RISK FACTORS

Investing in our Common Stock involves risks. In considering whether you should invest in our Common Stock, you should consider all of the information we have included or incorporated by reference in this prospectus supplement and the accompanying prospectus. In particular, you should carefully consider the risk factors described below, as well as in our Annual Report on Form 10-K for the year ended December 31, 2018 under Item 1A. Risk Factors. You should also read all other information contained in or incorporated by reference in this prospectus supplement and the accompanying prospectus before deciding to invest in our Common Stock. If any of the risks actually occur, they may materially harm our business, financial condition, results of operations and cash flows. As a result, the market price for our Common Stock could decline, and you could lose all or part of your investment. Additional risks and uncertainties that are not yet identified or that we currently believe are not material may also materially harm our business, financial condition, results of operations and cash flows and could result in a complete or partial loss of your investment.

*This prospectus supplement, the accompanying prospectus and the incorporated documents also contain forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks faced by us as described in this prospectus supplement and the documents incorporated by reference in this prospectus supplement and the accompanying prospectus. For more information, see *Forward-Looking Information* in the accompanying prospectus and *Forward-Looking Statements* in this prospectus supplement.*

Risks Related to this Offering and Our Common Stock

Our Common Stock may be subject to stock price and trading volume volatility. The price of our Common Stock could fluctuate or decline significantly and you could lose all or part of your investment.

In recent years, the stock markets have experienced significant price and trading volume volatility. Company-specific issues and market developments generally in the insurance industry and in the regulatory environment may have caused this volatility. Our Common Stock price could materially fluctuate or decrease in response to a number of events and factors, including, but not limited to: quarterly variations in operating results; catastrophe losses; operating and stock price performance of comparable companies; changes in our insurance subsidiaries' financial strength ratings; limitations on premium levels or the ability to maintain or raise premiums on existing policies; regulatory developments; and negative publicity relating to us or our competitors. In addition, broad market and industry fluctuations may materially and adversely affect the trading price or volume of our Common Stock, regardless of our actual operating performance.

Applicable laws, our certificate of incorporation and by-laws and contract provisions may discourage takeovers and business combinations that some stockholders might consider to be in their best interests.

State laws and our certificate of incorporation and by-laws may delay, defer, prevent or render more difficult a takeover attempt that our stockholders might consider in their best interests. For example, Section 203 of the General Corporation Law of the State of Delaware may limit the ability of an interested stockholder to engage in business combinations with us. An interested stockholder is defined to include persons owning 15% or more of our outstanding voting stock. These provisions may also make it difficult for stockholders to replace or remove our directors, which could delay, defer or prevent a change in control. Such provisions may prevent our stockholders from receiving the benefit from any premium to the market price of our Common Stock offered by a bidder in a takeover context. Even in the absence of a takeover attempt, the existence of these provisions may adversely affect the prevailing market price of our Common Stock if they are viewed as discouraging future takeover attempts.

Our certificate of incorporation or by-laws also contain provisions that permit our board of directors to issue one or more series of preferred stock, prohibit stockholders from filling vacancies on our board of directors,

S-4

Table of Contents

prohibit stockholders from calling special meetings of stockholders and from taking action by written consent and impose advance notice requirements for stockholder proposals and nominations of directors to be considered at stockholder meetings.

Additionally, applicable state and foreign insurance laws may require prior approval of an application to acquire control of a domestic insurer. State statutes generally provide that control over a domestic insurer is presumed to exist when any person directly or indirectly owns, controls, has voting power over, or holds proxies representing, 10% or more of the domestic insurer's voting securities. Prior to granting such approval, a state insurance commissioner will typically consider such factors as the financial strength of the applicant, the integrity of the applicant's board of directors and executive officers, the applicant's plans for the future operations of the domestic insurer and any anti-competitive results that may arise from the consummation of the acquisition of control.

Our financial position and results of operations may differ materially from the unaudited pro forma condensed financial information incorporated by reference into this prospectus supplement.

The unaudited pro forma condensed financial information incorporated by reference into this prospectus supplement is presented for illustrative purposes only and is not necessarily indicative of what our financial position or results of operations would have been had the acquisition of TWG been completed on the date indicated. The adjustments applied to the historical financial information of TWG are based on estimates using historical information prepared by TWG's management that may not prove to be accurate and have not been updated. The final adjustments may differ materially from the pro forma adjustments reflected in the unaudited pro forma condensed financial information incorporated by reference into this prospectus supplement.

Future sales of substantial amounts of our Common Stock could affect the market price of our Common Stock.

Future sales of substantial amounts of our Common Stock or other securities convertible or exchangeable into shares of our Common Stock into the public market whether by us or any of our security holders, including shares of Common Stock issued upon conversion of the Mandatory Convertible Preferred Stock or issued upon exercise of options or warrants, or the vesting of restricted stock units, or in connection with potential acquisitions or business combinations, or perceptions that those sales and/or conversions or exchanges could occur, could adversely affect the prevailing market price of our Common Stock and our ability to raise capital in the future.

A reduction in ownership by a large stockholder, including the Selling Stockholders, could cause the market price of our Common Stock to fall. In addition, on some days the daily trading volume in our Common Stock is relatively low. The lack of trading activity in our Common Stock may lead to greater fluctuations in our Common Stock price. Low trading volume may also make it difficult for a stockholder to make transactions in a timely fashion.

Approximately 10.4 million shares of our Common Stock were issued as consideration in our acquisition of TWG, including 10,069,230 shares to the Selling Stockholders, and some of those shares have been registered for resale to the public by the former equity holders of TWG, including the Common Stock being offered by the Selling Stockholders in this offering. Sales of additional shares by such holders or the sale of shares by any of our affiliates and/or in substantial amounts, all at once or within a short time period, could cause the market price of our Common Stock to decline and affect our ability to raise equity capital.

The Selling Stockholders hold approximately 12.8% of our outstanding Common Stock as of March 13, 2019, and will hold none of our outstanding Common Stock following this offering.

Table of Contents

In addition, 2,134,220 shares of Common Stock are issuable upon settlement of restricted stock units outstanding, 1,038,797 shares of Common Stock are reserved and available for grant under the Assurant, Inc. 2017 Long Term Equity Incentive Plan (as well as certain automatic increases), 2,568,362 shares of Common Stock are reserved for future issuance under our Employee Stock Purchase Plan (as well as certain automatic increases) and 3,228,338 shares of Common Stock are issuable upon conversion of the outstanding Mandatory Convertible Preferred Stock (as well as shares issued in payment of a dividend or certain other events). These shares can be sold in the public market upon issuance, subject to restrictions under the securities laws applicable to resales by affiliates and restrictions contained in management and other stockholder agreements. See Compensation Discussion and Analysis Elements of Our Executive Compensation Program Long-Term Equity Incentive Compensation in our proxy statement filed on March 27, 2018, which is incorporated by reference in this prospectus supplement and the accompanying prospectus. Any Common Stock that we issue, including as discussed above, would dilute the percentage ownership held by the investors who purchase Common Stock in this offering.

As restrictions on resale end, or if stockholders with registration rights exercise their registration rights, the market price of our Common Stock could decline as the holders of such shares sell them or are perceived by the market as intending to sell them.

Our ability to declare and pay dividends on or repurchase our Common Stock may be limited.

Our declaration and payment of dividends on our Common Stock in the future will be determined by our board of directors (or an authorized committee thereof) in its sole discretion and will depend on our financial condition, earnings, growth prospects, other uses of cash, funding requirements, applicable law and other factors our board of directors deems relevant.

The payment of dividends on our Common Stock is subject to the preferential rights of the Mandatory Convertible Preferred Stock and other preferred stock that our board of directors may create from time to time. Our revolving credit agreement also contains limitations on our ability to pay dividends to our stockholders if we are in default, or such dividend payments would cause us to be in default, of our obligations thereunder. In addition, if we defer the payment of interest on our 7.00% Fixed-to-Floating Rate Subordinated Notes due March 2048 (the Subordinated Notes), we generally may not make payments on our Common Stock. Further, the agreements governing any of our and our subsidiaries future indebtedness may limit our ability to declare and pay dividends on our Common Stock. In the event that any agreements governing any such indebtedness restrict our ability to declare and pay dividends in cash on our Common Stock, we may be unable to declare and pay dividends in cash on our Common Stock unless we can repay or refinance the amounts outstanding under such agreements.

In addition, under applicable Delaware law, our board of directors (or an authorized committee thereof) may only declare and pay dividends on shares of our Common Stock out of our statutory surplus (which is defined as the amount equal to total assets minus total liabilities, in each case at fair market value, minus statutory capital), or if there is no such surplus, out of our net profits for the then current and/or immediately preceding fiscal year. Further, even if we are permitted under our contractual obligations and Delaware law to declare and pay cash dividends on our Common Stock, we may not have sufficient cash to declare and pay dividends in cash on our Common Stock.

We may not purchase, redeem or otherwise acquire Common Stock for consideration unless all accumulated and unpaid dividends on the Mandatory Convertible Preferred Stock for all preceding dividend periods have been declared and paid in full, subject to certain exceptions. In addition, at any time when we have given notice of our election to defer interest payments on the Subordinated Notes, we generally may not purchase any Common Stock, subject to certain limited exceptions.

Table of Contents

If securities or industry press or analysts cease covering our Common Stock, publish negative research or reports about our business, or if they change their recommendations regarding our Common Stock adversely, our Common Stock price and trading volume could decline.

The trading market for our Common Stock may be influenced by the articles, research and reports that industry or securities analysts and press publish about us or our business. If one or more of the analysts who cover us downgrade our stock, or if industry press publishes negative articles about us, our Common Stock price would likely decline. If one or more of these analysts cease coverage of our Company (including our Common Stock) or fail to regularly publish reports on us, we could lose visibility in the financial markets, which in turn could cause our Common Stock price or trading volume to decline.

USE OF PROCEEDS

You are not a Non-U.S. Holder if you are a nonresident alien individual present in the United States for 183 days or more in the taxable year of disposition of our Common Stock, or if you are a former citizen or former resident of the United States for U.S. federal income tax purposes. If you are such a person, you should consult your tax adviser regarding the U.S. federal income tax consequences of the ownership and disposition of our Common Stock. If you are a partnership for U.S. federal income tax purposes, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. If you are a partner of a partnership holding our Common Stock, you should consult your tax adviser.

This discussion is based on the Internal Revenue Code of 1986, as amended to the date hereof (the Code), administrative pronouncements, judicial decisions and final, temporary and proposed Treasury regulations, changes to any of which subsequent to the date of this prospectus supplement may affect the tax consequences described herein, possibly with retroactive effect. This discussion does not describe all of the tax consequences that may be relevant to you in light of your particular circumstances, including alternative minimum tax and Medicare contribution tax consequences, and does not address any aspect of state, local or non-U.S. taxation, or any taxes other than income and estate taxes. In addition, this discussion does not represent a detailed description of the U.S. federal income tax consequences applicable to you if you are subject to special tax treatment under the U.S. federal income tax laws (including if you are a United States expatriate, foreign pension fund, controlled foreign corporation, passive foreign investment company or a partnership or other pass-through entity for U.S. federal income tax purposes). You should consult your tax adviser with regard to the application of the U.S. federal tax laws to your particular situation, as well as any tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.

Dividends

Distributions of cash or other property (other than certain pro rata distributions of our stock) will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent those distributions exceed our current and accumulated earnings and profits, they will constitute a tax-free return of capital, which will first reduce your basis in our Common Stock, but not below zero, and then will be treated as gain from the sale of our Common Stock, as described below under Gain on Disposition of Our Common Stock.

Edgar Filing: ASSURANT INC - Form 424B7

Dividends paid to you generally will be subject to withholding tax at a 30% rate or a reduced rate specified by an applicable income tax treaty. In order to obtain a reduced rate of withholding pursuant to a treaty, you will be required to provide a properly executed applicable Internal Revenue Service (IRS) Form W-8BEN or W-8BEN-E (as applicable) certifying your entitlement to benefits under the treaty.

If dividends paid to you are effectively connected with your conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment or fixed

S-10

Table of Contents

base maintained by you in the United States), you will generally be taxed on the dividends in the same manner as a U.S. person. In this case, you will be exempt from the withholding tax discussed in the preceding paragraph, although you will be required to provide a properly executed IRS Form W-8ECI in order to claim an exemption from withholding. You should consult your tax adviser with respect to other U.S. tax consequences of the ownership and disposition of our Common Stock, including the possible imposition of a branch profits tax at a rate of 30% (or a lower treaty rate) if you are a corporation.

Gain on Disposition of Our Common Stock

Subject to the discussions below under Information Reporting and Backup Withholding and FATCA, you generally will not be subject to U.S. federal income or withholding tax on gain realized on a sale or other taxable disposition of our Common Stock unless:

the gain is effectively connected with your conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment or fixed base maintained by you in the United States), or

we are or have been a United States real property holding corporation, as defined in the Code, at any time within the five-year period preceding the disposition or your holding period, whichever period is shorter, and our Common Stock has ceased to be regularly traded on an established securities market prior to the beginning of the calendar year in which the sale or disposition occurs.

Generally, a corporation is a United States real property holding corporation if the fair market value of its United States real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide property interests and its other assets used or held for use in a trade or business (all as determined for U.S. federal income tax purposes). We believe that we are not, and do not anticipate becoming, a United States real property holding corporation.

If you recognize gain on a sale or other disposition of our Common Stock that is effectively connected with your conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment or fixed base maintained by you in the United States), you will generally be taxed on such gain in the same manner as a U.S. person. You should consult your tax adviser with respect to other U.S. tax consequences of the ownership and disposition of our Common Stock, including the possible imposition of a branch profits tax at a rate of 30% (or a lower treaty rate) if you are a corporation.

