ITEM 8.01 OTHER EVENTS

The ATWOOD FALCON is currently working for Petronas Carigali Sdn. Bhd. ("Petronas") under an assignment of the rig's current contract with Sarawak Shell Berhad ("Shell"). The Petronas work involves the drilling of four (4) wells which is expected to take to the end of December 2007 to complete. The operating dayrate is the same as for Shell of \$160,000/\$200,000 depending upon water depth of each well drilled. At this time, we expect all of the Petronas work will be at the \$160,000 dayrate. Immediately upon completion of the Petronas drilling program, the rig will return to work for Shell.
