Title of each class Name of each exchange on which registered
Common Stock, par value \$0.01 per share New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the registrant as of June 30, 2015, the last business day of the registrant's most recently completed second fiscal quarter, was \$1,262,276,031 based upon the closing price of the registrant's common stock, par value \$0.01 per share, reported for such date on the New York Stock Exchange. For purposes of this computation, shares of the registrant's common stock held by each executive officer and director and each person known to the registrant to own 10% or more of the outstanding voting power of the registrant have been excluded in that such persons are affiliates. This determination of affiliate status is not a determination for other purposes.

The registrant had outstanding 88,016,096 shares of Common Stock, par value \$0.01 per share as of February 19, 2016.

Unless otherwise noted or the context otherwise requires, (i) references to the “Company,” “SeaWorld,” “we,” “our” or “us” in this Annual Report on Form 10-K refer to SeaWorld Entertainment, Inc. and its consolidated subsidiaries, (ii) references to “Blackstone” refer to certain investment funds affiliated with The Blackstone Group L.P., (iii) references to the “Partnerships” refer, collectively, as applicable, to ten limited partnerships owned by affiliates of Blackstone and certain co-investors: SW Delaware L.P., SW Delaware A L.P., SW Delaware B L.P., SW Delaware C L.P., SW Delaware D L.P., SW Delaware E L.P., SW Delaware F L.P. (f/k/a SW Cayman F L.P.), SW Delaware Co-Invest L.P. (f/k/a SW Cayman Co-Invest L.P.), SW Delaware (GS) L.P. and SW Delaware (GSO) L.P. provided that, as of August 25, 2014, SW Delaware (GS) L.P. no longer owned shares of the Company’s common stock, (iv) references to “ABI” refer to Anheuser-Busch, Incorporated, (v) references to “guests” refer to our theme park visitors, (vi) references to “customers” refer to any consumer of our products and services, including guests of our theme parks, (vii) references to the “TEA/AECOM Report” refer to the 2014 Theme Index: The Global Attractions Attendance Report, TEA/AECOM, 2015, (viii) references to the “2015 Amusement Today Annual Survey” or the “Amusement Today 2015 Golden Ticket Awards” refer to the Amusement Today 2015 Golden Ticket Awards, Vol. 19, issue 6.2 dated September 2015 and (ix) references to the “IBISWorld Report” refer to the IBISWorld Industry Report 71311: Amusement Parks in the US dated December 2015. Unless otherwise noted, attendance rankings included in this Annual Report on Form 10-K are based on the TEA/AECOM Report and theme park industry statistics are based on the IBISWorld Report.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

In addition to historical information, this Annual Report on Form 10-K may contain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which are subject to the “safe harbor” created by those sections. All statements, other than statements of historical facts, including statements concerning our plans, objectives, goals, beliefs, business strategies, future events, business conditions, our results of operations, financial position and our business outlook, business trends and other information, may be forward-looking statements. Words such as “might,” “will,” “may,” “should,” “estimates,” “expects,” “continues,” “contemplates,” “anticipates,” “projects,” “plans,” “predicts,” “intends,” “believes,” “forecasts,” “future” and variations of such words or similar expressions are intended to identify forward-looking statements. The forward-looking statements are not historical facts, and are based upon our current expectations, beliefs, estimates and projections, and various assumptions, many of which, by their nature, are inherently uncertain and beyond our control. Our expectations, beliefs, estimates and projections are expressed in good faith and we believe there is a reasonable basis for them. However, there can be no assurance that management’s expectations, beliefs, estimates and projections will result or be achieved and actual results may vary materially from what is expressed in or indicated by the forward-looking statements.

There are a number of risks, uncertainties and other important factors, many of which are beyond our control, that could cause our actual results to differ materially from the forward-looking statements contained in this Annual Report on Form 10-K. Such risks, uncertainties and other important factors that could cause actual results to differ materially include, among others, the risks, uncertainties and factors set forth under “Risk Factors” in Part I, Item 1A of this Annual Report on Form 10-K, including the following:

- changes in federal and state regulations governing the treatment of animals and claims and lawsuits by activist groups;
- various factors beyond our control adversely affecting attendance and guest spending at our theme parks;
- incidents or adverse publicity concerning our theme parks;
- a decline in discretionary consumer spending or consumer confidence;
- significant portion of revenues generated in the States of Florida, California and Virginia and the Orlando market;
- seasonal fluctuations;
- inability to compete effectively;
- interactions between animals and our employees and our guests at attractions at our theme parks;
- animal exposure to infectious disease;

- high fixed cost structure of theme park operations;
- changing consumer tastes and preferences;
- cyber security risks and failure to maintain the integrity of internal or guest data;
- increased labor costs;
- inability to grow our business or fund theme park capital expenditures;

1

- adverse litigation judgments or settlements;
- inability to protect our intellectual property or the infringement on intellectual property rights of others;
- the loss of licenses and permits required to exhibit animals;
- loss of key personnel;
- unionization activities or labor disputes;
- inability to meet workforce needs;
- inability to maintain certain commercial licenses;
- restrictions in our debt agreements limiting flexibility in operating our business;
- our substantial leverage;
- inability to realize the benefits of acquisitions or other strategic initiatives;
- inadequate insurance coverage;
- inability to purchase or contract with third party manufacturers for rides and attractions;
- environmental regulations, expenditures and liabilities;
- suspension or termination of any of our business licenses; and
- the ability of affiliates of The Blackstone Group L.P to significantly influence our decisions.

We caution you that the risks, uncertainties and other factors referenced above may not contain all of the risks, uncertainties and other factors that are important to you. In addition, we cannot assure you that we will realize the results, benefits or developments that we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our business in the way expected. There can be no assurance that (i) we have correctly measured or identified all of the factors affecting our business or the extent of these factors' likely impact, (ii) the available information with respect to these factors on which such analysis is based is complete or accurate, (iii) such analysis is correct or (iv) our strategy, which is based in part on this analysis, will be successful. All forward-looking statements in this Annual Report on Form 10-K apply only as of the date of this Annual Report on Form 10-K or as the date they were made and, except as required by applicable law, we undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise.

Trademarks, Service Marks and Trade names

We own or have rights to use a number of registered and common law trademarks, service marks and trade names in connection with our business in the United States and in certain foreign jurisdictions, including SeaWorld Entertainment, SeaWorld Parks & Entertainment, SeaWorld®, Shamu®, Busch Gardens®, Aquatica®, Discovery Cove®, Sea Rescue® and other names and marks that identify our theme parks, characters, rides, attractions and other businesses. In addition, we have certain rights to use Sesame Street® marks, characters and related indicia through certain license agreements with Sesame Workshop (f/k/a Children's Television Workshop).

Solely for convenience, the trademarks, service marks, and trade names referred to hereafter in this Annual Report on Form 10-K are without the ® and ™ symbols, but such references are not intended to indicate, in any way, that we will not assert, to the fullest extent under applicable law, our rights or the rights of the applicable licensors to these trademarks, service marks, and trade names. This Annual Report on Form 10-K may contain additional trademarks, service marks and trade names of others, which are the property of their respective owners. All trademarks, service marks and trade names appearing in this Annual Report on Form 10-K are, to our knowledge, the property of their respective owners.

PART I.

Item 1. Business

Company Overview

We are a leading theme park and entertainment company providing experiences that matter and inspiring guests to protect animals and the wild wonders of our world. We own or license a portfolio of recognized brands including SeaWorld, Busch Gardens and Sea Rescue. Over our more than 50 year history, we have built a diversified portfolio of 11 destination and regional theme parks that are grouped in key markets across the United States, many of which showcase our one-of-a-kind zoological collection representing more than 800 species of animals. Our theme parks feature a diverse array of rides, shows and other attractions with broad demographic appeal which deliver memorable experiences and a strong value proposition for our guests.

During the year ended December 31, 2015, we hosted approximately 22.5 million guests in our theme parks, including approximately 3.3 million international guests. In the year ended December 31, 2015, we had total revenues of \$1.37 billion and net income of \$49.1 million.

We generate revenue primarily from selling admission to our theme parks and from purchases of food, merchandise and other spending. For the year ended December 31, 2015, theme park admissions accounted for approximately 62% of our total revenue, and food, merchandise and other revenue accounted for approximately 38% of our total revenue. Over the same period of time, we reported \$37.69 in admission per capita (calculated as admissions revenue divided by total attendance) and \$23.32 in-park per capita spending (calculated as food, merchandise and other revenue divided by total attendance).

In November 2015, we communicated our roadmap to stabilize our business to drive sustainable growth. This plan encompasses five key points which include (i) providing experiences that matter; (ii) delivering distinct guest experiences that are fun and meaningful; (iii) pursuing organic and strategic revenue growth; (iv) addressing the challenges we face; and (v) financial discipline. The plan is intended to build on our strong business fundamentals by evolving the guest experience to align with consumer preferences for experiences that matter. Through family entertainment and distinct experiences and attractions, we provide our guests an opportunity to explore and learn more about the natural world and the plight of animals in the wild, to be inspired and to act to make a better world. The plan includes a new approach to in-park activities as well as “turning parks inside out” by taking our guests behind the scenes to provide a better understanding of our veterinary care and animal rescue operations. Other elements of the plan include implementing a simplified pricing model, targeted capital investments in new attractions across our parks, and an ongoing focus on cost control as part of a larger commitment to overall financial discipline. Additionally, we announced a new resort strategy that will include evaluating opportunities which could include purchasing or developing resort properties in or near some of our parks.

As one of the world’s foremost zoological organizations and a global leader in animal welfare, training, husbandry and veterinary care, we are committed to helping protect and preserve the environment and the natural world. For more information, see the “—Our Animals” and “—Philanthropy and Community Relations” sections.

Recent Developments

Regulatory Developments

On July 16, 2015, Senator Dianne Feinstein (D-CA) offered an amendment to the Fiscal Year 2016 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies spending bill during consideration of the bill by

the full Committee on Appropriations. The amendment directed the U.S. Department of Agriculture's Animal and Plant Health Inspection Service (APHIS) to issue updated regulations for the display of marine mammals in domestic zoos and aquaria within six months of enactment. While that amendment was not included in the final Fiscal Year 2016 Omnibus Appropriations Bill, APHIS released a proposed rule on February 3, 2016 to amend the Animal Welfare Act regulations concerning the humane handling, care and treatment of marine mammals in captivity (the "Proposed APHIS Regulations").

On October 8, 2015, the California Coastal Commission approved our plan to build a new killer whale habitat (the "Blue World Project") in San Diego, but attached certain conditions to its approval. Those conditions included, among other things, a prohibition against breeding killer whales or transporting killer whales to or from the habitat. On December 29, 2015, we filed a lawsuit against the California Coastal Commission on the grounds that the California Coastal Commission decision was outside the scope of its authority in imposing such conditions because it does not have jurisdiction over killer whales, which are regulated under federal law.

On November 16, 2015, Representative Adam Schiff (D-CA) introduced the Orca Responsibility and Care Advancement Act (the “ORCA Act”). The bill has been referred to the Natural Resources and Agriculture Committees. It is unclear whether this bill will be enacted into law, but if enacted, this bill would amend the Marine Mammal Protection Act of 1972 and the Animal Welfare Act to prohibit the breeding, the taking (wild capture), and the import or export of killer whales for the purposes of public display.

For a discussion of certain risks associated with the Proposed APHIS Regulations, the California Coastal Commission’s decision, and the ORCA Act, see “Risk Factors—Risks Related to Our Business and Our Industry—We are subject to complex federal and state regulations governing the treatment of animals, which can change, and to claims and lawsuits by activist groups before government regulators and in the courts.”

On February 8, 2016, the San Diego City Council decided to put a proposal on the June 7, 2016 primary ballot for voters to decide whether the city of San Diego should have a higher minimum wage than the \$10 per hour required by the State of California. If approved by a simple majority of San Diego voters, the proposal would make the city’s minimum wage \$10.50 as soon as the election results are certified, and then increase it to \$11.50 on January 1, 2017. Two years later in January 2019, annual increases to the San Diego minimum wage based on the consumer price index would start to be implemented. For a discussion of certain risks associated with the foregoing proposal, see “Risk Factors—Risks Related to Our Business and Our Industry—Increased labor costs and employee health and welfare benefits may negatively impact our operations.”

