

SWISS HELVETIA FUND, INC.

Form N-30B-2

November 29, 2018

THE SWISS HELVETIA FUND, INC.

(As of September 30, 2018)

For the three-month period ended September 30, 2018, the performance of The Swiss Helvetia Fund, Inc. (the Fund), as measured by the change in value in the Fund's net asset value (NAV), increased 9.42% in US dollars (USD). For the same period, the Fund's share price performance increased 11.73% in USD, as the discount at which the Fund traded its shares narrowed. This compares with an increase of 6.34% in the Swiss Performance Index (the Index or SPI) in USD. Since the beginning of the year, the Fund's NAV increased 3.54% while the share price increased 9.90% in US dollars. This compares with an increase of 0.25% in the Index in USD. The share price has benefited during the quarter and year-to-date periods from a narrowing of the discount, advancing more than the NAV. While the NAV has outperformed the index during the quarter and year-to-date periods, a substantial portion is explained by actions taken by the Fund in connection with the Fund's recent distribution and tender offer, as further explained below under Performance.

Economic environment during the period under review

Global economic review

The global economy's expansion continued in Q3 2018. US real GDP increased 3.5% in the third quarter 2018, decelerating from 4.2% in the second quarter of 2018 but stronger than the 2.2% seen in the first quarter (annualized). On

September 26, the US Federal Reserve hiked rates for the third time this year to a target range of 2.0% - 2.25%, citing strong economic activity and low unemployment. On the other side of the Atlantic, the Eurozone GDP growth slowed down to 0.2% in Q3, after achieving a growth rate of 0.4% for both the first and second quarters of 2018 (not annualized).

Swiss economic review

In Switzerland, the State Secretariat for Economic Affairs (SECO) released GDP growth figures for the second quarter of 2018. GDP growth amounted to 0.7% (not annualized) and estimates for the first quarter of 2018, were revised upwards to 1.0% (from 0.6%). The above average rate of growth was supported by strong manufacturing and exports, underpinned by more favorable exchange rate movements. Hence, the Swiss economy grew at a faster pace than the Euro area. The unemployment rate remained low at 2.4%.

Market environment during the period under review

In contrast to emerging markets and Europe ex Switzerland, equity markets performed strongly over the quarter in the US and Switzerland. The S&P 500 returned 7.71%, and the SPI rose by 6.34% (both in USD). For the first time this year, Swiss small & mid caps underperformed large caps. Year to date, however, small & mid caps outperformed marginally. The relative performance of the Swiss market

THE SWISS HELVETIA FUND, INC.

versus other European stock exchanges and the leadership of large caps is also evident when looking at sector leadership, as three of the five heaviest sectors in

the index led the market in absolute performance terms: the healthcare, food and insurance sectors had the largest contribution to index performance.

Source: Schroders, Bloomberg, as of September 30, 2018. Performance measured as total return in USD. Sectors mentioned should not be viewed as a recommendation to buy/sell. Portfolio composition is subject to change over time. Investors cannot invest directly in the Index.

THE SWISS HELVETIA FUND, INC.

Performance

As previously announced, the Board of Directors of the Fund approved a tender offer to purchase up to 65% of the Fund's outstanding shares for cash at a price equal to 98% of the NAV per share on the expiration date (the "Tender Offer"). Prior to commencing the Tender Offer, in October 2018, the Fund distributed substantially all of its realized capital gains to stockholders of record as of September 19, 2018 (the "October Distribution").

For the period under review and for the first nine months of 2018, the Fund's NAV return was positive compared to the Index's return. The October Distribution had a material positive impact on the Fund's NAV performance calculation due to the assumed re-investment of the October Distribution at a discount to NAV which was reflected in the Fund's valuation as of September 17 (the ex-dividend date).

In terms of relative performance before the impact of the October Distribution, there were positive impacts from some of the Fund's larger overweight positions, such as *Cembra Money Bank*, *Sonova*, *Sensirion*, and *Belimo*. Furthermore, being underweight in *ams AG*, *LafargeHolcim* and *SGS* had a positive impact on relative performance. However, negative contributions to relative performance came from overweight positions such as *GAM*, *Aryzta*, *CEVA*, *Implen* and *Tecan*, as did our underweight in *Lonza*. The Fund's private equity positions had a positive impact, primarily due to the valuation of *Novimmune*, which sold the global rights to its lead drug candidate for a price above the Fund's carrying value.

