Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Explanatory note

This Report on Form 6-K contains the following exhibits. This Report on Form 6-K and the exhibits hereto are hereby incorporated by reference into Registration Statements Nos. 333-206013 and 333-218897 of Deutsche Bank AG, provided that the following subsections of the Management Report section of the Interim Report (contained in Exhibit 99.1) are not so incorporated by reference: Outlook: The Global Economy and Outlook: The Banking Industry. For the avoidance of doubt, the subsection of the Management Report section of the Interim Report (contained in Exhibit 99.1) entitled Risks and Opportunities is intended to supplement, but not replace, the section Risk Factors included on pages 14 to 47 of our 2016 Annual Report on Form 20-F.

Exhibit 99.1: The following sections of Deutsche Bank AG's Interim Report as of September 30, 2017: The Group at a Glance, Management Report, the Consolidated Financial Statements, the Notes to the Consolidated Financial Statements and Other Information (unaudited).

Exhibit 99.2: Capitalization table of Deutsche Bank AG as of September 30, 2017 (also incorporated as Exhibit 12.19 to Registration Statement No. 333-206013 of Deutsche Bank AG and as Exhibit 12.5 to Registration Statement No. 333-218897 of Deutsche Bank AG).

Exhibit 99.3: Statement re: Computation of Ratio of Earnings to Fixed Charges of Deutsche Bank AG for the periods ended September 30, 2017, December 31, 2016, December 31, 2015, December 31, 2014, December 31, 2013 and December 31, 2012 (also incorporated as Exhibit 12.20 to Registration Statement No. 333-206013 of Deutsche Bank AG and as Exhibit 12.6 to Registration Statement No. 333-218897 of Deutsche Bank AG).

Exhibit 99.4: Reconciliation of Adjusted IBIT, a non-GAAP financial measure, to Income before income taxes, the most directly comparable measure calculated and presented in accordance with IFRS in Deutsche Bank AG's financial statements.

Forward-looking statements contain risks

This report contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations. Any statement in this report that states our intentions, beliefs, expectations or predictions (and the assumptions underlying them) is a forward-looking statement. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our trading revenues, potential defaults of borrowers or trading counterparties, the implementation of our strategic initiatives, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with

the U.S. Securities and Exchange Commission. Such factors are described in detail in our 2016 Annual Report on Form 20-F, which was filed with the SEC on March 20, 2017, on pages 14 through 47 under the heading Risk Factors. Copies of this document are readily available upon request or can be downloaded from www.deutsche-bank.com/ir.

Use of Non-GAAP Financial Measures

This report and other documents we have published or may publish contain non-GAAP financial measures. Non-GAAP financial measures are measures of our historical or future performance, financial position or cash flows that contain adjustments that exclude or include amounts that are included or excluded, as the case may be, from the most directly comparable measure calculated and presented in accordance with IFRS in our financial statements. Examples of our non-GAAP financial measures, and the most directly comparable IFRS financial measures, are as follows:

Non-GAAP Financial Measure	Most Directly Comparable IFRS Financial Measure
Adjusted IBIT	Income before income taxes
Net income attributable to Deutsche Bank shareholders	Net income
Adjusted costs	Noninterest expenses
Tangible shareholders equity, Average tangible shareholders equity, Tangible book value, Average tangible book value	Total shareholders equity (book value)
Post-tax return on average shareholders equity (based on Net income attributable to Deutsche Bank shareholders)	Post-tax return on average shareholders equity
Post-tax return on average tangible shareholders equity	Post-tax return on average shareholders equity
Tangible book value per basic share outstanding, Book value per basic share outstanding	Book value per share outstanding

For descriptions of non-GAAP financial measures and the adjustments made to the most directly comparable IFRS financial measures to obtain them, please refer to (i) the subsection Other Information (unaudited): Non-GAAP Financial Measures of Exhibit 99.1 hereto, (ii) Exhibit 99.4 hereto, (iii) pages 6 and 7 of our 2016 Annual Report on Form 20-F and (iv) Supplementary Information: Non-GAAP Financial Measures on pages 467 through 472 of our 2016 Annual Report, which constitutes part of our 2016 Annual Report on Form 20-F.

As set forth in Exhibit 99.4 hereto, Adjusted IBIT is calculated by adjusting income before income taxes under IFRS for (i) debt valuation adjustments and the effects of changes in own credit spreads, (ii) restructuring and severance, (iii) litigation and (iv) impairment of goodwill and other intangible assets. We believe that a presentation of income before income taxes excluding the impact of these items provides a useful depiction of the performance of our businesses.

When used with respect to future periods, our non-GAAP financial measures are also forward-looking statements. We cannot predict or quantify the levels of the most directly comparable financial measures under IFRS that would correspond to these measures for future periods. This is because neither the magnitude of such IFRS financial measures, nor the magnitude of the adjustments to be used to calculate the related non-GAAP financial measures from such IFRS financial measures, can be predicted. Such adjustments, if any, will relate to specific, currently unknown, events and in most cases can be positive or negative, so that it is not possible to predict whether, for a future period, the non-GAAP financial measure will be greater than or less than the related IFRS financial measure.

CRR/CRD 4 Solvency Measures

Since January 1, 2014, our regulatory assets, exposures, risk-weighted assets, capital and ratios thereof are calculated for regulatory purposes under the regulation on prudential requirements for credit institutions and investment firms (CRR) and the Capital Requirements Directive 4 (CRD 4) implementing Basel 3, which were published on June 27, 2013. CRR/CRD 4 provides for transitional (or phase-in) rules, under which capital instruments that are no longer eligible under the new rules are permitted to be phased out as the new rules on regulatory adjustments are phased in, as well as regarding the risk weighting of certain categories of assets. Unless otherwise noted, our CRR/CRD 4 solvency measures set forth in this document reflect these transitional rules.

We also set forth in this report and other documents such CRR/CRD 4 measures on a fully loaded basis, reflecting full application of the final CRR/CRD 4 framework without consideration of the transitional provisions under CRR/CRD 4, except with respect to a limited set of equity investments. As the final implementation of CRR/CRD 4 may differ from our expectations, and our competitors' assumptions and estimates regarding such implementation may vary, our fully loaded CRR/CRD 4 measures may not be comparable with similarly labeled measures used by our competitors. We believe that these fully loaded CRR/CRD 4 calculations provide useful information to investors as they reflect our progress against the new regulatory capital standards and as many of our competitors have been describing CRR/CRD 4 calculations on a fully loaded basis.

For descriptions of these fully loaded CRR/CRD 4 measures and the differences from the most directly comparable measures under the CRR/CRD 4 transitional rules, please refer to (i) the subsections Management Report: Risk Report: Risk and Capital Performance: Regulatory Capital , Management Report: Risk Report: Leverage Ratio and Other Information (unaudited): Non-GAAP Financial Measures of Exhibit 99.1 hereto, and (ii) Management Report: Risk Report: Risk and Capital Performance: Capital and Leverage Ratio on pages 136 through 152 of the Annual Report 2016, in particular the subsections thereof entitled Development of regulatory capital , Development of risk-weighted assets and Leverage Ratio , and, with respect to the effect of the grandfathering rule on our fully loaded CRR/CRD 4 measures, to Supplementary Information: Non-GAAP Financial Measures: Fully loaded CRR/CRD 4 Measures on pages 471 and 472 of the Annual Report 2016, which Annual Report 2016 constitutes a part of our 2016 Annual Report on Form 20-F.

When used with respect to future periods, our fully loaded CRR/CRD 4 measures are also forward-looking statements. We cannot predict or quantify the levels of the most directly comparable transitional CRR/CRD 4 measures that would correspond to these fully loaded

CRR/CRD 4 measures for future periods. In managing our business with the aim of achieving targets based on fully loaded CRR/CRD 4 measures, the relation between the fully loaded and transitional measures will depend upon, among other things, management action taken in light of future business, economic and other conditions.

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
