PROSPECTUS SUPPLEMENT

(To Prospectus dated August 29, 2012)

35,000 Shares

Series 21 Preferred Stock

We are offering 35,000 shares of Series 21 Preferred Stock (and 17.5 million shares of common stock issuable upon conversion thereof). The Series 21 Preferred Stock will not be listed on any national securities exchange.

Conversion

Each share of Series 21 Preferred Stock can be converted at the holder's option at any time after issuance into the number of shares of common stock determined by dividing the aggregate stated value of the Series 21 Preferred Stock of \$1,000 per share to be converted by the conversion price, which is initially \$2.00. The initial conversion price is subject to adjustment in certain events (including certain fundamental changes), which are explained in more detail under the section entitled "Description of the Securities We Are Offering." No shares of Series 21 Preferred Stock shall be convertible by a holder to the extent such conversion would result in the holder and its affiliates beneficially owning more than 9.99% of our common stock then outstanding, or the Beneficial Ownership Limitation.

On the first to occur of (i) the 30th day after the original issuance date of the Series 21 Preferred Stock, (ii) the date on which 5,000 or less shares of Series 21 Preferred Stock remain outstanding, or (iii) the adoption by our board of directors of a resolution that it intends to adopt an amendment to our amended and restated articles of incorporation, as amended, without shareholder approval to effect a reverse stock split with respect to our common stock in order to achieve compliance with the listing rules of The NASDAQ Capital Market or for other good faith business reasons (in each case, referred to as an Automatic Conversion Date), all outstanding shares of Series 21 Preferred Stock, except to the extent limited by the Beneficial Ownership Limitation, shall automatically convert into the number of registered shares of our common stock determined by dividing the aggregate stated value of the Series 21 Preferred Stock being converted by the conversion price then in effect. Notwithstanding the Beneficial Ownership Limitation, any shares of Series 21 Preferred Stock that were not converted into shares of our common stock on the Automatic Conversion Date shall automatically convert into shares of our common stock on the earlier of (i) the date on which the conversion of such shares of Series 21 Preferred Stock would no longer result in beneficial ownership of more than 9.99% of our common stock then outstanding by the particular holder and its affiliates and (ii) the 91st day after the original issuance date.

Ranking and Liquidation Preference

Shares of Series 21 Preferred Stock rank senior to our common stock. In the event of our voluntary or involuntary dissolution, liquidation or winding up, each holder of Series 21 Preferred Stock will be entitled to be paid a liquidation preference equal to the initial stated value of such holder's Series 21 Preferred Stock of \$1,000 per share, plus any declared and unpaid dividends and any other payments that may be due on such shares, before any distribution of assets may be made to holders of capital stock ranking junior to the Series 21 Preferred Stock.

Edgar Filing: CTI BIOPHARMA CORP - Form 424B5

The Series 21 Preferred Stock will have no voting rights, except as otherwise expressly provided in our articles of incorporation or as otherwise required by law.

SUMMARY

The following summary highlights information contained elsewhere, or incorporated by reference, in this prospectus supplement and the accompanying prospectus. The following summary does not contain all of the information that you should consider before investing in our securities. To understand this offering fully, you should read this entire prospectus supplement and the accompanying prospectus carefully, including the financial statements and the documents incorporated by reference.

Our Company

We are a biopharmaceutical company focused on the acquisition, development and commercialization of novel targeted therapies covering a spectrum of blood-related cancers that offer a unique benefit to patients and healthcare providers. Our goal is to build a profitable company by generating income from products we develop and commercialize, either alone or with partners. We are currently concentrating our efforts on treatments that target blood-related cancers where there is an unmet medical need. In particular, we are primarily focused on commercializing PIXUVRI® (pixantrone), or PIXUVRI, in the European Union, or the E.U., for multiply relapsed or refractory aggressive B-cell non-Hodgkin lymphoma, or NHL, and conducting a Phase 3 clinical trial program of pacritinib for the treatment of patients with myelofibrosis to support regulatory submission for approval in the United States, or the U.S., and Europe.

Corporate Information

We were incorporated in the State of Washington in 1991. Our shares of common stock trade on The NASDAQ Capital Market and the MTA in Italy under the symbol CTIC. Our principal executive offices are located at 3101 Western Avenue, Suite 600, Seattle, Washington 98121, and our phone number is (206) 282-7100. Our website is located at www.ctibiopharma.com; however, the information in, or that can be accessed through, our website is not part of this prospectus supplement or the accompanying prospectus.

Recent Developments

PIXUVRI

PIXUVRI is a novel aza-anthracenedione with unique structural and physiochemical properties. In May 2012, the European Commission granted conditional marketing authorization in the E.U. for PIXUVRI as a monotherapy for the treatment of adult patients with multiply relapsed or refractory aggressive B-cell NHL. PIXUVRI is the first approved treatment in the E.U. for patients with aggressive B-cell NHL who have failed two or three prior lines of therapy. In connection with the conditional marketing authorization, we are conducting the required post-approval commitment trial, which compares pixantrone and rituximab with gemcitabine and rituximab in the setting of aggressive B-cell NHL. As we do not anticipate completing this study and submitting the related report by the June 2015 completion date currently agreed upon with the European Medicines Agency, or the EMA, we have notified the EMA that we intend to seek an extension of such date by approximately one year.

As of the date of this filing, PIXUVRI is available in Austria, Denmark, Finland, France, Germany, Israel, Italy, Netherlands, Norway, Sweden and the United Kingdom and has achieved reimbursement decisions under varying conditions in England/Wales, Italy, France, Germany and the Netherlands. PIXUVRI is not approved in the U.S.

