TERNIUM S.A.

Restated Consolidated Condensed Interim Financial Statements as of September 30, 2014

and for the nine-month periods ended September 30, 2014 and 2013

Notes to the Restated Consolidated Condensed Interim Financial Statements

1. GENERAL INFORMATION AND BASIS OF PRESENTATION

a) General information and basis of presentation

Ternium S.A. (the "Company" or "Ternium"), was incorporated on December 22, 2003 to hold investments in flat and long steel manufacturing and distributing companies. The Company has an authorized share capital of a single class of 3.5 billion shares having a nominal value of USD 1.00 per share. As of September 30, 2014, there were 2,004,743,442 shares issued. All issued shares are fully paid.

Following a corporate reorganization carried out during fiscal year 2005, in January 2006 the Company successfully completed its registration process with the United States Securities and Exchange Commission ("SEC"). Ternium's ADSs began trading on the New York Stock Exchange under the symbol "TX" on February 1, 2006. The Company's initial public offering was settled on February 6, 2006.

The Company was initially established as a public limited liability company (société anonyme) under Luxembourg's 1929 holding company regime. Until termination of such regime on December 31, 2010, holding companies incorporated under the 1929 regime (including the Company) were exempt from Luxembourg corporate and withholding tax over dividends distributed to shareholders.

On January 1, 2011, the Company became an ordinary public limited liability company (société anonyme) and, effective as from that date, the Company is subject to all applicable Luxembourg taxes (including, among others, corporate income tax on its worldwide income) and its dividend distributions will generally be subject to Luxembourg withholding tax. However, dividends received by the Company from subsidiaries in high income tax jurisdictions, as defined under Luxembourg law, will continue to be exempt from corporate income tax in Luxembourg under Luxembourg's participation exemption.

As part of the Company's corporate reorganization in connection with the termination of Luxembourg's 1929 holding company regime, on December 6, 2010, the Company contributed its equity holdings in all its subsidiaries and all its

financial assets to its Luxembourg wholly-owned subsidiary Ternium Investments S.à r.l., or Ternium Investments, in exchange for newly issued corporate units of Ternium Investments. As the assets contributed were recorded at their historical carrying amount in accordance with Luxembourg GAAP, the Company's December 2010 contribution of such assets to Ternium Investments resulted in a non-taxable revaluation of the accounting value of the Company's assets under Luxembourg GAAP. The amount of the December 2010 revaluation was equal to the difference between the historical carrying amounts of the assets contributed and the value at which such assets were contributed and amounted to USD 4.0 billion. However, for the purpose of these consolidated condensed interim financial statements, the assets contributed by Ternium to its wholly-owned subsidiary Ternium Investments were recorded based on their historical carrying amounts in accordance with IFRS, with no impact on the financial statements.

Page 8 of 27

TERNIUM S.A.

Restated Consolidated Condensed Interim Financial Statements as of September 30, 2014

and for the nine-month periods ended September 30, 2014 and 2013

1. GENERAL INFORMATION AND BASIS OF PRESENTATION (continued)

Following the completion of the corporate reorganization, and upon its conversion into an ordinary Luxembourg holding company, the Company voluntarily recorded a special reserve exclusively for tax-basis purposes. As of December 31, 2013 and 2012, this special reserve amounted to USD 7.5 billion and USD 7.6 billion, respectively. The Company expects that, as a result of its corporate reorganization, its current overall tax burden will not increase, as all or substantially all of its dividend income will come from high income tax jurisdictions. In addition, the Company expects that dividend distributions for the foreseeable future will be imputed to the special reserve and therefore should be exempt from Luxembourg withholding tax under current Luxembourg law.

The name and percentage of ownership of subsidiaries that have been included in consolidation in these Consolidated Condensed Interim Financial Statements is disclosed in Note 2 to the audited Consolidated Financial Statements for the year ended December 31, 2013.

Certain comparative amounts have been reclassified to conform to changes in presentation in the current period.

The preparation of Consolidated Condensed Interim Financial Statements requires management to make estimates and assumptions that might affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the statement of financial position, and also the reported amounts of revenues and expenses for the reported periods. Actual results may differ from these estimates.

