Notes to Condensed Consolidated Financial Statements

(Unaudited)

1. DESCRIPTION OF BUSINESS

Alexander & Baldwin, Inc. ("A&B" or the "Company") is headquartered in Honolulu and operates three segments: Commercial Real Estate ("CRE"); Land Operations; and Materials & Construction ("M&C"). In the fourth quarter of 2017, the Company completed a conversion process to comply with the requirements to be treated as a real estate investment trust ("REIT") commencing with the taxable year ended December 31, 2017.

On November 16, 2017, the Company declared a special distribution to its shareholders in the aggregate amount of \$783.0 million (approximately \$15.92 per share) (the "Special Distribution") in connection with its conversion to a REIT. On January 23, 2018, the Company completed the Special Distribution to shareholders in the form of \$156.6 million of cash dividends and issuance of \$626.4 million of common shares. As of June 30, 2018, the Company had 72.0 million shares outstanding.

2. BASIS OF PRESENTATION

The interim condensed consolidated financial statements are unaudited. Because of the nature of the Company's operations, the results for interim periods are not necessarily indicative of results to be expected for the year. While these condensed consolidated financial statements reflect all normal recurring adjustments that are, in the opinion of management, necessary for fair presentation of the results of the interim period, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. Therefore, the interim condensed consolidated financial statements should be read in conjunction with the consolidated balance sheets as of December 31, 2017 and 2016, and the related consolidated statements of operations, comprehensive income (loss), equity, and cash flows for each of the three years in the period ended December 31, 2017 and the notes thereto included in the Company's Annual Report filed on Form 10-K for the year ended December 31, 2017 ("2017 Form 10-K"), and other subsequent filings with the U.S. Securities and Exchange Commission.

Reclassifications: Certain amounts in the Company's prior period condensed consolidated financial statements have been reclassified to conform to the current period presentation. In connection with the adoption of Accounting Standards Update ("ASU") No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash, transfers to or from restricted cash which have previously been shown in the Company's investing activities section of the condensed consolidated statements of cash flows are now required to be shown as part of the total change in cash, cash equivalents and restricted cash in the condensed consolidated statements of cash flows. This change resulted in a decrease in cash flows used in investing activities of \$5.4 million during the six months ended June 30, 2017. Additionally, the Company disaggregated and separately presented long-term costs of its employee benefit plans within Accrued retirement benefits in its condensed consolidated balance sheet. In connection with such presentation, the Company reclassified \$2.8 million of accrued costs related to its non-qualified benefit plans from Other non-current liabilities and \$19.9 million of accrued costs related to its qualified pension and post-retirement benefit plans from Accrued pension and post-retirement benefits in its condensed consolidated balance sheet as of December 31, 2017.

Rounding: Amounts in the condensed consolidated financial statements and notes are rounded to the nearest tenth of a million. Accordingly, a recalculation of some per-share amounts and percentages, if based on the reported data, may result in differences.

Significant Accounting Policies: The Company's significant accounting policies are described in Note 2 to the consolidated financial statements included in Item 8 of the Company's 2017 Form 10-K. Changes to significant accounting policies are included herein.

Revenue recognition

Sources of revenue for the Company primarily include commercial property rentals, sales of real estate, real estate development projects, material sales and paving construction projects. The Company generates revenue from three distinct business segments:

Commercial Real Estate: The Commercial Real Estate segment owns, operates, leases, and manages a portfolio of retail, office, and industrial properties in Hawai`i; it also leases urban land in Hawai`i to third-party lessees. Commercial Real Estate revenue is recognized on a straight-line basis over the term of the corresponding lease. Also included in rental revenues are certain tenant reimbursements and percentage rents determined in accordance with the terms of the lease. The Company records revenue

7

for real estate taxes paid by its tenants for commercial properties with an offsetting expense in Cost of Commercial Real Estate in the accompanying condensed consolidated statement of operations, as the Company has concluded it is the primary obligor.

Land Operations: Revenues from sales of real estate are recognized at the point in time when control of the underlying goods is transferred to the customer and the payment is due (generally on the closing date). For certain development projects the Company will use a percentage of completion for revenue recognition. Under this method, the amount of revenue recognized is based on the development costs that have been incurred throughout the reporting period as a percentage of total expected developments associated with the development project.

Materials & Construction: Revenue from the Materials & Construction segment is primarily generated from material sales and paving and construction contracts. The recognition of revenue is based on the underlying terms of the transactions.

Materials: Revenues from material sales, which include basalt aggregate, liquid asphalt and hot mix asphalt, are usually recognized at a point in time when control of the underlying goods is transferred to the customers (generally this occurs when materials are picked up by customers or their agents) and when the Company has a present right to payment for materials sold.

Construction: The Company's construction contracts generally contain a single performance obligation as the promise to transfer individual goods or services are not separately identifiable from other promises in the contracts and is, therefore, not distinct. Revenue is earned from construction contracts over a period of time as control is continuously transferred to customers.

Construction contracts can generally be categorized into two types of contracts with customers based on the respective payment terms; either lump sum or unit priced. Lump sum contracts require the total amount of work be performed under a single fixed price irrespective of actual quantities or actual costs. Earnings on both unit price contracts and lump sum fixed-price paving contracts are recognized using the percentage of completion, cost-to-cost, input method as it is able to faithfully depict the transfer of control of the underlying assets to the customer. Certain construction contracts include retainage provisions. The balances billed but not paid by customers pursuant to these provisions generally become due upon completion and acceptance of the project work or products by the owners.

The Company deems its contract prices reflective of the standalone selling prices of the underlying goods and services since the contracts are required to go through a competitive bidding process. The Company recognizes revenue on a net basis excluding indirect taxes, such as sales tax and value added tax collected from customers and remitted to government authorities.

Interest and other income (expense), net

Interest and other income (expense), net is primarily comprised of the non-service cost components of pension and postretirement benefit expense and interest income. For the three and six months ended June 30, 2018 and 2017, Interest and other income (expense), net included the following:

	Three Months		Six Months	
	Ended June		Ended June	
	30,	30,	30,	30,
(in millions)	2018	2017	2018	2017
Pension and postretirement benefit expense	\$(0.8)	\$(0.7)	\$(1.5)	\$(1.4)
Interest income	0.1	1.3	0.2	2.3
Other income (expense)	0.1	(0.1)	—	(0.1)
Interest and other income (expense), net	\$(0.6)	\$0.5	\$(1.3)	\$0.8

Interest costs on developments and major redevelopments are capitalized as part of real estate development and redevelopment projects that have not yet been placed into service. Capitalization of interest commences when development activities and expenditures begin and end upon completion, which is when the asset is ready for its intended use. Capitalized interest costs related to development activities were \$0.2 million and \$0.5 million for the six months ended June 30, 2018 and 2017, respectively.

Recently adopted accounting pronouncements

In May 2014, Financial Accounting Standards Board (the "FASB") issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606) ("ASU 2014-09") to provide guidance for revenue recognition and has superseded the revenue recognition requirements in FASB Accounting Standards Codification ("ASC") 605, as well as most industry-specific guidance. Under ASU 2014-09, revenue is recognized when a customer obtains control of the promised goods or services in an amount that reflects the consideration the entity expects to be entitled to in exchange for those goods or services.

The Company adopted the provisions of ASU 2014-09 as of January 1, 2018 using the modified retrospective transition method and applied ASU 2014-09 to those contracts that were not completed as of January 1, 2018 and whose revenue was historically accounted for under ASC 605. The cumulative impact of the adoption was a net reduction to other assets and distributions in excess of retained earnings of \$1.4 million as of January 1, 2018. In accordance with ASU 2014-09, the disclosure of the impact of adoption to our condensed consolidated balance sheet was as follows (in millions):

	Balance as of December 31, 2017	Impact of adoption	Balance as of January 1, 2018
Other Assets	\$ 56.2	\$ (1.4)	\$ 54.8
Distributions in excess of accumulated earnings	\$ (473.0)	\$ (1.4)	\$ (474.4)

The adoption of ASU 2014-09 did not significantly impact the Company's revenue recognition treatment for its Materials & Construction business segment due to the short term duration of the Company's construction contracts. The Company's Commercial Real Estate business segment recognizes its revenue under the accounting framework of ASC 840, Leases and is therefore excluded from the scope of ASU 2014-09.

In May 2017, the FASB issued ASU No. 2017-09, Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting. The guidance clarifies when changes to the terms or conditions of a share-based payment award must be accounted for as modifications. The guidance is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. The adoption of this standard did not have an impact on the Company's financial position or results of operations.

