MERCANTILE BANK CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

**1. SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation:** The unaudited financial statements for the six months ended June 30, 2012 include the consolidated results of operations of Mercantile Bank Corporation and its consolidated subsidiaries. These subsidiaries include Mercantile Bank of Michigan ( our bank ) and our bank s three subsidiaries, Mercantile Bank Mortgage Company, LLC ( our mortgage company ), Mercantile Bank Real Estate Co., LLC ( our real estate company ), and Mercantile Insurance Center, Inc. ( our insurance center ). These consolidated financial statements have been prepared in accordance with the instructions for Form 10-Q and Item 303(b) of Regulation S-K and do not include all disclosures required by accounting principles generally accepted in the United States of America for a complete presentation of our financial condition and results of operations. In the opinion of management, the information reflects all adjustments (consisting only of normal recurring adjustments) which are necessary in order to make the financial statements not misleading and for a fair presentation of the results of operations for such periods. The results for the period ended June 30, 2012 should not be considered as indicative of results for a full year. For further information, refer to the consolidated financial statements and footnotes included in our annual report on Form 10-K for the year ended December 31, 2011.

We formed a business trust, Mercantile Bank Capital Trust I ( the trust ), in 2004 to issue trust preferred securities. We issued subordinated debentures to the trust in return for the proceeds raised from the issuance of the trust preferred securities. The trust is not consolidated, but instead we report the subordinated debentures issued to the trust as a liability.

**Earnings Per Share:** Basic earnings per share is based on the weighted average number of common shares and participating securities outstanding during the period. Diluted earnings per share include the dilutive effect of additional potential common shares issuable under our stock-based compensation plans and our common stock warrant, and are determined using the treasury stock method. Our unvested restricted shares, which contain non-forfeitable rights to dividends whether paid or accrued (i.e., participating securities), are included in the number of shares outstanding for both basic and diluted earnings per share calculations. In the event of a net loss, our unvested restricted shares are excluded from the calculation of both basic and diluted earnings per share.

Approximately 38,000 unvested restricted shares were included in determining both basic and diluted earnings per share for the three and six months ended June 30, 2012. In addition, stock options and a stock warrant for approximately 42,000 and 616,000 shares of common stock, respectively, were included in determining diluted earnings per share for the three and six months ended June 30, 2012. Stock options for approximately 164,000 shares of common stock were antidilutive and not included in determining diluted earnings per share for the three and six months ended June 30, 2012.

Approximately 72,000 unvested restricted shares were included in determining both basic and diluted earnings per share for the three and six months ended June 30, 2011. In addition, stock options and a stock warrant for approximately 48,000 and 616,000 shares of common stock, respectively, were included in determining diluted earnings per share for the three and six months ended June 30, 2011. Stock options for approximately 199,000 shares of common stock were antidilutive and not included in determining diluted earnings per share for the three and six months ended June 30, 2011.

**Table of Contents**

MERCANTILE BANK CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

**1. SIGNIFICANT ACCOUNTING POLICIES** (Continued)

**Allowance for Loan Losses:** The allowance for loan losses ( allowance ) is a valuation allowance for probable incurred credit losses. Loan losses are charged against the allowance when we believe the uncollectability of a loan is confirmed. Subsequent recoveries, if any, are credited to the allowance. We estimate the allowance balance required using past loan loss experience, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, economic conditions and other factors. Allocations of the allowance may be made for specific loans, but the entire allowance is available for any loan that, in our judgment, should be charged-off.

A loan is impaired when, based on current information and events, it is probable we will be unable to collect the scheduled payments of principal and interest when due according to the contractual terms of the loan agreement. Factors considered in determining impairment include payment status, collateral value and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. We determine the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of delay, the reasons for delay, the borrower's prior payment record and the amount of the shortfall in relation to the principal and interest owed. Impairment is measured on a loan-by-loan basis for commercial and construction loans by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price or the fair value of collateral if the loan is collateral dependent. Large groups of smaller balance homogeneous loans are collectively evaluated for impairment. We do not separately identify individual residential and consumer loans for impairment disclosures.

