CORPORATE GOVERNANCE PRINCIPLES AND BOARD MATTERS

We are committed to having sound corporate governance principles. These principles are important to the way in which the Company manages its business and to maintaining the Company's integrity in the marketplace. Our Corporate Governance Guidelines and the charters of the Audit Committee, Compensation Committee, Credit Committee (formerly Directors' Loan Committee), Finance Committee and Governance Committee of our Board of Directors are available at www.svb.com under Corporate Governance. The contents of the website are not incorporated herein by reference and the website address provided above and throughout this Proxy Statement is intended to be an inactive textual reference only.

Board Independence, Leadership and Risk Oversight

The Board has determined that, with the exception of Mr. Becker, our President and Chief Executive Officer, all of our current directors and director nominees, are independent within the meaning of the director independence standards set by the Nasdaq Stock Market, Inc. (*Nasdaq*) and the SEC, as currently in effect.

Board Leadership – Separate Chairperson/CEO Roles

The Board has determined that it is in the best interests of the Company to maintain the Board chairperson and chief executive officer positions separately. It believes that having an outside, independent director serve as chairperson is the most appropriate leadership structure for the Board, as it enhances the Board's independent oversight of management and the Company's strategic planning, reinforces the Board's ability to exercise its independent judgment to represent stockholder interests, and strengthens the objectivity and integrity of the Board. Moreover, an independent chairperson can more effectively lead the Board in objectively evaluating the performance of management, including the chief executive officer, and guide it through appropriate Board governance processes.

Mr. Dunbar, our current Chairman of the Board, is independent within the meaning of the director independence standards described above. Subject to his election, Mr. Dunbar is expected to serve as the Board's Chairman for the 2013-2014 term.

Risk Oversight

Oversight of risks to the Company is carried out by the Board as a whole and by each of its various committees. The Board receives periodic reports from management on the Company's risk management, including, on at least an annual basis, an assessment of the Company's top risks.

The Board has expressly delegated to the Governance Committee the primary oversight responsibility for the Company's enterprise-wide risk management (*EWRM*) function, which is responsible for managing, on an enterprise-wide basis, the Company's credit, market/liquidity, operational, legal/regulatory, strategic/reputation and other risks. On at least a quarterly basis, our Chief Strategy and Risk Officer reports to the Governance Committee on the EWRM function, including risk assessment and risk management. Based on management's reports, the chairman of the Governance Committee reports to the Board any material changes or updates to the Company's risk profile. The Chief Strategy and Risk Officer also conducts a risk review with the full Board on at least an annual basis.

Additionally, each Board committee is engaged in overseeing the Company's risks in its respective areas of oversight. For example, the Audit Committee regularly oversees our risks relating to our accounting and financial reporting. The Compensation Committee engages in periodic risk assessments to review and evaluate our compensation programs in relation to the Company's risks. The Finance Committee actively oversees the Company's capital, liquidity and

financial management and the associated risks (whether as an ongoing matter or as it relates specifically to a transaction, such as an equity or debt securities offering). Moreover, the Credit Committee routinely oversees the Company's management of credit risks. Each of the committees regularly report back to the full Board on its risk oversight activities, and the Board routinely engages in discussions with management about the Company's risks.

Table of Contents

Executive Sessions

The Company's independent directors meet in regularly scheduled executive sessions at which only independent directors are present. Mr. Becker is generally not present at these executive sessions, but will from time to time meet with the independent directors without other members of management present, at the Board's discretion.

Committee Independence and Audit Committee Financial Experts

The Board has determined that each of the current members of the Audit Committee, Compensation Committee and Governance Committee are independent under Nasdaq director independence standards.

In addition, the Board has determined that Mr. Dunbar and Ms. Krishnan meet all of the attributes of an audit committee financial expert, as those meanings are defined for purposes of audit committee members by the applicable rules and regulations of the SEC and Nasdaq.

Board Evaluation

The Governance Committee of the Board conducts, in coordination with the full Board, an annual evaluation of the Board's performance and effectiveness, either the Board as a whole and/or on an individual director basis. Each year, the Governance Committee develops and implements a process for such evaluation and review, which may involve outside consultants or advisers and may include a review of how certain attributes affect Board effectiveness, such as Board size, meeting frequency, quality and timing of information provided to the Board, director communication, director education, director skills and qualifications, director independence and Board strategy sessions. The results of the evaluation are discussed with the Board. The Governance Committee also conducts annually a separate evaluation of the performance and effectiveness of each of the Board's committees. See *Board Committees and Meeting Attendance Committee Governance* below.

Meeting Attendance

Board and Committee Meetings

During fiscal year 2012, the Board held nine (9) meetings. For the number of committee meetings held in 2012, see *Board Committees Committee Members and Meetings* below. Each director attended or participated telephonically in 75% or more of the total number of meetings of the Board, and of the committees on which he or she served, which were held during the period for which he or she was a director or committee member.

Stockholder Meetings

It is the Board's policy that each director employs his or her best efforts to attend each of the Company's annual stockholder meetings. Eleven of our twelve then-serving Board members attended the Annual Meeting of Stockholders in 2012.

Board Diversity; Selection and Evaluation of Director Candidates

While the Board has not formally adopted a policy governing board diversity, it recognizes the importance of assembling a body of directors that, taken together, has the experience, qualifications, skills and attributes appropriate for functioning effectively as a board. The Governance Committee, with the participation of the full Board, is primarily responsible for reviewing the composition of the Board and for identifying candidates for membership on the Board, all in light of the Company's ongoing requirements, its assessment of the Board's performance and any input received from stockholders or other key constituencies. The Governance Committee makes determinations as to whether to recommend directors for re-election or director candidates' nomination to the Board based on their skills, character, judgment and business experience, as well as their ability to diversify and add to the Board's existing strengths. The Governance Committee typically seeks an appropriate mix of individuals with diverse backgrounds and skills complementary to the Company's business and strategic direction. This assessment typically includes issues of expertise in industries important to the Company (such as technology, life sciences, and premium wine), functional expertise in areas such as banking, global markets, venture capital, private equity, law, accounting, finance and information technology, and an assessment of an individual's abilities to work constructively with the other Board members and management. The Governance Committee also seeks certain characteristics common to all Board members, such as integrity, strong professional reputation, record of achievement, collegiality and ability and commitment to devote sufficient time and energy to Board service.

The Governance Committee has not formally established any minimum qualifications for director candidates. All nominees to be considered at the Meeting were recommended by the Governance Committee.

Director Qualifications

The Board believes that each of its current directors possesses particular attributes which qualify him or her to serve on the Board. In addition to the attributes specifically identified for each director in his or her respective biography above, the Board believes that all of the directors possess the following attributes enabling the Board to function effectively as a collective body: integrity, collegial spirit, sound business judgment, professionalism, ability to generate public confidence, ability to act independently, and availability and commitment to serve.

The Company's Audit Committee has prepared the following report for inclusion in this Proxy Statement. The Audit Committee is governed by a Board-adopted charter, a copy of which is available on the Company's website at www.svb.com. The charter specifies, among other things, the scope of the committee's responsibilities and how those responsibilities are performed. The Audit Committee members are independent as defined by Nasdaq, the listing standard applicable to the Company.

The primary responsibility of the Audit Committee is to act on behalf of the Board in fulfilling the Board's responsibility with respect to overseeing the Company's accounting and reporting practices and the quality and integrity of the Company's financial statements and reports, and the Company's internal control over financial reporting. The committee also reviews the qualifications, independence, and performance of the registered public accounting firm engaged as the Company's independent auditors. Management has the primary responsibility for the financial statements and the reporting process, as well as for the Company's internal controls. The Company's independent registered public accounting firm, KPMG LLP, is responsible for expressing an opinion on the conformity of the Company's audited financial statements with U.S. generally accepted accounting principles, as well as an opinion on the effectiveness of the Company's internal control over financial reporting. In addition, the Audit Committee oversees the Company's internal audit function, which is responsible for reviewing and evaluating the effectiveness of the Company's internal controls.

The Audit Committee has reviewed and discussed with management its assessment and report on the effectiveness of the Company's internal control over financial reporting as of December 31, 2012, which it made using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control Integrated Framework. The committee also has reviewed and discussed with KPMG LLP its review and report on the Company's internal control over financial reporting.

