**FREQUENTLY ASKED QUESTIONS REGARDING ATTENDANCE AND VOTING**

**Q: Why am I receiving this proxy statement?**

**A:** You are receiving this proxy statement because the Board of Directors (the **Board**) of Navistar International Corporation ( **Navistar** or the **Company** ) is soliciting your proxy to vote your shares at our 2011 annual meeting of stockholders (the **Annual Meeting** ). This proxy statement includes information that we are required to provide to you under the rules of the U.S. Securities and Exchange Commission ( **SEC** ) and is designed to assist you in voting your shares.

**Q: What is the purpose of the Annual Meeting?**

**A:** The purpose of the Annual Meeting is to have stockholders act upon the matters outlined in the notice of annual meeting and this proxy statement, which include (i) Proposal 1 the election of the nominees named in this proxy statement as directors, (ii) Proposal 2 the ratification of the appointment of Navistar's independent registered public accounting firm, (iii) Proposal 3 the approval of an amendment to our Restated Certificate of Incorporation to increase the number of authorized shares of common stock of the Company ( **Common Stock** ) from 110,000,000 to 220,000,000, (iv) Proposal 4 an advisory vote on executive compensation, a so-called **Say-on-Pay** proposal, (v) Proposal 5 an advisory vote on the frequency of the advisory vote on executive compensation, a so-called **Say-When-on-Pay** proposal, and (vi) Proposal 6 acting on a stockholder proposal. In addition, management may report on the performance of Navistar and respond to appropriate questions from stockholders.

**Q: How does the Board recommend that I vote?**

**A.** The Board recommends that you vote:

FOR the election of each of the director nominees (Proposal 1);

## **Table of Contents**

You must provide evidence of your ownership of shares with your ticket request. The specific requirements for obtaining an admission ticket are specified in the Admission & Ticket Request Procedure on page 72 of this proxy statement.

### **Q: What is a stockholder of record?**

**A:** A stockholder of record or registered stockholder is a stockholder whose ownership of Navistar stock is reflected directly on the books and records of our transfer agent, BNY Mellon Investor Services (the Transfer Agent). If you hold stock through a bank, broker or other intermediary, you hold your shares in street name and are not a stockholder of record. For shares held in a street name, the stockholder of record of the shares is your bank, broker or other intermediary. Navistar only has access to ownership records for the stockholders of record. So, if you are not a stockholder of record, for the purpose of requesting a ticket to attend the Annual Meeting, the Company needs additional documentation to evidence your stock ownership as of the record date, such as, a copy of your brokerage account statement, a letter from your broker, bank or other nominee or a copy of your voting instruction card.

### **Q: When is the record date and who is entitled to vote?**

**A:** The Board has set December 31, 2010, as the record date for the Annual Meeting. Holders of Common Stock on that date are entitled to one vote per share. As of December 31, 2010, there were approximately 72,070,426 shares of Common Stock outstanding. If you are a participant in any of the Company's 401(k) or retirement savings plans, your proxy card will represent the number of shares allocated to your account under the plan and will serve as a direction to the plan's trustee as to how the shares in your account are to be voted.

A list of all registered holders will be available for examination by stockholders during normal business hours at 4201 Winfield Road, Warrenville, Illinois 60555 at least ten (10) days prior to the Annual Meeting and will also be available for examination at the Annual Meeting.

### **Q: How do I vote?**

**A:** *For stockholders of record:* You may vote by any of the following methods:

**in person** stockholders who obtain an admission ticket (following the specified procedure) and attend the Annual Meeting in person will receive a ballot for voting.

**by mail** use the proxy and/or voting instruction card provided.

**by phone or via the Internet** follow the instructions on the enclosed proxy and/or voting instruction card.

If you vote by phone or via the Internet, please have your proxy and/or voting instruction card available. The control number appearing on your card is necessary to process your vote. A phone or Internet vote authorizes the named proxies in the same manner as if you marked, signed and returned the card by mail.

*For holders in street name:* You will receive instructions from your bank or broker that you must follow in order for your shares to be voted.

### **Q: How can I change or revoke my proxy?**

**A:** *For stockholders of record:* You may change or revoke your proxy at any time before it is exercised by (i) submitting a written notice of revocation to Navistar c/o the Corporate Secretary at 4201 Winfield

## **Table of Contents**

Road, P.O. Box 1488, Warrenville, Illinois 60555, (ii) signing and returning a new proxy card with a later date, (iii) validly submitting a later-dated vote by telephone or via the Internet on or before 11:59 pm EST on February 14, 2011 or (iv) attending the Annual Meeting and voting in person. For all methods of voting, the last vote cast will supersede all previous votes.

*For holders in street name:* You may change or revoke your voting instructions by following the specific directions provided to you by your bank or broker.

### **Q: Is my vote confidential?**

**A:** Yes. Proxy cards, ballots and voting tabulations that identify stockholders are kept confidential. There are exceptions for contested proxy solicitations or when necessary to meet legal requirements. Broadridge Financial Solutions, Inc., the independent proxy tabulator used by Navistar, counts the votes and acts as the inspector of elections for the Annual Meeting.

### **Q: Will my shares be voted if I do not provide my proxy?**

**A:** *For stockholders of record:* If you are the stockholder of record and you do not vote by proxy card, by telephone or via the Internet or in person at the Annual Meeting, your shares will not be voted at the Annual Meeting.

*For holders in street name:* If your shares are held in street name, your shares may be voted even if you do not provide the brokerage firm with voting instructions. Under New York Stock Exchange ( NYSE ) rules, your broker may vote shares held in street name on certain routine matters. NYSE rules considers the ratification of the appointment of our independent registered public accounting firm (Proposal 2) and the approval of the amendment to our Restated Certificate of Incorporation to increase the number of authorized shares of Common Stock (Proposal 3), to be routine matters. As a result, your broker is permitted to vote your shares on those matters at its discretion without instruction from you.

When a proposal is not a routine matter, such as the election of directors (Proposal 1), the Say-On-Pay proposal (Proposal 4) and the Say-When-On-Pay proposal (Proposal 5), and you have not provided voting instructions to the brokerage firm with respect to that proposal, the brokerage firm cannot vote the shares on that proposal. The missing votes for these non-routine matters are called broker non-votes.

### **Q: What is the quorum requirement for the Annual Meeting?**

**A:** Under Navistar's bylaws, holders of at least one-third of the shares of Common Stock outstanding on the record date must be present in person or represented by proxy in order to constitute a quorum. Abstentions and broker non-votes are counted as present for purposes of establishing a quorum.

### **Q: What vote is necessary for action to be taken on proposals?**

**A:** It will depend on each proposal.

Proposal 1 (election of directors) requires a plurality vote of the shares present or represented at the Annual Meeting and entitled to vote, meaning that the director nominees with the most affirmative votes are elected to fill the available seats. As outlined in our Corporate Governance Guidelines, any director who receives more withheld votes than for votes in an uncontested election is required to tender his or her resignation to the Nominating and Governance Committee for consideration and recommendation to the Board.

**Table of Contents**

Proposal 2 (ratification of the appointment of our independent registered public accounting firm) requires the affirmative vote of a majority of the shares present or represented at the Annual Meeting and entitled to vote.

Proposal 3 (amendment to our Restated Certificate of Incorporation) requires the affirmative vote of at least a majority of the outstanding shares of our Common Stock.

Proposal 4 (Say-On-Pay proposal) represents an advisory vote and the results will not be binding on the Board or the Company. The affirmative vote of a majority of the shares present or represented at the Annual Meeting and entitled to vote on the matter will constitute the stockholders' non-binding approval with respect to our executive compensation programs. The Board will review the voting results and take them into consideration when making future decisions regarding executive compensation.

Proposal 5 (Say-When-On-Pay proposal) represents an advisory vote and the results will not be binding on the Board or the Company. The affirmative vote of a plurality of the shares present or represented at the Annual Meeting and entitled to vote on the matter will constitute the stockholders' non-binding approval with respect to the frequency of submission to stockholders of Say-on-Pay proposals. The Board will review the voting results and take them into consideration when making future decisions regarding the frequency of the advisory vote on executive compensation.

Proposal 6 (stockholder proposal) requires the affirmative vote of a majority of shares present or represented at the Annual Meeting and entitled to vote.

With respect to Proposals 2, 3, 4 and 6, you may vote FOR, AGAINST or ABSTAIN. If you abstain from voting on any of these proposals, the abstention will have the same effect as an AGAINST vote. With respect to Proposal 1, you may vote FOR all nominees, WITHHOLD your vote as to all nominees, or FOR all nominees except those specific nominees from whom you WITHHOLD your vote. A properly executed proxy marked WITHHOLD with respect to the election of one or more directors will not be voted with respect to the director or directors indicated. Proxies may not be voted for more than three directors and stockholders may not cumulate votes in the election of directors. With respect to Proposal 5, you may vote FOR Every Year, FOR Every Two Years, FOR Every Three Years, or ABSTAIN. Please select one choice only. If you abstain from voting on Proposal 1 or 5, the abstention will not have an effect on the outcome of the vote.

Broker non-votes will not affect the outcome on a proposal that requires a plurality vote (Proposals 1 and 5) or on a proposal that requires the approval of a majority of the votes present in person or represented by proxy and entitled to vote (Proposals 2, 4 and 6), but will have the effect of a vote against matters that require approval of a majority of the outstanding shares entitled to vote (Proposal 3).

Votes submitted by mail, telephone or Internet will be voted by the individuals named on the card (or the individual properly authorized) in the manner indicated. If you do not specify how you want your shares voted, they will be voted in accordance with management's recommendations. If you hold shares in more than one account, you must vote each proxy and/or voting instruction card you receive to ensure that all shares you own are voted.

**Q: What is house-holding?**

**A:** If you and other residents at your mailing address own shares of Common Stock in street name, your broker or bank may have notified you that your household will receive only one annual report and proxy statement for the Company if you hold stock through that broker or bank. In this practice

## **Table of Contents**

known as house-holding, you were deemed to have consented to that process. House-holding benefits both you and the Company because it reduces the volume of duplicate information received at your household and helps the Company to reduce expenses. Accordingly, the Company and your broker or bank will send one copy of our annual report and proxy statement to your address. Each stockholder will continue to receive a separate proxy card or voting instruction card. We will promptly deliver an additional copy of either document to you if you call or write us at the following address or phone number: Investor Relations, Navistar International Corporation, 4201 Winfield Road, P.O. Box 1488, Warrenville, Illinois 60555, (630) 753-2143.

### **Q: What does it mean if I receive more than one proxy card?**

**A:** Whenever possible, registered shares and plan shares for multiple accounts with the same registration will be combined into the same proxy card. Shares with different registrations cannot be combined and as a result, the stockholder may receive more than one proxy card. For example, registered shares held individually by John Doe will not be combined on the same proxy card as registered shares held jointly by John Doe and his wife.

Street shares are not combined with registered or plan shares and may result in the stockholder receiving more than one proxy card. For example, street shares held by a broker for John Doe will not be combined with registered shares for John Doe.

If you hold shares in more than one account, you must vote each proxy and/or voting instruction card you receive to ensure that all shares you own are voted. If you receive more than one card for accounts that you believe could be combined because the registration is the same, contact our stock transfer agent (for registered shares) or your broker (for street shares) to request that the accounts be combined for future mailings.

### **Q: Who pays for the solicitation of proxies?**

**A:** Navistar pays the cost of soliciting proxies. This solicitation is being made by mail, but also may be made by telephone, e-mail or in person. We have hired Alliance Advisors to assist in the solicitation of proxies. Alliance Advisors' fees are estimated to be \$10,500.00, plus out-of-pocket expenses, to assist in the solicitation. Proxies may also be solicited by our directors, officers and employees who will not be additionally compensated for those activities. We will reimburse brokerage firms and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for sending proxy materials to stockholders and obtaining their votes.

### **Q: When are stockholder proposals or nominations due for the 2012 annual meeting?**

**A:** Our annual meeting of stockholders is typically held on the third Tuesday in February. Accordingly, we expect to hold our 2012 annual meeting of stockholders on or around February 21, 2012. Under the rules of the SEC, we must receive any stockholder proposals to be included in our proxy statement for the 2012 annual meeting of stockholders no later than the close of business on September 16, 2011.

To otherwise seek to present a proposal at an annual meeting of stockholders or nominate directors, under our bylaws notice must be given not more than 180 days and not less than 120 days in advance of the first anniversary of the preceding year's meeting. Therefore, based on the date of our Annual Meeting, advance notice of any nominations for directors and any other proposals sought to be presented at the 2012 annual meeting of stockholders must be received between August 19, 2011 and October 18, 2011. All stockholder proposals and director nominations must be in accordance with our bylaws and delivered to Navistar by mail c/o the Corporate Secretary at 4201 Winfield Road, P.O. Box 1488, Warrenville, Illinois 60555.

**Table of Contents**

**Q: Are there any matters to be voted on at the Annual Meeting that are not included in the proxy?**

**A:** We do not know of any matters to be acted upon at the Annual Meeting other than those discussed in this proxy statement. If any other matter is properly presented, proxy holders will vote on the matter in their discretion.

**Q: May stockholders ask questions at the Annual Meeting?**

**A:** Yes. During the Annual Meeting, stockholders may ask questions or make remarks directly related to the matters being voted on. In order to ensure an orderly meeting, we ask that stockholders direct questions and comments to the Chairman. In order to provide the opportunity to every stockholder who wishes to speak, each stockholder's remarks will be limited to two minutes. Stockholders may speak a second time only after all other stockholders who wish to speak have had their turn.

**Q: How can I find the results of the Annual Meeting?**

**A:** Preliminary results will be announced at the Annual Meeting. Final results will be published in a Current Report on Form 8-K to be filed with the SEC within four business days after the Annual Meeting. If the official results are not available at that time, we will provide preliminary voting results in the Form 8-K and will provide the final results in an amendment to the Form 8-K as soon as they become available.

**Table of Contents****CORPORATE GOVERNANCE*****CORPORATE GOVERNANCE GUIDELINES***

Our Board has adopted Corporate Governance Guidelines, which are available on the Investor Relations section of our website at <http://ir.navistar.com/documentdisplay.cfm?DocumentID=1309>. These guidelines reflect the Board's commitment to oversee the effectiveness of policy and decision-making both at the Board and management level, with a view to enhancing stockholder value over the long term.

***RELATED PARTY TRANSACTIONS AND APPROVAL POLICY***

We established the Navistar Executive Stock Ownership Program in 1997 to more closely align the interests of stockholders and our senior management. Under this program all of our executive officers and certain senior managers are required to purchase and hold a specified amount of our Common Stock equal to a multiple of his or her annual base salary. Certain executive officers received full-recourse loans for the purchase price of our Common Stock they purchased through the program. Effective July 30, 2002, we ceased offering loans to our executive officers under this program. The loans extended to our executive officers prior to July 30, 2002, however, remained in effect in accordance with their then existing terms and conditions. These loans accrued interest at the applicable federal rate (as determined by Section 1274(d) of the Internal Revenue Code) on the purchase date (or date of refinance) for loans of stated maturity, compounded annually, were unsecured obligations and had a nine-year term. All principal and interest under these loans had to be repaid at maturity in a balloon payment.

The following executive officers of the Company had outstanding loans under this program during fiscal year 2010. The table below indicates the largest amount of the indebtedness outstanding and interest rate charged during fiscal year 2010. All principal and interest under these loans were repaid in full in fiscal year 2010.

