Forward-Looking Statements

This Economic and Financial Analysis Report contains forward-looking statements related to our business. Such statements are based on management's current expectations, estimates and projections concerning future events and financial trends that may affect our business. Words such as "believe", "anticipate", "plan", "expect", "intend", "goal", "estimate", "forecast", "predict", "project", "guidelines", "should" and other similar expressions are used to indicate predicting statements. However, forward-looking statements are not guarantees of future performance and involve certain risks and uncertainties that may be beyond our control. In addition, some forward-looking statements are based on assumptions which, depending on future events, may prove not to be accurate. Therefore, actual results may differ significantly from the plans, goals, expectations, projections and intentions expressed or implied in such statements.

The factors that may impact the actual results include, among others, changes in regional, national and international trade and economic policies; inflation; an increased number of defaults by borrowers in loan operations, with a consequent increase in the allowance for losses from loan operations; loss of ability to receive deposits; loss of customers or revenues; our ability to sustain and improve performance; changes in interest rates which may, among other things, adversely affect our margins; competition in the banking industry, financial services, credit card services, insurance, asset management and other related industries; government regulation and fiscal affairs; disputes or adverse legal proceedings or regulations; and credit and other risks involved in lending and investment activities.

As a result, one should not rely excessively on these forward-looking statements. The statements are valid only for the date on which they were drafted. Except as required by applicable law, we do not assume any obligation to update these statements as a result of new information, future developments or any other matters which may arise.

Some numbers included in this report have been subjected to rounding adjustments.

As a result, some amounts indicated as total amounts in some charts may not be the arithmetic sum
of the preceding numbers.

- Economic and Financial Analysis Report – December 2014

Press Release

Highlights

The main figures obtained by Bradesco in 2014 are presented below:

1. Adjusted Net Income⁽¹⁾ for 2014 stood at R\$ 15.359 billion (a 25.9% increase compared to the R\$ 12.202 billion recorded in the same period of 2013), corresponding to earnings per share of R\$ 3.66 and Return on Average Adjusted Equity⁽²⁾ of 20.1%.
2. As for the source, the Adjusted Net Income is composed of R\$ 10.953 billion from financial activities, representing 71.3% of the total, and of R\$ 4.406 billion from insurance, pension plans and capitalization bonds operations, which together account for 28.7%.
3. On December 31, 2014, Bradesco market value stood at R\$ 145.536 billion⁽³⁾, showing a growth of 13.6% over December 31, 2013.
4. Total Assets, in December 2014, stood at R\$ 1.032 trillion, an increase of 13.6% over the December 2013 balance. The return on Average Total Assets was 1.6%, an increase of 0.2 p.p. over December 2013 (1.4%).
5. In December 2014, the Expanded Loan Portfolio⁽⁴⁾ reached R\$ 455.127 billion, up 6.5% over December 2013. Operations with individuals totaled R\$ 141.432 billion (an increase of 8.2% over December 2013), while corporate segment operations totaled R\$ 313.695 billion (up 5.8% over December 2013).
6. Assets under Management stood at R\$ 1.426 trillion, a 13.2% increase from December 2013.
9. The Interest Earning Portion of the Net Interest Income stood at R\$ 47.806 billion, up 12.0% compared to 2013.
10. The Delinquency Ratio over 90 days remained stable in the last twelve months, and stood at 3.5% on December 31, 2014.
11. The Operating Efficiency Ratio (ER)⁽⁵⁾ in December 2014 was 39.2%, the best level ever recorded (42.1% in December 2013), while in the “risk-adjusted” concept, it stood at 47.9% (52.1% in December 2013).
12. Insurance Written Premiums, Pension Plan Contributions and Capitalization Bond Income totaled R\$ 56.152 billion in 2014, up 12.9% when compared to 2013. Technical Reserves stood at R\$ 153.267 billion, an increase of 12.5% compared to the balance on December 2013.
13. Investments in infrastructure, information technology and telecommunications amounted to R\$ 4.998 billion in 2014, up 3.2% over the same period last year.
14. Taxes and contributions paid or recorded in provision, including social security, totaled R\$ 24.225 billion, of which R\$ 10.902 billion related to taxes withheld and collected from third parties, and R\$ 13.323 billion calculated based on activities developed by Bradesco Organization, equivalent to 86.7% of the Adjusted Net Income⁽¹⁾.
15. Bradesco has an extensive Customer Service network in Brazil, with 4,659 Branches and 3,486 Service Points (PAs). Customers can also count on 1,145 ATMs, 50,006 Bradesco Expresso service

7. Shareholders' Equity totaled R\$ 81.508 billion in December 2014, 14.9% higher than in December 2013. Capital Adequacy Ratio stood at 16.5% in December 2014, 12.9% of which was classified as Common Equity/Tier I. points, 31,089 Bradesco Dia & Noite ATMs, and 17,593 Banco24Horas Network ATMs.

8. A total of R\$ 5.055 billion were paid to shareholders as Interest on Shareholders' Equity and Dividends for the first three quarters of 2014, of which R\$ 1.824 billion were paid in monthly and interim installments and R\$ 3.231 billion were provisioned.

(1) According to the non-recurring events described on page 8 of this Economic and Financial Analysis Report; (2) Excludes mark-to-market effect of Available-for-Sale Securities recorded under Shareholders' Equity; (3) Number of shares (excluding treasury shares) multiplied by the closing price for common and preferred shares on the last trading day of the period; (4) Includes sureties and guarantees, letters of credit, advances of credit card receivables, co-obligations in loan assignments (receivables-backed investment funds and mortgage-backed receivables), co-obligations in rural loan assignments and operations bearing credit risk – commercial portfolio, which includes debentures and promissory notes; and (5) In the last 12 months.

.. Economic and Financial Analysis Report – December 2014

Highlights

16. Payroll, plus charges and benefits, totaled R\$ 11.773 billion. Social benefits provided to all 95,520 employees of Bradesco Organization and their dependents amounted to R\$ 2.923 billion, while investments in education, training and development programs totaled R\$ 144.658 million.

17. Major Awards and Acknowledgments in the period:

- Largest private Brazilian group to be featured in the “Valor Grandes Grupos” ranking, which lists the 200 largest groups in the country. It also holds 1st place in the ranking of the 20 largest groups in the financial sector, while also leading in shareholder’s equity (Valor Econômico newspaper);
- For the 10th consecutive year, its common and preferred shares are listed on the Corporate Sustainability Index (ISE) of BMF&Bovespa;
- Winner of the 16th Abrasca award as the best “Annual Report 2013”, under the “Publicly-Traded Company – Group 1”;
- Featured on the annual “150 Best Companies to Work for in Brazil”, for the 15th time (Guia Você S/A Exame);
- One of the top mentions in “Best in People Management” poll (Valor Carreira magazine - Valor Econômico newspaper);
- Only Latin American bank to be featured in the “World’s 20 Greenest Banks” (Bloomberg Markets magazine); and

The Bradesco Organization fully complies with internationally recognized sustainability and corporate governance initiatives, particularly: *Global Compact*, *PRI (Principles for Responsible Investment)*, *Equator Principles*. We set our guidelines and strategies with a view to incorporating the best corporate sustainability practices into our businesses, considering the context and the potential of each region, thus contributing to the generation of value in the Organization. The driving forces behind our engagement are inclusion with education, democratization and presence, innovation, sustainability and continuity of our businesses. Our management process adopts economic and social and environmental indexes developed in Brazil and abroad, such as the Dow Jones Sustainability Index (DJSI), the Corporate Sustainability Index (ISE, of BM&FBovespa), and the Carbon Efficient Index (ICO2, also of BM&FBovespa), as well as the guidelines and indexes of the Global Reporting Initiative (GRI) and the Carbon Disclosure Project (CDP).

With a broad social and educational program in place for 58 years, Fundação Bradesco operates 40 schools across Brazil. Fundação Bradesco’s budget for 2014 totaled R\$ 520.277 million, R\$ 86.553 million of which was intended to restructuring high school education through classroom expansion works that enabled the foundation to offer free quality education to: a) 105,177 students enrolled in its schools in the following levels: basic education (kindergarten to high school) and vocational training - high school, youth and adult education; and preliminary and continuing vocational training, which focuses on creating jobs and income; b) 458,365 thousand students who completed at least one of

- Named one of the most sustainable companies in Brazil. (Guia Exame de Sustentabilidade/Study by Fundação Getulio Vargas de São Paulo). the distance-learning courses (EaD) available on the e-learning portal; and c) 33,856 beneficiaries in partnership projects and initiatives, including the Digital Inclusion Centers (CIDs), the Educa+Ação program and technology courses (Educar and Aprender). In addition to being guaranteed free quality education, the approximately 44 thousand students enrolled in the Basic Education system also receive uniforms, school supplies, meals, and medical and dental assistance.

Press Release

Summarized Analysis of Adjusted Income

Adjusted Net Income and Profitability

The return on the Average Adjusted Shareholder's Equity (ROAE) stood at 20.1% in December 2014. Such performance stems from the growth of adjusted net income, which increased by 4.6% quarter-over-quarter and 25.9% compared with the previous year. The main events that affected adjusted net income are detailed below.

Adjusted net income reached R\$ 4,132 million in the fourth quarter of 2014, up R\$ 182 million compared to the previous quarter, mainly due to (i) higher net interest income, due to increased "interest" and "non-interest" earning portions; (ii) increased fee and commission income, due to an increase in business volume; (iii) higher income from insurance, pension plans and capitalization bonds; and partially impacted by: (iv) increased administrative and personnel expenses.

In 2014, adjusted net income reached R\$ 15,359 million, up R\$ 3,157 million from the previous year, due to: (i) higher revenues from interest earning portion; (ii) increased fee and commission income; (iii) higher income from Insurance, Pension Plans and Capitalization Bonds; (iv) increased administrative and personnel expenses, although at a rate below inflation for the period; and (v) increase in other operating expenses, net of other operating income.

Shareholders' Equity stood at R\$ 81,508 million in December 2014, up 14.9% over December 2013. Capital Adequacy Ratio stood at 16.5%, 12.9% of which was classified as Common Equity/Tier I.

Total Assets reached R\$ 1.032 trillion in December 2014, a 13.6% increase over December 2013, driven by the increased business volume. Return on Average Assets (ROAA) reached 1.6%.

Summarized Analysis of Adjusted Income

Efficiency Ratio (ER)

The 12-month accumulated ER⁽¹⁾ reached 39.2% in the fourth quarter of 2014, again registering his best historical level, and in line with the published target. This result was due to: (i) investments in organic growth, which enabled an increase in income; and (ii) the continued efforts to control expenses, including our Efficiency Committee actions and investments in Information Technology, which have improved internal systems and processes. It should be mentioned that the 0.7 p.p. improvement compared to the previous quarter was primarily due to: (i) higher fee and commission and net interest income; and (ii) the strict control of our operating expenses, which were held below inflation; all these factors also contributed to the improvement of the ER in the “risk-adjusted” concept, reflecting the impact of the risk associated with loan operations⁽²⁾, which reached 47.9%, an improvement of 0.8 p.p. in the quarter.

Quarterly ER rose from 38.5% in the third quarter of 2014 to 39.9% in the fourth quarter of 2014, primarily due to: (i) higher administrative expenses, primarily due to the seasonal effect of the fourth quarter, which impacted mainly advertising expenses; and partially offset by: (ii) the increase in revenues from fees and commission and in the interest earning portion. This indicator showed improvement when compared with the same period of the previous year, primarily due to the increase in interest earning portion and in fees and commission income.

(1) ER = (Personnel Expenses – Employee Profit Sharing + Administrative Expenses)/(Net Interest Income + Fee and Commission Income + Income from Insurance + Equity in the Earnings (Losses) of Unconsolidated Companies + Other Operating Income – Other Operating Expenses). If we considered the ratio between (i) total administrative costs (Personnel Expenses + Administrative Expenses + Other Operating Expenses + Tax Expenses not related to income generation + Insurance Sales Expenses) and (ii) net income generation of related taxes (not considering Insurance Claims and Sales Expenses), our ER accumulated in the last 12 months in the fourth quarter of 2014 would be 43.0%; and

(2) Including ALL expenses, adjusted for discounts granted, loan recovery and sale of foreclosed assets, among others.

Bradesco _____

Press Release

Summarized Analysis of Adjusted Income

Net Interest Income

In the quarter-over-quarter comparison, the R\$ 705 million growth was mainly due to: (i) increased income from interest earning portion, totaling R\$ 525 million, particularly in Insurance and Loans; and (ii) increased non-interest earning portion of the net interest income, totaling R\$ 180 million.

In the year-over-year comparison, net interest income was up R\$ 5.009 million, primarily due to: (i) higher interest earning portion, totaling R\$ 5.120 million, due to the increase in business volumes, particularly in the Loan and Funding business lines, and offset by: (ii) lower non-interest earning portion, totaling R\$ 111 million.

The annualized interest financial margin rate stood at 7.7% in the fourth quarter of 2014, up 0.2 p.p. on the previous quarter, primarily due to income from the Insurance interest margin.

 Bradesco

____ Press Release

Summarized Analysis of Adjusted Income

Expanded Loan Portfolio⁽¹⁾

In December 2014, Bradesco's expanded loan portfolio totaled R\$ 455.1 billion. The increase of 2.5% in the quarter was primarily due to: (i) SMEs, which recorded a 2.8% growth; (ii) Individuals, recording a 2.5% growth and (iii) Corporations, which grew 2.3%.

In the last twelve months, the portfolio increased by 6.5%, broken down by: (i) 8.2% in Individuals; (ii) 7.3% in Corporations; and (iii) 3.4% in SMEs.

In the Corporate segment, the products that posted the strongest growth in the last 12 months were: (i) real estate financing; and (ii) rural loans. For Individuals, the highlights were: (i) real estate financing; and (ii) payroll-deductible loan. It should be mentioned that products which present the lowest risk represented the greatest growth.

(1) In addition to Bacen loan portfolio, it includes sureties, guarantees, letters of credit, advances of credit card receivables, debentures, promissory notes, co-obligation in receivables-backed investment funds, mortgage-backed receivables, and farm loans.

For more information, see Chapter 2 of this Report.

Allowance for Loan Losses (ALL) ⁽¹⁾

In the fourth quarter of 2014, allowance for loan losses (ALL) stood at R\$ 3,307 million, down R\$ 41 million, or 1.2% compared to the previous quarter, despite the 3.2% increase in the volume of loan operations – as defined by Bacen, reflecting the reduction in delinquency during the period.

In the year-over-year comparison, this expense increased by 5.1%, even after accounting for the 7.3% increase in loan operations – as defined by Bacen, resulting from the stable delinquency level in the last 12 months.

It must be noted that these results were due to the consistency of the loan granting policy and processes, quality of guarantees obtained, as well as the constant improvement in the loan recovery process and the change in the product mix.

(1) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit, and standby letter of credit, which comprises the concept of “excess” ALL.

For more information, see Chapter 2 of this Report.

- - Economic and Financial Analysis Report – December 2014

Summarized Analysis of Adjusted Income

Delinquency Ratio⁽¹⁾

The total delinquency ratio, which contemplates operations that are over 90 days past due, was down when compared with the previous quarter.

This improvement was observed for Individuals as well as for SMEs. In the year-over-year comparison, this indicator remained stable.

Compared to the last quarter, short-term delinquency, including operations past due between 15 and 90 days, decreased for Individuals and for Corporations.

In the year-over-year comparison, this indicator also showed reduction, primarily due to the significant improvement in the Individuals segment.

(1) As defined by the Brazilian Central Bank (Bacen).

Press Release

Summarized Analysis of Adjusted Income Coverage Ratios

Bradesco monitors the development of its loan portfolio, as well as respective risks, by internally applying the expanded portfolio concept. In addition to the allowance for loan losses (ALL) required by Bacen, Bradesco has excess ALL to support potential stress scenarios, as well as other operations/commitments bearing credit risks.

The following graph presents the changes in coverage ratio of the Allowance for Loan Losses (ALL) for loans past due for more than 60 and 90 days. This indicator shows some improvement when compared with the previous quarter, due to a drop in delinquency for the period. In December 2014, these ratios stood at comfortable levels, reaching 156.6% and 189.0%, respectively.

(1) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit, and standby letter of credit, which comprises the concept of "excess" ALL.

Economic and Financial Analysis Report – December 2014

Summarized Analysis of Adjusted Income**Income from Insurance, Pension Plans and Capitalization Bonds**

Net income for the fourth quarter of 2014 totaled R\$ 1.236 billion, up 23.5% when compared to the same period in the previous year (R\$ 1.001 billion), and to the third quarter of 2014 (R\$ 1.058 billion), Net Income increased by 16.8%, and an annualized return on Adjusted Shareholder's Equity of 29.4%.

Net Income for 2014 totaled R\$ 4.406 billion, a 17.8% increase when compared to the same period in the previous year (R\$ 3.740 billion), for a return on Adjusted Shareholders' Equity of 23.7%.

(1) Excluding additional provisions.

(1) The fourth quarter of 2014 includes the latest data released by SUSEP (November 2014).

Note: For purposes of comparison between the indexes for the aforementioned periods, the effects of non-recurring events have not been considered.

Summarized Analysis of Adjusted Income

Disregarding the DPVAT agreement, income increased 38.3% in the fourth quarter of 2014 when compared to the previous quarter, led by the performance of the Life and Pension Plans segment, which was driven by a greater concentration of private pension contributions during the period.

Disregarding the DPVAT agreement, an increase of 23.7% was recorded when compared to the fourth quarter of 2013, resulting from increased production of more than two digits across all segments.

Disregarding the DPVAT agreement, production increased by 13.9% in 2014 when compared to the same period of the previous year, driven by Auto/RE, Health, Capitalization and Life and Pension Plans products, which grew 28.0%, 22.5%, 15.2% and 7.0%, respectively.

Net income for the fourth quarter of 2014 was 16.8% higher compared to the previous quarter, primarily due to: (i) an increase in revenue; (ii) a 1.8 p.p. drop in claims ratio; (iii) a stable sales ratio; (iv) improvement in the administrative efficiency ratio; and (v) growth in the financial and equity income.

Net income for the fourth quarter of 2014 was 23.5% higher compared to the same period in the previous year, primarily due to: (i) an increase in revenue; (ii) a reduction in claims and sales ratio; (iii) improvement in the administrative efficiency ratio; and (iv) growth in the financial and equity income.

Net income for 2014 was 17.8% higher compared to the same period in the previous year, due to: (i) an increase in revenue; (ii) stable claims and sales ratio; (iii) improvement in the administrative efficiency ratio; and (iv) growth in the financial and equity income.

Minimum Capital Required - Grupo Bradesco Seguros

According to Resolution CNSP N^o302/13, corporations should have adjusted shareholder's equity (ASE) equal to or higher than the minimum capital required (MCR). MCR is equivalent to the largest value between the base capital and risk capital. Until the National Council of Private Insurance (CNSP) regulates the market-risk additional capital, the Company is calculating the venture capital based on underwriting, credit and operating risks. For companies regulated by the ANS, Normative Resolution N^o209/09 establishes that corporations should have adjusted shareholder's equity (ASE) equal to or higher than the Solvency Margin.

The capital adjustment and management process is continuously monitored, and aims to ensure that Grupo Bradesco Seguros keeps a solid capital base to support the development of activities and cope with the risks in any market situation, in compliance with regulatory requirements and/or Corporate Governance principles. Companies must permanently maintain a capital compatible with the risks for their activities and transactions, according to the characteristics and peculiarities of each company belonging to Grupo Bradesco Seguros, represented by adequate capital levels. Grupo Bradesco Seguros permanently observes the limits required by the respective regulatory entities. The Minimum Capital Required on December 31, 2014 was R\$ 7.343 billion (November 2014).

- Economic and Financial Analysis Report – December 2014

Press Release

Summarized Analysis of Adjusted Income

Fee and Commission Income

In the fourth quarter of 2014, provision of services income totaled R\$ 5,839 million, for a growth of R\$ 200 million, or 3.5%, over the previous quarter, primarily due to increased business volume, led by the performance of cards and checking account income.

In the year-over-year comparison, the increase of R\$ 2,303 million, or 11.6%, was primarily due to: (i) increase in the volume of operations, which are resulting from continuous investments in technology and service channels; and (ii) progress in the customer segmentation process, allowing a more adequate offer of products and services. It must be noted that the incomes that have most contributed to this result derived from: (i) the good performance of the cards activity, result of (a) increased revenue; (b) increased credit and debit cards base; and (c) the greater volume of transactions made; (ii) the growth of checking account incomes, due primarily to increase in business; (iii) greater loan operations income, resulting from an increase in the volume of operations and sureties and guarantees in the period; and increase in income from: (iv) consortium management; (iv) fund management; and (vi) collection.

Economic and Financial Analysis Report – December 2014

Summarized Analysis of Adjusted Income

Personnel Expenses

In the fourth quarter of 2014, the increase of R\$ 112 million, or 3.1%, from the previous quarter is a result of variations in:

- structural expenses – an increase of R\$ 52 million arising from higher expenses with proceeds, social security contributions and benefits, due to an increase in wages, in accordance with the 2014 collective bargaining agreement; and
- non-structural expenses – an increase of R\$ 60 million, primarily due to greater expenses with: (i) provision for labor claims; and (ii) cost of terminations and charges.

In the year-over-year comparison, the increase of R\$ 906 million, or 6.9%, was primarily due to:

- the growth of R\$ 710 million of the “structural” portion, related to higher expenses with payroll, social charges and benefits, affected by increased wage levels, in accordance with 2013 and 2014 collective agreements (readjustments of 8.0% and 8.5%, respectively); and
- in the “non-structural portion”, the reduction of R\$ 196 million, which resulted mainly from higher expenses with: (i) profit and income sharing of managers and employees; and (ii) termination and charges costs.

Note: Structural Expenses = Salaries + Social Charges + Benefits + Pension Plans.

Non-Structural Expenses = Employee and Management Profit Sharing + Training + Labor Provision + Costs with Termination of Employment Contracts.

(1) The reduction in the fourth quarter of 2014 includes the transfer of 2,431 employees of Scopus Tecnologia to IBM Brazil.

Bradesco _____

Press Release

Summarized Analysis of Adjusted Income

Administrative Expenses

In the year-over-year comparison, the increase of 2.3% was primarily due to a consistent cost control, despite increasing expenses with: (i) growth in turnover and services in the period; (ii) contractual adjustments; and (iii) expansion of 2,440 Service Points in the period, bringing the total number of Service Points to 75,176 on December 31, 2014. We should note the performance of inflation indexes over the past 12 months: the IPCA and IGP-M were up 6.4% and 3.7%, respectively.

Quarter-over-quarter, the 14.6% increase was primarily due to: (i) the seasonal effect of higher advertising expenses, due to the investments made to support institutional positioning and product offering actions; and (ii) the increase in turnover and services concentrated in the period, which in turn resulted in greater expenses with: (a) third-party services; (b) maintenance and conservation of assets; and (c) data processing.

Other Operating Income and Expenses

Other operating expenses, net of other operating income, totaled R\$ 1,360 million in the fourth quarter of 2014, a R\$ 49 million increase over the previous quarter, primarily due to greater expenses with sales of the Credit Card product.

In the year-over-year comparison, the increase of R\$ 652 million is primarily due to: (i) higher expenses with operating provisions, mainly contingent liabilities; and (ii) higher expenses with sales of the Credit Card product.

Economic and Financial Analysis Report – December 2014

**Summarized Analysis of Adjusted Income
Income Tax and Social Contribution**

Expenses with income tax and social contribution were up 11.2% and 31.8% in the quarterly and annual comparison, respectively; these variations resulted from higher taxable income.

Unrealized Gains

Unrealized gains totaled R\$ 19,343 million in the fourth quarter of 2014, a R\$ 345 million increase from the previous quarter. Such variation is mainly due to: (i) the appreciation of investments, mainly Cielo shares, which increased by 4.2% in the quarter; partially offset by (ii) the devaluation of fixed income securities.

Capital Ratios - Basel III

Capital Adequacy Ratio

The implementation of the new capital structure in Brazil began in October 2013. Through the CMN Resolution N^o4192/13, Bacen provided a new methodology to assess Capital, replacing CMN Resolution N^o3444/07.

In December 2014, Capital stood at R\$ 98,605 million, against risk-weighted assets totaling R\$ 597,213 million. The Capital Adequacy Ratio recorded an increase of 0.2 p.p. compared to the previous quarter, rising from 16.3% in December 2013 to 16.5% in December 2014, primarily due to: (i) the increase in Shareholders' Equity, resulting from improved results for the quarter; and (ii) the effect of reallocation of funds from the Insurance Group, which had a positive impact on prudential adjustments; partially offset by: (iii) the increase in risk-weighted assets, caused by the expansion of the loan portfolio.

Full Impact – Capital Adequacy Ratio

We include a Capital Adequacy Ratio simulation, considering the opening of some of the main future adjustments, which include: (i) the application of 100% of the deductions provided in the implementation schedule; (ii) the reallocation of resources on behalf of our Insurance Group; and (iii) the realization of tax credits arising from tax losses until December 2018, for a rate of 12.4% of common equity, which, added to funding obtained via subordinated debt, may amount to an approximate Tier I ratio of 13.9 %.

Buffer Capital/Return on Shareholders' Equity at 11%

Banco Bradesco has developed a measurement methodology, and structured processes for the implementation of buffer capital, so that it can maintain enough capital available to cope with the risks incurred.

The Governance structure responsible for the evaluations and approvals of buffer capital is composed of a Committee subordinated to the Board of Directors, and Committees that report to the Board of Executive Officers.

This structure decided to maintain a minimum buffer capital of 27%, considering the minimum regulatory capital requirement of 11%.

Considering the minimum required Common Equity of 11% according to the full interpretation of Capital Adequacy Ratio rules, profitability would be 24.2%.

Bradesco _____

Press Release

Economic Scenario

The fourth quarter was characterized by increased financial volatility at the international level. Uncertainty regarding the global economy's pace of recovery was compounded by a significant drop in commodity prices, especially oil. With the exception of the U.S., there was a downward revision of growth projections for major regions of the globe. The slowing growth of the Chinese economy is in progress, while persistently low inflation in the Euro area continue to frustrate the economic recovery of those countries. At the same time, the drop in oil prices, which began mid-year, has gained new momentum with the OPEC member countries' decision not to reduce their production.

However, so far the more adverse global scenario has not been enough to interrupt the recovery of U.S. growth. In this context, the Federal Reserve ended its program of asset purchase and signaling that the monetary normalization process can begin in the second half of 2015. Unlike the U.S., Euro area economies and Japan have faced increased difficulty in resuming sustained growth rates. With that, the Central Bank of Japan and the European Central Bank have been compelled to intensify the adoption of monetary stimulus measures.

The loss of exchange terms due to the dropping prices of commodities on a world level, and the trend of international appreciation of the dollar create challenges to emerging nations' management of economic policy. On the other hand, this very same global scenario also creates some valuable opportunities for countries that adopt effective economic and institutional differentiation measures.