Share Repurchase Program and Share Repurchases

In 2014, our Board of Directors (the “Board”) authorized the repurchase of up to \$250.0 million of our common stock (the “Share Repurchase Program”). During 2015, we repurchased a total of 2,413,803 shares of common stock at an average price of \$18.62 per share and a total cost of approximately \$45.0 million. All of the repurchased common stock was held as treasury shares at December 31, 2015. We have approximately \$190.0 million available for future repurchases under the Share Repurchase Program as of December 31, 2015.

The amount available for future dividend declarations, share repurchases and certain other restricted payments under the covenant restrictions in the debt agreements is currently limited to \$120.0 million for fiscal year 2016 based on the current calculation and adjusts at the beginning of each quarter as set forth in Note 11—Long-Term Debt to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

International Development Strategy

We believe that in addition to the growth potential that exists domestically, our brands can also have significant appeal in certain international markets. We are currently assessing these opportunities while maintaining a conservative and disciplined approach towards the execution of our international development strategy. Thus far, we have identified our international market priorities as well as our international partners within select markets. The market priorities were developed based on a specific set of criteria to ensure we expand our brands into the most attractive markets. On February 17, 2016, we moved to the next phase of our international development strategy with our partner in the Middle East (the “Middle East Project”) by (i) extending the exclusive negotiating period under our previously announced Memorandum of Understanding and (ii) executing an Interim Advisory Services Agreement. Pursuant to the Interim Advisory Services Agreement, we will commence certain advisory services pertaining to the planning and design of the Middle East Project, with funding from our partner in the Middle East offsetting our internal expenses. The Middle East Project is subject to, among other things, the parties completing the design development phase of such project and the mutual agreement of definitive documents. For a discussion of certain risks associated with our international development strategy, including the Middle East Project, see “Risk Factors—Risks Related to Our Business and Our Industry—We may not realize the benefits of acquisitions or other strategic initiatives.”

Leadership Changes

On February 18, 2016, Daniel B. Brown announced his decision to retire as Chief Parks Operations Officer of the Company effective as of April 1, 2016. Mr. Brown will remain as an employee of the Company through May 31, 2016, to assist in the transition of his responsibilities. In connection with Mr. Brown's retirement, on February 18, 2016, our Board of Directors appointed John Reilly, SeaWorld San Diego Park President, to the position of Chief Parks Operations Officer of the Company effective as of April 1, 2016.

Mr. Reilly, age 47, began his career at Busch Gardens Williamsburg in 1985. Most recently, Mr. Reilly has served as SeaWorld San Diego Park President since October 2010 and, prior to that, as the Busch Gardens Williamsburg Park President. Mr. Reilly is the chairman of the board of directors of the San Diego Regional Chamber of Commerce and vice chairman of the board of directors of the San Diego Regional Economic Development Corporation. Mr. Reilly also serves on the board of trustees of the Hubbs-SeaWorld Research Institute and holds a Bachelor of Arts degree from The College of William & Mary.

On February 19, 2016, we announced additional changes to our operational management team. As part of the organization changes, Dr. Christopher Dold, the Vice President of Veterinary Services will be promoted to the position of Chief Zoological Officer, effective April 1, 2016. Mr. Dold will succeed Brad Andrews who will continue to serve as the Company's Zoological Director Emeritus. We also announced the formation of our Resort Development Group and the appointment of Steve Iandolo to the position of Vice President of Resort Development, effective February 1, 2016.

Director Not Standing for Re-Election

On February 24, 2016, Joseph P. Baratta, notified the Company's Board of Directors (the "Board") that he would not stand for re-election to the Board at the 2016 Annual Meeting of Stockholders. Mr. Baratta has served as a director of the Company since 2009. Mr. Baratta advised the Board that his decision not to stand for re-election was not due to a disagreement with the Company on any matters involving the Company's operations, policies or practices. Mr. Baratta is expected to continue to serve as a director until the earlier of (i) the Board's appointment of Mr. Baratta's successor or (ii) the expiration of his current three-year term, which will end effective upon the election of directors at the Company's 2016 Annual Meeting of Stockholders.

Other Matters

In January 2016, we made a decision to remove deep-water lifting floors from the killer whale habitats at each of our three SeaWorld theme parks. The deep-water lifting floors were intended as another safety tool for conducting in-water training in the deeper pools. The lifting floors located in the medical pools, where our killer whale in-water training currently takes place, will not be affected. That training will continue as an essential part of our overall safety program. Having safely and successfully conducted in-water training in the medical pools for almost 4 years, our safety and zoological professionals determined that the deep-water lifting floors in the deeper pools are no longer needed. This change will provide more space for the animals, and increase the time that the deep-water pool is available by eliminating downtime for maintenance and cleaning. As a result, in the first half of 2016, we expect to record approximately \$33.0 million of accelerated depreciation related to the disposal of these lifting floors.

On February 22, 2016, the Board declared a cash dividend of \$0.21 per share to all common stockholders of record at the close of business on March 14, 2016, which will be paid on April 1, 2016. Based on this dividend declaration, certain performance-vesting restricted shares (the "2.25x Performance Restricted shares") held by some of our equity plan participants will vest on April 1, 2016. We expect to recognize approximately \$28.0 million of equity compensation expense and record approximately \$3.4 million of accumulated dividends related to these 2.25x Performance Restricted shares during the first quarter of 2016. See Note 18—Equity-Based Compensation to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

Our Competitive Strengths

· **Brands That Consumers Know and Love.** We believe our brands attract and appeal to guests from around the world. We use our brands and intellectual property and the work we do to care for animals to increase awareness of our theme parks, drive attendance to our theme parks and create "out-of-park" experiences for our guests as a way to connect with them before they visit our theme parks and to stay connected with them after their visit. Such experiences include various media and consumer product offerings, including websites, advertisements and media programming, toys, books, apparel and technology accessories. For example, we have developed iPhone and Android smartphone applications for our SeaWorld, Busch Gardens and Sesame Place theme parks, which offer GPS navigation through the theme parks and interactive theme park maps that show the nearest dining locations, gift shops and ATMs and provide real-time updates on wait times for rides.

We have also leveraged our brands into media, entertainment and consumer products. We produce two educational and entertaining television shows that highlight our rescue and rehabilitation and animal care efforts, Sea Rescue and The Wildlife Docs. Sea Rescue is a Saturday morning television show airing on the ABC Network featuring our

ongoing work to rescue injured animals in coordination with various government agencies and other rescue organizations. Since its debut in 2012 through December 2015, on a cumulative basis, Sea Rescue has attracted over 281 million viewers and has been rated as the number one show in its timeslot in a number of major U.S. markets. In 2014, Sea Rescue was nominated for a Daytime Emmy® Award in the category of Outstanding Children's Series by the National Academy of Television Arts & Sciences. The Wildlife Docs, which also airs on the ABC Network on Saturday mornings, centers on the day-to-day activities at our Animal Care Center at Busch Gardens Tampa. Since its debut in October 2013 through December 2015, on a cumulative basis, The Wildlife Docs has attracted over 168 million viewers and in 2015, The Wildlife Docs was nominated for a Daytime Emmy Award in the category of Outstanding Children's Series by the National Academy of Television Arts & Sciences. In 2015, both Sea Rescue and The Wildlife Docs were each presented with a silver honor from the Parents' Choice Award®, a nonprofit program created to recognize quality children's media.

- Differentiated Theme Parks. We own and operate 11 theme parks, including four of the top 20 theme parks and three of the top 10 water parks in North America as measured by attendance, according to the TEA/AECOM Report. Our theme parks are beautifully themed and deliver high-quality entertainment, aesthetic appeal, shopping and dining and have won numerous awards, including the Amusement Today Golden Ticket Award for Best Landscaping. Our theme parks feature eight of the 50 highest rated steel roller coasters in the world, led by Apollo's Chariot, the #6 rated steel roller coaster in the world according to the 2015 Amusement Today Annual Survey, and have won the top three spots in the Amusement Today annual Golden Ticket Award for Best Marine Life Park since the award's inception in 2006 through 2014 and the top four spots in 2015. We have over 600 attractions that appeal to guests of all ages, including 97 animal habitats, 117 shows and 194 rides. In addition, we have over 300 restaurants and specialty shops. Our theme parks appeal to the entire family and offer a broad range of experiences, ranging from emotional and educational animal encounters to thrilling rides and exciting shows. As a result of these distinctive offerings, our guest surveys routinely report very high "Overall Satisfaction" scores, with 96% of respondents in 2015 ranking their experience good or excellent.
- Diversified Business Portfolio. Our portfolio of theme parks is diversified in a number of important respects. Our theme parks are located in geographic clusters across the United States, which helps protect us from the impact of localized events. Each theme park showcases a different mix of zoological, thrill-oriented and family friendly attractions. This varied portfolio of entertainment offerings attracts guests from a broad range of demographics and geographies. Our theme parks appeal to both regional and destination guests, which provide us with a diversified attendance base while allowing us to benefit from improvements in macroeconomic conditions, including increased consumer spending and international travel.
- One of the World's Largest Zoological Collections. We believe we are attractively positioned in the industry due to our ability to present our animals in a differentiated and interactive manner. We believe we have one of the world's largest zoological collections, representing more than 800 species of animals. We have the largest group of killer whales, also known as orcas, in human care. We have not collected a killer whale from the wild in almost 40 years. More than 80% of our marine mammals were born in human care.
- Strong Competitive Position. Our competitive position is enhanced by the combination of our powerful brands, extensive zoological collection and expertise and attractive in-park assets located on valuable real estate. Our zoological collection and expertise, which have evolved over our more than five decades of caring for animals, would be very difficult and expensive to replicate. We have made extensive investments in new attractions and infrastructure and we believe that our theme parks are well capitalized. The limited supply of real estate suitable for theme park development coupled with high initial capital investment, long development lead-times and zoning and other land use restrictions constrain the number of large theme parks that can be constructed.
- Proven and Experienced Management Team and Employees with Specialized Animal Expertise. Our senior management team, led by Joel Manby, our President and Chief Executive Officer, includes some of the most experienced theme park executives in the world, with an average tenure of approximately 28 years in the industry, as of December 31, 2015. The management team is comprised of highly skilled and dedicated professionals with wide ranging experience in theme park operations, zoological operations, product development, business development, marketing and finance. In addition, we are one of the world's foremost zoological organizations with approximately 1,500 employees dedicated to animal welfare, training, husbandry and veterinary care.
- Proximity of Complementary Theme Parks. Our theme parks are grouped in key locations near large population centers across the United States, which allows us to realize revenue and operating expense efficiencies. Having complementary theme parks located within close proximity to each other also enables us to cross market and offer bundled ticket and travel packages. In addition, closely located theme parks provide operating efficiencies including sales, marketing, procurement and administrative synergies as overhead expenses are shared among the theme parks within each region.
- Strong Cash Flow Generation. Our disciplined approach to capital expenditures and working capital management enables us to generate strong and recurring cash flow. Five of our 11 theme parks are open year-round, reducing our seasonal cash flow volatility. In addition, we have substantial tax assets, which we expect to be available to defer a portion of our cash tax burden going forward.

· Care for Our Community and the Natural World. We are committed to the communities in which our theme parks are located and focus our philanthropic efforts in three areas: animal preservation and stewardship; youth development and education; and sustainable community projects and programs that help create solutions for environmental sustainability concerns and address local socio-economic issues. Our theme parks inspire and educate children and guests of all ages through experiences that are fun and meaningful. We also partner with charities across the country whose values and missions are aligned with our own by providing financial support, in-kind resources, strategic guidance, and/or hands-on volunteer work. For example, we are the primary supporter and corporate member of the SeaWorld & Busch Gardens Conservation Fund, a non-profit conservation foundation, which makes grants to wildlife research and conservation projects that protect wildlife and wild places worldwide. In addition, we operate one of the world's most respected rescue programs for ill and injured marine animals, in collaboration with federal, state and local governments, and other members of accredited stranding networks, among others, with the goal of rehabilitating and returning them to the wild. For more than five decades, our animal experts have helped more than 27,000 ill, injured, orphaned and abandoned animals. We are committed to rescue, research and education and invest millions annually in these efforts. In 2014, the SeaWorld Animal Rescue Teams based in San Diego, Orlando and San Antonio were presented the Amusement Today 2014 Persons of the Year Award for their tireless dedication to animal welfare.

