SUMMARY OF THE TRANSACTION

- On April 11, 2007, we signed a Stock Purchase Agreement for the sale of 100% of our equity interest in our wholly owned subsidiary, WV Fiber, Inc. to Ultra Global Investments LLC, an entity newly formed by two of our directors, Peter Marcum and Harish Shah, effective April 1, 2007;
 - We will be paid \$200 thousand in cash and relieved of primary liability for the payment of approximately \$2.474 million promissory notes, convertible notes and short term loan owed by us;
- A group of our shareholders will surrender to us for cancellation approximately 7.9 million shares of our common stock (or equivalent shares of preferred stock, options or warrants convertible or exercisable into shares of common stock);
- WV Fiber will enter into a contract with Endavo Media and Communications, Inc., a subsidiary of IMHI, to provide low cost network connectivity (bandwidth) and rack space on the WV Fiber network over the next 3.5 years. This contract is an important component of the sale as it provides Endavo with a cost-effective network environment to launch and develop its digital media delivery systems and business plan for the next few years. The bandwidth is limited to Endavo's use and could not be resold, and would include 3 racks with power in Atlanta for no additional charge; and
 - The transaction will be accounted for as a sale for financial reporting and federal income tax purposes.

BUSINESS OF WV FIBER

General

WV Fiber is a global fiber-optic and IP (Internet Protocol) network that provides Internet transit and network transport services to ISPs, carriers and enterprise customers. WV Fiber delivers digital content streaming, IP, VPN and Internet solutions. The company is also developing content delivery network capabilities to provide network distribution of video, music, games and downloads. We plan to use the network for continued core data services and to provide the delivery of digital media and software over IP. The WV Fiber network connects with over 400 other networks via peering agreements, encompassing the U.S., Canada, Latin America, Europe, the Middle East, Asia and the Far East. The principal executive offices are located at 315 Wilhagan Road, Nashville, TN, 37217.

Internet Transit.

WV Fiber provides backbone Internet connectivity for ISPs and other carriers. WV Fiber is engineered to exhaust 60 to 70% of traffic locally and does not back haul the majority of its traffic across the country to only two or three exhaustion points. Our peering is very strong and designed to enhance our transit product.

Network Transport.

WV Fiber's Transport product is called "intelligent IP" and works by mapping a physical interface at a Provider Edge router onto an MPLS Label Switched Path (LSP). Native Layer 2 Protocol Data Units from Ethernet, SONET, or ATM interfaces are transmitted via the LSP on the WV Fiber Network, to the opposite side Edge router where the label is removed. The original Protocol Data Unit is then transmitted to the opposite Customer Edge router device. WV Fiber Data Transport is a fully transparent service, providing a dedicated point to point Layer 2 private line service. The customer may transparently pass any Layer 2 or Layer 3 protocol data necessary to support their application. WV Fiber built its IP Network for high performance and unparalleled reliability.

Content Delivery.

WV Fiber's Content Delivery Services are powered by best of breed core routers and extensive capabilities developed through experienced network professionals. Our Content Delivery Services leverage both the WV Fiber IP transport network and the many network peers throughout the world. WV Fiber's Digital Media Delivery Network enables

customers to broadcast a live event at any time or on a continual basis—24 hours a day, seven days a week, without additional set up. WV Fiber's Content Delivery Services are ideal for the distribution of live content. We have radio, sports and news customer actively using our network to deploy their communications products today. Along with and other broadband or broadcast networks with our customers' digital content and programming. Endavo Media and Communications, we have created a digital broadcast network to enable Internet-based entertainment and information communities and to reach most content delivery platforms

TERMS OF THE TRANSACTION

Background and Reason for the Sale

After our reorganization and corporate restructure during the 4th quarter of 2005 and 1st quarter of 2006, we have focused our business on becoming a leading provider of digital content distribution and logistics solutions that support the delivery of entertainment, information and social network services over the internet and broadband networks. Our business objective is to become a leading provider of online and broadband distribution services and platforms for a wide range of content owners and producers. Our sole subsidiary until August 2006, Endavo Media and

Communications, has been focused on the development and marketing content delivery platforms and Internet-based entertainment and information services for its customers, who are content owners seeking to monetize, enable social networking and distribute content to broader audiences through the Internet, IPTV, broadband TV, and portable handheld consumer electronics. After our restructure was completed in April 2006, we began looking for potential acquisitions that would support our vision and business plan rollout.

On August 8, 2006 we closed the purchase of the assets of WV Fiber LLC through the United States Bankruptcy Court for the Middle District of Tennessee Nashville Division. All assets and operations of WV Fiber LLC were purchased by Louros Networks, a newly-formed wholly-owned subsidiary of Integrated Media, in exchange for \$1,662,500 in cash and 4,055,448 shares of our common stock. As an additional part of the purchase price, we satisfied certain pre-petition secured claims, including principal and non-default interest, by agreeing to issue 917,486 Series A preferred shares, which were contributed to the company from our major shareholder as the time of issuance, and by the issuance of a Secured Promissory Note in the amount of \$850,000. This note became due on November 8, 2006, with a 20-day grace period. We were able to extend the payment terms on the note, by agreement with HT Investments, to begin making monthly payments March 15, 2007 totaling \$1,035,000.

From November 2006 through March 2007, we have attempted but were unable to obtain private placement equity or debt financing sufficient to satisfy the HT Investments obligation, thus giving them the right to foreclose on WV Fiber and put the company up for private sale. It was our belief that we would unlikely receive any substantial return from such an action. We had received proposals for asset-based debt financing and an offer to purchase WV Fiber, but were unable to close those financing options. Our lack of options to refinance the WV Fiber secured debt, along with insufficient working capital for future operations of all our subsidiaries, became a paramount concern for the board of directors over the past few months. Since the asset purchase, WV Fiber has generated approximately \$2.2 million in revenues and contributed approximately \$570,000 to our operating losses. During this period our stock price has fallen by approximately 80%. As a result of these factors, our ability to repay our current and due obligations and sustain all our subsidiaries declined substantially.

On March 14, 2007, we agreed upon the principal terms for sale of WV Fiber Inc. to a new company to be formed by Peter Marcum and Harish Shah. Taking into account our liquidity and other business factors, the board of directors authorized us to sign sell WV Fiber as proposed. It is our belief that the sale of WV Fiber will relieve a substantial amount of pressure from liabilities of the company and allows us to focus our energies and resources on the development of our primary vision and business plan of building and marketing digital content/media distribution platforms and content/service management services.

Purchase Price

The purchase price for the Shares (the "Purchase Price") will be the following: (a) \$200,000, payable in equal installments of \$50,000 each, with the first such installment being due on the April 11, 2007 (as hereinafter defined), and subsequent installments due pursuant to a Promissory Note, which will be issued and delivered to the Seller on the Closing Date (as hereinafter defined); (b) assumption and payment of all indebtedness due from the Company to HT Investments, LLC, in the principal amount of \$1,046,822; (c) assumption of the indebtedness owed by the Seller to the creditors and in the amounts set forth on Schedule 1.2(a) attached to the Stock Purchase Agreement; (d) forgiveness of indebtedness of the Seller owed to the creditors and in the amounts as set forth on Schedule 1.2(b) attached to the Stock Purchase Agreement; (e) assumption by the Buyer of indebtedness in the amount of \$87,500 owed by the Seller to M & A Partners, Inc., dated October 26, 2006; and (f) surrender to the Seller for cancellation of Seller's capital stock or employee options or warrants exercisable for common stock equivalent, in the aggregate, to approximately 4,000,000 shares of common stock (assuming conversion of any preferred shares included within the capital stock so surrendered), provided, however, that this clause shall be satisfied if Buyer surrenders or causes surrender of such stock, options and warrants equivalent to at least 3,600,000 shares of common stock; and (g) surrender to the Seller for cancellation of an additional 402,607 shares of Seller's preferred stock, convertible into approximately 3,900,000 shares of common stock.
