue, San Juan, Puerto Rico 00918, and its telephone number is (787) 765-9800.

POPULAR AND POPULAR NORTH AMERICA CAPITAL TRUSTS

Popular Capital Trust III, Popular Capital Trust IV, Popular North America Capital Trust II and Popular North America Capital Trust III are statutory trusts formed under Delaware law by:

the execution of a declaration of trust and trust agreement by Popular or Popular North America, as depositor, and certain of the trustees of the trusts, and

the filing of a certificate of trust with the Secretary of State of the State of Delaware.

The capital securities offered hereby will constitute all of the capital securities of the trusts. Popular, or one of its affiliates, will acquire all of the common securities of the trusts.

Popular or one of its affiliates will pay all fees and expenses related to the trusts and the offering of the common securities and the capital securities.

RISK FACTORS

Before investing in any securities offered hereby, you should consider carefully each of the risk factors set forth under Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009. See Where You Can Find More Information in this prospectus.

DESCRIPTION OF DEBT SECURITIES WE MAY OFFER

Information About Our Debt Securities

Three different issuers may offer debt securities using this prospectus: Popular, Inc., Popular International Bank, Inc. and Popular North America, Inc. In this section, we use we when referring to the issuers collectively and the issuer when referring to the particular company that issues a particular debt security or series of debt securities.

Table of Contents

As required by U.S. federal law for all debt securities of companies that are publicly offered, the debt securities issued under this prospectus are governed by documents called indentures. The indentures are contracts between us and The Bank of New York Mellon Trust Company, National Association, which currently acts as trustee under each of the indentures. The trustee has two main roles:

First, the trustee can enforce your rights against us if we default. There are some limitations on the extent to which the trustee acts on your behalf, described below under **Default and Remedies** ; and

Second, the trustee performs administrative duties for us, such as sending you interest payments, transferring your debt security to a new buyer if you sell and sending you notices.

The indentures permit us to issue different series of debt securities from time to time. We may issue debt securities in such amounts, at such times and on such terms as we wish. The debt securities will differ from one another in their terms.

Popular, Inc. may issue senior debt securities under an indenture dated as of February 15, 1995, as supplemented by the First Supplemental Indenture dated as of May 8, 1997 and as further supplemented by the Second Supplemental Indenture dated as of August 5, 1999 and the Third Supplemental Indenture dated as of September 10, 2008, in each case between Popular, Inc. and the trustee. Popular, Inc. may issue subordinated debt securities under an indenture dated as of November 30, 1995 between Popular, Inc. and the trustee. Popular North America, Inc. may issue senior debt securities under an indenture dated as of October 1, 1991, as supplemented by the First Supplemental Indenture dated as of February 28, 1995, the Second Supplemental Indenture dated as of May 8, 1997 and the Third Supplemental Indenture dated as of August 5, 1999, in each case among Popular, Inc., Popular North America, Inc. and the trustee. If Popular International Bank, Inc. issues either senior or subordinated debt securities or if Popular North America, Inc. issues subordinated debt securities, it will enter into an appropriate indenture with a trustee.

The indentures mentioned in the previous paragraph are referred to collectively as the indentures. The debt securities issued under the indentures referred to in the previous paragraph are referred to collectively as the debt securities. The senior debt securities of Popular, Inc., Popular International Bank, Inc. and Popular North America, Inc. are referred to collectively as the senior debt securities and the subordinated debt securities of Popular, Inc., Popular International Bank, Inc. and Popular North America, Inc. are referred to collectively as the subordinated debt securities. A copy or form of each indenture is filed as an exhibit to the registration statement relating to the debt securities.

Unless otherwise indicated in the applicable prospectus supplement, the covenants contained in the indentures and the debt securities will not afford holders of the debt securities protection in the event of a recapitalization, restructuring or other highly leveraged transaction.

This section summarizes the material terms that will apply generally to a series of debt securities. Each particular debt security will have financial and other terms specific to it, and the specific terms of each debt security will be described in a prospectus supplement attached to the front of this prospectus. Those terms may vary from the terms described here. As you read this section, therefore, please remember that the specific terms of your debt security as described in your prospectus supplement will supplement and, if applicable, may modify or replace the general terms described in this section. The statements we make in this section may not apply to your debt security.

Amounts That We May Issue

The indentures do not limit the aggregate amount of debt securities that we may issue, nor do they limit the aggregate amount of any particular series. We have initially authorized the issuance of debt securities and preferred stock having an initial offering price no greater than \$2,500,000,000, or an equivalent amount in any other currencies or composite currencies. We may, however, increase this authorized amount at any time without your consent.

Table of Contents

The indentures and the debt securities do not limit our ability to incur other indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the debt securities, except as described under **Restrictive Covenants** below.

How the Debt Securities Rank Against Other Debt

Unless otherwise specified in the prospectus supplement, the debt securities will not be secured by any property or assets of the issuers. Thus, by owning a debt security, you are one of the unsecured creditors of the issuer of your debt security. The senior debt securities will not be subordinated to any of our other debt obligations. This means that in a bankruptcy or liquidation proceeding against the issuer, the senior debt securities would rank equally in right of payment with all other unsecured and unsubordinated indebtedness of the issuer. The subordinated debt securities may be subordinated to any of our other debt obligations as described in **Special Terms Relating to the Subordinated Debt Securities** below.

This Section Is Only a Summary

The indentures and their associated documents, including your debt security, contain the full legal text of the matters described in this section and your prospectus supplement. The indentures and the debt securities are governed by New York law. A copy of each indenture or form of indenture has been filed with the SEC as part of our registration statement.

Because this section and your prospectus supplement provide only a summary, they do not describe every aspect of the indentures and your debt security. This summary is subject to and qualified in its entirety by reference to all the provisions of the indentures, including definitions of certain terms used in the indentures. For example, in this section and your prospectus supplement, we use terms that have been given special meaning in the indentures. In this section, however, we describe the meaning for only the more important of those terms.

Features Common to All Debt Securities

Stated Maturity and Maturity

The day on which the principal amount of your debt security is scheduled to become due and payable is called the stated maturity of the principal and is specified in your prospectus supplement. The principal may become due sooner, by reason of redemption or acceleration after a default. The day on which the principal actually becomes due, whether at the stated maturity or earlier, is called the maturity of the principal.

We also use the terms **stated maturity** and **maturity** to refer to the dates when other payments become due. For example, we may refer to a regular interest payment date when an installment of interest is scheduled to become due as the **stated maturity** of that installment. When we refer to the **stated maturity** or the **maturity** of a debt security without specifying a particular payment, we mean the stated maturity or maturity, as the case may be, of the principal.

Currency of Debt Securities

Amounts that become due and payable on your debt security will be payable in a currency, composite currency or basket of currencies specified in your prospectus supplement.

We call this currency, composite currency or basket of currencies a specified currency. The specified currency for your debt security will be U.S. dollars unless your prospectus supplement states otherwise. A specified currency may include the euro. Some debt securities may have different specified currencies for principal and interest.

Table of Contents

You will have to pay for your debt securities by delivering the requisite amount of the specified currency for the principal to the dealer or dealers that we name in your prospectus supplement, unless other arrangements have been made between you and us or between you and that dealer or dealers. We will make payments on your debt securities in the specified currency, except as otherwise described in your prospectus supplement.

Types of Debt Securities

We may issue the following types of debt securities:

Fixed Rate Debt Securities. A debt security of this type will bear interest at a fixed rate described in the applicable prospectus supplement. This type includes zero coupon debt securities, which bear no interest and are instead issued at a price lower than the principal amount.

Floating Rate Debt Securities. A debt security of this type will bear interest at rates that are determined by reference to an interest rate formula. In some cases, the rates may also be adjusted by adding or subtracting a spread or multiplying by a spread multiplier and may be subject to a minimum rate or a maximum rate. If your debt security is a floating rate debt security, the formula and any adjustments that apply to the interest rate will be described in your prospectus supplement.

