**PROXY STATEMENT
FOR**

**ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD May 12, 2017**

The following information is furnished in connection with the Annual Meeting of Shareholders of Servotronics, Inc. (the "Company") to be held on May 12, 2017 at 2:00 p.m., EDT, at the offices of Bond, Schoeneck & King, PLLC., Avant Building - Suite 900, 200 Delaware Avenue, Buffalo, NY 14202.

If you would like to attend the Annual Meeting, please pre-register by 11:59 p.m. EDT on Monday, May 8, 2017. You must present valid government-issued photographic identification, such as a driver's license, to be admitted into the Annual Meeting. If you are a registered shareholder, please indicate that you intend to attend the Annual Meeting by checking the appropriate box on your proxy card. If you hold your shares beneficially, please notify us in writing that you will attend. In your written notification, please include a proof of ownership of our common stock (such as a letter from your broker, bank or other nominee, a photocopy of your current account statement or a copy of your voting card). Please also provide contact information where we can reach you if we have a question about your notification. Send your notification by mail to the Company's Corporate Secretary, 1110 Maple Street, P.O. Box 300, Elma, New York 14059.

A copy of the Company's Annual Report to Shareholders for the fiscal year ended December 31, 2016 accompanies this Proxy Statement. Additional copies of the Annual Report, Notice, Proxy Statement and form of proxy may be obtained without charge from the Company's Corporate Secretary, 1110 Maple Street, P.O. Box 300, Elma, New York 14059. This Proxy Statement and proxy card are first being mailed to shareholders on or about April 5, 2017.

SOLICITATION AND REVOCABILITY OF PROXIES

The enclosed proxy for the Annual Meeting of Shareholders is being solicited by the Directors of the Company. The proxy may be revoked by a shareholder at any time prior to the exercise thereof by filing with the Corporate Secretary of the Company a written revocation or duly executed proxy bearing a later date. The proxy may be revoked by a shareholder attending the meeting, by withdrawing such proxy and voting in person. The cost of soliciting the proxies on the enclosed form will be paid by the Company. In addition to the use of mailings, proxies may be solicited by employees of the Company (who will receive no additional compensation therefor) personally or by telephone or other electronic communications and arrangements may be made with banks, brokerage houses and other institutions, nominees and/or fiduciaries to forward the soliciting material to their principals and to obtain authorization for the execution of proxies. The Company may, upon request, reimburse banks, brokerage houses and other institutions, nominees and fiduciaries for their expenses in forwarding proxy material to their principals.

VOTING INFORMATION

The record date for determining shares entitled to vote has been fixed at the close of business on March 16, 2017. On such date there were outstanding 2,434,449 shares of common stock of the Company, \$.20 par value (“Common Stock”), entitled to one vote each.

In order to conduct the Annual Meeting, the presence, in person or by properly executed proxy, of the holders of a majority (i.e., greater than 50%) of all the votes entitled to be cast at the Annual Meeting is necessary to constitute a quorum. Directors will be elected by a plurality of all the votes cast at the 2017 Annual Meeting with each share being voted for as many individuals as there are Directors to be elected. Ratification of the appointment of Freed Maxick CPAs, P.C. as the Company’s independent registered public accounting firm for the 2017 fiscal year requires the affirmative vote of a majority of the votes cast. Pursuant to SEC rules, shareholder proposals must have been received by March 14, 2017, which date is 45 days before the date (April 28) on which the Company mailed its proxy materials for last year’s annual meeting, to be considered at the 2017 Annual Meeting. At March 14, 2017 the Company had not received notice of any intention to submit any other matter; and, therefore, the named proxies have discretion to vote on any other matter that comes before the meeting.

Shares of Common Stock represented by a properly signed, dated and returned proxy will be treated as present at the meeting for the purposes of determining a quorum. Proxies relating to “street name” shares of Common Stock that are voted by brokers will be counted as shares of Common Stock (i) present for purposes of determining the presence of a quorum and (ii) as having voted in accordance with the directions and statements on the form of proxy.

PROPOSAL 1: ELECTION OF DIRECTORS

The By-Laws of the Company provide that there shall not be less than three Directors not more than nine and that the number of Directors to be elected at the Annual Meeting of Shareholders shall be fixed by the Board of Directors. As of March 15, 2017, the Board of Directors has fixed the number of Directors to be elected at the meeting at six. Each person so elected shall serve until the next Annual Meeting of Shareholders and until his successor is elected and shall have qualified.

Five of the seven incumbent directors were nominated to stand for re-election. Directors Donald W. Hedges, Esq. and Rigel D. Pirrone informed the Board that they will retire from the Board and not stand for re-election at the Annual Meeting. Upon the recommendation of the Independent Directors Committee, the Board also nominated an additional director candidate who does not currently serve on the Board. The candidate was first recommended to the Independent Directors Committee by the Company’s President. The Directors believe that all of the nominees are

willing and able to serve as Directors of the Company. If any nominee at the time of election is unable or unwilling to serve or is otherwise unavailable for election, the enclosed proxy will be voted in accordance with the best judgment of the person or persons voting the proxy.

- 2 -

The following paragraphs set forth certain information regarding the nominees for election to the Company's Board of Directors, including the specific experience, qualifications, attributes or skills that led to the conclusion by the Board of Directors that such person should serve as a Director of the Company. The nominees for election to the Company's Board of Directors are Jason T. Bear, age 35, Edward C. Cosgrove, Esq., age 82, Lucion P. Gygax, age 46, Christopher M. Marks, age 52, Kenneth D. Trbovich, age 42, and Dr. Nicholas D. Trbovich, age 81.

Jason T. Bear is nominated to join Servotronics, Inc. as a Company Director. Mr. Bear is the Founder, President, and CEO of Full-Throttle Communications, Inc., a marketing and public relations firm that represents a wide variety of national manufacturing brands. His experience ranges from aerospace and tactical manufacturers that service military government entities to outdoor sporting brands. Prior to founding Full Throttle Communications in 2007, Mr. Bear held the position of Marketing Director at Bear Enthusiast Marketing Group and also served as an account manager at Kodiak Communications, Inc. where he oversaw a number of client accounts providing strategic marketing direction. Mr. Bear's marketing experience includes the support of signature brands such as Wiley X, John Deere, Harley-Davidson, and Remington. His leadership skills, marketing acumen, and aptitude for negotiation qualify him to be a Company Director.

Edward C. Cosgrove, Esq. has served as Director since 2012. Mr. Cosgrove is a prominent long-term member of the Western New York jurisprudence community. He earned a Bachelor of Arts Degree from the University of Notre Dame in 1956 and a Doctor of Laws Degree from Georgetown University Law School in 1959. His wide range of experience has included years as a Special Agent, Federal Bureau of Investigation (1960 – 1962), Attorney at Law (1963 – 1973) and District Attorney of Erie County, NY (1974 – 1981). From 1982 to the present his practice includes Civil and Criminal Litigation, management of legal crises and representation of local, national and international corporations, insurance companies and professionals before State Licensing Boards with the Cosgrove Law Firm. Mr. Cosgrove brings extensive experience as an active member of professional and charitable organizations. Mr. Cosgrove is eminently qualified to be a Director of Servotronics, Inc. because of his wide range of experience, excellent reputation and demonstrated competency in addressing complex challenges leading to significant opportunities and conclusions.

Lucion P. Gygax, an author, entrepreneur and Major in the Army National Guard, was appointed to the Board of Directors in July 2015 and serves as Chairman of the Company's Independent Directors Committee and a member of the Company's Audit Committee. A decorated military officer, Mr. Gygax is the recipient of the Bronze Star and the Meritorious Service Medal, among other awards, and is a veteran of the Gulf War and the Iraq War. Mr. Gygax brings a diverse background to the board with experience in supply chain management, budget management, human resources and executive leadership. Mr. Gygax is the principal owner and managing partner of an event management company and is the Executive Officer of the Army National Guard's 749th Combat Sustainment Support Battalion where he serves as chief of staff for a battalion of 600 personnel. He has over 25 years of experience in the United States Armed Forces, including prior leadership assignments as a Non-commissioned Officer, Battalion Support Operations Officer, Battalion Human Resources Officer, Battalion Operations Officer, Brigade Transportation Officer, Armor Company Commander and Recruiting Company Commander. Mr. Gygax's leadership experience and achievements qualify him as a Company Director.

Christopher M. Marks was appointed to the Board of Directors in July 2016 and serves as an Independent Director and Chairman of the Company's Audit Committee. Mr. Marks brings over 25 years of financial planning and analysis experience to the Company as well as a background in corporate law and governance. He holds a Bachelor's Degree in Business from Villanova University, a Master of Business Administration from St. Bonaventure University, and a Juris Doctorate with honors from the State University of New York at Buffalo. His extensive experience includes practicing commercial and corporate law at Phillips Lytle, LLP in Buffalo, NY and several years working for the auditing and accounting firm Price Waterhouse in New York City. Mr. Marks is a partner in the financial planning company Jensen, Marks, Langer & Vance (formerly Buffalo Financial Associates), where he provides financial planning advice and investment management services. Additionally, Mr. Marks is a member of the New York State and Erie County Bar Associations, is a past president of the Buffalo Chapter of the Society of Financial Service Professionals, and served on various boards and advisory committees for privately held companies, charities, and educational institutions. Mr. Marks' experience, accomplishments, and financial specialization qualifies him as a Company Director.

Kenneth D. Trbovich has been President of the Company and a Director since 2012. Mr. Trbovich is also President and CEO of the Company's subsidiary, The Ontario Knife Company (OKC). Mr. Trbovich initially joined the Company in 1993 and held positions of increasing responsibilities that led to his current roles. He is listed as co-inventor on multiple patents or patents-pending used by the Company and has extensive project management and business development experience, coordinating Company business in the United States, Taiwan, Singapore, Australia, Germany, England, and other locations around the world. In addition to his positions within the Company, Mr. Trbovich represents OKC on the Board of Regents of the American Knife and Tool Institute, serves on the Board of Trustees for Medaille College, and is a trustee for a private charitable foundation. Mr. Trbovich is a member of the National Association of Corporate Directors and he also maintains Company relationships with industry associations including the Buffalo Niagara Partnership, the National Association of Manufacturers, and the Aerospace Industry Association. He holds undergraduate degrees from Medaille College and Skidmore College in addition to certificates from the State University of New York at Buffalo's School of Management and the University of Rochester's Simon School of Business. Mr. Trbovich's achievements, executive experience, established industry associations, and long tenure with the Company highly qualifies him as a Company Director.

Dr. Nicholas D. Trbovich has been Chairman of the Board, Chief Executive Officer and served as a Director since 1959. As a Founder of the Company, substantial shareholder and the Company's past President, he has managed personally and through delegation the research, development, engineering, manufacturing and administration of the Company as the Company grew and its goals were achieved over the years. He has guided the Company in its transition from being primarily an engineering entity to a Company with expanded manufacturing and new product capabilities. He has been instrumental and successful in obtaining the appropriate corporate financing from banking institutions and the public sale of common shares to meet the Company's increased requirements to support new product design, development and enhanced manufacturing capabilities. The Company's designed and developed products fill key roles in many of the world's well-known aerospace programs such as the Boeing 700 and Airbus 300 Series of commercial jets, Lockheed Martin's F-35, F-18, F-16, F-15 and various other jet fighters, jet transports, helicopters, bombers and the Hubbell Space Telescope. Dr. Trbovich's past and/or current business Directorships include manufacturing companies, banking institutions, professional and other enterprises. An elected Member of the Niagara Frontier Aviation and Space Hall of Fame, he is a holder of patents, recipient of Awards (i.e. Entrepreneur of the Year and other business and/or technical awards), a member of professional associations, a published author and has lectured at various prestigious universities. He received the Distinguished Alumnus Award from the University of Rochester where he earned two Doctorates and an MBA. He has also been awarded Honorary Doctorates from three other colleges. He has held various leadership positions including Chairman of the Board of Trustees for two colleges and past Vice Chairman of the Board for a third college. His collective achievements, broad range of recognitions and continuing dedicated efforts to meet and exceed Company goals highly qualifies him as a Company Director.

The Directors recommend a vote FOR the six nominees listed above. Unless instructed otherwise, proxies will be voted FOR these nominees.

CORPORATE GOVERNANCE AND BOARD MATTERS

Independent Directors

Under the NYSE MKT listing standards, at least 50% of the Company's directors must meet the test of "independence" as defined by the NYSE MKT. The NYSE MKT standards provide that, to qualify as an "independent" director, in addition to satisfying certain bright-line criteria, the Board of Directors must affirmatively determine that a director has no relationship with the Company that would interfere with such person's ability to exercise independent judgment as a member of the Company's Board.

The Board of Directors has determined that each current director and nominee is independent other than Dr. Trbovich, the Company's Chairman of the Board and Chief Executive Officer, Mr. Trbovich, the Company's President and Mr. Cosgrove, whose firm has provided legal services to the Company and its subsidiaries. In determining that Mr. Bear was "independent", the Board considered the fact that the Company and its subsidiaries paid \$69,200 to Full-Throttle Communications, Inc. in 2016 and is under contract to pay Full-Throttle Communications, Inc. \$2,000 per month in 2017 for advertising services.

Committees and Meeting Data

The Board of Directors has a standing Audit Committee and Independent Directors Committee. Each member of each of these committees is "independent" as that term is defined in the NYSE MKT listing standards. The Audit Committee consists of Messrs. Gygax, Hedges and Marks with Mr. Marks chairing the Committee and being designated as the Company's "Audit Committee financial expert". The Audit Committee meets with the Company's Independent Auditors and reviews with them matters relating to corporate financial reporting and accounting procedures and policies, the adequacy of financial, accounting and operating controls, the scope of the audit and the results of the audit. The Audit Committee is also charged with the responsibility of submitting to the Board of Directors any recommendations it may have from time to time with respect to financial reporting and accounting practices, policies and financial accounting and operation controls and safeguards.

The Independent Directors Committee consists of Messrs. Gygax, Hedges and Marks with Mr. Gygax chairing the Committee. The Independent Directors Committee is responsible for reviewing and recommending appropriate executive compensation policy and determining the compensation of the Company's Directors and Executive Officers. The responsibilities of the Independent Directors Committee also include assessing Board membership needs and identifying, screening, recruiting, presenting director candidates to the Board, implementing policies regarding corporate governance matters and making recommendations regarding committee memberships.

Pursuant to Board resolutions, the full Board of Directors approves/ratifies all Director nominees after they are determined by the Independent Directors Committee. See "Director Nominating Process" below. Additionally, Director and Executive Officer compensation determinations are subsequently submitted to the full Board of Directors for approval/ ratification.

During the fiscal year ended December 31, 2016, the Audit Committee met 4 times, the Independent Directors Committee met 3 times and the Board of Directors met 6 times. No Director attended less than 100% of the meetings held during the period that each individual served as a Director. Each Director is encouraged to attend the Annual Meeting of Shareholders. In 2016, the Annual Meeting of Shareholders was attended by five of the six Directors then in office.

Code of Ethics

The Company has adopted a Code of Ethics and Business Conduct (the “Code”) that applies to all Directors, Officers and employees of the Company as required by the listing standards of the NYSE MKT. The Code is available on the Company’s website at www.servotronics.com and the Company intends to disclose on this website any amendment to the Code. Waivers under the Code, if any, will be disclosed under the rules of the SEC and the NYSE MKT.

The Company also has a Whistleblower Policy, which is incorporated into the Code of Ethics and Business Conduct that requires Directors, Executive Officers and employees to comply with appropriate accounting and internal controls and establishes procedures to report any perceived wrongdoing, questionable accounting or auditing matters in a confidential and anonymous manner.

Report of the Audit Committee of the Board of Directors

The following Report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other filing by the Company under the Securities Act of 1933 or the Securities Exchange Act of 1934 except to the extent the Company specifically incorporates this Report by reference therein.

The Audit Committee serves as the representative of the Board of Directors for general oversight of the Company’s financial accounting and reporting, systems of internal control, audit process and monitoring compliance with standards of business conduct. The Audit Committee operates under a written charter which is available on the Company’s website at www.servotronics.com. Management of the Company has primary responsibility for preparing financial statements of the Company as well as the Company’s financial reporting process. Freed Maxick CPAs, P.C. (“Freed Maxick”), acting as Independent Auditors, is responsible for expressing an opinion on the conformity of the Company’s audited financial statements with U.S. generally accepted accounting principles.

In this context, the Audit Committee hereby reports as follows:

1. The Audit Committee has reviewed and discussed the audited financial statements for fiscal year 2016 with the Company’s Management.

- 2.

The Audit Committee has discussed with the Independent Auditors the matters required to be discussed by the Standards of the Public Company Accounting Oversight Board (PCAOB).