Under this context, it becomes increasingly imperative that Brazil strengthens its commitment to sustainable economic policies. Efforts in this direction represent a requirement for the maintenance of the macroeconomic predictability and income gains, in addition to raising the

Indicators for domestic economic activities have been modest, further highlighting the relevance of structural initiatives aimed at promoting future growth. The constant search for excellence in education is Brazil's front line in its battle to become more competitive and to expedite its efforts to upgrade infrastructure. It is always important to remind that, in the long term, the main source of economic growth is productivity, which becomes an even more relevant topic within a global context characterized by high levels of efficiency.

Productive investments tend to play an increasingly relevant role in the composition of growth over the next few years, which should be favored by the increased share of the capital market in funding of infrastructure projects. At the same time, despite the shift in consumer market expansion levels in some segments, the potential of domestic demand for goods and services has yet to be depleted, and there is still much room for growth. Income gains, employment formalization, diversification of consumption habits and social mobility are still key influential factors.

Bradesco maintains a positive outlook towards Brazil, with favorable perspectives for its operating segments. Credit volume is growing at sustainable and risk-compatible rates, whereas delinquency rates are stabilized at historically low and controlled levels. The scenario is still very promising for the Brazilian banking and insurance sectors.

confidence level of economic agents.

Average NIM ⁽¹⁾	7.3%	7.0%	7.8%	7.6%		

(1) Average Net Interest Margin = (Net Interest Income / Total Average Assets – Repos – Permanent Assets) Annualized

In the comparison between the fourth quarter of 2014 and the previous quarter, the R\$ 705 million increase was mainly due to the greater: (i) interest earning portion, totaling R\$ 525 million, particularly regarding the Insurance and Loan businesses; and (ii) the non-interest earning portion, totaling R\$ 180 million.

In the year-over-year comparison, interest earning portion increased by R\$ 5,009 million, primarily due to: (i) a R\$ 5,120 million growth in the result of interest earning operations, due to an increase in business volumes, particularly in the Insurance and Funding product lines; partially offset by: (ii) a R\$ 111 million drop in non-interest earning portion.

NII - Interest Earning Portion**NII - Interest Earning Portion – Breakdown**

Interest Earning Portion	47,806	42,686	12,763	12,238	5,120	525

The interest financial margin stood at R\$ 12,763 million in the fourth quarter of 2014, against R\$ 12,238 million recorded in the previous quarter, accounting for an increase of R\$ 525 million. The business lines that most contributed to this result were: (i) Insurance and (ii) Loans, broken down under items Insurance Margin - Interest Earning Operations and Credit Margin - Interest Earning Portion.

In the year-over-year comparison, the interest earning portion recorded a R\$ 5,120 million growth. All business lines contributed to this increase, particularly Funding and Loans.

Economic and Financial Analysis Report– December 2014

Economic and Financial Analysis

NII - Interest Earning Portion**NII - Interest Earning Portion – Rates**

The annualized interest financial margin rate stood at 7.7% in the fourth quarter of 2014, down 0.2 p.p. from the previous quarter, primarily due to the income from Insurance interest earning portions.

Expenses	(26,813)	(23,976)	(7,468)	(7,232)	(2,837)	(236)	

In the fourth quarter of 2014, net interest income with loan operations reached R\$ 8,453 million, up R\$ 204 million over the third quarter of 2014. The variation is the result of: (i) a R\$ 254 million growth in the average business volume; and offset by: (ii) an R\$ 50 million decrease in the average spread.

In the year-over-year comparison, net interest income increased by R\$ 1,688 million. The variation is the result of: (i) a R\$ 2,725 million increase in the volume of operations; and partially offset by: (ii) a decrease in the average spread, amounting to R\$ 1,037 million, affected mostly by the change in loan portfolio mix.

Economic and Financial Analysis Report– December 2014

Credit Margin – Interest Earning Portion

Net Credit Margin

The graph above presents a summary of loan activity. The Gross Margin line refers to interest income from loans, net of opportunity cost (a specific rate by type of operation and term).

The ALL curve shows delinquency costs, which are represented by Allowance for Loan Losses (ALL) expenses, plus discounts granted in transactions net of loan recoveries, arising from the sale of foreclosed assets, among others.

In the fourth quarter of 2014, net interest income, which refers to loan interest income net of ALL, recorded a 5.0% growth quarter-over-quarter, mainly driven by: (i) the increase in average business volume; and (ii) a reduction in delinquency costs.

In 2014, the net interest income totaled R\$ 19,723 million, recording a 5.8% growth over 2013, primarily due to: (i) an increase in the average volume of business; that was offset by: (ii) the rising cost of delinquencies, represented by the aggravation of the risk level of individual cases, which occurred in operations in the Corporate segment.

Economic and Financial Analysis**Credit Margin – Interest Earning Portion****Expanded Loan Portfolio⁽¹⁾**

In December 2014, the expanded loan portfolio stood at R\$ 455.1 billion, up 2.5% in the quarter and 6.5% over the last 12 months.

The quarterly results were mainly led by increases of 2.8% for SMEs, 2.5% for SMEs and 2.3% for Corporations.

In the last 12 months, we should note the increases of 8.2% for Individuals, 7.3% for Corporations and 3.4% for SMEs.

(1) In addition to Bacen loan portfolio, it includes sureties, guarantees, letters of credit, advances of credit card receivables, debentures, promissory notes, co-obligation in receivables-backed investment funds, mortgage-backed receivables, and farm loans.

Expanded Loan Portfolio Breakdown by Product and Type of Customer (Individual and Corporate)

A breakdown of expanded loan portfolio products for Individuals is presented below:

Individuals	R\$ million			Variation %	
	Dec14	Sept14	Dec13	Quarter	12M
Payroll-deductible Loan	29,619	29,225	26,786	1.3	10.6
Credit Card	26,233	24,273	23,915	8.1	9.7
CDC / Vehicle Leasing	24,858	25,043	27,251	(0.7)	(8.8)
Real Estate Financing	17,919	16,730	13,602	7.1	31.7
Personal Loans	16,354	16,753	16,476	(2.4)	(0.7)
Rural Loans	10,300	9,876	8,393	4.3	22.7
BNDES/Finame Onlending	7,334	7,224	6,803	1.5	7.8
Overdraft Facilities	3,666	3,956	3,313	(7.3)	10.6
Sureties and Guarantees	458	381	187	20.2	145.0

Other	4,693	4,568	4,025	2.7	16.6
Total	141,432	138,028	130,750	2.5	8.2

Individual segment operations grew by 2.5% in the quarter and 8.2% over the last 12 months. In the quarter, we highlight the growth for the following products: (i) credit card; and (ii) real estate financing. In the year-over-year comparison, the lines that most contributed to this increase were the ones with the lowest risk: (i) real estate financing; and (ii) payroll-deductible loan.

Economic and Financial Analysis**Credit Margin – Interest Earning Portion**

A breakdown of expanded loan portfolio products for Corporations is presented below:

	Corporate	R\$ million			Variation %	
		Dec14	Sept14	Dec13	Quarter	12M
Working Capital		45,004	42,802	45,599	5.1	(1.3)

CDC / Leasing		12,388	12,686	13,008	(2.4)	(4.8)
Credit Card		12,225	12,468	13,325	(2.0)	(8.3)
Overdraft Account		10,462	10,704	10,410	(2.3)	0.5
Rural Loans		6,657	7,048	5,258	(5.5)	26.6
Sureties and Guarantees		71,611	69,899	67,399	2.5	6.2
Operations bearing Loan Risk - Commercial Portfolio ⁽¹⁾		33,185	34,553	33,104	(4.0)	0.2
Other		11,810	10,665	11,440	10.7	3.2
Total		313,695	306,167	296,523	2.5	5.8

(1) Including debenture and promissory note operations.

Corporate segment operations grew by 2.5% in the quarter and 5.8% in the last 12 months. The highlights of the quarter were the following lines: (i) working capital; and (ii) real estate financing. In the last 12 months, the lines that showed significant growth were: (i) real estate financing; and (ii) rural loans.

Expanded Loan Portfolio – Consumer Financing^(j)

The graph below shows the types of credit related to consumer financing of individual customers, which stood at R\$ 97.1 billion in December 2014, up 1.9% over the quarter and 2.8% over the last 12 months.

The following types of credit posted the strongest numbers for December 2014: (i) personal loans, including payroll-deductible loans, totaling R\$ 46.0 billion; and (ii) Vehicle CDC/leasing, totaling R\$ 24.9 billion. Together, these operations totaled R\$ 70.9 billion, accounting for 73.0% of the Consumer Financing balance.

(1) Including vehicle CDC/leasing, personal loans, revolving credit card and cash and installment purchases at merchants operations.

Bradesco _____

Economic and Financial Analysis**Credit Margin – Interest Earning Portion****Breakdown of Vehicle Portfolio**

	R\$ million			Variation %	
	Dec14	Sept14	Dec13	Quarter	12M
CDC Portfolio	32,924	33,117	34,541	(0.6)	(4.7)
Individuals	24,539	24,674	26,557	(0.5)	(7.6)
Corporate	8,385	8,443	7,984	(0.7)	5.0
Leasing Portfolio	1,682	1,842	2,708	(8.7)	(37.9)
Individuals	319	368	693	(13.3)	(54.0)
Corporate	1,363	1,474	2,015	(7.5)	(32.4)
Finame Portfolio	11,295	11,173	11,243	1.1	0.5
Individuals	615	659	794	(6.7)	(22.5)
Corporate	10,680	10,514	10,449	1.6	2.2
Total	45,901	46,132	48,492	(0.5)	(5.3)
Individuals	25,473	25,701	28,044	(0.9)	(9.2)
Corporate	20,428	20,431	20,448	(0.0)	(0.1)

Vehicle financing operations (individual and corporate customers) totaled R\$ 45.9 billion in December 2014, recording a decrease in quarter-over-quarter and year-over-year comparisons. Of the total vehicle portfolio, 71.7% corresponds to CDC, 24.6% to FINAME, and 3.7% to Leasing. Individuals represented 55.5% of the portfolio, while Corporate customers accounted for the remaining 44.5%.

The variations in the portfolio, are a reflection of a shrinking financing market, and Bradesco's search for less risky and more profitable operations.

Expanded Loan Portfolio Concentration – By Sector

The expanded loan portfolio by economic activity sector showed an increase in the share of Services and Individuals, both in the quarter and the last 12 months.

Activity Sector	R\$ million

Total	455,127	100.0	444,195	100.0	427,273	100.0	2.5	6.5

(1) Mostly, non-account holders using vehicle financing, credit cards and payroll-deductible loans.

Expanded Loan Portfolio – By Currency

The balance of foreign currency-indexed and/or denominated loan and onlending operations (excluding ACCs - Advances on Foreign Exchange Contracts) totaled US\$ 15.7 billion in December 2014 (US\$ 15.8 billion in September 2014 and US\$ 16.0 billion in December 2013), down 0.6% in the quarter and 1.9% over the last 12 months, in U.S. Dollars. In Brazilian Reais, such operations totaled R\$ 41.8 billion in December 2014 (R\$ 38.8 billion in September 2014 and R\$ 37.4 billion in December 2013), up 7.7% in the quarter and 11.8% over the last 12 months.

In December 2014, total loan operations in Reais stood at R\$ 413.3 billion (R\$ 405.4 billion in September 2014 and R\$ 389.8 billion in December 2013), up 1.9% in the quarter and 6.0% in the last 12 months.

Economic and Financial Analysis**Credit Margin – Interest Earning Portion****Expanded Loan Portfolio – by Debtor**

The level of concentration of the hundred largest debtors proved to be stable in the quarter and slightly higher when compared to the same period of the previous year. The portfolio quality of the 100 largest borrowers recorded an increase for the quarterly and the annual comparisons, based on the AA-A rating valuation.

Loan Portfolio⁽¹⁾ – By Type

All operations bearing credit risk stood at R\$ 481.1 billion, up 2.4% in the quarter and 6.9% in the last 12 months.

	R\$ million			Variation %	
	Dec14	Sept14	Dec13	Quarter	12M

Total Operations bearing Credit Risk	481,112	469,834	450,189	2.4	6.9

(1) In addition to the Expanded Portfolio, it includes other operations bearing credit risk;

(2) As defined by Bacen;

(3) Including debenture and promissory note operations; and

(4) It includes CDI operations, Rural DI, international treasury, swap, non-deliverable forward transaction and investments in FIDC and Certificates of Real Estate Receivables (CRI).

- Economic and Financial Analysis Report– December 2014

Economic and Financial Analysis

Credit Margin – Interest Earning Portion

The charts below refer to the Loan Portfolio, as defined by Bacen.

Loan Portfolio⁽¹⁾ – By Flow of Maturities⁽²⁾

The loan portfolio by flow of maturities of operations showed a longer profile in December 2014, compared to the same period of the previous year, mainly due to the representativeness of real estate financing and payroll-deductible loans operations. It should be noted that, due to their guarantees and characteristics, these operations are not only exposed to lower risk, but they also provide favorable conditions to gain customer loyalty.

(1) As defined by Bacen; and

(2) Only performing loans.

Bradesco _____

Economic and Financial Analysis

Credit Margin – Interest Earning Portion

Loan Portfolio⁽¹⁾ – Delinquency

The delinquency ratio, composed of the balance of operations more than 90 days past due, showed a reduction quarter-over-quarter, due to the improvement in the Individuals segment, as well as in SMEs. In the year-over-year comparison, this indicator remained stable.

Compared to the previous quarter, short-term delinquency, including operations past due between 15 and 90 days, decreased for Individuals and for Corporations. This indicator also showed a reduction in the year-over-year comparison, primarily due to the significant improvement in the Individuals segment.

(1) As defined by Bacen.

Economic and Financial Analysis Report– December 2014

Credit Margin – Interest Earning Portion

Allowance for Loan Losses (ALL) vs. Delinquency vs. Losses⁽¹⁾

Bradesco monitors the development of its loan portfolio, as well as respective risks, by internally applying the expanded portfolio concept. In addition to the allowance for loan losses (ALL) required by Bacen, Bradesco has excess ALL to support potential stress scenarios, as well as other operations/commitments bearing credit risks.

Allowance for Loan Losses (ALL) totaled R\$ 23.1 billion in December 2014, representing 6.7% of the total loan portfolio, comprising: (i) generic provision (customer and/or operation rating); (ii) specific provision (non-performing loans); and (iii) excess provision (internal criteria, including provision for guarantees provided).

Provisioning levels are deemed appropriate and sufficient to support possible changes in scenarios, such as higher delinquency levels and/or changes in the loan portfolio profile.

(1) As defined by Bacen; and

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit and standby letters of credit, which comprises the concept of “excess” ALL.

Economic and Financial Analysis

Credit Margin – Interest Earning Portion

It is worth mentioning the assertiveness of the provisioning criteria adopted, which is proven by: (i) analyzing historical data on recorded allowances for loan losses; and (ii) effective losses in the subsequent twelve-month period. When analyzed in terms of loss net of recovery, for an existing provision of 6.7% of the portfolio⁽¹⁾ in December 2013, the net loss in the subsequent twelve months was 2.8%, that is, the existing provision exceeded over 137% the loss occurred in the subsequent twelve months.

In December 2013, for an existing provision of 6.7% of the portfolio⁽¹⁾, the gross loss in the subsequent twelve-month period was 4.0%, meaning that the existing provision exceeded over 65% the loss in the subsequent 12 months, as illustrated in the graph below.

(1) As defined by Bacen; and

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit and standby letters of credit, which comprises the concept of “excess” ALL.

Economic and Financial Analysis Report– December 2014

Credit Margin – Interest Earning Portion

Allowance for Loan Losses (ALL)⁽¹⁾

The Non Performing Loans ratio (operations over 60 days past due) remained stable in the year-over-year and quarterly comparison.

The graph below presents the changes in coverage ratio of the Allowance for Loan Losses (ALL) for loans past due for more than 60 and 90 days. This indicator shows some improvement when compared with the previous quarter, due to a drop in delinquency for the period. In December 2014, these ratios stood at comfortable levels, reaching coverage of 156.6% and 189.0%, respectively.

(1) As defined by Bacen;

(2) Includes provision for guarantees provided, encompassing sureties, guarantees, letters of credit and standby letters of credit, which comprises the concept of “excess” ALL; and

(3) Loan operations overdue for over 60 days and that do not generate revenue appropriation on accrual accounting.

Economic and Financial Analysis**Credit Margin – Interest Earning Portion****Loan Portfolio – Portfolio Indicators**

With a view to facilitating the monitoring of the quantitative and qualitative performance of Bradesco's loan portfolio, a comparative summary of the main figures and indicators is presented below:

(3) Loan operations overdue for over 60 days and that do not generate revenue appropriation on accrual accounting.

- Economic and Financial Analysis Report– December 2014

Economic and Financial Analysis

Funding Margin - Interest Earning Portion

Funding Margin Breakdown - Interest Earning Operations

	Funding Margim - Interest Earning Operations					R\$ million	
	12M14	12M13	4Q14	3Q14	Variation		
					12 Months	Quarter	
Interest - due to volume					592	31	
Interest - due to spread					971	30	
Interest Earning Portion	6,296	4,733	1,686	1,625	1,563	61	

Quarter-over-quarter, interest funding financial margin increased 3.8%, or R\$ 61 million, in the fourth quarter of 2014. The variation occurred mainly due to: (i) a greater volume of operations, which amounted to R\$ 31 million; and (ii) a R\$ 30 million increase in the average spread.

Year-over-year, interest funding financial margin improved by 33.0% or R\$ 1.563 million. The variation occurred mainly due to: (i) the R\$ 971 million increase in average spread as a result of an improved cost structure, with greater focus on funding obtained from Retail customers, associated with the increased Selic rate; and (ii) the greater volume of operations, amounting to R\$ 592 million.

Bradesco

Economic and Financial Analysis**Funding Margin - Interest Earning Portion****Loans vs. Funding**

To analyze Loan Operations in relation to Funding, the following should be deducted from total customer funding: (i) the amount committed to reserve requirements at Bacen, (ii) the amount of available funds held at customer service network, as well as (iii) funds from domestic and foreign lines of credit that finance the demand for loans.

Bradesco depends little on interbank deposits and foreign lines of credit, given its capacity to effectively obtain funding from customers.

This is a result of: (i) the outstanding location of its service points; (ii) the broad diversity of products offered; and (iii) the market's confidence in the Bradesco brand.

Note that the use of funds provides a comfortable margin, which proves that Bradesco is capable of meeting demand for loaning funds through its own funding.

Total	459,461	446,477	431,123	2.9	6.6

(1) Considering mostly debentures used to back repos; and

(2) Including: Financial Bills, on December 31, 2014, totaling R\$ 54,961 million (September 30, 2014 - R\$ 49,671 and December 31, 2013 - R\$ 35,208 million).

Demand deposits

The R\$ 271 million reduction in the fourth quarter of 2014 over the previous quarter, and the R\$ 7,589 million reduction in the yearly comparison were mostly due to new business opportunities offered to customers, basically because of interest rate fluctuations in the period.

(1) Additional installment is not included.

Savings Deposits

Savings deposits increased 5.6% in the quarter-over-quarter comparison, and 14.2% in the

(1) Additional installment is not included.

yearly comparison, mainly as a result of: (i) greater funding volume; (ii) the yield of savings account reserve; and (iii) increase in voluntary deposits by customers.

Bradesco is always increasing its savings accounts base, posting a net growth of 8.2 million new savings accounts over the last 12 months.

Bradesco _____

Economic and Financial Analysis

Funding Margin - Interest Earning Portion

Time Deposits

In the fourth quarter of 2014, time deposits totaled R\$ 85,787 million, with a reduction of 5.3% over the third quarter of 2014, and reduction of 10.4% over the same period of the previous year.

(1) As defined by Bacen.

This performance was due mostly to new investment alternatives available to customers.

Debentures

In December 31, 2014, the Bradesco's debentures balance totaled R\$ 68,845 million, up 2.8% quarter-over-quarter and 6.9% year-over-year.

These variations are mainly due to the placement and maturity of the securities, which are also used to back repos that are, in turn, impacted by the levels of economic activity.

Borrowing and Onlending

The increase of R\$ 2,437 million in the quarter-over-quarter comparison was mainly a

whose balance was rose from R\$ 15,400 million in December 2013 to R\$ 16,682 million in December

result of: (i) the increase of R\$ 1,393 million in foreign-currency-denominated and/or indexed borrowing and onlending bonds, a result, essentially, of the positive exchange rate fluctuation of 8.4% in the period; and (ii) the increase of R\$ 1,044 million in the volume of funding raised by borrowings and onlending in the country, especially through FINAME operations.

2014, primarily due to the positive exchange rate variation of 13.4% in the period.

In the annual comparison, the balance of loans and onlending recorded a R\$ 2,903 million increase, primarily due to: (i) the increase of R\$ 1,621 million in volume of funds obtained through loans and onlending in the country, mainly through FINAME operations; and (ii) the R\$ 1,282 million increase in loans and onlending denominated and/or indexed in foreign currency,

Funding Margin - Interest Earning Portion

Funds from the Issuance of Securities

Funds from Issuance of Securities totaled R\$ 84,825 million, a 12.7% increase, or R\$ 9,542 million over the previous quarter, primarily due to: (i) the increase in Financial Bills inventory, totaling R\$ 5,290 million; (ii) the increase in Letters of Credit for Agribusiness operations, totaling R\$ 3,893 million.

(1) Considering: Mortgage Notes, Mortgage Bonds, Letters of Credit for Agribusiness, Debentures, MTN Program Issues, Cost of issuances over funding and Structured Operations Certificates.

In the year-over-year comparison, the R\$ 27,171 million increase was primarily due to: (i) increased inventory of Financial Bills, from R\$ 35,208 million in December 2013 to R\$ 54,961 million in December 2014, mainly due to new issuances in the period; (ii) higher volume of Mortgage Bonds, in the amount of R\$ 5,867 million; (iii) higher volume of Letters of Credit for Agribusiness operations, totaling R\$ 4,199 million; and partially offset by: (iv) a R\$ 2,709 million reduction in the volume of securities issued overseas.

Subordinated Debt

Subordinated Debt totaled R\$ 35,822 million in December 2014 (R\$ 9,322 million abroad and R\$ 26,500 million in Brazil), down 1.8% quarter-over-quarter and 0.2% year-over-year, essentially due to the maturity of debts.

_____ Economic and Financial Analysis**Securities/Other Margin – Interest Earning Portion****Securities/Other Margin Breakdown – Interest Earning Operations**

	Securities/Other Margin - Interest Earning Operations					R\$ million	
	12M14	12M13	4Q14	3Q14	Variation		
					12 Months	Quarter	
Interest - due to volume					463	79	
Interest - due to spread					719	(67)	
Interest Earning Portion	4,828	3,646	1,371	1,359	1,182	12	
Income	42,565	27,242	13,221	12,804	15,323	417	
Expenses	(37,737)	(23,596)	(11,850)	(11,445)	(14,141)	(405)	

In the comparison between the fourth quarter of 2014 over the previous quarter, there was an increase of R\$ 12 million in the interest earning portion with Securities/Other. The change observed was primarily due to: (i) an increase in the volume of operations, totaling R\$ 79 million; and offset by: (ii) a reduction of the average spread, in the amount of R\$ 67 million.

Year-over-year, the interest earning portion with Securities/Other recorded a R\$ 1,182 million growth. This result was due to: (i) a R\$ 719 million increase in the average spread medium; and (ii) an increase in the volume of operations, totaling R\$ 463 million.

Insurance Margin - Interest Earning Portion**Insurance Margin Breakdown – Interest Earning Operations**

	Insurance Margin - Interest Earning Operations					R\$ million	
	12M14	12M13	4Q14	3Q14	Variation		
					12 Months	Quarter	
Interest - due to volume					361	48	
Interest - due to spread					326	200	
Interest Earning Portion	4,303	3,616	1,253	1,005	687	248	
Income	14,076	6,390	3,541	3,480	7,686	61	
Expenses	(9,773)	(2,774)	(2,288)	(2,475)	(6,999)	187	

Comparing the fourth quarter of 2014 with the previous quarter, the interest earning portion with Insurance operations recorded a R\$ 248 million growth, or 24.7%, which was primarily due to: (i) a R\$ 200 million increase in the average spread; and (ii) an increase in the volume of transactions, totaling R\$ 48 million.

In the year-over-year comparison, Insurance Margin – Interest Earning Operations increased 19.0%, or R\$ 687 million, mostly due to: (i) a greater volume of operations, totaling R\$ 361 million; and (ii) a R\$ 326 million increase in the average spread.

- Economic and Financial Analysis Report – December 2014

NII - Non-Interest Earning Portion**NII - Non-Interest Earning Portion – Breakdown**

	NII - Non-Interest Earning Portion				R\$ million	
	12M14	12M13	4Q14	3Q14	Variation 12 Months	Quarter
Funding	(308)	(297)	(78)	(76)	(11)	(2)
Insurance	91	253	71	52	(162)	19
Securities/Other	706	644	230	67	62	163
Total	489	600	223	43	(111)	180

Non-interest earning portion stood at R\$ 223 million in the fourth quarter of 2014, compared to R\$ 43 million in the previous quarter, for a R\$ 180 million increase that was primarily due to improved income from the Securities/Other earning portion. In the year-over-year comparison, there was a R\$ 111 million decrease. The variations in non-interest financial margin were primarily due to:

- Insurance – represented by gains/losses from variable-income securities; the variations in the periods are associated with market conditions, which enable greater/lower gain opportunity; and
- Securities/Other – The increases of R\$ 163 million over the previous quarter, and R\$ 62 million over the previous year, are primarily due to: (i) the sale of BM&FBovespa shares, in the amount of R\$ 51 million; and (ii) due to lower gains from market arbitrage.

Written Premiums, Pension Plan Contributions and Capitalization Bond Income

Disregarding the DPVAT agreement, revenue increased 38.3% in the fourth quarter of 2014 when compared to the previous quarter, led by the performance of the Life and Pension Plans segment, which was driven by a greater concentration of private pension contributions during the period.

Disregarding the DPVAT agreement, production increased by 13.9% in 2014 over the previous year, influenced by Auto RE, Health and Capitalization products, which grew 28.0%, 22.5%, and 15.2%, respectively.

(2) The fourth quarter of 2014 includes the latest data released by SUSEP (November/14).

Note: For comparison purposes, the non-recurring events' effects are not considered.

Because of its solid structure, innovative product policy and the trust it has earned in the market, Bradesco Vida e Previdência accounted for 27.2% of the pension plan and VGBL income. (source: SUSEP - November 2014).

Net income for the fourth quarter of 2014 was up 17.9% compared to the previous quarter, mainly due to: (i) a 88.6% increase in revenue; (ii) a 1.6 p.p. reduction in claims ratio; (iii) improvement in the administrative efficiency ratio; and: (iv) improved financial income.