Recently issued accounting pronouncements

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments which requires the measurement and recognition of expected credit losses for financial assets held at amortized cost. The guidance replaces the existing incurred loss impairment model with an expected loss methodology, which will result in more timely recognition of credit losses. This ASU is effective for annual reporting periods, and interim periods within those years, beginning after December 15, 2019. The Company is currently assessing the impact that adopting this new accounting standard will have on its consolidated financial statements and footnote disclosures.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842) ("ASU 2016-02"). ASU 2016-02 requires the identification of arrangements that should be accounted for as leases by lessees. In general, lease arrangements exceeding a twelve month term must now be recognized as assets and liabilities on the balance sheet of the lessee. Under ASU 2016-02, a right-of-use asset and lease obligation will be recorded for all leases, whether operating or financing, while the income statement will reflect lease expense for operating leases and amortization/interest expense for financing leases. The balance sheet amount recorded for existing leases at the date of adoption of ASU 2016-02 must be calculated using the applicable incremental borrowing rate at the date of adoption. This ASU is effective for financial statements issued for fiscal years beginning after December 15, 2018. The FASB has subsequently issued other related ASUs, which amend ASU 2016-02 to provide transition practical expedients that an entity may elect to apply and other guidance. The Company is currently in the process of assessing the inventory of its leases that will be impacted by the adoption. The Company does not expect the adoption of the new guidance to have a material impact on the accounting treatment and disclosures of the Company's leases.

In August 2017, the FASB issued ASU 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities. The guidance amends the hedge accounting model in ASC 815 to enable entities to better portray the economics of their risk management activities in the financial statements and enhance the transparency and understandability of hedge results. The amendments expand an entity's ability to hedge nonfinancial and financial risk components and reduce complexity in fair value hedges of interest rate risk. This ASU eliminates

the requirement to separately measure and report hedge ineffectiveness and generally requires the entire change in the fair value of a hedging instrument to be presented in the same income statement line as the hedged item. This ASU is effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted in any interim period or fiscal year before the effective date. For cash flow and net investment hedges existing at the date of adoption, entities will apply the new guidance using a modified retrospective approach (i.e., with a cumulative effect adjustment recorded to the opening balance of retained earnings as of the initial application date). The guidance provides transition relief to make it easier for entities to apply certain amendments to existing hedges (including fair value hedges) where the hedge documentation needs to be modified. The presentation and disclosure

requirements apply prospectively. The Company is currently assessing the impact that adopting this new accounting standard will have on its consolidated financial statements and footnote disclosures.

In February 2018, the FASB issued ASU 2018-02, Income Statement—Reporting Comprehensive Income (Topic 220). The guidance permits entities to reclassify tax effects stranded in accumulated other comprehensive income as a result of tax reform to retained earnings, giving entities the option to reclassify these amounts rather than require reclassification. The FASB also gave entities the option to apply the guidance retrospectively or in the period of adoption. When adopted, the standard requires all entities to make new disclosures, regardless of whether they elect to reclassify stranded amounts. Entities are required to disclose whether or not they elected to reclassify the tax effects related to the Tax Cuts and Jobs Act of 2017 as well as their policy for releasing income tax effects from accumulated OCI. This ASU is effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Entities are able to early adopt the guidance in any interim or annual period for which financial statements have not yet been issued and apply it either (1) in the period of adoption or (2) retrospectively to each period in which the income tax effects of the Tax Cuts and Jobs Act of 2017 related to items in accumulated OCI are recognized. The Company is currently assessing the impact that adopting this new accounting standard will have on its consolidated financial statements and footnote disclosures.

In June 2018, the FASB issued ASU 2018-07, Compensation - Stock Compensation (Topic 718): Improvements to Nonemployee Share-Based Payment Accounting. The guidance expands the scope of ASC 718 to include share-based payment transactions with the exception of specific guidance related to the attribution of compensation cost. The guidance also clarifies that any share-based payment awards issued to customers should be evaluated under ASC 606. This ASU is effective for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years. The Company is currently assessing the impact that adopting this new standard will have on its consolidated financial statements and footnote disclosures.

3.COMMITMENTS AND CONTINGENCIES

Commitments, Guarantees and Contingencies: Commitments and financial arrangements not recorded on the Company's condensed consolidated balance sheet, excluding lease commitments that are disclosed in Note 9 of the Company's 2017 Form 10-K, included the following (in millions) as of June 30, 2018:

Standby letters of credit ^(a)	\$11.8
Bonds ^(b)	\$437.5

^(a) Consists of standby letters of credit, issued by the Company's lenders under the Company's revolving credit facilities, and relate primarily to the Company's real estate activities. In the event the letters of credit are drawn upon, the Company would be obligated to reimburse the issuer of the letter of credit.

^(b) Represents bonds related to construction and real estate activities in Hawai'i. Approximately \$412.2 million is related to construction bonds issued by third party sureties (bid, performance and payment bonds) and the remainder is related to commercial bonds issued by third party sureties (permit, subdivision, license and notary bonds). In the event the bonds are drawn upon, the Company would be obligated to reimburse the surety that issued the bond.

Indemnity Agreements: For certain real estate joint ventures, the Company may be obligated under bond indemnities to complete construction of the real estate development if the joint venture does not perform. These indemnities are designed to protect the surety in exchange for the issuance of surety bonds that cover joint venture construction activities, such as project amenities, roads, utilities, and other infrastructure, at its joint ventures. Under the indemnities, the Company and its joint venture partners agree to indemnify the surety bond issuer from all losses and expenses arising from the failure of the joint venture to complete the specified bonded construction. The maximum potential amount of aggregate future payments is a function of the amount covered by outstanding bonds at the time of default by the joint venture, reduced by the amount of work completed to date. The recorded amounts of the indemnity liabilities were not material individually or in the aggregate.

The Company is a guarantor of indebtedness for certain of its unconsolidated joint ventures' borrowings with third party lenders, relating to the repayment of construction loans and performance of construction for the underlying project. As of June 30, 2018, the Company's limited guarantees on indebtedness related to two of its unconsolidated joint ventures totaled \$3.1 million. The Company has not incurred any significant historical losses related to guarantees on its joint venture indebtedness.

Other than obligations described above and those described in the Company's 2017 Form 10-K, obligations of the Company's joint ventures do not have recourse to the Company and the Company's "at-risk" amounts are limited to its investment.

Legal Proceedings and Other Contingencies: A&B owns 16,000 acres of watershed lands in East Maui. A&B also held four water licenses to another 30,000 acres owned by the State of Hawai`i in East Maui. The last of these water license agreements

expired in 1986, and all four agreements were then extended as revocable permits that were renewed annually. In 2001, a request was made to the State Board of Land and Natural Resources (the "BLNR") to replace these revocable permits with a long-term water lease. Pending the conclusion by the BLNR of this contested case hearing on the request for the long-term lease, the BLNR has kept the existing permits on a holdover basis. Three parties filed a lawsuit on April 10, 2015 (the "4/10/15 Lawsuit") alleging that the BLNR has been renewing the revocable permits annually rather than keeping them in holdover status. The lawsuit asks the court to void the revocable permits and to declare that the renewals were illegally issued without preparation of an environmental assessment ("EA"). In December 2015, the BLNR decided to reaffirm its prior decisions to keep the permits in holdover status. This decision by the BLNR is being challenged by the three parties. In January 2016, the court ruled in the 4/10/15 Lawsuit that the renewals were not subject to the EA requirement, but that the BLNR lacked legal authority to keep the revocable permits in holdover status beyond one year. The court has allowed the parties to make an immediate appeal of this ruling. In May 2016, the Hawai'i State Legislature passed House Bill 2501, which specified that the BLNR has the legal authority to issue holdover revocable permits for the disposition of water rights for a period not to exceed three years. The governor signed this bill into law as Act 126 in June 2016. Pursuant to Act 126, the annual authorization of the existing holdover permits was sought and granted by the BLNR in December 2016 and November 2017. In addition, on May 24, 2001, petitions were filed by a third party, requesting that the Commission on Water Resource Management of the State of Hawai'i ("Water Commission") establish interim instream flow standards ("IIFS") in 27 East Maui streams that feed the Company's irrigation system. The Water Commission initially took action on the petitions in 2008 and 2010, but the petitioners requested a contested case hearing to challenge the Water Commission's decisions on certain petitions. The Water Commission denied the contested case hearing request, but the petitioners successfully appealed the denial to the Hawai'i Intermediate Court of Appeals, which ordered the Water Commission to grant the request. The Commission then authorized the appointment of a hearings officer for the contested case hearing and expanded the scope of the contested case hearing to encompass all 27 petitions for amendment of the IIFS for East Maui streams in 23 hydrologic units. The evidentiary phase of the hearing before the Commission-appointed hearings officer was completed on April 2, 2015. On January 15, 2016, the Commission-appointed hearings officer issued his recommended decision on the petitions. The recommended decision would restore water to streams in 11 of the 23 hydrologic units. In March 2016, the hearings officer ordered a reopening of the contested case proceedings in light of the Company's January 2016 announcement to cease sugar operations at the former Hawaiian Commercial & Sugar Company ("HC&S") by the end of the year and to transition to a new diversified agricultural model on the former sugar lands. In April 2016, the Company announced its commitment to fully and permanently restore the priority "taro" streams identified by the petitioners. Re-opened evidentiary hearings occurred in the first quarter of 2017 and the hearings officer in the re-opened evidentiary hearings issued his proposed decision in August 2017. After hearing arguments on the proposed decision in October 2017, the Commission issued its final decision on June 20, 2018. The Commission's decision confirmed the Company's prior voluntary commitment to fully and permanently restore seven taro streams. It additionally called for the full restoration of three additional streams, partially restored flow in five streams to support habitat for native stream life, and provided for minimum connectivity flows in seven streams to allow for passage of biota across diversion structures in those streams. No party appealed the Commission's decision by July 20, 2018, the deadline for any such appeal.

