#### **Shanghai Petrochemical Announces Results**

for the First Three Quarters of 2010

Net Profit Rises 16.50% to RMB1.792 Billion

Hong Kong, October 27, 2010 Sinopec Shanghai Petrochemical Company Limited (Shanghai Petrochemical or the Company) (HKEx: 338; SSE: 600688; NYSE: SHI) announced today the unaudited operating results of the Company and its subsidiaries (collectively, the Group) for the nine-month period ended September 30, 2010 (the Period).

Under the China Accounting Standards for Business Enterprises, the Group s operating income for the Period amounted to RMB55.180 billion, representing an increase of 61.04% over the corresponding period of the previous year. Operating profit amounted to RMB2.271 billion (same period of 2009: RMB2.013 billion). Net profit attributable to equity shareholders of the Company amounted to RMB1.792 billion, representing an increase of 16.50% over the corresponding period of the previous year. Basic earnings per share was RMB0.249 (same period of 2009: RMB0.214).

Mr. Rong Guangdao, Chairman of Shanghai Petrochemical, said, In the first three quarters of 2010, the overall domestic and international macro-economic environment was better than that of the previous year, with China s petrochemical industry having maintained a positive trend. However, on the other hand, international crude oil prices continued to rise, and market competition was further intensified due to newly added production capacities. Faced with the aforesaid production and operation conditions, the Group further strengthened management, focused on safe, steady, long-term, fully loaded and optimized plant operation, and continued to make progress in technological advancement, product mix adjustment, and energy saving and unit feedstock consumption reduction. As a result, sales volumes increased significantly as compared to the corresponding period of the previous year, and technical and economic indices continued to improve, which in turn led to an improved performance in operating results for the first three quarters.

Shanghai Petrochemical is one of the largest petrochemical companies in the PRC and was one of the first Chinese companies to effect a global securities offering. Located in Jinshan District in the southwest of Shanghai, it is a highly integrated petrochemical complex which processes crude oil into a broad range of products in synthetic fibres, resins and plastics, intermediate petrochemicals and refined oil products.
