AMERICAN MORTGAGE ACCEPTANCE COMPANY  
REPORTS SECOND QUARTER FINANCIAL RESULTS FOR 2006

NEW YORK, NY - AUGUST 8, 2006 - American Mortgage Acceptance Company ("AMAC" or the "Company") (AMEX: AMC) today announced financial results for its second quarter and six months ended June 30, 2006.

## Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 8-K

"AMAC had a very successful second quarter," said Marc D. Schnitzer, President of AMAC. "The balance sheet lending program that we launched at the beginning of 2006 has been well received, and as a result, our loan originations for the first six months of the year totaled \$151.7 million, representing a 135.0% increase over our origination activity for the first six months of 2005. We have continued to diversify our lending programs to include other asset classes beyond our historical focus on multifamily, and approximately \$43.5 million of the loans that we originated in the first six months of 2006 were for office and retail properties. We are very optimistic that AMAC will continue to execute its business plan and meet its goals for the year."

### FINANCIAL HIGHLIGHTS

AMAC reported total revenues of approximately \$9.6 million for the three months ended June 30, 2006, representing an increase of 22.0% as compared to revenues of approximately \$7.9 million for the three months ended June 30, 2005. AMAC's total revenues for the six months ended June 30, 2006 were approximately \$17.7 million, representing an increase of approximately 21.2% as compared to revenues of approximately \$14.6 million for the six months ended June 30, 2005.

The table below summarizes AMAC's net income and Funds from Operations ("FFO") for the three and six months ended June 30, 2006 and 2005. AMAC's financial results for the three and six months ended June 30, 2006 include a significant amount of income recognized from the change in the fair value of derivative instruments and certain associated costs. Therefore, the Company is reporting net income and FFO both excluding ("adjusted") and including these changes and costs.

- (1) FFO represents net income or loss (computed in accordance with generally accepted accounting principles ("GAAP")), excluding gains (or losses) from sales of property, excluding depreciation and amortization related to real property and including funds from operations for unconsolidated joint ventures calculated on the same basis. AMAC calculates FFO in accordance

## Edgar Filing: AMERICAN MORTGAGE ACCEPTANCE CO - Form 8-K

with the NAREIT definition. FFO does not represent cash generated from operating activities in accordance with GAAP and is not necessarily indicative of cash available to fund cash needs. FFO should not be considered as an alternative to net income as an indicator of the Company's operating performance or as an alternative to cash flows as a measure of liquidity. Management considers FFO a supplemental measure of operating performance, and, along with cash flows from operating activities, financing activities, and investing activities, it provides investors with an indication of the ability of the Company to incur and service debt, to make capital expenditures, and to fund other cash needs. Since not all companies calculate FFO in a similar fashion, our calculation presented above may not be comparable to similarly titled measures reported by other companies.

- (2) Excludes change in fair value of derivative instruments and certain associated costs.