HC&S also used water from four streams in Central Maui ("Na Wai Eha") to irrigate its agricultural lands in Central Maui. Beginning in 2004, the Water Commission began proceedings to establish IIFS for the Na Wai Eha streams. Before the IIFS proceedings were concluded, the Water Commission designated Na Wai Eha as a surface water management area, meaning that all uses of water from these streams required water use permits issued by the Water Commission. Following contested case proceedings, the Water Commission established IIFS in 2010, but that decision was appealed, and the Hawai'i Supreme Court remanded the case to the Water Commission for further proceedings. The parties to the IIFS contested case settled the case in 2014. Thereafter, proceedings for the issuance of water use permits commenced with over 100 applicants, including HC&S, vying for permits. While the water use permit proceedings were ongoing, A&B announced the cessation of sugar cane cultivation at the end of 2016. This announcement triggered a re-opening and reconsideration of the 2014 IIFS decision. Contested case proceedings were

held to simultaneously reconsider the IIFS, determine appurtenant water rights, and consider applications for water use permits. Based on those proceedings, the Hearing Officer issued his recommendation to the Water Commission on November 1, 2017. The Commission has not yet issued its decision.

If the Company is not permitted to use sufficient quantities of stream waters, it would have a material adverse effect on the Company's pursuit of a diversified agribusiness model in subsequent years and the value of the Company's agricultural lands.

A&B is a party to, or may be contingently liable in connection with, other legal actions arising in the normal conduct of its businesses, the outcomes of which, in the opinion of management after consultation with counsel, would not have a material effect on A&B's consolidated financial statements as a whole.

4. EARNINGS PER SHARE ("EPS")

Basic earnings per common share excludes dilution and is calculated by dividing net earnings allocated to common shares by the weighted-average number of common shares outstanding for the period. Diluted earnings per common share is calculated by dividing net earnings allocated to common shares by the weighted-average number of common shares outstanding for the period, as adjusted for the potential dilutive effect of non-participating share-based awards as well as adjusted by the number of additional shares, if any, that would have been outstanding had the potentially dilutive common shares been issued.

The following table provides a reconciliation of income (loss) from continuing operations to income (loss) from continuing operations available to A&B shareholders (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Income (loss) from Continuing Operations, net of income taxes	\$2.9	\$4.0	\$50.4	\$8.6
Less: Income (loss) attributable to noncontrolling interest	(0.5)	(0.5)	(0.6)	(1.2)
Income (loss) from continuing operations attributable to A&B shareholders, net of income taxes	2.4	3.5	49.8	7.4
Undistributed earnings allocated to redeemable noncontrolling interest	—	0.2	—	0.7
Income (loss) from continuing operations available to A&B shareholders, net of income taxes	2.4	3.7	49.8	8.1
Income (loss) from discontinued operations available to A&B shareholders, net of income taxes	0.1	0.8	—	3.2
Net income (loss) available to A&B shareholders	\$2.5	\$4.5	\$49.8	\$11.3

The number of shares used to compute basic and diluted earnings per share is as follows (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Denominator for basic EPS - weighted average shares outstanding	72.0	49.2	69.2	49.1
Effect of dilutive securities:				
Non-participating stock options and restricted stock unit awards	0.3	0.4	0.4	0.5
Special Distribution	—	—	2.7	—
Denominator for diluted EPS - weighted average shares outstanding	72.3	49.6	72.3	49.6

There were 0.2 million shares of anti-dilutive securities outstanding during the three and six months ended June 30, 2018. The number of anti-dilutive securities outstanding during the three and six months ended June 30, 2017 were immaterial.

5. FAIR VALUE OF FINANCIAL INSTRUMENTS

Other than disclosed as follows, the fair value of the Company's financial instruments approximate their carrying values due to their terms and/or short-term nature.

The carrying amount and fair value of the Company's debt at June 30, 2018 was \$790.8 million and \$781.4 million, respectively, and \$631.2 million and \$642.3 million at December 31, 2017 respectively. The fair value of debt is calculated by discounting the future cash flows of the debt at rates based on instruments with similar risk, terms and maturities as compared to the Company's existing debt arrangements (level 2).

The Company carries its interest rate swaps at fair value. See Note 16 for fair value information regarding the Company's derivative instruments.

6. INVENTORIES

Inventories are stated at the lower of cost (principally average cost, first-in, first-out basis) or net realizable value. Inventories as of June 30, 2018 and December 31, 2017 were as follows (in millions):

12

	June 30, December 31,	
	2018	2017
Asphalt	\$ 8.2	\$ 12.2
Processed rock and sand	13.7	13.5
Work in progress	3.4	2.8
Retail merchandise	1.7	1.7
Parts, materials and supplies inventories	1.7	1.7
Total	\$ 28.7	\$ 31.9

7. SHARE-BASED PAYMENT AWARDS

The following table summarizes the Company's stock option activity for the six months ended June 30, 2018 (in thousands, except weighted-average exercise price and weighted-average contractual life):

	2012 Plan Stock Options	Weighted- Average Exercise Price	Weighted- Average Contractual Life	Aggregate Intrinsic Value
Outstanding, January 1, 2018	630.5	\$ 12.58		
Exercised	(11.3)	\$ 12.24		
Outstanding, June 30, 2018	619.2	\$ 12.58	2.5	\$ 6,893
Vested or expected to vest	619.2	\$ 12.58	2.5	\$ 6,893
Exercisable, June 30, 2018	619.2	\$ 12.58	2.5	\$ 6,893

The following table summarizes non-vested restricted stock unit activity for the six months ended June 30, 2018 (in thousands, except weighted-average grant-date fair value amounts):

	2012 Plan Restricted Stock Units	Weighted- Average Grant-date Fair Value
Outstanding, January 1, 2018	318.9	\$ 36.66
Anti-dilutive adjustment for Special Distribution	182.9	
Granted	248.4	\$ 28.76
Vested	(175.2)	\$ 22.48
Canceled	(66.0)	\$ 24.47
Outstanding, June 30, 2018	509.0	\$ 25.91

The time-based restricted stock units granted to employees vest ratably over a period of 3 years. The time-based restricted stock units granted to non-employee directors prior to 2018 vest ratably over a period of 3 years, and the time-based restricted stock units granted to non-employee directors during 2018 vest over 1 year. The market-based performance share units cliff vest over 3 years, provided that the total shareholder return of the Company's common stock over the relevant period meets or exceeds pre-defined levels of total shareholder returns relative to indices, as defined.

