Table of Contents**CAPITALIZATION AND INDEBTEDNESS**

The following table sets forth our capitalization and indebtedness at March 31, 2016 on an actual basis and on an as adjusted basis to give effect to (a) the sale of the notes offered hereby and the application of funds in an amount equal to the estimated net proceeds of the offering as described in the Use of Proceeds section of this prospectus supplement and (b) activity under our commercial paper programs and share repurchases from April 1, 2016 through April 29, 2016.

This table should be read in conjunction with our unaudited consolidated interim financial statements for the three months ended March 31, 2016 and other information included in the documents incorporated by reference in this prospectus supplement.

(1) Represents a \$180 million increase in borrowings under our commercial paper programs after March 31, 2016 to a balance of \$1,660 million (March 31, 2016 \$1,480 million) and a \$500 million decrease for the carrying value of our 0.875% notes due May 2016 that we expect to repay upon their maturity using funds from available resources, including, but not limited to the estimated net proceeds from the notes offered hereby.

(2) Excludes the effect of related debt swaps, which are included within Other financial liabilities non-current in our consolidated statement of financial position as at March 31, 2016. If this effect had been included, total debt and

total capitalization as at March 31, 2016 would have been higher by \$290 million.

- (3) The number of common shares issued and outstanding reflects share repurchases (and related cancellations) after March 31, 2016. The cost of these repurchases was approximately \$87 million and has been reflected as reductions to the carrying values of common share capital and retained earnings. This amount is less than the \$90 million reflected as reductions to equity as at March 31, 2016, as required under IFRS, in connection with a pre-defined plan with our broker to repurchase shares during our internal blackout from April 1, 2016 to April 26, 2016, the date we announced our first-quarter 2016 results. The adjustment of \$3 million represents the difference between actual share repurchases (and related cancellations) after March 31, 2016 and the \$90 million maximum commitment.

The following interest coverage ratios have been prepared in accordance with Canadian securities law requirements and are included in this prospectus supplement in accordance with Canadian disclosure requirements.

The following information should be read in conjunction with those documents, each of which is incorporated by reference in this prospectus supplement.

These ratios do not purport to reflect actual ratios that would have resulted if the transactions had actually occurred on that date, nor are they indicative of ratios for any future periods.

Table of Contents**DESCRIPTION OF THE NOTES**

The following description of the notes offered hereby supplements the description of the general terms of the provisions of the Debt Securities in the accompanying short form base shelf prospectus under the section entitled "Description of Debt Securities" and should be read in conjunction with that description. The description of the notes herein shall prevail over the description in the accompanying short form base shelf prospectus to the extent of any inconsistency.

The notes will be issued under an amended and restated indenture dated as of December 21, 2010 among our company, Computershare Trust Company of Canada, as the Canadian Trustee, and Deutsche Bank Trust Company Americas, as the U.S. Trustee, which we refer to as the Amended and Restated Indenture, which will be supplemented by an eighth supplemental indenture to the Amended and Restated Indenture to be dated the date of issuance of the notes. We refer to the Amended and Restated Indenture together with the eighth supplemental indenture as the Trust Indenture. The Trust Indenture is subject to the provisions of the OBCA. The Trust Indenture is also subject to the provisions of the Trust Indenture Act of 1939, as amended, although it is exempt from the operation of certain provisions of the Trust Indenture Act pursuant to Rule 4d-9 thereunder.

This summary information does not purport to be complete and is qualified in its entirety by reference to the provisions of the notes and the Trust Indenture, including the definition of certain terms in the Trust Indenture. It is the Trust Indenture, and not this summary, that governs the rights of holders of notes (the "Holders"). Capitalized terms that are used in this section and not defined have the meaning assigned to them in the Trust Indenture. We have defined selected terms at the end of certain subsections herein.

General

The aggregate principal amount of the notes will be issued in denominations of US\$2,000 and integral multiples of US\$1,000 in excess thereof. The principal of, and interest on, the notes will be paid in lawful money of the United States. Certain Canadian and United States federal income tax considerations applicable to the notes are described below under "Certain United States Federal Income Tax Considerations" and "Certain Canadian Federal Income Tax Considerations."

Principal Amount, Interest and Maturity

The notes will have the following terms:

Principal Amount	Interest Rate	Maturity Date
US\$500,000,000	3.35%	May 15, 2026

The notes will be payable at 100% of the principal amount at maturity. The notes will bear interest from May 9, 2016, payable in semi-annual installments on May 15 and November 15 in each year, commencing on November 15, 2016. Interest on the notes will be paid to persons in whose names the notes are registered at the close of business on the preceding May 1 or November 1, respectively. Interest will be calculated on the basis of a 360-day year consisting of twelve 30-day months.

Ranking and Other Indebtedness

The notes will be direct, unsecured obligations of our company and will not be guaranteed. The notes will rank equally and ratably with all of our other unsecured and unsubordinated obligations.

Further Issuances

We may from time to time, with respect to the notes offered hereby, without notice to or the consent of the Holders, reopen these notes and create and issue further notes ranking equally or pari passu with the notes in all respects (except for the issue date, public offering price and, if applicable, the initial interest payment date) and so that such further notes may be consolidated and form a single series with the notes and have the same terms as to status, redemption or otherwise as such series of notes offered by this prospectus supplement.