Portfolio changes

In total, there were 31 sales and 10 purchases, as the Fund partially reduced positions to fund the October Distribution. Of the sales, there were 27 reductions and four entire disposals.

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-30B-2

Among the purchases, there were seven increases and only one new investment in an initial public offering (IPO). As of September 30, 2018, there were 39 listed companies held by the Fund and six direct private equity investments, including one participation in a private equity limited partnership.

While the Fund sold many positions in order to fund the October Distribution, it

also continued typical portfolio management activity. It should be noted that the Fund did not dispose of its illiquid private equity positions to fund the October Distribution or the Tender Offer and that as a result, the Fund's illiquid private equity positions now comprise a greater portion of the Fund's portfolio.

The Fund established a new position in the IPO of *SIG Combibloc*, a competitor to

THE SWISS HELVETIA FUND, INC.

Tetra Pak in the aseptic packaging market. While market dynamics are supported by mega trends such as urbanization, population growth and rising income levels, we believe that *SIG Combibloc*'s more flexible technology will lead to market share gains. New geographic market entries should also provide avenues for growth.

ABB is a late cyclical industrial company. Although we added to the Fund's position in *ABB* because we expect that it will benefit from growing order demand, we still kept an underweight for valuation reasons.

We increased our position in *Adecco* from an underweight to an overweight as we believe the company is much cheaper than the market on key value metrics such as Price-Earnings Ratio, Price-Cash Flow Ratio, Price-Sales Ratio and dividend yield.

We increased the Fund's position in *Julius Baer* as its valuation appeared attractive against the backdrop of short-term fears regarding potential legal issues and employee retention after the CEO left for a competitor.

We increased the Fund's position in *Nestle* after observing welcome initiatives from its new CEO, which appears to be adjusting its products to the needs of a more modern consumer. We are encouraged by the portfolio changes and product enhancements made so far, although there

is still a long journey ahead for the transformation.

We increased the Fund's positions in *Richemont* and *Swatch* based on share price weakness around fears of a demand slowdown from China.

We also increased the Fund's weight in *UBS* and *Zurich Insurance*, as we believe the two companies stand out in the financial sector in terms of dividend yield and capital strength.

Outlook and Investment View

We slightly reduced our expectations for global growth from 3.4% to 3.3% in 2018, before moderating to 3.0% in 2019 (previously 3.2%). Including fiscal stimulus packages, US growth is forecast at 2.8% in 2018 and 2.4% next year. The US Federal Reserve has now started its balance sheet reduction (quantitative tightening) and with core inflation rising, we expect another rate hike in December and two more in 2019, ending the forecast at 3%. Eurozone growth is forecast to moderately slow to 2.0% in 2018, but remains robust overall. Italian political risk has returned and has reintroduced volatility, meaning growth should moderate in 2019 to 1.7%, but at this level, remains above trend. Eurozone inflation is expected to remain under 2%, with higher energy price inflation in 2018 replaced by higher core inflation in 2019. The European Central Bank is likely to end quantitative easing in

THE SWISS HELVETIA FUND, INC.

December 2018, before raising interest rates in 2019. In Switzerland, the SECO considerably increased its growth outlook for 2018 from 2.4% to 2.9%. For 2019, GDP is expected to increase by 2.0%. We believe Swiss companies benefit from a sound global economic environment and ongoing productivity gains. Emerging economies are forecast to see growth largely unchanged at 5% for 2018 before slowing to 4.8% in 2019. China's GDP growth is forecast to continue its secular decline, exacerbated by trade wars.

The trade wars between the US and China have escalated with another round

of tariffs from both sides. We expect the dispute to be prolonged with all trade between the two nations being subject to tariffs by the end of next year. The impact on global activity is negative, but the dispute would have to escalate beyond China and the US to end the cycle. Nonetheless, when combined with the impact of tighter monetary policy and a fade in fiscal stimulus, the effect of the clash on trade and investment should contribute to a slowdown in 2019 and a potential end to US expansion in 2020.