The fair value of the Company's time-based awards is determined using the Company's stock price on the date of grant. The fair value of the Company's market-based awards is estimated using the Company's stock price on the date of grant and the probability of vesting using a Monte Carlo simulation with the following weighted-average assumptions:

	2018 Grants	2017 Grants
Volatility of A&B common stock	22.7 %	25.4 %
Average volatility of peer companies	21.6 %	25.7 %
Risk-free interest rate	2.3 %	1.5 %

The Company recognizes compensation cost net of actual forfeitures of time-based or market-based awards. A summary of compensation cost related to share-based payments is as follows (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Share-based expense				
Time-based and market-based restricted stock units	\$1.4	\$1.1	\$2.7	\$2.2
Total share-based expense	1.4	1.1	2.7	2.2
Total recognized tax benefit	(0.2)	(0.4)	(0.3)	(0.8)
Share-based expense (net of tax)	\$1.2	\$0.7	\$2.4	\$1.4

8. RELATED PARTY TRANSACTIONS

Construction Contracts and Material Sales. The Company entered into contracts in the ordinary course of business, as a supplier, with affiliates that are members in entities in which the Company also is a member. Revenues earned from transactions with affiliates were \$1.8 million and \$6.0 million for the three months ended June 30, 2018 and 2017, respectively. Revenues earned from transactions with affiliates were \$6.3 million and \$9.9 million for the six months ended June 30, 2018 and 2017, respectively. Receivables from these affiliates were \$2.1 million and \$2.9 million as of June 30, 2018 and December 31, 2017. Amounts due to these affiliates were \$2.1 million as of June 30, 2018 and immaterial as of December 31, 2017.

Commercial Real Estate. The Company entered into contracts in the ordinary course of business, as a lessor of property, with unconsolidated affiliates in which the Company has an interest, as well as with certain entities that are partially owned by a director of the Company. Revenues earned from transactions with affiliates were \$0.8 million and \$1.2 million for the three months ended June 30, 2018 and 2017, respectively. Revenues earned from these transactions were \$2.3 million and \$2.6 million for the six months ended June 30, 2018 and 2017, respectively. Receivables from these affiliates were \$0.2 million as of June 30, 2018 and December 31, 2017.

Land Operations. During the three and six months ended June 30, 2017, the Company-recorded developer fee revenues were \$0.9 million and \$1.6 million, respectively, related to management and administrative services provided to certain unconsolidated investments in affiliates. Developer fee revenues recorded in 2018 were immaterial. Receivables from these affiliates were immaterial as of June 30, 2018 and December 31, 2017.

In 2017, the Company extended a five-year construction loan secured by a mortgage on real property to one of its joint ventures. Receivables from this affiliate were \$11.8 million as of June 30, 2018 and immaterial as of December 31, 2017.

9.EMPLOYEE BENEFIT PLANS

10. ASSET ACQUISITION

On February 23, 2018, the Company completed the acquisition of three commercial properties in Hawai`i ("TRC Acquisition"): (1) Laulani Village located in Ewa Beach, Oahu, (2) Hokulei Village located in Lihue, Kauai, and (3) Pu`unene Shopping Center located in Kahului, Maui.

The total purchase price for the TRC Acquisition was \$256.7 million and consisted of total consideration paid to the seller of \$254.1 million, including a mortgage with a contractual principal amount of \$62.0 million that is secured by Laulani Village, and \$2.6 million of capitalized and acquisition-related costs paid to third parties.

The allocation of purchase price to assets acquired and liabilities assumed is as follows (in millions):

Fair value of assets acquired and liabilities assumed	
Assets acquired:	
Land	\$80.2
Property and improvements	141.7
In-place/favorable leases	36.0
Total assets acquired	\$257.9

Liabilities assumed:	
Unfavorable leases	\$2.2
Long term debt*	61.0
Total liabilities assumed	63.2
Net assets acquired	\$194.7

*Includes a fair value adjustment of \$1.0 million.

As of the acquisition date, the weighted-average remaining lives of both the in-place/favorable leases and unfavorable leases were approximately 12 years.

11. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The changes in accumulated other comprehensive income (loss) by component for the six months ended June 30, 2018 were as follows (in millions, net of tax):

	Employee Benefit Plans	Interest Rate Swap	Total
Balance, January 1, 2018	\$ (44.2)	\$ 1.9	\$ (42.3)
Other comprehensive income (loss) before reclassifications, net of taxes of \$0.6 for interest rate swap	—	1.8	1.8

* This accumulated other comprehensive income (loss) component is included in the computation of net periodic pension cost (see Note 9 for additional details).

12. INCOME TAXES

For the prior taxable years, the Company has filed a consolidated federal income tax return, which includes all of its wholly owned subsidiaries. For its taxable year ended December 31, 2017, the Company intends to file its tax return as a REIT, which it will accomplish by filing the 2017 Form 1120-REIT with the Internal Revenue Service on or before October 15, 2018. The Company's taxable REIT subsidiary ("TRS") will file separately as a C corporation. The Company also files individual separate income tax returns in various states. The Company completed the necessary preparatory work and obtained the necessary approvals such that the Company believes it has been organized and operates in a manner that enables it to qualify, and continue to qualify, as a REIT for federal income tax purposes. As a result of the Company's conversion to a REIT, the effective tax rate for the three and six months ended June 30, 2018 differed from the effective tax rate for the same periods in 2017.

For the six months ended June 30, 2018 and 2017, the Company recorded a reduction to the carrying value of its solar tax equity investments of \$0.3 million and \$2.2 million, respectively, in "Reduction in Solar Investments, net" in the accompanying condensed consolidated statements of operations. For the three months ended June 30, 2018 and 2017, the Company recorded a reduction of \$0.2 million and \$0.2 million, respectively.

The Company recognizes accrued interest and penalties on income taxes as a component of income tax expense. As of June 30, 2018, accrued interest and penalties were not material. As of June 30, 2018, the Company has not identified any material unrecognized tax positions.

In connection with the TRC Acquisition, the Company assumed a \$62.0 million mortgage secured by Laulani Village that matures on May 1, 2024. The note bears interest at 3.93% and requires monthly interest payments of approximately \$0.2 million until May 2020 and principal and interest payments of approximately \$0.3 million thereafter.

On February 26, 2018, the Company entered into an agreement with Wells Fargo Bank, National Association and a syndicate of other financial institutions that provides for a \$50 million term loan facility ("Wells Fargo Term Facility" or "Bank Syndicated Loan"). The Company also drew \$50 million under the Wells Fargo Term Facility on February 26, 2018 and used such term loan proceeds to repay amounts that were borrowed under the Company's Revolving Credit Facility. Borrowings under the Wells Fargo Term Facility bear interest at a stated rate, as defined, plus a margin that is determined using a leverage based pricing grid.

On April 18, 2018, the Company completed an agreement with Prudential Investment Management, Inc. and its affiliates to refinance its previously existing term loan of \$62.5 million that bore interest at 3.90% and matured in 2024, which resulted in three separate term loans: \$10.0 million at a fixed interest rate of 4.66% maturing in 2025; \$34.5 million at a fixed interest rate of 4.81% maturing in 2027; and \$18.0 million at a fixed interest rate of 4.89% maturing in 2028.

14. CESSATION OF SUGAR OPERATIONS

A summary of the pre-tax costs and remaining costs associated with the Cessation is as follows (in millions):

Expense	0.1
Cash payments	(0.3)
Balance at June 30, 2018	\$ 4.4

¹ Includes asset retirement obligations.

15. INVESTMENTS IN AFFILIATES

The Company's investments in affiliates consist principally of equity investments in limited liability companies in which the Company has the ability to exercise significant influence over the operating and financial policies of these investments. Accordingly, the Company accounts for its investments using the equity method of accounting.

Operating results include the Company's proportionate share of net income (loss) from its equity method investments. A summary of combined financial information related to the Company's equity method investments for the three and six months ended June 30, 2018 and 2017 is as follows (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017

Net Income (loss)*	\$6.4	\$3.1	\$4.2	\$6.4

* Includes earnings from equity method investments held by the investee.

16. DERIVATIVE INSTRUMENTS

The Company is exposed to interest rate risk related to its floating rate interest debt. The Company balances its cost of debt and exposure to interest rates primarily through its mix of fixed and floating rate debt. From time to time, the Company may use interest rate swaps to manage its exposure to interest rate risk.

Cash Flow Hedges of Interest Rate Risk

During 2016, the Company entered into an interest rate swap agreement with a notional amount of \$60.0 million which was designated as a cash flow hedge. The Company structured the interest rate swap agreement to hedge the variability of future interest payments due to changes in interest rates with regards to the Company's long-term debt. A summary of the key terms related to the Company's outstanding cash flow hedge as of June 30, 2018, is as follows (dollars in millions):

Effective Date	Maturity Date	Fixed Interest Rate	Notional Amount	Fair Value at	Classification on
Date	Date	Rate	June 30, 2018	June 30, 2018	December 31, 2017
4/7/2016	8/1/2029	3.14%	\$ 60.0	\$ 5.2	\$ 2.8
					Other assets

The Company assessed the effectiveness of the cash flow hedge at inception and will continue to do so on an ongoing basis. The effective portion of the changes in fair value of the cash flow hedge is recorded in accumulated other comprehensive income (loss) and subsequently reclassified into interest expense as interest is incurred on the related-variable rate debt. When ineffectiveness exists, the ineffective portion of changes in fair value of the cash flow hedge is recognized in earnings in the period affected.

