the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicated below the file number assigned to the
registrant in connection with Rule 12g3-2(b):

IFC provides US\$50 million to support GOL's Investment Plan

São Paulo, June 29, 2006 GOL Linhas Aéreas Inteligentes (NYSE: GOL and Bovespa: GOLL4), Brazil's low-cost, low-fare airline, announces that its subsidiary Gol Transportes Aereos S.A. has entered into an agreement for a US\$50 million long-term financing from the International Finance Corporation (IFC), the private sector arm of the World Bank Group. The IFC financing will support GOL's investment in aircraft spare parts inventory and working capital requirements to meet the needs of its growing fleet.

This financing demonstrates IFC's commitment to provide long-term and stable funding diversification to Brazilian companies. IFC's partnership with GOL is a good example of our strategy in South America to support local businesses and help them expand their businesses nationally and regionally. In its brief history, GOL has made a significant contribution to the growth, connectivity, and efficiency of the Brazilian airline sector, which has resulted in substantial benefits to its customers and the Brazilian economy, said Francisco Turreilles, IFC's director of infrastructure department. GOL is investing in an area critical to Brazil's further economic development. The investment fits IFC's strategy to encourage private sector investment in infrastructure as a means to stimulate economic growth in Brazil, stated Saran Kebet-Koulibaly, IFC's Associate Director for Latin America and the Caribbean, and Country Manager for Brazil.

The IFC loan is an important financing source for our continued growth, and will help to fund the expansion of our fleet while further reducing our costs, stated Richard Lark, GOL's Chief Financial Officer. GOL's mission is to provide safe, high quality low-fare air transportation to passengers in Brazil and South America, and IFC's financial support is instrumental in our efforts to achieve this objective.

About GOL Linhas Aéreas Inteligentes

GOL Linhas Aéreas Inteligentes, a low cost, low fare airline, is one of the most profitable and fastest growing airlines in the industry worldwide. GOL operates a simplified fleet with a single class of service. The Company has one of the youngest and most modern fleets in the industry resulting in low maintenance, fuel and training costs, with high aircraft utilization and efficiency ratios. In addition, safe and reliable services, which stimulate GOL's brand recognition and customer satisfaction, allow GOL to have the best value proposition in the market. GOL currently offers over 500 daily flights to 50 destinations in Brazil, Argentina, Bolivia, Uruguay and Paraguay with substantial expansion opportunities. GOL's growth plans include increasing frequencies in existing markets and adding service to additional markets in both Brazil and other high-traffic South American travel destinations. GOL's shares are listed on the NYSE and the Bovespa. GOL: here everyone can fly!

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
