Form 10-Q
November 06, 2018
UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Form 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2018

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Transition Period from _____ to _____
Commission File No. 001-32260

Westlake Chemical Corporation
(Exact name of Registrant as specified in its charter)

Delaware 76-0346924
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification Number)
2801 Post Oak Boulevard, Suite 600
Houston, Texas 77056
(Address of principal executive offices, including zip code)
(713) 960-9111
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act)
Yes No

The number of shares outstanding of the registrant's sole class of common stock as of October 30, 2018 was 129,165,391.

WESTLAKE CHEMICAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(in millions of dollars, except share amounts and per share data)

1. Basis of Financial Statements

The accompanying unaudited consolidated interim financial statements were prepared in accordance with the rules and regulations of the Securities and Exchange Commission (the "SEC") for interim periods. Accordingly, certain information and footnotes required for complete financial statements under generally accepted accounting principles in the United States ("U.S. GAAP") have not been included. These interim consolidated financial statements should be read in conjunction with the December 31, 2017 consolidated financial statements and notes thereto of Westlake Chemical Corporation (the "Company") included in the annual report on Form 10-K for the fiscal year ended December 31, 2017 (the "2017 Form 10-K"), filed with the SEC on February 21, 2018. These consolidated financial statements have been prepared in conformity with the accounting principles and practices as disclosed in the notes to the consolidated financial statements of the Company for the fiscal year ended December 31, 2017 with the exception of those accounting standards adopted in 2018 as discussed in Note 1.

In the opinion of the Company's management, the accompanying unaudited consolidated interim financial statements reflect all adjustments (consisting only of normal recurring adjustments) that are necessary for a fair statement of the Company's financial position as of September 30, 2018, its results of operations for the three and nine months ended September 30, 2018 and 2017 and the changes in its cash position for the nine months ended September 30, 2018 and 2017.

Results of operations and changes in cash position for the interim periods presented are not necessarily indicative of the results that will be realized for the fiscal year ending December 31, 2018 or any other interim period. The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Certain reclassifications have been made to the prior-year financial statements to conform to the current-year presentation.

Recent Accounting Pronouncements

Leases (ASU No. 2016-02)

In February 2016, the Financial Accounting Standards Board ("FASB") issued an accounting standards update on a new lease standard that will supersede the existing lease guidance. The standard requires a lessee to recognize assets and liabilities related to long-term leases that are classified as operating leases under current guidance on its balance sheet. An asset would be recognized related to the right to use the underlying asset and a liability would be recognized related to the obligation to make lease payments over the term of the lease. The standard also requires expanded disclosures related to leases. The accounting standard will be effective for reporting periods beginning after December 15, 2018. The standard requires adoption using a modified retrospective approach and allows for the election of certain transition practical expedients. The accounting standards update allows for certain transition expedients for leases that commenced prior to the adoption of the new standard. Under the optional transition expedients an entity is not required to reassess (1) whether any expired or existing lease contracts are or contain leases, (2) the classification of leases as operating or capital leases or (3) whether any initial direct costs qualify for capitalization under the new accounting standard. These expedients are required to be elected as a group. The accounting standards update also allows the use of hindsight to determine lease term when considering lease renewal or termination options.

During 2018, the FASB issued additional authoritative guidance that provides an optional transition method which allows entities to continue applying the existing lease guidance in the comparative periods and recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. The FASB also issued an accounting standards update that allows entities to apply their existing policy for accounting for land easements that exist as of, or expired before, the effective date of the new lease standard. The Company is in the

process of evaluating the transition method and other expedients it may elect.

The accounting standard will be effective for reporting periods beginning after December 15, 2018. The Company is in the process of reviewing its existing lease agreements and evaluating the impact that the new accounting guidance will have on the Company's consolidated financial position, results of operations and cash flows.

WESTLAKE CHEMICAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

(Unaudited)

(in millions of dollars, except share amounts and per share data)

Credit Losses (ASU No. 2016-13)

In June 2016, the FASB issued an accounting standards update providing new guidance for the accounting for credit losses on loans and other financial instruments. The new guidance introduces an approach based on expected losses to estimate credit losses on certain types of financial instruments. The standard also modifies the impairment model for available-for-sale debt securities and provides for a simplified accounting model for purchased financial assets with credit deterioration since their origination. The accounting standard will be effective for reporting periods beginning after December 15, 2019 and is not expected to have a material impact on the Company's consolidated financial position, results of operations and cash flows.

Intangibles - Goodwill and Other (ASU No. 2017-04)

In January 2017, the FASB issued an accounting standards update to simplify the subsequent measurement of goodwill. The guidance removes Step 2 of the goodwill impairment test, which requires a hypothetical purchase price allocation. A goodwill impairment will now be the amount by which a reporting unit's carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. The accounting standard will be effective for reporting periods beginning after December 15, 2019 and is not expected to have a material impact on the Company's consolidated financial position, results of operations and cash flows.

Income Statement - Reporting Comprehensive Income (ASU 2018-02)

In February 2018, the FASB issued an accounting standards update to (1) allow reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the U.S. Tax Cuts and Jobs Act (the "Tax Act"); and (2) require certain disclosures about stranded tax effects. The accounting standard will be effective for reporting periods beginning after December 15, 2018. Early adoption is permitted. The Company is in the process of evaluating the impact that the new accounting guidance will have on the Company's consolidated financial position, results of operations and cash flows.

Fair Value Measurement (ASU No. 2018-13)

In August 2018, the FASB issued an accounting standards update to modify the disclosure requirements on fair value measurements. The amendments are effective beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until the effective date. Most amendments should be applied retrospectively, but certain amendments will be applied prospectively. The Company is in the process of assessing the impact of the standard on the Company's fair value disclosures. However, the standard is not expected to have an impact on the Company's consolidated financial position, results of operations and cash flows.

Intangibles - Goodwill and Other (ASU No. 2018-15)

In August 2018, the FASB issued an accounting standards update to align the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal use software license). The amendments are effective for fiscal years beginning after December 15, 2019 and early adoption is permitted. The amendments should be applied either retrospectively or prospectively to all implementation costs incurred after the date of adoption. The Company adopted the standard on October 1, 2018, prospectively, and did not have a material impact on the Company's consolidated financial position, results of operations and cash flows.

Recently Adopted Accounting Standards

Revenue from Contracts with Customers (ASU No. 2014-09)

In May 2014, the FASB issued an accounting standards update on a comprehensive new revenue recognition standard that supersedes virtually all previously issued revenue recognition guidance. The new accounting guidance creates a framework by which an entity will allocate the transaction price to separate performance obligations and recognize revenue when each performance obligation is satisfied. Under the new standard, entities are required to use judgment and make estimates, including identifying performance obligations in a contract, estimating the amount of variable

consideration to include in the transaction price, allocating the transaction price to each separate performance obligation and determining when an entity satisfies its performance obligations. The standard allows for "modified retrospective" adoption, meaning the standard is applied only to the most current period presented in the financial statements with a cumulative catch-up as of the current period.

7

WESTLAKE CHEMICAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

(Unaudited)

(in millions of dollars, except share amounts and per share data)

The Company adopted ASU No. 2014-09, Revenue from Contracts with Customers ("ASC 606"), effective January 1, 2018. The Company applied the modified retrospective transition method to all contracts that were not completed as of the adoption date. Periods prior to January 1, 2018 were not adjusted and are reported under the accounting standards that were in place during those periods. The cumulative effects of changes to the Company's consolidated January 1, 2018 balance sheet for the adoption of this accounting standard were immaterial.

The impact of ASC 606 adoption on the financial statements for the three and nine months ended September 30, 2017 as compared with the guidance that was in effect prior to January 1, 2018 was immaterial.

Revenue is recognized when the Company transfers control of inventories to its customers. Amounts recognized as revenues reflect the consideration to which the Company expects to be entitled in exchange for those inventories. Provisions for discounts, rebates and returns are incorporated in the estimate of variable consideration and reflected as reduction to revenue in the same period as the related sales.

Control of inventories generally transfers upon shipment for domestic sales. The Company excludes taxes collected on behalf of customers from the estimated contract price. For export contracts, the point at which control passes to the customer varies depending on the terms specified in the customer contract.

The Company generally invoices customers and recognizes revenue and accounts receivable upon transferring control of inventories. In limited circumstances, the Company transfers control of inventories shortly before it has an unconditional right to receive consideration, resulting in recognition of contract assets. The Company also receives advance payments from certain customers, resulting in recognition of contract liabilities. Contract assets and liabilities are generally settled within the period and are not material to the consolidated balance sheets.

The Company expenses sales commissions when incurred. These costs are recorded within selling, general and administrative expenses. The Company does not disclose the value of unsatisfied performance obligations because its contracts with customers (i) have an original expected duration of one year or less or (ii) have only variable consideration that is calculated based on market prices at specified dates and is allocated to wholly unsatisfied performance obligations.

ASC 606 requires disclosure of disaggregated revenue into categories that depict the nature of how the Company's revenue and cash flows are affected by economic factors. The Company discloses revenues by product and segment in Note 14 to this quarterly report on Form 10-Q.

Recognition and Measurement of Financial Assets and Financial Liabilities (ASU No. 2016-01)

In January 2016, the FASB issued an accounting standards update making certain changes principally to the current guidance for equity investments, financial liabilities under the fair value option and the presentation and disclosure requirements for financial instruments. Among other things, the guidance (1) requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value, with changes in fair value recognized in net income; (2) allows entities to elect to measure equity investments without readily determinable fair values at cost, less impairment, adjusted for subsequent observable price changes (changes in the basis of these equity investments to be reported in net income); (3) requires an entity that has elected the fair value option for financial liabilities to recognize changes in fair value due to instrument-specific credit risk separately in other comprehensive income; (4) clarified current guidance related to the valuation allowance assessment when recognizing deferred tax assets resulting from unrealized losses on available-for-sale debt securities; and (5) requires specific disclosure pertaining to financial assets and financial liabilities in the financial statements. The accounting standard became effective for reporting periods beginning after December 15, 2017. The Company adopted this accounting standard effective January 1, 2018 and the adoption did not have a material impact on the Company's consolidated financial position, results of operations and cash flows. The Company is party to a joint venture investment with Lotte Chemical USA Corporation to build an ethylene facility, LACC, LLC ("LACC"). The Company measures its investment in LACC at cost, adjusted for observable price changes because the investment does not have a readily determinable fair value.

WESTLAKE CHEMICAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued
(Unaudited)
(in millions of dollars, except share amounts and per share data)

Cash Flows (ASU No. 2016-15)

In August 2016, the FASB issued an accounting standards update providing new guidance on the classification of certain cash receipts and payments including debt extinguishment costs, debt prepayment costs, settlement of zero-coupon debt instruments, contingent consideration payments, proceeds from the settlement of insurance claims and life insurance policies and distributions received from equity method investees in the statement of cash flows. This update is required to be applied using the retrospective transition method to each period presented unless it is impracticable to be applied retrospectively. In such situation, this guidance is to be applied prospectively. The accounting standard became effective for reporting periods beginning after December 15, 2017. The Company adopted this accounting standard effective January 1, 2018 and the adoption did not have a material impact on the Company's consolidated financial position, results of operations and cash flows.

