| to the Product Prospectus Supplement No. 1 dated August 1, 2014 | Callable Fixed Rate Notes Due March 16, 2022 The Toronto-Dominion Bank |
| and Prospectus Dated July 28, 2014 | |

The Toronto-Dominion Bank ("TD" or "we") is offering the Callable Fixed Rate Notes due March 16, 2022 (the "Notes") described below.

CUSIP / ISIN: 89114QSL3 / US89114QSL31

The Notes will accrue interest at a fixed rate of % per annum.

TD will pay interest on the Notes semi-annually on the 16th day of each March and September of each year (each an "Interest Payment Date"), commencing on September 16, 2015.

TD may, at its option, elect to redeem the Notes in whole, but not in part, on the Optional Call Date, upon five Business Days' prior written notice, commencing on March 16, 2017.

Any payments on the Notes are subject to the credit risk of TD. The Notes are unsecured and are not savings accounts or insured deposits of a bank. The Notes are not insured or guaranteed by the Canada Deposit Insurance Corporation, the U.S. Federal Deposit Insurance Corporation or any other governmental agency or instrumentality of Canada or the United States.

The Notes will not be listed on any securities exchange.

Investment in the Notes involves a number of risks. See "Additional Risk Factors" on page P-5 of this pricing supplement, "Additional Risk Factors Specific to the Notes" beginning on page PS-5 of the product prospectus supplement no. 1 dated August 1, 2014 (the "product prospectus supplement") and "Risk Factors" on page 1 of the prospectus dated July 28, 2014 (the "prospectus").

Neither the Securities and Exchange Commission (the "SEC") nor any state securities commission has approved or disapproved of these securities or determined that this pricing supplement, the product prospectus supplement or the

prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

We will deliver the Notes in book-entry only form through the facilities of The Depository Trust Company on or about March 16, 2015, against payment in immediately available funds.

Additional Terms of Your Notes

You should read this pricing supplement together with the prospectus, as supplemented by the product prospectus supplement, relating to our Senior Debt Securities, of which these Notes are a part. Capitalized terms used but not defined in this pricing supplement will have the meanings given to them in the product prospectus supplement. In the event of any conflict, this pricing supplement will control. The Notes vary from the terms described in the product prospectus supplement in several important ways. You should read this pricing supplement carefully.

This pricing supplement, together with the documents listed below, contains the terms of the Notes and supersedes all prior or contemporaneous oral statements as well as any other written materials including preliminary or indicative pricing terms, correspondence, trade ideas, structures for implementation, sample structures, brochures or other educational materials of ours. You should carefully consider, among other things, the matters set forth in “Additional Risk Factors” on page P-5 of this pricing supplement, “Additional Risk Factors Specific to the Notes” beginning on page PS-5 of the product prospectus supplement and “Risk Factors” on page 1 of the prospectus, as the Notes involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisors before you invest in the Notes. You may access these documents on the SEC website at www.sec.gov as follows (or if that address has changed, by reviewing our filings for the relevant date on the SEC website):

§ Prospectus dated July 28, 2014:

Our Central Index Key, or CIK, on the SEC website is 0000947263. As used in this pricing supplement, the “Bank,” “we,” “us,” or “our” refers to The Toronto-Dominion Bank and its subsidiaries.

The Toronto-Dominion Bank has filed with the SEC a registration statement, as well as a prospectus and a product prospectus supplement, for the offering to which this pricing supplement relates. Before you invest, you should read those documents and the other documents relating to this offering that we have filed with the SEC for more complete information about us and this offering. You may obtain these documents without cost by visiting EDGAR on the SEC Website at www.sec.gov. Alternatively, The Toronto-Dominion Bank, any agent or any dealer participating in this offering will arrange to send you the product prospectus supplement and the prospectus if you so request by calling 1-855-303-3234.

JEFFERIES

Additional Risk Factors

The Notes involve risks not associated with an investment in ordinary fixed rate notes. This section describes the most significant risks relating to the terms of the Notes. For additional information as to these risks, please see the product prospectus supplement and the prospectus.

