AVAILABLE INFORMATION

Greenhill & Co., Inc. files current, annual and quarterly reports, proxy statements and other information required by the Securities Exchange Act of 1934, as amended (the Exchange Act), with the United States Securities and Exchange Commission (the SEC). You may read and copy any document the company files at the SEC's public reference room located at 100 F Street, N.E., Washington, D.C. 20549, U.S.A. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. The firm's SEC filings are also available to the public from the SEC's internet site at <http://www.sec.gov>. Copies of these reports, proxy statements and other information can also be inspected at the offices of the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005, U.S.A.

Our public internet site is <http://www.greenhill.com>. We make available free of charge through our internet site, via a link to the SEC's internet site at <http://www.sec.gov>, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and Forms 3, 4 and 5 filed on behalf of directors and executive officers and any amendments to those reports filed or furnished pursuant to the Exchange Act as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. Also posted on our website in the Corporate Governance section, and available in print upon request of any stockholder to our Investor Relations Department, are charters for our Audit Committee, Compensation Committee and Nominating & Corporate Governance Committee, our Corporate Governance Guidelines, Related Party Transaction Policy and Code of Business Conduct & Ethics governing our directors, officers and employees. You may need to have Adobe Acrobat Reader software installed on your computer to view these documents, which are in PDF format.

Greenhill & Co., Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements (unaudited)

Note 1 Organization

Greenhill & Co., Inc., a Delaware corporation, together with its subsidiaries (collectively, the Company), is a leading independent investment bank focused on providing financial advice on significant mergers, acquisitions, restructurings, financings and capital raising to corporations, partnerships, institutions and governments. The Company acts for clients located throughout the world from its offices located in the United States, United Kingdom, Germany, Sweden, Canada, Japan and Australia.

The Company's activities as an investment banking firm constitute a single business segment, with two principal sources of revenue:

Advisory, which includes engagements relating to mergers and acquisitions, financing advisory and restructuring, and private equity and real estate capital advisory services; and

Investments, which includes the Company's principal investments in certain merchant banking funds, Iridium Communications Inc. (Iridium), other investments and interest income.

The Company's wholly-owned subsidiaries that provide advisory services include Greenhill & Co., LLC (G&Co), Greenhill & Co. International LLP (GCI), Greenhill & Co. Europe LLP (GCE), Greenhill & Co. Japan Ltd. (GCJ), Greenhill & Co. Canada Ltd. (GCC), and Greenhill & Co. Australia Pty Limited (Greenhill Australia).

G&Co is engaged in investment banking activities principally in the U.S. G&Co is registered as a broker-dealer with the Securities and Exchange Commission (SEC) and the Financial Industry Regulatory Authority (FINRA), and is licensed in all 50 states and the District of Columbia. G&Co is also registered as a municipal advisor with the SEC and the Municipal Securities Rulemaking Board.

GCI is engaged in investment banking activities in the U.K. and GCE is engaged in investment banking activities in Europe. GCI and GCE are subject to regulation by the U.K. Financial Services Authority (FSA). GCJ and GCC are engaged in investment banking activities in Japan and Canada, respectively. GCJ is registered with the Kanto Local Finance Bureau in Japan and is subject to regulation by the Financial Services Agency in Japan. Greenhill Australia engages in investment banking activities in Australia and New Zealand and is licensed and subject to regulation by the Australian Securities and Investment Commission (ASIC).

Note 2 Summary of Significant Accounting Policies

Basis of Financial Information

These condensed consolidated financial statements are prepared in conformity with accounting principles generally accepted (GAAP) in the United States, which require management to make estimates and assumptions regarding future events that affect the amounts reported in our financial statements and these footnotes, including investment valuations, compensation accruals and other matters. Management believes that the estimates used in preparing its condensed consolidated financial statements are reasonable and prudent. Actual results could differ materially from those estimates. Certain reclassifications have been made to prior year information to conform to current year presentation.

The condensed consolidated financial statements of the Company include all consolidated accounts of Greenhill & Co., Inc. and all other entities in which the Company has a controlling interest after eliminations of all significant inter-company accounts and transactions. In accordance with the accounting pronouncements related to the consolidation of variable interest entities, the Company consolidates the general partners of certain previously sponsored merchant banking funds which it controls. The general partners account for their investments in merchant banking funds under the equity method of accounting. As such, the general partners record their proportionate shares of income (loss) from the underlying merchant banking funds. As the merchant banking funds follow investment company accounting, and generally record all their assets and liabilities at fair value, the general partners' investment in merchant banking funds represents an estimation of fair value. The Company does not consolidate the merchant banking funds since the Company, through its general partner and limited partner interests, does not have a majority of the economic interest in such funds and the limited partners have certain rights to remove the general partner by a simple majority vote of unaffiliated third-party investors. See Note 3 Investments Merchant Banking Funds for further discussion of the merchant banking in which we

Edgar Filing: GREENHILL & CO INC - Form 10-Q

act as general partner.

These condensed consolidated financial statements are unaudited and should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2011 included in the Company's Annual Report on Form 10-K filed with the SEC. The condensed consolidated financial information as of December 31, 2011 has been derived from audited consolidated financial statements not included herein. The results of operations for interim periods are not necessarily indicative of results for the entire year.

Table of Contents

Revenue Recognition

Advisory Revenues

The Company recognizes advisory fee revenue for mergers and acquisitions or financing advisory and restructuring engagements when the services related to the underlying transactions are completed in accordance with the terms of the engagement letter. The Company recognizes private equity and real estate capital advisory fees at the time of the client's acceptance of capital or capital commitments in accordance with the terms of the engagement letter. Retainer fees are recognized as advisory fee revenue over the period in which the related service is rendered.

The Company's clients reimburse certain expenses incurred by the Company in the conduct of advisory engagements. Expenses are reported net of such client reimbursements. Client reimbursements totaled \$1.6 million and \$1.3 million for the three months ended September 30, 2012 and 2011, respectively and \$5.4 million and \$4.4 million for the nine months ended September 30, 2012 and 2011, respectively.

Investment Revenues

Investment revenues consist of (i) gains (or losses) on the Company's investments in certain merchant banking funds, Iridium and other investments, (ii) profit overrides from certain merchant banking funds, if any, and (iii) interest income. See Note 3 Investments Merchant Banking Funds .

The Company recognizes revenue on its investments in merchant banking funds based on its allocable share of realized and unrealized gains (or losses) reported by such funds. The Company recognizes revenue on its other investments, including Iridium, which consider the Company's influence or control of the investee, based on gains and losses on investment positions held, which arise from sales or changes in the fair value of investments. The amount of gains or losses are not predictable and can cause periodic fluctuations in net income and therefore subject the Company to market and credit risk.

If certain financial returns are achieved over the life of a merchant banking fund, the Company may recognize merchant banking profit overrides at the time that certain financial returns are achieved. Profit overrides are generally calculated as a percentage of the profits over a specified threshold earned by each fund on investments managed on behalf of unaffiliated investors except the Company. When applicable, the profit overrides earned by the Company are recognized on an accrual basis throughout the year. In accordance with the relevant guidance, the Company records as revenue the amount that would be due pursuant to the fund agreements at each period end as if the fund agreements were terminated at that date. Profit overrides are generally calculated on a deal-by-deal basis but are subject to investment performance over the life of each merchant banking fund. The Company may be required to repay a portion of the overrides it realized in the event a minimum performance level is not achieved by the fund as a whole (we refer to these potential repayments as "clawbacks"). The Company would be required to establish a reserve for potential clawbacks if it were to determine that the likelihood of a clawback is probable and the amount of the clawback can be reasonably estimated. As of September 30, 2012, the Company believes it is more likely than not that the amount of profit overrides recognized as revenue in prior periods, which relates solely to its interest in GCP I, will be realized and accordingly, the Company has not reserved for any clawback obligations under applicable fund agreements. See Note 3 Investments Merchant Banking Funds for further discussion of the merchant banking revenues recognized.

Cash and Cash Equivalents

The Company's cash and cash equivalents consist of (i) cash held on deposit with financial institutions and (ii) cash equivalents.

At September 30, 2012 and December 31, 2011, the Company had \$38.1 million and \$62.1 million, respectively, of cash and cash equivalents. The Company considers all highly liquid investments with a maturity date of three months or less, when purchased, to be cash equivalents. Cash equivalents primarily consist of money market funds and overnight deposits. At September 30, 2012 and December 31, 2011, the carrying value of the Company's cash equivalents amounted to \$4.4 million and \$2.1 million, respectively, which approximated fair value, and are included in total cash and cash equivalents.

Also included in the total cash and cash equivalents balance at September 30, 2012 and December 31, 2011 was restricted cash of \$7.0 million and \$7.3 million, respectively (including \$2.6 million and \$2.9 million restricted for the payout of the Greenhill Australia deferred compensation plan, respectively). See Note 3 Investments Other Investments .

The Company maintains its cash and cash equivalents with financial institutions with high credit ratings. The Company maintains deposits in federally insured financial institutions in excess of federally insured (FDIC) limits. However, management believes that the Company is not exposed to significant credit risk due to the financial position of the depository institutions in which those deposits are held.

Advisory Fees Receivables

Advisory fees receivables are stated net of an allowance for doubtful accounts. The estimate for the allowance for doubtful accounts is derived by the Company by utilizing past client transaction history and an assessment of the client's creditworthiness.

Table of Contents

Included in the advisory fees receivable balance at September 30, 2012 and December 31, 2011 were \$24.0 million and \$21.3 million, respectively, of long term receivables related to private equity and real estate capital advisory engagements which are generally paid in installments over a period of three years. Interest is charged on long term receivables.

Credit risk related to advisory fees receivable is disbursed across a large number of clients located in various geographic areas.

Investments

The Company's investments in merchant banking funds are recorded under the equity method of accounting based upon the Company's proportionate share of the estimated fair value of the underlying merchant banking fund's net assets. The value of merchant banking fund investments in privately held companies is determined by the general partner of the fund after giving consideration to the cost of the security, the pricing of other sales of securities by the portfolio company, the price of securities of other companies comparable to the portfolio company, purchase multiples paid in other comparable third-party transactions, the original purchase price multiple, market conditions, liquidity, operating results and other qualitative and quantitative factors. Discounts may be applied to the funds' privately held investments to reflect the lack of liquidity and other transfer restrictions. Investments in publicly traded securities are valued using quoted market prices discounted for any legal or contractual restrictions on sale. Because of the inherent uncertainty of valuations as well as the discounts applied, the estimated fair values of investments in privately held companies may differ significantly from the values that would have been used had a ready market for the securities existed. The values at which the Company's investments are carried on its condensed consolidated statements of financial condition are adjusted to estimated fair value at the end of each quarter and the volatility in general economic conditions, stock markets and commodity prices may result in significant changes in the estimated fair value of the investments from period to period.

