Statement

This presentation contains certain forward-looking statements about Northeast Bancorp (the Company) within the meaning of Section 27E of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, such as statements of

including the redemption of Series A preferred stock. Forward-looking statements, which are based on various assumptions (some of which are outside the Company's control), may be identified by reference to a future period or periods, or by the use of forward-looking terminology, such as expect, estimate, anticipate, continue, plan, approximately, intend, objective, goal, project, or other similar terms, or the future or conditional verbs such as will, may, should, could, and would. Actual results could differ materially from those expressed or implied by such forward-looking statements as a result of, among other factors, the factors referenced in the Registration Statement under the heading "Risk Factors": changes in interest rates and real estate values; competitive pressures from other financial institutions; a continuing deterioration in general economic conditions on a national basis or in the local markets in which the Company operates; events which adversely affect borrowers' ability to service and repay the Company's loans; changes in loan defaults and charge-off ratios; changes in the value of securities and other assets, adequacy of loan loss reserves, or deposit levels necessitating increased borrowing to fund loans; increasing government regulation, such as the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010; changes in the Company's participation for the TARP Capital Purchase Program promulgated by the U.S. Department of the Treasury under the Emergency Economic Stabilization Act of 2008, which may be changed unilaterally and restrictively by legislative or regulatory actions; establishment of a new consumer protection bureau with the broad authority to implement new consumer protection regulations; the risk that the Company may not be successful in the implementation of its business strategy; and changes in assumptions used in making such forward-looking statements. Forward-looking statements speak only as of the date on which they are made. The Company does not undertake any obligation to update or revise any forward-looking statement to reflect circumstances or events that occur after the date the forward-looking statements are made. The Company has filed a registration statement (including a prospectus) with the SEC (File No. 333-180215) for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents filed with the SEC for more complete information about the Company and the offering. You may obtain these documents with the Company's help through EDGAR on the SEC website at www.sec.gov. Alternatively, copies of the prospectus relating to the offering may be obtained from the Company, Partners, L.P., 1251 Avenue of the Americas, 6th Floor, New York, NY 10020, (866) 805-4128.

Sole Book-Running Manager:

Sandler O'Neill + Partners, L.P.

Use of Proceeds:

The Company intends to contribute the net proceeds to the capital of Northeast Bank, where it is expected to be used for general corporate purposes, including leveraging Northeast Bank's balance sheet to allow for loan purchases, organic loan growth and investment in securities.

The Company, subject to regulatory approval

2

, also intends to use a portion of the net proceeds to redeem some or all of the outstanding shares of Series A preferred stock issued to the U.S. Treasury under the TARP Capital Purchase Program.

The Company will not receive any proceeds from the sale of shares of common stock by the selling shareholder.

(1)

Certain investors may elect or be obligated to hold shares of non-voting common stock under the Company's articles of incorporation.

(2)

Loan Acquisition & Servicing Group (LASG) Overview

Target Loan

Profile

Transaction

Sourcing

LASG Team

Team of credit analysts, real estate analysts, servicing specialists and legal counsel with extensive experience in the loan acquisition business

The LASG team has an average of over 14 years of experience in the loan

purchasing business

Four Managing Directors worked with Richard Wayne at Capital Crossing Bank

All loans serviced by in-house team of experienced asset managers

Variety of sellers: banks, insurance companies, investment funds and government agencies

The LASG competes primarily with limited number of community banks, regional banks and private equity funds

Aggregate annual volume of loans tracked by the LASG ranged from \$9 billion to \$20 billion for 2009-2011

Recent economic crisis has led to a high level of trading volume

Market expected to remain active in times of economic prosperity as sellers have additional reserve capacity to sell unwanted and troubled assets

Performing commercial loans secured by real estate or other business assets located throughout the country

Seek to build portfolio that is diverse with respect to geography, loan type and collateral type

Focus primarily on loans with balances between \$1 and \$3 million

Through April 30, 2012, purchased loans for an aggregate investment of \$75.1 million with unpaid principal balance (UPB) of \$91.7 million

LASG Portfolio Screening Process
Seller Screening
Portfolio
Screening
Understand Price
Expectations
Loan Level Triage
Portfolio
Stratification &
Yield Analysis
Decision Point

Understand sale dynamics

Determine whether seller has capital or reserves to absorb sale-related write downs

Review prior experience with seller

Review recent experience with advisor, if relevant

Assess quality of information available

Review data tape to determine which pools and/or loans are worth analyzing further

Identify pool-level reserves and pricing expectations

Determine whether portfolio is likely to trade in pools or on an all-or-none basis

Identify likely competition

Complete preliminary real estate valuation work and high-

level credit work
to identify any
red flags

Analyze deeper
where necessary

Stratify portfolio
by performance,
geography,
collateral type,
vintage, etc.