Indexed Debt Securities. A debt security of this type provides that the principal amount payable at its maturity, and/or the amount of interest payable on an interest payment date, will be determined by reference to one or more currencies, commodities or stocks, including baskets of stocks and stock indices, or to any other index described in the applicable prospectus supplement. If you are a holder of an indexed debt security, you may receive a principal amount at maturity that is greater than or less than the face amount of your debt security depending upon the value of the applicable index at maturity. That value may fluctuate over time. Some indexed debt securities may also be exchangeable, at the option of the holder or the applicable issuer, into stock of an issuer other than the issuer of the indexed debt securities. If you purchase an indexed debt security, your prospectus supplement will include information about the relevant index and about how amounts that are to become payable will be determined by reference to that index. If you purchase a security exchangeable into stock of an issuer other than the issuer of the indexed debt securities, your prospectus supplement will include information about the issuer and may also tell you where additional information about the issuer is available.

A fixed rate debt security, a floating rate debt security or an indexed debt security may be an original issue discount debt security. A debt security of this type is issued at a price lower than its principal amount and provides that, upon redemption or acceleration of its maturity, an amount less than its principal amount will be payable. A debt security issued at a discount to its principal may, for U.S. federal income tax purposes, be considered an original issue discount debt security, regardless of the amount payable upon redemption or acceleration of maturity.

Information in your Prospectus Supplement

Your prospectus supplement will describe one or more of the following terms of your debt security:

the issuer of the series of debt securities;

the title of the series of debt securities;

the stated maturity;

whether your debt security is a senior or subordinated debt security;

Edgar Filing: POPULAR CAPITAL TRUST III - Form S-3ASR

the specified currency or currencies for principal and interest, if not U.S. dollars; and

the price at which we originally issue your debt security, expressed as a percentage of the principal amount, and the original issue date.

Table of Contents

If you purchase your note in a market-making transaction, you will receive information about the price you pay and your trade and settlement dates in a separate confirmation of sale. A market-making transaction is one in which Popular Securities, Inc. or another of our affiliates resells a note that it has previously acquired from another holder. A market-making transaction in a particular note occurs after the original issuance and sale of the note.

whether your debt security is a fixed rate debt security, a floating rate debt security or an indexed debt security, and also whether it is an original issue discount debt security;

if your debt security is a fixed rate debt security, the rate at which your debt security will bear interest, if any, the regular record dates and the interest payment dates;

if your debt security is a floating rate debt security, the interest rate basis; any applicable index, currency or maturity, spread or spread multiplier or initial, maximum or minimum rate; the interest reset, determination, calculation and payment dates; and the calculation agent;

if your debt security is an original issue discount debt security, the yield to maturity;

if your debt security is an indexed debt security, the principal amount the issuer will pay you at maturity, the amount of interest, if any, the issuer will pay you on an interest payment date or the formula the issuer will use to calculate these amounts, if any, and whether your debt security will be exchangeable for or payable in stock of an issuer other than the issuer of the indexed debt security or other property;

whether your debt security may be redeemed or repaid by the issuer at our or the holder's option before the stated maturity and, if so, other relevant terms such as the redemption or repayment commencement date, specific redemption or repayment date(s), redemption or repayment period(s) and redemption or repayment price(s), all of which we describe under **Redemption and Repayment** below;

whether we will issue or make available your debt security in non-book-entry form;

the denominations in which securities will be issued (if other than integral multiples of U.S. \$1,000); and

any other terms of your debt security that are consistent with the provisions of the indentures.

Legal Ownership of Securities

Please note that in this prospectus, the term **holders** means those who own securities registered in their own names on the books that we or the trustee maintain for this purpose and not those who own beneficial interests in securities registered in **street name** or in securities issued in book-entry form through The Depository Trust Company.

We refer to those who have securities registered in their own names, on the books that we or the trustee maintain for this purpose, as the holders of those securities. These persons are the legal holders of the securities. We refer to those who, indirectly through others, own beneficial interests in securities that are not registered in their own names as indirect owners of those securities. As we discuss below, indirect owners are not legal holders, and investors in securities issued in book-entry form, which we refer to as book-entry securities, or in **street name** will be indirect owners.

Book-Entry Owners

Securities represented by one or more global securities are registered in the name of a financial institution that holds them as depositary on behalf of other financial institutions that participate in the depositary's book-entry system. These participating institutions, in turn, hold beneficial interests in the securities on behalf of themselves or their customers.

Table of Contents

Under the indentures, only the person in whose name a security is registered is recognized as the holder of that security. Consequently, for book-entry securities, we will recognize only the depositary as the holder of the securities, and we will make all payments on the securities to the depositary. The depositary passes along the payments it receives to its participants, which in turn pass the payments along to their customers who are the beneficial owners. The depositary and its participants make these payments under agreements they have made with one another or with their customers; they are not obligated to do so under the terms of the securities.

As a result, investors in global securities will not own debt securities directly. Instead, they will own beneficial interests in a global security, through a bank, broker or other financial institution that participates in the depositary's book-entry system or holds an interest through a participant. As long as debt securities are issued in global form, investors will be indirect owners, and not holders, of the securities. More information regarding the depositary, participants and indirect owners is described below under **Special Considerations for Global Debt Securities** Information Relating to DTC.

Street Name Owners

We may terminate a global security or issue securities initially in non-global form. In these cases, investors may choose to hold their securities in their own names or in street name. Securities held by an investor in street name would be registered in the name of a bank, broker or other financial institution that the investor chooses, and the investor would hold only a beneficial interest in those securities through an account he or she maintains at that institution.

For securities held in street name, we will recognize only the intermediary banks, brokers and other financial institutions in whose names the securities are registered as the holders of those securities, and we will make all payments on those securities to them. These institutions pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold securities in street name will be indirect owners, not holders, of those securities.

If you hold debt securities through a bank, broker or other financial institution, either in book-entry form or in street name, you should check with your own institution to find out:

how it handles securities payments and notices;

whether it imposes fees or charges;

how it would handle a request for the holder's consent, if ever required;

whether and how you can instruct it to send you debt securities registered in your own name so you can be a holder, if that is permitted in the future;

how it would exercise rights under the debt securities if there were a default or other event triggering the need for holders to act to protect their interests; and

if the debt securities are in book-entry form, how the depositary's rules and procedures will affect these matters.

Legal Holders

Our obligations, as well as the obligations of the trustee and those of any third parties employed by us or the trustee, run only to the holders of securities. We do not have obligations to investors who hold beneficial interests in street name, in global securities or by any other indirect means. This will be the case whether an investor chooses to be an indirect owner of a security or has no choice because we issue the securities only in global form.

Edgar Filing: POPULAR CAPITAL TRUST III - Form S-3ASR

For example, once we make payment or give a notice to the holder, we have no further responsibility for that payment or notice even if that holder is required, under agreements with depositary participants or customers

Table of Contents

or by law, to pass it along to the indirect owners but does not do so. Similarly, if we want to obtain the approval of the holders for any purpose e.g., to amend the indentures or to relieve us of the consequences of a default or of our obligation to comply with a particular provision of the indenture we would seek the approval only from the holders, and not the indirect owners, of the securities. Whether and how the holders contact the indirect owners is up to the holders.

What is a Global Debt Security?

We may issue each debt security only in book-entry form. Each debt security issued in book-entry form will be represented by a global debt security that we will deposit with and register in the name of a financial institution, or its nominee, that we select. The financial institution that we select for this purpose is called the depository. Unless we say otherwise in the applicable prospectus supplement, The Depository Trust Company, New York, New York, known as DTC, will be the depository for all debt securities issued in book-entry form.

A global debt security may represent one or any other number of individual debt securities. Generally, all debt securities represented by the same global debt security will have the same terms. We may, however, issue a global debt security that represents multiple debt securities that have different terms and are issued at different times. We call this kind of global debt security a master global debt security.