Goodwill

Goodwill is the cost of acquired companies in excess of the fair value of identifiable net assets at acquisition date. The Company tests its goodwill for impairment at least annually. An impairment loss is triggered if the estimated fair value of an operating unit is less than estimated net book value. Such loss is calculated as the difference between the estimated fair value of goodwill and its carrying value.

Goodwill is translated at the rate of exchange prevailing at the end of the periods presented in accordance with the accounting guidance for foreign currency translation. Any translation gain or loss is included in the foreign currency translation adjustment, which is included as a component of other comprehensive income in the condensed consolidated statements of changes in equity and the condensed consolidated statements of comprehensive income.

Restricted Stock Units

The Company sponsors an equity incentive plan which provides for grants of share-based payment awards. The Company accounts for its share-based compensation payments under which the fair value of restricted stock units granted to employees with future service requirements is recorded as compensation expense and are generally amortized over a three to five-year service period following the date of grant. Compensation expense is determined based upon the fair market value of the Company's common stock at the date of grant. As the Company expenses the stock settled share-based awards, the restricted stock units recognized are recorded within equity. The restricted stock units are reclassified into common stock and additional paid-in capital upon vesting.

In certain jurisdictions, the Company may settle share-based payment awards in cash in lieu of shares of common stock to obtain tax deductibility. In these circumstances, the awards are settled in the cash equivalent value of the Company's shares of common stock based upon their value at settlement date. These cash settled share-based awards are classified as liabilities and are remeasured at fair value at each reporting period.

The Company records as treasury stock the repurchase of stock delivered to its employees in settlement of tax liabilities incurred upon the vesting of restricted stock units. The Company records dividend equivalent payments on restricted stock units as a dividend payment and a charge to equity.

Earnings per Share

The Company calculates basic earnings per share (EPS) by dividing net income allocated to common stockholders by the weighted average number of shares outstanding for the period. The denominator for basic EPS includes the weighted average number of shares deemed issuable due to the vesting of restricted stock units for accounting purposes.

Edgar Filing: GREENHILL & CO INC - Form 10-Q

Diluted EPS includes the determinants of basic EPS plus the dilutive effect of the common stock deliverable pursuant to restricted stock units for which future service is required as a condition to the delivery of the underlying common stock. Under the treasury method, the number of shares issuable upon the vesting of restricted stock units included in the calculation of diluted EPS is the excess, if any, of the number of shares expected to be issued, less the number of shares that could be purchased by the Company with the proceeds to be received upon settlement at the average market closing price during the reporting period.

See Note 7 Earnings per Share for further discussion of the calculation of EPS.

Table of Contents

Provision for Taxes

The Company accounts for taxes in accordance with the accounting guidance for income taxes which requires the recognition of tax benefits or expenses on the temporary differences between the financial reporting and tax bases of its assets and liabilities.

The Company follows the guidance for income taxes in recognizing, measuring, presenting and disclosing in its financial statements uncertain tax positions taken or expected to be taken on its income tax returns. Income tax expense is based on pre-tax accounting income, including adjustments made for the recognition or derecognition related to uncertain tax positions. The recognition or derecognition of income tax expense related to uncertain tax positions is determined under the guidance.

Deferred tax assets and liabilities are recognized for the future tax attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in earnings in the period of change. Management applies the more-likely-than-not criteria when determining tax benefits.

Foreign Currency Translation

Assets and liabilities denominated in foreign currencies have been translated at rates of exchange prevailing at the end of the periods presented in accordance with the accounting guidance for foreign currency translation. Income and expenses transacted in foreign currencies have been translated at average monthly exchange rates during the period. Translation gains and losses are included in the foreign currency translation adjustment which is included as a component of other comprehensive income (loss) in the condensed consolidated statements of changes in equity and the condensed consolidated statements of comprehensive income. Foreign currency transaction gains and losses are included in the condensed consolidated statements of income.

Financial Instruments and Fair Value

The Company accounts for financial instruments measured at fair value in accordance with accounting guidance for fair value measurements and disclosures which establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the pronouncement are described below:

Basis of Fair Value Measurement

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly; and

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. In determining the appropriate levels, the Company performs an analysis of the assets and liabilities that are subject to these disclosures. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs or instruments which trade infrequently and therefore have little or no price transparency are classified as Level 3. Transfers between levels are recognized as of the end of the period in which they occur.

Fair Value of Other Financial Instruments

The Company believes that the carrying values of all other financial instruments presented in the condensed consolidated statements of financial condition approximate their fair value generally due to their short-term nature and generally negligible credit risk. These fair value measurements would be categorized as Level 3 within the fair value hierarchy.

Derivative Instruments

The Company accounts for warrants under the guidance for accounting for derivative instruments and hedging activities. In accordance with that guidance, the Company records warrants at estimated fair value in the condensed consolidated statements of financial condition with changes in estimated fair value during the period recorded in investment revenues in the condensed consolidated statements of income. The Iridium \$11.50 warrants, which were held by the Company prior to their conversion to shares of Iridium common stock in June 2011, were not designated as hedging instruments.

Noncontrolling Interests

The Company records the noncontrolling interests of other consolidated entities as equity in the condensed consolidated statements of financial condition. The portion of the consolidated interests in the general partners of certain merchant banking funds not held by the Company is presented as noncontrolling interest in equity. See Note 3 Investments Merchant Banking Funds .

Table of Contents***Property and Equipment***

Property and equipment is stated at cost less accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the life of the assets. Amortization of leasehold improvements is computed using the straight-line method over the lesser of the life of the asset or the remaining term of the lease. Estimated useful lives of the Company's fixed assets are generally as follows:

Aircraft 7 years

Equipment 5 years

Furniture and fixtures 7 years

Leasehold improvements the lesser of 10 years or the remaining lease term

Note 3 Investments***Merchant Banking Funds***

In June 2011, the Company sold substantially all of its capital interests in Greenhill Capital Partners II (GCP II) and its affiliated funds to certain unaffiliated third parties and certain principals of GCP Capital Partners Holdings LLC (GCP Capital) for an aggregate purchase price of \$44.8 million, which represented the Company's carrying value of such capital interest as of March 31, 2011. The transaction agreement provided that the purchasers have the right, exercisable only in December 2012, to cause the Company to repurchase each of the capital account interests attributable to two specified portfolio companies of GCP II at a specified aggregate price of \$14.3 million, subject to adjustments for distributions or capital calls (the Put Options). In June 2012, the purchasers funded a capital call of \$1.3 million related to one of the specified portfolio companies, increasing in aggregate the Put Option to \$15.6 million. The transfer of the GCP II capital interests, which were not associated with the Put Options, was accounted for as a sale in accordance with accounting guidance for financial asset transfers. The GCP II capital account interests associated with the Put Options did not meet the requirements of sale accounting and therefore have been accounted for as secured borrowings in accordance with accounting guidance for financial asset transfers. In accordance with that guidance, the Company continues to record these capital interests subject to the Put Options as a component of investments in merchant banking funds on the condensed consolidated statements of financial condition and will recognize its proportional share of earnings or loss related to the capital interests subject to the Put Options on the condensed consolidated statements of income. The Company also recorded a corresponding liability for the consideration received, which has been included as a financing liability on the condensed consolidated statements of financial condition. For the nine months ended September 30, 2012, the Company recorded a \$0.7 million loss related to the capital interests subject to the Put Options, which is included in investment revenues on the condensed consolidated statements of income.

Additionally, in 2011, the Company sold all of its capital interests in Greenhill SAV Partners (GSAVP) and its affiliated funds to an unaffiliated third party for a purchase price of \$4.6 million, which represented the Company's carrying value of such capital interests as of March 31, 2011. The transfer of all the capital interests related to GSAVP has been accounted for as a sale in accordance with accounting guidance for financial asset transfers.

Prior to 2011, the Company was the general partner of certain merchant banking funds. In addition to recording its direct investments in the affiliated funds, the Company consolidated each general partner which it controlled. In conjunction with the sale of the merchant banking business effective in 2011, the Company transferred ownership of the general partner of Greenhill Capital Partners Europe (GCP Europe) to GCP Capital. Further, in conjunction with the sale of its capital interests in GSAVP and its affiliated funds in 2011, ownership of the general partner of GSAVP was transferred to an unaffiliated third party. As of September 30, 2012, the Company continues to retain control only of the general partner of Greenhill Capital Partners I (GCP I) and GCP II and consolidates the results of each such general partner.

Investment gains or losses from merchant banking and other investment activities are comprised of investment income, realized and unrealized gains or losses from the Company's investment in merchant banking funds, Iridium and certain other investments, and the consolidated earnings of the general partner in which it has control, offset by allocated expenses of the funds. That portion of the earnings or losses of the general partner which is held by employees and former employees of the Company is recorded as net income allocated to noncontrolling interests.

The Company controls investment decisions for those merchant banking funds where it acts as general partner and is entitled to receive from those funds a portion of the override of the profits realized from investments. The Company recognizes profit overrides related to certain merchant banking funds at the time certain performance hurdles are achieved.

Table of Contents

The carrying value of the Company's investments in merchant banking funds are as follows:

	As of September 30, 2012 (in thousands, unaudited)	As of December 31, 2011 (in thousands, audited)
Investment in GCP Europe	\$ 30,645	\$ 23,951
Investment in GCP II	1,491	1,609
Investment in GCP II subject to Put Options	11,159	10,520
Investment in other merchant banking funds	3,596	3,455
Total investments in merchant banking funds	\$ 46,891	\$ 39,535

The Company's investment in other merchant banking funds are principally comprised of investments in GCP I and Greenhill Capital Partners III (GCP III).

The investment in GCP I included \$0.3 million at both September 30, 2012 and December 31, 2011 related to the noncontrolling interests in the managing general partner of GCP I held directly by the limited partners of its general partner. The investment in GCP II included \$1.1 million at both September 30, 2012 and December 31, 2011 related to the noncontrolling interests in the general partner of GCP II.

Approximately \$0.3 million of the Company's compensation payable related to profit overrides for unrealized gains of GCP I at both September 30, 2012 and December 31, 2011. This amount may increase or decrease depending on the change in the fair value of GCP I, and is payable, subject to clawback, at the time cash proceeds are realized.