Material intercompany transactions and balances have been eliminated in consolidation. However, the fact that the functional currency of the Company's subsidiaries differ, results in the generation of foreign exchange gains and losses that are included in the Consolidated Condensed Interim Income Statement under "Other financial income (expenses), net".

b) Restatement of Previously Issued Interim Financial Statements

Subsequent to the issuance of the Company's consolidated condensed interim financial statements as of September 30, 2014 and for the nine-month periods ended September 30, 2014 and 2013 and following the approval of such

consolidated condensed interim financial statements by the Board of Directors, the Company has restated such consolidated condensed interim financial statements to reduce the carrying amount of the Company's investment in Usinas Siderúrgicas de Minas Gerais S.A. – Usiminas ("Usiminas").

This restatement follows the conclusion of previously disclosed discussions with the Staff of the U.S. Securities and Exchange Commission regarding Staff comments relating to the carrying value of the Company's investment in Usiminas under IFRS as of September 30, 2014 and subsequent periods. The Staff had requested information regarding Ternium's value in use calculations and the differences between the carrying amounts and certain other indicators of value, including the purchase price of BRL 12 (approximately USD 4.8) per share which the Company paid in October 2014 for the acquisition of 51.4 million additional Usiminas ordinary shares from Caixa de Previdência dos Funcionários do Banco do Brazil – PREVI ("PREVI"), and indicated that the PREVI transaction price provided objective evidence of the value of the Usiminas investment.

Page 9 of 27

Restated Consolidated Condensed Interim Financial Statements as of September 30, 2014

and for the nine-month periods ended September 30, 2014 and 2013

1. GENERAL INFORMATION AND BASIS OF PRESENTATION (continued)

As a result of these discussions, the Company has re-evaluated and revised the assumptions used to calculate the carrying value of the Usiminas investment at September 30, 2014. In calculating the value in use of the Usiminas investment initially reported at September 30, 2014, the Company had combined the assumptions used in two different projected scenarios. For the purposes of these Restated Consolidated Condensed Interim Financial Statements, however, the Company recalculated value in use as of September 30, 2014 based primarily on the assumptions in the most conservative scenario, which includes, among other revisions, a lower operating income, an increase in the discount rate and a decrease in the perpetuity growth rate (see note 9). As a result, the Company recorded an impairment of USD 739.8 million as of September 30, 2014, reaching a carrying value for the Usiminas investment of BRL 12 per share. As a result of the impairment as of September 30, 2014, the Company did not record a further impairment as of December 31, 2014.

Accordingly, the Company's consolidated condensed interim financial statements as of September 30, 2014, and for the nine-month period ended September 30, 2014, have been amended and restated to reduce the carrying amount of the Company's investment in Usiminas. The restatement, which is treated as the correction of an error under accounting rules, impacts the consolidated statement of financial position, the consolidated statement of changes in equity, the consolidated income statement, the consolidated statement of other comprehensive income and the consolidated statement of cash flows for the nine-month period ended September 30, 2014. The restatement impacts only the period ended September 30, 2014. No impact was recorded on the consolidated condensed interim financial statements for the nine-month period ended September 30, 2013.

As a result of the restatement, non-current assets have decreased by USD 739.8 million, non-current liabilities have decreased by USD 35.5 million, and accumulated income have decreased by USD 704.3 million; no impact was recorded on cumulative translation adjustment. As a result of the above adjustment, the basic and diluted earnings per share for profit attributable to the owners of the parent decreased from USD 0.20 gain per share to USD 0.13 loss per share.

Following the restatement, these restated consolidated condensed interim financial statements for the period ended September 30, 2014 of the Company have been approved and authorized for issue by the Board of Directors on May 28, 2015.

The effect of the restatement on the previously issued consolidated condensed interim income statement for the three-month and the nine-month periods ended September 30, 2014 is as follows:

Three-months	period	ended	September	30 ,
--------------	--------	-------	-----------	-------------

	2014 (as reported)	2014 (adjustment)	2014 (restated)

TERNIUM S.A.

Restated Consolidated Condensed Interim Financial Statements as of September 30, 2014

and for the nine-month periods ended September 30, 2014 and 2013

2. ACCOUNTING POLICIES

These Restated Consolidated Condensed Interim Financial Statements have been prepared in accordance with IAS 34, "Interim Financial Reporting" and are unaudited. These Restated Consolidated Condensed Interim Financial Statements should be read in conjunction with the audited Consolidated Financial Statements for the year ended December 31, 2013, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), and adopted by the European Union ("EU"). Recently issued accounting pronouncements were applied by the Company as from their respective dates.

These Consolidated Condensed Interim Financial Statements have been prepared following the same accounting policies used in the preparation of the audited Consolidated Financial Statements for the year ended December 31, 2013.

New accounting pronouncements have been issued after December 31, 2013, as follows:

International Financial Reporting Standard 15, "Revenue from contracts with customers" In May 2014, the IASB issued IFRS 15, "Revenue from contracts with customers", which sets out the requirements in accounting for revenue arising from contracts with customers and which is based on the principle that revenue is recognized when control of a good or service is transferred to the customer. IFRS 15 must be applied annual periods beginning on or after January 1, 2017.

International Financial Reporting Standard 9, "Financial instruments"

In July 2014, the IASB issued IFRS 9, "Financial instruments", which replaces the guidance in IAS 39. It includes requirements on the classification and measurement of financial assets and liabilities, as well as an expected credit losses model that replaces the current incurred loss impairment model. IFRS 9 must be applied on annual periods beginning on or after January 1, 2018.

These standards are not effective for the financial year beginning January 1, 2014 and have not been early adopted.

The Company's management has not yet assessed the potential impact that the application of these standards may have on the Company's financial condition or results of operations.

3. SEGMENT INFORMATION

REPORTABLE OPERATING SEGMENTS

The Company is organized in two reportable segments: Steel and Mining.

The Steel segment includes the sales of steel products, which comprises slabs, hot rolled coils and sheets, cold rolled coils and sheets, tin plate, welded pipes, hot dipped galvanized and electro-galvanized sheets, pre-painted sheets, billets (steel in its basic, semi-finished state), wire rod and bars and other tailor-made products to serve its customers' requirements.

The Steel segment comprises three operating segments: Mexico, Southern Region and Other markets. These three segments have been aggregated considering the economic characteristics and financial effects of each business activity in which the entity engages; the related economic environment in which it operates; the type or class of customer for the products; the nature of the products; and the production processes. The Mexico operating segment comprises the Company's businesses in Mexico. The Southern region operating segment manages the businesses in Argentina, Paraguay, Chile, Bolivia and Uruguay. The Other markets operating segment includes businesses mainly in United States, Colombia, Guatemala, Costa Rica, El Salvador, Nicaragua and Honduras.

Page 13 of 27

Restated Consolidated Condensed Interim Financial Statements as of September 30, 2014

and for the nine-month periods ended September 30, 2014 and 2013

3. **SEGMENT INFORMATION (continued)**

The Mining segment includes the sales of mining products, mainly iron ore and pellets, and comprises the mining activities of Las Encinas, an iron ore mining company in which Ternium holds a 100% equity interest and the 50% of the operations and results performed by Peña Colorada, another iron ore mining company in which Ternium maintains that same percentage over its equity interest. Both mining operations are located in Mexico.

Ternium's Chief Operating Decision Maker (CEO) holds monthly meetings with senior management, in which operating and financial performance information is reviewed, including financial information that differs from IFRS principally as follows:

- The use of direct cost methodology to calculate the inventories, while under IFRS is at full cost, including absorption of production overheads and depreciation.
- The use of costs based on previously internally defined cost estimates, while, under IFRS, costs are calculated at historical cost (with the FIFO method).
- Other timing and non-significant differences.

Most information on segment assets is not disclosed as it is not reviewed by the CODM.

			Voting rig	ghts as of	Value	e as of
Company	Country of incorporation	Main activity	September 30, 2014	December 31, 2013	September 30, 2014 (restated)	December 31, 2013
Usinas Siderurgicas de Minas Gerais S.A USIMINAS	Brazil	Manufacturing and selling of steel products	22.71%	22.71%	561,768	1,369,820
Other non-consolidated companies (1)		sicer products			6,794	5,345
companies (1)					568,562	1,375,165

(1) It includes the investments held in Techgen S.A. de C.V., Finma S.A.I.F., Arhsa S.A., Techinst S.A., Recrotek S.R.L. de C.V. and Gas Industrial de Monterrey S.A. de C.V.

(a) Techgen S.A. de C.V.

Following the execution of an August 2013 memorandum of understanding for the construction and operation of a natural gas-fired combined cycle electric power plant in the Pesquería area of the State of Nuevo León, Mexico, as of February 2014, Ternium, Tenaris and Tecpetrol International S.A. (a wholly-owned subsidiary of San Faustin S.A., the controlling shareholder of both Ternium and Tenaris) have completed their initial investments in Techgen, S.A. de C.V. (Techgen), a Mexican project company owned 48% by Ternium, 30% by Tecpetrol and 22% by Tenaris. Tenaris and Ternium have also agreed to enter into power supply and transportation agreements with Techgen, pursuant to which Ternium and Tenaris will contract 78% and 22%, respectively, of Techgen's power capacity of between 850 and 900 megawatts.

(b) Usinas Siderurgicas de Minas Gerais S.A. - USIMINAS

On January 16, 2012, the Company's wholly-owned Luxembourg subsidiary Ternium Investments S.à r.l. ("Ternium Investments"), together with the Company's Argentine majority-owned subsidiary Siderar S.A.I.C. (and Siderar's

wholly-owned Uruguayan subsidiary Prosid Investments S.C.A.), and Confab Industrial S.A., a Brazilian subsidiary of Tenaris S.A. ("TenarisConfab"), joined Usiminas' existing control group through the acquisition of 84.7, 30.0, and 25.0 million ordinary shares, respectively. As a result of these transactions, the control group, which holds 322.7 million ordinary shares representing the majority of Usiminas' voting rights, is now formed as follows: Nippon Steel & Sumitomo Metal Corporation Group (formerly Nippon Group) 46.1%, Ternium/Tenaris Group 43.3%, and CEU 10.6%.

As discussed in note 14, on October 2, 2014, Ternium Investments entered into a definitive purchase agreement with Caixa de Previdência dos Funcionários do Banco do Brasil – PREVI for the acquisition of 51.4 million ordinary shares of Usiminas at a price of BRL 12 per share, for a total amount of BRL 616.7 million. On October 30, 2014, Ternium Investments completed the acquisition.

Following the acquisition of these additional shares, Ternium (through Ternium Investments, Siderar and Prosid) owns 166.1 million ordinary shares, representing 32.9% of Usiminas' ordinary shares. Ternium continues to hold 35.6% of Usiminas' voting rights over the control group and has a participation in Usiminas' results of 16.82%.

Page 18 of 27

Restated Consolidated Condensed Interim Financial Statements as of September 30, 2014

and for the nine-month periods ended September 30, 2014 and 2013

9. INVESTMENTS IN NON-CONSOLIDATED COMPANIES (continued)

As of September 30, 2014, following the recording of the impairment charge discussed in note 1(b), the value of the investment is comprised as follows:

Value of investment	USIMINAS
As of January 1, 2014	1,369,820
Share of results	(5,828)
Other comprehensive income	(62,463)
Impairment charge	(739,761)
As of September 30, 2014 (restated)	561,768

The Company reviews periodically the recoverability of its investment in Usiminas. To determine the recoverable value, the Company estimates the value in use of the investment by calculating the present value of the expected cash flows. There is a significant interaction among the principal assumptions made in estimating Usiminas cash flow projections, which include iron ore and steel prices, foreign exchange and interest rates, Brazilian GDP and steel consumption in the Brazilian market. The key assumptions used by the Company are based on external and internal sources of information, management judgment based on past experience and expectations of future changes in the market.

Value-in-use was calculated by discounting the estimated cash flows over a six year period based on forecasts approved by management. For the subsequent years beyond the six-year period, a terminal value was calculated based on perpetuity considering a nominal growth rate of 2%. The discount rates used are based on the respective weighted average cost of capital (WACC), which is considered to be a good indicator of capital cost. The discount rate used to test the investment in Usiminas for impairment was 10.4%.

As mentioned in note 1 (b), as of September 30, 2014, following discussions with the Staff of the U.S. Securities and Exchange Commission, the Company re-evaluated and revised the assumptions used to calculate the carrying value of the Usiminas investment at September 30, 2014 and, as a result, wrote down the carrying value of its investment in Usiminas by USD 739.8 million.

At September 30, 2014, the closing price of the Usiminas' ordinary shares as quoted on the BM&FBovespa Stock Exchange was BRL 6.64 (approximately USD 2.71) per share, giving Ternium's ownership stake a market value of

approximately USD 310.8 million.

On October 28, 2014, Usiminas approved its interim accounts as of and for the nine-months ended September 30, 2014, which state that revenues, post-tax profit from continuing operations and shareholders' equity amounted to USD 4,000 million, USD 118 million and USD 6,911 million, respectively.

	USIMINAS As of September 30,