Name	Maximum Indebtedness During Fiscal	
	2010(\$)	Interest Rate (%)
Gregory W. Elliott	\$135,915	4.77% & 5.02%
Daniel C. Ustian	\$418,867	4.77%

Our Policy and Procedures with Respect to Related Person Transactions governs the review, approval and ratification of transactions involving the Company and related persons where the amount involved exceeds \$120,000. Related persons include our executive officers, directors, director nominees, 5% stockholders and immediate family members of such persons, and entities in which one of these persons has a direct or indirect material interest. Under this policy, prior to entering into any related-person transaction, the General Counsel or Corporate Secretary of Navistar is to be notified of the facts and circumstances of the proposed transaction, including: (i) the related person's relationship to the Company and interest in the transaction; (ii) the material facts of the proposed transaction, including the proposed aggregate value of such transaction or, in the case of indebtedness, the amount of principal that would be involved; (iii) the benefits to the Company of the proposed transaction; (iv) if applicable, the availability of other sources of comparable products or services; and (v) an assessment of whether the proposed transaction is on terms that are comparable to the terms available to an unrelated third party or to employees generally.

The General Counsel or Corporate Secretary then assesses whether the proposed transaction is a related-person transaction for purposes of the policy and SEC rules. If the General Counsel or

## **Table of Contents**

Corporate Secretary determines that the proposed transaction is a related-person transaction, the proposed transaction is then submitted to the Audit Committee of the Board for its consideration. The Audit Committee considers all of the relevant facts and circumstances available, including (if applicable) but not limited to: (i) the benefits to the Company; (ii) the impact on a director's independence, in the event such person is a director; (iii) the availability of other sources for comparable products or services; (iv) the terms of the transaction; and (v) the terms available to unrelated third parties or to employees generally. No member of the Audit Committee shall participate in any review, consideration or approval of any related-person transaction with respect to which such member or any of his or her immediate family members is the related person. The Audit Committee approves only those proposed transactions that are in, or are not inconsistent with, the best interests of the Company and its stockholders, as determined by the Audit Committee in good faith. In the event that the Company becomes aware of a related-person transaction that has not been previously approved or ratified, a similar process will be undertaken in order to determine if the existing transaction should continue or be terminated and/or if any disciplinary action is appropriate. The General Counsel or Corporate Secretary may also develop, implement and maintain from time to time certain administrative procedures to ensure the effectiveness of this policy.

A copy of our Policy and Procedures with Respect to Related Person Transactions is available on the Investor Relations section of our website at <http://ir.navistar.com/documentdisplay.cfm?DocumentID=3617>.

Since the beginning of fiscal year 2010, the following three related-person transactions occurred:

The first originally occurred in August 2008 and relates to our Vice President and Treasurer, James M. Moran, in regards to his wife Kristin Moran's employment as the General Counsel of our finance subsidiary, Navistar Financial Corporation. As General Counsel of Navistar Financial Corporation, Mrs. Moran receives compensation in excess of \$120,000 per year. Since Mrs. Moran's employment pre-dated Mr. Moran's appointment as our Vice President and Treasurer, that relationship was permissible under the applicable provisions of our Policy and Procedures with Respect to Related Person Transactions and did not require Audit Committee approval. Any material change in the terms of Mrs. Moran's employment would, however, need to be approved by the Audit Committee.

The second originally occurred in December 2007 and was ratified in December 2010 and related to the retention of Evercore Trust Company as an investment manager for certain of our employee benefit plan trusts. As compensation for its investment manager services, Evercore Trust Company was paid an aggregate yearly service fee of \$250,000. By virtue of serving as investment manager for certain of our employee benefit plan trusts that at times exceeded 5% ownership during 2010, Evercore Trust Company was deemed to be more than a 5% beneficial owner of our Common Stock. The Audit Committee determined that the investment manager service provided by Evercore Trust Company was not inconsistent with the best interests of the Company and ratified and approved the transaction.

The third originally occurred in September 2009 and relates to our Chief Financial Officer, Andrew Cederoth, whose brother in law, Daniel McEachern, is a materials manager at Navistar, Inc. As sourcing manager at Navistar, Mr. McEachern received compensation in excess of \$120,000 per year. Since Mr. McEachern's employment predated Mr. Cederoth's appointment as our Executive Vice President and Chief Financial Officer, that relationship was permissible under the applicable provisions of our Policy and Procedures with Respect to Related Person Transactions and did not require Audit Committee approval. Any material change in the terms of Mr. McEachern's employment would, however, need to be approved by the Audit Committee.

***DIRECTOR INDEPENDENCE DETERMINATIONS***

We believe that a majority of our members of our Board should be independent non-employee directors. Our Board has affirmatively determined that each of Messrs. Clariond, Correnti, Hammes, Harrison, Keyes, Klinger, Osborne and Williams and Ms. Gulyas qualifies as an independent director in accordance with the NYSE's independence requirements and our own internal guidelines for determining director independence and each has been determined to be financially literate. All of the members of our Audit Committee, Compensation Committee, Finance Committee and the Nominating and Governance Committee are independent and financially literate.

Both the NYSE requirements and our own guidelines include a series of objective tests for determining the independence of a director, such as that the director is not an employee of Navistar and has not engaged in various types of commercial or charitable relationships with Navistar. A copy of our existing guidelines for determining director independence, as included in our Corporate Governance Guidelines, is available on the Investor Relations section of our website at <http://ir.navistar.com/documentdisplay.cfm?DocumentID=1309>. Our Board has made a determination as to each independent director that no relationship exists which, in the opinion of the Board, would interfere with the exercise of the director's independent judgment in carrying out his or her responsibilities as a director. In making these determinations, our Board reviewed and discussed information provided by the directors and Navistar with regard to each director's business and personal activities as they may relate to Navistar, its management and/or its independent registered public accounting firm. We intend to explain in our public filings the basis for any determination by the Board that a relationship is not material if the relationship does not satisfy one of the specific categories of immaterial relations contained in our existing guidelines.

***BOARD LEADERSHIP STRUCTURE***

The Company's Corporate Governance Guidelines allow the Board to select the Chairman of the Board and the CEO and determine from time to time whether the positions are combined and filled by one person or separated and filled by two persons. Currently, Mr. Daniel C. Ustian, our CEO, is also Chairman. The Board has determined that selecting our CEO as Chairman is in the best interests of the Company and its stockholders because this leadership structure promotes a unified vision for our Company, strengthens the ability of the CEO to develop and implement strategic initiatives and facilitates our Board's efficient and effective functioning.

The Board also believes the combination of Chairman and CEO position is appropriate in light of the independent oversight provided by the Board and the appointment of an independent Lead Director. On October 20, 2009, the Board appointed Mr. Michael N. Hammes to serve as Lead Director for a second two-year term. Our Lead Director's duties and responsibilities include: (i) facilitating communications and information sharing among the independent directors; (ii) advising on Board meeting agendas; (iii) advising on meeting materials; (iv) participating in the evaluation and selection of candidates for selection to the Board; (v) participating in the recruiting of new directors; (vi) overseeing the Board self-evaluation process and individual director evaluations, if such individual director evaluations are performed; (vii) participating in the evaluation of the CEO; (viii) participating in the development of recommendations to the Board for the election of Board Committee members and the appointment of Committee chairs; (ix) chairing Board meetings in the absence of the Chair; (x) making recommendations about retention of consultants reporting to the Board; (xi) attending all Board Committee meetings; and (xii) consulting with the CEO prior to the CEO's personal transactions in the Corporation's securities. In addition, the Lead Director provides feedback to the CEO regarding the other directors' comments and concerns.

### ***RISK OVERSIGHT***

Our Board has overall responsibility for the oversight of risk management at our Company. Day to day risk management is the responsibility of management, which has implemented an Enterprise Risk Management process to identify, assess, manage and monitor risks that face our Company. Enterprise Risk Management operates within our Internal Audit and Sarbanes-Oxley Compliance department and coordinates its efforts with these departments. Our Board, either as a whole or through its Committees, regularly discusses with management our major risk exposures, their potential impact on our Company, and the steps we take to monitor and control such exposures.

While our Board has general oversight responsibility for risk at our Company, the Board has delegated some of its risk oversight duties to the various Board Committees. In particular, the Audit Committee is responsible for generally reviewing and discussing the Company's policies and guidelines with respect to risk assessment and risk management. It also focuses on the management of financial risk exposure and oversees financial statement compliance and control environment risk exposure. The Nominating and Governance Committee oversees risks related to corporate governance, including risk related to the political environment. The Compensation Committee assists our Board in overseeing the management of risks arising from our compensation policies and programs and programs related to assessment, selection, succession planning, training and development of executives of the Company. Finally, the Finance Committee is responsible for overseeing policies with respect to financial risk assessment and financial risk management including, without limitation, risks relating to liquidity/access to capital and macroeconomic trends/environment risks. Each of the Board Committees reviews these risks and then discusses the process and results with the full Board.

The Board believes the combined role of Chairman and CEO is an effective structure for the Board to understand the risks associated with the Company's strategic plans and objectives. Additionally, maintaining an independent Board with a Lead Director permits open discussion and assessment of the Company's ability to manage these risks.

### ***NOMINATING DIRECTORS***

You may recommend any person as a candidate for director by writing to Corporate Secretary at 4201 Winfield Road, P.O. Box 1488, Warrenville, Illinois 60555 and complying with the procedures set forth in our bylaws. Your letter must include all of the information required by our bylaws including, but not limited to, the proposed nominee's biographical information and principal occupation; the number of shares of capital stock of the Company which are owned by the proposed nominee, appropriate information about the proposed nominee that would be required to be included in a proxy statement under the rules of the SEC, the number of shares held by you, information about the relationship between the proposed nominee and you, and a representation that you intend to appear in person or by proxy at the meeting to nominate the proposed nominee. Your letter must be accompanied by the written consent of the proposed nominee to being named as a nominee and to serve as a director if elected. You may only recommend a candidate for director if you hold shares of the Company's stock on the date you give the notice described above and on the record date for the annual meeting of stockholders at which you propose such nominee be elected.

The Nominating and Governance Committee identifies nominees for directors from various sources, including suggestions from Board members and management, and in the past has used third party consultants to assist in identifying and evaluating potential nominees. The Nominating and Governance Committee will consider persons recommended by the stockholders in the same manner as a committee-recommended nominee. The Nominating and Governance Committee has specified the following minimum qualifications that it believes must be met by a nominee for a position on the Board:

knowledge and contacts in the Company's industry and other relevant industries;

positive reputation in the business community;

## **Table of Contents**

the highest personal and professional ethics and integrity and values that are compatible with the Company's values;

experiences and achievements that provide the nominee with the ability to exercise good business judgment;

ability to make significant contributions to the Company's success;

ability to work successfully with other directors;

willing to devote the necessary time to the work of the Board and its committees which includes being available for the entire time of meetings;

ability to assist and evaluate the Company's management;

is involved only in other activities or interests that do not create a conflict with their responsibilities to the Company and its stockholders;

understands and meets its responsibilities to the Company's stockholders including the duty of care (making informed decisions) and the duty of loyalty (maintaining confidentiality and avoiding conflicts of interest); and

potential to serve on the Board for at least five years.

The Nominating and Governance Committee believes that consideration should also be given to having a diversity of backgrounds, skills, and perspectives among the directors, and that generally directors should not be persons whose primary activity is investment banking, law, accounting, or consulting. In addition, the selection of directors should consider the need to strengthen the Board by providing a diversity of persons in terms of their expertise, age, sex, race, ethnicity, education, and other attributes which contribute to the Board's diversity.

The satisfaction of the above criteria is implemented and assessed through ongoing consideration of directors and nominees by the Nominating and Governance Committee and the Board, as well as the Board's self-evaluation process. Based upon these activities and its review of the current composition of the Board, the Nominating and Governance Committee and the Board believe that these criteria have been satisfied.

As outlined in our Corporate Governance Guidelines, any director who receives more withheld votes than for votes in an uncontested election is required to tender his or her resignation to the Nominating and Governance Committee for consideration and recommendation to the Board. The Board will publicly disclose its decision.

## ***BOARD COMMITTEES AND MEETINGS***

The Board documented its governance practices in our Corporate Governance Guidelines. These governance standards embody many of our long-standing practices, policies and procedures, which are the foundation of our commitment to best practices. In October 2010, the Board conducted an evaluation of the directors, the committees and the Board.

The Board has five standing committees: an Audit Committee, a Compensation Committee, an Executive Committee, a Finance Committee and a Nominating and Governance Committee. Each of the committees, except for the Executive Committee, is governed by a written charter, copies of which are available on the Investor Relations section of our website at <http://ir.navistar.com/documents.cfm>.

**AUDIT COMMITTEE REPORT**

Management of the Company has the primary responsibility for the integrity of the accounting, auditing and financial reporting practices of the Company, including the system of internal controls. KPMG LLP ( KPMG ), our independent registered public accounting firm, is responsible for performing an independent audit of the Company's consolidated financial statements and internal controls over financial reporting in accordance with standards established by the Public Company Accounting Oversight Board (United States) and issuing a report thereon. The Audit Committee's responsibility is to monitor these processes. In this regard, the Audit Committee meets periodically with management, the internal auditors and our independent registered public accounting firm. The Audit Committee has the authority to conduct or authorize investigations into any matters within the scope of its responsibilities and the authority to retain such outside counsel, experts and other advisors as it determines appropriate to assist it in conducting any such investigations. The Audit Committee is responsible for selecting and, if appropriate, replacing our independent registered public accounting firm.

The Audit Committee discussed with KPMG the overall scope and execution of the independent audit and reviewed and discussed the audited financial statements with management. Discussions about the Company's audited financial statements included KPMG's judgments about not only the acceptability of the accounting principles, but also the quality, the reasonableness of significant judgments and the clarity of disclosures in the financial statements. The Audit Committee also discussed with KPMG other matters required by Statement on Auditing Standards No. 114 (AICPA, Professional Standards, Vol. 1, AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. KPMG provided to the Audit Committee the written disclosures and the letter required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered public accounting firm's communications with the Audit Committee concerning independence, and the Audit Committee discussed the independence of the independent registered public accounting firm with management and KPMG. The Audit Committee concluded that KPMG's independence had not been impaired.

Based on the above-mentioned review and discussions with management and KPMG, and subject to the limitations on the roles and responsibilities of the Audit Committee referred to above and in the Audit Committee's written charter, the Audit Committee recommended to the Board that the Company's audited consolidated financial statements be included in its Annual Report on Form 10-K for the fiscal year ended October 31, 2010 for filing with the SEC. In addition, the Audit Committee engaged KPMG to serve as the Company's independent registered public accounting firm for fiscal year 2011.

these DSUs. These DSUs vest immediately. ***COMPENSATION COMMITTEE REPORT***

The Compensation Committee of our Board (the Committee) reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management, and based upon this review and discussion, the Committee recommended to the Board that the Compensation Discussion and Analysis (CD&A) be included in this proxy statement. The independent members of the Board reviewed and discussed the compensation of the CEO.

***COMPENSATION DISCUSSION AND ANALYSIS***

The Committee has the responsibility to approve and monitor all compensation and benefit programs for our executive officers (designated as Section 16 Officers) and makes recommendations for the compensation and benefits of our Chief Executive Officer (the CEO), which is then approved by the independent members of our Board. As part of its responsibility, the Committee reviews the performance of executive officers and approves compensation based on the overall successes of the individual executive, his or her specific business unit to the extent applicable, and the organization as a whole. The Committee is governed by a written charter, a copy of which is available on the Investor Relations section of our website at <http://ir.navistar.com/documentdisplay.cfm?DocumentID=809>.

**Executive Summary**

Our long term strategy is focused on three pillars: (i) Great Products, (ii) Competitive Cost Structure, and (iii) Profitable Growth. Two key enablers to this strategy are (i) Leverage the resources we have and those of our partners, and (ii) Control our destiny.

As our stockholders read through this CD&A, we believe our executive compensation programs are designed to support the Company and our business strategies in concert with our culture, compensation philosophies and guiding principles.