Table of Contents

Optional Redemption

Prior to February 15, 2026 (three months prior to the maturity date), the notes will be redeemable in whole or in part at any time, at our option, at a Redemption Price equal to the greater of:

100% of the principal amount of such notes, or

the sum of the present values of the remaining scheduled payments of principal and interest thereon that would be due if the notes to be redeemed matured on the Par Call Date (exclusive of interest accrued to the Redemption Date), discounted to the Redemption Date on a semi-annual basis at the applicable Treasury Rate plus 25 basis points,

in each case together with accrued and unpaid interest thereon to the Redemption Date.

On or after February 15, 2026 (three months prior to the maturity date), the notes will be redeemable in whole or in part, at our option, at a Redemption Price equal to 100% of the principal amount of such notes, together with accrued interest thereon to the Redemption Date.

Holders of notes to be redeemed will receive notice thereof at least 30 days and not more than 60 days prior to the date fixed for redemption.

Unless we default in the payment of the Redemption Price, on or after the Redemption Date, interest will cease to accrue on the notes or the portions thereof called for redemption.

Comparable Treasury Issue means the United States Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of the notes to be redeemed (assuming the notes matured on the Par Call Date) that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes.

Comparable Treasury Price means, with respect to any Redemption Date, a Reference Treasury Dealer Quotation for such Redemption Date.

Independent Investment Banker means one of the Reference Treasury Dealers selected by us and reasonably satisfactory to the Trustee, or, if such firm is unwilling or unable to select the Comparable Treasury Issue, an independent investment banking institution of national standing in the United States appointed by us after consultation with the Trustee.

Par Call Date means February 15, 2026, the date that is three months prior to the maturity date.

Reference Treasury Dealer Quotation means, with respect to one of the Reference Treasury Dealers and any Redemption Date, the average of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Trustee by one of the Reference Treasury Dealers at 3:30 p.m. New York time on the third business day preceding such Redemption Date.

Reference Treasury Dealers means one of Citigroup Global Markets Inc., Goldman, Sachs & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated and Wells Fargo Securities, LLC or their respective affiliates which are primary U.S. government securities dealers, or their respective successors or one other primary U.S. government securities dealer selected by us; provided, however, that if any of the foregoing or its affiliates shall cease to be a primary U.S. government securities dealer in the United States, or Primary Treasury Dealer, another Primary Treasury Dealer will be substituted therefore by us.

Treasury Rate means, with respect to any Redemption Date, the rate per annum equal to the semi-annual equivalent yield to maturity or interpolated (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for that Redemption Date.

Redemption for Changes in Canadian Withholding Taxes

The notes will be redeemable, at our option, in whole and not in part at any time, on not less than 30 days and not more than 60 days prior written notice, at 100% of the aggregate principal amount, together with accrued and unpaid interest thereon to the Redemption Date, in the event we have become or would become obligated to pay, on the next

Table of Contents

date on which any amount would be payable with respect to the notes, any Additional Amounts (as defined below) as a result of a change in the laws (including any regulations promulgated thereunder) of Canada (or any political subdivision or taxing authority thereof or therein), or any change in any official position regarding the application or interpretation of such laws or regulations, which change is announced or becomes effective on or after the date of this prospectus supplement.

Any Person who assumes our obligations under the notes and under the Trust Indenture pursuant to the provisions described under **Description of Debt Securities Merger, Consolidation or Amalgamation** in the accompanying short form base shelf prospectus will have a similar right to redeem the notes in the event of any such change in the jurisdiction in which such Person is organized or existing occurring after such Person assumes our obligations.

Repurchase Upon Change of Control Triggering Event

If a Change of Control Triggering Event (as defined below) occurs, unless we have exercised our right to redeem the notes as described above, we will be required to make an offer to repurchase all, or, at the Holder's option, any part (equal to \$1,000 or an integral multiple thereof), of each Holder's notes pursuant to the offer described below, referred to as the Change of Control Offer, on the terms set forth in the notes. In the Change of Control Offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of the notes repurchased plus accrued and unpaid interest, if any, on such notes repurchased, to the date of purchase, referred to as the Change of Control Payment.

Within 30 days following any Change of Control Triggering Event, we will be required to mail a notice to Holders of notes, with a copy to the Trustee for the notes, describing the transaction or transactions that constitute the Change of Control Triggering Event and offering to repurchase the notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed, referred to as the Change of Control Payment Date, pursuant to the procedures required by the notes and described in such notice. We must comply with the requirements of applicable securities laws and regulations in connection with the repurchase of the notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any applicable securities laws or regulations conflict with the Change of Control (as defined below) provisions of the notes, we will be required to comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control provisions of the notes by virtue of such conflicts.

On the Change of Control Payment Date, we will be required, to the extent lawful, to:

accept for payment all notes or portions of notes properly tendered pursuant to the Change of Control Offer;

deposit with the Paying Agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes properly tendered; and

deliver or cause to be delivered to the Trustee the notes properly accepted together with an Officer's Certificate stating the aggregate principal amount of notes or portions of notes being purchased by us.

The Paying Agent will be required to promptly mail to each Holder who properly tendered notes, the purchase price for such notes and the Trustee will be required to promptly authenticate and mail (or cause to be transferred by book entry) to each such Holder a new note equal in principal amount to any unpurchased portion of the notes surrendered,

if any; provided that each new note will be in a principal amount of \$2,000 or an integral multiple of \$1,000 in excess thereof.