A global debt security may not be transferred to or registered in the name of anyone other than the depository or its nominee, unless special termination situations arise. We describe those situations below under Special Considerations for Global Debt Securities Special Situations When a Global Debt Security Will Be Terminated. As a result of these arrangements, the depository, or its nominee, will be the sole registered owner and holder of all debt securities represented by a global debt security, and investors will be permitted to own only beneficial interests in a global debt security. Beneficial interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depository or with another institution that does. Thus, an investor whose debt security is represented by a global debt security will not be a legal holder of the debt security, but only an indirect owner of a beneficial interest in the global debt security.

If the prospectus supplement for a particular debt security indicates that the debt security will be issued in global form only, then the debt security will be represented by a global debt security at all times unless and until the global debt security is terminated under one of the special situations described below under Special Considerations for Global Debt Securities Special Situations When a Global Debt Security Will Be Terminated. The global debt security may be a master global debt security, although your prospectus supplement will not indicate whether it is a master global debt security.

Special Considerations for Global Debt Securities

As an indirect owner, an investor's rights relating to a global debt security will be governed by the account rules of the investor's financial institution or any intermediary of the depository, as well as general laws relating to securities transfers. We do not recognize this type of investor as a legal holder of debt securities and instead deal only with the depository, or its nominee, that holds the global debt security.

If debt securities are issued only in the form of a global debt security, an investor should be aware of the following:

An investor cannot cause the debt securities registered in his or her own name and cannot get non-global certificates for his or her interest in the debt securities, except in the special situations we describe below;

An investor will be an indirect owner and must look to his or her own bank or broker for payment deliveries on the debt securities and protection of his or her legal rights relating to the debt securities, as we describe under Legal Ownership of Securities above;

Table of Contents

An investor may not be able to sell interests in the debt securities to some insurance companies and other institutions that are required by law to own their securities in non-book-entry form;

An investor may not be able to pledge his or her interest in a global security in circumstances where certificates representing the securities must be delivered to the lender or other beneficiary of the pledge in order for the pledge to be effective;

The depository's policies, which may change from time to time, will govern payments, transfers, exchanges and other matters relating to the investor's interest in a global debt security. We and the trustee have no responsibility for any aspect of the depository's actions or for its records of ownership interests in a global debt security. We and the trustee also do not supervise the depository in any way;

The depository may require that those who purchase and sell interests in a global debt security within its book-entry system use immediately available funds, and your broker or bank may require you to do so as well; and

Financial institutions that participate in the depository's book-entry system, and through which an investor holds its interest in the global debt securities, may also have their own policies affecting payments, notices and other matters relating to the debt securities. There may be more than one financial intermediary in the chain of ownership for an investor. We do not monitor and are not responsible for the actions of any of those intermediaries.

Information Relating to DTC

DTC will act as securities depository for the book-entry securities. The book-entry securities will be issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee). One fully registered global debt security will be issued for each issue of book-entry securities, each in the aggregate principal amount of that issue, and will be deposited with DTC. If, however, the aggregate principal amount of any issue exceeds \$500,000,000, one global debt security will be issued with respect to each \$500,000,000 of principal amount and an additional global debt security will be issued with respect to any remaining principal amount of that issue.

DTC has informed us that it is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds securities that DTC participants deposit with DTC. DTC also facilitates the post-trade settlement among DTC participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between DTC participants' accounts. This eliminates the need for physical movement of securities certificates. DTC participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation (DTCC). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Indirect access to the DTC system is also available to others such as both U.S. and non-U.S. brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a DTC participant, either directly or indirectly. The rules applicable to DTC and DTC participants are on file with the SEC.

Purchases of securities within the DTC system must be made by or through DTC participants, which will receive a credit for the securities on DTC's records. The ownership interest of each actual acquirer of new securities is in turn to be recorded on the direct and indirect participants records. Transfers of ownership interests in the securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

Table of Contents

Redemption notices will be sent to DTC's nominee, Cede & Co., as the registered holder of the securities. If less than all of the securities are being redeemed, DTC will determine the amount of the interest of each direct participant to be redeemed in accordance with its then current procedures.

In instances in which a vote is required, neither DTC nor Cede & Co. will itself consent or vote with respect to the securities. Under its usual procedures, DTC would mail an omnibus proxy to the relevant agent or depository as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts such securities are credited on the record date (identified in a listing attached to the omnibus proxy).

Distribution payments on the securities will be made by the issuer, or the issuer's relevant payment agent or the depository for depository shares, to DTC. DTC's usual practice is to credit direct participants' accounts on the relevant payment date in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payments on such payment date. Payments by DTC participants to beneficial owners will be governed by standing instructions and customary practices and will be the responsibility of such participants and not of DTC, the relevant payment agent or depository for depository shares or us, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of distributions to DTC is the responsibility of the relevant payment agent or depository for depository shares, and disbursements of such payments to the beneficial owners are the responsibility of direct and indirect participants.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be accurate, but we assume no responsibility for the accuracy thereof. We do not have any responsibility for the performance by DTC or its participants of their respective obligations as described herein or under the rules and procedures governing their respective operations.

Special Situations When a Global Debt Security Will Be Terminated

In a few special situations described below, a global debt security will be terminated and interests in it will be exchanged for certificates in non-global form representing the debt securities it represented. After that exchange, the choice of whether to hold the debt securities directly or in street name will be up to the investor. Investors must consult their own banks or brokers to find out how to have their interests in a global debt security transferred on termination to their own names, so that they will be legal holders. We have described the rights of holders and street name investors above under "Legal Ownership of Securities."

The special situations for termination of a global debt security are:

when the depository notifies us that it is unwilling, unable or no longer qualified to continue as depository for that global debt security and we do not appoint another institution to act as depository within 60 days;

when we notify the trustee that we wish to terminate that global debt security; or

when an event of default has occurred with regard to debt securities represented by that global debt security and has not been cured or waived; we discuss defaults below under "Default and Remedies."

When a global debt security is terminated, only the depository, and not we or the trustee, is responsible for deciding the names of the institutions in whose names the debt securities represented by the global debt security will be registered and, therefore, who will be the holders of those debt securities.

Table of Contents

Notices

Notices to be given to holders of a global note will be given only to the depositary, in accordance with its applicable policies as in effect from time to time. Notices to be given to holders of notes not in global form will be sent by mail to the respective addresses of the holders as they appear in the trustee's records, and will be deemed given when mailed. Neither the failure to give any notice to a particular holder, nor any defect in a notice given to a particular holder, will affect the sufficiency of any notice given to another holder.

IN THE REMAINDER OF THIS DESCRIPTION YOU MEANS DIRECT HOLDERS AND NOT BOOK ENTRY, STREET NAME OR OTHER INDIRECT OWNERS OF DEBT SECURITIES.

Form, Exchange, Registration and Transfer

Debt securities may be issued:

only in fully registered form; and

without interest coupons.

Holders may exchange their non-global debt securities for debt securities of smaller denominations or combined into fewer debt securities of larger denominations, as long as the total principal amount is not changed. This is called an exchange.

Holders may exchange or transfer their certificated debt securities at the office of the trustee. We will initially appoint the trustee to act as our agent for registering debt securities in the names of holders and transferring debt securities. We may appoint another entity to perform these functions or perform them ourselves. The entity performing the role of maintaining the list of registered holders is called the security registrar. It will also perform transfers.

Holders will not be required to pay a service charge to transfer or exchange their debt securities, but they may be required to pay for any tax or other governmental charge associated with the exchange or transfer. The transfer or exchange will be made only if our transfer agent is satisfied with the holder's proof of legal ownership.

If we have designated additional transfer agents for your debt security, they will be named in your prospectus supplement. We may appoint additional transfer agents or cancel the appointment of any particular transfer agent. We may also approve a change in the office through which any transfer agent acts.