The following describes some of the key executive compensation program changes implemented or designed in fiscal year 2010.

The Committee eliminated the gross up on perquisites or other similar payments for Section 16 Officers effective November 1, 2009.

The Committee eliminated the excise tax gross up on Change in Control (CIC) payments effective with the January 1, 2010 amended Executive Severance Agreement (ESA).

The Committee amended the ESAs to ensure alignment with competitive best practices and regulatory compliance.

## **Table of Contents**

The Committee approved the redesign of the fiscal year 2010 Annual Incentive ( AI ) Plan which ties into our strategy and drives key performance behaviors.

The Committee approved the fiscal year 2011 Long Term Incentive ( LTI ) Plan that includes a total stockholder return plan for top executives, including our NEOs, focused on increasing stockholder value and outperforming the competition.

The Committee, as well as the entire Board, reviewed our Human Resources People Strategy to address succession and executive development.

Details regarding these changes are further explained in the respective sections throughout the CD&A and this proxy statement.

## **Detailed Review of Executive Compensation**

### **Compensation Philosophy and Objectives**

Our executive compensation program for our NEOs, as well as other executives, is designed to closely align executive rewards with corporate, group and individual performance and the total return to stockholders. We developed an overall compensation philosophy that is built on a foundation of guiding principles:

*Competitive Positioning:* Total remuneration is designed to attract and retain the executive talent required to achieve our goals through a market competitive total remuneration package.

*Performance Orientation:* Executive compensation is performance-based with a direct link to Company, business unit, and individual performance. It is also designed to align the interests of executives and stockholders.

*Fairness:* Compensation programs are designed to be fair and equitable across all employee groups and should not discriminate in favor of any one individual or group on the basis of age, service, or other non-performance related criteria.

*Ownership and Responsibility:* Programs recognize individual contributions as well as link executive and stockholder interests through compensation programs that reward our executives, including our NEOs, based on the financial success of the Company and increases to stockholder value.

### **Market Compensation Review**

We continuously monitor the market competitiveness of our executive compensation program. Over the past couple of years, the Committee has reviewed various components of the program to ensure that (i) pay opportunities are competitive with the market, (ii) there is an appropriate link between performance and pay and (iii) the program supports our stated compensation philosophy. This process included consultation with Exequity, an independent compensation consultancy firm, which compared compensation of our executives, including our NEOs, on short-term incentive awards, long-term incentives, executive severance arrangements, other benefits and our overall compensation and benefits philosophy to that of our comparator group and broader market practice. Exequity was engaged by the Committee and reports solely to the Committee. The Committee has the sole authority to approve the terms of engagement. Exequity did not provide any services to the Company other than executive compensation consulting services during fiscal year 2010. The Committee considered both Exequity's advice and management's opinion in determining the compensation strategy. On an ad hoc basis, the Committee may engage Exequity to provide information regarding specific executive compensation topics of interest.

**Table of Contents**

For fiscal year 2010, our comparator group of 23 companies was chosen from a cross section of manufacturing and transportation and equipment companies that have revenues ranging from one half to two times our revenues. The removal of Lear Corporation, as a result of their filing bankruptcy protection under Chapter 11, was the only change from fiscal year 2009 to fiscal year 2010. We review executive compensation against this peer group of companies with which we compete for talent. Information about this list of companies is used by Exequity and management when the Committee requests specific executive compensation analyses. The Committee approved the following peer group for fiscal year 2010.

**Fiscal Year 2010 Compensation Peer Group**

AGCO Corporation	Goodrich Corporation	PACCAR Incorporated
Cummins Incorporated	Goodyear Tire and Rubber	Parker-Hannifin
Danaher Corporation	Harley Davidson, Incorporated	PPG Industries, Inc.
Deere and Company	Illinois Tool Works	Terex Corporation
Dover Corporation	Ingersoll-Rand Co. Ltd.	Textron, Incorporated
Eaton Corporation	ITT Industries, Incorporated	TRW Automotive Holdings Corporation
General Dynamics	Masco Corporation	Whirlpool Corporation
Genuine Parts Company	Oshkosh Corporation	

A broader industry survey published by Hewitt Associates was also used to provide us with additional compensation market data. Please refer to Appendix A of this proxy statement for a list of participants in Hewitt's 2010 TCM survey. For individual executive positions, if the market data from the peer group of companies was not statistically reliable because of the small sample size, we also used the manufacturing group (or if the sample size is large enough, the all-industry group) of this broader survey data. When we use broader industry surveys, we use market data within our revenue scope, either overall consolidated revenue for corporate roles and/or business unit revenue for business unit specific roles. This is especially true for the base salary competitive market review.

In fiscal year 2010, for base salary, short-term incentives, and long-term incentives, we targeted the 50<sup>th</sup> percentile (market median). We established a policy of targeting base salaries at the 50<sup>th</sup> percentile (market median) of the competitive market, based on the peer group, where available, or the broader industry survey. We refer to this as the competitive market data, competitive marketplace, or the like. We consider an executive to be compensated competitively if his or her base salary is within 85 to 115 percent of the market median. Under special circumstances, when we are recruiting for critical roles, we may target an executive's salary up to the 75<sup>th</sup> percentile. Our incentive compensation plans provide executives with the opportunity to earn total compensation at the 50<sup>th</sup> percentile of the competitive market for target consolidated, business unit, and/or individual performance and at the 75<sup>th</sup> percentile for distinguished consolidated, business unit, and/or individual performance.

Typically, the CEO makes recommendations to the Committee regarding annual base salary increases for the NEOs other than himself (see the section entitled *Summary of the Executive Salary Planning Approval Process* below). For our AI, the CEO may recommend that the Committee adjust awards to reflect individual performance. For long-term incentives, awards generally follow our fixed share guidelines with no adjustments recommended by the CEO, however awards granted under our new plan design, described below in our LTI section, the CEO has discretion for select executives eligible for the TSR plan.

**Pay Mix**

Our pay mix of base salary, short-term incentives, and long-term incentives generally tracks to the marketplace with the major component of total compensation, specifically annual and long-term incentives, being contingent on and variable with performance. This structure supports our pay-for-performance compensation philosophy.

## **Table of Contents**

### **Elements of Executive Compensation**

The key elements of our executive compensation program include base salary, short-term incentives, long-term incentives, retirement benefits, perquisites, and other benefits. We also maintain stock ownership guidelines for our executives, including our NEOs. Although decisions relative to each of these compensation elements are made separately, the Committee considers the total compensation and benefits package when making any compensation decision.

### **Base Salary**

We pay each executive officer a competitive base salary, on a monthly basis, for services rendered during the year. Base salaries for executive officers, including our NEOs, are typically reviewed and adjusted based on evaluating (i) the responsibilities of their positions, (ii) the competitive marketplace data and (iii) the performance of each executive during the fiscal year.

### **Summary of the Executive Salary Planning Approval Process**

The head of each business unit reviews competitive salary market data relevant to his or her direct and indirect reports.

The head of each business unit provides salary recommendations for his or her direct and indirect reports.

The CEO reviews and approves and/or adjusts all of these salary recommendations.

The Committee reviews the salary for the CEO and reviews and approves the CEO's salary recommendations for all Section 16 Officers. The CEO does not recommend nor is he involved in decisions regarding his own compensation.

The Committee then recommends and the independent members of the Board approve or adjust the salary recommendation for the CEO. As described in greater detail below, we have a detailed procedure in place for reviewing the performance of the CEO and determining the annual salary of the CEO.

Due to the economic environment, and consistent with fiscal 2009, traditional base salary performance increases to executives, including NEOs, did not occur for fiscal year 2010. After a two year freeze on performance-based salary increases, this type of salary change was reinstated in fiscal year 2011.

### **CEO Performance Evaluation**

Each year, typically in December, the Committee and the independent members of the Board evaluate the CEO's performance for the prior fiscal year. This review is based on the CEO's achievement of goals set for the start of that year. The CEO presents this information solely to the independent members of the Board, who then discuss it in executive session. The CEO is not present during this discussion. The independent members' evaluation of the CEO's performance then forms the basis for the decision on the CEO award under our AI Plan which is described below, for the prior fiscal year and base salary for the new fiscal year. The chair of the Committee then informs the CEO of the compensation decisions and the performance evaluation on which those decisions were based.

In December 2009, the independent members of the Board discussed and evaluated Mr. Ustian's accomplishments as CEO. These accomplishments included his foresight in creating the military business and providing continuing leadership to make it sustainable; his work in bringing an end to a

protracted dispute with one of the Company's suppliers in a manner that set the stage for the formation of a significant new partnership with that supplier; his leadership in navigating the Company through the loss of a significant customer and setting the stage for the Company's engine business to be successful; the many actions he has taken and continues to take to develop a business model that provides profitability at the bottom of the business cycle; and his leadership in making strategic acquisitions to position the Company for future successes. Based on this evaluation, the independent members of the Board recommended and approved an award in the amount of \$1,946,000 in recognition of Mr. Ustian's achievements.

In December 2010, the independent members of the Board approved a base salary increase for Mr. Ustian from \$1,180,000 to \$1,250,000. Mr. Ustian's base salary was last increased in December 2007. This action followed the Committee's earlier approval of base salary increases for other executives, including NEOs, for fiscal year 2011. In this regard, the Committee determined that there will be performance increases in general to the base salary for executives, including NEOs, in fiscal year 2011. Also, in December 2010, the independent members of the Board approved a fiscal year 2010 AI Plan award (AI award) at the Distinguished level for Mr. Ustian based upon both the Company's successful financial results and his strong performance in fiscal year 2010 as a result of his achievements within our three strategic pillars of great products, competitive costs and profitable growth. As discussed in the Annual Incentive section below, the Company's fiscal year 2010 Consolidated Normalized Earnings Per Share (EPS) was \$3.05, which is 146% of Target, slightly below the Distinguished level of performance (150% of Target). Excluding a one-time charge for costs associated with the fourth quarter settlement of a new labor agreement, EPS would have been \$3.19 (155% of Target), which is higher than the Distinguished level of performance of \$3.12 EPS.

### **Annual Incentive**

#### **AI Plan Redesign**

Historically, the profitability of our business has been heavily influenced by the cycle of North American truck sales. Consolidated financial goals for AI had in the past been based on return on pro forma equity (ROE). A benchmark of 16.5% ROE had been used to target performance on average over the range of the business cycle (which is represented by forecasted truck industry volume). This truck industry volume measure is re-evaluated annually due to cyclical fluctuations. The amount of income required to earn AI was calculated using this ROE target and then converted to an EPS goal.

The Committee engaged Exequity to work in tandem with the Committee and management on an AI plan redesign project in fiscal year 2009 and into fiscal year 2010 with final Committee approval provided in December 2009.

In redesigning the plan for fiscal year 2010, we considered the following qualitative and quantitative factors: (i) financial metrics, (ii) market expectations for Company performance, (iii) management and Board expectations for Company performance, (iv) the changing nature of our business, (v) how best to prepare the business to be successful in the future, (vi) how the organization works together, and (vii) the fact that our business units are highly dependent on each other.

During this redesign process, we reaffirmed that our overall goals should still be based upon truck industry volume as the demand for our products is closely tied to this metric. However, while ROE and industry volume remain the foundation of the AI calculation, EPS is our primary performance factor. Additionally, EPS is a metric that is understandable and transparent to our stockholders.

Key Features of the 2010 AI Plan:

Controlling our destiny

Reduce the impact of unforeseen events on our financial results

The AI Plan is a short-term incentive program that exists to reward, motivate and retain employees as well as align rewards with performance for the fiscal year. The AI Plan is a key element in the executive compensation package as the Company intends for a significant portion of an executive's, including the NEO's, total compensation to be performance-related. The AI Plan for fiscal year 2010 was based on attaining financial and non-financial performance goals established and approved by the Committee. The AI Plan is authorized under our stockholder approved 2004 PIP. The 2004 PIP is an omnibus plan that allows for various awards such as cash, stock options, stock appreciation rights, RSUs, PSUs, and DSUs. The AI Plan and the 2004 PIP do not currently have claw-back provisions, which, for example, would retract a prior incentive award when financial results are restated after the award was paid. Our intent is to implement a claw-back provision soon after the final SEC rules and guidelines on this topic are adopted.

The AI Plan has threshold, target, distinguished, and super-distinguished performance payout levels for the NEOs which range from 25% to 200% of target. Based upon performance, in some years, the Company may not make AI payments, but the Company also has the ability under the plan to make maximum payments at 200% of target bonus opportunity for super-distinguished performance. Consolidated financial results between performance levels are interpolated on a straight-line basis to determine payment amounts.

## Edgar Filing: NAVISTAR INTERNATIONAL CORP - Form DEF 14A

The following were factors in the 2010 AI Plan:

*Consolidated Financial Performance:* For all of our executives, consolidated financial performance is heavily weighted in the calculation of incentive payments in order to encourage integrated execution across organizational boundaries within the Company.

Page 32

**Table of Contents**

We believe that it is important to encourage executives to work together for the best consolidated results rather than to focus on results at one business unit at the expense of other business units. Consolidated financial goals are based on our EPS, as determined by the Committee. The EPS goal is established based on an expected industry volume and an additional adjustment takes place to account for the sustainable revenues and margins from the Company's growth businesses.

The following table outlines the fiscal year 2010 EPS goals based upon a forecast for truck industry volume of 203,000 units and growth business revenue of \$2.0 billion.

Goal	EPS
Threshold (25% of Target)	\$ .78
Target (100%)	\$ 2.34
Distinguished (150% of Target)	\$ 3.12
Super Distinguished (200% of Target)	\$ 3.90

Final fiscal year 2010 EPS was \$3.05 which is 146% of Target, slightly below the Distinguished level of financial performance at 150% of Target. Excluding a one-time charge of costs associated with the fourth quarter settlement of a new labor agreement, EPS would have been \$3.19 (155% of Target), which is higher than the Distinguished level of performance.

*Business Unit and Individual Performance:* The AI Plan is funded based on consolidated performance but may be adjusted based on assessment of business unit/functional group performance as well as individual performance.

The CEO in consultation with the Committee establishes goals for the Company including its major business units and/or functions. Performance relative to the goals is assessed quantitatively and qualitatively at the end of the fiscal year. A participant's award may be adjusted based on the performance of their business unit and/or functional area as well as their individual performance.

Individual performance is measured by our annual Total Performance Management (the TPM) assessment. The TPM process is a performance management tool that focuses on employee career development, goal setting, performance appraisal and evaluation. The TPM assessment reviews how well the executive performed with regard to both individual goals and defined skills and behaviors.

Generally only financial goals are applicable to awards to our NEOs except where business unit and/or individual performance is used for downward discretion. However, for fiscal year 2010, in no event will any NEO receive an award greater than their predetermined share of a pool equal to 1.75% of operation income (defined as EBIT) over \$50 million.

In conjunction with the 2010 AI factors stated above, the following are additional factors used to determine the total AI pool:

Achievement of pre-established financial and non-financial goals

Market expectations

Senior management expectations do our accomplishments differentiate the Company in the marketplace? Have we prepared the business to be successful in the future?

Affordability

**Table of Contents**

The Committee reserves the right to reduce the aggregate amounts paid under the AI Plan. Generally, AI awards are not paid when consolidated results are below threshold. In any event, under no circumstances will the AI Plan provide payments when net income is negative.

The Committee has the discretion to adjust a bonus payment. In doing so, the Committee historically considers the requirements of Section 162(m) of the Internal Revenue Code. While the Committee generally intends for incentive compensation to be tax deductible, there may be instances when the Committee decides to award a non-deductible amount. The Committee did not award a non-deductible AI amount for fiscal year 2010.