We will not be required to make a Change of Control Offer upon a Change of Control Triggering Event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for an offer made by us and such third party purchases all notes properly tendered and not withdrawn under its offer.

For purposes of the repurchase provisions of the notes, the following terms will be applicable:

Change of Control means the occurrence of any one of the following: (1) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger, amalgamation, arrangement or consolidation), in one or a series of related transactions, of all or substantially all of the properties or assets of Thomson Reuters, taken as a whole, to any person or group, other than to an entity within Thomson Reuters; (2) the first day on which a majority of the members of our board of directors are not Continuing Directors (as defined below); (3) the consummation of any

Table of Contents

transaction including, without limitation, any merger, amalgamation, arrangement or consolidation the result of which is that any person or group of related persons, other than the Woodbridge Group (as defined below), becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of the voting stock of our company (which, for greater certainty, excludes the Thomson Reuters Founders Share in our company held by Thomson Reuters Founders Share Company), measured by voting power rather than number of shares; or (4) the consummation of a so-called going private/Rule 13e-3 transaction that results in any of the effects described in paragraph (a)(3)(ii) of Rule 13e-3 under the Exchange Act (or any successor provision), following which the Woodbridge Group beneficially owns, directly or indirectly, more than 50% of the voting stock of our company (which, for greater certainty, excludes the Thomson Reuters Founders Share), measured by voting power rather than number of shares. For the purposes of this definition, person and group have the meanings used in Sections 13(d) and 14(d) of the Exchange Act.

Change of Control Triggering Event means the occurrence of both a Change of Control and a Rating Event.

Continuing Directors means, as of any date of determination, any member of our board of directors who (1) was a member of our board of directors on the date of the issuance of the notes; or (2) was nominated for election, elected or appointed to our board of directors with the approval of a majority of the Continuing Directors who were members of our board of directors at the time of such nomination, election or appointment (either by a specific vote or by approval of our management information circular in which such member was named as a nominee for election as a director).

DBRS means DBRS Limited.

Fitch means Fitch Ratings Ltd.

Investment Grade Rating means a rating equal to or higher than Baa3 (or the equivalent) by Moody's, BBB (or the equivalent) by S&P, BBB (low) (or the equivalent) by DBRS or BBB (or the equivalent) by Fitch, and the equivalent investment grade credit rating from any replacement Rating Agency or Rating Agencies selected by us.

Moody's means Moody's Investors Service, Inc.

Rating Agencies means (a) each of Moody's, S&P, DBRS and Fitch; and (b) if any of the Rating Agencies ceases to rate the notes or fails to make a rating of the notes publicly available for reasons outside of our control, a nationally recognized statistical rating organization within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act selected by us (as certified by a resolution of our board of directors) as a replacement for Moody's, S&P, DBRS or Fitch, or some or all of them, as the case may be.

Rating Event means the rating on the notes is lowered by (a) at least three out of four Rating Agencies, if there are four Rating Agencies or (b) all of the Rating Agencies, if there are less than four Rating Agencies, and the notes are rated below an Investment Grade Rating by such number of Rating Agencies on any day within the 60-day period (which 60-day period will be extended so long as the rating of the notes is under publicly announced consideration for a possible downgrade by such number of Rating Agencies) after the earlier of (1) the occurrence of a Change of Control and (2) public notice of the occurrence of a Change of Control or our intention to effect a Change of Control; provided, however, that a rating event otherwise arising by virtue of a particular reduction in rating will be deemed not to have occurred in respect of a particular Change of Control (and thus will not be deemed a rating event for purposes of the definition of Change of Control Triggering Event) if the Rating Agencies making the reduction in rating to which this definition would otherwise apply do not announce or publicly confirm or inform the Trustee in writing at our or its request that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the applicable Change of Control (whether or not the applicable Change of

Control has occurred at the time of the rating event).

S&P means Standard & Poor's Rating Services.

Woodbridge Group means at any particular time such of (a) Woodbridge, (b) the affiliates of Woodbridge and (c) the respective successors and assigns of Woodbridge or any such affiliate, as, at such time, are controlled directly or indirectly by one or more corporations all of the shares of which are held by one or more individuals who are members of the family of the late first Lord Thomson of Fleet or trusts for their benefit.

The failure by us to comply with the obligations described under **Repurchase Upon Change of Control Triggering Event** will constitute an Event of Default with respect to the notes.

We may not have sufficient funds to repurchase the notes in cash at such time. In addition, our ability to repurchase the notes for cash may be limited by law or the terms of other agreements which we are subject to at the time.

The Change of Control Triggering Event feature of the notes may in certain circumstances make more difficult or discourage a sale or takeover of our company and, thus, the removal of incumbent management. Restrictions on our ability to incur liens are contained in the covenants as described in the accompanying short form base shelf prospectus under **Description of the Debt Securities Negative Pledge**.

Other Events of Default for the Notes

In addition to the Events of Default provided for in respect of any series of Outstanding Debt Securities under the Amended and Restated Indenture, subject to certain exceptions that are described in the Trust Indenture, the failure by our company or any Material Subsidiary to pay, when due, the principal of any Debt of our company or any Material Subsidiary (other than any Debt which is owed to our company or a Subsidiary) or to pay amounts due under any guarantee of any Debt if the aggregate principal amount of such obligations and guaranteed obligations exceeds 3% of Consolidated Shareholders Equity and, in any such case, the time for payment has not been effectively extended, excluding any of the above events in respect of certain Debt where the creditor can only have recourse to an action in damages and/or to specified assets or revenues, will constitute an Event of Default with respect to the notes.