Our Theme Parks

Our legacy started in 1959 with the opening of our first Busch Gardens theme park in Tampa, Florida. Since then, we have built our portfolio of strong brands and have strategically expanded our portfolio of theme parks across five states on approximately 2,000 acres of owned land and 190 acres of leased land in San Diego.

Our theme parks offer guests a variety of exhilarating experiences, from animal encounters that invite exploration and appreciation of the natural world, to thrilling rides and spectacular shows. Our theme parks are beautifully themed venues that are consistently recognized among the top theme parks in the world and rank among the most highly attended in the industry. In 2014, SeaWorld Orlando ranked among the top 25 theme parks worldwide based on attendance, and Aquatica Orlando ranked among the top 20 water parks worldwide based on attendance, according to the TEA/AECOM Report. In the 2015 Trip Advisor Travelers' Choice™ Awards, 7 of our 11 theme parks were ranked among the top 25 amusement parks or water parks in the United States. In addition, Discovery Cove was ranked the #1 amusement park in the world in the 2013 and 2014 Trip Advisor Travelers' Choice Awards and was ranked the #2 amusement park in the world in the 2015 Trip Advisor Travelers' Choice Awards. We generally locate our theme parks in geographic clusters, which improve our ability to serve guests by providing them with a varied, comprehensive vacation experience and valuable multi-park pricing packages, as well as improving our operating efficiency through shared overhead costs. Our portfolio of branded theme parks includes the following names:

· SeaWorld. SeaWorld is widely recognized as the leading marine-life theme park brand in the world. Our SeaWorld theme parks rank among the most highly attended theme parks in the industry and offer up-close interactive experiences, special dining experiences, thrilling attractions and a variety of live performances that immerse guests in the marine-life theme. We also offer our guests numerous animal encounters, including the opportunity to work with trainers and feed marine animals, as well as themed thrill rides and theatrical shows that creatively incorporate our one-of-kind zoological collection. Collectively, our SeaWorld theme parks have won the top three spots in the Amusement Today annual Golden Ticket Award for Best Marine Life Park since the award's inception in 2006 through 2014, and among the top four spots in 2015, with our Discovery Cove park ranking #3. We currently own and operate the following SeaWorld branded theme parks:

· SeaWorld San Diego is the original SeaWorld theme park spanning 190 acres of waterfront property on Mission Bay in San Diego, California. SeaWorld San Diego is open year-round and is one of the most visited paid attractions in San Diego. Through its attraction, Explorer's Reef, guests enter the park under a massive wave sculpture and encounter an underwater-themed realm of animal attractions, buildings and shade structures. SeaWorld San Diego is also home to Manta, modeled on the successful Manta ride in SeaWorld Orlando, which includes animal habitats featuring bat rays and other marine-life as well as a launch roller coaster shaped like a giant manta ray.

SeaWorld Orlando is a 279 acre theme park in Orlando, Florida and is open year-round. It is our largest theme park as measured by attendance and revenue. SeaWorld Orlando is home to the Journey to Atlantis water coaster ride, Kraken, a floorless roller coaster, and Manta, a flying roller coaster, which integrates animals and a beautiful aquarium into its theme. SeaWorld Orlando is also home to Antarctica: Empire of the Penguin, a realm within the park that immerses guests into a penguin habitat and TurtleTrek, one of the first attractions with two extensive naturalistic habitats, home to manatees and sea turtles, and a 3-D, 360-degree dome theater.

SeaWorld San Antonio is one of the world's largest marine-life theme parks, encompassing approximately 415 acres in San Antonio, Texas. SeaWorld San Antonio features thrilling roller coasters, including the Steel Eel and The Great White, along with a collection of marine-themed shows and experiences. Guests can upgrade their experience for an additional fee to also enjoy our Aquatica water park located within SeaWorld San Antonio. In 2016, Aquatica will be converted into a stand-alone, separate admission park that guests can access through a separate gate.

7

- Busch Gardens. Our Busch Gardens theme parks are family oriented destinations designed to immerse guests in foreign geographic settings. They are renowned for their beauty and cleanliness with award-winning landscaping and gardens. Our Busch Gardens theme parks allow our guests to discover the natural side of fun by offering a family experience featuring a variety of attractions and roller coasters, exotic animals and high-energy theatrical productions that appeal to all ages. We currently own and operate the following Busch Gardens theme parks:
 - Busch Gardens Tampa is open year-round and features exotic animals, thrill rides and shows on 306 acres of lush natural landscape. The zoological collection is a popular attraction for families, and the portfolio of rides, including four of the world's top 50 steel rollercoasters according to the 2015 Amusement Today Annual Survey, broaden the theme park's appeal to teens and thrill seekers of all ages. Busch Gardens Tampa is also home to Falcon's Fury, the tallest freestanding drop tower in North America, standing at 335 feet. The attraction rises more than 300 feet in the air then pivots guests 90 degrees to a face-down dive position before dropping to the ground.
 - Busch Gardens Williamsburg is regularly recognized as one of the highest quality theme parks in the world, capturing dozens of awards over its history for attraction and show quality, design, landscaping, culinary operations and theming. This 422 acre theme park has been named the Most Beautiful Park in the World by the National Amusement Park Historical Association for 25 consecutive years and has earned the Amusement Today Golden Ticket for Best Landscaping each year since the category's inception in 1998. It features some of the industry's top thrill rides with three steel roller coasters, Apollo's Chariot, Alpengeist and Griffon, ranked in the top 35 in the 2015 Amusement Today Annual Survey. Its newest steel roller coaster, which opened in 2015, Tempesto, features three launch experiences and races riders into tight turns at 63 miles per hour and a complete inversion 154 feet in the air.
- Aquatica. Our Aquatica branded water parks are premium, family oriented destinations in a South Seas-themed tropical setting. Aquatica water parks build on the aquatic theme of our SeaWorld brand and feature high-energy rides, water attractions, white-sand beaches and an innovative and entertaining presentation of marine and terrestrial animals. We position our Aquatica water parks as companions to our SeaWorld theme parks and currently own and operate the following Aquatica branded theme parks:
 - Aquatica Orlando is an 81 acre South Seas-themed water park adjacent to SeaWorld Orlando that is open year-round. In 2014, it was the 3rd most attended water park in North America and the 6th most attended water park worldwide, according to the TEA/AECOM Report. The water park features state-of-the-art attractions for guests of all ages and swimming abilities, including some that pass by or through animal habitats, such as the signature Dolphin Plunge that carries guests through a Commerson's dolphin habitat. Aquatica Orlando is also home to Ihu's Breakaway Falls, a multi-drop tower slide, which provides guests a dramatic vertical plunge followed by a maze of curving tubes before final splashdown.
 - Aquatica San Antonio is a water park located within SeaWorld San Antonio that, through 2015, was only accessible to SeaWorld San Antonio guests for an additional fee. In 2016, Aquatica San Antonio will be converted into a stand-alone, separate admission park that guests can access through an independent gate without the need to purchase admission to SeaWorld San Antonio. The water park features a variety of waterslides, rivers, lagoons, a large beach area and private cabanas. The water park's signature attraction, Stingray Falls, takes four-seat rafts down twists and turns to an underwater grotto, where guests view stingrays and tropical fish. In addition, Walhalla Wave, a family raft ride, sends guests to the top of a zero-gravity wall, giving riders the sense of weightlessness. Its newest attraction, Roa's Aviary, features a 13,500 square foot aviary giving guests the chance to float, wade or walk among hundreds of tropical birds. The aviary also contains a guest pool and waterfalls.
 - Aquatica San Diego, a 66 acre water park, is located near our SeaWorld San Diego theme park and is the latest water park added to our portfolio. The water park features Taumata Racer, a high-speed racing water ride that sends riders down a 375-foot slide, around a 180-degree swooping turn, and in and out of tunnels before racing them across the finish line.
- Discovery Cove. Located next to SeaWorld Orlando, Discovery Cove is a 58 acre, reservations only, all-inclusive marine life theme park that is open year-round to guests and features premium culinary offerings. The theme park restricts its attendance to approximately 1,300 guests per day in order to assure a more intimate experience. Discovery Cove provides guests with a full day of activities, including a 30-minute dolphin swim session and the opportunity to snorkel with thousands of tropical fish, wade in a lush lagoon with stingrays and hand-feed birds in a free flight aviary. In 2015, Discovery Cove was rated the #3 Best Marine Life Park in the Amusement Today annual Golden Ticket Award. Discovery Cove was also ranked the #1 amusement park in the world in the 2013 and 2014

Trip Advisor Travelers' Choice Awards and the #2 amusement park in the world in the 2015 Trip Advisor Travelers' Choice Awards. Discovery Cove's attractions include Freshwater Oasis, which offers wading adventures and face-to-face encounters with otters and marmosets and The Grand Reef, which, for an additional fee, includes SeaVenture, an underwater walking tour where guests can get up close to exotic fish and sharks.

8

· Sesame Place. Located on 55 acres between Philadelphia and New York City, Sesame Place is the only theme park in America entirely dedicated to the award-winning television show, Sesame Street, and its spirit of imagination. The theme park shares SeaWorld’s “education and learning through entertainment” philosophy and allows parents and children to experience Sesame Street together through whirling rides, water slides, colorful shows and furry friends. Sesame Place’s newest realm, Cookie’s Monster Land, features five new family-friendly rides, a 3-story net climb, and a soft play area for the park’s youngest visitors. In addition, we have introduced Sesame Street brands in our other theme parks through Sesame Street-themed rides, shows, children’s play areas and merchandise. Our rights to the Sesame Street brand in the United States extend through 2021.

· Water Country USA. Located on 222 acres, Virginia’s largest family water park, Water Country USA, features state-of-the-art water rides and attractions, all set to a 1950s and 1960s surf theme. Water Country USA is the sixth most attended water park in North America according to the TEA/AECOM Report and features a 23,000 square-foot wave pool, a science fiction themed interactive children’s play area, kid-sized water slides, live shows and several other attractions. One of its newest attractions is Colossal Curl, an action packed family thrill ride that sends riders down a nearly 550 foot water slide.

· Adventure Island. Located adjacent to Busch Gardens Tampa, Adventure Island is a 56 acre water park that is filled with water rides, dining and other attractions that incorporate a Key West theme. The theme park is the seventh most attended water park in North America according to the TEA/AECOM Report and features a family-friendly wave pool and children’s water playground that appeal to its core constituency, local families with young children. Its newest water slide, Colossal Curl, opened in 2015 and is modeled after the Colossal Curl ride at Water Country USA.

The following table summarizes our theme park portfolio for 2015:

Location	Year	Animal	Theme Park Opened	Habitats ^(b)	Rides ^(c)	Shows ^(d)	Other ^(e)
Orlando, FL	1973	17		14	15	26	
	2000	5		3	0	5	
	2008	6		14	0	4	
Tampa, FL	1959	16		29	20	43	
	1980	0		12	0	7	
San Diego, CA	1964	30		10	23	20	
	1996 ^(a)	2		9	0	4	
San Antonio, TX	1988	15		22	30	48	
Williamsburg, VA	1975	6		39	16	36	
Langhorne, PA	1984	0		16	0	9	
Total ^(f)		97		194	117	225	

- (a) In 2012, we acquired the Knott's Soak City Chula Vista water park in California from a subsidiary of Cedar Fair, L.P. This water park was renovated, rebranded and relaunched as Aquatica San Diego in June 2013.
- (b) Represents animal habitats without a ride or show element, often adjacent to a similarly themed attraction.
- (c) Represents mechanical dry rides, water rides and water slides (including wave pools and lazy rivers).
- (d) Represents annual and seasonal shows with live entertainment, animals, characters and/or 3-D or 4-D experiences.
- (e) Represents our 2015 portfolio for events, distinctive experiences and play areas, which collectively may include special limited time events; distinctive experiences often limited to small groups and individuals and/or requiring a supplemental fee (such as educational tours, immersive dining experiences and swimming with animals); and pure play areas, typically designed for children or seasonal special events, often without a queue (such as water splash areas or Halloween mazes).
- (f) The total number of animal habitats, rides, shows, events, distinctive experiences and play areas in our theme park portfolio varies seasonally.

