**FORWARD-LOOKING STATEMENTS**

*This quarterly report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements include, among other things, business strategy and expectations concerning industry conditions, market position, future operations, margins, profitability, liquidity and capital resources. Forward-looking statements generally can be identified by the use of terminology such as “may,” “will,” “expect,” “intend,” “estimate,” “anticipate” or “believe” or similar expressions or the negatives thereof. These expectations are based on management’s assumptions and current beliefs based on currently available information. Although the Company believes that the expectations reflected in such statements are reasonable, it can give no assurance that such expectations will be correct. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this quarterly report on Form 10-Q and the Company does not have any obligation to update the forward looking statements. The Company’s operations are subject to a number of uncertainties, risks and other influences, many of which are outside its control, and any one of which, or a combination of which, could cause its actual results of operations to differ materially from the forward-looking statements.*

## HYDROMER, INC. and CONSOLIDATED SUBSIDIARY

### Notes to Condensed Consolidated Financial Statements

#### Basis of Presentation:

In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments (consisting of only normal adjustments) necessary for a fair presentation of the results for the interim periods. These condensed financial statements, including notes, have been prepared in accordance with the applicable rules of the Securities and Exchange Commission and do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America. The condensed financial statements should be read in conjunction with the consolidated financial statements and other information contained in our Annual Report of Form 10-K for the year ended June 30, 2011.

#### Fair Value:

Some of the Company's financial instruments are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature, such as cash and cash equivalents, receivables and payables. The carrying amount of the Company's note obligation approximates its fair value, as the terms of the note is consistent with terms available in the market for instruments with similar risk.

In accordance with FASB ASC 820, "Fair Value Measurements and Disclosures", the following table represents the Company's fair value hierarchy for its financial assets and liabilities measured at fair value on a recurring basis as of June 30, 2011. There were no reportable financial assets or liabilities as of December 31, 2011.

as of June 30, 2011	Level 1	Level 2	Level 3	Total
Assets				
Short-Term Investments	\$ <u>50,000</u>			\$ <u>50,000</u>
Total Assets	\$ <u>50,000</u>	-	-	\$ <u>50,000</u>
Liabilities - n/a				
	-	-	-	-

Segment Reporting:

The Company operates two primary business segments. The Company evaluates the segments by revenues, total expenses and earnings before taxes. Corporate Overhead (primarily the salaries and benefits of senior management, support services (Accounting, Legal, Human Resources and Purchasing) and other shared services (building maintenance and warehousing)) are excluded from the business segments as to not distort the contribution of each segment. These segments are the lowest levels for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities.

The results for the six months ended December 31, by segment are:

	Polymer Research	Medical Products	Corporate Overhead	Total
2011				
Revenues	\$ 2,177,765 <sub>2</sub>	\$ 663,540 <sub>2</sub>		\$ 2,841,305 <sub>2</sub>
Expenses	(1,764,113)	(526,722)	\$ (796,417)	(3,087,252)
Pre-tax Income (Loss)	<u>\$ 413,652</u>	<u>\$ 136,818</u>	\$ (796,417)	<u>\$ (245,947)</u>
2010				
Revenues	\$ 1,755,262 <sub>2</sub>	\$ 706,755 <sub>2</sub>		\$ 2,462,017 <sub>2</sub>
Expenses	(1,647,639)	(647,048)	\$ (829,668)	(3,124,355)
Pre-tax Income (Loss)	<u>\$ 107,623</u>	<u>\$ 59,707</u>	\$ (829,668)	<u>\$ (662,338)</u>

Geographic revenues were as follows for the six months ended December 31,

	2011	2010
Domestic	63%	67%
Foreign	37%	33%

Subsequent Events:

As a result of the net loss for the six months ended December 31, 2011, the Company did not meet a mortgage covenant. A waiver has been granted by the lender for the period. Although a waiver was granted by the lender, there

is no certainty that future waivers would be granted.

## Item #2

### **MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

#### Results of Operations

The Company's revenues for the quarter ended December 31, 2011 were \$1,392,708, \$186,583 or 15.5% higher than the \$1,206,125 for the same period the previous year. For the six month period ended December 31, revenues were \$2,841,305 during the current fiscal year, as compared with \$2,462,017 the year before or \$379,288 better (15.4%). Revenues are comprised of the sale of Products and Services and Royalty and Contract payments.

Product sales were \$744,189 for the quarter ended December 31, 2011 as compared to \$560,330 for the same period the year before, a \$183,859 (32.8%) increase -- from stronger demand for our patented T-HEXX<sup>®</sup> Animal Health products (Viscosity Modifiers for blending into barrier teat dips, T-HEXX DRY external teat sealant for the non-lactating periods, the 2010 spring launched Dragonhyde<sup>®</sup> Hoof Bath Concentrate and new Dragonhyde PUTTY). Increased demand for our anti-fog condensation control coatings from new Asian customers were offset by lower equipment sales, a periodic activity and delayed Cosmetics / Personal Care product sales. For the six month period, product sales were \$1,501,239 for the 2011 year as compared with \$1,210,734 for the 2010 year, higher by \$290,505 (24.0%), also, due to the T-HEXX Animal Health line.