At September 30, 2012, the Company had unfunded commitments to merchant banking funds of \$9.7 million, which included unfunded commitments to GCP Europe of \$6.5 million (or £4.1 million) and GCP III of \$3.2 million, which may be drawn through December 2012 and November 2015, respectively. For each of the funds, up to 15% of the commitment amount may be drawn for follow-on investments over the two year period after the expiration of the commitment period. Effective June 2012, the commitment period for follow-on investments for GCP II expired.

Other Investments

The Company has other investments including investments in Iridium, Barrow Street Capital III, LLC (Barrow Street III) and certain deferred compensation plan investments. The Company's other investments are as follows:

	As of September 30, 2012 (in thousands, unaudited)	As of December 31, 2011 (in thousands, audited)
Iridium Common Stock	\$ 43,474	\$ 68,881
Barrow Street III	1,964	2,107
Deferred compensation plan investments	148	2,338
Total other investments	\$ 45,586	\$ 73,326

Iridium

At September 30, 2012, the Company owned 5,939,016 shares of Iridium Common Stock (NASDAQ:IRDM) and had a fully diluted share ownership in Iridium of approximately 8%. At December 31, 2011, the Company owned 8,934,016 shares of Iridium Common Stock and had fully diluted share ownership in Iridium of approximately 12%. The Company's investment in Iridium is accounted for as a trading security as

Edgar Filing: GREENHILL & CO INC - Form 10-Q

the Company does not maintain or exercise significant influence over Iridium. At September 30, 2012 and December 31, 2011, the Company's investment in Iridium was valued at its closing quoted market price.

Barrow Street Capital III

In 2005, the Company committed \$5.0 million to Barrow Street III, a real estate investment fund, of which \$0.1 million remains unfunded at September 30, 2012. The unfunded amount may be called at any time prior to the expiration of the fund in 2013 to preserve or enhance the value of existing investments.

Other Investments

In connection with the acquisition of Greenhill Australia (formerly Caliburn Partnership Pty Ltd) in April 2010 (the Acquisition), the Company assumed amounts due under Caliburn's deferred compensation plan. Under this plan a portion of certain employees' compensation was deferred and invested in cash, or at the election of each respective employee, in certain mutual fund investments. These investments will be distributed to those employees of Greenhill Australia over a period ending in 2016. The

Table of Contents

invested assets relating to this plan have been recorded on the condensed consolidated statement of financial condition as components of both cash and cash equivalents and other investments. The deferred compensation liability relating to the plan has been recorded on the condensed consolidated statement of financial condition as a component of compensation payable. Subsequent to the Acquisition, the Company discontinued future participation in the plan.

Investment revenues

The Company's investment revenues, by source, are as follows:

	For the Three Months Ended September 30, 2012		For the Nine Months Ended September 30, 2012	
	2011	2011	2011	2011
	(in thousands, unaudited)			
Net realized and unrealized gains on investments in merchant banking funds	\$ 161	\$ 126	\$ 1,253	\$ 940
Net realized and unrealized loss on investment in Iridium	(10,826)	(23,573)	(1,153)	(20,103)
Deferred gain on sale of certain merchant banking assets	65	203	195	608
Interest income	590	401	1,299	786
Total investment revenues	\$ (10,010)	\$ (22,843)	\$ 1,594	\$ (17,796)

Fair Value Hierarchy

The following tables set forth, by level, the assets and liabilities measured at fair value on a recurring basis. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. There were no transfers between Level 1 and Level 2 investments in the fair value measurement hierarchy during the three and nine month periods ended September 30, 2012 and 2011.

Assets Measured at Fair Value on a Recurring Basis as of September 30, 2012

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of September 30, 2012
	(in thousands, unaudited)			
Assets				
Iridium Common Stock	\$ 43,474	\$	\$	\$ 43,474
Deferred compensation plan investments		148		148
Total investments	\$ 43,474	\$ 148	\$	\$ 43,622

Assets Measured at Fair Value on a Recurring Basis as of December 31, 2011

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance as of December 31, 2011
--	--	--	--	---------------------------------------

Edgar Filing: GREENHILL & CO INC - Form 10-Q

(in thousands, audited)				
Assets				
Iridium Common Stock	\$ 68,881	\$	\$	\$ 68,881
Deferred compensation plan investments			2,338	2,338
 Total investments	 \$ 68,881	 \$	 2,338	 \$
				 \$ 71,219

Level 3 Gains and Losses

The Company did not hold any Level 3 investments during the three and nine month periods ended September 30, 2012.

Prior to June 2011, in addition to shares of Iridium Common Stock, the Company also owned warrants to purchase 4,000,000 additional shares of Iridium Common Stock at \$11.50 per share (Iridium \$11.50 Warrants). Effective June 22, 2011, the Company participated in Iridium s tender offer to exchange the Iridium \$11.50 Warrants, which permitted any holder of such warrants to receive one common share of Iridium Common Stock for every 4.55 warrants tendered. The Company tendered 4,000,000 Iridium \$11.50 Warrants in exchange for 880,000 shares of Iridium Common Stock. The Iridium \$11.50 Warrants were historically valued using an internally developed model and classified as a Level 3 investment. Upon exchange, the shares were valued using quoted market prices and classified as a Level 1 investment. Accordingly, the Company did not hold any Level 3 investments during the three months ended September 30, 2011.

Table of Contents

The following table sets forth a summary of changes in the fair value of the Company's Level 3 investments for the nine months ended September 30, 2011.

	Beginning Balance January 1, 2011	Realized Gains or (Losses)	Unrealized Gains or (Losses) (in thousands, unaudited)	Purchases, Sales, Other Settlements and Issuances, net	Net Transfers in and/or out of Level 3	Ending Balance September 30, 2011
Assets						
Iridium \$11.50 Warrants	\$ 7,280	\$	\$ 680	\$	\$ (7,960)	\$
Total Level 3 investments	\$ 7,280	\$	\$ 680	\$	\$ (7,960)	\$

Note 4 Related Parties

In conjunction with the sale of certain assets of the merchant banking business, the Company agreed to sublease office space to GCP Capital for a period of three to five years beginning in April 2011. The Company also subleases airplane and office space to a firm owned by the Chairman of the Company. The Company recognized rent reimbursements of \$0.4 million for both of the three month periods ending September 30, 2012 and 2011, and \$1.2 million and \$1.1 million for the nine months ended September 30, 2012 and 2011, respectively. The reimbursed amounts were recorded as a reduction of occupancy and equipment rental expense on the condensed consolidated statements of income.

Note 5 Revolving Bank Loan Facility

At September 30, 2012, the Company had a \$45.0 million revolving loan facility from a U.S. banking institution to provide for working capital needs and for other general corporate purposes. The revolving loan facility was reduced from \$50.0 million at December 31, 2011 to \$45.0 million effective May 1, 2012 and has a maturity date of April 30, 2013. The revolving loan facility is secured by any cash distributed in respect of the Company's investment in the U.S. based merchant banking funds and by cash distributed from G&Co. Interest on borrowings is based on the higher of the Prime Rate or 3.25% and is payable monthly. In addition, the revolving loan facility has a prohibition on the incurrence of additional indebtedness without the prior approval of the lender and the Company is required to comply with certain financial and liquidity covenants. The weighted average daily borrowings outstanding under the loan facility were approximately \$27.3 million and \$51.2 million for the nine months ended September 30, 2012 and 2011, respectively. The weighted average interest rate was 3.6% and 4.0% for the nine months ended September 30, 2012 and 2011, respectively. At September 30, 2012, the Company was compliant with all loan covenants.

Note 6 Equity

On September 17, 2012, a dividend of \$0.45 per share was paid to stockholders of record on September 5, 2012. During the nine months ended September 30, 2012 and 2011, dividend equivalents of \$4.2 million and \$3.8 million, respectively, were paid on the restricted stock units.

During the nine months ended September 30, 2012, 456,013 restricted stock units vested and were issued as common stock, of which the Company is deemed to have repurchased 176,781 shares at an average price of \$45.21 per share in conjunction with the payment of tax liabilities in respect of stock delivered to its employees in settlement of restricted stock units. In addition, during the nine months ended September 30, 2012, the Company repurchased in open market transactions 859,006 shares of its common stock at an average price of \$37.84 per share.

During the nine months ended September 30, 2011, 641,635 restricted stock units vested and were issued as common stock of which the Company is deemed to have repurchased 279,290 shares at an average price of \$67.67 per share in conjunction with the payment of tax liabilities in respect of stock delivered to its employees in settlement of restricted stock units. In addition, during the nine months ended September 30, 2011, the Company repurchased in open market transactions 809,817 shares of its common stock at an average price of \$45.34 per share.

Note 7 Earnings per Share

The computations of basic and diluted earnings per share are set forth below:

Edgar Filing: GREENHILL & CO INC - Form 10-Q

	For the Three Months Ended September 30, 2012		For the Nine Months Ended September 30, 2012	
	2012	2011	2012	2011
(in thousands, except per share amounts, unaudited)				
Numerator for basic and diluted EPS net income allocated to common stockholders	\$ 8,589	\$ 8,564	\$ 26,965	\$ 28,466
Denominator for basic EPS weighted average number of shares	30,252	30,693	30,611	31,064
Add dilutive effect of:				
Weighted average number of incremental shares issuable from restricted stock units	8		8	1
Denominator for diluted EPS weighted average number of shares and dilutive potential shares	30,260	30,693	30,619	31,065
Earnings per share:				
Basic	\$ 0.28	\$ 0.28	\$ 0.88	\$ 0.92
Diluted	\$ 0.28	\$ 0.28	\$ 0.88	\$ 0.92

Table of Contents

The weighted number of shares and dilutive potential shares do not include the contingent convertible preferred shares issued to the founding partners of Caliburn Partnership Pty Limited. Such shares will potentially convert to shares of the Company's common stock in tranches of 659,926 and 439,951 shares on the third and fifth anniversary of the closing of the Acquisition, respectively, if certain revenue targets are achieved. At the time a revenue target is achieved such shares will be included in the Company's share count. If the revenue targets for a tranche are not achieved, the contingent convertible preferred shares in that tranche will be cancelled.

Note 8 Income Taxes

The Company's effective tax rate will vary depending on the source of the income. Investment and certain foreign sourced income are taxed at a lower effective rate than U.S. trade or business income. The Company's effective tax rate for the nine months ended September 30, 2012 was 36%.