Cash Flows (ASU No. 2016-18)

In November 2016, the FASB issued an accounting standards update to clarify certain existing principles in Accounting Standards Codification 230, Cash flows, including providing additional guidance related to transfers between cash and restricted cash and how entities present, in their statement of cash flows, the cash receipts and cash payments that directly affect the restricted cash accounts. The accounting standard became effective for reporting periods beginning after December 15, 2017. The Company adopted this accounting standard effective January 1, 2018. Upon adoption, the Company retrospectively adjusted its financial statements to reflect restricted cash in the beginning and ending cash and restricted cash balances within the statements of cash flows. As a result of this retrospective adoption and reclassification of restricted cash and cash equivalents, net cash provided by (used for) financing activities on the consolidated statement of cash flows for the nine months ended September 30, 2017 has been adjusted to \$(460) from the originally reported \$(306) to reflect the retrospective application of the new accounting guidance. Previously reported cash and cash equivalents at beginning of the period and cash and cash equivalents at end of the period for the nine months ended September 30, 2017 have been adjusted to include restricted cash of \$186 and \$32, respectively.

Business Combinations (ASU No. 2017-01)

In January 2017, the FASB issued an accounting standards update to assist entities with evaluating when a set of transferred assets and activities is a business. The guidance requires an entity to evaluate if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or a group of similar identifiable assets; if so, the set of transferred assets and activities is not a business. The guidance also requires a business to include at least one substantive process and narrows the definition of outputs by more closely aligning it with how outputs are described in ASC 606. The accounting standard became effective for reporting periods beginning after December 15, 2017. The Company adopted the accounting standard effective January 1, 2018 and the adoption did not have a material impact on the Company's consolidated financial position, results of operations and cash flows.

Other Income - Gains and Losses from the Derecognition of Nonfinancial Assets (ASU No. 2017-05)

In February 2017, the FASB issued an accounting standards update to clarify the scope of guidance related to other income—gains and losses from the derecognition of nonfinancial assets, and to add guidance for partial sales of nonfinancial assets. The new guidance clarifies that an in substance nonfinancial asset is an asset or group of assets for which substantially all of the fair value consists of nonfinancial assets and the group or subsidiary is not a business. The guidance also outlines that when an entity transfers its controlling interest in a nonfinancial asset, but retains a noncontrolling interest, it will measure the retained interest at fair value resulting in full gain or loss recognition upon sale of the controlling interest. The accounting standard became effective for reporting periods beginning after December 15, 2017. The Company adopted this accounting standard effective January 1, 2018 and the adoption did not have a material impact on the Company's consolidated financial position, results of operations and cash flows.

WESTLAKE CHEMICAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

(Unaudited)

(in millions of dollars, except share amounts and per share data)

Compensation - Retirement Benefits (ASU No. 2017-07)

In March 2017, the FASB issued an accounting standards update to improve the presentation of net periodic pension cost and net periodic postretirement benefit cost. The new guidance requires employers to disaggregate the service cost component from the other components of net periodic benefit cost and report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The amendments also allow only the service cost component to be eligible for capitalization when applicable. The accounting standard became effective for reporting periods beginning after December 15, 2017. The Company adopted this accounting standard effective January 1, 2018 and the adoption did not have a material impact on the Company's consolidated financial position, results of operations and cash flows.

Compensation - Stock Compensation (ASU No. 2017-09)

In May 2017, the FASB issued an accounting standards update to provide clarity and reduce both (1) diversity in practice and (2) cost and complexity when applying the guidance in Topic 718, Compensation-Stock Compensation, to a change to the terms or conditions of a share-based payment award. The amendments in this update provide guidance about which changes to the terms or conditions of a share-based payment award require the application of modification accounting in Topic 718. Essentially, an entity will not have to account for the effects of a modification if: (1) the fair value of the modified award is the same immediately before and after the modification; (2) the vesting conditions of the modified award are the same immediately before and after the modification; and (3) the classification of the modified award as either an equity instrument or liability instrument is the same immediately before and after the modification. This update is to be applied prospectively to an award modified on or after the adoption date. The accounting standard became effective for reporting periods beginning after December 15, 2017. The Company adopted this accounting standard effective January 1, 2018 and the adoption did not have a material impact on the Company's consolidated financial position, results of operations and cash flows.

Derivatives and Hedging - Targeted Improvements to Accounting for Hedging Activities (ASU No. 2017-12)

In August 2017, the FASB issued an accounting standards update to improve financial reporting of hedging relationships, to better portray the economic results of an entity's risk management activities in the financial statements and to simplify application of hedge accounting guidance. The accounting standard eliminates certain hedge effectiveness measurement and reporting requirements and expands the types of permissible hedging strategies. The accounting standard will be effective for reporting periods beginning after December 15, 2018, and interim periods within those fiscal years. Early application is permitted in any interim period after issuance, to be applied retrospectively to the beginning of the fiscal year. The Company adopted this accounting standard effective January 1, 2018 and the adoption did not have a material impact on the Company's consolidated financial position, results of operations and cash flows.

2. Financial Instruments

Cash Equivalents

The Company had \$355 and \$644 of held-to-maturity securities with original maturities of three months or less, primarily consisting of corporate debt securities, classified as cash equivalents at September 30, 2018 and December 31, 2017, respectively. The Company's investments in held-to-maturity securities were held at amortized cost, which approximates fair value.

Restricted Cash and Cash Equivalents

The Company had restricted cash and cash equivalents of \$23 at September 30, 2018 and December 31, 2017. The Company's restricted cash and cash equivalents are related to balances that are restricted for payment of distributions to certain of the Company's current and former employees and are reflected primarily in other assets, net in the consolidated balance sheets.

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued
 (Unaudited)
 (in millions of dollars, except share amounts and per share data)

3. Accounts Receivable

Accounts receivable consist of the following:

	September 30, 2018	December 31, 2017
Trade customers	\$ 1,171	\$ 974
Affiliates	11	9
Allowance for doubtful accounts	(24)	(22)
	1,158	961
Federal and state taxes	55	7
Other	28	33
Accounts receivable, net	\$ 1,241	\$ 1,001

4. Inventories

Inventories consist of the following:

	September 30, 2018	December 31, 2017
Finished products	\$ 566	\$ 549
Feedstock, additives, chemicals and other raw materials	221	221
Materials and supplies	152	130
Inventories	\$ 939	\$ 900

5. Goodwill

The gross carrying amounts and changes in the carrying amount of goodwill for the nine months ended September 30, 2018 were as follows:

	Olefins Segment	Vinyls Segment	Total
Balances at December 31, 2017	\$ 30	\$ 982	\$1,012
Effects of changes in foreign exchange rates	—	(4)	(4)
Balances at September 30, 2018	\$ 30	\$ 978	\$1,008

The Company performed its annual impairment analysis for the Vinyls reporting units during the second quarter of 2018. The Company elected to perform a qualitative assessment (commonly known as "step zero") for the purposes of its annual goodwill impairment analysis for the Vinyls reporting units. Based upon this assessment, the Company determined that it is more likely than not that the fair value of each of the Vinyls reporting units exceeds its carrying value. Factors considered in the qualitative assessment included macroeconomic conditions, industry and market considerations, cost factors related to raw materials and labor, overall financial performance (both current and projected), changes in management or strategy, and market capitalization.

New Credit Agreement

On July 24, 2018, the Company entered into a new \$1,000 revolving credit facility that is scheduled to mature on July 24, 2023 (the "New Credit Agreement") and, in connection therewith, terminated the existing \$1,000 revolving credit facility that was scheduled to mature on August 23, 2021. The New Credit Agreement bears interest at either (a) LIBOR plus a spread ranging from 1.00% to 1.75% or (b) Alternate Base Rate plus a spread ranging from 0.00% to 0.75% in each case depending on the credit rating of the Company. At September 30, 2018, the

Company had no borrowings outstanding

12

WESTLAKE CHEMICAL CORPORATION
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued
 (Unaudited)
 (in millions of dollars, except share amounts and per share data)

under the New Credit Agreement. As of September 30, 2018, the Company had outstanding letters of credit totaling \$4 and borrowing availability of \$996 under the New Credit Agreement. The New Credit Agreement contains certain affirmative and negative covenants, including a quarterly total leverage ratio financial maintenance covenant. As of September 30, 2018, the Company was in compliance with the total leverage ratio financial maintenance covenant. The New Credit Agreement also contains certain events of default and if and for so long as certain events of default have occurred and are continuing, any overdue amounts outstanding under the New Credit Agreement will accrue interest at an increased rate, the lenders can terminate their commitments thereunder and payments of any outstanding amounts could be accelerated by the lenders. None of the Company's subsidiaries are required to guarantee the obligations of the Company under the New Credit Agreement.

The New Credit Agreement includes a \$150 sub-limit for letters of credit, and any outstanding letters of credit will be deducted from availability under the facility. The New Credit Agreement also provides for a discretionary \$50 commitment for swingline loans to be provided on a same-day basis. The Company may also increase the size of the facility, in increments of at least \$25, up to a maximum of \$500, subject to certain conditions and if certain lenders agree to commit to such an increase.

In connection with the Company's entry into the New Credit Agreement and termination of the prior credit agreement on July 24, 2018, all guarantees by the Guarantor Subsidiaries of the Company's payment obligations under the 4.375% 2047 Senior Notes, the 3.60% 2022 Senior Notes, the 3.60% 2026 Senior Notes and the 5.0% 2046 Senior Notes were released. As a result, beginning with this quarterly report on Form 10-Q, the Company no longer discloses condensed consolidating financial information of its guarantor and non-guarantor subsidiaries.

4.625% Senior Notes due 2021

In December 2017, the Company delivered irrevocable notices for the optional redemption of all of the outstanding 4.625% Westlake 2021 Senior Notes and 4.625% Subsidiary 2021 Senior Notes (collectively, the "2021 Notes"). The 2021 Notes were redeemed on February 15, 2018 at a redemption price equal to 102.313% of the principal amount of the 2021 Notes plus accrued and unpaid interest on the 2021 Notes to the redemption date. The Company recognized a \$6 gain in other income upon redemption of the 2021 Notes.

4.875% Senior Notes due 2023

In March 2018, the Company delivered irrevocable notices for the optional redemption of all of the outstanding 4.875% Westlake 2023 Senior Notes and 4.875% Subsidiary 2023 Senior Notes (collectively, the "2023 Notes"). The 2023 Notes were redeemed on May 15, 2018 at a redemption price equal to 102.438% of the principal amount of the 2023 Notes plus accrued and unpaid interest on the 2023 Notes to the redemption date.

As of September 30, 2018, the Company was in compliance with all of its long-term debt covenants.

Unamortized debt issuance costs on long-term debt were \$26 and \$26 at September 30, 2018 and December 31, 2017, respectively.

7. Pension and Post-Retirement Benefits

Defined Benefit Plans

Components of net periodic benefit cost (income) for the Company's pension plans are as follows:

	Three Months Ended September 30, 2018				Nine Months Ended September 30, 2018			
	U.S. Plans	Non-U.S. Plans	U.S. Plans	Non-U.S. Plans	U.S. Plans	Non-U.S. Plans	U.S. Plans	Non-U.S. Plans
Service cost	\$1	\$ —	\$2	\$ —	\$2	\$ 1	\$4	\$ 1
Expected administrative expenses	1	—	—	—	2	—	—	—
Interest cost	6	1	6	1	18	2	19	2
Expected return on plan assets	(10)	—	(10)	—	(32)	—	(30)	—
Amortization of net loss	—	—	—	—	—	—	1	—
Settlement gain	(14)	—	—	—	(14)	—	—	—
Net periodic benefit cost (income)	\$(16)	\$ 1	\$(2)	\$ 1	\$(24)	\$ 3	\$(6)	\$ 3

During the third quarter of 2018, the Company's U.S. pension plans settled portions of their projected benefit obligations through the purchase of annuities and lump sum payments to certain participants. In conjunction with the settlement, the Company also remeasured the pension obligations and plan assets of the affected plans, resulting in a \$26 increase in accumulated other comprehensive income before tax and a corresponding decrease in net pension liabilities recorded in the consolidated balance sheets. The Company recognized a \$14 one-time settlement gain in other income, net, which was reclassified from accumulated other comprehensive income.