Non-designated Hedges

As of June 30, 2018, the Company has one interest rate swap that has not been designated as cash flow hedges whose key terms are as follows (dollars in millions):

Effective Date	Maturity Date	Fixed Interest Rate	Notional Amount	Fair Value at	Classification on
Date	Date	Rate	June 30, 2018	June 30, 2018	December 31, 2017
1/1/2014	9/1/2021	5.95%	\$ 10.7	\$ (0.6)	\$ (0.9)
					Other non-current liabilities

During the three months ended June 30, 2018, the Company terminated an interest rate swap that was not designated as a cash flow hedge. The interest rate swap was classified as Other non-current liabilities on the balance sheet and had a fair value of \$0.3 million as of December 31, 2017.

The following table represents the pre-tax effect of the derivative instruments in the Company's condensed consolidated statement of comprehensive income (loss) (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Derivatives in Designated Cash Flow Hedging Relationships:				
Amount of (gain) loss recognized in OCI on derivatives (effective portion)	\$(0.6)	\$0.6	\$(2.4)	\$0.6
Amounts of (gain) loss reclassified from accumulated OCI into earnings under "interest expense" (ineffective portion and amount excluded from effectiveness testing)	\$—	\$(0.1)	\$—	\$(0.3)

The Company records gains or losses related to interest rate swaps that have not been designated as cash flow hedges in interest expense in its condensed consolidated statements of operations, and the amounts were immaterial during each of the three and six months ended June 30, 2018 and 2017.

The Company measures all of its interest rate swaps at fair value. The fair values of the Company's interest rate swaps (Level 2) are based on the estimated amounts that the Company would receive or pay to terminate the contracts at the reporting date and are determined using interest rate pricing models and interest rate related observable inputs.

17. DISCONTINUED OPERATIONS

In December 2016, the Company completed its final sugar harvest and ceased its sugar operations.

The historical results of operations have been presented as discontinued operations in the condensed consolidated financial statements and prior periods have been recast.

The revenue, operating income (loss), gain on asset dispositions, income tax expense and after-tax effects of these transactions for the three and six months ended June 30, 2018 and 2017 were as follows (in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Sugar operations revenue	\$—	\$0.5	\$—	\$22.6

¹ Commercial Real Estate operating profit (loss) includes intersegment operating revenue, primarily from our Materials & Construction segment, and is eliminated in our consolidated results of operations.

² For the three and six months ended June 30, 2018, Land Operations segment operating profit (loss) includes approximately \$4.1 million of equity in earnings and \$1.5 million of equity in earnings from its various real estate joint ventures, respectively. For the three and six months ended June 30, 2017, Land Operations segment operating profit (loss) includes approximately \$0.6 million of equity in earnings and \$0.7 million of equity in earnings from its various real estate joint ventures, respectively.

³ For the three and six months ended June 30, 2018, Land Operations segment operating profit (loss) includes non-cash reductions of \$0.2 million and \$0.3 million, respectively, related to the Company's solar tax equity investments. For the three and six months ended June 30, 2017, Land Operations segment operating profit (loss) includes non-cash reductions of \$0.2 million and \$2.2 million, respectively, related to the Company's solar tax equity investments. The non-cash reductions, if any, are included in Reductions in solar investments, net on the condensed consolidated statements of operations.

⁴ Costs related to the Company's in-depth evaluation of and conversion to a REIT.

⁵ Amounts in 2018 represent the sales of the six mainland properties (Concorde Commerce Center, Deer Valley Financial Center, 1800 and 1820 Preston Park, Little Cottonwood Center, Royal MacArthur Center, and Sparks Business Center) and the three Hawai'i assets (Stangenwald Building, Judd Building and a ground lease). Amounts in 2017 represent the sales of one office building in Maui, Hawai'i in January 2017.

19. REVENUES

The Company recognizes revenue when control of promised goods or services is transferred to the customer at an amount that reflects the consideration which the Company expects to be entitled to in exchange for those goods or services.

22

The Company disaggregates revenue from contracts with customers by revenue type as the Company believes it best depicts how the nature, amount, timing and uncertainty of the Company's revenue and cash flows are affected by economic factors.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017 ¹	2018	2017 ¹

Materials & Construction ³	59.0	52.2	107.8	100.7
Total revenues	\$112.1	\$98.1	\$225.4	\$191.3

¹As noted above, prior period amounts have not been adjusted under the modified retrospective method.

²As noted above, Commercial Real Estate revenue is not in scope under ASU 2014-09 however is presented here for completeness.

³Materials & Construction included \$5.2 million and \$9.4 million of revenue not in scope under ASU 2014-09 for the three and six months ended June 30, 2018, respectively.

The total amount of contract consideration allocated to either wholly unsatisfied or partially satisfied performance obligations was \$174.4 million as of the six months ended June 30, 2018. The Company expects to recognize as revenue approximately 45% - 50% of the remaining contract consideration allocated to either wholly unsatisfied or partially satisfied performance obligations in 2018, with the remaining recognized thereafter.

The Company has elected the practical expedient provided in ASU 2014-09 to not disclose information about remaining performance obligations that have original expected durations of one year or less. In addition, the Company has elected the transition practical expedient in ASU 2014-09 to not disclose the amount of the transaction price allocated to the remaining performance obligations and an explanation of when the Company expects to recognize that amount as revenue for the six months ended June 30, 2018. The Company has elected these practical expedients as the majority of its wholly, or partially, unfulfilled performance obligations are expected to be recognized in less than one year.

20. CONTRACT BALANCES

Timing of revenue recognition may differ from the timing of invoicing to customers.

Costs and estimated earnings in excess of billings represent amounts earned and reimbursable under contracts but have a conditional right for billing and payment such as achievement of milestones or completion of the project. When events or conditions indicate that it is probable that the amounts outstanding become unbillable, the transaction price and associated contract asset is reduced.

Billings in excess of costs and estimated earnings are billings to customers on contracts in advance of work performed, including advance payments negotiated as a contract condition. Generally, unearned project-related costs will be earned over the next twelve months.

The following table provides information about receivables, contract assets and contract liabilities from contracts with customers:

As of the six months ended June 30, 2018, the Company recognized revenue of \$2.9 million related to the Company's contract liabilities reported as of January 1, 2018.

The amount of revenue recognized from performance obligations satisfied in prior periods was not material.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following analysis of the condensed consolidated financial condition and results of operations of Alexander & Baldwin, Inc. and its subsidiaries should be read in conjunction with the condensed consolidated financial statements and related notes thereto included in Item 1 of this Form 10-Q and the Company's Annual Report on Form 10-K for the year ended December 31, 2017 filed with the U.S. Securities and Exchange Commission ("SEC").

FORWARD-LOOKING STATEMENTS AND RISK FACTORS

Statements in this Form 10-Q that are not historical facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve a number of risks and uncertainties that could cause actual results to differ materially from those contemplated by the relevant forward-looking statements. These forward-looking statements include, but are not limited to, statements regarding possible or assumed future results of operations, business strategies, growth opportunities and competitive positions. Such forward-looking statements speak only as of the date the statements were made and are not guarantees of future performance. Forward-looking statements are subject to a number of risks, uncertainties, assumptions and other factors that could cause actual results and the timing of certain events to differ materially from those expressed in or implied by the forward-looking statements. These factors include, but are not limited to, prevailing market conditions and other factors related to the Company's REIT status and the Company's business, as well as the evaluation of alternatives by the Company's joint venture related to the development of Kukui`ula, generally discussed in the Company's most recent Form 10-K, Form 10-Q and other filings with the SEC. The information in this Form 10-Q should be evaluated in light of these important risk factors. We do not undertake any obligation to update the Company's forward-looking statements.

INTRODUCTION

Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is a supplement to the accompanying condensed consolidated financial statements and provides additional information about A&B's business, recent developments, financial condition, liquidity and capital resources, cash flows, results of operations and how certain accounting principles, policies and estimates affect A&B's financial statements. MD&A is organized as follows:

Business Overview: This section provides a general description of A&B's business, as well as recent developments that A&B believes are important in understanding its results of operations and financial condition or in understanding anticipated future trends.

Consolidated Results of Operations: This section provides an analysis of A&B's consolidated results of operations for the three and six months ended June 30, 2018 and 2017.

Analysis of Operating Revenue and Profit by Segment: This section provides an analysis of A&B's results of operations by business segment.

Liquidity and Capital Resources: This section provides a discussion of A&B's financial condition and an analysis of A&B's cash flows for the three and six months ended June 30, 2018 and 2017, as well as a discussion of A&B's ability to fund its future commitments and ongoing operating activities through internal and external sources of capital.

Critical Accounting Estimates: This section identifies and summarizes those accounting policies that significantly impact A&B's reported results of operations and financial condition and require significant judgment or estimates on the part of management in their application.

Rounding: Amounts in the MD&A are rounded to the nearest tenth of a million. Accordingly, a recalculation of totals and percentages, if based on the reported data, may be slightly different.

BUSINESS OVERVIEW

A&B, whose history dates back to 1870, is headquartered in Honolulu and operates through three reportable segments: Commercial Real Estate; Land Operations; and Materials & Construction.

The Company completed a conversion process to comply with the requirements to be treated as a real estate investment trust ("REIT") commencing with the taxable year ended December 31, 2017 (the "REIT Conversion"). In connection with the REIT Conversion, the Company completed the payment of the Special Distribution on January 23, 2018 through an aggregate of \$156.6 million in cash and the issuance of 22.6 million shares of the Company's common stock.

Commercial Real Estate

The Commercial Real Estate segment owns, operates and manages retail, industrial, and office properties in Hawai`i and on the mainland. The Commercial Real Estate segment also leases urban land in Hawai`i to third-party lessees.

Land Operations

The Land Operations segment actively manages the Company's land and real estate-related assets and deploys these assets to their highest and best use. Primary activities of the Land Operations segment include planning, zoning, financing, constructing, purchasing, managing, selling, and investing in real property; renewable energy; and diversified agribusiness activities.

As a result of our conversion to a REIT and consequent de-emphasis of real estate development-for-sale, the Company is undergoing efforts in order to accelerate the monetization of and/or to raise third-party capital for certain development-for-sale projects and investments.

The Company, in conjunction with its joint venture partner, initiated a process to evaluate a range of alternatives related to the development project at Kukui`ula that includes, but is not limited to, seeking additional third-party capital in order to accelerate the absorption of land in the joint venture. Any potential transaction would be dependent upon a number of external factors that may be beyond the Company's and/or joint venture's control, including, among other factors, market conditions, industry trends and the interest of third parties in the Kukui`ula development project. Accordingly, there can be no assurance that any of the options evaluated will be pursued or completed, and there can be no assurance that the outcome of the evaluation or any potential transaction, will result in the Company being able to maintain the carrying value of the Kukui`ula joint venture project.

Materials & Construction

The Materials & Construction segment performs asphalt paving as prime contractor and subcontractor; imports and sells liquid asphalt; mines, processes and sells basalt aggregate; produces and sells asphaltic and ready-mix concrete; provides and sells various construction- and traffic-control-related products and manufactures and sells precast concrete products.

CONSOLIDATED RESULTS OF OPERATIONS

The following analysis of the consolidated financial condition and results of operations of Alexander & Baldwin, Inc. and its subsidiaries should be read in conjunction with the consolidated financial statements and related notes thereto. Amounts in this narrative are rounded to millions, but per-share calculations and percentages were calculated based on thousands. Accordingly, a recalculation of some per-share amounts and percentages, if based on the reported data, may be slightly different than the amounts included herein. The financial information included in the following table and narrative reflects the presentation of the Company's former sugar operations as discontinued operations for all periods presented.

Operating revenue for the second quarter ended June 30, 2018 increased 14.3%, or \$14.0 million, to \$112.1 million, primarily due to higher revenue from the Land Operations and M&C segments. The reasons for business and segment-specific year-to-year fluctuations in revenue are further described below in the Analysis of Operating Revenue and Profit by Segment.

Cost of operations for the second quarter ended June 30, 2018 increased 28.0%, or \$19.5 million, to \$89.1 million, primarily due to increases in operating expenses incurred by the Land Operations and Materials & Construction segments. The reasons for the cost of operations changes are described below, by business segment, in the Analysis of Operating Revenue and Profit by Segment.

Selling, general and administrative expenses for the second quarter ended June 30, 2018 increased 2.0%, or \$0.3 million, to \$15.1 million, primarily due to professional services costs.

REIT evaluation/conversion costs for the second quarter ended June 30, 2017 were \$2.2 million and related to the Company's conversion to a real estate investment trust, as compared to the quarter ended June 30, 2018 in which no such charges were incurred.

Other income (expense), net was a net expense of \$5.3 million in the second quarter ended June 30, 2018 compared to a net expense of \$4.0 million in the second quarter ended June 30, 2017. The change from the prior year was primarily

due to a \$2.5 million increase in earnings from joint ventures, offset by a \$2.7 million increase in interest expense and a decrease of \$1.1 million in interest and other income (expense), net.

Income tax (expense) benefit was \$0.1 million in the second quarter ended June 30, 2018. During the second quarter ended June 30, 2017, the Company generated operating income of \$11.5 million and a related income tax expense of \$3.5 million.

Net gain (loss) on sale of improved property and ground leased land was minimal during both the second quarter ended June 30, 2018 and June 30, 2017.

Income attributable to noncontrolling interest for the second quarter ended June 30, 2018 was consistent with the second quarter ended June 30, 2017. The noncontrolling interest represents third-party noncontrolling interests in two entities consolidated within our Materials and Construction segment, and in which Grace Pacific owns a 70 percent and 51 percent share in each.

Operating revenue for the six months ended June 30, 2018 increased 17.8%, or \$34.1 million, to \$225.4 million, primarily due to higher revenue from the Land Operations and M&C segments. The reasons for business and segment-specific year-to-year fluctuations in revenue are further described below in the Analysis of Operating Revenue and Profit by Segment.

Cost of operations for the six months ended June 30, 2018 increased 32.7%, or \$44.5 million, to \$180.4 million, primarily due to increases in operating expenses incurred by the Land Operations and Materials & Construction segments. The reasons for the cost of operations changes are described below, by business segment, in the Analysis of Operating Revenue and Profit by Segment.

Selling general and administrative expenses for the six months ended June 30, 2018 increased 2.0%, or \$0.6 million, to \$30.1 million, primarily due to increases in professional services costs.

REIT evaluation/conversion costs for the six months ended June 30, 2017 were \$7.0 million related to the Company's conversion to a real estate investment trust, as compared to the six months ended June 30, 2018 in which no such charges were incurred.

Other income (expense), net was a net expense of \$17.1 million in the six months ended June 30, 2018 compared to a net expense of \$10.6 million in the six months ended June 30, 2017. The change from the prior year was primarily due to a \$1.4 million reduction in earnings from joint ventures, a \$4.9 million increase in interest expense and a decrease of \$2.1 million in

interest and other income (expense), net. Increase in expenses was offset by a \$1.9 million change in the adjustment to reduce the carrying amount of tax equity solar investments.

Income tax (expense) benefit was a benefit of \$2.8 million in the six months ended June 30, 2018 due to a taxable loss incurred in the operations of the Company's taxable REIT subsidiary. During the six months ended June 30, 2017, the Company generated an income tax expense of \$2.7 million primarily due to tax benefits realized on employee stock option exercises.

Net gain (loss) on sale of improved property and ground leased land during the six months ended June 30, 2018 was \$49.8 million due to the aggregate gain realized on the sales of six mainland properties (Concorde Commerce Center, Deer Valley Financial Center, 1800 and 1820 Preston Park, Little Cottonwood Center, Royal MacArthur Center, and Sparks Business Center) and three Hawai`i assets (Stangenwald Building, Judd Building and land underlying a ground lease) as compared to a gain on the sale of a Hawai`i commercial property (Maui Clinic Building) of \$3.0 million during the six months ended June 30, 2017.

Commercial Real Estate operating revenue was \$33.8 million for both the second quarter ended June 30, 2018 and June 30, 2017. Operating profit increased 1.5%, or \$0.2 million to \$13.6 million for the second quarter ended June 30, 2018 as compared to the second quarter ended June 30, 2017. Results reflect increases in Hawai`i same-store rents offset by the cumulative impact of the timing of sales and acquisitions of assets since the second quarter 2017.