In September 2014, we entered into an exclusive license and collaboration agreement with Les Laboratoires Servier and Institut de Recherches Internationales Servier, or collectively Servier, to develop and commercialize PIXUVRI in a transaction valued at up to 103.0 million (or approximately \$133.5 million using the currency exchange rate as of September 12, 2014) in the event all milestones were to be achieved. Under this agreement, we retain full commercialization rights to PIXUVRI in Austria, Denmark, Finland, Germany, Israel, Norway, Sweden, Turkey, the U.K. and the U.S., with

Table of Contents

Servier having exclusive rights to commercialize PIXUVRI in all other countries. In October 2014, we received an upfront payment from Servier under the agreement of 14.0 million (or \$17.8 million using the currency exchange rate as of the date we received the funds in October 2014).

Pacritinib

Pacritinib is an oral tyrosine kinase inhibitor with dual activity against Janus Kinase 2, or JAK2, and FMS-like tyrosine kinase, or FLT3, that demonstrated meaningful clinical benefit and good tolerability in myelofibrosis patients in Phase 2 clinical trials. We believe pacritinib may offer an advantage over other JAK inhibitors through effective relief of symptoms with less treatment-emergent thrombocytopenia and anemia. In collaboration with Baxter International, Inc., we are pursuing a broad approach to advancing pacritinib for patients with myelofibrosis by conducting two Phase 3 clinical trials: one in a broad set of patients without limitations on blood platelet counts, or PERSIST-1, and the other in patients with low platelet counts, or PERSIST-2.

PERSIST-1 enrollment was completed in August 2014 and top-line results are expected in the first quarter of 2015. Based on the demographics of patients enrolled in PERSIST-1, the projected percent of patients enrolled with moderate or severe thrombocytopenia is expected to be generally consistent with the myelofibrosis population reported in the literature: approximately 60 percent of patients having platelet counts equal to or greater than 150,000/ μ L; and approximately 40 percent having mild, moderate-and-severe thrombocytopenia, or platelet counts of less than 150,000/ μ L, 100,000 and 50,000. The duration of therapy is comparable across patients with thrombocytopenia at baseline or patients with normal platelet counts at baseline.

PERSIST-1 and PERSIST-2 are intended to support a New Drug Application regulatory submission in the U.S. in late 2015, followed by a Marketing Authorization Application regulatory submission in Europe in 2016. In August 2014, pacritinib was granted Fast Track designation by the U.S. Food and Drug Administration for the treatment of intermediate- and high-risk myelofibrosis, including but not limited to patients with disease-related thrombocytopenia, patients experiencing treatment-emergent thrombocytopenia on other JAK2 therapy or patients who are intolerant of, or whose symptoms are sub-optimally managed on other JAK2 therapy.

We are also currently evaluating pacritinib in acute myeloid leukemia, or AML, through an ongoing investigator-sponsored trial and intend to evaluate it in other blood cancers in the future.

Tosedostat

Tosedostat is a first-in-class selective inhibitor of aminopeptidases, which are required by tumor cells to provide amino acids necessary for growth and tumor cell survival. In October 2014, we acquired worldwide rights to tosedostat through concurrent transactions with Vernalis R&D Limited, the original developer of tosedostat, and Chroma Therapeutics Ltd. Tosedostat is currently being evaluated in Phase 2 clinical trials for patients with myelodysplastic syndrome and AML. We anticipate data from these signal-finding trials may be used to determine the appropriate design for a Phase 3 trial.

Unaudited Interim Cash Positions and Indebtedness

As of October 31, 2014, we had \$20.0 million of the principal balance outstanding under our senior secured term loan agreement and approximately \$43.6 million in cash and cash equivalents.

Purchasers who convert their shares of Series 21 Preferred Stock into common stock will incur immediate dilution.

Upon conversion of your shares of Series 21 Preferred Stock, you will experience immediate and substantial dilution because the per share conversion price of your shares of Series 21 Preferred Stock will be higher than the net tangible book value per share of the outstanding common stock immediately after this offering. Assuming that an aggregate of 35,000 shares of the Series 21 Preferred Stock are sold (and are then converted into 17.5 million shares of our common stock at a conversion price of \$2.00 per share) for aggregate net proceeds of \$32.3 million after deducting commissions and estimated aggregate offering expenses payable by us, you will experience immediate dilution of \$1.66 per share, representing the difference between the conversion price per share and our pro forma as adjusted net tangible book value per share as of September 30, 2014 after giving effect to this offering at the assumed size and offering price. In addition, you will experience dilution when we issue additional shares of common stock that we are permitted or required to issue under outstanding warrants and options under our stock option plan or other employee or director compensation plans.

Holder of the Series 21 Preferred Stock will have no rights as holder of common stock until they acquire common stock.

Until you acquire shares of common stock upon conversion of the Series 21 Preferred Stock, you will have no rights as a holder of our common stock, including rights to vote or respond to tender offers, other than the right of the convertible preferred stock to receive dividends equal to and on the same terms as dividends actually paid on common stock. Upon conversion of your Series 21 Preferred Stock, you will be entitled to exercise the rights of a holder of common stock only as to matters for which the record date occurs after the conversion date.

Since we have broad discretion in how we use the net proceeds from this offering, we may use the net proceeds in ways in which you disagree.

We will use the net proceeds from this offering for general corporate purposes. We may use a portion of the net proceeds from this offering to fund possible investments in, or acquisitions of, complementary

businesses, technologies or products. See Use of Proceeds. We have not allocated specific amounts of the net proceeds from this offering for any specific purpose. Accordingly, our management will have significant flexibility in applying the net proceeds of this offering. You will be relying on the judgment of our management with regard to the use of these net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately. It is possible that the net proceeds will be invested in a way that does not yield a favorable, or any, return for our company. The failure of our management to use such funds effectively could have a material adverse effect on our business, financial condition, operating results and cash flow.

