-

Item 2.02 Results of Operations and Financial Condition

On April 21, 2005, Valassis issued a press release (the Press Release) announcing results for the quarter ended March 31, 2005. Furnished hereto as Exhibit 99.1 to this Current Report is a copy of the Press Release.

The information in Item 2.02 of the Current Report and the accompanying exhibit shall not be incorporated by reference into any filing by Valassis, whether made before or after the date hereof, regardless of any general incorporation language in such filing, unless expressly incorporated by specific reference in such filing.

Item 8.01 Other Events

The Press Release also announced that Valassis expects to restate its previously issued financial statements included in its Annual Report on Form 10-K for the year ended December 31, 2004 to reclassify its auction-rate securities as such, rather than within cash and cash equivalents. Auction-rate securities are long-term bonds that resemble short-term instruments and provide liquidity because their interest rates are reset periodically, usually every 7, 28, or 35 days. The rate is reset by a modified Dutch auction process and because investors can sell or buy the securities on those auction dates, the securities have long been regarded as cash equivalents.

Valassis is in the process of preparing its restated annual financial statements to properly classify these auction-rate securities in its consolidated balance sheets, consolidated statements of cash flows and footnote disclosure. It will file such restated financial statements as soon as practicable. The effect of the restatement will not have any impact on previously reported total assets, net earnings or net earnings per share, or the company's consolidated statements of income.

Item 9.01 Financial Statements and Exhibits.