Net income for the fourth quarter of 2014 was up 19.1% over the same period in 2013, mainly due to: (i) a 25.1% increase in revenue; (ii) a 2.3 p.p. reduction in claims ratio; (iii) a 2.5 p.p. improvement in the sales ratio; and: (iv) improved financial income.

Net income for the fourth quarter of 2014 was up 16.9% over the same period in 2013, mainly due to: (i) a 7.0% increase in revenue; (ii) a 5.0 p.p. reduction in claims ratio for the Life product; (iii) a 1.4 p.p. improvement in the sales ratio; and: (iv) improved financial income.

Economic and Financial Analysis

Bradesco Vida e Previdência

In December 2014, technical reserves for Bradesco Vida e Previdência stood at R\$ 133.9 billion, made up of R\$ 127.5 billion from Pension Plans and VGBL and R\$ 6.4 billion from Life, Personal Accidents and Other Lines, representing a growth of 12.3% over December 2013.

The Pension Plan and VGBL Investment Portfolio accounted for 30.4% of market funds in November 2014 (source: Fenaprevi).

Growth of Participants and Life and Personal Accident Policyholders

In December 2014, the number of Bradesco Vida e Previdência customers surpassed 2.4 million pension plan and VGBL participants, and 25.7 million life and personal accident policyholders.

This impressive growth was fueled by the strength of the Bradesco brand and the improvement of selling and management policies.

(1) The fourth quarter of 2014 includes the latest data released by ANS (November 2014).

Note: For comparison purposes, the non-recurring events' effects are not considered.

Net income for the fourth quarter of 2014 was up 19.6% over the previous quarter, mainly due to: (i) the 5.9% increase in financial income; (ii) 1.6 p.p. decrease in claim ratio and 1.3 p.p. decrease in expense ratio; (iii) improvement in the administrative efficiency ratio; partially offset by (iv) the decrease in equity income.

Net income for the fourth quarter of 2014 was up 14.9% over the same period in 2013, mainly due to: (i) a 24.6% increase in revenue; (ii) the 0.8 p.p. increase in claims ratios; (iii) improved financial income; partially offset by (iv) the decrease in equity income.

Net income for 2014 was up 17.1% compared to the same period in the previous year, mainly due to: (i) a 22.0% increase in revenue; (ii) a 0.6 p.p. drop in claims ratio; (iii) a 0.7 p.p. reduction in sales ratio; (iv) improved administrative efficiency ratio; and (v) increase in financial and equity income.

In December 2014, Bradesco Saúde and Mediservice maintained strong market position in the corporate segment (source: ANS).

Approximately 106 thousand companies in Brazil have Bradesco Saúde insurance and Mediservice plans.

Of the 100 largest companies in Brazil in terms of revenue, 52 are Bradesco Saúde and Mediservice customers (source: Exame magazine's *Melhores e Maiores* ranking, June 2014).

_____ Economic and Financial Analysis**Bradesco Saúde and Mediservice****Number of Bradesco Saúde and Mediservice Policyholders**

The companies have a combined total of over 4.5 million customers. The large share of corporate insurance in this portfolio (96.0% in December 2014) is proof of its high level of specialization and customization in the provision of group plans.

We highlight the Small and Mid-Sized Group Insurance (SPG) portfolio, which covered 926 thousand lives in December 2014.

(1) The fourth quarter of 2014 includes the latest data released by SUSEP (November/14).

Net income for the fourth quarter of 2014 recorded a 62.2% growth over the previous quarter, primarily due to: (i) the decreased in revenues; and (ii) improved financial income.

Net income for the fourth quarter of 2014 recorded a 18.8% growth over the same period in 2013, primarily due to: (i) a 10.5% increase in revenues; and (ii) improved financial income.

In the year-over-year, revenues were up 15.2% in 2014. Net income for 2014 recorded a 2.5% decrease compared to the previous year, primarily due to: (i) the increase in the provision for draws; (ii) the reduction in equity income; partially offset by: (iii) an increase in financial income.

- Economic and Financial Analysis Report – December 2014

Bradesco Capitalização

Bradesco Capitalização ended the fourth quarter of 2014 in 1st place among the capitalization bond companies, due to its policy of transparency and of adjusting its products based on potential consumer demand and consistent with the market changes.

Concerned with providing products that better fit the most varied profiles and budgets of our customers, Bradesco Capitalização has a product portfolio ranging by payment method (lump or monthly), contribution term, periodicity and value of premiums that meet requirements and expectations of customers.

Combining a pioneer spirit with business strategic view, Bradesco Capitalização has launched onto the market products concerned with socio-environmental causes, in which part of the revenue goes to projects with this purpose. In addition to offering to customers the possibility of creating a financial reserve, Capitalization Bonds with socio-environmental profile seek to raise our customer's awareness about the importance of this theme and allow them to participate in a noble cause that benefits society.

Bradesco Capitalização currently has partnerships with the following institutions: (i) SOS Mata Atlântica Foundation (which contributes to the preservation of biological and cultural diversity of the Atlantic Forest, stimulating social and environmental citizenship); (ii) Amazonas Sustentável Foundation (which contributes to the sustainable development, environmental preservation and improvement to the quality of life of communities that benefit from preservation

centers in the state of Amazonas); (iii) the Brazilian Cancer Control Institute (which contributes to the prevention, early diagnosis and treatment of breast cancer in Brazil); and (iv) Tamar Project (created to preserve sea turtles).

The portfolio is composed of 23.8 million active bonds. Of this total, 34.7% are represented by "Traditional Bonds", sold at the Branch Network and at Bradesco Dia&Noite service channels. The other 65.3% of the portfolio is represented by "Incentive" bonds (assignment of drawing rights), such as partnerships with Bradesco Vida e Previdência and Bradesco Auto/RE. Given that the purpose of this type of capitalization bond is to add value to the product of a partner company or even to encourage timely payment by its customers, the bonds have reduced maturity and grace terms and lower sale price.

(1) The fourth quarter of 2014 includes the latest data released by SUSEP (November/14).

Note: We are considering Atlântica Companhia de Seguros as of the first quarter of 2014.

Net income for the fourth quarter of 2014 was up 62.2% over the previous quarter, due to: (i) a 0.7 p.p. drop in claims ratio; (ii) a 1.5 p.p. drop in sales; and (iii) improved financial and equity income.

Revenues for the fourth quarter of 2014 was up 19.0% over the same period of the previous year, and net profit decreased 15.5% in the same comparison period, primarily due to: (i) the increase of 3.0 percentage points in claims ratio; and partially offset by: (ii) improved equity income.

In the year-over-year, revenues were up 28.0% in 2014. Net income was up 32.3% over the previous year, due to: (i) improved financial and equity income; (ii) improved administrative efficiency ratio; partially offset by: (iii) a 2.6 p.p. increase in claims ratios; and (iv) a 2.2 p.p. increase in sales.

In the Property Insurance segment, the focus on large brokers and Corporate and Middle Market customers was maintained. This results in renewal of the main accounts, whether as the leading company or through participation in co-insurance.

The transportation segment is still the primary focus, with essential investments made to leverage new business.

Despite strong competition in the Auto/RCF line, the insurer maintained its fleet at approximately 1.7 million vehicles, guaranteed by the maintenance of competitiveness, mainly due to the establishment of a refined and segmented quoting process. Another important fact relates to improvements to current products and the creation of products for a specific target market. Among them, it is worth noting the launch of the First Vehicular Protection of Bradesco Seguro (Bradesco Seguro Primeira Proteção Veicular), exclusive to Bradesco's account holders, which helps, through the Day and Night Support services, new vehicles and vehicles of up to 15 years of use.

In order to provide its customers with a better service, Bradesco Auto/RE currently counts with 28 Bradesco Auto Centers (BAC), which offer policyholders the greatest variety of services in a single place. Some of the services offered include:

In Aviation and Maritime Hull insurance, the increased exchange with Corporate and Middle Market segments has been drawn on extensively, taking full advantage of the stronger sales of new aircraft and those of the maritime segment.

auto claims services, rental car reservations, installation of anti-theft equipment, preventative maintenance checks, glass repairs or replacement and environmental vehicle inspections.

- Economic and Financial Analysis Report – December 2014

Bradesco Auto/RE

Number of Policyholders at Auto/RE

Mass insurance targets individuals, self-employed professionals and SMEs. The launch of new products combined with the continuous improvement to methods and systems has contributed to maintenance of customer base.

It is worth pointing out that we continue with a strong strategy for the “home insurance” segment, totaling more than 1.5 million insured homes. We recently launched the Monthly Home Insurance; a product that can be billed monthly billing via checking account debit.

Total	22,089	19,786	5,839	5,639	2,303	200

Explanations of the main items that influenced the variation in Fee and Commission Income between periods can be found below.

Fee and Commission Income

Card Income

Income from card fees totaled R\$ 2,161 million, a growth of R\$ 138 million, or 6.8%, over the previous quarter, primarily due to: (i) increased volume of transactions in the period; and (ii) increased revenue.

In the year-over-year comparison, the 12.8% growth, or R\$ 920 million, is primarily due to: (i) an increase in income from purchases and fees, arising from a 10.5% increase in revenue, which reached R\$ 132.0 billion in 2014; (ii) an increase in the credit and debit card base; and (iii) the greater volume of transactions in the period.

Bradesco

____ Economic and Financial Analysis

Fee and Commission Income

Checking Account

Checking account service revenues were up 5.4% in the fourth quarter of 2014, compared to the previous quarter, mainly due to: (i) the expansion of the customer service portfolio; and (ii) an increase in business volume.

Year-over-year, these revenues were up R\$ 413 million, or 11.4%, primarily due to: (i) an expanded portfolio of services provided to our clients; and (ii) the increase in business volume.

Loan Operations

In the fourth quarter of 2014, revenues from loan operations totaled R\$ 695 million, which represent a 7% growth over the previous quarter, primarily due to the increased volume of operations contracted in the quarter.

In the year-over-year comparison, the 15.2% increase was mainly due to: (i) increased volume of operations contracted in the period; and (ii) higher income from collaterals, which increased 11.6%, deriving mostly from a 6.6% growth in the volume of Sureties and Guarantees operations.

Fee and Commission Income**Fund Management**

In the fourth quarter of 2014, fund management income totaled R\$ 657 million, remaining virtually stable compared to the previous quarter.

In the year-over-year comparison, the increase of R\$ 125 million was basically due to the increase in the volume of funds raised and managed, which grew 12.3% in the period.

Investments in fixed income funds led the segment, with growth of 12.4% in the period.

Bradesco _____

_____ Economic and Financial Analysis

Fee and Commission Income

Cash Management Solutions (Payments and Collection)

In the fourth quarter of 2014, billing and collection income remained virtually stable compared to the previous quarter.

In the year-over-year comparison, the annual increase of 7.1%, or R\$ 128 million, was mainly due to the greater volume of processed documents, up from 2,125 million in 2013 to 2,199 million in 2014, a 3.5% increase for the period.

Consortium Management

In the third quarter of 2014, income from consortium management increased 5.3% compared to the previous quarter, as a result of the sales made in that period. On December 31, 2014, Bradesco had 1,062 thousand active quotas (1,020 thousand active quotas on September 30, 2014), ensuring a leading position in all the segments it operates (real estate, auto and trucks/tractors/machinery and equipment).

In the year-over-year comparison, the 21.9% increase in income from consortium management was mainly driven by: (i) a higher volume of received bids; (ii) the increase in the average ticket; and (iii) the increase in sales of new quotas, ranging from 924 thousand active quotas on December 31, 2013, to 1,062 thousand active quotas on December 31, 2014, an increase of 138 thousand net quotas.

- Economic and Financial Analysis Report – December 2014

Fee and Commission Income

Custody and Brokerage Services

In the fourth quarter of 2014, total earnings with custody and brokerage services remained virtually stable compared to the previous quarter.

In the year-over-year comparison, revenues totaled R\$ 520 million, an increase of R\$ 9 million compared to 2013, primarily due to the increase in the average volume of assets in custody during the period.

Underwriting / Financial Advisory Services

The R\$ 14 million reduction in the quarter-over-quarter comparison resulted primarily from the reduced activity in the capital market during the fourth quarter of 2014. It is important to note that variations recorded in this income derive from the volatile behavior of the capital market.

In the year-over-year comparison, the increase of R\$ 69 million, or 12.1%, is mainly due to the increase in business volume in the period.

(1) The reduction in the fourth quarter of 2014 includes the transfer of 2,431 employees of Scopus Tecnologia to IBM Brazil.

In the third quarter of 2014, total Personnel and Administrative Expenses amounted to R\$ 7,835 million, with growth of 8.9% in comparison with the previous quarter. In the year-over-year comparison, total

personnel and administrative expenses amounted to R\$ 28,815 million, up 4.5% compared to the same period in the previous year.

Personnel Expenses

In the fourth quarter of 2014, personnel expenses totaled R\$ 3,676 million, with variation of 3.1% or R\$ 112 million compared to the previous quarter.

The R\$ 52 million increase in structural expenses was due to higher expenses with salaries, social charges and benefits, due to an increase in salary levels, in accordance with the collective bargaining agreement of 2014.

The R\$ 60 million increase in non-structural expenses was primarily due to: (i) higher expenses with provisions for labor claims, in the amount of R\$ 36 million; and (ii) an increase in the cost of terminations and charges, totaling R\$ 29 million.

- Economic and Financial Analysis Report – December 2014

Economic and Financial Analysis

Personnel and Administrative Expenses

Personnel Expenses

In the year-over-year comparison, the increase of R\$ 906 million, or 6.9%, was primarily due to: (i) the structural portion, totaling R\$ 710 million, due to the increase in expenses with payroll, social charges and benefits, impacted by higher salaries, in accordance with the 2013 and 2014 collective agreements (increases of 8.0% and 8.5%,

respectively; and (ii) the R\$ 196 million increase in the non-structural portion, resulting mainly from greater expenses with: (a) profit and income sharing of managers and employees, totaling R\$ 129 million; and (b) termination and charge costs, totaling R\$ 62 million.

Bradesco _____

Economic and Financial Analysis

Personnel and Administrative Expenses

Administrative Expenses

In the fourth quarter of 2014, administrative expenses totaled R\$ 4,159 million, for an increase of R\$ 531 million, or 14.6%, compared to the previous quarter, which was primarily due to: (i) the seasonal effect of higher advertising expenses, due to the investments made to support institutional positioning and product offerings, totaling R\$ 217 million; and (ii) the increase in turnover and services concentrated in the period, which in turn resulted in greater expenses with: (a) third-party services, in the amount of R\$ 135 million; (b) maintenance and conservation of assets, in the amount of R\$ 31 million; and (c) data processing, in the amount of R\$ 29 million.

In the year-over-year comparison, administrative expenses totaled R\$ 14,848 million, for an increase of 2.3%. This performance was primarily due to a consistent cost control, despite increasing expenses with: (i) growth in turnover and services in the period; (ii) contractual adjustments; and (iii) expansion of 2,440 Service Points, led by Bradesco Expresso, bringing the total number of Service Points to 75,176 on December 31, 2014. We should note the performance of inflation indexes over the past 12 months: the IPCA and IGP-M were up 6.41% and 3.69%, respectively.

Operating Coverage Ratio ⁽¹⁾

In the quarter, the coverage ratio over the last 12 months maintained its improvement with a 0.8 p.p. growth, mainly due to an increase in fee and commission income, combined with ongoing cost control efforts, including the initiatives of our Efficiency Committee and measures applied to increase the offer of products and services to the entire client base.

It should be pointed out that 76.7% is the best rate over the last six years.

(1) Fee and Commission Income/Administrative and Personnel Expenses (in the last 12 months).

Tax Expenses

The increase of R\$ 29 million in tax expenses compared to the previous quarter, and the increase of R\$ 246 million, or 5.6%, in the year-over-year comparison was basically due to the increase in expenses with PIS/Cofins/ISS, derived from the increase in taxable income.

Equity in the earnings (losses) of unconsolidated companies

In the fourth quarter of 2014, the equity in the earnings (losses) of unconsolidated companies was R\$ 57 million, an increase of R\$ 14 million, or 32.6% compared to the previous quarter, mainly due to greater results with the unconsolidated company "IRB – Brasil Resseguros".

In the year-over-year comparison, the increase of R\$ 144 million was mainly attributed to better results with the unconsolidated company "IRB –

Brasil Resseguros”.

Bradesco _____

Economic and Financial Analysis

Operating Income

Operating income totaled R\$ 6,532 million in the fourth quarter of 2014, or 7.1%, a R\$ 432 million increase from the previous quarter. This performance was mostly driven by: (i) the improved results in net interest income, in the amount of R\$ 705 million; (ii) an increase in fees and commission income, totaling R\$ 200 million; (iii) an increase in operating income for Insurance, Pension Plans and Capitalization Bonds, in the amount of R\$ 193 million; and (iv) the increase in personnel and administrative expenses, in the amount of R\$ 643 million.

In the year-over-year comparison, the increase of R\$ 5,280 million or 28.0%, was mainly driven by: (i) the R\$ 5.009 million increase net interest income; (ii) increase in fees and commission income, totaling R\$ 2.303 million; (iii) higher net interest income, totaling R\$ 156 million; (iv) an increase in operating income for Insurance, Pension Plans and

Capitalization Bonds, in the amount of R\$ 576 million; partially offset by: (iv) an increase in personnel and administrative expenses, totaling R\$ 1,242 million; and (v) an increase in other operating expenses (net of other income), totaling R\$ 652 million; (vi) increased expenses with allowances for loan losses, in the amount of R\$ 612 million; and (vii) an increase in tax expenses, totaling R\$ 246 million.

Non-Operating Income

In the fourth quarter of 2014, non-operating income posted a loss of R\$ 68 million, an increase of R\$ 23 million from the previous quarter, and R\$ 63 million in the year-over-year comparison. due to greater non-operating expenses (such as losses on sale of foreclosed assets/other) in the period.

Corporate Governance

Bradesco's management is made up of the Board of Directors and the Statutory Board of Executive Officers. The Board of Directors is composed of nine members who are eligible for reelection, and includes eight external members, including the Chairman (Mr. Lázaro de Mello Brandão), and one internal member (the Chief Executive Officer, Mr. Luiz Carlos Trabuco Cappi). The Board members, who elect the members of the Board of Executive Officers, are themselves elected at the Annual Shareholders' Meeting.

Bradesco's Corporate Governance structure includes 6 Committees subordinated to the Board of Directors, 2 of which are Statutory Committees (Audit and Compensation) and 4 which are Non-Statutory Committees (Ethical Conduct, Internal Controls and Compliance, Integrated Risk Management and Capital Allocation and Sustainability), in addition to several Executive Committees subordinated to the Board of Executive Officers, assisting it in performing its duties.

Investor Relations – IR

In the fourth quarter, the Investor Relations area participated in 11 events in Brazil and four such events abroad, in London, Madrid and New York. In addition to the events calendar, Apimec Meetings were held in Florianópolis, Curitiba, Belo Horizonte, Fortaleza and Recife.

Sustainability**For the 10th consecutive year, Bradesco is listed in Corporate Sustainability Index (ISE)**

Listed in the Corporate Sustainability Index (ISE) of BM&FBovespa since its beginning, Bradesco's common shares (BBDC3) and preferred shares (BBDC4) were included in the Corporate Sustainability Index (ISE) for the 10th consecutive year.

Bradesco guarantees its shareholders, as a minimum dividend, 30% of adjusted net income, as well as 100% tag-along rights for common shares and 80% for preferred shares. Preferred shares are also entitled to dividends 10% greater than those paid to common shares.

Bradesco voluntarily adhered to Level 1 Corporate Governance of BM&FBovespa in 2001, and to the Code of Self-Regulation and Best Practices for Publicly Held Companies, issued by the Brazilian Association of Publicly Held Companies (Abrasca), in 2011. In December 2014, *Austin Rating* held its AA+ Corporate Governance rating attributed to Bradesco, which reflects the company's commitment to corporate governance practices that adhere the best practices defined by the *Austin Rating*, based on the main codes published on this topic.

Further information is available at the Bradesco's Investor Relations website (www.bradescori.com.br – Corporate Governance Section).

In addition, the Investors Relations area frequently provides services to shareholders, investors and analysts by phone, e-mail, and at its headquarters.

questionnaire. This year, the index listed 51 shares from 40 different companies, belonging to 19 sectors of the economy.

Renowned as a national reference and an encouragement to good practices, the ISE seeks to maintain a portfolio that is composed by stocks issued by companies highly committed to corporate

Participation in the fourth Annual Meeting of UNEP FI Bank Commission

Bradesco participated in the fourth Annual Meeting of the Bank Commission, promoted by the United Nations Environmental Program Financial Initiative (UNEP FI). The initiative gathers more than 200 financial institutions, including banks, insurance companies and fund managers, who study the impact of social and

environmental considerations on financial performance. Among the topics discussed at the October 2014 meeting held in Geneva, Switzerland, was “Conducting Positive Impacts — how banks can increase their positive contribution to society and the environment.”

Participation at COP 20, in Lima

In December 2014, Bradesco integrated the Brazilian delegation at the United Nations Climate Change Conference (COP 20), held in Lima, Peru. At the occasion, 195 countries approved the

draft of an agreement to reduce greenhouse gas emissions, laying the groundwork for a probable global pact at COP 21, in Paris, in 2015.

Regarding Bradesco's shareholders, residing either in Brazil or abroad, there were 357,313 shareholders domiciled in Brazil on December 31, 2014, accounting for 99.7% of all

shareholders and 67.1% of shares. The number of shareholders residing abroad was 1,209, accounting for 0.3% of the total number of shareholders and 32.9% of shares.

Return to Shareholders

Bradesco Shares

Average Daily Trading Volume of Shares

Bradesco shares are traded on BM&FBovespa (São Paulo) and on the New York Stock Exchange (NYSE). Since November 21, 2001, Bradesco trades its ADRs backed by preferred shares on NYSE. As of March 13, 2012, it has also traded ADRs backed by common shares.

In 2014, the average daily trading volume of our shares reached R\$ 622 million, the highest number in the series below. Compared to the previous year, the average volume daily traded rose up 17.1%, due to the higher trading volume of our ADRs backed by preferred shares on the NYSE.

Bradesco _____

Return to Shareholders**Bradesco Shares****Appreciation of Preferred Shares - BBDC4**

The graph shows the change in Bradesco's preferred shares, taking into account the reinvestment of dividends, compared to the Ibovespa and the Interbank Deposit Rate (CDI). If by late December 2001 R\$ 100 were invested,

Bradesco's shares would be worth approximately R\$ 1,160 by December 2014, which is a substantially higher appreciation compared to that presented by Ibovespa and CDI within the same period.

to our Shareholder Relationship website at: www.bradescori.com.br > Information to Shareholders > Analysts' Consensus.

Market Capitalization

On December 31, 2014, Bradesco's market value, considering the closing prices of Common and Preferred shares, was R\$ 145.5 billion, a growth of

13.6% compared to December 31, 2013. It should be mentioned that, in the same period, Ibovespa recorded a 2.9% drop.

 Bradesco

Return to Shareholders

Main Indicators

Price/Earnings Ratio⁽¹⁾: indicates a possible number of years within which the investor would recover the capital invested, based on the closing prices of common and preferred shares.

Price/Book Ratio: indicates the multiple by which Bradesco's market capitalization exceeds its book value.

Dividend Yield ⁽¹⁾ ⁽²⁾:the ratio between share price and dividends and/or interest on shareholders' equity paid to shareholders in the last 12 months, which indicates the return on investment represented by the allocation of net income.

Economic and Financial Analysis Report – December 2014

Dividends/Interest on Shareholders' Equity

In 2014, R\$ 5,055 million were assigned to shareholders as interest on shareholders' equity (JCP) and dividends. In 2014, the total JCP and Dividends assigned to shareholders accounted for

35.3% of the net income for the fiscal year and, considering the income tax deduction and JCP assignments, it was equivalent to 31.5% of the net income.

(1) In the last 12 months.

Weight on Main Stock Indexes

Bradesco shares are listed in Brazil's main stock indexes, including IBrX-50 and IBrX-100 (indexes that measures the total return of a theoretical portfolio composed of 50 and 100 shares, selected from among the most traded shares on BM&FBovespa), IBrA (Broad Brazil Index), IFNC (Financial Index, composed of banks, insurance companies and financial institutions), ISE (Corporate Sustainability Index), IGCX (Special Corporate Governance Stock Index), IGCT (Corporate Governance Trade Index), ITAG (Special Tag-Along Stock Index),

ICO2 (index composed of shares of companies listed in the IBrX-50 index and that accepted to take part in this initiative by adopting transparent greenhouse gas emission practices) and the Mid-Large Cap Index – MLCX (which measures the return of a portfolio composed of the highest capitalization companies listed).

Abroad, Bradesco shares are listed on the Dow Jones Sustainability World Index of the NYSE, and on the FTSE Latibex Brazil Index of the Madrid Stock Exchange.

Bradesco ___

Additional Information

Investments in Infrastructure, Information Technology and Telecommunications

Bradesco is widely regarded as a pioneer in the Brazilian banking industry, continuously providing innovative solutions to its customers. One such example of this entrepreneurial attitude was the launch of the ATM that takes cash deposits and immediately credits the customer's account. These pioneering initiatives are made possible by Bradesco's investment in the constant integration of its IT teams with the Organization's business areas and strategic technology suppliers.

Bradesco was recognized by The Banker magazine in its *Technology Projects of The Year 2014* awards, which lists the most outstanding companies in technological innovation. Bradesco was featured in the "Social Media" category for its Facebook page for F.Banking Bradesco. Using this social network, customers can apply for personal loans, make investments, and access other services such as checking account balance, pension statements, and credit lines, pay utility bills and payment slips and buy mobile phone credits.

In November 2014, the Bank launched the new film for its communication platform, Bradesco Next. The platform gathers information about the innovations developed by Bradesco in a single environment, such as: biometrics system, online financial consulting, Bradesco Celular, geolocation service, check deposit and b.wallet, among other services which are available to its customers.

We have implemented the "EI! - Efficiency and Innovation" program to field employees' suggestions, as part of our goal of valuing and stimulating creativity and interactivity in the Organization. This initiative contributes to increasing the quality and productivity of our businesses, and to the

In addition, we launched a nationwide campaign, "InovaBra", aimed at encouraging and discovering innovative startup projects that can be adapted to the financial products and services industry. Up to a dozen early-stage companies will be selected to develop a ground-breaking product or service for the industry and to integrate its technology with that of Bradesco. The startups that are able to come up with successful solutions will earn a contract with Bradesco, thus entering the market with a major company in its list of clients. The program has exceeded all expectations, with 553 applications submitted from around the country.

Systems Architecture closes the year with a 92.1% growth, showing significant improvement in the sale of assets. This quarter, we highlight the deployment of the "CDC" (direct consumer credit) and "personal loan" products, and pilot projects include "Restrictions" and "Liens". Robust and thorough, Systems Architecture relies on security and speed to support the magnitude of our continuously expanding operations, preparing Bradesco for the next few decades.