Risks Related to Holders of our Common Stock

Shares of common stock are subordinate to any preferred stock we may issue and to existing and any future indebtedness.

Shares of our common stock rank junior to any shares of our preferred stock that we may issue in the future and to our existing indebtedness, including under our senior secured term loan agreement, and any future indebtedness we may incur, as well as to all creditor claims and other non-equity claims against us and our assets available to satisfy claims on us, including claims in a bankruptcy or similar proceeding. Our senior secured term loan agreement restricts, and any future indebtedness and preferred stock may restrict, payment of dividends on our common stock.

Additionally, unlike indebtedness, where principal and interest customarily are payable on specified due dates, in the case of our common stock, (i) dividends are payable only when and if declared by our board of directors or a duly authorized committee of our board of directors, and (ii) as a corporation, we are restricted to making dividend payments and redemption payments out of legally available assets. We have never paid a dividend on our common stock and have no current intention to pay dividends in the future. Furthermore, our common stock places no restrictions on our business or operations or on our ability to incur indebtedness or engage in any transactions, subject only to the voting rights available to our shareholders generally.

We may not be able to maintain our listings on The NASDAQ Capital Market and the MTA in Italy, or trading on these exchanges may otherwise be halted or suspended, which may make it more difficult for investors to sell shares of our common stock and consequently may negatively impact the price of our common stock.

Maintaining the listing of our common stock on The NASDAQ Capital Market requires that we comply with certain listing requirements. We have in the past and may in the future fail to continue to meet one or more listing requirements. For example, in June 2012, we received a notification from The NASDAQ Stock Market, indicating non-compliance with the requirement to maintain a minimum closing bid price of \$1.00 per share and that we would be delisted if we did not timely regain compliance. We regained compliance through a reverse stock split in September 2012, but we could fail to meet the continued listing requirements as a result of a decrease in our stock price or otherwise.

If our common stock ceases to be listed for trading on The NASDAQ Capital Market for any reason, it may harm our stock price, increase the volatility of our stock price, decrease the level of trading activity and make it more difficult for investors to buy or sell shares of our common stock. Our failure to maintain a listing on The NASDAQ Capital Market may constitute an event of default under our senior secured term loan and any future indebtedness, which would accelerate the maturity date of such debt or trigger other obligations. In addition, certain institutional investors that are not permitted to own securities of non-listed companies may be required to sell their shares adversely affecting the market price of our common stock. If we are not listed on The NASDAQ Capital Market or if our public float falls below \$75 million, we will be limited in our ability to file new shelf registration statements on SEC Form S-3 and/or to fully use one or more registration statements on SEC Form S-3. We have relied

Table of Contents

significantly on shelf registration statements on SEC Form S-3 for most of our financings in recent years, so any such limitations may harm our ability to raise the capital we need. Delisting from The NASDAQ Capital Market could also affect our ability to maintain our listing or trading on the MTA in Italy. Trading in our common stock has been halted or suspended on both The NASDAQ Capital Market and MTA in the past and may also be halted or suspended in the future due to market or trading conditions at the discretion of The NASDAQ Stock Market, Commissione Nazionale per le Società e la Borsa, or CONSOB, or the Borsa Italiana (which ensures the development of the managed markets in Italy). Any halt or suspension in the trading in our common stock may negatively impact the market price of our common stock.

The market price of shares of our common stock is extremely volatile, which may affect our ability to raise capital in the future and may subject the value of your investment in our securities to sudden decreases.

The market price for securities of biopharmaceutical and biotechnology companies, including ours, historically has been highly volatile, and the market from time to time has experienced significant price and volume fluctuations that are unrelated to the operating performance of such companies. For example, during the 12-month period ended November 6, 2014, our stock price has ranged from a low of \$1.60 to a high of \$4.25. Fluctuations in the market price or liquidity of our common stock may harm the value of your investment in our common stock.

Factors that may have an impact, which, depending on the circumstances, could be significant, on the market price and marketability of our securities include:

announcements by us or others of results of clinical trials and regulatory actions;

announcements by us or others of serious adverse events that have occurred during administration of our products to patients;

announcements by us or others relating to our ongoing development and commercialization activities;

announcements of technological innovations or new commercial therapeutic products by us, our collaborative partners or our present or potential competitors;

our issuance of debt or equity securities, which we expect to pursue to generate additional funds to operate our business, or any perception from time to time that we will issue such securities;

our quarterly operating results;

developments or disputes concerning patent or other proprietary rights;

developments in relationships with collaborative partners;

acquisitions or divestitures;

our ability to realize the anticipated benefits of our compounds;

litigation and government proceedings;

adverse legislation, including changes in governmental regulation;

third-party reimbursement policies;

changes in securities analysts' recommendations;

short selling of our securities;

changes in health care policies and practices;

Table of Contents

a failure to achieve previously announced goals and objectives as or when projected;

halting or suspension of trading in our common stock on The NASDAQ Capital Market by NASDAQ or on the MTA by CONSOB, or the Borsa Italiana; and

general economic and market conditions.

Anti-takeover provisions in our charter documents, in our shareholder rights agreement, or rights plan, and under Washington law could make removal of incumbent management or an acquisition of us, which may be beneficial to our shareholders, more difficult.

Provisions of our articles of incorporation and bylaws may have the effect of deterring or delaying attempts by our shareholders to remove or replace management, to commence proxy contests, or to effect changes in control. These provisions include:

elimination of cumulative voting in the election of directors;

procedures for advance notification of shareholder nominations and proposals;

the ability of our board of directors to amend our bylaws without shareholder approval; and

the ability of our board of directors to issue shares of preferred stock without shareholder approval upon the terms and conditions and with the rights, privileges and preferences as our board of directors may determine.