Capital Improvements

We make annual targeted investments to support our existing theme park facilities and attractions, as well as enable the development of new theme park attractions and infrastructure. Maintaining and improving our theme parks, as well as opening new attractions, is critical to remain competitive, grow revenue and increase our guests' length of stay. Our theme parks feature a variety of attractions for our guests. Some of the new attractions in 2015 included:

- Tempesto (Busch Gardens Williamsburg): A new thrill roller coaster that features three launch experiences and races riders into tight turns at 63 miles per hour and a complete inversion 154 feet in the air.
- Pacific Point Preserve (SeaWorld San Antonio): A new sea lion habitat which includes dining and merchandise venues.
- Colossal Curl (Adventure Island): An action packed family thrill water slide that combines funnel and wave elements to give riders a sense of weightlessness.
- Sea Lion High (SeaWorld Orlando and SeaWorld San Antonio): A new sea lion comedy show featuring sea lions, walruses and otters which takes place in an aquatic-themed high school.

During 2016, we will open a new roller coaster, Mako, at our SeaWorld Orlando theme park and a family roller coaster, Cobra's Curse, at our Busch Gardens Tampa theme park. In San Antonio, we will open Discovery Point at our SeaWorld San Antonio theme park, which will include a new dolphin habitat and an underwater viewing area. Discovery Point will also offer guests an opportunity to interact and swim with the dolphins. In addition, in 2016, Aquatica San Antonio will be converted into a stand-alone, separate admission park that guests can access through an independent gate without the need to purchase admission to SeaWorld San Antonio.

In 2014 we announced a plan to build new killer whale habitats at all three of our SeaWorld locations (the "Blue World Project"). The San Diego environment was expected to open to the public in 2018 with a new killer whale habitat to possibly follow at SeaWorld Orlando and SeaWorld San Antonio based on our experience in San Diego. The total investment was expected to be approximately \$100.0 million per park by the project's completion. On October 8, 2015, the California Coastal Commission approved our plan to build the Blue World Project in San Diego, but attached certain conditions to its approval. Those conditions included, among other things, a prohibition against breeding killer whales or transporting killer whales to or from the habitat. On December 29, 2015, we filed a lawsuit against the California Coastal Commission on the grounds that the California Coastal Commission decision was outside the scope of its authority in imposing such conditions because it does not have jurisdiction over killer whales, which are regulated under federal law. Due to the pending lawsuit and the uncertain legislative and regulatory environment in California, we are currently reevaluating our plans with respect to the scope of the Blue World Project and we may ultimately decide not to pursue the Blue World Project.

Maintenance and Inspection

Safety is of utmost importance to us. Maintenance at our theme parks is a key component of safety and guest service and includes two areas of focus: (i) facilities and infrastructure and (ii) rides and attractions. Facilities and

infrastructure maintenance consists of all functions associated with upkeep, repair, preventative maintenance, code compliance and improvement of theme park infrastructure. This area is staffed with a combination of external contractors/suppliers and our employees.

10

Rides and attractions maintenance represents all functions dedicated to the inspection, upkeep, repair and testing of guest experiences, particularly rides. Rides and attractions maintenance is also staffed with a combination of external suppliers, inspectors and our employees, who work to assure that ride experiences are operating within the manufacturer's criteria and that maintenance is conducted according to internal standards, industry best practice and standards (such as ASTM International), state or jurisdictional requirements, as well as the ride designer or manufacturer's specifications. All ride maintenance personnel are trained to perform their duties according to internal training processes, in addition to recognized industry certification programs for maintenance leadership. Every ride at our theme parks is inspected regularly, according to daily, weekly, monthly and annual schedules, by both park maintenance experts and external consultants. Additionally, all rides are inspected daily by maintenance personnel before use by guests to ensure proper and safe operation.

A networked enterprise software system is used to plan and track various maintenance activities, in order to schedule and request work, track completion progress and manage costs of parts and materials.

Our Animals

We are one of the world's foremost zoological organizations with approximately 1,500 employees dedicated to animal welfare, training, husbandry and veterinary care. Our mission is to provide experiences that matter, inspire guests through education and entertainment and to care for and protect animals and the wild wonders of our world. We believe we have one of the largest zoological collections in the world, representing more than 800 species of animals. Animals in our care include certain endangered or threatened species such as the cheetah, Bengal tiger, West Indian manatee, black rhinoceros and polar bear.

The well-being of the animals in our care is a top priority. Our veterinarians and zoological staff have been caring for animals for more than five decades, and our expertise is a resource for zoos, aquariums and conservation organizations worldwide. Our expertise and innovation in animal husbandry have led to many advances in the care of species in zoological facilities and in the conservation of wild populations. More than 80% of the marine mammals living in our zoological theme parks were born in human care.

We have made many pioneering contributions to the zoological community. Until the birth of our first orca calf in 1985, no zoological institution had successfully bred orcas. We have not collected a killer whale from the wild in almost 40 years. We care for the largest orca population in zoological facilities worldwide and today have the most genetically diverse orca and dolphin population in our history. Six of our orcas are presently on loan to a third party pursuant to an agreement entered into in February 2004. Pursuant to this agreement, we receive an annual fee, which is not material to our results of operations. In addition to generating incremental revenue for our business, the agreement provides for additional housing capacity for our orcas. The agreement expires in 2031 and is renewable at the option of the parties.

Our commitment to animals also extends beyond our theme parks and throughout the world. We actively participate in species conservation and rescue efforts as discussed in "—Conservation Efforts" and "—Philanthropy and Community Relations" below.

Our Products and Services

Admission Tickets

We generate most of our revenue from selling admission to our theme parks. For the year ended December 31, 2015, theme park admissions accounted for approximately 62% of our revenue. We engage with travel agents, ticket resellers and travel agencies, and directly with our guests through our websites and social media, to promote advanced sales and provide guest convenience and ease of entry. Approximately 41% of our admission ticket purchases are made online.

Guests who visit our theme parks have the option of purchasing multiple types of admission tickets, from single and multi-day tickets to season and annual passes. We also offer a Fun Card at select theme parks that allows multiple visits throughout a calendar year. In addition, visitors can purchase vacation packages with preferred hotels, behind-the-scenes tours, specialty dining packages and front of the line “Quick Queue” access to enhance their experience.

We also participate in joint programs that are designed to provide visitors to Florida and Southern California with flexibility and value in creating their vacation itineraries. We have partnered with several theme parks and attractions to create joint ticket products which allow guests to purchase a ticket providing access to our theme parks as well as other local area attractions. We also partner with independent third parties who sell tickets and/or packages to our theme parks.

We actively run promotions and campaigns to maximize revenue and manage capacity. Recently, we introduced a simplified pricing framework to reduce complexity in the number of ticket offerings, encourage advanced purchases and provide products that are more flexible for our guests to use. We have also launched a new website portal to give guests a balanced look at our park offerings with the ability to choose their experience, such as upgrades to include multiple parks, additional days, dining experiences, tours or animal interactions.

Theme Park Operations

Our theme park operations strive to deliver a high level of safety, security, guest service and cleanliness at our theme parks. The theme park operations team manages the planning and execution of the overall theme park experience on a daily basis, which is comprised of rides, shows and attractions operations, safety, security, environmental, water park and guest arrival services (including parking, tolls, admissions, guest relations, entry and exit). Our theme park operations team identifies and leverages internal best practices across all of our theme parks in order to create a seamless and enjoyable guest experience throughout the entire visit.

Culinary Offerings

We strive to deliver a variety of high quality, creative and memorable culinary experiences to our guests. Our culinary operations are strategically organized into five key guest-oriented disciplines designed to drive in-park per capita spending: restaurants, catering, carts and kiosks, specialty snacks and vending. Our culinary team focuses on providing creative menu offerings and ways to deliver those offerings that appeal to our diverse guest base.

We offer a variety of dining programs that provide quality food and great value to our guests and drive incremental revenues. While our menu offerings have broad appeal, they also cater to guests who desire healthy options and those with special allergy-related needs. Our successful all-day-dining program delivers convenience and value to our guests with numerous restaurant choices for one price. We also offer creative immersive dining experiences that allow guests to dine up-close with our animals and characters. Our commitment to care for the natural world extends to the food that we serve. Some of our menus feature sustainable, organic, seasonal and locally grown ingredients that aim to minimize environmental impacts to animals and their habitats. In addition, through culinary supply chain management initiatives, we are well-positioned to take advantage of changing economic and market conditions.

Merchandise

We offer guests the opportunity to capture memories through our products and services, including through traditional retail shops, game venues and customized photos and videos. We make a focused effort to leverage the emotional connection of the theme park experiences, capitalize on trends and optimize brand alignment with our merchandise product offerings.

We operate nearly 300 specialty retail shops at our theme parks, and our retail business encompasses the entire value chain, from product design to production and sourcing, importing and logistics and visual presentation up to the point of sale. Our products encompass more than 60,000 unique SKUs. Whether a plush toy, a stylish apparel item showcasing an attraction, a commemorative memento or a tote to carry it all, we carry items both big and small so that every guest has a chance to find that perfect item that is a reminder of the memories made in our theme parks.

Guests can purchase visual memories to commemorate their experience with us through real time photo and video technologies. Whether on a traditional ride or during one of our numerous animal experiences, we capture the moment through the use of state-of-the-art processes and technologies. We continue to explore and develop our photo and retail business with advanced offerings to extend beyond the visit with online opportunities to further create customized products. An example is PhotoKey through which guests can instantly view and share all of their photos using the PhotoKey app available on their smartphone devices.

In-park games span from traditional theme park operations to arcade experiences, all with the goal of creating positive family experiences for guests of every age. Our merchandise teams also focus on making a visit to our theme parks easy, convenient and comfortable. This includes offering lockers or service vehicle rentals such as strollers, electric personal carts and wheelchairs.

Licensing, Consumer Products and Media Enterprises

To capitalize on our popular brands, we leverage content through media and licensing arrangements. Our original television series, Sea Rescue and The Wildlife Docs, showcase our rescue and rehabilitation efforts. These Emmy-nominated programs are broadcast nationally through the ABC network, and have been renewed for an additional two seasons, through the summer of 2018. We also developed licensed consumer products to drive consumer sales through retail channels beyond our theme parks. Our licensed consumer product offerings currently include toys, games, books, apparel, DVD's and technology accessories, among other product types.

In addition, we expanded our brand appeal through strategic alliances with well-known external brands, including Sesame Street and The Polar Express. In 2015, we acquired the license to incorporate Rudolph the Red-Nosed Reindeer into our park holiday programs under a new agreement with Character Arts Creations, LLC. We also released original songs and soundtracks from our theme parks and media enterprises for sale on digital music channels.

While currently these products do not represent a material percentage of our revenue, we believe by leveraging our brands and our intellectual property through media and consumer products, we will create new revenue streams and enhance the value of our brands through greater brand visibility, consumer awareness and increased consumer loyalty.

Group Events and Conventions

We host a variety of different group events, meetings and conventions at our theme parks both during the day and at night. Our venues offer indoor and outdoor space for meetings, special events, entertainment shows, picnics, teambuilding events, group tours and special group ticket packages. Park buy-outs allow groups to enjoy exclusive itineraries, including meetings and shows, up-close encounters with animals and behind the scenes tours. Each of our theme parks offers attractive venues, such as SeaWorld Orlando's Ports of Call, a 70,000 square foot dedicated special events complex and banquet facility at the theme park, which is themed as a nautical wharf-side warehouse district, complete with two miniature submarines. The facility offers more than 30,000 square feet of dining space, with a ballroom that provides seating for more than 750 guests and a larger outdoor garden reception area that can accommodate additional guests. For the year ended December 31, 2015, we hosted over 1,600 group events at our theme parks across the country.