**Fiscal Year 2010 AI Target Award Percentages and Amount Earned**

Named Executive Officer	Business Unit	Target as a % of Base Salary	Maximum NEO Payment available under our 2010 AI pool	2010 AI Amount Earned
Daniel C. Ustian	Corporate			
	/Consolidated	110%	\$2,313,675	\$1,947,000
Andrew J. Cederoth	Corporate			
	/Consolidated	75%	\$ 652,575	\$ 475,000
Deepak T. Kapur	Truck	75%	\$ 830,550	\$ 600,000
Steven K. Covey	Corporate			
	/Consolidated	65%	\$ 593,250	\$ 482,625
Phyllis E. Cochran	Parts	65%	\$ 474,600	\$ 400,000

Final NEO awards were based upon consolidated financial performance and then the Committee used downward discretion to make individual award decisions based upon their business unit or functional area as well as individual performance. For fiscal year 2010, no NEO received an award greater than their predetermined share of a pool equal to 1.75% of operation income (defined as EBIT) over \$50 million.

As previously discussed in the CEO Performance Evaluation section, Mr. Ustian's award is based upon the Distinguished level of performance. Mr. Cederoth's achievements included cost reductions, including but not limited to SG&A, post-retirement costs, and refinancing initiatives, realigning the capital structure of the finance company, in addition to leading the Company's finance transformation efforts. Mr. Cederoth's award is between the Target and Distinguished level of performance. Mr. Kapur's achievements included product launches, military contracts, maintaining market share, and preparing for global expansion in the Truck business. Mr. Kapur's award is between the Target and Distinguished level of performance. Mr. Covey's achievements included the resolution of significant legal matters including commercial and regulatory issues. Mr. Covey's award is based upon the Distinguished level of performance. Ms. Cochran's achievements include the growth and improvement of margins in the Parts business. Ms. Cochran's award is between the Target and Distinguished level of performance.

**Long-Term Incentive**

Traditionally, our objectives for including long-term incentives as part of our executives' total compensation package include:

Aligning executive and stockholder interests by tying compensation to share price appreciation;

Emphasizing returns to stockholders; and

Cultivating ownership.

## **Table of Contents**

Historically, we have focused our long-term incentive plan on the use of stock options to align executives' interests with those of stockholders. To manage the allocation of stock options, the Committee used a fixed share grant approach. The fixed share guideline takes into account the long-term incentive target by position, Black-Scholes valuation methodology, and estimated stock price. This approach was used because it:

- Managed dilution;
- Provided the same number of options for similar job roles; and
- Provided a way for us to allocate stock options.

We have never backdated stock options. In addition, as set forth in the 2004 PIP, we prohibit stock option repricing. However, within the 2004 PIP, there was historically a Restoration Stock Option Program. Specifically, the Restoration Stock Option Program allowed an executive to exercise vested non-qualified stock options by presenting shares that have a total market value equal to the option exercise price times the number of options. New restoration options are then granted with an exercise price equal to the fair market value of our stock at that time in an amount equal to the number of mature shares that were used to exercise the original option, plus the number of shares that were withheld for the required tax liability. The restoration stock options have a term equal to the remaining term of the original option, generally become exercisable six months after the date of grant, and otherwise have the same general terms and conditions of other non-qualified stock options granted under the Company's stock plans. In December 2008, the Committee approved the elimination of the Restoration Stock Option Program under the 2004 PIP in connection with future long-term incentive grants, beginning with the grants made in December 2008.

In December 2009, a fiscal year 2010 long-term incentive grant under the 2004 PIP was approved for eligible plan participants. The NEOs received a grant mix of 67% stock options and 33% RSUs. We also introduced cash-settled RSUs to certain eligible participants. Awards vest ratably over a three year period.

### **Long-Term Incentive Competitive Review**

The Committee engaged Exequity to work together with the Committee and management to review the competitiveness of our LTI plan. The Committee approved the 2011 plan design in October 2010 and actual awards in December 2010.

This process began with an overall review of executive compensation positioning for base salary, annual incentive and long-term incentives. We found that our overall compensation program is competitive except for the long-term incentive values for our top level executives, including our NEOs listed on the Summary Compensation Table on page 39. This determination led to our decision to design an LTI program for our top tier executives that moves them closer to the competitive market.

In order to do this, a Total Shareholder Return Plan (TSR) was added to the equity mix for select top executives, including our NEOs, to provide them with financial opportunities when there is increased stockholder value and the Company outperforms its competition. The select top executives, including NEOs, are granted a mix of 50% stock options and 50% cash-settled performance shares based upon the TSR plan.

Key features of the TSR plan:

Three year performance period compared to our peer group.

If after three years the plan pays at or above Target, the cycle ends and payments are settled in cash.

**Table of Contents**

If the performance is less than Target, the cycle is extended for two additional years and measured for the entire five year period. Under this extension, participants can earn up to Target less any earnings for the first three year measurement period.

Beginning and ending share prices are measured using the average price during 90 day trading periods.

TSR Performance Measurement:

TSR Percentile Ranking	TSR Payout as a % of Target
<30 <sup>th</sup> percentile	0%
30 <sup>th</sup> percentile	0%
40 <sup>th</sup> percentile	50%
50 <sup>th</sup> percentile	100% (Target)
75 <sup>th</sup> percentile	150%
90 <sup>th</sup> percentile	200%

Provides LTI values at 75<sup>th</sup> percentile or above if warranted by Company performance relative to its peers.

In December 2010, a fiscal year 2011 long-term incentive grant under the 2004 PIP was approved for eligible plan participants. The NEOs and other top executives received a grant mix of 50% stock options and 50% cash-settled performance shares based upon a TSR plan described above. All other eligible participants received a grant mix of 50% stock options and 50% cash-settled RSUs. The stock options have a seven (7) year term and both stock options and cash-settled RSUs vest ratably over a three year period.

**Executive Stock Ownership Program**

We feel that it is important to encourage senior executives to hold a material amount of Company Common Stock and to link their long-term economic interest directly to that of the stockholders. To achieve this goal, we established stock ownership requirements. During fiscal year 2010, our stock ownership guidelines applied to approximately 60 executives, including our NEOs, the majority of whom hold the title of vice president and above. Executives are expected to meet the ownership level for their position within five years of attaining that position. The ownership requirements range from 75% to 300% of base salary and are fixed at the number of shares that are required to be held as of the date of an executive's promotion or hire, based on the fair market value of the shares at that time.

**Executive Stock Ownership as of October 31, 2010**

Named Executive Officer	Ownership Requirement as a % of Base Salary	Number of Shares Required	Number of Shares Owned
Daniel C. Ustian	300%	60,806	141,531
Andrew J. Cederroth <sup>(1)</sup>	225%	29,183	24,765
Deepak T. Kapur	225%	25,568	77,401
Steven K. Covey	225%	15,666	33,237
Phyllis Cochran	225%	15,375	36,016

(1) Mr. Cederroth was promoted to CFO on September 24, 2009. The due date to fulfill his executive stock ownership requirement of 4,418 additional shares of Common Stock is September 24, 2014.

**Table of Contents****Executive Benefits and Perquisites**

The following table summarizes the executive benefits and perquisites that we provide to our NEOs:

NEO	Life Insurance <sup>(1)</sup>	Executive Physical Program <sup>(2)</sup>	Flexible Perquisite Program <sup>(3)</sup>	Pension /Retirement/401(k) Plans <sup>(4)</sup>					Retiree Medical Benefits <sup>(5)</sup>
				RPSE	MRO	RAP	SRAP	SERP	
Daniel C. Ustian	X	X	X	X	X			X	X
Andrew J. Cederoth	X	X	X	X		X	X	X	X
Deepak T. Kapur	X	X	X			X	X	X	
Steven K. Covey	X	X	X	X	X			X	X
Phyllis E. Cochran	X	X	X	X	X			X	X

(1) Life Insurance. We provide Company-paid life insurance equal to five times base salary.

(2) Physical Exams. This program provides a Company-paid physical when an executive is first hired or promoted to an executive position. A physical is also required every two years prior to age 50 and every year after age 50. This program helps us ensure the health of our key executives.

(3) Executive Flexible Perquisites for our NEOs. We maintain a flexible perquisite program for our NEOs, which we believe is competitive and consistent with our overall compensation program, and which assists us in the attraction and retention of our executive officers. The Executive Flexible Perquisite Program provides a cash stipend to each of our NEOs, the amount of which varies by executive, based upon the executive's organization level. The purpose of the cash stipend is to provide each of our NEOs with the ability to choose the perquisite that best fits his or her professional and personal situation. This program is in lieu of providing and administering such items as car leases, tax preparation, financial planning, and home security systems. We do not require the NEOs to substantiate the expenses for which they use this stipend. The annual perquisite amount is paid prospectively in equal installments in May and November.

**Annual Flexible Perquisite Fiscal Year 2010**

Named Executive Officer	Annual Flexible Perquisite Payment
Daniel C. Ustian	\$ 46,000
Andrew J. Cederoth	37,000(A)
Deepak T. Kapur	37,000
Steven K. Covey	28,000
Phyllis E. Cochran	28,000

(A) Mr. Cederoth received \$38,417 in fiscal year 2010 which includes a one month retroactive payment for October 2009 based upon his eligibility for a higher perquisite allowance due to his promotion to EVP & CFO on September 24, 2009.

In certain circumstances, where a commercial flight is not available to meet a NEOs travel schedule, our NEOs and directors use chartered aircraft for business purposes only. In these situations, we believe chartered aircraft allows us to make effective use of the executive's time. After a review of the chartered flight usage in fiscal year 2010, we confirmed the use was for business purposes only. A spouse may accompany an NEO while he or she is traveling on Company business. Although this occurs on a limited basis, the spouse travel expense is included in taxable compensation.

Effective November 1, 2009, the Committee approved a policy statement that eliminates all tax gross-ups for perquisites and other similar benefits to Section 16 Officers, including NEOs.

### (4) Pension/Retirement/401(k) Plans

We began transitioning to defined contribution/401(k) plans as the primary retirement income program for all non-represented employees hired on or after January 1, 1996. Thus participation in our defined benefit pension plans has been limited to those hired prior to that date.

Retirement Plan for Salaried Employees ( RPSE ). This is our tax-qualified defined benefit pension plan for salaried employees hired prior to January 1, 1996.

Page 37

## **Table of Contents**

Managerial Retirement Objective Plan ( MRO ). The MRO is our unfunded non-qualified defined benefit pension plan designed primarily to restore the benefits that executives, including our NEOs, would otherwise have received if the Internal Revenue Code limitations had not applied to the RPSE.

Retirement Accumulation Plan ( RAP ). This is our tax-qualified defined contribution/401(k) plan for salaried employees hired on or after January 1, 1996. Effective December 31, 2008, the Retirement Savings Plan was merged into the RAP.

Supplemental Retirement Accumulation Plan ( SRAP ). This is our non-qualified deferred compensation plan designed primarily to restore the contributions that participants would otherwise have received under the RAP, if the Internal Revenue Code limitations had not been in place.

Supplemental Executive Retirement Plan ( SERP ). This is designed as a pension supplement to attract and retain key executives. The SERP is unfunded and is not qualified for tax purposes.

Additional information on the pension/401(k) plans are provided in the Pension Benefits, Non-Qualified Defined Contribution and Other Non-Qualified Deferred Compensation sections of this proxy statement.

(5) Retiree Medical Benefits. Non-represented employees, including our NEOs, hired on or after January 1, 1996, are not eligible for the retiree medical benefits program.

### **Employment Contracts and Executive Severance Arrangements**

We do not have employment contracts with our NEOs as employment with each of them is at will. However, like many companies, to ensure stability and continuity of management, we provide NEOs with an ESA, which provides for severance benefits in the event of a specified termination such as an involuntary termination or a termination in connection with a change in control. Our ESAs were modified effective January 1, 2010 to be more consistent with market competitive practices. Please refer to the *Potential Payments Upon Termination or Change in Control* below for more information.

### **Role of Executive Officers in Compensation Decisions**

The Committee makes all compensation decisions for the NEOs, excluding the CEO, whose decisions are approved by the independent members of the Board. The CEO makes recommendations to the Committee regarding the compensation for his direct reports (which includes the other NEOs) based on a review of their performance, job responsibilities, and impact to our business strategy. The CEO does not make recommendations to the Committee regarding his own compensation.

### **Tax and Accounting Implications**

#### **Policy on Deductibility of Compensation**

Section 162(m) of the Internal Revenue Code provides that a public company generally may not deduct the amount of non-performance based compensation paid to certain executive officers that exceeds \$1 million in any one calendar year. However, this provision does not apply to performance-based compensation that satisfies certain legal requirements including income from certain stock options and certain formula driven compensation. In general, the Committee has considered the effect of the Internal Revenue Code limitation and under certain circumstances may decide to grant compensation that is outside of the limits.

**Table of Contents****Non-Qualified Deferred Compensation**

The American Jobs Creation Act of 2004 changed the tax rules applicable to non-qualified deferred compensation arrangements. We are complying in good faith with the statutory provisions, which generally became effective as of January 1, 2005, and the applicable regulations. Please refer to the *Non-Qualified Deferred Compensation* table below for more information on the subject.

**Accounting for Stock-Based Compensation**

In November 2005, we began accounting for our equity based long-term incentive vehicles under the 2004 PIP in accordance with the guidance on share-based payments.

## (2) Restricted Stock Units

The amounts shown for RSUs represent the number of RSUs awarded to the NEOs in the fiscal year and the grant date fair value of the RSUs determined in accordance with FASB ASC Topic 718. RSUs generally vest over a three year period with 1/3 of the award vesting on each of the first three anniversaries of the date on which they are awarded, so that in three years the RSUs are 100% vested. The RSUs will be settled in shares at the time they vest.

## Premium Share Units

The amounts shown for PSUs represent the number of PSUs awarded to the NEOs in the fiscal year and the grant date fair value of the PSUs determined in accordance with FASB ASC Topic 718. PSUs represent shares of Common Stock granted pursuant to our Executive Stock Ownership Program and is based on the attainment of certain stock ownership thresholds. PSUs generally vest over a three year period with 1/3 of the award vesting on each of the first three anniversaries of the date on which they are awarded, so that in three years the PSUs are 100% vested. PSUs do not have an exercise price and are settled only for shares of our Common Stock on a one-for-one basis. Settlement of PSUs will occur within 10 days after an executive's separation of employment or at such later date as required.

by Internal Revenue Code Section Rule 409A.

**Table of Contents****(3) Stock Options and Restoration Stock Options**

The amounts shown for stock options and restoration stock options represent the number of stock options or restoration stock options granted to each NEO in the fiscal year and the grant date fair value of the options is determined in accordance with FASB ASC Topic 718. The stock options generally vest over a three year period with 1/3 vesting on each of the first three anniversaries of the date on which they are awarded, so that in three years the stock options are 100% vested. The stock options expire 7 years after the date of grant.

Restoration stock options are awarded in connection with an exercise of a non-qualified stock option whereby shares are used to pay the exercise price of the options (grant price times the number of options exercised) and the tax liability on the transaction. Restoration options are then granted with an exercise price equal to the then current fair market price in an amount equal to the number of shares used to pay the cost of the original option, plus the number of shares needed to cover the tax liability on the transaction. Restoration stock options vest as to 100% of the shares six months after the date of grant (or if sooner, one month before the end of the term of the underlying stock option from which it was exercised) and will expire under the terms of the underlying stock option from which it was exercised, otherwise the restoration stock options have the same general terms and conditions of non-qualified stock options the Company grants. The net shares or profit shares (the difference between the exercise price of the options and the value of the shares on the date of exercise, less withholding tax) on the restoration stock option exercise, generally cannot be transferred for a period of three years. The Restoration Stock Option Program was eliminated for all stock options granted on or after December 16, 2008.