THE SWISS HELVETIA FUND, INC.

Notes to Schedule of Investments (Unaudited)

Note 1 Organization and Significant Accounting Policies

A. Organization

The Swiss Helvetia Fund, Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended (the Act), as a non-diversified, closed-end management investment company. The Fund is organized as a corporation under the laws of the State of Delaware.

The investment objective of the Fund is to seek long-term growth of capital through investment in equity and equity-linked securities of Swiss companies. The Fund may also acquire and hold equity and equity-linked securities of non-Swiss companies in limited instances.

B. Securities Valuation

The Fund values its investments at fair value in accordance with accounting principles generally accepted in the United States (GAAP).

When valuing listed equity securities, the Fund uses the last sale price on the securities exchange or national securities market on which such securities primarily are traded (the Primary Market) prior to the calculation of the Fund's net asset value (NAV). When valuing equity securities that are not listed (except privately-held companies and private equity limited partnerships) or that are listed but have not traded on a day on which the Fund calculates its NAV, the Fund uses the mean between the bid and asked prices for that day. If there are no asked quotations for such a security, the value of such security will be the most recent bid quotation on the Primary Market on that day. On any day when a security's Primary Market is closed because of a local holiday or other scheduled closure, but the New York Stock Exchange is open, the Fund may use the prior day's closing prices to value such security regardless of the length of the scheduled closing.

When valuing fixed-income securities, if any, the Fund uses the last bid price prior to the calculation of the Fund's NAV. If there is no current bid price for a fixed-income security, the value of such security will be the mean between the last quoted bid and asked prices on that day. Overnight and certain other short-term fixed-income securities with maturities of less than 60 days will be valued by the amortized cost method, unless it is determined that the amortized cost method would not represent the fair value of such security.

It is the responsibility of the Fund's Board of Directors (the Board) to establish procedures to provide for the valuation of the Fund's portfolio holdings. When valuing securities for which market quotations are not readily available, or for which the market quotations that are available are considered unreliable, the Fund determines a fair value in good faith in accordance with these procedures (a Fair Value). The Fund may use these procedures to establish the Fair Value of securities when, for example, a significant event occurs between the time the market closes and the time the Fund values its investments. After consideration of various factors, the Fund may value the securities at their last reported price or at some other value.

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-30B-2

Swiss exchange-listed options, if any, including Eurex-listed options, are valued at their most recent sale price (latest bid for long options and the latest ask for short options) on the Primary Market, or if there are no such sales, at the average of the most recent bid and asked quotations on such Primary Market, or if such quotations are not available, at the last bid quotation (in the case of purchased options) or the last asked quotation (in the case of written options). If, however, there

THE SWISS HELVETIA FUND, INC.

Notes to Schedule of Investments (Unaudited) (continued)

are no such quotations, such options will be valued using the implied volatilities observed for similar options or from aggregated data as an input to a model. Options traded in the over-the-counter market, if any, are valued at the price communicated by the counterparty to the option, which typically is the price at which the counterparty would close out the transaction. Option contracts, if any, that are neither exchange-listed nor traded in the over-the-counter market, and where no broker can provide a quote or approved pricing vendor a price, may be valued using the implied volatilities observed for similar instruments or from aggregated market data received from services (e.g., Bloomberg) as an input to a widely accepted model.

The Fund is permitted to invest in investments that do not have readily available market quotations. For such investments, the Act requires the Board to determine their Fair Value. The aggregate value of these investments amounted to \$7,182,812, or 3.20% of the Fund's net assets at September 30, 2018, and are listed in Note 2 to the Schedule of Investments.

