NOTE 1 - ORGANIZATION AND BASIS OF PRESENTATION

3DX Industries, Inc. (the “Company”) was incorporated in the state of Nevada on October 23, 2008. The Company’s principal activity presently is manufacturing and our head office is located near Bellingham WA, USA. The Company manufactures consumer and corporate products using an additive manufacturing method through 3D Metal printing technology and conventional precision manufacturing processes.

Financial Statements Presented

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions for Form 10-Q and Article 210 8-03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal recurring nature. Operating results for the three month period ended January 31, 2015, are not necessarily indicative of the results that may be expected for the fiscal year ending October 31, 2014. For further information refer to the financial statements and footnotes thereto included in the Company’s Annual Report on Form 10-K/A for the fiscal year ended October 31, 2014 as filed with the Securities and Exchange Commission on February 18, 2015.

Going Concern

The Company has incurred net losses since inception, and as of January 31, 2015 had a combined accumulated deficit of \$16,336,804 and had negative working capital of \$1,200,686. These conditions raise substantial doubt as to the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might result from the outcome of this uncertainty. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Management recognizes that the Company must generate additional funds to enable it to continue operating. Management intends to raise additional financing through debt and or equity financing and by other means that it deems necessary, with the goal of moving forward and sustaining a prolonged growth in its strategy phases. However, no assurance can be given that the Company will be successful in raising additional capital. Further, even if the company raises additional capital, there can be no assurance that the Company will achieve profitability or positive cash flow. If management is unable to raise additional capital and expected significant revenues do not result in positive cash flow, the Company will not be able to meet its obligations and may have to cease operations.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Loss Per Share of Common Stock

The Company follows Accounting Standard Codification Topic No. 260, "Earnings Per Share" ("ASC No. 260") that requires the reporting of both basic and diluted earnings (loss) per share. Basic earnings (loss) per share is computed by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding for the period. The calculation of diluted earnings (loss) per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. In accordance with ASC No. 260, any anti-dilutive effects on net earnings (loss) per share are excluded. Potential common shares at January 31, 2015 and January 31, 2013 that have been excluded from the computation of diluted net loss per share include an option to convert approximately \$4,117 in fees due to Santeo Financial Corporation at January 31, 2015 into 4,117,060 common shares. Potential common shares at January 31, 2014 that have been excluded from the computation of diluted net loss per share include an option to convert approximately \$3,470 in fees due Santeo Financial Corporation at January 31, 2014 into 3,470,099 common shares.

Accounts receivable and allowance for doubtful accounts

Accounts receivable are reported at the invoiced amount less an allowance for doubtful accounts. On a periodic basis, the Company evaluates its accounts receivable and establishes an allowance for doubtful accounts based on a combination of specific customer circumstances and credit conditions taking into account the history of write-offs and collections. A receivable is considered past due if payment has not been received within the period agreed upon in the invoice. Accounts receivable are written off after all collection efforts have been exhausted. Recoveries of trade receivables previously written off are recorded when received.

Revenue recognition

The Company recognizes revenue when it is realized or realizable and earned when all of the following criteria are met: persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the price to the buyer is fixed or determinable, and collectability is reasonably assured. Revenue is recognized upon transfer of title and risk of loss, which is generally upon the shipment of finished goods. Freight billed to customers is included in revenues, and all freight expenses paid by the Company are included in cost of revenue.

Reclassification

Certain reclassifications have been made to conform the 2014 amounts to 2015 classifications for comparative purposes.

Recent Accounting Pronouncements

The Company's management has evaluated all recent accounting pronouncements since the last audit through the issuance date of these financial statements. In the Company's opinion, none of the recent accounting pronouncements will have a material effect on the financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION OR PLAN OF OPERATION

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These forward-looking statements are not historical facts but rather are based on current expectations, estimates and projections. We may use words such as "anticipate," "expect," "intend," "plan," "believe," "foresee," "estimate" and variations of these words and similar expressions to identify forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, some of which are beyond our control, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted. You should read this report completely and with the understanding that actual future results may be materially different from what we expect. The forward looking statements included in this report are made as of the date of this report and should be evaluated with consideration of any changes occurring after the date of this Report. We will not update forward-looking statements even though our situation may change in the future and we assume no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

RESULTS OF OPERATIONS

Plan of Operation

As of January 31, 2015, we had \$17,366 of cash on hand. We incurred operating expenses in the amount of \$351,386 during the quarter ended January 31, 2015. These operating expenses were comprised of general and administrative expenses, professional fees, directors' and consulting fees, impairment losses and other miscellaneous expenses.