Pursuant to our rights plan, an acquisition of 20% or more of our common stock by a person or group, subject to certain exceptions, could result in the exercisability of the preferred stock purchase right accompanying each share of our common stock (except those held by a 20% shareholder, which become null and void), thereby entitling the holder to receive upon exercise, in lieu of a number of units of preferred stock, that number of shares of our common stock having a market value of two times the exercise price of the right. The existence of our rights plan could have the effect of delaying, deterring or preventing a third party from making an acquisition proposal for us and may inhibit a change in control that some, or a majority, of our shareholders might believe to be in their best interest or that could give our shareholders the opportunity to realize a premium over the then-prevailing market prices for their shares.

In addition, as a Washington corporation, we are subject to Washington's anti-takeover statute, which imposes restrictions on some transactions between a corporation and certain significant shareholders. These provisions, alone or together, could have the effect of deterring or delaying changes in incumbent management, proxy contests or changes in control.

USE OF PROCEEDS

We estimate that the net proceeds to us from this offering after deducting commissions and expenses will be approximately \$32.3 million.

We plan to use the net proceeds from this offering to advance the commercialization of PIXUVRI, accelerate the pre-commercial activities for pacritinib, expand the number of investigator-sponsored trials for pacritinib to diseases other than myelofibrosis and acute myeloid leukemia and support the advancement of tosedostat toward registration-directed trials, as well as for general corporate purposes, which may include, among other things, funding research and development, preclinical and clinical trials, the preparation and filing of new drug applications and general working capital.

The amounts and timing of the expenditures for general corporate purposes may vary significantly, depending on numerous factors, including the progress of our clinical trials and other development efforts, as well as the amount of cash used in our operations. Accordingly, our management will have broad discretion in the application of the net proceeds of this offering. We reserve the right to change the use of proceeds as a result of certain contingencies such as competitive developments and other factors. Pending the uses described above, we may temporarily invest the net proceeds of this offering in short- and medium-term interest-bearing obligations, investment-grade instruments, certificates of deposit or direct or guaranteed obligations of the U.S. government.

Table of Contents**DILUTION**

If you purchase shares of Series 21 Preferred Stock in this offering, assuming the conversion of the shares of the Series 21 Preferred Stock into shares of our common stock, your interest will be diluted to the extent of the difference between the conversion price of \$2.00 per share of our common stock, and the pro forma as adjusted net tangible book value per share of our common stock after this offering. We calculate net tangible book value per share by dividing the net tangible book value, tangible assets less total liabilities, by the number of outstanding shares of common stock.

Our net tangible book value as of September 30, 2014 was \$23.9 million, or \$0.16 per share of common stock. After giving effect to the sale of 35,000 shares of Series 21 Preferred Stock and the conversion of the Series 21 Preferred Stock into 17.5 million shares of our common stock at the conversion price of \$2.00 per share, less the underwriting discounts and commissions and our estimated offering expenses, our as adjusted net tangible book value as of September 30, 2014 would have been approximately \$56.2 million, or approximately \$0.34 per share of common stock. This represents an immediate increase in the pro forma net tangible book value of \$0.18 per share to existing stockholders and an immediate dilution of \$1.66 per share to new investors purchasing shares of Series 21 Preferred Stock in this offering at the public offering price. The following table illustrates this per share dilution:

Public offering price per share of Series 21 Preferred Stock	\$ 1,000
Per share conversion price per share of our common stock	\$ 2.00
Net tangible book value per share of common stock as of September 30, 2014	\$ 0.16
Increase in net tangible book value per share attributable to new investors in this offering	\$ 0.18
As adjusted pro forma net tangible book value per share of common stock	\$ 0.34

Dilution per share of common stock to new investors in this offering	\$ 1.66
--	---------

The above discussion is based on 150,135,446 shares of our common stock outstanding as of September 30, 2014 and excludes an aggregate of 11,158,354 shares of our common stock issuable upon the exercise of options, warrants and rights outstanding as of September 30, 2014. To the extent the options, warrants or rights outstanding as of September 30, 2014 have been or are exercised, or other shares are issued, investors purchasing shares of Series 21 Preferred Stock in this offering could experience further dilution. In addition, we may choose to raise additional capital due to market conditions or strategic considerations, even if we believe we have sufficient funds for our current or future operating plans. To the extent that additional capital is raised through the sale of equity or convertible debt securities, the issuance of these securities could result in further dilution to our shareholders.

DETERMINATION OF OFFERING PRICE

Prior to this offering, there was no public market for the Series 21 Preferred Stock. The terms and conditions of the Series 21 Preferred Stock, including the conversion price, were determined by negotiation between us and the underwriters. The principal factors considered in determining these terms and conditions include:

the market price of our common stock;

the information set forth in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein, and otherwise available to the underwriters;

our history and prospects and the history of, and prospects for, the industry in which we compete;

our past and present financial performance and an assessment of our management;

our prospects for future earnings and the present state of our development;

the general condition of the securities markets at the time of this offering;

the recent market prices of, and demand for, publicly traded common stock of generally comparable companies; and

other factors deemed relevant by the underwriters and us.

Table of Contents**RATIO OF EARNINGS TO COMBINED FIXED CHARGES AND PREFERRED STOCK DIVIDENDS**

The following table sets forth our ratio of earnings to combined fixed charges and preferred stock dividends for each of the periods indicated:

	NINE MONTHS ENDED		YEAR ENDED DECEMBER 31,				
	SEPTEMBER 30,		2013	2012	2011	2010	2009
	2014						
Ratio of earnings to combined fixed charges and preferred stock dividends ⁽¹⁾							

⁽¹⁾ Earnings were not sufficient to cover combined fixed charges and preferred stock dividends. Earnings consist of income (loss) before provision for income taxes plus fixed charges. Fixed charges consist of interest charges and that portion of rental payments under operating leases we believe to be representative of interest. Earnings for the nine months ended September 30, 2014 and for the years ended December 31, 2013, 2012, 2011, 2010 and 2009, were insufficient to cover fixed charges and preferred stock dividends, by \$51.8, \$49.6, \$115.3, \$121.1, \$147.6, and \$116.8 (in millions), respectively. For this reason, no ratios are provided for these periods.