Moreover, the Audit Committee has reviewed and discussed with management and the independent auditors the audited financial statements. The Audit Committee discussed with the independent auditors the matters required to be discussed by the Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended (AICPA, *Professional Standards*, Vol. 1. AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. In addition, the Audit Committee received from the independent auditors the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence, including Rule 3526, *Communication with Audit Committees Concerning Independence*, and has discussed with the independent auditors the auditors' independence from the Company and its management.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Company's Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2012, for filing with the SEC.

subject to the insider lending restrictions of Section 22(h) of the Federal Reserve Act.

Pursuant to Regulation O, the Insider Loan policy authorizes the Bank to make Insider Loans if such Insider Loans: (a) are approved in advance by a majority of the Board of Directors of the Bank for Insider Loans where the aggregate amount of all outstanding extensions of credit exceeds \$500,000; (b) are extended under the same terms and conditions and rates as those prevailing at the time of the Insider Loan for comparable transactions with other Bank clients; and (c) do not have more than a normal risk of failure of repayment to the Bank or other unfavorable features. The Insider whose credit extension is subject to Board approval must not participate either directly or indirectly in the voting to approve such extension of credit. Prior approval of the Board of Directors of the Bank is not required for an extension of credit made pursuant to a line of credit that was approved by the Board of Directors within 14 months of the date of the extension.

The Insider Loan policy also limits the aggregate amount of all loans to any Insider and his or her related interests. The Insider Loan policy also prohibits the Bank from paying an overdraft on a personal bank account of an Insider except if the overdraft is inadvertent, the aggregated amount of all overdrafts to the Insider at any time is \$1,000 or less and the overdraft is outstanding for less than five business days.

Table of Contents**Loan Transactions**

Such loans: (a) were made in the ordinary course of business; (b) were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons; and (c) did not involve more than the normal risk of collectibility or present other unfavorable features.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis (*CD&A*) discusses our 2012 executive compensation program, primarily as it relates to our five named executive officers that are currently serving as executive officers (each, an *NEO*): (i) **Greg Becker**, President and Chief Executive Officer (*CEO*), (ii) **Michael Descheneaux**, Chief Financial Officer (*CFO*), (iii) **David Jones**, Chief Credit Officer, (iv) **Joan Parsons**, Head of US Banking, and (v) **Mary Dent**, General Counsel.

CD&A EXECUTIVE SUMMARY

Our executive compensation program is based on our philosophy that pay should be aligned with our business objectives and stockholder interests and that incentive compensation should be based on company and individual performance without encouraging undue risk-taking. Under the primary oversight of our Compensation Committee of the Board of Directors (the *Committee*) --- from design to payout --- our program is based on a pay for performance approach (both short-term and long-term), as well as on executive retention. The key elements are as follows:

2012 Highlights

Strong operating results

Strengthened pay-for-performance alignment

Continued emphasis on equity and alignment with stockholder interests

Strong support for 2012 Say on Pay vote

<i>Short-Term</i>		<i>Long-Term¹</i>	<i>Other</i>
Base Salary	Annual Cash Incentives	Equity Incentives	Benefits/Retirement
<i>To provide ongoing fixed cash pay</i>	<i>To reward for short term company and individual performance</i>	<i>To reward for long term performance tied to our company stock price</i>	<i>To provide health, welfare and retirement benefits that are generally available to employees</i>

As highlighted under 2012 Company Performance Highlights of the Summary Information section at the beginning of this Proxy Statement, in 2012, we continued to deliver strong operating results and focus on our long-term growth, taking measured steps to expand and invest in our business domestically and globally. As further discussed in this CD&A, our NEOs were compensated to reflect those 2012 accomplishments.

2012 Executive Compensation Highlights

- ii ***Continued emphasis in the design of our compensation structure on performance-based target pay.***
 - i CEO: 63% performance-based pay, 37% non-performance-based pay
 - i Other NEOs (on average): 57% performance-based pay, 43% non-performance-based pay

- ii ***Continued long-term compensation emphasis on equity.***
 - i Over 50% of total target pay for each of the NEOs is in the form of the Company's equity.
 - i Consistent with the prior year, we continued to use a mix of equity awards to our NEOs consisting of stock options (46%), performance-based restricted stock units (34%) and restricted stock units (20%), all of which are subject to vesting requirements.
 - i We paid the final payout under our Long-Term Cash Incentive Plan for executives for the 2010-2012 performance period. We have replaced the plan with greater emphasis on stock awards, which are all subject to vesting requirements, and the plan has since been terminated with respect to executives. No other long-term cash incentive awards or payments were made to executives in 2012.

- ii ***Strengthened the design of annual cash incentive plan for executives.*** During 2012, we strengthened the linkage between pay and performance of our executives Incentive Compensation Plan (*ICP*) by basing the funding of the cash incentive pool on the following two performance metrics:
 - i *Adjusted ROE against our annual target ROE* (enhanced continuing practice from prior years) During 2012, we also made it more challenging for executives to achieve the funding maximum by increasing the performance requirement from 125% of actual ROE performance against our target ROE, to 150%. In addition,

¹ See also our discussion under Long-Term Cash Incentive Plan below. This executive plan paid out its final payout during 2012 and has since been terminated.

the Committee continued to retain discretion to determine the extent to which the Company met its annual target ROE, resulting in, after consultation with the Chair of the Board’s Audit Committee, the *exclusion* of certain out of the ordinary or non-recurring items from the Company’s 2012 ROE for purposes of this performance metric.

- i *ROE against peer group* (new performance metric for 2012) During 2012, for purposes of this metric, we also established an additional peer group to measure our actual ROE performance against a peer group of banks, comprised of 20 peer financial institutions, most of which are in our compensation benchmarking peer group.
- ii *No material increases to NEO base salaries during 2012.* Base salaries for each NEO remained the same as 2011 levels, except for a merit increase for one NEO.
- ii *Increased minimum requirements under executive equity ownership guidelines.* During 2012, we increased the minimum requirements under our equity ownership guidelines for most of our executive positions, including the CEO, CFO and the other NEOs. Specifically, the minimum requirement applicable to the CEO was increased to an 80,000 share requirement, which represented a multiple of over five (5) times his annual base salary at the time the standards were adopted. As of December 31, 2012, all NEOs were in compliance with their respective ownership requirements.
- ii *No excise tax gross-ups under change in control plan.* During 2012, we eliminated an excise tax gross-up provision under our Change in Control Severance Plan for executives.
- ii *Double trigger change in control severance.* Our Change in Control Severance Plan provides severance for termination following a change in control event.
- ii *Strong stockholder support of 2012 Say on Pay vote.* We received 94% of the votes cast in approval of our 2011 executive compensation program (as described in our 2012 proxy statement). We submit an advisory Say on Pay vote to our stockholders on an annual basis.

Additional Executive Compensation Program Features

Our executive compensation program is also based on the following compensation governance principles and features:

- ii ***No pensions or SERPs.*** We do not provide any pension, excess retirement, or supplemental executive retirement (*SERP*) plans to any executive, other than participation in our 401(k) plan.

- ii ***No executive benefit programs.*** We do not have any programs that offer benefits exclusively to our executives, except our Change in Control Plan. Our executives receive the same retirement, health, welfare and other benefits that are generally available to all our U.S. employees, and may also participate in certain programs that are available to members of senior management, such as our Deferred Compensation Program.

- ii ***No executive perquisite program.*** We do not have any executive perquisite programs or special executive benefits other than reimbursement of income taxes incurred by our executives on imputed income. For 2012, such imputed income was primarily associated with spousal travel to our business events where our executives' spouses or significant others were invited, and expected to, attend.

- ii ***No employment contracts.*** We do not have any individual employment contracts with any of our executive officers.

- ii ***Our incentives are subject to certain performance minimums and maximum limits on incentive awards.***² We establish minimum thresholds for certain incentives where awards/payouts may not be earned or made unless actual performance meets or exceeds thresholds, such as our PRSUs. We also establish maximum limits, such as our PRSU awards and funding for our annual cash incentives and broad-based profit sharing plan.

- ii ***Our executives' equity awards are made under our equity plan have the following features:***
 - i No evergreen provision
 - i Minimum 100% fair market value exercise price for options
 - i No repricing without stockholder approval
 - i Annual burn rate maximum of 2.5% (under commitment letters with certain stockholders)
 - i Each full value award share counted as two shares
 - i Minimum 3 year time-based vesting for full value awards
 - i Minimum 1 year vesting for performance-based full value awards (although NEO PRSUs are subject to performance conditions and additional time-based vesting)
 - i Maximum seven-year term for options

- ii ***Competitive compensation benchmarking.*** In making compensation decisions, we consider compensation data from our benchmarking reference peer group and routinely review the composition of the companies within the peer group. During 2012, we added an additional financial institution to our peer group, bringing the total number of peer companies within the group to 22.