Based on the Company's historical taxable income and its expectation for taxable income in the future, management expects that the deferred tax asset, which relates principally to compensation expense deducted for book purposes but not yet deducted for tax purposes, will be realized as offsets to: (i) the realization of its deferred tax liabilities and (ii) future taxable income.

Any gain or loss resulting from the translation of deferred taxes for foreign affiliates is included in the foreign currency translation adjustment incorporated as a component of other comprehensive income, net of tax, in the condensed consolidated statements of changes in equity and the condensed consolidated statements of comprehensive income.

The Company's income tax returns are routinely examined by the U.S. federal, U.S. state, and international tax authorities. The Company regularly assesses its tax positions with respect to applicable income tax issues for open tax years in each respective jurisdiction in which the Company operates. As of September 30, 2012, the Company does not believe the resolution of any current ongoing income tax examinations will have a material adverse impact on the financial position of the Company.

Included in accounts payable and accrued expenses in the condensed consolidated statements of financial condition are current income taxes payable of \$9.9 million as of September 30, 2012 and \$7.9 million as of December 31, 2011.

Note 9 Regulatory Requirements

Certain subsidiaries of the Company are subject to various regulatory requirements in the United States, the United Kingdom and Australia, which specify, among other requirements, minimum net capital requirements for registered broker-dealers. G&Co is subject to the SEC's Uniform Net Capital requirements under Rule 15c3-1 (the Rule), which specifies, among other requirements, minimum net capital requirements for registered broker-dealers. The Rule requires G&Co to maintain minimum net capital of the greater of \$5,000 or 1/15 of aggregate indebtedness, as defined in the Rule. As of September 30, 2012, G&Co's net capital was \$3.2 million, which exceeded its requirement by \$2.9 million. G&Co's aggregate indebtedness to net capital ratio was 1.4 to 1 at September 30, 2012. Certain distributions and other capital withdrawals of G&Co are subject to certain notifications and restrictive provisions of the Rule.

GCI and GCE are subject to capital requirements of the FSA. Greenhill Australia is subject to capital requirements of the ASIC. As of September 30, 2012, GCI, GCE and Greenhill Australia were in compliance with local capital adequacy requirements.

Note 10 Business Information

The Company's activities as an investment banking firm constitute a single business segment, with two principal sources of revenue:

Advisory, which includes engagements relating to mergers and acquisitions, financing advisory and restructuring, and private equity and real estate capital advisory services; and

Investment, which includes the Company's principal investments in merchant banking funds, Iridium and other investments and interest.

Table of Contents

The following provides a breakdown of our revenues by source for the three and nine month periods ended September 30, 2012 and 2011, respectively:

	For the Three Months Ended			
	September 30, 2012		September 30, 2011	
	Amount	% of Total (in millions, unaudited)	Amount	% of Total
Advisory revenues	\$ 72.7	116%	\$ 83.2	138%
Investment revenues	(10.0)	(16)%	(22.8)	(38)%
Total revenues	\$ 62.7	100%	\$ 60.4	100%

	For the Nine Months Ended			
	September 30, 2012		September 30, 2011	
	Amount	% of Total (in millions, unaudited)	Amount	% of Total
Advisory revenues	\$ 191.2	99%	\$ 217.3	109%
Investment revenues	1.6	1%	(17.8)	(9)%
Total revenues	\$ 192.8	100%	\$ 199.5	100%

In reporting to management, the Company distinguishes the sources of its revenues between advisory and investment activities. However, management does not evaluate other financial data or operating results such as operating expenses, profit and loss or assets by its advisory and investment activities.

Note 11 Subsequent Events

On October 17, 2012, the Board of Directors of the Company declared a quarterly dividend of \$0.45 per share. The dividend will be payable on December 19, 2012 to the common stockholders of record on December 5, 2012.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

In this Management's Discussion and Analysis of Financial Condition and Results of Operations, we, our, firm and us refer to Greenhill & Co., Inc.

This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 and subsequent Forms 8-K.

Cautionary Statement Concerning Forward-Looking Statements

The following discussion should be read in conjunction with our condensed consolidated financial statements and the related notes that appear elsewhere in this report. We have made statements in this discussion that are forward-looking statements. In some cases, you can identify these statements by forward-looking words such as may, might, will, should, expect, plan, anticipate, believe, estimate, intend, predict, potential or continue, the negative of these terms and other comparable terminology. These forward-looking statements, which are subject to risks, uncertainties and assumptions about us, may include projections of our future financial performance, based on our growth strategies and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements. In particular, you should consider the numerous risks outlined under Risk Factors in our 2011 Annual Report on Form 10-K.

Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance or achievements. Moreover, neither we nor any other person assumes responsibility for the accuracy or completeness of any of these forward-looking statements. You should not rely upon forward-looking statements as predictions of future events. Overview

Greenhill is a leading independent investment bank focused on providing financial advice related to significant mergers, acquisitions, restructurings, financings and capital raisings to corporations, partnerships, institutions and governments. We act for clients located throughout the world from our offices in the United States, United Kingdom, Germany, Sweden, Canada, Japan and Australia.

Table of Contents

Our revenues are principally derived from providing advisory services on mergers and acquisitions, or M&A, financings and restructurings, and are primarily driven by total deal volume and size of individual transactions. Additionally, our private capital and real estate capital advisory group provide fund placement and other capital raising advisory services, where revenues are driven primarily by the amount of capital raised.

Greenhill was established in 1996 by Robert F. Greenhill, the former President of Morgan Stanley and former Chairman and Chief Executive Officer of Smith Barney. Since our founding, Greenhill has grown steadily, recruiting a number of managing directors from major investment banks (as well as senior professionals from other institutions), with a range of geographic, industry and transaction specialties as well as different sets of corporate management and other relationships. As part of this expansion, we opened a London office in 1998, opened a Frankfurt office in 2000 and began offering financial restructuring advice in 2001. On May 11, 2004, we completed an initial public offering of our common stock. We opened our Dallas office in 2005 and our Toronto office in 2006. In 2008, we opened offices in Chicago, San Francisco and Tokyo, and we entered the private capital advisory business, which provides capital raising and related services to private equity and real estate funds. We opened our Houston and Los Angeles offices in 2009. In 2010, we acquired the Australian advisory firm Caliburn. In May 2012, we opened our Stockholm office.

Prior to 2011, we also managed merchant banking funds and similar vehicles. We raised our first private equity fund in 2000, our first venture capital fund in 2006 and our first European merchant banking fund in 2007. We completed the initial public offering of our special purpose acquisition company, GH Acquisition Corp., in 2008, and that entity merged with Iridium Communications, Inc. (Iridium) in 2009. Effective December 31, 2010, we exited the merchant banking business in order to focus entirely on our advisory business. In 2011, we also began the liquidation of a substantial portion of our principal investments in our merchant banking funds and Iridium. During 2011, we sold substantially all of our interest in two previously sponsored merchant banking funds (Greenhill Capital Partners II (GCP II) and Greenhill SAV Partners (GSAVP)) for \$49.4 million, which represented the book value of the investments. In October 2011, we initiated a plan to sell our entire interest in Iridium systematically over a period of two or more years. As of September 30, 2012, we have sold approximately 39% of our holdings of Iridium and realized proceeds of \$30.7 million since we initiated our plan of sale. As of September 30, 2012 our investments principally consisted of our investments in Iridium and our previously sponsored European merchant banking fund.

Business Environment

Economic and global financial market conditions can materially affect our financial performance. See Risk Factors in our 2011 Annual Report on Form 10-K filed with the Securities and Exchange Commission. Revenues and net income in any period may not be indicative of full year results or the results of any other period and may vary significantly from year to year and quarter to quarter.

Advisory revenues were \$72.7 million in the third quarter of 2012 compared to \$83.2 million in the third quarter of 2011, a decrease of 13%. For the nine months ended September 30, 2012 advisory revenues were \$191.2 million compared to \$217.3 million for the comparable period in 2011, representing a decrease of 12%. During the same nine month periods, global completed M&A volume decreased by 26% from \$1,899 billion in 2011 to \$1,401 billion in 2012.⁽¹⁾ Within our business, through the third quarter of 2012 our North American advisory business has been our strongest revenue performer in 2012, with Europe beginning to show some improvement, while activity in Australia has declined from last year's strong pace consistent with general market activity in that region. In terms of type of advice, financing and restructuring advisory work has been a strong contributor alongside M&A, while our capital advisory (fund placement) business is slightly down versus last year as it is still being negatively impacted by continued market volatility and uncertainty.

We often experience significant variations in revenues and profits during each quarterly period. These variations can generally be attributed to the fact that our revenues are usually earned in large amounts throughout the year upon the successful completion of a transaction or restructuring or closing of a fund, the timing of which is uncertain and is outside of our control. Moreover, the value of our principal investments may vary significantly from period to period and depends on a number of factors beyond our control, including most notably public equity and credit markets and general economic conditions. As a result, our quarterly results vary and our results in one period may not be indicative of our results in any future period.

Results of Operations

Summary

Our revenues of \$62.7 million for the third quarter of 2012 compare with revenues of \$60.4 million for the third quarter of 2011, which represents an increase of \$2.3 million, or 4%. Advisory revenues of \$72.7 million for the third quarter of 2012 compare to \$83.2 million in the third quarter of 2011. Investment revenues of negative \$10.0 million for the third quarter of 2012 compare to negative \$22.8 million in the third quarter of 2011, with the difference due primarily to the size of mark-to-market losses from our investment in Iridium Communications Inc. (Iridium) (IRDM NASDAQ) in each period.

- ⁽¹⁾ Global M&A completed transaction volume for the nine months ended September 30, 2012 as compared to the nine months ended September 30, 2011. Source: Thomson Financial as of October 15, 2012.

Table of Contents

On a year-to-date basis total revenues were \$192.8 million compared to \$199.5 million for the comparable period in 2011, a decline of 3%. Advisory revenues for the nine months ended September 30, 2012 were \$191.2 million compared to \$217.3 million over the same year-to-date period in 2011. Investment revenues for the nine months ended September 30, 2012 were \$1.6 million compared to negative \$17.8 million for the same period in the prior year. The decrease in our year-to-date revenues as compared to the same period in 2011 resulted from a decrease in advisory revenues of \$26.1 million offset, in part, by an increase in investment revenues of \$19.4 million.