8. Accumulated Other Comprehensive Income (Loss)

Changes in accumulated other comprehensive income (loss) by component for the nine months ended September 30, 2018 and 2017 were as follows:

	Benefits Liability, Net of Tax	Cumulative Foreign Currency Exchange, Net of Tax	Total
Balances at December 31, 2016	\$ 29	\$ (150)	\$(121)
Other comprehensive income before reclassifications	—	107	107
Amounts reclassified from accumulated other comprehensive income (loss)	1	—	1
Net other comprehensive income attributable to Westlake Chemical Corporation	1	107	108
Balances at September 30, 2017	\$ 30	\$ (43)	\$(13)
Balances at December 31, 2017	\$ 43	\$ (36)	\$ 7
Other comprehensive income (loss) before reclassifications	20	(40)	(20)
Amounts reclassified from accumulated other comprehensive income (loss)	(11)	—	(11)
Net other comprehensive income (loss) attributable to Westlake Chemical Corporation	9	(40)	(31)
Balances at September 30, 2018	\$ 52	\$ (76)	\$(24)

WESTLAKE CHEMICAL CORPORATION
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued

(Unaudited)

(in millions of dollars, except share amounts and per share data)

The following table provides the details of the amounts reclassified from accumulated other comprehensive income (loss) into net income in the consolidated statements of operations for the three and nine months ended September 30, 2018 and 2017:

Details about Accumulated Other Comprehensive Income (Loss) Components	Location of Reclassification (Income (Expense)) in Consolidated Statements of Operations	Three Months Ended September 30,		Nine Months Ended September 30,	
		2018	2017	2018	2017
Amortization of pension and other post-retirement net loss	(1)	\$—	\$ (1)	\$—	\$ (2)
Pension settlement gain	(1)	14	—	14	—
Income tax provision on pension and other post-retirement benefits liability	Benefits from (provision for) income taxes	(3)	1	(3)	1
Total reclassifications for the period		\$ 11	\$—	\$ 11	\$ (1)

These accumulated other comprehensive loss components are included in the computation of net periodic benefit (1) cost and reflected in other income, net in the consolidated statements of operations. See Note 7 for additional information on the pension settlement gain.

9. Fair Value Measurements

The Company reports certain assets and liabilities at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). Under the accounting guidance for fair value measurements, inputs used to measure fair value are classified in one of three levels:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The Company has financial assets and liabilities subject to fair value measures. These financial assets and liabilities include cash and cash equivalents, accounts receivable, net, accounts payable and long-term debt, all of which are recorded at carrying value. The amounts reported in the consolidated balance sheets for cash and cash equivalents, accounts receivable, net and accounts payable approximate their fair value due to the short maturities of these instruments.

The carrying and fair values of the Company's long-term debt (including the current portion of long-term debt) are summarized in the table below. The Company's long-term debt instruments are publicly-traded. A market approach, based upon quotes from financial reporting services, is used to measure the fair value of the Company's long-term debt. Because the Company's long-term debt instruments may not be actively traded, the inputs used to measure the fair value of the Company's long-term debt are classified as Level 2 inputs within the fair value hierarchy.

10. Income Taxes

The effective income tax rate was 18.7% for the third quarter of 2018 as compared to the effective income tax rate of 33.1% for the third quarter of 2017. The lower tax rate in the third quarter of 2018 as compared to the third quarter of 2017 was primarily a result of the tax law changes enacted under the Tax Act, which was signed into law on December 22, 2017. The effective income tax rate for the third quarter of 2018 was below the U.S. federal statutory rate of 21.0% primarily due to certain discrete tax benefit adjustments related to the re-measurement of state deferred tax balances and change in income tax estimate due to the filing of the Company's 2017 U.S. federal tax return. The effective income tax rate for the third quarter of 2017 was below the U.S. federal statutory rate of 35.0% primarily due to a higher domestic manufacturing deduction, depletion deductions, income attributable to noncontrolling interests, research and development credits and the foreign earnings rate differential, partially offset by state income taxes. The effective income tax rate was 22.0% for the nine months ended September 30, 2018. The effective income tax rate for the nine months ended September 30, 2018 was above the U.S. federal statutory rate of 21.0% primarily due to state and foreign taxes. The effective income tax rate was 30.8% for the nine months ended September 30, 2017. The effective income tax rate for the 2017 period was below the U.S. federal statutory rate of 35.0% primarily due to certain discrete adjustments, a higher domestic manufacturing deduction, depletion deductions, income attributable to noncontrolling interests, research and development credits and the foreign earnings rate differential, partially offset by state income taxes.

The Tax Act, among other changes, reduced U.S. corporate income tax rate from 35.0% to 21.0%, effective January 1, 2018, and also required a one-time deemed repatriation of foreign earnings at specified rates. The accounting guidance on income taxes requires that the effect on deferred tax assets and liabilities of a change in tax rates be recognized in the period the tax rate change was enacted. The SEC staff guidance allows registrants to record provisional amounts during a measurement period when it does not have the necessary information available, prepared or analyzed (including computations) in reasonable detail to complete its accounting for the change in tax law. The measurement period ends when a company has obtained, prepared and analyzed the information necessary to finalize its accounting, but cannot extend beyond one year. The corporate income tax rate change resulted in a revaluation of the Company's deferred tax assets and liabilities. At December 31, 2017, under the above guidance, the Company made a provisional adjustment of \$591 of income tax benefit in the 2017 consolidated financial statements for items that the Company could reasonably estimate such as revaluation of deferred tax assets and liabilities and a one-time U.S. tax on the

mandatory deemed repatriation of the Company's post-1986 foreign earnings. The Company will continue to assess the income tax effects of the Tax Act based on further standard setting activities, any transition provisions, and changes in the facts and circumstances of the Company's tax position, during the measurement period. No measurement period adjustment was made for the nine months ended September 30, 2018.

WESTLAKE CHEMICAL CORPORATION

 (in millions of dollars, except share amounts and per share data)

11. Earnings and Dividends per Share

Earnings per Share

The Company has unvested restricted stock units outstanding that are considered participating securities and, therefore, computes basic and diluted earnings per share under the two-class method. Basic earnings per share for the periods are based upon the weighted average number of shares of common stock outstanding during the periods. Diluted earnings per share includes the effect of certain stock options.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Net income attributable to Westlake Chemical Corporation	\$308	\$211	\$873	\$502
Less:				
Net income attributable to participating securities	(1)	(1)	(4)	(3)
Net income attributable to common shareholders	\$307	\$210	\$869	\$499

The following table reconciles the denominator for the basic and diluted earnings per share computations shown in the consolidated statements of operations:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Weighted average common shares—basic	129,427,392	129,069,186	129,512,100	129,033,597
Plus incremental shares from:				
Assumed exercise of options	624,968	19,782	671,107	456,368
Weighted average common shares—diluted	130,052,360	129,088,968	130,183,207	129,489,965

Earnings per common share attributable to Westlake Chemical Corporation:

Basic	\$2.36	\$ 1.62	\$6.70	\$ 3.87
Diluted	\$2.35	\$ 1.61	\$6.67	\$ 3.85

Excluded from the computation of diluted earnings per share are options to purchase 172,194 and 335,276 shares of common stock for the three months ended September 30, 2018 and 2017, respectively, and 143,439 and 291,888 shares of common stock for the nine months ended September 30, 2018 and 2017, respectively. These options were outstanding during the periods reported but were excluded because the effect of including them would have been antidilutive.

Dividends per Share

Dividends per common share for the three months ended September 30, 2018 and 2017 and for the nine months ended September 30, 2018 and 2017 were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Dividends per common share	\$0.2500	\$0.2100	\$0.6700	\$0.5912

12. Supplemental Information

Accrued Liabilities

Accrued liabilities were \$675 and \$657 at September 30, 2018 and December 31, 2017, respectively. Accrued rebates, which are components of accrued liabilities, were \$112 and \$108 at September 30, 2018 and December 31, 2017, respectively. No other component of accrued liabilities was more than five percent of total current liabilities. Accrued liabilities with affiliates were \$45 and \$37 at September 30, 2018 and December 31, 2017, respectively.

WESTLAKE CHEMICAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued
(Unaudited)
(in millions of dollars, except share amounts and per share data)

Non-cash Investing Activity

The change in capital expenditure accrual resulted in a decrease in additions to property, plant and equipment by \$8 for the nine months ended September 30, 2018. The change in capital expenditure accrual resulted in an increase in additions to property, plant and equipment by \$8 for the nine months ended September 30, 2017.

Other Income, Net

For the three months ended September 30, 2018, other income, net included income from pension and postretirement plans, including a one-time settlement gain, income from unconsolidated subsidiaries and interest income on cash and cash equivalents of \$16, \$5 and \$4, respectively. For the three months ended September 30, 2017, other income, net included income from pension and postretirement plans, income from unconsolidated subsidiaries and interest income on cash and cash equivalents of \$2, \$4 and \$1, respectively. For the nine months ended September 30, 2018 other income, net included income from pension and postretirement plans, including a one-time settlement gain, gain on redemption of the 2021 Notes, income from unconsolidated subsidiaries and interest income on cash and cash equivalents of \$23, \$6, \$17 and \$13, respectively. For the nine months ended September 30, 2017, other income, net included income from pension and postretirement plans, income from unconsolidated subsidiaries and interest income on cash and cash equivalents of \$6, \$11 and \$2, respectively.

13. Commitments and Contingencies

The Company is involved in a number of legal and regulatory matters, principally environmental in nature, that are incidental to the normal conduct of its business, including lawsuits, investigations and claims. The outcomes of these matters are inherently unpredictable. The Company believes that, in the aggregate, the outcome of all known legal and regulatory matters will not have a material adverse effect on its consolidated financial statements; however, specific outcomes with respect to such matters may be material to the Company's consolidated statements of operations in any particular period in which costs, if any, are recognized. The Company's assessment of the potential impact of environmental matters, in particular, is subject to uncertainty due to the complex, ongoing and evolving process of investigation and remediation of such environmental matters, and the potential for technological and regulatory developments. In addition, the impact of evolving claims and programs, such as natural resource damage claims, industrial site reuse initiatives and state remediation programs creates further uncertainty of the ultimate resolution of these matters. The Company anticipates that the resolution of many legal and regulatory matters, and in particular environmental matters, will occur over an extended period of time.

Environmental. As of September 30, 2018 and December 31, 2017, the Company had reserves for environmental contingencies totaling approximately \$57 and \$49, respectively, most of which were classified as noncurrent liabilities. The Company's assessment of the potential impact of these environmental contingencies is subject to considerable uncertainty due to the complex, ongoing and evolving process of investigation and remediation, if necessary, of such environmental contingencies, and the potential for technological and regulatory developments.

