**Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.**

As discussed in the Company's 2012 proxy statement, the Compensation Committee (the Committee) of the Company's Board of Directors has been executing a multi-year plan for addressing the adequacy and retention value of the Company's executive compensation, while at the same time (i) linking executive pay more closely to Company and individual performance and (ii) providing for a significant percentage of pay at risk. As part of the multi-year plan, since 2011 (for bonuses earned for 2010), the Committee has assessed Company performance relative to broad categories of performance standards. On January 30, 2013, the Committee took another step in its multi-year plan by adopting a written plan: the Southwest Airlines Co. Senior Executive Short Term Incentive Plan (the Plan).

The Plan provides for the payment of cash bonuses based on the Committee's discretion and judgment taking into account attainment of performance targets that are pre-established by the Committee. Unless otherwise determined by the Committee, all employees of the Company at the level of Senior Vice President and above are eligible to participate in the Plan. Additionally, the Committee has sole discretion to determine those other individuals, if any, who may be eligible to participate in the Plan from time to time. Bonuses are payable under the Plan to eligible participants for any calendar year or for such longer or shorter period as may be established by the Committee. The Committee has sole discretion to determine the performance measures to be used under the Plan, which may include, for example, financial and operational performance measures, both internal and external. Separate performance targets may be established with respect to individual performance criteria, which may or may not be combined with performance targets based on overall Company performance. In addition, separate performance targets may be established with respect to the Company as a whole and/or a unit, division or department of the Company.

The formula below is one example of how bonuses might be calculated under the Plan:

$$\text{Annual Bonus} = [\text{Performance Target Achievement} \times \text{Target Bonus Opportunity} \times \text{Base Salary}]$$

Performance Target Achievement is the level of achievement with respect to a performance measure expressed as a percentage, which percentage will typically range from 0% to 150% depending on the level of performance achieved. The Performance Target Achievements will be pro rated between levels of performance measures. A Target Bonus Opportunity is a percentage of a participant's base salary that will be established by the Committee in its discretion and may vary (typically from 10% to 150%) depending on the roles and responsibilities of the participant. Unless otherwise determined by the Committee, base salary is a participant's annualized base salary payable on the date the Committee takes action to establish a bonus opportunity.

This description of the Plan is qualified in its entirety by reference to the Plan filed as Exhibit 99.1 to this report and is incorporated into this Item 5.02 by reference.