**Troubled Debt Restructurings:** A loan is accounted for as a troubled debt restructuring if we, for economic or legal reasons, grant a concession to a borrower considered to be experiencing financial difficulties that we would not otherwise consider. A troubled debt restructuring may involve the receipt of assets from the debtor in partial or full satisfaction of the loan, or a modification of terms such as a reduction of the stated interest rate or balance of the loan, a reduction of accrued interest, an extension of the maturity date or renewal of the loan at a stated interest rate lower than the current market rate for a new loan with similar risk, or some combination of these concessions. Troubled debt restructurings can be in either accrual or nonaccrual status. Nonaccrual troubled debt restructurings are included in nonperforming loans. Accruing troubled debt restructurings are generally excluded from nonperforming loans as it is considered probable that all contractual principal and interest due under the restructured terms will be collected.

In accordance with current accounting guidance, loans modified as troubled debt restructurings are, by definition, considered to be impaired loans. Impairment for these loans is measured on a loan-by-loan basis similar to other impaired loans as described above under Allowance for Loan Losses. Certain loans modified as troubled debt restructurings may have been previously measured for impairment under a general allowance methodology (i.e., pooling), thus at the time the loan is modified as a troubled debt restructuring the allowance will be impacted by the difference between the results of these two measurement methodologies. Loans modified as troubled debt restructurings that subsequently default are factored into the determination of the allowance in the same manner as other defaulted loans.

**1. SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Derivatives: Derivative financial instruments are recognized as assets or liabilities at fair value. The accounting for changes in the fair value of derivatives depends on the use of the derivatives and whether the derivatives qualify for hedge accounting. Used as part of our asset and liability management to help manage interest rate risk, our derivatives have historically consisted of interest rate swap agreements that qualified for hedge accounting. In February 2012, we entered into an interest rate swap agreement that does qualify for hedge accounting. However, in June 2011, we simultaneously purchased and sold an interest rate cap, a structure commonly referred to as a cap corridor, which does not qualify for hedge accounting. The current outstanding interest rate swap agreement and cap corridor are discussed in more detail in Note 9. We do not use derivatives for trading purposes.

Changes in the fair value of derivatives that are designated, for accounting purposes, as a hedge of the variability of cash flows to be received on various loans and are effective are reported in other comprehensive income. They are later reclassified into earnings in the same periods during which the hedged transaction affects earnings and are included in the line item in which the hedged cash flows are recorded. If hedge accounting does not apply, changes in the fair value of derivatives are recognized immediately in current earnings as interest income or expense.

If designated as a hedge, we formally document the relationship between derivatives and hedged items, as well as the risk-management objective and the strategy for undertaking hedge transactions. This documentation includes linking cash flow hedges to specific assets and liabilities on the balance sheet. If designated as a hedge, we also formally assess, both at the hedge's inception and on an ongoing basis, whether the derivative instruments that are used are highly effective in offsetting changes in cash flows of the hedged items. Ineffective hedge gains and losses are recognized immediately in current earnings as noninterest income or expense. We discontinue hedge accounting when we determine the derivative is no longer effective in offsetting changes in the cash flows of the hedged item, the derivative is settled or terminates, or treatment of the derivative as a hedge is no longer appropriate or intended.

Adoption of New Accounting Standards: In April 2011, the FASB issued ASU 2011-03, *Reconsideration of Effective Control for Repurchase Agreements*, to improve financial reporting of repurchase agreements and other agreements that both entitle and obligate a transferor to repurchase or redeem financial assets on substantially the agreed upon terms. This ASU eliminates consideration of the transferor's ability to fulfill its contractual rights and obligations from the criteria, as well as related implementation guidance (i.e., that it possesses adequate collateral to fund substantially all the cost of purchasing replacement financial assets), in determining effective control, even in the event of default by the transferee. Other criteria applicable to the assessment of effective control are not changed by this new guidance. This ASU became effective January 1, 2012. The adoption of this new ASU did not have a material effect on our results of operations or financial position.