The Audit Committee has received the written disclosures and the letter from the Independent Auditors required by 3. PCAOB Ethics and Independence Rule 3526, *Communication with Audit Committees Concerning Independence*, and has discussed with Freed Maxick the matter of that firm's independence.

Based on the review and discussion referred to in paragraphs (1) through (3) above, the Audit Committee approved 4. that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, for filing with the Securities and Exchange Commission.

- 7 -

Each member of the Audit Committee is independent as defined under the listing standards of the NYSE MKT.

AUDIT COMMITTEE

Christopher M. Marks, Chairman

Lucion P. Gygax

Donald W. Hedges, Esq.

Leadership Structure

Dr. Nicholas D. Trbovich is the Company's Chairman of the Board and Chief Executive Officer. The Company believes that having one person hold the roles of Chairman of the Board and Chief Executive Officer is the most effective way at this time to organize the leadership structure of the Board of Directors. Having one person hold the roles of Chairman of the Board and Chief Executive Officer promotes unified leadership and direction for the Board and executive management and it allows for a single and clear focus for the chain of command to execute the Company's strategic initiatives and business plans. Because Dr. Trbovich is primarily responsible for managing the Company's day-to-day operations and strategic plan implementations, he is in the best position to chair meetings of the Board of Directors where key business and strategic issues are discussed.

Another component of our leadership structure is the active role played by non- management and independent Directors in overseeing the Company's business, both at the Board and Committee level. The Board believes that the combined role of Chairman of the Board and Chief Executive Officer coupled with the existence of the independent Directors is the appropriate leadership structure for the Board of Directors at this time. This structure provides sufficient independent oversight while avoiding unnecessary confusion regarding the Board's oversight responsibilities and the day-to-day management of the Company's business operations and strategic plan implementations. The Independent Directors Committee periodically reviews this structure to assess its effectiveness on a continuing basis.

Board Oversight of Risk Management

The Board of Directors oversees the Company's risk management process. This oversight is primarily accomplished through the Board's committees and management's reporting processes. The Company does not have a formal risk committee; however, the Audit Committee focuses on risk related to accounting, internal controls and financial and tax reporting. The Audit Committee also assesses economic and business risks and monitors compliance with ethical standards. The Independent Directors Committee identifies and oversees risks associated with the Company's executive compensation policies and practices, Director independence, related party transactions and the implementation of corporate governance policies.

Director Nominating Process

The determination of the individuals to be nominated for the Board of Directors is made by the Independent Directors Committee. This determination is then subsequently submitted to the full Board of Directors for approval/ratification.

The Board has not adopted specific minimum criteria for director nominees. Nominees are identified by first evaluating the current members of the Board willing to continue in service. Current members of the Board with skills and experience that are relevant to the Company's business and who are willing to continue in service are considered for re-nomination. If any member of the Board does not wish to continue in service, the Board first considers the appropriateness of the size of the Board and then considers factors that it deems are in the best interests of the Company and its shareholders in identifying and evaluating a new nominee. Consistent with the concept of diversity, the Company recognizes the value of having a Board that encompasses a broad range of skills, expertise, contacts, industry knowledge and diversity of opinion.

The Board will consider director nominees from any reasonable source, including nominees suggested by incumbent Board Members and Management as well as Shareholder recommendations tendered in accordance with the Company's advance notice provisions. The Company does not currently employ an executive search firm, or pay a fee to any other third party, to locate qualified candidates for director positions.

Directors' Compensation

The Company's Non-employee Director Compensation Policy was revised effective October 1, 2015. The Board amended and restated the policy on June 10, 2016. Under that policy, Non-employee Directors are paid an annual cash retainer of \$50,000, payable in twelve monthly installments, plus reimbursement of actual expenses for attendance at Board or Committee meetings. The Chairperson of the Audit Committee and the Independent Directors Committee are also paid a \$10,000 annual cash retainer, payable in twelve monthly installments.

The following table contains information with respect to the total compensation paid to the Non-employee Directors for the year ended December 31, 2016.

Name	Fees Earned or Paid in Cash
Edward C. Cosgrove	\$ 33,500

Lucion P. Gygax	\$42,750
Donald W. Hedges	\$37,750
Christopher M. Marks	\$22,500
Rigel D. Pirrone	\$41,236

Shareholder Communications with the Board of Directors

Shareholders who wish to contact the Board of Directors or any of its members may do so by addressing their written correspondence to Board of Directors, 1110 Maple Street, P.O. Box 300, Elma, New York 14059. Correspondence directed to an individual Board member will be referred, if appropriate, to that member. Correspondence not directed to a particular Board member will be referred, if appropriate, to the Chairman of the Independent Directors Committee.

EXECUTIVE OFFICERS

The following is a listing of the Company's current Executive Officers:

Name	Age	Position with the Company and Principal Occupation and Business Experience for Past Five Years
Dr. Nicholas D. Trbovich	81	Founder, Chairman of the Board of Directors; Chief Executive Officer of the Company for more than five years; Also, President of the Company for more than five years before September 2012.
Kenneth D. Trbovich	42	Director of the Company since November 2012; President of the Company since September 2012; Vice President of the Company from 2010-2012.
Lisa F. Bencel	59	Chief Financial Officer since January 16, 2017; Global Controller and Treasurer with kgb for more than five years prior to August 2016.
Salvatore SanFilippo	68	Senior Vice President of the Company since 2010.
James C. Takacs	51	Senior Vice President of the Company since September 21, 2016; Vice President of the Company for more than five years prior to September 2016.

Kenneth D. Trbovich, Director and Executive Officer, is the son of Dr. Nicholas D. Trbovich.

EXECUTIVE COMPENSATION

The Summary Compensation Table quantifies the amount or value of the different forms of compensation earned by or awarded to the Company's Chief Executive Officer, the next two most highly compensated officers of the Company and one additional individual who would have been among the most highly compensated officers, except that she was not serving as an officer at the end of 2016, (the "Named Officers") in fiscal 2016 and 2015 and provides a dollar amount for total compensation. Descriptions of the material terms of the employment agreements with certain Named Officers are provided under "Employment Agreements" below.

The Compensation Process Overview

The Independent Directors Committee functions as the compensation committee of the Board and determines the compensation of the Company's Executive Officers in accordance with the NYSE MKT listing standards. Compensation of the Company's Executive Officers is recommended to the Board for determination by the Independent Directors Committee with the Chief Executive Officer and President playing a supporting role in the compensation-setting process for the Company's other Executive Officers. The most significant aspects of management's role are evaluating employee performance, recommending business performance targets and objectives, and recommending salary levels and other compensation awards, however final compensation determinations for all Executive Officers are approved by the Board upon the recommendation of the Independent Directors Committee.

2016 Base Salary

The Independent Directors Committee seeks to provide the Company's Executive Officers with a level of assured cash compensation in the form of base salary that is commensurate with their professional status, accomplishments and geographic location. The base salaries are reviewed annually by the Independent Directors Committee and are adjusted from time to time to recognize competitive market data, the officer's level of responsibility, outstanding individual performance, promotions and internal equity considerations. For the year ended December 31, 2016, base salary paid to each Named Officer is as set forth in the Summary Compensation Table.

2016 Bonus

The Company may also make cash awards to the Executive Officers and other employees that are not part of any pre-established, performance-based criteria. Awards of this type are completely discretionary and subjectively

determined by the Board upon the recommendation of the Independent Directors Committee at the time they are awarded. In the event this type of cash award is made, it is reflected in the “Summary Compensation Table” under a separate column entitled “Bonus.” For 2016, the final amount of officer bonuses, if any, have not been determined at this time.

Equity Awards

Pursuant to the 2012 Long-Term Incentive Plan, as approved by the Company’s shareholders, the Independent Directors Committee may grant equity awards, the vesting of which may be based on the passage of time, achievement of performance conditions or vesting conditions otherwise determined by the Independent Directors Committee. On April 11, 2016, the Company awarded the following number of restricted shares to the Executive Officers pursuant to the 2012 Long-Term Incentive Plan; Dr. Trbovich 15,000 shares; Mr. Trbovich 15,000 shares; Ms. Jaroslowsky 4,500 shares; Mr. Takacs 3,750 shares; and Mr. San Filippo 3,750 shares. These shares will vest on January 1, 2018. These awards were approved and are reflected in the Summary Compensation Table as 2016 compensation in accordance with the rules of the SEC. Ms. Jaroslowsky forfeited 9,000 unvested shares upon departure from the Company on October 7, 2016.

(1) For 2016, Bonus amounts have not been determined at this time but will be reported on a Current Report on Form 8-K when finally determined.

(2) All Other Compensation for 2016 includes (i) \$4,518 for each of Dr. Trbovich and Mr. Trbovich and \$4,134 for Mr. SanFilippo in connection with the allocation of shares of Common Stock under the Servotronics Inc. Employee Stock Ownership Plan (“ESOP”) valued as of the closing price on November 30, 2016 (the date of allocation); (ii) \$118,054 and \$67,431 for Dr. Trbovich and Ms. Jaroslowsky, respectively, for vacation pay in lieu of time off pursuant to a policy that is generally applicable to all employees of the Company; (iii) \$8,819, \$428, \$3,628 and \$429 for Dr. Trbovich, Mr. Trbovich, Mr. SanFilippo and Ms. Jaroslowsky, respectively, for life insurance; (iv) \$10,205, \$18,439, \$18,787 and \$24,784 for Dr. Trbovich, Mr. Trbovich, Mr. SanFilippo and Ms. Jaroslowsky, respectively, for health insurance premiums and the reimbursement of medical/ health related expenses not covered under the Company’s health insurance plans; (v) \$3,068 for personal use of a company car for Mr. Trbovich; (vi) \$4,500 for each of Dr. Trbovich and Mr. Trbovich, \$1,125 for Mr. SanFilippo and \$1,350 for Ms. Jaroslowsky in dividends on unvested restricted stock awards that were previously granted in 2013 as well as the additional award in 2016 and (vii) a \$90,000 lump sum payment to Ms. Jaroslowsky in connection with her departure pursuant to a Separation Agreement dated October 7, 2016.

Employment Agreements

Dr. Trbovich and Mr. Trbovich have employment agreements with the Company pursuant to which they are entitled to receive minimum salary compensation as set forth in the respective agreement, or such greater amount as the Company's Board of Directors may approve/ratify. On February 26, 2016 the Board of Directors approved base salaries for Dr. Trbovich and Mr. Trbovich of \$613,880 and \$385,000, respectively, per annum. In the event of death or total disability during the term of the employment agreement, he or his estate is entitled to receive 50% of the compensation he is receiving from the Company at the time of his death or disability during the remainder of the term of the employment agreement. Also, in the event of (i) a breach of the agreement by the Company, (ii) a change in control of the Company, as defined, or (iii) a change in the responsibilities, positions or geographic office location, he is entitled to terminate the agreement and receive a payment of 2.99 times their average annual compensation from the Company for the preceding five years. If this provision is invoked and the Company makes the required payment, the Company will be relieved of any further salary liability under the agreement notwithstanding the number of years covered by the agreement prior to termination. The term of the agreement extends to and includes December 31, 2017 for Dr. Trbovich, and December 31, 2019 for Kenneth Trbovich provided however, the term of the agreement will be automatically extended for one additional year beyond its then expiration date unless either party has notified the other in writing that the term will not be extended. If the Company elects not to extend the agreement, he will be entitled to a severance payment equal to nine months' salary and benefits.

The Company provides certain individual and spousal post-retirement health and life insurance benefits for Dr. Trbovich and Kenneth Trbovich. Upon retirement and after attaining at least the age of 65, the Company will pay for the retired executives and dependents health benefits and will continue the Company-provided life insurance offered at the time of retirement. The retiree's health insurance benefits ceases upon the death of the retired executive. The actuarially calculated future obligation of the benefits at December 31, 2016 and 2015 for both Dr. Trbovich and Kenneth Trbovich is \$346,236 and \$260,114 respectively.

On October 7, 2016 the Company entered into an agreement with Cari L. Jaroslowsky, our former Chief Financial Officer, who resigned from the Company effective October 7, 2016 (the "Agreement"). The Agreement provides that, in consideration of the execution and performance of the Agreement by Ms. Jaroslowsky, she will receive a lump-sum payment of \$90,000. As consideration for the above payment, Ms. Jaroslowsky agreed to ordinary and customary provisions regarding confidentiality, cooperation and non-disparagement, and executed a release of any and all claims she may have as a result of her employment with the Company. Ms. Jaroslowsky also is entitled to receive any benefits she has accrued under the Company's Employee Stock Ownership Plan and 401(k) plan.

Certain Relationships and Related Transactions

Kenneth D. Trbovich, Director of the Company, is an inventor or co-inventor of certain issued patents and patent pending applications that are used in the business of a subsidiary of the Company. The patents have been and are currently used by the subject subsidiary on a royalty-free basis with Mr. Trbovich's consent.

- 14 -

Proposed transactions between the Company and a related person are submitted to the Independent Directors Committee for their determinations. In making its determinations, the Independent Directors Committee consider, among other factors, whether the proposed transaction is in the Company's best interest and is on terms no less favorable to the Company than terms generally available from an unaffiliated third-party under the same or similar circumstances and the extent of the related person's interest in the transaction. Also, the Independent Directors Committee may, at its discretion, request an independent appraisal if an independent appraisal has not already been provided. A related party is excluded from participating in the determinations of the Independent Directors Committee.

OWNERSHIP OF COMPANY STOCK

Security Ownership of Certain Beneficial Owners

The following table lists the persons that owned beneficially, as of March 16, 2017, more than 5% of the outstanding shares of Common Stock of the Company, based on the Company's records. Unless otherwise stated, each person has sole voting and investment power with respect to the shares of Common Stock indicated as beneficially owned by that person.

Name and Address of Beneficial Owner	Amount and Nature of Beneficial Ownership	Percent of Class (1) %
Servotronics, Inc. Employee Stock Ownership Trust (2) 1110 Maple Street P.O. Box 300 Elma, New York 14059	550,487	(2) 22.61 %
Dr. Nicholas D. Trbovich (3) 1110 Maple Street P.O. Box 300 Elma, New York 14059	504,210	(3) 20.71 %
Harvey Houtkin (4) 160 Summit Avenue Montvale, New Jersey 07645	352,088	(4) 14.46 %
FMR LLC (5) 245 Summer Street Boston, Massachusetts 02210	163,256	(5) 6.71 %

- (1) Percent of class is based upon 2,434,449 shares of Common Stock outstanding as of March 16, 2017.

The Trustees of the Servotronics, Inc. Employee Stock Ownership Trust (the “ESOT”) — Dr. Nicholas D. Trbovich and Kenneth D. Trbovich — direct the voting of unallocated shares. The participants in the related plan have the right to (2) direct the voting of shares which have been allocated to their respective accounts; if a participant does not direct the vote, the Trustees may direct the vote of that participant’s shares. As of March 16, 2017, approximately 410,195 shares are allocated to the accounts of participants and approximately 140,292 shares remain unallocated.

- 15 -

This amount includes (i) 19,809 shares held by a charitable foundation for which Dr. Trbovich serves as a Trustee (ii) 15,000 shares of restricted stock that has not yet vested and (iii) approximately 38,573 shares allocated to Dr. (3) Trbovich's account under the ESOT. These amounts do not include the shares beneficially owned by certain of Dr. Trbovich's other relatives. Also, except as set forth in this note (3), does not include shares held by the ESOT as to which Dr. Trbovich serves as one of the two Trustees. See note (2) above.

This information is based on a statement on Schedule 13D, as last amended on February 12, 2004, filed by Mr. Houtkin with the Securities and Exchange Commission. According to Mr. Houtkin's statement, he had sole voting (4) and investment power with respect to 190,000 shares and shared voting and investment power with respect to 162,088 shares. Mr. Houtkin disclaimed beneficial ownership in additional shares owned by other members of his family. The Company has received no further information from Mr. Houtkin or on his behalf.

According to a Schedule 13G filed by FMR LLC with the SEC on February 13, 2015, as of December 31, 2014, Fidelity Management & Research Company, a wholly-owned subsidiary of FMR LLC, is the beneficial owner of 163,256 shares of our common stock, as a result of acting as an investment adviser to various investment companies registered under the Investment Company Act of 1940. Edward C. Johnson 3d, Chairman of FMR LLC, Abigail P. Johnson, Director, Vice Chairman, Chief Executive Officer and President of FMR LLC and FMR LLC, (5) through its control of Fidelity Management & Research Company and the funds, each has sole power to dispose of the 163,256 shares of our common stock owned by such funds. The ownership of one investment company, Fidelity Low-Priced Stock Fund, amounted to 158,000 shares of our common stock. Neither FMR LLC nor Edward C. Johnson 3d nor Abigail P. Johnson has the sole power to vote or direct the voting of the shares owned directly by such funds, which power resides with the funds' Boards of Trustees. Fidelity Management & Research Company carries out the voting of the shares under written guidelines established by the funds' Boards of Trustees.