Our third quarter 2012 net income allocable to common stockholders of \$8.6 million and diluted earnings per share of \$0.28 remained the same as net income allocable to common stockholders of \$8.6 million and diluted earnings per share of \$0.28 in the third quarter of 2011. On a year-to-date basis, net income allocable to common stockholders was \$27.0 million through September 30, 2012 compared to \$28.5 million for the comparable period in 2011. Diluted earnings per share for the nine months ended September 30, 2012 were \$0.88 compared to \$0.92 for the same period in 2011.

Our quarterly revenues and net income can fluctuate materially depending on the number and size of completed transactions on which we advised, the size of investment gains (or losses), and other factors. Accordingly, the revenues and net income in any particular period may not be indicative of future results.

Revenues By Source

The following provides a breakdown of total revenues by source for the three and nine month periods ended September 30, 2012 and 2011, respectively:

Revenue by Principal Source of Revenue

	For the Three Months Ended			
	September 30, 2012		September 30, 2011	
	Amount	% of Total	Amount	% of Total
	(in millions, unaudited)			
Advisory revenues	\$ 72.7	116%	\$ 83.2	138%
Investment revenues	(10.0)	(16)%	(22.8)	(38)%
Total revenues	\$ 62.7	100%	\$ 60.4	100%

	For the Nine Months Ended			
	September 30, 2012		September 30, 2011	
	Amount	% of Total	Amount	% of Total
	(in millions, unaudited)			
Advisory revenues	\$ 191.2	99%	\$ 217.3	109%
Investment revenues	1.6	1%	(17.8)	(9)%
Total revenues	\$ 192.8	100%	\$ 199.5	100%

Advisory Revenues

Advisory revenues primarily consist of financial advisory and transaction related fees earned in connection with advising clients in mergers, acquisitions, financings, restructurings, capital raisings or similar transactions. We earned \$72.7 million in advisory revenues in the third quarter of 2012 compared to \$83.2 million in the third quarter of 2011, which represents a decrease of 13%. The decrease in advisory revenues in the third quarter of 2012 as compared to the same period in 2011 resulted primarily from a decrease in the fees earned from completed assignments, offset in part by an increase in announcement and opinion fees as well as an increase in retainer revenue from strategic advisory assignments.

Edgar Filing: GREENHILL & CO INC - Form 10-Q

For the nine months ended September 30, 2012, advisory revenues were \$191.2 million compared to \$217.3 million for comparable period in 2011, representing a decrease of 12%. This decrease principally resulted from a decline in the number and scale of completed assignments, offset in part by an increase in announcement and opinion fees. During the nine months ended September 30, 2012 we earned advisory revenues from 131 different clients as compared to 134 different clients for the same period in 2011. We earned \$1 million or more from 50 clients for the period ended September 30, 2012 as compared to 51 clients for the same period in 2011.

Table of Contents

Completed assignments in the third quarter of 2012 included:

The representation of the Supervisory Board of ASML Holding NV on the establishment of a Customer Co-Investment Program;

the sale of Daily Mail and General Trust plc's remaining 50 percent interest in DMG Radio Australia to Illyria Pty Ltd.;

the acquisition by Hancock Timber Resource Group of timberlands from Forest Capital Partners;

the representation of Inergy, L.P. on the sale of its retail propane assets to Suburban Propane Partners, L.P.;

the representation of Journal Communications, Inc. on the repurchase of all of the outstanding shares of its Class C common stock;

the representation of the Special Committee of the board of Kinder Morgan Energy Partners L.P. on the acquisition of Tennessee Gas Pipeline and a 50% interest in El Paso Natural Gas Pipeline;

the acquisition by Lion Pty Ltd of Little World Beverages Limited;

the acquisition of Merlin Securities LLC by Wells Fargo & Company; and

the acquisition by Sykes Enterprises, Inc. of Alpine Access Inc.

During the third quarter of 2012, our capital advisory group served as global placement agent on behalf of private equity and real estate funds for two interim closings of the sale of limited partnership interests in such funds.

Investment Revenues

In 2009, we announced our exit from the merchant banking business, and since then we have been in the process of seeking to realize value from our remaining principal investments. For 2012 and 2011, our investment revenues consisted principally of investment gains and losses from our investments in Iridium and certain previously sponsored merchant banking funds.

In the third quarter of 2012, we recorded investment revenues of negative \$10.0 million compared to negative \$22.8 million in the third quarter of 2011. During the third quarters of 2012 and 2011, the quoted market value of our investment in Iridium declined significantly from the market price at the beginning of each period, which resulted in the recording of investment losses of \$10.8 million and \$23.6 million in the third quarter of 2012 and 2011, respectively.

For the nine months ended September 30, 2012, we recorded investment revenues of \$1.6 million compared to negative \$17.8 million for the nine months ended September 30, 2011. The increase in investment revenues in 2012 resulted primarily from a smaller decline in the market value of our investment in Iridium for the nine months ended September 30, 2012 as compared to the same period in the prior year.

The following table sets forth additional information relating to our investment revenues:

Edgar Filing: GREENHILL & CO INC - Form 10-Q

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2012	2011	2012	2011
	(in millions, unaudited)			
Net realized and unrealized gains on investments in merchant banking funds	\$ 0.1	\$ 0.2	\$ 1.3	\$ 0.9
Deferred gain on sale of certain merchant banking assets	0.1	0.2	0.2	0.6
Net realized and unrealized loss on investment in Iridium	(10.8)	(23.6)	(1.2)	(20.1)
Interest income	0.6	0.4	1.3	0.8
Total investment revenues	\$ (10.0)	\$ (22.8)	\$ 1.6	\$ (17.8)

Table of Contents

We recognize gains or losses from our investment in Iridium based on the fair market value of our investment as of the end of any period. At September 30, 2012 we owned 5,939,016 shares of Iridium common stock, or approximately 8% on a fully diluted basis. At September 30, 2011, we owned 9,804,016 shares of Iridium common stock, or approximately 13% of Iridium's common stock on a fully diluted basis, including 880,000 shares of Iridium common stock exchanged in June 2011 for 4,000,000 of Iridium's \$11.50 warrants.

At September 30, 2012, we had principal investments of \$92.5 million, including our investments in Iridium of \$43.5 million and in the merchant banking funds of \$49.0 million, which includes \$11.1 million of value that has been transferred to third parties subject to put options. As part of our plan to sell our entire interest in Iridium over time, during the third quarter of 2012, we sold 1,000,000 shares of Iridium at an average price per share of \$8.24 for proceeds of \$8.2 million. During the first nine months of 2012, we sold 2,995,000 shares of Iridium at an average price per share of \$8.32 for proceeds of \$24.9 million.

Under the terms of the sale of GCP II, the purchasers have the right, exercisable only in December 2012, to cause us to repurchase their interests in either or both of two specified portfolio companies subject to put options for values of \$9.5 million and \$6.1 million, respectively. At September 30, 2012 the portfolio company with the put options of \$9.5 million had an estimated fair value of \$3.9 million, or \$5.6 million less than the value of the put options. The portfolio company with the put options of \$6.1 million had an estimated fair value of \$7.3 million at September 30, 2012, or \$1.2 million greater than the value of the put options. If the put options with respect to both portfolio companies are exercised in December 2012 there will be no impact to the results of operations other than the fourth quarter 2012 market-to-market valuation adjustments. If the purchasers do not exercise the put option for the portfolio company which has a fair market value in excess of the value of the put options, we will record an investment loss of \$1.2 million in the fourth quarter of 2012. See Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources.

Significant changes in the estimated fair value of our investments may have a material effect, positive or negative, on our revenues and thus our results of operations. See Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies and Estimates - Revenue Recognition - Investment Revenues .

The investment gains (or losses) from our investment in Iridium and our investments in our previously sponsored merchant banking funds may fluctuate significantly over time due to factors beyond our control, such as performance of each company in our merchant banking portfolio, equity market valuations, and merger and acquisition opportunities. Revenues recognized from gains (or losses) recorded in any particular period are not necessarily indicative of revenues that may be realized and/or recognized in future periods.

Table of Contents**Operating Expenses**

We classify operating expenses in two categories: employee compensation and benefits expenses and non-compensation expenses.

Our total operating expenses for the third quarter of 2012 were \$48.8 million, which compared to \$47.3 million of total operating expenses for the third quarter of 2011. This represents an increase in total operating expenses of \$1.5 million, or 3%, and resulted principally from an increase in our compensation expense offset by a decrease in our non-compensation costs as described in more detail below. The pre-tax income margin for the third quarters of 2012 and 2011 was 22%.

For the nine months ended September 30, 2012, total operating expenses were \$150.4 million, compared to \$155.9 million of total operating expenses for the same period in 2011. The decrease of \$5.5 million, or 4%, relates principally to a decrease in our compensation expense, as described in more detail below. The pre-tax income margin for the nine months ending September 30, 2012 and 2011 was 22%.

The following table sets forth information relating to our operating expenses, which are reported net of reimbursements of certain expenses by our clients:

	For the Three Months Ended		For the Nine Months Ended	
	September 30, 2012	September 30, 2011	September 30, 2012	September 30, 2011
	(in millions, unaudited)			
Employee compensation & benefits expenses	\$ 33.3	\$ 30.4	\$ 102.9	\$ 108.4
<i>% of revenues</i>	53%	50%	53%	54%
Non-compensation expenses	15.5	16.9	47.5	47.5
<i>% of revenues</i>	25%	28%	25%	24%
Total operating expenses	48.8	47.3	150.4	155.9
<i>% of revenues</i>	78%	78%	78%	78%
Total income before tax	14.0	13.0	42.3	43.6
<i>% of revenues</i>	22%	22%	22%	22%
Compensation and Benefits Expenses				

Our employee compensation and benefits expenses in the third quarter of 2012 were \$33.3 million, which reflects a 53% ratio of compensation to revenues. This amount compared to \$30.4 million for the third quarter of 2011, which reflected a 50% ratio of compensation to revenues. The increase of \$2.9 million, or 10%, resulted principally from a lower charge for the amortization of restricted stock units in the third quarter of 2011 due to the departure of certain employees. The increase in the ratio of compensation to revenues in the third quarter of 2012 as compared to the same period in 2011 resulted from higher compensation costs spread over slightly higher revenues.

For the nine months ended September 30, 2012, our employee compensation and benefits expenses were \$102.9 million compared to \$108.4 million of compensation and benefits expenses for the same period in the prior year. The decrease of \$5.5 million, or 5%, principally resulted from a lower year-end cash bonus accrual in the first nine months of 2012 as compared to the same period in 2011. On a year-to-date basis, the ratio of compensation expense to revenues was 53% as compared to 54% for the same nine month period in 2011. The slight decrease in the ratio of compensation to revenues for the nine months ended September 30, 2012 as compared to the comparable period in 2011 resulted from lower compensation expense spread over lower revenues.