If any debt securities are redeemable and we redeem less than all those debt securities, we may prohibit the transfer or exchange of those debt securities during the period beginning 15 days before the day we mail the notice of redemption and ending on the day of that mailing, in order to freeze the list of holders to prepare the mailing. We may also refuse to register transfers or exchanges of any debt security selected for redemption, except that we will continue to permit transfers and exchanges of the unredeemed portion of any debt security being partially redeemed.

If a debt security is issued as a global debt security, only the depositary will be entitled to transfer and exchange the debt security as described in this subsection because it will be the sole holder of the debt security.

Payment and Paying Agent

The issuer will only be required to make payment of the principal on a debt security if you surrender the debt security to the paying agent for that debt security. The issuer will only be required to make payment of principal and interest at the office of the paying agent, except that at its option, it may pay interest by mailing a

Table of Contents

check to the holder. Unless we indicate otherwise in the applicable prospectus supplement, the issuer will pay interest to the person who is the holder at the close of business on the record date for that interest payment, even if that person no longer owns the debt security on the interest payment date.

We will specify in the applicable prospectus supplement the regular record date relating to an interest payment date for any fixed rate debt security and for any floating rate debt security.

Payment When Offices Are Closed

If any payment is due on a debt security on a day that is not a business day, we will make the payment on the next day that is a business day. Payments postponed to the next business day in this situation will be treated under the indentures as if they were made on the original due date. Postponement of this kind will not result in a default under any debt security or indenture, and no interest will accrue on the postponed amount from the original due date to the next day that is a business day unless the applicable prospectus supplement specifies otherwise.

Paying Agent

We will specify the paying agent for payments with respect to debt securities of each series of debt securities in the applicable prospectus supplement. We may at any time designate additional paying agents, rescind the designation of any paying agent or approve a change in the office through which any paying agent acts, except that we must maintain a paying agent in each place of payment for each series of debt securities.

Unclaimed Payments

Regardless of who acts as paying agent, all money paid by us to a paying agent that remains unclaimed at the end of two years after the amount is due to a holder will be repaid to us. After that two-year period, the holder may look only to the issuer (or any guarantor) for payment and not to the trustee, any other paying agent or anyone else.

Prescription

Under New York's statute of limitations, any legal action to enforce Popular's payment obligations evidenced by the debt securities must be commenced within six years after payment is due. Thereafter Popular's payment obligations will generally become unenforceable.

Redemption and Repayment

Unless otherwise indicated in your prospectus supplement, your debt security will not be entitled to the benefit of any sinking fund—that is, we will not deposit money on a regular basis into any separate custodial account to repay your debt securities. In addition, except as described below, we will not be entitled to redeem your debt security before its stated maturity unless your prospectus supplement specifies a redemption commencement date. You will not be entitled to require us to buy your debt security from you, before its stated maturity, unless your prospectus supplement specifies one or more repayment dates.

If your prospectus supplement specifies a redemption commencement date or a repayment date, it will also specify one or more redemption prices or repayment prices, which will be expressed as a percentage of the principal amount of your debt security. It may also specify one or more redemption periods during which the redemption prices relating to a redemption of debt securities will apply.

If your prospectus supplement specifies a redemption commencement date, your debt security will be redeemable at our option at any time on or after that date. If we redeem your debt security, we will do so at the

Table of Contents

specified redemption price, together with interest accrued to the redemption date. If different prices are specified for different redemption periods, the price we pay will be the price that applies to the redemption period during which your debt security is redeemed.

If your prospectus supplement specifies a repayment date, your debt security will be repayable at your option on the specified repayment date at the specified repayment price, together with interest accrued to the repayment date.

In the event that we exercise an option to redeem any debt security, we will give to the trustee and the holder written notice of the principal amount of the debt security to be redeemed, not less than 30 days nor more than 60 days before the applicable redemption date. Notice of this redemption will be mailed to holders at the address that appears on the register of the redeemed debt securities.

If a debt security represented by a global debt security is repayable at the holder's option, the depositary or its nominee, as the holder, will be the only person that can exercise the rights to repayment. Any indirect owners who own beneficial interests in the global debt security and wish to exercise a repayment right must give proper and timely instructions to their banks or brokers through which they hold their interests, requesting that they notify the depositary to exercise the repayment right on their behalf. Different firms have different deadlines for accepting instructions from their customers, and you should take care to act promptly enough to ensure that your request is given effect by the depositary before the applicable deadline for exercise.

Street name and other indirect owners should contact their banks or brokers for information about how to exercise a repayment right in a timely manner.

If the option of the holder to elect repayment as described above is deemed to be a tender offer within the meaning of Rule 14e-1 under the Securities Exchange Act of 1934, we will comply with Rule 14e-1 as then in effect to the extent applicable.

We or our affiliates may purchase debt securities from investors who are willing to sell from time to time, either in the open market at prevailing prices or in private transactions at negotiated prices. Debt securities that we or they purchase may, at our discretion, be held, resold or canceled.

A change in law, regulation or interpretation could oblige Popular, Inc. or Popular International Bank, Inc. to pay the additional amounts that are discussed below under Taxation by the Commonwealth of Puerto Rico. If this happens, we will have the option of redeeming or repaying an entire series of the debt securities at our discretion after giving between 30 and 60 days' notice to the holders at a redemption price of 100% of the principal amount of the notes with the accrued interest to the redemption date, or another redemption price specified in the applicable prospectus supplement.

Mergers and Similar Transactions

Each issuer is generally permitted to merge or consolidate with another entity. Each issuer is also permitted to sell its assets substantially as an entirety to another firm. An issuer may not take any of these actions, however, unless all the following conditions are met:

If the successor firm in the transaction is not the applicable issuer, the successor firm must expressly assume that issuer's obligations under the debt securities, the guarantees and the indentures.

Immediately after the transaction, no default under the indentures or debt securities of that issuer has occurred and is continuing. For this purpose, default under the indentures or debt securities means an event of default or any event that would be an event of default if the requirements for giving us default notice and for the issuer's default having to continue for a specific period of time were disregarded. We describe these matters below under Default and Remedies.

Table of Contents

These conditions will apply only if an issuer wishes to merge, consolidate or sell its assets substantially as an entirety. An issuer will not need to satisfy these conditions if it enters into other types of transactions, including any transaction in which it acquires the stock or assets of another firm, any transaction that involves a change of control of it but in which it does not merge or consolidate and any asset sale that does not constitute a sale of its assets substantially as an entirety.

The meaning of the phrase substantially as an entirety as used above will be interpreted in connection with the facts and circumstances of the subject transaction and is subject to judicial interpretation. Accordingly, in certain circumstances, there may be a degree of uncertainty in ascertaining whether a particular transaction would involve a disposition of the assets of the issuer substantially as an entirety.

Restrictive Covenants

In the senior indentures, Popular, Inc. promises not to sell, transfer or otherwise dispose of any voting stock of Banco Popular or permit Banco Popular to issue, sell or otherwise dispose of any of its voting stock, unless, after giving effect to the transaction, Banco Popular remains a controlled subsidiary (as defined below), except as provided above under Mergers and Similar Transactions.

In addition, Popular, Inc. may not permit Banco Popular to:

merge or consolidate, unless the survivor is a controlled subsidiary, or

convey or transfer its properties and assets substantially as an entirety, except to a controlled subsidiary.

The senior indentures define voting stock as the stock of the class or classes having general voting power under ordinary circumstances to elect a majority of the board of directors, managers or trustees of a corporation. Stock that may vote only if an event occurs that is beyond the control of its holders is not considered voting stock under the senior indentures, whether or not the event has happened. Controlled subsidiary means any corporation of which an issuer owns more than 80% of the outstanding voting stock.