Information Reporting and Backup Withholding

Information returns are required to be filed with the IRS in connection with payments of dividends on our Common Stock. Unless you comply with certification procedures to establish that you are not a U.S. person, information returns may also be filed with the IRS in connection with the proceeds from a sale or other disposition of our Common Stock. You may be subject to backup withholding on payments on our Common Stock or on the proceeds from a sale or other disposition of our Common Stock unless you comply with certification procedures to establish that you are not a U.S. person or otherwise establish an exemption. Your provision of a properly executed applicable IRS Form W-8 certifying your non-U.S. status will permit you to avoid backup withholding. Amounts withheld under the backup withholding rules are not additional taxes and may be refunded or credited against your U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

FATCA

Sections 1471 through 1474 of the Code (such Sections commonly referred to as FATCA) require a U.S. federal income tax withholding of 30% on payments of dividends on our Common Stock, as well as of gross proceeds of dispositions of our Common Stock, in each case paid to (i) a foreign financial institution (as

S-11

Table of Contents

specifically defined in the Code) which does not provide sufficient documentation (typically on IRS Form W-8BEN-E), evidencing either (x) an exemption from FATCA or (y) its compliance (or deemed compliance) with FATCA (which may alternatively be in the form of compliance with an intergovernmental agreement with the United States) in a manner which avoids withholding, or (ii) a non-financial foreign entity (as specifically defined in the Code) which does not provide sufficient documentation (typically on IRS Form W-8BEN-E), evidencing either (x) an exemption from FATCA or (y) adequate information regarding substantial United States beneficial owners of such entity (if any). Under recently proposed regulations, the preamble to which states that taxpayers may rely on the proposed regulations until final regulations are issued, this withholding tax will not apply to the gross proceeds from the sale or other disposition of our Common Stock. An intergovernmental agreement between the United States and an applicable foreign country may modify these requirements. If FATCA withholding is imposed, a beneficial owner that is not a foreign financial institution generally may obtain a refund of any amounts withheld by filing a U.S. federal income tax return (which may entail significant administrative burden). If a dividend payment is both subject to withholding under FATCA and subject to the withholding tax discussed above under Dividends, the withholding under FATCA may be credited against, and therefore reduce, such other withholding tax. You should consult your tax adviser regarding the effects of FATCA on your investment in our Common Stock.

Federal Estate Tax

Individual Non-U.S. Holders and entities the property of which is potentially includible in such an individual's gross estate for U.S. federal estate tax purposes (for example, a trust funded by such an individual and with respect to which the individual has retained certain interests or powers) should note that, absent an applicable treaty exemption, our Common Stock will be treated as U.S.-situs property subject to U.S. federal estate tax.

CERTAIN BENEFIT PLAN INVESTOR CONSIDERATIONS

The following is a summary of certain considerations associated with the purchase of shares of our Common Stock by (i) employee benefit plans subject to Title I of Employee Retirement Income Security Act of 1974, as amended (ERISA), (ii) plans, individual retirement accounts and other arrangements subject to Section 4975 of the Code or provisions under any other U.S. or non-U.S. federal, state, local, or other laws or regulations that are similar to such provisions of the Code or ERISA (collectively, Similar Laws) and (iii) entities whose underlying assets include plan assets of any such plans, accounts or arrangements therein (each of the foregoing described in clauses (i), (ii) and (iii) are referred to herein as a Plan).

Section 406 of ERISA and Section 4975 of the Code prohibit certain transactions involving the assets of a Plan subject to Title I of ERISA or Section 4975 of the Code (each a Covered Plan) and certain persons (referred to as parties in interest under ERISA and disqualified persons under the Code) having certain relationships to such Covered Plans, unless an exemption is applicable to the transaction. A party in interest or disqualified person who engaged in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under Title I of ERISA and/or Section 4975 of the Code. A prohibited transaction within the meaning of Section 406 of ERISA and Section 4975 of the Code could arise if shares of our Common Stock are acquired by a Covered Plan to which we, the underwriter, the Selling Stockholders, or any of our or their respective affiliates is a party in interest or disqualified person , and such transaction is not entitled to an applicable exemption, of which there are many. Each exemption contains conditions and limitations on its application. Fiduciaries of Covered Plans considering acquiring shares of our Common Stock in reliance on an exemption should carefully review the exemption in consultation with counsel to assure it is applicable. There can be no assurance that any such exemption would be applicable.

Any Plan fiduciary which proposes to cause a Covered Plan to purchase shares of our Common Stock should consult with its counsel regarding the applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA and Section 4975 of the Code to such an investment, and to confirm that such purchase and holding will not constitute or result in a non-exempt prohibited transaction. Each fiduciary should consult with its legal advisor concerning the potential consequences to the Covered Plan under Title I of ERISA or Section 4975 of the Code of an investment in shares of our Common Stock.

In addition, any purchaser who is a Plan such as a governmental plan, church plan or non-U.S. plan should note that while these Plans are generally not subject to Title I of ERISA or Section 4975 of the Code, they may be subject to Similar Laws, and, accordingly, fiduciaries of such Plans should consult with their legal advisors to confirm that the purchase and holding of shares of our Common Stock by such Plans will not constitute or result in a violation of any applicable Similar Law.

The foregoing discussion is general in nature and is not intended to be all inclusive. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries, or other persons considering acquiring, holding or disposing of shares of our Common Stock on behalf of, or with the assets of, any Plan consult with their counsel regarding the potential applicability of ERISA, Section 4975 of the Code and any Similar Laws to such investment and whether an exemption would be available. Purchasers of shares of our Common Stock have exclusive responsibility for ensuring that their purchase, holding and disposition of the Common Stock does not violate the fiduciary or prohibited transaction rules of ERISA, the Code or any Similar Laws applicable to such Plan.

The sale of any shares of our Common Stock to a Plan is in no respect a representation by the Company that such an investment meets all relevant legal requirements with respect to investments by any such Plan generally or any particular Plan, or that such investment is appropriate for such Plans generally or any

particular Plan. In this regard, neither this discussion nor anything provided in this prospectus supplement is or is intended to be investment advice directed at any potential Plan purchasers or at Plan purchasers generally and such purchasers of shares of our Common Stock should consult and rely on their own counsel and advisers as to whether an investment of shares in our Common Stock is suitable for the Plan.

Table of Contents**UNDERWRITING**

Under the terms and subject to the conditions in an underwriting agreement dated the date of this prospectus supplement, the underwriter has agreed to purchase 7,869,230 shares of our Common Stock from the Selling Stockholders.

The underwriter is offering the shares of Common Stock subject to its acceptance of the shares from the Selling Stockholders and subject to prior sale. The underwriting agreement provides that the obligations of the underwriter to pay for and accept delivery of the shares of Common Stock offered by this prospectus supplement are subject to the approval of certain legal matters by its counsel and to certain other conditions. The underwriter is obligated to take and pay for all of the shares of Common Stock offered by this prospectus supplement if any such shares are taken.

The underwriter proposes to offer the Common Stock directly to the public at the offering price listed on the cover page of this prospectus supplement and part to certain dealers at a price that represents a concession not in excess of \$0.275 per share under the public offering price. After the offering of the shares of Common Stock, the underwriter may change the offering price and other selling terms. The offering of the shares by the underwriter is subject to receipt and acceptance and subject to the underwriter's right to reject any order in whole or in part. Sales of shares made outside the United States may be made by affiliates of the underwriter.

Pursuant to the registration rights agreement entered into with the Selling Stockholders, we will pay all expenses (other than underwriting discounts and commissions) of the Selling Stockholders in connection with this offering. The estimated offering expenses payable by us, exclusive of the underwriting discounts and commissions, are approximately \$580,000.

Our Common Stock is listed on the NYSE under the symbol AIZ.

The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriter by the Selling Stockholders.

	Per Share	Total
Underwriting discounts and commissions	\$ 0.55	\$ 4,328,076.50

We and all of our directors and executive officers have agreed that, without the prior written consent of the underwriter, we and they will not during the period ending 45 days after the date of this prospectus supplement:

offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend or otherwise transfer or dispose of, directly or indirectly, any shares of Common Stock or any securities convertible into or exercisable or exchangeable for shares of Common Stock or, with respect to the Company only, publicly disclose the intention to make any offer, pledge, sale or disposition;

file any registration statement with the SEC relating to the offering of any shares of Common Stock or any securities convertible into or exercisable or exchangeable for Common Stock; or

enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the Common Stock, whether any such transaction described in the first or third bullet above is to be settled by delivery of Common Stock or such other securities, in cash or otherwise.

The foregoing restrictions are subject to certain exceptions, including the pledge, hypothecation or other granting of a security interest in Common Stock if such transactions are with one or more counterparties that are

nationally recognized reputable banking organizations and any transfer upon foreclosure upon such Common Stock, provided that the pledgor or grantor shall provide the underwriter prior written notice informing it of any public filing, report or announcement with respect to such pledge, hypothecation or other grant of a security interest.

The underwriter, in its sole discretion, may release the Common Stock and other securities subject to the lock-up agreements described above in whole or in part at any time.

In order to facilitate the offering of the Common Stock, the underwriter may engage in transactions that stabilize, maintain or otherwise affect the price of the Common Stock. Specifically, the underwriter may sell more shares than they are obligated to purchase under the underwriting agreement, creating a short position. The underwriter must cover a short sale by purchasing shares in the open market. A short position is more likely to be created if the underwriter is concerned that there may be downward pressure on the price of the Common Stock in the open market after pricing that could adversely affect investors who purchase in this offering. As an additional means of facilitating this offering, the underwriter may bid for, and purchase, shares of the Common Stock in the open market to stabilize the price of the Common Stock. These activities may raise or maintain the market price of the Common Stock above independent market levels or prevent or retard a decline in the market price of the Common Stock. The underwriter is not required to engage in these activities and may end any of these activities at any time.

We and the Selling Stockholders have agreed to indemnify the underwriter against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the Securities Act), and if such indemnification is unavailable or insufficient, we and the Selling Stockholders have agreed to damage contribution arrangements based upon relative benefits received from this offering and relative fault resulting in such damage.

This prospectus supplement in electronic format may be made available on websites maintained by the underwriter or selling group members, if any, participating in this offering. The underwriter may agree to allocate a number of shares for sale to its online brokerage account holders.

The underwriter and its affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriter and its affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses.

In addition, in the ordinary course of their various business activities, the underwriter and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve our securities and instruments. The underwriter and its affiliates may also make investment recommendations or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long or short positions in such securities and instruments.

DESCRIPTION OF DEBT SECURITIES WE MAY OFFER

References to Assurant, the Company, us, we or our in this section mean Assurant, Inc., and do not include the subsidiaries of Assurant, Inc. Also, in this section, references to holders mean those who own debt securities registered in their own names, on the books that we or the applicable trustee maintain for this purpose, and not those who own beneficial interests in debt securities registered in street name or in debt securities issued in book-entry form through one or more depositaries. When we refer to you in this prospectus, we mean all purchasers of the securities being offered by this prospectus, whether they are the holders or only indirect owners of those securities. Owners of beneficial interests in the debt securities should read the section below entitled Legal Ownership and Book-Entry Issuance .

Debt Securities May Be Senior or Subordinated

We may issue senior or subordinated debt securities. Neither the senior debt securities nor the subordinated debt securities will be secured by any of our property or assets or the property or assets of our subsidiaries. Thus, by owning a debt security, you are one of our unsecured creditors.

The senior debt securities and, in the case of senior debt securities in bearer form, any related interest coupons, will be issued under our senior debt indentures described below and will rank equally with all of our other unsecured and unsubordinated debt.

The subordinated debt securities and, in the case of subordinated debt securities in bearer form, any related interest coupons, will be issued under our subordinated debt indenture described below and will be subordinate in right of payment to all of our senior indebtedness, as defined in the subordinated debt indenture. Neither indenture limits our ability to incur additional unsecured indebtedness.

When we refer to debt securities in this prospectus, we mean both the senior debt securities and the subordinated debt securities issued under the indentures (as defined below).

The Senior and Subordinated Debt Indentures

The senior debt securities are governed by documents called the senior debt indentures (the Senior Debt Indenture dated as of February 18, 2004 between us and U.S. Bank National Association, as successor to SunTrust Bank, as trustee, which we refer to as the 2004 senior debt indenture , and the Indenture, dated as of March 28, 2013, between us and U.S. Bank National Association, as trustee, which we refer to as the 2013 senior debt indenture), and the subordinated debt securities are governed by the subordinated debt indenture (the Indenture, to be dated as of a date on or prior to the initial issuance of subordinated debt securities under such Indenture, between us and U.S. Bank National Association, as trustee, and together with the senior debt indentures, the indentures). A number of provisions of our three indentures are identical; however, the provisions relating to subordination are included only in the subordinated debt indenture and certain provisions described below under Notices , Modification and Waiver of the Debt Securities , Reports , Restrictive Covenants and Events of Default vary substantially among the indentures.

Reference to the indenture or the trustee with respect to any debt securities, means the indenture under which those debt securities are issued and the trustee under that indenture. See Our Relationship with the Trustee .

The trustee has two main roles:

1. The trustee can enforce the rights of holders against us if we default on our obligations under the terms of the indentures or the debt securities. There are some limitations on the extent to which the trustee acts on behalf of holders, described below under Events of Default Remedies If an Event of Default Occurs .

Table of Contents

2. The trustee performs administrative duties for us, such as sending interest payments and notices to holders, and transferring a holder's debt securities to a new buyer if a holder sells.

The indentures and their associated documents contain the full legal text of the matters described in this section. The indentures and the debt securities are governed by New York law. A copy of each indenture is an exhibit to our registration statement. See [Where You Can Find More Information](#) for information on how to obtain a copy.

We may issue as many distinct series of debt securities under any of the indentures as we wish. The provisions of the senior debt indentures and the subordinated debt indenture allow us not only to issue debt securities with terms different from those previously issued under the applicable indenture, but also to reopen a previous issue of a series of debt securities and issue additional debt securities of that series. We may issue debt securities in amounts that exceed the total amount specified on the cover of your prospectus supplement at any time without your consent and without notifying you. In addition we may offer debt securities, together with other debt securities, warrants, stock purchase contracts, preferred stock or common stock in the form of units, as described below under [Description of Units We May Offer](#).

This section summarizes the material terms of the debt securities that are common to all series, although the prospectus supplement which describes the terms of each series of debt securities may also describe differences from the material terms summarized here.

Because this section is a summary, it does not describe every aspect of the debt securities. This summary is subject to and qualified in its entirety by reference to all the provisions of the indenture, including definitions of certain terms used in the indenture. In this summary, we describe the meaning of only some of the more important terms. For your convenience, we also include references in parentheses to certain sections of the indenture. Whenever we refer to particular sections or defined terms of the indenture in this prospectus or in the prospectus supplement, such sections or defined terms are incorporated by reference here or in the prospectus supplement. You must look to the indenture for the most complete description of what we describe in summary form in this prospectus.

This summary also is subject to and qualified by reference to the description in the prospectus supplement of the particular terms of the series of debt securities you are offered. Those terms may vary from the terms described in this prospectus. The prospectus supplement relating to each series of debt securities will be attached to the front of this prospectus. There may also be a further prospectus supplement, known as a pricing supplement, which contains the precise terms of debt securities you are offered.