(4) The exercise price per share is the Fair Market Value (average of high and low price) of Common Stock on the date of grant. The market price is the closing price of our Common Stock on the date of grant.

(5) The amounts shown do not reflect realized compensation by the NEOs. The amounts shown represent the value of the RSU, stock option, restoration stock option and PSU awards granted to the NEOs based on the grant date fair value of the awards as determined in accordance with FASB ASC Topic 718.

**Outstanding Equity Awards at 2010 Fiscal Year-End**

The following table provides information on the holdings of stock options and stock awards by our NEOs as of the fiscal year ending October 31, 2010. The table includes unexercised and unvested stock option awards; unvested PSUs and unvested RSUs. The vesting information for each grant is provided in the footnotes to this table, based on the stock option or stock award grant date. The market value of the stock awards is based on the closing price of our Common Stock as of October 29, 2010, the last trading day of the fiscal year, which was \$48.18. For additional information about the stock option awards and stock awards, see the description of long-term incentive compensation in the Compensation Discussion and Analysis on page 27 of this proxy statement.

(1) All options, other than restoration options, became or will become exercisable under the following schedule: one-third on each of the first three anniversaries of the date of grant. In the event an optionee exercises a non-qualified option with already-owned shares, he or she may be eligible to receive restoration options, if at the time of exercise an election was made to restore the exercised options. Restoration options contain the same expiration dates and other terms as the options they replace except that they have an exercise price per share equal to the fair market value of the common stock on the date the restoration option is granted and become exercisable in full six months after they are granted or, if sooner, one month before the end of the remaining term of the options they replace.

- (1) Unless otherwise noted, all present values reflect benefits payable at the earliest retirement date when the pension benefits are unreduced. Also unless otherwise noted, form of payment, discount rate (4.9%) and mortality (RP-2000 Combined Mortality Table projected at 50% of scale AA) is based on assumptions from the guidance on accounting for pensions. Additionally, SERP benefits have only been offset by benefits under Navistar sponsored retirement programs. At actual retirement these benefits will also be offset by benefits accumulated under programs for employment prior to Navistar, Inc.

**Table of Contents**

Historically, we have provided our employees with retirement income programs since 1908. Over the years the programs have changed for various reasons. Effective January 1, 1996, we began transitioning from defined benefit retirement income programs to defined contribution retirement income programs as the primary vehicle to deliver those benefits.

Employees hired before that date participate in defined benefit pension plans and those hired on or after that date participate in defined contribution plans. We also provide non-tax-qualified benefit restoration programs that provide benefits or contributions that are in addition to those provided under our tax-qualified programs. The following briefly describes the various programs.

*Navistar, Inc. Retirement Plan for Salaried Employees.* The RPSE is a funded and tax-qualified defined benefit retirement program. The plan provides benefits primarily based on a formula that takes into account the employee's years of service, final average earnings and a percentage of final average earnings per year of service (accrual rates). The table below summarizes the benefit accrual rates under the RPSE.

**RPSE Benefit as Percent of Final Average Pay**

	Prior to 1989	After 1988	Maximum
Rate of Benefit Accrual per Year of Service	2.4%	1.7%	60%

The eligible earnings are averaged over the highest 60 consecutive months within the final 120 consecutive months prior to retirement. Eligible earnings include base compensation and specifically exclude AI Plan compensation. Thus any increase in AI payments will not increase benefits under the RPSE. Such compensation may not exceed an IRS-prescribed statutory limit applicable to tax-qualified plans (\$245,000 for fiscal year 2010).

The resulting benefit which may commence at age 62 is offset by a percentage of estimated or actual Social Security benefits. The percentage offset is equal to 1.7% for each year of service with a maximum offset equal to 60% of Social Security benefits.

The RPSE is available only to employees who were hired prior to January 1, 1996 and thus is closed to new participants. Additionally, effective January 1, 2005, service has been limited to the service accrued as of December 31, 2004, for the employees who were hired prior to January 1, 2005 and were under age 45 as of January 1, 2005.

Benefits under the RPSE are subject to the limitations imposed under Section 415 of the Internal Revenue Code. The Section 415 limit for fiscal year 2010 is \$195,000 per year for a single life annuity payable at an Internal Revenue Service prescribed retirement age. This ceiling may be actuarially adjusted in accordance with IRS rules for items such as employee contributions, other forms of distributions and different starting dates.

Of the NEOs, Messrs. Ustian, and Covey and Ms. Cochran participate in the RPSE. Mr. Cederoth also participates in the RPSE but his service is limited to the service accrued as of December 31, 2004.

*Navistar, Inc. Managerial Retirement Objective Plan.* We offer the MRO to approximately 300 eligible managers and executives. The MRO provides for retirement benefits that are either not covered by or that are above those provided under our RPSE. The MRO is unfunded and is not qualified for tax purposes.

**Table of Contents**

Benefits payable under the MRO are equal to the excess of (i) the amount that would be payable in accordance with the terms of the RPSE, disregarding the limitations imposed under the Internal Revenue Code over (ii) the retirement benefit actually payable under the RPSE, taking such Internal Revenue Code limitations into account. Benefits under the MRO are generally payable at the same time and in the same manner as the RPSE, other than if a delay is required under Internal Revenue Code Section 409A.

A pro-rated portion of AI Plan payments is included in the definition of eligible compensation and the amount included is also subject to a cap determined as a percentage of the executive's annualized base salary. The pro-rated portion and the cap depend on the executive's organizational level in the Company.

An executive must have been hired by us prior to January 1, 1996 to be eligible to participate in the MRO. Executives who were under age 45 as of December 31, 2004 no longer participate in the MRO. Instead, they now participate in the SRAP, which is described below. Normal retirement under the MRO is age 65 with at least 5 years of service while an executive may retire early with reduced benefits after having worked 10 years and is at least age 55 at retirement.

Of the NEOs, Messrs. Ustian, and Covey and Ms. Cochran participate in the MRO.

*Navistar, Inc. Supplemental Executive Retirement Plan.* The SERP is designed as a pension supplement to attract and retain key executives. Executives in organizational Levels 9 and above are eligible to participate in the SERP upon attainment of age 55 or upon their date of hire if later.

The SERP is unfunded and is not qualified for tax purposes. An eligible executive's benefit under the SERP is equal to a percentage of his or her final average compensation. The final average compensation is computed similarly to that in the MRO plan. The following table summarizes the determination of the total percentage of final average compensation, which is the sum of the accrual rates described below.

	Up to Age 55	On or After Age 55
Each Year of Age	1/2%	1%
Each Year of Service	1/2%	1%

In no event shall the total percentage be greater than 50%.

That resulting benefit is offset by 50% of the executive's Social Security benefit, and any defined benefit pension plan (qualified or non-qualified) of the Company or any prior employer. The benefit is also offset by the actuarial equivalent of any of our defined contribution pension plans (qualified or non-qualified) or that of any prior employer that is funded by the employer's contributions and is an integral part of the employer's retirement program. Normal retirement age is 65 and the program allows for an earlier commencement of payments.

All of the NEOs are eligible to participate in the SERP. However, because the 50% of final average earnings limit is lower than the target benefit provided under the MRO, generally no MRO participant will receive a benefit from the SERP.

*Other Retirement Income Programs.* We also sponsor the Navistar, Inc. 401(k) Plan for Represented Employees and the Navistar, Inc. Retirement Accumulation Plan. All employees are allowed to defer a portion of their compensation in to the RAP up to the Internal Revenue Code limitations. Employees that do not receive any additional service accruals under RPSE receive

**Table of Contents**

non-elective employer retirement contributions. Additionally, employees that do not participate in our retiree medical plan receive matching contributions. For those executives whose employer contributions would be limited by the Internal Revenue Code, the Navistar, Inc. SRAP provides for contributions in excess of the Internal Revenue Code limitations. This plan is described in more detail within *Non-Qualified Deferred Compensation* section of this proxy statement.

Of the NEOs, Messrs. Cederoth and Kapur received non-elective age-weighted contributions in the RAP and also participate in the SRAP.

We do not have a policy for granting extra pension service.

The tax-qualified plans were amended during fiscal year 2009 and fiscal year 2010 for IRS requirements to maintain their tax-qualified status.

**Non-Qualified Deferred Compensation Plans**

The table below provides information on the non-qualified deferred compensation that our NEOs participated in during the fiscal year ending October 31, 2010.

**Non-Qualified Deferred Compensation Table**

Named Executive Officers <sup>(1)</sup>	Executive Contributions in Last Fiscal Year	Company Contributions in Last Fiscal Year <sup>(1)</sup>	Aggregate Earnings In Last Fiscal Year <sup>(2)</sup>	Aggregate Balance As of Last Fiscal Year End <sup>(3)</sup>
Daniel C. Ustian	N/A		\$ 448,051	\$ 1,445,930
Andrew J. Cederoth	N/A	\$ 49,114	\$ 84,594	\$ 371,674
Deepak T. Kapur	N/A	\$ 84,175	\$ 112,047	\$ 636,205
Steven K. Covey	N/A		\$ 36,111	\$ 115,680
Phyllis E. Cochran	N/A	\$ 30,546	\$ 38,391	\$ 153,212

(1) Our contributions represent the sum of any notional contribution credits to the SRAP during the year and the value, based on our Common Stock share price at year end, of the PSUs granted during that fiscal year.

(2) Aggregate Earnings represent the notional interest credited during the year for participants in the SRAP, if applicable, plus the change in value from the beginning of the year to the end of the year in the PSUs and/or DSUs held by each NEO. For the SRAP, Aggregate Earnings in Last Fiscal Year is the interest credited to each NEO from the beginning of the fiscal year until the end of the fiscal year at a 7.5% interest crediting rate. Aggregate Earnings in Last Fiscal Year for purposes of the PSU is the aggregate change in value of the PSUs held during the year.

(3) The Aggregate Balance as of Last Fiscal Year End consists of the sum of each NEO's notional account balance in the SRAP at the end of the year and the value at year end of the outstanding PSUs and/or DSUs.

We sponsor the following non-qualified deferred compensation programs.

*Navistar, Inc. Supplemental Retirement Accumulation Plan.* The SRAP provides executives, including our NEOs, with contributions equal to the amount by which their annualized non-elective age-weighted contributions to the RAP are limited by the Internal Revenue Code. The SRAP is unfunded and is not qualified for tax purposes.

A bookkeeping account balance is established for each participant. The account balance is credited with notional contributions and notional interest. The SRAP does not permit any executives to electively defer any of their base compensation or bonuses. Any increase in AI payments will increase contributions to the SRAP.

## Table of Contents

The interest crediting rate is 7.5% per annum compounded on a daily basis. This is the rate used to design the SRAP as a comparable replacement for the MRO. The interest crediting rate constitutes an above-market interest rate under the Internal Revenue Code.

An executive is eligible for the SRAP if the executive is employed in Organization Level 7 or above unless the executive was hired prior to January 1, 1996 and is eligible for the MRO plan.

Executives who were hired prior to January 1, 1996 and who subsequently ceased participation in the MRO now participate in the SRAP. These individuals received an adjustment to their notional contributions. The adjustment is a Points Multiplier designed to provide them with value from the SRAP comparable to what they would have received had they continued to participate in the MRO until they reached age 62.

At retirement, each participant may elect to receive the bookkeeping account balance by either or some combination of (1) a lump-sum payment or (2) annual installments over a period of 2 to 20 years. The NEOs cannot withdraw any amounts from their bookkeeping account balances until they either retire or otherwise terminate employment with us. Of the NEOs, no withdrawals or distributions were made in fiscal year 2010.

Of the NEOs, Messrs. Cederoth and Kapur participate in the SRAP.

*Premium Share Units.* In general, our Executive Stock Ownership Program requires all of our executives, including our NEOs, to acquire, by direct purchase or through salary or annual bonus reduction, an ownership interest in Navistar by acquiring a designated amount of our Common Stock at specified times. Participants are required to hold such stock for the entire period in which they are employed by us. PSUs may be awarded under the 2004 PIP to participants who complete their ownership requirement on an accelerated basis. PSUs vest in equal installments on each of the first three anniversaries of the date on which they are awarded. Each vested PSU will be settled by delivery of one share of Common Stock. Such settlement will occur within 10 days after a participant's termination of employment or at such later date as required by Internal Revenue Code Section Rule 409A.

All of the NEOs participate in the Executive Stock Ownership Program and are eligible to acquire PSUs.

*Deferred Share Units.* Under the Restoration Stock Option Program, participants generally may exercise vested options by presenting shares that have a total market value equal to the applicable option exercise price times the number of options. Restoration options are then granted with an exercise price equal to the then current fair market price in an amount equal to the number of shares held by the option holder for at least six months that were presented to exercise the original option, plus the number of shares that are withheld for the required tax liability. Participants who hold non-qualified stock options that were vested prior to December 31, 2004 may also defer the receipt of shares of our Common Stock that would have been acquired upon exercise of a restoration stock option exercise of these options. Participants who elect to defer receipt of these shares receive DSUs. DSUs are awarded under the 2004 PIP. DSUs are credited into the participant's account at the then current market price. The DSUs are generally distributed to the participant in the form of our Common Stock at the date specified by the participant at the time of his or her election to defer. During the deferral period, the participants will have no right to vote the stock, to receive any dividend declared on the stock, and no other right as a stockholder. In December 2008, we eliminated the Restoration Stock Option Program for future stock options under the 2004 PIP.

### **Potential Payments Upon Termination or Change-in-Control**

The amount of compensation payable to each of the NEOs upon voluntary termination, involuntary termination for or not for cause, involuntary termination in the event of a change in control, death, disability or retirement are shown in the tables below. The amounts shown assume that such termination were effective October 31, 2010, are based on the terms of the applicable plans and agreements that were in effect on October 31, 2010, and are estimates of the amounts which would be paid out to the executives upon their termination. The actual amounts of payments and benefits can only be determined at the time the relevant termination event occurs.

To assure stability and continuity of management, we entered into ESAs with each of our NEOs.

### **Executive Severance Agreements**

In fiscal year 2009, the Committee engaged Exequity to work with management and outside counsel on redesigning our ESAs to align with market best practices and ensure regulatory compliance. The amended ESAs were effective January 1, 2010. The following summarizes some of the key changes:

In the event of a Change in Control (CIC), Internal Revenue Code 280G excise tax gross-ups were eliminated.

The executives, including NEOs, are required to sign a waiver and release agreement upon execution of the amended ESA and an additional waiver and release at the time of termination.

The imposition of a cap on legal fees and costs reimbursed for certain executives enforcement of the ESA.

Severance reduced for certain executives, excluding the NEOs, for a termination related to a CIC.

Reduction to the supplemental pension benefit in the event of termination related to a CIC.

General severance for the CEO increased from 200% to 300% of base salary plus target bonus.

Upon a general separation, not related to a CIC, the pro-rata annual target bonus portion of the severance formula is no longer based upon target and paid at the time of separation payments, but is now based upon actual results and will only be paid if and at the same time that the Company pays AI awards to active employees.

Healthcare coverage has been extended so that the executives have the opportunity to purchase an additional 12 months of coverage at the cost of coverage rate, for a total of 24 months of available coverage.

In consideration of the payments that the executive may be entitled to receive under the ESA, certain executives, including the NEOs, agree to comply with restrictive covenants, such as confidentiality, non-disparagement, non-compete, and non-solicit are enforced during employment and for 24 months following any termination.