Corporate Sponsorships and Strategic Alliances

We seek to secure long-term corporate sponsorships and strategic alliances with leading companies and brands that share our core values, deliver significant brand value and influence and drive mutual business gains. We identify prospective corporate sponsors based on their industry and industry-leading position, and we select them based on their ability to deliver impactful value to our theme parks and our brands, as well as to consumer products and various entertainment platforms. Our corporate sponsors contribute to us in a multitude of ways, such as through direct marketing, advertising, media exposure and licensing opportunities, as well as through contributions to the non-profit SeaWorld & Busch Gardens Conservation Fund.

Our Corporate Culture

Our corporate culture is built on our mission to provide experiences that matter and inspire guests to protect animals and the wild wonders of our world. Our management team and our employees, referred to as ambassadors, are passionate about connecting people to nature and animals and are committed to working in a socially responsible and environmentally sustainable manner. We teach our ambassadors to be welcoming, friendly and attentive and to create an environment that allows our guests to build lasting memories with their family and friends. Our consumer-oriented corporate culture is integral to our organization and the cornerstone of our success.

Conservation Efforts

We contribute to species conservation, wildlife rescue, education and environmental stewardship programs around the world. Through the SeaWorld & Busch Gardens Conservation Fund, a non-profit organization, we support wildlife research, habitat protection, animal rescue and conservation education. We also work with and support conservation-related organizations, including the National Fish and Wildlife Foundation and American Humane Association and contribute funds in support of efforts to ensure the sustainability of animal species in the wild. Some of our animals also serve as animal ambassadors in helping raise awareness for species in danger through numerous national media and public appearances. Through our theme parks' up-close animal encounters, educational exhibits

and innovative entertainment, we strive to inspire each guest who visits one of our parks to care for and conserve the natural world.

In addition, we operate one of the world's most respected rescue programs for ill and injured marine animals, in collaboration with federal, state and local governments, and other members of accredited stranding networks, among others, with the goal of rehabilitating and returning them to the wild. For more than five decades, our animal experts have helped more than 27,000 ill, injured, orphaned and abandoned animals. We are committed to rescue, rehabilitation, research and education and invest significant amounts annually in these efforts.

Our commitment to research and conservation also has led to advances in the care of animals in zoological facilities and in conserving wild populations. We have pioneered new ways to rehabilitate animals in need. For example, we helped to create nutritional formulas and custom nursing bottles to hand-feed orphaned animals and developed techniques to help save sea turtles with cracked shells, created prosthetic beaks for injured birds and outfitted injured manatees with an “animal wetsuit” allowing them to stay afloat and warm.

Philanthropy and Community Relations

We are committed to the communities in which our theme parks are located and focus our philanthropic efforts on three areas: animal preservation and stewardship; youth development and education; and sustainable community projects and programs that help create solutions for environmental sustainability concerns and address local socio-economic issues. We also partner with charities across the country whose values and missions are aligned with our own by providing financial support, in-kind resources, strategic guidance, and/or hands-on volunteer work.

Our theme parks inspire and educate children and guests of all ages by providing experiences that matter. Our philanthropic efforts reflect this commitment through educational outreach visits to inner-city schools and hosting “special wish” children to enjoy theme parks. Plus, through our SeaWorld Cares and Busch Gardens Cares initiatives, our employees are actively involved in volunteer activities such as beach and river cleanup efforts.

Finally, a key component of our community outreach is our long-term commitment to honoring the service of members of the U.S. military and acknowledging the sacrifices that their families have made. Currently, we offer a free admission program to the majority of our theme parks, which provided approximately 500,000 free single day passes to active military personnel and their families for the year ended December 31, 2015.

Our Guests and Customers

Our theme parks are located near a number of large metropolitan areas, with a total population of over 61 million people located within 150 miles of our parks. Additionally, because our theme parks are divided between regional and destination theme parks, our guests include local visitors, non-local domestic visitors and international tourists. Our theme parks are entertainment venues and have broad demographic appeal. For the year ended December 31, 2015, families comprised 51% of our attendance with an average party size of 3.8 people.

Seasonality

The theme park industry is seasonal in nature. Historically, we generate the highest revenues in the second and third quarters of each year, in part because six of our theme parks are only open for a portion of the year. Approximately two-thirds of the Company’s attendance and revenues are generated in the second and third quarters of the year. The percent mix of revenues by quarter is relatively constant each year, but revenues can shift between the first and second quarters due to the timing of Easter and spring break holidays and between the first and fourth quarters due to the timing of Christmas and New Year. Even for our five theme parks open year-round, attendance patterns have significant seasonality, driven by holidays, school vacations and weather conditions. One of our goals is to continue to generate cash flow throughout the year to maximize profitability and minimize the effects of seasonality, in particular at our theme parks that are open year-round. In recent years, we have begun to encourage attendance during non-peak times by offering a variety of seasonal programs and events, such as shows for kids, special concert series, and Halloween and Christmas events. In addition, during seasonally slow times, operating costs are controlled by reducing operating hours and show schedules. Employment levels required for peak operations are met largely through part-time and seasonal hiring.

Marketing

Our marketing and sales efforts are focused on generating profitable attendance, in-park per capita spending and building the value of our brands. Through advertising, including park specific messages, promotions, retail and corporate partners, digital platforms, public relations and sales initiatives, we drive awareness of and intent to visit our theme parks, attendance and higher in-park per capita spending on an international, national and regional level. Our attractive destination locations and strategy of grouping parks together creates high appeal for multi-day visits. Our strategic priorities include: (i) emphasizing brand distinction, (ii) improving guest engagement and loyalty, (iii) driving maximum revenue and (iv) broadening appeal (among multi-cultural consumers, kids and domestic markets).

Intellectual Property

Our business is affected by our ability to protect against infringement of our intellectual property, including our trademarks, service marks, domain names, copyrights and other proprietary rights. Important intellectual property includes rights in names, logos, character likenesses, theme park attractions, content of television programs and systems related to the study and care of certain of our animals. In addition, we are party to key license agreements as licensee, including our agreements with Sesame Workshop and ABI as discussed below. To protect our intellectual property rights, we rely upon a combination of trademark, copyright, trade secret and unfair competition laws of the United States and other countries, as well as contract provisions and third-party policies and procedures governing internet/domain name registrations.

Busch Gardens License Agreement

Our subsidiary, SeaWorld Parks & Entertainment LLC, is a party to a trademark license agreement with ABI, which governs our use of the Busch Gardens name and logo. Under the license agreement, ABI granted to us a perpetual, exclusive, worldwide, royalty-free license to use the Busch Gardens trademark and certain related domain names in connection with the operation, marketing, promotion and advertising of our theme parks, as well as in connection with the production, use, distribution and sale of merchandise sold in connection with such theme parks.

The license extends to our Busch Gardens theme parks located in Williamsburg, Virginia and Tampa, Florida, and may also include any amusement or theme park anywhere in the world that we acquire, build or rebrand with the Busch Gardens name in the future, subject to certain conditions. ABI may not assign, transfer or sell the Busch Gardens mark without first granting us a reasonable right of first refusal to purchase such mark.

We have agreed to indemnify ABI from and against third party claims and losses arising out of or in connection with the operation of the theme parks and the related marketing or promotion thereof, any merchandise branded with the licensed marks and the infringement of a third party's intellectual property. We are required to carry certain insurance coverage throughout the term of the license.

The license agreement can be terminated by ABI under certain limited circumstances, including in connection with certain types of change of control of SeaWorld Parks & Entertainment LLC.

Sesame Licenses

Sesame Place Theme Park License Agreements

Our subsidiary, SeaWorld Parks & Entertainment LLC (f/k/a SPI, Inc.), is a party to a license agreement with Sesame Workshop (f/k/a Children's Television Workshop). Under the license agreement, we were granted the right to use titles, marks, names, and characters from the Sesame Street and The Electric Company television series, as well as certain characters and elements created by Muppets Inc. for the Sesame Street series, related marketing materials, and the Sesame Place design trademark in connection with the children's play parks in Langhorne, Pennsylvania. We pay specified royalties based on receipts from business conducted on the premises of the theme park to Sesame Workshop. We are required to include Sesame Workshop and Muppets Inc. as insured parties under any relevant insurance policies, and have agreed to indemnify Sesame Workshop from and against certain claims and expenses arising out of any personal or property injury at our Sesame Place park or breach of the license agreement. The license agreement can be terminated by Sesame Workshop under certain circumstances, including in connection with a specified change of control of SeaWorld Parks & Entertainment LLC, specified uncured breaches of the license agreement or specified bankruptcy events.

Under a separate agreement, Sesame Workshop granted SeaWorld Parks & Entertainment LLC a license to develop, manufacture, and produce in the United States (and, in some circumstances, elsewhere in the world) and to distribute

and sell at Sesame Place branded play parks, certain products bearing Sesame Place, Sesame Street, and Sesame Street Muppet characters, likenesses, logos, marks and materials, including apparel, flags, bags, mugs, buttons, pens, wristbands and other miscellaneous products. The parties have agreed to indemnify each other from and against claims and expenses in connection with our respective performance under the license agreement and any breach thereof. Sesame Workshop may terminate the license under certain circumstances, including our uncured breach or bankruptcy.

Both agreements are scheduled to remain in effect until December 31, 2021.

15

Multi-Park License

Under a separate agreement, Sesame Workshop granted SeaWorld Parks & Entertainment LLC rights to use the Sesame Place and Sesame Workshop names and logos, certain Sesame Street characters (including Elmo, Big Bird and Cookie Monster), and granted a limited term right of first negotiation to utilize characters from other Sesame Workshop television series at SeaWorld San Diego, SeaWorld San Antonio, SeaWorld Orlando, and our two Busch Gardens theme parks. Within these theme parks we have rights to use the marks and characters in connection with Sesame Street themed attractions, Sesame Street shows and character appearances, and the marketing, advertising and promotion of the theme parks.

Sesame Workshop has also granted us the right to develop, manufacture, distribute and sell products within our SeaWorld and Busch Gardens theme parks, at other parks in the United States that are owned or operated by SeaWorld Parks & Entertainment LLC, its subsidiaries or affiliated entities, and through online stores on websites for our parks.

Pursuant to this agreement we pay a specified annual license fee, as well as a specified royalty based on revenues earned in connection with sales of licensed products, all food and beverage items utilizing the licensed elements and any events utilizing such elements if a separate fee is paid for such event.

The parties have agreed to indemnify each other from and against third party claims and expenses arising from their respective performance under the agreement or any breach thereof. Sesame Workshop has the right to terminate the agreement under certain limited circumstances, including a change of control of SeaWorld Parks & Entertainment LLC, SeaWorld Parks & Entertainment LLC's bankruptcy or uncured breach of the agreement, or the termination of the license agreement regarding our Sesame Place theme park.

The agreement is scheduled to remain in effect until December 31, 2021 unless earlier terminated or extended.

Our Industry

We believe that the theme park industry is an attractive sector characterized by a proven business model that generates significant cash flow and has avenues for growth. Theme parks offer a strong consumer value proposition, particularly when compared to other forms of out-of-home entertainment such as concerts, sporting events, cruises and movies. As a result, theme parks attract a broad range of guests and generally exhibit strong operating margin across regions, operators, park types and macroeconomic conditions.

According to the IBISWorld Report, the U.S. amusement park industry is comprised of a large number of venues ranging from a small group of high attendance, heavily themed destination theme parks to a large group of lower attendance local theme parks and family entertainment centers. According to the TEA/AECOM Report, the United States is the largest theme park market in the world with five of the ten largest theme park operators and 9 of the 25 most-visited theme parks in the world. In 2015, the U.S. amusement park industry was expected to generate approximately \$14.8 billion in revenues, according to the IBISWorld Report.