Under the 2013 senior debt indenture and the subordinated debt indenture (but not the 2004 senior debt indenture), we may issue the debt securities as original issue discount securities, which will be offered and sold at a substantial discount below their stated principal amount. (Section 101 of the 2013 senior debt indenture and the subordinated debt indenture) The prospectus supplement relating to original issue discount securities will describe federal income tax consequences and other special considerations applicable to them. The debt securities may also be issued as indexed securities or securities denominated in foreign currencies or currency units, as described in more detail in the prospectus supplement relating to any of the particular debt securities. The prospectus supplement relating to specific debt securities will also describe the risks and certain additional tax considerations applicable to such debt securities.

In addition, the specific financial, legal and other terms particular to a series of debt securities will be described in the prospectus supplement and, if applicable, a pricing supplement relating to the series. The prospectus supplement relating to a series of debt securities will describe the following terms of the series:

the title of the series of debt securities;

whether it is a series of senior debt securities or a series of subordinated debt securities;

any other special feature of the series of debt securities.

Table of Contents

In addition to the items above, the prospectus supplement relating to a series of debt securities issued under the 2004 senior debt indenture will also describe the following terms of the series:

the provisions of the indenture, if any, that shall not apply to the series of debt securities;

the right, if any, to defer payment of interest on the debt securities and the maximum length of any deferral period; and

whether the Company shall enter into an exchange and registration rights agreement with respect to the debt securities.

An investment in debt securities may involve special risks, including risks associated with indexed securities and currency-related risks if the debt security is linked to an index or is payable in or otherwise linked to a non-U.S. dollar currency. We will describe these risks in the prospectus supplement relating to specific debt securities.

Overview of Remainder of this Description

The remainder of this description summarizes:

Additional Mechanics relevant to the debt securities under normal circumstances, such as how holders transfer ownership and where we make payments;

Holders' rights in several ***Special Situations***, such as if we merge with another company or if we want to change a term of the debt securities;

Subordination Provisions in the subordinated debt indenture that may prohibit us from making payment on those securities;

Our right to release ourselves from all or some of our obligations under the debt securities and the indenture by a process called ***Defeasance***; and

Holders' rights if we ***Default*** or experience other financial difficulties.

Additional Mechanics

Form, Exchange and Transfer

Unless we specify otherwise in the prospectus supplement, the debt securities will be issued:

only in fully registered form;

without interest coupons; and

in denominations that are even multiples of \$1,000 (Section 302 of the 2013 senior debt indenture and the subordinated debt indenture, Section 3.2 of the 2004 senior debt indenture)

If a debt security is issued as a registered global debt security, only the depositary e.g., DTC, Euroclear and Clearstream, each as defined below under Legal Ownership and Book-Entry Issuance will be entitled to transfer and exchange the debt security as described in this subsection, since the depositary will be the sole holder of the debt security. Those who own beneficial interests in a global security do so through participants in the depositary's securities clearance system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depositary and its participants. We describe book-entry procedures below under Legal Ownership and Book-Entry Issuance .

Holders may have their debt securities broken into more debt securities of smaller denominations of not less than \$1,000 or combined into fewer debt securities of larger denominations, as long as the total principal amount is not changed. (Section 305 of the 2013 senior debt indenture and the subordinated debt indenture, Section 3.5 of the 2004 senior debt indenture) This is called an exchange.

Table of Contents

Holders may exchange or transfer debt securities at the office of the trustee. They may also replace lost, stolen or mutilated debt securities at that office. The trustee acts as our agent for registering debt securities in the names of holders and transferring debt securities. We may change this appointment to another entity or perform this service ourselves. The entity performing the role of maintaining the list of registered holders is called the security registrar. It will also perform transfers. (Section 305 of the 2013 senior debt indenture and the subordinated debt indenture, Section 3.5 of the 2004 senior debt indenture) The trustee's agent may require an indemnity against any loss, liability or expense incurred without negligence or bad faith on its part arising out of or in connection with the acceptance or administration of the trust or trusts before replacing any debt securities.

Holders will not be required to pay a service charge to transfer or exchange debt securities, but holders may be required to pay for any tax or other governmental charge associated with the exchange or transfer. The transfer or exchange will only be made if the security registrar is satisfied with your proof of ownership.

If we designate additional transfer agents, they will be named in the prospectus supplement. We may cancel the designation of any particular transfer agent. We may also approve a change in the office through which any transfer agent acts. (Section 1002 of the 2013 senior debt indenture and the subordinated debt indenture, Section 10.2 of the 2004 senior debt indenture)

If the debt securities are redeemable and we redeem less than all of the debt securities of a particular series, we may block the transfer or exchange of debt securities during the period beginning 15 days before the day we mail the notice of redemption and ending on the day of that mailing, in order to freeze the list of holders to prepare the mailing. We may also refuse to register transfers or exchanges of debt securities selected for redemption, except that we will continue to permit transfers and exchanges of the unredeemed portion of any debt security being partially redeemed. (Section 305 of the 2013 senior debt indenture and the subordinated debt indenture, Section 3.5 of the 2004 senior debt indenture)

The rules for exchange described above apply to exchange of debt securities for other debt securities of the same series and kind. If a debt security is convertible, exercisable or exchangeable into or for a different kind of security, such as one that we have not issued, or for other property, the rules governing that type of conversion, exercise or exchange will be described in the prospectus supplement.

Payment and Paying Agents

We will pay interest to the person listed in the trustee's records at the close of business on a particular day in advance of each due date for interest, even if that person no longer owns the debt security on the interest due date. That particular day, usually about two weeks in advance of the interest due date, is called the regular record date and will be stated in the prospectus supplement. (Section 307 of the 2013 senior debt indenture and the subordinated debt indenture, Section 3.10 of the 2004 senior debt indenture) Holders buying and selling debt securities must work out between them how to compensate for the fact that we will pay all the interest for an interest period to the one who is the registered holder on the regular record date. The most common manner is to adjust the sale price of the securities to pro-rate interest fairly between buyer and seller. This prorated interest amount is called accrued interest.

We will pay interest, principal and any other money due on the debt securities at the corporate trust office of the trustee in the Borough of Manhattan, the City of New York. That office is currently located at U.S. Bank National Association, ATTN: Global Corporate Trust Services, 100 Wall Street, 16th Floor, New York, New York 10005. Holders must make arrangements to have their payments picked up at or wired from that office. We may also choose to pay interest by mailing checks.

BOOK-ENTRY AND OTHER INDIRECT HOLDERS SHOULD CONSULT THEIR BANKS, BROKERS OR OTHER FINANCIAL INSTITUTIONS FOR INFORMATION ON HOW THEY WILL RECEIVE PAYMENTS.

Table of Contents

We may also arrange for additional payment offices and may cancel or change these offices, including our use of the trustee's corporate trust office. These offices are called paying agents. We may also choose to act as our own paying agent or choose one of our subsidiaries to do so. We must notify holders of changes in the paying agents for any particular series of debt securities. (Section 1002 of the 2013 senior debt indenture and the subordinated debt indenture, Section 10.2 of the 2004 senior debt indenture)

Notices

We and the trustee will send notices regarding the debt securities only to holders, using their addresses as listed in the trustee's records. (Sections 101 and 106 of the 2013 senior debt indenture and the subordinated debt indenture, Sections 1.1 and 1.6 of the 2004 senior debt indenture) With respect to who is a legal holder for this purpose, see *Legal Ownership and Book-Entry Issuance*.

Regardless of who acts as paying agent, all money paid by us to a paying agent that remains unclaimed at the end of two years after the amount is due to holders, in the case of the 2013 senior debt indenture and the subordinated debt indenture, or at the end of three years after the amount is due to holders in the case of the 2004 senior debt indenture, will be repaid to us. After that two- or three-year period, holders may look only to us for payment and not to the trustee or any other paying agent. (Section 1003 of the 2013 senior debt indenture and the subordinated debt indenture, Section 10.5 of the 2004 senior debt indenture)

Special Situations

Mergers and Similar Transactions

We are generally permitted to consolidate or merge with another company or firm. We are also permitted to sell or lease substantially all of our assets to another company or firm, or to buy or lease substantially all of the assets of another company or firm. However, we may not take any of these actions unless the following conditions, among others, are met:

If we merge with or into another company or firm or sell or lease substantially all our assets to another company or firm, the other company or firm must be a corporation, partnership or trust organized under the laws of a State of the United States or the District of Columbia or under federal law, and it must agree to be legally responsible for the debt securities.

The merger, sale of assets or other transaction must not cause a default on the debt securities, and we must not already be in default, unless the merger or other transaction would cure the default. For purposes of this no-default test, a default would include an event of default that has occurred and not been cured. A default for this purpose would also include any event that would be an event of default if the requirements for giving us notice of our default or our default having to exist for a specific period of time were disregarded.

It is possible that the merger, sale of assets or other transaction would cause some of our property to become subject to certain liens or other preferential rights in that property over other lenders, including the holders of the senior debt securities. We have promised in our senior debt indentures to limit these preferential rights on voting stock of any Restricted Subsidiary (as defined in the 2013 senior debt indenture) or Principal

Subsidiary (as defined in the 2004 senior debt indenture) as discussed under Restrictive Covenants Limitation on Liens on Stock of Restricted and Principal Subsidiaries and on Issuance or Disposition of Stock of Restricted and Principal Subsidiaries . If a merger or other transaction would create any liens on the voting stock of our Restricted Subsidiaries (as defined in the 2013 senior debt indenture) or Principal Subsidiaries (as defined in the 2004 senior debt indenture), as applicable, we must comply with that restrictive covenant. Either the liens will be permitted under the covenant, or we would be required to grant an equivalent or higher-ranking lien on the same voting stock to the holders of the senior debt securities.

Modification and Waiver of the Debt Securities

There are four types of changes we can make to the indenture and the debt securities issued under that indenture.

Changes Requiring Approval of All Holders. First, there are changes that cannot be made to the indenture or the debt securities without specific approval of each holder of a debt security affected in any material respect by the change under a particular debt indenture. Affected debt securities may be all or less than all of the debt securities issued under that debt indenture or all or less than all of the debt securities of a series.

Following is a list of those types of changes under the 2004 senior debt indenture:

changing the fixed maturity;

reducing the principal amount;

reducing the rate of or changing the time of payment of interest, reducing any premium payable upon the redemption or changing the time at which the debt security may be redeemed or purchased;

reducing the percentage of debt securities referred to above, the holders of which are required to consent to any amendment, supplement or waiver;

waiving a default or event of default in the payment of principal of or interest or additional interest, if any, on the debt securities (except a rescission of acceleration of the debt securities by the holders of at least a majority in aggregate principal amount of a series of debt securities and a waiver of the payment default that resulted from such acceleration);

making any debt security payable in money other than that stated in the indenture and the debt securities;

making any change in the provisions of the indenture relating to waivers of past defaults or the rights of holders of debt securities to receive payments of principal of or interest or additional interest, if any, on the debt securities;

making any change to the abilities of holders of debt securities to enforce their rights under the indenture or the provisions of the clauses above; or

except as permitted under the 2004 senior debt indenture, increasing the conversion price with regard to any series of debt securities or modifying any provision of the 2004 senior debt indenture relating to conversion of any debt securities in a manner adverse to the holders thereof. (Section 9.2)

Following is a list of those types of changes under the 2013 senior debt indenture and the subordinated debt indenture:

changing the stated maturity of the principal, any installment of principal or interest on a debt security, or reducing the principal amount or the rate of interest or any premium payable upon the redemption;

reducing any amounts due on a debt security;

reducing the amount of principal payable upon acceleration of the maturity of a debt security (including the amount payable on an original issue discount debt security) following a default;

changing the place or currency of payment on a debt security;

impairing a holder's right to sue for payment;

impairing any right that a holder of a debt security may have to exchange or convert the debt security for or into other property;

reducing the percentage of holders of debt securities whose consent is needed to modify or amend the indenture;

Table of Contents

reducing the percentage of holders of debt securities whose consent is needed to waive compliance with certain provisions of the indenture or to waive certain defaults; or

modifying any other aspect of the provisions dealing with modification and waiver of the indenture. (Section 902)

Changes Requiring a Majority Vote. The second type of change to the indenture and the debt securities is the kind that requires a vote in favor by holders of debt securities owning not less than a majority of the principal amount of the particular series affected or, if so provided and to the extent permitted by the Trust Indenture Act, of particular debt securities affected thereby. Most changes fall into this category, except for clarifying changes and certain other changes that would not adversely affect in any material respect holders of the debt securities. (Section 902 of the 2013 senior debt indenture and the subordinated debt indenture, Section 9.2 of the 2004 senior debt indenture) We may also obtain a waiver of a past default from the holders of debt securities owning a majority of the principal amount of the particular series affected. However, we cannot obtain a waiver of a payment default or any other aspect of the indenture or the debt securities listed in the first category described above under *Changes Requiring Approval of All Holders* unless we obtain the individual consent of each holder to the waiver. (Section 513 of the 2013 senior debt indenture and the subordinated debt indenture, Section 5.13 of the 2004 senior debt indenture)

Changes Not Requiring Approval. The third type of change to the indenture and the debt securities does not require any vote by holders of debt securities. This type is limited to clarifications and certain other changes that would not adversely affect in any material respect holders of the debt securities. (Section 901 of the 2013 senior debt indenture and the subordinated debt indenture, Section 9.1 of the 2004 senior debt indenture)

We may also make changes or obtain waivers that do not adversely affect in any material respect a particular debt security, even if they affect other debt securities. In those cases, we do not need to obtain the approval of the holder of that debt security; we need only obtain any required approvals from the holders of the affected debt securities.

Modification of Subordination Provisions. We may not modify the subordination provisions of the subordinated debt indenture in a manner that would adversely affect in any material respect the outstanding subordinated debt securities without the consent of the holders of a majority of the principal amount of the particular series affected or, if so provided and to the extent permitted by the Trust Indenture Act, of particular subordinated debt securities affected thereby. Also, we may not modify the subordination provisions of any outstanding subordinated debt securities without the consent of each holder of our senior indebtedness that would be adversely affected thereby. The term *senior indebtedness* is defined below under *Subordination Provisions* .

Further Details Concerning Voting. When taking a vote, we will use the following rules to decide how much principal amount to attribute to a debt security:

For original issue discount securities, we will use the principal amount that would be due and payable on the voting date if the maturity of the debt securities were accelerated to that date because of a default.

For debt securities whose principal amount is not known (for example, because it is based on an index), we will use a special rule for that debt security described in the prospectus supplement.

For debt securities denominated in one or more foreign currencies or currency units, we will use the U.S. dollar equivalent.