Transfer to Subsidiary

We have the right at any time, without notice to or consent of the Holders, to have one of our direct or indirect wholly-owned subsidiaries that is incorporated under the laws of Canada or any province thereof, any U.S. state, the United Kingdom or any other country that is a member of the European Union become a co-obligor under the notes.

If we were to exercise this right, the co-obligor would become liable for such notes on a joint and several basis with us, and we would not be released from our obligations under the Trust Indenture or the notes. The co-obligor's obligations under the particular notes would rank equally with all of our other unsecured and unsubordinated obligations.

Any payments made by the co-obligor under the notes would be made without withholding or deduction unless required by law, and the co-obligor would pay any additional amounts as would result in Holders receiving, after such withholding or deduction, the amount to which they would otherwise have been entitled absent such withholding or deduction. For a discussion of certain tax consequences of an exercise of this right, please see the section of this prospectus supplement entitled **Certain United States Federal Income Tax Considerations**.

We have no current intention to exercise this right.

The Trustee and Paying Agent

The initial Trustee and the Paying Agent under the Trust Indenture for the notes will be Deutsche Bank Trust Company Americas, 60 Wall Street, 16th Floor, MS NYC60 1630, New York, New York 10005.

Book-Entry System, Clearance and Settlement

The notes will be issued in the form of one or more global certificates representing the notes, which we refer to as the Global Notes. The Global Notes will be delivered on the date of closing to, and registered in the name of, The Depository Trust Company, as depository or its nominee, which we refer to as DTC. Beneficial interests in the notes will be shown on, and transfers thereof will be effected only through, records maintained by DTC and its participants, which include Euroclear and Clearstream. Owners of beneficial interests in the Global Notes will not be entitled to receive the notes in definitive form (except in the very limited circumstances described in this section below) and will not be considered Holders of notes under the Trust Indenture.

Table of Contents

DTC is a limited purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds securities that its participants deposit with the DTC. DTC also facilitates the settlement among participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in participants' accounts, thereby eliminating the need for physical movement of securities certificates. These direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (DTCC). DTCC is owned by the users of its regulated subsidiaries. Access to the DTC's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The rules applicable to the DTC and its participants are on file with the SEC.

Clearstream is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations, or Clearstream Participants and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream provides Clearstream Participants with, among other things, services for safekeeping, administration, clearance and establishment of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Monetary Institute. Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant either directly or indirectly.

Distributions with respect to notes held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures to the extent received by DTC for Clearstream.

Euroclear was created in 1968 to hold securities for participants of Euroclear, or Euroclear Participants and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V., or Euroclear Operator, under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation, or Cooperative. All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator is regulated and examined by the Belgian Banking Commission.

Links have been established among DTC, Clearstream and Euroclear to facilitate the initial issuance of the notes sold outside of the United States and cross-market transfers of the notes associated with secondary market trading.

Although DTC, Clearstream and Euroclear have agreed to the procedures provided below in order to facilitate transfers, they are under no obligation to perform these procedures, and these procedures may be modified or discontinued at any time.

Clearstream and Euroclear will record the ownership interests of their participants in much the same way as DTC, and DTC will record the total ownership of each of the U.S. agents of Clearstream and Euroclear, as participants in DTC. When notes are to be transferred from the account of a DTC participant to the account of a Clearstream participant or a Euroclear participant, the purchaser must send instructions to Clearstream or Euroclear through a participant at least one day prior to settlement. Clearstream or Euroclear, as the case may be, will instruct its U.S. agent to receive notes against

S-14

Table of Contents

payment. After settlement, Clearstream or Euroclear will credit its participant's account. Credit for the notes will appear on the next day (European time).

Because settlement is taking place during New York business hours, DTC participants will be able to employ their usual procedures for sending notes to the relevant U.S. agent acting for the benefit of Clearstream or Euroclear participants. The sale proceeds will be available to the DTC seller on the settlement date. As a result, to the DTC participant, a cross-market transaction will settle no differently than a trade between two DTC participants.

When a Clearstream or Euroclear participant wishes to transfer notes to a DTC participant, the seller will be required to send instructions to Clearstream or Euroclear through a participant at least one business day prior to settlement. In these cases, Clearstream or Euroclear will instruct its U.S. agent to transfer these notes against payment for them. The payment will then be reflected in the account of the Clearstream or Euroclear participant the following day, with the proceeds back valued to the value date, which would be the preceding day, when settlement occurs in New York, if settlement is not completed on the intended value date, that is, the trade fails, proceeds credited to the Clearstream or Euroclear participant's account will instead be valued as of the actual settlement date.

You should be aware that you will only be able to make and receive deliveries, payments and other communications involving the notes through Clearstream and Euroclear on the days when those clearing systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States. In addition, because of time zone differences there may be problems with completing transactions involving Clearstream and Euroclear on the same business day as in the United States.