Our compensation costs consist of (i) base salary and benefits, (ii) annual incentive compensation payable as cash bonus awards and (iii) amortization of long-term incentive compensation awards of restricted stock units, the majority of which are charged to compensation expense over five years from the date of issuance. Based upon our headcount at September 30, 2012, which has increased approximately 5% in 2012, we expect our annual 2012 fixed compensation cost, which is the sum of base salaries and benefits and the amortization of previously issued restricted stock units, will be approximately \$131.0 million. This will represent a slight increase over our annual fixed compensation cost of approximately \$127.0 million for 2011. Our fixed compensation cost may vary period to period based on such factors as headcount, changes in charges for the amortization of restricted stock units and other related matters. The ratio of compensation to revenues for the year ended December 31, 2012 will be largely dependent upon the amount of transaction activity and related revenues we generate in the final quarter of this year. While it continues to be our objective to return towards a ratio of compensation to revenues of no greater than 50%, we will balance that goal with our objectives of retaining our core personnel and compensating our employees competitively in order to maintain our strong franchise, and of continuing to expand our industry expertise and geographic reach.

Edgar Filing: GREENHILL & CO INC - Form 10-Q

Our compensation expense is generally based upon revenue and can fluctuate materially in any particular period depending upon the changes in headcount, amount of revenues recognized, as well as other factors. Accordingly, the amount of compensation expense recognized in any particular period may not be indicative of compensation expense in a future period.

Table of Contents

Non-Compensation Expenses

Our non-compensation expenses include the costs for occupancy and equipment rental, communications, information services, professional fees, recruiting, travel and entertainment, insurance, depreciation and amortization, interest expense and other operating expenses. Reimbursed client expenses are netted against non-compensation expenses.

Our non-compensation expenses were \$15.5 million in the third quarter of 2012 compared to \$16.9 million in the third quarter of 2011, reflecting a decrease of \$1.4 million, or 8%. The decrease in non-compensation expenses principally resulted from lower travel costs and general operating expenses.

For the first nine months of 2012 and 2011, our non-compensation expenses remained constant at \$47.5 million. For the year-to-date period in 2012 as compared to the same period in 2011, increases in general other operating costs were offset by lower borrowing costs.

Non-compensation expenses as a percentage of revenues for the three months ended September 30, 2012 and 2011 were 25% and 28%, respectively. The decrease in non-compensation expenses as a percentage of revenues resulted from lower costs spread over slightly higher revenues in the third quarter of 2012 as compared to the same period in 2011. Non-compensation expenses as a percentage of revenues in the nine months ended September 30, 2012 were 25% compared to 24% for the same period in the prior year. This increase in non-compensation expense as a percentage of revenues resulted from comparable absolute costs for both periods spread over lower revenues in the nine months ended September 30, 2012 as compared to the same period in 2011.

Our non-compensation expenses as a percentage of revenues can vary as a result of a variety of factors including fluctuation in revenue amounts, changes in headcount, the amount of recruiting and business development activity, the amount of office expansion, the amount of reimbursement of engagement-related expenses by clients, the amount of short-term borrowings, interest rate and currency movements and other factors. Accordingly, the non-compensation expenses as a percentage of revenues in any particular period may not be indicative of the non-compensation expenses as a percentage of revenues in future periods.

Provision for Income Taxes

The provision for income taxes during the third quarter of 2012 was \$5.4 million, which reflects an effective rate of 39%. This compared to an income tax expense in the third quarter of 2011 of \$4.4 million, which reflected an effective tax rate of 34% for the period. The increase in the provision for income taxes in the third quarter of 2012 as compared to the same period in 2011 resulted from both higher pre-tax income allocated to common shareholders and a higher effective tax rate, which primarily was due to a greater proportion of earnings being earned in higher tax rate jurisdictions.

For the nine months ended September 30, 2012, the provision for income taxes was \$15.3 million, which reflected an effective tax rate of 36%. This compared to a provision for income taxes for the nine months ended September 30, 2011 of \$15.1 million, which reflected an effective tax rate of 35% for the period. The increase in the provision for income taxes in the nine months ended September 30, 2012 as compared to the same period in 2011 resulted primarily from a higher effective tax rate due to a greater proportion of earnings being generated in higher tax rate jurisdictions applied to lower pre-tax income in the period ended September 30, 2012.

The effective tax rate can fluctuate as a result of variations in the relative amounts of advisory and investment income earned and the tax rate imposed in the tax jurisdictions in which we operate and invest. Accordingly, the effective tax rate in any particular period may not be indicative of the effective tax rate in future periods.

Liquidity and Capital Resources

Our liquidity position is monitored by our Management Committee, which generally meets monthly. The Management Committee monitors cash, other significant working capital assets and liabilities, debt, principal investment commitments and other matters relating to liquidity requirements. We evaluate our liquid cash operating position on a regular basis in light of current market conditions. At September 30, 2012, we had cash and cash equivalents on hand of \$38.1 million, of which \$27.0 million were held outside the U.S.

We generate cash from our operating activities principally in the form of advisory fees and our investment activities in the form of proceeds from sales of and distributions from our investments. We use our cash primarily for recurring operating expenses and the payment of dividends and non-recurring disbursements such as the repurchase of shares of our common stock, the funding of our commitments to the merchant banking funds and leasehold improvements. Our recurring monthly operating disbursements principally consist of base compensation expense, occupancy, travel and entertainment, and other operating expenses. Our recurring quarterly and annual disbursements consist of cash bonus

Edgar Filing: GREENHILL & CO INC - Form 10-Q

payments, tax payments, dividend payments, and repurchases of our common stock from our employees in conjunction with the payment of tax liabilities incurred on vesting of restricted stock units. These amounts vary depending upon our profitability and other factors.

Because a portion of the compensation we pay to our employees is distributed in annual bonus awards (usually in February of each year), our net cash balance is typically at its lowest level during the first quarter of each year and generally accumulates from our operating activities throughout the remainder of the year. In general, we collect our accounts receivable within 60 days except for fees generated through our private equity and real estate capital advisory services, which are generally paid in installments over a period of three years, and certain restructuring transactions, where collections may take longer due to court-ordered holdbacks. At September 30, 2012, we had long-term receivables of \$24.0 million. As cash accumulates, it is retained in financial institutions with high credit ratings and/or invested in short-term investments which are expected to provide significant liquidity.

Table of Contents

Our current liabilities typically consist of accounts payable, which are generally paid monthly, accrued compensation, which includes accrued cash bonuses that are generally paid in the first quarter of the following year to the large majority of our employees, and taxes payable. In February 2012, cash bonuses and accrued benefits of \$27.5 million relating to 2011 compensation were paid to our employees. In addition, in 2012 we paid \$8.9 million related to income taxes owed in the United States and Australia for the year ended December 31, 2011.

To provide for working capital needs and other general corporate purposes in the United States, we have a \$45.0 million revolving bank loan facility which matures on April 30, 2013. Historically, we extend the maturity date of the revolving loan facility for a one year period shortly before maturity. In conjunction with the annual renewal of the revolving bank loan in April 2012, the facility amount was reduced by \$5.0 million and the base interest rate was reduced to the higher of the Prime Rate or 3.25%, which resulted in a 75 basis point reduction in our current borrowing cost. Borrowings under the facility are secured by any cash distributed in respect of our investment in the U.S. based merchant banking funds and cash distributions from Greenhill & Co. LLC. At September 30, 2012, we had \$35.4 million outstanding under the revolving bank loan facility. The revolving loan facility has a prohibition on the incurrence of additional indebtedness without the prior approval of the lenders and requires that we comply with certain financial and liquidity covenants on a quarterly basis. At September 30, 2012, we were compliant with all loan covenants and we expect to continue to be compliant with all loan covenants.

We generate significant earnings outside the U.S. Historically, we repatriated less than 50% of our foreign earnings. In 2011, we reviewed our reinvestment needs in our foreign locations and determined that based on our business model it is unlikely that we will have future needs that require us to permanently reinvest our foreign earnings in the local jurisdictions. Accordingly, we may repatriate foreign earnings in excess of our local working capital requirements and other forecast local needs. To the extent we repatriate foreign earnings from jurisdictions with a lower tax rate than the U.S. we may be subject to an incremental amount of U.S. tax on such earnings. However, we currently have excess foreign tax credits which may be available to offset any incremental U.S. tax amount. As a result, we would not expect to incur much incremental U.S. tax from any such repatriations in the near future.

During 2011, we began to liquidate our investments in our previously sponsored merchant banking funds and Iridium. In 2011 we sold substantially all of our interests in GCP II and all of our interests in GSAVP to unaffiliated third parties and received proceeds of \$49.4 million, in aggregate. Additionally, in October 2011, we initiated a trading plan to sell our entire interest in Iridium over a period of approximately two years.

Our first sale of our Iridium common stock occurred on October 3, 2011, and through September 30, 2012 we have sold 39% of our holdings. Subsequent sales will continue systematically under the plan until all of our interests in Iridium have been sold. The plan calls for the sale of our shares in Iridium in small daily increments, which represent a small percentage of recent daily trading volume levels. Specifically, we will sell 15,000 shares of Iridium common stock per trading day when the prior day's closing price of Iridium common stock is below \$8.50, 20,000 shares per day when the prior day's closing price is between \$8.50 and \$9.50, or 25,000 shares per day when the prior day's closing price is above \$9.50. The only exception is that we will not sell shares on the last five trading days of any calendar quarter. We expect to use the net proceeds from the sales to repurchase our common stock. Since we began our plan to sell shares of Iridium we have sold 3,865,000 shares of Iridium at an average price of \$7.95 per share. During the nine months ended September 30, 2012, we sold 2,995,000 shares of Iridium at an average price of \$8.32 per share for total proceeds of \$24.9 million. At September 30, 2012, we owned 5,939,016 shares of Iridium, which had a value of \$43.5 million, representing approximately 8% of Iridium's fully diluted common stock.

Our deferred tax liabilities, which were \$12.5 million as of September 30, 2012, principally relate to the unrealized gain in our investment in Iridium. The amount of the deferred tax liability may increase or decrease from period to period depending upon the change in the quoted market value of Iridium and is expected to decrease over time as we realize taxable gains upon the sale of that investment. In the event we realize losses on our investments, such losses will only be available to offset realized investment gains in the current or future periods. Our current tax liability will increase at the time we realize investment gains.