You should carefully consider whether the Notes are suited to your particular circumstances before you decide to purchase them. Accordingly, prospective investors should consult their investment, legal, tax, accounting and other advisors as to the risks entailed by an investment in the Notes and the suitability of the Notes in light of their particular circumstances.

Investors Are Subject to Our Credit Risk, and Our Credit Ratings and Credit Spreads May Adversely Affect the Market Value of the Notes.

Investors are dependent on TD's ability to pay all amounts due on the Notes on the Interest Payment Dates and the Maturity Date, and, therefore, investors are subject to the credit risk of TD and to changes in the market's view of TD's creditworthiness. Any decrease in TD's credit ratings or increase in the credit spreads charged by the market for taking TD's credit risk is likely to adversely affect the market value of the Notes.

The Notes Are Subject to Early Redemption at TD's Option.

TD has the option to redeem the Notes on the Optional Call Date as set forth above. It is more likely that we will redeem the Notes prior to the Maturity Date to the extent that the interest payable on the Notes is greater than the interest that would be payable on our other instruments of a comparable maturity, terms and credit rating trading in the market. If the Notes are redeemed prior to their stated Maturity Date, you may have to re-invest the proceeds in a lower rate environment.

The Agent Discount, Offering Expenses and Certain Hedging Costs Are Likely to Adversely Affect Secondary Market Prices.

Assuming no changes in market conditions or any other relevant factors, the price, if any, at which you may be able to sell the Notes will likely be lower than the public offering price. The public offering price includes, and any price quoted to you is likely to exclude, the underwriting discount paid in connection with the initial distribution, offering expenses, as well as the cost of hedging our obligations under the Notes. In addition, any such price is also likely to reflect dealer discounts, mark-ups and other transaction costs, such as a discount to account for costs associated with establishing or unwinding any related hedge transaction.

There May Not Be an Active Trading Market for the Notes — Sales in the Secondary Market May Result in Significant Losses.

There may be little or no secondary market for the Notes. The Notes will not be listed on any securities exchange. TD Securities (USA) LLC and other affiliates of TD may make a market for the Notes; however, they are not required to do so. TD Securities (USA) LLC or any other affiliate of TD may stop any market-making activities at any time. Even if a secondary market for the Notes develops, it may not provide significant liquidity or trade at prices advantageous to you. We expect that transaction costs in any secondary market would be high. As a result, the difference between bid and ask prices for your Notes in any secondary market could be substantial.

If you sell your Notes before the Maturity Date, you may have to do so at a substantial discount from the issue price, and as a result, you may suffer substantial losses.

There Are Potential Conflicts of Interest Between You and the Calculation Agent.

The calculation agent will, among other things, determine the Interest Rate on the Pricing Date and the amount of any payments made upon any redemption of the Notes. TD will serve as the calculation agent. For additional information as to the calculation agent's role, see "General Terms of the Notes—Role of Calculation Agent" in the product prospectus supplement. The calculation agent will exercise its judgment when performing its functions and may take into consideration TD's ability to unwind any related hedges. Since this discretion by the calculation agent will affect payments on the Notes, the calculation agent may have a conflict of interest when it needs to make any such decision.

Significant Aspects of the Tax Treatment of the Notes May Be Uncertain.

The U.S. tax treatment of the Notes may be uncertain. Please read carefully the section entitled "Tax Consequences — United States Taxation" in the prospectus and the section entitled "Supplemental Discussion of U.S. Federal Income Tax Consequences" in the product prospectus supplement. You should consult your tax advisor about your own tax situation.

For a more complete discussion of the Canadian federal income tax consequences of investing in the Notes, please see "Canadian Taxation" in this pricing supplement. If you are not a Non-resident Holder (as that term is defined in "Canadian Taxation" in this pricing supplement) or if you acquire the Notes in the secondary market, you should consult your tax advisors as to the consequences of acquiring, holding and disposing of the Notes and receiving the payments that might be due under the Notes.