Security Ownership of Management

The following table sets forth, as of March 16, 2017 information as to the beneficial ownership of shares of Common Stock of the Company held by each Director, Named Officer and by all Directors and Officers as a group:

Name of	Amount and Nature of	Percent of
Beneficial Owner	Beneficial Ownership	Class (1)
Dr. Nicholas D. Trbovich	504,210	(2) 20.71 %
Kenneth D. Trbovich	57,956	(3) 2.38 %

Christopher M. Marks	-	-
Rigel D. Pirrone	-	-
All Directors and Officers as a group	785,722	(5) 32.28 %

(1) Percent of class is based upon 2,434,449 shares of Common Stock outstanding as of March 16, 2017.

(2) See note (5) below and note (3) to the table in “Security Ownership of Certain Beneficial Owners”.

This amount includes (i) 4,955 shares allocated to Mr. Trbovich’s account under the ESOT and (ii) 15,000 shares of (3) restricted stock that has not yet vested. Except as set forth in the preceding sentence, does not include shares held by the ESOT as to which Mr. Trbovich serves as one of the Trustees. See Note (5) below.

(4) This amount includes (i) 7,180 shares allocated to Mr. SanFilippo’s account under the ESOT and (ii) 3,750 shares of restricted stock that has not yet vested.

See notes (2) through (4) above. Also includes (i) shares owned by James C. Takacs, Senior Vice President and (ii) (5) unallocated shares held by the ESOT over which certain officers, as Trustees of the ESOT, may be deemed to have voting power, as well as shares allocated to the accounts of all Officers as a group under the related plan. See the table in “Security Ownership of Certain Beneficial Owners” and note (2) thereto.

Section 16(a) Beneficial Ownership Reporting Compliance

Based solely on its review of reports filed pursuant to Section 16(a) of the Securities Exchange Act or representations from Directors and Executive Officers required to file such reports, the Company believes that all such filings required of its Executive Officers and Directors and greater than 10% beneficial owners (subject to the qualifications in the following sentence) were timely made for 2016. The Company does not have information with respect to the reporting compliance of Mr. Houtkin or on his behalf.

PROPOSAL 2:

RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Freed Maxick CPAs, P.C. (“Freed Maxick”) has been selected by the Board of Directors as the independent public accountants for the Company’s current fiscal year. A representative of Freed Maxick is expected to be present at the meeting with the opportunity to make a statement if he desires to do so and will be available to respond to appropriate questions of shareholders.

At the Annual Meeting, the shareholders will be asked to ratify the selection of Freed Maxick as the Company’s independent registered public accounting firm. Pursuant to the rules and regulations of the Securities and Exchange Commission, the Audit Committee has the direct responsibility to appoint, retain, fix the compensation and oversee the work of the Company’s independent registered public accounting firm. In the event that the shareholders fail to ratify the selection, it will be considered as a direction to the Board of Directors and the Audit Committee to consider the selection of a different firm. Even if the selection is ratified, the Audit Committee in its discretion may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and our shareholders.

The affirmative vote of a majority of the votes cast on the proposal, assuming a quorum is present at the Annual Meeting, is required to ratify the appointment of Freed Maxick. The Directors of the Company unanimously recommend a vote “FOR” the ratification of Freed Maxick as the Company’s independent registered public accounting firm for 2017. Unless otherwise instructed, proxies will be voted “FOR” ratification of the appointment of Freed Maxick.

The following table shows the fees paid or accrued by the Company for the audit and other services provided by Freed Maxick CPAs, P.C. for fiscal years 2016 and 2015.

	2016	2015
Audit Fees (1)	\$103,250	\$102,500
Tax Service Fees (2)	39,500	51,300
Total	\$142,750	\$153,800

(1) Audit fees represent fees for professional services provided in connection with the audit of the Company’s financial statements and review of the Company’s quarterly financial statements.

- (2) Tax service fees principally included fees for tax preparation and tax consulting services.

The Audit Committee pre-approves audit and non-audit services provided by Freed Maxick. The Audit Committee has considered whether provision of the services described above is compatible with maintaining our accountant's independence and has determined that such services have not adversely affected Freed Maxick's independence.

Notes to Consolidated Financial Statements

March 31, 2015

(Unaudited)

Note 1. Organization

Company Organization and Operations

The Company operates as a self-administered and self-managed REIT that seeks to generate and deliver sustainable and attractive returns for stockholders by investing primarily in and managing a portfolio of single-tenant, operationally essential real estate throughout the United States that is generally leased on a long-term, triple-net basis predominantly to tenants operating within retail, office and industrial property types. Single tenant, operationally essential real estate generally refers to free-standing, commercial real estate facilities where tenants conduct activities that are essential to the generation of their sales and profits.

The Company's operations are carried out through the Operating Partnership. OP Holdings, one of the Corporation's wholly-owned subsidiaries, is the sole general partner and owns 1.0% of the Operating Partnership. The Corporation and a wholly-owned subsidiary are the only limited partners and together own the remaining 99.0% of the Operating Partnership.

As of March 31, 2015, our undepreciated gross investment in real estate and loans totaled approximately \$8.22 billion, representing investments in 2,547 properties, including properties securing mortgage loans made by the Company. Of this amount, 98.7% consisted of our gross investment in real estate, representing ownership of 2,402 properties, having a gross investment of \$8.12 billion, and the remaining 1.3% consisted of commercial mortgage loans receivable, having a gross investment of \$107.4 million, secured by the remaining 145 properties or other related assets.

Recent Developments

2015 Credit Facility

On March 31, 2015, the Operating Partnership entered into a new \$600.0 million unsecured Credit Agreement with various lenders with an initial term that expires on March 31, 2019 (extendable at the Operating Partnership's option to March 31, 2020, subject to certain requirements). The 2015 Credit Facility initially bears interest at a borrowing margin of LIBOR plus 1.70% and replaces the Operating Partnership's previous secured \$400.0 million revolving credit facility. The Credit Agreement includes an accordion feature to increase the size of the 2015 Credit Facility to up to \$1.0 billion, subject to satisfying certain requirements and obtaining additional lender commitments.

ATM Program Activity

During the three months ended March 31, 2015, the Corporation sold 6.6 million shares of its common stock having aggregate gross proceeds of \$79.8 million and aggregate net sales proceeds of \$78.6 million under its ATM Program.

Acquisitions and Dispositions

During the three months ended March 31, 2015, the Company purchased 53 properties, representing an aggregate gross investment in real estate properties of \$265.5 million, which includes \$0.2 million in revenue producing capital expenditures in existing properties. During the same period, the Company sold 15 properties for \$77.2 million in gross sales proceeds. See Note 4 for additional discussion of the Company's investments.

Note 2. Restatement

The restatement of the Company's consolidated financial statements results from the Company's subsequent accounting for goodwill resulting from the Cole II Merger. Previously, the Company did not allocate goodwill to the

disposal of real estate assets or held for sale real estate assets that met the definition of a business under GAAP, as required by ASC 350 “Intangibles - Goodwill and Other” in order to determine gain on disposition of assets or impairments, if any, respectively.

SPIRIT REALTY CAPITAL, INC.

Notes to Consolidated Financial Statements - (continued)

(Unaudited)

For the disposal of real estate assets that constituted a business, goodwill and gain on disposition of assets both should have been reduced by the proportionate amount of goodwill allocated to each disposed of real estate asset. The amount of goodwill allocated is derived as the proportionate fair value of the real estate considered to be a business under GAAP at the time of sale to the fair value of the Company's reporting unit. As a result, the restated consolidated balance sheet includes a reduction to goodwill of \$7.8 million at March 31, 2015 and the restated consolidated statement of operations includes a reduction to gain on disposition of assets of \$2.2 million for the three months ended March 31, 2015. The restated consolidated balance sheet includes a reduction to goodwill of \$5.6 million at December 31, 2014 and the restated consolidated statement of operations includes a reduction to gain on disposition of assets of \$0.2 million for the three months ended March 31, 2014.

Further, in evaluating the impairment on held for sale real estate assets considered to be a business under GAAP, the proportionate amount of goodwill attributable to the real estate asset held for sale should be considered in determining the amount of impairment, if any. The amount of goodwill attributed is derived as the proportionate fair value of the real estate asset considered to be a business under GAAP held for sale at measurement date to the fair value of the Company's reporting unit. As a result, the restated consolidated balance sheet includes a reduction to real estate assets held for sale, net of \$1.4 million at March 31, 2015 and the restated consolidated statement of operations includes an increase to impairments of \$0.6 million for the three months ended March 31, 2015. The restated consolidated balance sheet includes a reduction to real estate assets held for sale, net of \$0.9 million at December 31, 2014 and the restated consolidated statement of operations includes an increase to impairments of \$0.2 million for the three months ended March 31, 2014.

The Company has historically presented share repurchases as treasury stock (thereby reducing stockholders' equity) in the consolidated balance sheets and consolidated statements of stockholders' equity. However, the Company is incorporated in Maryland and under Maryland law, there is no concept of treasury stock. Therefore, shares repurchased should be considered retired and constitute authorized but unissued shares rather than treasury stock as previously presented. As a result, during the three months ended March 31, 2015, the Company has corrected the classification error and the amount previously reported as treasury stock of \$4.9 million at December 31, 2014 is presented as a reduction to common stock and an increase in accumulated deficit in the restated consolidated balance sheet and consolidated statement of stockholders' equity. In addition, the number of shares previously disclosed as issued has been reduced by the number of shares repurchased of 473,599 at December 31, 2014. This change does not affect previously disclosed shares outstanding, total stockholders' equity or earnings per share computations. The consolidated financial statements included in this Form 10-Q/A have been restated as of March 31, 2015 and for the three months then ended to reflect the adjustments described above. The consolidated financial statements included in this Form 10-Q/A have been restated as of December 31, 2014 and for the three months ended March 31, 2014 to reflect the adjustments described above. The following statements present the effect of the restatement on (i) the Company's consolidated balance sheets at March 31, 2015 and December 31, 2014, (ii) the Company's consolidated statements of operations for the three months ended March 31, 2015 and 2014 and (iii) the Company's consolidated statements of cash flows for the three months ended March 31, 2015 and 2014. The Company did not present a summary of the effect of the restatement on the consolidated statement of stockholders' equity for any of the above referenced periods because the impact to stockholders' equity is reflected below in the restated consolidated balance sheets. The Company did not present a summary of the effect of the restatement on the consolidated statements of comprehensive income for any of the above referenced periods because the impact to net income is reflected below in the restated consolidated statements of operations and the restatement adjustments did not affect any other component of comprehensive income.

Note 3. Summary of Significant Accounting Policies

Basis of Accounting and Principles of Consolidation

The accompanying unaudited consolidated financial statements of the Company have been prepared pursuant to the rules and regulations of the SEC. In the opinion of management, the unaudited consolidated financial statements include the normal, recurring adjustments necessary for a fair statement of the information required to be set forth therein. The results for interim periods are not necessarily indicative of the results for the entire year. Certain information and note disclosures, normally included in financial statements prepared in accordance with GAAP, have been condensed or omitted from these statements pursuant to SEC rules and regulations and, accordingly, these financial statements should be read in conjunction with the Company's audited consolidated financial statements as filed with the SEC in its Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

The unaudited consolidated financial statements include the accounts of the Corporation and its wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. The Company has formed numerous special purpose entities to acquire and hold real estate encumbered by indebtedness (see Note 5). As a result, the majority of the Company's consolidated assets are held in these wholly-owned special purpose entities. Each special purpose entity is a separate legal entity and is the sole owner of its assets and responsible for its liabilities. The assets of these special purpose entities are not available to pay, or otherwise satisfy obligations to, the creditors of any owner or affiliate of the special purpose entity. At March 31, 2015 and December 31, 2014, net assets totaling \$5.2 billion and \$5.7 billion, respectively, were held, and net liabilities totaling \$3.6 billion and \$3.8 billion, respectively, were owed by these special purpose entities and are included in the accompanying consolidated balance sheets.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although management believes its estimates are reasonable, actual results could differ from those estimates.

Reclassifications

Certain reclassifications have been made to prior period balances to conform to the current period presentation. During the quarter ended March 31, 2015, the Company elected to early adopt ASU 2015-03 described below. Under the ASU, capitalized deferred financing costs, previously recorded in deferred costs and other assets on the consolidated balance sheet, are presented as a direct deduction from the carrying amount of the debt liability these costs relate to and retrospectively applied to prior periods. As of December 31, 2014, unamortized deferred financing costs of approximately \$48.7 million was previously presented in deferred costs and other assets, net on the consolidated balance sheet. Of the \$48.7 million, \$46.3 million is now presented as a reduction of debt as of December 31, 2014. The remaining \$2.3 million continues to be included in deferred costs and other assets, net as it relates to the revolving credit facilities.

Segment Reporting

The Company views its operations as one segment, which consists of net leasing operations. The Company has no other reportable segments.

Real Estate Investments

Purchase Accounting and Acquisition of Real Estate - When acquiring a property for investment purposes, the Company allocates the purchase price (including acquisition and closing costs) to land, building, improvements, and equipment based on their relative fair values. For properties acquired with in-place leases, the Company allocates the purchase price of real estate to the tangible and intangible assets and liabilities acquired based on their estimated fair values, and acquisition costs are expensed as incurred. In making estimates of fair values for this purpose, the Company uses a number of sources, including independent appraisals and information obtained about each property as a result of its pre-acquisition due diligence and its marketing and leasing activities.

Lease Intangibles - Lease intangibles, if any, acquired in conjunction with the purchase of real estate represent the value of in-place leases and above- or below-market leases. For real estate acquired subject to existing lease agreements, in-place lease intangibles are valued based on the Company's estimates of costs related to tenant acquisition and the carrying costs that would be incurred during the time it would take to locate a tenant if the property were vacant, considering current market conditions and costs to execute similar leases at the time of the acquisition, and are amortized on a straight-line basis over the remaining initial term of the related lease. Above- and below-market lease intangibles are recorded based on the present value of the difference between the contractual amounts to be paid pursuant to the leases at the time of acquisition of the real estate and the Company's estimate of current market lease rates for the property, measured over a period equal to the remaining initial term of the lease. Capitalized above-market lease intangibles are amortized over the remaining initial terms of the respective leases as a decrease in rental revenue. Below-market lease intangibles are amortized as an increase in rental revenue over the remaining initial terms of the respective leases plus any fixed-rate renewal periods on those leases. Should a lease terminate early, the unamortized portion of any related lease intangible is immediately recognized in the Company's consolidated statements of operations.

Allowance for Doubtful Accounts

The Company reviews its rent and other tenant receivables for collectability on a regular basis, taking into consideration the tenant's payment history, the financial condition of the tenant, business conditions in the industry in which the tenant operates, and economic conditions in the area in which the tenant operates. The Company provided for reserves for uncollectible amounts totaling \$9.2 million and \$8.4 million at March 31, 2015 and December 31, 2014, respectively, against accounts receivable balances of \$22.4 million and \$21.3 million, respectively; receivables are recorded within deferred costs and other assets, net in the accompanying consolidated balance sheets.

For deferred rental revenues related to the straight-line method of reporting rental revenue, the collectability review includes management's estimates of amounts that will not be realized and an assessment of the risks inherent in the portfolio, giving consideration to historical experience and industry default rates for long-term receivables. The Company established a provision for losses of \$9.0 million and \$10.9 million at March 31, 2015 and December 31, 2014, respectively, against deferred rental revenue receivables of \$50.7 million and \$48.3 million, respectively.

Loans Receivable

Impairment and Allowance for Loan Losses - The Company periodically evaluates the collectability of its loans receivable, including accrued interest, by analyzing the underlying property-level economics and trends, collateral value and quality, and other relevant factors in determining the adequacy of its allowance for loan losses. A loan is determined to be impaired when, in management's judgment based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. Specific allowances for loan losses are provided for impaired loans on an individual loan basis in the amount by which the carrying value exceeds the estimated fair value of the underlying collateral less disposition costs. Delinquent loans

receivable are written off against the allowance when all possible means of collection have been exhausted. There was no allowance for loan losses at March 31, 2015 or December 31, 2014.

A loan is placed on nonaccrual status when the loan has become 60 days past due, or earlier if management determines that full recovery of the contractually specified payments of principal and interest is doubtful. While on nonaccrual status, interest income is recognized only when received. As of March 31, 2015 and December 31, 2014, there were no mortgages or notes on nonaccrual status.