Popular, Inc. also promises in the senior indentures not to, nor to permit any material banking subsidiary to, create, incur or permit to exist any indebtedness for borrowed money secured by a lien or other encumbrance on the voting stock of any material banking subsidiary unless Popular, Inc.'s senior debt securities, Popular, Inc.'s Guarantees of Popular North America, Inc.'s senior debt securities and, at Popular, Inc.'s discretion, any other indebtedness with a right of payment equal to Popular, Inc.'s senior debt securities and Popular, Inc.'s guarantees of Popular North America, Inc.'s senior debt securities are secured on an equal basis. Material banking subsidiary means any controlled subsidiary chartered as a banking corporation under federal, state or Puerto Rico law that is a significant subsidiary of Popular, Inc. as defined in Rule 1-02 of Regulation S-X of the SEC. As of the date of this prospectus, Banco Popular de Puerto Rico and Banco Popular North America are the only material banking subsidiaries of Popular, Inc.

Liens imposed to secure taxes, assessments or governmental charges or levies are not restricted, however, provided they are:

not then due or delinquent;

being contested in good faith;

are less than \$10,000,000 in amount;

the result of any litigation or legal proceeding which is currently being contested in good faith or which involves claims of less than \$10,000,000; or

deposits to secure surety, stay, appeal or customs bonds.
The subordinated indentures do not contain similar restrictions.

Table of Contents

Default and Remedies

Every year each issuer is required to send the trustee for its debt securities a report on its performance of its obligations under the senior indentures and the subordinated indentures and on any default. You will have special rights if an event of default with respect to your senior debt security occurs and is not cured, as described in this subsection.

Events of Default

Senior Indentures. With respect to your senior debt security, the term *event of default* means any of the following:

The issuer does not pay the principal or any premium, if any, on any senior debt security of that issuer on its due date;

The issuer does not pay interest on any senior debt security of that issuer within 30 days after its due date;

The issuer does not deposit a sinking fund payment with regard to any senior debt security of that issuer on its due date, but only if the payment is required in the applicable prospectus supplement;

The issuer remains in breach of its covenants described above under *Restrictive Covenants*, or any other covenant it makes in the senior indentures for the benefit of the debt securities of that issuer, for 60 days after it receives a notice of default stating that it is in breach. However, the breach of a covenant that the senior indentures expressly impose only on a different series of senior debt securities than the series of which your senior debt security is a part will not be an event of default with respect to your senior debt security;

The issuer, the guarantor (when other than the issuer) or any material banking subsidiary of the issuer defaults under borrowed money debt (see below) totaling in excess of \$10,000,000, its obligation to repay that debt is accelerated by our lenders and its repayment obligation remains accelerated, unless the debt is paid, the default is cured or waived or the acceleration is rescinded within 30 days after it receives a notice of default;

The issuer, the guarantor (when other than the issuer) or any material banking subsidiary of the issuer files for bankruptcy, or other events of bankruptcy, insolvency or reorganization relating to an issuer, the guarantor (when other than the issuer) or material banking subsidiary of the issuer occur; or

If your prospectus supplement states that any additional event of default applies to your senior debt security, that event of default occurs.

However, a notice of default as described in the fourth and fifth bullet points above must be sent by the trustee or the holders of at least 25% of the principal amount of senior debt securities of the series for those events to be events of default.

Borrowed money debt means any of the issuer's indebtedness for borrowed money or the indebtedness of a material banking subsidiary of the issuer, other than the series of which your senior debt security is a part.

The trustee shall give notice of any default, but notice of a default with respect to a covenant as described in the fourth bullet point above will not be given until at least 30 days after it occurs.

Subordinated Indentures. With respect to your subordinated debt security, the term *event of default* means that a filing for bankruptcy or other events of bankruptcy, insolvency or reorganization relating to the issuer occurs. The subordinated indentures do not provide for any right of acceleration of the payment of principal upon a default in the payment of principal, premium or interest or in the performance of any covenant or

agreement on a series of subordinated debt securities or on the subordinated indentures.

Table of Contents

Remedies If an Event of Default Occurs

Under certain circumstances, the holders of not less than a majority in principal amount of the debt securities of any series may waive a default for all the debt securities of that series. If this happens, the default will be treated as if it had not occurred.

Senior Indentures. If an event of default on the senior debt securities of any series has occurred and has not been cured or waived, the trustee or the holders of at least 25% in principal amount of the outstanding senior debt securities of that series may declare the entire principal amount of the senior debt securities of that series to be due immediately.

This situation is called an acceleration of the maturity of the senior debt securities. If the maturity of any senior debt securities of any series is accelerated, the holders of a majority in principal amount of the senior debt securities of that series affected by the acceleration may cancel the acceleration for all of those senior debt securities if the issuer has paid all amounts due with respect to those securities, other than amounts due because of the acceleration of the maturity, and all events of default, other than nonpayment of their accelerated principal, have been cured or waived.

Subordinated Indentures. If an event of default on the subordinated debt securities of any series has occurred and has not been cured or waived, the trustee or the holders of at least 25% in principal amount of the outstanding subordinated debt securities of that series may declare the entire principal amount of that series of subordinated debt securities to be due immediately. This situation is called an acceleration of the maturity of those subordinated debt securities. If the maturity of any subordinated debt securities of any series is accelerated, the holders of at least a majority in principal amount of the subordinated debt securities of that series affected by the acceleration may cancel the acceleration for all the affected subordinated debt securities.

Trustee's Indemnity

If an event of default on any series of debt securities occurs, the trustee for those securities will have special duties. In that situation, the trustee will be obligated to use those of its rights and powers under the indenture, and to use the same degree of care and skill in doing so, that a prudent person would use in that situation in conducting his or her own affairs.

Except as described in the prior paragraph, the trustee is not required to take any action under any of the indentures at the request of any holders unless the holders of that series offer the trustee reasonable protection from expenses and liability. This is called an indemnity. If reasonable indemnity is provided, the holders of a majority in principal amount of all of the outstanding debt securities of that series may direct the time, method and place of conducting any lawsuit or other formal legal action seeking any remedy available to the trustee. These majority holders of that series may also direct the trustee in performing any other action under the indenture with respect to the debt securities of that series.

Before you can bypass the trustee and bring your own lawsuit or other formal legal action or take other steps to enforce your rights or protect your interests relating to your debt securities, the following must occur:

You must give the trustee written notice that an event of default has occurred, and the event of default must not have been cured or waived;

The holders of not less than 25% in principal amount of all debt securities of that series must make a written request that the trustee take action because of the default, and they or you must offer reasonable indemnity to the trustee against the cost and other liabilities of taking that action;

The trustee must not have taken action for 60 days after receipt of the above notice and offer of indemnity; and

Table of Contents

During those 60 days, the holders of a majority in principal amount of the debt securities of that series must not have given the trustee directions that are inconsistent with the written request of the holders of not less than 25% in principal amount of the debt securities of that series.

You are, however, entitled at any time to bring a lawsuit for the payment of money due on your debt security on or after its due date.

Book-entry, street name and other indirect owners should consult their banks or brokers for information on how to give notice or direction to or make a request of the trustee and how to declare or cancel an acceleration of the maturity.

Modification and Waiver of the Indentures

There are three types of changes we can make to the indentures and the debt securities.

Changes Requiring Your Approval

First, there are changes that cannot be made without the approval of each holder of a debt security affected by the change. Here is a list of this type of change:

change the stated maturity for any principal or interest on a debt security;

reduce the principal amount, the amount of principal of an original issue discount security payable on acceleration of the maturity after a default, the interest rate or the redemption price of a debt security;

change the currency of any payment on a debt security;

change the place of payment on a debt security;

impair a holder's right to sue for payment of any amount due on its debt security;

reduce the percentage in principal amount of the debt securities of any series of debt securities, the approval of whose holders is needed to change the indentures;

reduce the percentage in principal amount of the debt securities of any series, the consent of whose holders is needed to modify or amend the indenture or waive an issuer's compliance with the indenture or to waive defaults;

modify the subordination provision of the subordinated indentures, unless the change would not adversely affect the interests of the holders of that series of debt securities; and

in the case of Popular North America, Inc.'s and Popular International Bank's indentures, modify the terms and conditions of the guarantor's obligations regarding the due and punctual payment of principal or any premium, interest, additional amounts we describe below under "Taxation by the Commonwealth of Puerto Rico" or sinking fund payment.