Various inputs are used to determine the value of the Fund's investments. These inputs are summarized in the three broad levels listed below:

Level 1 unadjusted quoted prices in active markets for identical assets and liabilities

Level 2 other significant observable inputs (including quoted prices of similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used to value the Fund's investments as of September 30, 2018:

	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Investments Valued at NAV**	Total
Investments in Securities*					
Common Stock	\$ 298,501,250	\$	\$ 5,889,894	\$	\$ 304,391,144
Preferred Stock			282,478		282,478
Limited Partnership				1,010,440	1,010,440
Total Investments in Securities	\$ 298,501,250	\$	\$ 6,172,372	\$ 1,010,440	\$ 305,684,062

* Please see the Schedule of Investments for industry classifications.

**

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-30B-2

As of September 30, 2018 certain of the Fund's investments were valued using net asset value (NAV) per share (or its equivalent) as a practical expedient for fair value and have been excluded from the fair value hierarchy in accordance with ASU 2015-07. The fair value amount presented in this table is intended to permit reconciliation of the amounts presented in the fair value hierarchy to the amounts presented in the statement of assets and liabilities.

The Fund values its investment in a private equity limited partnership in accordance with Accounting Standards Codification 820-10-35, Investments in Certain Entities that Calculate Net Asset Value Per Share (Or its Equivalent) (ASC 820-10-35). ASC 820-10-35 permits a reporting entity to measure the fair value of an investment that does not have a readily determinable fair

THE SWISS HELVETIA FUND, INC.

Notes to Schedule of Investments (Unaudited) (continued)

value, based on the NAV of the investment as a practical expedient, without further adjustment, unless it is probable that the investment will be sold at a value significantly different than the NAV. If the NAV of the investment is not as of the Fund's measurement date, then the NAV should be adjusted to reflect any significant events that may change the valuation. Inputs and valuation techniques for these adjustments may include fair valuations of the partnership and its portfolio holdings provided by the partnership's general partner or manager, other available information about the partnership's portfolio holdings, values obtained on redemption from other limited partners, discussions with the partnership's general partner or manager and/or other limited partners and comparisons of previously-obtained estimates to the partnership's audited financial statements. In using the unadjusted NAV as a practical expedient, certain attributes of the investment that may impact its fair value are not considered. Attributes of those investments include the investment strategies of the privately held companies and may also include, but are not limited to, restrictions on the investor's ability to redeem its investments at the measurement date and any unfunded commitments.

Level 3 securities, which are listed in Note 3 to the Schedule of Investments, consist of the Fund's investments in privately-held companies.

Inputs and valuation techniques used by the Fund to value its Level 3 investments in privately-held companies may include the following: acquisition cost; fundamental analytical data; discounted cash flow analysis; nature and duration of restrictions on disposition of the investment; public trading of similar securities of similar issuers; economic outlook and condition of the industry in which the issuer participates; financial condition of the issuer; and the issuer's prospects, including any recent or potential management or capital structure changes. Although these valuation inputs may be observable in the marketplace as is characteristic of Level 2 investments, the privately-held companies, categorized as Level 3 investments, generally are highly illiquid in terms of resale.

THE SWISS HELVETIA FUND, INC.

Notes to Schedule of Investments (Unaudited) (continued)

When valuing Level 3 investments, management also may consider potential events that could have a material impact on the operations of a privately-held company. Not all of these factors may be considered or available, and other relevant factors may be considered on an investment-by-investment basis. The table below summarizes the techniques and unobservable inputs for the valuation of Level 3 investments.

Quantitative Information about certain Level 3 Fair Value Measurements

	Fair Value at September 30, 2018	Valuation Technique	Unobservable inputs	Range ¹
<i>Biotechnology</i>				
NovImmune SA Common Shares	\$4,510,975	Market approach	Recent round of financing	N/A
				95%
Ixodes AG Preferred Shares	49,103	Discounted cash flow	Discount rate	19%
			Probability of success rate on research and development	10%
<i>Industrial Goods & Services</i>				
SelfFrag AG Preferred Shares	189,721	Market approach	Recent round of financing	N/A
<i>Medical Equipment</i>				
EyeSense AG Preferred Shares	43,654	Market approach	Recent round of financing	N/A
Spineart SA Common Shares	1,378,919	Market approach	Recent round of financing	N/A
Total	\$6,172,372			

¹ Significant changes in any of these ranges would result in a significantly higher or lower fair value measurement. Generally, a change in the probability of success rate on research and development is accompanied by a directionally similar change in fair value. Conversely, a change in the discount rate is accompanied by a directionally opposite change in fair value.