DIVIDEND POLICY

We have never declared or paid any cash dividends on our common stock and do not currently anticipate declaring or paying cash dividends on our common stock in the foreseeable future. We currently intend to retain all of our future earnings, if any, to finance operations. Any future determination relating to our dividend policy will be made at the discretion of our board of directors and will depend on a number of factors, including future earnings, capital requirements, financial conditions, future prospects, contractual restrictions and other factors that our board of directors may deem relevant.

DESCRIPTION OF THE SECURITIES WE ARE OFFERING

The material terms and provisions of the Series 21 Preferred Stock being offered pursuant to this prospectus supplement and the accompanying prospectus are summarized below. This summary is subject to, and qualified in its entirety by, the rights, preferences and privileges of the Series 21 Preferred Stock set forth in the articles of amendment to our articles of incorporation to be filed as an exhibit to our Current Report on Form 8-K, which we expect to file with the SEC in connection with this offering.

Description of Series 21 Preferred Stock

Rank

The Series 21 Preferred Stock will, with respect to rights upon our liquidation, dissolution or winding up, rank senior to our common stock and, so long as at least 20% of the aggregate originally issued shares of Series 21 Preferred Stock are outstanding, we may not repay, repurchase or offer to repay or repurchase or otherwise acquire any material amount of common stock or other securities junior to the Series 21 Preferred Stock except for repurchases of up to 5,750,000 shares of common stock in any 12-month period from employees, officers, directors, consultants or others who perform services for us and who are subject to an agreement with us providing a right of repurchase of such shares at cost or on the occurrence of certain events, such as termination of employment. The Series 21 Preferred Stock ranks *pari passu* with our common stock with respect to dividends.

Dividends

Holders of Series 21 Preferred Stock are entitled to receive dividends on shares of Series 21 Preferred Stock equal (on an as if converted to common stock basis) to and in the same form as dividends actually paid on shares of our common stock or other junior securities. All declared but unpaid dividends on the Series 21 Preferred Stock shall increase the stated value of the Series 21 Preferred Stock, but when such dividends are actually paid such increase shall be rescinded.

Liquidation Preference

Upon our voluntary or involuntary dissolution, liquidation or winding up, each holder of the Series 21 Preferred Stock will be entitled to receive a liquidation preference equal to the initial stated value of such holder's Series 21 Preferred Stock of \$1,000 per share, plus any declared and unpaid dividends and any other payments that may be due on the shares, before any distribution of assets may be made to holders of capital stock ranking junior to the Series 21 Preferred Stock. In the event that the amount available for payment of this liquidation preference is less than the full amount of the stated value of all shares of Series 21 Preferred Stock then outstanding, the assets to be distributed to the holders of the Series 21 Preferred Stock will be ratably distributed among such holders in accordance with the respective amounts that would be payable on such holder's shares if the liquidation preference was paid in full.

Conversion

Optional Conversion

The Series 21 Preferred Stock shall be convertible at the option of the holders thereof at any time after issuance into the number of registered shares of common stock determined by dividing the aggregate stated value of the Series 21 Preferred Stock being converted by the conversion price then in effect. The initial conversion price is \$2.00 and is subject to adjustment as described below. No shares of Series 21 Preferred Stock shall be convertible by a holder to the extent such conversion would result in the holder and its affiliates beneficially owning more than 9.99% of our common stock then outstanding, or the Beneficial Ownership Limitation. The amount of beneficial ownership of a holder and its affiliates will be determined in accordance with Section 13(d) of the Exchange Act and the rules and regulations of that section.

Conversion Procedures

If a holder's interest is held in book-entry form through the Depository, the holder must, in order to convert, (a) complete and manually sign the conversion notice attached as Annex A to this prospectus supplement, and deliver this irrevocable notice to Piper Jaffray & Co., if sent prior to the initial settlement date, or to the holder's custodian bank, if sent subsequent to the initial settlement date, and (b) comply with the Depository's procedures for converting a security held in book-entry form. The Depository Trust Company initially will act as Depository.

If a holder's interest is in certificated form, a holder must do each of the following in order to convert:

complete and manually sign the conversion notice attached as Annex A to this prospectus supplement, and deliver this irrevocable notice to the conversion agent;

surrender the shares of Series 21 Preferred Stock to the conversion agent;

if required, furnish appropriate endorsements and transfer documents;

if required, pay any stock transfer, documentary, stamp or similar taxes not payable by us; and

if required, pay funds equal to any declared and unpaid dividend payable on the next dividend payment date to which such holder is entitled.

The date on which a holder complies with the foregoing procedures is the conversion date.

The conversion agent for the Series 21 Preferred Stock is initially the transfer agent. A holder may obtain copies of the required form of the conversion notice from the conversion agent. The conversion agent will, on a holder's behalf, convert the Series 21 Preferred Stock into shares of our common stock, in accordance with the terms of the notice delivered by us. A stock certificate or certificates representing the shares of common stock to be delivered in connection with the conversion, together with, if applicable, any payment of cash in lieu of fractional shares, will be delivered by us to the holder, or in the case of securities held in book-entry form, a book-entry transfer through the Depository will be made by the conversion agent. Such delivery will be made as promptly as practicable, but in no event later than three Business Days following the conversion date.