## **Table of Contents**

### **Summary of the Circumstances, Rights and Obligations Attendant to Each Type of Termination**

*Voluntary and Involuntary (For Cause) Termination:* A NEO may terminate his or her employment at any time and we may terminate a NEO at any time pursuant to our at will employment arrangements with our NEOs. We are not obligated to provide the executive with any additional or special compensation or benefits upon a voluntary termination by the executive or involuntary (for cause) termination by us. All compensation, bonuses, benefits, and perquisites cease upon a voluntary termination by the executive or involuntary (for cause) termination by us. In general, in the event of either such termination, a NEO would:

Be paid the value of unused vacation;

Not be eligible for an annual incentive payment if the termination occurred prior to fiscal year end or if the termination occurred after fiscal year end and prior to the payment date;

Be able to exercise vested stock options for three months or twelve months depending on the date of grant, following a voluntary termination;

Forfeit any unvested stock options; and

Forfeit any unvested restricted stock and RSUs.

As defined in the ESA, Cause generally means the reason for the executive's involuntary termination of employment was (I) willful misconduct involving an offense of a serious nature that is demonstrably and materially injurious to the Company, monetarily or otherwise, (II) conviction of, or entry of a plea of guilty or nolo contendere to, a felony as defined by the laws of the United States of America or by the laws of the State or other jurisdiction in which the executive is so convicted, or (III) continued failure to substantially perform required duties for the Company (other than a failure due to physical or mental disability). For purposes of determining whether Cause exists, no act, or failure to act, on the executive's part will be deemed willful unless done, or omitted to be done, by the executive not in good faith and without reasonable belief that the executive's act, or failure to act, was in the best interest of the Company.

The NEOs would not receive any cash severance in the event of either a voluntary or involuntary (for cause) termination of employment.

*Retirement and Early Retirement:* If a NEO terminates employment due to retirement, then the officer would generally be eligible to receive:

The value of unused vacation;

Monthly income from any defined benefit pension plans, both tax-qualified and non-tax-qualified, that the executive participated in solely to the extent provided under the terms of such plans; and

Lump sum distributions from any defined contribution plans, both tax-qualified and non-tax-qualified, that the executive participated in solely to the extent provided under the terms of such plans.

Retirement and early retirement are defined in the respective plans in which the executive participates. In addition, if an executive meets the qualified retirement definition under the 2004 PIP and holds outstanding stock options, he or she may exercise those stock options to the extent

that those stock options are exercisable or become exercisable in accordance with their terms, at

**Table of Contents**

any time during the term of the option grant. If he or she holds restricted stock or RSUs, they will continue to vest according to the terms of the restricted stock grant. If he or she holds PSUs, vesting accelerates and the shares are issued after retirement.

*Involuntary Not-For-Cause Termination or Good Reason Termination:* If the employment of a NEO is terminated due to either an involuntary termination by us without Cause or a Good Reason (as defined below) termination by the executive, in each case either before the date of a Change in Control (as defined in the ESA) or more than 36 months after the date of the most recent Change in Control, then the executive would generally be eligible to receive the following:

An amount equal to one-hundred to three-hundred percent (100-300%) of the sum of the Executive's annual base salary in effect at the time of termination and Target AI (the Severance Pay);

Continued health insurance for the 24-month period following termination or, in the case of the CEO, the 36-month period following termination; provided that for the first 12 month period, the executive shall pay for such coverage at no greater after tax costs to the executive than the after-tax cost to the executive immediately prior to the date of termination and for the remaining 12-month period, or, in the case of the CEO, the remaining 24-month period, the executive shall pay for such coverage on a monthly cost of coverage basis;

Pro-rata annual incentive for the number of months of fiscal year eligible participation which is based upon actual results and will only be paid if and at the same time that the Company pays AI awards to active employees.

Continued life insurance coverage for the 24-month period following termination, or, in the case of the CEO, the 36-month period following termination;

Outplacement services;

Retention of any flexible perquisite allowance actually paid to the executive on or before the time of termination;

A lump sum cash payment equal to the value of unused vacation;

Such pension and post-retirement health and life insurance benefits due to the executive upon his termination pursuant to and in accordance with the respective Company-sponsored benefit plans, programs, or policies under which they are accrued and/or provided (including grow-in rights as provided under the terms of the applicable plan, program or policy); and

The right to exercise vested stock options for three months or twelve months, depending upon date of grant. In addition, the executive would forfeit any unvested stock options and any unvested restricted stock, RSUs or PSUs.

As defined in the ESA, Good Reason generally means the executive's termination of his or her employment as a result of any of the following events: (i) we reduce the executive's base salary by ten percent (10%) or more (either upon one reduction or during a series of reductions over a period of time); *provided*, that such reduction neither comprises a part of a general reduction for the executive's then-current peers as a group (determined as of the date immediately before the date on which the executive becomes subject to such material reduction) nor results from a

**Table of Contents**

deferral of the executive's base salary, or (ii) a demotion in position (including a decrease in organization level) resulting in the material diminution of the executive's authority (including, but not limited to, the budget over which the executive retains authority), duties, or responsibilities within the Company or (iii) in the case of the CEO, if the executive ceases to serve as CEO and Chairman of the Board other than (a) to the extent required by applicable laws, rules of the stock exchange or other relevant listing authority or (b) in connection with the executive's retirement with his consent; except, in case of each of (i), (ii) or (iii), in connection with the involuntary termination of the executive's employment for Cause.

*Termination Related to a Change in Control:* If the employment of a NEO is involuntarily terminated for any reason other than for Cause or if a Constructive Termination (as described below) occurs within 36 months after a Change in Control, the executive would generally be eligible to receive the following:

An amount equal to (i) pro rata portion of the executive's Target AI, which payment shall be in lieu of any payment to which the executive may otherwise have been entitled to receive under a Change in Control-sponsored incentive or bonus plan (the CIC Prorated Bonus), plus (ii) a multiplier of the sum of the executive's annual base salary in effect at the time of termination and the executive's Target AI (the CIC Severance Pay). The CIC Severance Pay and the CIC Prorated Bonus shall be paid in a lump sum on the Payment Date;

Continued health insurance for the 24-month period following termination or, in the case of the CEO, the 36-month period following termination; provided that for the first 12 month period, the executive shall pay for such coverage at no greater after tax costs to the executive than the after tax cost to the executive immediately prior to the date of termination and for the remaining 12-month period, or, in the case of the CEO, the remaining 24-month period, the executive shall pay for such coverage on a monthly cost of coverage basis;

Outplacement services;

Tax counseling and tax preparation services;

Retention of any flexible perquisite allowance actually paid to the executive on or before the time of termination;

A lump sum cash payment equal to the value of unused vacation;

Acceleration of the exercisability of options that would otherwise have vested over a period of three years from the date of the change in control had the executive continued employment for that period; and

A lump sum cash payment equal to the difference in (i) the actuarial present value of the NEOs non-tax-qualified pension benefits assuming the executive was three years older and had three more years of service, over (ii) the actuarial present value of the NEOs non-tax-qualified pension benefits at the date of termination,

As defined in the ESA, Constructive Termination generally means the occurrence of any of the following events or conditions: (i) a material diminution in the executive's authority, duties or responsibilities, (ii) the executive's base salary or total incentive compensation opportunity is reduced by 10% or more, (iii) a material breach of the executive's ESA, (iv) the executive is required to be based anywhere more than 45 miles from the location of either the executive's

**Table of Contents**

office or Company’s headquartered offices and (v) in the case of the CEO, the executive ceases to serve as the CEO and Chairman of the Board other than in connection with the executive’s retirement with his consent.

*Disability and Death:* If a NEO is disabled and is prevented from working for pay or profit in any job or occupation, he or she may be eligible for our Non-Represented Employee Disability Benefit Program which provides for short-term and long-term disability ( LTD ) benefits. Our NEOs are not covered under a separate program. While covered under LTD, an NEO is eligible for 60 percent of his or her base salary reduced (or offset) by other sources of income, such as social security disability. In the event of a total and permanent disability as defined by this program, a NEO may exercise outstanding stock options any time within three years after such termination. In the event a NEO has restricted stock, or RSUs, the restricted stock or RSUs will continue to vest according to the terms of the grant. In the event an NEO has PSUs, vesting accelerates and the shares are issued immediately. In addition, while classified as disabled, the NEO continues to accrue benefits under the defined benefit plans.

In the event of an NEO’s death, a beneficiary of the NEO may exercise an outstanding stock option at any time within a period of two years after death. Restricted stock, RSUs or PSUs will vest as of the date of death and all restrictions lapse and the restricted stock, RSUs or PSUs will be immediately transferable to the NEO’s beneficiary or estate. The NEO’s beneficiary will also be eligible for a pro-rata AI payment based upon the number of months the NEO was an active employee during the year. The executive’s beneficiary will also receive surviving spouse benefits under the defined benefit and defined contribution plans solely to the extent provided in those plans.

The table below states the multiplier of the sum of annual base salary plus Target AI (bonus) used in the NEO’s severance formula under Involuntary Not for Cause or Good Reason Termination and Change in Control provisions.

NEO	Multiplier - Involuntary Not for Cause or Good Reason Termination	Multiplier - Change in Control

- (1) This calculation, as described in the ESA, is 150% to 300% of the sum of the executive's annual base salary plus annual target bonus.
- (2) The Change in Control calculation, as defined in the ESA, is 200% to 300% of the sum of the executive's annual base salary plus annual target bonus. The Internal Revenue Code 280G excise tax gross-up upon a Change in Control was eliminated. For a Change in Control, the amounts included in the columns Vested Options, Unvested Options and Restricted Stock/Units constitute all Equity amounts as set forth in proposed Rule 402(t) of Regulation S-K. Further information as to how this chart incorporates the information requested in proposed Rule 402(t) is set forth in the footnotes below.
- (3) This amount is 60% of annualized base salary as of October 31, 2010 and is not offset by other sources of income, such as social security. It represents the amount that would be paid annually over the term of the disability.
- (4) The per share value for options is equal to the difference between the option exercise price and the closing price as of the last day of the fiscal year (October 29, 2010), which was \$48.18 per share. Please refer to the Outstanding Equity Awards Table for more information on this subject as the amounts in these columns represent awards that have already been granted to the NEOs in previous years.
- (5) The value of restricted stock, RSU or PSU is based on the October 29, 2010 closing price of \$48.18 per share. Please refer to the Outstanding Equity Awards Table for more information on this subject as the amounts in this column represent awards that have already been granted to the NEOs in previous years.
- (6) These amounts represent the Company's cost and do not include the portion that the officer would pay for this extension of coverage. Company provided life insurance equal to five times base salary. Coverage may continue at the cost of coverage rate for 24 months for our CEO and 12 months for all other NEOs for a termination following an involuntary not-for-cause termination or good reason termination. Coverage may continue at the cost of coverage rate for 24 months for our CEO and 12 months for all other NEOs for a termination following a Change in Control. For a Change in Control, the amounts included in this column constitute all Perquisites/Benefits amounts as set forth in proposed Rule 402(t).
- (7) This represents our cost for executive level outplacement counseling and services, which for a Change in Control constitutes all Other amounts as set forth in proposed Rule 402(t).
- (8) Surviving spouse benefits are payable under the applicable pension plan. Messrs. Ustian, and Covey and Ms. Cochran are participants in the defined benefit pension plan that provide surviving spouse benefits. Messrs. Kapur and Cederoth participate in our defined contribution plans and a defined benefit plan that provides a surviving spouse benefit.
- (9) Included in the Severance Amount /Cash Payment figure above for Change in Control is the lump sum cash payment equal to the difference in (i) the actuarial present value of the NEOs non-tax qualified pension benefits assuming the executive was three years older and had three more years of service, over (ii) the actuarial present value of the NEOs non-tax qualified pension benefits at the date of termination. The figures are as follows: For Mr. Ustian \$0; Mr. Cederoth \$218,038; Mr. Kapur \$668,340; Mr. Covey \$295,614; and Ms. Cochran \$228,956. These amounts constitute all Pension/NQDC costs as set forth in proposed Rule 402(t).

***COMPENSATION RISK***

The Company performed a risk assessment to determine whether our compensation policies, practices, plans and programs were reasonably likely to have a materially adverse impact on the Company. Approximately thirty compensation-related topics were reviewed during fiscal year 2010, including but not limited to, programs governed by our 2004 PIP. A matrix was created for management's use that summarized the programs reviewed as well as any associated mitigating factors. Management discussed the analysis internally (including with our compensation consultancy firm), provided periodic updates to our Committee and discussed final results of this review with the Committee.

Our Board and Committee believe that the following are factors that tend to mitigate the likelihood of excessive risk taking:

## Edgar Filing: NAVISTAR INTERNATIONAL CORP - Form DEF 14A

Committee approval of overall compensation philosophy and plan design.

Compensation mix of base salary, short-term and long-term incentives.

Executive stock ownership guidelines which align executives' interests with stockholders.

AI plan design focuses primarily on consolidated financial results which fosters team work and integration among the business units. AI parameters set the maximum payout at 200% of Target and the Committee may use negative discretion on all AI awards.

Page 57

**Table of Contents**

Long-Term Incentives (equity-based awards) are made at the discretion of the Committee and are intended to focus participants on the long-term growth of the company.

Sarbanes Oxley / Internal Controls procedures and processes adopted by the Company.

Also, although we do not currently have a claw-back provision, one of the items agreed upon during this risk assessment process was that the Company will implement a claw-back provision once the final SEC guidance is published. A claw-back provision would be an additional mitigating factor to excessive risk taking.

**COMPENSATION OF DIRECTORS**

The following table provides information concerning the compensation of our non-employee directors for fiscal year 2010. Directors who are employees of the Company receive no compensation for their services as directors or as members of the Board or a committee thereof. For a complete understanding of the table, please review the footnotes and the narrative disclosures that follow the table.

(1) In June of 2010, the annual retainer fee was increased from \$60,000 to \$80,000 (\$65,000 to be paid in cash and \$15,000 to be paid in restricted stock having a fair market value of \$15,000 on the date of grant). This increase was to align the compensation of our directors with general industry best practices.

(2) Under our Non-Employee Directors Deferred Fee Plan (the "Deferred Fee Plan"), our directors who are not employees receive an annual retainer and meeting fees payable at their election either in shares of our Common Stock or in cash. A director may also elect to defer any portion of such compensation until a later date in DSUs or in cash. Each such election is made prior to December 31<sup>st</sup> for the next succeeding calendar year. Eugenio Clariond, John D. Correnti, Diane H. Gulyas and David D. Harrison elected to defer the receipt of some or all of their cash compensation received for their quarterly retainer fees and/or meeting fees in calendar year 2010. Mr. Clariond deferred receipt of 50% of his quarterly retainer fees and 50% of his meeting fees from November 1, 2009 to December 31, 2009 and 100% of his quarterly retainer fees and meeting fees from January 1, 2010 to October 31, 2010 in deferred stock units and received 2,137.007 shares. Mr. Correnti deferred receipt of 100% percent of his quarterly retainer fee in calendar year 2009 in cash for a total cash compensation deferral amount paid in fiscal year 2010 of \$18,000. Ms. Gulyas deferred receipt of 100% of her 1<sup>st</sup> quarter retainer fee in deferred shares units and received 338.066 shares. Mr. Harrison deferred receipt of 100% of his 1<sup>st</sup> quarter retainer fee in DSUs and received 338.066 shares. The amount of cash compensation deferred by Mr. Correnti in fiscal year 2010 has been allocated to a deferred cash account under his name. The deferred cash compensation earns interest compounded quarterly at the end of each calendar quarter at the rate equivalent to the then current prime rate, and will be distributed within 60 days after Mr. Correnti's separation from service with us. The amount of deferred stock units for Mr. Clariond, Ms. Gulyas and Mr. Harrison has been credited as stock units in an account under each of their names at the then current market price of our Common Stock. The units issued to Mr. Clariond and Ms. Gulyas during fiscal year 2010 will be issued within 60 days after their separation from service with us. The units issued to Mr. Harrison during fiscal year 2010 will be issued in annual installments over a 5 year period.