As a process of continuous improvement, the Bradesco expanded its Data Center infrastructure resources, with the addition of new uninterruptible power equipment and electrical panels. We implemented sustainability actions with economy and cost reduction in the IT area, with procedures to reuse water from air conditioning condensation systems and using reuse water in our Data Centers. We upgraded our Net Empresa (Internet Banking for Corporate Customers) environment, improving performance and providing greater speed and agility in customer service. Works are also underway to expand the capacity of data

continuous improvement of processes, elimination of waste, problem-solving and the development of partnerships.

Bradesco customers who use Bradesco Celular are now able to enjoy one of our latest innovations. Initially available to Bradesco Prime customers, the Touch ID feature available on some smartphones will now be integrated into our mobile banking service, thus providing faster access to the platform by eliminating the need for a password. We have now also added the List of Beneficiaries for transfers between accounts to this platform, providing customers with the same convenience available in our Internet Banking.

transmission network of at Branches and Service Branches (PAs) (work has already been concluded at 808 Branches and 1,267 Service Branches).

As a prerequisite for its continuous expansion, Bradesco has invested R\$ 4,998 million in Infrastructure, Information Technology and Telecommunications in 2014. The total amount invested over recent years, including infrastructure (facilities, restorations, improvements, furniture and fixtures), can be found below:

- Economic and Financial Analysis Report – December 2014

Investments in Infrastructure, Information Technology and Telecommunications

	2014	2013	2012	2011	R\$ million 2010
Infrastructure	1,049	501	718	1,087	716
Information Technology and Telecommunications	3,949	4,341	3,690	3,241	3,204
Total	4,998	4,842	4,408	4,328	3,920

Risk Management

Risk management activity is highly strategic due to the increasing complexity of services and products and the globalization of the Organization's business. The dynamic aspect of markets forces Bradesco to engage in continuous improvement of this activity in pursuit of best practices. That has allowed Bradesco to use its internal market risk models, which were already in force, to calculate regulatory capital, since January 2013.

The Organization controls risk management in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies, models, and measurement and control tools. It also provides

training to employees from all Organization levels, from business areas to the Board of Directors.

The management process allows the risks to be proactively identified, measured, mitigated, monitored and reported, which is necessary in view of the Organization's complex financial products and activity profile.

Detailed information on the risk management process, Capital, as well as the Organization's risk exposure, can be found in the Risk Management Report, available on the Investor Relations website: www.bradescori.com.br.

Bradesco

Additional Information

Capital Management

The Capital Management structure aims to providing conditions for capital monitoring and control, contributing to the achievement of goals set in the strategic objectives defined by the Organization, through an adequate capital sufficiency planning. This structure is comprised of Executive Committees and one Non-Statutory Committee, which assist the Board of Directors and Board of Executive Officers in the decision-making process.

In addition to the Committee structure, the Organization has a department responsible for the capital management centralization, named Capital Management and Internal Capital Adequacy Assessment Process (ICAAP), subordinated to the Department of Planning, Budget and Control, which acts jointly with the Integrated Risk Control Department, associated companies, business areas and the Organization's supporting areas.

The capital plan is devised on an annual basis and approved by the Board of Executive Officers and Board of Directors. It is also aligned with the strategic plan and encompasses a prospective

outlook of at least three years. The process of developing this plan considers threats and opportunities, market share and development goals, capital requirement projections based on risks, as well as capital held by the Organization. Such projections are constantly monitored and controlled by the capital management area.

With the implementation of the capital management structure, an internal process has been established to assess capital adequacy (ICAAP), which provides conditions to assess capital sufficiency in accordance with the base and stress scenarios, in a prospective outlook to identify capital and contingency actions to be taken in the respective scenarios. Capital adequacy and sufficiency information represent essential tools to manage and support the decision-making process.

Additional information on the capital management structure is available in the Risk Management Report – Pillar 3, and in the 2013 Annual Report, on the Investor Relations website:
www.bradescom.br

Economic and Financial Analysis Report – December 2014

Capital Adequacy Ratio

The implementation of the new capital structure in Brazil began in October 2013. Through the CMN Resolution N^o 4192/13, Bacen provided a new methodology to assess Capital, replacing CMN Resolution N^o 3444/07.

Considering that such methodology entails the introduction of new adjustments, we have adapted the historical series, stated in periods, for the transition from Basel II to Basel III.

It is important to note that indexes published by September 2013 were kept, but cannot be compared due to the current resolution's criteria.

In December 2014, Capital amounted to R\$ 98,605 million, against risk-weighted assets totaling R\$ 597.213 million. The Capital Adequacy Ratio recorded a 0.2 p.p. growth when compared to the previous quarter, going from 16.3% in September 2014 to 16.5% in December 2014, which is basically a result of: (i) an increase in shareholders' equity, due to the growth in income recorded in the quarter; (ii) the effect of reallocation of Insurance Group funds, which had a positive impacted on prudential adjustments; partially offset by: (iii) the increase in risk-weighted assets, caused by the expansion of the loan portfolio.

Capital Nível II	3.6%	3.7%	3.7%	3.8%	4.3%	3.7%	3.8%	4.6%	5.1%

(1) Since October 2013, capital is calculated as per CMN Resolution No. 4192/13, which establishes that calculation is based on the “Financial Consolidated” by December 2014 and “Prudential Consolidated” as of January 2015;

(2) The prudential adjustments are progressive deductions that are already being applied on the main capital and will follow the implementation schedule, as provided by CMN Resolution N°4192/13. The impact of these adjustments in the Main Capital deduction was 0% in 2013, 20% in 2014, and will be 40% in 2015, 60% in 2016, 80% in 2017 and 100% in 2018;

(3) In addition, it is worth noting that, from the total amount of subordinated debt, R\$ 21,406 million will be used to compose the Tier II of the Capital Adequacy Ratio, calculated as per CMN Resolution N°4192/13 (including amendments thereof), effective as of October 2013; and

(4) Since October 2013, the Capital Adequacy Ratio calculation follows regulatory guidelines set forth in CMN Resolutions N°4192/13 and 4193/13.

Independent Auditors' Report

Independent Reasonable Assurance Report on the supplementary accounting information included within the Economic and Financial Analysis Report

To

The Directors of

Banco Bradesco S.A.

Osasco – SP

Introduction

We were engaged by Banco Bradesco S.A. ("Bradesco") to report on the supplementary accounting information of Banco Bradesco S.A. for the year ended as at December 31, 2014, in the form of reasonable assurance conclusion that based on our work, described within this report, the supplementary accounting information included within the Economic and Financial Analysis Report is presented, in all material respects, based on the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

Responsibilities of the Management of Bradesco

Management is responsible for preparing and adequately presenting the supplementary accounting information included within the Economic and Financial Analysis Report based on the criteria for the preparation of the supplementary accounting information described below, and for other information contained within this report, as well as the design, implementation and maintenance of internal controls that management determines are necessary to allow for such information that is free from material misstatement, whether due to fraud or error.

Independent Auditor's Responsibility

Our responsibility is to examine the supplementary accounting information included within the Economic and Financial Analysis Report prepared by Bradesco and to report thereon in the form of a reasonable assurance conclusion based on the evidence obtained. We conducted our engagement in accordance with the NBC TO 3000 - Assurance Engagement Other than Audit and Review (ISAE 3000). That standard requires that we comply with ethical requirements, including independence requirements, and plan and perform our procedures to obtain reasonable assurance about whether the supplementary accounting information included within the Economic and Financial Analysis Report is presented, in all material respects, to the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

The procedures selected were based on our judgment, including the assessment of risks of material misstatement in the supplementary accounting information of Banco Bradesco S.A. whether due to fraud or error; however, this does not include the search and identification of fraud or error.

In making those risk assessments, we have considered internal controls relevant to the preparation and presentation of supplementary accounting information in order to design assurance procedures that are appropriate in the circumstances, but not for the purposes of expressing a conclusion as to the effectiveness of Bradesco's internal control over the preparation and presentation of the supplementary accounting information. Our engagement also includes the assessment of the appropriateness of the reasonableness of the supplementary accounting information, the suitability of the criteria used by Bradesco in preparing the supplementary accounting information within the Economic and Financial Analysis Report in the circumstances of the engagement, evaluating the appropriateness of the procedures used in the preparation of the supplementary accounting information and the reasonableness of estimates made by Bradesco and evaluating the overall presentation of the supplementary accounting information. Reasonable assurance is less than absolute assurance.

Our conclusion does not contemplate aspects related to any prospective information contained within the Economic and Financial Analysis Report, nor offers any guarantee if the assumptions used by Management provide a reasonable basis for the projections presented. Therefore, our report does not offer any type of assurance on the scope of future information (such as goals, expectations and ambitions) and descriptive information that is subject to subjective assessment.

- Report on Economic and Financial Analysis – December 2014

Independent Reasonable Assurance Report on the supplementary accounting information included within the Economic and Financial Analysis Report

Criteria for preparing the supplementary accounting information

The supplementary accounting information disclosed within the Economic and Financial Analysis Report, for the year ended December 31, 2014 has been prepared by the Management of Bradesco, based on the information contained in the consolidated financial statements on December 31, 2014 and the criteria described within the Economic and Financial Analysis Report, in order to facilitate additional analysis, without, however, being part of the consolidated financial statements disclosed on that date

Conclusion

Our conclusion has been formed on the basis of, and is limited to, the matters outlined in this report.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion. In our opinion, the supplementary accounting information included within the Economic and Financial Analysis Report is presented, in all material respects, in accordance with the information referred to in the "Criteria for preparing the supplementary accounting information" paragraph.

Report on Economic and Financial Analysis – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Message to Shareholders

Dear Shareholders,

In 2014, Brazil experienced yet another moment in its well-established democracy, promoting elections that generated great interest from the general public – who were drawn by the strength of the campaigns and a fierce contest at the polls. Now, economic officials face the task of revisiting projections and strategies, setting the groundwork for changes that can lead the country towards a leap in development.

The Bradesco Organization believes there are reasons to feel optimistic about the future of Brazil. In this context, we hope that domestic economic policy and external factors, such as the recovery of the US economy and the recovery efforts of the economies pegged to the Euro, can create growth opportunities in the country.

At Bradesco, among the most significant events of this past year, we should emphasize our permanence in the select group of companies in the BM&FBovespa's ISE (Corporate Sustainability Index), and the Dow Jones Sustainability Index, of the New York Stock Exchange, which it comprises for the ninth consecutive year; the launch of the payment solutions company Stelo S.A., as well as that of LIVELO S.A., which will take care of business related to a coalition loyalty program – both in conjunction with Banco do Brasil. Also worth mentioning were the opening of the second Fluvial

The Bradesco Organization maintains its commitment to corporate sustainability, seeking to integrate its basic principles to its global strategic planning. Among its social initiatives, we should highlight the work developed by the Bradesco Foundation, which offers free and high-quality education. The foundation focuses its work on regions that face greater educational and healthcare shortages in the country, with a network of 40 schools that constitute one of the largest socio-educational programs promoted by the private sector on a global scale.

The strength of the Bradesco brand will remain a powerful ally in the continuous effort of earning and maintaining market positions, and it is boosted by the competent and loyal dedication of its directors and employees, to whom we express our gratitude. We also wish to thank our customers and shareholders for the trust which has allowed us to stand apart from the competition.

Service Station on the Solimões River, serving 11 riverside towns along a 1,600-km extension of the river, and the establishment of the first branch in Vila Kennedy, a community in the west side of Rio de Janeiro, aimed at the financial inclusion of approximately 130 thousand residents.

Regarding the numbers for the fiscal year, our Book Net Income reached R\$ 15.089 billion, an increase of 25.6% over the previous year; broken down, R\$ 10.683 billion derived from financial activities (70.8% of the total), and R\$ 4.406 billion were generated from insurance, pension plans and capitalization (29.2%). Despite the incredible volatility that characterized the stock market in the fourth quarter, the Bank's market value reached R\$ 145.536 billion, representing 1.8 times the Book Value on 12.31.2014. A total of R\$ 5.055 billion, or 31.5% of the Adjusted Net Income were paid to shareholders as Dividends and Interest on Shareholders' Equity.

As it celebrates 71 years of existence, Bradesco boasts a strong balance sheet position that confirms the success of the strategies applied, which in turn are consistent with the choice of retail banking as our flagship product line for the goals democratization of credit and banking inclusion. Our market performance is the result of the instrumentality of an extensive and well-distributed Service Network and of our digital channels. This wide range of options is made possible by a constant and robust investment in infrastructure and especially in technology, which positions Bradesco at the forefront of banking technology.

Cidade de Deus, January 28, 2015

Lázaro de Mello Brandão
Chairman of the Board of Directors

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

We hereby present the consolidated financial statements of Banco Bradesco S.A., for the fiscal year ended December 31, 2014, prepared in accordance with the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank.

The year of 2015 should prove to be a challenging one for emerging countries, given the beginning of normalization of US monetary policy and a slowdown in growth for China. This scenario also provides a unique opportunity and stimulus for these nations to move forward in the process of improving their economic fundamentals.

As for Brazil, the new course of its economic policies, in particular its fiscal policy, should play a major role in the country's response to these external challenges. At the same time, an indication to this effect is likely critical to make the stakeholders more confident in the economy, mitigating the effects of the adjustments that are expected to be made in the next year.

Bradesco remains optimistic about Brazil, and holds positive expectations for the segments in which it operates. The volume of credit is likely to grow at rates that are sustainable and compatible with risk. Due to the intense and ongoing upward social mobility of recent years, the scenario for the

- **on July 17, Bradesco and the major retail Banks in the country signed a new Shareholders' Agreement for TecBan – Banking Technology S.A.**, which provides that, in approximately 4 years, their external networks of Self-Service Terminals will be consolidated into Banco24Horas terminals;
- **on July 28 Bradesco formalized a strategic partnership with IBM Brasil – Indústria Máquinas e Serviços Ltda.**, which will provide hardware and software support and maintenance activities, currently provided by Scopus Tecnologia Ltda. IBM will take over the operational structure from Scopus, and all support and maintenance contracts signed between Scopus and its other clients;
- **on August 4, the opening of the first branch in Vila Kennedy**, a community located in the west side of the city of Rio de Janeiro, allowing the financial inclusion of approximately 130 thousand residents;
- **on September 12, for the ninth consecutive year, Bradesco was selected to comprise the Dow Jones Sustainability Index – DJSI** of the New York Stock Exchange, as part of the Dow Jones Sustainability World Index and Dow Jones Sustainability Emerging Markets Index; **on November 27, it was once again selected to**

banking and insurance sectors remains highly favorable.

The following are some of the most noteworthy events involving the Bradesco Organization over the past year:

- **on April 17 Bradesco and Banco do Brasil launched Stelo S.A.**, a payment solutions company that manages, operates and explores the payment facilitator segment for e-commerce and digital portfolio business; **on May 14, they formed LIVELO S.A.**, whose purpose will be to explore businesses related to coalition loyalty program, allowing the client to accumulate and redeem points in various partners;
- **on May 27 the second Fluvial Service Station was inaugurated aboard the ship Voyager V, in the Solimões River in the Amazon.** The new ship serves approximately 50 communities and 11 cities, covering a stretch of around 1,600 kilometers between Manaus and Tabatinga and bringing banking services that make life easier at these riverside communities;
- **on July 7, Bradesco was issued the Quality Certificate issued by IIA – Institute of Internal Auditors**, an entity present in more than 130 countries, empowered to assess and grant the Quality Certificate to internal audits. The certificate is the recognition that Bradesco has an internal audit structure that is prepared to act independently in all its dimensions, with emphasis on best practices for Risk Assessment and for the effectiveness of Internal Controls;

comprise the Corporate Sustainability Index (ISE) of BM&FBOVESPA, which reflects the return of a portfolio composed of shares of the companies with the best performance in the ISE indicators; and

- **on September 15, it earned the RA1000 Reclame AQUI**, as the first bank to be awarded the RA1000, the maximum seal of quality for handling complaints made to the website Reclame AQUI.

1. Results for the Year

The Organization's results and return to shareholders for 2014 were in line with the organization's strategies. A detailed analysis of these figures can be found in the Economic and Financial Analysis Report, available at bradesco.com.br/ri.

R\$ 15.089 billion in book Net Income for the fiscal year, equivalent to R\$ 3.60 per share and profitability of 19.8% over the average Shareholders' Equity^(*). The return on Average Total Assets was 1.6%.

R\$ 5.055 billion allocated to shareholders as monthly, intermediary and complementary Interest on Shareholders' Equity, and as Dividends, computed in the calculation of mandatory dividends. As a result, each common share was attributed R\$ 1.26 (R\$ 1.13 net of Income Tax), including the additional 10% for each preferred share, and R\$ 1.15 (R\$ 1.03 net of Income Tax). Interest and dividends paid represent 35.3% (31.5% net of Income Tax) of the adjusted profit for the year.

Bradesco

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

Taxes and Contributions

For the year, Bradesco collected a significant amount of its results in taxes, in direct proportion to its activities.

R\$ 13.323 billion in own taxes and social security contributions, paid or provisioned.

R\$ 10.902 billion in taxes withheld and collected from third parties, equivalent to financial intermediation.

Overall, R\$ 24.225 billion in taxes and contributions originated from, or circulated in, the Organization.

2. Corporate Strategy

In 2015, emerging countries are expected to face a global economic scenario marked by the recovery of the United States economy, by China's slowing growth – although its index should remain among the highest in the world – and by dropping oil prices, which, excluding oil-producing countries, will have

Overseas, it maintains a presence in strategic markets, where it provides support to customers who reside outside the country, as well as to investors who are increasingly interested in Brazil. The Bradesco Securities offices in New York, London and Hong Kong are key to raise funds and distribute securities in these financial centers, as well as Banco Bradesco Europe, in Luxembourg, which features resource management services, private banking and trade finance.

The growth that Bradesco seeks on a continuous basis imply in substantial investments in Infrastructure, Information Technology and in the Human Resources sector, essential pillars for the banking industry. R\$ 4.998 billion invested to innovate, update and maintain its IT environment, which is a standard-bearer in its industry, featuring the best practices and technologies available. Training programs that highlight motivation, innovation and customer focus also received R\$ 144.658 million in investments.

Respect towards customers, social and environmental responsibility, security and credibility are inserted in Bradesco's corporate culture. Three great pillars compose the foundation of the strategic planning:

a positive impact on the global economy. This new scenario should create new opportunities and is likely to reduce the imbalances that currently exist between countries.

In the domestic market, Bradesco seeks to improve its already outstanding position among private financial institutions, and to maintain its leadership in the insurance industry. To that end, it will encourage investments and the democratization of credit, expanding the offer of products and services and solutions, with the primary goal of promoting the banking inclusion and social mobility through its extensive Service Network, present in all regions of the country, including Branches, Banking Terminals, Express Bradesco Correspondents, Self-Service Equipment, and also through its convenient Service Channels, such as Internet Banking, Bradesco Celular and Fone Fácil.

From the perspective of a strict monetary policy, the Bank will seek, in the financial sector, the growth of its loan portfolio, focused on real estate loans, consumer credit and payroll-deductible loans, in addition to a strong performance supplementary pension plans, and the expansion of services offered to the growing economically active population. In this sense, it will continue to adopt effective security criteria in order to maintain the balance between expansion of credit and decreased delinquency, achieved through a rigorous evaluation of approval procedures and efficient daily collection of overdue amounts, through the Program for the Recovery of Overdue Loans (PRCV). The Organization will also continue with the strategic focus on business results and their secure disclosure, exemplified by the investment bank, corporate and private banking and the management of third-party funds, in addition to the investments in the payment card industry, buyers' pools, insurance, pension plans and capitalization, all of which are equally relevant.

a) growing organically, without losing sight of the possibilities of acquisitions, associations and partnerships, always committed to the quality of customer service, the security of the products, solutions and services, and with the effective improvement of operational efficiency and financial indexes;

b) maintaining strict controls to identify, assess and mitigate risks that are intrinsic to the activities, as well as defining the acceptable levels in each operation; and

c) conducting businesses with the utmost transparency, ethics and the proper compensation for investors.

3. Capital, Reserves and Subordinated Debt

At year-end, with reference to Banco Bradesco:

R\$ 38.100 billion in subscribed and paid-up Capital;

R\$ 43.408 billion in Asset Reserves; and

R\$ 81.508 billion in Shareholders' Equity, for a growth of 14.9% on the year. In relation to the Consolidated Assets, which totaled R\$ 1.032 trillion, Managed Shareholders' Equity is equivalent to 7.9%. The Book Value per share was R\$ 19.43.

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

The solvency ratio was 16.5%, therefore higher than the 11% set out in Resolution nº 4193/13, from the National Monetary Council, in accordance with the Basel Committee. In relation to the Reference Assets, the fixed asset ratio (maximum of 50%, according to the Central Bank of Brazil) reached 13.2% in the consolidated economic and financial report, and 47.2% in the consolidated financial report.

At year-end, Subordinated Debt totaled R\$ 35.822 billion (R\$ 9.322 billion overseas and R\$ 26.500 billion in Brazil), of which R\$ 21.406 billion were eligible capital and composed level II of the Reference Assets, being included in the calculation of the indexes mentioned in the preceding paragraph.

In compliance with Article 8 of Brazilian Central Bank Circular Letter nº 3068/01, Bradesco declares that it has the financial capacity and the intention of holding to maturity those securities classified under "held-to-maturity securities". Bradesco further declares that the operations of Banco Bradescard S.A., its subsidiary, are sufficient to cover the strategic goals defined in the business plan, pursuant to Article 11 of Regulatory Attachment I to National Monetary Council Resolution nº 4122/12.

Capital Management

R\$ 153.267 billion in technical reserves for insurance, pension plans and capitalization bonds, up by 12.5%.

R\$ 34.770 billion in foreign funding, through public and private issues, subordinated debt overseas, securitization of future financial flows and borrowings and on-lendings overseas, equivalent to US\$ 13.090 billion.

4.2. Loan Operations

The democratization of credit can be achieved by expanding and diversifying the credit available, and by more attractive interest rates. These key factors have increased the volume of financing operations conducted directly or in partnerships with market players, as well as in other lines aimed at individuals, such as payroll-deductible loans, through an extensive network of Branches, PAs (Service Branches) and Sales Promoters.

R\$ 455.127 billion was the balance, at year-end, of the consolidated credit operations, in the expanded concept, including sureties and guarantees, letters of credit, advances of credit card receivables, debentures, promissory notes, co-obligation in receivables-backed investment funds, mortgage-backed receivables and rural loans, for a 6.5% increase for the year.

The assessment of adequacy is made to ensure that the organization maintains a strong capital base to support its activities. It also considers a prospective vision, because it anticipates possible changes in market conditions. The structure includes Committees that report to the Board of Directors, and Committees that report to the Board of Executive Officers, advising these Administrative Bodies in the decision-making process.

R\$ 23.146 billion was the consolidated balance of allowance for loan losses, considering an additional provision of R\$ 4.007 billion, which includes provision for guarantees provided above the amount required by Resolution nº 2682/99, of the National Monetary Council.

4. Operational Performance

Real Estate Loans

4.1. Funding

At year-end, the funds obtained and managed totaled R\$ 1.426 trillion, 13.2% higher than the previous year. In all, the Bank manages 26.482 million checking account customers, 59.091 million savings accounts with balances of R\$ 92.155 billion, accounting for 17.6% of the SBPE – Brazilian Savings and Loan System.

Bradesco remains committed to meet the demands of the real estate sector, financing the construction entrepreneurs and end-borrowers by means of targeted channels, thus contributing to the growth of the construction industry's activities, which is linked with socioeconomic development and with the creation of jobs and income. The reflection on the Real Estate Loans Portfolio is shown by the continuous growth in the volume of operations.

R\$ 531.806 billion in demand deposits, time deposits, interbank deposits, savings accounts and securities sold under agreements to repurchase, a 12.1% increase.

R\$ 14.860 billion was the total amount of funds directed to this area, allowing the construction and purchase of 64,099 properties.

R\$ 488.730 billion in assets under management, comprising Investment Funds, Managed Portfolios and Third-Party Fund Quotas, a 12.3% increase.

The products available, partnerships with real estate brokers and other information can be found at bradescoimoveis.com.br.

R\$ 217.526 billion in the exchange portfolio, borrowings and on-lendings in Brazil, working capital, tax payments and collection and related charges, funds from issuance of securities in Brazil, and subordinated debt in Brazil, a 22.0% growth.

Bradesco

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

On-lending Operations

In 2014, Bradesco stood out as one of the greatest onlender of funds from BNDES, with a 13.7% share in operations, totaling R\$ 12.389 billion. R\$ 8.075 billion was destined for the release of on-lending for micro, small and medium-sized enterprises, accounting for 15.8 percent of the entire System.

R\$ 35.516 billion was the balance of the on-lending portfolios, with internal and external funds destined primarily to micro, small and medium-sized enterprises, with 393,075 registered contracts.

R\$ 11.523 billion was the total amount of Guarantees provided to BNDES, with R\$ 4.740 billion contracted over the year.

Agribusiness

A traditional partner of the agribusiness industry Bradesco contributes to the expansion of business

Quality of the Loan Portfolio

Compared to the previous year, the end of 2014 saw an improvement of quality of loans issued to new borrowers, due mostly to the continuous improvement of granting and monitoring models.

4.3. Loan Collection and Recovery

Loan collection and recovery actions are promoted through the Call Center, Friendly Billing Offices and Judicial Recovery Offices. The Program for the Recovery of Overdue Loans (PRCV) contemplates several initiatives aimed at stimulating the payment of overdue loans, including local events known as Business Rooms. The Bank also has regional teams that specialize in credit recovery, and who may engage in a more customized approach for more significant cases.

R\$ 3.944 billion in loans were recovered, 7.8% more than in the previous year.

5. International Sector

and to increase productivity and quality in the machinery and equipment industry. In addition, the Bank participates in the industry's major trade fairs and enables the supply of the domestic market, as well as an increase in exports.

R\$ 24.083 billion was the balance of investments at year-end, represented by 136,720 operations.

More information on agribusiness and credit products and services can be obtained at bradescorural.com.br.

Consumer Financing

As an incentive to the growth of the supply chain at all of its stages, Bradesco has been operating in consumer financing, sometimes through partnerships, with a significant share in operations intended for the acquisition of new and used vehicles, in the vast chain that involves automakers, dealerships and consumers.

R\$ 97.302 billion was the balance of consumer financing operations.

Credit Policy

Our Credit Policy is intended to guide the quick conclusion of diversified and fragmented deals, backed by adequate guarantees and intended for reputable people and companies with proven solvency. Performed quickly and safely, these operations should not lose sight of adequate profitability and the liquidity of the assets invested.