- ii ***Enhanced performance benchmarking.*** Under our ICP, in 2012, we added a new benchmarking reference peer group of 20 financial institutions to measure our ROE performance against.

- ii ***Compensation risk management.*** We conduct annual compensation risk assessments so that our compensation-related risks are not reasonably likely to have a material adverse effect on the Company.

- ii ***Prohibitions against hedging.*** Pursuant to our Insider Trading Policy, our directors, executive officers (including our NEOs) and employees are not permitted to hedge ownership by selling puts in or selling short any of the Company's publicly-traded securities at any time.

- ii ***Independent compensation consultant to the Committee.*** The Committee utilizes an independent compensation consulting firm that does not provide any other services to the Company.

Executive Compensation Philosophy

We have retained a consistent overarching compensation philosophy that we believe appropriately reflects our business objectives, the diverse nature of our lines of business, the relative complexity this business diversity represents in an organization of our size, appropriate risk management practices, emerging trends in executive compensation (particularly for financial institutions), stockholder interests and market practices.

The key principles of our executive compensation philosophy are to:

Align compensation with business objectives and stockholder interests. Our executive compensation plans are designed to:

- i Tie pay to Company and individual performance by setting appropriate performance metrics.
- i Provide for executive equity ownership to align economic interests with stockholders.
- i Take into account the dynamics of the market and business environment within which the Company and management operate.

Establish an appropriate mix of performance-based pay and non-performance based pay, with an emphasis on performance-based pay.

Establish an appropriate mix of long-term performance incentive compensation and short-term (annual) incentive compensation, with an emphasis on long-term.

Base incentive compensation on Company and individual performance without encouraging undue risk-taking.

Pay competitively, relying primarily on external market peer group standards while also considering internal parity and the importance of creating a cohesive, well-aligned management team.

In addition, our executive compensation program is grounded in appropriate governance oversight, processes and risk controls (including annual risk assessment reviews), and is designed to comply with applicable laws and regulations.

2012 Advisory Vote on 2011 Executive Compensation (Say on Pay)

Pursuant to our Board of Directors' recommendation and the approval of our stockholders, we submit an advisory vote on executive compensation, or Say on Pay, to our stockholders on an annual basis. In 2012, we received 94% of the votes cast in approval of our 2011 executive compensation program (as described in our 2012 proxy statement). In light of such strong support and other feedback we solicited from our stockholders, the Committee made no material changes to our compensation philosophy, policies or overall program.

The Committee continues to pursue its pay-for-performance approach in determining executive compensation. The Committee will continue to consider changes to the program on an ongoing basis, as appropriate, in light of evolving

factors such as business environment and competition for talent.

Compensation Governance

Our executive compensation program is subject to the primary oversight of the Committee pursuant to its authority as outlined in its charter, including the design and administration of executive compensation plans and the approval of executive compensation. In carrying out its oversight responsibilities, the Committee routinely reports to and consults with the Board on compensation matters. In addition, the Committee retains an independent compensation consultant, and where appropriate, discusses compensation related matters with our Chief Executive Officer, as it relates to other executive officers.

Role of Compensation Committee

The Committee is comprised of directors who are independent under applicable Nasdaq rules. The Committee is primarily responsible for overseeing the compensation program and strategies of the Company and approving (or in the case of CEO compensation, recommending for Board approval) director and executive compensation and equity awards.

Committee members hold meetings on a regular basis (9 meetings in 2012), and routinely meet in executive session without management present. The Committee reports regularly to the Board on the actions it has taken. At the end of 2012, the Board and the Committee enhanced its CEO compensation approval process. Accordingly, the Committee reviews and recommends CEO compensation for approval by the members of the Board who are independent under applicable Nasdaq rules. The Committee also makes recommendations for all other compensation-related matters that require Board approval. During 2012, the Board did not reject or modify in any material way any action of or recommendation by the Committee.

Role of Compensation Committee Consultant

The Committee has retained Pay Governance LLC, an independent outside compensation consultant, to provide guidance on all compensation matters under its oversight responsibilities. The Committee in its sole discretion selects the consultant, determines the scope of the consultant's responsibilities, and determines the consultant's compensation.

The services provided to the Committee by its outside compensation consultant in 2012 include: support in the Committee's effort to periodically review and update, as appropriate, the Company's compensation philosophy and strategies; advice on executive and director compensation levels and practices, including review and recommendations on CEO compensation; advice on the Company's peer group; guidance on the design of our compensation plans and executive/director stock ownership guidelines; assistance with the Committee's periodic review of potential risks associated with the Company's compensation programs; analysis of Company equity utilization; and periodic reports to the Committee on market and industry compensation trends and regulatory developments. The Committee did not engage Pay Governance for any additional services outside of executive compensation consulting during 2012. In addition, the Committee does not believe there were any potential conflicts of interest that arose from any work performed by Pay Governance during 2012.

Role of Chief Executive Officer

From time to time and at the Committee's request, our CEO will attend portions of the Committee's meetings to discuss the Company's performance and compensation-related matters. The CEO does not attend executive sessions, unless invited by the Committee. While he does not participate in any deliberations relating to his own compensation, he reviews on at least an annual basis the performance of each of the other NEOs and other executive officers. Based on these performance reviews and the Company's overall performance, our CEO makes recommendations to the

Committee on any changes to base salaries, incentive compensation awards and equity awards. The Committee considers the recommendations submitted by our CEO, as well as data and analyses provided by management, but retains full discretion to approve or recommend for Board approval all executive compensation.

Competitive Benchmarking Against Peers

Historically, we had one primary benchmarking reference peer group for compensation purposes, as well as for performance benchmarking for certain incentive awards. In 2012, the Committee enhanced our peer benchmarking practices by establishing both a compensation benchmarking peer group (*Compensation Peer Group*) and a new performance peer group (*Performance Peer Group*). The Compensation Peer Group includes companies that are similarly-sized, have some business model similarities and compete with us for our talent. The Performance Peer Group focuses on performing companies with similar business models and includes some larger companies. Each group is further discussed below.

Compensation Benchmarking

In making compensation decisions, the Committee considers competitive compensation data from the Compensation Peer Group and periodically reviews the composition of companies within this group. In determining the composition of the peer group, the Company considers various factors and characteristics including market capitalization, asset size, assets under management, number of employees, business model and complexity of the platform, and performance on financial and market-based measures.

The Committee reviews on at least an annual basis the composition of companies within the Compensation Peer Group. During 2012, the Committee, along with management and the Committee's compensation consultant, reviewed the group used in 2011. They determined that the named companies continued to be appropriate and relevant and also added one additional company, First Republic Bancorp, to the list.

Performance Benchmarking

For certain incentive awards, we continued to use the Compensation Peer Group to measure performance. In particular, we measure our total stockholder return performance against this group for our Long-Term Cash Incentive Plan awards for the 2010-2012 performance period (which was determined in 2010 at the time the awards were granted), as well as our 2012 PRSU awards.

For 2012 awards under our Incentive Compensation Plan (*ICP*), our annual cash incentive plan, we measure a portion of those awards based on our relative ROE performance against the new Performance Peer Group. The Performance Peer Group is comprised of 20 companies, 17 of which are also in the Compensation Peer Group. In addition to those 17 companies, the group includes Comerica Incorporated, Huntington Bancshares Incorporated and Zions Bancorporation.

2012 Executive Compensation

Target Total Pay Mix

We continued to design total target compensation packages for our NEOs that emphasize long-term pay and performance-based pay, to drive performance and executive retention. The 2012 target total pay mix for our CEO and, on average, for the other NEOs was as follows:

Stock Options	Provides incentives for long-term creation of stockholder value over a four-year period, which is tied to the performance of our Common Stock. Stock option awards represent 46% of the NEOs total long-term equity award for 2012.	No material changes in our executive equity compensation practices from prior year. Continued to emphasize long-term incentives on equity to align executives with stockholder interests.
Performance-Based Restricted Stock Units (PRSUs)	Provides incentives to motivate and retain executives and to reward for our TSR performance relative to peer performance. Target PRSUs represent 34% of the NEOs total long-term equity award for 2012.	Continued to use a mix of equity awards which included PRSUs, RSUs, and stock options. 2012 PRSUs were subject to TSR performance relative to peer performance. Based on the Company s 2012 TSR ranking amongst the Compensation Peer Group, the Committee deemed 100% of the PRSUs earned, which then are subject to further time-based vesting through December 20, 2014.
Restricted Stock Units (RSUs)	Provides incentives for retention and long-term creation of stockholder value over a four-year period. RSU awards represent 20% of the NEOs total long-term equity award for 2012.