**1. SIGNIFICANT ACCOUNTING POLICIES** (Continued)

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*, to align the fair value measurement and disclosure requirements in U.S. GAAP and International Financial Reporting Standards (IFRSs). Many of the amendments in this ASU will not result in a change in requirements but simply clarify existing requirements. The amendments in this ASU that do not change a principle or requirement for measuring fair value or disclosing information about fair value measurements include the following: (1) the ASU permits an exception for measuring fair value when a reporting entity manages its financial instruments on the basis of its net exposure, rather than gross exposure, to those risks; (2) the ASU clarifies that the application of premiums and discounts in a fair value measurement is related to the unit of account for the asset or liability being measured at fair value and specifically prohibits blockage discounts for Level 2 and 3 investments; and (3) the amendments expand fair value measurement disclosures. The more significant new disclosures include: (1) for all Level 3 fair value measurements, quantitative information about significant unobservable inputs used as well as a qualitative discussion about the sensitivity of recurring Level 3 fair value measurements; (2) transfers between Level 1 and Level 2 fair value measurements on a gross basis, including the reasons for those transfers; and (3) the categorization by level of the fair value hierarchy for items that are not measured at fair value in the balance sheet but for which the fair value is required to be disclosed (e.g., held-to-maturity securities and loans). The ASU is to be applied prospectively and became effective January 1, 2012. The adoption of this new ASU did not have a material effect on our results of operations or financial position.

In June 2011, the FASB issued ASU 2011-05, *Presentation of Comprehensive Income*, to improve the comparability, consistency and transparency of financial reporting and to increase the prominence of items reported in other comprehensive income. The ASU eliminates the option to present components of other comprehensive income as part of the Statement of Changes in Shareholders' Equity. Instead, all changes in shareholders' equity must be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In the single continuous statement approach, the statement should present the components of net income and total net income, the components of other comprehensive income and total other comprehensive income, and a total for comprehensive income. In the two-statement approach, the first statement should present the components of net income and total net income followed consecutively by a second statement that should present the components of other comprehensive income, a total for other comprehensive income and a total for comprehensive income. Also known as recycling, companies will also be required to display reclassification adjustments and their effect on net income and other comprehensive income in the statement(s) in which they appear. The ASU does not change certain other current requirements including items that constitute net income and other comprehensive income. The ASU is to be applied retrospectively and became effective January 1, 2012. Beginning with the March 31, 2012 Form 10-Q, we have included the Consolidated Statements of Comprehensive Income.

## MERCANTILE BANK CORPORATION

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

**2. SECURITIES** (Continued)

We evaluate securities for other-than-temporary impairment at least on a quarterly basis. Consideration is given to the length of time and the extent to which the fair value has been less than cost, the financial condition and near-term prospects of the issuer, and the intent and ability we have to retain our investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. For those debt securities whose fair value is less than their amortized cost basis, we also consider our intent to sell the security, whether it is more likely than not that we will be required to sell the security before recovery and if we do not expect to recover the entire amortized cost basis of the security. In analyzing an issuer's financial condition, we may consider whether the securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred and the results of reviews of the issuer's financial condition.

At June 30, 2012, three debt securities with a fair value totaling \$4.8 million have unrealized losses with aggregate depreciation of \$10,000, or 0.01% from the amortized cost basis of total securities. At June 30, 2012, 206 debt securities and a mutual fund with a fair value totaling \$111.4 million have unrealized gains with aggregate appreciation of \$5.1 million, or 4.2% from the amortized cost basis of total securities. After we considered whether the securities were issued by the federal government or its agencies and whether downgrades by bond rating agencies had occurred, we determined that unrealized losses were due to changing interest rate environments. As we do not intend to sell our debt securities before recovery of their cost basis and we believe it is more likely than not that we will not be required to sell our debt securities before recovery of the cost basis, no declines are deemed to be other-than-temporary.