⁽¹⁾ Funds held in reserve by lenders which, at their sole discretion, can be applied to the repayment of debt. Any funds remaining on deposit after the debt is paid in full are released to the borrower.

⁽²⁾ Deposits held on collateral properties by lenders that are reserved to fund tenant improvements, repairs and leasing commissions incurred to secure a new tenant.

⁽³⁾ Proceeds from the sale of assets within the Spirit Master Funding Program, which are held on deposit as collateral until a qualifying substitution is made.

⁽⁴⁾ Includes net sales proceeds from property dispositions that can be released upon qualified re-investment from 1031 Exchanges.

⁽⁵⁾ Funds held in lender controlled accounts generally used to meet future debt service or certain property operating expenses.

⁽⁶⁾ Funds held in lender controlled accounts released within the following month after debt service requirements are met.

A significant amount of these reserves were established in connection with obtaining lender consents relating to our IPO during 2012 and the Cole II Merger during 2013.

Income Taxes

The Company has elected to be taxed as a REIT under the Code. As a REIT, the Company generally will not be subject to federal income tax provided it continues to satisfy certain tests concerning the Company's sources of income, the nature of its assets, the amounts distributed to its stockholders, and the ownership of Company stock. Management believes the Company has qualified and will continue to qualify as a REIT and therefore, no provision has been made for federal income taxes in the accompanying consolidated financial statements. Even if the Company qualifies for taxation as a REIT, it may be subject to state and local income and franchise taxes, and to federal income

tax and excise tax on its undistributed income.

Franchise taxes are included in general and administrative expenses on the accompanying consolidated statements of operations. Taxable income from non-REIT activities managed through the Company's taxable REIT subsidiary is subject to federal, state, and local taxes, which are not material.

New Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the FASB or the SEC that are adopted by the Company as of the specified effective date. Unless otherwise discussed, these new accounting pronouncements entail technical corrections to existing guidance or affect guidance related to specialized industries or entities and therefore will have minimal, if any, impact on the Company's financial position or results of operations upon adoption.

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs, which requires that deferred financing costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts or premiums. The amendments in this ASU are effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years.

Note 4. Investments

Real Estate Investments

As of March 31, 2015, the Company's gross investment in real estate and loans totaled approximately \$8.22 billion, representing investments in 2,547 properties, including 145 properties securing mortgage loans. The gross investment is comprised of land, buildings, lease intangible assets and lease intangible liabilities, as adjusted for any impairment, and the carrying amount of loans receivable, real estate assets held under direct financing leases and real estate assets held for sale. The portfolio is geographically dispersed throughout 49 states with only one state, Texas, with an 11.9% investment, accounting for more than 10% of the total dollar amount of the Company's investment portfolio.

The properties that the Company owns are leased to tenants under long-term operating leases that typically include one or more renewal options. The leases are generally triple-net, which provides that the lessee is responsible for the payment of all property operating expenses, including property taxes, maintenance and repairs, and insurance costs. Therefore, the Company is generally not responsible for repairs or other capital expenditures related to its properties, unless the property is not subject to a lease agreement.

During the three months ended March 31, 2015, the Company had the following real estate and loan activity, net of accumulated depreciation and amortization, as restated:

(1) Includes investments of \$0.2 million in revenue producing capitalized expenditures, as well as \$0.2 million of non-revenue producing capitalized maintenance expenditures. Capitalized maintenance expenditures are not included in the Company's gross investments in real estate disclosed elsewhere.

(2) The total accumulated depreciation and amortization associated with these dispositions of real estate was \$12.5 million.

(3) During the three months ended March 31, 2015, the Company sold 6 properties for \$39.4 million under 1031 Exchanges of which \$32.5 million of this amount was used to partially fund 4 property acquisitions.

(4) At March 31, 2015 and December 31, 2014, 42 and 37, respectively, of the Company's properties were vacant, not subject to a lease and in the Company's possession; of this amount 14 and 8, respectively, of these properties were held for sale.

Because lease renewal periods are exercisable at the option of the lessee, the preceding table presents future minimum lease payments due during the initial lease term only. In addition, the future minimum rentals do not include any contingent rentals based on a percentage of the lessees' gross sales or lease escalations based on future changes in the CPI or other stipulated reference rate.

Certain of the Company's leases contain tenant purchase options. Most of these options are at or above fair market value at the time the option is exercisable, and none of these purchase options represent bargain purchase options.

⁽¹⁾ The effective interest rates include amortization of debt discount, amortization of deferred financing costs and non-utilization fees, where applicable, calculated for the three months ended March 31, 2015 and based on the average principal balance outstanding during the period. The average outstanding principal balance of the Revolving Credit Facilities was not significant during the three months ended March 31, 2015, resulting in an effective interest rate that was not meaningful.

⁽²⁾ Represents the weighted average stated interest rate based on the outstanding principal balance as of March 31, 2015.

⁽³⁾ Represents the weighted average time to maturity based on the outstanding principal balance as of March 31, 2015.

⁽⁴⁾ Variable-rate notes are predominantly hedged with interest rate swaps (see Note 6).

⁽⁵⁾ The Company early adopted ASU 2015-03 requiring deferred financing costs to be presented as a direct deduction from the carrying amount of the related indebtedness.

Revolving Credit Facilities

2015 Credit Facility

On March 31, 2015, the Operating Partnership entered into the Credit Agreement and established a new \$600.0 million unsecured credit facility and terminated its secured \$400.0 million 2013 Credit Facility. The 2015 Credit Facility matures on March 31, 2019 (extendable at the Operating Partnership's option to March 31, 2020, subject to

satisfaction of certain requirements). The 2015 Credit Facility includes an accordion feature to increase the committed facility size to up to \$1.0 billion, subject to satisfying certain requirements and obtaining additional lender commitments. The 2015 Credit Facility includes a \$50.0 million sublimit for swingline loans and up to \$60.0 million available for issuances of letters of credit. Swingline loans and letters of credit reduce availability under the 2015 Credit Facility on a dollar-for-dollar basis.

The 2015 Credit Facility bears interest at LIBOR plus 1.70% based the Company's current leverage grid pricing per annum, with an unused fee of 0.15%. If the Corporation obtains an investment grade rating of its senior unsecured long-term indebtedness of at least BBB- or Baa3 from S&P or Moody's, respectively, the Operating Partnership may make an irrevocable election to change the grid pricing for the 2015 Credit Facility from leverage based to credit rating based pricing. Upon such an event, the 2015 Credit Facility will bear interest at a rate equal to either LIBOR plus 0.875% to 1.55% per annum. In each case, the applicable borrowing margin depends on the credit rating for the Corporation.

If the Corporation obtains an investment grade credit rating from either S&P or Moody's, the Operating Partnership will be required to pay a facility fee in an amount equal to the aggregate revolving credit commitments (whether or not utilized) multiplied by a rate equal to 0.125% to 0.30% per annum, depending on the credit rating for the Corporation.

The Operating Partnership may voluntarily prepay the 2015 Credit Facility, in whole or in part, at any time, without premium or penalty, but subject to applicable LIBOR breakage fees, if any. Payment of the 2015 Credit Facility is unconditionally guaranteed by the Corporation and certain of the existing and future subsidiaries that are not currently securing or anticipated to secure other indebtedness. The 2015 Credit Facility is full recourse to the Operating Partnership and the aforementioned guarantors.

As a result of entering into the 2015 Credit Facility, the Company incurred origination costs of \$3.5 million. These costs are being amortized to interest expense over the remaining initial term of the 2015 Credit Facility.

As of March 31, 2015, \$170.0 million was outstanding and \$430.0 million of borrowing capacity was available under the 2015 Credit Facility. The Operating Partnership's ability to borrow under the 2015 Credit Facility is subject to ongoing compliance with a number of customary financial covenants and other customary affirmative and negative covenants. As of March 31, 2015, the Corporation and the Operating Partnership were in compliance with these financial covenants.

2013 Credit Facility

On March 31, 2015, the secured 2013 Credit Facility was terminated and its outstanding borrowings were repaid with proceeds from the 2015 Credit Facility. Properties securing this facility became unencumbered upon its termination. The 2013 Credit Facility's borrowing margin was LIBOR plus 2.50% based on the Company's current leverage grid pricing per annum, with an unused fee of 0.35%. Upon terminating the 2013 Credit Facility, the Company recognized debt extinguishment costs of \$2.0 million, resulting from the write-off of unamortized deferred financing costs.

Line of Credit

A special purpose entity indirectly owned by the Corporation has access to a \$40.0 million secured revolving line of credit. The initial term of the Line of Credit expires in March 2016, and each advance under the Line of Credit has a 24-month term. As of March 31, 2015, \$15.1 million was outstanding on the Line of Credit under three separate advances and secured by three properties. Outstanding advances under the Line of Credit incurred a weighted average effective interest rate of 3.89% during the three months ended March 31, 2015. The weighted average stated rate as of March 31, 2015 was 3.58%. The ability to borrow under the Line of Credit is subject to the Operating Partnership and special purpose entity's ongoing compliance with a number of customary financial covenants. As of March 31, 2015, the Operating Partnership and, if applicable, the special purpose entity were in compliance with these financial covenants.

Master Trust Notes

The Company has access to an asset-backed securitization platform, the Spirit Master Funding Program, to raise capital through the issuance of non-recourse net-lease mortgage notes collateralized by commercial real estate, net-leases and mortgage loans. The Spirit Master Funding Program consists of two separate securitization trusts,

Master Trust 2013 and Master Trust 2014, each of which have one or multiple bankruptcy-remote, special purpose entities as issuers or co-issuers of the notes. Each issuer is an indirect wholly-owned subsidiary of the Corporation.

⁽¹⁾ The effective interest rates include amortization of debt discount and amortization of deferred financing costs calculated for the three months ended March 31, 2015 based on the average principal balance outstanding during the period.

⁽²⁾ Represents the individual series stated interest rate as of March 31, 2015 and the weighted average stated rate of the total Master Trust Notes, based on the collective series outstanding principal balances as of March 31, 2015.

As of March 31, 2015, the Master Trust 2014 notes were secured by 963 properties, including 82 properties securing mortgage loans issued by five indirect wholly-owned subsidiaries of the Corporation. The notes issued under Master Trust 2014 are cross-collateralized by the assets of all issuers within this trust. As of March 31, 2015, the Master Trust 2013 notes were secured by 313 properties, including 77 properties securing mortgage loans, issued by a single indirect wholly-owned subsidiary of the Corporation.

CMBS

As of March 31, 2015, indirect wholly-owned subsidiaries of the Corporation were borrowers under 163 fixed and 11 variable-rate non-recourse loans which have been securitized into CMBS and are secured by the borrowers' respective

leased properties and related assets. The stated interest rates as of March 31, 2015 for these fixed-rate notes ranged from 3.90% to 8.39%. The stated interest rates as of March 31, 2015 for the variable-rate notes ranged from 2.67% to 3.68%. As of March 31, 2015, these fixed and variable-rate loans were secured by 505 and 123 properties, respectively. The Company entered into interest rate swaps that effectively fixed the interest rates at approximately 4.55% on a significant portion of the variable-rate debt (see Note 6).

As of March 31, 2015, certain borrowers were in default under the loan agreements relating to four separate CMBS fixed-rate loans where the 12 properties securing the respective loans are no longer generating sufficient revenue to pay the required debt service. The default interest rate on these loans was between 9.52% and 10.88%. Each defaulted borrower is a bankruptcy remote special purpose entity and the sole owner of the collateral securing the loan obligations. As of March 31, 2015, the aggregate principal balance under the defaulted CMBS loans was \$77.4 million, which includes \$4.4 million of interest added to principal. In addition, approximately \$14.0 million of lender controlled restricted cash is being held in connection these loans that may be applied to reduce amounts owed.

Convertible Notes

In May 2014, the Corporation issued \$402.5 million aggregate principal amount of 2.875% convertible notes due in 2019 and \$345.0 million aggregate principal amount of 3.75% convertible notes due in 2021. Interest on the Convertible Notes is payable semiannually in arrears on May 15 and November 15 of each year. The 2019 Notes will mature on May 15, 2019 and the 2021 Notes will mature on May 15, 2021.

The Convertible Notes are convertible only during certain periods and, subject to certain circumstances, into cash, shares of the Corporation's common stock, or a combination thereof. The initial conversion rate applicable to each series is 76.3636 per \$1,000 principal note (equivalent to an initial conversion price of \$13.10 per share of common stock, representing a 22.5% premium above the public offering price). Earlier conversion may be triggered if shares of the Corporation's common stock trade higher than the established thresholds, if the Convertible Notes trade below established thresholds, or certain corporate events occur.

In connection with the issuance of the Convertible Notes, the Company recorded a discount of \$56.7 million, which represents the estimated value of the embedded conversion feature for each of the Convertible Notes. The discount is being amortized to interest expense using the effective interest method over the term of each of the 2019 Notes and 2021 Notes. As of March 31, 2015, the unamortized discount was \$49.4 million. The discount is shown net against the aggregate outstanding principal balance of the Convertible Notes on the accompanying consolidated balance sheets. The equity component of the conversion feature is recorded in capital in excess of par value in the accompanying consolidated balance sheet, net of financing transaction costs.

In connection with the offering, the Company also incurred \$19.6 million in deferred financing costs. This amount has been allocated on a pro-rata basis to each of the Convertible Notes and is being amortized to interest expense over the term of each note. As of March 31, 2015, the unamortized deferred financing costs relating to the Convertible Notes was \$17.0 million.

Debt Extinguishment

During the quarter ended March 31, 2015, the Company extinguished a total of \$162.8 million aggregate principal amount of senior mortgage indebtedness with a weighted average contractual interest rate of 5.76% and terminated the 2013 Credit Facility. As a result of these transactions, the Company recognized a net loss on debt extinguishment of approximately \$1.2 million.

Debt Maturities

As of March 31, 2015, scheduled debt maturities of the Company's Revolving Credit Facilities, mortgages and notes payable and Convertible Notes, including balloon payments, are as follows (in thousands):

	Scheduled Principal	Balloon Payment	Total
Remainder of 2015 ⁽¹⁾	\$ 22,363	\$ 230,032	\$ 252,395
2016	29,090	284,930	314,020
2017	28,535	816,108	844,643
2018	42,560	248,851	291,411
2019	44,520	622,000	666,520
Thereafter	289,321	1,763,999	2,053,320
Total	\$ 456,389	\$ 3,965,920	\$ 4,422,309

⁽¹⁾ The balloon payment balance in 2015 includes \$77.4 million for the acceleration of principal payable following an event of default under four separate non-recourse CMBS loans.

Amortization of net losses related to interest rate swaps	28	33
Amortization of debt (premium)/discount	476	(929)
Total interest expense	\$57,914	\$54,399

⁽¹⁾ Includes interest expense associated with non-utilization fees of approximately \$0.4 million and \$0.3 million for the three months ended March 31, 2015 and 2014, respectively.

Note 6. Derivative and Hedging Activities

The Company uses interest rate derivative contracts to manage its exposure to changes in interest rates on its variable rate debt. These derivatives are considered cash flow hedges and are recorded on a gross basis at fair value and included in accounts payable, accrued expenses and other liabilities on the accompanying consolidated balance sheets. Assessments of hedge effectiveness are performed quarterly using regression analysis and the measurement of hedge ineffectiveness is based on the hypothetical derivative method. The effective portion of changes in fair value are recorded in AOCL and subsequently reclassified to earnings when the hedged transactions affect earnings. The ineffective portion is recorded immediately in earnings in general and administrative expenses.

The following table summarizes the notional amount and fair value of the Company's derivative instruments (dollars in thousands):

Derivatives Designated as Hedging Instruments	Balance Sheet Location	Notional Amount	Fixed Interest Rate	Effective Date	Maturity Date	Fair Value of Liability	
						March 31, 2015	December 31, 2014

The following tables provide information about the amounts recorded in AOCL, as well as the loss recorded in operations, when reclassified out of AOCL or recognized in earnings immediately, for the three months ended March 31, 2015 and 2014, respectively (in thousands):

	Amount of Loss Recognized in AOCL on Derivative (Effective Portion) Three Months Ended March 31,	
	2015	2014
Derivatives in Cash Flow Hedging Relationships		
Interest rate swaps	\$ (852)	\$ (402)
	Amount of Loss Reclassified from AOCL into Operations (Effective Portion) Three Months Ended March 31,

	Amount of Loss Recognized in Operations on Derivative (Ineffective Portion) Three Months Ended March 31,	
	2015	2014
Location of Loss Recognized in Operations on Derivatives		
General and administrative expense	\$ (4)	\$ —

Approximately \$1.1 million of the remaining balance in AOCL is estimated to be reclassified as an increase to interest expense during the next twelve months. The Company does not enter into derivative contracts for speculative or trading purposes.