Overseas, Bradesco Organization offers a wide range of products and services, through its own units in New York, London, Grand Cayman, Buenos Aires, Tokyo, Hong Kong, Luxembourg and Mexico, in addition to an extensive network of international correspondents. The Bradesco Securities units in New York, London and Hong Kong, Banco Bradesco Europe, in Luxembourg, Bradescard Mexico and 28 specialized units in Brazil meet the demands of these strategic markets.

R\$ 5.876 billion in advances on exchange contracts, for a total export financing portfolio of US\$ 11.560 billion;

US\$ 3.285 billion in total import financing in foreign currency.

US\$ 38.988 billion traded on export purchases, for a market share of 17.3%.

US\$ 28.415 billion contracted in Imports, for a market share of 13.0%.

US\$ 10.194 billion in medium- and long-term public and private placements in the international market.

6. Bradesco Shares

Bradesco shares continued to be traded, with a high level of liquidity, in all trading sessions of the BM&FBOVESPA S.A. In the beginning of 2015, according to the new calculation methodology,

The specialized Credit Scoring systems allow the decision-making process to be streamlined and bolstered with specific security standards in Branches' environments. From our headquarters, the Credit Department and the Executive Credit Committee issue the final decision on loans that exceed the limit of Branches.

these shares accounted for 5.1 percent of the Ibovespa index. They are also traded Overseas, on the New York Stock Exchange, through a Level 2 American Depositary Receipt (ADR) program, and in the Madrid Stock Exchange, where they compose the Latibex Index.

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

Bradesco guarantees its shareholders, as a minimum dividend, 30% of adjusted net income, in addition to 100% tag-along rights for common shares and 80% for preferred shares. Preferred shares earn 10% more dividends than those attributed to common shares.

R\$ 80.828 billion in Bradesco Shares were traded in BM&FBOVESPA throughout the year, composed of 302.983 million common shares and 2.009 billion preferred shares.

US\$ 31.524 billion were traded as ADRs in the New York Stock Exchange (NYSE), equivalent to 2.221 billion preferred shares and 493.762 million common shares.

EUR 15.828 million were traded as DRs in the European market (Latibex – Madri), equivalent to 1.492 million preferred shares.

Overseas Brokerages (Bradesco Securities, Inc., Bradesco Securities UK Limited and Bradesco Securities Hong Kong Limited)

Bradesco Securities, Inc., based in New York, provides services to the U.S. market, while Bradesco Securities UK Limited, based in London, provides services to the European Market, and

Bradesco's Corporate Governance structure includes six Committees subordinated to the Board of Directors, two of which are Statutory Committees (Audit and Compensation) and four which are Non-Statutory Committees (Ethical Conduct, Internal Controls and Compliance, Integrated Risk Management and Capital Allocation and Sustainability), in addition to 47 Executive Committees subordinated to the Board of Executive Officers, assisting it in performing its duties.

Installed annually since 2002 through an initiative of the controlling shareholders, the Fiscal Council is composed of five sitting members and five deputy members. Two sitting members and their respective deputy members are chosen by preferred and common minority shareholders. The current Board was elected during a Shareholders' Meeting held on March 10, 2014, and their term expires in August 2015.

Banco Bradesco is listed at Level 1 Corporate Governance with BM&FBovespa, has adhered to the Code of Self-Regulation and Best Practices of Publicly-Held Companies of Abrasca, and, on December 17, 2014, the Austin Rating ratified its AA + rating (Excellent Corporate Governance Practices).

In compliance with CVM Rule nº 381/03, in 2014 the Bradesco Organization neither contracted from

Bradesco Securities Hong Kong Limited, based in Hong Kong, provides services to the Chinese market, including stock brokerage through ADRs and shares listed on the local exchanges. They also operate as broker-dealers in the distribution of public and private securities to international investors.

BRAM - Bradesco Asset Management

With its extensive experience and specialization, BRAM provides services to several Bradesco segments, including Prime, Corporate, Private, Retail, Bradesco Empresas, and Grupo Bradesco Seguros, as well as a hundred Institutional Investors in Brazil and Overseas, and several family offices across the world.

R\$ 346.692 billion, on December 31, 2014, distributed through 732 investment funds and 235 managed portfolios, covering 2,738,356 investors.

11. Corporate Governance

With its shares traded on stock exchanges in Brazil since 1946, Bradesco operates in the American capital market since 1997, initially trading Level I ADRs backed by preferred shares, and starting in 2001 and 2012, trading Level II ADRs backed by preferred and common shares, respectively. Bradesco also trades GDRs in the European market (Latibex) since 2001.

Management is composed of nine members of the Board of Directors and 86 members of the Board of Executive Officers, most of whom came up through the company ranks. Members cannot hold both Chairman positions simultaneously, and the succession plan is defined in a timely manner.

nor had services provided by KPMG Auditores Independentes that were not related to the external audit in an amount exceeding 5% of the total cost of this audit. Other services provided by the external auditors included diagnosing the system and compiling IT information and training.

The Bank's policy is in line with the principles of preserving the auditors' independence, which are based on generally accepted international criteria, i.e. the auditors should not audit their own work, perform managerial duties for their clients or promote their customers' interests. Please note that any services not related to the external audit are submitted to the Audit Committee for prior authorization.

11.1. Internal Audit

Reporting directly to the Board of Directors, the General Inspectorate is responsible for the Organization's internal audit. Its purpose is to conduct an independent assessment of the Organization's processes, contributing to mitigate risks, and to ensuring the adequacy and efficiency of internal controls, as well as compliance with the various Policies, Norms, Standards, Procedures and Internal and External Regulations.

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

11.2. Transparency and Information Disclosure Policies

Bradesco publishes a number of physical and electronic periodicals which are available to the general public. *Revista Bradesco* is published every six months, and the *Cliente Sempre em Dia* newsletter is published every three months, while *PrimeLine*, is available every two months. *Fact Sheet*, which presents Bradesco's financial highlights for the period, is printed on demand. All are geared to external audiences. The Bank's Economic and Financial Analysis Report, with a detailed compilation of the information most requested by readers interested on the subject, and the Unified Annual Report, which combines financial and non-financial aspects, are available at bradesco.com.br/ri.

11.3. Investor Relations – IR

The main objective of the Investor Relations sector is to convey Bradesco's information, perspectives and strategies to the financial community, through conferences, lectures, publications and events in Brazil and overseas, thus enabling investors to form an accurate assessment of the Bank, as well as providing Upper Management with important insights into the market's opinion regarding the Organization's performance.

12. Integrated Risk Control

12.1. Risk Management

Risk management is highly strategic due to the increasing complexity of services and products and the globalization of the Organization's business.

Corporate risk control performed in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies, models, and measurement and control tools. It also provides training to employees from all Organization levels, from the business areas to the Board of Directors.

Given the complexity and variety of products and services that Bradesco offers its customers across all market segments, and as it is exposed to various types of risks, whether due to internal or external factors, the Organization constantly monitors all risks in order to provide security and comfort to all interested parties. Some of the main types of risks include: Credit, Counterparty Credit, Concentration, Market, Liquidity and Underwriting, Operational, Strategic, Legal or Compliance, Legal Unpredictability (Regulatory), Reputation and Social-Environmental.

The Company's IR website, bradesco.com.br/ri, available in Portuguese and English, is segmented for individual and corporate customers, and provides information according to the need and interest of each investor's profile.

The Bank held eight meetings with APIMEC (Association of Capital Market and Investment Professionals) in 2014, which were attended by over 2 thousand participants. Some of these meetings were broadcast live over the internet, with simultaneous translation into English. The meetings could also be accessed through mobile platforms.

Teleconferences and video chats are held on a quarterly basis for investors, following the publication of the company's results. In 2014, Bradesco promoted 125 internal and external meetings with analysts, 215 conference calls and 25 events overseas. In addition, the Investor Relations staff is available to shareholders, investors and analysts by telephone and email, and in conferences and road shows in Brazil.

11.4. Bradesco Ombudsman

Since it was created in 1985, five years before the new Consumer Defense Code was drafted, Alô Bradesco registers and handles complaints and suggestions from the Bank's customers. The service was the financial market's first communications channel with the general public.

Currently, the Ombudsman's Department promotes the values that guided the creation of Alô Bradesco, and includes the position of Ombudsman, who maintains open and direct dialogue with customers and users.

12.2. Internal Controls

The Compliance and Internal Controls Policy and the Internal Control System Standards are aligned with the main control frameworks, such as the Committee of Sponsoring Organizations of the Treadway Commission (COSO) and Control Objectives for Information and Related Technology (COBIT), which cover aspects related to Business and Information Technology, respectively.

The existence, effectiveness and enforcement of the controls are certified by the Department of Integrated Risk Control, and the results are reported to the Audit, Internal Controls and Compliance Committees, as well as to the Board of Directors.

Preventing and Fighting Money Laundering and the Financing of Terrorism

Bradesco maintains specific policies, standards, procedures and systems to prevent and/or detect the use of its structure, or its products and services for the purposes of money laundering and the financing of terrorism.

Additionally, the Bank is also engaged in training employees through programs in various formats, such as booklets, videos, face-to-face and distance learning courses, and face-to-face lectures designed specifically to cover the areas in which they are required.

225,295 contacts registered in 2014.

Bradesco

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

The Program for Prevention and Fight Corruption and Money Laundering and the Financing of Terrorism is supported by the Executive Committee for Prevention and Fight Against Corruption and Money Laundering and the Financing of Terrorism, which evaluates the work and the need to align procedures to the rules established by Regulatory Agencies, and to national and international best practices.

The multi-level Committee for Assessment of Suspicious Transactions is alerted of any suspicious or unusual activity detected, and decides whether these transactions need to be reported to Regulatory Agencies.

Prevention and Fight Against Corruption

At Bradesco, the prevention and fight against any illicit acts are conducted in a continuous and permanent manner. In 2014, we reinforced the processes, procedures and training aimed at preventing and fighting corruption.

The Board of Directors approved the Corporate Anti-Corruption Policy, which establishes guidelines for preventing and fighting corruption, and applies to all the directors and employees of the Organization, comprised of Banco Bradesco S.A. and its subsidiaries, in Brazil and overseas.

The independent validation process exists to identify, mitigate and manage the models' risks, represented by potential adverse consequences which may result from decisions based on incorrect or obsolete models. The main objective of this process is to verify whether the models work according to the defined objectives, and whether their results are suitable for their intended uses. This validation occurs through rigorous tests, which address aspects related to adequacy of the processes, governance and construction of models and their premises. The results are reported to managers, Internal Audit, to the Compliance and Internal Control Committee, and to the Integrated Risk Management and Capital Allocation Committee.

Information Security

Information Security at the Bradesco Organization consists of a set of controls represented by procedures, processes, organizational structures, policies, regulations and information technology solutions. Accordingly, the information are protected to ensure the confidentiality, integrity and availability of information, regardless of its form and where it may be stored or handled.

The guidelines for the Organization's Information Security Management System (SGSI) are contained in the Corporate Information Security Policy and Rules. The Corporate Security

Department is responsible for its oversight.

The Corporate Anti-Corruption Norm was adopted in the Bradesco Organization. The Norm is based on rules and procedures aimed at preventing and fighting corruption and bribery, in accordance with the laws and regulations in force in Brazil and in other countries where our Business Units are located.

The Program for Prevention and Fight against Corruption is supported by the Corporate Anti-Corruption Policy and the Code of Ethical Conduct.

Actions also include the monitoring of business partners, the procurement of products and services and the education of officials and employees, through e-learning and on-site training sessions and internal and external communications, enabling an effective monitoring of risks and controls.

Bradesco also has a complaint channel, whose actions configured as violations are subject to applicable disciplinary measures, regardless of hierarchical level, and without prejudice to appropriate legal penalties.

Independent Validation of Management Models and Risk and Capital Measurement

Bradesco uses internal models to manage risks and capital. These models are developed based on statistic, economic, financial or mathematical theories, or on the knowledge of experts, who support and facilitate the structuring of critical issues, and provide quick and standardized decisions.

Additionally, the Corporate Security Department coordinates three Committees to handle specific security issues, and advises the Executive Corporate Security Committee. These committees meet periodically to assess and approve guidelines, measures and guidelines to ensure support for processes and procedures related to the subject.

Integrated Management System

Bradesco adopts one of the most modern concepts of integration of organizational processes: Enterprise Resource Planning (ERP).

This system covers the processes related to Human Resources, Training, Purchase of Materials and Services, Accounts Payable, Physical and Tax Receipts, Fixed Assets, Bank Accounting, Cash Controls, Works Management, Maintenance, Real Estate and Audit. System users receive continuous training through on-site and e-learning programs.

ERP allows the Organization to standardize its processes, speeds up decision-making and streamlines operational security, while minimizing operating costs and increasing productivity.

12.3. Risk Factors and Critical Accounting Policies

Bradesco discloses its risk factors and critical accounting policies in the Reports and Spreadsheets – SEC Reports section of its IR website bradesco.com.br/ri in compliance with best

international Corporate Governance practices and the Consolidated Financial Statements. These reports are drafted in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB). These factors include potential political and economic situations in domestic and international markets that could have a direct impact on the Bank's day-to-day operations and, consequently, on its financial situation.

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

13. Intangible Assets

Based on the price of its shares on December 31, 2014, Bradesco's market capitalization stood at R\$ 145.536 billion, equivalent to 1.8 times its Book Value of R\$ 81.508 billion. The substantial difference is due to the strength of its intangible assets, which, although not reflected in the balance sheet, are perceived and evaluated by investors.

Bradesco's strategic planning always seeks the best results, setting realistic and conservative goals that take into consideration: (I) the value of the Bradesco brand; (II) best corporate governance and culture practices; (III) the scale of its businesses; (IV) the various relationship channels with its different target groups; (V) an innovative Information Technology policy; (VI) the broad diversification of its products, services and solutions and the coverage and reach of its Customer Service Network, which is present across all of Brazil and in some locations Overseas; (VII) a dynamic and responsible social and environmental responsibility policy; (VIII) a robust human resources policy that: a) ensures solid relations between all employees and consequently increases the level of mutual trust; b) indicates the opportunities for professional recognition and development; c) substantially reduces the staff turnover rate and associated costs; and d) cultivates a long-term vision at all levels of the Organization. All of these factors are inextricably linked to sustainability.

13.2. Human Resources

At year-end, the Bradesco Organization had 95,520 employees, with 82,011 working for Banco Bradesco and 13,509 for Affiliated Companies.

Bradesco's Human Resources Management model is guided by valuing its individual employees, without discrimination.

One of its the Organizations key components for that model is UNIBRAD - Bradesco Corporate University, created as part of a larger strategy of highlighting the individual skills of its employees, stimulating self-development and providing learning solutions.

The strategy also includes TreiNet, an online learning platform, which enables employees to obtain new knowledge from any distance. The system recorded more than 544 million participations in 2014, demonstrating its importance and extent of its coverage throughout the country.

The Organization's efforts towards internal communications has also enjoyed some outstanding contribution from the magazine

13.1. Bradesco Brand

In 2014, the Bradesco brand received some substantial recognition:

- **Most valuable banking sector brand in Latin America** and 20th in the global ranking, according to a survey conducted by the consulting firm *Brand Finance* and *The Banker* magazine;
- **Labeled the most valuable Bank Brand in Latin America and 5th among all segments**, according to an assessment by international consulting company *BrandAnalytics/Millward Brown*;
- **Brazil's Most Valuable Bank Brand**, according to rankings compiled by the magazine *IstoÉ Dinheiro* and the consulting firm *BrandAnalytics/Milward Brown Optimor*;
- **Top-ranked private financial institution in the *Top of Mind* survey by newspaper Folha de S. Paulo**, which ranks the brands that first come to consumers' minds in various segments. Bradesco Seguros has led the Insurance category for 13 consecutive years.

"Interaction", and the daily newsletter "Always up to date", available electronically at IntraNet. Employees receive information on policies, guidelines and operational procedures which should be adopted through notifications and releases. The CEO's Blog is as an internal and interactive channel to promote the exchange of information and opinions between employees and the CEO's office. TV Bradesco reinforces and extends the communication actions, joining the other vehicles and making the content more visible and dynamic.

Bradesco provides its employees with benefits aimed at improving their quality of life, well-being and safety, as well as that of their dependents. At year-end, 204,150 individuals benefited. These benefits include:

- Healthcare plans;
- Dental plans;
- Private Pension and Retirement Plans;
- Group Life and Personal Accident Insurance;
- Group auto insurance; and
- The VIVA BEM Program, a set of initiatives designed to improve employees' quality of life – Healthy Management, Stopping Smoking, Physical Activity, Health Training, Nutritional Guidance and LIG VIVA BEM.

Bradesco

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

As a competent and independent assessment of its management of Human Capital, in 2014, Bradesco figured in several rankings of renowned magazines such as *Época*, *Exame*, *Valor Carreira*, with the support of prestigious specialized consultancies *Great Place to Work Institute*, *Aon Hewitt* and *Fundação Instituto de Administração (FIA)*.

R\$ 144.657 million invested in 2014 in Corporate Education Programs, with more than 1.061 million participations.

R\$ 1.192 billion invested in the Food Program, with the daily supply of 131,077 snacks, in addition to dining vouchers and food vouchers.

5.450 million medical and hospital consultations.

414,603 dental care consultations.

13.3. Information Technology

One of the essential pillars to its business, Bradesco increasingly invests in state-of-the-art technologies applied to new products and services

One of the biggest supporters of sports in Brazil, Bradesco is an official sponsor of the Rio 2016 Olympic Games and Paralympics, with exclusivity in the insurance and financial services categories.

During the year, Bradesco maintained its traditional support for various cultural events that take place throughout the country. Events ranging from Carnival in Rio de Janeiro and Salvador, to *Círio de Nazaré* in Belém, *Farroupilha* week in Porto Alegre, *Natal Luz* in Gramado, and *Sonho de Natal* in Canela, among others.

In its 19th year, the Christmas Tree of Grupo Bradesco Seguros, located at Rodrigo de Freitas Lagoon, in Rio de Janeiro, is already a holiday tradition in the city. This year's theme was *Um Natal de Luz* (Christmas of Lights).

238 regional, industry and/or professional events around the country, including trade shows, seminars, congresses and cultural/community events received Bradesco's support in 2014.

15. Sustainability at the Bradesco Organization

aimed at making our customers' lives easier. One major example of this investment is our continuously expanding System Architecture, which supports operations with speed and security, preparing the Bank for decades to come.

The constant innovation in products in services reaffirms Bradesco's groundbreaking position in the Brazilian banking industry. One such example of this entrepreneurial attitude was the launch of the ATM that takes cash deposits without the need for an envelope, identifying real and counterfeit bills and immediately crediting the customer's account. Also, the Touch ID feature is now available Bradesco Prime application users on iPhones 5S, 6 and 6 Plus, allowing customers to use their fingerprints instead of a password. The mobile phone is the fastest-growing relationship channel among all self-service options offered by the Bank.

R\$ 4.998 billion invested in Infrastructure, Information Technology and Telecommunications, in 2014, as a prerequisite for its continuous expansion.

14. Marketing

2014 year marked the launch of a new positioning for Bradesco, which revolves around "people". *Brasildade* (Brazilian-ness). Experiences. A more humane and encouraging approach, which brings the positive side of everyday life and presents Bradesco as agent and partner in the lives of Brazilians.

Since its origins, Bradesco Organization has been fully committed to Brazil's social and economic development. Topics such as banking inclusion and education have always been part of its day-to-day activities.

Its major initiatives to promote financial inclusion focus on accessibility, whether digital or physical, the development and supply of specific products and services, and financial education initiative focused on personal finance, as well as the responsible use of credit and other products and services offered to the population.

The Organization is aligned with best national and international sustainability practices, such as: Global Pact, Equator Principles, Carbon Disclosure Project (CDP), Green Protocol, Principles for Responsible Investment (PRI), GHG Protocol Program and the Companies for Climate (EPC) initiative.

The company is committed to adopting the best corporate sustainability practices, assessed through its performance in attributes such as: corporate governance, risk management, human capital development and management of suppliers. This commitment is reflected in the presence of Bradesco in Dow Jones Sustainability Index (New York Stock Exchange), Corporate Sustainability Index (ISE) and Carbon Efficient index (ICO2), both of BM&FBOVESPA S.A., as well as other certifications and recognitions.

More information on Bradesco's initiatives in 2014 can be found in the 2014 Annual Report and at www.bradesco.com.br/ri.

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

Fundação Bradesco

Fundação Bradesco, the main pillar of the Organization's social engagement, invests in the education of children, youth and adults. Its activities are based on the principle that education is at the root of equal opportunities and of personal and collective achievement.

The foundation has 40 schools located in all Brazilian states, including the Federal District, mostly in socially and economically underprivileged regions. In 2014, it had 105,177 students enrolled in its schools in the following levels: Basic Education (Kindergarten to High School) and Vocational Training (High School level); Youth and Adult Education; and Preliminary and Continuing Vocational Training, focused on creating jobs and income. The approximately 44 thousand students enrolled in the Basic Education system also receive uniforms, school supplies, meals, and medical and dental assistance free of charge.

A total of 458,365 students also completed at least one of the distance learning courses available on the Virtual School e-learning portal, while a further 33,856 benefited from partnership projects and initiatives, including the Digital Inclusion Centers (CIDs), the Educa+Ação program and Technology courses (Educar e Aprender)

Bradesco Sports and Education Program

Aiming to encourage citizenship and social inclusion among children and teenagers, the Bradesco Sports and Education Program has been promoting the practice of sporting activities for more than 27 years, gathering initiatives related to education, health, and well-being.

The program has a Training and Specialists Center in the city of Osasco, in the State of São Paulo, and offers women's volleyball and basketball at its Sports Development Center, at Fundação Bradesco schools, at municipal sports centers, at a leisure club and at private schools. Approximately 2,000 young girls starting at the age of eight benefit from the program, reinforcing its commitment to a country that increasingly values talent, effort and the exercise of citizenship.

16. Awards

Ratings – In 2014, among the evaluation indexes assigned to Brazilian Banks by national and international Agencies and Entities, we have recorded for Bradesco that:

Since its pioneering implementation in 1998, the Program to Promote Computer Use by the Visually Impaired, has trained 12,312 individuals, ensuring the social inclusion of thousands of people.

Fundação Bradesco helps improve the quality of life of the communities where it operates, making it a socially responsible investment in the best sense of the term.

R\$ 520.277 million in investments by Fundação Bradesco in 2014, of which R\$ 86.553 were destined to works for the expansion of classrooms as part of its restructuring of the High School program, with R\$ 537.311 million programmed for 2015 to finance educational benefits for: a) 101,609 students enrolled in its schools, in Basic Education, Youth and Adult Education, and Preliminary and Continuing Vocational Training; b) 380 thousand students who will complete at least one of the distance-learning courses on offer (EaD); and c) 17,346 people who will benefit through partnership projects and initiatives, including the Digital Inclusion Centers (CIDs), the Educa+Ação program and Technology courses (Educar e Aprender)

R\$ 4.464 billion, in present value, invested by Fundação Bradesco to finance its activities in the last ten years.

R\$ 376.499 million in other investments by the Bradesco Organization in 2014, in social projects focusing on education, the arts, culture, sports, health, sanitation, combating hunger and food safety.

- credit rating agencies Moody's Investors Service and Austin Rating confirmed all of the Organization's ratings; and

- the credit-risk rating agency Standard & Poor's downgraded the ratings on a global level for issuer credit in local and foreign currency from 'BBB/A2' to 'BBB-/A3', due to the downgrading of the sovereign rating, and upgraded the short-term rating of Banco Bradesco on a national level to its highest level (brA-1+). This action reflects the update performed by the agency of its rating criterion nationwide.

Rankings – In 2014, in addition to those mentioned in 13.1. In 2012 Bradesco was honored by several important domestic and international publications:

- **"Best Brazilian Bank" for the third consecutive year**, acknowledged by Euromoney Awards for Excellence. In addition, **Bradesco BBI was chosen as the Best Brazilian Investment Bank** at the same awards, granted by the British magazine Euromoney;

- **Largest private Brazilian group in the Valor Grandes Grupos ranking**, from newspaper *Valor Econômico*, which lists the 200 largest groups in the country. It also holds first place in the ranking of the 20 largest groups in the financial sector, while also leading in shareholder's equity;

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Management Report

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

1) OPERATIONS

Banco Bradesco S.A. (Bradesco) is a private-sector publicly traded company and universal bank that through its commercial, foreign exchange, consumer financing and housing loan portfolios carries out all the types of banking activities that it is authorized to do so. The Bank is involved in a number of other activities, either directly or indirectly, through its subsidiaries, particularly in leasing, investment banking, brokerage, consortium management, credit cards, real estate projects, insurance, pension plans and capitalization bonds. Operations are conducted within the context of the companies within the Bradesco Organization, working together in the market.

2) PRESENTATION OF THE FINANCIAL STATEMENTS

Bradesco's consolidated financial statements include the financial statements for Banco Bradesco, its foreign branches, subsidiaries and jointly-controlled entities, in Brazil and overseas, including SPEs (Special Purpose Entities). They were prepared using accounting practices in compliance with Laws nº 4595/64 (Brazilian Financial System Law) and nº 6404/76 (Brazilian Corporate Law), along with amendments introduced by Laws nº 11638/07 and nº 11941/09 relating to the accounting of operations, complemented by the rules and instructions of the National Monetary Council (CMN) and the Brazilian Central Bank (Bacen), Brazilian Securities and Exchange Commission (CVM), where applicable, National Private Insurance Council (CNSP), Insurance Superintendence (Susep) and National Supplementary Healthcare Agency (ANS). The financial statements of the leasing companies included in the consolidated information were prepared using the finance lease method, under which the book value of leased fixed assets less the residual value paid in advance is presented with the leasing installments due in a single balance sheet line.

In the preparation of these consolidated financial statements, intercompany transactions, including investments, assets and liabilities, revenue, expenses and unrealized profit were eliminated and net income and shareholders' equity attributable to the non-controlling interests were accounted for in a separate line. For jointly-controlled investments with other shareholders, assets, liabilities and income and loss were proportionally consolidated in the consolidated financial statements according to the interest held in the shareholders' equity of each investee. Goodwill on the acquisition of investments in subsidiary/unconsolidated companies or jointly-controlled entities is presented in the investments and

intangible assets lines (Note 15a). The foreign exchange variation from foreign branches or investments is presented in the income statement accounts together with changes in the value of the derivative financial instrument and borrowing and on-lending operations to eliminate the effect of these hedges of the investments.

The financial statements include estimates and assumptions, such as: the calculation of estimated loan losses; fair value estimates of certain financial instruments; civil, tax and labor provisions; impairment losses of securities classified as available-for-sale and held-to-maturity securities and non-financial assets; the calculation of technical reserves for insurance, pension plans and capitalization bonds; and the determination of the useful life of specific assets. Actual results may differ from those based on estimates and assumptions.

Bradesco's consolidated financial statements were approved by the Board of Directors on January 28, 2015.