In connection with the sale of GCP II in June 2011, the purchasers have the right, exercisable in December 2012, to cause us to repurchase their interests in either or both of two specified portfolio companies subject to put options for values of \$9.5 million and \$6.1 million (which increased by \$1.3 million from \$4.8 million (at the time of their purchase of the GCP II interest) as a result of a capital call funded by the purchasers in May 2012). If all the put options are exercised we will fund \$15.6 million in late December 2012 or early January 2013.

Table of Contents

At September 30, 2012, our remaining investments in previously sponsored and other merchant banking funds, excluding the estimated fair value of \$11.1 million of our interest subject to the put options, were valued at \$37.8 million, of which GCP Europe represented \$30.6 million (or £19.0 million). Because merchant banking funds typically invest in privately held companies, the ability of the merchant banking funds to sell or dispose of the securities they own depends on a number of factors beyond the control of the funds, including general economic and sector conditions, stock market conditions, commodity prices, and the availability of financing to potential buyers of such securities, among other issues. As a result we consider our investments in the merchant banking funds illiquid for the short term.

At September 30, 2012, we had unfunded commitments (not reflected on our balance sheet) of \$9.7 million relating to future principal investments in certain of the merchant banking funds, which included unfunded commitments to GCP Europe of \$6.5 million (or £4.1 million), which may be drawn through December 2012. We had an unfunded commitment of \$3.2 million to another merchant banking fund, which may be drawn through November 2015. For each of the merchant banking funds, up to 15% of the commitment amount may be drawn for follow-on investments over the two-year period after the expiration of the commitment period. Our remaining commitments to our merchant banking funds may require us to fund capital calls on short notice. We are unable to predict the timing or magnitude of capital calls or distribution of investment proceeds.

In January 2012, our Board of Directors authorized the repurchase of up to \$100.0 million of our common stock during 2012. During the nine months ended September 30, 2012, we repurchased in open market transactions 859,006 shares of our common stock at an average price of \$37.84 per share for a cost of \$32.5 million. In addition, during the fourth quarter as of October 26, 2012, we have repurchased 206,506 shares of our common stock at an average price of \$48.42 per share for a cost of \$10.0 million. While we expect to fund repurchases of shares (if any) with proceeds from our investments and/or operating cash flow, we are unable to predict the timing or magnitude of our share repurchases.

Additionally, during the nine months ended September 30, 2012, we are deemed to have repurchased 176,781 shares of our common stock at an average price of \$45.21 per share in connection with the cash settlement of tax liabilities incurred on the vesting of restricted stock units at a cost of \$8.0 million. Based upon the number of restricted stock unit grants outstanding at September 30, 2012, and the closing share price on that day, we expect to fund repurchases of our common stock from our employees in conjunction with the cash settlement of tax liabilities incurred on the vesting of restricted stock units of approximately \$66.9 million (as calculated based upon the closing share price as of September 30, 2012 of \$51.75 and assuming a withholding tax rate of 40%) over the next five years, of which an additional \$0.4 million will be payable in 2012, \$14.9 million will be payable in 2013, \$19.8 million will be payable in 2014, \$13.3 million will be payable in 2015, \$9.9 million will be payable in 2016, and \$8.7 million will be payable in 2017. The actual amount we fund for repurchases of our common stock from our employees may differ depending on the share price at the time of vesting and changes in mandatory tax withholding rates. We will realize a corporate income tax benefit concurrently with the cash settlement payments.

Our acquisition of Caliburn was funded with the issuance of 1,099,874 shares of our common stock and 1,099,877 contingent convertible preferred shares. The contingent convertible preferred shares do not pay dividends and will convert to shares of our common stock in tranches of 659,926 shares and 439,951 shares promptly following the third and fifth anniversary of the closing of the acquisition, respectively, if certain revenue targets are achieved. If, however, the performance target for either tranche is not achieved, the contingent convertible preferred shares in such tranche will be cancelled. Based on the revenues generated since the acquisition we believe it is more likely than not that the revenue target for the first tranche, which will be measured on March 31, 2013 (the third anniversary), will be met and the tranche of 659,926 contingent convertible preferred shares will be converted to common shares in April 2013. For purposes of our earnings per share calculation the contingent convertible preferred shares from each tranche will be included in our share count at the time that each revenue target is achieved. We expect that the revenue target with respect to the first tranche will be achieved in the fourth quarter of 2012.

While we believe that the cash generated from operations, proceeds from the sale of Iridium and our merchant banking investments and funds available from the revolving bank loan facility will be sufficient to meet our expected operating needs, tax obligations, common dividends payments, share repurchases, commitments to the merchant banking activities, and build-out costs of new office space, we may adjust our variable expenses and other disbursements, if necessary, to meet our liquidity needs. There is no assurance that our current lender will continue to renew our revolving loan facility annually on comparable terms, and if it is not renewed that we would be able to obtain a new credit facility from a different lender. In that case, we could be required to repatriate funds to the U.S., liquidate some of our remaining principal investments, issue additional securities, reduce operating costs or take a combination of these actions, in each case on terms which may not be favorable to us. In the event that we are not able to meet our liquidity needs, we may consider a range of financing alternatives to meet any such needs.

Cash Flows

In the first nine months of 2012, our cash and cash equivalents decreased by \$23.9 million from December 31, 2011, net of an increase of \$0.3 million resulting from the effect of the translation of foreign currency amounts into U.S. dollars at the quarter-end foreign currency conversion rates. We generated \$36.2 million from operating activities, including \$60.5 million from net income after giving effect to the non-cash items and a net decrease in working capital of \$24.3 million principally from the annual payment of bonuses. We generated \$19.3 million from

Edgar Filing: GREENHILL & CO INC - Form 10-Q

investing activities, primarily from proceeds from the sale of Iridium of \$24.9 million, and distributions from other merchant banking funds of \$3.0 million, offset by \$6.5 million used to fund capital calls for our merchant banking fund investments and \$2.1 million for build out of office space and other capital needs. We used \$79.8 million in financing activities, including \$41.7 million for the payment of dividends, \$32.5 million for open market repurchases of our common stock, \$8.0 million for the repurchase of our common stock from employees in conjunction with the payment of tax liabilities in settlement of restricted stock units and \$4.9 million of tax costs related to delivery of restricted stock units at a vesting price lower than the grant price, offset by net borrowings on our revolving loan facility of \$7.3 million.

Table of Contents

In the first nine months of 2011, our cash and cash equivalents decreased by \$16.1 million from December 31, 2010. We generated \$75.7 million from operating activities, as we used \$81.0 million generated from earnings (after giving effect to the non-cash items) to fund a net decrease in working capital of \$5.2 million principally from the annual payment of bonuses. We generated \$50.2 million from investing activities, primarily from the sale of our interests in two merchant banking funds for \$49.4 million and distributions from other merchant banking funds of \$4.2 million which was used in part to fund \$0.9 million for capital calls on our remaining merchant banking fund investments and \$2.5 million for the build-out of new office space. We used \$140.5 million in financing activities, including \$41.7 million of net repayments on our revolving loan facility, \$42.6 million for the payment of dividends, \$36.7 million for open market repurchases of our common stock, \$18.5 million for the repurchase of our common stock from employees in conjunction with the payment of tax liabilities in settlement of restricted stock units (net of \$0.4 million of tax benefits from the delivery of restricted stock units), and \$1.0 million of distributions of excess 2010 profits to GCP Capital.

Off-Balance Sheet Arrangements

We do not invest in any off-balance sheet vehicles that provide financing, liquidity, market risk or credit risk support, or engage in any leasing or hedging activities that expose us to any liability that is not reflected in our condensed consolidated financial statements.

Market Risk

We limit our investments to (1) short-term cash investments, which we believe do not face any material interest rate risk, equity price risk or other market risk and (2) principal investments made in merchant banking funds, Iridium and other investments. We maintain our cash and cash equivalents with financial institutions with high credit ratings. We may maintain deposits in federally insured financial institutions in excess of federally insured (FDIC) limits. However, management believes that the firm is not exposed to significant credit risk due to the financial position of the depository institutions in which those deposits are held. We monitor the quality of these investments on a regular basis and may choose to diversify such investments to mitigate perceived market risk. Our cash and cash equivalents are denominated in U.S. dollars, Australian dollars, Canadian dollars, pound sterling, euros, and yen, and we face modest foreign currency risk in our cash balances held in accounts outside the United States due to potential currency movements and the associated foreign currency translation accounting requirements. We may hedge our foreign currency exposure if we expect we will need to fund U.S. dollar obligations with foreign currency.

With regard to our investments in both merchant banking funds and Iridium we face exposure to changes in the fair value of the companies in which we have directly or indirectly invested, which historically has been volatile. Significant changes in the public equity markets, and particularly the quoted market value of our investment in Iridium, because of the relative size of that investment, may have a material effect on our results of operations. Volatility in the general equity markets would impact our operations primarily because of changes in the fair value of our merchant banking or principal investments that are publicly traded securities. Volatility in the availability of credit would impact our operations primarily because of changes in the fair value of merchant banking or principal investments that rely upon a portion of leverage to operate. We have analyzed our potential exposure to general equity market risk by performing sensitivity analyses on those investments in publicly traded securities held by us. This analysis showed that if we assume that at September 30, 2012, the market prices of all public securities held by the firm were 10% lower, the impact on our operations would be a decrease in revenues of \$4.3 million.

We manage the risks associated with the merchant banking portfolio by assessing information provided by the funds.

In addition, the reported amounts of our advisory revenues may be affected by movements in the rate of exchange between the Australian dollar, Canadian dollar, pound sterling, euro, and yen (in which collectively 39% of our revenues for the nine months ended September 30, 2012 were denominated) and the dollar, in which our financial statements are denominated. We do not currently hedge against movements in these exchange rates. We analyzed our potential exposure to a decline in exchange rates by performing a sensitivity analysis on our net income in those jurisdictions in which we generated a significant portion of our foreign earnings, which included the United Kingdom, Europe and Australia. During the nine month period ended September 30, 2012, as compared to the same period in 2011, the relative value of the U.S. dollar strengthened relative to the pound sterling and the euro and remained approximately constant with the Australian dollar. In aggregate, there was a nominal impact on our revenues in the first nine months of 2012 as compared to the same period in 2011 as a result of movements in the rates of exchange. While our earnings are subject to volatility from foreign currency changes, we do not believe we face any material risk in this respect.

