Note 1. Principles of Consolidation and Basis of Presentation

Basis of Presentation of Interim Financial Statements

The accompanying condensed consolidated financial statements for the interim periods are unaudited and include the accounts of Integrated BioPharma, Inc., a Delaware corporation (together with its subsidiaries, the “Company”). The interim condensed consolidated financial statements have been prepared in conformity with Rule 8-03 of Regulation S-X of the Securities and Exchange Commission (“SEC”) and therefore do *not* include information or footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States of America. However, all adjustments (consisting only of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position and operating results for the periods presented have been included. These condensed consolidated financial statements should be read in conjunction with the financial statements and notes thereto, together with the Management’s Discussion and Analysis of Financial Condition and Results of Operations, contained in the Company’s Annual Report on Form 10-K for the fiscal year ended *June 30, 2017* (“Form 10-K”), as filed with the SEC. The *June 30, 2017* balance sheet was derived from audited financial statements, but does *not* include all disclosures required by accounting principles generally accepted in the United States of America. The results of operations for the *three* and *nine* months ended *March 31, 2018* are *not* necessarily indicative of the results for the full fiscal year ending *June 30, 2018* or for any other period.

Nature of Operations

The Company is engaged primarily in manufacturing, distributing, marketing and sales of vitamins, nutritional supplements and herbal products. The Company’s customers are located primarily in the United States, Luxembourg and Canada. The Company was previously known as Integrated Health Technologies, Inc. and, prior to that, as Chem International, Inc. The Company was reincorporated in its current form in Delaware in 1995. The Company continues to do business as Chem International, Inc. with certain of its customers and certain vendors.

The Company's business segments include: (a) Contract Manufacturing operated by InB:Manhattan Drug Company, Inc. ("MDC"), which manufactures vitamins and nutritional supplements for sale to distributors, multilevel marketers and specialized health-care providers; (b) Branded Proprietary Products operated by AgroLabs, Inc. ("AgroLabs"), which distributes healthful nutritional products for sale through major mass market, grocery, drug and vitamin retailers, under the following brands: Naturally Noni, Peaceful Sleep, Green Envy, FiberCal, Wheatgrass and other products which are being introduced into the market (these are referred to as our branded proprietary nutraceutical business and/or products); and (c) Other Nutraceutical Businesses which includes the operations of (i) The Vitamin Factory (the "Vitamin Factory"), which sells private label MDC products, as well as our AgroLabs products, through the Internet, (ii) IHT Health Products, Inc. ("IHT"), a distributor of fine natural botanicals, including multi minerals produced under a license agreement, (iii) MDC Warehousing and Distribution, Inc., a service provider for warehousing and fulfillment services and (iv) Chem International, Inc. ("Chem"), a distributor of certain raw materials for DSM Nutritional Products LLC.

Significant Accounting Policies

In July 2015, the Financial Accounting Standards Board issued ASU No. 2015-11, Simplifying the Measurement of Inventory (Topic 330), an accounting standard that requires inventory be measured at the lower of cost and net realizable value and options that currently exist for market value be eliminated. The standard defines net realizable value as estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. This new guidance was effective for the Company on July 1, 2017. There was no impact on the Company's condensed consolidated financial statements as the result of the adoption of this ASU.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except share and per share amounts)

(Unaudited)

Aside from the adoption of ASU *No. 2015-11*, as described above, there have been *no* material changes during fiscal year *2018* in the Company's significant accounting policies to those previously disclosed in the Company's Annual Report on Form *10-K* for the fiscal year ended *June 30, 2017*.

Investment in iBio, Inc. The Company accounts for its investment in iBio, Inc. ("iBio") common stock on the cost basis as it retained approximately *6%* of its interest in iBio (*1,266,706* common shares) (the "iBio Stock") at the time of the spin-off of this subsidiary in *August 2008*. The Company reviews its investment in iBio for impairment and records a loss when there is deemed to be a permanent impairment of the investment. To date, there were cumulative impairment charges of approximately *\$2,454*. The market value of the iBio Stock as of *March 31, 2018* was approximately *\$263* based on the trade price at the close of trading on *March 31, 2018*. The investment in iBio, Inc. is included in other current assets in the accompanying Condensed Consolidated Balance Sheet.

Pursuant to the Company's Amended Loan Agreement with PNC Bank, National Association ("PNC"), as amended on *February 19, 2016*, all the net proceeds from the sale of any of the iBio Stock is to be used to prepay the outstanding principal of the term loan outstanding under the Amended Loan Agreement. (See Note *4*. Senior Credit Facility, Subordinated Convertible Note, net - CD Financial, LLC and other Long Term Debt).

Earnings Per Share. Basic earnings per common share amounts are based on weighted average number of common shares outstanding. Diluted earnings per share amounts are based on the weighted average number of common shares outstanding, plus the incremental shares that would have been outstanding upon the assumed exercise of all potentially dilutive stock options, warrants, and convertible debt, subject to anti-dilution limitations using the treasury stock method and if converted method.

The following options and potentially dilutive shares for convertible notes payable (see Note *4*. Senior Credit Facility, Subordinated Convertible Note, net - CD Financial, LLC and other Long Term Debt) were *not* included in the computation of weighted average diluted common shares outstanding as the effect of doing so would be anti-dilutive for the *three* and *nine* months ended *March 31, 2018* and *2017*:

The principal balance of the Revolving Advances is payable on the Senior Maturity Date, subject to acceleration, based upon a material adverse event clause, as defined, subjective accelerations for borrowing base reserves, as defined or upon the occurrence of any event of default under the Amended Loan Agreement or earlier termination of the Amended Loan Agreement pursuant to the terms thereof. The Term Loan shall be repaid in *eighty-four (84)* consecutive monthly installments of principal, the *first eighty-three (83)* of which shall be in the amount of \$41, commencing on the *first* business day of *March, 2016*, and continuing on the *first* business day of each month thereafter, with a final payment of any unpaid balance of principal and interest payable on the Senior Maturity Date. The foregoing is subject to customary mandatory prepayment provisions and acceleration upon the occurrence of any event of default under the Amended Loan Agreement or earlier termination of the Amended Loan Agreement pursuant to the terms thereof.

The Revolving Advances are subject to the terms and conditions set forth in the Amended Loan Agreement and are made in aggregate amounts at any time equal to the lesser of (x) \$8.0 million or (y) an amount equal to the sum of: (i) up to 85%, subject to the provisions in the Amended Loan Agreement, of eligible accounts receivables (“Receivables Advance Rate”), plus (ii) up to the lesser of (A) 75%, subject to the provisions in the Amended Loan Agreement, of the value of the eligible inventory (“Inventory Advance Rate” and together with the Receivables Advance Rate, collectively, the “Advance Rates”), (B) 85% of the appraised net orderly liquidation value of eligible inventory (as evidenced by the most recent inventory appraisal reasonably satisfactory to PNC in its sole discretion exercised in good faith) and (C) the inventory sublimit in the aggregate at any *one* time, minus (iii) the aggregate Maximum Undrawn Amount (as defined in the Amended Loan Agreement) of all outstanding Letters of Credit, minus (iv) such reserves as PNC *may* reasonably deem proper and necessary from time to time.

The Amended Loan Agreement contains customary mandatory prepayment provisions, including, without limitation the requirement to use any sales proceeds from the sale of iBio Stock to repay the Term Loan and to prepay the outstanding amount of the Revolving Advances in an amount equal to *twenty-five* percent (25%) of Excess Cash Flow for each fiscal year commencing with the fiscal year ended *June 30, 2016*, payable upon delivery of the financial statements to PNC referred to in and required by the Amended Loan Agreement for such fiscal year but in any event *not* later than *one hundred twenty (120)* days after the end of each such fiscal year, which amount shall be applied ratably to the outstanding principal installments of the Term Loan in the inverse order of the maturities thereof. The Amended Loan Agreement also contains customary representations and warranties, covenants and events of default, including, without limitation, (i) a fixed charge coverage ratio maintenance requirement and (ii) an event of default tied to any change of control as defined in the Amended Loan Agreement. Note 8. Income Taxes

On *December 22, 2017*, the U.S. enacted the Tax Cuts and Jobs Act (the “Act”), which significantly changed U.S. tax law. The Act lowered the Company’s U.S. statutory federal income tax rate from *35%* to *21%* effective *January 1, 2018*. During the *three* month and *nine* month periods ended *March 31, 2018*, the Company recognized a provision for income taxes of *\$103* and *\$397*, respectively, of which, *\$250* in the nine month period ended *March 31, 2018*, was considered a one time provisional estimate under the U.S. Securities and Exchange Commission Staff Accounting Bulletin *No. 118*. The Company’s provisional one time estimate of *\$250* included *\$263* related to the impact of re-measuring the Company’s deferred tax balances to reflect the new tax rate.

The Company re-measured certain deferred tax assets and liabilities based on the rates at which they are expected to reverse. In addition, the Company elected to record certain deferred tax assets and liabilities related to the alternative minimum tax carry forward credits now allowed to be utilized in future taxable years. The provisional estimate of *\$263* incorporates assumptions made based upon the best available interpretation of the Act and *may* change as the Company receives additional clarification and implementation guidance.

Item 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

Certain statements set forth under this caption constitute “forward-looking statements.” See “Disclosure Regarding Forward-Looking Statements” on page 1 of this Quarterly Report on Form 10-Q for additional factors relating to such statements. The following discussion should also be read in conjunction with the condensed consolidated financial statements of the Company and Notes thereto included herein and the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2017.

The Company is engaged primarily in the manufacturing, distributing, marketing and sales of vitamins, nutritional supplements and herbal products. The Company’s customers are located primarily in the United States, Luxembourg and Canada.

Business Outlook

Our future results of operations and the other forward-looking statements contained in this Quarterly Report on Form 10-Q, including this MD&A, involve a number of risks and uncertainties—in particular, the statements regarding our goals and strategies, new product introductions, plans to cultivate new businesses, future economic conditions, revenue, pricing, gross margin and costs, the tax rate, and potential legal proceedings. We are focusing our efforts to improve operational efficiency and reduce spending that may have an impact on expense levels and gross margin. In addition to the various important factors discussed above, a number of other important factors could cause actual results to differ significantly from our expectations. See the risks described in “Risk Factors” in Part II, Item 1A of this Quarterly Report on Form 10-Q.

For the nine months ended March 31, 2018, our net sales from operations decreased by \$4.6 million to approximately \$31.1 million from approximately \$35.7 million in the nine months ended March 31, 2017. Substantially all the decrease in net sales was from the Contract Manufacturing Segment with a decrease of \$4.3 million (\$6.7 million from one of our significant customers, Herbalife, offset by increased sales of \$2.0 million from Life Extension), while our other two segments, Branded Nutraceutical Segment and Other Nutraceuticals Segment, had decreased sales of \$0.1 million and \$0.2 million, respectively. The decline in sales in the nine months ended March 31, 2018 from Herbalife, was primarily due to decreased orders received from Herbalife for items that we manufacture for Herbalife and secondarily from decreases of (i) approximately \$0.6 million as a result of a scheduled shut down of Herbalife’s logistics software in August 2017, which caused Herbalife to request shipments originally scheduled for the three months ended September 30, 2017 to be shipped in June 2017 and (ii) approximately \$1.0 million as a result of discontinued items by Herbalife which were manufactured by MDC. For the nine months ended March 31, 2018, we had operating income of approximately \$1.1 million, a decrease of approximately \$1.3 million from the nine months ended March 31, 2017 of approximately \$2.4 million. Our profit margins decreased from approximately 14% of net

sales in the nine months ended March 31, 2017 to 11% of net sales in the nine months ended March 31, 2018, primarily as a result of the decreased sales in our Contract Manufacturing Segment of approximately \$4.3 million. This decline in margins was the direct result of the decreased sales in the Contract Manufacturing Segment while our fixed manufacturing costs remained substantially the same in the year over year reporting period. Our consolidated selling and administrative expenses decreased by approximately \$0.1 million to approximately \$2.5 million in the nine months ended March 31, 2018 from \$2.6 million in the nine months ended March 31, 2017.

Critical Accounting Policies and Estimates

There have been no changes to our critical accounting policies in the nine months ended March 31, 2018. Critical accounting policies and the significant estimates made in accordance with them are regularly discussed by management with our Audit Committee. Those policies are discussed under “Critical Accounting Policies” in our “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in Item 7 of our Annual Report on Form 10-K for the year ended June 30, 2017.

For the nine months ended March 31, 2018 and 2017, a significant portion of our consolidated net sales, approximately 91% and 90%, respectively, were concentrated among two customers, Life Extension and Herbalife, customers in our Contract Manufacturing Segment. Life Extension and Herbalife represented approximately 72% and 22% and 58% and 37%, respectively, of our Contract Manufacturing Segment's net sales in the nine months ended March 31, 2018 and 2017, respectively. The loss of any of these customers could have a significant adverse impact on our financial condition and results of operations. Costco Wholesale Corporation ("Costco") and BJ's Wholesale Club ("BJ's") (customers of our Branded Nutraceutical Products Segment), while not significant customers of our consolidated net sales represented approximately 33% and 13% and 73% and 0% respectively, of the Branded Nutraceutical Products Segment net sales in the nine months ended March 31, 2018 and 2017, respectively.

The decrease in net sales of approximately \$4.6 million was primarily the result of:

Net sales decreased in our Contract Manufacturing Segment by \$4.3 million primarily due to decreased sales volumes to Herbalife of approximately \$6.7 million in the nine months ended March 31, 2018 compared to the nine months ended March 31, 2017. The decline in sales in the nine months ended March 31, 2018 from Herbalife, was primarily due to decreased orders received from Herbalife for items that we manufacture for them and secondarily from (i) approximately \$0.6 million in shipments originally scheduled for the three months ended September 30, 2017 were requested by Herbalife to be shipped in the month of June 2017 due to a scheduled shut down of Herbalife's logistics software in August 2017 and (ii) approximately \$1.0 million of discontinued items by Herbalife which were manufactured by MDC. Offsetting the decline of net sales to Herbalife was an increase of sales volume to Life Extension of approximately \$2.0 million in the nine months ended March 31, 2018 compared to the nine months ended March 31, 2017.

Net sales in our Branded Nutraceutical Products Segment decreased by approximately \$0.1 million in the nine months ended March 31, 2018, primarily as the result of decreased sales of \$166,000 to Costco resulting from pricing pressures from the strong US Dollar versus the Canadian Dollar, offset, in part, by an initial net sale to BJ's in the amount of \$28,000.

Net sales in our Other Nutraceuticals segment decreased by \$0.2 million primarily as a result of the timing of shipments to our regular customers and a backlog of orders with our supplier, DSM. We expect \$0.1 million of these sales to occur in the next three months ending June 30, 2018.

Cost of sales. Cost of sales decreased by \$3.1 million to \$27.6 million for the nine months ended March 31, 2018, as compared to \$30.7 million, a decrease of 10%, for the nine months ended March 31, 2017. Cost of sales increased as a percentage of sales to 89% for the nine months ended March 31, 2018 as compared to 86% for the nine months ended March 31, 2017. The decrease in the cost of goods sold amount is consistent with the decreased net sales of approximately 13%. The increase in the cost of goods sold as a percentage of net sales, was primarily the result of the increased sales to Life Extension as a percentage of total sales in our Contract Manufacturing Segment. The cost of the raw materials for the Life Extension finished goods, on average, cost more per bottle than goods produced for our other customers in the Contract Manufacturing Segment as Life Extension tends to use raw materials with trademarked characteristics which limits the ability to negotiate pricing. Secondarily, the cost of sales increased as a percentage of sales, net as a result of the fixed manufacturing costs in our Contract Manufacturing Segment decreasing by approximately 7% from the comparable period a year ago, while our sales decreased by approximately 13%. There were no significant changes in the cost of goods sold in our other two segments other than the decreased sales in each of the other two segments.

Selling and Administrative Expenses. There was a decrease in selling and administrative expenses of \$150,000 or approximately 6% in the nine months ended March 31, 2018 as compared to the nine months ended March 31, 2017. As a percentage of sales, net, selling and administrative expenses were approximately 7.9% and 7.3% for the nine months ended March 31, 2018 and 2017, respectively. The decrease was primarily due to a decrease in salaries and employees benefits of approximately \$150,000, as the result of decreasing our sales support by two people in our Branded Nutraceutical Products Segment and a corresponding decrease in our vacation pay expense.

