Edgar Filing: FORT DEARBORN INCOME SECURITIES INC - Form N-CSR

DEAR SHAREHOLDER,

We present you with the annual report for Fort Dearborn Income Securities, Inc. (the "Fund") for the fiscal year ended September 30, 2005.

PERFORMANCE

Over the one-year period, the Fund's net asset value return was 4.17%. On a market price basis, the Fund's return was 5.68%. Over the same period, the Fund's peer group, the Lipper Corporate Debt Funds BBB-Rated median, posted a net asset value return of 4.40% and a market price return of 5.71%. Finally, the Investment Grade Bond Index (the "Index"), the Fund's benchmark, generated a return of 4.67%. (For more performance information, please refer to "Performance At A Glance" on page 4.) Over the period, the Fund did not use leverage. Leverage magnifies returns on both the upside and on the downside, creating a wider range of returns within the Fund's peer group.

AN INTERVIEW WITH PORTFOLIO MANAGER CRAIG ELLINGER

Q. HOW WOULD YOU DESCRIBE THE ECONOMIC ENVIRONMENT DURING THE REPORTING PERIOD?

A. The US economy faced a number of challenges during the reporting period, including record high energy prices, natural disasters, rising interest rates, a mixed job market, uncertainty surrounding the US presidential election and geopolitical events. Despite these issues, the economy proved to be surprisingly resilient, with three consecutive quarters of 3%-4% gross domestic product (GDP) growth.

Q. HOW DID THE FED REACT TO THESE ECONOMIC CONDITIONS?

A. Given the strength of the economy, the Federal Reserve Board (the "Fed") continued to raise rates in 0.25% increments eight times over the fiscal year, bringing the fed funds rate to 3.75%. Throughout this tightening campaign that began in June 2004, the Fed has made it clear that it expects

Edgar Filing: FORT DEARBORN INCOME SECURITIES INC - Form N-CSR

to continue to raise rates at a "measured" pace to keep inflation under control, and toward the end of the period, seemed to become increasingly concerned about inflation. Accordingly, the Fed raised rates another 0.25% to 4.0% on November 1, after the close of the Fund's fiscal year.

Q. HOW DID THE OVERALL FIXED INCOME MARKETS PERFORM DURING THE REPORTING PERIOD?

A. In our opinion, the US bond market remained a web of contradictions. Its reaction to a number of events was more a function of external factors and investor sentiment than economic and financial fundamentals. Short-term interest rates rose in conjunction with the Fed's ongoing rate hikes, but longer-term yields marched to a different drummer, as they remained surprisingly stable over the same period. This trend finally prompted Fed Chairman Alan Greenspan to state in February that it was a "conundrum" to him why short-term interest rates were rising while longer-term rates were falling. The yield on the 10-year Treasury approached 4.4% in mid-July, but that spike was short-lived, and the market continued to be more resilient than most would have thought. Looking at longer-term bonds over the entire fiscal year, 10-year Treasury yields rose very little, moving from 4.12% to 4.32%. However, the yield on the so-called 30-year, or long, bond declined from 4.89% to 4.57%.

Q. HOW DID YOU MANAGE THE FUND'S PORTFOLIO DURING THE PERIOD?

A. We kept the Fund defensive with respect to interest rate risk during the period, particularly at the long end of the yield curve. Given longer-term bonds' seemingly stubborn refusal to move in line with Fed hikes, this short duration positioning hindered Fund performance for much of the reporting period. We were similarly defensive with the Fund's exposure to government and agency securities, mortgage-backed securities and corporate bonds, because tight spreads (the difference in yield between Treasuries and a given bond) made it difficult to find attractive opportunities that warranted the risk these securities present over Treasuries. Therefore, we favored asset-backed securities, which offered similar yields to corporate bonds, but at lower volatility. This position helped the Fund's performance during the reporting period, as did the defensive strategy in relation to corporate bonds. Finally, security selection, meaning the individual bonds we selected for the portfolio, helped this year's performance.