For 2012, such imputed income was primarily associated with spousal travel to our business events where our executives' spouses or significant others were invited, and expected to, attend.
	Elements of Compensation		

Base Salary

We provide base salaries in order to provide each NEO with a reasonable level of fixed short-term compensation. Base salary levels for our NEOs are typically reviewed at least annually by the Committee and adjusted as appropriate. When determining any NEO base salary increases, the Committee considers an individual NEO's total compensation package, his or her performance, Company performance, and other relevant factors, including for example the scope of the NEO's responsibilities relative to peers and retention concerns, if any. The Committee also takes into consideration changes in the competitive market base salaries among our Peer Group for the position in question.

Table of Contents

Neither the Board (in the case of the CEO) nor the Committee (in the case of the other NEOs) made any changes to the annual base salaries of our NEOs, except for a market adjustment increase of 4.2% for Ms. Dent:

NEO/Other Executive	Amount of Increase	2012 Annual Base Salary
Greg Becker	\$ ---	\$ 800,000
Michael Descheneaux	---	485,000
David Jones	---	400,000
Joan Parsons	---	385,000
Mary Dent	15,000	375,000

Annual Cash Incentives

Our NEOs participate in the Company's Incentive Compensation Plan for executives (*ICP*), an annual cash incentive plan that rewards performance against individual and Company objectives.

NEO Target Awards

For each participant, the Committee establishes a target incentive, stated as a percentage of the individual's annual base salary. Neither the Board (in the case of the CEO) nor the Committee (in the case of the other NEOs) made any changes to any of the NEOs' targets during 2012. Target percentages remained the same as the prior year:

NEO/Other Executive	Target ICP
Greg Becker	70%
Michael Descheneaux	40
David Jones	40
Joan Parsons	45
Mary Dent	50

ICP Funding

Each year, the Committee establishes one or more metrics that it will use to measure company performance for ICP funding purposes. The Committee will also determine the extent to which the Company will fund the incentive pool based on those metrics and overall Company performance. For 2012, the Committee continues to believe that ROE is an appropriate indicator of financial performance that is directly related to the creation of stockholder value, especially if the Company measures performance against its own objectives as well as peer performance. Accordingly, the Committee established the following two performance metrics:

- i *ROE Against our Annual Target ROE (Two-Thirds (2/3) of Pool)* - Similar to prior years, for 2012, the Committee established ROE relative to our Board-approved annual target ROE as an ICP performance metric. Two-thirds (2/3) of the total incentive pool is funded based on performance against this metric. The graph below illustrates the relationship in 2012 between (i) achieved ROE as a percentage of the annual plan, and (ii) the percentage of the target incentive pool accrued for the NEOs. There is a maximum funding amount of 200% of target payment for achievement of 150% or over of our target

ROE under our annual plan. In 2012, the Committee made it more challenging for executives to achieve the funding maximum by increasing this performance requirement from 125% (from 2011 and prior years) to 150% of actual ROE performance against our target ROE.

Table of Contents

The Committee retains discretion to fund up to 50% of the target ICP pool for performance below the 90% threshold, if and when it believes that making partial ICP payments are in the Company's interests. The Committee decides in whether and to what extent it will fund or spend the provisional pool and in no way does this pool represent a form of guaranteed incentive payments. The Committee did not approve any provisional funding pool for 2012 because of the Company's above-target ROE performance.

In addition, the Committee retains discretion to determine the extent to which the Company met its ICP performance target, including discretion to consider adjustments for certain out of the ordinary items, such as non-recurring accounting items. During 2012, per management's recommendation and in consultation with the Chair of the Board's Audit Committee, the Committee excluded certain non-recurring gains from the sale of investments, 50% of the gains and losses on non-marketable securities over budget (net of noncontrolling interests), and gains from the sale of certain assets.

- i *ROE Against Performance Peer Group (One-Third (1/3) of Pool)* - For 2012, the Committee also added ROE relative to the Performance Peer Group as an additional ICP performance metric. (See *Competitive Benchmarking Against Peers* above.) One-third (1/3) of the total incentive pool is funded based on performance against this metric.

ROE Performance (Against Performance Peer Group)	Bottom Quintile	Second Quintile	Middle Quintile	Fourth Quintile	Top Quintile

Funding of 1/3 of Target***ICP Pool***

Based on ROE Performance Against Peer Performance ***0% of Target*** ***50% of Target*** ***100% of Target*** ***150% of Target*** ***200% of Target***

For 2012, the Committee determined that: (i) 2/3 of the executive ICP pool would be funded at 128% of target, based on the Company's ROE performance, as adjusted, after taking into account the exclusions of certain non-recurring items as discussed above; and (ii) 1/3 of the executive ICP pool would be funded at 100% of target, based on the Company's relative ROE performance, ranking within the middle quintile of its Performance Peer Group. In addition to these two ROE metrics, the Committee took into consideration the overall strong performance of the Company in 2012, and approved funding the executive ICP pool at 129% of total target.

Table of Contents*2012 NEO ICP Awards*

At the close of the year, the Committee determines actual incentive awards for the NEOs based upon the individual's target incentive level, the Company's performance, and the individual NEO's performance. ICP awards for NEOs may be at, above, or below the target incentive and are determined by the Committee (or in the case of the CEO, by the Board).

In determining each NEO's performance, the Committee considered a variety of factors that it believed to be relevant, including each NEO's contributions to (i) the Company's business and financial results, (ii) the Company's successful execution of its 2012 corporate initiatives, and (iii) broader leadership within the organization. For Mr. Becker, the Committee considered the performance assessment conducted by the Board. For the other NEOs, the Committee considered the performance assessments conducted by Mr. Becker. In addition to these management assessments, the Committee considered its direct observations and assessments of each NEO's performance.

The Board had determined that the CEO, and the Committee determined that the other NEOs, had earned the following incentive awards for 2012:

Equity Incentives

Each NEO is eligible to receive equity awards, including stock options, restricted stock units and restricted stock awards under our 2006 Equity Incentive Plan. The Company believes that equity-based awards, particularly in combination with the Company's equity ownership guidelines as discussed below, tie each of the NEOs' compensation to the Company's long-term financial performance and align the interests of the NEOs and our stockholders.

The Committee typically makes equity awards to each NEO at the time the individual is hired or promoted, and annually thereafter. The size of the awards reflects the overall number of shares available to the Company under its equity incentive plan, the Committee's determination of an appropriate annual equity burn rate (the percentage of total shares outstanding that the Company has issued during the year in the form of equity compensation), the NEO's role and performance, and the market compensation data for the NEO's external peers.

Table of Contents

Similar to 2011, in 2012, the Committee continued to focus on the future performance of the Company's common stock, and continued its emphasis on long-term equity compensation. The Committee determined a target long-term equity award total value for each NEO and, effective as of May 1, 2012, awarded each NEO the following mix of performance-based (80%) and non-performance-based (20%) equity awards, as further discussed below:

NEO/Other Executive	NEO Equity Awards Granted in 2012		
	Number of Shares of the Common Stock Subject to:		
	<i>Non-Performance-Based Equity Awards (20%)</i>	<i>Performance-Based Equity Awards (80%)</i>	
	Restricted Stock Units (20%)	Stock Options (46%)	Performance-Based Restricted Stock Units (34%) (Target)
Greg Becker	5,200	28,100	8,800
Michael Descheneaux	3,100	17,400	5,300
David Jones	2,200	11,900	3,700
Joan Parsons	1,700	9,200	2,900
Mary Dent	1,600	9,000	2,700

The **stock options** and **restricted stock units (RSUs)** are subject to annual vesting over a four-year period. The stock options have a maximum term of seven years. The Committee did not establish performance-based criteria, as the value of these stock options, and any increase in the value of the RSUs, are inherently tied to the future performance of the Company's common stock.