The Company is exposed to credit risk in the event of non-performance by its derivative counterparties. The Company believes it mitigates its credit risk by entering into agreements with counterparties it considers credit-worthy. As of March 31, 2015 and December 31, 2014, there were no termination events or events of default related to the interest rate swaps.

Note 7. Stockholders' Equity

ATM Program

During the three months ended March 31, 2015, the Corporation sold 6.6 million shares of its common stock at the weighted average share price of \$12.07 under its ATM Program, for aggregate gross proceeds of \$79.8 million and aggregate net proceeds of \$78.6 million. The ATM Program was not in existence during the first quarter of 2014.

Dividends Declared

For the three months ended March 31, 2015, the Corporation's Board of Directors declared the following dividends:

Declaration Date	Dividend Per Share	Record Date	Total Amount ⁽¹⁾ (in thousands)	Payment Date
March 16, 2015	\$0.17000	March 31, 2015	\$ 71,123	April 15, 2015

⁽¹⁾ Net of estimated forfeitures of approximately \$5,000 for dividends declared on employee restricted stock awards that are reported in general and administrative on the accompanying consolidated statements of operations.

The dividend declared on March 16, 2015 was paid on April 15, 2015 and is included in accounts payable, accrued expenses and other liabilities as of March 31, 2015.

Note 8. Commitments and Contingencies

The Company is periodically subject to claims or litigation in the ordinary course of business, including claims generated from business conducted by tenants on real estate owned by the Company. In these instances, the Company is typically indemnified by the tenant against any losses that might be suffered, and the Company and/or the tenant are typically insured against such claims.

As of March 31, 2015, there were no outstanding claims against the Company that are expected to have a material adverse effect on the Company's financial position, results of operations or cash flows.

As of March 31, 2015, the Company had commitments totaling \$194.7 million, of which \$185.3 million relates to future acquisitions with the remainder to fund improvements on properties the Company currently owns.

Commitments related to acquisitions contain standard cancellation clauses contingent on results of due diligence. All commitments are expected to be funded during fiscal year 2015. In addition, the Company is contingently liable for \$5.7 million of debt owed by one of its tenants and is indemnified by that tenant for any payments the Company may be required to make on such debt.

The Company estimates future costs for known environmental remediation requirements when it is probable that the Company has incurred a liability and the related costs can be reasonably estimated. The Company considers various factors when estimating its environmental liabilities, and adjustments are made when additional information becomes available that affects the estimated costs to study or remediate any environmental issues. When only a wide range of estimated amounts can be reasonably established and no other amount within the range is better than another, the low end of the range is recorded in the consolidated financial statements.

Note 9. Fair Value Measurements

Recurring Fair Value Measurements

The Company's assets and liabilities that are required to be measured at fair value in the accompanying consolidated financial statements are summarized below. The following table sets forth the Company's financial liabilities that were accounted for at fair value on a recurring basis (in thousands):

	Fair Value Hierarchy Level		
	Fair Value Level 1	Level 2	Level 3

December 31, 2014			
Derivatives:			
Interest rate swaps financial liabilities	\$ (1,122)	\$ — (1,122)	\$ —

The interest rate swaps are measured using a market approach, using prices obtained from a nationally recognized pricing service and pricing models with market observable inputs such as interest rates and volatilities. These measurements are classified as Level 2 of the fair value hierarchy.

Nonrecurring Fair Value Measurements

Fair value measurement of an asset on a nonrecurring basis occurs when events or changes in circumstances related to an asset indicate that the carrying amount of the asset is no longer recoverable. The following table sets forth the Company's assets that were accounted for at fair value on a nonrecurring basis (in thousands):

Description	Fair Value	Dispositions	Fair Value Hierarchy Level			Impairment Charges ⁽¹⁾ (Restated)
			Level 1	Level 2	Level 3	
March 31, 2015						
Lease intangible assets	\$ —	\$ —	\$ —	\$ —	\$ —	\$(615)
Long-lived assets held for sale	4,495	—	—	—	4,495	(1,619)
						\$(2,234)
December 31, 2014						
Long-lived assets held and used	\$ 37,278	\$ —	\$ —	\$ —	\$ 37,278	\$(20,679)
Lease intangible assets	10,013	—	—	—	10,013	4,317
Long-lived assets held for sale	65,958	(26,721)	—	—	92,679	(21,653)
						\$(38,015)

⁽¹⁾ Impairment charges are presented for the three months ended March 31, 2015 and for the year ended December 31, 2014.

The fair values of impaired real estate and intangible assets were determined by using the following information, depending on availability, in order of preference: signed purchase and sale agreements or letters of intent; recently quoted bid or ask prices, or market prices for comparable properties; estimates of cash flow, which consider, among other things, contractual and forecasted rental revenues, leasing assumptions, and expenses based upon market conditions; and expectations for the use of the real estate. Based on these inputs, the Company determined that its valuation of the impaired real estate and intangible assets falls within Level 3 of the fair value hierarchy.

Estimated Fair Value of Financial Instruments

Financial assets and liabilities for which the carrying values approximate their fair values include cash and cash equivalents, restricted cash and escrow deposits, and accounts receivable and payable. Generally, these assets and liabilities are short-term in duration and are recorded at cost, which approximates fair value, on the accompanying consolidated balance sheets.

In addition to the disclosures for assets and liabilities required to be measured at fair value at the balance sheet date, companies are required to disclose the estimated fair values of all financial instruments, even if they are not carried at their fair values. The fair values of financial instruments are estimates based upon market conditions and perceived risks at March 31, 2015 and December 31, 2014. These estimates require management's judgment and may not be indicative of the future fair values of the assets and liabilities.

The estimated fair values of the loans receivable, Revolving Credit Facilities, Convertible Notes and the fixed-rate mortgages and notes payable have been derived based on market quotes for comparable instruments or discounted cash flow analyses using estimates of the amount and timing of future cash flows, market rates and credit spreads. The loans receivable, Revolving Credit Facilities, Convertible Notes and mortgages and notes payable were measured using a market approach from nationally recognized financial institutions with market observable inputs such as interest rates and credit analytics. These measurements are classified as Level 2 of the fair value hierarchy. The following table discloses fair value information for these financial instruments (in thousands):

Note 10. Significant Credit and Revenue Concentration

As of March 31, 2015 and December 31, 2014, the Company's real estate investments are leased to 474 and 454 tenants, respectively, which operate within retail, office and industrial property types across various industries throughout the United States. Shopko operates in the general merchandise industry and is the Company's largest tenant as a percentage of total revenue. Total rental revenues from properties leased to Shopko for the three months ended March 31, 2015 and 2014, contributed 12.8% and 14.0% of the Company's total revenues from continuing operations, respectively. No other tenant contributed 5% or more of the Company's total revenues during any of the periods presented. As of March 31, 2015 and December 31, 2014, the combined properties that are operated by Shopko represent approximately 12.3% and 13.1%, respectively, of the Company's total gross investment portfolio.

Note 13. Incentive Award Plan

As of March 31, 2015, 2.0 million shares remained available for award under the Incentive Award Plan.

Restricted Shares of Common Stock

During the three months ended March 31, 2015, the Company granted 0.4 million restricted shares under the Incentive Award Plan to certain officers and employees. The Company recorded \$4.3 million in deferred compensation associated with these grants, which will be recognized in expense over the service period of the awards. As of March 31, 2015, there were approximately 1.3 million unvested restricted shares outstanding.

Performance Share Awards

During the three months ended March 31, 2015, the Compensation Committee of the Board of Directors approved an initial target grant of 236,826 performance shares to certain executive officers of the Company. The performance period of this grant runs from January 1, 2015 through December 31, 2017. Pursuant to the performance share award agreement, each participant is eligible to vest in and receive shares of the Corporation's common stock based on the initial target number of shares granted multiplied by a percentage range between 0% and 250%. The percentage range is based on the attainment of TSR of the Corporation compared to certain specified peer groups of companies during the performance period. In addition, final shares issued under each performance share award entitle its holder to a cash payment equal to the aggregate dividends that were declared during the performance period as if the shares had been issued and outstanding on each dividend record date. Based on the grant date fair value, the Corporation expects to recognize \$3.5 million in compensation expense on a straight-line basis over the requisite service period associated with this market-based grant.

As of March 31, 2015, under each separate annual performance share award, the Corporation's TSR compared to the specified peer groups during the performance periods would have resulted in the release of 1.0 million shares, in the aggregate. In addition, approximately \$0.7 million in dividend rights have been accrued. The projected shares to be released are not considered issued under the Incentive Award Plan until the performance period has ended and the actual number of shares to be released is determined. The performance shares and dividend rights are subject to forfeiture in the event of a non-qualifying termination of a participant prior to the performance period end date.

Stock-based Compensation Expense

For the three months ended March 31, 2015 and 2014, the Company recognized \$3.8 million and \$2.5 million, respectively, in stock-based compensation expense, which is included in general and administrative expenses in the accompanying consolidated statements of operations.

As of March 31, 2015, the remaining unamortized stock-based compensation expense, including amounts relating to the performance share awards, totaled \$16.2 million, which is recognized as the greater of the amount amortized on a straight-line basis over the service period of each applicable award or the amount vested over the vesting periods.

Note 14. Income Per Share

Income per share has been computed using the two-class method. Income per common share under the two-class method is computed by dividing the sum of distributed earnings to common stockholders and undistributed earnings allocated to common stockholders by the weighted average number of common shares outstanding for the period. In applying the two-class method, undistributed earnings are allocated to both common shares and participating securities based on the weighted average shares outstanding during the period. Classification of the Company's unvested restricted stock, which contain rights to receive nonforfeitable dividends, are deemed participating securities under the two-class method. Under the two-class method, earnings attributable to unvested restricted shares are deducted from income from continuing operations in the computation of net income attributable to common stockholders. The table below is a reconciliation of the numerator and denominator used in the computation of basic and diluted income per share, as restated (dollars in thousands):

	Three Months Ended March 31,	
	2015	2014
Basic and diluted earnings:		
Income from continuing operations	\$ 13,185	\$ 9,266
Gain on dispositions of assets	9,151	1,535
Less: income attributable to unvested restricted stock	(209)	(333)
Income used in basic and diluted income per share from continuing operations	22,127	10,468
Income from discontinued operations	227	3,047
Net income attributable to common stockholders used in basic and diluted income per share	\$ 22,354	\$ 13,515
Basic weighted average shares of common stock outstanding:		
Weighted average shares of common stock outstanding	412,195,687	370,535,587
Less: unvested weighted average shares of restricted stock	(1,177,790)	(1,850,645)
Weighted average number of shares outstanding used in basic income per share	411,017,897	368,684,942
Diluted weighted average shares of common stock outstanding: ⁽¹⁾		
Unvested performance shares	598,015	697,638
Stock options	6,524	5,058
Weighted average number of shares of common stock used in diluted income per share	411,622,436	369,387,638
Potentially dilutive shares of common stock		
Unvested shares of restricted stock	457,283	688,348
Total	457,283	688,348

(1) Assumes the most dilutive issuance of potentially issuable shares between the two-class and treasury stock method unless the result would be anti-dilutive.

The Corporation intends to satisfy its exchange obligation for the principal amount of the Convertible Notes to the note holders entirely in cash, therefore, the "if-converted" method does not apply and the treasury stock method is being used. As the Corporation's stock price is below the conversion price, there are no potentially dilutive shares associated with the Convertible Notes.

Note 15. Subsequent Events

On April 14, 2015, the Company completed an underwritten public offering of 23.0 million shares of its common stock, at \$11.85 per share, including 3.0 million shares issued pursuant to the underwriter's option to purchase additional shares. Gross proceeds raised were approximately \$272.6 million; net proceeds were approximately \$268.9 million after underwriter discounts and offering costs paid by the Company. Net proceeds from the common stock offering were used to repay the outstanding balances under the 2015 Credit Facility and Line of Credit. The remaining net proceeds were retained to fund potential future acquisitions and for general corporate purposes.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Restatement

As discussed in the Explanatory Note to this Form 10-Q/A and in Note 2 to the consolidated financial statements included in Part I, Item 1 of this Form 10-Q/A, we are restating our consolidated financial statements and related disclosures for the quarter ended March 31, 2015. The following discussion and analysis of our financial condition and results of operations incorporates the restated amounts. For this reason, the data set forth in this Item 2 may not be comparable to the discussion and data in our previously filed Quarterly Report on Form 10-Q for the quarter ended March 31, 2015.

Special Note Regarding Forward-looking Statements

This quarterly report contains forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. When used in this quarterly report, the words "estimate," "anticipate," "expect," "believe," "intend," "may," "will," "should," "seek," "approximately" or "plan," or the negative of these words and phrases or words or phrases that are predictions of or indicate future events or trends and which do not relate solely to historical matters are intended to identify forward-looking statements. You can also identify forward-looking statements by discussions of strategy, plans or intentions of management.

Forward-looking statements involve numerous risks and uncertainties and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data or methods which may be incorrect or imprecise and we may not be able to realize them. We do not guarantee that the transactions and events described will happen as described (or that they will happen at all). The following risks and uncertainties, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements:

- industry and economic conditions;
- volatility and uncertainty in the financial markets, including potential fluctuations in the CPI;
- our success in implementing our business strategy and our ability to identify, underwrite, finance, consummate, integrate and manage diversifying acquisitions or investments;
- our ability to diversify our tenant base and reduce the concentration of our significant tenant;
- the nature and extent of future competition;
- increases in our costs of borrowing as a result of changes in interest rates and other factors;
- our ability to access debt and equity capital markets;
- our ability to pay down, refinance, restructure and/or extend our indebtedness as it becomes due;
- our ability and willingness to renew our leases upon expiration and to reposition our properties on the same or better terms upon expiration in the event such properties are not renewed by tenants or we exercise our rights to replace existing tenants upon default;
- the impact of any financial, accounting, legal or regulatory issues or litigation that may affect us or our major tenants;
- our ability to manage our expanded operations;
- our ability and willingness to maintain our qualification as a REIT; and
- other risks inherent in the real estate business, including tenant defaults, potential liability relating to environmental matters, illiquidity of real estate investments and potential damages from natural disasters.

The factors included in this quarterly report, including the documents incorporated by reference, and documents we subsequently file with the SEC and incorporate by reference, are not exhaustive and additional factors could adversely affect our business and financial performance. For a discussion of additional risk factors, see the factors included under the caption "Risk Factors" in our most recent Annual Report on Form 10-K. All forward-looking statements are based on information that was available, and speak only, as of the date on which they were made. We assume no obligation to update any forward-looking statement that becomes untrue because of subsequent events, new information or otherwise, except to the extent we are required to do so in connection with our ongoing requirements

under Federal securities laws.

Overview

We are a self-administered and self-managed REIT that primarily invests in single-tenant, operationally essential real estate throughout the United States that is leased on a long-term, triple-net basis to tenants operating within retail, office and industrial property types. Single tenant, operationally essential real estate consists of properties that are generally free-standing, commercial real estate facilities where our tenants conduct activities that are essential to the generation of their sales and profits. In support of our primary business of owning and leasing real estate, we have also strategically originated or acquired long-term, commercial mortgage and other loans to provide a range of financing solutions to our tenants.

Our operations are carried out through the Operating Partnership, a Delaware limited partnership. OP Holdings, one of our wholly owned subsidiaries, is the sole general partner and owns 1.0% of the Operating Partnership. We and one of our wholly-owned subsidiaries are the only limited partners, and together own the remaining 99.0% of the Operating Partnership. Although the Operating Partnership is wholly-owned by us, in the future, we may issue partnership interests in the Operating Partnership to third parties in exchange for property owned by such third parties. In general, any partnership interests in the Operating Partnership issued to third parties would be exchangeable for cash or, at our election, shares of our common stock at specified ratios set when such partnership interests in the Operating Partnership are issued.

We have elected to be taxed as a REIT for federal income tax purposes commencing with our taxable year ended December 31, 2005. We believe that we have been organized and have operated in a manner that has allowed us to qualify as a REIT for federal income tax purposes commencing with such taxable year, and we intend to continue operating in such a manner.

We generate our revenue primarily by leasing our properties to our tenants. As of March 31, 2015, our undepreciated gross investment in real estate and loans totaled approximately \$8.22 billion, representing investments in 2,547 properties, including properties securing our mortgage loans. Of this amount, 98.7% consisted of our gross investment in real estate, representing ownership of 2,402 properties, and the remaining 1.3% consisted primarily of commercial mortgage loans receivable secured by 145 real properties.

As of March 31, 2015, our owned properties were approximately 98.3% occupied (based on number of properties), and our leases had a weighted average non-cancelable remaining lease term (based on total rental revenue) of approximately 10.9 years. Our leases are generally originated with long lease terms, typically non-cancelable initial terms of 15 to 20 years and tenant renewal options for additional years. As of March 31, 2015, approximately 89% of our single-tenant properties (based on total rental revenue) provided for increases in future annual base contractual rent.

2015 Highlights

For the first quarter ended March 31, 2015:

• Recognized revenues of \$162.3 million, a 12.7% increase over the revenues reported in the first quarter of 2014.

• Generated AFFO of \$0.21 per share, FFO of \$0.20 per share, and net income of \$0.05 per share.

• Closed 32 real estate transactions and invested \$265.5 million (including \$0.2 million in follow on investments in existing properties), which added 53 properties to our portfolio, earning an initial cash yield of approximately 7.68% under leases with an average remaining term of 17.2 years.

• Sold 15 properties generating gross proceeds of \$77.2 million, including 5 Shopko properties for approximately \$38.8 million, with an overall gain on sale of \$9.2 million.

• Entered into a new \$600.0 million unsecured credit facility and terminated our \$400.0 million secured credit facility.

• Extinguished \$162.8 million of high coupon debt that had a 5.76% weighted average coupon rate.

• Sold 6.6 million common shares through Spirit's at-the-market program ("ATM"), at an average share price of \$12.07, and generating net proceeds of \$78.6 million.

• Reduced Shopko tenant concentration to 12.8% of total revenues down from 14.0% at December 31, 2014.

• Declared cash dividends for the first quarter of \$0.17 per share, which equates to an annualized dividend of \$0.68 per share.

Maintained essentially full occupancy at over 98%.

Factors that May Influence Our Operating Results

Acquisitions

Our principal line of business is acquiring commercial real estate properties and leasing these properties to our tenants. Our ability to grow revenue and produce superior risk adjusted returns will principally depend on our ability to acquire additional properties that meet our investment criteria at a yield sufficiently in excess of our cost of capital. We primarily focus on opportunities to acquire attractive commercial real estate by providing capital to small and middle-market companies that we conclude have stable and proven operating histories and attractive credit characteristics, but lack the access to capital that large companies often have. Small and middle-market companies are often willing to enter into leases with structures and terms that we consider appealing (such as master leases and leases that require ongoing tenant financial reporting) and that we believe increase the security of rental payments.

Operationally Essential Real Estate with Relatively Long-Term Leases

We seek to own properties that are operationally essential to our tenants, thereby reducing the risk that our tenant would choose not to renew an expiring lease or reject a lease in bankruptcy. In addition, we seek to enter into leases with relatively long terms, typically with non-cancelable initial terms of 15 to 20 years and tenant renewal options for additional terms with attractive rent escalation provisions. As of March 31, 2015, our leases had a weighted average non-cancelable remaining lease term (based on rental revenue) of approximately 10.9 years compared to approximately 10.2 years as of March 31, 2014.

Portfolio Diversification

Our strategy emphasizes a portfolio that (1) derives no more than 10% of its annual rent from any single tenant and no more than 2.5% of its annual rent from any single property, (2) is leased to tenants operating in various industries and (3) is located across the United States without significant geographic concentration.

We believe that our experience, in-depth market knowledge and extensive network of long-standing relationships in the real estate industry will continue to provide us access to an ongoing pipeline of attractive acquisitions. However, because we primarily use external financing to fund acquisitions, periods of volatility in the credit and capital markets that may negatively affect the amounts, sources and cost of capital available to us could force us to limit our acquisition activity. Additionally, to the extent that we access capital at a higher cost (reflected in higher interest rates for debt financing or lower stock price for equity financing), our financial results could be adversely affected.

Our Leases

Rent Escalators

Generally, our single-tenant leases contain contractual provisions increasing the rental revenue over the term of the lease at specified dates by: (1) a fixed amount or (2) the lesser of (a) 1 to 1.25 times any increase in CPI over a specified period or (b) a fixed percentage, typically 1% to 2% per year. The percentage of our single-tenant properties (based on total rental revenue) containing rent escalators increased to approximately 89% as of March 31, 2015 compared to 87% as of March 31, 2014.

Master Lease Structure

Where appropriate, we seek to enter into master leases, pursuant to which we lease multiple properties to a single tenant on an “all or none” basis. We seek to use the master lease structure to prevent a tenant from unilaterally giving up underperforming properties while retaining well-performing properties. Master lease revenue contributed

approximately 46% of our total rental revenues during the month ended March 31, 2015 compared to 43% for the same period in 2014.

Triple-Net Leases

Our leases are predominantly triple-net which require the tenant to pay all property operating expenses such as real estate taxes, insurance premiums and repair and maintenance costs. As of March 31, 2015, approximately 86.5% of our single-tenant properties (based on rental revenue) are subject to triple-net leases compared to 85.1% as of March 31, 2014.

Asset Management

The stability of the rental revenue generated by our properties depends principally on our tenants' ability to 1) pay rent and our ability to collect rent due 2) renew expiring leases or re-lease space upon expiration or other termination 3) lease currently vacant properties and 4) maintain or increase rental rates. Each of these could be negatively impacted by adverse economic conditions, particularly those that affect the markets in which our properties are located, downturns in our tenants' industries, increased competition for our tenants at our property locations, or the bankruptcy of one or more of our tenants. We seek to manage these risks by using our developed underwriting and risk management processes to structure and manage our portfolio.

Active Management and Monitoring of Risks Related to Our Investments

We seek to measure tenant financial distress risk and lease renewal risk through various processes. Many of our tenants are required to provide corporate-level financial information, which includes balance sheet, income statement and cash flow statement data on a quarterly and/or annual basis. Our underwriting and risk management processes are designed to structure new investments and manage existing investments to mitigate tenant credit quality risks and preserve the long-term return on our invested capital. Since our inception, our occupancy has never been below 96.1% (based on number of properties). As of March 31, 2015, the percentage of our properties that were occupied was 98.3% compared to 98.9% as of March 31, 2014.

Following the 2014 restructuring of the Shopko master lease and defeasance of the related secured indebtedness, we have continued our objective to reduce the tenant concentration of Shopko. During the three months ended March 31, 2015, we sold five Shopko properties having a gross investment value of \$38.9 million. These sales, coupled with our increased rental revenue from real estate investments of \$665.0 million during the past two quarters, have reduced our Shopko tenant concentration to 12.8% as of March 31, 2015 compared to 14.0% as of December 31, 2014.

Capital Recycling

We continuously evaluate opportunities for the potential disposition of properties in our portfolio when we believe such disposition is appropriate in view of our business objectives, considering criteria including, but not limited to, tenant concentration, tenant credit quality, unit financial performance, local market conditions and lease rates, associated indebtedness, asset location, tenant operation type (e.g., industry, sector, or concept/brand), and asset zoning, as well as potential capital appreciation, potential uses of proceeds and tax considerations. As part of this strategy, we attempt to enter into 1031 Exchanges, when possible, to defer some or all of the taxable built-in gains on the dispositions, if any, for federal and state income tax purposes.

The timing of any potential dispositions, including the disposition of any Shopko properties, will depend on market conditions and other factors, including but not limited to our capital needs and ability to defer some or all of the taxable gains on the sales. We can provide no assurance that we will dispose of any additional properties or that future acquisitions and/or dispositions, if any, will qualify as 1031 Exchanges. Furthermore, we can provide no assurance that we will deploy the proceeds from future dispositions in a manner that produces comparable or better yields.

Capital Funding

Our principal demands for funds are for property acquisitions, payment of principal and interest on our outstanding indebtedness, operating and property maintenance expenses and distributions to our stockholders. Generally, cash needs for payments of principal and interest, operating and property maintenance expenses and distributions to stockholders will be generated from cash flows from operations, which are primarily driven by the rental income

received from our leased properties, interest income earned on mortgage notes receivable and interest income on our cash balances. We generally temporarily fund the acquisition of real estate utilizing our Revolving Credit Facilities, followed by permanent financing through asset level financing or by issuing debt or equity securities.

Interest Costs

Our fixed-rate debt structure provides us with a stable and predictable cash requirement related to our debt service. Any changes to our debt structure, including borrowings under our 2015 Credit Facility or debt financing associated with property acquisitions, could materially influence our operating results depending on the terms of any such

indebtedness. A significant amount of our debt provides for scheduled principal payments. As principal is repaid, our interest expense decreases. Changing interest rates will increase or decrease the interest expense we incur on unhedged variable interest rate debt and may impact our ability to refinance maturing debt.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with GAAP requires our management to use judgment in the application of accounting policies, including making estimates and assumptions. We base estimates on the best information available to us at the time, our experience and on various other assumptions believed to be reasonable under the circumstances. These estimates affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. If our judgment or interpretation of the facts and circumstances relating to various transactions or other matters had been different, it is possible that different accounting would have been applied, resulting in a different presentation of our consolidated financial statements. From time to time, we re-evaluate our estimates and assumptions. In the event estimates or assumptions prove to be different from actual results, adjustments are made in subsequent periods to reflect more current estimates and assumptions about matters that are inherently uncertain. A summary of our critical accounting policies is included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014 in the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations." We have not made any material changes to these policies during the periods covered by this quarterly report.

Revenues

For the three months ended March 31, 2015, approximately 95.2% of our total revenues was attributable to long-term leases. The year over year increase of 12.7% in total revenue was due primarily to an increase in base rental revenue due to the acquisition of 310 properties, representing an investment in real estate of \$1.08 billion, during the twelve month period ended March 31, 2015 and to a lesser extent, revenue increased through contractual rent escalations within our existing real estate portfolio. This increase was partially offset from the sale of 50 properties during the same period having a gross investment value of \$199.5 million.

Rentals

The year over year increase in rental revenue was primarily attributable to the acquisition of 310 properties representing an investment in real estate of \$1.08 billion during the twelve month period ended March 31, 2015. Non-cash rentals for the three months ended March 31, 2015 and 2014 were \$5.4 million and \$4.6 million, respectively. These amounts represent approximately 3.5% and 3.4% of total rental revenue from continuing operations for each of the three months ended March 31, 2015 and 2014, respectively. Contractual rent escalations subsequent to March 31, 2014 also contributed to the increase.

As of March 31, 2015, 98.3% of our owned properties were occupied (based on number of properties). The majority of our nonperforming properties were in the restaurant and manufacturing industries. As of March 31, 2015 and 2014, 42 and 24 of our properties, representing approximately 1.7% and 1.1%, respectively, of our owned properties were vacant and not generating rent. The increase in the number of vacant properties is primarily attributable to the bankruptcy of two tenants under two master leases comprising sixteen properties within the restaurant and manufacturing industries. Fourteen of our vacant properties were held for sale as of March 31, 2015.

Tenant reimbursement income

We have a number of leases that require our tenants to reimburse us for certain property costs we incur. Tenant reimbursement income is driven by the tenant reimbursable property costs described below.

Expenses

General and administrative

The year over year increase in general and administrative expenses is primarily due to higher compensation and related benefits of \$2.3 million, which includes \$1.2 million of non-cash stock compensation. The increase in compensation and related benefits is primarily attributable to the acceleration of cash and non-cash stock compensation related to the departure of an executive officer during the most recently completed quarter. These increases were partially offset by \$0.5 million in lower professional fees for accounting, tax, audit and consulting and \$0.2 million in lower franchise taxes in the current period.

Property costs

For the three months ended March 31, 2015, property costs were \$7.4 million (including \$4.6 million of tenant reimbursables) as compared to \$5.3 million (including \$3.3 million in tenant reimbursables) for the same period in 2014. The year over year increase in tenant reimbursable property costs is primarily attributable to increased property taxes at certain of our multi-tenant properties. The remainder of the increase is attributable to higher property taxes and utilities due to a rise in the number of vacant properties between periods in addition to property cost recoveries of approximately \$0.5 million during the comparable period in 2014.

Interest

The year over year increase in interest expense is primarily attributable to a \$2.5 million rise in non-cash interest resulting mostly from the amortization of capitalized deferred financing costs of \$30.6 million and debt discounts of \$56.7 million related to debt offerings that occurred during the past twelve months, which are being amortized to interest expense over the term of the instruments. During the twelve months ended March 31, 2015, we borrowed

\$1.26 billion of debt with a weighted average interest rate of 3.69% through our Convertible Notes and series 2014-4 Master Trust Notes offerings, and we extinguished \$746.6 million of indebtedness with a weighted average interest rate of 6.27%. The lower weighted average interest rate partially offset the impact of the increase in our net borrowing amount.

The following table summarizes our interest expense and related borrowings from continuing operations:

	Three Months Ended March 31, 2015 2014 (In Thousands)	
Interest expense – Revolving Credit Facilities ⁽¹⁾	\$803	\$720
Interest expense – mortgages and notes payable	48,408	53,596

Non-cash interest expense:		
Amortization of deferred financing costs	2,072	973
Amortization of net losses related to interest rate swaps	28	33
Amortization of debt (premium)/discount, net	476	(929)
Total interest expense	\$57,914	\$54,399

⁽¹⁾ Includes interest expense associated with non-utilization fees of approximately \$0.4 million and \$0.3 million for the three months ended March 31, 2015 and 2014, respectively.

Depreciation and amortization

Depreciation and amortization expense relates primarily to depreciation on the commercial buildings and improvements we own and amortization of the related lease intangibles. The year over year increase is primarily due to the acquisition of 310 properties, representing an investment in real estate of \$1.08 billion, during the 12 month period ended March 31, 2015. The following table summarizes our depreciation and amortization expense from continuing operations:

	Three Months Ended March 31, 2015 2014 (In Thousands)	
Depreciation of real estate assets	\$53,380	\$47,016
Other depreciation	94	94
Amortization of lease intangibles	12,822	13,439
Total depreciation and amortization	\$66,296	\$60,549

Impairments

Impairment charges for the three months ended March 31, 2015 included \$1.6 million on the impairment of ten properties that were held for sale and \$0.6 million of lease intangible write-offs resulting from lease terminations. For the same period in 2014, impairment charges included \$1.0 million on the impairment of one held for sale property, \$0.8 million on the impairment of 2 vacant restaurants and \$0.1 million of lease intangible write-offs.

Other expense

During the three months ended March 31, 2015, we recorded a loss on debt extinguishment of \$1.2 million recorded in other expense. The amount of aggregate principal indebtedness extinguished was \$162.8 million primarily from property sales encumbered by CMBS debt and other debt prepayments. Approximately \$2.0 million of this loss was attributable to the write-off of unamortized deferred financing costs, partially offset by the net debt premiums on the CMBS debt extinguished. No such items were recognized during the same period in 2014.

Income tax expense

Income tax expense increased approximately \$0.1 million for the three months ended March 31, 2015, as compared to the same period in 2014. The increase was primarily attributable to additional state tax owed on a prior year return.

Gain on dispositions of assets

For the three months ended March 31, 2015, gain on dispositions of assets included \$5.2 million from the sale of 5 Shopko properties and \$2.1 million from the sale of one of our distribution properties. During the same period in 2014, the gain on disposition of assets included \$1.5 million from the sale of one of our restaurant properties.

Property Portfolio Information

Our diverse real estate portfolio at March 31, 2015 consisted of 2,402 owned properties:

- leased to 474 tenants;

- located in 49 states as well as in the U.S. Virgin Islands, with only 4 states contributing more than 5% of our rental revenue;

- operating in 27 different industries;

- with an occupancy rate of 98.3%; and

- with a weighted average remaining lease term of 10.9 years.

Property Portfolio Diversification

The following tables present the diversity of our properties owned at the end of the reporting period. The portfolio metrics are calculated based on the percentage of total revenue or rental revenue as noted. Total revenues and total rental revenue used in the calculations are normalized to exclude revenues contributed by properties sold during the given period.

Diversification By Tenant

The tenant concentration percentage is computed by dividing a tenant's quarterly rental revenue by the Company's normalized total revenues.

The following table lists the top ten tenants of our owned real estate properties as of March 31, 2015:

Lease Expirations

The following table sets forth a summary schedule of expiration dates for leases in place as of March 31, 2015. As of March 31, 2015, the weighted average remaining non-cancelable initial term of our leases (based on total rental revenue) was 10.9 years. The information set forth in the table assumes that tenants exercise no renewal options and/or any early termination rights:

Liquidity and Capital Resources

Short-term Liquidity and Capital Resources

On a short-term basis, our principal demands for funds will be for operating expenses, distributions to stockholders and interest and principal on current and any future debt financings. We expect to fund our operating expenses and other short-term liquidity requirements, capital expenditures, payment of principal and interest on our outstanding indebtedness, property improvements, re-leasing costs and cash distributions to common stockholders, primarily through cash provided by operating activities and borrowings on the 2015 Credit Facility. On March 31, 2015, the Operating Partnership entered into the 2015 Credit Agreement, establishing a \$600.0 million unsecured credit facility and terminated its \$400.0 million secured credit facility previously in place. Our 2015 Credit Facility increases our capacity to fund acquisitions, while continuing to meet our short-term working capital requirements. The Credit Agreement also includes an accordion feature to increase the size of the 2015 Credit Facility to up to \$1.0 billion, subject to satisfying certain requirements and obtaining additional lender commitments. As of March 31, 2015, \$170.0 million was outstanding and \$430.0 million of borrowing capacity was available under the 2015 Credit Facility. We have a shelf registration statement on file with the SEC under which we may issue secured or unsecured indebtedness and equity financing through the instruments and on the terms most attractive to us at such time. During the three months ended March 31, 2015, we sold an aggregate of 6.6 million shares under our ATM Program for net proceeds of \$78.6 million. In addition, subsequent to March 31, 2015, we completed an underwritten public offering of 23.0 million shares of our common stock and raised net proceeds of \$268.9 million. Net proceeds from the common stock offering were used to repay the outstanding balances under the 2015 Credit Facility and Line of Credit. The remaining proceeds were retained to fund potential future acquisitions and for general corporate purposes.

Long-term Liquidity and Capital Resources

We plan to meet our long-term capital needs, including long-term financing of property acquisitions, by obtaining asset level financing, issuing registered debt or equity securities and occasionally by issuing fixed rate secured notes and bonds. We may continue to issue common stock when we believe that our share price is at a level that allows for the proceeds of any offering to be accretively invested into additional properties. In addition, we may issue common stock to permanently finance properties that were financed by our 2015 Credit Facility or other indebtedness. In the future, some of our property acquisitions could be made by issuing partnership interests of our Operating Partnership in exchange for property owned by third parties. These partnership interests would be exchangeable for cash or, at our election, shares of our common stock.

We continually evaluate alternative financing and believe that we can obtain financing on reasonable terms. However, we cannot assure you that we will have access to the capital markets at times and at terms that are acceptable to us. We expect that our primary uses of capital will be for property and other asset acquisitions and the payment of tenant improvements, operating expenses, including debt service payments on any outstanding indebtedness, and distributions to our stockholders.

Description of Certain Debt

Spirit Master Funding Program

The Spirit Master Funding Program is an asset-backed securitization platform in which we raise capital through the issuance of non-recourse net-lease mortgage notes collateralized by commercial real estate, net-leases and mortgage loans. The Spirit Master Funding Program allows us to issue notes that are secured by the assets of the note issuers which are pledged to the indenture trustee for the benefit of the noteholders and managed by the Operating Partnership as property manager. These Collateral Pools consist primarily of commercial real estate properties, the issuers' rights in the leases of such properties and commercial mortgage loans secured by commercial real estate property. In general, monthly rental and mortgage receipts with respect to the leases and mortgage loans are deposited with the indenture trustee who will first utilize these funds to satisfy the debt service requirements on the notes and any fees associated with the administration of the Spirit Master Funding Program. The remaining funds are remitted to the issuers monthly on the note payment date.

In addition, upon satisfaction of certain conditions, the issuers may, from time to time, sell or exchange real estate properties or mortgage loans from the Collateral Pools. Proceeds from the sale of assets within the Collateral Pools are held on deposit by the indenture trustee until a qualifying substitution is made. At March 31, 2015, \$9.7 million was held on deposit and classified as restricted cash within deferred costs and other assets, net in our consolidated balance sheets.

The Spirit Master Funding Program consists of two separate securitization trusts which have one or multiple bankruptcy-remote, special purpose entities as issuers of the Master Trust 2013 and Master Trust 2014 notes. Each issuer is an indirect wholly-owned subsidiary of ours. Notes issued under Master Trust 2014 are cross-collateralized by the assets of all issuers within that trust. All outstanding series of Master Trust Notes were rated investment grade as of March 31, 2015.

The Master Trust Notes are summarized below:

	Effective Interest Rates ⁽¹⁾	Stated Rates ⁽²⁾	Remaining Term (in Years)	March 31, 2015 (in Thousands)	December 31, 2014 (in Thousands)

⁽¹⁾ The effective interest rates include amortization of debt discount and amortization of deferred financing costs calculated for the three months ended March 31, 2015 based on the average principal balance outstanding during the period.

⁽²⁾ Represents the individual series stated interest rate as of March 31, 2015 and the weighted average stated rate of the Master Trust Notes, based on the outstanding principal balances as of March 31, 2015.

As of March 31, 2015, the Master Trust 2014 notes were secured by 963 properties, including 82 properties securing mortgage loans issued by five indirect wholly-owned subsidiaries of the Corporation. The notes issued under Master Trust 2014 are cross-collateralized by the assets of all issuers within this trust. As of March 31, 2015, the Master Trust 2013 notes were secured by 313 properties, including 77 properties securing mortgage loans, issued by a single indirect wholly-owned subsidiary of the Corporation.

Convertible Notes

The Convertible Notes are comprised of two notes with an aggregate principal amount of \$747.5 million at both March 31, 2015 and December 31, 2014. Interest on the Convertible Notes is payable semiannually in arrears on May 15 and November 15 of each year. The 2019 Notes, aggregate principal amount \$402.5 million, accrue interest at 2.875% and are scheduled to mature on May 15, 2019. The 2021 Notes, aggregate principal amount \$345.0 million, accrue interest at 3.75% and are scheduled to mature on May 15, 2021. As of March 31, 2015, the carrying amount of the Convertible Notes was \$681.1 million, which is net of discounts (for the value of the embedded conversion feature) and capitalized deferred financing costs.

Holder may convert notes of either series prior to November 15, 2018, in the case of the 2019 Notes, or November 15, 2020, in the case of the 2021 Notes, only under the following circumstances: (1) if the closing price of our common stock for each of at least 20 trading days (whether or not consecutive) during the last 30 consecutive trading days in the quarter is greater than or equal to 130% of the conversion price for the Convertible Notes; (2) during the five business day period after any 10 consecutive trading day period in which the trading price per \$1,000 principal amount of the Convertible Notes for each trading day of the measurement period was less than 98% of the product of the last closing price of our common stock and the conversion rate for the Convertible Notes; (3) if we call any or all of the Convertible Notes for redemption prior to the redemption date; or (4) upon the occurrence of specified corporate events as described in the Convertible Notes prospectus supplement. On or after November 15, 2018, in the case of the 2019 Notes, or November 15, 2020, in the case of the 2021 Notes, until the close of business on the second scheduled trading day immediately preceding the maturity date of the Convertible Notes, holders may convert the Convertible Notes of the applicable series at any time, regardless of the foregoing circumstances. Upon conversion, we will pay or deliver cash, shares of common stock or a combination of cash and shares of common stock, at our

election.

The initial conversion rate for the Convertible Notes is 76.3636 shares of common stock per \$1,000 principal amount of notes (equivalent to an initial conversion price of approximately \$13.10 per share of common stock). The conversion rate for each series of the Convertible Notes is subject to adjustment for some events including dividends paid in excess

of threshold amounts stipulated in the agreement, but will not be adjusted for any accrued and unpaid interest. If we undergo a fundamental change (as defined), holders may require us to repurchase all or any portion of their notes at a repurchase price equal to 100% of the principal amount of the notes to be repurchased, plus accrued and unpaid interest.

2015 Credit Facility

On March 31, 2015, the Operating Partnership entered into the Credit Agreement establishing a new \$600.0 million unsecured credit facility and terminated its secured \$400.0 million 2013 Credit Facility. The 2015 Credit Facility matures on March 31, 2019 (extendable at the Operating Partnership's option to March 31, 2020, subject to satisfaction of certain requirements). The facility includes an accordion feature to increase the committed size to up to \$1.0 billion, subject to satisfying certain requirements and obtaining additional lender commitments. A \$50.0 million sublimit for swingline loans and up to \$60.0 million for issuances of letters of credit is also available. Swingline loans and letters of credit reduce availability under the 2015 Credit Facility on a dollar-for-dollar basis.

At the election of the Operating Partnership, the 2015 Credit Facility initially bears interest at our current leverage grid pricing equal to either LIBOR plus 1.40% to 1.90% per annum, or a specified base rate plus 0.40% to 0.90% per annum. In each case, the applicable rates depend on our leverage ratio. If the Corporation obtains an investment grade rating of its senior unsecured long-term indebtedness of at least BBB- or Baa3 from S&P or Moody's, respectively, the Operating Partnership may make an irrevocable election to change the grid pricing for the 2015 Credit Facility from leverage based to credit rating based pricing. Upon such an event, the 2015 Credit Facility will bear interest at a rate equal to either LIBOR plus 0.875% to 1.55% per annum. In each case, the applicable borrowing margin depends on the credit rating for the Corporation.

The Operating Partnership is initially required to pay a fee on the unused portion of the 2015 Credit Facility at a rate equal to either 0.15% or 0.25% per annum, based on percentage thresholds for the average daily amount by which the aggregate amount of the revolving credit commitment exceeds the aggregate principal amount of advances during a fiscal quarter. If the Corporation obtains an investment grade credit rating from either S&P or Moody's, the Operating Partnership will instead be required to pay a facility fee in an amount equal to the aggregate revolving credit commitments (whether or not utilized) multiplied by a rate equal to 0.125% to 0.30% per annum, depending on the credit rating for the Corporation.

The Operating Partnership may voluntarily prepay the 2015 Credit Facility, in whole or in part, at any time, without premium or penalty, but subject to applicable LIBOR breakage fees, if any. Payment of the 2015 Credit Facility is unconditionally guaranteed by the Corporation and certain of the existing and future subsidiaries that are not currently securing or anticipated to secure other indebtedness. The 2015 Credit Facility is full recourse to the Operating Partnership and the aforementioned guarantors.

As of March 31, 2015, \$170.0 million was outstanding and \$430.0 million of borrowing capacity was available under the 2015 Credit Facility. Amounts available for borrowing under the 2015 Credit Facility remain subject to compliance with certain customary restrictive covenants including:

- Maximum leverage ratio (defined as consolidated total indebtedness plus the Corporation's pro rata share of indebtedness of unconsolidated affiliates, net of certain cash and cash equivalents, to total asset value) of 0.60:1.00;
- Minimum fixed charge coverage ratio (defined as consolidated earnings before interest, taxes, depreciation and amortization ("EBITDA") plus the Corporation's pro rata share of EBITDA of unconsolidated affiliates, to fixed charges) of 1.50:1.00;
- Maximum secured indebtedness leverage ratio (defined as consolidated secured indebtedness plus the Corporation's pro rata share of secured indebtedness of unconsolidated affiliates, net of certain cash and cash equivalents, to total asset value) of 0.50:1.00;
-

Minimum unsecured interest coverage ratio (defined as consolidated net operating income from unencumbered properties to unsecured interest expense) of 1.75:1.00;

Maximum unencumbered leverage ratio (defined as consolidated unsecured indebtedness plus the Corporation's pro rata share of unsecured indebtedness of unconsolidated affiliates, net of certain cash and cash equivalents, to total unencumbered asset value) of 0.60:1.00; and

- Minimum tangible net worth of at least \$3.01 billion plus 75% of the net proceeds of equity issuances by the Corporation or the Operating Partnership after December 31, 2014.

In addition to these covenants, the Credit Agreement also includes other customary affirmative and negative covenants, such as (i) limitation on liens and negative pledges; (ii) transactions with affiliates; (iii) limitation on mergers, consolidations and sales of all or substantially all assets; (iv) maintenance of status as a REIT and listing on any national securities exchange; and (v) material modifications to organizational documents.

As of March 31, 2015, the Corporation and the Operating Partnership were in compliance with these covenants.
2013 Credit Facility

On March 31, 2015, the 2013 Credit Facility was terminated and its outstanding borrowings of \$130.0 million were repaid with funds drawn on the 2015 Credit Facility. Properties securing this facility became unencumbered upon the termination.

Line of Credit

As of March 31, 2015, \$15.1 million was outstanding on the Line of Credit under three separate advances, secured by three properties, at a weighted average stated rate of 3.58% and a weighted average effective interest rate of 3.89% for the three months ended March 31, 2015. On April 30, 2015, we repaid all amounts outstanding under the Line of Credit, thereby releasing the encumbrances on the properties securing it.

CMBS

We may use long-term, fixed-rate debt to finance our properties on a “match-funded” basis. In such events, we seek to use asset level financing that bears annual interest less than the annual rent on the related lease(s) and that matures prior to the expiration of such lease(s). In general, the obligor of our asset level debt is a special purpose entity that holds the real estate and other collateral securing the indebtedness. Each special purpose entity is a bankruptcy remote separate legal entity, and is the sole owner of its assets and responsible for its liabilities.

As of March 31, 2015, we had 178 loans with approximately \$1.78 billion of outstanding balances under our fixed and variable-rate CMBS loans, with a weighted average contractual interest rate of 5.70% and a weighted average maturity of 3.0 years. Most of this debt is partially amortizing and requires a balloon payment at maturity. These balances include four separate fixed-rate CMBS loans that are in default due to the underperformance of the 12 properties that secure them. As of March 31, 2015, the aggregate principal balance under the defaulted CMBS loans was \$77.4 million, including \$4.4 million of default interest added to principal. We believe the value of these properties is less than the related debt. As a result, we have notified the servicers of the indebtedness that the special purpose entity owners anticipate surrendering these properties to them or selling the properties under their direction in exchange for relieving the indebtedness encumbering them. Excluding these four loans, the outstanding principal obligations under our CMBS fixed and variable-rate loans as of March 31, 2015 was \$1.71 billion.

The table below shows the outstanding principal obligations of these CMBS fixed and variable-rate loans as of March 31, 2015 and the year in which the loans mature. The information displayed in the table excludes amounts and interest rates related to the defaulted loans and the 12 properties securing them.

⁽²⁾ Excluding loans maturing in 2015, the scheduled principal will amortize subsequent to March 31, 2015 until the maturity date of the loans.

CMBS Liquidity Matters

As of March 31, 2015, cash reserves totaling \$17.0 million, including interest, were held in escrow under a certain CMBS loan. The CMBS loan agreement was amended during 2012 to allow for additional property substitutions and required the borrower to deposit \$8.0 million as Additional Collateral Deposit. Pursuant to that amendment, we are permitted to issue a letter of credit for the amount of cash held as the Additional Collateral Deposit. The amended loan agreement also placed more restrictive cash covenants than those provided under the original agreement. During 2014, the servicer notified the borrower that conditions exist under the covenants contained in the loan agreement that permit the servicer to retain Excess Cash as additional deposited collateral beginning as of September 30, 2013. As of March 31, 2015, the aggregate amount of Excess Cash held as additional deposited collateral totaled \$8.6 million. The right of the servicer to claim Excess Cash continues until (a) the collateral tenant achieves a certain financial performance requirement for four consecutive fiscal quarters (b) no event of default under the loan agreement is continuing, and (c) our long-term debt is rated at or above "BB" by S&P and "Ba2" by Moody's.

As of March 31, 2015, the long-term debt of the Corporation was rated at or above "BB" by S&P, no event of default existed under the loan agreement and the collateral tenant continues to significantly exceed the financial performance requirements described above for the termination of the cash sweep period as well as for the disbursement of Excess Cash; however, unless and until our long term debt is rated at or above "Ba2" by Moody's, we can provide no assurance that Excess Cash eligible to be retained by the servicer will be distributed, and no assurance can be given that our long-term debt will obtain such a rating from Moody's.

Pursuant to a consent agreement with the loan servicer entered into as of April 13, 2015, we are now also permitted to issue a letter of credit for the amount of cash held as Excess Cash, and as of March 12, 2015, the servicer will allow future Excess Cash to be disbursed to us. The lender has agreed to release the Excess Cash within ten days of receipt of a letter of credit in such amount, and the Additional Collateral Deposit cash amounts will be released within 30 days of delivery of a letter of credit in such amount (subject to a 30 day prior notification period). For as long as the cash sweep triggering event period continues, the Corporation must guarantee the Excess Cash of approximately \$15.0 million for the remainder of the loan term.

Contractual Obligations

There were no material changes outside the ordinary course of business to the information regarding specified contractual obligations contained in our Annual Report on Form 10-K for the year ended December 31, 2014, as filed with the SEC.

We may enter into commitments to purchase goods and services in connection with the operations of our properties. Those commitments generally have terms of one-year or less and reflect expenditure levels comparable to our historical expenditures.