Develop
preliminary loan-
level pricing

31

Financial Description of the Merger

On December 29, 2010, the merger of the Company and FHB Formation LLC was consummated. FHB was the entity through which a group of independent accredited investors purchased 937,933 shares of the Company's outstanding common stock and 1,161,166 shares of newly-issued voting and non-voting common stock, at a price equal to \$13.93 per share. As a result of this transaction, \$16.2 million of new capital was contributed to the Company and the Investors collectively own approximately 60% of the outstanding common shares of the Company. We have applied the acquisition method of accounting, as described in Accounting Standards Codification 805, Business Combinations, to this transaction, which represents an acquisition by FHB of Northeast, with Northeast as the surviving company.

As a result of application of the acquisition method of accounting to the Company's balance sheet, the Company's financial statements from the periods prior to the transaction date are not directly comparable to the financial statements for periods subsequent to the transaction date. To make this distinction, we have labeled balances and results of operations prior to the transaction date as Predecessor Company and balances and results of operations for periods

subsequent to the transaction date as Successor Company. The lack of comparability arises from the assets and liabilities having new accounting bases as a result of recording them at their fair values as of the transaction date rather than at historical cost basis.

Under the acquisition method of accounting, the Company assets acquired and liabilities assumed are recorded at their respective fair values as of the transaction date. In this transaction, the estimated fair values of the Company's net assets were greater than the purchase price. This resulted in a bargain purchase gain of \$14.9 million, which was reported by the Company as income in the three-day period ended December 31, 2010.

32

Sale of Northeast Bank Insurance Group, Inc.

On August 31, 2011, the Company sold customer lists and certain fixed assets of its wholly-owned subsidiary, Northeast Bank Insurance Group, Inc. (NBIG) to local insurance agencies in two separate transactions. The Varney Agency, Inc. of Bangor, Maine purchased the assets of nine NBIG offices in Anson, Auburn, Augusta, Bethel, Livermore Falls, Scarborough, South Paris, Thomaston and Turner, Maine. The NBIG office in Berwick, Maine, which operates under the name of Spence & Matthews, was acquired by Bradley Scott, previously a member of NBIG s senior management team. The following is a summary of the sale transactions.

Operations associated with NBIG have been classified as discontinued operations in the consolidated statements of income.

recognized in the first quarter of fiscal 2012. Insurance commissions were \$1.5 million for the three months and 93 days ended March 31, 2011 and \$2.7 million for 181 days ended December 28, 2010. Intangible and fixed assets associated with discontinued operations totaled approximately \$7.4 million and \$168 thousand, respectively, at June 30, 2011. In connection with the transaction, the Company repaid borrowings associated with NBIG totaling \$2.1 million.

Non-GAAP Reconciliation

(1)

Successor Company means Northeast Bancorp and its subsidiary after the closing of the merger with FHB Formation LLC

(2)

Predecessor Company means Northeast Bancorp and its subsidiary before the closing of the merger with FHB Formation LLC

We calculate tangible common equity by excluding the balance of intangible assets from common stockholders' equity. We calculate tangible book value per share by dividing tangible common equity by actual common shares outstanding, as compared to book value per common share, which we calculate by dividing common stockholders' equity by actual common shares outstanding. We calculate tangible common equity to tangible assets by dividing tangible common equity by tangible assets. We believe that this is consistent with the treatment by bank regulatory agencies, which exclude intangible assets from the calculation of risk-based capital ratios. Accordingly, we believe that these non-GAAP financial measures provide information that is important to investors and that is useful in understanding our capital position and

ratios. A reconciliation of the non-GAAP measures of tangible assets, tangible common equity and tangible book value per share to the GAAP measures of common stockholder's equity and book value per share is set forth below.