Services revenues, comprising of contract coating services, for the three months ended December 31, 2011 was \$371,248 or \$29,820 lower (7.4%) than the \$401,068 the corresponding period the year before. For the six month periods ended December 31, 2011 and December 31, 2010, services revenues were \$721,647 and \$770,389, respectively or \$48,742 lower (6.3%). As previously reported, except as a result from new customers, we anticipate a continued decrease in Contract Services revenues as some customers are converting to be medical chemical polymer purchasers (for coatings applications themselves or via a third party), some involving their purchase of our coating equipment (see Product sales above). These "converted" customers can also allow for additional revenues from Supply and Support Agreements (see Royalty and Contract revenues following).

Classified as Royalty and Contract revenues are royalties received and the periodic recurring payments from license, stand still and other agreements other than for product and services. Also included in Royalty and Contract revenues

are revenues from support and supply agreements which avails our customers to continued technical support and/or guaranteed access to our proprietary coatings and may include the transfer of technical know-how (coatings procedures). Some of the royalties and support fees are based on the net sales of the final item (to which the Hydromer technology is applied to) and are subject to the reporting of our customers. For the six months ended December 31, 2011, Royalty and Contract revenues were \$618,419, compared to \$480,894 the same period a year ago, an increase of \$137,525 (28.6%). In this year's results was \$90,000 in new technology know-how transfers.

Total Expenses for the quarter ended December 31, 2011 were \$1,467,794 as compared with \$1,404,081 the year before, a 4.5% increase. For the six months ended December 31, 2011, Total Expenses were \$3,002,580 as compared with \$2,914,923 the previous year, a 3.0% increase.

For the quarter ended December 31, 2011, the Company's Cost of Goods Sold was \$422,119 as compared with \$321,983 the year prior, higher by \$100,136 or 31.1%, a result of the 32.8% increase in product sales. For the six month period ended December 31, 2011, Cost of Goods Sold was \$838,131 as compared with \$748,582 the same period a year ago. The \$89,549 increase (12.0%) was due to higher product sales as offset by lower manufacturing labor costs.

Operating expenses were \$1,037,556 for the quarter ended December 31, 2011 as compared with \$1,077,919 the year before, lower by \$40,363 or 3.7%, due to lower Sales & Marketing expenditures this year (tradeshows, travel, advertising). For the six months ended December 31, 2011, Operating expenses were \$2,142,881 or \$134,330 lower (5.9%) than the previous year's \$2,277,211. In addition to lower Sales & Marketing expenditures, lower staffing levels and utilities usage attributed to the improvement

Interest expense, foreign currency exchanges gains/losses, interest income and other income are included in Other Expenses. Interest expense (primarily mortgage interest) for the six months ended December 31, 2011 and December 31, 2010 were \$98,743 and \$101,032, respectively.

A net loss of \$75,086 (\$0.02 per share) is reported for the quarter ended December 31, 2011 as compared to a net loss of \$197,956 (\$0.04 per share) the year before. A net loss of \$161,275 (\$0.03 per share) is reported for the six months ended December 31, 2011 as compared to a net loss of \$452,906 (\$0.09 per share) the year before.

Revenue growth of \$379,288 (primarily from our T-HEXX Animal Health division) along with just \$87,657 in higher expenses (essentially of higher material Cost of Goods Sold due to the higher volume of Product Sales; with Operating Expense reductions offset by a decrease in Income Tax Benefits) yielded the \$291,631 improvement to the bottom line. Management expects this continued course of revenue growth with only minimal expense changes to be the trend.

Financial Condition

Working capital decreased \$189,065 during the six months ended December 31, 2011.

For the six months ended December 31, 2011, operating activities used \$75,067 in net cash.

The net loss, as adjusted for non-cash expenses of depreciation and amortization and deferred income taxes, used \$38,293 in cash. The net change in operating assets and liabilities used an additional \$36,774 in cash. Reductions to inventories and prepaid expenses were offset by decreases to accounts payable and accrued expenses and deferred income, netting to the increase in trade receivables as the net use of cash in operating assets and liabilities.

Investing activities used \$39,636 and financing activities used \$26,733 during the six months ended December 31, 2011.

Investing activities for the six months ended December 31, 2011 included \$31,880 for capital expenditures, \$57,756 towards the Company's patent estate and the redemption of matured short-term investments of \$50,000. Reported under Financing activities was the repayment of the principal portion of the mortgage.

There were two significant events in 2009 that impacted our profitability: the cancellation and subsequent replacement of a significant supply & support agreement which impacted both revenues and cash by \$780,000 annually and the sales of various medical device product lines which reduced the subsequent contributions to profits. While we have overcome the impact from the sales of product lines, we have not yet been able to fully overcome the 2009 supply & support cancellation. However, we believe that recovery is near as seen in our current results: a modest six-month net loss of \$161,275, and more particularly the revenue growth, especially in our T-HEXX Animal Health product line where our R&D resources in recent years have been dedicated. Until the Company is able to achieve the required revenue level to reach profitability, which it believes is near term, it is imperative that the Company is able to maintain its liquidity and cash reserves.

**Item # 4**

Disclosure Controls and Procedures

As of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and President and the Chief Financial Officer, of the effectiveness of the design and operation of the disclosure controls and procedures.

Based upon this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, our disclosure controls and procedures were effective and that there were no changes to our Company's internal control over financial reporting that have materially affected, or is reasonably likely to materially affect the Company's internal control over financial reporting during the period covered by the Company's quarterly report.

**PART II – Other Information**

The Company operates entirely from its sole location at 35 Industrial Parkway in Branchburg, New Jersey, an owned facility secured by a mortgage through a bank.

The existing facility will be adequate for the Company's operations for the foreseeable future.