Competition

Our theme parks and other product and entertainment offerings compete directly for discretionary spending with other destination and regional theme parks and water and amusement parks and indirectly with other types of recreational facilities and forms of entertainment, including movies, home entertainment options, sports attractions, restaurants and vacation travel. Principal direct competitors of our theme parks include theme parks operated by The Walt Disney Company, Universal Studios, Six Flags, Cedar Fair, Merlin Entertainments and Hershey Entertainment and Resorts Company. Our highly differentiated products provide a value proposition and a complementary experience to those offered by fantasy-themed Disney and Universal parks. In addition, we benefit from the significant capital investments

made in developing the tourism industry in the Orlando area. The Orlando theme park market is extremely competitive, with a high concentration of theme parks operated by several companies.

Competition is based on multiple factors including location, price, the originality and perceived quality of the rides and attractions, the atmosphere and cleanliness of the theme park, the quality of food and entertainment, weather conditions, ease of travel to the theme park (including direct flights by major airlines), and availability and cost of transportation to a theme park. We believe we can compete effectively, due to our strong brand recognition, unique and extensive zoological collection, targeted capital investments and valuable real estate. Additionally, we believe that our theme parks feature a sufficient quality and variety of rides and attractions, educational and interactive experiences, merchandise locations, restaurants and family orientation to make them highly competitive with other destination and regional theme parks, as well as other forms of entertainment.

Employees

As of December 31, 2015, we employed approximately 5,000 full-time employees and approximately 6,300 part-time employees. During our peak operating season in 2015, we employed approximately 14,200 seasonal employees, many of whom are high school and college students. None of our employees are covered by a collective bargaining agreement, and we consider our employee relations to be good.

Regulatory

Our operations are subject to a variety of federal, state and local laws, regulations and ordinances including, but not limited to, those regulating the environment, display, possession and care of our animals, amusement park rides, building and construction, health and safety, labor and employment, workplace safety, zoning and land use and alcoholic beverage and food service. Key statutes and treaties relating to the display, possession and care of our zoological collection include the Endangered Species Act, Marine Mammal Protection Act, Animal Welfare Act, Convention on International Trade in Endangered Species and Fauna Protection Act and the Lacey Act. We must also comply with the Migratory Bird Treaty Act, Bald and Golden Eagle Protection Act, Wild Bird Conservation Act and National Environmental Policy Act, among other laws and regulations. We believe that we are in substantial compliance with applicable laws, regulations and ordinances; however, such requirements may change over time, and there can be no assurance that new requirements, changes in enforcement policies or newly discovered conditions relating to our properties or operations will not require significant expenditures in the future. For information on recent regulatory developments, see the “—Recent Developments—Regulatory Developments” section above.

Insurance

We maintain insurance of the type and in the amounts that we believe to be commercially reasonable for businesses in our industry. We maintain primary and excess casualty coverage of up to \$100 million. As part of this coverage, we retain deductible/self-insured retention exposures of \$1 million per occurrence for general liability claims, \$250,000 per accident for automobile liability claims, and \$750,000 per occurrence for workers compensation claims. We maintain employers' liability and all coverage required by law in the states in which we operate. Defense costs are included in the insurance coverage we obtain against losses in these areas. Based upon our historical experience of reported claims and an estimate for incurred-but-not-reported claims, we accrue a liability for our deductible/self-insured retention contingencies regarding general liability, automobile liability and workers compensation exposures. We maintain additional forms of special casualty coverage appropriate for businesses in our industry. We also maintain commercial property coverage against fire, natural perils, so-called “extended coverage” perils such as civil commotion, business interruption and terrorism exposures for protection of our real and personal properties (other than land). We generally renegotiate our insurance policies on an annual basis. We cannot predict the amounts of premium cost that we may be required to pay for future insurance coverage, the level of any deductibles/self-insured retentions we may retain applicable thereto, the level of aggregate excess coverage available or the availability of coverage for special or specific risks.

Corporate History

On December 1, 2009, investment funds affiliated with The Blackstone Group L.P. and certain co-investors, through SeaWorld Entertainment, Inc. and its wholly owned subsidiary, SeaWorld Parks & Entertainment, Inc. (“SEA”), acquired 100% of the equity interests of Sea World LLC (f/k/a Sea World, Inc.) and SeaWorld Parks & Entertainment LLC (f/k/a Busch Entertainment Corporation) from certain subsidiaries of Anheuser-Busch Companies, Inc. We refer to this acquisition and related financing transactions as the “2009 Transactions.”

SeaWorld Entertainment, Inc. was incorporated in Delaware on October 2, 2009 in connection with the 2009 Transactions and changed its name from SW Holdco, Inc. to SeaWorld Entertainment, Inc. in December 2012. We completed our initial public offering (the “IPO”) in April 2013 and our common stock is listed on the New York Stock

Exchange under the symbol "SEAS". As of December 31, 2015, Blackstone and the other co-investors owned, through the Partnerships, approximately 22.2% of our total outstanding common stock.

Available Information

Our website is <http://www.seaworldentertainment.com>. Information contained on our website is not incorporated by reference herein and is not a part of this Annual Report on Form 10-K. We make available free of charge, on or through the “Investor Relations” section of our website, our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports, if any, or other filings filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after electronically filing or furnishing these reports with the Securities and Exchange Commission (“SEC”). We have adopted a Code of Business Conduct and Ethics applicable to our employees including our principal executive, financial and accounting officers, and it is available free of charge, on or through the “Investor Relations” section of our website along with our Corporate Governance Guidelines, and the charters of our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee.

The SEC maintains a website at <http://www.sec.gov> that contains our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports, if any, or other filings filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act, and our proxy and information statements. All reports that we file with the SEC may be read and copied at the SEC’s Public Reference Room at 100 F Street, N.E., Washington, DC, 20549. Information about the operation of the Public Reference Room can be obtained by calling the SEC at 1-800-SEC-0330.

Website and Social Media Disclosure

We use our websites (www.seaworldentertainment.com and www.seaworldinvestors.com) and our corporate Twitter account (@Seaworld) as channels of distribution of company information. The information we post through these channels may be deemed material. Accordingly, investors should monitor these channels, in addition to following our press releases, SEC filings and public conference calls and webcasts. In addition, you may automatically receive e-mail alerts and other information about SeaWorld when you enroll your e-mail address by visiting the “E-mail Alerts” section of our website at www.seaworldinvestors.com. The contents of our website and social media channels are not, however, a part of this Annual Report on Form 10-K.

Item 1A. Risk Factors

The following risk factors should be read carefully in connection with evaluating us and this Annual Report on Form 10-K. Certain statements in “Risk Factors” are forward-looking statements. See “Special Note Regarding Forward-Looking Statements” elsewhere in this report:

Risks Related to Our Business and Our Industry

We are subject to complex federal and state regulations governing the treatment of animals, which can change, and to claims and lawsuits by activist groups before government regulators and in the courts.

We operate in a complex and evolving regulatory environment and are subject to various federal and state statutes and regulations and international treaties implemented by federal law. The states in which we operate also regulate zoological activity involving the import and export of exotic and native wildlife, endangered and/or otherwise protected species, zoological display and anti-cruelty statutes. We incur significant compliance costs in connection with these regulations and violation of such regulations could subject us to fines and penalties and result in the loss of our licenses and permits, which, if occurred, could impact our ability to display certain animals. Future amendments to

existing statutes, regulations and treaties or new statutes, regulations and treaties may potentially restrict our ability to maintain our animals, or to acquire new ones to supplement or sustain our breeding programs or otherwise adversely affect our business. For instance, in March of 2014 a bill was proposed by a California lawmaker which sought to restrict our ability to display certain animals in that state. Also, on July 16, 2015, Senator Dianne Feinstein (D-CA) offered an amendment to the Fiscal Year 2016 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies spending bill during consideration of the bill by the full Committee on Appropriations. The amendment directed the U.S. Department of Agriculture's Animal and Plant Health Inspection Service (APHIS) to issue updated regulations for the display of marine mammals in domestic zoos and aquaria within six months of enactment. While that amendment was not included in the final Fiscal Year 2016 Omnibus Appropriations Bill, APHIS released a proposed rule on February 3, 2016 to amend the Animal Welfare Act regulations concerning the humane handling, care and treatment of marine mammals in captivity (the "Proposed APHIS Regulations"). This proposed rule would affect sections in the regulations for the protection of all marine mammals in the United States relating to human marine mammal interactive programs, space requirements, water quality, indoor facilities, outdoor facilities, implementation dates, and variances. The Proposed APHIS Regulations are available for public comment by all stakeholders, including the Company, until April 4, 2016, and the Proposed APHIS Regulations may be modified as a result of such comments. The full impact of the Proposed APHIS Regulations on our business will not be known until the Proposed APHIS Regulations are finalized. Once effective, the Proposed APHIS Regulations may increase our regulatory compliance burdens and costs, impact the way and manner the Company's marine mammals are displayed and require additional management attention and investments to come into compliance.

On October 8, 2015, the California Coastal Commission approved our plan to build a new killer whale habitat (the “Blue World Project”) in San Diego, but attached certain conditions to its approval. Those conditions included, among other things, a prohibition against breeding killer whales or transporting killer whales to or from the habitat. On December 29, 2015, we filed a lawsuit against the California Coastal Commission on the grounds that the California Coastal Commission decision was outside the scope of its authority in imposing such conditions because it does not have jurisdiction over killer whales, which are regulated under federal law. Due to the pending lawsuit and the uncertain legislative and regulatory environment in California, we are currently reevaluating our plans with respect to the scope of the Blue World Project and we may ultimately decide not to pursue the Blue World Project.

On November 16, 2015, Representative Adam Schiff (D-CA) introduced the Orca Responsibility and Care Advancement Act (the “ORCA Act”). The bill has been referred to the Natural Resources and Agriculture Committees. It is unclear whether this bill will be enacted into law, but if enacted, this bill would amend the Marine Mammal Protection Act of 1972 and the Animal Welfare Act to prohibit the breeding, the taking (wild capture), and the import or export of killer whales for the purposes of public display.

In light of the uncertain legal, legislative and regulatory environment and evolving public sentiment, we continue to evaluate a broad spectrum of enhancements, modifications and alternatives with respect to the display, husbandry and breeding practices, handling and care, and study and research of our killer whales and other marine animals. Any decisions regarding such matters are subject to consideration and assessment of various factors including, but not limited to, the health and welfare of the animals, guest sentiment, market conditions, anticipated impact on our business, regulatory environment, legal proceedings, input from our shareholders and conservation partners, and other factors. If we were to pursue or be required to pursue any alternative approaches with respect to the display, husbandry and breeding practices, handling and care, or study and research of our killer whales or other animals in our zoological collection, the full impact of such alternatives on our business will not be known until such alternatives are finalized. In the meantime, we continue to invest significant management attention and resources to evaluate the impact of and ensure compliance with the applicable regulatory and other developments.

From time to time, animal activist and other third-party groups may make claims before government agencies, bring lawsuits against us, and/or attempt to generate negative publicity associated with our business. Such activities sometimes are based on allegations that we do not properly care for some of our featured animals. On other occasions, such activities are specifically designed to change existing law or enact new law in order to impede our ability to retain, exhibit, acquire or breed animals. While we seek to structure our operations to comply with all applicable federal and state laws and vigorously defend ourselves when sued, there are no assurances as to the outcome of future claims and lawsuits that could be brought against us. In addition, negative publicity associated with such activities could adversely affect our reputation and results of operations. At times, activists and other third-party groups have also attempted to generate negative publicity related to our relationships with our business partners, such as corporate sponsors, promotional partners, vendors, ticket resellers and others. For example, since 2014, we have experienced demand pressures, particularly in California, which we believe were partly due to media attention relating to the legislation proposed in that state. In addition, we have experienced increased media attention since 2014 extending to our relationships with some of our business partners.

Various factors beyond our control could adversely affect attendance and guest spending patterns at our theme parks.