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

3) SIGNIFICANT ACCOUNTING PRACTICES

a) Functional and Presentation Currencies

Consolidated financial statements are presented in Brazilian reais, which is also Bradesco's functional currency. Foreign branches and subsidiaries are mainly a continuation of activities in Brazil, and, therefore, assets, liabilities and profit or loss are translated into Brazilian reais using the appropriate currency exchange rate to comply with accounting practices adopted in Brazil. Foreign currency translation gains and losses arising are recognized in the period's income statement in the lines "Derivative Financial Instruments" and "Borrowing and On-lending".

b) Income and Expense Recognition

Income and expenses are recognized on an accrual basis in order to determine the net income for the period to which they relate, regardless of when the funds are received or paid.

Fixed rate transactions are recorded at their redemption value with the income or expense relating to future periods being recorded as a deduction from the corresponding asset or liability. Finance income and costs are prorated daily and calculated using the compounding method, except when they relate to discounted notes or to foreign transactions which are calculated using the straight-line method.

Floating rate or foreign-currency-indexed transactions are adjusted for inflation and foreign exchange rates respectively at the end of the reporting period.

Insurance and coinsurance premiums, net of premiums paid for coinsurance and related commissions, are recorded upon the issue of the related policies/certificates/endorsements and invoices, or upon the

beginning of the exposure to risk in cases in which the risk begins before the issue, and recognized on a straight-line basis over the policies' effective period through accrual the upfront recognition and subsequent reversal through the income statement of the unearned premium reserve and the deferred acquisition costs. Revenues from premiums and the corresponding deferred acquisition costs, relating to existing risk for which no policy has been issued, are recorded in the income statement at the beginning of the risk exposure, based on estimated figures.

Recognition of health insurance premiums commences with the effectiveness of the corresponding insurance policy, and is recognized in proportion to the portion of the term elapsed.

Income and expenses arising from DPVAT insurance operations are recorded based on information provided by Seguradora Líder dos Consórcios do Seguro DPVAT S.A.

Accepted coinsurance and retrocession operations are recorded based on the information received from other insurers and IRB - Brasil Resseguros S.A. (IRB), respectively.

Reinsurance operations are recorded based on the premium and claims information provided which is subject to the analysis of the re-insurers. The deductions of reinsurance premiums granted is consistent with the recognition of the corresponding insurance premium and/or terms of the reinsurance contract.

Acquisition costs, relative to the insurance commission, are deferred and recognized in profit or loss in proportion to the amount of premium recognized.

Contributions and agency fees are deferred and recognized in the income statement on a straight-line basis over a period of 24 months for health insurance operations, and 12 months for other operations.

Pension plan contributions and life insurance premiums with survival coverage are recognized in the income statement as they are received.

Income from capitalization bonds is recognized in the month it is received. Technical reserves are recorded concurrent with the recognition of the respective revenues.

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Income from expired capitalization plans is recognized after the statute of limitation, as per Article 206 of the Brazilian Civil Code. The expenses for placement of capitalization bonds, classified as "Acquisition Costs," are recognized as incurred.

c) Cash and cash equivalents

Cash and cash equivalents include: funds available in currency, investments in gold, securities sold under agreements to repurchase and interest-earning deposits in other banks, maturing in 90 days or less, which are exposed to insignificant risk of change in fair value. These funds are used by Bradesco to manage its short-term commitments.

Cash and cash equivalents detailed balances are presented in Note 6.

d) Interbank investments

Unrestricted repurchase and reverse repurchase agreements are stated at their fair value. All other interbank investments are stated at cost, plus income earned up to the end of the reporting period, net of any devaluation allowance, if applicable.

The breakdown, terms and proceeds relating to interbank investments are presented in Note 7.

e) Securities - Classification

- Trading securities - securities acquired for the purpose of being actively and frequently traded. They are recorded at cost, plus income earned and adjusted to fair value with movements recognized in the Income Statement for the period;
- Available-for-sale securities - securities that are not specifically intended for trading purposes or to be held to maturity. They are recorded at cost, plus income earned, which is recorded in profit or loss in the period and adjusted to fair value with movements recognized in shareholders' equity, net of tax, which will be transferred to the Income Statement only when effectively realized; and
- Held-to-maturity securities - securities for which there is positive intent and financial capacity to hold to maturity. They are recorded at cost, plus income earned recognized in the Income Statement for the period.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. If market prices are not available, fair values are based on traders' quotations, pricing models, discounted cash flows or similar techniques to determine the fair value and may require judgment or significant estimates by Management.

Classification, breakdown and segmentation of securities are presented in Note 8 (a to d).

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

f) Derivative financial instruments (assets and liabilities)

Classified on the date that the operation is contracted according to Management's intention to use the instrument for hedging purposes or not.

Operations involving derivative financial instruments are designed to meet the Bank's own needs in order to manage overall exposure, as well as to meet customer requests to manage their positions. Gains and losses are recorded in the income or expenses accounts of the respective financial instruments.

Derivative financial instruments used to mitigate risk deriving from exposure to variations in the Fair value of financial assets and liabilities are designated as hedges and are classified according to their nature:

- Market risk hedge: the gains and losses, realized or not, of the financial instruments classified in this category as well as the financial assets and liabilities, that are the object of the hedge, are recorded in the Income Statement; and
- Cash flow hedge: the effective portion of valuation or devaluation of the financial instruments classified in this category is recorded, net of taxes, in a specific account in shareholders' equity. The ineffective portion of the hedge is recognized directly in the Income Statement.

A breakdown of amounts included as derivative financial instruments, in the balance sheet and off-balance-sheet accounts, is disclosed in Note 8 (e to h).

g) Loans and leasing, advances on foreign exchange contracts, other receivables with credit characteristics and allowance for loan losses

Loans and leasing, advances on foreign exchange contracts and other receivables with credit characteristics are classified by risk level, based on: (i) the parameters established by CMN Resolution n° 2682/99, which requires risk ratings to have nine levels, from “AA” (minimum risk) to “H” (maximum risk); and (ii) Management’s assessment of the risk level. This assessment, which is carried out regularly, considers current economic conditions and past experience with loan losses, as well as specific and general risks relating to operations, debtors and guarantors. Moreover, the days-past-due is also considered to rate customer risk as per CMN Resolution n° 2682/99, as follows:

Past-due period (1)	Customer rating
• from 15 to 30 days	B
• from 31 to 60 days	C
• from 61 to 90 days	D
• from 91 to 120 days	E
• from 121 to 150 days	F
• from 151 to 180 days	G
• more than 180 days	H

(1) For transactions with terms of more than 36 months, past-due periods are doubled, as permitted by CMN Resolution n° 2682/99.

Interest and inflation adjustments on past-due transactions are only recognized in the Income Statement up to the 59th day that they are past due. As from the 60th day, they are recognized off-balance sheet accounts and are only recognized in the Income Statement when received.

H-rated past-due transactions remain at this level for six months, after which they are written-off against the existing allowance and controlled in off-balance-sheet accounts for at least five years.

Renegotiated transactions are held at the same rating as on the date of the renegotiation or classified in a higher risk rating. Renegotiations already written-off against the allowance and that were recorded in off-balance-sheet accounts, are rated as level “H” and any possible gains derived from their renegotiation are recognized only when they are effectively received. When there is a significant repayment on the operation or when new material facts justify a change in the level of risk, the operation may be reclassified to a lower risk category.

Bradesco

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

The estimated allowance for loan losses is calculated to sufficiently cover probable losses, considering CMN and Bacen standards and instructions, together with Management's assessment of the credit risk.

Type, values, terms, levels of risk, concentration, economic sector of client's activity, renegotiation and income from loans, as well as the breakdown of expenses and statement of financial position accounts for the allowance for loan losses are presented in Note 10.

h) Income tax and social contribution (assets and liabilities)

Deferred income tax and social contribution deferred tax assets, calculated on income tax losses, social contribution losses and temporary differences are recorded in "Other Receivables - Sundry" and the deferred tax liabilities on tax differences in leasing depreciation (applicable only for income tax) and mark-to-market adjustments on securities are recorded in "Other Liabilities - Tax and Social Security".

Deferred tax assets on temporary differences are realized when the corresponding provision is used and/or reversed. Deferred tax assets on income tax and social contribution losses are used when taxable income is generated, up to the 30% limit of the taxable profit for the period. Deferred tax assets are recorded based on current expectations of realization considering technical studies and analyses carried out by Management.

The provision for income tax is calculated at 15% of taxable income plus a 10% surcharge. Social contribution on net income is calculated at 15% for financial institutions and insurance companies and at 9% for other companies.

Provisions were recorded for other income tax and social contribution in accordance with specific applicable legislation.

Pursuant to Law n^o 11941/09, changes in the criteria to recognize revenue, costs and expenses included in the net income for the period, enacted by Law n^o 11638/07 and by Articles n^o 37 and n^o 38 of Law n^o 11941/09, shall not affect taxable income, and, for tax purposes, accounting methods and criteria in force on December 31, 2007 are used. For accounting purposes, the tax effects of adopting the aforementioned laws are recorded in the corresponding deferred tax assets and liabilities.

The breakdown of income tax and social contribution, showing the calculations, the origin and expected use of deferred tax assets, as well as unrecorded deferred tax assets, are presented in Note 34.

i) Prepaid expenses

Prepaid expenses are represented by funds already disbursed for future benefits or services, which are recognized in the profit or loss on an accrual basis.

Incurred costs relating to assets that will generate revenue in subsequent periods are recorded in the Income Statement according to the terms and the amount of expected benefits and directly written-off in the Income Statement when the corresponding assets or rights are no longer part of the institution's assets or when future benefits are no longer expected.

Prepaid expenses are shown in detail in Note 12b.

j) Investments

Investments in unconsolidated companies, where Bradesco has significant influence over the investee or holds at least 20% of the voting rights, are accounted for by the equity method.

Tax incentives and other investments are stated at cost, less allowance for losses/impairment, where applicable.

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Subsidiaries and jointly-controlled entities are consolidated - the composition of the main companies can be found in Note 2. The composition of unconsolidated companies, as well as other investments, can be found in Note 13.

k) Premises and equipment

Relates to the tangible assets used by the Bank in its activities, including those resulting from transactions which transfer risks, benefits and control of the assets to the Bank.

Premises and equipment are stated at acquisition cost, net of accumulated depreciation, calculated by the straight-line method based on the assets' estimated economic useful life, using the following rates: real estate - 4% per annum; furniture and utensils and machinery and equipment - 10% per annum; transport systems - 20% per annum; and data-processing systems - 20% to 50% per annum, and adjusted for impairment, when applicable.

The breakdown of asset costs and their corresponding depreciation, as well as the unrecorded surplus value for real estate and fixed asset ratios, is presented in Note 14.

l) Intangible assets

Relates to the right over intangible assets used by the Bank in its activities.

Intangible assets comprise:

- Future profitability/acquired client portfolio and acquisition of right to provide banking services: they are recorded and amortized over the period in which the asset will directly and indirectly contribute to future cash flows and adjusted for impairment, where applicable; and
- Software: stated at cost less amortization calculated on a straight-line basis over the estimated useful life (20% to 50% p.a.), from the date it is available for use and adjusted for impairment, where applicable. Internal software development costs are recognized as an intangible asset when it is possible to show the intent and ability to complete and use the software, as well as to reliably measure costs directly attributable to the intangible asset. These costs are amortized during the software's estimated useful life, considering the expected future economic benefits.

Goodwill and other intangible assets, including their changes by class, are presented in Note 15.

m) Impairment

Financial and non-financial assets are tested for impairment.

Impairment evidence may comprise the non-payment or payment delay by the debtor, possible bankruptcy process or the significant or extended decline in an asset value.

An impairment loss of a financial or non-financial asset is recognized in the profit or loss for the period if the book value of an asset or cash-generating unit exceeds its recoverable value.

Impairment losses are presented in Notes 8d(10), 14 and 15c.

n) Securities sold under agreements to repurchase

These are recognized at the value of the liabilities and include, when applicable, related charges up to the end of the reporting period, calculated on a daily prorated basis.

A breakdown of the contracts recorded in deposits and securities sold under agreements to repurchase, as well as terms and amounts recognized in the statement of financial position and income statement, is presented in Note 16.

o) Technical reserves relating to insurance, pension plans and capitalization bonds

- Damage, health and group insurance lines, except life insurance with survival coverage:

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- The unearned premium reserve (PPNG) is calculated on a daily prorated basis, using premiums net of coinsurance, but including amounts ceded through reinsurance, and is comprised of the portion corresponding to the remaining period of coverage less initial contracting costs, except for health and personal insurance. The portion of these reserves corresponding to the estimate for risks in effect but not yet contracted is designated in PPNG-RVNE;

- The unearned premium or contribution reserve (PPCNG) is calculated on a daily prorated basis based on the portion of health insurance premiums corresponding to the remaining period of coverage, of the currently effective contracts;

- The mathematical reserve for unvested benefits (PMBaC) is calculated as the difference between the current value of future benefits and the current value of future contributions, on obligations already assumed by Bradesco;

- The mathematical reserve for unvested benefits (PMBAC) relating to the individual health care plan portfolio covers the holder's dependents for five years upon death, and it is calculated based on the time holders are expected to remain in the plan up to the end of this five-year period, in addition to a 4.9% annual discount rate; after this, it is calculated based on costs on the five-year-period plan, excluding payment of premiums;

- The reserve for vested benefits (PMBC) relating to the individual health care plan portfolio comprises obligations under the terms of the contract for the provision of health care, to dependents whose policyholders are already deceased, and is based on the present value of estimated future expenses, as provided for in ANS Normative Resolution n^o 75/04, discounted using an annual discount rate of 4.9%;

- For health insurance, the reserve for claims incurred but not reported (IBNR) is calculated on an actuarial basis to quantify the number of claims that have occurred but have not been paid by policyholders/beneficiaries. The methodology uses the historical behavior observed in the last 12 months to project future payments for claims related to events that took place prior to the calculation base date. The IBNR reserve is calculated by deducting the total reserves for unsettled claims (PSL) from this projected

value;

- For non-life insurance, the reserve for incurred but not reported (IBNR) claims is calculated based on incurred but not paid (IBNP) claims less the balance of the reserve for unsettled claims (PSL) on the calculation date. A final estimate of IBNP is calculated using semi-annual run-off triangles. The run-off triangles consider the historical development of claims paid in the prior last 14 half-year periods to determine a future projection per occurrence period, and considers the estimated claims incurred but not enough reported (IBNER), reflecting the changing expectation of the amount provisioned along the regulatory process;

- For other life insurance, the reserve for incurred but not reported (IBNR) claims is calculated based on incurred but not paid (IBNP) claims less the reserve for unsettled claims (PSL) on the calculation date. A final estimate of IBNP claims is calculated using semi-annual run-off triangles. The run-off triangles consider the historical development of claims paid in the prior 16 half-year periods to determine a future projection per occurrence period;

- The reserve for unsettled claims (PSL) considers all loss notices received up to the end of the reporting period. The reserve is adjusted to inflation and includes all claims in litigation;

- For non-life insurance, the reserve for unsettled claims (PSL) is determined based on the indemnity payment estimates, considering all administrative and judicial claims existing at the reporting date, net of the expected payments to be received;

- The reserve for related expenses (PDR) is recorded to cover expenses related to estimated claims and benefits. For products structured in self-funding and partially regimes, the reserve covers claims incurred. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future;

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- For damage insurance, the reserve for related expenses is calculated on a monthly basis to cover the expenses related to indemnity payment, and it covers the expenses allocated individually to each claim, as well as expenses related to claims that have not been itemized, that is, those at the level of the portfolio;

- The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds and portability (transfer-outs) requested but not yet transferred to the recipient insurer;

- The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical reserves, as calculated in the Liability Adequacy Test (LAT), which is prepared using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, improvement of G Scale and forward interest rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy; and

- Other reserves are recorded for the individual health portfolio to address the differences between the expected present value of future indemnities and related expenses and the expected present value of future premiums, using an annual discount rate of 4.9%.

• Pension plans and life insurance with survival coverage:

- The unearned premium reserve (PPNG) is calculated on a daily prorated basis, using premiums net of coinsurance, but including amounts ceded through reinsurance, and is comprised of the portion corresponding to the remaining period of coverage and includes an estimate for risks covered but not yet issued (RVNE);

- The mathematical reserve for unvested benefits (PMBaC) is recorded for participants who have not yet received any benefit. In defined benefit pension plans, the reserve represents the difference between

the current value of future benefits and the current value of future contributions, corresponding to obligations in the form of retirement, disability, pension and annuity plans. The reserve is calculated using methodologies and assumptions set forth in the actuarial technical notes;

- The mathematical reserve for unvested benefits related to life insurance and unrestricted benefit pension plans (VGBL and PGBL), apart from the defined contribution plans, shows the value of participant contributions, net of costs and other contractual charges, plus income from investment in specially constituted investment funds (FIE);

- The reserve for redemptions and other amounts to be settled (PVR) comprises figures related to redemptions to settle, premium refunds and portability requested but not yet transferred to the recipient insurer;

- The mathematical reserve for vested benefits (PMBC) is recognized for participants already receiving benefits and corresponds to the present value of future obligations related to the payment of those on-going benefits;

- The complementary reserve for coverage (PCC) refers to the amount necessary to complement technical reserves, as calculated in the Liability Adequacy Test (LAT), which is prepared semi-annually using statistical and actuarial methods based on realistic assumptions, taking into account the biometric table BR-EMS of both genders, improvement of G Scale and forward interest rate curves (ETTJ) free from risk as authorized by SUSEP. The improvement rate is calculated from automatic updates of the biometric table, considering the expected increase in future life expectancy;

- The reserve for related expenses (PDR) is recorded to cover expenses related to estimated claims and benefits. For products structured in self-funding and partially regimes, the reserve covers claims incurred. For plans structured under a capitalization regime, the reserve is made to cover the expected expenses related to incurred claims and also claims expected to be incurred in the future;

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- The reserve for financial surplus (PEF) corresponds to the portion of income from investment of reserves that exceeds the minimum returns due to policyholders of pension plans that have a profit share clause;

- The reserve for technical surplus (PET) corresponds to the difference between the expected and the actual amounts for events in the period for pension plans that have a technical surplus participation clause;

- The reserve for incurred and not reported (IBNR) events is constituted for claims incurred but not reported and is based on run-off triangles, which consider the loss development of claims in the last 96 quarters to set forth a future projection by occurrence period; and

- The reserve for unsettled claims (PSL) considers all loss notices received up to the end of the reporting period. The provision is updated for inflation and includes all claims in litigation.

- Capitalization bonds:
 - The mathematical reserve for capitalization bond (PMC) is recorded for each active or suspended capitalization bond during the estimated term set forth in the general conditions of the plan, and is calculated using the capitalization percentage, applicable to each payments made, plus the monthly accrual according to the inflation index or interest rate established in the plan until the bond is redeemed or canceled;

 - The reserve for redemption (PR) comprises the values of matured and early-terminated capitalization bonds, calculated by updating the balance of bonds whose terms have expired or canceled, using the inflation index until the holder receives the redemption payment;

- Reserve for draws to be held (PSR) is recorded to cover premiums for future prize draws, and the balance represents the present value of the draws that have already been funded but have not yet been held. The calculation methodology consists of the accumulation of from the prize draw percentage applicable to each payment, as established in the plan, less the amounts related to prize draws that have already occurred. The percentages of payments designated for the prize draws is defined in advance in the actuarial technical note, and is not modified during the term of the bond;

- Reserve for draws payable (PSP) consists of the value of unpaid prize draw amounts, adjusted for inflation for the period between the date of the drawing and its effective settlement; and

- Reserve for administrative expense (PDA) is recorded to cover the cost of maintaining the single payment (P.U.) capitalization bonds.

Technical reserves shown by account, product and segment, as well as amounts and details of plan assets covering these technical reserves, are shown in Note 21.

p) Provisions, contingent assets and liabilities and legal obligations - tax and social security

Provisions, contingent assets and liabilities, and legal obligations, as defined below, are recognized, measured and disclosed in accordance with the criteria set out in CPC 25, approved by CMN Resolution n° 3823/09 and CVM Resolution n° 594/09:

- Contingent assets: these are not recognized in the financial statements, except to the extent that there are real guarantees or favorable judicial decisions, to which no further appeals are applicable, classifying the gain as practically certain by confirming the expectation of receipt or compensation against another liability. Contingent assets with a chance of probable success are disclosed in the notes to the financial statements;

- Provisions: these are recorded taking into consideration the opinion of legal counsel, the nature of the lawsuits, similarity with previous lawsuits, complexity and positioning of the courts, whenever the loss is deemed probable which would cause a probable outflow of funds to settle the obligation and when amounts can be reliably measured;

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- **Contingent liabilities:** according to CPC 25, the term "contingent" is used for liabilities that are not recognized because their existence will only be confirmed by the occurrence of one or more uncertain future events beyond Management's control. Contingent liabilities considered as possible losses should only be disclosed in the notes when relevant. Obligations deemed remote are not recorded as a provision nor disclosed; and
- **Legal obligations - provision for tax risks:** results from judicial proceedings, which contest the applicability of tax laws on the grounds of legality or constitutionality, which, regardless of the assessment of the probability of success, are fully provided for in the financial statements.

Details on lawsuits, as well as segregation and changes in amounts recorded, by type, are presented in Note 18.

q) Funding expenses

Expenses related to funding transactions involving the issuance of securities are recognized in the profit or loss over the term of the transaction and reduces the corresponding liability. They are presented in Notes 16c and 19.

r) Other assets and liabilities

Assets are stated at their realizable amounts, including, when applicable, related income and inflation and exchange variations (on a daily prorated basis), less provision for losses, when deemed appropriate. Liabilities include known or measurable amounts, including related charges and inflation and exchange variations (on a daily prorated basis).

s) Subsequent events

These refer to events occurring between the reporting date and the date the financial statements are authorized to be issued.

They comprise the following:

- Events resulting in adjustments: events relating to conditions already existing at the end of the reporting period; and
- Events not resulting in adjustments: events relating to conditions not existing at the end of the reporting period.

Subsequent events, if any, are described in Note 35.

4) COMPARATIVE AMOUNTS

Reclassifications

There were no reclassifications or other relevant information for previous periods that affect the comparability of the consolidated financial statements for the period ended December 31, 2014.

%	38.0	5.0	1.5	55.5	

(1) Consistent with the criteria in Bacen Circular Letter n^o 3068/01 and due to the characteristics of the securities, we are classifying the derivative financial instruments, except those considered as cash flow hedges in the category Trading Securities;

(2) These refer to investment fund resources and managed portfolios applied on purchase and sale commitments with Bradesco, whose owners are consolidated subsidiaries, included in the consolidated financial statements;

(3) The investment fund quotas are presented according to the instruments composing their portfolios and maintaining the classification used in the fund;

(4) In compliance with Article 8 of Bacen Circular Letter n^o 3068/01, Bradesco declares that it has the financial capacity and intention to maintain held-to-maturity securities until their maturity dates. This financial capacity is demonstrated in Note 32a, which presents the maturity of asset and liability operations. In December 2013, the mark-to-market of securities reclassified from the "Available-for-Sale Securities" category to the "Held-to-Maturity Securities" category is maintained in Shareholders' Equity, and is being transferred to the income statement over the remaining term of the securities, pursuant to Bacen Circular Letter n^o 3068/01;

(5) On December 2014, 17, the amount of R\$ 17,003 thousand was reclassified from “Held-for-trading securities” to “Available-for-sale securities;”

(6) The number of days to maturity was based on the maturity of the instruments, regardless of their accounting classification;

(7) This column reflects book value after mark-to-market accounting in accordance with item (8), Fair value is higher than the original amortized cost by R\$ 2,070,497 thousand (R\$ 2,336,828 thousand on September 30, 2014 and R\$ 1,476,686 thousand on December 31, 2013);

(8) The fair value of securities is determined based on the market price available at the end of the reporting period. If no market price quotation is available at the end of the reporting period, amounts are estimated based on the prices quoted by dealers, pricing models, quotation models or price quotations for instruments with similar characteristics; for investment funds, the original amortized cost reflects the fair value of the respective quotas. For investment funds, the original amortized cost reflects the fair value of the respective quotas;

(9) For a better analysis of these items, consider the net exposure (Note 8e II); and

(10) In the year ended December 31, 2014, there were impairment losses, related to “Equity Securities”, classified under “Available-for-sale securities”, totaling R\$ 1,214,770 thousand (R\$ 682,143 thousand on December 31, 2013) and R\$ 616,683 thousand in the 4th quarter of 2014 (R\$ 598,087 thousand in the 3rd quarter of 2014).

Bradesco

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

e) Derivative financial instruments

Bradesco carries out transactions involving derivative financial instruments, which are recorded in the statement of financial position or in off-balance-sheet accounts, to meet its own needs in managing its global exposure, as well as to meet its customer's requests, in order to manage their exposure. These operations involve a range of derivatives, including interest rate swaps, currency swaps, futures and options. Bradesco's risk management policy is based on the utilization of derivative financial instruments mainly to mitigate the risks from operations carried out by the Bank and its subsidiaries.

Securities classified as trading and available-for-sale, as well as derivative financial instruments, are recognized in the consolidated statement of financial position at their fair value. Fair value is generally based on quoted market prices or quotations for assets or liabilities with similar characteristics. Should market prices not be available, fair values are based on dealer quotations, pricing models, discounted cash flows or similar techniques for which the determination of fair value may require judgment or significant estimates by Management.

Quoted market prices are used to determine the fair value of derivative financial instruments. The fair value of swaps is determined by using discounted cash flow modeling techniques that use yield curves, reflecting adequate risk factors. The information to build yield curves is mainly obtained from the Securities, Commodities and Futures Exchange (BM&FBOVESPA) and the domestic and international secondary market. These yield curves are used to determine the fair value of currency swaps, interest rate and other risk factor swaps. The fair value of forward and futures contracts is also determined based on market price quotations for derivatives traded at the stock exchange or using methodologies similar to those outlined for swaps. The fair values of credit derivative instruments are determined based on market price quotation or from specialized entities. The fair value of options is determined based on mathematical models, such as Black & Scholes, using yield curves, implied volatilities and the fair value of corresponding assets. Current market prices are used to calculate volatility.

Derivative financial instruments in Brazil mainly refer to swaps and futures and are registered at the OTC Clearing House (Cetip) and BM&FBOVESPA.

Operations involving forward contracts of interest rates, indexes and currencies are contracted by Management to hedge Bradesco's overall exposures and to meet customer needs.

Foreign derivative financial instruments refer to swap, forward, options, credit and futures operations and are mainly carried out at the stock exchanges in Chicago and New York, as well as the over-the-counter (OTC) markets.

Overseas (stock exchange) (1)	13,500,049	12,604,590	22,998,035
Total	330,314,388	361,842,459	777,380,011

(1) Comprised of operations carried out on the Chicago and New York Stock Exchanges and over-the-counter markets.

As of December 31, 2014, a total of 92.7% of counterparties are corporate entities and 7.3% are financial institutions.

f) Credit Default Swaps (CDS)

In general, these represent bilateral agreements in which one of the parties purchases protection against the credit risk of a certain financial instrument (the risk is transferred). The selling counterparty receives remuneration that is usually paid linearly over the term of the agreement.

In the case of a default, the purchasing counterparty will receive a payment to offset the loss incurred on the financial instrument. In this case, the selling counterparty usually receives the underlying asset of the agreement in exchange for the payment.

Bradesco _____

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

On December 31, 2014, Bradesco had credit default swaps (CDS) with the following characteristics: (i) the amount of risk transferred under credit swaps whose underlying assets are "Brazilian government securities" is R\$ (1,326,900) thousand; and (ii) the risk received in credit swaps whose underlying assets are "derivative with companies" is R\$ 13,281 thousand, amounting to a total net credit risk value of R\$ (1,313,619) thousand, with an effect on the calculation of required shareholders' equity of R\$ (71,519) thousand.

Bradesco carries out operations involving credit derivatives to better manage its risk exposure and its assets. The contracts related to credit derivatives transactions described above are due in 2019. The mark-to-market of the protection rates that remunerates the counterparty that received the risk totaled R\$ (4,434) thousand. There were no credit events, as defined in the agreements, during the year.

g) Cash flow hedge

Bradesco uses cash flow hedges to protect its cash flows from payment of interest rates on funds, which have a floating interest rate - the Interbank Deposit Rate (DI Cetip), thus converting them to fixed cash flows.

Bradesco has traded DI Future contracts at BM&FBOVESPA since 2009, using them as cash flow hedges for funding linked to DI. The following table presents the DI Future position, where:

	2014		R\$ thousand
	December 31	September 30	December 31
DI Future with maturity between 2015 and 2017	21,107,308	20,827,421	23,464,746
Funding indexed to CDI	19,969,423	20,852,335	23,539,454
Mark-to-market adjustment recorded in shareholders' equity (1)	311,683	173,026	154,729
Ineffective fair value recorded in profit or loss	19,374	-	64

(1) The adjustment in shareholders' equity is R\$ 187,010 thousand, net of taxes (R\$ 103,816 thousand on September 30, 2014 and R\$ 92,837 thousand on December 31, 2013).

The effectiveness of the hedge portfolio was assessed in accordance with Bacen Circular Letter nº 3082/02.

h) Income from securities, insurance, pension plans and capitalization bonds and derivative financial instruments

(2) On December 31, 2014, it includes provision for guarantees provided, comprising sureties, letters of credit and standby letter of credit, which was separated from the excess provision, and totals R\$ 421,596 thousand (R\$ 367,495 thousand on September 30, 2014 and R\$ 337,623 on December 31,

2013) (Note 20b).

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements**g) Changes in allowance for loan losses**

	2014			R\$ thousand 2013
	4 th Quarter	3 rd quarter	December 31 YTD	December 31 YTD
Opening balance	22,622,532	21,791,384	21,687,029	21,298,588
- Specific provision (1)	11,589,687	11,096,873	10,851,170	11,181,925
- Generic provision (2)	7,024,534	6,685,258	6,800,157	6,106,477
- Excess provision (3)	4,008,311	4,009,253	4,035,702	4,010,186
Additions (Note 10h-1)	3,834,438	3,808,760	14,535,167	13,818,253
Write-offs	(3,311,142)	(2,977,612)	(13,076,368)	(13,429,812)
Closing balance	23,145,828	22,622,532	23,145,828	21,687,029
- Specific provision (1)	12,003,974	11,589,687	12,003,974	10,851,170
- Generic provision (2)	7,135,012	7,024,534	7,135,012	6,800,157
- Excess provision (3) (4)	4,006,842	4,008,311	4,006,842	4,035,702

(1) For transactions with installments past due for more than 14 days;

(2) Recorded based on the customer/transaction classification and therefore not included in the preceding item;

(3) The additional provision is recorded based on Management's experience and the expectation in relation to the loan portfolio, to determine the total provision deemed sufficient to cover specific and general credit risk, when considered together with the provision calculated based on levels of risk and the corresponding minimum percentage in the provision established by CMN Resolution n^o 2682/99. The excess provision per customer was classified according to the level of risk in Note 10f; and

(4) In the 4th quarter of 2014 and December 31, 2014 YTD, it includes provision for guarantees provided, comprising sureties, letters of credit and standby letter of credit, which was identified within the excess provision, and totals R\$ 421,596 thousand (R\$ 367,495 thousand on September 30, 2014, and R\$ 337,623 thousand on December 31, 2013) (Note 20b).

h) Allowance for Loan Losses (ALL) expense net of amounts recovered

Expenses with the allowance for loan losses, net of credit write offs recovered, are as follows.

	2014		
	4 th Quarter	3 rd quarter	December 31 YTD
Amount recorded (1)	3,834,438	3,808,760	14,535,167
Amount recovered (2)	(1,062,602)	(1,024,376)	(3,944,218)
Allowance for Loan Losses (ALL) expense net of amounts recovered	2,771,836	2,784,384	10,590,949

(1) The 4th quarter of 2014 quarter of includes provision for guarantees provided, comprising sureties, guarantees, letters of credit and standby letter of credit, which are included in the "excess" ALL concept, totaling R\$ 54,102 thousand, (R\$ 33,760 thousand in the 3rd quarter of 2014) and R\$ 83,973 thousand in the December 31, 2014 YTD (R\$ 337,623 in the December 31, 2013 YTD), respectively; and

(2) Classified in income from loans (Note 10j).

Total on September 30, 2014		11,811,698	(7,220,413)		4,591,285	
Total on December 31, 2013		11,688,241	(7,020,996)			4,667,245

The Bradesco Organization's premises and equipment have an unrecorded surplus of R\$ 5,284,088 thousand (R\$ 5,297,410 thousand on September 30, 2014 and R\$ 5,307,740 thousand on December 31, 2013). This is due to an increase in their market price, based on valuations by independent experts in 2014, 2013 and 2012.

The total consolidated fixed assets to net worth ratio is 13.2% (13.0% on September 30, 2014 and 15.2% on December 31, 2013) when considering the consolidated balance sheet of the wider economic group (the "Economic-Financial Consolidation"). When considering only the financial companies within the economic group (the "Financial Consolidation"), the fixed assets to net worth ratio is 47.2% (46.8% on September 30, 2014 and 45.4% on December 31, 2013), whereas the maximum limit is 50%.

The difference between the fixed assets to net worth ratios in the economic-financial consolidation and in the financial consolidation is due to the inclusion of non-financial subsidiaries which have high liquidity and low fixed assets to net worth ratio, in the economic-financial consolidation, with the consequent decrease in the fixed assets to net worth ratio. Whenever necessary, we may reallocate funds to the financial companies through the payment of dividends/interest on shareholders' equity or a corporate restructuring, with the aim of managing this ratio.

The 4th quarter of 2014 contains impairment charges under “Premises and equipment” totaling R\$ 802 thousand (R\$ 8,400 thousand in the 4th quarter of 2013), basically, in “Facilities, furniture and equipment in use”.

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements**15) INTANGIBLE ASSETS****a) Goodwill**

The goodwill recorded from investment acquisitions totaled R\$ 2,348,114 thousand, net of accumulated amortization, as applicable, of which: (i) R\$ 409,973 thousand recorded in Permanent Assets - Investments represents the difference between the purchase price and the fair value of the shares received (BM&FBOVESPA and Integritas/Fleury shares), amortized when realized through sale; and (ii) R\$ 1,938,141 thousand, net of accumulated amortization, for future performance/customer portfolio, which is amortized over 20 years, where applicable.

In the year ended December 31, 2014, goodwill was amortized totaling R\$ 176,646 thousand (R\$ 210,901 thousand on December 31, 2013) and R\$ 50,069 thousand in the 4th quarter of 2014 (R\$ 44,989 thousand in the 3rd quarter of 2014) (Note 29).

b) Intangible assets

Acquired intangible assets consist of:

	Rate of Amortization (1)	Cost	Amortization	R\$ thousand Cost net of amortization		
				2014		2013
				December 31	September 30	December 31
Acquisition of banking services rights	Contract (4)	4,386,936	(2,360,996)	2,025,940	2,088,851	2,589,021
Software (2)	20% to 50%	8,878,960	(4,796,805)	4,082,155	4,127,653	4,015,462
Future profitability/customer portfolio (3)	Up to 20%	2,717,350	(779,209)	1,938,141	1,808,277	2,005,474
Other (5)	Contract	757,125	(332,367)	424,758	503,075	535,982
Total on December 31, 2014		16,740,371	(8,269,377)	8,470,994		
Total on September 30, 2014		16,203,331	(7,675,475)		8,527,856	
Total on December 31, 2013		17,740,156	(8,594,217)			9,145,939

- (1) Intangible assets are amortized over an estimated period of economic benefit and recognized in “other administrative expenses” and “other operating expenses”, where applicable;
- (2) Software acquired and/or developed by specialized companies;
- (3) Mainly composed of goodwill on the acquisition of equity interest in Banco Bradescard (currently Banco Ibi) - R\$ 770,055 thousand, Odontoprev - R\$ 212,039 thousand, Bradescard Mexico (currently Ibi México) - R\$ 20,878 thousand, Europ Assistance Serviços de Assistência Personalizados - R\$ 12,943 thousand and Cielo/Investees - R\$ 567,217 thousand and Banco Bradesco BBI S.A. - R\$ 161,652 thousand;
- (4) Based on the pay-back of each agreement; and
- (5) Mainly refers to the 2016 Olympic Games sponsorship program.

(1) Issuance of securities on the international market to invest in foreign exchange transactions, pre-export financing, import financing and working capital financing, predominately in the medium and long terms.

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

d) Since 2003, Bradesco has used certain agreements to optimize its funding and liquidity management activities by using an SPE - Special Purpose Entity. This SPE, known as International Diversified Payment Rights Company, is financed with long-term debt and settled through future cash flows from underlying assets which basically include flows from current payment orders and future remittances made by individuals and companies located overseas to beneficiaries in Brazil for which the Bank acts as a paying agent.

Long-term securities issued by the SPE and sold to investors are settled with proceeds from the payment order flows. Bradesco is obliged to redeem these securities in specific cases of delinquency or if the SPE discontinues operations.

Funds from the sale of current and future payment order flows, received by the SPE, must be maintained in a specific bank account until a minimum amount has been reached.

Below are the main features of the notes issued by the SPE:

	Date of issue	Amount of the operation	Maturity	R\$ thousand		
				Total		2013

18) PROVISIONS, CONTINGENT ASSETS AND LIABILITIES AND LEGAL LIABILITIES - TAX AND SOCIAL SECURITY

a) Contingent assets

Contingent assets are not recognized in the financial statements. However, there are ongoing proceedings where the chance of success is considered probable, such as: a) Social Integration Program (PIS), claiming to offset PIS against Gross Operating Income, paid under Decree-Laws n° 2445/88 and n° 2449/88, regarding the payment that exceeded the amount due under Supplementary Law n° 07/70 (PIS Repique); and b) other taxes, the legality and/or constitutionality of which is being challenged, where the decision may lead to reimbursement of amounts paid.

b) Provisions classified as probable losses and legal obligations - tax and social security

Bradesco Organization is a party to a number of labor, civil and tax lawsuits, arising from the normal course of business.

Management recorded provisions based on their opinion and that of their legal counsel, the nature of the lawsuit, similarity to previous lawsuits, complexity and the courts standing, where the loss is deemed probable.

Management considers that the provision is sufficient to cover losses generated by the respective lawsuits.

Liability related to litigation is held until the conclusion to the lawsuit, represented by judicial decisions, with no further appeals or due to the statute of limitation.

I - Labor claims

These are claims brought by former employees and outsourced employees seeking indemnifications, most significantly for unpaid overtime, pursuant to Article 224 of the Consolidation of Labor Laws (CLT). In proceedings in which a judicial deposit is used to guarantee the execution of the judgment, the labor provision is made considering the estimated loss of these deposits. For proceedings with similar characteristics, the provision is recorded based on the average calculated value of payments made for labor complaints settled in the past 12 months; and for proceedings originating from acquired banks, with unique characteristics, the calculation and assessment of the required balance is conducted periodically, based on the updated recent loss history.

Bradesco _____

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Overtime is monitored by using electronic time cards and paid regularly during the employment contract and, accordingly, the claims filed by former employees do not represent significant amounts.

II - Civil claims

These are claims for pain and suffering and property damages, mainly relating to protests, returned checks, the inclusion of information about debtors in the credit restriction registry and the replacement of inflation adjustments excluded as a result of government economic plans. These lawsuits are individually controlled using a computer-based system and provisioned whenever the loss is deemed as probable, considering the opinion of Management and their legal counsel, the nature of the lawsuits, and similarity with previous lawsuits, complexity and positioning of the courts.

Most of these lawsuits are brought to the Special Civil Court (JEC), in which the claims are limited to 40 times the minimum wage and do not cause significant impact on Bradesco Organization's financial position.

It is worth mentioning the significant number of legal claims pleading alleged differences in adjustment for inflation on savings account balances is due to the implementation of economic plans that were part of the federal government's economic policy to reduce inflation in the '80s and '90s.

Although Bradesco complied with the law and regulation in force at the time, these lawsuits have been recorded in provisions, taking into consideration the claims where the Bank is the defendant and the perspective of loss, which is considered after the analysis of each demand, based on the current decision of the Superior Court of Justice (STJ).

Note that, regarding disputes relating to economic plans, the Federal Supreme Court (STF) suspended the prosecution of all lawsuits on cognizance stage, until the Court issues a final decision on the right under litigation.

III - Legal obligations - provision for tax risks

The Bradesco Organization is disputing the legality and constitutionality of certain taxes and contributions in court, for which provisions have been recorded in full, although there is good chance of a favorable outcome, based on the opinion of Management and their legal counsel. The processing of these legal obligations and the provisions for cases for which the risk of loss is deemed as probable is regularly

monitored in the legal court. During or after the conclusion of each case, a favorable outcome may arise for the Organization, resulting in the reversal of the related provisions.

The main cases are:

- PIS and COFINS – R\$ 1,818,412 thousand (R\$ 1,649,507 thousand on September 30, 2014 and R\$ 2,474,009 thousand on December 31, 2013): a request for authorization to calculate and pay PIS and COFINS based on effective billing, as set forth in Article 2 of Supplementary Law n^o 70/91, removing from the calculation base the unconstitutional inclusion of other revenues other than those billed;
- INSS Autonomous Brokers – R\$ 1,531,540 thousand (R\$ 1,471,067 thousand on September 30, 2014 and R\$ 1,313,647 thousand on December 31, 2013): discussing the charging of social security contribution on remunerations paid to third-party service providers, established by Supplementary Law n^o 84/96 and subsequent regulations/amendments, at 20.0% with an additional 2.5%, on the grounds that services are not provided to insurance companies but to policyholders, thus being outside the scope of such a contribution as provided for in item I, Article 22 of Law n^o 8212/91, as new wording in Law n^o 9876/99;

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- IRPJ/Credit Losses – R\$ 2,059,542 thousand (R\$ 1,881,757 thousand on September 30, 2014 and R\$ 1,756,396 thousand on December 31, 2013): we are requesting to deduct from income tax and social contributions payable (IRPJ and CSLL, respectively) amounts of actual and definite loan losses related to unconditional discounts granted during collections, regardless if they comply with the terms and conditions provided for in Articles 9 to 14 of Law nº 9430/96 that only apply to temporary losses;
- PIS – EC 17/97 - R\$ 321,748 thousand (R\$ 318,357 thousand on June 30, 2014): for the period from July 1997 to February 1998, request to calculate and pay PIS contributions as established by LC 07/70 (PIS Repique) and not as established by EC 17/97 (PIS on Gross Operating Income); and
- PIS – R\$ 320,067 thousand (R\$ 317,246 thousand on September 30, 2014 and R\$ 310,127 thousand on December 31, 2013): we are requesting the authorization to offset overpaid amounts in 1994 and 1995 as PIS contribution, corresponding to the surplus paid over that calculated on the tax base established in the Constitution, i.e., gross operating income, as defined in the income tax legislation – (set out in Article 44 of Law no 4506/64), which excludes interest income.

IV - Provisions by nature

(1) Includes the constitution of labor provisions concerning the change in calculation methodology, originating from acquired banks, with unique characteristics, based on the updated recent loss history, totaling R\$ 488,300 thousand;

(2) Includes: (i) the reversal of the tax provision related to the COFINS case totaling R\$ 1,378,103 thousand, following a favorable outcome for the Bradesco Organization and (ii) the establishment of tax provisions for the PIS case – EC 17/97, totaling R\$ 212,888 thousand; and

(3) Mainly include legal liabilities.

Bradesco _____

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

c) Contingent liabilities classified as possible losses

The Bradesco Organization maintains a system to monitor all administrative and judicial proceedings in which the institution is plaintiff or defendant and, based on the opinion of legal counsel, classifies the lawsuits according to the expectation of loss. Case law trends are periodically analyzed and, if necessary, the related risk is reclassified. In this respect, contingent lawsuits deemed to have a possible risk of loss are not recorded as a liability in the financial statements. The main proceedings in this category are the following: a) leasing companies' Tax on Services of any Nature (ISSQN), total lawsuits correspond to R\$ 1,840,272 thousand (R\$ 1,794,587 thousand on September 30, 2014 and R\$ 1,434,155 thousand on December 31, 2013) which relates to the municipal tax demands from municipalities other than those in which the company is located and where, under law, tax is collected; b) 2006-2010 income tax and social contribution, relating to goodwill amortization being disallowed on the acquisition of investments, for the amount of R\$ 4,264,479 thousand (R\$ 3,831,988 thousand on September 30, 2014 and R\$ 1,567,042 thousand on December 31, 2013); c) IRPJ and CSLL deficiency notice relating to the disallowance of loan loss deductions, for the amount of R\$ 1,034,018 thousand (R\$ 550,255 thousand on September 30, 2014, and R\$ 526,261 thousand on December 31, 2013); d) IRPJ and CSLL deficiency note relating to disallowance of exclusions of revenues from the mark-to-market of securities from 2007 to 2010, and differences in depreciation and operating expenses and income, amounting to R\$ 1,226,665 thousand (R\$ 473,869 thousand on September 30, 2014 and R\$ 460,380 thousand on December 31, 2013); and e) IRPJ, CSLL, PIS and COFINS deficiency note, amounting to R\$ 348,129 thousand (R\$ 344,286 thousand on September 30, 2014 and R\$ 323,697 thousand on December 31, 2013), on alleged tax-exempt gain, when BOVESPA shares were merged into Nova Bolsa (BM&FBOVESPA), in 2008; f) IRPJ and CSLL, amounting to R\$ 378,664 thousand relating to profit of subsidiaries based overseas, for the calendar years of 2008 and 2009.

Notes to the Consolidated Financial Statements

c) Interest on shareholders' equity/dividends

Preferred shares have no voting rights, but are entitled to all other rights and advantages given to common shares and, in compliance with Bradesco's Bylaws, have priority for repayment of capital and an additional ten percent (10%) interest on shareholders' equity and/or dividends, in accordance with the provisions of Paragraph 1, item II, of Article 17 of Law n^o 6404/76, amended by Law n^o 10303/01.

According to Bradesco's Bylaws, shareholders are entitled to interest on shareholders' equity and/or dividends amounting to at least 30% of the net income for the year, adjusted in accordance with Brazilian Corporate Law.

Interest on shareholders' equity is calculated based on the shareholders' equity limited to the variation in the Federal Government Long-Term Interest Rates (TJLP), subject to available profits before deductions, or transfer to retained earnings or profit reserves for the amounts equivalent or greater than twice its value.

Bradesco's capital remuneration policy aims to distribute interest on shareholders' equity at the maximum amount calculated under current legislation, and this is included, net of Withholding Income Tax, in the calculation for mandatory dividends for the year under the Company's Bylaws.

The Board of Directors' Meeting held on February 10, 2014 approved the Board of Executive Officers' proposal to pay shareholders supplementary interest on shareholders' equity for 2013, for the amount of R\$ 853,858 thousand, at R\$ 0.193826693 per common share and R\$ 0.213209362 per preferred share, which was paid on March 7, 2014.

The Board of Directors' Meeting held on June 24, 2014 approved the Board of Executive Officers' proposal to pay shareholders' supplementary interest on shareholders' equity and dividends for the first half-year of 2014, totaling R\$ 829,000 thousand, at R\$ 0.188201395 per common share and R\$ 0.207021535 per preferred share, which was paid on July 18, 2014.

The Board of Directors' Meeting held on December 22, 2014 approved the Board of Executive Officers' proposal to pay shareholders supplementary interest on shareholders' equity for 2014, for the amount of R\$ 2,600,300 thousand, at R\$ 0.590325800 (net of 15% withholding income tax - R\$ 0.501776930) per common share and R\$ 0.649358380 (net of 15% withholding income tax - R\$ 0.551954623) per preferred share, which will be paid on March 6, 2015.

Interest on shareholders' equity and dividends for the year ending December 31, 2014 is calculated as follows:

	R\$ thousand	% (1)
Net income for the year	15,088,818	
(-) Legal reserve	(754,442)	
Adjusted calculation basis	14,334,376	
Monthly and supplementary interest on shareholders' equity (gross), paid and/or provisioned	3,595,008	
Withholding income tax on interest on shareholders' equity	(539,251)	
Interim dividends paid and/ or provisioned	1,459,572	
Interest on shareholders' equity (net)/dividends accumulated in 2014	4,515,329	31.50
Interest on shareholders' equity (net)/dividends accumulated in 2013	3,594,300	31.50

(1) Percentage of interest on shareholders' equity/dividends after adjustments.

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Interest on shareholders' equity was paid or recorded in provisions, as follows:

b) Compensation for key Management personnel

Each year, the Annual Shareholders' Meeting approves:

- The annual grand total amount of management compensation, set forth at the Board of Directors Meetings, to be paid to board members and members of the Board of Executive Officers, as determined by the Company's Bylaws; and
- The amount allocated to finance Management pension plans, within the Employee and Management pension plan of the Bradesco Organization.

For 2014, the maximum amount of R\$ 355,100 thousand was set for Management compensation and R\$ 354,600 thousand to finance defined contribution pension plans.

The current policy on Management compensation sets forth that 50% of net variable compensation, if any, must be allocated to the acquisition of preferred shares of Banco Bradesco S.A., which vest in three equal, annual and successive installments, the first of which is in the year following the payment date. This procedure complies with CMN Resolution nº 3921/10, which sets forth a management compensation policy for financial institutions.

Bradesco does not offer its key Management personnel long-term benefits related to severance pay or share-based compensation, pursuant to CPC 10 – Share-Based Payment, approved by CMN Resolution nº 3989/11.

Other information

l) Under current law, financial institutions are not allowed to grant loans or advances to:

a) Officers and members of the advisory, administrative, fiscal or similar councils, as well as to their respective spouses and family members up to the second degree;

b) Individuals or corporations that own more than 10% of their capital; and

c) Corporations in which the financial institution itself, any officers or administrators of the institution, as well as their spouses and respective family members up to the second degree own more than 10% of equity.

Therefore, no loans or advances are granted by financial institutions to any subsidiary, members of the Board of Directors or Board of Executive Officers and their relatives.

Bradesco _____

Notes to the Consolidated Financial Statements

II) Shareholding

Together, members of the Board of Directors and Board of Executive Officers had the following shareholding in Bradesco:

	2014		2013
	December 31	September 30	December 31
Common shares	0.72%	0.72%	0.73%
Preferred shares	1.04%	1.04%	1.02%
Total shares (1)	0.88%	0.88%	0.87%

(1) On December 31, 2014, direct and indirect shareholding of the members of Bradesco's Board of Directors and Board of Executive Officers amounted to 2.98% of common shares, 1.08% of preferred shares and 2.03% of all shares.

32) FINANCIAL INSTRUMENTS

a) Risk Management

Risk management is highly strategic due to the increasing complexity of services and products and the globalization of the Organization's business. The dynamic markets lead Bradesco to an ongoing improvement of this activity in the pursuit of best practices. For that reason, Bradesco was authorized by Bacen to use its internal market risk models, which were already in force, to calculate regulatory capital as of January 2013.

The Organization controls risk management in an integrated and independent manner, preserving and valuing the Board's decisions, developing and implementing methodologies, models, and measurement and control tools. It also provides training to employees from all Organization levels, from the business areas to the Board of Directors.

The management process allows the risks to be proactively identified, measured, mitigated, monitored and reported, which is necessary in view of the Organization's complex financial products and activity profile.

Credit risk management

Credit risk refers to the possibility of losses as a result of the non-compliance by the borrower or counterparty with their financial obligations under agreed terms, as well as to the reduction in the value of a loan agreement resulting from a deterioration of the borrower's risk rating, reduced earnings or remuneration, the advantageous terms / conditions given in a renegotiation, recovery costs and other values related to the counterparty's non-compliance with its financial obligations.

Credit risk management in the Organization is a continuous and evolving process of mapping, development, assessment and diagnosis through the use of models, instruments and procedures that require a high degree of discipline and control during the analysis of operations to preserve the integrity and autonomy of the processes.

The Organization controls its exposure to credit risk, which mainly results from loans, securities and derivative financial instruments. Credit risk also stems from financial obligations related to credit commitments or financial guarantees.

In order not to compromise the quality of the portfolio, it includes all aspects related to the lending process, concentration, guarantee requirement, terms, among others.

The Organization continuously maps all activities that can generate exposure to credit risk, with their respective ratings related to probability and magnitude, as well as the identification of their managers, measurement and mitigation plans.

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Market risk management

Market risk is represented by the possibility of financial losses due to fluctuating prices and interest rates of the Organization's financial instruments as its asset and liability portfolios may have mismatched maturities, currencies and indexes.

Market risk is carefully identified, measured, mitigated, controlled and reported. The Organization's market risk exposure profile is in line with the guidelines established by the governance process, with limits monitored independently on a timely basis.

All transactions exposing the Organization to market risk are mapped, measured and classified by probability and importance, and the whole process is approved by the corporate governance structure.

The process of market risk management is performed at the corporate level. This process involves several areas, with specific assignments, ensuring an efficient structure, with the measurement and control of market risk being performed centrally and independently. The management process, approved by the Board of Directors, is reviewed at least annually by the Committees and by the Board of Directors.

In line with the Corporate Governance practices, aiming to preserve and strengthen the management of market and liquidity risks in the Organization, and to meet the provisions of CMN Resolution n^o 3464/07, the Board of Directors approved the Market and Liquidity Risk Management Policy, whose review is performed at least annually by the competent Committees and by the Board of Directors, providing the main guidelines for acceptance, control and management of market and liquidity risks. In addition to this policy, the Organization has specific rules to regulate the market and liquidity risk management process.

