**EXPLANATORY NOTE**

This Amendment No. 2 on Form 10-K/A (the Amendment ) amends our Annual Report on Form 10-K for the fiscal year ended December 31, 2006, as originally filed with the Securities and Exchange Commission on March 26, 2007 (the Original Filing ), and amends our Amendment No. 1 to the Original Filing filed with the Securities and Exchange Commission on August 17, 2007 ( Amendment No. 1). This Amendment amends Part IV, Item 15 of the Original Filing to revise our Notes to Consolidated Financial Statements as follows:

Note 1 clarification and expansion of our revenue recognition policy.

Note 10 deletion of the reference to the usage of an environmental consultant to estimate certain environmental remediation costs.

This Amendment amends and supersedes Amendment No. 1 by including Part IV, Item 15 as amended in its entirety. Except for the revisions described above, this Amendment does not amend, modify or update the Original Filing in any respect. Any information not affected by this Amendment is unchanged and reflects the disclosures made at the time we filed our Original Filing. This Amendment does not reflect events that have occurred subsequent to the filing of the Original Filing and, accordingly, this Amendment should be read in conjunction with our filings made with the Securities and Exchange Commission subsequent to the date of the Original Filing.

**Notes to Consolidated Financial Statements**

Chromcraft Revington, Inc.

**Note 1. Summary of Significant Accounting Policies**

The consolidated financial statements include the accounts of Chromcraft Revington, Inc. and its wholly-owned subsidiaries (together, the Company). All significant intercompany accounts and transactions have been eliminated. Chromcraft Revington manufactures and sells residential and commercial furniture. Products are sold primarily through furniture dealers throughout the U.S. and Canada. Chromcraft Revington has several operating segments which are aggregated into one reportable segment in accordance with Financial Accounting Standards Board ( FASB ) Statement No. 131, Disclosures about Segments of an Enterprise and Related Information.

**Revenue Recognition**

The Company recognizes revenue when products are shipped and the customer takes ownership and assumes risk of loss, collection of the related receivable is probable, persuasive evidence of an arrangement exists, and the sales price is fixed or determinable.

**Cash Equivalents**

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

**Accounts Receivable**

Accounts receivable are recorded at the invoiced amount and do not bear interest. The Company provides for an allowance for doubtful accounts based on expected collectability of trade receivables. The allowance for doubtful accounts is determined based on the Company's analysis of customer credit-worthiness, historical loss experience and general economic conditions and trends. The Company reviews past due balances and its allowance for doubtful accounts periodically. Any accounts receivable balances that are determined to be uncollectible are included in the overall allowance for doubtful accounts. After all attempts to collect a receivable have been exhausted, the receivable is written off against the allowance. The Company does not have any off-balance-sheet credit exposure related to its customers.

**Table of Contents**

**Inventories**

All inventories (materials, labor and overhead) are valued at the lower of cost or market. Inventories valued using the last-in, first-out (LIFO) basis represent approximately 57% of total inventories at both December 31, 2006 and 2005. Remaining inventories are valued using the first-in, first-out (FIFO) basis.

**Property, Plant and Equipment**

Property, plant and equipment is stated on the basis of cost. Depreciation is computed principally by the straight-line method for financial reporting purposes and by accelerated methods for tax purposes. The following estimated useful lives are used for financial reporting purposes: buildings and improvements, 15 to 45 years; machinery and equipment, 3 to 12 years; and leasehold improvements, 3 to 5 years.

**Impairment of Long-Lived Assets**

When changes in circumstances indicate the carrying amount of certain long-lived assets may not be recoverable, the assets will be evaluated for impairment. If the forecast of undiscounted future cash flows is less than the carrying amount of the assets, an impairment charge would be recognized to reduce the carrying value of the assets to fair value.

**Assets Held for Sale**

Assets held for sale are long-lived assets which are carried at the lower of their net book value or fair value less cost to sell and no longer depreciated. Fair value for buildings was determined from purchase offers or information obtained from real estate brokers. Fair value for machinery and equipment was based on auction sales, which were completed in 2007.

**Restructuring Expenses**

Restructuring expenses include costs to shut down, vacate and prepare facilities for sale and one-time termination benefits. Costs to shut down, vacate and prepare facilities for sale are recorded when incurred. One-time termination benefits are amortized over the related service period. These costs are included in either cost of sales or selling, general and administrative expenses consistent with the classification of the costs before the restructuring.

**Table of Contents**

**Deferred Income Taxes**

Deferred income taxes are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

**Earnings per Share**

Basic earnings per share is calculated based on the average number of common shares outstanding. Diluted earnings per share includes potentially dilutive common shares.

Due to the net loss for the year ended December 31, 2006, loss per share, basic and diluted, are the same, as the effect of potential common shares would be antidilutive.

**Financial Instruments**

The carrying amounts reported in the balance sheets for accounts receivable, accounts payable and deferred compensation approximate their fair values. Concentration of credit risk with respect to trade accounts receivable is limited due to the large number of entities comprising Chromcraft Revington's customer base and no single customer accounting for more than 10% of trade accounts receivable.

**Stock-Based Compensation**

The Company has two stock-based compensation plans, which are described more fully in Note 13, Stock-Based Compensation. Effective January 1, 2006, the Company adopted FASB Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment, ( FAS 123 (R) ) using the modified prospective application method for transition for its two stock-based compensation plans. Accordingly, prior year amounts have not been restated.

**Use of Estimates**

The preparation of the financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Table of Contents****Note 2. Restructuring and Asset Impairment Charges**

In 2006, the board of directors of the Company approved the restructuring of certain of the Company's operations. The restructuring program included the shut down, relocation, consolidation and outsourcing of certain furniture manufacturing and distribution operations. The purposes of the restructuring program are to reduce fixed costs, to improve the utilization of a global supply chain and to increase asset utilization.

Restructuring charges include inventory write-downs to reflect anticipated net realizable value, one-time termination benefits, and costs to shut down, vacate and prepare the facilities for sale. Asset impairment charges were recorded to reduce the carrying values of buildings, machinery and equipment to fair value. Fair value was determined by actual sales, purchase offers or estimates from real estate brokers.

Restructuring and asset impairment charges recorded for the year ended December 31, 2006 were as follows:

|   | <i>(In thousands)</i> |

**Note 7. Bank Debt**

On September 20, 2005, the Company entered into an unsecured revolving loan facility ( Facility ) with a bank that allows the Company to borrow up to \$35,000,000. The Facility replaced a secured multi-bank credit agreement. The interest rate under the Facility is determined at the time of borrowing, at the Company's option, at either the bank's prime rate, a rate based on the Federal Funds rate or the London Interbank Offered Rate. A commitment fee, of up to

.25% per annum, is payable on the unused portion of the credit line. No borrowings were outstanding under the Facility at December 31, 2006 and 2005. The Company had a \$1,745,000 standby letter of credit outstanding at December 31, 2006 and 2005 in connection with workers compensation programs. This letter of credit, which reduces credit availability under the Facility, expires on August 11, 2007 and is generally renewed annually.

**Table of Contents**

The Facility requires compliance with certain financial loan covenants related to net worth, interest coverage and debt leverage. At December 31, 2006 and 2005, the Company had approximately \$13,183,000 and \$29,247,000, respectively, in unused availability under the Facility. Availability under the Facility is determined based on a multiple of cash flow. The Facility expires September 20, 2008.

**Note 8. Income Taxes**

The tax effects of temporary differences that give rise to significant portions of net deferred tax assets (liabilities) at December 31, 2006 and 2005 are summarized below:

|   | <i>(In thousands)</i> |         |
|---|-----------------------|---------|

In 2006, the Company utilized a state net operating loss carryforward (NOL) to offset state taxable income generated on the cancellation of intercompany indebtedness and established a valuation allowance of \$62,000 for the remaining portion of this NOL. The Company determined, due to its restructuring activities, that it is unlikely that the remaining portion of this NOL will be utilized.

At December 31, 2006, the Company has deferred tax assets for federal net operating loss carryforwards of \$663,000. The federal net operating loss carryforwards have expiration dates through 2010. The Company expects that future operations will generate sufficient earnings to realize its net deferred tax assets.

Tax expense (benefit) relating to share-based plans of \$27,000, (\$87,000) and (\$47,000) in 2006, 2005 and 2004, respectively, has been recorded under Capital in Excess of Par Value in the accompanying Consolidated Statements of Stockholders' Equity.

For the year ended December 31, 2005, the Company recorded a non-recurring income tax benefit of \$710,000 primarily due to the favorable resolution of a tax contingency.

**Note 9. Earnings Per Share of Common Stock**

Due to the net loss in 2006, loss per share, basic and diluted, are the same, as the effect of potential common shares would be antidilutive. For the years ended December 31, 2005 and 2004, weighted average shares used in the calculation of diluted earnings per share included dilutive potential common shares of approximately 80,000 and 72,000, respectively.

Certain options to purchase shares of common stock were outstanding during 2005 and 2004, but were not included in the computation of diluted earnings per share because the options' exercise prices were greater than the average market price of the common shares during those periods in 2005 and 2004 and, therefore, their effect would be antidilutive. Options excluded from the computation of diluted earnings per share and their weighted average exercise prices were 163,961 shares at \$15.14 at December 31, 2005 and 198,603 shares at \$15.75 at December 31, 2004.

**Note 10. Other Long-Term Liabilities**

Other long-term liabilities include \$570,000 and \$597,000 at December 31, 2006 and 2005, respectively, for estimated environmental remediation costs for land that was acquired as part of a previous acquisition by the Company.

**Note 11. Employee Stock Ownership Plan**

Chromcraft Revington sponsors a leveraged employee stock ownership plan ( ESOP ) that covers substantially all employees who have completed six months of service. Chromcraft Revington makes annual contributions to the ESOP Trust equal to the ESOP Trust's repayment of its loan to the Company. Chromcraft Revington loaned \$20,000,000 to the ESOP Trust to finance the ESOP Stock Transaction. The loan to the ESOP Trust provides for repayment to Chromcraft Revington over a 30-year term at a fixed rate of interest of 5.48% per annum. The shares of common stock owned by the ESOP Trust are pledged to the Company as collateral for the Company's loan to the ESOP Trust. As the ESOP loan is repaid, shares are released from collateral and allocated to ESOP accounts of active employees based on the proportion of debt service paid in the year. Chromcraft Revington accounts for its ESOP in accordance with AICPA Statement of Position 93-6, *Employers' Accounting for Employee Stock Ownership Plans*. Accordingly, unearned ESOP shares are reported as a reduction of stockholders' equity as reflected in the Consolidated Statements of Stockholders' Equity of the Company. As shares are committed to be released, Chromcraft Revington reports compensation expense equal to the current market price of the shares, and the shares become outstanding for earnings per share computations. ESOP compensation expense, a non-cash charge, was \$771,000 in 2006, \$895,000 in 2005 and \$967,000 in 2004.

ESOP shares at December 31, 2006 and 2005, respectively, consisted of the following:

| Total ESOP shares                  | 1,967                 | 1,983     |
| Unearned ESOP shares, at cost      | \$ 16,708             | \$ 17,385 |
| Fair value of unearned ESOP shares | \$ 14,353             | \$ 22,775 |

At December 31, 2006, the ESOP Trust owned approximately 31.9% of the issued and outstanding shares of the Company's common stock.

**Note 12. Other Benefit Plans**

Chromcraft Revington sponsors a tax-qualified defined contribution plan under Internal Revenue Code Section 401(k). For the years ended December 31, 2006, 2005 and 2004, the Company matching contributions to the 401(k) plan for most employees were made to the ESOP.

Chromcraft Revington also provides supplemental retirement benefits to its key employees and executive officers. Expenses under these arrangements were \$101,000 in 2006, \$91,000 in 2005 and \$1,091,000 in 2004.

**Note 13. Stock-Based Compensation**

The Company has the following stock-based compensation plans:

1992 Stock Option Plan

The Company's 1992 Stock Option Plan, as amended ( 1992 Plan ), provides for the granting of either incentive stock options ( ISOs ) or stock options which do not qualify as incentive stock options ( non-ISOs ). The total number of new shares of common stock, which may be issued under stock options granted pursuant to the 1992 Plan, is 1,800,000 shares. ISOs granted under the 1992 Plan are exercisable over no greater than a 10-year period, and are granted at exercise prices no less than the fair market value of Chromcraft Revington's common shares as of the date of grant. Options vest ratably ranging from immediately on the date of grant up to a five-year period. The Compensation Committee of the board of directors determines the vesting period and exercise prices of non-ISOs. At December 31, 2006 and 2005, there were 298,025 and 265,543 shares, respectively, available for future awards.

The purpose of the 1992 Plan is to attract and retain persons of ability as key employees and to motivate key employees to exert their best efforts on behalf of the Company.

**Table of Contents**

**Directors' Stock Plan**

The Company's Amended and Restated Directors' Stock Plan ( Directors' Plan ) provides for the granting of restricted stock or non-ISOs to members of the board of directors who are not employees of the Company. Under the Directors' Plan, eligible directors of the Company receive an award of either 800 shares of restricted common stock or an option to purchase 2,500 shares of common stock on the day following their re-election to the Board at each annual meeting of stockholders. Any new director who is elected or appointed for the first time to the board of directors receives an award of either 3,000 shares of restricted common stock or an option to purchase 10,000 shares of common stock. The Compensation Committee of the board of directors determines whether awards under the Directors' Plan are made in restricted stock or stock options. The total number of shares of common stock subject to the Directors' Plan is 150,000 shares. No restricted common stock or options will be granted under the Directors' Plan after December 1, 2016. Shares of restricted stock granted to directors under the Directors' Plan will vest on the day immediately preceding the next annual meeting of stockholders following the award date. Non-ISOs granted under the Directors' Plan are 100% vested on the date of the grant and are granted at exercise prices equal to the fair market value of the Company's common shares as of the date of the grant. The options are exercisable for a period of ten years. At December 31, 2006 and 2005, there were 54,400 and 60,000 shares, respectively, available for future stock option and restricted stock awards.

The Directors' Plan is designed to promote the interests of the Company and its stockholders through the granting of restricted common stock and options to the non-employee members of the Company's board of directors, thereby encouraging their focus on long-term stockholder value of the Company.

**Accounting for the Plans**

Effective January 1, 2006, the Company adopted FAS 123 (R) using the modified prospective application method for transition for its two stock-based compensation plans. Accordingly, prior year amounts have not been restated. Also effective January 1, 2006, the Company adopted FASB Staff Position 123R-3, *Transition Election Related to Accounting for the Tax Effects of Share-Based Payment Awards*, which provides a simplified alternative approach to calculate the initial pool of excess tax benefits.

The adoption of FAS 123 (R) increased the net loss by approximately \$111,000 (approximately \$.03 per share) for the year ended December 31, 2006, compared to amounts that would have been reported if the Company had continued to account for stock-based compensation under APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and related Interpretations.

**Table of Contents**

The following table illustrates the effect on net earnings and earnings per share for the years ended December 31, 2005 and 2004, if the Company had applied the fair value recognition provisions of FAS 123 (R) to stock-based employee compensation for these periods. For purposes of pro forma disclosure, the value of the options is estimated using a Black-Scholes option-pricing model and is amortized to expense over the options vesting periods.

|   | <i>(In thousands, except per share data)</i> |          |
|---|--|----------|
|   | 2005   | 2004     |
| Net earnings, as reported   | \$ 7,245                                     | \$ 7,668 |
| Add: Stock-based employee compensation expense included in reported net earnings, net of related tax effects                                | 186  | 122      |
| Deduct: Total stock-based employee compensation expense determined under fair-value based method for all awards, net of related tax effects | (523)  | (537)    |
| Pro forma net earnings  | \$ 6,908                                     | \$ 7,253 |
| Earnings per share  |  |          |
| Basic as reported   | \$ 1.69                                      | \$ 1.85  |
| Basic pro forma   | \$ 1.62                                      | \$ 1.75  |
| Diluted as reported   | \$ 1.66                                      | \$ 1.82  |
| Diluted pro forma   | \$ 1.59                                      | \$ 1.73  |

The fair value of each option is amortized into compensation expense on a straight-line basis between the grant date for the option and each vesting date. The Company has estimated the fair value of all stock option awards as of the date of grant by applying the Black-Scholes pricing valuation model. The application of this valuation model involves assumptions that are judgmental and sensitive in the determination of compensation expense.

Historical information is the primary basis for the selection of the expected volatility and life of an option. The risk-free interest rate is selected based upon the yield of the U.S. Treasury issue with a term equal to the expected life of the option being valued.

Prior to the adoption of FAS 123 (R), the Company presented all tax benefits of deductions resulting from the exercise of stock options as operating cash flows in the Consolidated Statements of Cash Flows. FAS 123 (R) requires the cash flows resulting from the tax benefits from tax deductions in excess of the compensation cost recognized for those options (excess tax benefits) to be classified as financing cash flows. Although no stock options were exercised in 2006, any excess tax benefits would have been classified as a financing cash flow.

**Restricted Stock Awards**

The Company has granted to key employees under employment agreements and non-employee directors under the Directors Plan restricted shares of the Company's common stock. These shares are valued at fair value on the date of grant and reflected as part of stockholders' equity. Compensation expense is recognized ratably over the vesting period.

**Table of Contents**

During 2006, the Company granted 15,000 shares of restricted stock to employees in connection with their employment agreements with the Company. The awards provided that the shares will vest based on continued employment with 5,000 shares eligible to vest on each of December 31, 2007, 2008 and 2009. In 2005, the Company awarded 42,000 shares of restricted stock to its Chairman and Chief Executive Officer in connection with his employment with the Company. The award provided that 14,000 shares will vest based on continued employment on December 31, 2005, 2006, and 2007.

As part of the Directors' Plan, non-employee directors were granted a total of 5,600 shares of restricted stock. The awards provided that the 5,600 shares vest on the day immediately preceding the 2007 annual meeting of stockholders.

For the years ended December 31, 2006 and 2005, the Company granted a total of 20,600 and 42,000 shares, respectively, of restricted stock with aggregate fair values on the date of grant of \$195,000 and \$568,000, respectively. At December 31, 2006, total unearned compensation for restricted stock was \$335,000. The cost is expected to be recognized over a weighted average period of 1.7 years. Compensation expense recognized for restricted stock awards during the years ended December 31, 2006 and 2005 was \$239,000 and \$189,000, respectively. The related tax benefit for the compensation expense was \$78,000 and \$70,000 for the same periods, respectively.

A summary of all restricted stock activity for the year ended December 31, 2006 is as follows:

The estimated per share weighted average fair value of stock options granted during 2006, 2005 and 2004 was \$5.88, \$5.12 and \$5.34, respectively, on the date of grant. The fair value of stock options on the date of grant was estimated using the Black-Scholes model with the following weighted average assumptions:

|                       | 2006  | 2005  | 2004  |
|-----------------------|-------|-------|-------|

| Intrinsic value of stock options exercised      | 1,003                 | 105    |

The intrinsic value of options that vested during the years ended December 31, 2006, 2005 and 2004 was \$262,000, \$954,000 and \$933,000, respectively. As of December 31, 2006, there were 20,000 unvested options and approximately \$21,000 of unrecognized compensation cost related to non-vested stock options. Since the options vest on March 15, 2007, the cost will be recognized by the end of the first quarter of 2007.

Compensation expense recognized for stock options was \$165,000, \$105,000 and \$198,000 for the years ended December 31, 2006, 2005 and 2004, respectively. The related tax benefit for the compensation expense was \$53,000, \$39,000 and \$75,000 for the same periods, respectively.

**Note 14. Supplemental Cash Flow Information**

Interest paid during the years ended December 31, 2006, 2005 and 2004 was \$244,000, \$779,000 and \$798,000, respectively. Income taxes paid during the years ended December 31, 2006, 2005 and 2004 were \$1,119,000, \$4,336,000, and \$5,155,000, respectively.

**Note 15. Rental Commitments**

Chromcraft Revington leases office space, showroom facilities and transportation and other equipment under non-cancelable operating leases. The future minimum lease payments under non-cancelable leases for the years ending December 31, 2007, 2008, 2009, 2010, and 2011 are \$1,567,000, \$1,548,000, \$874,000, \$667,000, and \$473,000, respectively. It is expected that, in the normal course of business, leases that expire will be renewed or replaced.

Rental expense was \$1,616,000, \$1,509,000, and \$1,335,000 for the years ended December 31, 2006, 2005 and 2004, respectively.

**Note 16. Recently Issued Accounting Standards**

In July 2006, FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* — an interpretation of *FASB Statement No. 109* ( FIN 48 ), which clarifies what criteria must be met prior to recognition of the financial statement benefit of a position taken in a tax return. The Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Also, the Interpretation provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The adoption of FIN 48 will be effective for years beginning after December 15, 2006, and the Company will be required to adopt this Interpretation in the first quarter of 2007. Based on the Company's evaluation as of December 31, 2006, FIN 48 is not expected to have a material impact.

In September 2006, FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* ( FAS 157 ), which is effective prospectively for the fiscal year beginning after November 15, 2007. FAS 157 provides a single authoritative definition of fair value, a framework for measuring fair value, and requires additional disclosure about fair value measurements. Although the Company has not completed its analysis of FAS 157, it is not expected to have a material impact.

In February 2007, FASB issued Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* — including an amendment of *FASB No. 115* ( FAS 159 ), which is effective prospectively for the fiscal year beginning after November 15, 2007. FAS 159 permits entities to measure many financial instruments and certain other items at fair value, expanding the use of fair value measurement consistent with FAS 157. Although no material impact is expected, the Company has not yet completed its analysis of FAS 159.

The Board of Directors and Stockholders

Chromcraft Revington, Inc.:

We have audited the consolidated financial statements of Chromcraft Revington, Inc. and subsidiaries as listed in item 15(a) (1) and (2). In connection with our audits of the consolidated financial statements, we have also audited the consolidated financial statement schedule as listed in item 15(a) (1) and (2). These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Chromcraft Revington, Inc. and subsidiaries as of December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2006, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related consolidated financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information therein.

As discussed in Note 13 to the consolidated financial statements, effective January 1, 2006, the Company adopted the fair value method of accounting for stock-based compensation as required by Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment*.