Distribution Policy

Distributions from our current or accumulated earnings and profits are generally classified as ordinary income, whereas distributions in excess of our current and accumulated earnings and profits, to the extent of a stockholder's federal income tax basis in our common stock, are generally characterized as a return of capital. Distributions in excess of a stockholder's federal income tax basis in our common stock are generally characterized as capital gain. We are required to distribute 90% of our taxable income (subject to certain adjustments and excluding net capital gain) on an annual basis to maintain qualification as a REIT for federal income tax purposes and are required to pay federal income tax at regular corporate rates to the extent we distribute less than 100% of our taxable income (including capital gains).

We intend to make distributions that will enable us to meet the distribution requirements applicable to REITs and to eliminate or minimize our obligation to pay corporate-level federal income and excise taxes.

Any distributions will be at the sole discretion of our board of directors, and their form, timing and amount, if any, will depend upon a number of factors, including our actual and projected results of operations, FFO, liquidity, cash flows and financial condition, the revenue we actually receive from our properties, our operating expenses, our debt service requirements, our capital expenditures, prohibitions and other limitations under our financing arrangements, our REIT taxable income, the annual REIT distribution requirements, applicable law and such other factors as our board of directors deems relevant.

Cash Flows

Comparison of Three Months Ended March 31, 2015 to Three Months Ended March 31, 2014

The following table presents a summary of our cash flows for the three months ended March 31, 2015 and March 31, 2014, respectively:

	Three Months Ended		
	March 31,		
	2015	2014	Change
	(in Thousands)		
Net cash provided by operating activities	\$79,605	\$65,844	\$13,761
Net cash used in investing activities	(156,266)	(135,971)	(20,295)
Net cash provided by financing activities	8,614	33,523	(24,909)
Net decrease in cash and cash equivalents	\$(68,047)	\$(36,604)	\$(31,443)

As of March 31, 2015, we had \$108.1 million of cash and cash equivalents as compared to \$176.2 million as of December 31, 2014.

Operating Activities

Our cash flows from operating activities are primarily dependent upon the occupancy level of our portfolio, the rental rates specified in our leases, the collectability of rent and the level of our operating expenses and other general and administrative costs.

The increase in net cash provided by operating activities was primarily attributable to an increase in cash revenue of \$14.6 million and a reduction in cash paid for interest of \$4.9 million partially offset by \$2.7 million of debt extinguishment costs and \$2.1 million in higher property costs.

The increase in revenue was primarily attributable to the acquisition of 310 properties, representing an investment in real estate during the twelve months ended March 31, 2015 totaling \$1.08 billion, offset slightly by property dispositions. The reduction in cash paid for interest is primarily due to the 2014 repayments of \$583.8 million of indebtedness, with a weighted average interest rate of 6.41%, offset by 2014 borrowings of \$510.0 million, with a weighted average interest rate of 4.30%. Approximately \$1.3 million of the increase in property costs were offset by an increase in tenant reimbursement income. The balance of the increase in property costs was attributable to higher property taxes and utilities due to a rise in the number of vacant properties between periods in addition to property cost recoveries of approximately \$0.5 million during the comparable period in 2014.

Investing Activities

Cash used in investing activities is generally used to fund property acquisitions, for investments in loans receivable and, to a limited extent, for capital expenditures. Cash provided by investing activities generally relates to the disposition of real estate and other assets.

Net cash used in investing activities during the three months ended March 31, 2015, included \$265.7 million to fund the acquisition of 53 properties (4 of which were acquired through a \$32.5 million non-cash 1031 Exchange), partially offset by the release of sales proceeds from restricted cash accounts of \$43.4 million, cash proceeds of \$71.5 million from the disposition of 15 properties (6 of which were disposed of through a \$39.4 million 1031 Exchange) and collections of principal on loans receivable and real estate assets under direct financing leases totaling \$1.5 million. During the same period in 2014, net cash used in investing activities included \$158.0 million to fund the acquisition of 104 properties (14 which were acquired through a \$20.8 million non-cash 1031 Exchange) and transfers of sales proceeds to restricted cash accounts of \$6.3 million partially offset by proceeds from property dispositions of \$6.2 million and collections of principal on loans receivable and real estate assets under direct financing leases of \$1.3 million.

Financing Activities

Generally, our net cash provided by financing activities is impacted by our borrowings and common stock offerings, including sales of our common stock under our ATM Program and issuances of net-lease mortgage notes under our Spirit Master Funding Program.

Net cash provided by financing activities during the three months ended March 31, 2015, was primarily attributable to net borrowings under our Revolving Credit Facilities of \$169.9 million, which was used mostly to extinguish \$162.8 million of higher cost senior mortgage indebtedness. During the three months ended March 31, 2015, we sold 6.6 million shares of our common stock under our ATM Program for net proceeds of \$78.6 million. This amount was partially offset by dividends paid to equity owners of \$70.0 million, which were paid primarily through sources from our operating cash flows.

During the same period in 2014, net cash provided by financing activities was comprised of net borrowings under our Revolving Credit Facilities of \$180.5 million and net borrowings of mortgages and notes payable of \$10.0 million, partially offset by repayment of our indebtedness of \$94.2 million and dividends paid to equity owners of \$61.6 million.

Non-GAAP Financial Measures

FFO and AFFO

We calculate FFO in accordance with the standards established by NAREIT. FFO represents net income (loss) attributable to common stockholders (computed in accordance with GAAP), excluding real estate-related depreciation and amortization, impairment charges and losses (gains) from property dispositions. FFO is a supplemental non-GAAP financial measure. We use FFO as a supplemental performance measure because we believe that FFO is beneficial to investors as a starting point in measuring our operational performance. Specifically, in excluding real estate-related depreciation and amortization, gains and losses from property dispositions and impairment charges, which do not relate to or are not indicative of operating performance, FFO provides a performance measure that, when compared year over year, captures trends in occupancy rates, rental rates and operating costs. We also believe that, as a widely recognized measure of the performance of equity REITs, FFO will be used by investors as a basis to compare our operating performance with that of other equity REITs. However, because FFO excludes depreciation and amortization and does not capture the changes in the value of our properties that result from use or market conditions, all of which have real economic effects and could materially impact our results from operations, the utility of FFO as a measure of our performance is limited. In addition, other equity REITs may not calculate FFO as we do, and, accordingly, our FFO may not be comparable to such other equity REITs' FFO. Accordingly, FFO should be considered only as a supplement to net income (loss) as a measure of our performance.

AFFO is a non-GAAP financial measure of operating performance used by many companies in the REIT industry. It adjusts FFO to eliminate the impact of non-recurring items that are not reflective of ongoing operations and certain non-cash items that reduce or increase net income (loss) in accordance with GAAP. Our computation of AFFO may differ from the methodology for calculating AFFO used by other equity REITs, and, therefore, may not be comparable to such other REITs. A reconciliation of net income (loss) (computed in accordance with GAAP) to AFFO is included in the financial information accompanying this report.

FFO and AFFO should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make distributions or service indebtedness. FFO and AFFO also should not be used as a supplement to or substitute for cash flow from operating activities computed in accordance with GAAP. A reconciliation of net income (loss) (computed in accordance with GAAP) to FFO and AFFO is included in the financial information accompanying this report.

Adjusted EBITDA and Annualized Adjusted EBITDA

Adjusted EBITDA represents EBITDA modified to include other adjustments to GAAP net income (loss) attributable to common stockholders for real estate acquisition costs, impairment losses, gains/losses from the sale of real estate and debt transactions and other items that are not considered to be indicative of our on-going operating performance. We exclude these items as they are not key drivers in our investment decision making process. We focus our business

plans to enable us to sustain increasing shareholder value. Accordingly, we believe that excluding these items, which may cause short-term fluctuations in net income, but are not indicative of overall long-term operating performance, provides a useful supplemental measure to investors and analysts in assessing the net earnings contribution of our real estate portfolio. Because these measures do not represent net income (loss) that is computed in accordance with GAAP, they should not be considered alternatives to net income (loss) or as an indicator of financial performance.

Annualized Adjusted EBITDA is calculated by multiplying Adjusted EBITDA for the quarter by four. Our computation of Adjusted EBITDA and Annualized Adjusted EBITDA may differ from the methodology used by other equity REITs to calculate these measures, and, therefore, may not be comparable to such other REITs. A reconciliation of net income (loss) (computed in accordance with GAAP) to EBITDA, Adjusted EBITDA and Annualized Adjusted EBITDA is included in the financial information accompanying this report.

Adjusted Debt and Leverage

Adjusted Debt represents interest bearing debt (reported in accordance with GAAP) adjusted to include preferred stock and exclude unamortized debt discount/premium and deferred financing costs, as further reduced for cash and cash equivalents and cash collateral deposits retained by lenders. We believe that including preferred stock in Adjusted Debt is appropriate because it is an equity security that has properties of a debt instrument not possessed by common stock. Additionally, by excluding unamortized debt discount/premium and deferred financing costs, cash and cash equivalents, and cash collateral deposits retained by lenders, the result provides an estimate of the contractual amount of borrowed capital to be repaid which we believe is a beneficial disclosure to investors.

Leverage is a supplemental non-GAAP financial measure we use to evaluate the level of borrowed capital being used to increase the potential return of our real estate investments. We calculate Leverage by dividing Adjusted Debt by Annualized Adjusted EBITDA. The utility of Leverage should be considered as a supplemental measure of the level of risk that stockholder value may be exposed to. Our computation of Leverage may differ from the methodology used by other equity REITs, and, therefore, may not be comparable to such other REITs. A reconciliation of interest bearing debt (reported in accordance with GAAP) to Adjusted Debt is included in the financial information accompanying this report.

Initial Cash Yield

We calculate initial cash yield from properties by dividing the annualized first month base rent (excluding any future rent escalations provided for in the lease) by the gross acquisition cost of the related properties. Gross acquisition cost for an acquired property includes the contracted purchase price and any related capitalized costs. Initial cash yield is a measure (expressed as a percentage) of the base rent expected to be earned on an acquired property in the first year. Because it excludes any future rent increases or additional rent that may be contractually provided for in the lease, as well as any other income or fees that may be earned from lease modifications or asset dispositions, initial cash yield does not represent the annualized investment rate of return of our acquired properties. Additionally, actual base rent earned from the properties acquired may differ from the initial cash yield based on other factors, including difficulties collecting anticipated rental revenues and unanticipated expenses at these properties that we cannot pass on to tenants, as well as the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2014.

FFO and AFFO

The following is a reconciliation of net income (loss) (which we believe is the most comparable GAAP measure) to FFO and AFFO. Also presented is information regarding distributions paid to common stockholders and the weighted average common shares outstanding used for the basic and diluted computations per share, as restated (dollars in thousands, except per share amounts):

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to financial market risks, especially interest rate risk. Interest rates and other factors, such as occupancy, rental rate and the financial condition of our tenants, influence our performance more so than does inflation. Changes in interest rates do not necessarily correlate with inflation rates or changes in inflation rates. As described above, we generally offer leases that provide for payments of base rent with scheduled increases, based on a fixed amount or the lesser of a multiple of the increase in the CPI over a specified period term or fixed percentage and, to a lesser extent, contingent rent based on a percentage of the tenant's gross sales to help mitigate the effect of inflation. Because the properties in our portfolio are generally leased to tenants under triple-net leases, where the tenant is responsible for property operating costs and expenses, our exposure to rising property operating costs due to inflation is mitigated.

Interest rates are highly sensitive to many factors, including governmental monetary policies, domestic and global economic and political conditions, and other factors which are beyond our control. Our operating results will depend heavily on the difference between the revenue from our assets and the interest expense incurred on our borrowings. We may incur additional variable rate debt in the future, including amounts that we may borrow under our revolving credit facilities. In addition, decreases in interest rates may lead to additional competition for the acquisition of real estate due to a reduction in desirable alternative income-producing investments. Increased competition for the acquisition of real estate may lead to a decrease in the yields on real estate we have targeted for acquisition. In such circumstances, if we are not able to offset the decrease in yields by obtaining lower interest costs on our borrowings, our results of operations will be adversely affected. Significant increases in interest rates may also have an adverse impact on our earnings if we are unable to acquire real estate with rental rates high enough to offset the increase in interest rates on our borrowings.

In the event interest rates rise significantly or there is an economic downturn, defaults may increase and result in credit losses, which may adversely affect our liquidity and operating results. In a decreasing interest rate environment, borrowers are generally more likely to prepay their loans in order to obtain financing at lower interest rates. However, the vast majority of our mortgage notes payable have prepayment clauses that make refinancing during a decreasing interest rate environment uneconomical. Investments in our mortgage loans receivable, however, have significant prepayment protection in the form of yield maintenance provisions, which provide us with substantial yield protection in a decreasing interest rate environment with respect to this portion of our investment portfolio.

The objective of our interest rate risk management policy is to match fixed-rate assets with fixed-rate liabilities and variable-rate assets with variable-rate liabilities. As of March 31, 2015, our assets were primarily long-term, fixed-rate leases (though most have scheduled rental increases during the terms of the leases). As of March 31, 2015, approximately \$3.49 billion of our indebtedness consisted of long-term, fixed-rate obligations. As of March 31, 2015, the weighted average stated interest rate of our CMBS and Master Trust Notes, excluding amortization of deferred financing costs and debt discounts/premiums, was approximately 5.38%.

We intend to continue our practice of employing interest rate derivative contracts, such as interest rate swaps and futures, to reduce our exposure, on specific transactions or on a portfolio basis, to changes in cash flows as a result of interest rate changes. We do not intend to enter into derivative contracts for speculative or trading purposes. We generally intend to utilize derivative instruments to hedge interest rate risk on our liabilities and not use derivatives for other purposes, such as hedging asset-related risks. Hedging transactions, however, may generate income which is not qualified income for purposes of maintaining our REIT status. We intend to structure any hedging transactions in a manner that does not jeopardize our status as a REIT.

Even with hedging strategies in place, there can be no assurance that our results of operations will remain unaffected as a result of changes in interest rates. In addition, hedging transactions using derivative instruments involve additional risks such as counterparty credit risk and basis risk. Basis risk in a hedging contract occurs when the index upon which the contract is based is more or less variable than the index upon which the hedged asset or liability is based, thereby making the hedge less effective. We address basis risk by matching, to a reasonable extent, the contract index to the index upon which the hedged asset or liability is based. Our interest rate risk management policy addresses counterparty credit risk (the risk of nonperformance by counterparties) by requiring that we deal only with major financial institutions that we deem credit worthy.

The estimated fair values of our revolving credit facilities, fixed-rate and variable-rate mortgages and notes payable and Convertible Notes have been derived based on market quotes for comparable instruments or discounted cash flow analysis using estimates of the amount and timing of future cash flows, market rates and credit spreads.

The following table discloses the fair value information for these financial instruments as of March 31, 2015 (in thousands):

	Carrying Value	Estimated Fair Value
Revolving Credit Facilities	\$ 181,518	\$ 185,212
Mortgages and notes payable, net	3,456,609	3,697,971
Convertible Notes, net ⁽¹⁾	681,109	747,589

⁽¹⁾ The carrying value of the debt instruments are net of unamortized deferred financing costs and certain debt discounts.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Prior to the filing of the Original Filing, an evaluation was performed under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of March 31, 2015. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective as of the end of the period covered by this quarterly report.

As disclosed in Item 9A of the Company's Annual Report on Form 10-K/A for the fiscal year ended December 31, 2015, filed concurrently with this Form 10-Q/A, the Company failed to design controls over the review of the accounting for real estate asset dispositions; specifically, the allocation of a portion of the Company's goodwill to the carrying amount of assets sold or held for sale when determining the gain or loss on sale to be recognized for sold assets or the amount, if any, of impairment losses to be recognized for assets held for sale.

Management became aware of this material weakness in internal control over financial reporting and took immediate actions to remediate the material weakness. The Company will initiate robust controls over the proper application of GAAP in accounting for goodwill related to the disposal of assets and in allocating goodwill to held for sale assets in determining the amount, if any, for impairment charges. The Company currently expects to have this material weakness remediated no later than December 31, 2016.

Changes in Internal Control over Financial Reporting

Except as noted in the preceding paragraph, there were no changes to our internal control over financial reporting (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) that occurred during the quarter ended March 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

From time-to-time, we may be subject to certain claims and lawsuits in the ordinary course of business. We are not currently a party as plaintiff or defendant to any legal proceedings that we believe to be material or that individually or in the aggregate would be expected to have a material effect on our business, financial condition or results of operations if determined adversely to us.

Item 1A. Risk Factors.

There have been no material changes to the risk factors as disclosed in the section entitled “Risk Factors” beginning on page 11 of our Annual Report on Form 10-K for the fiscal year ended December 31, 2014 and filed with the SEC. Please review the Risk Factors set forth in the Form 10-K as well as the prospectus supplement filed with the SEC on February 27, 2015.