"Same-store" refers to properties that were owned and operated for the entirety of the prior calendar year. The same-store pool excludes properties under development or redevelopment and also excludes properties acquired or sold during the comparable reporting periods, including stabilized properties. New developments and redevelopments are moved into the same-store pool upon one full calendar year of stabilized operation. New developments and redevelopments are generally considered stabilized upon the initial attainment of 90% occupancy.

Occupancy represents the percentage of square footage leased and commenced to gross leasable space at the end of the period reported. The Company's commercial portfolio's occupancy and same-store occupancy percentage summarized by property type as of June 30, 2018 and 2017 was as follows:

Occupancy	As of June 30, 2018	As of June 30, 2017	Percentage Point Change
Retail	92.6%	93.9%	(1.3)

Commercial Real Estate operating revenue increased 2.2%, or \$1.5 million to \$69.0 million for the six months ended June 30, 2018 as compared to the six months ended June 30, 2017. Operating profit increased 5.1%, or \$1.4 million to \$29.1 million for the six months ended June 30, 2018 as compared to the six months ended June 30, 2017. Results reflect increases in

Hawai'i same-store rents. "Same-store" refers to properties that were owned and operated for the entirety of the prior calendar year. The same-store pool excludes properties under development or redevelopment and also excludes properties acquired or sold during the comparable reporting periods, including stabilized properties. New developments and redevelopments are moved into the same-store pool upon one full calendar year of stabilized operation. New developments and redevelopments are generally considered stabilized upon the initial attainment of 90% occupancy.

Use of Non-GAAP Financial Measures

The Company uses non-GAAP measures when evaluating operating performance because management believes that they provide additional insight into the Company's and segments' core operating results, and/or the underlying business trends affecting performance on a consistent and comparable basis from period to period. These measures generally are provided to investors as an additional means of evaluating the performance of ongoing core operations. Cash Net Operating Income is a non-GAAP measure used by the Company in evaluating the CRE segment's operating performance, as it is an indicator of the return on property investment and enables a comparison of results of operations, on an unlevered basis, over time. Cash NOI should not be viewed as a substitute for, or superior to, financial measures calculated in accordance with GAAP.

Cash Net Operating Income (Cash NOI) is calculated as total Commercial Real Estate operating revenues less direct property-related operating expenses. Cash NOI excludes straight-line lease adjustments, amortization of favorable/unfavorable leases, amortization of lease incentives, selling, general and administrative expenses, impairment of commercial real estate assets, lease termination income, and depreciation and amortization (including amortization of maintenance capital, tenant improvements and leasing commissions).

The Company's methods of calculating non-GAAP measures may differ from methods employed by other companies and thus may not be comparable to such other companies.

A reconciliation of Commercial Real Estate operating profit (loss) to Commercial Real Estate Cash NOI for the three and six months ended June 30, 2018 and 2017 are as follows (in millions):

Land Operations - Second quarter of 2018 compared with 2017

Direct year-over-year comparison of the Land Operations segment results may not provide a consistent, measurable indicator of future performance because results from period to period are significantly affected by the mix and timing of property sales. Operating results, by virtue of each project's asset class, geography and timing are inherently variable. Earnings from joint venture investments are not included in segment revenue, but are included in operating profit. The mix of real estate sales in any year or quarter can be diverse and can include developed residential real estate, developable subdivision lots, undeveloped land, and property sold under threat of condemnation. The sale of undeveloped land and vacant parcels in Hawai'i generally provides higher margins than does the sale of developed property, due to the low historical cost basis of the Company's land owned in Hawai'i. Consequently, Land Operations revenue trends, cash flows from the sales of real estate, and the amount of real estate held for sale on the Company's

balance sheet do not necessarily indicate future profitability trends for this segment. Additionally, the operating profit reported in each quarter does not necessarily follow a percentage of sales trend because the cost basis of property sold can differ significantly between transactions.

¹ Other operating revenues includes revenue related to trucking, renewable energy and diversified agriculture. In December 2016, the Company completed its final sugar harvest and ceased its sugar operations. The results of sugar operations have been presented within discontinued operations for all periods presented.

Second quarter of 2018: Land Operations revenue for the second quarter ended June 30, 2018 was \$19.3 million and included sales of 30 units at the Company's Kamalani project in Kihei, Maui, along with trucking service and power sales revenues.

The Land Operations segment incurred an operating profit of \$1.6 million during the second quarter ended June 30, 2018 that principally resulted from an increase in income from joint ventures. The Land Operations segment results also included a \$0.2 million non-cash reduction in the carrying value of the Company's Solar Investment and \$0.7 million of other net expense primarily consisting of other pension expense.

Second quarter of 2017: Land Operations operating revenue and operating profit were \$12.1 million and \$1.7 million second quarter ended June 30, 2017, respectively. Operating results for the Land Operations segment included \$1.9 million of profit related to the sales of a 3-acre parcel in Wailea, Maui and a 6-acre parcel in Haliimaile, Maui, partially offset by operating expenses and \$0.2 million non-cash reduction in the carrying value of the Company's Waihonu solar investment. The Company also recorded income from joint ventures of \$0.6 million during the second quarter of 2017.

The results of sugar operations have been presented within discontinued operations for all periods presented.

First half of 2018: Land Operations revenue was \$48.6 million and included sales of one Kahala Avenue parcel and 46 units for the Company's Kamalani project in Kihei, Maui, along with trucking service and power sales revenues. The Land Operations segment incurred an operating loss of \$3.8 million during the six months ended June 30, 2018 primarily driven by an equity method investment loss in the first quarter 2018 due to remediation costs incurred for construction-related defects that were isolated to a residential, development project. The Land Operations segment results also included a \$0.3 million non-cash reduction in the

carrying value of the Company's Solar Investment and \$1.1 million of other net expense primarily consisting of other pension expense.

First half of 2017: Land Operations operating revenue and operating loss were \$23.1 million and \$0.7 million, respectively. Operating results for the Land Operations segment included a \$2.2 million non-cash reduction in the carrying value of the Company's Waihonu solar investment, segment operating expenses, partially offset by \$4.6 million of profit related to the sales of a 3-acre parcel in Wailea, Maui, a 6-acre parcel in Haliimaile, Maui, a 1-acre lot at Maui Business Park, and a 0.8-acre vacant, urban parcel on Maui, as well as revenue generated from the Company's renewable energy assets.

Discontinued Operations - Second quarter of 2018 compared with 2017 and First half of 2018 compared with 2017
The revenue, operating income (loss), and after-tax effects of discontinued operations for the second quarters ended June 30, 2018 and 2017 and the first half of 2018 compared with 2017 were as follows (in millions):

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2017

Second quarter of 2018: Income from discontinued operations, net of income taxes was \$0.1 million during the second quarter ended June 30, 2018; see Note 14 "Cessation of Sugar Operations".

Second quarter of 2017: Income from discontinued operations, net of income taxes of \$0.8 million during the second quarter of 2017 reflected the gain on asset dispositions and the results of operations, partially offset by cessation-related costs. During the quarter ended June 30, 2017, the Company sold factory equipment which resulted in a total gain of \$2.2 million. The cessation charges included costs related to employee severance and benefits, as well as property removal, restoration and other exit-related costs. See Note 14 "Cessation of Sugar Operations" for further discussion regarding the cessation and the related costs associated with such exit and disposal activities.

First half of 2018: There was no income (loss) from discontinued operations, net of income taxes during the six months ended June 30, 2018; see Note 14 "Cessation of Sugar Operations".

First half of 2017: Income from discontinued operations, net of income taxes of \$3.2 million during the first half of 2017 reflected the gain on asset dispositions and the results of operations related to the final sugar voyage, partially offset by cessation-related costs. During the first half of 2017, the Company sold mobile equipment assets, its bulk sugar transportation vessel and factory equipment, which resulted in a total gain of \$6.3 million. Additionally, the Company recognized revenue and operating profit during the first half of 2017, primarily related to the final delivery of sugar inventory, which occurred in January 2017. The cessation charges included costs related to employee severance and benefits, as well as property removal, restoration and other exit-related costs. See Note 14 "Cessation of Sugar Operations" for further discussion regarding the cessation and the related costs associated with such exit and disposal activities.