Changes Not Requiring Approval

Edgar Filing: POPULAR CAPITAL TRUST III - Form S-3ASR

The second type of change does not require any approval by holders of debt securities. This type is limited to clarifications and changes that would not adversely affect the interests of the holders of the debt securities in any material respect, nor do we need your consent to make changes that affect only other debt securities to be issued after the changes take effect.

We may also make changes or obtain waivers that do not adversely affect a particular debt security, even if they affect other debt securities or series of debt securities. In those cases, we do not need to obtain the approval of the holder of that debt security; we need only obtain any required approvals from the holders of the affected debt securities or other debt securities.

Table of Contents

Changes Requiring Majority Approval

Any other changes to the indentures and the debt securities would require the following approval:

If the change affects only one series of debt securities, it must be approved by the holders of at least a majority in principal amount of that series.

If the change affects more than one series of debt securities, it must be approved by the holders of at least a majority in principal amount of each series of the particular issuer's debt securities affected by the change.

In each case, the required approval may be given by written consent.

The approval of at least a majority in principal amount of the debt securities of each affected series of an issuer would be required for the issuer to obtain a waiver of any of its covenants in the indentures. The covenants include the promises about merging and putting liens on the issuer's interests, which we describe above under *Mergers and Similar Transactions* and *Restrictive Covenants*. If the required holders approve a waiver of a covenant, we will not have to comply with it. The holders, however, cannot approve a waiver of any provision in a particular debt security, or in the indenture as it affects that debt security, that we cannot change without the approval of the holder of that debt security as described above in *Changes Requiring Your Approval*, unless that holder approves the waiver.

Book-entry, street name and other indirect owners should consult their banks or brokers for information on how approval may be granted or denied if we seek to change the indentures or the debt securities or request a waiver.

Further Details Concerning Voting

When taking a vote, we will use the following rules to decide how much principal amount to attribute to a debt security:

For original issue discount securities, we will use the principal amount that would be due and payable on the voting date if the maturity of those debt securities were accelerated to that date because of a default.

For debt securities whose principal amount is not known, for example, because it is based on an index, we will use a special rule for that debt security determined by our board of directors or described in the prospectus supplement.

For debt securities denominated in one or more foreign currencies or composite currencies, we will use the U.S. dollar equivalent. Debt securities will not be considered outstanding, and therefore will not be eligible to vote, if we have deposited or set aside in trust for you money for their payment or redemption.

We will generally be entitled to set any day as a record date for the purpose of determining the holders of outstanding debt securities that are entitled to vote or take other action under the indenture.

Taxation by the Commonwealth of Puerto Rico

We will not withhold or deduct any present or future taxes, duties, assessments or governmental charges that are imposed or levied by or on behalf of Puerto Rico or by or with any district, municipality or other political subdivision of Puerto Rico from payments to holders of the debt securities and all payments made under the guarantees unless the law requires us to withhold or deduct these taxes, duties, assessments or governmental charges.

Table of Contents

In the event that law requires the issuer to deduct or withhold any amounts in respect of these taxes, duties, assessments or governmental charges, the issuer will pay these additional amounts of principal, premium and interest (after deduction of these taxes, duties, assessments or governmental charges) in the payment to the holders of the debt securities, of the amounts which we would otherwise have paid in respect to the debt securities in the absence of deductions or withholding, which we refer to as additional amounts, except that we will not pay any additional amounts:

to a holder of a debt security or an interest in or rights in a debt security where deduction or withholding is required because the holder has some connection with Puerto Rico or any political subdivision or taxing authority of Puerto Rico or any political subdivision other than the mere holding of and payment in respect of the debt security;

to a holder of a debt security when any deduction or withholding would not have been required but for the holder's presentation for payment on a date more than 30 days after maturity or the date on which payment is duly provided for, whichever occurs later; or

to a holder when any deduction or withholding would not have been required but for the holder's failure to comply with any certification, identification or other reporting requirements concerning the nationality, residence, identity or connection with Puerto Rico, or any political subdivision or taxing authority of Puerto Rico if law requires compliance as a precondition to exemption from deduction or withholding.

Special Terms Relating to the Subordinated Debt Securities

Unless otherwise indicated in the applicable prospectus supplement, the following provisions apply to the subordinated debt securities and Popular, Inc.'s guarantees of the subordinated debt securities of Popular International Bank, Inc. and Popular North America, Inc.

The right of a holder of subordinated debt securities to payment from any distribution of an issuer's assets resulting from any dissolution, winding up, liquidation, bankruptcy or reorganization of the issuer are subordinated to the prior right to payment in full of all of that issuer's senior indebtedness (as defined below). The issuer's obligation to make payments on the subordinated debt securities will not otherwise be affected. No payment on the issuer's subordinated debt securities may be made during a default on any senior indebtedness of the issuer. Because the subordinated debt securities are subordinated in right of payment to any senior indebtedness of the issuer, in the event of a distribution of assets upon insolvency, some of the issuer's creditors may recover more, ratably, than holders of subordinated debt securities of the issuer.

In addition, any amounts of cash, property or securities available after satisfaction of the rights to payment of senior indebtedness will be applied first to pay for the full payment of the issuer's other financial obligations (as defined below) before any payment will be made to holders of the subordinated debt securities. If the maturity of any subordinated debt securities is accelerated, all senior indebtedness of the issuer would have to be repaid before any payment could be made to holders of the issuer's subordinated debt securities. Because of this subordination, if an issuer becomes insolvent, its creditors who are not holders of senior indebtedness or subordinated debt securities may recover ratably less than holders of its senior indebtedness and may recover ratably more than holders of its subordinated debt securities.

Senior indebtedness of an issuer means an issuer's indebtedness for money borrowed, except indebtedness that by its terms is not superior in right of payment to the subordinated debt securities.

Other financial obligations of an issuer are defined in the subordinated indenture of that issuer to mean obligations of that issuer to make payment pursuant to the terms of financial instruments, such as:

securities contracts and foreign currency exchange contracts,

derivative instruments or

similar financial instruments.

Table of Contents

Other financial obligations shall not include:

obligations on account of an issuer's senior indebtedness and

obligations on account of indebtedness for money borrowed ranking equally in their priority of claim to payment with or subordinate to the claim of subordinated debt securities.

As of March 31, 2009, Popular, Inc. had \$5.46 billion principal amount of senior indebtedness, which included \$1.04 billion in senior indebtedness of Popular North America, Inc. and \$221 million in repurchase agreements of Popular Securities, Inc. that are guaranteed by Popular, Inc. and no senior indebtedness of Popular International Bank, Inc. (holding company). Also, Popular, Inc. had \$111 million in derivative liabilities, which represent other financial obligations. Also, Popular, Inc. fully and unconditionally guaranteed \$824 million of capital securities issued by four wholly-owned issuing trusts.

Popular, Inc.'s Guarantee

Popular, Inc. will guarantee punctual payment on the Popular International Bank, Inc. and Popular North America, Inc. senior debt securities, when and as payments are due and payable. Popular, Inc.'s guarantee is absolute and unconditional, without regard for any circumstance that might otherwise constitute a legal or equitable discharge of a surety or guarantor. A guarantee executed by Popular, Inc. will evidence the guarantee and will appear on each Popular International Bank, Inc. and Popular North America senior debt security. Holders of the Popular International Bank, Inc. and Popular North America senior debt securities may proceed directly against Popular, Inc. in the event of default under the Popular International Bank, Inc. and Popular North America senior debt securities without first proceeding against Popular International Bank, Inc. or Popular North America, Inc. The guarantees will rank equally in right of payment with all other unsecured and unsubordinated obligations of Popular, Inc.

Popular, Inc. will guarantee the punctual payment of rights of payment under the Popular International Bank, Inc. and Popular North America subordinated debt securities on a subordinated basis and otherwise on the same terms as the Popular International Bank, Inc. and Popular North America senior debt securities.