NOTES TO FINANCIAL STATEMENTS

ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Fort Dearborn Income Securities, Inc. ("the Fund") is registered under the Investment Company Act of 1940, as amended, as a diversified closed-end management investment company whose shares trade on the New York Stock Exchange ("NYSE") and the Chicago Stock Exchange ("CHX"). The Fund invests principally in investment grade long-term fixed income debt securities. The Fund's primary objective is to provide shareholders with a stable stream of current income consistent with external interest rate conditions and provide a total return over time that is above what they could receive by investing individually in the investment grade and long-term maturity sectors of the bond market. There can be no assurance that the Fund's investment objective will be achieved.

In the normal course of business the Fund may enter into contracts that contain a variety of representations or that provide general indemnification for certain liabilities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires the Fund's management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies:

VALUATION OF INVESTMENTS--The Fund calculates its net asset value based on the current market value, where available, for its portfolio securities. The Fund normally obtains market values for its securities from independent pricing sources and broker-dealers. Independent pricing sources may use reported last sale prices, current market quotations or valuations from computerized "matrix" systems that derive values based on comparable securities. A matrix system incorporates parameters such as security quality, maturity and coupon, and/or research and evaluations by its staff, including review of broker-dealer market price quotations, if available, in determining the valuation of the portfolio securities. Securities traded in the over-the-counter ("OTC") market and listed on The Nasdaq Stock Market, Inc. ("NASDAQ") normally are valued at the NASDAQ Official Closing Price. Other OTC securities are valued at the last bid price on the valuation date available prior to valuation. Securities which are listed on U.S. and foreign stock exchanges normally are valued at the last sale price on the day the securities are valued or, lacking any sales on such day, at the last available bid price. In cases where securities are traded on more than one exchange, the securities are valued on the exchange designated as the primary market by UBS Global Asset Management (Americas) Inc. ("UBS Global AM" or the "Advisor"), the investment advisor of the Fund. UBS Global AM is an indirect wholly owned asset management subsidiary of UBS AG,

FORT DEARBORN INCOME SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

an internationally diversified organization with headquarters in Zurich, Switzerland and operations in many areas of the financial services industry. If a market value is not available from an independent pricing source for a particular security, that security is valued at fair value as determined in good faith by or under the direction of the Fund's Board of Directors (the "Board"). The amortized cost method of valuation, which approximates market value, generally is used to value short-term debt instruments with sixty days or less remaining to maturity, unless the Board determines that this does not represent fair value.

MORTGAGE-BACKED SECURITIES AND OTHER INVESTMENTS--The Fund invests in Mortgage-Backed Securities (MBS), representing interests in pools of mortgage loans. These securities provide shareholders with payments consisting of both principal and interest as the mortgages in the underlying mortgage pools are paid. MBS issued by private entities are not government securities and are not directly guaranteed by any government agency. They are secured by the underlying collateral of the private issuer. Yields on privately issued MBS tend to be higher than those of government backed issues. However, risk of loss due to default and sensitivity to interest rate fluctuations is also higher.

The Fund invests in Collateralized Mortgage Obligations (CMOs). A CMO is a bond, which is collateralized by a pool of MBS. The Fund may also invest in REMICs (Real Estate Mortgage Investment Conduits) and REITs (Real Estate Investment Trusts) which are simply another form of CMOs. These MBS pools are divided into classes or tranches with each class having its own characteristics. The different classes are retired in sequence as the underlying mortgages are repaid. For instance, a Planned Amortization Class (PAC) is a specific class of mortgages, which over its life will generally have the most stable cash flows and the lowest prepayment risk. A Graduated Payment Mortgage (GPM) is a negative amortization mortgage where the payment amount gradually increases over the life of the mortgage. The early payment amounts are not sufficient to cover the interest due, and therefore, the unpaid interest is added to the principal, thus increasing the borrower's mortgage balance. Prepayment may shorten the stated maturity of the CMO and can result in a loss of premium, if any has been paid.

The Fund invests in Asset-Backed Securities, representing interests in pools of certain types of underlying installment loans or leases or by revolving lines of credit. They often include credit enhancement that help limit investors exposure to the underlying credit. These securities are valued on the basis of timing and certainty of cash flows compared to investments with similar durations.

INFLATION PROTECTED SECURITIES--Inflation protected securities are debt securities whose principal and/or interest payments are adjusted for inflation, unlike debt securities that make fixed principal and interest payments. Inflation-protected securities include Treasury Inflation Protected Securities ("TIPS"), which are securities issued by the U.S. Treasury. The interest rate paid by TIPS is fixed, while the principal

19

FORT DEARBORN INCOME SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

value rises or falls based on changes in a published Consumer Price Index ("CPI"). Thus, if inflation occurs, the principal and interest payments on the TIPS are adjusted accordingly to protect investors from inflationary loss. During a deflationary period, the principal and interest payments decrease,

Edgar Filing: FORT DEARBORN INCOME SECURITIES INC - Form N-CSR

although the TIPS' principal amounts will not drop below their face amounts at maturity. In exchange for the inflation protection, TIPS generally pay lower interest rates than typical U.S. Treasury securities. Only if inflation occurs will TIPS offer a higher real yield than a conventional Treasury bond of the same maturity.

INVESTMENT TRANSACTIONS AND INVESTMENT INCOME--Investment transactions are recorded on the trade date. Realized gains and losses from investment and foreign exchange transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

DIVIDENDS AND DISTRIBUTIONS--Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends from net investment income and distributions from net realized capital gains and/or return of capital is determined in accordance with U.S. federal income tax regulations, which may differ from U.S. generally accepted accounting principles. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

CONCENTRATION OF RISK--The ability of the issuers of the debt securities held by the Fund to meet their obligations may be affected by economic developments, including those particular to a specific industry or region.

CAPITAL STOCK

At September 30, 2005, there were 12,000,000 shares of \$0.01 par value capital stock authorized, and 8,775,665 shares issued and outstanding. During the year ended September 30, 2005, no new shares were issued as part of the Dividend Reinvestment Plan.

INVESTMENT ADVISORY FEES AND OTHER TRANSACTIONS WITH AFFILIATES

Under an agreement between the Fund and UBS Global AM, UBS Global AM manages the Fund's investment portfolio, maintains its accounts and records, and furnishes the services of individuals to perform executive functions for the Fund. In return for these services, the Fund pays UBS Global AM 0.50% per annum of the Fund's average weekly net assets up to \$100,000,000 and 0.40% per annum of average weekly net assets in excess of \$100,000,000. At September 30, 2005, the Fund owed UBS Global AM \$169,883 in investment advisory fees.

20

FORT DEARBORN INCOME SECURITIES, INC.

Supplementary Trust is offered as a cash management option only to mutual funds and other accounts managed by the Advisor.

The Fund pays no management fees to Supplementary Trust. Distributions from the Supplementary Trust are reflected as interest income on the statement of operations. Amounts relating to those investments at September 30, 2005 and for the period ended are summarized as follows:

Edgar Filing: FORT DEARBORN INCOME SECURITIES INC - Form N-CSR

FUND	PURCHASES	SALES PROCEEDS	INTEREST INCOME	VALUE	% OF NET ASSETS

PURCHASES AND SALES OF SECURITIES

Purchases and sales (including maturities) of portfolio securities during the year ended September 30, 2005, were as follows: debt securities, excluding short-term securities and U.S. government debt obligations, \$45,866,523 and \$48,189,577, respectively; and U.S. government debt obligations, \$65,271,751 and \$64,081,278, respectively.

FEDERAL TAX STATUS

The Fund intends to distribute substantially all of its taxable income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid during the fiscal years ended September 30, 2005 and 2004 were as follows:

DISTRIBUTIONS PAID FROM:	2005	2004
Ordinary income	\$7,210,549	\$7,020,532

At September 30, 2005, the components of accumulated earnings on a tax basis were as follows:

Net unrealized appreciation of investments	5,830,714
Total accumulated earnings	\$7,350,509

FORT DEARBORN INCOME SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

The difference between book-basis and tax-basis net unrealized appreciation of investments is attributable to the tax deferral of losses on wash sales.

During the current fiscal year, the Fund had no capital loss carry-forwards to offset current year gains.

For federal income tax purposes, the cost of securities owned at September 30, 2005, was \$136,062,510.

At September 30, 2005, the components of net unrealized appreciation of investments were as follows:

Gross appreciation (investments having an excess of value over cost)	\$7,099,731

Gross depreciation (investments having an excess of value over cost)	(1,269,017)

Net unrealized appreciation of investments	\$5,830,714
=====	

To reflect reclassifications arising from permanent "book/tax" differences for the year ended September 30, 2005, accumulated undistributed net investment income was increased by \$200,558 and accumulated net realized gain from investment activities was decreased by \$200,558. These differences are primarily due to paydown losses.

the time of purchase is lower than the net asset value as of the close of business on the eighth trading day prior to such date of payment ("Base Net Asset Value"), the agent (the "Agent"), on behalf of the Participants, will purchase shares in the open market(s) available to it. There can be no assurance that shares will be available in such open market(s) at a cost lower than Base Net Asset Value or in sufficient quantities to permit such purchases by the Agent. These purchases may be made on any securities exchange where such shares are traded, in the over-the-counter market or by negotiated transactions and may be subject to such terms of price, delivery, etc., to which the Agent may agree. If the market price for the shares is greater than the net asset value as of the close of business on the eighth trading day prior to the date of payment, then the Fund will issue shares in payment of the dividend.

On the date of payment of such dividend or other distribution, the Agent will elect to have the Fund pay to it the dividend or other distribution in cash to the extent of the cost, including brokerage commission, of the shares to be purchased by the Agent, and will elect to have the Fund pay the balance, if any, of the dividend or other distribution in shares. Such payments will be made by the Fund to EquiServe Trust Company, N.A. ("EquiServe") as administrator of the Plan for the Participants. EquiServe, in turn, will settle the open market purchases with the Agent. If shares are distributed in payment of a dividend or distribution because market price exceeded net asset value, a Participant will be required to include in gross income an amount equal to the greater of net asset value or 95% of fair market value

(average of the high and low sales price on the date of the distribution) of the shares received by the Participant rather than the amount of such dividend. Distributions of shares will be subject to the right of the Fund to take such actions as may be deemed necessary in order to comply with or conform to the requirements of any applicable law or regulation.

The shares credited to the accounts of Participants at EquiServe will be determined on the basis of the amount of dividend or distribution to which each Participant is entitled, whether shares are purchased on the open market or issued by the Fund. Each Participant will be furnished with periodic statements.

A Participant will have the right to vote the full shares credited to the Participant's account under the Plan on the record date for a vote. Proxies sent to a Participant by EquiServe will include the number of full shares held for the Participant under the Plan.

The investment of dividends and distributions under the Plan does not relieve the Participant of any income tax which may be payable on such dividends or distributions. Annually, each participant will be provided with information for tax purposes with respect to the dividends and distributions on the shares held for the account of the Participant. The Fund strongly recommends that all Participants retain each year's final statement on their Plan participation as a part of their permanent tax record.

Shareholders who wish to elect to participate in the Plan should contact EquiServe for further information. A Participant may terminate participation in the Plan at any time by notice in writing to EquiServe. All correspondence concerning the Plan should be directed to EquiServe at EquiServe Dividend Reinvestment Services, P.O. Box 43081, Providence, RI 02940-3081. You may also

contact EquiServe directly at 1-800-446-2617. In order to be effective on the payment date of any dividend or distribution, notice of such termination must be received by EquiServe before the record date for the payment of such dividend or distribution. If a notice to discontinue is received by EquiServe on or after the record date for a dividend payment, such notice to discontinue may not become effective until such dividend has been reinvested and the shares purchased are credited to the Participant's account under the Plan. EquiServe, in its sole discretion, may either pay such dividend in cash or reinvest it in shares on behalf of the terminating Participant. EquiServe may terminate, for whatever reason at any time as it may determine in its sole discretion, an individual's participation in the Plan upon mailing a notice of termination to the Participant at the Participant's address as it appears on EquiServe's records.

When an account is terminated, the Participant will receive a certificate for the number of full shares credited to the Participant's account under the Plan, unless the sale of all or part of such shares is requested. Such sale may, but need not,

be made by purchase of the shares for the account of other Participants and any such transaction shall be deemed to have been made at the then current market price less any applicable brokerage commissions and any other costs of sale. The terminating Participant's fractional share interest in the Plan will be aggregated with the fractional share interests of another terminating Participants and sold. The net proceeds of such sales will be distributed to the Participants in payment for their fractional share interests.

The Fund may terminate or amend the Plan upon thirty (30) days' notice in writing to each Participant, such termination or amendment to be effective as to all dividends and distributions payable to shareholders of record on any date more than thirty (30) days after mailing of such notice.

There is no direct service charge (other than brokerage commissions) by the Agent to Participants in the Plan. All costs of the Plan, except brokerage commissions, will be paid by the Fund. However, the Fund reserves the right to amend the Plan in the future to include a service charge.

BOARD APPROVAL OF INVESTMENT ADVISORY AGREEMENT

At the meeting of the Board of Directors (the "Board") of Fort Dearborn Income Securities, Inc. (the "Fund"), held on May 26, 2005 (the "Meeting"), the Board, consisting entirely of Directors who are not "interested persons" (as defined in the 1940 Act) of the Fund or UBS Global Asset Management (Americas) Inc. (the "Advisor") and its affiliates (together, the "Independent Directors"), considered the continuation of the investment advisory agreement (the "Advisory Agreement") between the Fund and the Advisor. Prior to the Meeting, the

Edgar Filing: FORT DEARBORN INCOME SECURITIES INC - Form N-CSR

Independent Directors' counsel had sent to the Advisor a request detailing the information that the Independent Directors wished to receive in connection with their consideration of the continuation of the Advisory Agreement. The Independent Directors met with their independent counsel on May 25, 2005 to discuss the materials provided to them in response to the information request, including materials prepared by the Advisor, as well as reports prepared by Lipper Analytical Services, Inc. ("Lipper Reports"), an independent statistical compilation company, providing comparative expense information and comparative performance for the Fund. The Board also made reference to information and material that had been provided to the Independent Directors throughout the year at quarterly Board meetings and other issues related to the continuation of the Advisory Agreement.

At the Meeting, the Board considered a number of factors in connection with their deliberations concerning the continuation of the Advisory Agreement for the Fund, including: (i) the nature, extent and quality of the services provided by the Advisor to the Fund; (ii) the performance of the Fund and the Advisor; (iii) the Fund's expenses, costs of the services to be provided and profits to be realized by the Advisor and its affiliates from the relationship with the Fund; and (iv) whether economies of scale are realized by the Advisor with respect to the Fund, as it grows larger, and the extent to which the economies of scale are reflected in the level of the advisory fees charged.

NATURE, EXTENT AND QUALITY OF SERVICES In considering the nature, extent and quality of the services provided by the Advisor to the Fund, the Board reviewed the material presented by the Advisor describing the various services provided to the Fund. The Board noted that in addition to investment management services, the Advisor provides the Fund with operational, legal and compliance support. The Board also considered the scope and depth of the Advisor's organization and the experience and expertise of the professionals currently providing investment management and other services to the Fund. The Board considered that the Advisor was a well-established investment management organization employing investment personnel with significant experience in the investment management industry. The Board also considered the Advisor's in-house research capabilities, as well as other research services available to it, including research services available to the Advisor as a result of securities transactions effected for the Fund and

29

FORT DEARBORN INCOME SECURITIES, INC.

GENERAL INFORMATION (UNAUDITED)

the Advisor's other investment management clients. The Board also evaluated the Advisor's portfolio management process and reviewed the information concerning the process that had been provided by the Advisor in advance of the Meeting. The Board noted that various presentations had been made by investment personnel at Board meetings throughout the year concerning the Fund's investment performance and investment strategies.

The Board also discussed the compliance program for the Advisor and its affiliates, including the Advisor's compliance with its code of ethics, trade allocation procedures and best execution procedures. After analyzing the services provided by the Advisor to the Fund, both quantitatively and qualitatively, including the impact of these services on investment performance, the Board concluded that the nature, extent and quality of services provided to the Fund were consistent with the operational requirements of the Fund, and met the needs of the Fund's shareholders.

PERFORMANCE In evaluating the performance of the Fund, the Board analyzed the

Edgar Filing: FORT DEARBORN INCOME SECURITIES INC - Form N-CSR

Lipper Reports, which compared the performance of the Fund with other funds in its respective peer universe over various time periods. In reviewing the Lipper Reports, the Board noted that the Fund's short-term performance had not been as good as some of the other funds in its peer group. The Advisor explained that the Fund's allocation of assets to lower-rated securities had not been as high as other funds in its peer group. The Advisor stated that it does not invest as high a percentage of the Fund's portfolio in lower-rated securities as other funds because these investments are more volatile than other fixed income investments and the Advisor seeks to provide the Fund with stability of income while managing risk. After analyzing the performance for the Fund, the Board determined that the performance of the Fund was acceptable as compared with relevant performance standards, given the investment strategies and risk profile of the Fund and the expectations of the shareholder base.

COSTS AND EXPENSES When considering the fees and expenses borne by the Fund, and the reasonableness of the advisory fees paid to the Advisor in light of the services provided to the Fund, the Board compared the fees charged by the Advisor to the Fund to the fees charged to the funds in its peer group for comparable services, as provided in the Lipper Reports. In examining the Lipper Reports, and in reviewing comparative costs, it was noted that the results of such expense comparisons showed that the advisory fee rate and total expenses for the Fund were comparable to the funds in its Lipper expense group.

The Board also received and considered information about the fee rates charged to other funds and accounts that are managed by the Advisor. After discussing the information about the other funds and accounts with the Advisor, the Board determined that the fees charged by the Advisor to the Fund were within a reasonable range, giving effect to differences in services performed for such

30

FORT DEARBORN INCOME SECURITIES, INC.

GENERAL INFORMATION (UNAUDITED)

other funds and accounts as compared to such fee rates. The Board, after reviewing all pertinent material, concluded that the advisory fee payable under the Fund's Advisory Agreement was fair and reasonable, both on an absolute basis and in comparison with the fees of other funds identified in its peer group.

PROFITABILITY The Board considered the profitability of the Fund to the Advisor by reviewing the profitability analysis provided by the Advisor, including information about its fee revenues and income. The Board reviewed the profitability of the Fund to the Advisor, and the compensation that was received for providing services to the Fund. The profitability analysis, which provided information for the last two calendar years, included schedules relating to the revenue and expenses attributable to the investment advisory and administration services provided by the Advisor. The Board paid specific attention to the cost allocation methodology used in the profitability analysis and determined that the methodology used was reasonable. The Board also considered "fall-out" or ancillary benefits to the Advisor or its affiliates as the result of their relationship with the Fund; for example, the ability to attract other clients due to the Advisor's role as investment advisor to the Fund. Upon closely examining the information provided concerning the Advisor's profitability, the Board noted that while the information showed that the Advisor was not experiencing a profit in managing the Fund at this time, based on management's presentation and other information, the Fund was a valuable contributor to the Advisor's overhead.

ECONOMIES OF SCALE The Board also discussed whether economies of scale are

Edgar Filing: FORT DEARBORN INCOME SECURITIES INC - Form N-CSR

realized by the Advisor with respect to the Fund as it grows larger, and the extent to which this is reflected in the level of advisory fees charged. The Board noted that the Fund's advisory fee was one of the lowest in its peer group and that the Advisor was not experiencing a profit with respect to the Fund. Based on this analysis, the Board concluded that economies of scale and the reflection of such economies of scale in the level of advisory fees charged were inapplicable to the Fund at the present time due to the current level of fees and the profitability of the Fund and because as a closed-end fund that does not continuously offer shares, any increase in the Fund's assets will primarily result from market appreciation which will benefit the Fund's shareholders.

CONCLUSIONS After full consideration of the factors discussed above, with no single factor identified as being of paramount importance, the Board, with the assistance of independent counsel, concluded that the continuation of the Advisory Agreement for the Fund was in the best interests of the Fund and its shareholders.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Form N-CSR disclosure requirements not yet effective with respect to the registrant.

ITEM 6. SCHEDULE OF INVESTMENTS

Included as part of the report to shareholders filed under Item 1 of this form.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The registrant's Board of Directors believes that the voting of proxies on securities held by the registrant is an important element of the overall investment process. As such, the Board has delegated the responsibility to vote such proxies to the registrant's advisor. Following is a summary of the proxy voting policy of the advisor.

CORPORATE GOVERNANCE PHILOSOPHY, VOTING GUIDELINES AND POLICY SUMMARY

The proxy voting policy of UBS Global AM is based on its belief that voting rights have economic value and must be treated accordingly. Generally, UBS Global AM expects the boards of directors of companies issuing securities held by its clients to act as stewards of the financial assets of the company, to exercise good judgment and practice diligent oversight with the management of the company. While there is no absolute set of rules that determines appropriate corporate governance under all circumstances and no set of rules will guarantee ethical behavior, there are certain benchmarks, which, if substantial progress is made toward, give evidence of good corporate governance. UBS Global AM may delegate to an independent proxy voting and research service the authority to exercise the voting rights associated with certain client holdings. Any such delegation shall be made with the direction that the votes be exercised in accordance with UBS Global AM's proxy voting policy.

When UBS Global AM's view of a company's management is favorable, UBS Global AM generally supports current management initiatives. When UBS Global AM's view is that changes to the management structure would probably increase shareholder value, UBS Global AM may not support existing management proposals. In general, UBS Global AM (1) opposes proposals which act to entrench management; (2) believes that boards should be independent of company management and composed of persons with requisite skills, knowledge and experience; (3) opposes structures which impose financial constraints on changes in control; (4) believes remuneration should be commensurate with responsibilities and performance; and (5) believes that appropriate steps should be taken to ensure the independence of auditors.

UBS Global AM has implemented procedures designed to identify whether it has a conflict of interest in voting a particular proxy proposal, which may arise as a

Edgar Filing: FORT DEARBORN INCOME SECURITIES INC - Form N-CSR

result of its or its affiliates' client relationships, marketing efforts or banking and broker/dealer activities. To address such conflicts, UBS Global AM has imposed information barriers between it and its affiliates who conduct banking, investment banking and broker/dealer activities and has implemented procedures to prevent business, sales and marketing issues from influencing our proxy votes. Whenever UBS Global AM is aware of a conflict with respect to a particular proxy, its appropriate local corporate governance committee is required to review and agree to the manner in which such proxy is voted.