Individual certificates in respect of the notes will not be issued in exchange for Global Notes, except in very limited circumstances. If DTC notifies us that it is unwilling or unable to continue as a clearing system in connection with the notes or ceases to be a clearing agency registered under the Exchange Act, and a successor clearing system is not appointed by us within 90 days after receiving such notice from DTC or upon becoming aware that DTC is no longer so registered, we will issue or cause to be issued individual certificates in registered form on registration of transfer of, or in exchange for, book-entry interests in the notes represented by such Global Notes upon delivery of such Global Notes for cancellation. In the event that individual certificates are issued, Holders will be able to receive payments, including principal and interest, on the notes and effect transfer of the notes at the offices of our paying and transfer agent. Title to book-entry interests in the notes will pass by book-entry registration of the transfer within the records of DTC in accordance with its procedures. Book-entry interests in the notes may be transferred within DTC in accordance with procedures established for this purpose by DTC.

Although DTC has agreed to the foregoing procedures in order to facilitate transfers of interests in the notes among participants of DTC, it is under no obligation to perform or continue to perform such procedures and such procedures may be changed or discontinued at any time.

According to DTC the foregoing information with respect to DTC has been provided to the industry for informational purposes only and is not intended to serve as a representation, warranty, or contract modification of any kind.

The information in this section concerning DTC and its system has been obtained from sources that we believe to be reliable, but is subject to any changes to the arrangements between us and DTC and any changes to such procedures that may be instituted unilaterally by DTC.

Additional Amounts

All payments made by us under or with respect to the notes will be made free and clear of, and without withholding or deduction for or on account of, any present or future tax, duty, levy, impost, assessment or other governmental charge imposed or levied by or on behalf of the Government of Canada or of any province or territory thereof or by any authority or agency therein or thereof having power to tax, or any jurisdiction from or through which payment is made on our behalf, collectively referred to as Taxes, unless we are required to withhold or deduct Taxes by law or by the interpretation or administration thereof. If we are so required to withhold or deduct any amount for or on account of Taxes from any payment made under or with respect to the notes and the notes are not redeemed in accordance with the provisions described under Redemption for Changes in Canadian Withholding Taxes, we will pay such additional amounts, or Additional Amounts, as may be necessary so that the net amount received by each Holder or beneficial owner (including

S-15

Table of Contents

Additional Amounts) after such withholding or deduction will not be less than the amount the Holder or beneficial owner would have received if such Taxes had not been withheld or deducted; provided that no Additional Amounts will be payable with respect to a payment made to a Holder or beneficial owner:

with which we do not deal at arm's length (within the meaning of the *Income Tax Act* (Canada)) (the "Tax Act") at the time of making such payment (or a note held by such person) or who is, or does not deal at arm's length with any person who is, a specified shareholder of us (as defined in subsection 18(5) of the Tax Act);

which is subject to such Taxes by reason of its being connected with Canada or any province or territory thereof otherwise than by the mere holding or acquisition of the notes or the receipt of payments thereunder;

which is subject to such Taxes by reason of its failure to comply with any certification, identification, information, documentation or other reporting requirement if compliance is required by law, regulation, administrative practice or an applicable treaty as a precondition to exemption from, or a reduction in the rate of deduction or withholding of, such Taxes;

for any estate, inheritance, gift, sales, transfer or personal property tax or any similar tax with respect to the notes;

for any tax (other than a tax imposed under Part XIII of the Tax Act) that is levied or collected otherwise than by withholding from payments on or in respect of the notes; or

for any combination of the foregoing.

We will also make such withholding or deduction and remit the full amount deducted or withheld to the relevant authority in accordance with applicable law.

We will furnish to Holders, within 30 days after the date the payment of any Taxes is due pursuant to applicable law, certified copies of tax receipts evidencing such payment by us. We will indemnify and hold harmless each Holder and upon written request reimburse each such Holder for the amount of:

any Taxes so levied or imposed which have not been withheld or deducted and remitted by us and which have been paid by such Holder as a result of payments made under or with respect to the notes;

any liability (including penalties, interest and expenses) arising therefrom or with respect thereto or from the failure to make such payment; and

any Taxes imposed with respect to any reimbursement under the two bullets immediately above, but excluding any such Taxes on such Holder's net income.

At least 10 days prior to each date on which any payment under or with respect to the notes is due and payable, if we will be obligated to pay Additional Amounts with respect to such payment, we will deliver to the Trustee an Officers Certificate stating the fact that such Additional Amounts will be payable and the amounts so payable, and will set forth such other information necessary to enable the Trustee to pay such Additional Amounts to Holders on the payment date. Whenever in the Trust Indenture there is mentioned, in any context, the payment of principal (and premium, if any), interest or any other amount payable under or with respect to any note, such mention shall be deemed to include mention of the payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

All payments made by any Person who assumes our obligations under the notes and under the Trust Indenture pursuant to the provisions described under Description of Debt Securities Merger, Consolidation or Amalgamation in the accompanying short form base shelf prospectus will be made without withholding or deduction or such Person will pay any additional amounts as will result in Holders receiving, after such withholding or deduction, the amount to which they would otherwise have been entitled absent such withholding or deduction, in each case substantially on the terms described under Additional Amounts with such modifications as are necessary to reflect the jurisdiction in which such Person is organized or existing.

Table of Contents

Prescription

Any money that we deposit with the Trustee or any Paying Agent or held by us in trust for the payment of principal of (or premium, if any) or any interest on any note that remains unclaimed for two years after the date upon which the principal, premium, if any, or interest are due and payable, will be repaid to us upon our request subject to the mandatory provisions of any applicable unclaimed property law. After that time, unless otherwise required by mandatory provisions of any unclaimed property law, the Holder will be able to seek any payment to which that Holder may be entitled to collect only from us.