The person or persons entitled to receive the shares of common stock issuable upon conversion of the Series 21 Preferred Stock will be treated as the record holder(s) of such shares as of the close of business on the applicable conversion date. On the conversion date, all rights with respect to the shares of Series 21 Preferred Stock so converted, including the rights, if any, to receive notices, will terminate, except only the rights of holders thereof to receive the number of whole shares of common stock into which such shares of Series 21 Preferred Stock have been converted. Prior to the close of business on the applicable conversion date, the shares of common stock issuable upon conversion of the Series 21 Preferred Stock will not be deemed to be outstanding for any purpose and you will have no rights with respect to the common stock, including voting rights by virtue of holding the Series 21 Preferred Stock.

Automatic Conversion

On the first to occur of (i) the 30th day after the original issuance date of the Series 21 Preferred Stock, (ii) the date on which 5,000 or less shares of Series 21 Preferred Stock remain outstanding, or (iii) the adoption by our board of directors of a resolution that it intends to adopt an amendment to our articles of incorporation without shareholder approval to effect a reverse stock split with respect to our common stock in order to achieve compliance with the listing rules of The NASDAQ Capital Market or for other good faith business reasons (in each case, an Automatic Conversion Date), all outstanding shares of Series 21 Preferred Stock, except to the extent limited by the Beneficial Ownership Limitation, shall

Table of Contents

automatically convert into the number of registered shares of our common stock determined by dividing the aggregate stated value of the Series 21 Preferred Stock being converted by the conversion price then in effect. Notwithstanding the Beneficial Ownership Limitation, any shares of Series 21 Preferred Stock that were not converted into shares of our common stock on the Automatic Conversion Date shall automatically convert into shares of our common stock on the earlier of (i) the date on which the conversion of such shares of Series 21 Preferred Stock would no longer result in beneficial ownership of more than 9.99% of our common stock then outstanding by the particular holder and its affiliates and (ii) the 91st day after the original issuance date.

Conversion Price Adjustment

Stock Dividends and Stock Splits. If we pay a stock dividend or otherwise make a distribution payable in shares of common stock on shares of common stock or any common stock equivalents, subdivide or combine our outstanding common stock, such as in a reverse stock split, or reclassify our common stock in such a way that we issue additional shares of our capital stock, the conversion price will be adjusted by multiplying the then-existing conversion price by a fraction, the numerator of which is the number of shares outstanding immediately before the distribution, dividend, adjustment or recapitalization and the denominator of which is the number of shares outstanding immediately after such action.

Rights Offerings. If we issue rights, options or warrants to holders of common stock giving such holders a right to subscribe for or purchase shares of common stock at a price per share lower than the volume weighted average price of the common stock on the record date for such issuance and do not offer the same rights to the holders of the Series 21 Preferred Stock, the conversion price will be adjusted to reflect the rights offering by multiplying such conversion price by a fraction, the numerator of which is the number of shares outstanding before such record date plus the number of shares which the aggregate offering price (assuming full subscription) would purchase at the volume weighted average price of the common stock on such record date and the denominator of which is the number of shares of common stock outstanding on the record date plus the aggregate number of shares offered for subscription or purchase.

Pro Rata Distributions. If we distribute (other than as a dividend) evidences of our indebtedness, assets (including cash or cash dividends), warrants or other rights to subscribe for our securities (other than common stock) to the holders of common stock, then the conversion price will be adjusted by multiplying the conversion price in effect immediately prior to the record date for such distribution by a fraction, the numerator of which is the volume weighted average price of the common stock on such record date minus the fair market value at such record date of the distributed evidence of indebtedness, asset, warrant or other right applicable to one share of common stock, such fair market value to be determined by the board of directors in good faith, and the denominator of which is the volume weighted average price of the common stock on such record date.

Fundamental Transaction. If we effect a fundamental transaction (as defined below), then upon any future conversion of the Series 21 Preferred Stock, the holders will have the right to receive, for each share of common stock they would have received upon such conversion, the same kind and amount of securities, cash or property as such holder would have been entitled to receive in the fundamental transaction had it been the holder of a share of common stock immediately prior to the fundamental transaction. The term fundamental transaction means any of the following:

a merger or consolidation of the Company with or into another entity in which the Company is not the surviving entity;

the sale of all or substantially all of our assets in one transaction or a series of related transactions (provided, however, that a fundamental transaction shall not include us entering into a license or other agreement that licenses any intellectual property to an

Table of Contents

unaffiliated and unrelated person so long as we and our subsidiaries continue to have bona fide, substantial and continuing business operations and activities after such license or other agreement is entered into);

any completed tender offer or exchange offer allowing holders of common stock to tender or exchange their shares for cash, property or securities, regardless of who makes such offer; or

any reclassification of common stock or any compulsory share exchange by which common stock is effectively converted into or exchanged for other securities, cash or property (but not a reverse stock split).

If the holders of common stock are given a choice as to the securities, cash or property to be received in a fundamental transaction, the holders of Series 21 Preferred Stock will be given the same choice on conversion of such holder's shares.

Conversion Agent

The conversion agent for our Series 21 Preferred Stock is Computershare Trust Company, N.A.

Voting Rights

The Series 21 Preferred Stock shall have no voting rights, except to the extent expressly provided in our articles of incorporation or as otherwise required by law. However, so long as at least 20% of the aggregate number of originally issued shares of Series 21 Preferred Stock are outstanding, we cannot take any of the following actions without the affirmative consent of holders of a majority of the outstanding Series 21 Preferred Stock:

amend our articles of incorporation, bylaws or other charter documents in each case so as to materially, specifically and adversely affect the rights of any holder with respect to the Series 21 Preferred Stock;

repay, repurchase or offer to repay or repurchase or otherwise acquire any of our common stock, common stock equivalents or securities junior to the Series 21 Preferred Stock, except the repurchase of up to 5,750,000 shares of common stock in any 12-month period from employees, officers, directors, consultants or others performing services for us or any of our subsidiaries under agreements approved by a majority of our board of directors or pursuant to which we have the option to repurchase such shares at cost or at cost on the occurrence of certain events such as termination of employment;

authorize or create any class of senior preferred stock with respect to dividend rights or liquidation preference; or

enter into any agreement or understanding to take any of the actions listed above.