The Fund's policy is to disclose transfers between Levels based on their market prices as of the beginning of the period.

THE SWISS HELVETIA FUND, INC.

Notes to Schedule of Investments (Unaudited) (continued)

The following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value.

	Common Stock	Preferred Stock	Total
Balance as of December 31, 2017	\$ 4,941,039	\$ 328,792	\$ 5,269,831
Change in Unrealized Appreciation/Depreciation (a)	948,855	(46,314)	902,541
Net Realized Gain (Loss)			
Gross Purchases			
Gross Sales			
Transfer out of Level 3			
Balance as of September 30, 2018	\$ 5,889,894	\$ 282,478	\$ 6,172,372

(a) The noted amounts of change in unrealized appreciation/depreciation relate to the fair value of Level 3 assets held on September 30, 2018.

C. Foreign Currency Translation

The Fund maintains its accounting records in U.S. dollars. The Fund's assets are invested primarily in Swiss equities. In addition, the Fund can make its temporary investments in Swiss franc-denominated bank deposits, short-term debt securities and money market instruments. Substantially all income received by the Fund is in Swiss francs. The Fund's NAV, however, is reported, and distributions from the Fund are made, in U.S. dollars, resulting in gain or loss from currency conversions in the ordinary course of business. Historically, the Fund has not entered into transactions designed to reduce currency risk and does not intend to do so in the future. The cost basis of foreign denominated assets and liabilities is determined on the date that they are first recorded within the Fund and translated to U.S. dollars. These assets and liabilities are subsequently valued each day at prevailing exchange rates. The difference between the original cost and current value denominated in U.S. dollars is recorded as unrealized foreign currency gain/loss. In valuing securities transactions, the receipt of income and the payment of expenses, the Fund uses the prevailing exchange rate on the transaction date.

Net realized and unrealized gains and losses on foreign currency shown in the Fund's financial statements result from the sale of foreign currencies, from currency gains or losses realized between the trade and settlement dates of securities transactions, and from the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid.

When calculating realized and unrealized gains or losses on investments, the Fund does not separate the gain or loss attributable to changes in the foreign currency price of the security from the gain or loss attributable to the change in the U.S. dollar value of the foreign currency. Other foreign currency translations resulting in realized and unrealized gain or loss are disclosed separately.

D. Concentration of Market Risk

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-30B-2

The Fund primarily invests in securities of Swiss issuers. Such investments may carry certain risks not ordinarily associated with investments in securities of U.S. issuers. These risks include future

 THE SWISS HELVETIA FUND, INC.

Notes to Schedule of Investments (Unaudited) (concluded)

political and economic developments, unfavorable movements in the Swiss franc relative to the U.S. dollar, and the possible imposition of exchange controls and changes in governmental law and restrictions. In addition, concentrations of investments in securities of issuers located in a specific region expose the Fund to the economic and government policies of that region and may increase risk compared to a fund whose investments are more diversified.

Note 2 Capital Commitments

As of September 30, 2018, the Fund maintains an illiquid investment in one private equity limited partnership. This investment appears in the Fund's Schedule of Investments. The Fund's capital commitment for this partnership is shown in the table below:

Investments	Original Capital Commitment*	Unfunded Commitment*
Private Equity Limited Partnership International (a)		
Aravis Biotech II, Limited Partnership	\$ 3,327,191	\$

* The original capital commitment represents 3,250,000 Swiss francs, which has been fully funded as at September 30, 2018. The Swiss franc/U.S. dollar exchange rate as of September 30, 2018 was used for conversion and equaled 0.9768 as of such date.

(a) This category consists of one private equity limited partnership that invests primarily in venture capital companies in the biotechnology and medical technology sectors. There is no redemption right for the interest in this limited partnership. Instead, the nature of investments in this category is that distributions are received through the realization of the underlying assets of the limited partnership.