Critical Accounting Policies and Estimates

Our condensed consolidated financial statements are prepared in conformity with accounting principles generally accepted (GAAP) in the United States, which require management to make estimates and assumptions regarding future events that affect the amounts reported in our financial statements and their footnotes, including investment valuations, compensation accruals and other matters. Management believes that the estimates used in preparing our condensed consolidated financial statements are reasonable and prudent. Actual results could differ

Edgar Filing: GREENHILL & CO INC - Form 10-Q

materially from those estimates. Certain reclassifications have been made to prior year information to conform to current year presentation.

We believe that the following discussion addresses our most critical accounting policies, which are those that are most important to the presentation of our financial condition and results of operations and require management's most difficult, subjective and complex judgments. For further discussion of these and other significant accounting policies, see Note 2 Summary of Significant Accounting Policies in our condensed consolidated financial statements, and our 2011 Annual Report on Form 10-K.

Table of Contents***Revenue Recognition******Advisory Revenues***

The firm recognizes advisory fee revenue for mergers and acquisitions or financing advisory and restructuring engagements when the services related to the underlying transactions are completed in accordance with the terms of the engagement letter. The firm recognizes private equity and real estate capital advisory fees at the time of the client's acceptance of capital or capital commitments in accordance with the terms of the engagement letter. Retainer fees are recognized as advisory fee revenue over the period in which the related service is rendered.

The firm's clients reimburse certain expenses incurred by the firm in the conduct of advisory engagements. Expenses are reported net of such client reimbursements.

Investment Revenues

Investment revenues consist of (i) gains (or losses) on the firm's investments in certain merchant banking funds, Iridium and other investments, (ii) profit overrides from certain merchant banking funds, if any, and (iii) interest income.

The firm recognizes revenue on its investments in merchant banking funds based on its allocable share of realized and unrealized gains (or losses) reported by such funds. The firm recognizes revenue on its other investments, including Iridium, which consider the firm's influence or control of the investee, based on gains and losses on investment positions held, which arise from sales or changes in the fair value of investments. The amount of gains or losses are not predictable and can cause periodic fluctuations in net income and therefore subject the firm to market and credit risk.

If certain financial returns are achieved over the life of a merchant banking fund, the firm may recognize merchant banking profit overrides at the time that certain financial returns are achieved. Profit overrides are generally calculated as a percentage of the profits over a specified threshold earned by each fund on investments managed on behalf of unaffiliated investors except the firm. When applicable, the profit overrides earned by the firm are recognized on an accrual basis throughout the year. In accordance with the relevant guidance, the firm records as revenue the amount that would be due pursuant to the fund agreements at each period end as if the fund agreements were terminated at that date. Profit overrides are generally calculated on a deal-by-deal basis but are subject to investment performance over the life of each merchant banking fund. The firm may be required to repay a portion of the overrides it realized in the event a minimum performance level is not achieved by the fund as a whole (we refer to these potential repayments as "clawbacks"). The firm would be required to establish a reserve for potential clawbacks if it were to determine that the likelihood of a clawback is probable and the amount of the clawback can be reasonably estimated. As of September 30, 2012, the firm believes it is more likely than not that the amount of profit overrides recognized as revenue in prior periods, which relates solely to its interest in GCP I, will be realized and accordingly, the Company has not reserved for any clawback obligations under applicable fund agreements.

Investments

The firm's investments in merchant banking funds are recorded under the equity method of accounting based upon the firm's proportionate share of the fair value of the underlying merchant banking fund's net assets. Investments held by merchant banking funds are recorded at estimated fair value. The value of merchant banking fund investments in privately held companies is determined by the general partner of the fund after giving consideration to the cost of the security, the pricing of other sales of securities by the portfolio company, the price of securities of other companies comparable to the portfolio company, purchase multiples paid in other comparable third-party transactions, the original purchase price multiple, market conditions, liquidity, operating results and other qualitative and quantitative factors. Discounts may be applied to the funds' privately held investments to reflect the lack of liquidity and other transfer restrictions. Investments in publicly traded securities are valued using quoted market prices discounted for any legal or contractual restrictions on sale. Because of the inherent uncertainty of valuations as well as the discounts applied, the estimated fair values of investments in privately held companies may differ significantly from the values that would have been used had a ready market for the securities existed. The values at which the firm's investments are carried on its condensed consolidated statements of financial condition are adjusted to estimated fair value at the end of each quarter and the volatility in general economic conditions, stock markets and commodity prices may result in significant changes in the estimated fair value of the investments from period to period.

Goodwill

Goodwill is the cost of acquired companies in excess of the fair value of identifiable net assets at acquisition date. The firm tests its goodwill for impairment at least annually. An impairment loss is triggered if the estimated fair value of an operating unit is less than estimated net book value. Such loss is calculated as the difference between the estimated fair value of goodwill and its carrying value.

Edgar Filing: GREENHILL & CO INC - Form 10-Q

Goodwill is translated at the rate of exchange prevailing at the end of the periods presented in accordance with the accounting guidance for foreign currency translation. Any translation gain or loss is included in the foreign currency translation adjustment included as a component of other comprehensive income in the condensed consolidated statements of changes in equity and the condensed consolidated statements of comprehensive income.

Table of Contents

Restricted Stock Units

The firm sponsors an equity incentive plan which provides for grants of share-based payment awards. The firm accounts for its share-based compensation payments under which the fair value of restricted stock units granted to employees with future service requirements is recorded as compensation expense and are generally amortized over a three to five-year service period following the date of grant. Compensation expense is determined based upon the fair market value of the firm's common stock at the date of grant. As the firm expends the stock settled share-based awards, the restricted stock units recognized are recorded within equity. The restricted stock units are reclassified into common stock and additional paid-in capital upon vesting.

In certain jurisdictions, the firm may settle share-based payment awards in cash in lieu of shares of common stock to obtain tax deductibility. In these circumstances, the awards are settled in the cash equivalent value of the firm's shares of common stock based upon their value at settlement date. These cash settled share-based awards are classified as liabilities and are remeasured at fair value at each reporting period.

The firm records as treasury stock the repurchase of stock delivered to its employees in settlement of tax liabilities incurred upon the vesting of restricted stock units. The firm records dividend equivalent payments on restricted stock units as a dividend payment and a charge to equity.

Earnings per Share

The firm calculates basic earnings per share (EPS) by dividing net income allocated to common stockholders by the weighted average number of shares outstanding for the period. The denominator for basic EPS includes the weighted average number of shares deemed issuable due to the vesting of restricted stock units for accounting purposes.

Diluted EPS includes the determinants of basic EPS plus the dilutive effect of the common stock deliverable pursuant to restricted stock units for which future service is required as a condition to the delivery of the underlying common stock. Under the treasury method, the number of shares issuable upon the vesting of restricted stock units included in the calculation of diluted EPS is the excess, if any, of the number of shares expected to be issued, less the number of shares that could be purchased by the firm with the proceeds to be received upon settlement at the average market closing price during the reporting period.

Provision for Taxes

The firm accounts for taxes in accordance with the accounting guidance for income taxes which requires the recognition of tax benefits or expenses on the temporary differences between the financial reporting and tax bases of its assets and liabilities.

The firm follows the guidance for income taxes in recognizing, measuring, presenting and disclosing in its financial statements uncertain tax positions taken or expected to be taken on its income tax returns. Income tax expense is based on pre-tax accounting income, including adjustments made for the recognition or derecognition related to uncertain tax positions. The recognition or derecognition of income tax expense related to uncertain tax positions is determined under the guidance.

Deferred tax assets and liabilities are recognized for the future tax attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in earnings in the period of change. Management applies the more-likely-than-not criteria when determining tax benefits.

Financial Instruments and Fair Value

The firm accounts for financial instruments measured at fair value in accordance with accounting guidance for fair value measurements and disclosures which establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the pronouncement are described below:

Basis of Fair Value Measurement

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Edgar Filing: GREENHILL & CO INC - Form 10-Q

Level 2 Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly; and

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. In determining the appropriate levels, the firm performs an analysis of the assets and liabilities that are subject to these disclosures. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs or instruments which trade infrequently and therefore have little or no price transparency are classified as Level 3. Transfers between levels are recognized as of the end of the period in which they occur.

Table of Contents*Fair Value of Other Financial Instruments*

The firm believes that the carrying values of all other financial instruments presented in the condensed consolidated statements of financial condition approximate their fair value generally due to their short-term nature and generally negligible credit risk. These fair value measurements would be categorized as Level 3 within the fair value hierarchy.

Derivative Instruments

The firm accounts for warrants under the guidance for accounting for derivative instruments and hedging activities. In accordance with that guidance, the firm records warrants at estimated fair value in the condensed consolidated statements of financial condition with changes in estimated fair value during the period recorded in investment revenues in the condensed consolidated statements of income. The Iridium \$11.50 Warrants, which were held by the firm prior to their conversion to shares of Iridium common stock in June 2011, were not designated as hedging instruments.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Quantitative and qualitative disclosures about market risk are set forth above in Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations - Market Risk .

Item 4. Controls and Procedures

Under the supervision and with the participation of the firm's management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of the firm's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)). Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

No change in the firm's internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the firm's internal control over financial reporting.

Part II Other Information**Item 1. Legal Proceedings**

The firm is from time to time involved in legal proceedings incidental to the ordinary course of its business. We do not believe any such proceedings will have a material adverse effect on our results of operations.

Item 1A. Risk Factors

There have been no material changes in our risk factors from those disclosed in our 2011 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities in the Third Quarter of 2012:

Period	Total Number of Shares Purchased (1)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased under the Plans or Programs (1)(2)
July 1 - July 31	170,000	\$ 37.22		\$ 81,173,151

Edgar Filing: GREENHILL & CO INC - Form 10-Q

August 1	August 31	338,800	\$	40.37	\$	67,494,135
September 1	September 30		\$		\$	67,494,135

- (1) Excludes 24,594 shares the firm is deemed to have repurchased in July 2012 at \$36.87 per share from employees in conjunction with the payment of tax liabilities in respect of stock delivered to employees in settlement of restricted stock units. For the nine months ended September 30, 2012, excludes 176,781 shares the firm is deemed to have repurchased at an average price of \$45.21 per share from employees in conjunction with tax liabilities in respect of stock delivered to employees in settlement of restricted stock units.
- (2) Effective January 25, 2012, the Board of Directors authorized the repurchase of up to \$100,000,000 of Greenhill & Co., Inc. common stock during 2012.
