CanTerm.

On March 27, 2014, the Company completed the sale of Canterm Canadian Terminals Inc. (CanTerm), a public storage terminal operator for refined products with two distribution terminals in Canada. As a result of the Company s level of continuing involvement with CanTerm, the results of CanTerm are reported as a component of continuing operations within the Company s Institutional Securities business segment for the nine months ended September 30, 2014. The gain on sale was approximately \$45 million and is included in the condensed consolidated statement of income for the nine months ended September 30, 2014.

2. Significant Accounting Policies.

For a detailed discussion about the Company s significant accounting policies, see Note 2 to the consolidated financial statements in the 2014 Form 10-K.

MORGAN STANLEY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (Continued)

During the quarter and nine months ended September 30, 2015, other than the following, there were no significant updates made to the Company s significant accounting policies.

Accounting Standards Adopted.

Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures.

In June 2014, the Financial Accounting Standards Board (the FASB) issued an accounting update requiring repurchase-to-maturity transactions be accounted for as secured borrowings consistent with the accounting for other repurchase agreements. This accounting update also requires separate accounting for a transfer of a financial asset executed contemporaneously with a repurchase agreement with the same counterparty (a repurchase financing), which will result in secured borrowing accounting for the repurchase agreement. This guidance became effective for the Company beginning January 1, 2015. In addition, new disclosures are required for sales of financial assets where the Company retains substantially all the exposure throughout the term and for the collateral pledged and remaining maturity of repurchase and securities lending agreements, which were effective January 1, 2015, and April 1, 2015, respectively. The adoption of this guidance did not have a material impact on the Company s condensed consolidated financial statements. For further information on the adoption of this guidance, see Notes 6 and 12.

Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).

In May 2015, the FASB issued an accounting update that removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured at net asset value (NAV) per share, or its equivalent using the practical expedient. The Company adopted this guidance retrospectively during the second quarter of 2015, as early adoption is permitted. For further information on the adoption of this guidance, see Note 3.

Goodwill.

The Company completed its annual goodwill impairment testing at July 1, 2015. The Company s impairment testing did not indicate any goodwill impairment, as each of the Company s reporting units with goodwill had a fair value that was substantially in excess of its carrying value. However, adverse market or economic events could result in impairment charges in future periods.

3. Fair Values. Fair Value Measurements.

For a description of the valuation techniques applied to the Company s major categories of assets and liabilities measured at fair value on a recurring basis, see Note 4 to the consolidated financial statements in the 2014 Form 10-K.

Changes in Level 3 Assets and Liabilities Measured at Fair Value on a Recurring Basis.

The following tables present additional information about Level 3 assets and liabilities measured at fair value on a recurring basis for the quarters and nine months ended September 30, 2015 and 2014, respectively. Level 3 instruments may be hedged with instruments classified in Level 1 and Level 2. As a result, the realized and unrealized gains (losses) for assets and liabilities within the Level 3 category presented in the tables below do not reflect the related realized and unrealized gains (losses) on hedging instruments that have been classified by the Company within the Level 1 and/or Level 2 categories.

Additionally, both observable and unobservable inputs may be used to determine the fair value of positions that the Company has classified within the Level 3 category. As a result, the unrealized gains (losses) during the period for assets and liabilities within the Level 3 category presented in the tables below may include changes in fair value during the period that were attributable to both observable (*e.g.*, changes in market interest rates) and unobservable (*e.g.*, changes in unobservable long-dated volatilities) inputs.

For assets and liabilities that were transferred into Level 3 during the period, gains (losses) are presented as if the assets or liabilities had been transferred into Level 3 at the beginning of the period; similarly, for assets and liabilities that were transferred out of Level 3 during the period, gains (losses) are presented as if the assets or liabilities had been transferred out at the beginning of the period.