Junior Subordinated Debt Securities

This section describes the general terms and provisions of our junior subordinated debt securities. The applicable prospectus supplement will describe the terms of the series of junior subordinated debt securities, which are sometimes referred to in this prospectus as debt securities, offered through that prospectus supplement and any general terms outlined in this section that will not apply to those debt securities. Unless otherwise stated in the applicable prospectus supplement, the junior subordinated debt securities will be issued under a junior subordinated indenture, which is sometimes referred to in this prospectus as an indenture, dated as of October 1, 2003, between us and The Bank of New York Mellon Trust Company, National Association, as junior subordinated trustee.

We have summarized the material terms and provisions of the junior subordinated indenture in this section. We have also incorporated by reference the junior subordinated indenture as an exhibit to the registration statement. You should read the junior subordinated indenture for additional information before you purchase any trust preferred securities. The summary that follows includes references to section numbers of the junior subordinated indenture so that you can more easily locate these provisions.

Table of Contents

General

The junior subordinated debt securities will be our direct unsecured obligations. The junior subordinated indenture does not limit the principal amount of junior subordinated debt securities that we may issue. The junior subordinated indenture permits us to issue junior subordinated debt securities from time to time and junior subordinated debt securities issued under such indenture will be issued as part of a series that has been established by us under such indenture.

The junior subordinated debt securities will be unsecured and will rank equally with all of our other junior subordinated debt securities and, together with such other junior subordinated debt securities, will be subordinated to all of our existing and future Senior Debt. See Subordination below.

The junior subordinated debt securities are our unsecured junior subordinated debt securities, but our assets consist primarily of equity in our subsidiaries. As a result, our ability to make payments on our junior subordinated debt securities depends on our receipt of dividends, loan payments and other funds from our subsidiaries. In addition, if any of our subsidiaries becomes insolvent, the direct creditors of that subsidiary will have a prior claim on its assets. Our rights and the rights of our creditors will be subject to that prior claim, unless we are also a direct creditor of that subsidiary. This subordination of creditors of a parent company to prior claims of creditors of its subsidiaries is commonly referred to as structural subordination.

A prospectus supplement relating to a series of junior subordinated debt securities being offered will include specific terms relating to the offering. These terms will include some or all of the following:

the title and type of the debt securities;

any limit on the total principal amount of the debt securities of that series;

the price at which the debt securities will be issued;

the date or dates on which the principal of and any premium on the debt securities will be payable;

the maturity date or dates of the debt securities or the method by which those dates can be determined;

if the debt securities will bear interest:

the interest rate on the debt securities or the method by which the interest rate may be determined;

the date from which interest will accrue;

the record and interest payment dates for the debt securities;

the first interest payment date; and

Edgar Filing: POPULAR CAPITAL TRUST III - Form S-3ASR

any circumstances under which we may defer interest payments;

the place or places where:

we can make payments on the debt securities;

the debt securities can be surrendered for registration of transfer or exchange; and

notices and demands can be given to us relating to the debt securities and under the indenture;

any optional redemption provisions that would permit us or the holders of debt securities to elect redemption of the debt securities before their final maturity;

any sinking fund provisions that would obligate us to redeem the debt securities before their final maturity;

whether the debt securities will be convertible into shares of common stock, shares of preferred stock or depositary shares and, if so, the terms and conditions of any such conversion, and, if convertible into shares of preferred stock or depositary shares, the terms of such preferred stock or depositary shares;

Table of Contents

if the debt securities will be issued in bearer form, the terms and provisions contained in the bearer securities and in the indenture specifically relating to the bearer securities;

the currency or currencies in which the debt securities will be denominated and payable, if other than U.S. dollars and, if a composite currency, any special provisions relating thereto;

any circumstances under which the debt securities may be paid in a currency other than the currency in which the debt securities are denominated and any provisions relating thereto;

whether the provisions described below under "Defeasance and Discharge" apply to the debt securities;

any events of default which will apply to the debt securities in addition to those contained in the indenture and any events of default contained in the indenture which will not apply to the debt securities;

any additions or changes to or deletions of the covenants contained in the indenture and the ability, if any, of the holders to waive our compliance with those additional or changed covenants;

whether all or part of the debt securities will be issued in whole or in part as temporary or permanent global securities and, if so, the depository for those global securities and a description of any book-entry procedures relating to the global securities; a global security is a debt security that we issue in accordance with the junior subordinated indenture to represent all or part of a series of debt securities;

if we issue temporary global securities, any special provisions dealing with the payment of interest and any terms relating to the ability to exchange interests in a temporary global security for interests in a permanent global security or for definitive debt securities;

the identity of the security registrar and paying agent for the debt securities if other than the junior subordinated trustee;

any special tax implications of the debt securities;

any special provisions relating to the payment of any additional amounts on the debt securities;

the terms of any securities being offered together with or separately from the debt securities;

the terms and conditions of any obligation or right of Popular or a holder to convert or exchange the debt securities into trust preferred securities or other securities; and

any other terms of the debt securities.

When we use the term "holder" in this prospectus with respect to a registered debt security, we mean the person in whose name such debt security is registered in the security register.

Additional Sums

If a trust is required to pay any taxes, duties, assessments or governmental charges of whatever nature, other than withholding taxes, imposed by the United States, any political subdivision thereof or Puerto Rico or any other taxing authority of the United States or Puerto Rico, then we will be required to pay additional sums on the related junior subordinated debt securities. The amount of any additional sum will be an amount sufficient so that the net amounts received and retained by such trust after paying any such taxes, duties, assessments or other governmental charges will be not less than the amounts that such trust would have received had no such taxes, duties, assessments or other governmental charges been imposed. This means that the trust will be in the same position it would have been in if it did not have to pay such taxes, duties, assessments or other charges.

Table of Contents

Payment; Exchange; Transfer

We will designate a place of payment where holders can receive payment of the principal of and any premium and interest on the junior subordinated debt securities. Even though we will designate a place of payment, we may elect to pay any interest on the junior subordinated debt securities by mailing a check to the person listed as the owner of the junior subordinated debt securities in the security register or by wire transfer to an account designated by that person in writing not less than ten days before the date of the interest payment. Unless we state otherwise in the applicable prospectus supplement, we will pay interest on a junior subordinated debt security:

on an interest payment date, to the person in whose name that junior subordinated debt security is registered at the close of business on the record date relating to that interest payment date; and

on the date of maturity or earlier redemption or repayment, to the person who surrenders such debt security at the office of our appointed paying agent.

Any money that we pay to a paying agent for the purpose of making payments on the junior subordinated debt securities and that remains unclaimed two years after the payments were due will, at our request, be returned to us and after that time any holder of such debt security can only look to us for the payments on such debt security.

Any junior subordinated debt securities of a series can be exchanged for other junior subordinated debt securities of that series so long as such other debt securities are denominated in authorized denominations and have the same aggregate principal amount and same terms as the junior subordinated debt securities that were surrendered for exchange. The junior subordinated debt securities may be presented for registration of transfer, duly endorsed or accompanied by a satisfactory written instrument of transfer, at the office or agency maintained by us for that purpose in a place of payment. There will be no service charge for any registration of transfer or exchange of the junior subordinated debt securities, but we may require holders to pay any tax or other governmental charge payable in connection with a transfer or exchange of the junior subordinated debt securities. If the applicable prospectus supplement refers to any office or agency, in addition to the security registrar, initially designated by us where holders can surrender the junior subordinated debt securities for registration of transfer or exchange, we may at any time rescind the designation of any such office or agency or approve a change in the location. However, we will be required to maintain an office or agency in each place of payment for that series.

In the event of any redemption, neither we nor the junior subordinated trustee will be required to:

issue, register the transfer of, or exchange, junior subordinated debt securities of any series during a period beginning at the opening of business 15 days before the day of publication or mailing of the notice of redemption and ending at the close of business on the day of such publication or the mailing of such notice; or

transfer or exchange any junior subordinated debt securities so selected for redemption, except, in the case of any junior subordinated debt securities being redeemed in part, any portion thereof not to be redeemed.