Miscellaneous

There are no restrictions on repurchase or redemption of the shares of Series 21 Preferred Stock while there is any arrearage in dividends or sinking fund installments.

Form and Book-Entry System

The shares of Series 21 Preferred Stock will initially be issued and maintained in the form of securities held in book-entry form. The Depository Trust Company, or DTC, or its nominee will be the sole registered holder of the shares of Series 21 Preferred Stock. Owners of beneficial interests in the shares of Series 21 Preferred Stock represented by the securities held in book-entry form through DTC will hold their securities pursuant to the procedures and practices of DTC. As a result, such securities will be shown on, and transfers will be effected only through, records maintained by DTC and its direct and

indirect participants and any such securities may not be exchanged for certificated securities, except in limited circumstances. Owners of securities held in book-entry form through DTC must exercise any rights in respect of such securities, including any right to convert or require repurchase of their shares of Series 21 Preferred Stock, in accordance with the procedures and practices of DTC. Owners of such securities will not be holders and will not be entitled to any rights provided to the holders of the shares of Series 21 Preferred Stock under the securities or the articles supplementary thereto. We and any of our agents may treat DTC as the sole holder and registered owner of the securities held in book-entry form.

Any holder of shares of the Series 21 Preferred Stock will have the right to request a certificate therefor and upon such request made in writing to the Transfer Agent and Registrar for the shares of Series 21 Preferred Stock, we will cause to be issued a duly executed certificate for such shares of Series 21 Preferred Stock registered in the name in which the shares of Series 21 Preferred Stock were held in book-entry form or such other name(s) as specified by the holder in writing. In addition, the shares of Series 21 Preferred Stock held in book-entry form through DTC will be exchangeable for certificated securities with the same terms if:

DTC is unwilling or unable to continue as depository or if DTC ceases to be a clearing agency registered under the Exchange Act and a successor depository is not appointed by us within ninety (90) days; or

we decide to discontinue use of the system of book-entry transfer through DTC.

DTC has advised us as follows: DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC facilitates the settlement of transactions amongst participants through electronic computerized book-entry changes in participants' accounts, eliminating the need for physical movement of securities certificates. DTC's participants include securities brokers and dealers, including the underwriters, banks, trust companies, clearing corporations and other organizations, some of whom and/or their representatives own DTC. Access to DTC's book-entry system is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly.

DESCRIPTION OF CAPITAL STOCK

This summary does not purport to be complete and is subject to, and qualified in its entirety by, the provisions of our amended and restated articles of incorporation, as amended, which we refer to as our articles of incorporation, our second amended and restated bylaws, which we refer to as our bylaws, and all applicable provisions of Washington law.

General

We are authorized to issue 215,000,000 shares of common stock, no par value, and 333,333 shares of preferred stock, no par value. As of September 30, 2014, there were 150,135,446 shares of common stock outstanding (this amount does not reflect the approximately 9,000,000 shares of common stock converted pursuant to an asset purchase transaction involving tosedostat after September 30, 2014), warrants to purchase approximately 6,171,569 shares of common stock outstanding and no shares of preferred stock outstanding. In addition, as of September 30, 2014, 16,908,416 shares of common stock were reserved for issuance under our equity compensation plans, 36,639 shares of common stock were reserved for issuance under our employee stock purchase plan and 13 shares of common stock were reserved for issuance upon exercise of outstanding restricted share rights, as well as 15,014 shares of Series ZZ Junior Participating Cumulative Preferred Stock reserved for issuance pursuant to our shareholders' rights plan. Upon the closing of this offering, we will have less than 15.5 million shares of common stock that are authorized and unissued, assuming that an aggregate of 35,000 shares of Series 21 Preferred Stock are sold and then converted into 17.5 million shares of our common stock; accordingly, we intend to submit a proposal for approval at our next shareholder meeting to increase the number of authorized shares of common stock.

Common Stock

Each holder of common stock is generally entitled to one vote for each share held on all matters to be voted upon by the shareholders and there are no cumulative voting rights. Subject to preferences that may be applicable to any outstanding preferred stock, holders of common stock are entitled to receive ratably the dividends, if any, that are declared from time to time by the board of directors out of funds legally available for that purpose. In the event of our liquidation, dissolution or winding up, the holders of common stock are entitled to share in our assets remaining after the payment of liabilities and the satisfaction of any liquidation preference granted to the holders of any outstanding shares of preferred stock. Holders of common stock have no preemptive or conversion rights or other subscription rights. There are no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of common stock are fully paid and non-assessable. The rights, preferences and privileges of the holders of common stock are subject to, and may be adversely affected by, the rights of the holders of shares of Series 21 Preferred Stock, as well as any other series of preferred stock that we may designate in the future.

General Description of Preferred Stock

Our board of directors has the authority, without action by the shareholders, to designate and issue preferred stock in one or more series and to designate the rights, preferences and privileges of each series, which may be greater than the rights of the common stock. It is not possible to state the actual effects of the issuance of any shares of preferred stock upon the rights of holders of the common stock until our board of directors determines the specific rights of the holders of the particular preferred stock. However, the effects could include, among other things:

restricting dividends on the common stock;

diluting the voting power of the common stock;

impairing the liquidation rights of the common stock; or

delaying or preventing a change in control of the Company without further action by the shareholders.