Calvert City Proceedings. For several years, the Environmental Protection Agency (the "EPA") has been conducting remedial investigation and feasibility studies at the Company's Calvert City, Kentucky facility pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("CERCLA"). As the current owner of the Calvert City facility, the Company was named by the EPA as a potentially responsible party ("PRP") along with Goodrich Corporation ("Goodrich") and its successor-in-interest, PolyOne Corporation ("PolyOne"). On November 30, 2017, the EPA published a draft Proposed Plan, incorporating by reference an August 2015 draft Remedial Investigation ("RI") report, an October 2017 draft Feasibility Study ("FS") report and a new Technical Impracticability Waiver document dated December 19, 2017. The draft Proposed Plan described a preferred remedy that included a containment wall with targeted treatment and supplemental hydraulic containment, as well as active treatment of historical groundwater contamination under the Tennessee River. The EPA estimated that the total remedy would cost \$200 to \$250 with an estimated \$1 to \$3 in annual operation and maintenance ("O&M") costs. Each PRP, including the Company, submitted comments to the Proposed Plan and associated documents. The Company's comments also proposed alternative removal options for the groundwater contamination under the Tennessee River. On June 18, 2018, the EPA published an amendment to its Proposed Plan. The amended Proposed Plan addresses the comments filed on the river excavation remedy outlined in the original Proposed Plan. Under the amended Proposed Plan, the EPA proposes an interim approach to address the contamination under the river that would include recovery of any mobile contaminants by an extraction well along with further study of the extent of the contamination and potential treatment options. The EPA's revised estimated cost of implementation is \$107, with the estimated annual O&M costs remaining unchanged. In September 2018, the EPA published the EPA's section of the final containment remedy for the on shore portion of the site and the interim remedy for the contamination under the river, as outlined in the amended Proposed Plan. The Company's allocation of liability for remedial or O&M costs, if any, will be determined by the outcome of the contractual dispute with Goodrich/PolyOne, which is the subject of a pending arbitration proceeding as described below.

In connection with the 1990 and 1997 acquisitions of the Goodrich chemical manufacturing complex in Calvert City, Goodrich agreed to indemnify the Company for any liabilities related to preexisting contamination at the complex. For its part, the Company agreed to indemnify Goodrich for post-closing contamination caused by the Company's operations. The soil and groundwater at the complex, which does not include the Company's nearby PVC facility, had been extensively contaminated by Goodrich's operations. In 1993, Goodrich spun off the predecessor of PolyOne, and that predecessor assumed Goodrich's indemnification obligations relating to preexisting contamination. In 2003, litigation arose among the Company, Goodrich and PolyOne with respect to the allocation of the cost of remediating contamination at the site. The parties settled this litigation in December 2007 and the case was dismissed. In the settlement, the parties agreed that, among other things: (1) PolyOne would pay 100% of the costs (with specified exceptions), net of recoveries or credits from third parties, incurred with respect to environmental issues at the Calvert City site from August 1, 2007 forward; and (2) either the Company or PolyOne might, from time to time in the future (but not more than once every five years), institute an arbitration proceeding to adjust that percentage. In May 2017, PolyOne filed a demand for arbitration. In this proceeding, PolyOne seeks to readjust the percentage allocation of costs and to recover approximately \$17 from the Company in reimbursement of previously paid remediation costs. The Company has filed a cross demand for arbitration seeking unreimbursed remediation costs incurred during the relevant period.

On October 6, 2017, PolyOne filed suit against the Company in the U.S. District Court for the Western District of Kentucky seeking for the court, instead of the arbitration panel, to resolve claims asserted by the Company in the arbitration proceedings related to reimbursement of costs incurred by the Company at the Calvert City complex. On May 30, 2018, the U.S. District Court for the Western District of Kentucky granted the Company's motion to dismiss, concluding that all of PolyOne's claims were the proper subject of the current arbitration panel's jurisdiction, and dismissed PolyOne's action before the court. On July 10, 2018, PolyOne filed another action in the U.S. District Court for the Western District of Kentucky, seeking for the court to issue an injunction against continued proceedings in the

arbitration. On July 30, 2018, the Court denied PolyOne's motion for a temporary restraining order and preliminary injunction. The arbitration hearing began in August 2018 and is ongoing.

At this time, the Company is not able to estimate the impact, if any, that the arbitration proceeding could have on the Company's consolidated financial statements either in the current period or in later periods. Any cash expenditures that the Company might incur in the future with respect to the remediation of contamination at the Calvert City complex would likely be spread out over an extended period. As a result, the Company believes it is unlikely that any remediation costs allocable to it will be material in terms of expenditures made in any individual reporting period.

Environmental Remediation: Reasonably Possible Matters. The Company's assessment of the potential impact of environmental contingencies is subject to considerable uncertainty due to the complex, ongoing and evolving process of investigation and remediation, if necessary, of such environmental contingencies, and the potential for technological and regulatory developments. As such, in addition to the amounts currently reserved, the Company may be subject to reasonably possible loss contingencies related to environmental matters in the range of \$55 to \$110.

Commitments. The Company became a party to a joint venture investment with Lotte Chemical USA Corporation to build an ethylene facility, LACC. The ethylene facility is located adjacent to the Company's vinyls facility in Lake Charles. Pursuant to the contribution and subscription agreement, the Company agreed to make a maximum capital commitment to LACC of up to \$225 to fund the construction costs of the ethylene plant, which represents approximately 10% of the interests in LACC. The construction of the ethylene plant commenced in January 2016, with an anticipated start-up in 2019. As of September 30, 2018, the Company had funded approximately \$178 of the Company's portion of the construction costs of the ethylene plant.

14. Segment Information

The Company operates in two principal operating segments: Olefins and Vinyls. These segments are strategic business units that offer a variety of different products. The Company manages each segment separately as each business requires different technology and marketing strategies.

15. Westlake Chemical Partners LP

The Company has an 81.7% limited partner interest in Westlake Chemical OpCo LP ("OpCo"), a 43.8% limited partner interest in Westlake Chemical Partners LP ("Westlake Partners"), a general partner interest in Westlake Partners and incentive distribution rights ("IDRs"). On July 27, 2018, the Westlake Partners' partnership agreement was amended to revise the minimum quarterly distribution thresholds for Westlake Partners' IDRs. The amended agreement provides that Westlake Partners will distribute cash each quarter to all the unitholders, pro rata, until each unit has received a distribution of \$1.2938. If cash distributions to Westlake Partners' unitholders exceed \$1.2938 per unit in any quarter, Westlake Partners' unitholders and Westlake, as the holder of the Westlake Partners' incentive distribution rights, will receive distributions according to the following percentage allocations per the amendment:

	Marginal Percentage Interest in Distributions	
Total Quarterly Distribution Per Unit	Unitholders	IDR Holders
Above \$1.2938 up to \$1.4063	85.0%	15.0%

Above \$1.4063 up to \$1.6875 75.0% 25.0 %

Above \$1.6875 50.0% 50.0 %

The Westlake Partners' distribution for the three months ended September 30, 2018 did not exceed the \$1.2938 per unit threshold, and, as a result of the amendment, no distribution was made with respect to Westlake Partners' IDRs to Westlake, as the holder of the Westlake Partners' IDRs.

WESTLAKE CHEMICAL CORPORATION
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued
 (Unaudited)
 (in millions of dollars, except share amounts and per share data)

Prior to the amendment, Westlake Partners' partnership agreement provided that Westlake Partners' unitholders and Westlake, as the holder of Westlake Partners' IDRs, would receive distributions according to the following percentage allocations:

Total Quarterly Distribution Per Unit	Marginal Percentage Interest in Distributions	
	Unitholders	IDR Holders
Above \$0.3163 up to \$0.3438	85.0%	15.0%
Above \$0.3438 up to \$0.4125	75.0%	25.0%
Above \$0.4125	50.0%	50.0%

16. Subsequent Events

On October 4, 2018, Westlake Partners and Westlake Chemical Partners GP LLC, the general partner of Westlake Partners, entered into an Equity Distribution Agreement with UBS Securities LLC, Barclays Capital Inc., Citigroup Global Markets Inc., Deutsche Bank Securities Inc., RBC Capital Markets, LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Wells Fargo Securities, LLC to offer and sell Westlake Partners' common units, from time to time, up to an aggregate offering amount of \$50.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion and analysis should be read in conjunction with information contained in the accompanying unaudited consolidated interim financial statements of Westlake Chemical Corporation ("Westlake" or the "Company") and the notes thereto and the consolidated financial statements and notes thereto of Westlake Chemical Corporation included in Westlake Chemical Corporation's Annual Report on Form 10-K for the fiscal year ended December 31, 2017 (the "2017 Form 10-K"). The following discussion contains forward-looking statements. Please read "Forward-Looking Statements" for a discussion of limitations inherent in such statements.

We are a vertically integrated global manufacturer and marketer of petrochemicals, polymers and building products. Our two principal operating segments are Olefins and Vinyls. We use the majority of our internally-produced basic chemicals to produce higher value-added chemicals and building products.

Consumption of the basic chemicals that we manufacture in the commodity portions of our olefins and vinyls processes has increased significantly since we began operations in 1986. Our olefins and vinyls products are some of the most widely used chemicals in the world and are upgraded into a wide variety of higher value-added chemical products used in many end-markets. Petrochemicals are typically manufactured in large volume by a number of different producers using widely available technologies. The petrochemical industry exhibits cyclical commodity characteristics, and margins are influenced by changes in the balance between supply and demand and the resulting operating rates, the level of general economic activity and the price of raw materials. The cycle is generally characterized by periods of tight supply, leading to high operating rates and margins, followed by a decline in operating rates and margins primarily as a result of excess new capacity additions. Due to the significant size of new plants, capacity additions are built in large increments and typically require several years of demand growth to be absorbed.

Ethane-based ethylene producers have experienced a cost advantage over naphtha-based ethylene producers for several years. This cost advantage has resulted in a strong export market for polyethylene and other ethylene derivatives. In addition, continued global demand for polyethylene has benefited operating margins and cash flows for our Olefins segment in recent years. However, new ethylene and polyethylene capacity additions in North America, Asia and the Middle East has resulted in higher demand for ethane resulting in higher feedstock costs as well as additional supply of ethylene and polyethylene, resulting in lower profitability for our Olefins segment in recent

periods. Looking forward, new ethylene and polyethylene capacity additions in North America, Asia and the Middle East will add additional supply which may continue to lead to periods of lower profitability despite the recent trend of rising crude oil prices. However, increasing demand driven by strong economic growth may be able to absorb such additional supply.

Table of Contents

Since late 2010, the PVC industry in the U.S. has experienced an increase in PVC resin exports, driven largely by more competitive feedstock and energy cost positions in the U.S. As a consequence, the U.S. PVC resin industry operating rates have improved since 2010. In addition, our 2014 acquisition of Vinnolit Holdings GmbH and its subsidiary companies ("Vinnolit"), an integrated global leader in specialty PVC resins, has contributed to improved operating margins and cash flows for our Vinyls segment. With the acquisition of Axiall Corporation ("Axiall") in 2016, Westlake is the third-largest global chlor-alkali producer and the third-largest PVC producer in the world. Westlake is the second-largest purchaser of ethylene in the U.S., and lower prices of ethylene could positively impact our Vinyls segment. Our recent announcement of the binding offer to acquire NAKAN, a global compounding solutions business, is expected to expand our Vinyls segment's downstream business and increase our global footprint. Globally, there were large chlor-alkali capacity additions between 2008 and 2015 resulting in excess capacity and lower industry operating rates which exerted downward pressure on caustic soda pricing. Since 2015, the capacity additions have been outpaced by the increase in demand driven by improving economic growth and U.S. producers' competitive export position, which has resulted in improved operating rates and caustic soda pricing. The economic environment in the U.S. and globally has been improving. However, depending on the performance of the global economy and potential changes in tariffs and trade policies in the remainder of 2018 and beyond, our financial condition, results of operations or cash flows could be positively or negatively impacted.