Note 3 Subsequent Events

On November 20, 2018, pursuant to the Fund's previously announced Tender Offer, the Fund accepted for cash purchase 24,638,918 shares of the Fund's common stock at a price equal to \$7.86 per share, which represents 98% of the Fund's NAV per share of \$8.02 as of the close of the regular trading session of the New York Stock Exchange on November 19, 2018. As a result of the purchase of the 24,638,918 shares, the Fund has 13,267,110 shares of common stock outstanding.

The Fund has been informed that the Fund's Executive Officers and other officers that are employees of Schroder Investment Management North America, Inc., Schroder Investment Management North America Ltd., or their respective affiliates will resign as officers of the Fund on or about December 31, 2018. The Board is evaluating its options but intends to identify appropriate replacements for required officers, which could result in additional cost to the Fund.

THE SWISS HELVETIA FUND, INC.

Automatic Dividend Reinvestment Plan (Unaudited)

Terms and Conditions

Pursuant to this Automatic Dividend Reinvestment Plan (the "Plan") of The Swiss Helvetia Fund, Inc. (the "Fund"), unless a holder (each, a "Shareholder") of the Fund's shares of common stock (the "Common Shares") otherwise elects, all income dividends, capital gain distributions and returns of capital, if any (collectively referred to herein as "dividends"), on such Shareholder's Common Shares will be automatically reinvested by American Stock Transfer & Trust Company, as agent for Shareholders in administering the Plan (the "Plan Administrator"), in additional Common Shares of the Fund. Shareholders who elect not to participate in the Plan will receive all dividends payable in cash directly to the Shareholder of record (or, if the Common Shares are held in street or other nominee name, then to such nominee) by American Stock Transfer & Trust Company LLC, as the Dividend Disbursing Agent. Shareholders may elect not to participate in the Plan and to receive all dividends in cash by contacting the Plan Administrator. Enrollment, purchase or sales of shares and other transactions or services offered by the Plan can be directed to the Plan Administrator through the following:

Telephone

Telephone the Plan Administrator: 1-888-556-0425.

In Writing

You may also write to the Plan Administrator at the following address: American Stock Transfer & Trust Company, PO Box 922, Wall Street Station, New York, NY 10269-0560. Be sure to include your name, address, daytime phone number, social security or tax I.D. number and a reference to The Swiss Helvetia Fund, Inc. on all correspondence.

Participation in the Plan is completely voluntary and may be terminated at any time without penalty by providing notice in writing to the Plan Administrator at least 3 business days prior to any dividend payment date for that dividend to be payable in cash. A request for termination that is received less than 3 business days prior to any dividend payment date will be processed by the Plan Administrator, but you will have that dividend reinvested in additional Common Shares. However, all subsequent dividends will be payable in cash unless and until you resume participation in the Plan. To resume participation in the Plan, your request to enroll in the Plan must be received by the record date for that dividend distribution. If received after the record date, your participation in the Plan will begin with the next dividend declaration.

Whenever the Fund declares a dividend, payable either in Common Shares or in cash, participants in the Plan will receive a number of Common Shares determined in accordance with the following provisions and non-participants in the Plan will receive cash. The Common Shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either: (i) through the receipt of additional unissued but authorized Common Shares from the Fund ("newly issued Common Shares") or (ii) by purchase of outstanding Common Shares on the open market ("open-market purchases") on the New York Stock Exchange, the primary national securities exchange on which the Common Shares are traded, or elsewhere.

If, on the payment date for any dividend, the net asset value ("NAV") per Common Share is equal to or less than the market price per Common Share (plus estimated brokerage

THE SWISS HELVETIA FUND, INC.

Automatic Dividend Reinvestment Plan (Unaudited) (continued)

trading fees) (such condition being referred to herein as "market premium"), the Plan Administrator will invest the dividend amount in newly issued Common Shares on behalf of the participants. The number of newly issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the dividend by the NAV per Common Share on the date the Common Shares are issued, provided that, if the NAV per Common Share is less than or equal to 95% of the then current market price per Common Share on the date of issuance, the dollar amount of the dividend will be divided by 95% of the market price on the date of issuance for purposes of determining the number of shares issuable under the Plan.