Anti-Takeover Effects of Provisions of Washington Law, Our Articles of Incorporation and Bylaws and Our Rights Plan

Washington law contains certain provisions that may have the effect of delaying, deterring or preventing a change in control of the Company. Chapter 23B.19 of the Washington Business Corporation Act prohibits us, with certain exceptions, from engaging in certain significant business transactions with an acquiring person (defined generally as a person or group of persons who acquire 10% or more of our voting securities) for a period of five years following the acquiring person's share acquisition date. The prohibited transactions include, among others, a merger or consolidation with, disposition of assets to, or issuance or redemption of stock to or from, the acquiring person, or any other receipt by the acquiring person of a disproportionate benefit as a shareholder. Exceptions to this statutory prohibition include approval of the transaction at a shareholders meeting by holders of not less than two-thirds of the outstanding shares entitled to vote on the transaction, not counting shares as to which the acquiring person has beneficial ownership or voting control, transactions approved by the board of directors prior to the acquiring person first becoming an acquiring person or a merger, share exchange, consolidation, liquidation, distribution or certain other significant business transactions entered into with the acquiring person where certain requirements regarding the fairness of the consideration to be received by the shareholders have been met. We may not exempt ourselves from coverage of this statute. These statutory provisions may have the effect of delaying, deterring or preventing a change in control of the Company.

On May 22, 2014, our shareholders voted to declassify our board of directors over the next two years, and, as such, our board of directors will be fully declassified following our 2016 annual meeting of shareholders. In connection with the board declassification, we amended our articles of incorporation and bylaws to remove a provision that had provided for directors to be removed only for cause, and as a result, a director may now be removed with or without cause. Our bylaws require a shareholder to provide notice to us of such shareholder's intention to nominate a person or persons for election as directors not later than 90 days prior to the first anniversary of the previous year's annual meeting or, in the case of an election to be held at a special meeting of the shareholders for the election of directors, the close of business on the tenth day following the date on which notice of such meeting is first given to shareholders. A shareholder must also provide us with notice of such shareholder's intent to make any proposal at an annual meeting of shareholders not later than 90 days prior to the first anniversary of the previous year's annual meeting of shareholders. These provisions may have the effect of deterring hostile takeovers or delaying a change in control of our management.

Under our rights plan with Computershare Trust Company, N.A., as rights agent, dated as of December 28, 2009 and amended on August 31 and December 3, 2012, preferred stock purchase rights are attached to, and trade with, all of the shares of common stock outstanding as of, and issued subsequent to, the record date (as defined in the rights plan). Each right, if and when it becomes exercisable, will entitle the holder to purchase one ten-thousandth of a share of Series ZZ Junior Participating Cumulative Preferred Stock for \$8.00, subject to standard adjustment in the rights plan. Upon the acquisition of 20% or more of our common stock by a person or group, subject to certain exceptions (such acquisition referred to herein as a 20% acquisition), the rights will become exercisable for our preferred stock, except for those rights held by such 20% acquirer, which will become null and void. Upon a 20% acquisition, the holder of an exercisable right will be entitled to receive, upon exercise, in lieu of preferred stock, that number of shares of common stock, or in certain circumstances, including if there are insufficient shares of common stock to permit the exercise in full of the rights, preferred stock, other securities, cash, property or a reduction in the exercise price of the rights, or any combination of the foregoing, having a market value of two times the exercise price of the right.

If we are acquired in a merger, consolidation or certain other business combination transactions after a 20% acquisition, each holder of an exercisable right would then have the right to receive, upon exercise, common stock of the acquiring company having a market value equal to two times the exercise price of the right.

Table of Contents

Our board of directors may redeem the rights for \$0.0001 per right or amend the rights plan at any time prior to a 20% acquisition or the expiration of the rights plan. The rights plan will expire on December 3, 2015, unless the rights are previously redeemed or exchanged by us.

The underwriters have advised us that they currently intend to make a market in the common stock. However, the underwriters are not obligated to do so and may discontinue market-making activities at any time without notice. No assurance can be given as to the liquidity of the trading market for the common stock.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments that the underwriters may be required to make in respect of those liabilities.

We and each of our directors and executive officers have agreed, subject to specified exceptions, not to directly or indirectly:

sell, offer, contract or grant any option to sell (including any short sale), pledge, transfer, lend, or establish an open put equivalent position within the meaning of Rule 16a-1(h) under the Exchange Act with respect to, any preferred stock, common stock, options or warrants to acquire common stock, or securities exchangeable or exercisable for or convertible into common stock;

otherwise dispose of any such securities; or

publicly announce an intention to do any of the foregoing for a period of 90 days after the date of this prospectus supplement without the prior written consent of Piper Jaffray & Co.

The lock-up agreements do not prohibit us from issuing shares upon the exercise or conversion of securities outstanding on the date of this prospectus supplement. The lock-up provisions do not prevent us from selling shares to the underwriters pursuant to the underwriting agreement, or prevent us from granting common stock or options to acquire securities under our existing equity compensation plans or issuing shares upon the exercise or conversion of securities outstanding on the date of this prospectus supplement.

This restriction terminates after the close of trading of our common stock on and including the 90th day after the date of this prospectus supplement. However, subject to certain exceptions, in the event that prior to the expiration of the 90-day restricted period, we announce that we will release earnings results during the 16-day period beginning on the last day of the 90-day restricted period, then in either case the expiration of the 90-day restricted period will be extended until the expiration of the 18-day period beginning on the date of the issuance of an earnings release or the occurrence of the material news or event, as applicable, unless Piper Jaffray & Co. waives, in writing, such an extension.

Piper Jaffray & Co. may, in its sole discretion and at any time or from time to time before the termination of the 90-day period, without public notice, waive any of the above restrictions.

Our common stock is quoted on The NASDAQ Capital Market and on the Mercato Telematico Azionario stock market, or the MTA, in Italy under the symbol CTIC.