Debt securities will not be considered outstanding, and therefore not eligible to vote, if we have given a notice of redemption and deposited or set aside in trust for the holders money for the payment or redemption of the debt securities. Debt securities will also not be eligible to vote if they have been fully defeased as described

Table of Contents

below under **Defeasance** **Full Defeasance** . (Section 1302 of the 2013 senior debt indenture and the subordinated debt indenture, Section 4.2 of the 2004 senior debt indenture)

Under the 2013 senior debt indenture and the subordinated debt indenture, we will generally be entitled to set any day as a record date for the purpose of determining the holders of outstanding debt securities that are entitled to vote or take other action under the indenture. In certain limited circumstances, the trustee will be entitled to set a record date for action by holders. If we or the trustee set a record date for a vote or other action to be taken by holders of a particular series, that vote or action may be taken only by persons who are holders of outstanding securities of that series on the record date. We or the trustee, as applicable, may shorten or lengthen this period from time to time. (Section 104 of the 2013 senior debt indenture and the subordinated debt indenture)

Under the 2004 senior debt indenture, the Company may set a day as a record date for the purpose of determining the holders of outstanding debt securities that are entitled to vote or take other action under the indenture that is not more than 90 days prior to the date of such vote or other action. (Section 3.10 of the 2004 senior debt indenture)

BOOK-ENTRY AND OTHER INDIRECT HOLDERS SHOULD CONSULT THEIR BANKS, BROKERS OR OTHER FINANCIAL INSTITUTIONS FOR INFORMATION ON HOW APPROVAL MAY BE GRANTED OR DENIED IF WE SEEK TO CHANGE THE INDENTURE OR THE DEBT SECURITIES OR REQUEST A WAIVER.

Reports

The 2004 senior debt indenture provides that any documents or reports that we may be required to file with the SEC pursuant to Section 13 or 15(d) of the Exchange Act will be filed with the trustee within 30 days after we have filed those documents or reports with the SEC.

The 2013 senior debt indenture and the subordinated debt indenture provide that any documents or reports that we may be required to file with the SEC pursuant to Section 13 or 15(d) of the Exchange Act will be filed with the trustee within 15 days after we have filed those documents or reports with the SEC (the **Filing Obligation**). Under the Trust Indenture Act, we may have a separate obligation to file with the trustee documents or reports that we are required to file with the SEC. Under the 2013 senior debt indenture and the subordinated debt indenture (but not under the 2004 senior debt indenture), our failure to comply with the requirements of Section 314(a) of the Trust Indenture Act or our Filing Obligation or to file a report with the SEC as contemplated in the indenture or otherwise will not constitute an event of default under the 2013 senior debt indenture or the subordinated debt indenture. Accordingly, acceleration of our obligations under the debt securities will not be a remedy for our failure to file those documents or reports with the trustee, and you may have no remedy for the failure other than an action for damages.

Restrictive Covenants

General

We have made certain promises in each indenture called covenants where, among other things, we promise to maintain our corporate existence and all licenses and material permits necessary for our business. In addition, in the senior debt indentures, but not in the subordinated debt indenture, we have made the promises described below.

Limitation on Liens on Stock of Restricted and Principal Subsidiaries and on Issuance or Disposition of Stock of Restricted and Principal Subsidiaries

The 2013 senior debt indenture provides that we will not, nor will we permit any Restricted Subsidiary to, directly or indirectly, issue, assume, incur or guarantee any indebtedness for borrowed money (which we refer to

Table of Contents

in this prospectus as Debt) secured by a mortgage, security interest, pledge, lien or other encumbrance upon any shares of stock of any Restricted Subsidiary without effectively providing that the senior debt securities (together with, if we shall so determine, any other indebtedness of or guarantee by us ranking equally with the senior debt securities and then existing or thereafter created) will be secured equally and ratably with that Debt. (Section 1006 of the 2013 senior debt indenture)

For purposes of the 2013 senior debt indenture, Restricted Subsidiary means each of Interfinancial Inc., Union Security Insurance Company and American Security Insurance Company so long as each remains a subsidiary, as well as any successor to all or a principal part of the business of that subsidiary and any other subsidiary which our board of directors designates as a Restricted Subsidiary. (Section 101 of the 2013 senior debt indenture)

The 2004 senior debt indenture provides that we will not, nor will we permit any of our Principal Subsidiaries to, directly or indirectly, create, issue, assume, incur, guarantee or permit to exist any Indebtedness that is secured by a mortgage, pledge, lien, security interest or other encumbrance on any of the common stock of a Principal Subsidiary owned by us or by any of our Principal Subsidiaries, unless our obligations under the debt securities and, if we so elect, any other of our Indebtedness ranking on a parity with, or prior to, the debt securities, shall be secured equally and ratably with, or prior to, such secured Indebtedness so long as it is outstanding and is so secured. (Section 10.3 of the 2004 senior debt indenture)

For the purposes of the 2004 senior debt indenture, Indebtedness is defined as the principal of and interest due on indebtedness of a Person, whether outstanding on the original date of issuance of the debt securities or thereafter created, incurred or assumed, which is (a) indebtedness for money borrowed and (b) any amendments, renewals, extensions, modifications and refundings of any such indebtedness. For the purposes of this definition, (i) Person means any individual, corporation, partnership, joint venture, association, joint stock company, trust, unincorporated organization or government or any agency or political subdivision thereof and (ii) indebtedness for money borrowed means (1) any obligation of, or any obligation guaranteed by, such Person for the repayment of borrowed money, whether or not evidenced by bonds, debentures, notes or other written instruments, (2) any obligation of, or any such obligation guaranteed by, such Person evidenced by bonds, debentures, notes or similar written instruments, including obligations assumed or incurred in connection with the acquisition of property, assets or businesses (provided, however, that (x) the deferred purchase price of any business or property or assets shall not be considered Indebtedness if the purchase price thereof is payable in full within 90 days from the date on which such indebtedness was created and (y) trade accounts payable and accrued liabilities arising in the ordinary course of business shall not be considered Indebtedness) and (3) any obligations of such Person as lessee under leases required to be capitalized on the balance sheet of the lessee under generally accepted accounting principles and leases of property or assets made as part of any sale and lease-back transaction to which such Person is a party. (Section 1.1 of the 2004 senior debt indenture)

Furthermore, for the purposes of the 2004 senior debt indenture, Principal Subsidiary means a consolidated subsidiary of Assurant that, as of the time of the determination of whether such consolidated subsidiary is a Principal Subsidiary, accounted, in each case, for 10% or more of the total assets of Assurant and its consolidated subsidiaries, as set forth in the most recent balance sheet filed by Assurant with the SEC. (Section 1.1 of the 2004 senior debt indenture)

We will not, nor will we permit any Restricted Subsidiary (under the 2013 senior debt indenture) or Principal Subsidiary (under the 2004 senior debt indenture) to, issue, sell, assign, transfer or otherwise dispose of, directly or indirectly, any capital stock, other than nonvoting preferred stock, of any Restricted Subsidiary or Principal Subsidiary, as applicable, except for:

the purpose of qualifying directors;

sales or other dispositions to us or one or more Restricted Subsidiaries (under the 2013 senior debt indenture) or Principal Subsidiaries (under the 2004 senior debt indenture);

Table of Contents

the disposition of all or any part of the capital stock of any Restricted Subsidiary (under the 2013 senior debt indenture) or Principal Subsidiary (under the 2004 senior debt indenture) for consideration which is at least equal to the fair value of that capital stock as determined by our board of directors acting in good faith; or

an issuance, sale, assignment, transfer or other disposition required to comply with an order of a court or regulatory authority of competent jurisdiction, other than an order issued at our request or the request of any Restricted Subsidiary (under the 2013 senior debt indenture) or Principal Subsidiary (under the 2004 senior debt indenture). (Section 1006 of the 2013 senior debt indenture and Section 10.4 of the 2004 senior debt indenture)

For the purposes of the senior debt indentures, capital stock means any and all shares, interests, rights to purchase, warrants, options, participations or other equivalents of or interests in corporate stock. (Section 101 of the 2013 senior debt indenture and the subordinated debt indenture, Section 1.1 of the 2004 senior debt indenture)

Subordination Provisions

Holders of subordinated debt securities should recognize that contractual provisions in the subordinated debt indenture may prohibit us from making payments on those securities. Subordinated debt securities are subordinate and junior in right of payment, to the extent and in the manner stated in the subordinated debt indenture, to all of our senior indebtedness, as defined in the subordinated debt indenture, including all debt securities we have issued and will issue under the senior debt indentures.

The subordinated debt indenture defines senior indebtedness as all indebtedness and obligations of, or guaranteed or assumed by, us for borrowed money or evidenced by bonds, debentures, notes or other similar instruments, whether existing now or in the future and all amendments, renewals, extensions, modifications and refundings of any indebtedness or obligations of that kind. Senior debt excludes the subordinated debt securities and any other indebtedness or obligations that would otherwise constitute indebtedness if it is specifically designated as being subordinate in right of payment or equal in rank and right of payment to the subordinated debt securities.

The subordinated debt indenture provides that, unless all principal of and any premium or interest on the senior indebtedness has been paid in full, no payment or other distribution may be made in respect of any subordinated debt securities in the following circumstances:

in the event of any insolvency or bankruptcy proceedings, or any receivership, liquidation, reorganization, assignment for creditors or other similar proceedings or events involving us or our assets;

(a) in the event and during the continuation of any default in the payment of principal, premium or interest on any senior indebtedness beyond any applicable grace period, (b) in the event that any event of default with respect to any senior indebtedness has occurred and is continuing, permitting the holders of that senior indebtedness (or a trustee) to accelerate the maturity of that senior indebtedness, whether or not the maturity is in fact accelerated (unless, in the case of (a) or (b), the payment default or event of default has been cured or waived or ceases to exist and any related acceleration has been rescinded) or (c) in the event that any judicial proceeding is pending with respect to a payment default or event of default described in (a) or (b); or

in the event that any subordinated debt securities have been declared due and payable before their stated maturity.

If the trustee under the subordinated debt indenture or any holders of the subordinated debt securities receive any payment or distribution that is prohibited under the subordination provisions, then the trustee or the holders will have to repay that money to the holders of the senior indebtedness.

Table of Contents

Even if the subordination provisions prevent us from making any payment when due on the subordinated debt securities of any series, we will be in default on our obligations under that series if we do not make the payment when due. This means that the trustee under the subordinated debt indenture and the holders of that series can take action against us, but they will not receive any money until the claims of the holders of senior indebtedness have been fully satisfied.

The subordinated debt indenture allows the holders of senior indebtedness to obtain a court order requiring us and any holder of subordinated debt securities to comply with the subordination provisions.

Defeasance

The following discussion of full defeasance and covenant defeasance will be applicable to each series of debt securities that is denominated in U.S. dollars and has a fixed rate of interest and will apply to other series of debt securities if we so specify in the prospectus supplement. (Section 1301 of the 2013 senior debt indenture and the subordinated debt indenture, Section 4.1 of the 2004 senior debt indenture)

Full Defeasance

If there is a change in U.S. federal tax law, as described below, we can legally release ourselves from any payment or other obligations on the debt securities, called full defeasance, if we put in place the following other arrangements for holders to be repaid:

We must deposit in trust for the benefit of all holders of the debt securities a combination of money and notes or bonds of the U.S. government or a U.S. government agency or U.S. government-sponsored entity (the obligations of which are backed by the full faith and credit of the U.S. government) that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates as certified by a nationally recognized firm of independent public accountants.

There must be a change in current U.S. federal tax law or a U.S. Internal Revenue Service ruling that lets us make the above deposit without causing the holders to be taxed on the debt securities any differently than if we did not make the deposit and just repaid the debt securities ourselves. (Under current federal tax law, the deposit and our legal release from the obligations pursuant to the debt securities would be treated as though we took back your debt securities and gave you your share of the cash and notes or bonds deposited in trust. In that event, you could recognize gain or loss on the debt securities you give back to us.)

We must deliver to the trustee a legal opinion of counsel confirming the tax law change described above. (Sections 1302 and 1304 of the 2013 senior debt indenture and the subordinated debt indenture, Sections 4.2 and 4.4 of the 2004 senior debt indenture)

In the case of the subordinated debt securities, the following requirements must also be met:

No event or condition may exist that, under the provisions described under Subordination Provisions above, would prevent us from making payments of principal, premium or interest on those subordinated debt securities on the date of the deposit referred to above or during the 90 days after that date; and

We must deliver to the trustee an opinion of counsel to the effect that (a) the trust funds will not be subject to any rights of direct holders of senior indebtedness and (b) after the 90-day period referred to above, the trust funds will not be subject to any applicable bankruptcy, insolvency, reorganization or similar laws affecting creditors' rights generally, except that if a court were to rule under any of those laws in any case or proceeding that the trust funds remained our property, then the relevant trustee and the direct holders of the subordinated debt securities would be entitled to some enumerated rights as secured creditors in the trust funds.

Table of Contents

If we ever did accomplish full defeasance, as described above, a holder would have to rely solely on the trust deposit for repayment on the debt securities. In addition, in the case of subordinated debt securities, the provisions described above under **Subordination Provisions** would not apply. A holder could not look to us for repayment in the unlikely event of any shortfall.

Covenant Defeasance

Under current U.S. federal tax law, we can make the same type of deposit as described above and we will be released from the restrictive covenants under the debt securities that are described above under **Restrictive Covenants** and that may be described in the prospectus supplement. This is called covenant defeasance. In that event, the holder would lose the protection of these covenants but would gain the protection of having money and U.S. government or U.S. government agency notes or bonds set aside in trust to repay the debt securities. In order to achieve covenant defeasance, we must do the following:

We must deposit in trust for the benefit of all holders of the debt securities a combination of money and notes or bonds of the U.S. government or a U.S. government agency or U.S. government sponsored-entity (the obligations of which are backed by the full faith and credit of the U.S. government) that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates as certified by a nationally recognized firm of independent public accountants; and

We must deliver to the trustee a legal opinion of counsel confirming that under current U.S. federal income tax law we may make the above deposit without causing the holders to be taxed on the debt securities any differently than if we did not make the deposit and just repaid the debt securities ourselves.

If we accomplish covenant defeasance, certain provisions of the indenture and the debt securities would no longer apply:

Covenants applicable to the series of debt securities that are described above under **Restrictive Covenants** and described in the prospectus supplement.

Any events of default relating to breach of those covenants.

In addition, in the case of subordinated securities, the provisions described above under **Subordination Provisions** will not apply if we accomplish covenant defeasance.

If we accomplish covenant defeasance, a holder can still look to us for repayment of the debt securities if there were a shortfall in the trust deposit. In fact, if one of the remaining events of default occurred (such as a bankruptcy) and the debt securities become immediately due and payable, there may be such a shortfall. (Sections 1303 and 1304 of the 2013 senior debt indenture and the subordinated debt indenture, Sections 4.3 and 4.4 of the 2004 senior debt indenture)

Events of Default

A holder will have special rights if an event of default occurs and is not cured, as described later in this subsection.