No other component of our selling and administrative expenses changed by more than \$13,500 other than non-cash compensation which decreased by approximately \$26,000 as there were no stock options granted in the nine month period ended March 31, 2018, whereas in the nine month period ended March 31, 2017, stock options were granted to Board Members not employed by the Company, which vested monthly over our fiscal year ended June 30, 2017.

Other income (expense), net. Other income (expense), net was approximately \$0.8 million for the nine months ended March 31, 2018 as compared to \$1.3 million for the nine months ended March 31, 2017, and is composed of:

	Nine months ended March 31, 2018 2017 (dollars in thousands)	
Interest expense	\$(694)	\$(684)
Change in fair value of derivative instruments	121	(639)
Impairment charge on investment in iBio, Inc.	(251)	-
Other income	13	41
Other income (expense), net	\$(811)	\$(1,282)

The variance in the change in fair value of derivative liabilities between the nine months ended March 31, 2017 and the nine months ended the March 31, 2018 was mainly the result of the decreased closing trading price of our common stock from \$0.19 as of June 30, 2017 to \$0.17 as of March 31, 2018 and the change in the volatility of the closing trading price of our common stock from 98.11% as of June 30, 2017 to 110.80% as of March 31, 2018. The closing trading price and the volatility of the closing trading price of our common stock are two of the variables used to calculate the estimated fair value of our derivative liabilities associated with the underlying derivative instrument.

Our interest expense for the nine months ended March 31, 2018, was approximately \$10,000 more than the nine months ended March 31, 2017. The increase in interest expense was the result of an increase in interest rates of 0.75% from the nine month period ended March 31, 2017 to the nine month period ended March 31, 2018 on our Senior Credit Facility (See Note 4 to the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q), offset by, a decrease in our outstanding debt in the amount of \$1.1 million from June 30, 2017 to March 31, 2018.

In the nine months ended March 31, 2018 we determined that there was an impairment on the carrying value of our investment in iBio, Inc. in the amount of approximately \$0.3 million resulting from the decline in the closing trading price of their common stock on the NYSE American Exchange in the six month period ended December 31, 2017 from \$0.39 per share as of June 30, 2017 to \$0.18 per share as of December 31, 2017. There was no such impairment

in the three month period ended March 31, 2018.

Other income decreased by approximately \$28,000 as the result of earning less income due to the inability of our service client to pay for the services the Company provided for back office support, logistics and operational support for a start-up company which sells over the counter pharmaceutical and nutraceutical products through retail and internet based outlets.

Federal and state income tax, net. For the nine months ended March 31, 2018 and 2017, we had state income tax, net expense of approximately \$111,000 and \$237,000, respectively, and a federal deferred and current income tax expense of \$287,000 and \$28,000, respectively. We continue to maintain a reserve on a portion of our deferred tax assets as it has been determined that based upon past losses, the Company's past liquidity concerns and the current economic environment, that it is "more likely than not" the Company's deferred tax assets may not be fully realized. The state tax expense is the result of MDC using all of its state net operating losses in the fiscal year ended 2013 tax period. All of our other subsidiaries still have adequate net operating losses for state income tax purposes to absorb any taxable income for state tax purposes.

The decrease in state income tax expense of \$126,000 is the result of the decreased net income for MDC. The increase in the federal income tax expense of \$287,000 is the result of the one-time charge for the change in the effective federal tax rate from 34% as of December 31, 2017 to 21% as of January 1, 2018, which resulted in a decrease to our deferred tax assets of \$263,000 offset by a deferred federal tax expense of approximately \$24,000.

Net (loss) income. Our net loss for the nine months ended March 31, 2018 was \$0.1 million compared to net income of \$0.8 million in the nine months ended March 31, 2017, a decrease of \$0.9 million. The decrease was primarily the result of our decreased operating income of \$1.3 million, the impairment charge on our investment in iBio, Inc. of \$0.3 million and an increased income tax expense, net of \$0.1 million, offset by the change in fair value of derivative instruments of approximately \$0.8 million.

For the Three Months Ended March 31, 2018 compared to the Three Months Ended March 31, 2017

Sales, net. Sales, net, for the three months ended March 31, 2018 and 2017 were substantially the same amount of approximately \$10.6 million and are comprised of the following:

	Three months ended		Dollar	Percentage	
	March 31,		Change	Change	
	2018	2017	2018 vs	2018 vs	
			2017	2017

Other Nutraceuticals:					
US Customers	351	260	91	35.0	%
International Customers	3	18	(15)	(83.3%))
Net sales, Other Nutraceuticals	354	278	76	27.3	%
Total net sales	\$10,575	\$10,654	\$(79)	(0.7%))

For the three months ended March 31, 2018 and 2017, a significant portion of our consolidated net sales, approximately 91% and 87%, respectively, were concentrated among two customers, Life Extension and Herbalife, customers in our Contract Manufacturing Segment. Life Extension and Herbalife represented approximately 74% and 21% and 65% and 24%, respectively, of our Contract Manufacturing Segment's net sales in the three months ended March 31, 2018 and 2017, respectively. The loss of these customers could have a significant adverse impact on our financial condition and results of operations.

The decrease in net sales of approximately \$79,000 was primarily the result of net sales decreasing in our Contract Manufacturing Segment of \$129,000 primarily due to decreased sales volumes to one of our major customers, Herbalife, of approximately \$1.2 million, in the three months ended March 31, 2018, compared to the comparable prior period, offset by increases of approximately \$0.8 million to our other major customer, Life Extension, and increases to our other customers of \$0.3 million. In the three months ended March 31, 2018, there was a change in estimate of the net sales to BJ's that occurred in the three months ended December 31, 2017, resulting in an adjustment in promotional costs from a form of advertising expense classified as selling and administrative expenses to an adjustment in the estimate sales returns and allowances in the amount of \$31,000 offsetting other sales from other US customers.

Cost of sales. Cost of sales decreased by \$0.2 million, approximately 2%, to \$9.1 million for the three months ended March 31, 2018, as compared to \$9.3 million for the three months ended March 31, 2017. Cost of sales decreased as a percentage of sales to 86.1% for the three months ended March 31, 2018 as compared to 87.5% for the three months ended March 31, 2017. The decrease in the cost of goods sold amount of approximately 2.2% is consistent with the decreased net sales of approximately 1%.

The increase in the cost of goods sold as a percentage of net sales, was primarily the result of the change in the product mix sold in our Contracting Manufacturing Segment resulting in a higher cost of raw materials in the products sold. There were no significant changes in the cost of goods sold in our other two segments.

Selling and Administrative Expenses. There was a decrease in selling and administrative expenses of approximately \$101,000 in the three months ended March 31, 2018 as compared to the three months ended March 31, 2017 or approximately 11.1%. As a percentage of sales, net, selling and administrative expenses were approximately 7.7% and 8.5% for the three months ended March 31, 2018 and 2017, respectively. The decrease was primarily due to a decrease in salaries and employees benefits of approximately \$70,000, as the result of decreasing our sales support by two people in our Branded Nutraceutical Products Segment and a corresponding decrease in our vacation pay expense, a decrease in stock option compensation expense of \$8,000 as a result of no new stock options being granted in the three month period ended March 31, 2018, and a decrease of \$12,500 in our provision for doubtful accounts receivable. No other expense within our selling and administrative expenses changed by more than \$10,000.

Other income (expense), net. Other income (expense), net was approximately \$0.2 million and \$0.1 million for the three months ended March 31, 2018 and 2017, respectively, and is composed of:

	Three months ended March 31, 2018 2017	
	(dollars in thousands)	
Interest expense	\$(232)	\$(225)
Change in fair value of derivative instruments	54	92
Impairment charge on investment in iBio, Inc.	-	-
Other income	9	10
Other income (expense), net	\$(169)	\$(123)

Our interest expense in the three months ended March 31, 2018 increased by approximately \$7,000 from the three months ended March 31, 2017, primarily as the result of the increase in interest rates of 0.75% from the three month period ended March 31, 2017 to the three month period ended March 31, 2018 on our Senior Credit Facility (See Note 4 to the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q).

The variance in the change in fair value of derivative liabilities between the three months ended March 31, 2017 to the three months ended March 31, 2018 was mainly the result of the increased closing trading price of our common stock from \$0.23 as of December 31, 2016 to \$0.21 as of March 31, 2017 and a subsequent decrease in the closing trading price of our common stock in the three month period ended March 31, 2018 to \$0.17 from \$0.18 as of December 31, 2017 to \$0.17. The volatility of the closing trading price of our stock is one of the variables used to calculate the

estimated fair value of our derivative liabilities associated with the underlying derivative instrument.

Federal and state income tax, net. For the three months ended March 31, 2018 and 2017, we had state income tax expense of approximately \$67,000 and \$68,000, respectively, and federal deferred income tax expense of \$36,000 and \$0, respectively. We continue to maintain a reserve on a portion of our deferred tax assets as it has been determined that based upon past losses, the Company's past liquidity concerns and the current economic environment, that it is "more likely than not" the Company's deferred tax assets may not be fully realized. The state tax expense is the result of MDC using all of its state net operating losses in the fiscal year ended 2013 tax period. All of our other subsidiaries still have adequate net operating losses for state income tax purposes to absorb any taxable income for state tax purposes.

Net income. Our net income for the three months ended March 31, 2018 and 2017 was approximately \$0.4 million and \$0.2 million, respectively. The increase of approximately \$0.2 million was primarily the result of increased operating income of \$0.2 million, decreased selling and administrative expenses of \$0.1 million, offset by increases in other expenses, net and federal and state income taxes, net aggregating \$0.1 million.

Seasonality

The nutraceutical business tends to be seasonal. We have found that in our first fiscal quarter ending on September 30th of each year, orders for our branded proprietary nutraceutical products are usually slow (absent the addition of new customers or a new product launch with a significant first time order), as buyers in various markets may have purchased sufficient inventory to carry them through the summer months. Conversely, in our second fiscal quarter, ending on December 31st of each year, orders for our products increase as the demand for our branded nutraceutical products, as well as sales orders from our customers in our Contract Manufacturing Segment, seem to increase in late December to early January as consumers become health conscious as they enter the new year.

The Company believes that there are other non-seasonal factors that also may influence the variability of quarterly results including, but not limited to, general economic and industry conditions that affect consumer spending, changing consumer demands and current news on nutritional supplements. Accordingly, a comparison of the Company's results of operations from consecutive periods is not necessarily meaningful, and the Company's results of operations for any period are not necessarily indicative of future periods.

Liquidity and Capital Resources

The following table sets forth, for the periods indicated, the Company's net cash flows used in operating, investing and financing activities, its period end cash and cash equivalents and other operating measures:

	For the nine months ended March 31, 2018 2017 <i>(dollars in thousands)</i>	
Net cash provided by operating activities	\$1,343	\$1,215
Net cash used in investing activities	\$(210)	\$(310)
Net cash used in financing activities	\$(1,203)	\$(1,104)
Cash at end of period	\$62	\$196

At March 31, 2018 and June 30, 2017, our working capital was approximately \$1.0 million and \$1.4 million, respectively. Our current assets decreased by \$0.3 million and current liabilities increased by approximately \$0.1 million, resulting in a decrease in our working capital of \$0.4 million.

Net cash provided by operating activities of \$1.3 million in the nine months ended March 31, 2018, includes a net loss of approximately \$0.1 million. After excluding the effects of non-cash expenses, including depreciation and amortization, and changes in the fair value of derivative liabilities, the adjusted cash provided from operations before the effect of the changes in working capital components was \$0.6 million. Cash was provided by operations from our working capital assets and liabilities in the amount of approximately \$0.7 million and was primarily the result of a net increase in accounts payable and accrued expenses and other liabilities of approximately \$0.8 million and a decrease in accounts receivable of \$0.8 million offset, in part, by an increase in inventories of \$0.9 million.

Net cash provided by operating activities of \$1.2 million in the nine months ended March 31, 2017, includes net income of approximately \$0.8 million. After excluding the effects of non-cash expenses, including depreciation and amortization, and changes in the fair value of derivative liabilities, the adjusted cash provided from operations before the effect of the changes in working capital components was \$1.9 million. Cash was used in operations from our working capital assets and liabilities in the amount of approximately \$0.7 million and was primarily the result of a net decrease in accounts payable and accrued expenses and other liabilities of approximately \$0.9 million and an increase in inventories of \$0.1 million offset, in part, by a decrease in accounts receivable of \$0.4 million.

Net cash used in investing activities of \$210,000 and \$310,000 in the nine months ended March 31, 2018 and 2017, respectively, was used for the purchase of property and equipment primarily in our Contract Manufacturing Segment.

Cash used in financing activities was approximately \$1.2 million for the nine months ended March 31, 2018, primarily as a result of repayments of advances under our revolving credit facility of approximately \$30.5 million, repayments of principal under our term notes in the amount of \$0.8 million and \$0.2 million of payments under capitalized lease obligations, offset, with \$30.1 million received from advances under our revolving credit facility and \$0.1 million in proceeds received in a sales-lease back financing for machinery and equipment in our Contract Manufacturing Segment.

Cash used in financing activities was approximately \$1.1 million for the nine months ended March 31, 2017, primarily a result of repayments of advances under our revolving credit facility of \$35.0 million and principal payments made under our term notes in the amount of \$0.7 million, offset, in part, with \$34.5 million received from advances under our revolving credit facility.

As of March 31, 2018, we had cash of \$62,000, funds available under our revolving credit facility of approximately \$1.5 million and working capital of approximately \$1.0 million. Our working capital includes \$4.3 million outstanding under our revolving line of credit which is not due until February 2020 but classified as current due to a subjective acceleration clause that could cause the advances to become currently due. (See Note 4 to the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q). Furthermore, we had income from operations of approximately \$1.1 million in the nine months ended March 31, 2018. Additionally, as of March 31, 2018, the Company was in compliance with the fixed charge coverage ratio maintenance requirement and with the required annual payments of 25% of the Excess Cash Flow for each fiscal year commencing with the fiscal year ended June 30, 2016. After taking into consideration our interim results and current projections, management believes that operations, together with the revolving credit facility will support our working capital requirements at least through the period ending May 9, 2019.

Our total annual commitments at March 31, 2018 for long term non-cancelable leases of approximately \$594,000 consists of obligations under operating leases for facilities and operating lease agreements for the rental of warehouse equipment, office equipment and automobiles.

On May 15, 2012, Cedarburg Pharmaceuticals, Inc. ("Cedarburg") sent us a letter (the "Demand Letter") setting forth a demand for indemnification under the Stock Purchase Agreement, dated March 17, 2009 (the "Cedarburg SPA"), by and among Cedarburg, InB: Hauser Pharmaceutical Services, Inc., InB: Paxis Pharmaceuticals, Inc. and the Company. In the Demand Letter, Cedarburg demanded payment by us of \$0.6 million in respect of the Company's indemnification obligations under the Cedarburg SPA. In addition, in the Demand Letter, Cedarburg informed us that there are also environmental issues pending which may lead to additional costs to Cedarburg which will likely be in excess of \$0.3 million.

On May 30, 2012, we sent a letter responding to the Demand Letter and setting forth our position that we have no obligation to indemnify Cedarburg as demanded. On June 18, 2012, Cedarburg responded to our letter and, on July 27, 2012, we sent another letter to Cedarburg reiterating our position that we have no obligation to indemnify Cedarburg as demanded. On December 18, 2012, Cedarburg responded to our letter and, on January 15, 2013, we sent another letter to Cedarburg reiterating our position that we have no obligation to indemnify Cedarburg as demanded. As of May 9, 2018, we have not received any further communication from Cedarburg with respect to its demand for indemnification as set forth in the Demand Letter. We intend to vigorously contest Cedarburg's demand as set forth in the Demand Letter.

The Company's capital expenditures for the nine months ended March 31, 2018 and 2017 were approximately \$258,000 (\$38 financed with capitalized lease obligations) and \$0.3 million, respectively. The Company has budgeted approximately \$0.3 million for capital expenditures for fiscal year 2018. The total amount is expected to be funded from lease financing and cash provided from the Company's operations.