The **performance-based restricted stock units (PRSUs)** are subject to performance-based vesting over a one-year period and to the extent earned, additional time-based vesting. The Committee determines the performance conditions upon which the awards are earned, which for 2012, was the Company's TSR performance, as measured against its Peer Group:

Relative TSR Performance (Against Peer Group)	Bottom Quartile	Second Quartile	Third Quartile	Top Quartile
		(0-25% of 2012 Compensation Peer Group Performance)	(26-50% of 2012 Compensation Peer Group Performance)	(51-75% of 2012 Compensation Peer Group Performance)
<i>Extent of PRSUs</i>				<i>150% of Target</i>
<i>Earned</i>	<i>0% of Target</i>	<i>50% of Target</i>	<i>100% of Target</i>	<i>(Maximum)</i>

After the end of the year, the Committee determined whether (and to what extent) the NEOs had earned the PRSUs, based on the Company's performance against the TSR. While the determination of the extent the PRSUs are earned is largely formulaic as provided above, the Committee may exercise discretion to make any adjustments (not to exceed the maximum 150% of target level), to take into consideration Company and/or individual performance.

For 2012, as calculated for purposes of the PRSUs, the Company's TSR ranked 73% and fell within the third quartile of the Compensation Peer Group. Accordingly, the Board and the Committee determined that the CEO and the other NEOs, respectively, had earned 100% of their respective target PRSUs. The earned PRSUs are subject to additional time-based vesting and will vest on December 20, 2014, subject to each respective NEO's continued employment or other service to the Company.

Long-Term Cash Incentives

The Committee did not make any new long-term cash incentive awards to any NEO in 2012.

The Committee approved the final payout under the Cash Long Term Incentive Plan (*Cash LTIP*), relating to an award granted in 2010. In 2010, the Company implemented the Cash LTIP for executive officers to increase the proportion of long-term performance-based pay in our executives' total target compensation packages and to manage the Company's equity burn rate. In 2011, the Committee increased the NEOs' long-term equity incentives (as discussed above under *Equity Incentives*), and discontinued making new awards under the Cash LTIP. Thus, the only awards made under the Cash LTIP plan were in 2010, which cover the 2010-2012 performance period.

Cash LTIP awards are deemed earned as determined by the Committee and are not guaranteed. The Committee determined 2012 payouts for the 2010 awards based on the performance metrics established at the time of the awards were granted—the Company's book value growth and relative total shareholder return performance during the 2010-2012 performance period:

Target Award Payment: Book Value Growth* (50% of Target) Company TSR, as measured against range of Compensation Peer Group TSR (50% of Target)	75% of Target Award (Threshold Payment)	100% of Target Award (Target Payment)	125% of Target Award (Maximum Payment)
	90% of Annual Book Value Growth Target Lower 35% of	100% of Annual Book Value Growth Target Middle 30% of	110% of Annual Book Value Growth Target Upper 35% of
	Compensation Peer Group TSR	Compensation Peer Group TSR	Compensation Peer Group TSR

*The calculation of the actual award is intended to be calculated on a linear basis based on the achievement against established book value goals, subject to the Committee's discretion to adjust the award.

While the Committee intends to primarily consider the above performance goals to determine payouts under the 2010 awards, the Committee may approve actual awards based on other factors it deems appropriate and may make any adjustments to the awards to take into consideration Company and/or individual performance.

To determine the final payouts for the 2010 Cash LTIP awards, the Committee reviewed the Company's total shareholder return and book value performance over 2010, 2011 and 2012 to determine the final total payout for the three years. Overall, based on: (i) the Company's TSR for the cumulative three year period, which ranked within the upper 35% of the Compensation Peer Group; (ii) the Company's achievement of its book value targets for each of 2010, 2011 and 2012, which was 125%, 125% and 120% of target, respectively; and (iii) overall Company and individual performance, the Board and the Committee determined that the CEO and the other NEOs, respectively, earned approximately 124% of the target award for the 2010-2012 three year performance period. Accordingly, the Committee approved the third and final payments under the Cash LTIP, which represented 40% of the total three-year target award, as follows (as adjusted for amounts previously paid for 2010 and 2011):

Participant	Target Award		Final Award for 2012 (Year 3)
	for 2010-2012 Three-Year Performance Period		(40% of total target award)
Greg Becker	\$	212,600	\$ 120,119
Michael Descheneaux		107,800	60,907
David Jones		150,000	84,750
Joan Parsons		181,500	102,548
Mary Dent		60,000	33,900

In 2013, the Committee terminated the Cash LTIP plan.

Executive Benefits

Deferred Compensation

We do not provide NEOs with any Company-funded deferred compensation benefits. However, in order to help them achieve their retirement objectives, we offer each NEO the opportunity to tax-defer a portion of their income, beyond what is allowed to be deferred in the Company's qualified retirement plan. Specifically, under our Deferred Compensation Plan (*DCP*), each individual may defer 5% to 25% of their base pay and 5% to 100% of eligible incentive payments during each plan year. The DCP is an unfunded plan, and participating executives bear the risk of forfeiture in the event that we cannot fund DCP liabilities. We do not match executive deferrals to the DCP, nor do we make any other contributions to the DCP. See *Compensation for Named Executive Officers Non-Qualified Deferred Compensation* below.

We establish and maintain a bookkeeping account for each participant which reflects compensation deferrals made by the executive along with any associated earnings, expenses, gains and losses. The amount in a participant's account is adjusted for hypothetical investment earnings or losses in an amount equivalent to the gains or losses reported by the investment options selected by the participant from among the investment options designated for this purpose by the Company. A participant may, in accordance with rules and procedures we establish, change the investments to be used for the purpose of calculating future hypothetical investment adjustments to the participant's account. The account of each participant is adjusted each business day to reflect: (a) the hypothetical investment earnings and/or losses described above; (b) participant deferrals; and (c) distributions or withdrawals from the account. Distributions or withdrawals from the DCP shall be made in full accordance with the requirements of Internal Revenue Code Section 409A.

No NEOs participated in the DCP in 2012. Among the NEOs, only Mr. Becker holds a balance due to deferrals made under the plan in 2008.

Employee Retirement Benefits

Our NEOs are eligible to participate in our SVB Financial Group 401(k) and Employee Stock Ownership Plan, our qualified retirement plan that is generally available to all of the Company's U.S. employees. Our NEOs participate in the plan on the same terms as all other eligible employees. Other than our 401(k) plan, SVB Financial Group does not provide any pension, excess retirement, or SERPs to our NEOs.

Under our 401(k) plan, our U.S. employees, including our NEOs, may make voluntary pre-tax deferrals up to the maximum provided for by IRS regulations. The Company provides dollar-for-dollar matching contributions up to a maximum of 5% of cash compensation or the Internal Revenue Section 401(a) compensation limit, whichever is less. Company 401(k) matching contributions vest immediately upon deposit into the individual's 401(k) account.

The plan also includes an Employee Stock Ownership Plan (*ESOP*). As determined by the Committee, we make discretionary annual contributions for U.S. employees of up to 10% of eligible compensation. ESOP contributions may be in the form of cash, the Company's common stock, or a combination of both, and are subject to certain vesting conditions. Contributions are determined based on the Company's performance and are not adjusted to reflect individual performance.

For 2012, the Committee established performance criteria based on the Company's ROE, similar to the ICP, to fund the ESOP contribution, and established a 5% (of eligible compensation) funding level based on target ROE performance. In 2012 and similar to 2011, the Committee capped contributions at a maximum of 5%, even if the

Company's ROE achievement exceeded target performance. As a result, despite the Company's above-target achievement of ROE for 2012, the Committee approved a contribution of 5% of eligible compensation in cash (50%) and the Company's common stock (50%).

Table of Contents

Health and Welfare Benefits

Our U.S. employees, including our NEOs, are eligible to participate in our standard health and welfare benefits program, which provides insured medical, dental, life, accident, and disability coverage to all of our eligible U.S.-based employees. We do not provide executives with any health and welfare benefits that are not generally available to other Company employees.

Time Away From Work

During 2012, we adopted a new time away from work policy for exempt employees, including our NEOs. The purpose of this policy was to eliminate the increasing financial liability of vacation accruals, while continuing to encourage employees to take time away from work. Under the policy, exempt employees no longer accrue vacation benefits. Rather, employees are expected to manage their time away from work, subject to the demands and needs of their jobs. Non-exempt employees continue to accrue vacation, sick and other paid time off benefits formulaically.