Our obligation to pay the principal of (or premium, if any) and interest on the notes will cease if the notes are not presented for payment within a period of 10 years and a claim for interest is not made within five years from the date on which such principal, premium, if any, or interest, as the case may be, becomes due and payable.

Notices

Notices to Holders will be sent by mail to the registered Holders.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of the principal United States federal income tax consequences of the acquisition, ownership and disposition of a note by a U.S. Holder (as defined below) who purchases a note at its issue price within the meaning of Section 1273 of the Internal Revenue Code of 1986, as amended (the Code), and who holds the note as a capital asset under Section 1221 of the Code (generally an asset held for investment). A U.S. Holder is, for United States federal income tax purposes, a citizen or individual resident of the United States, a corporation created or organized in or under the laws of the United States or any State thereof, an estate, the income of which is subject to United States federal income taxation regardless of its source, or any trust if (i) a United States court is able to exercise primary supervision over the administration of the trust and (ii) one or more U.S. persons have the authority to control all substantial decisions of the trust or if the trust has validly made an election to be treated as a U.S. person under the applicable Treasury regulation. If a partnership (or an entity that is classified as a partnership for U.S. federal income tax purposes) holds a note, the United States federal income tax consequences will depend on the status of the partners and the activities of the partnership. A partner of a partnership that holds a note should consult its tax advisor regarding the United States federal income tax consequences of the acquisition, ownership and disposition of a note.

This summary is based on the Code, Treasury regulations, rulings and decisions in effect on the date hereof, all of which are subject to change (possibly with retroactive effect) and differing interpretations. This summary is intended for general information only, and does not discuss all of the tax consequences that may be relevant to the particular circumstances of a U.S. Holder or to U.S. Holders subject to special tax rules, such as banks, tax-exempt organizations, insurance companies, dealers in securities or foreign currency, or persons that hold notes that are a hedge or that are hedged against currency risks or that are part of a straddle or conversion transaction. Prospective purchasers of the notes should consult their own tax advisors concerning the application of United States federal income tax law, as well as the laws of any state, local or foreign taxing jurisdiction, to their particular situations. See Certain Canadian Federal Income Tax Considerations.

For United States federal income tax purposes, interest (including any Additional Amounts) on a note generally will be taxable to a U.S. Holder as ordinary income at the time received or accrued, in accordance with such holder's method of accounting for United States federal income tax purposes. Interest paid by us on the notes will generally constitute income from sources outside the United States and will be passive category income or general category

income for purposes of computing the foreign tax credit allowable to a U.S. Holder.

Upon the sale, redemption or other taxable disposition of a note, a U.S. Holder will recognize gain or loss, if any, for United States federal income tax purposes, equal to the difference between the amount realized on such disposition (other than amounts received that are attributable to accrued but unpaid interest, which will be taxable as ordinary income to the extent not previously included in gross income of the U.S. Holder) and such U.S. Holder's adjusted tax basis in the note. A U.S. Holder's adjusted tax basis in a note generally will be the amount paid for the note less the amount of any payments on the note other than interest. Such gain or loss generally will constitute United States source capital gain

S-17

Table of Contents

or loss, and will be long-term capital gain or loss if the note was held by such U.S. Holder for more than one year. Non-corporate U.S. Holders (including individuals) can qualify for preferential rates of United States federal income taxation in respect of long-term capital gains. The deduction of capital losses is subject to limitation under the Code.

Subject to various limitations and exceptions, certain U.S. Holders that are individuals, estates or trusts, and whose income exceeds certain thresholds, generally will be subject to a 3.8% Medicare tax on any interest on, and gains from the sale or other taxable disposition of, the notes. You should consult your own tax advisor regarding the effect, if any, of such tax on your ownership and disposition of the notes.

In general, information reporting requirements will apply to interest and to the proceeds received on the disposition of the notes paid within the United States (and in certain cases, outside the United States) to U.S. Holders. A 28% backup withholding tax may apply to such amounts if a U.S. Holder (i) fails to establish properly that it is entitled to an exemption, (ii) fails to furnish or certify his or her correct taxpayer identification number to the payer in the manner required, (iii) is notified by the Internal Revenue Service, or IRS, that he or she has failed to report payments of interest or dividends properly, or (iv) under certain circumstances, fails to certify that he or she is not subject to backup withholding for failure to report interest or dividend payments. The amount of any backup withholding will be allowed as a credit against the U.S. Holder's United States federal income tax liability provided that the required information is timely furnished to the IRS.

Individual U.S. Holders (and certain U.S. entities specified in IRS guidance) who, during any taxable year, hold any interest in a specified foreign financial asset generally will be required to file with their U.S. federal income tax returns a statement setting forth certain information with respect to such assets if the aggregate value of all such assets exceeds \$50,000 at the end of the taxable year or \$75,000 at any time during the taxable year. These thresholds are \$100,000 and \$150,000, respectively, for married couples filing jointly. For this purpose, the notes will constitute specified foreign financial assets if they are not held in an account maintained with a financial institution. The account itself may be reportable if it is maintained with a foreign financial institution, including an institution that is organized under the laws of a U.S. possession. Substantial penalties may be imposed, and the period of limitations on assessment and collection of U.S. federal income taxes may be extended, in the event of a failure to comply. U.S. Holders should consult their own tax advisors as to the possible application to them of this filing requirement.

We have the right to add one of our subsidiaries as a co-obligor of the notes. See Description of the Notes Transfer to Subsidiary of this prospectus supplement for more information. If we exercise the right to cause one of our subsidiaries to become a co-obligor of the notes, the modification should not cause a deemed exchange of the notes for United States federal income tax purposes, and U.S. Holders should have the same tax basis and holding period with respect to the notes as before the addition, as long as our capacity to meet our payment obligations on the notes was not speculative prior to the addition of the co-obligor and the addition does not result in such capacity becoming adequate.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

The following is, at the date hereof, a summary of the principal Canadian federal income tax considerations generally applicable to a holder of a note who acquires the note pursuant to this offering and who, for purposes of the Tax Act and at all relevant times, (i) deals at arm's length with Thomson Reuters, (ii) is not, and is not deemed to be, resident in Canada, (iii) deals at arm's length with any transferee resident (or deemed to be resident) in Canada to whom the holder disposes of the note, (iv) is not, and deals at arm's length with each person who is, a specified shareholder of Thomson Reuters as defined in subsection 18(5) of the Tax Act, and (v) does not use or hold, and is not deemed to use or hold, the note in a business carried on in Canada (a Non-Resident Holder). Special rules, which are not discussed in this summary, may apply to a Non-Resident Holder who holds a note in connection with carrying on an insurance

business in Canada and elsewhere. This summary assumes that no interest paid on the notes will be in respect of a debt or other obligation to pay an amount to a person with whom Thomson Reuters does not deal at arm's length for purposes of the Tax Act.

This summary is based upon the provisions of the Tax Act and the regulations thereunder (the Regulations) in force at the date of this prospectus supplement, all specific proposals to amend the Tax Act and Regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the Tax Proposals) and the current administrative practices and assessing policies of the Canada Revenue Agency (the CRA) made public prior to the date hereof. There can be no assurance that the Tax Proposals will be implemented in their current form or at all. This

summary is not exhaustive of all possible Canadian federal income tax considerations and, except for the Tax Proposals, does not take into account or anticipate any changes in law or administrative practice or assessing policies, whether by way of judicial, governmental, administrative or legislative decision or action, nor does it take into account tax legislation or considerations of any province, territory or foreign jurisdiction.

This summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice to any particular holder, and no representations with respect to the income tax consequences to any particular holder are made. Accordingly, prospective purchasers of the notes should consult their own tax advisors for advice with respect to the tax consequences to them of acquiring, holding and disposing of the notes, including the application and effect of the income and other tax laws of any country, province, territory, state or local tax authority.

Amounts paid or credited, or deemed to be paid or credited, as, on account or in lieu of payment of, or in satisfaction of, interest, premium or principal on the notes by Thomson Reuters to a Non-Resident Holder, including in respect of a redemption of the notes, will be exempt from Canadian withholding tax.

No other taxes on income (including taxable capital gains) will be payable under the Tax Act by a Non-Resident Holder in respect of the holding, redemption or disposition of the notes or the receipt of interest or premium thereon.

We have agreed that, until settlement of this notes offering, we will not, without the prior written consent of Citigroup Global Markets Inc., Goldman, Sachs & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated and Wells Fargo Securities, LLC, directly or indirectly, issue, sell, offer or contract to sell, grant any option for the sale of, or otherwise transfer or dispose of, any debt securities of the Company having a term of in excess of twelve months.

We have agreed to indemnify the several Underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments the Underwriters may be required to make in respect of those liabilities.

The Underwriters are offering the notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the notes, and other conditions contained in the Underwriting Agreement, such as the receipt by the Underwriters of officers' certificates and legal opinions. The Underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part. After the initial offering of the notes, the price and other selling terms may be changed.

Standard Chartered Bank will not effect any offers or sales of any notes in the United States unless it is through one or more U.S. registered broker-dealers as permitted by the regulations of FINRA.

Commissions, Discounts and Expenses

The representatives have advised us that the Underwriters propose initially to offer the notes to the public at the public offering price set forth on the cover of this prospectus supplement and may offer notes to certain dealers at such public offering price less a concession not in excess of 0.300% per note. The Underwriters may allow, and the dealer may reallow, a concession not in excess of 0.200% per note. After the initial public offering, the public offering prices and concession may be changed by the Underwriters.

The expenses of the offering, not including the underwriting commission, are estimated to be approximately US\$1,155,000 and are payable by us.

Price Stabilization and Short Positions

In connection with the offering, the Underwriters are permitted to engage in transactions that stabilize the market price of the notes. Such transactions consist of bids or purchases to peg, fix or maintain the price of the notes. If the Underwriters create a short position in the notes in connection with the offering, i.e., if they sell more notes than are on the cover page of this prospectus supplement, the Underwriters may reduce that short position by purchasing notes in the open market. Purchases of a security to stabilize the price or to reduce a short position could cause the price of the security to be higher than it might be in the absence of such purchases.

Neither we nor any of the Underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, neither we nor any of the Underwriters makes any representation that the Underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Liquidity

The notes will have no established trading market. The notes will not be listed on any securities exchange or on any automated dealer quotation system. The Underwriters may make a market in the notes after completion of the offering, but will not be obligated to do so and may discontinue any market-making activities at any time without

notice. No assurance can be given as to the liquidity of the trading market for the notes or that an active public market for the notes will develop. If an active public trading market for the notes does not develop, the market price and liquidity of the notes may be adversely affected.

Other Relationships

Certain of the Underwriters and/or their affiliates have performed certain investment banking and advisory services for us from time to time for which they have received customary fees and expenses. The Underwriters may, from time to time, engage in transactions with, or perform services for, us in the ordinary course of business and receive fees in connection therewith.

S-20

Table of Contents

In addition, in the ordinary course of their business activities, the Underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. Certain of the Underwriters or their affiliates that have a lending relationship with us routinely hedge their credit exposure to us consistent with their customary risk management policies. Typically, such Underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such short positions could adversely affect future trading prices of the notes offered hereby. The Underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

T+5 Settlement Cycle

We expect that delivery of the notes will be made against payment therefor on or about the closing date specified on the cover page of this prospectus supplement, which will be the fifth business day following the date of this prospectus supplement (this settlement cycle being referred to as "T+5"). Under Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of this prospectus supplement or the next succeeding business day will be required, by virtue of the fact that the notes initially will settle in T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of notes who wish to trade notes on the date hereof or the next succeeding business day should consult their own advisor.

Selling Restrictions

Each of the Underwriters has represented and agreed that it has not and will not offer, sell or deliver any of the notes directly or indirectly, or distribute this prospectus supplement or the accompanying short form base shelf prospectus or any other offering material relating to the notes, in or from any jurisdiction except under circumstances that will result in compliance with the applicable laws and regulations thereof and in a manner that will not impose any obligations on us, except as set forth in the Underwriting Agreement.

The notes will not be qualified for sale under the securities laws of Canada or any province or territory of Canada and may not be offered or sold, directly or indirectly, in Canada or to any resident of Canada in contravention of the securities laws of any province or territory of Canada. Each Underwriter has represented and agreed that it will not offer, sell or deliver the notes, directly or indirectly, in Canada or to any resident of Canada in contravention of the securities laws of any province or territory of Canada, and that any selling agreement or similar arrangement with respect to the notes will require any dealer or other party thereto to make a representation to the same effect.

European Economic Area

In relation to each Member State of the European Economic Area (each, a "Member State") with effect from and including the date on which the Prospectus Directive is implemented in that Member State (the "relevant implementation date"), an offer of notes described in this prospectus supplement may not be made to the public in that Member State other than:

(a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;

(b) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the Underwriters; or

(c) in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of notes shall require Thomson Reuters or any Underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive.

Each purchaser of notes described in this prospectus supplement located within a Member State will be deemed to have represented, acknowledged and agreed that it is a qualified investor within the meaning of Article 2(1)(E) of the Prospectus Directive.

For the purposes of this provision, the expression an offer to the public in relation to any notes in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the notes to be offered so as to enable an investor to decide to purchase or subscribe to the notes, as the same may

be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression Prospectus Directive means Directive 2003/71/EC (as amended) and includes any relevant implementing measure in the Member State.

United Kingdom

This document and any other material in relation to the notes described herein are only being distributed to, and are only directed at, persons in the United Kingdom that are qualified investors within the meaning of Article 2(1)(e) of the Prospectus Directive (and amendments thereto) and Section 86(7) of the Financial Services and Markets Act 2000 (United Kingdom), as amended (the FSMA) that are also (i) investment professionals falling within Article 19(5) of the FSMA (Financial Promotion) Order 2005, as amended (the Order) or (ii) persons falling within Article 49(2)(a) to (d) (high net worth companies, unincorporated associations, etc.) of the Order or (iii) persons to whom an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) in connection with the issue or sale of any notes may otherwise be lawfully communicated or caused to be communicated (all such persons together being referred to as relevant persons). The notes are only available to, and any invitation, offer or agreement to purchase or otherwise acquire such notes will be engaged only with, relevant persons. Any person in the United Kingdom that is not a relevant person should not act or rely on this document or any of its contents. The notes are not being offered or sold to any person in the United Kingdom, except in circumstances which will not result in an offer of securities to the public in the United Kingdom within the meaning of Part VI of the FSMA.

Each Underwriter has warranted and agreed that:

(a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of the notes in circumstances in which Section 21(1) of the FSMA does not apply to Thomson Reuters; and

(b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the notes in, from or otherwise involving the United Kingdom.

Table of Contents**SERVICE OF PROCESS AND ENFORCEABILITY OF CIVIL LIABILITIES**

Thomson Reuters Corporation is a corporation incorporated under and governed by the *Business Corporations Act* (Ontario), or the OBCA. The controlling shareholder of Thomson Reuters and some of our directors and officers, as well as certain of the experts named in this prospectus and the documents incorporated by reference into this prospectus, are non-U.S. residents and all or a substantial portion of their assets and a substantial portion of our assets are located outside of the United States. It may be difficult for holders of Debt Securities to effect service within the United States upon our controlling shareholder and our directors and officers and the experts named in this prospectus and any documents incorporated by reference into this prospectus who are not residents of the United States or to enforce against them in the United States judgments of courts of the United States predicated upon civil liability under United States federal securities laws. We believe that a monetary judgment of a United States court predicated solely upon civil liability under United States federal securities laws would likely be enforceable in Canada if the United States court in which the judgment was obtained had a basis for jurisdiction in the matter that was recognized by a Canadian court for such purposes. We cannot assure you that this will be the case. It is less certain that an action could be brought in Canada in the first instance on the basis of liability predicated solely upon such laws.

Certain of our directors, and the officers who signed the certificate to this prospectus, reside outside of Canada. These individuals have appointed the following agent for service of process in Canada:
