### **Item 1.01. Entry into a Material Definitive Agreement**

On November 17, 2016, Ocean Bio-Chem, Inc. (the “Company”) and Regions Bank entered into a Business Loan Agreement (the “Business Loan Agreement”), under which the Company was provided a revolving line of credit. Under the Business Loan Agreement, the Company may borrow up to the lesser of (i) \$4 million or (ii) a borrowing base equal to 85% of Eligible Accounts (as defined in the Business Loan Agreement) plus 50% of Eligible Inventory (as defined in the Business Loan Agreement). Interest on amounts borrowed under the revolving line of credit is payable monthly at the 30 day LIBOR rate plus 1.5% per annum, computed on a 365/360 basis.

Outstanding amounts under the revolving line of credit are payable on demand. If no demand is made, the Company may repay and reborrow funds from time to time until expiration of the revolving line of credit, at which time all outstanding principal and interest will be due and payable. The revolving line of credit expires on August 31, 2017. The Company’s obligations under the revolving line of credit are secured by, among other things, the Company’s accounts receivable and inventory, and, as a result of cross-collateralization of the Company’s obligations under a term loan provided by a subsidiary of Regions Bank to the Company in 2011 and the Company’s obligations under the revolving line of credit, real property and equipment of the Company’s subsidiary, Kinpak, Inc. located at Kinpak Inc.’s Montgomery, Alabama facility. The Company has not yet effected any borrowings under the revolving line of credit.

The Business Loan Agreement includes financial covenants requiring that the Company maintain a minimum debt service coverage ratio (generally, EBITDAR (net operating profit plus depreciation, amortization and rent/lease expense) divided by the sum of current maturities of long-term debt, interest and lease/rent expense) of 1.75 to 1.00, tested quarterly and calculated on a trailing twelve month basis, and a maximum debt to capitalization ratio (generally, funded debt divided by the sum of net worth and funded debt) of 0.75 to 1, tested quarterly. The revolving line of credit is subject to several events of default, including a decline in the majority shareholder’s ownership below 50% of all outstanding shares.

Regions Bank previously provided a revolving line of credit to the Company, in the maximum amount of \$6 million; that facility expired on October 31, 2016.