If, on the payment date for any dividend, the NAV per Common Share is greater than the market price of the Common Shares (plus estimated brokerage trading fees) (such condition being referred to herein as "market discount"), the Plan Administrator will invest the dividend amount in Common Shares acquired on behalf of the participants in open-market purchases.

In the event of a market discount on the payment date for any dividend, the Plan Administrator will have until the last business day before the next date on which the Common Shares trade on an ex-dividend basis or in no event more than 30 days after the record date for such dividend, whichever is sooner (the "last purchase date"), to invest the dividend amount in Common Shares acquired in open-market purchases. If, before the Plan Administrator has completed its open-market purchases, the market price of a Common Share exceeds the NAV per Common Share, the average per Common Share purchase price paid by the Plan Administrator may

exceed the NAV of the Common Shares, resulting in the acquisition of fewer Common Shares than if the dividend had been paid in newly issued Common Shares on the dividend payment date. Because of the foregoing difficulty with respect to open-market purchases, if the Plan Administrator is unable to invest the full dividend amount in open-market purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making open-market purchases and may invest the uninvested portion of the dividend amount in newly issued Common Shares at the NAV per Common Share at the close of business on the last purchase date provided that, if the NAV is less than or equal to 95% of the then current market price per Common Share, the dollar amount of the dividend will be divided by 95% of the market price on the date of issuance for purposes of determining the number of Common Shares issuable under the Plan.

The Plan Administrator maintains all registered Shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by Shareholders for tax records. Common Shares in the account of each Plan participant generally will be held by the Plan Administrator in non-certificated form in the name of the Plan participant, although the Plan Administrator will issue certificates for whole Common Shares upon your request. Certificates for fractional Common Shares will not be issued.

In the case of Shareholders such as banks, brokers or nominees that hold Common Shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of Common Shares

THE SWISS HELVETIA FUND, INC.

Automatic Dividend Reinvestment Plan (Unaudited) (concluded)

certified from time to time by the record Shareholder and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to Common Shares issued directly by the Fund as a result of dividends payable either in Common Shares or in cash. However, each participant will pay a pro rata share of brokerage trading fees incurred with respect to the Plan Administrator's open-market purchases of Common Shares in connection with the reinvestment of dividends under the Plan.

Participants in the Plan may sell any or all of their Common Shares in their Plan accounts by contacting the Plan Administrator. The Plan Administrator currently charges \$15.00 for the transaction, plus \$0.10 per Common Share for this service. Participants also may withdraw their Common Shares from their Plan accounts and sell those Common Shares through their broker.

Neither the Fund nor the Plan Administrator will provide any advice, make any recommendations, or offer any opinion with respect to whether or not you should purchase or sell your Common Shares or otherwise participate in the Plan. You must make independent investment decisions based on your own judgment and research. The Common Shares held in Plan accounts are not subject to protection under the Securities Investor Protection Act of 1970.

Neither the Fund nor the Plan Administrator will be liable for any good faith act or for any good faith omission to act, including, without limitation, any claim or liability arising out of failure to terminate a participant's account upon the participant's death, the

prices at which Common Shares are purchased or sold for a participant's account, the times when purchases or sales of Common Shares are made, or fluctuations in the market value of Common Shares. However, nothing contained in this provision affects a Shareholder's right to bring a cause of action based on alleged violations of the federal securities laws.

Voting

Each Shareholder proxy will include those Common Shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for Common Shares held pursuant to the Plan in accordance with the instructions of the participants.

Taxation

The automatic reinvestment of dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends.

Amendments to Plan

Edgar Filing: SWISS HELVETIA FUND, INC. - Form N-30B-2

The Fund reserves the right to suspend, amend or terminate the Plan at any time. All Shareholders of record, both participants and non-participants in the Plan, will be notified of any suspension, termination or significant amendment of the Plan. If the Plan is terminated, Common Shares held in the participants' accounts will be distributed to the participants. Any change in the source of purchase of Common Shares under the Plan from open market purchases or direct issuance by the Plan Administrator does not constitute an amendment to the Plan.