Sensitivity analysis

The Trading Portfolio is also monitored daily by sensitivity analyses that measure the effect of movements of market and price curves on our positions. Furthermore, a sensitivity analysis of the Organization's financial exposures (Trading and Banking Portfolio) is performed on a quarterly basis, in compliance with CVM Rule nº 475/08.

Note that the impact of the financial exposure on the Banking Portfolio (notably interest rates and price indexes) do not necessarily represent a potential accounting loss for the Organization because a portion of loans held in the Banking Portfolio are financed by demand and/or savings deposits, which are "natural hedges" for future variations in interest rates, moreover, interest rate variations do not represent a material impact on the Institution's result, as Loans are held to maturity. In addition, due to our strong presence in

the insurance and pension plan market, Bradesco holds a large volume of assets on which price adjustments would also impact the linked technical reserves.

a

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

The sensitivity analysis of the Trading Portfolio, which represents exposures that may have a material impact on the Organization's results, is presented below. Note that results show the impact for each scenario on a static portfolio position. However, the market is highly dynamic which results in continuous changes in these positions. Moreover, as previously mentioned, the Organization has an ongoing process of market risk management, which constantly seeks to adjust positions to mitigate related risks according to the strategy determined by Senior Management. Therefore, where there are indicators of deterioration in a certain position. Therefore, in cases of deterioration indicators in a certain position, proactive measures are taken to minimize any potential negative impact, aimed at maximizing the risk/return ratio for the Organization.

Bradesco _____

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Sensitivity analyses were carried out based on scenarios prepared for the respective dates, always considering market data at the time and scenarios that would adversely affect our positions, according to the examples below:

Scenario 1: Based on market information (BM&FBOVESPA, Anbima, etc.), stresses were applied for 1 basis point on the interest rate and 1% variation on prices. For example: for a Real/US dollar exchange rate of R\$ 2.65 a scenario of R\$ 2.67 was used, while for a 1-year fixed interest rate of 12.96%, a 12.97% scenario was applied;

Scenario 2: 25% stresses were determined based on market information. For example: for a Real/US dollar exchange rate of R\$ 2.65 a scenario of R\$ 3.31 was used, while for a 1-year fixed interest rate of 12.96%, a 16.20% scenario was applied. The scenarios for other risk factors also accounted for 25% stresses in the respective curves or prices; and

Scenario 3: 50% stresses were determined based on market information. For example: for a Real/US dollar quote of R\$ 2.65 a scenario of R\$ 3.97 was used, while for a 1-year fixed interest rate of 12.96%, a 19.44% scenario was applied; The scenarios for other risk factors also account for 50% stresses in the respective curves or prices.

Liquidity Risk

Liquidity Risk is the possibility of the institution not being able to fully meet its obligations, without affecting its daily operations and incurring significant losses, as well as the possibility of the institution not being able to trade a position at market price due to its significant size when compared to the usually traded volume or due to some market discontinuation.

It is crucial to measure and monitor this risk, so that the Organization can settle its obligations in a timely and reliable way.

The process of liquidity risk management is performed at the corporate level. It involves several areas with specific assignments, ensuring an efficient structure. Liquidity risk is measured and controlled centrally and independently and includes the daily monitoring of the composition of available funds, compliance with the minimum liquidity level, and the contingency plan for stress situations.

One of the objectives of the Organization's Policy on Market and Liquidity Risk Management, approved by the Board of Directors, is to lay down the rules, criteria and procedures that guarantee the establishment of the Minimum Liquidity Reserve (RML) for the Organization, as well as the strategy and action plans for liquidity crisis situations.

As part of the criteria and procedures approved, the Organization establishes a minimum liquidity reserve to be held and the types of assets eligible for this reserve. Moreover, instruments for managing liquidity in a normal scenario and in a crisis scenario and the strategies to be implemented in each case are established.

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Operational Risk

Operational risk is the possibility of losses resulting from failure, deficiency or inadequacy of internal processes, people and systems, or from external events. This definition includes legal risk associated with the activities undertaken by the Organization.

The process of operational risk management is performed at the corporate level. This process involves several areas, with specific assignments, ensuring an efficient structure, with the measurement and control of operational risk being performed centrally and independently.

Among the plans to mitigate operational risk, we highlight that the most important is business continuity management, which consists of formal plans to be adopted during moments of crisis to guarantee the recovery and continuation of business as well as preventing loss.

Internal Controls

The existence, effectiveness and implementation of controls that ensure acceptable risk levels in the Organization's processes are certified, and the results are reported to the Audit Committee and to the Compliance and Internal Controls Committee, as well as to the Board of Directors, aiming to provide assurance regarding the proper conduct of business and the achievement of the established goals, in accordance with applicable external laws and regulations, policies, internal rules and procedures, codes of conduct and self-regulation.

The effectiveness of the Organization's internal controls is supported by trained professionals, well-defined and implemented processes, and technology compatible with the business needs.

The Compliance and Internal Controls Policy and the Internal Control System Standards are aligned with the main control frameworks, such as COSO - Committee of Sponsoring Organizations of the Treadway Commission and COBIT - Control Objectives for Information and Related Technology, which cover aspects related to Business and Information Technology, respectively.

Subordinated debts (Note 19)	35,821,667	35,890,228	(68,561)	(164,112)	(34,000)
Unrealized gains excluding tax			19,342,710	18,998,138	13,800,000

(1) Includes advances on foreign exchange contracts, leases and other receivables with lending characteristics; and

(2) Primarily includes the surplus of interest in subsidiaries and affiliates (Cielo, Odontoprev and Fleury).

Determination of the fair value of financial instruments:

- Securities and derivative financial instruments, investments, subordinated debts and treasury shares are based on the market price at the reporting date. If no quoted market price is available, amounts are estimated based on the dealer quotations, pricing models, quotation models or quotations for instruments with similar characteristics;

- Fixed rate loans were determined by discounting estimated cash flows, using interest rates applied by the Bradesco Organization for new contracts with similar features. These rates are consistent with the

market at the reporting date; and

- Time deposits, funds from issuance of securities, borrowing and on lending were calculated by discounting the difference between the cash flows under the contract terms and our prevailing market rates for the same product at the reporting date.

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

c) Capital Management

The primary objective Capital Management structure is to providing the necessary conditions for a continuous process of capital assessment, monitoring and control, contributing to the achievement of the Organization's strategic objectives. The following are considered: the business environment and a prospective and consistent vision for capital adequacy planning. This structure is composed of the Statutory, Non-Statutory and Executive Committees that assist the Board of Directors and the Board of Executive Officers in decision making.

The process of assessing capital adequacy is carried out so as to ensure that the Organization has a solid Reference Equity base to support the development of activities and cope with risks, whether in normal or in extreme market conditions, as well as meeting managerial and regulatory requirements in capital management.

33) EMPLOYEE BENEFITS

Bradesco and its subsidiaries sponsor an Unrestricted Benefit Pension Plan (PGBL) for employees and directors. PGBL is a private defined contribution pension plan that allows financial resources to be accumulated by participants throughout their careers by means of employee and employer contributions and invested in an Exclusive Investment Fund (FIE).

The PGBL scheme is managed by Bradesco Vida e Previdência S.A. and BRAM – Bradesco Asset Management S.A. The Securities Dealer Company (DTVM) is responsible for the financial management of the FIE funds.

The PGBL Supplementary Pension Plan was reformulated in October 2014, with contributions from employees and directors of Bradesco and its subsidiaries equal to at least 4% of their salaries. Contributions from Bradesco and its subsidiaries increased from 4% to 5% of salary, plus the percentage destined for death and disability coverages. The contributions concerning participants who in 2001 chose to migrate from the benefit plan defined for PGBL were maintained at the same levels of the previous benefit

plan.

Actuarial obligations of the defined contribution plan (PGBL) are fully covered by the plan assets of the corresponding FIE.

In addition to the aforementioned plan (PGBL), participants who chose to migrate from the defined benefit plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in the plan. For participants of the defined benefit plan (retirees and pensioners), whether they migrated to the PGBL plan or not, the present value of the actuarial plan obligation is fully covered by the plan assets.

Banco Alvorada S.A. (successor from the spin-off of Banco Baneb S.A.) maintains defined contribution and defined benefit retirement plans, through Fundação Baneb de Seguridade Social - Bases (related to the former employees of Baneb).

Banco Bradesco BBI S.A. (formerly Banco BEM S.A.) sponsors both defined benefit and defined contribution retirement plans, through Caixa de Assistência e Aposentadoria dos Funcionários do Banco do Estado do Maranhão (Capof).

Bradesco sponsors a defined benefit plan through Caixa de Previdência Privada do Banco do Estado do Ceará (Cabec), exclusively to former employees of Banco BEC S.A.

Bradesco _____

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

In accordance with CPC 33 (R1) – Employee Benefit, as approved by CVM Resolution nº600/09, Bradesco and its subsidiaries, as sponsors of these plans, taking into consideration the economic and actuarial study, calculated their actuarial commitments using a real interest rate and recognizing their obligations in the financial statements.

The assets of pension plans are invested in compliance with the applicable legislation (government securities and private securities, listed company shares and real estate properties).

Below are the main premises adopted by the independent actuary in the actuarial evaluation of our plans, based on CPC 33 (R1):

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

Risk factors	2014
Nominal discount rate	11.74% p.a
Nominal rate of minimum expected return on assets	11.74% p.a
Nominal rate of future salary growth	5.20% p.a
Nominal rate of increase of social security and plans' benefits	5.20% p.a
Inflation rate	5.20% p.a
Biometric table - general mortality	AT200
Biometric table - entry into disability	By plan
Expected turnover rate	
Likelihood of entry into retirement	100% on 1 st eligibility for a benefit through the plan

Based on the assumptions above and according to CPC 33 (R1), the present value of actuarial liabilities of the benefit plans and its assets to cover these obligations, on December 31, 2014, represented: (i) R\$ 1,070,636 for the plan's net assets (R\$ 995,591 thousand on December 31, 2013); (ii) R\$ 1,182,761 thousand in actuarial liabilities (R\$ 1,082,613 thousand on December 31, 2013); and (iii) deficiency amounting to R\$ 112,125 thousand (deficiency of R\$ 87,022 thousand on December 31, 2013).

The table below, relative to the sensitivity analysis of the obligation of benefit plans, demonstrates the impact on actuarial exposure (11.74% p.a.) due to the change of the discount rate premise by 1 p.p.:

Discount rate	Sensitivity analysis	Effect on actuarial liabilities	Effect on present value of obligations
12.74%	Increase of 1 p.p.	reduction	(111,950)
10.74%	Decrease of 1 p.p.	increase	132,811

At its overseas units, Bradesco provides its employees and administrators with pension plans that allows financial resources to be accumulated throughout the participant's career, in compliance with local regulations.

Expenses related to contributions made in the year ended December 31, 2014 totaled R\$ 622,807 thousand (R\$ 622,160 thousand on December 31, 2013) and R\$ 159,485 thousand in the 4th quarter of 2014 (R\$ 152,692 thousand in the 3rd quarter of 2014).

In addition to this benefit, Bradesco and its subsidiaries offer other benefits to their employees and administrators, including: health insurance, dental care, life and personal accident insurance, and professional training. These expenses, including the aforementioned contributions, totaled R\$ 3,063,655 thousand in the year ended December 31, 2014 (R\$ 2,828,806 thousand on December 31, 2013) and R\$ 829,512 thousand in the 4th quarter of 2014 (R\$ 779,121 thousand in the 3rd quarter of 2014).

(1) Deferred taxes on interest on shareholders' equity is recorded up to the authorized tax limit; and

(2) Deferred tax assets from companies in the financial and insurance sectors were established considering the increase in the social contribution rate, determined by Law n° 11727/08 (Note 3h).

Bradesco _____

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

d) Expected realization of deferred tax assets on temporary differences, tax loss and negative basis of social contribution and deferred social contribution - Provisional Measure n° 2158-35

						R\$ thousand
	Temporary differences		Income tax and social contribution losses		Social contribution - Provisional Measure n° 2158-35	Total
	Income tax	Social contribution	Income tax	Social contribution		
2015	3,546,411	2,101,782	215,334	238,616	80,528	6,182,671
2016	3,528,292	2,092,701	441,715	261,438	32,733	6,356,879
2017	3,463,976	2,047,009	750,385	444,170	522	6,706,062
2018	2,573,657	1,520,332	1,026,230	747,131	-	5,867,350
2019	3,699,236	2,073,170	19,274	388,078	-	6,179,758
Total	16,811,572	9,834,994	2,452,938	2,079,433	113,783	31,292,720

The projected realization of deferred tax assets is an estimate and it is not directly related to the expected accounting income.

The present value of deferred tax assets, calculated based on the average funding interest rate net of tax effects, amounts to R\$ 28,650,754 thousand (R\$ 29,306,102 thousand on September 30, 2014 and R\$ 26,444,826 thousand on December 31, 2013), of which R\$ 24,427,619 thousand (R\$ 26,039,308 thousand on September 30, 2014 and R\$ 22,629,784 thousand on December 31, 2013) refers to temporary differences, R\$ 4,112,722 thousand (R\$ 3,159,509 thousand on September 30, 2014 and R\$ 3,684,786 thousand on December 31, 2013) to tax losses and negative basis of social contribution and R\$ 110,413 thousand (R\$ 107,285 thousand on September 30, 2014 and R\$ 130,256 thousand on December 31, 2013) of deferred social contribution, Provisional Measure n° 2158-35.

e) Unrecognized deferred tax assets

On December 31, 2014, deferred tax assets of R\$ 1,927 thousand (R\$ 1,927 thousand on September 30, 2014 and R\$ 1,927 thousand on December 31, 2013) were not recorded, but they will be when they meet the regulatory requirements and/or present prospects of realization according to studies and analyses prepared by the Management and in accordance with Bacen regulations.

f) Deferred tax liabilities

	R\$ thousand		
	2014		2013
	December	September	December
	31	30	31
Mark-to-market adjustment to securities and derivative financial instruments	969,078	826,877	536,478
Difference in depreciation	784,378	880,682	1,340,059
Judicial deposit and others	1,538,522	1,532,648	1,311,408
Total	3,291,978	3,240,207	3,187,945

The deferred tax liabilities of companies in the financial and insurance sectors were established considering the increased social contribution rate, established by Law nº 11727/08 (Note 3h).

35) OTHER INFORMATION

a) The Bradesco Organization manages investment funds and portfolios with net assets of R\$ 488,730,084 thousand as of December 31, 2014 (R\$ 486,941,677 thousand at September 30, 2014 and R\$ 435,363,444 thousand on December 31, 2013).

Following the change, only 13 financial groups (with reserve for redemption

Deduction for credit transactions derived from working capital was permitted positive variation, compared with the average for the 1st half-year.

d) As part of the convergence process with international accounting standards, the Brazilian Accounting Pronouncements Committee (CPC) issued several accounting pronouncements, as well as their interpretations and guidelines, which are applicable to financial institutions only after approval by CMN.

The accounting standards which have been approved by CMN include the following:

- Resolution nº 3566/08 – Impairment of Assets (CPC 01);
- Resolution nº 3604/08 – Statement of Cash Flows (CPC 03);
- Resolution nº 3750/09 – Related Party Disclosures (CPC 05);

Bradesco _____

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

- Resolution nº 3823/09 – Provisions, Contingent Liabilities and Contingent Assets (CPC 25);
- Resolution nº 3973/11 – Subsequent Event (CPC 24);
- Resolution nº 3989/11 – Share-based Payment (CPC 10);
- Resolution nº 4007/11 – Accounting Policies, Changes in Estimates and Error Correction (CPC 23);
and
- Resolution nº 4144/12 – Conceptual Framework for Preparing and Presenting Financial Statements.

Presently, it is not possible to estimate when the CMN will approve the other CPC pronouncements or if they will be used prospectively or retrospectively.

CMN Resolution nº 3786/09 and Bacen Circular Letters nº 3472/09 and nº 3516/10 establish that financial institutions and other entities authorized by Bacen to operate, which are publicly-held companies or which are required to establish an Audit Committee shall, since December 31, 2010, annually prepare and publish in up to 90 after the reference date of December 31 their consolidated financial statements, prepared under the International Financial Reporting Standards (IFRS), in compliance with international standards issued by the International Accounting Standards Board (IASB).

As required by CMN Resolution, on March 31, 2014, Bradesco published its consolidated financial statements for December 31, 2013 and 2012 on its website, in accordance with IFRS standards. The net income and equity of the financial statements disclosed in IFRS have not been substantially different from

those presented in the financial statements, in accordance with the accounting practices adopted in Brazil and applicable to institutions authorized to operate by the Brazilian Central Bank (Bacen). As there were no substantial differences between the two sets of financial statements (GAAPs) in the year ended December 31, 2013, the Management believes that the net profit and net equity for the year ended December 31, 2014, are not materially different in the two GAAPs.

e) On May 14, 2014, Law nº 12973/14 was published, which converted Provisional Measure nº 627/13. This Law amends the Federal Tax Legislation regarding Corporate Income Tax - IRPJ, the Social Contribution on Net Profits - CSLL, the Contribution to PIS/PASEP and the Contribution to the Social Security Financing - COFINS. These are the main issues contemplated by Law nº 12973/14:

- revocation of the Transition Tax System (RTT), controlling the adjustments arising from new accounting methods and criteria following the alignment of Brazilian accounting rules to the international standards;
- taxation of companies domiciled in Brazil, for increases in the equity of overseas subsidiaries and unconsolidated companies resulting from profit in these entities;
- special installment payment of PIS/PASEP and COFINS Contributions.

The aforementioned Law was regulated through Normative Instructions nºs 1,515, of November 24, 2014 and 1,520, of December 4, 2014. Our assessment shows that there will be no significant future impacts on our Consolidated Financial Statements.

f) On November 19, 2014, our jointly-controlled subsidiary, Cielo S.A. (Cielo), and Banco do Brasil S.A. (Bank of Brazil), announced an agreement for the establishment of a joint venture (“JV”) that will manage transactions related to credit and debit card operations under the Ourocard Payment Arrangement (“Ourocard Arrangement”). Valued at R\$ 11.6 billion, this joint venture will have 70% of its capital held by Cielo and 30% by Banco do Brasil. Banco do Brasil will contribute with assets related to Ourocard Arrangement and Cielo will contribute R\$ 8.1 billion in financing, which will be obtained through the issuance of debentures.

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Notes to the Consolidated Financial Statements

g) On January 20, 2015, Law n^o 13097/15 was published, which converted Provisional Measure n^o 656/14. Among other things, this legislation changes the limits on the deductibility criteria for credit losses on contracts past-due after October 8, 2014 (Article 9 of Law n^o 9430/96). The limits remain the same for contracts past-due held until October 7, 2014.

h) There were no subsequent events that need to be adjusted or disclosed for the consolidated financial statements as of December 31, 2014.

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Independent Auditors' Report on the Consolidated Financial Statements

To the

Board of Directors and Shareholders

Banco Bradesco S.A.

Osasco – SP

We have audited the accompanying consolidated financial statements of Banco Bradesco S.A. ("Bradesco"), which comprise the consolidated statement of financial position as at December 31, 2014, the consolidated statements of income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Bradesco's Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices adopted in Brazil applicable to institutions authorized to operate by the Brazilian Central Bank and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Brazilian and International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to Bradesco's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bradesco's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the above-mentioned consolidated financial statements present fairly, in all material respects, the consolidated financial position of Banco Bradesco S.A., as at December 31, 2014, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with accounting practices adopted in Brazil applicable to institutions authorized to operate by the Brazilian Central Bank.

Other matters

Consolidated statement of value added

We have also audited the consolidated statement of value added (DVA), preparation of which is the responsibility of the Banco Bradesco S.A's Management, for the year ended December 31, 2014, which presentation is required by publicly-held companies under the Brazilian Corporate Law. The aforementioned statement was subject to the same auditing procedures described above and, in our opinion, is fairly presented, in all material respects, in relation to the financial statements taken as a whole.

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Audit Committee Report Summary

Corporate Governance and Related Responsibilities

Banco Bradesco S.A.'s Board of Directors has opted for a single Audit Committee for all companies belonging to the Financial Conglomerate, including those belonging to Grupo Bradesco Seguros.

The Audit Committee is a statutory advisory body, linked directly to the Board of Directors. Currently, it consists of one advisor and two other members, appointed each year by the Board of Directors, based on criteria established in the applicable laws and regulations.

The Board is responsible for defining and implementing data collection processes and procedures in order to prepare the financial statements of the companies comprising the Bradesco Organization, observing the accounting practices adopted in Brazil, which are applicable to institutions authorized to operate by the Brazilian Central Bank, and observing the standards set out by the National Monetary Council of the Brazilian Central Bank, Securities and Exchange Commission (CVM), National Private Insurance Council (CNSP), Insurance Superintendency

The tasks of the Audit Committee also includes those required by Sarbanes-Oxley for companies registered with the U.S. Securities and Exchange Commission and listed on the New York Stock Exchange.

The rules of the Audit Committee are available at www.bradesco.com.br, area of Corporate Governance.

Activities related to the fiscal year of 2014

The Committee has participated in 222 meetings with the business, control and risk management areas, and with the internal and independent auditors, verifying, through different sources, information related to aspects considered relevant or critical.

The Audit Committee work program for the 2014 financial year focused on the main business processes and products associated to the Bradesco Organization. The most relevant aspects include:

(Susep), and by the National Supplementary Healthcare Agency (ANS).

The Board is also responsible for processes, policies and internal control procedures designed to safeguard the company's assets, timely recognition of liabilities, and mitigation of the Bradesco Organization's risk factors to acceptable levels.

The Independent Auditing is responsible for examining the financial statements and issuing a report on their compliance with generally accepted accounting principles. In addition, as a result of its work for the purpose of issuing said report, the Independent Auditing develops a report of recommendations regarding accounting procedures and internal controls, without prejudice to other reports which it is also responsible for preparing, such as the report on limited reviews of quarterly information required by the CVM.

The Internal Auditing (General Inspectorate Department) is responsible for assessing the quality of the Bradesco Organization's internal control systems and its compliance with policies and procedures defined by the Board, including those adopted in the preparation of accounting and financial reports.

The Audit Committee's duties and responsibilities are to assess the quality and effectiveness of the Internal and Independent Audits, the effectiveness and sufficiency of the Bradesco Organization's internal control systems, and to analyze the financial statements, issuing relevant recommendations, as applicable.

- procedures for the development and disclosure of financial reports to shareholders and external users of accounting and financial information;

- credit and operational risk management and control systems, preparation to use internal models in line with the conditions laid down by the New Basel Capital Accord (Basel II and III) and applicable regulations set forth by the Brazilian Central Bank; and

- improvements in the internal control systems arising from projects related to Technology and Risk Management.

Internal Control Systems

Based on the work program and schedule established for 2014, the Audit Committee gathered information about the main processes within the Organization, evaluating their quality and the directors' commitment of the leaders with their continuous improvement.

As a result of meetings held with the departments of the Bradesco Organization, the Audit Committee had the opportunity to offer the Board of Directors suggestions to improve the processes, as well as to monitor the implementations of recommendations for improvement identified during the audit work, and in discussions with the business and control areas.

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Audit Committee Report Summary

Based on observations and collected information, the Audit Committee has determined that the Bradesco Organization's internal control system is suitable for the size and complexity of its business, and is structured in such a way as to ensure the efficiency of its operations, of the systems that generate the financial reports, as well as compliance with internal and external requirements applicable to the transactions.

Independent Audit

The independent audit work plan for the 2014 financial year was discussed with KPMG Auditores Independentes (KPMG), and during the year, the audit teams responsible for the services have presented the results and main findings to the Audit Committee.

The relevant items mentioned in the report on the study and evaluation of accounting and internal control systems, prepared in connection with the examination of financial statements and their recommendations for improving these systems, were discussed with the Committee, which requested monitoring the implementations of the improvements to be made in the responsible areas.

Consolidated Financial Statements

The Committee has met with the General Accounting, Planning, Budget and Control, and Internal Audit departments, as well as with the Independent Auditors (KPMG) to evaluate the quarterly, semi-annual and annual financial statements. At these meetings, the Committee analyzed and evaluated aspects related to the preparation of individual and consolidated interim balance sheets and balance sheets, notes, and the financial reports published in association with the consolidated financial statements.

The Committee also considered the accounting practices adopted by Bradesco in the preparation of financial statements, and its compliance with the accounting practices adopted in Brazil applicable to institutions authorized to operate by the Brazilian Central Bank, as well as its compliance with the applicable legislation.

Before disclosing the Quarterly information (ITRs) and the semi-annual and annual balance sheets, the Committee met with KPMG to evaluate aspects related to the auditors' independence and the control environment in the preparation of the figures to be disclosed.

Based on the plan presented by the auditors and in subsequent discussions on the results, the Committee considers that the work conducted by the teams were suited to the Organization's business.

Based on the reviews and discussions referred to above, the Audit Committee recommends to the Board of Directors to approve the audited financial statements related to the year ending December 31, 2014.

Internal Audit

The Committee requested the Internal Audit to consider, in its planning for 2014, several works in line with the topics covered on the Committee's agenda.

During 2014, the teams responsible for executing the planned activities reported and discussed with the Audit Committee the main conclusions on the vision of process and associated risks.

Based on the discussions on the Internal Audit's work plan focused on risks, processes and in the evaluation of its results, the Audit Committee considers that the Internal Audit has responded adequately to the Committee's demands and to the needs and requirements of the Organization and the regulatory authorities.

Economic and Financial Analysis Report – December 2014

Financial Statements, Independent Auditors' Report, Audit Committee Report Summary and Fiscal Council's Report

Fiscal Council's Report

The members of the Fiscal Council, in exercise of their legal and statutory duties, have examined the Board of Director's Report and Financial statements of Banco Bradesco S.A. (Bradesco), for the year ended December 31, 2014, and based on: (i) the Independent Auditors' Report, dated January 28, 2015; (ii) the technical study of feasibility of realization of tax credits, drafted by Bradesco's Board of Directors, following determinations established by CVM Instruction nº371/02; National Monetary Council Resolution nº3059/02; and Circular Letter nº 3171/02, of the Central Bank of Brazil, whose values are stated in the respective Explanatory Notes; (iii) meetings with independent auditors; (iv) in the reports of Bradesco's Audit Committee; (v) the analysis of documents and, substantially on the information received; and (vi) periodic meetings with Bradesco's directors and managers, have concluded that the examined documents adequately reflect the assets and liabilities, the financial position and the activities performed by Bradesco in 2014, corroborating the opinion of the Audit Committee, that the internal controls are appropriate for the size and complexity of its businesses, which are structured in compliance with internal and external standards to which they are subjected, and supported by systems that generate financial reports aimed at ensuring operational efficiency.

In face of the above, the members of the Fiscal Council hereby express their opinion that the documents examined are fit to be examined and approved at Bradesco's Annual Shareholders' Meeting.