Asphalt tons delivered (tons in thousands)	151.6	142.4	6.5%
Backlog ^{1,2} at period end	\$174.4	\$214.6	(18.7)%

¹ Backlog represents the total amount of revenue that Grace Pacific and Maui Paving, LLC, a 50-percent-owned unconsolidated affiliate, expect to realize on contracts awarded. As of June 30, 2018 and 2017, \$19.0 million and \$23.6 million are government contracts in which Grace Pacific has been confirmed to be the lowest bidder and formal communication of the award is perfunctory. Backlog primarily consists of asphalt paving and, to a lesser extent, Grace Pacific's consolidated revenue from its Prestress and construction-and traffic control-related products. Backlog includes estimated revenue from the remaining portion of contracts not yet completed, as well as revenue from approved change orders. The length of time that projects remain in backlog can span from a few days for a small volume of work to 36 months for large paving contracts and contracts performed in phases. Maui Paving's backlog at June 30, 2018 and 2017 was \$7.4 million and \$16.7 million, respectively.

² As of June 30, 2018 and 2017, the backlog included contractual revenue with related parties of \$2.8 million and \$1.2 million, respectively.

Materials & Construction revenue was \$59.0 million for the second quarter ended June 30, 2018, compared to \$52.2 million for the second quarter ended June 30, 2017. Backlog at the end of June 30, 2018 was \$174.4 million, compared to \$198.4 million as of December 31, 2017.

Operating profit was \$3.6 million for the second quarter ended June 30, 2018, compared to \$6.7 million for the second quarter ended June 30, 2017. Operating profit was negatively impacted by lower aggregate margins, lower joint venture earnings and higher general and administrative expenses related to process improvement initiatives. Earnings from joint venture investments are not included in segment revenue but are included in operating profit.

Materials & Construction revenue was \$107.8 million for the six months ended June 30, 2018, compared to \$100.7 million for the six months ended June 30, 2017.

Operating profit was \$3.8 million for the six months ended June 30, 2018, compared to \$12.3 million for the six months ended June 30, 2017. Operating profit was negatively impacted by lower paving margins primarily resulting from reduced paving volumes due to weather, lower pricing margins, lower joint venture earnings and higher general and administrative expenses related to process improvement initiatives and personnel transition costs. Earnings from joint venture investments are not included in segment revenue but are included in operating profit.

LIQUIDITY AND CAPITAL RESOURCES

Overview: A&B's primary liquidity needs have historically been to support working capital requirements and fund capital expenditures, commercial real estate acquisitions and real estate developments. A&B's principal sources of liquidity have been cash flows provided by operating activities, available cash and cash equivalent balances, and borrowing capacity under its various credit facilities.

A&B's operating income (loss) is generated by its subsidiaries. There are no material restrictions on the ability of A&B's wholly owned subsidiaries to pay dividends or make other distributions to A&B. A&B regularly evaluates investment opportunities, including development projects, commercial real estate acquisitions, joint venture investments, share repurchases, business acquisitions and other strategic transactions to increase shareholder value. A&B cannot predict whether or when it may make investments or what impact any such transactions could have on A&B's results of operations, cash flows or financial condition.

Cash Flows: Cash flows from operations was \$26.8 million for the six months ended June 30, 2018, while cash flows used in operations for the six months ended June 30, 2017 was \$16.6 million. The increase in cash flows from operating activities is primarily attributable to cash received from the Company's real estate development sales.

Cash flows used in investing activities was \$60.2 million and \$28.7 million for the six months ended June 30, 2018 and 2017, respectively. During the six months ended June 30, 2018, the net cash used in investing activities included cash outlays of \$220.0 million related to capital expenditures, which included cash outflows of \$194.7 million due to the Company's acquisitions of Laulani Village Shopping Center ("Laulani Village"), Hokulei Village Shopping Center, and Pu`unene Shopping Center (collectively, "TRC Acquisition"). Cash used in investing activities during the six months ended June 30, 2018 also included \$15.8 million related to investments in unconsolidated affiliates. Cash flows from investing activities during the six months ended June 30, 2018 included proceeds of \$155.3 million resulting from the sales of six mainland properties and three Hawai`i assets. Other investing cash flow activity during the six months ended June 30, 2018 included \$20.3 million of proceeds from joint ventures and other investments.

Net cash flows used in investing activities for capital expenditures were as follows:

	Three Months Ended June 30,		
(in millions, unaudited)	2018	2017	Change
Commercial real estate property acquisitions/improvements	\$7.6	\$13.8	(44.9)%

Agribusiness and other	0.6	0.9	(33.3)%
Total capital expenditures ¹	\$12.6	\$17.3	(27.2)%

	Six Months Ended June 30,		
(in millions, unaudited)	2018	2017	Change
Commercial real estate property acquisitions/improvements	\$210.0	\$16.4	12X
Tenant improvements	4.8	1.5	2X
Quarrying and paving	4.1	4.0	2.5%
Agribusiness and other	1.1	1.5	(26.7)%
Total capital expenditures ¹	\$220.0	\$23.4	8X

¹ Excludes capital expenditures for real estate developments to be held and sold as real estate development inventory, which are classified in the consolidated statement of cash flows as operating activities and are excluded from the tables above.

Net cash flows used in financing activities was \$60.1 million for the six months ended June 30, 2018, as compared to net cash provided by financing activities for the six months ended June 30, 2017 of \$48.7 million. The change in cash flows used in financing activities in 2018 as compared to 2017 was primarily due to \$156.6 million of cash dividends paid made in connection with the Special Distribution to the Company's shareholders related to the REIT Conversion, offset by the net impact of proceeds from the issuance and payments of long-term debt.

The Company believes that funds generated from results of operations, available cash and cash equivalents, and available borrowings under credit facilities will be sufficient to finance the Company's business requirements for the next fiscal year, including working capital, capital expenditures, potential acquisitions and stock repurchases. There can be no assurance, however, that the Company will continue to generate cash flows at or above current levels or that it will be able to maintain its ability to borrow under its available credit facilities.

Other Sources of Liquidity: Additional sources of liquidity for the Company consisted of cash and cash equivalents, trade and income tax receivables, contracts retention, and inventories, totaling \$116.9 million at June 30, 2018, a decrease of \$57.2 million from December 31, 2017. The decrease is primarily due to a reduction in cash from capital expenditures and asset acquisitions during the second quarter ended June 30, 2018.

The Company also has revolving credit and term facilities that provide additional sources of liquidity for working capital requirements or investment opportunities on a short-term as well as longer-term basis. At June 30, 2018, the Company had \$138.3 million of revolving credit borrowings outstanding, \$11.8 million in letters of credit had been issued against the facility, and \$299.9 million remained available.

Balance Sheet: The Company had working capital of \$46.2 million as of June 30, 2018, which is an increase of \$698.2 million, from a \$652.0 million working capital deficit as of December 31, 2017. The change in the working capital is primarily due to cash dividends of \$156.6 million paid and stock dividends of \$626.4 million issued in January 2018, offset by a decrease in cash related to capital expenditures and asset acquisitions.

Tax-Deferred Real Estate Exchanges:

Sales: During the second quarter ended June 30, 2018, there were no sales and condemnation proceeds that qualified for potential tax-deferral treatment under Internal Revenue Code §1031 and §1033.

Purchases: During the second quarter ended June 30, 2018, there were no acquisitions utilizing proceeds from tax-deferred sales or condemnations.

Proceeds from §1031 tax-deferred sales are held in escrow pending future use to purchase new real estate assets. The proceeds from §1033 condemnations are held by the Company until the funds are redeployed. As of June 30, 2018, there were no funds from tax-deferred sales or condemnations that had not yet been reinvested.

Commitments, Contingencies and Off-balance Sheet Arrangements: A description of other commitments, contingencies, and off-balance sheet arrangements at June 30, 2018, and herein incorporated by reference, is included in Note 3 to the condensed consolidated financial statements of Item 1 in this Form 10-Q.

OTHER MATTERS

Critical Accounting Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, upon which the Management's Discussion and Analysis is based, requires that management exercise judgment when making estimates and assumptions about future events that may affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty and actual results will, inevitably, differ from those critical accounting estimates. These differences could be material. The most significant accounting estimates inherent in the preparation of A&B's financial statements were described in Management's Discussion and Analysis of Financial Condition and Results of Operations contained in the Company's 2017 Form 10-K.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Information concerning market risk is incorporated herein by reference to Item 7A of the Company's Form 10-K for the fiscal year ended December 31, 2017. There has been no material change in the quantitative and qualitative disclosures about market risk since December 31, 2017.

ITEM 4. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of June 30, 2018, the Company's disclosure controls and procedures were effective.

(b) Internal Control Over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the Company's fiscal second quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