Various factors beyond our control could adversely affect attendance and guest spending patterns at our theme parks. These factors could also affect our suppliers, vendors, insurance carriers and other contractual counterparties. Such factors include:

- war, terrorist activities or threats and heightened travel security measures instituted in response to these events;
- outbreaks of pandemic or contagious diseases or consumers’ concerns relating to potential exposure to contagious diseases;
-

natural disasters, such as hurricanes, fires, earthquakes, tsunamis, tornados, floods and volcanic eruptions and man-made disasters such as the oil spill in the Gulf of Mexico, which may deter travelers from scheduling vacations or cause them to cancel travel or vacation plans;

- bad weather and even forecasts of bad weather, including abnormally hot, cold and/or wet weather, particularly during weekends, holidays or other peak periods;
- changes in the desirability of particular locations or travel patterns of both our domestic and international guests;
- fluctuations in foreign exchange rates;
- low consumer confidence;
- oil prices and travel costs and the financial condition of the airline, automotive and other transportation-related industries, any travel-related disruptions or incidents and their impact on travel;

- actions or statements by U.S. and foreign governmental officials related to travel and corporate travel-related activities (including changes to the U.S. visa rules) and the resulting public perception of such travel and activities; and
- interruption of public or private utility services to our theme parks.

Any one or more of these factors could adversely affect attendance and total per capita spending at our theme parks, which could materially adversely affect our business, financial condition and results of operations.

Incidents or adverse publicity concerning our theme parks or the theme park industry generally could harm our brands or reputation as well as negatively impact our revenues and profitability.

Our brands and our reputation are among our most important assets. Our ability to attract and retain guests depends, in part, upon the external perceptions of the Company, the quality of our theme parks and services and our corporate and management integrity. The operation of theme parks involves the risk of accidents, illnesses, environmental incidents and other incidents which may negatively affect the perception of guest and employee safety, health, security and guest satisfaction and which could negatively impact our brands or reputation and our business and results of operations. An accident or an injury at any of our theme parks or at theme parks operated by competitors, particularly an accident or an injury involving the safety of guests and employees, that receives media attention, is the topic of a book, film, documentary or is otherwise the subject of public discussions, may harm our brands or reputation, cause a loss of consumer confidence in the Company, reduce attendance at our theme parks and negatively impact our results of operations. Such incidents have occurred in the past and may occur in the future. In addition, other types of adverse publicity concerning our business or the theme park industry generally could harm our brands, reputation and results of operations. The considerable expansion in the use of social media over recent years has compounded the impact of negative publicity.

We could be adversely affected by a decline in discretionary consumer spending or consumer confidence.

Our success depends to a significant extent on discretionary consumer spending, which is heavily influenced by general economic conditions and the availability of discretionary income. In the past, severe economic downturns, coupled with high volatility and uncertainty as to the future global economic landscape, have had an adverse effect on consumers' discretionary income and consumer confidence.

Difficult economic conditions and recessionary periods may adversely impact attendance figures, the frequency with which guests choose to visit our theme parks and guest spending patterns at our theme parks. The actual or perceived weakness in the economy could also lead to decreased spending by our guests. For example, in 2009 and 2010, we experienced a decline in attendance as a result of the global economic crisis, which in turn adversely affected our revenue and profitability. Both attendance and total per capita spending at our theme parks are key drivers of our revenue and profitability, and reductions in either can materially adversely affect our business, financial condition and results of operations.

A significant portion of our revenues are generated in the States of Florida, California and Virginia and in the Orlando market. Any risks affecting such markets, such as natural disasters and travel-related disruptions or incidents, may materially adversely affect our business, financial condition and results of operations.

Approximately 57%, 18% and 13% of our revenues in 2015 were generated in the States of Florida, California and Virginia, respectively. In addition, our revenues and results of operations depend significantly on the results of our Orlando theme parks. The Orlando theme park market is extremely competitive, with a high concentration of theme parks operated by several companies.

Any risks described in this Annual Report on Form 10-K, such as the occurrence of natural disasters and travel-related disruptions or incidents, affecting the States of Florida, California and Virginia generally or our Orlando theme parks in particular may materially adversely affect our business, financial condition or results of operations, especially if

they have the effect of decreasing attendance at our theme parks or, in extreme cases, cause us to close any of our theme parks for any period of time. For example, in 2004, the State of Florida was impacted by Hurricanes Charley, Frances and Jeanne, which caused extensive physical damage and power outages in various parts of the State of Florida. Although we attempted to manage our exposure to such events by implementing our hurricane preparedness plan, our theme parks located in Orlando and Tampa, Florida experienced closures of several days as a result of these storms.

Our operating results are subject to seasonal fluctuations.

We have historically experienced and expect to continue to experience seasonal fluctuations in our annual theme park attendance and revenue, which are typically higher in our second and third quarters, partly because six of our theme parks are only open for a portion of the year. Approximately two-thirds of our attendance and revenues are generated in the second and third quarters of the year and we typically incur a net loss in the first and fourth quarters. In addition, school vacations and school start dates also cause fluctuations in our quarterly theme park attendance and revenue.

Furthermore, the operating season at some of our theme parks, including Adventure Island, Aquatica San Diego, Busch Gardens Williamsburg, Water Country USA and Sesame Place, is of limited duration. In addition, most of our expenses for maintenance and costs of adding new attractions at our seasonal theme parks are incurred when the operating season is over, which may increase the need for borrowing to fund such expenses during such periods.

When conditions or events described in this section occur during the operating season, particularly during the second and third quarters, there is only a limited period of time during which the impact of those conditions or events can be mitigated. Accordingly, such conditions or events may have a disproportionately adverse effect on our revenues and cash flow.

Because we operate in a highly competitive industry, our revenues, profits or market share could be harmed if we are unable to compete effectively.

The entertainment industry, and the theme park industry in particular, is highly competitive. Our theme parks compete with other theme, water and amusement parks and with other types of recreational facilities and forms of entertainment, including movies, home entertainment options, sports attractions, restaurants and vacation travel.

Principal direct competitors of our theme parks include theme parks operated by The Walt Disney Company, Universal Studios, Six Flags, Cedar Fair, Merlin Entertainments and Hershey Entertainment and Resorts Company. The principal competitive factors of a theme park include location, price, originality and perceived quality of the rides and attractions, the atmosphere and cleanliness of the theme park, the quality of its food and entertainment, weather conditions, ease of travel to the theme park (including direct flights by major airlines), and availability and cost of transportation to a theme park. Certain of our direct competitors have substantially greater financial resources than we do, and they may be able to adapt more quickly to changes in guest preferences or devote greater resources to promotion of their offerings and attractions than us. Our competitors may be able to attract guests to their theme parks in lieu of our own through the development or acquisition of new rides, attractions or shows that are perceived by guests to be of a higher quality and entertainment value. As a result, we may not be able to compete successfully against such competitors. For example, in 2014, we experienced negative attendance trends, primarily at our destination parks in Florida, which we believe was due in part to significant new attraction offerings at competitor destination parks, along with a delay in the scheduled opening of one of our new rides at our Busch Gardens Tampa park.

Featuring animals at our theme parks involves risks.

Our theme parks feature numerous displays and interactions that include animals. All animal enterprises involve some degree of risk. All animal interaction by our employees and our guests in attractions in our theme parks, where offered, involves risk. While we maintain strict safety procedures for the protection of our employees and guests, injuries or death, while rare, have occurred in the past. For example, in February 2010, a trainer was killed while engaged in an interaction with a killer whale. Following this incident, we were subject to an inspection by the U.S. Department of Labor's Occupational Safety and Health Administration ("OSHA"), which resulted in three citations concerning alleged violations of the Occupational Safety and Health Act and certain regulations thereunder. In 2012, we initiated an appeal of certain of these citations with the U.S. Court of Appeals for the District of Columbia

Circuit. On April 11, 2014, the Court of Appeals denied our appeal and we elected to not pursue further appeal. In connection with this incident, we reviewed and revised our safety protocols and made certain safety-related facility enhancements such as revising training protocols used in show performances. This incident has also been and continues to be the subject of significant media attention, including extensive television and newspaper coverage, a documentary and a book, as well as discussions in social media. This incident and similar events that may occur in the future may harm our reputation, reduce attendance and negatively impact our business, financial condition and results of operations.

In addition, six killer whales are presently on loan to a third party. Although the occurrence of any accident or injury involving these killer whales would be outside of our control, any such occurrence could negatively affect our business and reputation.

We maintain insurance of the type and in amounts that we believe is commercially reasonable and that is available to animal enterprise related businesses in the theme park industry. We cannot predict the level of the premiums that we may be required to pay for subsequent insurance coverage, the level of any self-insurance retention applicable thereto, the level of aggregate coverage available, or the availability of coverage for specific risks.

Animals in our care are important to our theme parks, and they could be exposed to infectious diseases.

Many of our theme parks are distinguished from those of our competitors in that we offer guest interactions with animals. Individual animals, specific species of animals or groups of animals in our zoological collection could be exposed to infectious diseases. While we have never had any such experiences, an outbreak of an infectious disease among any animals in our theme parks or the public's perception that a certain disease could be harmful to human health may materially adversely affect our zoological collection, our business, financial condition and results of operations.

The high fixed cost structure of theme park operations can result in significantly lower margins if revenues decline.

A large portion of our expenses is relatively fixed because the costs for full-time employees, maintenance, animal care, utilities, advertising and insurance do not vary significantly with attendance. These fixed costs may increase at a greater rate than our revenues and may not be able to be reduced at the same rate as declining revenues. If cost-cutting efforts are insufficient to offset declines in revenues or are impracticable, we could experience a material decline in margins, revenues, profitability and reduced or negative cash flows. Such effects can be especially pronounced during periods of economic contraction or slow economic growth.

Changes in consumer tastes and preferences for entertainment and consumer products could reduce demand for our entertainment offerings and products and adversely affect the profitability of our business.

The success of our business depends on our ability to consistently provide, maintain and expand theme park attractions as well as create and distribute media programming, online material and consumer products that meet changing consumer preferences. In addition, consumers from outside the United States constitute an increasingly important portion of our theme park attendance, and our success depends in part on our ability to successfully predict and adapt to tastes and preferences of this consumer group. If our entertainment offerings and products do not achieve sufficient consumer acceptance or if consumer preferences change, our business, financial condition or results of operations could be materially adversely affected.

Cyber security risks and the failure to maintain the integrity of internal or guest data could result in damages to our reputation and/or subject us to costs, fines or lawsuits.

We collect and retain large volumes of internal and guest data, including credit card numbers and other personally identifiable information, for business purposes, including for transactional or target marketing and promotional purposes, and our various information technology systems enter, process, summarize and report such data. We also maintain personally identifiable information about our employees. The integrity and protection of our guest, employee and Company data is critical to our business and our guests and employees have a high expectation that we will adequately protect their personal information. The regulatory environment, as well as the requirements imposed on us by the credit card industry, governing information, security and privacy laws is increasingly demanding and continues to evolve. Maintaining compliance with applicable security and privacy regulations may increase our operating costs and/or adversely impact our ability to market our theme parks, products and services to our guests. We face various security threats, including cyber security attacks on our data (including our vendors' and guests' data) and/or information technology infrastructure. Although we utilize various procedures and controls to monitor and mitigate these threats, there can be no assurance that these procedures and controls will be sufficient to prevent penetrations or disruptions to our systems. Furthermore, a penetrated or compromised data system or the intentional, inadvertent or negligent release or disclosure of data could result in theft, loss, fraudulent or unlawful use of guest, employee or Company data which could harm our reputation or result in remedial and other costs, fines or lawsuits and require significant management attention and resources to be spent. In addition, our insurance coverage and indemnification arrangements that we enter into, if any, may not be adequate to cover all the costs related to cyber security attacks or disruptions resulting from such events. To date, cyber security attacks directed at us have not had a material impact on our financial results. Due to the evolving nature of security threats, however, the impact of any future incident

cannot be predicted.

Increased labor costs and employee health and welfare benefits may negatively impact our operations.