JEFFERIES

Canadian Taxation

The following is, as of the date hereof, a summary of the principal Canadian federal income tax considerations under the Income Tax Act (Canada) (the “Canadian Tax Act”) and Income Tax Regulations issued thereunder (the “Canadian Tax Regulations”) generally applicable to a holder who acquires beneficial ownership of a Note upon the initial issuance of the Note by TD pursuant to this pricing supplement, and who, for purposes of the Canadian Tax Act and any applicable income tax convention, at all relevant times, is not resident and is not deemed to be resident in Canada, and who, for purposes of the Canadian Tax Act, at all relevant times, (i) deals at arm’s length with TD and any Canadian resident (or deemed Canadian resident) to whom the holder disposes of the debt security, (ii) is entitled to receive all payments (including any interest and principal) made on the Note, (iii) is not, and deals at arm’s length with each person who is, a “specified shareholder” of TD for purposes of the thin capitalization rules in the Canadian Tax Act, (iv) holds the Note as capital property, (v) does not use or hold and is not deemed to use or hold the Note in or in the course of carrying on a business in Canada and (vi) is not an insurer carrying on an insurance business in Canada and elsewhere (a “Non-resident Holder”).

This summary is based upon the current provisions of the Canadian Tax Act and the Canadian Tax Regulations in force as of the date hereof, all specific proposals to amend the Canadian Tax Act and the Canadian Tax Regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the “Tax Proposals”) and an understanding of the current administrative policies and assessing practices of the Canada Revenue Agency (“CRA”) published in writing by the CRA prior to the date hereof. This summary is not exhaustive of all possible Canadian federal income tax considerations relevant to an investment in Notes and, except for the Tax Proposals, does not take into account or anticipate any changes in law or CRA administrative policies or assessing practices, whether by way of legislative, governmental or judicial decision or action, nor does it take into account or consider any other federal tax considerations or any provincial, territorial or foreign tax considerations, which may differ materially from those discussed herein. While this summary assumes that the Tax Proposals will be enacted in the form proposed, no assurance can be given that this will be the case, and no assurance can be given that judicial, legislative or administrative changes will not modify or change the statements below.

The following is only a general summary of certain Canadian non-resident withholding and other tax provisions which may affect a Non-resident Holder of the Notes described in this pricing supplement. This summary is not, and is not intended to be, and should not be construed to be, legal or tax advice to any particular Non-resident Holder and no representation with respect to the income tax consequences to any particular Non-resident Holder is made. Persons considering investing in the Notes should consult their own tax advisors with respect to the tax consequences of acquiring, holding and disposing of the Notes having regard to their own particular circumstances.

Interest (including amounts on account or in lieu of payment of, or in satisfaction of, interest) paid or credited, or deemed to be paid or credited on a Note to a Non-resident Holder will not be subject to Canadian non-resident withholding tax.

Generally, there are no other Canadian taxes on income (including taxable capital gains) payable by a Non-resident Holder under the Canadian Tax Act solely as a consequence of the acquisition, ownership or disposition of the Notes.

Supplemental Plan of Distribution (Conflicts of Interest)

We have appointed TD Securities (USA) LLC, an affiliate of TD, and Jefferies LLC as the agents for the sale of the Notes. Pursuant to the terms of a distribution agreement and a distributor accession letter, TD Securities (USA) LLC will purchase the Notes from TD at the public offering price less the underwriting discount set forth on the cover page of this pricing supplement and, as part of the distribution of the Notes, TD Securities (USA) LLC will sell the Notes to Jefferies LLC at the public offering price less a discount and selling commission of \$ (%) per \$1,000 principal amount of the Notes. Jefferies LLC will offer the Notes at the public offering price set forth on the cover page of this pricing supplement. Jefferies LLC may forgo, in its sole discretion, some or all of its discount and selling commission.

We expect that delivery of the Notes will be made against payment for the Notes on or about March 16, 2015, which is the third (3rd) Business Day following the expected Pricing Date (this settlement cycle being referred to as “T+3”). See “Plan of Distribution” in the prospectus. For additional information as to the relationship between us and TD Securities (USA) LLC, please see the section “Plan of Distribution—Conflicts of Interest” in the product prospectus supplement.

We may use this pricing supplement in the initial sale of the Notes. In addition, TD Securities (USA) LLC or another of our affiliates may use this pricing supplement in a market-making transaction in the Notes after their initial sale. Unless we or our agent informs the purchaser otherwise in the confirmation of sale, this pricing supplement is being used in a market-making transaction.