The amortized cost and fair value of debt securities at June 30, 2012, by contractual maturity, are shown below. The contractual maturity is utilized below for U.S. Government agency debt obligations and municipal bonds. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment fees. Securities not due at a single maturity date, primarily mortgage-backed securities, are shown separately.

The maturities of securities and their weighted average yields at June 30, 2012 are also shown in the following table. The yields for municipal securities are included at their tax equivalent yield.

	Weighted Average Yield	Amortized Cost	Fair Value
Due in 2012	NA	\$ 0	\$ 0
Due in 2013 through 2017	5.03%	6,807,000	7,118,000
Due in 2018 through 2022	3.83	23,302,000	23,756,000
Due in 2023 and beyond	4.73	53,908,000	55,917,000
Mortgage-backed securities	5.16	25,780,000	28,053,000

(Unaudited)

**2. SECURITIES** (Continued)

At June 30, 2012, and December 31, 2011, the amortized cost of securities issued by the State of Michigan and all its political subdivisions totaled \$25.7 million and \$30.5 million, respectively, with estimated market values of \$27.0 million and \$31.7 million, respectively. Total securities of any other specific issuer, other than the U.S. Government and its agencies, did not exceed 10% of shareholders' equity.

The carrying value of U.S. Government agency debt obligations and mortgage-backed securities that are pledged to secure repurchase agreements and letters of credit issued on behalf of our customers was \$78.5 million and \$109.0 million at June 30, 2012 and December 31, 2011, respectively. In addition, substantially all of our municipal bonds have been pledged to the Discount Window of the Federal Reserve Bank of Chicago. Investments in Federal Home Loan Bank stock are restricted and may only be resold or redeemed by the issuer.

**3. LOANS AND ALLOWANCE FOR LOAN LOSSES**

Our total loans at June 30, 2012 were \$1.06 billion compared to \$1.07 billion at December 31, 2011, a decline of \$11.4 million, or 1.1%. The components of our loan portfolio disaggregated by class of loan within the loan portfolio segments at June 30, 2012 and December 31, 2011, and the percentage change in loans from the end of 2011 to the end of the second quarter of 2012, are as follows:

	June 30, 2012		December 31, 2011		Percent Increase (Decrease)
	Balance	%	Balance	%	
<b>Commercial:</b>					
Commercial and industrial	\$ 277,428,000	26.2%	\$ 266,548,000	24.8%	4.1%

**3. LOANS AND ALLOWANCE FOR LOAN LOSSES** (Continued)

Nonperforming loans as of June 30, 2012 and December 31, 2011 were as follows:

	June 30, 2012	December 31, 2011
Loans past due 90 days or more still accruing interest	\$ 0	\$ 0
Nonaccrual loans	28,524,000	45,074,000
<b>Total nonperforming loans</b>	<b>\$ 28,524,000</b>	<b>\$ 45,074,000</b>

As discussed in the Troubled Debt Restructurings section of our Significant Accounting Policies, troubled debt restructurings can be in either accrual or nonaccrual status. Nonaccrual troubled debt restructurings are included in nonperforming loans whereas accruing troubled debt restructurings are generally excluded from nonperforming loans. At June 30, 2012 and December 31, 2011, there were no accruing troubled debt restructurings included in nonperforming loans.

The recorded principal balance of nonaccrual loans, including troubled debt restructurings, if any, was as follows:

	June 30, 2012	December 31, 2011
<b>Commercial:</b>		
Commercial and industrial	\$ 4,371,000	\$ 5,916,000
Vacant land, land development, and residential construction	3,195,000	3,448,000
Real estate owner occupied	3,371,000	6,635,000
Real estate non-owner occupied	13,144,000	24,169,000
Real estate multi-family and residential rental	2,048,000	2,532,000
<b>Total commercial</b>	<b>26,129,000</b>	<b>42,700,000</b>
<b>Retail:</b>		
Home equity and other	894,000	1,013,000
1-4 family mortgages	1,501,000	1,361,000
<b>Total retail</b>	<b>2,395,000</b>	<b>2,374,000</b>

Edgar Filing: MERCANTILE BANK CORP - Form 10-Q