What Is An Event of Default? The term *Event of Default* means any of the following:

We do not pay the principal of or any premium on a debt security on its due date;

We do not pay interest on a debt security within 30 days of its due date;

We do not deposit money in a separate account, known as a sinking fund, on its due date, if we agree to maintain any sinking fund;

Table of Contents

We remain in breach of the restrictive covenant described above under Restrictive Covenants Limitation on Liens on Stock of Restricted and Principal Subsidiaries and on Issuance or Disposition of Stock of Restricted and Principal Subsidiaries or any other term of the indenture for 60 days after we receive a notice of default stating we are in breach; provided that under the 2013 senior debt indenture and the subordinated indenture our failure to comply with the requirements of Section 314(a) of the Trust Indenture Act or our Filing Obligation, as defined above, or to file a report with the SEC as contemplated in the indenture or otherwise will not constitute an event of default. The notice must be sent by either the trustee or holders of at least 10% of the principal amount of debt securities of the affected series under the 2013 senior debt indenture or the subordinated debt indenture or 25% of the principal amount of debt securities of the affected series under the 2004 senior debt indenture.

We file for bankruptcy or certain other events of bankruptcy, insolvency or reorganization occur;

Under the 2004 senior debt indenture, a default occurs under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness of us or any of our subsidiaries (other than Indebtedness owed to us or one of our subsidiaries) where such Indebtedness exists as of the date of the 2004 senior debt indenture, or is created after the date of the 2004 senior debt indenture, if such default (i) is caused by a failure to pay principal of or interest on such Indebtedness after final maturity prior to the expiration of the grace period provided by such Indebtedness on the date of such default; or (ii) results in the acceleration of such Indebtedness prior to its express maturity; and, in the case of clause (i) and (ii), the principal amount of such Indebtedness, together with the principal amount of any other such Indebtedness the maturity of which has been so accelerated, aggregates to \$50 million or more and such acceleration is not rescinded or annulled within 30 days of notice from the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of the affected series; or

Any other event of default described in the prospectus supplement occurs. (Section 501 of the 2013 senior debt indenture and the subordinated debt indenture, Section 5.1 of the 2004 senior debt indenture)

Remedies If an Event of Default Occurs. If you are the holder of a subordinated debt security, all remedies available upon the occurrence of an event of default under the subordinated debt indenture will be subject to the restrictions on the subordinated debt securities described above under Subordination Provisions . If an event of default occurs, the trustee will have special duties. In that situation, the trustee will be obligated to use those of its rights and powers under the indenture, and to use the same degree of care and skill in doing so, that a prudent person would use in that situation in conducting his or her own affairs. If an event of default has occurred and has not been cured, the trustee or the holders of at least 25% in principal amount of the debt securities of the affected series may declare the entire principal amount (or, in the case of original issue discount securities, the portion of the principal amount that is specified in the terms of the affected debt security) of all the debt securities of that series to be due and immediately payable. This is called a declaration of acceleration of maturity. However, a declaration of acceleration of maturity may be cancelled, but only before a judgment or decree based on the acceleration has been obtained, by the holders of at least a majority in principal amount of the debt securities of the affected series. (Section 502 of the 2013 senior debt indenture and the subordinated debt indenture, Section 5.2 of the 2004 senior debt indenture) If we file for bankruptcy or certain other events of bankruptcy, insolvency or reorganization occur, then the principal amount of all the securities of that series (or, if any securities of that series are original issue discount securities, such portion of the principal amount of such securities as may be specified by the terms thereof) shall automatically, and without any

declaration or other action on the part of the trustee or any holder, become immediately due and payable.

You should read carefully the prospectus supplement relating to any series of debt securities which are original issue discount securities for the particular provisions relating to acceleration of the maturity of a portion of the principal amount of original issue discount securities upon the occurrence of an event of default and its continuation.

Table of Contents

Except in cases of default, where the trustee has the special duties described above, the trustee is not required to take any action under the indenture at the request of any holders unless the holders offer the trustee reasonable protection from expenses and liability called an indemnity. (Section 603 of the 2013 senior debt indenture and the subordinated debt indenture, Section 6.3 of the 2004 senior debt indenture) If indemnity reasonably satisfactory to the trustee is provided, the holders of a majority in principal amount of the outstanding securities of the relevant series may direct the time, method and place of conducting any lawsuit or other formal legal action seeking any remedy available to the trustee. These majority holders may also direct the trustee in performing any other action under the applicable indenture with respect to the debt securities of that series, provided that:

it is not in conflict with any law or the indenture;

the trustee may take any other action deemed proper by it that is not inconsistent with directions from the holders of the debt securities of the affected series; and

under the 2004 senior debt indenture, unless otherwise provided under the Trust Indenture Act, the trustee need not take any action that might involve it in personal liability or might be unduly prejudicial to the holders of the debt securities of the affected series not involved in the proceeding. (Section 512 of the 2013 senior debt indenture and the subordinated debt indenture, Section 5.12 of the 2004 senior debt indenture)

Before you bypass the trustee and bring your own lawsuit or other formal legal action or take other steps to enforce your rights or protect your interests relating to the debt securities, the following must occur:

The holder of the debt security must give the trustee written notice that an event of default has occurred and remains uncured;

The holders of 25% in principal amount of all outstanding securities of the relevant series must make a written request that the trustee take action because of the default, and they must offer reasonable indemnity to the trustee against the costs, expenses and liabilities of taking that action;

The trustee must have not taken action for 60 days after receipt of the above notice and offer of indemnity; and

No direction inconsistent with such written request has been given to the trustee during such 60-day period by the holders of a majority in principal amount of the outstanding securities of that series. (Section 507 of the 2013 senior debt indenture and the subordinated debt indenture, Section 5.7 of the 2004 senior debt indenture)

However, you are entitled at any time to bring a lawsuit for the payment of money due on your debt security on or after its due date. (Section 508 of the 2013 senior debt indenture and the subordinated debt indenture, Section 5.8 of the 2004 senior debt indenture)

BOOK-ENTRY AND OTHER INDIRECT HOLDERS SHOULD CONSULT THEIR BANKS, BROKERS OR OTHER FINANCIAL INSTITUTIONS FOR INFORMATION ON HOW TO GIVE NOTICE OR DIRECTION TO OR MAKE A REQUEST OF THE TRUSTEE AND TO MAKE OR CANCEL A DECLARATION OF ACCELERATION.

We will give to the trustee every year a written statement of certain of our officers certifying that to their knowledge we are in compliance with the applicable indenture and the debt securities issued under it, or else specifying any default. (Section 1004 of the 2013 senior debt indenture and the subordinated debt indenture, Section 10.6 of the 2004 senior debt indenture)

Governing Law

The indentures are, and the debt securities will be, governed by and construed in accordance with the laws of the State of New York.

Our Relationship with the Trustee

U.S. Bank National Association is one of our lenders and from time to time provides other banking customary services to us and our subsidiaries.

U.S. Bank National Association is initially serving as the trustee for our senior debt securities issued under the 2004 senior debt indenture and the 2013 senior debt indenture, and subordinated debt securities issued under the subordinated debt indenture. If an actual or potential event of default occurs with respect to any of these securities, the trustee may be considered to have a conflicting interest for purposes of the Trust Indenture Act of 1939. In that case, the trustee must eliminate the conflict or may be required to resign under one or more of the indentures and we would be required to appoint a successor trustee. For this purpose, a potential event of default means an event that would be an event of default if the requirements for giving us default notice or for the default having to exist for a specific period of time were disregarded.

The recitals contained in this prospectus and in the debt securities shall be taken as statements of the Company and the trustee assumes no responsibility for their correctness. U.S. Bank National Association makes no representations or warranties regarding the debt securities or the adequacy or accuracy of this prospectus.

DESCRIPTION OF COMMON STOCK WE MAY OFFER

Also, in this section, references to holders mean those who own shares of common stock registered in their own names, on the books that the registrar or we maintain for this purpose, and not those who own beneficial interests in shares registered in street name or in shares issued in book-entry form through one or more depositaries. Owners of beneficial interests in shares of common stock should read the section below entitled Legal Ownership and Book-Entry Issuance .

The certificate of incorporation of Assurant, Inc. authorizes 800,000,000 shares of common stock, par value \$0.01 per share. The following summary of the terms and provisions of our capital stock does not purport to be complete and is qualified in its entirety by reference to our amended and restated certificate of incorporation and amended and restated by-laws, forms of which have been filed as exhibits to the registration statement of which this prospectus forms a part, and applicable law. See Where You Can Find More Information for information about where you can obtain a copy of these documents.

General. All outstanding shares of common stock are, and all shares of common stock to be outstanding upon completion of the offering will be, fully-paid and nonassessable. As of January 16, 2018, we had 52,432,603 shares of common stock outstanding.

Dividends. Subject to any preferential rights of any outstanding series of preferred stock that our board of directors may create from time to time, including the Series C Preferred Stock, the holders of our common stock will be entitled to dividends as may be declared from time to time by the board of directors from funds available therefor.

Voting Rights. Each share of common stock entitles the holder thereof to one vote on all matters, including the election of directors, and, except as otherwise required by law or provided in any resolution adopted by our board of directors with respect to any series of preferred stock, the holders of the shares of our common stock will possess all voting power. Our certificate of incorporation does not provide for cumulative voting in the election of directors. Generally, all matters to be voted on by the stockholders must be approved by a majority of the votes cast, subject to state law and any voting rights granted to any of the holders of preferred stock.

Preemptive Rights. The holders of common stock do not have any preemptive rights. There are no subscription, redemption, conversion or sinking fund provisions with respect to the common stock.

Liquidation Rights. Upon dissolution, liquidation or winding-up of Assurant, subject to the rights of holders of any preferred stock outstanding or any other class or series of stock having preferential rights, the holders of shares of common stock will be entitled to receive our assets available for distribution proportionate to their pro rata ownership of the outstanding shares of common stock.

Anti-takeover Effects of Certain Provisions of the Certificate of Incorporation, By-Laws and Delaware General Corporation Law

The provisions of the Delaware General Corporation Law and our certificate of incorporation and by-laws summarized below may have the effect of discouraging, delaying or preventing hostile takeovers, including those that might result in a premium being paid over the market price of our common stock, and discouraging, delaying or preventing changes in control or management of our Company.

Certificate of Incorporation and By-Laws

Our certificate of incorporation, which provides for the issuance of preferred stock, may have the effect of delaying, deferring or preventing a change in control of our Company without further action by the stockholders

Table of Contents

and may adversely affect the voting and other rights of the holders of shares of common stock. Further, our certificate of incorporation requires that any action required or permitted to be taken by our stockholders must be effected at a duly called annual or special meeting of our stockholders and may not be effected by a consent in writing. Special meetings of our stockholders may be called only by our Chief Executive Officer or by our board of directors pursuant to a resolution approved by the board of directors. In addition, our by-laws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors. These provisions may have the effect of delaying, deferring or preventing a change in control.

Issuance of Preferred Stock. Our board of directors has the authority, without further action of our stockholders, to issue up to 200,000,000 shares of preferred stock, par value \$1.00 per share, in one or more series and to fix the powers, preferences, rights and qualifications, limitations or restrictions thereof. The issuance of preferred stock on various terms could adversely affect the holders of common stock. The potential issuance of preferred stock may discourage bids for shares of our common stock at a premium over the market price of our common stock, may adversely affect the market price of shares of our common stock and may discourage, delay or prevent a change of control of Assurant.

The anti-takeover and other provisions of our certificate of incorporation and by-laws could discourage potential acquisition proposals and could delay or prevent a change in control. These provisions are intended to enhance the likelihood of continuity and stability in the composition of the board of directors and in the policies formulated by the board of directors and to discourage certain types of transactions that may involve an actual or threatened change of control. These provisions are designed to reduce our vulnerability to an unsolicited acquisition proposal. The provisions also are intended to discourage certain tactics that may be used in proxy fights. However, these provisions could have the effect of discouraging others from making tender offers for our shares and, as a consequence, they also may inhibit fluctuations in the market price of our shares that could result from actual or rumored takeover attempts. These provisions also may have the effect of preventing changes in our management.

Delaware General Corporation Law

We are subject to Section 203 of the Delaware General Corporation Law, which we refer to as Section 203. In general, Section 203 prevents a person who owns 15% or more of our outstanding voting stock, an interested stockholder, from engaging in some business combinations, as described below, with us for three years following the time that that person becomes an interested stockholder unless one of the following occurs:

the board of directors either approves the business combination or the transaction in which the person became an interested stockholder before that person became an interested stockholder;

upon consummation of the transaction which resulted in the person becoming an interested stockholder, the interested stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, excluding stock held by:

directors who are also officers of our Company; and

employee stock plans that do not provide employees with the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or

at or subsequent to the time that the transaction in which the person became an interested stockholder, the business combination is:

approved by the board of directors; and

authorized at a meeting of stockholders by the affirmative vote of the holders of at least two-thirds of our outstanding voting stock which is not owned by the interested stockholder.

For purposes of Section 203, the term business combinations includes mergers, consolidations, asset sales or other transactions that result in a financial benefit to the interested stockholder and transactions that would increase the interested stockholder's proportionate share ownership of our Company.

Table of Contents

Under some circumstances, Section 203 makes it more difficult for an interested stockholder to effect various business combinations with us for a period of three years after the stockholder becomes an interested stockholder. Although our stockholders have the right to exclude us from the restrictions imposed by Section 203, they have not done so. Section 203 may encourage companies interested in acquiring us to negotiate in advance with the board of directors, because the requirement stated above regarding stockholder approval would be avoided if a majority of the directors approves, prior to the time the party became an interested stockholder, either the business combination or the transaction which results in the stockholder becoming an interested stockholder.

Our common stock is listed on the New York Stock Exchange under the trading symbol AIZ .

**DESCRIPTION OF PREFERRED STOCK AND
DEPOSITARY SHARES REPRESENTING PREFERRED STOCK WE MAY OFFER**

References to Assurant, the Company, us, we or our in this section mean Assurant, Inc., and do not include the subsidiaries of Assurant, Inc. Also, in this section, references to holders mean those who own shares of preferred stock or depositary shares, as the case may be, registered in their own names, on the books that the registrar or we maintain for this purpose, and not those who own beneficial interests in shares registered in street name or in shares issued in book-entry form through one or more depositories. When we refer to you in this section, we mean all purchasers of the securities being offered by this prospectus, whether they are the holders or only indirect owners of those securities. Owners of beneficial interests in shares of preferred stock or depositary shares should read the section below entitled *Legal Ownership and Book-Entry Issuance*.

General

We may issue preferred stock in one or more series. We may also reopen a previously issued series of preferred stock and issue additional preferred stock of that series. In addition, we may issue preferred stock together with other preferred stock, debt securities, warrants, stock purchase contracts and common stock in the form of units as described below under *Description of Units We May Offer*. This section summarizes terms of the preferred stock that apply generally to all series. The description of most of the financial and other specific terms of your series will be in your prospectus supplement. Those terms may vary from the terms described here.

Because this section is a summary, it does not describe every aspect of the preferred stock and any related depositary shares. As you read this section, please remember that the specific terms of your series of preferred stock and any related depositary shares as described in your prospectus supplement will supplement and, if applicable, modify or replace the general terms described in this section. If there are differences between your prospectus supplement and this prospectus, your prospectus supplement will control. Thus, the statements we make in this section may not apply to your series of preferred stock or any related depositary shares.

Reference to a series of preferred stock means all of the shares of preferred stock issued as part of the same series under a certificate of designations filed as part of our amended and restated certificate of incorporation. Reference to your prospectus supplement means the prospectus supplement describing the specific terms of the preferred stock and any related depositary shares you purchase. The terms used in your prospectus supplement will have the meanings described in this prospectus, unless otherwise specified.

Authorized and Outstanding Preferred Stock

Our board of directors has the authority, without further action of our stockholders, to issue up to 200,000,000 shares of preferred stock, par value \$1.00 per share, in one or more series and to fix the powers, preferences, rights and qualifications, limitations or restrictions thereof, which may include dividend rights, conversion rights, voting rights, terms of redemption, liquidation preferences and the number of shares constituting any series or the designations of the series.

At January 16, 2018, no shares of our preferred stock were outstanding.

Holders of the Series C Preferred Stock are entitled to receive dividends at the rate of 4.5% per share per annum multiplied by the \$1,000 per share liquidation price. All dividends are payable in arrears on a quarterly basis. Any dividend that is not paid on a specified dividend payment date with respect to a share of such Preferred Stock shall be

deemed added to the liquidation price of such share for purposes of computing the future dividends on such share, until such delinquent dividend has been paid.

Holders of the Series C Preferred Stock may elect to have any or all of their shares redeemed by the Company any time after April 1, 2022, and the Company must redeem all shares of the Series C Preferred Stock

Table of Contents

no later than July 1, 2027. The Company also has the right and the obligation to redeem the Series C Preferred Stock upon the occurrence of certain specified events. The redemption price in all cases shall equal the \$1,000 per share liquidation price plus all accumulated and unpaid dividends. The Company is not required to establish any sinking fund or similar funds with respect to such redemptions.

None of the shares of Series C Preferred Stock are convertible into common stock or any other equity security of the Company. However, holders of the Series C Preferred Stock are entitled to one vote per share owned of record on all matters voted upon by the Company stockholders, voting with the holders of common stock as a single class, and not as a separate class or classes. The shares of Series C Preferred Stock are subject to certain restrictions on transferability, and the Company has the right of first refusal to acquire the shares if any holder thereof desires to make a transfer not otherwise permitted by the terms thereof.

In addition, as we described below under **Fractional or Multiple Shares of Preferred Stock Issued as Depositary Shares**, we may, at our option, instead of offering whole individual shares of any series of preferred stock, offer depositary shares evidenced by depositary receipts, each representing a fraction of a share or some multiple of shares of the particular series of preferred stock issued and deposited with a depositary. The fraction of a share or multiple of shares of preferred stock which each depositary share represents will be stated in the prospectus supplement relating to any series of preferred stock offered through depositary shares.

The rights of holders of preferred stock may be adversely affected by the rights of holders of preferred stock that may be issued in the future. Our board of directors may cause shares of preferred stock to be issued in public or private transactions for any proper corporate purpose. Examples of proper corporate purposes include issuances to obtain additional financing for acquisitions and issuances to officers, directors and employees under their respective benefit plans. Our issuance of shares of preferred stock may have the effect of discouraging or making an acquisition more difficult.

Preferred stock will be fully paid and nonassessable when issued, which means that our holders will have paid their purchase price in full and that we may not ask them to surrender additional funds. Unless otherwise provided in your prospectus supplement, holders of preferred stock will not have preemptive or subscription rights to acquire more stock of Assurant.

The transfer agent, registrar, dividend disbursing agent and redemption agent for shares of each series of preferred stock will be named in the prospectus supplement relating to that series.

Form of Preferred Stock

We may issue preferred stock in book-entry form. Preferred stock in book-entry form will be represented by a global security registered in the name of a depositary, which will be the holder of all the shares of preferred stock represented by the global security. Those who own beneficial interests in shares of preferred stock will do so through participants in the depositary's system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depositary and its participants. However, beneficial owners of any preferred stock in book-entry form will have the right to obtain their shares in non-global form. We describe book-entry securities below under **Legal Ownership and Book-Entry Issuance**. All preferred stock will be issued in registered form.

The remainder of this description summarizes:

preferred stockholders' rights relative to common stockholders, such as the right of preferred stockholders to receive dividends and amounts on our liquidation, dissolution or winding-up before any such amounts may be paid to our common shareholders;

our ability to issue fractional or multiple shares of preferred stock in the form of depositary shares; and

various provisions of the deposit agreement, including how distributions are made, how holders vote their depositary shares and how we may amend the deposit agreement.

Preferred Stockholders Rights

Rank

Shares of each series of preferred stock will rank senior to our common stock with respect to dividends and distributions of assets. However, we will generally be able to pay dividends and distributions of assets to holders of our preferred stock only if we have satisfied our obligations on our indebtedness then due and payable.

Dividends

Holders of each series of preferred stock will be entitled to receive cash dividends when, as and if declared by our board of directors, from funds legally available for the payment of dividends. The rates and dates of payment of dividends for each series of preferred stock will be stated in your prospectus supplement. Dividends will be payable to holders of record of preferred stock as they appear on our books on the record dates fixed by our board of directors. Dividends on any series of preferred stock may be cumulative or noncumulative, as set forth in the prospectus supplement.

Redemption

If specified in your prospectus supplement, a series of preferred stock may be redeemable at any time, in whole or in part, at our option or the holder's, and may be redeemed mandatorily.

Any restriction on the repurchase or redemption by us of our preferred stock while there is an arrearage in the payment of dividends will be described in your prospectus supplement.

Any partial redemptions of preferred stock will be made in a way that our board of directors decides is equitable.

Unless we default in the payment of the redemption price, dividends will cease to accrue after the redemption date on shares of preferred stock called for redemption and all rights of holders of these shares, including voting rights, will terminate except for the right to receive the redemption price.

Conversion or Exchange Rights

Our prospectus supplement relating to any series of preferred stock that is convertible, exercisable or exchangeable will state the terms on which shares of that series are convertible into or exercisable or exchangeable for shares of common stock, another series of preferred stock or other of our securities or securities of third parties.

Liquidation Preference

Upon any voluntary or involuntary liquidation, dissolution or winding up of Assurant, holders of each series of preferred stock will be entitled to receive distributions upon liquidation in the amount described in your prospectus supplement, plus an amount equal to any accrued and unpaid dividends. These distributions will be made before any distribution is made on our common stock. If the liquidation amounts payable relating to the preferred stock of any

series and any other parity securities ranking on a parity regarding liquidation rights are not paid in full, the holders of the preferred stock of that series and the other parity securities will share in any

distribution of our available assets on a ratable basis in proportion to the full liquidation preferences of each security. Holders of our preferred stock will not be entitled to any other amounts from us after they have received their full liquidation preference and accrued and unpaid dividends.

Voting Rights

The holders of preferred stock of each series will have no voting rights, except:

as stated in the prospectus supplement and in the certificate of designations establishing the series; or

as required by applicable law.

Fractional or Multiple Shares of Preferred Stock Issued as Depositary Shares

We may choose to offer fractional shares or some multiple of shares of our preferred stock, rather than whole individual shares. If we decide to do so, we will issue the preferred stock in the form of depositary shares. Each depositary share would represent a fraction or multiple of a share of the preferred stock and would be evidenced by a depositary receipt, as further described in the prospectus supplement relating to any series of preferred stock offered through depositary shares.

Deposit Agreement

We will deposit the shares of preferred stock to be represented by depositary shares under a deposit agreement. The parties to the deposit agreement will be:

Assurant;

a bank or other financial institutional selected by us and named in the prospectus supplement, as preferred stock depositary; and

the holders from time to time of depositary receipts issued under that deposit agreement.

Each holder of a depositary share will be entitled to all the rights and preferences of the underlying preferred stock, including, where applicable, dividend, voting, redemption, conversion and liquidation rights, in proportion to the applicable fraction or multiple of a share of preferred stock represented by the depositary share. The depositary shares will be evidenced by depositary receipts issued under the deposit agreement. The depositary receipts will be distributed to those persons purchasing the fractional or multiple shares of preferred stock. A depositary receipt may evidence any number of whole depositary shares. The depositary for the depositary shares may charge certain fees for holding the preferred stock on behalf of the holders of the depositary shares or in connection with certain transfers, redemptions, dividend payments, distributions or other transactions involving the depositary shares.

We will file the deposit agreement, including the form of depositary receipt, with the SEC, either as an exhibit to the registration statement of which this prospectus forms a part or as an exhibit to a current report on Form 8-K.

Dividends and Other Distributions

The preferred stock depositary will distribute any cash dividends or other cash distributions received in respect of the deposited preferred stock to the record holders of depositary shares relating to the underlying preferred stock in proportion to the number of depositary shares owned by the holders. The preferred stock depositary will distribute any property received by it other than cash to the record holders of depositary shares entitled to those distributions, unless it determines that the distribution cannot be made proportionally among those holders or that it is not feasible to make a distribution. In that event, the preferred stock depositary may, with our approval, sell the property and distribute the net proceeds from the sale to the holders of the depositary shares in proportion to the number of depositary shares they own.

Table of Contents

The amounts distributed to holders of depositary shares will be reduced by any amounts required to be withheld by the preferred stock depositary or by us on account of taxes or other governmental charges.

Redemption of Preferred Stock

If we redeem preferred stock represented by depositary shares, the preferred stock depositary will redeem the depositary shares from the proceeds it receives from the redemption. The preferred stock depositary will redeem the depositary shares at a price per share equal to the applicable fraction or multiple of the redemption price per share of preferred stock. Whenever we redeem shares of preferred stock held by the preferred stock depositary, the preferred stock depositary will redeem as of the same date the number of depositary shares representing the redeemed shares of preferred stock. If fewer than all the depositary shares are to be redeemed, the preferred stock depositary will select the depositary shares to be redeemed by lot or ratably or by any other equitable method it chooses.

After the date fixed for redemption, the depositary shares called for redemption will no longer be deemed to be outstanding, and all rights of the holders of those shares will cease, including voting rights, except the right to receive the amount payable and any other property to which the holders were entitled upon the redemption. To receive this amount or other property, the holders must surrender the depositary receipts evidencing their depositary shares to the preferred stock depositary. Any funds that we deposit with the preferred stock depositary for any depositary shares that the holders fail to redeem will be returned to us after a period of two years from the date we deposit the funds.

Withdrawal of Preferred Stock

Unless the related depositary shares have previously been called for redemption, any holder of depositary shares may receive the number of whole shares of the related series of preferred stock and any money or other property represented by those depositary receipts after surrendering the depositary receipts at the corporate trust office of the preferred stock depositary, paying any taxes, charges and fees provided for in the deposit agreement and complying with any other requirement of the deposit agreement. Holders of depositary shares making these withdrawals will be entitled to receive whole shares of preferred stock, but holders of whole shares of preferred stock will not be entitled to deposit that preferred stock under the deposit agreement or to receive depositary receipts for that preferred stock after withdrawal. If the depositary shares surrendered by the holder in connection with withdrawal exceed the number of depositary shares that represent the number of whole shares of preferred stock to be withdrawn, the preferred stock depositary will deliver to that holder at the same time a new depositary receipt evidencing the excess number of depositary shares.

Voting Deposited Preferred Stock

When the preferred stock depositary receives notice of any meeting at which the holders of any series of deposited preferred stock are entitled to vote, the preferred stock depositary will mail the information contained in the notice to the record holders of the depositary shares relating to the applicable series of preferred stock. Each record holder of the depositary shares on the record date, which will be the same date as the record date for the preferred stock, may instruct the preferred stock depositary to vote the amount of the preferred stock represented by the holder's depositary shares. To the extent possible, the preferred stock depositary will vote the amount of the series of preferred stock represented by depositary shares in accordance with the instructions it receives. We will agree to take all reasonable actions that the preferred stock depositary determines are necessary to enable the preferred stock depositary to vote as instructed. If the preferred stock depositary does not receive specific instructions from the holders of any depositary shares representing a series of preferred stock, the preferred stock depositary will vote all shares of that series in proportion to the instructions received.

Conversion of Preferred Stock

If our prospectus supplement relating to the depositary shares says that the deposited preferred stock is convertible into or exercisable or exchangeable for common stock, preferred stock of another series or other securities, or debt or equity securities of one or more third parties, our depositary shares, as such, will not be convertible into or exercisable or exchangeable for any securities. Rather, any holder of the depositary shares may surrender the related depositary receipts to the preferred stock depositary with written instructions to instruct us to cause conversion, exercise or exchange of our preferred stock represented by the depositary shares into or for whole shares of common stock, shares of another series of preferred stock or other of our securities or securities of the relevant third party, as applicable. Upon receipt of those instructions and any amounts payable by the holder in connection with the conversion, exercise or exchange, we will cause the conversion, exercise or exchange using the same procedures as those provided for conversion, exercise or exchange of the deposited preferred stock. If only some of the depositary shares are to be converted, exercised or exchanged, a new depositary receipt or receipts will be issued for any depositary shares not to be converted, exercised or exchanged.

Form of Depositary Shares

We may issue depositary shares in book-entry form. Depositary shares in book-entry form will be represented by a global security registered in the name of a depositary, which will be the holder of all the depositary shares represented by the global security. Those who own beneficial interests in depositary shares will do so through participants in the depositary's system, and the rights of these indirect owners will be governed solely by the applicable procedures of the depositary and its participants. However, beneficial owners of any depositary shares in book-entry form will have the right to obtain their shares in non-global form. We describe book-entry securities below under **Legal Ownership and Book-Entry Issuance**. All depositary shares will be issued in registered form.

DESCRIPTION OF WARRANTS WE MAY OFFER

References to Assurant, the Company, us, we or our in this section mean Assurant, Inc., and do not include the subsidiaries of Assurant, Inc. Also, in this section, references to holders mean those who own warrants registered in their own names, on the books that the registrar or we maintain for this purpose, and not those who own beneficial interests in warrants registered in street name or in warrants issued in book-entry form through one or more depositories. Owners of beneficial interests in warrants should read the section below entitled Legal Ownership and Book-Entry Issuance .

General

We may issue warrants to purchase our senior debt securities, subordinated debt securities, preferred stock, depository shares, common stock, any securities of a third party or any combination of these securities, and these warrants may be issued independently or together with any underlying securities and may be attached or separate from those underlying securities. We will issue each series of warrants under a separate warrant agreement to be entered into between us and a warrant agent. The warrant agent will act solely as our agent in connection with the warrants of such series and will not assume any obligation or relationship of agency for or with holders or beneficial owners of warrants.

The following outlines some of the general terms and provisions of the warrants. Further terms of the warrants and the applicable warrant agreement will be stated in the applicable prospectus supplement. The following description and any description of the warrants in a prospectus supplement may not be complete and is subject to and qualified in its entirety by reference to the terms and provisions of the warrant agreement, a form of which will be filed as an exhibit to the registration statement that contains this prospectus or as an exhibit to a current report on Form 8-K.

A Prospectus Supplement Will Describe the Specific Terms of Warrants

The applicable prospectus supplement will describe the terms of any warrants that we may offer, including the following:

the title of the warrants;

the total number of warrants;

the price or prices at which the warrants will be issued;

the currency or currencies, including currency units or composite currencies, investors may use to pay for the warrants;

the designation and terms of the underlying securities purchasable upon exercise of the warrants;

the price at which and the currency or currencies, including currency units or composite currencies, in which investors may purchase the underlying securities purchasable upon exercise of the warrants;

the date on which the right to exercise the warrants will commence and the date on which the right will expire;

whether the warrants will be issued in registered form or bearer form;

information with respect to book-entry procedures, if any;

if applicable, the minimum or maximum amount of warrants that may be exercised at any one time;

if applicable, a discussion of certain U.S. federal income tax considerations;

the identity of the warrant agent;

the procedures and conditions relating to the exercise of the warrants; and

any other terms of the warrants, including terms, procedures and limitations relating to the exchange and exercise of the warrants.

We may also issue warrants, on terms to be determined at the time of sale, for the purchase or sale of, or whose cash value is determined by reference to the performance, level or value of, one or more of the following:

securities of one or more issuers, including our common or preferred stock or other securities described in this prospectus or debt or equity securities of third parties;

one or more currencies;

one or more commodities;

any other financial, economic or other measure or instrument, including the occurrence or nonoccurrence of any event or circumstance; and

one or more indices or baskets of the items described above.

We refer to this type of warrant as a universal warrant. We refer to each property described above as a warrant property.

We may satisfy our obligations, if any, and the holder of a universal warrant may satisfy its obligations, if any, with respect to any universal warrants by delivering:

the warrant property;

the cash value of the warrant property; or

the cash value of the warrants determined by reference to the performance, level or value of the warrant property.

The applicable prospectus supplement will describe what we may deliver to satisfy our obligations, if any, and what the holder of a universal warrant may deliver to satisfy its obligations, if any, with respect to any universal warrants.

Warrant certificates may be exchanged for new warrant certificates of different denominations, and warrants may be exercised at the warrant agent's corporate trust office or any other office indicated in the applicable prospectus supplement. Prior to the exercise of their warrants, holders of warrants exercisable for debt securities will not have any of the rights of holders of the debt securities purchasable upon such exercise and will not be entitled to payments of principal, or premium, if any, or interest, if any, on the debt securities purchasable upon such exercise. Prior to the exercise of their warrants, holders of warrants exercisable for shares of preferred stock or common stock will not have any rights of holders of the preferred stock or common stock purchasable upon such exercise and will not be entitled to dividend payments, if any, or voting rights of the preferred stock or common stock purchasable upon such exercise.

Exercise of Warrants

A warrant will entitle the holder to purchase for cash an amount of securities at an exercise price that will be stated in, or that will be determinable as described in, the applicable prospectus supplement. Warrants may be exercised at any time up to the close of business on the expiration date set forth in the applicable prospectus supplement. After the close of business on the expiration date, unexercised warrants will become void.

Table of Contents

Warrants may be exercised as set forth in the applicable prospectus supplement. Upon receipt of payment and the warrant certificate properly completed and duly executed at the corporate trust office of the warrant agent or any other office indicated in the prospectus supplement, we will, as soon as practicable, forward the securities purchasable upon such exercise. If less than all of the warrants represented by such warrant certificate are exercised, a new warrant certificate will be issued for the remaining warrants.

Enforceability of Rights; Governing Law

The holders of warrants, without the consent of the warrant agent, may, on their own behalf and for their own benefit, enforce, and may institute and maintain any suit, action or proceeding against us to enforce their rights to exercise and receive the securities purchasable upon exercise of their warrants. Unless otherwise stated in the prospectus supplement, each issue of warrants and the applicable warrant agreement will be governed by the laws of the State of New York.

DESCRIPTION OF STOCK PURCHASE CONTRACTS WE MAY OFFER

References to Assurant, the Company, us, we or our in this section mean Assurant, Inc., and do not include the subsidiaries of Assurant, Inc. Also, in this section, references to holders mean those who own stock purchase contracts registered in their own names, on the books that the registrar or we maintain for this purpose, and not those who own beneficial interests in stock purchase contracts registered in street name or in stock purchase contracts issued in book-entry form through one or more depositories. Owners of beneficial interests in stock purchase contracts should read the section below entitled Legal Ownership and Book-Entry Issuance .

The applicable prospectus supplement will describe the terms of any stock purchase contracts that we may offer. The following description and any description of stock purchase contracts in the applicable prospectus supplement may not be complete and is subject to, and is qualified in its entirety by, reference to the stock purchase contract agreement and, if applicable, collateral arrangements and depository arrangements relating to such stock purchase contracts that we will file with the SEC as an exhibit to the registration statement that contains this prospectus or as an exhibit to a current report on Form 8-K.

We may issue stock purchase contracts, representing contracts obligating holders to purchase from or sell to us, and obligating us to purchase from or sell to the holders, a specified or variable number of shares of our common stock, preferred stock or depository shares, as applicable, at a future date or dates. The price per share of common stock, preferred stock or depository shares, as applicable, may be fixed at the time the stock purchase contracts are issued or may be determined by reference to a specific formula contained in the stock purchase contracts. We may issue stock purchase contracts in such amounts and in as many distinct series as we wish.

The stock purchase contracts may be issued separately or as part of units, which we refer to in this prospectus as units. Units may consist of a stock purchase contract and beneficial interests in other securities described in this prospectus or of third parties, securing the holders obligations to purchase from or sell shares to us under the stock purchase contracts. These other securities may consist of our debt securities, preferred stock, common stock, depository shares, warrants or securities of third parties, including U.S. Treasury securities. The stock purchase contracts may require us to make periodic payments to the holders of the stock purchase contracts or vice versa, and these payments may be unsecured or prefunded on some basis. The stock purchase contracts may require holders to secure their obligations under those contracts in a specified manner.

The applicable prospectus supplement may contain, where applicable, the following information about the stock purchase contracts issued under it:

whether the stock purchase contracts obligate the holder to purchase or sell, or both purchase and sell, our common stock, preferred stock or depository shares, as applicable, and the nature and amount of each of those securities, or the method of determining those amounts;

whether the stock purchase contracts are to be prepaid or not;

whether the stock purchase contracts are to be settled by delivery, or by reference or linkage to the value, performance or level of our common stock or preferred stock;

any acceleration, cancellation, termination or other provisions relating to the settlement of the stock purchase contracts;

whether the stock purchase contracts will be issued in fully registered or global form;

if applicable, a discussion of certain U.S. federal income tax considerations; and

any other terms of the stock purchase contracts.

DESCRIPTION OF UNITS WE MAY OFFER

References to Assurant, the Company, us, we or our in this section mean Assurant, Inc., and do not include the subsidiaries of Assurant, Inc. Also, in this section, references to holders mean those who own units registered in their own names, on the books that the registrar or we maintain for this purpose, and not those who own beneficial interests in units registered in street name or in units issued in book-entry form through one or more depositaries. Owners of beneficial interests in units should read the section below entitled Legal Ownership and Book-Entry Issuance .

The applicable prospectus supplement will describe the terms of any units. The following description and any description of units in the applicable prospectus supplement may not be complete and is subject to, and is qualified in its entirety by reference to, the unit agreement and, if applicable, collateral arrangements and depositary arrangements relating to such units that we will file with the SEC as an exhibit to the registration statement that contains this prospectus or as an exhibit to a current report on Form 8-K.

We may issue units comprised of one or more of the other securities described in this prospectus in any combination. Each unit may also include debt obligations of third parties, such as U.S. Treasury securities. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

The applicable prospectus supplement may describe:

the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;

any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units;

whether the units will be issued in fully registered or global form; and

if applicable, a discussion of certain U.S. federal income tax considerations.

LEGAL OWNERSHIP AND BOOK-ENTRY ISSUANCE

References to Assurant, the Company, us, we or our in this section means Assurant, Inc. In this section, we describe special considerations that will apply to registered securities issued in global i.e., book-entry form. First we describe the difference between legal ownership and indirect ownership of registered securities. Then we describe special provisions that apply to global securities.

Who is the Legal Owner of a Registered Security?

Each debt security, warrant, stock purchase contract, unit or share of preferred or common stock in registered form will be represented either by a certificate issued in definitive form to a particular investor or by one or more global securities representing such securities. We refer to those who have securities registered in their own names, on the books that we or the trustee, warrant agent or other agent maintain for this purpose, as the holders of those securities. These persons are the legal holders of the securities. We refer to those who, indirectly through others, own beneficial interests in securities that are not registered in their own names as indirect owners of those securities. As we discuss below, indirect owners are not legal holders, and investors in securities issued in book-entry form or in street name will be indirect owners.

Book-Entry Owners

Unless otherwise noted in your prospectus supplement, we will issue each security in book-entry form only. This means securities will be represented by one or more global securities registered in the name of a financial institution that holds them as depositary on behalf of other financial institutions that participate in the depositary's book-entry system. These participating institutions, in turn, hold beneficial interests in the securities on behalf of themselves or their customers.

Under each indenture, warrant agreement, stock purchase contract, unit agreement or depositary agreement, only the person in whose name a security is registered is recognized as the holder of that security. Consequently, for securities issued in global form, we will recognize only the depositary as the holder of the securities and we will make all payments on the securities, including deliveries of any property other than cash, to the depositary. The depositary passes along the payments it receives to its participants, which in turn pass the payments along to their customers who are the beneficial owners. The depositary and its participants do so under agreements they have made with one another or with their customers; they are not obligated to do so under the terms of the securities.

As a result, investors will not own securities directly. Instead, they will own beneficial interests in a global security, through a bank, broker or other financial institution that participates in the depositary's book-entry system or holds an interest through a participant. As long as the securities are issued in global form, investors will be indirect owners, and not holders, of the securities.

Street Name Owners

We may terminate an existing global security or issue securities initially in non-global form. In these cases, investors may choose to hold their securities in their own names or in street name. Securities held by an investor in street name would be registered in the name of a bank, broker or other financial institution that the investor chooses, and the investor would hold only a beneficial interest in those securities through an account he or she maintains at that institution.

For securities held in street name, we will recognize only the intermediary banks, brokers and other financial institutions in whose names the securities are registered as the holders of those securities and we will make all payments on those securities, including deliveries of any property other than cash, to them. These institutions pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold securities in street name will be indirect owners, not holders, of those securities.

Table of Contents

Legal Holders

Our obligations, as well as the obligations of the trustee under any indenture and the obligations, if any, of any warrant agents and unit agents and any other third parties employed by us, the trustee or any of those agents, run only to the holders of the securities. We do not have obligations to investors who hold beneficial interests in global securities, in street name or by any other indirect means. This will be the case whether an investor chooses to be an indirect owner of a security or has no choice because we are issuing the securities only in global form.

For example, once we make a payment or give a notice to the holder, we have no further responsibility for that payment or notice even if that holder is required, under agreements with depositary participants or customers or by law, to pass it along to the indirect owners but does not do so. Similarly, if we want to obtain the approval of the holders for any purpose for example, to amend the indenture for a series of debt securities or warrants or the warrant agreement for a series of warrants or to relieve us of the consequences of a default or of our obligation to comply with a particular provision of an indenture or warrant agreement we would seek the approval only from the holders, and not the indirect owners, of the relevant securities. Whether and how the holders contact the indirect owners is up to the holders.

When we refer to *you* in this prospectus, we mean all purchasers of the securities being offered by this prospectus, whether they are the holders or indirect owners of those securities. When we refer to *your securities* in this prospectus, we mean the securities in which you will hold a direct or indirect interest.

Special Considerations for Indirect Owners

If you hold securities through a bank, broker or other financial institution, either in book-entry form or in street name, you should check with your own institution to find out:

how it handles securities payments and notices;

whether it imposes fees or charges;

whether and how you can instruct it to exercise any rights to purchase or sell warrant property under a warrant or stock purchase contract property under a stock purchase contract or to exchange or convert a security for or into other property;

how it would handle a request for the holders' consent, if ever required;

whether and how you can instruct it to send you securities registered in your own name so you can be a holder, if that is permitted in the future;

how it would exercise rights under the securities if there were a default or other event triggering the need for holders to act to protect their interests; and

if the securities are in book-entry form, how the depository's rules and procedures will affect these matters.

What is a Global Security?

Unless otherwise noted in the applicable prospectus or pricing supplement, we will issue each security in book-entry form only. Each security issued in book-entry form will be represented by a global security that we deposit with and register in the name of one or more financial institutions or clearing systems, or their nominees, which we select. A financial institution or clearing system that we select for any security for this purpose is called the depository for that security. A security will usually have only one depository but it may have more. Each series of securities will have one or more of the following as the depositories:

The Depository Trust Company, New York, New York, which is known as DTC ;

Euroclear System, which is known as Euroclear ;

Table of Contents

Clearstream Banking, société anonyme, Luxembourg, which is known as Clearstream ; and

any other clearing system or financial institution named in the applicable prospectus supplement.

The depositaries named above may also be participants in one another's systems. Thus, for example, if DTC is the depositary for a global security, investors may hold beneficial interests in that security through Euroclear or Clearstream, as DTC participants. The depositary or depositaries for your securities will be named in your prospectus supplement; if none is named, the depositary will be DTC.

A global security may represent one or any other number of individual securities. Generally, all securities represented by the same global security will have the same terms. We may, however, issue a global security that represents multiple securities of the same kind, such as debt securities, that have different terms and are issued at different times. We call this kind of global security a master global security. Your prospectus supplement will not indicate whether your securities are represented by a master global security.

A global security may not be transferred to or registered in the name of anyone other than the depositary or its nominee, unless special termination situations arise. We describe those situations below under **Holder's Option to Obtain a Non-Global Security: Special Situations When a Global Security Will Be Terminated** . As a result of these arrangements, the depositary, or its nominee, will be the sole registered owner and holder of all securities represented by a global security, and investors will be permitted to own only indirect interests in a global security. Indirect interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depositary or with another institution that does. An investor whose security is represented by a global security will not be a holder of the security, but only an indirect owner of an interest in the global security.

If the prospectus supplement for a particular security indicates that the security will be issued in global form only, then the security will be represented by a global security at all times unless and until the global security is terminated. We describe the situations in which this can occur below under **Holder's Option to Obtain a Non-Global Security: Special Situations When a Global Security Will Be Terminated** . If termination occurs, we may issue the securities through another book-entry clearing system or decide that the securities may no longer be held through any book-entry clearing system.

Special Considerations for Global Securities

As an indirect owner, an investor's rights relating to a global security will be governed by the account rules of the depositary and those of the investor's bank, broker, financial institution or other intermediary through which it holds its interest (e.g., Euroclear or Clearstream, if DTC is the depositary), as well as general laws relating to securities transfers. We do not recognize this type of investor or any intermediary as a holder of securities and instead deal only with the depositary that holds the global security.

If securities are issued only in the form of a global security, an investor should be aware of the following:

An investor cannot cause the securities to be registered in his or her own name, and cannot obtain non-global certificates for his or her interest in the securities, except in the special situations we describe below;

An investor will be an indirect holder and must look to his or her own bank, broker or other financial institution for payments on the securities and protection of his or her legal rights relating to the securities, as we describe above under **Who is the Legal Owner of a Registered Security?** ;

An investor may not be able to sell interests in the securities to some insurance companies and other institutions that are required by law to own their securities in non-book-entry form;

An investor may not be able to pledge his or her interest in a global security in circumstances where certificates representing the securities must be delivered to the lender or other beneficiary of the pledge in order for the pledge to be effective;

Table of Contents

The depositary's policies will govern payments, deliveries, transfers, exchanges, notices and other matters relating to an investor's interest in a global security, and those policies may change from time to time. We, any trustees, warrant agents, unit agents and any other third party retained to provide security-related services, will have no responsibility for any aspect of the depositary's policies, actions or records of ownership interests in a global security. We, any trustees, warrant agents, unit agents and any other third parties retained to provide security-related services also do not supervise the depositary in any way;

The depositary may require that those who purchase and sell interests in a global security within its book-entry system use immediately available funds, and your bank, broker or other financial institution may require you to do so as well; and

Financial institutions that participate in the depositary's book-entry system and through which an investor holds its interest in the global securities, directly or indirectly, may also have their own policies affecting payments, deliveries, transfers, exchanges, notices and other matters relating to the securities, and those policies may change from time to time. For example, if you hold an interest in a global security through Euroclear or Clearstream, when DTC is the depositary, Euroclear or Clearstream, as applicable, may require those who purchase and sell interests in that security through them to use immediately available funds and comply with other policies and procedures, including deadlines for giving instructions as to transactions that are to be effected on a particular day. There may be more than one financial intermediary in the chain of ownership for an investor. The existence of these intermediaries may cause delay in payments, transfers, notices or other communications between us, the depositary and you. We do not monitor and are not responsible for the policies or actions or records of ownership interests of any of those intermediaries, including any delay in any payments, transfers, notices or other communications to you.

Holder's Option to Obtain a Non-Global Security: Special Situations When a Global Security Will Be Terminated

If we issue any series of securities in book-entry form but we choose to give the beneficial owners of that series the right to obtain non-global securities, any beneficial owner entitled to obtain non-global securities may do so by following the applicable procedures of the depositary, any transfer agent or registrar for that series and that owner's bank, broker or other financial institution through which that owner holds its beneficial interest in the securities. If you are entitled to request a non-global certificate and wish to do so, you will need to allow sufficient lead time to enable us or our agent to prepare the requested certificate.

In addition, in a few special situations described below, a global security will be terminated and interests in it will be exchanged for certificates in non-global form representing the securities it represented. After that exchange, the choice of whether to hold the securities directly or in street name will be up to the investor. Investors must consult their own banks, brokers or other financial institutions to find out how to have their interests in a global security transferred on termination to their own names, so that they will be holders. We have described the rights of holders and street name investors above under **Who is the Legal Owner of a Registered Security?**

The special situations for termination of a global security are as follows:

if the depositary notifies us that it is unwilling, unable or no longer qualified to continue as depositary for that global security and we do not appoint another institution to act as depositary within 60 days;

if we notify the trustee, warrant agent, unit agent or other agent, as applicable, that we wish to terminate that global security; or

in the case of a global security representing debt securities or warrants issued under an indenture, if an event of default has occurred with regard to these debt securities or warrants and has not been cured or waived.

Table of Contents

If a global security is terminated, only the depositary, and not we, the trustee for any debt securities, the warrant agent for any warrants, the unit agent for any units or any other third party retained to provide securities-related services, is responsible for deciding the names of the institutions in whose names the securities represented by the global security will be registered and, therefore, who will be the holders of those securities.

Considerations Relating to DTC

DTC has informed us that it is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that DTC participants deposit with DTC. DTC also facilitates the settlement among DTC participants of securities transactions, such as transfers and pledges in deposited securities through electronic computerized book-entry changes in DTC participants' accounts, thereby eliminating the need for physical movement of certificates. DTC participants include securities brokers and dealers, banks, trust companies and clearing corporations, and may include other organizations. DTC is owned by a number of its DTC participants and by the New York Stock Exchange, Inc., the American Stock Exchange, LLC and the National Association of Securities Dealers, Inc. Indirect access to the DTC system also is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly. The rules applicable to DTC and DTC participants are on file with the SEC.

Purchases of securities within the DTC system must be made by or through DTC participants, which will receive a credit for the securities on DTC's records. Transfers of ownership interests in the securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners.

Redemption notices will be sent to DTC's nominee, Cede & Co., as the registered holder of the securities. If less than all of the securities are being redeemed, DTC will determine the amount of the interest of each direct participant to be redeemed in accordance with its then current procedures.

In instances in which a vote is required, neither DTC nor Cede & Co. will itself consent or vote with respect to the securities. Under its usual procedures, DTC would mail an omnibus proxy to the relevant trustee as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts such securities are credited on the record date (identified in a listing attached to the omnibus proxy).

Distribution payments on the securities will be made by the relevant trustee to DTC. DTC's usual practice is to credit direct participants' accounts on the relevant payment date in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payments on such payment date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices and will be the responsibility of such participants and not of DTC, the relevant trustee or us, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of distributions to DTC is the responsibility of the relevant trustee, and disbursements of such payments to the beneficial owners are the responsibility of direct and indirect participants.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be accurate, but we assume no responsibility for the accuracy thereof. We do not have any responsibility for the performance by DTC or its participants of their respective obligations as described herein or under the rules and procedures governing their respective operations.

Considerations Relating to Euroclear and Clearstream

Euroclear and Clearstream are securities clearance systems in Europe. Both systems clear and settle securities transactions between their participants through electronic, book-entry delivery of securities against payment.

Table of Contents

Euroclear and Clearstream may be depositaries for a global security. In addition, if DTC is the depositary for a global security, Euroclear and Clearstream may hold interests in the global security as participants in DTC.

As long as any global security is held by Euroclear or Clearstream, as depositary, you may hold an interest in the global security only through an organization that participates, directly or indirectly, in Euroclear or Clearstream. If Euroclear or Clearstream is the depositary for a global security and there is no depositary in the United States, you will not be able to hold interests in that global security through any securities clearance system in the United States.

Payments, deliveries, transfers, exchanges, notices and other matters relating to the securities made through Euroclear or Clearstream must comply with the rules and procedures of those systems. Those systems could change their rules and procedures at any time. We have no control over those systems or their participants and we take no responsibility for their activities. Transactions between participants in Euroclear or Clearstream, on one hand, and participants in DTC, on the other hand, when DTC is the depositary, would also be subject to DTC's rules and procedures.

Special Timing Considerations Relating to Transactions in Euroclear and Clearstream

Investors will be able to make and receive through Euroclear and Clearstream payments, deliveries, transfers, exchanges, notices and other transactions involving any securities held through those systems only on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other financial institutions are open for business in the United States.

In addition, because of time-zone differences, U.S. investors who hold their interests in the securities through these systems and wish to transfer their interests, or to receive or make a payment or delivery or exercise any other right with respect to their interests, on a particular day may find that the transaction will not be effected until the next business day in Luxembourg or Brussels, as applicable. Thus, investors who wish to exercise rights that expire on a particular day may need to act before the expiration date. In addition, investors who hold their interests through both DTC and Euroclear or Clearstream may need to make special arrangements to finance any purchases or sales of their interests between the U.S. and European clearing systems, and those transactions may settle later than would be the case for transactions within one clearing system.

PLAN OF DISTRIBUTION

We may sell the offered securities in and outside the United States (1) through underwriters or dealers, (2) directly to purchasers or (3) through agents or through a combination of any of these methods of sale. The prospectus or pricing supplement will set forth the following information:

the terms of the offering,

the names of any underwriters or agents,

the purchase price,

the net proceeds to us,

any delayed delivery arrangements,

any underwriting discounts and other items constituting underwriters' compensation,

any initial public offering price,

any discounts or concessions allowed or reallocated or paid to dealers, and

any commissions paid to agents.

In addition, we may issue the securities as a dividend or distribution or in a subscription rights offering to our existing security holders. In some cases, we or dealers acting with us or on our behalf may also purchase securities and reoffer them to the public by one or more of the methods described above. This prospectus may be used in connection with any offering of our securities through any of these methods or other methods described in the applicable prospectus supplement.

If we offer securities in a subscription rights offering to our existing security holders, we may enter into a standby underwriting agreement with dealers, acting as standby underwriters. We may pay the standby underwriters a commitment fee for the securities they commit to purchase on a standby basis. If we do not enter into a standby underwriting arrangement, we may retain a dealer-manager to manage a subscription rights offering for us.

Sale Through Underwriters or Dealers

If we use underwriters in the sale, the underwriters will acquire the securities for their own account. The underwriters may resell the securities from time to time in one or more transactions, including negotiated transactions, at a fixed

public offering price or at varying prices determined at the time of sale. Underwriters may offer securities to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. Underwriters may sell the securities to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for whom they act as agents. Unless we inform you otherwise in the prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to certain conditions, and the underwriters will be obligated to purchase all the offered securities if they purchase any of them. The underwriters may change from time to time any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers.

During and after an offering through underwriters, the underwriters may purchase and sell the securities in the open market. These transactions may include over-allotment and stabilizing transactions and purchases to cover syndicate short positions created in connection with the offering. The underwriters may also impose a penalty bid, in which selling concessions allowed to syndicate members or other broker-dealers for the offered securities sold for their account may be reclaimed by the syndicate if such offered securities are repurchased by the syndicate in stabilizing or covering transactions. These activities may stabilize, maintain or otherwise affect the market price of the offered securities, which may be higher than the price that might otherwise prevail in the open market. If commenced, these activities may be discontinued at any time.

Table of Contents

If we use dealers in the sale of securities, we will sell the securities to them as principals. They may then resell those securities to the public at varying prices determined by the dealers at the time of resale. The dealers participating in any sale of the securities may be deemed to be underwriters within the meaning of the Securities Act of 1933 with respect to any sale of those securities. We will include in the prospectus supplement the names of the dealers, the terms of the transaction and the nature of the underwriter's obligation.

Direct Sales and Sales Through Agents

We may sell the securities directly. In that event, no underwriters or agents would be involved. We may also sell the securities through agents we designate from time to time. In the prospectus supplement, we will name any agent involved in the offer or sale of the offered securities, and we will describe any commissions payable by us to the agent. Unless we inform you otherwise in the prospectus supplement, any agent will agree to use its reasonable best efforts to solicit purchases for the period of its appointment.

We may sell the securities directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act of 1933 with respect to any sale of those securities. We will describe the terms of any such sales in the prospectus supplement.

Delayed Delivery Contracts

If we so indicate in the prospectus supplement, we may authorize agents, underwriters or dealers to solicit offers from certain types of institutions to purchase securities from us at the public offering price under delayed delivery contracts. These contracts would provide for payment and delivery on a specified date in the future. The contracts would be subject only to those conditions described in the prospectus supplement. The prospectus supplement will describe the commission payable for solicitation of those contracts.

Remarketing

We may offer and sell any of the securities in connection with a remarketing upon their purchase, in accordance with a redemption or repayment by their terms or otherwise, by one or more remarketing firms acting as principals for their own accounts or as our agents. We will identify any remarketing firm, the terms of any remarketing agreement and the compensation to be paid to the remarketing firm in the prospectus supplement. Remarketing firms may be deemed underwriters under the Securities Act.

Sales by Selling Securityholders

Selling securityholders may use this prospectus in connection with resales of the securities. The applicable prospectus supplement will identify the selling securityholders and the terms of the securities. Selling securityholders may be deemed to be underwriters in connection with the securities they resell and any profits on the sales may be deemed to be underwriting discounts and commissions under the Securities Act. The selling securityholders will receive all the proceeds from the sale of the securities. We will not receive any proceeds from sales by selling securityholders.

Derivative Transactions

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third parties may use securities pledged by us or borrowed from us or

others to settle those sales or to close out any related open borrowings of shares, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of shares.

Table of Contents

We or one of our affiliates may loan or pledge securities to a financial institution or other third party that in turn may sell the securities using this prospectus. Such financial institution or third party may transfer its short position to investors in our securities or in connection with a simultaneous offering of other securities offered by this prospectus or otherwise.

The third parties in any of the sale transactions described above will be underwriters and will be identified in the applicable prospectus supplement or in a post-effective amendment to the registration statement of which this prospectus forms a part.

General Information

We may have agreements with the agents, dealers and underwriters to indemnify them against certain civil liabilities, including liabilities under the Securities Act of 1933, or to contribute with respect to payments that the agents, dealers or underwriters may be required to make. Agents, dealers and underwriters may also be our customers, may engage in material transactions with us, and may perform services for us in the ordinary course of their businesses.

The securities may or may not be listed on a national securities exchange. We cannot assure you that there will be a market for the securities. Unless otherwise specified in the prospectus supplement, each of the series of the securities will be a new issue with no established trading market.