In 2012, exempt employees, including the NEOs, received a one-time payout of any unused and accrued vacation pursuant to the new policy.

Executive Termination Benefits

See *Compensation for Named Executive Officers Other Post-Employment Payments* below.

Perquisites

We do not have any executive perquisite programs other than reimbursement of income taxes incurred by our executives on imputed income. For 2012, such imputed income was primarily associated with spousal travel to our business events where our executives' spouses or significant others were invited, and expected to, attend. From time to time, we may provide other benefits that may be considered perquisites on a limited or exception basis, which we disclose as required by applicable rules.

Stock Option and Other Equity Grant Practices

Grant Practices for Executive Officers

The Committee approved all equity grants in 2012 made to executive officers of the Company. Beginning in 2013, the Committee will continue to approve all executive equity grants, except that the independent members of the Board will approve any equity grant made to the Chief Executive Officer. Typically, annual equity compensation grants to executives are approved during the first or second quarters of the year, and grants are made effective during an open trading window pursuant to our Insider Trading Policy. The exercise price for stock option grants is equal to the closing market price on the grant's effective date and grants typically have an annual vesting period of four years, subject to continued employment or service. All 2012 grants to our NEOs were made in accordance with this practice.

For newly-hired executive officers, the Committee typically approves an equity grant amount prior to the executive's start of employment, and the effective grant date is typically set during an open trading window after they commence employment. This approach ensures that the exercise price of stock options reflects a fair market price, since the exercise price for stock option grants is equal to the closing market price on the grant's effective date.

Grant Practices for Other Employees

The Board has delegated authority to the Equity Awards Committee to make equity grants to non-executive employees under our 2006 Equity Incentive Plan. The Equity Awards Committee is a committee of two, comprised of our Chief Executive Officer and the Chair of our Board. The Equity Awards Committee may not make equity grants to executives or any non-executive employee that reports directly to the Chief Executive Officer.

The Equity Awards Committee may make grants only within established individual employee and aggregate share limits and in accordance with established requirements regarding the term, vesting period, exercise price and other terms and conditions for the grant. In addition, all grants of stock options, stock appreciation rights, and restricted stock units made

Table of Contents

by the Equity Awards Committee must be made (or become effective) on the first Monday of each month or, where the first Monday is a Company-observed U.S. holiday, on the first Tuesday of such month. The Equity Awards Committee must approve all grants in writing on or before the date of grant, subject to the respective employee remaining an employee as of the date of grant. Finally, management updates the Committee regarding all grants made by the Equity Awards Committee on a regular basis. Any grant that does not meet the requirements established for the Equity Awards Committee must be made by the Board, the Committee or other authorized committee.

The Committee typically approves annual grants to all eligible employees, as well as any other grants that the Equity Awards Committee is not authorized to approved.

Prohibitions Against Hedging

Pursuant to our Insider Trading Policy, our directors, executive officers (including our NEOs) and employees are not permitted to hedge ownership by selling puts in or selling short any of the Company's publicly-traded securities at any time.

Section 162(m)

Section 162(m) of the Internal Revenue Code of 1986, as amended (the *Code*) limits our deductibility of compensation paid to our CEO and each of the next three most highly compensated executive officers (excluding the Chief Financial Officer) in excess of \$1,000,000, but excludes performance-based compensation from this limit. Stock options and performance-based restricted stock units vesting solely upon achievement of performance goals awarded under our 2006 Equity Incentive Plan qualify for this tax deductibility. However, in order to maintain flexibility and promote simplicity in the Committee's administration of and oversight over executive compensation arrangements, other compensation arrangements, such as time-based restricted stock units that vest based solely on continued service, and payments under ICP and Cash LTIP, are designed to allow the Committee to balance tax deductibility with other business priorities that affect stockholder value.

Equity Ownership Guidelines for Executive Officers

The Company maintains stock ownership guidelines for the Company's executive officers, including the NEOs. These stock ownership guidelines reflect the Board's belief in the importance of aligning the economic interests of stockholders and management.

The Compensation Committee is responsible for setting and periodically reviewing the guidelines. During 2012, the Committee revised the guidelines by increasing the minimum equity ownership requirement for substantially all of the executive officer positions, including CEO, CFO and the other NEO positions. The guidelines are as follows:

	Minimum Equity Ownership of SIVB shares*
Chief Executive Officer	80,000 shares
Chief Financial Officer	20,000 shares
Chief Credit Officer	
General Counsel	

**Head of U.S. Banking
Chief Operations Officer**

Chief Strategy and Risk Officer

14,000 shares

Head of Relationship Management

Head of Marketing

9,500 shares

Head of Human Resources

* The minimum equity ownership standards for executive officers under these guidelines are based on a position-specific multiple of current salary, calculated using a trailing twelve-month average share price. For example, the 80,000 shares requirement applicable for the Chief Executive Officer is based on a multiple of over 5 times his annual base salary at the time the standards were adopted.

Table of Contents

Under the revised guidelines, if any current executive officer has not yet attained the minimum requirement, he or she is expected to attain the minimum level of ownership by May 23, 2017. New executive officers will be expected to attain the minimum level of ownership by the fifth anniversary of the date of his or her assumption of the applicable position.

The Governance Committee monitors compliance with these guidelines and reviews executive equity holdings on a quarterly basis. In evaluating whether executives are meeting the ownership guidelines, the Governance Committee considers the following as shares owned: (1) shares privately held, (2) shares owned through investment in the Company's stock fund in the SVB Financial Group 401(k) and Employee Stock Ownership Plan, and (3) earned but unvested awards of restricted stock and restricted stock units. The Committee does not count vested or unvested stock options towards the ownership guidelines. Exceptions to meeting the guidelines due to personal financial or other reasons are reviewed and determined by the Governance Committee.

As of December 31, 2012, all of our NEOs were in compliance with the applicable ownership guidelines.

Pension Benefits

The Company does not maintain any defined benefit pension plans.

Table of Contents**Non-Qualified Deferred Compensation**

The following table sets forth information about executive contributions to, earnings from, and distributions of non-qualified deferred compensation under the Company's Deferred Compensation Plan. The Company does not maintain any other non-qualified deferred compensation program for its NEOs.

- (1) Mr. Becker participated in the Deferred Compensation Plan in 2008. No additional contributions were made during 2012.

Other Post-Employment Payments

There are certain circumstances in which our NEOs may be entitled to post-employment payments, which are discussed in further detail below:

Change in Control Plan

Our Change in Control Plan, adopted in 2006, provides a specified severance benefit to our executive officers in the event their employment is involuntarily terminated (or they resign from such employment for a good reason, as defined by the plan) following a change in control of the Company. The Company adopted this plan in order to ensure that its executives did not have a disincentive to consider and, where determined by the Board or stockholders, as appropriate, to be in the Company's best interests, to act diligently to promote a change in the control of the Company.

In 2012, we amended our Change in Control Plan to eliminate a tax gross-up provision, which provided coverage for an individual executive's excise taxes if the total change-in-control benefits to that individual exceeded the Internal Revenue Code Section 280G limit by more than 10%. Other than this amendment, we did not make any other material amendments or changes to the plan in 2012.

The plan provides for a cash severance payment equal to 300% of base salary and target ICP incentive for the Chief Executive Officer, 200% of base salary and target ICP incentive for the Chief Financial Officer, the President and the Chief Strategy and Risk Officer, and 100% of base salary and target ICP incentive for the other executive officers. In addition, it provides for up to 12 months of Company-paid COBRA medical, dental and vision coverage, full vesting of Company contributions to tax-qualified retirement plans, and certain outplacement services.

The circumstances that constitute a Change in Control are set forth in the Change in Control Plan. Generally speaking, a Change in Control includes a merger or consolidation, other than a merger or consolidation in which the owners of

the Company's voting securities own fifty percent (50%) or more of the voting securities of the surviving entity; a liquidation or dissolution or the closing of the sale or other disposition of all or substantially all of the Company's assets; an acquisition by any person, directly or indirectly, of 50% or more of the Company's voting securities; and an acquisition by any person, directly or indirectly, of 25% or more of the Company's voting securities and, within twelve (12) months of the occurrence of such event, a change in the composition of the Board occurs as a result of which sixty percent (60%) or fewer of the directors are incumbent directors.