Non-GAAP Financial Measures

The body of accounting principles generally accepted in the United States is commonly referred to as "GAAP." For this purpose, a non-GAAP financial measure is generally defined by the SEC as one that purports to measure historical or future financial performance, financial position or cash flows, but excludes or includes amounts that would not be so adjusted in the most comparable GAAP measures. In this report, we disclose non-GAAP financial measures, primarily earnings before interest, taxes, depreciation and amortization ("EBITDA"). EBITDA is calculated as net income before interest expense, income taxes, depreciation and amortization. The non-GAAP financial measures described in this Form 10-Q are not substitutes for the GAAP measures of earnings and cash flows. EBITDA is included in this Form 10-Q because our management considers it an important supplemental measure of our performance and believes that it is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry, some of which present EBITDA when reporting their results. We regularly evaluate our performance as compared to other companies in our industry that have different financing and capital structures and/or tax rates by using EBITDA. In addition, we utilize EBITDA in evaluating acquisition targets. Management also believes that EBITDA is a useful tool for measuring our ability to meet our future debt service, capital expenditures and working capital requirements, and EBITDA is commonly used by us and our investors to measure our ability to service indebtedness. EBITDA is not a substitute for the GAAP measures of earnings or of cash flows and is not necessarily a measure of our ability to fund our cash needs. In addition, it should be noted that companies calculate EBITDA differently and, therefore, EBITDA as presented for us may not be comparable to EBITDA reported by other companies. EBITDA has material limitations as a performance measure because it excludes interest expense, depreciation and amortization, and income taxes.

Recent Developments

On October 4, 2018, Westlake Chemical Partners LP ("Westlake Partners") and Westlake Chemical Partners GP LLC, the general partner of Westlake Partners, entered into an Equity Distribution Agreement (the "ATM Agreement") with UBS Securities LLC, Barclays Capital Inc., Citigroup Global Markets Inc., Deutsche Bank Securities Inc., RBC Capital Markets, LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Wells Fargo Securities, LLC (collectively, the "Managers"). Pursuant to the terms of the ATM Agreement, Westlake Partners may offer and sell common units representing limited partner interests in Westlake Partners from time to time to, or through, the Managers, as Westlake Partners' sales agents or as principals, having an aggregate offering amount of up to \$50 million. Westlake Partners intends to use the net proceeds of sales of the common units for general partnership purposes, including the funding of potential future drop-downs and other acquisitions.

On September 25, 2018, we announced that we have issued an exclusive, binding offer to acquire NAKAN, a global compounding solutions business. NAKAN, headquartered in Reims, France, has eight production facilities, located in

China, France, Germany, Italy, Japan, Mexico, Spain and Vietnam, as well as a world-class research facility in France and application laboratory in the United States. NAKAN's products are used in a wide-variety of applications, including in the automotive, building and construction, and medical industries. Under the terms of the offer, which is subject to exclusivity protection, Westlake will pay approximately \$265 million in cash, subject to adjustment. The binding offer was made in order to permit NAKAN to proceed with its consultation obligations with French works councils prior to entering into a negotiated, mutually binding purchase agreement. The transaction is expected to close by early 2019, subject to receipt of regulatory approvals, completion of required employee consultation procedures and other customary closing conditions.

Table of Contents

On August 17, 2018, our Board of Directors authorized the Company to repurchase an additional \$150 million of shares of its common stock under its 2014 share repurchase program.

We have an 81.7% limited partner interest in Westlake Chemical OpCo LP ("OpCo"), a 43.8% limited partner interest in Westlake Partners, a general partner interest in Westlake Partners and incentive distribution rights ("IDRs"). On July 27, 2018, the Westlake Partners' partnership agreement was amended to revise the minimum quarterly distribution thresholds for Westlake Partners' IDRs. For more information on the amendment, see Note 15 to the consolidated financial statements.

On July 24, 2018, the Company entered into a new \$1 billion revolving credit facility that is scheduled to mature on July 24, 2023. See "Liquidity and Capital Resources—Debt—Credit Agreement" for more information.

Table of Contents

Summary

For the quarter ended September 30, 2018, net income attributable to Westlake was \$308 million, or \$2.35 per diluted share, on net sales of \$2,255 million. This represents an increase in net income attributable to Westlake of \$97 million, or \$0.74 per diluted share, compared to the third quarter of 2017 net income attributable to Westlake of \$211 million, or \$1.61 per diluted share, on net sales of \$2,109 million. Net income for the third quarter of 2018 increased versus the prior-year period primarily due to (1) higher sales prices for caustic soda; (2) higher sales volumes for caustic soda, polyethylene and PVC resin; (3) lower purchased ethylene costs; (4) a lower effective income tax rate resulting from the reduced U.S. corporate income tax rate under the U.S. Tax Cuts and Jobs Act (the "Tax Act"); (5) higher other income, including a one-time gain of \$14 million, or \$0.08 per diluted share, associated with the settlement of certain pension liabilities; and (6) a lower interest expense due to the repayment of \$688 million of debt in February 2018 and \$450 million of debt in May 2018. These increases were partially offset by higher ethane feedstock costs. Net sales for the third quarter of 2018 increased by \$146 million compared to net sales for the third quarter of 2017, mainly due to higher sales prices for caustic soda and increases in sales volumes for caustic soda, polyethylene and PVC resin. Income from operations was \$396 million for the third quarter of 2018 as compared to \$364 million for the third quarter of 2017. The increase in income from operations was mainly a result of higher sales prices for caustic soda, higher sales volumes for caustic soda, polyethylene and PVC resin and lower purchased ethylene costs, partially offset by higher ethane feedstock costs, as compared to the third quarter of 2017. Transaction and integration-related costs in the third quarter of 2018 were \$5 million, or \$0.03 per diluted share.

For the nine months ended September 30, 2018, net income attributable to Westlake Chemical Corporation was \$873 million, or \$6.67 per diluted share, on net sales of \$6,640 million. This represents an increase in net income attributable to Westlake of \$371 million, or \$2.82 per diluted share, compared to the nine months ended September 30, 2017 net income attributable to Westlake of \$502 million, or \$3.85 per diluted share, on net sales of \$6,031 million. Net income for the first nine months of 2018 increased versus the prior-year period primarily due to (1) higher sales prices for most of our major products, resulting in improved margins; (2) higher sales volumes for caustic soda and PVC resin; (3) lower purchased ethylene costs; (4) a lower effective income tax rate resulting from the reduced U.S. corporate income tax rate under the Tax Act; (5) higher other income, including a one-time pension settlement gain of \$14 million, a \$6 million pre-tax net gain from the redemption of the 2021 Notes and higher income from unconsolidated subsidiaries; and (6) a lower interest expense. Net sales for the nine months ended September 30, 2018 increased by \$609 million compared to net sales for the nine months ended September 30, 2017, mainly due to higher sales prices for major products and increases in sales volumes for caustic soda and PVC resin, partially offset by lower styrene sales volume. Income from operations was \$1,201 million for the nine months ended September 30, 2018 as compared to \$862 million for the nine months ended September 30, 2017. The increase in income from operations for the nine months ended September 30, 2018 was mainly a result of higher sales prices for our major products, higher sales volumes for caustic soda and PVC resin, lower purchased ethylene costs and improved operating rates in the Vinyls segment due to fewer planned turnarounds and unplanned outages, partially offset by higher ethane feedstock costs, as compared to the nine months ended September 30, 2017. Transaction and integration-related costs in the nine months ended September 30, 2018 were \$20 million, or after tax \$0.12 per diluted share.

RESULTS OF OPERATIONS

Third Quarter 2018 Compared with Third Quarter 2017

Net Sales. Net sales increased by \$146 million, or 6.9%, to \$2,255 million in the third quarter of 2018 from \$2,109 million in the third quarter of 2017, primarily attributable to higher sales prices for caustic soda and higher sales volumes for caustic soda, polyethylene and PVC resin. Average sales prices for the third quarter of 2018 increased by 4.9% as compared to the third quarter of 2017. Overall sales volume increased by 2.0% for the third quarter of 2018 as compared to the third quarter of 2017.

Gross Profit. Gross profit margin percentage increased to 23.9% in the third quarter of 2018 from 23.5% in the third quarter of 2017. The third quarter of 2018 gross profit margin was higher primarily due to higher sales prices for caustic soda and styrene (resulting in improved margins), higher sales volumes for polyethylene and PVC resin and

lower purchased ethylene costs, partially offset by higher ethane feedstock costs, as compared to the third quarter of 2017.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by \$16 million to \$114 million in the third quarter of 2018 as compared to \$98 million in the third quarter of 2017. This increase was mainly due to an increase in employee compensation and professional consulting fees.

Amortization of Intangibles. Amortization expense was \$24 million in the third quarter of 2018 as compared to \$27 million in the third quarter of 2017. Amortization expense for the third quarter of 2017 was slightly higher due to the Axiall purchase price allocation related adjustment in the earlier part of that quarter.

Table of Contents

Transaction and Integration-related Costs. The transaction and integration-related costs of \$5 million in the third quarter of 2018 were comparable to \$7 million in the third quarter of 2017. The transaction and integration-related costs primarily consisted of integration-related consulting fees and severance benefits provided in conjunction with the Axiall merger and costs associated with the pending NAKAN acquisition.

Interest Expense. Interest expense decreased by \$12 million to \$28 million in the third quarter of 2018 from \$40 million in the third quarter of 2017, primarily as a result of lower average debt outstanding in the third quarter of 2018 as compared to the third quarter of 2017. The lower average debt balance in the third quarter of 2018 was mainly due to the redemption of the 2023 Notes in May 2018 and the 2021 Notes in February 2018. See "Liquidity and Capital Resources—Debt" below for further discussion of our indebtedness.

Other Income (Expense), Net. Other income, net increased by \$19 million to \$23 million in the third quarter of 2018 from \$4 million in the third quarter of 2017. The increase was primarily attributable to a one-time pension settlement pre-tax gain of \$14 million, increased interest income and higher income from unconsolidated subsidiaries.

Income Taxes. The effective income tax rate was 18.7% for the third quarter of 2018 as compared to 33.1% for the third quarter of 2017. The lower effective tax rate in the third quarter of 2018 as compared to the third quarter of 2017 was primarily a result of the tax law changes enacted under the Tax Act. The Tax Act was signed into law on December 22, 2017. The Tax Act, among other changes, reduced the U.S. corporate income tax rate from 35.0% to 21.0%, effective January 1, 2018, and also required a one-time deemed repatriation of foreign earnings at specified rates. The effective income tax rate for the third quarter of 2018 was below the U.S. federal statutory rate of 21.0% primarily due to certain discrete tax benefit adjustments related to the re-measurement of state deferred tax balances and change in income tax estimate as a result of the filing of our 2017 U.S. federal income tax return. The effective income tax rate for the third quarter of 2017 was below the U.S. federal statutory rate of 35.0% primarily due to a higher domestic manufacturing deduction, depletion deductions, income attributable to noncontrolling interests, research and development credits and the foreign earnings rate differential, partially offset by state income taxes.

Olefins Segment

Net Sales. Net sales for the Olefins segment increased by \$39 million, or 7.8%, to \$541 million in the third quarter of 2018 from \$502 million in the third quarter of 2017. The increase was mainly due to higher sales volume for polyethylene and higher styrene sales price. Average sales volumes for the Olefins segment increased by 6.1% in the third quarter of 2018 as compared to the third quarter of 2017. Average sales prices for the Olefins segment increased marginally by 1.7% in the third quarter of 2018 as compared to the third quarter of 2017.

Income from Operations. Income from operations for the Olefins segment decreased by \$4 million to \$162 million in the third quarter of 2018 from \$166 million in the third quarter of 2017. This decrease was primarily due to lower margins resulting from higher feedstock costs, partially offset by higher sales volume for polyethylene and higher styrene sales prices, as compared to the prior-year period. Trading activity for the third quarter of 2018 resulted in a gain of \$4 million as compared to a gain of \$7 million for the third quarter of 2017.

Vinyls Segment

Net Sales. Net sales for the Vinyls segment increased by \$107 million, or 6.7%, to \$1,714 million in the third quarter of 2018 from \$1,607 million in the third quarter of 2017. This increase was mainly attributable to higher sales prices for caustic soda and higher sales volumes for caustic soda and PVC resin, as compared to the prior-year period.

Average sales prices for the Vinyls segment increased by 5.9% in the third quarter of 2018, as compared to the third quarter of 2017. Average sales volumes for the Vinyls segment increased by 0.7% in the third quarter of 2018 as compared to the third quarter of 2017.

Income from Operations. Income from operations for the Vinyls segment increased by \$37 million to \$251 million in the third quarter of 2018 from \$214 million in the third quarter of 2017. This increase was mainly attributable to higher sales prices and volumes for caustic soda, higher volumes for PVC resin and lower purchased ethylene costs.

Nine Months Ended September 30, 2018 Compared with Nine Months Ended September 30, 2017

Net Sales. Net sales increased by \$609 million, or 10.1%, to \$6,640 million for the nine months ended September 30, 2018 from \$6,031 million for the nine months ended September 30, 2017, primarily attributable to higher sales prices for our major products and higher sales volumes for caustic soda and PVC resin. Average sales prices for the nine

months ended September 30, 2018 increased by 7.1% as compared to the nine months ended September 30, 2017. Overall sales volume increased by 3.0% for the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017.

Table of Contents

Gross Profit. Gross profit margin percentage increased to 24.6% for the nine months ended September 30, 2018 from 21.0% for the nine months ended September 30, 2017. The nine months ended September 30, 2018 gross profit margin was higher primarily due to higher sales prices for our major products, higher sales volumes for caustic soda and PVC resin, lower purchased ethylene costs and improved operating rates in the Vinyls segment due to fewer planned turnarounds and unplanned outages, partially offset by higher ethane feedstock costs, as compared to the nine months ended September 30, 2017.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by \$39 million to \$337 million for the nine months ended September 30, 2018 as compared to \$298 million for the nine months ended September 30, 2017. This increase was mainly due to an increase in employee compensation and professional consulting fees.

Amortization of Intangibles. Amortization expense was \$75 million for the nine months ended September 30, 2018 as compared to \$82 million for the nine months ended September 30, 2017. Amortization expense for the nine months ended September 30, 2017 was higher due to the Axiall purchase price allocation related adjustment to the customer relationship balance.

Transaction and Integration-related Costs. The transaction and integration-related costs of \$20 million for the nine months ended September 30, 2018 were comparable to \$23 million for the nine months ended September 30, 2017. The transaction and integration-related costs primarily consisted of integration-related consulting fees and severance benefits provided in conjunction with the Axiall merger.

Interest Expense. Interest expense decreased by \$23 million to \$96 million for the nine months ended September 30, 2018 from \$119 million for the nine months ended September 30, 2017, primarily as a result of lower average debt outstanding for the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017. The lower average debt balance for the nine months ended September 30, 2018 was mainly due to the redemption of the 2023 Notes in May 2018 and the 2021 Notes in February 2018. See "Liquidity and Capital Resources—Debt" below for further discussion of our indebtedness.

Other Income (Expense), Net. Other income, net increased by \$40 million to \$53 million for the nine months ended September 30, 2018 from \$13 million for the nine months ended September 30, 2017. The increase was primarily attributable to a one-time pension settlement gain of \$14 million, a net gain of \$6 million recognized on the redemption of the 2021 Notes and increased interest income and income from unconsolidated subsidiaries.

Income Taxes. The effective income tax rate was 22.0% for the nine months ended September 30, 2018 as compared to 30.8% for the nine months ended September 30, 2017. The lower effective tax rate for the nine months ended September 30, 2018 was primarily a result of the tax law changes enacted under the Tax Act. The effective income tax rate for the nine months ended September 30, 2018 was above the U.S. federal statutory rate of 21.0% primarily due to state and foreign taxes. The effective income tax rate for the nine months ended September 30, 2017 was below the U.S. federal statutory rate of 35.0% primarily due to certain discrete adjustments, a higher domestic manufacturing deduction, depletion deductions, income attributable to noncontrolling interests, research and development credits and the foreign earnings rate differential, partially offset by state income taxes.

Olefins Segment

Net Sales. Net sales for the Olefins segment decreased by \$8 million, or 0.5%, to \$1,526 million for the nine months ended September 30, 2018 from \$1,534 million for the nine months ended September 30, 2017. The decrease was mainly due to lower sales volume for styrene as a result of a planned turnaround in our Olefins segment in the second quarter of 2018, partially offset by higher sales prices for our major products, as compared to the prior-year period.

Average sales volumes for the Olefins segment decreased by 2.8% for the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017. Average sales prices for the Olefins segment increased by 2.2% for the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017.

Income from Operations. Income from operations for the Olefins segment decreased by \$6 million to \$483 million for the nine months ended September 30, 2018 from \$489 million for the nine months ended September 30, 2017. The decrease was primarily due to higher feedstock costs and impacts associated with planned turnarounds and unplanned outages, partially offset by higher sales prices for our major products, as compared to the prior-year period. Trading

activity for the nine months ended September 30, 2018 resulted in a gain of \$6 million as compared to a loss of \$3 million for the nine months ended September 30, 2017.

Table of Contents

Vinyls Segment

Net Sales. Net sales for the Vinyls segment increased by \$617 million, or 13.7%, to \$5,114 million for the nine months ended September 30, 2018 from \$4,497 million for the nine months ended September 30, 2017. This increase was mainly attributable to higher sales prices and volumes for our major products as compared to the prior-year period. Average sales prices for the Vinyls segment increased by 8.8% for the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017. Average sales volumes for the Vinyls segment increased by 5.0% in the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017.

Income from Operations. Income from operations for the Vinyls segment increased by \$363 million to \$788 million for the nine months ended September 30, 2018 from \$425 million for the nine months ended September 30, 2017. This increase was mainly attributable to higher sales prices and volumes for our major products, lower purchased ethylene costs, improved operating rates and lower costs associated with planned turnarounds and unplanned outages, as compared to the nine months ended September 30, 2017.

CASH FLOW DISCUSSION FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2018 AND 2017

Cash Flows

Operating Activities

Operating activities provided cash of \$1,155 million in the first nine months of 2018 compared to cash provided by operating activities of \$962 million in the first nine months of 2017. The \$193 million increase in cash flows from operating activities was mainly due to an increase in income from operations during the first nine months of 2018 as compared to the first nine months of 2017, partially offset by an increase in working capital requirements and higher turnaround related expenditures during the nine months ended September 30, 2018 as compared to the nine months ended September 30, 2017. The increase in income from operations was primarily due to higher prices for our major products and stronger sales for Vinyls segment products. Changes in components of working capital, which we define for purposes of this cash flow discussion as accounts receivable, net, inventories, prepaid expenses and other current assets, less accounts payable and accrued liabilities, used cash of \$252 million in the first nine months of 2018, compared to \$26 million of cash used in the first nine months of 2017, an unfavorable change of \$226 million. The change was mainly driven by unfavorable changes in accounts receivable, inventories and accounts payable and accrued liabilities. Unfavorable changes were primarily the result of an increase in sales and higher feedstock costs in the first nine months of 2018, as compared to the first nine months of 2017, as well as changes in accounts payable and accrued liabilities primarily due to the timing of purchases and payments to suppliers.

Investing Activities

Net cash used for investing activities during the first nine months of 2018 was \$561 million as compared to net cash used for investing activities of \$460 million in the first nine months of 2017. Capital expenditures were \$507 million in the first nine months of 2018 compared to \$414 million in the first nine months of 2017. Capital expenditures in the first nine months of 2018 were primarily related to projects to improve production capacity or reduce costs, maintenance and safety projects and environmental projects at our various facilities. Capital expenditures in the first nine months of 2017 were incurred on the upgrade and expansion of OpCo's ethylene unit at our Calvert City site and on projects to improve production capacity or reduce costs, maintenance and safety projects and environmental projects at our various facilities. We spent \$53 million and \$47 million in the first nine months of 2018 and 2017, respectively, to fund the construction costs of the ethylene plant contemplated by our joint venture LACC, LLC ("LACC"). In addition, we invested \$10 million in other unconsolidated subsidiaries in the first nine months of 2018. Please see "Liquidity and Capital Resources—Liquidity and Financing Arrangements" below for further discussion on LACC.

Table of Contents

Financing Activities

Net cash used for financing activities during the first nine months of 2018 was \$1,331 million as compared to net cash used by financing activities of \$460 million in the first nine months of 2017. We used \$1,177 million for the repayment of notes payable, of which \$704 million was used for the redemption of the 2021 Notes in February 2018 and \$461 million was used for the redemption of the 2023 Notes in May 2018 and the remaining balance was used for the repayment of short-term notes payable. The remaining activities during the first nine months of 2018 were primarily related to the \$87 million payment of cash dividends, the \$37 million payment of cash distributions to noncontrolling interests and proceeds of \$11 million from the issuance of short-term notes payable. The financing activities during the first nine months of 2017 were mainly related to the repayment of our term loan of \$150 million and the repayment of borrowings under the Credit Agreement in the amount of \$550 million. These uses were partially offset by a drawdown under the Credit Agreement of \$225 million and net proceeds of \$111 million from the issuance of Westlake Partners' common units in its secondary offering in September 2017. The remaining activity during the first nine months of 2017 was primarily related to the \$76 million payment of cash dividends, the \$21 million payment of cash distributions to noncontrolling interests and the repayment of \$7 million of short-term notes payable to banks in connection with the payment of suppliers through letters of credit.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity and Financing Arrangements

Our principal sources of liquidity are from cash and cash equivalents, cash from operations, short-term borrowings under the Credit Agreement and our long-term financing.

On July 24, 2018, the Company entered into a new \$1 billion revolving credit facility that is scheduled to mature on July 24, 2023. See "Liquidity and Capital Resources—Debt—Credit Agreement" for more information.

In November 2014, our Board of Directors authorized a \$250 million share repurchase program (the "2014 Program").

In November 2015, our Board of Directors approved the expansion of the 2014 Program by an additional \$150 million. In August 2018, our Board of Directors approved the further expansion of the existing 2014 Program by an additional \$150 million. As of September 30, 2018, we had repurchased 4,709,451 shares of our common stock for an aggregate purchase price of approximately \$278 million under the 2014 Program. During the nine months ended September 30, 2018, 515,853 shares of our common stock were repurchased under the 2014 Program. Purchases under the 2014 Program may be made either through the open market or in privately negotiated transactions.

Decisions regarding the amount and the timing of purchases under the 2014 Program will be influenced by our cash on hand, our cash flow from operations, general market conditions and other factors. The 2014 Program may be discontinued by our Board of Directors at any time.

In connection with the Axiall merger, we became a party to the LACC joint venture. The ethylene facility is located adjacent to our vinyls facility in Lake Charles. Pursuant to the contribution and subscription agreement, we agreed to make a maximum capital commitment to LACC of up to \$225 million to fund the construction costs of the ethylene plant, which represents approximately 10.0% of the interests in LACC. The construction of the ethylene plant commenced in January 2016, with an anticipated start-up in 2019. As of September 30, 2018, we had funded approximately \$178 million of our portion of the construction costs of the ethylene plant.

On September 25, 2018, we announced that we have issued an exclusive, binding offer to acquire NAKAN, a global compounding solutions business. Under the terms of the offer, which is subject to exclusivity protection, Westlake will pay approximately \$265 million in cash, subject to adjustment.

On February 15 and May 15, 2018, we redeemed all of the 2021 Notes (\$688 million aggregate principal amount) and all of the 2023 Notes (\$450 million aggregate principal amount), respectively.

We believe that our sources of liquidity as described above are adequate to fund our normal operations and ongoing capital expenditures. Funding of any potential large expansions or any potential acquisitions would likely necessitate and therefore depend on our ability to obtain additional financing in the future. We may not be able to access additional liquidity at cost effective interest rates due to the volatility of the commercial credit markets.

Cash and Cash Equivalents

As of September 30, 2018, our cash and cash equivalents totaled \$788 million. In addition, we have the Credit Agreement available to supplement cash if needed, as described under "Debt" below.

Table of Contents

Debt

As of September 30, 2018, our indebtedness totaled \$2.7 billion. See Note 6 to the consolidated financial statements appearing elsewhere in this Form 10-Q for a discussion of our long-term indebtedness. Defined terms used in this section have the definitions assigned to such terms in Note 6 to the consolidated financial statements.

Our ability to make payments on our indebtedness and to fund planned capital expenditures will depend on our ability to generate cash in the future, which is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control. Based on our current level of operations and unless we were to undertake a new expansion or large acquisition, we believe our cash flows from operations, available cash and available borrowings under the Credit Agreement will be adequate to meet our normal operating needs for the foreseeable future.

Credit Agreement

On July 24, 2018, the Company entered into a new \$1 billion revolving credit facility that is scheduled to mature on July 24, 2023 (the "New Credit Agreement") and, in connection therewith, terminated the existing \$1 billion revolving credit facility that was scheduled to mature on August 23, 2021 (the "Credit Agreement"). The New Credit Agreement bears interest at either (a) LIBOR plus a spread ranging from 1.00% to 1.75% or (b) Alternate Base Rate plus a spread ranging from 0.00% to 0.75% in each case depending on the credit rating of the Company. At September 30, 2018, the Company had no borrowings outstanding under the New Credit Agreement. As of September 30, 2018, the Company had outstanding letters of credit totaling \$4 million and borrowing availability of \$996 million under the New Credit Agreement. The New Credit Agreement contains certain affirmative and negative covenants, including a quarterly total leverage ratio financial maintenance covenant. As of September 30, 2018, the Company was in compliance with the total leverage ratio financial maintenance covenant.

The New Credit Agreement also contains certain events of default and if and for so long as certain events of default have occurred and are continuing, any overdue amounts outstanding under the New Credit Agreement will accrue interest at an increased rate, the lenders can terminate their commitments thereunder and payments of any outstanding amounts could be accelerated by the lenders. None of the Company's subsidiaries are required to guarantee the obligations of the Company under the New Credit Agreement.

The New Credit Agreement includes a \$150 million sub-limit for letters of credit, and any outstanding letters of credit will be deducted from availability under the facility. The New Credit Agreement also provides for a discretionary \$50 million commitment for swingline loans to be provided on a same-day basis. The Company may also increase the size of the facility, in increments of at least \$25 million, up to a maximum of \$500 million, subject to certain conditions and if certain lenders agree to commit to such an increase.

In connection with the Company's entry into the New Credit Agreement and termination of the existing Credit Agreement on July 24, 2018, all guarantees by the Guarantor Subsidiaries of the Company's payment obligations under the 4.375% 2047 Senior Notes, the 3.60% 2022 Senior Notes, the 3.60% 2026 Senior Notes and the 5.0% 2046 Senior Notes were released.

GO Zone Bonds and IKE Zone Bonds

In November 2017, the Louisiana Local Government Environmental Facility and Development Authority (the "Authority") completed the offering of \$250 million aggregate principal amount of 3.50% tax-exempt revenue refunding bonds due November 1, 2032 (the "Refunding Bonds"), the net proceeds of which were used to redeem \$250 million aggregate principal amount of the Authority's 6 ³/₄% tax-exempt revenue bonds due November 1, 2032 issued by the Authority under the Gulf Opportunity Zone Act of 2005 (the "GO Zone Act") in December 2007. In connection with the issuance of the Refunding Bonds, we issued \$250 million of the 3.5% 2032 GO Zone Refunding Senior Notes. The Refunding Bonds are subject to optional redemption by the Authority upon the direction of the Company at any time on or after November 1, 2027, for 100% of the principal plus accrued interest.

In July 2010, the Authority completed the reoffering of \$100 million of the 6 ¹/₂% 2029 GO Zone Bonds. In connection with the reoffering of the 6 ¹/₂% 2029 GO Zone Bonds, we issued \$100 million of the 6 ¹/₂% 2029 GO Zone Senior Notes. In December 2010, the Authority issued \$89 million of the 6 ¹/₂% 2035 GO Zone Bonds. In connection with the issuance of the 6 ¹/₂% 2035 GO Zone Bonds, we issued \$89 million of the 6 ¹/₂% 2035 GO Senior Notes. In

December 2010, the Authority completed the offering of \$65 million of the 6 ½% 2035 IKE Zone Bonds under Section 704 of the Emergency Economic Stabilization Act of 2008 (the "IKE Zone Act"). In connection with the issuance of the 6 ½% 2035 IKE Zone Bonds, we issued \$65 million of the 6 ½% 2035 IKE Zone Senior Notes.

Table of Contents

The 6 ½% 2029 GO Zone Bonds are subject to optional redemption by the Authority upon the direction of the Company at any time prior to August 1, 2020 for 100% of the principal plus accrued interest and a discounted "make whole" payment. On or after August 1, 2020, the 6 ½% 2029 GO Zone Bonds are subject to optional redemption by the Authority upon the direction of the Company for 100% of the principal plus accrued interest. The 6 ½% 2035 GO Zone Bonds and the 6 ½% 2035 IKE Zone Senior Notes are subject to optional redemption by the Authority upon the direction of the Company at any time prior to November 1, 2020 for 100% of the principal plus accrued interest and a discounted "make whole" payment. On or after November 1, 2020, the 6 ½% 2035 GO Zone Bonds and the 6 ½% 2035 IKE Zone Senior Notes are subject to optional redemption by the Authority upon the direction of the Company for 100% of the principal plus accrued interest.

3.60% Senior Notes due 2026 and 5.0% Senior Notes due 2046

In August 2016, we completed the private offering of \$750 million aggregate principal amount of our 3.60% 2026 Senior Notes and \$700 million aggregate principal amount of our 5.0% 2046 Senior Notes. In March 2017 the Company commenced registered exchange offers to exchange the 3.60% 2026 Senior Notes and the 5.0% 2046 Senior Notes for new notes that are identical in all material respects to the 3.60% 2026 Senior Notes and the 5.0% 2046 Senior Notes, except that the offer and issuance of the new Securities and Exchange Commission ("SEC")-registered notes have been registered under the Securities Act of 1933, as amended (the "Securities Act"). The exchange offers expired on April 24, 2017, and approximately 99.97% of the 3.60% 2026 Senior Notes and 100% of the 5.0% 2046 Senior Notes were exchanged. The notes that were not exchanged in the exchange offers have not been registered under the Securities Act or any state securities laws and may not be offered or sold in the U.S. absent registration or an applicable exemption from registration requirements or a transaction not subject to the registration requirements of the Securities Act or any state securities law.

3.60% Senior Notes due 2022

In July 2012, we issued \$250 million aggregate principal amount of the 3.60% 2022 Senior Notes. We may optionally redeem the 3.60% 2022 Senior Notes at any time and from time to time prior to April 15, 2022 (three months prior to the maturity date) for 100% of the principal plus accrued interest and a discounted "make whole" payment. On or after April 15, 2022, we may optionally redeem the 3.60% 2022 Senior Notes for 100% of the principal plus accrued interest. The holders of the 3.60% 2022 Senior Notes may require us to repurchase the 3.60% 2022 Senior Notes at a price of 101% of their principal amount, plus accrued and unpaid interest to the date of repurchase, upon the occurrence of both a "change of control" and, within 60 days of such change of control, a "below investment grade rating event" (as such terms are defined in the indenture governing the 3.60% 2022 Senior Notes).

4.375% Senior Notes due 2047

In November 2017, we completed the registered public offering of \$500 million aggregate principal amount of 4.375% Senior Notes due November 15, 2047. We may optionally redeem the 4.375% 2047 Senior Notes at any time and from time to time prior to May 15, 2047 (six months prior to the maturity date) for 100% of the principal plus accrued interest and a discounted "make whole" payment. On or after May 15, 2047, we may optionally redeem the 4.375% 2047 Senior Notes for 100% of the principal amount plus accrued interest. The holders of the 4.375% 2047 Senior Notes may require us to repurchase the 4.375% 2047 Senior Notes at a price of 101% of their principal amount, plus accrued and unpaid interest to, but not including, the date of repurchase, upon the occurrence of both a "change of control" and, within 60 days of such change of control, a "below investment grade rating event" (as such terms are defined in the indenture governing the 4.375% 2047 Senior Notes).

Revenue Bonds

In December 1997, we entered into a loan agreement with a public trust established for public purposes for the benefit of the Parish of Calcasieu, Louisiana. The public trust issued \$11 million principal amount of tax-exempt waste disposal revenue bonds in order to finance our construction of waste disposal facilities for an ethylene plant. The waste disposal revenue bonds expire in December 2027 and are subject to redemption and mandatory tender for purchase prior to maturity under certain conditions. Interest on the waste disposal revenue bonds accrues at a rate determined by a remarketing agent and is payable quarterly. The interest rate on the waste disposal revenue bonds at September 30, 2018 was 1.64% and at December 31, 2017 was 1.73%.

The indenture governing the 3.60% 2026 Senior Notes, the 5.0% 2046 Senior Notes, the 3.60% 2022 Senior Notes and the 4.375% 2047 Senior Notes contains customary events of default and covenants that will restrict us and certain of our subsidiaries' ability to (1) incur certain secured indebtedness, (2) engage in certain sale-leaseback transactions and (3) consolidate, merge or transfer all or substantially all of its assets.

Table of Contents

As of September 30, 2018, we were in compliance with all of the covenants with respect to the 3.60% 2022 Senior Notes, the 3.60% 2026 Senior Notes, the 5.0% 2046 Senior Notes, the 4.375% 2047 Senior Notes, the 6 ½% 2029 GO Zone Senior Notes, the 3.50% 2032 Go Zone Refunding Senior Notes, the 6 ½% 2035 GO Zone Senior Notes, the 6 ½% 2035 IKE Zone Senior Notes, the New Credit Agreement and the waste disposal revenue bonds.

Westlake Chemical Partners LP Credit Arrangements

Our subsidiary, Westlake Chemical Finance Corporation, is the lender party to a \$600 million revolving credit facility with Westlake Partners, originally entered into on April 29, 2015. The revolving credit facility is scheduled to mature on April 29, 2021. Borrowings under the revolver bear interest at LIBOR plus a spread ranging from 2.0% to 3.0% (depending on Westlake Partners' consolidated leverage ratio), payable quarterly. Westlake Partners may pay all or a portion of the interest on any borrowings in kind, in which case any such amounts would be added to the principal amount of the loan. As of September 30, 2018, outstanding borrowings under the credit facility totaled \$254 million and bore interest at the LIBOR rate plus 2.0%.

Our subsidiary, Westlake Polymers LLP, is the lender party to a \$600 million revolving credit facility with OpCo. The revolving credit facility was amended on September 25, 2018 to extend the maturity date from August 2019 to September 2023 and to revise the applicable margin from 3.0% to 2.0%. As of September 30, 2018, outstanding borrowings under the credit facility totaled \$224 million and bore interest at the LIBOR rate plus 2.0%, which is accrued in arrears quarterly.

We consolidate Westlake Partners and OpCo for financial reporting purposes as we have a controlling financial interest. As such, the revolving credit facilities described above between our subsidiaries and Westlake Partners and OpCo are eliminated upon consolidation.

Off-Balance Sheet Arrangements

None.

FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides safe harbor provisions for forward-looking information. Certain of the statements contained in this report are forward-looking statements. All statements, other than statements of historical facts, included in this report that address activities, events or developments that we expect, project, believe or anticipate will or may occur in the future are forward-looking statements. Forward-looking statements can be identified by the use of words such as "believes," "intends," "may," "should," "could," "anticipates," "expected" or comparable terminology, or by discussions of strategies or trends. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we cannot give any assurances that these expectations will prove to be correct. Forward-looking statements relate to matters such as:

future operating rates, margins, cash flows and demand for our products;

industry market outlook, including the price of crude oil;

production capacities;

currency devaluation;

our ability to borrow additional funds under the Credit Agreement;

- our ability to meet our liquidity needs;

our ability to meet debt obligations under our debt instruments;

our intended quarterly dividends;

future capacity additions and expansions in the industry;

timing, terms and results of our pending offer to acquire NAKAN;

timing, funding and results of capital projects, such as the construction of the LACC plant and associated facilities;

pension plan obligations, funding requirements and investment policies;

compliance with present and future environmental regulations and costs associated with environmentally related

penalties, capital expenditures, remedial actions and proceedings, including any new laws, regulations or treaties that may come into force to limit or control carbon dioxide and other greenhouse gases emissions or to address other issues of climate change;

•effects of pending legal proceedings; and

35

Table of Contents

timing of and amount of capital expenditures.

We have based these statements on assumptions and analyses in light of our experience and perception of historical trends, current conditions, expected future developments and other factors we believe were appropriate in the circumstances when the statements were made. Forward-looking statements by their nature involve substantial risks and uncertainties that could significantly impact expected results, and actual future results could differ materially from those described in such statements. While it is not possible to identify all factors, we continue to face many risks and uncertainties. Among the factors that could cause actual future results to differ materially are the risks and uncertainties discussed under "Risk Factors" in the 2017 Form 10-K and those described from time to time in our other filings with the SEC including, but not limited to, the following:

- general economic and business conditions;
- the cyclical nature of the chemical industry;
- the availability, cost and volatility of raw materials and energy;
- uncertainties associated with the United States, European and worldwide economies, including those due to political tensions and unrest in the Middle East, the Commonwealth of Independent States (including Ukraine) and elsewhere;
- current and potential governmental regulatory actions in the United States and other countries and political unrest in other areas, including environmental regulations;
- industry production capacity and operating rates;
- the supply/demand balance for our products;
- competitive products and pricing pressures;
- instability in the credit and financial markets;
- access to capital markets;
- terrorist acts;
- operating interruptions (including leaks, explosions, fires, weather-related incidents, mechanical failure, unscheduled downtime, labor difficulties, transportation interruptions, spills and releases and other environmental risks);
- changes in laws or regulations, including trade policies;
- technological developments;
- foreign currency exchange risks;
- our ability to implement our business strategies; and
- creditworthiness of our customers.

Many of such factors are beyond our ability to control or predict. Any of the factors, or a combination of these factors, could materially affect our future results of operations and the ultimate accuracy of the forward-looking statements. These forward-looking statements are not guarantees of our future performance, and our actual results and future developments may differ materially from those projected in the forward-looking statements. Management cautions against putting undue reliance on forward-looking statements or projecting any future results based on such statements or present or prior earnings levels. Every forward-looking statement speaks only as of the date of the particular statement, and we undertake no obligation to publicly update or revise any forward-looking statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Commodity Price Risk

A substantial portion of our products and raw materials are commodities whose prices fluctuate as market supply and demand fundamentals change. Accordingly, product margins and the level of our profitability tend to fluctuate with changes in the business cycle. We try to protect against such instability through various business strategies. Our strategies include ethylene feedstock flexibility and moving downstream into the olefins and vinyls products where pricing is more stable. We use derivative instruments in certain instances to reduce price volatility risk on feedstocks and products. Based on our open derivative positions at September 30, 2018, a hypothetical \$0.10 increase in the price of a gallon of ethane would have increased our income before taxes by \$3 million and a hypothetical \$0.10 increase in the price of a mmbtu of natural gas would have increased our income before taxes by \$1 million.

Table of Contents

Interest Rate Risk

We are exposed to interest rate risk with respect to fixed and variable rate debt. At September 30, 2018, we had \$11 million principal amount of variable rate debt outstanding. The debt outstanding under the tax-exempt waste disposal revenue bonds is at a variable rate. We do not currently hedge our variable interest rate debt, but we may do so in the future. The average variable interest rate for our variable rate debt of \$11 million as of September 30, 2018 was 1.64%. A hypothetical 100 basis point increase in the average interest rate on our variable rate debt would not result in a material change in the interest expense. Also, at September 30, 2018, we had \$2,704 million aggregate principal amount of fixed rate debt. We are subject to the risk of higher interest cost if and when this debt is refinanced. If interest rates were 1.0% higher at the time of refinancing, our annual interest expense would increase by approximately \$27 million.

Foreign Currency Exchange Rate Risk

We are exposed to foreign currency exchange rate risk associated with our international operations. However, the effect of fluctuations in foreign currency exchange rates caused by our international operations has not had a material impact on our overall operating results. From time to time, we may engage in activities to mitigate our exposure to foreign currency exchange risk in certain instances through the use of currency exchange derivative instruments, including forward exchange contracts, cross-currency swaps or spot purchases. A forward exchange contract obligates us to exchange predetermined amounts of specified currencies at a stated exchange rate on a stated date. A cross-currency swap obligates us to make periodic payments in the local currency and receive periodic payments in our functional currency based on the notional amount of the instrument. In January 2018, we entered into hedging arrangements designated as net investment hedges with an aggregate notional value of 220 million euros to reduce the volatility in stockholders' equity from changes in currency exchange rates associated with our net investments in foreign operations.

Item 4. Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our President and Chief Executive Officer and our Executive Vice President and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures pursuant to Rules 13a-15 or 15d-15 under the Securities Exchange Act of 1934 as of the end of the period covered by this report. Based upon that evaluation, our President and Chief Executive Officer and our Executive Vice President and Chief Financial Officer concluded that our disclosure controls and procedures are effective with respect to (i) the accumulation and communication to our management, including our Chief Executive Officer and our Chief Financial Officer, of information required to be disclosed by us in the reports that we submit under the Exchange Act, and (ii) the recording, processing, summarizing and reporting of such information within the time periods specified in the SEC's rules and forms.

There were no changes in our internal control over financial reporting that occurred during the three months ended September 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The 2017 Form 10-K, filed on February 21, 2018, contained a description of various legal proceedings in which we are involved. See below and Note 13 to the unaudited consolidated financial statements within this Quarterly Report on Form 10-Q for description of certain of those proceedings, which information is incorporated by reference herein. From time to time, we receive notices or inquiries from government entities regarding alleged violations of environmental laws and regulations pertaining to, among other things, the disposal, emission and storage of chemical substances, including hazardous wastes. Item 103 of the SEC's Regulation S-K requires disclosure of certain environmental matters when a governmental authority is a party to the proceedings and the proceedings involve potential monetary sanctions, unless we reasonably believe such sanctions would not exceed \$100,000.

Table of Contents

In May 2013, an amendment to an existing consent order agreed to by the West Virginia Department of Environmental Protection and a predecessor of Axiall required that it, among other things, pay a penalty in the amount of \$449,000 and continue certain corrective actions associated with discharges of hexachlorocyclohexane (commonly referred to as BHC) from the Natrium, West Virginia facility's effluent discharge outfalls. The penalty was paid and corrective actions required are on-going per a December 2016 agreement to extend the compliance date under the amended consent order. The amended consent order also imposes stipulated penalties for exceedances of the facility's interim effluent discharge limits, which penalties we believe may, in the aggregate, reach or exceed \$100,000 by year end 2018.

During September 2010, our vinyls facilities in Lake Charles and Plaquemine each received a Consolidated Compliance Order and Notice of Potential Penalty, alleging violations of various requirements of those facilities' air permits, based largely on self-reported permit deviations related to record-keeping violations. We have been negotiating a possible global settlement of these and several other matters with the Louisiana Department of Environmental Quality ("LDEQ"). In May 2018, we reached an agreement in principal with the LDEQ to resolve these consolidated enforcement matters for a penalty of \$162,500. The settlement agreement is being prepared and when finalized will be subject to public comment and approval by the Louisiana Attorney General.

For several years, the Environmental Protection Agency (the "EPA") has been conducting an enforcement initiative against petroleum refineries and petrochemical plants with respect to emissions from flares. On April 21, 2014, we received a Clean Air Act Section 114 Information Request from the EPA which sought information regarding flares at the Calvert City, Kentucky facility and certain Lake Charles facilities. The EPA has informed us that the information provided leads the EPA to believe that some of the flares are out of compliance with applicable standards. The EPA has indicated that it is seeking a consent decree that would obligate us to take corrective actions relating to the alleged noncompliance. We believe the resolution of these matters may require the payment of a monetary sanction in excess of \$100,000.

Regional offices of the EPA have investigated, and in some cases inspected, our compliance with Risk Management Program requirements under the Clean Air Act at our Calvert City, Kentucky; Natrium, West Virginia and Geismar, Louisiana facilities. We believe the resolution of these matters may require the payment of a monetary sanction in excess of \$100,000.

On November 24, 2014, we entered into an Agreed Order with the Kentucky Energy and Environmental Cabinet ("KEEC") regarding our Kentucky Pollutant Discharge Elimination System ("KPDES") permit limits for hexachlorobenzene and mercury at our Calvert City, Kentucky facility. We and the KEEC recently negotiated a new Agreed Order under which we will be subject to new interim discharge limits for hexachlorobenzene in addition to accompanying stipulated penalties for exceedances of those interim discharge limits, which penalties we believe may, in the aggregate, reach or exceed \$100,000.

The KEEC has indicated that it intends to proceed with enforcement on two Notices of Violation ("NOVs") received by our Calvert City, Kentucky facility in December 2016 and May 2017. The NOVs allege violations of state and federal air requirements in connection with the operation of the olefins unit at the facility. In August 2018, the parties agreed to resolve the matter by entering into an order under which we will be obligated to undertake certain corrective actions and pay a penalty of \$175,000.

We do not believe that the resolution of any or all of these matters will have a material adverse effect on our financial condition, results of operations or cash flows.

Item 1A. Risk Factors

For a discussion of risk factors, please read Item 1A, "Risk Factors" in the 2017 Form 10-K. There have been no material changes from those risk factors.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information on our purchase of equity securities during the quarter ended September 30, 2018.

Period	Total Number of Shares Purchased (2)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs (2)
July 2018 ⁽¹⁾	1,301	\$ 107.34	—	\$ 171,285,000
August 2018	379,567	\$ 98.12	379,567	\$ 284,041,000
September 2018 ⁽¹⁾	136,952	\$ 91.25	136,286	\$ 271,606,000
	517,820	\$ 96.33	515,853	

(1) Includes 1,301 and 666 shares withheld during July 2018 and September 2018, respectively, in satisfaction of withholding taxes due upon the vesting of restricted stock units granted to our employees under the 2013 Plan.

In November 2014, our Board of Directors authorized a \$250 million share repurchase program (the "2014 Program"). In November 2015, our Board of Directors approved the expansion of the 2014 Program by an additional \$150 million. In August 2018, our Board of Directors approved the further expansion of the existing 2014 Program by an additional \$150 million. As of September 30, 2018, 4,709,451 shares of common stock had (2) been acquired at an aggregate purchase price of approximately \$278 million under the 2014 Program. Transaction fees and commissions are not reported in the average price paid per share in the table above. Decisions regarding the amount and the timing of purchases under the 2014 Program will be influenced by our cash on hand, our cash flow from operations, general market conditions and other factors. The 2014 Program may be discontinued by our Board of Directors at any time.