Denominations

Unless we state otherwise in the applicable prospectus supplement, the junior subordinated debt securities will be issued only in registered form, without coupons, in denominations of \$1,000 each or multiples of \$1,000.

Bearer Debt Securities

If we ever issue bearer debt securities, the applicable prospectus supplement will describe all of the special terms and provisions of junior subordinated debt securities in bearer form, and the extent to which those special terms and provisions are different from the terms and provisions which are described in this prospectus, which

Table of Contents

generally apply to junior subordinated debt securities in registered form, and will summarize provisions of the junior subordinated indenture that relate specifically to bearer debt securities.

Original Issue Discount

Junior subordinated debt securities may be issued under the junior subordinated indenture as original issue discount securities and sold at a substantial discount below their stated principal amount. If a junior subordinated debt security is an original issue discount security, that means that an amount less than the principal amount of such debt security will be due and payable upon a declaration of acceleration of the maturity of such debt security under the junior subordinated indenture. The applicable prospectus supplement will describe the Puerto Rico income tax consequences and other special factors you should consider before purchasing any original issue discount securities.

Option to Defer Interest Payments

If provided in the applicable prospectus supplement, we will have the right from time to time to defer payment of interest on a series of junior subordinated debt securities for up to such number of consecutive interest payment periods as may be specified in the applicable prospectus supplement, subject to the terms, conditions and covenants, if any, specified in such prospectus supplement. Such deferral, however, may not extend beyond the stated maturity of such junior subordinated debt securities. Certain Puerto Rico and United States federal income tax consequences and special considerations applicable to any such debt securities will be described in the applicable prospectus supplement.

Redemption

Unless otherwise specified in the applicable prospectus supplement, the junior subordinated debt securities will not be subject to any sinking fund and will not be redeemable at the option of the holder.

Unless otherwise specified in the applicable prospectus supplement, we may, at our option and subject to receipt of prior approval by the Federal Reserve or its district reserve bank, if required, redeem the junior subordinated debt securities of any series in whole at any time or in part from time to time. If the junior subordinated debt securities of any series are redeemable only on or after a specified date or upon the satisfaction of additional conditions, the applicable prospectus supplement will specify such date or describe such conditions. Except as otherwise specified in the applicable prospectus supplement, the redemption price for any junior subordinated debt security so redeemed will equal 100% of the principal amount of such junior subordinated debt security plus accrued and unpaid interest to the redemption date.

Except as otherwise specified in the applicable prospectus supplement, we may, at our option and subject to receipt of prior approval by the Federal Reserve, if required, redeem a series of junior subordinated debt securities in whole, but not in part, at any time within 90 days after the occurrence of a tax event, investment company event or capital treatment event, each as defined below, at a redemption price equal to 100% of the principal amount of such junior subordinated debt securities then outstanding plus accrued and unpaid interest to the redemption date.

Tax Event means the receipt by a trust of an opinion of counsel experienced in such matters to the effect that, as a result of any amendment to, or change in, including any announced proposed change in, the laws or regulations of the United States, any political subdivision thereof or Puerto Rico, or any taxing authority thereof or therein, or as a result of any official administrative pronouncement or judicial decision interpreting or applying such laws or regulations, which amendment or change is effective or which proposed change, pronouncement or decision is announced on or after the date of the prospectus supplement relating to the issuance of trust preferred securities by such trust, there is more than an insubstantial risk that:

such trust is, or will be within 90 days of the date of such opinion, subject to United States federal or Puerto Rico income tax with respect to income received or accrued on the junior subordinated debt securities;

Table of Contents

interest payable by Popular on the junior subordinated debt securities is not, or within 90 days of the date of such opinion, will not be, deductible by Popular, in whole or in part, for Puerto Rico income tax purposes; or

such trust is, or will be within 90 days of the date of such opinion, subject to more than an immaterial amount of other taxes, duties or other governmental charges.

Investment Company Event means the receipt by a trust of an opinion of counsel experienced in such matters to the effect that, as a result of the occurrence of a change in law or regulation or a written change, including any announced prospective change, in interpretation or application of law or regulation by any legislative body, court, governmental agency or regulatory authority, there is more than an insubstantial risk that such trust is or will be considered an investment company that is required to be registered under the Investment Company Act of 1940, which change or prospective change becomes effective or would become effective, as the case may be, on or after the date of the prospectus supplement relating to the issuance of the trust preferred securities.

Capital Treatment Event means our reasonable determination that, as a result of any amendment to, or change in, including any announced proposed change in, the laws or regulations of the United States or any political subdivision thereof or Puerto Rico, or as a result of any official or administrative pronouncement or action or judicial decision interpreting or applying such laws or regulations, which amendment or change is effective or which proposed change, pronouncement, action or decision is announced on or after the date of the prospectus supplement relating to issuance of trust preferred securities by such trust, there is more than an insubstantial risk that Popular will not be entitled to treat an amount equal to the liquidation amount of such trust preferred securities as Tier I capital, or the then-equivalent thereof, for purposes of the capital adequacy guidelines of the Federal Reserve, as then in effect and applicable to Popular.

Notice of any redemption will be mailed at least 30 days but not more than 60 days before the redemption date to each holder of junior subordinated debt securities to be redeemed at its registered address. However, if the debt securities are held by a trust, notice shall be mailed at least 45 days but not more than 75 days before the redemption date. Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on such junior subordinated debt securities or portions thereof called for redemption.

Restrictions on Certain Payments

Unless otherwise specified in the applicable prospectus supplement, if:

there shall have occurred and be continuing an event of default with respect to a series of junior subordinated debt securities of which we have actual knowledge and which we have not taken reasonable steps to cure;

the junior subordinated debt securities of a series are held by a trust and we shall be in default relating to our payment of any obligations under our guarantee of the trust preferred securities issued by such trust; or

we shall have given notice of our election to defer payments of interest on a series of junior subordinated debt securities by extending the interest payment period and such period, or any extension of such period, shall be continuing;

then:

we shall not declare or pay any dividends or distributions on, or redeem, purchase, acquire or make a liquidation payment with respect to, any shares of our capital stock, including our preferred stock; and

we shall not make any payment of principal of or interest or premium, if any, on or repay, repurchase or redeem any debt securities issued by us that rank equally with or junior to the junior subordinated debt securities (except for partial payments of interest with respect to the junior subordinated debt securities).

Table of Contents

The restrictions listed above do not apply to:

any repurchase, redemption or other acquisition of shares of our capital stock in connection with (1) any employment contract, benefit plan or other similar arrangement with or for the benefit of any one or more employees, officers, directors, consultants or independent contractors, (2) a dividend reinvestment or stockholder purchase plan, or (3) the issuance of our capital stock, or securities convertible into or exercisable for such capital stock, as consideration in an acquisition transaction entered into prior to the applicable extension period;

any exchange, redemption or conversion of any class or series of our capital stock, or the capital stock of one of our subsidiaries, for any other class or series of our capital stock, or of any class or series of our indebtedness for any class or series of our capital stock;

any purchase of fractional interests in shares of our capital stock pursuant to the conversion or exchange provisions of such capital stock or the securities being converted or exchanged;

any declaration of a dividend in connection with any rights plan, or the issuance of rights, stock or other property under any rights plan, or the redemption or repurchase of rights pursuant thereto;

payments by us under any guarantee agreement executed for the benefit of the trust preferred securities; or

any dividend in the form of stock, warrants, options or other rights where the dividend stock or stock issuable upon exercise of such warrants, options or other rights is the same stock as that on which the dividend is being paid or ranks equally with or junior to such stock.

Limitation on Mergers and Sales of Assets

The junior subordinated indenture generally permits a consolidation or merger between us and another entity. It also permits the sale or transfer by us of all or substantially all of our property and assets. These transactions are permitted if:
