NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

1) BASIS OF PRESENTATION

The accompanying unaudited interim financial statements as of June 30, 2014 and for the three and six months ended June 30, 2014 and 2013 have been prepared in conformity with accounting principles generally accepted in the United States (“GAAP”) for interim financial statements. The financial information as of December 31, 2013 is derived from the audited financial statements presented in the Willamette Valley Vineyards, Inc. (the “Company”) Annual Report on Form 10-K for the year ended December 31, 2013. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the accompanying financial statements include all adjustments necessary (which are of a normal recurring nature) for the fair statement of the results of the interim periods presented. The accompanying financial statements should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2013, as presented in the Company’s Annual Report on Form 10-K.

Operating results for the three and six months ended June 30, 2014 are not necessarily indicative of the results that may be expected for the entire year ending December 31, 2014, or any portion thereof.

The Company’s revenues include direct-to-consumer sales and national sales to distributors. These sales channels utilize shared resources for production, selling and distribution.

Basic earnings per share are computed based on the weighted-average number of common shares outstanding each period. Diluted earnings per share are computed using the weighted average number of shares of common stock and potentially dilutive common shares outstanding during the period. Potentially dilutive shares from stock options and other instruments are excluded from the computation when their effect is anti-dilutive. At June 30, 2014 and 2013, potentially dilutive shares of 0 and 77,200, respectively, were excluded from the computation as their effect would be anti-dilutive. 86,362 and 45,155 potentially dilutive shares are included in the computation of dilutive earnings per share for the three month periods ended June 30, 2014 and 2013, respectively. 91,603 and 39,803 potentially dilutive shares are included in the computation of dilutive earnings per share for the six month periods ended June 30, 2014 and 2013, respectively.

Recent accounting pronouncements - In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers, a new standard to achieve a consistent application of revenue recognition within the U.S., resulting in a single revenue model to be applied by reporting companies under U.S. generally accepted accounting principles. Under the new model, recognition of revenue occurs when a customer obtains control of promised goods or services in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In addition, the new standard requires that reporting companies disclose the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. This new standard is effective for fiscal years beginning after December 15, 2016; early adoption is prohibited. This new standard is required to be applied retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying it recognized at the date of initial application. The Company has not yet selected a transition method nor has it determined the effects of the new standard on its condensed financial statements.

The terms of this contract include exclusive rights to distribute Willamette Valley Vineyard's wines in Oregon and Washington for seven years. In an effort to facilitate the transition with as little disruption as possible, Young's Market Company has agreed to compensate Willamette Valley Vineyards for ongoing Oregon sales and branding efforts. As a result, the Company is due to receive \$250,000 per year starting on September 2011 for each of the next four years for a total of \$1,000,000. The remaining amount to be collected was \$250,000 as of June 30, 2014 and December 31, 2013. The total amount of \$1,000,000 to be received by the Company related to this agreement is being recognized as revenue on a straight line basis over the seven year life of the agreement. Administration of the plan, including determination of the number, term, and type of options to be granted, lies with the Board of Directors or a duly authorized committee of the Board of Directors. At the date of the grant, the maximum term before expiration is ten years.

8) OTHER INCOME

On March 10, 2014 the Company experienced an inadvertent spillage of approximately 29,000 gallons of bulk wine during a filtration process. Subsequent to this loss, the Company filed an insurance claim with its carrier and received a partial settlement of \$75,000 during the three months ended March 31, 2014 which, net of wine cost of \$49,687, resulted in \$25,313 being recorded to other income for the three months ended March 31, 2014. . 9) SEGMENT REPORTING

The Company has identified two operating segments, Direct Sales and Distributor Sales, based upon their different distribution channels, margins and selling strategies. Direct Sales includes retail sales in the tasting room and remote sites, Wine Club sales, on-site events, kitchen and catering sales and other sales made directly to the consumer without the use of an intermediary. Distributor Sales include all sales through a third party where prices are given at a wholesale rate.

The two segments reflect how the Company's operations are evaluated by senior management and the structure of its internal financial reporting. The Company evaluates performance based on the gross profit of the respective business segments. Selling expenses that can be directly attributable to the segment, including depreciation of segment specific assets, are included, however, centralized selling expenses and general and administrative expenses are not allocated between operating segments. Therefore, net income information for the respective segments is not available. Discrete financial information related to segment assets, other than segment specific depreciation associated with selling, is not available and that information continues to be aggregated.

The following table outlines the sales, cost of sales, gross margin, directly attributable selling expenses, and contribution margin of the segments for the six month periods ending June 30, 2014 and 2013. Sales figures are net of related excise taxes.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Form 10-Q contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve risks and uncertainties that are based on current expectations, estimates and projections about the Company's business, and beliefs and assumptions made by management. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" and variations of such words and expressions are intended to identify such forward-looking statements. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors, including, but not limited to: availability of financing for growth, availability of adequate supply of high quality grapes, successful performance of internal operations, impact of competition, changes in wine broker or distributor relations or performance, impact of possible adverse weather conditions, impact of reduction in grape quality or supply due to disease, impact of governmental regulatory decisions, and other risks disclosed from time to time in the Company's Securities and Exchange Commission filings and reports. In addition, such statements could be affected by general industry and market conditions and growth rates, and general domestic economic conditions. The forward-looking statements are made as of the date hereof, and, except as otherwise required by law, the Company disclaim any intention or obligation to update or revise any forward-looking statements or to update the reasons why the actual results could differ materially from those projected in the forward-looking statements, whether as a result of new information, future events or otherwise.

Critical Accounting Policies

The foregoing discussion and analysis of the Company's financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company's management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to revenue recognition, collection of accounts receivable, valuation of inventories, and amortization of vineyard development costs. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. A description of the Company's critical accounting policies and related judgments and estimates that affect the preparation of the Company's financial statements is set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. Such policies were unchanged during the six months ended June 30, 2014.

Overview

The Company generates revenues from the sales of wine to wholesalers and direct to consumers. Direct to consumer sales primarily include sales through the Company's Tasting Rooms and Wine Club. Direct to consumer sales are more profitable to the Company due to prices received being closer to retail than those prices paid by wholesalers. The Company continues to emphasize growth in direct to consumer sales through the Hospitality Center remodel and expansion and growth in wine club membership. Wine Club membership increased by approximately 439 net new members, or 9.5%, for the six months ending June 30, 2014. Periodically, the Company will sell grapes or bulk wine, due to them not meeting Company standards or being excess to production targets, however this activity

is not a significant part of the Company's activities or part of the long term business plan.

The Company sold approximately 47,551 and 52,507 cases of produced wine during the six months ended June 30, 2014 and 2013, respectively, a decrease of 4,956 cases, or 9.4% in the current year period over the prior year period. The decrease in wine sales was primarily the result of reduced sales to distributors. Management believes that the decrease in sales was due to sales made to several large chain retailers in 2013 that were not repeated in 2014.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (CONTINUED)

Cases sold in 2014 include approximately 70 cases of unfulfilled "futures", where a customer prepays for a wine not yet released. Proceeds from these sales are not recognized as revenue until shipped and are reflected as unearned revenue. Selling expenses for these sales are recognized in the period in which the expense is incurred.

Cost of sales includes grape costs, whether purchased or grown at Company vineyards, crush costs, winemaking and processing costs, bottling, packaging, warehousing and shipping and handling costs. For grapes grown at Company vineyards, costs include farming expenditures and amortization of vineyard development costs.

At June 30, 2014, wine inventory includes approximately 103,000 cases of bottled wine and 89,000 gallons of bulk wine in various stages of the aging process. Case wine is expected to be sold over the next 12 to 24 months and generally before the release date of the next vintage. The winery bottled approximately 86,000 cases during the six months ended June 30, 2014.

Net income for the three months ended June 30, 2014 and 2013 was \$546,535 and \$521,125, respectively, an increase of \$25,410, or 4.9%, in the current year period over the prior year period. Net income for the six months ended June 30, 2014 and 2013 was \$721,450 and \$817,718, respectively, a decrease of \$96,268, or 11.8%, in the current year period over the prior year period. Overall gross profit for the three months ended June 30, 2014 and 2013 was \$2,240,764 and \$2,143,894, respectively, an increase of \$96,870, or 4.5%, in the current year period over the prior year period. Gross profit for the six months ended June 30, 2014 and 2013 was \$3,962,753 and \$3,900,556, respectively, an increase of \$62,197, or 1.6%, in the current year period over the prior year period. Gross profit percent for the three months ended June 30, 2014 and 2013 was 60.7% and 59.4%, an increase of 1.3 percentage points, in the current year period over the prior year period. Gross profit percent for the six months ended June 30, 2014 and 2013 was 59.5% and 58.6%, an increase of .9 percentage points, in the current year period over the prior year period.

The Company generated \$0.11 and \$0.11 in basic earnings per share during the three months ended June 30, 2014 and 2013, respectively. The Company generated \$0.15 and \$0.17 in basic earnings per share during the six months ended June 30, 2014 and 2013, respectively.

Willamette Valley Vineyards continues to receive positive recognition through national magazines, local publications, newspapers and awards.

RESULTS OF OPERATIONS

Revenue

Sales for the three months ended June 30, 2014 and 2013 were \$3,693,412 and \$3,609,259, respectively, an increase of \$84,153, or 2.3%, in the current year period over the prior year period. This is caused by an increase in direct sales of \$456,228, partially offset by a decrease in sales through distributors of \$372,075, in the current year three month period over the prior year period. Sales for the six months ended June 30, 2014 and 2013 were \$6,665,291 and \$6,650,818, respectively, an increase of \$14,473, or 0.2%, in the current year period over the prior year period. This is caused by an increase in direct sales of \$586,621, partially offset by a decrease in sales through distributors of \$572,148, in the current year six month period over the prior year period. The increase in direct sales to consumers is primarily the result of increased wine club sales and increased kitchen and hospitality sales associated with the remodeled Hospitality Center. Management believes that the decrease in sales through distributors was due to sales made to several large chain retailers in 2013 that were not repeated in 2014.

Cost of Sales

Cost of Sales for the three months ended June 30, 2014 and 2013 were \$1,452,648 and \$1,465,365, respectively, a decrease of \$12,717, or 0.9%, in the current period over the prior year period. Cost of Sales for the six months ended June 30, 2014 and 2013 were \$2,702,538 and \$2,750,262, respectively, a decrease of \$47,724, or 1.7%, in the current period over the prior year period. This change was primarily the result of a shift to more direct sales to consumers which have a higher profit margin.

Gross Profit

Gross profit for the three months ended June 30, 2014 and 2013 was \$2,240,764 and \$2,143,894, respectively, an increase of \$96,870, or 4.5%, in the current year period over the prior year period. Gross profit for the six months ended June 30, 2014 and 2013 was \$3,962,753 and \$3,900,556, respectively, an increase of \$62,197, or 1.6%, in the current year period over the prior year period. This increase is primarily the result of a shift to more direct sales to consumers which have a higher profit margin.

Gross profit margin for the three months ended June 30, 2014 and 2013 was 60.7% and 59.4%, respectively, an increase of 1.3 percentage points, in the current year period over the prior year period. Gross profit margin for the six months ended June 30, 2014 and 2013 was 59.5% and 58.6%, respectively, an increase of 0.9 percentage points, in the current year period over the prior year period. The change in gross profit margin is largely the result of differences in the ratio of direct sales to consumers and sales through distributors.

Selling, General and Administrative Expense

Selling, general and administrative expense for the three months ended June 30, 2014 and 2013 was \$1,481,194 and \$1,258,697, respectively, an increase of \$222,497, or 17.7%, in the current year period over the prior year period. Selling, general and administrative expense for the six months ended June 30, 2014 and 2013 was \$2,954,448 and \$2,526,655, respectively, an increase of \$427,793, or 16.9%, in the current year period over the prior year period. This increase is primarily the result of increased operating and selling expenses, including staffing, associated with an increased focus on retail sales and the start-up expenses associated with opening the newly remodeled Hospitality Center.

Interest Expense

Interest expense for the three months ended June 30, 2014 and 2013 was \$61,476 and \$63,866, respectively, a decrease of \$2,390 or 3.7%, in the current year period over the prior year period. Interest expense for the six months ended June 30, 2014 and 2013 was \$127,472 and \$123,208, respectively, an increase of \$4,264, or 3.5%, in the current year period over the prior year period. The changes in interest expense were primarily the result of increased debt associated with the remodel and expansion of the Hospitality Center and barrel cellar, net of interest capitalized into construction in process, and use of the line of credit in the current year that did not occur in the prior year.

The other income increase, in the three month period, is primarily the result of a net of cost and deductible insurance claim settlement of \$154,722 resulting from a spillage of wine during production. Other income for the six months ended June 30, 2014 and 2013 was \$289,911 and \$103,930, respectively, an increase of \$185,981, or 178.9%, in the current year period over the prior year period. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - (CONTINUED)

The Company has an asset-based loan agreement (the "line of credit") with Umpqua Bank that allows it to borrow up to \$2,000,000. The maturity date on this loan agreement was July 2014. The Company renewed this agreement, in July of 2014, for an additional two years. The index rate of prime plus zero, with a floor of 3.25%, at June 30, 2014 is 3.25%. The loan agreement contains certain restrictive financial covenants with respect to total equity, debt-to-equity and debt coverage that must be maintained by the Company on a quarterly basis. As of June 30, 2014, the Company was in compliance with all of the financial covenants.

At June 30, 2014 and December 31, 2013 the Company had no balance outstanding on the line of credit. At June 30, 2014, the Company had \$2,000,000 available on the line of credit.

The Company believes that cash flow from operations and funds available under the Company's existing credit facilities will be sufficient to meet the Company's foreseeable short and long-term needs.

Hospitality Center

In December 2012, the Board of Directors approved a significant remodel and expansion of the Winery's Hospitality Center. The Board approved a total project cost of up to \$4.5 million, to be financed with \$2,000,000 of new borrowings from NW Farm Credit Services, with the balance of the costs funded by using existing cash reserves. In November 2013 the Board approved additional costs, in excess of the original budget, to be funded by using cash reserves. Features of the remodeled and expanded facility include additional barrel storage capacity, a club-members tasting room, a larger general public tasting area, enhanced kitchen services, new spaces for hosting smaller parties, overnight lodging, expanded deck seating to capitalize on views from the winery, and a new lawn terrace for outdoor events. Management believes that these enhancements will be critical in supporting the future growth of direct-to-consumer sales of Company wines and hospitality shown to wine writers, distributors and large buyers. Construction began in February 2013 and was completed on June 1, 2014.