Our Change in Control Plan includes a number of restrictive covenants that govern the executives' rights to receive benefits under the plan. Specifically, unless the Company provides otherwise in writing, the executive must not directly or indirectly engage in, have any ownership in or participate in the financing, operation, management or control of any person, firm, corporation or business that competes with the Company or its affiliates, or any customer of the Company or its affiliates, for 18 months with respect to the Chief Executive Officer, 12 months for the Chief Financial Officer, President and Chief Strategy Officer, and six months for other covered executives. In addition, unless the Company provides otherwise in writing, the executive may not directly or indirectly solicit, recruit or otherwise hire or attempt to hire any employee of the

Table of Contents

Company or cause any such person to leave his or her employment during the periods described in the previous sentence. Finally, the executive must execute a general release of claims in favor of the Company covering all claims arising out of the executive's involuntary termination of employment (as defined in the Change in Control Plan) and employment with the Company and its affiliates.

Any benefits payable to an executive under this Plan are reduced by any severance benefits we pay to that executive under any other policy, plan, program, or arrangement, including our Group Severance Benefit Policy.

SVB Financial Group Severance Benefit Policy

The Company's Severance Benefit Policy provides severance pay and benefits to eligible employees who are involuntarily terminated from employment due to staff reduction, position elimination, closure of a business unit, organization restructuring, or such other circumstances as the Company deems appropriate for the payment of severance benefits. The policy is intended to promote the Company's ability to modify its workforce and structure while providing a reasonable level of certainty and job security to its employees. The policy covers all regular full-time or regular part-time employees, including the NEOs.

The policy provides for a cash severance payment based on level of job. For NEOs, this benefit is equal to 6 weeks pay per year of service including a pro-rata amount for each partial year worked, with a minimum benefit of 6 months pay and a maximum benefit of 1 year's pay. In addition, under the policy the Company continues to make co-payments for COBRA medical, dental, and vision coverage during the severance pay period and pays for certain designated outplacement services provided by a Company-selected external vendor. Any benefits payable to an executive under this Policy are reduced by any severance benefits we pay to that executive under any other policy, plan, program, or arrangement, including our Change in Control Plan discussed above.

Long-Term Cash Incentive Plan

The Cash LTIP provides for post-termination payments under certain circumstances, subject to the Committee's determination. If a participant's service is terminated as the result of his or her death or disability, then the participant (or his or her estate) will be entitled to receive a pro-rata portion of the actual award (as determined by the Committee) he or she would otherwise have received had the participant remained employed through the end of the applicable performance period (less amounts previously paid, if any). If the Cash LTIP plan is terminated in connection with a change of control that occurs during the performance period, or if the plan continues following a change of control but the participant is terminated without cause or resigns for good reason within ninety (90) days prior to, or at any time following the change of control, the participant will be paid an actual award for the performance period then in progress with the amount to be based on actual achievement of the previous year's performance goals, or if there are none, at 100% of target (less amounts previously paid, if any).

Additionally, if a participant terminates his or her service during the performance period as the result of his or her retirement, then the participant will be entitled to receive the actual award (as determined by the Committee) he or she would have otherwise received had the participant remained employed through the end of the performance period (less amounts previously paid, if any). For purposes of the Cash LTIP, retirement means a resignation from the Company or any affiliate if at the time of the resignation a participant is at least 62 years old, has completed at least 20 years of service with the Company or any affiliate, and is in good standing as determined by the Company.

The Cash LTIP plan was terminated in 2013.

Equity Incentive Plans

The Company's 2006 Equity Incentive Plan, in which the NEOs participate, provides for full vesting of outstanding awards in the event of a change in control (as defined in the plan) of the Company in the event that a successor corporation does not assume or substitute an equivalent option or right for the original equity awards under the plans. The Company's 1997 Equity Incentive Plan, in which certain NEOs participate, provides for full vesting of outstanding awards in the event of a change in control (as defined in the plan) of the Company.

Table of Contents**Proposal No. 2****RATIFICATION OF APPOINTMENT OF****INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM****The Board of Directors Recommends a Vote For the Ratification of the Appointment
of KPMG LLP as the Company's Independent Registered Public Accounting Firm**

The Audit Committee has appointed the firm of KPMG LLP to be the independent registered public accounting firm of the Company for the 2013 fiscal year. KPMG LLP has audited the Company's financial statements since November 1994. While neither the Company's bylaws nor other governing documents require stockholder ratification of the selection of KPMG LLP as the Company's independent registered public accounting firm, the Board is, based on the recommendation of the Audit Committee, submitting the appointment of KPMG LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders do not ratify such selection by the affirmative vote of the holders of a majority of the Votes Cast, the Audit Committee may reconsider its selection.

Representatives from the firm of KPMG LLP will be present at the Meeting and afforded the opportunity to make a statement if they desire to do so. They will also be available to respond to stockholders' questions.

PRINCIPAL AUDIT FEES AND SERVICES

The following table sets forth fees for services billed by or expected to be billed by KPMG LLP for the fiscal years 2012 and 2011, all of which were approved by the Audit Committee in conformity with its pre-approval process:

	2012	2011

Audit-related fees (1)	191,993	198,391
Tax fees (2)	557,412	569,274

Total	\$ 5,509,938	\$ 5,187,644

- (1) Consists principally of fees billed or expected to be billed related to reviews of internal controls for selected information systems and business units (SSAE 16 audits), and services related to proposed accounting standards.
- (2) Represents fees for services provided in connection with the Company's tax compliance and advice.
- (3) Represents fees for advisory services relating to the Company's global banking initiatives, analysis of certain accounting standards and processes, and analysis of outsourcing initiatives.

In accordance with its charter, the Audit Committee must explicitly approve the engagement of the independent auditor for all audit and permissible non-audit related services, as required by law. The charter also provides that, to the extent permitted by applicable law, the Audit Committee may adopt pre-approval policies and procedures, as well as delegate authority to grant approvals to one or more members of the Audit Committee. During the fiscal years 2012 and 2011, all such services provided by KPMG LLP were approved or pre-approved by the Audit Committee. Additionally, all non-audit related services provided by KPMG LLP were reviewed with the Audit Committee, which concluded that the provision of such services did not compromise KPMG LLP's independence in the conduct of its auditing function. KPMG LLP also confirmed their independence to the Audit Committee.

Proposal No. 3

ADVISORY (NON-BINDING) VOTE ON THE COMPANY'S EXECUTIVE COMPENSATION

The Board of Directors Recommends a Vote FOR the Approval of the Compensation of our Named Executive Officers, as Disclosed in this Proxy Statement

In 2011, pursuant to the recommendation of our Board of Directors, our stockholders approved the frequency of our advisory vote to approve our executive compensation (otherwise known as *Say on Pay*) to be on an annual basis. Pursuant to Section 14A of the Exchange Act, we are submitting this Say on Pay vote to provide our stockholders with the opportunity to vote to approve, on an advisory (non-binding) basis, the compensation of our NEOs as further described in the Compensation Discussion and Analysis section of this Proxy Statement, including the compensation tables and narrative discussion. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our NEOs and the philosophy, policies and practices described in this Proxy Statement.

We ask our stockholders to indicate their support for our executive compensation program for our NEOs and vote FOR the following resolution at the Meeting:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion is hereby APPROVED.

Because your vote is advisory, it will not be binding upon the Board or the Compensation Committee and may not be construed as overruling any decision by the Board or the Compensation Committee. However, the Board and Compensation Committee may, in each of their sole discretion, take into account the outcome of the vote when considering future executive compensation arrangements.

Stockholders are encouraged to carefully review the Compensation Discussion and Analysis and Compensation for Named Executive Officers sections of this Proxy Statement for a detailed discussion of the Company's executive compensation program for our NEOs.

INFORMATION ABOUT VOTING AND PROXY SOLICITATION

Voting

Stockholders of the Company's Common Stock are entitled to one vote for each share held on all matters covered by this Proxy Statement, except for the election of directors. With respect to the election of directors, each stockholder has the right to invoke cumulative voting, which entitles each stockholder to as many votes as shall equal the number of shares held by such stockholder multiplied by the number of directors to be elected. A stockholder may cast all of his or her votes for a single candidate or distribute such votes among as many of the candidates as he or she chooses (up to a maximum of the number of directors to be elected). However, no stockholder shall be entitled to cumulate votes for a candidate unless such candidate's name has been properly placed in nomination prior to the voting in accordance with Article Fifth of the Restated Certificate of Incorporation of the Company and the stockholder (or any other stockholder) has given notice at the meeting prior to the voting of the stockholder's intention to cumulate votes. If any stockholder has given such notice, all stockholders may cumulate their votes for candidates properly placed in nomination. If cumulative voting is properly invoked, the Proxy holders (the individuals named on the Proxy Card) are given discretionary authority under the terms of the Proxy to cumulate votes represented by shares for which they are named Proxy holders as they see fit among the nominees in order to assure the election of as many of such nominees as possible.

