Item 8.01 Other Events

Peabody today clarified the amount of its issued shares on a fully-converted basis, to assist those interested in estimating and reporting on the company's market capitalization and other purposes. Peabody would have approximately 137.3 million shares of common stock issued, assuming full conversion of Series A convertible preferred stock (including make-whole shares issuable upon conversion of the preferred stock) and full exercise of all warrants issued in connection with the company's emergence from chapter 11. The fully converted shares issued value excludes approximately 3.6 million shares associated with unvested emergence restricted stock units under the employee incentive plan, which vest annually in equal portions over two or three years, depending on the terms of the grant.