- (3) Non-employee directors were paid (above and beyond their annual retainer and meeting fees) \$1,500 per day for any special services performed at the request of a Committee Chair or the Chairman of the Board. This column includes cash amounts certain directors received in payment for special services rendered in fiscal year 2010. The table below provides the total dollar amount received by each non-employee director for special services in fiscal year 2010 and the types of services they performed. The below categories of special services were determined by the Board to be consistent with director service and the provision thereof and payment of the fees therefor, in and of themselves, not to affect the independence of any such director. In June 2010 we discontinued paying for special services rendered by our Board members.

- (4) Effective April 1, 2010, each non-employee director received 338 shares of restricted stock in lieu of their 1<sup>st</sup> quarterly annual retainer, except for Eugenio Clariond, Diane Gulyas and David Harrison, who as noted under footnote 2, elected to defer receipt of their shares in deferred stock units and received 338.066 shares. The grant date fair value of the restricted stock and deferred stock units were determined in accordance with FASB ASC Topic 718. Mr. Williams, as noted in footnote 9, does not receive compensation for his service on the Board. For additional information regarding assumptions underlying valuation of equity awards see the accompanying consolidated financial statements in our Form 10-K for fiscal year 2010.
- (5) The aggregate number of stock awards outstanding for each non-employee director as of October 31, 2010, including deferred stock units owned by Mr. Clariond, Mr. Correnti, Ms. Gulyas, Mr. Harrison and Mr. Keyes, is indicated in the table below. All of these stock awards and deferred units are 100% vested except for 1,333 RSUs, granted to Mr. Clariond, Mr. Correnti, Mr. Hammes, Mr. Harrison, Mr. Keyes and Mr. Klinger in September 2008, which vest ratably over a three year period (25% on the first two anniversary s of the date of grant and 50% on the third anniversary of the date of grant).

- (a) The stock options were granted on December 15, 2009 and the closing price of our stock on the date of grant was \$35.58, which is the price the SEC determines to be the fair market value, however we grant stock options with an exercise price equal to the average of the high/low price of our Common Stock on the grant date, which was \$35.805.
- (b) These amounts do not reflect compensation realized by our directors. The amounts shown represent the value of the stock options based on the grant date fair value of the award as determined in accordance with FASB ASC Topic 718. The stock options generally vest over a three year period with 1/3 vesting on each of the first three anniversaries of the date on which they are awarded, so that in three years the stock options are 100% vested. The stock options granted on December 15, 2009 expire 7 years after the date of grant. For additional information regarding assumptions underlying valuation of equity awards see the accompanying consolidated financial statements in our Form 10-K for fiscal year 2010.
- (9) At the request of the UAW, the organization which elected Mr. Williams to the Board, the entire cash portion of Mr. Williams' annual retainer and attendance fees, are contributed to a trust which was created in 1993 pursuant to a restructuring of our retiree health care benefits. The dollar amount of the cash compensation contributed to the trust during 2010 was \$85,379.

**Share Ownership Requirements for Non-Employee Directors**

To encourage directors to own our shares, \$15,000 of each director's annual retainer is to be paid in the form of restricted stock each year. The stock is priced as of the date the first quarterly disbursement of the annual retainer is due. The restricted stock portion of the annual retainer is provided pursuant to the 2004 PIP. For additional information regarding the 2004 PIP, see Note 21, *Stock-based compensation plans*, to our consolidated financial statements included in our Form 10-K for the fiscal year ended October 31, 2010. In June 2010 we revised the stock ownership requirements for our directors. Directors who serve on the Board are now expected to own shares equivalent to three times their annual cash retainer within five years of the June 2010 revisions or within five years of being designated as a Board member.

**Deferred Fee Plan For Non-Employee Directors**

Under our Non-Employee Directors Deferred Fee Plan, directors may defer fees otherwise payable in the form of cash or restricted stock. The amount otherwise payable in cash may be deferred in cash or in deferred stock units. The amount otherwise payable in restricted stock may be deferred in deferred stock units. Any amount deferred in deferred stock units is credited into the director's account at the then current market price.

(1) This table does not include information regarding our 401(k) plans. Our 401(k) plans consist of the following: Navistar, Inc. 401 (k) Plan for Represented Employees and Navistar, Inc. RAP. As of October 31, 2010, there were 373,880 shares of Common Stock outstanding and held in these plans.

(2) This number includes stock options granted under our 1994 PIP and restoration stock options, DSUs and PSUs (as described in the Executive Stock Ownership Program discussed below) granted under our 2004 PIP. Prior to February 17, 2004, restoration stock options were granted under our 1998 Supplemental Stock Plan (a non-shareowner approved plan), as supplemented by the Restoration Stock Option Program. Under the Restoration Stock Option Program, generally one may exercise vested options by presenting shares that have a total market value equal to the option price times the number of options. Restoration options are then granted at the market price in an amount equal to the number of shares that were used to exercise the original option, plus the number of shares that are withheld for the required tax liability. Participants who own non-qualified stock options that were vested prior to December 31, 2004, may also defer the receipt of shares of Common Stock due in connection with a restoration stock option exercise of these options. Participants who elect to defer receipt of these shares will receive deferred stock units. The deferral feature is not available for non-qualified stock options that vest on or after January 1, 2005. The Restoration Stock Option Program was eliminated for all stock options granted on or after December 16, 2008. Stock options awarded to employees for the purchase of Common Stock from the 1994 PIP and the 2004 PIP were granted at the fair market value of the stock on the date of grant, generally have a 10-year contractual life and generally become exercisable as to one-third of the shares on each of the first three anniversaries of the date of grant, so that in three years the shares are 100% vested. Awards of restricted stock granted under the 1994 PIP and awards of restricted stock and RSUs granted under the 2004 PIP were established by the Board of Directors or committee thereof at the time of issuance. The 1994 PIP expired on December 16, 2003, and as such no further awards may be granted under the 1994 PIP. As of October 31, 2010, 940,179 stock option awards remain outstanding for shares of Common Stock reserved for issuance under the 1994 PIP, and 2,672,986 stock option awards, 3,607 DSUs, 22,962 PSUs, 10,000 shares of restricted stock and 682,774 RSUs remain outstanding for shares of Common Stock reserved for issuance under the 2004 PIP. For more information on the 2004 PIP see footnote 4 below.

(3) Restricted stock, RSUs, DSUs and PSUs granted under such plans do not have an exercise price and are settled only for shares of our Common Stock on a one-for-one basis. These awards have been disregarded for purposes of computing the weighted-average exercise price. For more information on DSUs and PSUs see the discussion under the paragraph below entitled "The Ownership Program."

## Edgar Filing: NAVISTAR INTERNATIONAL CORP - Form DEF 14A

- (4) Our 2004 PIP was approved by the Board and the independent Compensation and Governance Committee on October 15, 2003, and, subsequently by our stockholders on February 17, 2004. Our 2004 PIP was subsequently amended on April 21, 2004, March 23, 2005, December 12, 2005, April 16, 2007, June 18, 2007, May 27, 2008, December 16, 2008, January 9, 2009, February 16, 2010, and April 20, 2010. The 2004 PIP replaced, on a prospective basis, our 1994 PIP, the 1998 Supplemental Stock Plan, both of which expired on December 16, 2003, and our 1998 Non-Employee Director Stock Option Plan (collectively, the Prior Plans ). A total of 3,250,000 shares of Common Stock were reserved for awards under the 2004 PIP. On February 16, 2010, our stockholders approved an amendment to increase the number of shares available for issuance under the 2004 PIP from 3,250,000 to 5,750,000. Shares subject to awards under the 2004 PIP, or the Prior Plans after February 17, 2004, that are cancelled, expired, forfeited, settled in cash, tendered to satisfy the purchase price of an award, withheld to satisfy tax obligations or otherwise terminated without a delivery of shares to the participant again become available for awards. This number represents the remaining number of unused shares from the year ended October 31, 2010, which are available for issuance for the following year.

**Table of Contents**

- (5) The following plans were not approved by our stockholders: The 1998 Supplemental Stock Plan (as supplemented by the Restoration Stock Option Program (the Supplemental Plan )), The Executive Stock Ownership Program (the Ownership Program ), The 1998 Non-Employee Director Stock Option Plan (the Director Stock Option Plan ), and The Non-Employee Directors Deferred Fee Plan (the Deferred Fee Plan ). Below is a brief description of the material features of each plan, but in each case the information is qualified in its entirety by the text of such plans.

*The Supplemental Plan.* The Supplemental Plan was approved by the Board of Directors on December 15, 1998. A total of 4,500,000 shares of Common Stock are reserved for awards under the Supplemental Plan. Stock options awarded under the Supplemental Plan were granted at the fair market value of the stock on the date of grant, generally have a 10-year contractual life and generally become exercisable as to one-third of the shares on each of the first three anniversaries of the date of grant, so that in three years the shares are 100% vested. Awards of restricted stock granted under the Supplemental Plan are established by the Board or committee thereof at the time of issuance. As of October 31, 2010, 1,256,944 stock option awards remain outstanding for shares of Common Stock reserved for issuance under the Supplemental Plan. Prior to February 17, 2004 the Restoration Stock Option Program was administered under and supplemented by the Supplemental Plan. As of October 31, 2010 there were 18,101 deferred stock units outstanding under the Supplemental Plan which relate to restoration stock options. For more information on the Restoration Stock Option Program, please see the description contained in footnote 2 above. The Supplemental Plan expired December 16, 2003, and as such no further awards may be granted under the Supplemental Plan.

*The Ownership Program.* On June 16, 1997, the Board approved the terms of the Ownership Program, and on April 17, 2001, October 15, 2002 and August 30, 2004, the Board approved certain amendments thereto. In general, the Ownership Program requires all of our officers and senior managers to acquire, by direct purchase or through salary or annual bonus reduction, an ownership interest in NIC by acquiring a designated amount of our Common Stock at specified timelines. Participants are required to hold such stock for the entire period in which they are employed by the Company. Participants may defer their cash bonus into DSUs. These DSUs vest immediately. There were 9,342 DSUs (which includes 3,607 DSUs granted under the 2004 PIP after February 17, 2004) outstanding as of October 31, 2010. PSUs may also be awarded to participants who complete their ownership requirement on an accelerated basis. PSUs vest as to one-third of the shares on each of the first three anniversaries of the date of grant, so that in three years the shares are 100% vested. There were 63,750 PSUs (which includes 22,962 PSUs granted under the 2004 PIP after February 17, 2004) outstanding as of October 31, 2010. Each vested DSU and PSU will be settled by delivery of one share of Common Stock. Such settlement will occur within 10 days after a participant's termination of employment. DSUs and PSUs are no longer granted under the Ownership Program but instead are granted under the 2004 PIP.

*The Director Stock Option Plan.* The Director Stock Option Plan was approved by the Board on December 16, 1997 and amended on December 11, 2001. A total of 250,000 shares of Common Stock are reserved for awards under the Director Stock Option Plan. The Director Stock Option Plan provides for an annual grant to each of our non-employee directors an option to purchase 4,000 shares of Common Stock. The option price in each case will be 100% of the fair market value of the Common Stock on the business day following the day of grant. As of October 31, 2010, 40,500 stock option awards remain outstanding for shares of Common Stock reserved for issuance under the Director Stock Option Plan. Stock options awarded under the Director Stock Option Plan generally become exercisable in whole or in part after the commencement of the second year of the term of the option, which term is 10 years. The optionee is also required to remain in the service of the Company for at least one year from the date of grant. The Director Stock Option Plan was terminated on February 17, 2004. All future grants to non-employee directors will be issued under the 2004 PIP.

*The Deferred Fee Plan.* Under the Deferred Fee Plan, directors may elect to receive all or a portion of their annual retainer fees (in excess of their mandatory one-fourth restricted stock grant (as discussed above)) and meeting fees in cash or restricted stock, or they may defer payment of those fees in cash (with interest) or in phantom stock units. Deferrals in the deferred stock account are valued as if each deferral was vested in Common Stock as of the deferral date. As of October 31, 2010, there were 39,372 outstanding deferred stock units under the Deferred Fee Plan.

- (6) Includes 18,101 deferred stock units granted under the Supplemental Plan, 5,735 DSUs and 40,788 PSUs granted under the Ownership Program and 39,372 deferred stock units granted under the Deferred Fee Plan; all of which were outstanding as of October 31, 2010 under such plans.
- (7) Since the deferred stock units and DSUs and PSUs granted under such plans do not have an exercise price and are settled only for shares of our Common Stock on a one-for-one basis, these awards have been disregarded for purposes of computing the weighted-average exercise price.
- (8) Upon approval of the 2004 PIP by our stockholders on February 17, 2004, the Supplemental Plan and the Director Stock Option Plan were terminated, and there are no longer any shares available for issuance under these plans. There is no limit on the number of securities representing DSUs remaining available for issuance under the Ownership Program or the Deferred Fee Plan.

**PROPOSAL 2 RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Board seeks an indication from our stockholders of their approval or disapproval of the Audit Committee's appointment of KPMG as the Company's independent registered public accounting firm for fiscal 2011. KPMG has been the Company's auditors since 2006. For additional information regarding the Company's relationship with KPMG, please refer to the Audit Committee Report on page 22 of this proxy statement and the Independent Registered Public Accounting Firm Fee Information presented below.

If the appointment of KPMG as our independent registered public accounting firm for fiscal 2011 is not approved by our stockholders, the adverse vote will be considered a direction to the Audit Committee to consider other auditors for next year. However, because of the difficulty in making any substitution of auditors after the beginning of the current year, the appointment for fiscal 2011 will stand, unless the Audit Committee finds other good reason for making a change.

Representatives of KPMG will be present at the Annual Meeting and will have the opportunity to make a statement if they desire to do so. The representatives will also be available to respond to questions at the Annual Meeting.

**YOUR BOARD OF DIRECTORS RECOMMENDS A VOTE FOR PROPOSAL 2.**

**Table of Contents****INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FEE INFORMATION**

In January 2010 our Audit Committee approved the engagement of KPMG as our independent registered public accounting firm. The following table presents aggregate fees billed or expected to be billed by KPMG for audit services and fees for audit-related services (including associated out-of-pocket costs) incurred for the fiscal years ended October 31, 2010 and 2009, on our behalf:

(in millions)	2010	2009
Audit fees	\$15.5	\$21.3
Audit-related fees	0.6	0.4
Tax fees	0.2	
All other fees		
Total fees	\$16.3	\$21.7

A description of the types of services provided in each category is as follows:

**Audit Fees** These are fees for professional services for the audit of our annual consolidated financial statements, limited review of our quarterly consolidated financial statements, and services that are normally provided in connection with statutory and regulatory filings. This includes fees for the audit of Navistar Financial Corporation ( NFC ) and, in 2009, fees in connection with the SEC investigation related to our financial statements.

**Audit-Related Fees** These are fees for the assurance and related services that are reasonably related to the performance of the audit or review of our financial statements, including procedures related to our and NFC 's financing transactions.

**Tax Fees** These are fees for professional services rendered for tax compliance, tax advice and tax planning. For fiscal year 2009, the Company incurred less than \$100,000 in tax fees.

**All Other Fees** These are fees for permissible products and services provided by KPMG that do not meet the above categories. For fiscal year 2010 and fiscal year 2009, the Company did not incur any other fees.

The Audit Committee pre-approved all audit and non-audit services provided to us in accordance with the Audit Committee 's pre-approval policy. In accordance with the Audit Committee 's pre-approval policy, the Audit Committee annually considers for pre-approval all proposed audit and non-audit services which are known early in the year to be performed in the coming year by our independent registered public accounting firm and the estimated fees for such services. Additional fees related to certain audit-related or non-audit services proposed to be provided by our independent registered public accounting firm may be pre-approved by management, so long as the fees for such additional services individually or in the aggregate do not exceed \$400,000 in any 12-month period, and are reported to the Audit Committee at the next regularly scheduled committee meeting. Other proposed audit-related or non-audit services (not within the scope of the approved engagement) may be considered and, if appropriate, pre-approved by the chair of the Audit Committee if the related additional fees are estimated to be less than \$250,000, otherwise the Audit Committee must pre-approve all additional audit-related and non-audit services to be performed by our independent registered public accounting firm. In making its decision to utilize our independent registered public accounting firm, the Audit Committee considers whether the provision of such services is compatible with maintaining that firm 's independence and to that end receives certain representations from the firm regarding their independence and permissibility under applicable laws and regulations of non-audit services provided by the firm to us.

**PROPOSAL 3 APPROVE AN AMENDMENT TO OUR RESTATED CERTIFICATE OF INCORPORATION**

**Description of Proposed Amendment** The Board approved, subject to stockholder approval, an amendment to the Company's Restated Certificate of Incorporation to increase the number of shares of Common Stock authorized for issuance from 110,000,000 shares to 220,000,000 shares. To accomplish the increase in authorized shares of Common Stock, the Board proposes that the Preamble to Article Fourth of the Company's Restated Certificate of Incorporation be amended and restated to read in its entirety as follows (the Amendment):

Fourth: The total number of shares of stock which the Company shall have authority to issue is 286,000,000, consisting of:

- (1) 30,000,000 shares, with a par value of \$1.00 per share, are to be of a class designated Preferred Stock;
- (2) 10,000,000 shares, with a par value of \$1.00 per share, are to be of a class designated Preference Stock;
- (3) 220,000,000 shares, with a par value of \$0.10 per share, are to be of a class designated Common Stock; and
- (4) 26,000,000 shares with a par value of \$0.10 per share, are to be of a class designated Class B Common.  
The Common Stock and Class B Common are hereafter collectively referred to as the Parent Common Stock.

The proposed form of Certificate of Amendment is set forth in Appendix B to this proxy statement. If this proposal is approved, the proposed amendment will become effective upon the filing of the Certificate of Amendment of the Restated Certificate of Incorporation with the Secretary of State of Delaware, which filing will take place as soon as reasonably practicable following the Annual Meeting.

**Why We are Seeking to Increase our Authorized Common Stock** Of the 110,000,000 authorized shares of Common Stock currently authorized for issuance under our Restated Certificate of Incorporation, as of December 31, 2010, we have only 420,425 shares of our Common Stock available for issuance for general corporate purposes.<sup>(1)</sup> We believe increasing the shares of our authorized Common Stock strengthens the Company's flexibility to respond to future business and financial needs, is consistent with prudent financial management and is aligned with best practices.

While we have no present plans to issue additional shares of our Common Stock, we believe that the availability of additional authorized but unissued shares of Common Stock will enable us to promptly and appropriately respond to future business opportunities. These opportunities may include, but are not limited to, capital raising transactions, financing and acquisition transactions, strategic investments, stock dividends, stock splits and other general corporate purposes that have not yet been identified.

Furthermore, we carefully considered the internal guidelines of our stockholders and those of the major proxy advisor firms when determining the amount of this increase in our authorized Common Stock. A review of our 2009 compensation peer group shows that, on average, that peer group had 261% shares (with the highest percentage being 418% and the lowest being 131%) authorized as a percentage of shares outstanding, versus our current percentage of 153%.

For the foregoing reasons, we seek your approval to increase our authorized Common Stock from 110,000,000 to 220,000,000. The affirmative vote of a majority of the outstanding shares of the Company's Common Stock is required for this Amendment to be approved.

**Table of Contents**

**Effects of the Proposal on the Company's Stockholders** If our stockholders approve the Amendment, our Board may cause the issuance of additional shares of Common Stock without further vote of our stockholders, except as may be required in particular cases by our organizational documents, applicable laws or regulations, or the rules of the NYSE. The additional shares of Common Stock authorized in the Amendment will not be entitled to preemptive rights nor will existing stockholders have any preemptive rights to acquire any of those shares when issued. In addition, if our Board causes the Company to issue additional shares of Common Stock or securities convertible into or exercisable for Common Stock, such issuance could have a dilutive effect on the equity, earnings and voting interests of existing stockholders. The increase in the number of authorized shares of Common Stock also could discourage or hinder efforts by other parties to obtain control of the Company, thereby having an anti-takeover effect, although this is not the intent of our Board in proposing the Amendment. The Amendment is not being proposed in response to any known threat to acquire control of the Company.

- (1) The following table indicates, as of December 31, 2010, those shares of our Common Stock already issued or reserved for issuance and the amount remaining available for issuance for general corporate purposes:

**PROPOSAL 4 ADVISORY VOTE ON EXECUTIVE COMPENSATION**

The recently enacted Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, or the Dodd-Frank Act, enables our stockholders to vote to approve, on an advisory (non-binding) basis, the compensation of our NEOs as disclosed in this proxy statement in accordance with the SEC's rules.

As discussed in our Compensation Discussion and Analysis ( CD&A ) starting on page 27, our executive compensation programs for our NEOs, as well as other executives, are designed to closely align executive rewards with the total return to stockholders and corporate, group and individual performance. Our Compensation Committee developed an overall compensation philosophy that is built on a foundation of these guiding principles:

*Competitive Positioning:* Total remuneration is designed to attract and retain the executive talent required to achieve our goals through a market competitive total remuneration package.

*Performance Orientation:* Executive compensation is designed to align the interests of executives and stockholders. It is also performance-based with a direct link to Company, business unit, and individual performance.

*Fairness:* Our compensation programs are designed to be fair and equitable across all employee groups and should not unfairly discriminate in favor of any one individual or group on the basis of age, service, or other non-performance related criteria.

*Ownership and Responsibility:* Our compensation programs recognize individual contributions as well as link executive and stockholder interests through compensation plans and programs that reward our executives, including our NEOs based on increases to stockholder value and the financial success of the Company.

We believe that the Company's executive compensation programs have been effective at incenting the achievement of positive results, appropriately aligning pay and performance and in enabling the Company to attract and retain very talented executives within our industry.

We are asking our stockholders to indicate their support for our NEO compensation as described in this proxy statement. This proposal, commonly known as a "say-on-pay" proposal, gives you as a stockholder the opportunity to express your views on our fiscal year 2010 executive compensation policies and procedures for NEOs. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our NEOs and the policies and procedures described in this proxy statement. Accordingly, we ask our stockholders to vote **FOR** the following resolution at the Annual Meeting:

RESOLVED, that the stockholders of Navistar International Corporation (the Company) approve, on an advisory basis, the compensation of the NEOs as disclosed pursuant to Item 402 of Regulation S-K in the Company's proxy statement for the 2011 Annual Meeting of Stockholders.

Although this is an advisory vote which will not be binding on the Compensation Committee or the Board, we will carefully review the results of the vote. The Compensation Committee will consider our stockholders' concerns and take them into account when designing future executive compensation programs. The Board therefore recommends that you indicate your support for the Company's executive compensation in fiscal year 2010, as outlined in the above resolution.

**YOUR BOARD OF DIRECTORS RECOMMENDS A VOTE FOR PROPOSAL 4.**

**Table of Contents**

**PROPOSAL 5 ADVISORY VOTE ON FREQUENCY OF VOTE ON EXECUTIVE COMPENSATION**

In addition to the non-binding advisory vote on executive compensation, the Dodd-Frank Act also enables our stockholders to express their preference for having a say on pay vote every one, two, or three years or abstain. This non-binding frequency vote is required at least once every six years beginning with our Annual Meeting.

After careful consideration of this proposal, our Board has determined that an advisory vote on executive compensation that occurs annually is the most appropriate alternative for the Company, and therefore our Board recommends that you vote for a one-year interval for the advisory vote on executive compensation.

In formulating its recommendation, our Board considered that an advisory vote on executive compensation every year will allow our stockholders to provide us with their direct input on our compensation philosophy, policies and practices as disclosed in the proxy statement every year. Setting a one year period for holding this stockholder vote will enhance stockholder communication by providing a clear, simple means for the Company to obtain information on investor sentiment about our executive compensation philosophy.

You may cast your vote on your preferred voting frequency by choosing the option of one year, two years, three years or abstain from voting when you vote in response to the resolution set forth below.

RESOLVED, that the option of once every one year, two years, or three years that receives the highest number of votes cast for this resolution will be determined to be the preferred frequency with which the Company is to hold a stockholder advisory vote to approve the compensation of the named executive officers as disclosed pursuant to Item 402 of Regulation S-K.

The option of one year, two years or three years that receives the highest number of votes cast by stockholders will be the frequency for the advisory vote on executive compensation that has been selected by stockholders. However, because this vote is advisory and not binding on the Board in any way, the Board may decide that it is in the best interests of our stockholders and the Company to hold an advisory vote on executive compensation more or less frequently than the option approved by our stockholders.

**PROPOSAL 6 STOCKHOLDER PROPOSAL**

The International Brotherhood of Teamsters General Fund, 25 Louisiana Avenue, N.W., Washington, D.C. 20001-2198, owner of 225 shares of our Common Stock, advised the Company that it intends to present the following stockholder proposal at the Annual Meeting. In accordance with federal securities regulations, we include in this proxy statement the proposal, plus the supporting statement submitted by the proponent, exactly as submitted.

**Stockholder Proposal**

RESOLVED: That the shareholders of Navistar International Corporation ( Navistar or Company ) urge the Board of Directors to adopt a policy of obtaining shareholder approval for future severance agreements with senior executives that provide benefits in an amount exceeding 2.0 times the sum of the executive s base salary plus bonus.

Severance agreement includes any agreements or arrangements that provide for payments or awards in connection with a senior executive s severance from Navistar, including employment agreements; retirement agreements; change in control agreements; and agreements renewing, modifying or extending such agreements.

Benefits include lump-sum cash payments (including payments in lieu of medical and other benefits); the payment of any gross-up tax liability; the estimated present value of periodic retirement payments; equity and the accelerated vesting of equity; fringe benefits; and consulting fees (including reimbursable expenses) to be paid to the executive.

**SUPPORTING STATEMENT:**

Navistar has entered into a series of executive severance agreements, commonly known as golden parachutes, that allow senior executives to receive payment if they leave Navistar in certain circumstances, as specified in the agreements.

Last year Navistar modified these golden parachute agreements, including increasing the general severance formula for Chairman and CEO Daniel Ustian from two to three times the sum of his annual base salary plus annual target bonus.

Navistar s executive severance agreements also provide that if senior executives are terminated related to a change in control, they are entitled to receive three times the sum of their base salary plus annual target bonus plus a pro rata portion of the annual target bonus, as well as 36 months of continued health insurance; outplacement counseling; acceleration of the exercisability of options; and other benefits.

According to Navistar s 2010 proxy statement, prior to the increase, Mr. Ustian s general cash severance was already estimated at \$6.3 million, excluding other benefits. His total payout for a termination related to a change in control was estimated at \$33.4 million, including a \$19.8 million cash severance.

While severance agreements may be appropriate in some circumstances, we believe that the potential cost of such agreements entitles shareholders to be heard when a company contemplates paying out more than two times the amount of an executive s salary and bonus. Moreover, the existence of such a stockholder approval requirement may induce restraint when parties negotiate such agreements.

Although the Dodd-Frank Wall Street Reform and Consumer Protection Act requires companies involved in a change in control to seek shareholder approval of related golden parachute agreements,

## **Table of Contents**

we believe shareholders should have the right to vote on all executive severance agreements that provide for payments in excess of two times the sum of base salary plus bonus, regardless of whether a change in control is involved. Further, we believe shareholders should have the right to vote on golden parachute agreements before they are ratified.

We urge shareholders to vote **FOR** this proposal.

## **The Board's Recommendation**

The Board does not believe this stockholder proposal is in the best interests of the stockholders for the following reasons:

The Committee, composed completely of independent directors, reviews on a yearly basis all aspects of our executive compensation program and policy, including for the CEO. The Committee's objective is to structure the program so that it enhances stockholder value by attracting and retaining high-performing executives. Each year, the Committee reviews individual executive officer compensation and potential compensation and based on this review, as well as consideration of relevant market practices provided by the Committee's outside compensation consultant, the Committee determined that our compensation programs and policies, including our Executive Severance Agreements (ESAs), for our NEOs is appropriate, consistent and competitive with market practices and in the best interest of the Company and its stockholders.

To this effect, our executive compensation program and policy is designed to attract, motivate and retain highly experienced executives who are vital to the success, profitability and growth of the Company. We believe that providing an appropriate level of severance is an important component in executive compensation. The Board opposes the stockholder proposal because it believes the proposal limits the Company's ability to provide reasonable severance benefits to a very limited group of senior executives after certain events, including a change in control of the Company. This is an important tool for the Company to use in recruiting and retaining executives, and as such, the ready availability of these arrangements to attract top executives is in the best interests of all stockholders.

We do not have employment contracts with our NEOs as employment with each of them is at will employment. Like many companies, however, to ensure stability and continuity of management, which we believe is in the best interests of our stockholders, we provide executive officers, including NEOs, with an ESA. The ESAs provide for severance benefits in the event of a specified termination, such as an involuntary termination and a termination in connection with a change in control. Effective January 1, 2010, we amended those ESAs to eliminate the Internal Revenue Code 280G excise tax gross-up and also modified a pension supplement due to termination in connection with a change of control. We also added restrictive covenants for certain executives, including NEOs, such as confidentiality, non-disparagement, non-compete and non-solicit covenants that are enforced during employment and for 24 months following any termination. These changes applied to all executive officers, including NEOs. With the elimination of tax gross-ups and the pension supplement modification, our CEO's severance payment based upon a change in control alone was reduced by over \$11 million, and with respect to all other NEOs as a group, their severance payments based upon a change in control was reduced by over \$6 million. In addition, the severance payout percentage for certain other of our executive officers, excluding the NEOs, was reduced for a termination based upon a change in control. The NEO general severance, excluding the CEO, and all of the NEOs severance formula based upon a termination related to a change in control did not change. Although the general severance formula for our CEO increased from 200% to 300%, this percentage increase was supported by competitive market practices regarding general severance multipliers of other CEOs and was also mitigated by the reduction in CEO severance payable upon a change in control.

**Table of Contents**

The requirement that stockholders approve future severance arrangements may create inconsistencies in severance among peer executives, is logistically impractical and expensive, and limits the ability of the Committee to perform its duties. Imposing rigid and arbitrary limitations, such as those reflected in this proposal, would interfere with the Committee's ability to design programs that it believes would be best suited for the Company. It would also place the Company at a significant disadvantage in terms of its executive retention and recruiting strategy in a competitive market, and would compromise our ability to attract and retain talented executives.

Finally, we believe that the Say-on-Pay Vote set forth in Proposal 4 in this proxy statement provides stockholders with the opportunity to endorse or not endorse the compensation of our NEOs, through an advisory stockholder vote. The ESAs are included as part of the executive compensation on which the stockholders are already voting on in Proposal 4, and we include additional ESA information that is being voluntarily disclosed in accordance with the SEC's proposed rules implementing the Dodd-Frank Act's provisions relating to golden parachute arrangements. Therefore we believe this stockholder proposal is substantially implemented by Proposal 4. Also, the Board has recommended that the stockholders vote in favor of ONE YEAR for the Say-When-on-Pay Vote, so stockholders will have the opportunity to endorse or not endorse the compensation of our NEOs every year.

Implementation of this proposal is unnecessary and would potentially harm the Company by unduly hindering its ability to recruit, retain and motivate top executive talent. The Committee oversees all aspects of the executive compensation program, including the provision of severance benefits for the CEO and all other members of management, and it acts in the best interests of the Company and its stockholder when approving such benefits. For all of the foregoing reasons, the Board opposes this proposal.