Whether you hold shares in your name or through a broker, bank or other nominee, you may vote without attending the meeting. You may vote by granting a Proxy or, for shares held through a broker, bank or other nominee, by submitting voting instructions to that nominee. Instructions for voting by telephone, by using the Internet or by mail are on your Proxy Card or Notice Regarding the Availability of Proxy Materials, as applicable. For shares held through a broker, bank or other nominee, follow the voting instructions included with your materials. If you provide specific voting instructions, your shares will be voted as you have instructed for any item on which you provide instructions and as the Proxy holders may determine within their discretion for any other matters, including any additional matters, which properly come before the meeting.

If you hold shares in your name and you sign and return a Proxy Card without giving specific voting instructions, your shares will be voted as recommended by our Board on all matters set forth in this Proxy Statement and as the Proxy holders may determine in their discretion with respect to any other matters that properly come before the meeting. If you hold your shares through a broker, bank or other nominee and you do not provide instructions on how to vote, your broker or other nominee may have authority to vote your shares on certain matters. *See Quorum; Abstentions; Broker Non-Votes* below.

Quorum; Abstentions; Broker Non-Votes

The required quorum for the transaction of business at the Meeting is a majority of the shares of Common Stock issued and outstanding on the Record Date. Shares voted are treated as being present at the meeting for purposes of establishing a quorum and are also treated as shares represented and voting at the Meeting (the *Votes Cast*) with respect to such matter.

The Company counts abstentions for purposes of determining both (i) the presence or absence of a quorum for the transaction of business, and (ii) the total number of Votes Cast with respect to a proposal (other than Proposal No. 1 regarding the election of directors). Accordingly, in cases other than the election of directors, abstentions will have the same effect as a vote against the proposal.

Broker non-votes occur on a matter when a broker, bank or other nominee is not permitted to vote on that matter without instructions from the beneficial owner and the beneficial owner does not give instructions. Without such voting instructions, for example, your broker or other nominee cannot vote your shares on non-routine matters such as the election of directors and the advisory vote on Say on Pay. Your broker or other nominee may, however, have discretion to vote your shares on routine matters, such as the ratification of the appointment of KPMG LLP as the Company's independent registered public accounting firm for the 2013 fiscal year. Broker non-votes will be counted for purposes of determining the presence or absence of a quorum for the transaction of business but will not be counted for purposes of determining the number of Votes Cast with respect to proposals on which brokers, banks or other nominees are prohibited from exercising their discretionary authority.

Table of Contents**Voting Required**

The vote required for each proposal is as follows:

Proposal	Vote Required	Broker Non-Votes Allowed	You May Vote
<i>Proposal No. 1</i> - Election of Directors	Plurality of Votes Cast	No	FOR or WITHHOLD
<i>Proposal No. 2</i> - Ratification of Auditors	Majority of Votes Cast	Yes	FOR, AGAINST or ABSTAIN
<i>Proposal No. 3</i> - Advisory Vote on Say on Pay	Majority of Votes Cast	No	FOR, AGAINST or ABSTAIN

Revocability of Proxies

Any person giving a Proxy in the form accompanying this Proxy Statement has the power to revoke the Proxy at any time prior to its use. A Proxy is revocable prior to the Meeting by delivering either a written instrument revoking it or a duly executed Proxy bearing a later date to the Secretary of the Company. A Proxy is also automatically revoked if the stockholder is present at the Meeting and votes in person.

Solicitation

This solicitation of Proxies is made by, and on behalf of, the Board of Directors of the Company. The Company will bear the entire cost of preparing, assembling, printing, mailing and otherwise making available Proxy materials furnished by the Board of Directors to stockholders. Copies of Proxy materials will be furnished to brokerage houses, fiduciaries and custodians to be forwarded to the beneficial owners of the Company's Common Stock, as requested. In addition to the solicitation of Proxies by mail, some of the officers, directors and employees of the Company may (without additional compensation) solicit Proxies by telephone or personal interview, the costs of which the Company will bear.

Unless otherwise instructed, each valid returned Proxy that is not revoked will be voted:

FOR each of the Company's nominees to the Board of Directors,

FOR ratification of the appointment of KPMG LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2013,

FOR approval of an advisory (non-binding) proposal on the Company's executive compensation (*Say on Pay*), and

At the Proxy holders' discretion on such other matters, if any, as may properly come before the Meeting (including any proposal to adjourn the Meeting).

Delivery of Proxy Materials

In accordance with the rules adopted by the Securities and Exchange Commission (the *SEC*), commonly referred to as Notice and Access, we have decided to provide access to our Proxy materials over the internet instead of mailing a printed copy of the materials to every stockholder. Stockholders will not receive printed copies of the Proxy materials unless they request them. Instead, a Notice Regarding the Availability of Proxy Materials (the *Notice*) was mailed to stockholders of record (other than stockholders who previously requested electronic or paper delivery of proxy materials) on or about March 15, 2013. The Notice explains the process to access and review the information contained in the Proxy materials and how to vote their proxies over the internet. In addition, the Notice will provide you the option to instruct us to send our future Proxy materials to you electronically by email. All stockholders will have the ability to access the Proxy materials on a website referred to in the Notice or request to receive a printed set of the Proxy materials.

For those stockholders who will receive printed copies of the Proxy materials upon request or otherwise, you may receive more than one set of materials, including multiple copies of this Proxy Statement and multiple Proxy cards or voting instruction cards. For example, if you hold your shares in more than one brokerage account, you may receive a separate voting instruction card for each brokerage account in which you hold shares. If you are a stockholder of record and your

Table of Contents

shares are registered in more than one name, you will receive more than one Proxy Card. Please follow the instructions on your Proxy Card(s) and vote accordingly.

How to Obtain a Separate Set of Proxy Materials

Stockholders may request to receive Proxy materials in printed form by mail or electronically by email on an ongoing basis. Stockholders who sign up to receive Proxy materials electronically will receive an email with links to the materials, which may give them faster delivery of the materials and will help save printing and mailing costs and conserve natural resources. If you choose to receive future Proxy materials by email, you will receive an email next year with instructions containing a link to those materials and a link to the proxy voting site. Your election to receive Proxy materials by email will remain in effect until you terminate it.

For those stockholders who share an address with another stockholder, you may receive only one set of Proxy materials (including our 2012 Annual Report on Form 10-K, Proxy Statement or Notice Regarding the Availability of Proxy Materials, as applicable) unless you have provided contrary instructions. If you wish to receive a separate set of Proxy materials now or in the future, you may write or call us to request a separate copy of these materials from:

In general, our bylaws require that the notice be received by our Corporate Secretary:

Not earlier than the close of business on December 27, 2013, and

Not later than the close of business on January 26, 2014.

However, if the date of the stockholder meeting is moved more than 30 days before or 60 days after the first anniversary of the Company's annual meeting for the prior year, then notice of a stockholder proposal that is not intended to be included in the Company's Proxy Statement under Rule 14a-8 must be received no earlier than the close of business 120 days prior to the meeting and no later than the close of business on the later of the following two dates:

You may propose director candidates for consideration by the Board's Governance Committee. Any such recommendations should include the nominee's name and qualifications for Board membership and should be directed to our Corporate Secretary at the address of our principal executive offices set forth above. In addition, our bylaws permit stockholders to nominate directors for election at an annual stockholder meeting. To nominate a director, the stockholder must deliver a Proxy Statement and form of Proxy to holders of a sufficient number of shares of our Common Stock to elect such nominee and provide the information required by our bylaws, as well as a statement by the nominee acknowledging that he or she will owe a fiduciary obligation to the Company and its stockholders. In addition, the stockholder must give timely notice to our Corporate Secretary in accordance with our bylaws, which, in general, require that the notice be received by our Corporate Secretary within the time period described above under Stockholder Proposals.
