FOR IMMEDIATE RELEASE - São Paulo, January 14th 2013 – Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), Brazil's leading diversified national homebuilder, today announced operational results for the fourth quarter ending December 31, 2012.

Duilio Calciolari, Chief Executive Officer, said: "I am pleased to report that Gafisa's full year results are in line with the operational targets we set in the turnaround strategy announced one year ago. Our fourth quarter results showed some improvements, with increase in unit deliveries. Importantly, the Gafisa Group generated cash from its core business.

Since the implementation of our turnaround plan began in the first quarter, unit deliveries exceeded the upper end of the full-year guidance range while operational consolidated cash flow surpassed the increased guidance range set in the third quarter.

Even though the operating performance indicates that our turnaround strategy is on track, margins are still expected to reflect the resolution of legacy projects."

Gafisa Group is Generating Cash From its Core Business

The Gafisa Group ended the fourth quarter with around R\$ 1.62 billion in preliminary unaudited cash and cash equivalents, a sequential improvement from R\$ 1.23 billion at the end of 3Q12. Preliminary net debt was R\$ 2.63 billion at the end of 4Q12, a R\$ 310 million reduction from R\$ 2.94 billion at the end of 3Q12. As a consequence, preliminary consolidated cash generation (cash burn) was positive at approximately R\$ 310 million in 4Q12, leading to a 2012 preliminary result of R\$ 617 million. Operational consolidated cash flow reached approximately R\$ 980 million in 2012, exceeding the upper end of guidance for the full year of R\$ 600 – R\$ 800 million.

In 2012, the projects delivered by the Gafisa Group totaled 27,107 units, representing a 20% y-o-y increase.