The Company has recently commenced revenue operations from its primary business in the manufacturing sector. During the period we generated gross revenues of \$109,503 as compared to Nil in the prior comparative period. While we expect to see an increase in revenues as we secure additional customers, we are not presently generating enough revenue to meet our operational overhead. Management cannot guarantee that the Company will be successful in its existing business operations and the Company's business is subject to risks inherent in the operation of a business enterprise with limited revenue generating operations, including limited capital resources and ongoing operational shortfalls

Our current cash holdings are not yet sufficient to satisfy our liquidity requirements and we will require additional financing to pursue our planned business activities. We are in the process of seeking equity and or debt financing to

fund the shortfall in our operations over the next 12 months; however, management provides no assurance that future financing will be available to the Company on acceptable terms. If financing is not available on satisfactory terms, the Company may be unable to continue operations, develop, or expand its existing operations. Equity financing could result in additional dilution to the Company's existing shareholders.

For the period ended January 31, 2015, as compared to the period ended January 31, 2014.***Revenues***

The Company generated \$109,503 in revenues from operations and \$23,883 in cost of goods sold for the three months ended January 31, 2015 and \$nil in revenue from operations and cost of goods sold for the same period ended January 31, 2014.

Expenses

For the three months ended January 31, 2015, total operating expenses were \$351,386 as compared to \$9,547,185 for the three months ended January 31, 2014.

Interest Expense

Interest expense for the quarter ended January 31, 2015 totaled \$15,665. Interest expense for the quarter ended January 31, 2014 was \$7,833. Interest expense in both years mainly consisted of interest accruing on certain outstanding accounts and notes payable.

Liquidity and Capital Resources

Growth of our operations will be based on our ability to internally finance from operating cash flows, and the ability to raise funds through equity and/or debt financing to increase sales and production. Our primary sources of liquidity are: (i) investor loans; and (ii) financing activities. Our cash balance as of January 31, 2015 is \$17,366.

Our Company has funded some of its operations through debt financing with related and non-related party transactions.

The Company is not aware of any known trends, events or uncertainties which may affect its future liquidity.

Critical Accounting Estimates

Our financial statements and accompanying notes have been prepared in accordance with United States generally accepted accounting principles applied on a consistent basis. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Included in our evaluations are estimates on the useful lives of fixed assets, impairment of long lived assets, and allowances for doubtful accounts.

We regularly evaluate the accounting policies and estimates that we use to prepare for financial statements. A complete summary of these policies is included in the notes to our financial statements. In general, management's estimates are based on historical experience, on information from third party professionals, and on various other assumptions that are believed to be reasonable under the facts and circumstances. Actual results could differ from those estimates made by management.

Going Concern

For the quarter ended January 31, 2015, our Company has a net loss of \$281,431 and a combined accumulated deficit of \$16,336,804. We have not attained profitable operations and are dependent upon obtaining financing to pursue any extensive activities. For these reasons, our auditors stated in their report on our audited financial statements that they have substantial doubt that we will be able to continue as a going concern without further financing.

Future Financing

We will continue to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to existing stockholders. There is no assurance that we will achieve any additional sales of the equity securities or arrange for debt or other financing to fund planned acquisitions and exploration activities.

Inflation

The amounts presented in the financial statements do not provide for the effect of inflation on our operations or financial position. The net operating losses shown would be greater than reported if the effects of inflation were reflected either by charging operations with amounts that represent replacement costs or by using other inflation adjustments.

Off-Balance Sheet Arrangements

As of January 31, 2015, we had no off-balance sheet transactions that have had, or are reasonably likely to have, a current or future effect on our financial condition, changes in our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Contractual Obligations

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

Recent Accounting Pronouncements

The Company's management has evaluated all recent accounting pronouncements since the last audit through the issuance date of these financial statements. In the Company's opinion, none of the recent accounting pronouncements will have a material effect on the financial statements.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by our company in the reports that it files or submits under the Exchange Act is accumulated and communicated to our management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Our management carried out an evaluation under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 ("Exchange Act").

Based on this evaluation, our Principal Executive and Principal Financial and Accounting Officer concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) were not effective as of January 31, 2015.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