Labor is a primary component in the cost of operating our business. We devote significant resources to recruiting and training our managers and employees. Increased labor costs due to competition, increased minimum wage or employee benefit costs or otherwise, would adversely impact our operating expenses. The Patient Protection and Affordable Care Act of 2010 and the amendments thereto contain provisions that have impacted our healthcare costs. It is possible that any future amendments could significantly increase our compensation costs, which would reduce our net income and adversely affect our cash flows. More recently, on February 8, 2016, the San Diego City Council decided to put a proposal on the June 7, 2016 primary ballot for voters to decide whether the city of San Diego should have a higher minimum wage than the \$10 per hour required by the State of California. If approved by a simple majority of San Diego voters, the proposal would make the city's minimum wage \$10.50 as soon as the election results are certified, and then increase it to \$11.50 on January 1, 2017. Two years later in January 2019, annual increases to the San Diego minimum wage based on the consumer price index would start to be implemented. If enacted, the proposal will impact our operating expenses, particularly at the Company's SeaWorld San Diego and Aquatica San Diego parks.

Our growth strategy may not achieve the anticipated results.

Our future success will depend on our ability to grow our business, including through capital investments to improve existing and develop new theme parks, rides, attractions and shows, as well as in-park product offerings and product offerings outside of our theme parks. Our growth and innovation strategies require significant commitments of management resources and capital investments and may not grow our revenues at the rate we expect or at all. As a result, we may not be able to recover the costs incurred in developing our new projects and initiatives or to realize their intended or projected benefits, which could materially adversely affect our business, financial condition or results of operations. In 2014, we announced an initiative called the Blue World Project that involves building first-of-its-kind killer whale habitats at all three SeaWorld parks. The total investment was expected to be approximately \$100.0 million per park by the project's completion. On October 8, 2015, the California Coastal Commission approved our plan to build a Blue World Project habitat in San Diego, but attached certain conditions to its approval. Those conditions included, among other things, a prohibition against breeding killer whales or transporting killer whales to or from the habitat. On December 29, 2015, we filed a lawsuit against the California Coastal Commission on the grounds that the California Coastal Commission decision was outside the scope of its authority in imposing such conditions because it does not have jurisdiction over killer whales, which are regulated under federal law. Due to the pending lawsuit and the uncertain legislative and regulatory environment, we are currently reevaluating our plans with respect to the scope of the Blue World Project and we may ultimately decide not to pursue the Blue World Project.

We may not be able to fund theme park capital expenditures and investment in future attractions and projects.

A principal competitive factor for a theme park is the originality and perceived quality of its rides and attractions. We need to make continued capital investments through maintenance and the regular addition of new rides and attractions. Our ability to fund capital expenditures will depend on our ability to generate sufficient cash flow from operations and to raise capital from third parties. We cannot assure you that our operations will be able to generate sufficient cash flow to fund such costs, or that we will be able to obtain sufficient financing on adequate terms, or at all, which could cause us to delay or abandon certain projects or plans.

Adverse litigation judgments or settlements resulting from legal proceedings in which we may be involved in the normal course of our business could reduce our profits or limit our ability to operate our business.

We are subject to allegations, claims and legal actions arising in the ordinary course of our business, which may include claims by third parties, including guests who visit our theme parks, our employees or regulators. We are currently subject to securities litigation. We discuss this case and other litigation to which we are subject to in greater detail below under the caption "Item 3. Legal Proceedings" and Note 14—Commitments and Contingencies to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K. The outcome of many of these proceedings cannot be predicted. If any of these proceedings were to be determined adversely to us, a judgment, a fine or a settlement involving a payment of a material sum of money were to occur, or injunctive relief were issued against us, our business, financial condition and results of operations could be materially adversely affected. Even the successful defense of legal proceedings may cause us to incur substantial legal costs and may divert management's attention and resources.

Our intellectual property rights are valuable, and any inability to protect them could adversely affect our business.

Our intellectual property, including our trademarks, service marks, domain names, copyrights, patent and other proprietary rights, constitutes a significant part of the value of the Company. To protect our intellectual property rights, we rely upon a combination of trademark, copyright, patent, trade secret and unfair competition laws of the United States and other countries, as well as contract provisions and third-party policies and procedures governing internet/domain name registrations. However, there can be no assurance that these measures will be successful in any given case, particularly in those countries where the laws do not protect our proprietary rights as fully as in the United

States. We may be unable to prevent the misappropriation, infringement or violation of our intellectual property rights, breaching any contractual obligations to us, or independently developing intellectual property that is similar to ours, any of which could reduce or eliminate any competitive advantage we have developed, adversely affect our revenues or otherwise harm our business.

We have obtained and applied for numerous U.S. and foreign trademark and service mark registrations and will continue to evaluate the registration of additional trademarks and service marks or other intellectual property, as appropriate. We cannot guarantee that any of our pending applications will be approved by the applicable governmental authorities. Moreover, even if the applications are approved, third parties may seek to oppose or otherwise challenge these registrations. A failure to obtain registrations for our intellectual property in the United States and other countries could limit our ability to protect our intellectual property rights and impede our marketing efforts in those jurisdictions.

We are actively engaged in enforcement and other activities to protect our intellectual property rights. If it became necessary for us to resort to litigation to protect these rights, any proceedings could be burdensome, costly and divert the attention of our personnel, and we may not prevail. In addition, any repeal or weakening of laws or enforcement in the United States or internationally intended to protect intellectual property rights could make it more difficult for us to adequately protect our intellectual property rights, negatively impacting their value and increasing the cost of enforcing our rights.

We may be subject to claims for infringing the intellectual property rights of others, which could be costly and result in the loss of significant intellectual property rights.

We cannot be certain that we do not and will not infringe the intellectual property rights of others. We have been in the past, and may be in the future, subject to litigation and other claims in the ordinary course of our business based on allegations of infringement or other violations of the intellectual property rights of others. Regardless of their merits, intellectual property claims can divert the efforts of our personnel and are often time-consuming and expensive to litigate or settle. In addition, to the extent claims against us are successful, we may have to pay substantial money damages or discontinue, modify or rename certain products or services that are found to be in violation of another party's rights. We may have to seek a license (if available on acceptable terms, or at all) to continue offering products and services, which may significantly increase our operating expenses.

If we lose licenses and permits required to exhibit animals and/or violate laws and regulations, our business will be adversely affected.

We are required to hold government licenses and permits, some of which are subject to yearly or periodic renewal, for purposes of possessing, exhibiting and maintaining animals. Although our theme parks' licenses and permits have always been renewed in the past, in the event that any of our licenses or permits are not renewed or any of our licenses or permits are revoked, portions of the affected theme park might not be able to remain open for purpose of displaying or retaining the animals covered by such license or permit. Such an outcome could materially adversely affect our business, financial condition and results of operations.

In addition, we are subject to periodic inspections by federal and state agencies and the subsequent issuance of inspection reports. While we believe that we comply with, or exceed, requisite care and maintenance standards that apply to our animals, government inspectors can cite us for alleged statutory or regulatory violations. In unusual instances when we are cited for an alleged deficiency, we are most often given the opportunity to correct any purported deficiencies without penalty. It is possible, however, that in some cases a federal or state regulator could seek to impose monetary fines on us. In the past, when we have been subjected to governmental claims for fines, the amounts involved were not material to our business, financial condition or results of operations. However, while highly unlikely, we cannot predict whether any future fines that regulators might seek to impose would materially adversely affect our business, financial condition or results of operations.

Moreover, many of the statutes under which we operate allow for the imposition of criminal sanctions. While neither of the foregoing situations are likely to occur, either could negatively affect the business, financial condition or results of operations at our theme parks.

If we lose key personnel, our business may be adversely affected.

Our success depends in part upon a number of key employees, including members of our senior management team who have extensive experience in the industry. We may be unable to retain them or to attract other highly qualified employees, particularly if we do not offer employment terms that are competitive with the rest of the market. Failure to attract, motivate and retain highly qualified employees, or failure to develop and implement a viable succession plan, could adversely affect our business and our future success. We have employment agreements with certain members of our senior management, but these employment agreements do not ensure that they will not voluntarily

terminate their employment with us.

Unionization activities or labor disputes may disrupt our operations and affect our profitability.

Although none of our employees are currently covered under collective bargaining agreements, we cannot guarantee that our employees will not elect to be represented by labor unions in the future. If some or all of our employees were to become unionized and collective bargaining agreement terms were significantly different from our current compensation arrangements, it could adversely affect our business, financial condition or results of operations. In addition, a labor dispute involving some or all of our employees may disrupt our operations and reduce our revenues, and resolution of disputes may increase our costs.

Although we maintain binding policies that require employees to submit to a mandatory alternative dispute resolution procedure in lieu of other remedies, as employers, we may be subject to various employment-related claims, such as individual or class actions or government enforcement actions relating to alleged employment discrimination, employee classification and related withholding, wage-hour, labor standards or healthcare and benefit issues. Such actions, if brought against us and successful in whole or in part, may affect our ability to compete or materially adversely affect our business, financial condition or results of operations.

Our business depends on our ability to meet our workforce needs.

Our success depends on our ability to attract, train, motivate and retain qualified employees to keep pace with our needs, including employees with certain specialized skills in the field of animal training and care. If we are unable to do so, our results of operations and cash flows may be adversely affected.

In addition, we employ a significant seasonal workforce. We recruit year-round to fill thousands of seasonal staffing positions each season and work to manage seasonal wages and the timing of the hiring process to ensure the appropriate workforce is in place. There is no assurance that we will be able to recruit and hire adequate seasonal personnel as the business requires or that we will not experience material increases in the cost of securing our seasonal workforce in the future. Increased seasonal wages or an inadequate workforce could materially adversely affect our business, financial condition or results of operations.

If we are unable to maintain certain commercial licenses, our business, reputation and brand could be adversely affected.

We rely on licenses from Sesame Workshop to use the Sesame Place trade name and trademark and certain other intellectual property rights, including titles, marks, characters, logos and designs from the Sesame Street television series within our Sesame Place theme park and with respect to Sesame Street themed areas within certain areas of some of our other theme parks, as well as in connection with the sales of certain Sesame Street themed products. Our use of these intellectual property rights is subject to the approval of Sesame Workshop and the licenses may be terminated in certain limited circumstances or in the event of our bankruptcy. Furthermore, the current term of both the Sesame Place theme park license and the multi-park license expire on December 31, 2021, and there is no assurance that we will be able to renegotiate the use of such intellectual property on commercially acceptable terms or at all. The new terms of the licenses may significantly increase our operating expenses, or otherwise adversely affect our business.

ABI is the owner of the Busch Gardens trademarks and domain names. ABI has granted us a perpetual, exclusive, worldwide, royalty-free license to use the Busch Gardens trademark and certain related domain names in connection with the operation, marketing, promotion and advertising of certain of our theme parks, as well as in connection with the production, use, distribution and sale of merchandise sold in connection with such theme parks. Under the license, we are required to indemnify ABI against losses related to our use of the marks. If we were to lose or have to renegotiate this license, our business may be adversely affected.

Our existing debt agreements contain, and future debt agreements may contain, restrictions that may limit our flexibility in operating our business.

Our existing debt agreements contain, and documents governing our future indebtedness may contain, numerous financial and operating covenants that limit the discretion of management with respect to certain business matters. These covenants place restrictions on, among other things, our ability to incur additional indebtedness, pay dividends and other distributions, make capital expenditures, make certain loans, investments and other restricted payments, enter into agreements restricting our subsidiaries' ability to pay dividends, engage in certain transactions with stockholders or affiliates, sell certain assets or engage in mergers, acquisitions and other business combinations, amend or otherwise alter the terms of our indebtedness, alter the business that we conduct, guarantee indebtedness or

incur other contingent obligations and create liens. Our existing debt agreements also require, and documents governing our future indebtedness may require, us to meet certain financial ratios and tests. Our ability to comply with these and other provisions of the existing debt agreements is dependent on our future performance, which will be subject to many factors, some of which are beyond our control. The breach of any of these covenants or non-compliance with any of these financial ratios and tests could result in an event of default under the existing debt agreements, which, if not cured or waived, could result in acceleration of the related debt and the acceleration of debt under other instruments evidencing indebtedness that may contain cross-acceleration or cross-default provisions. Variable rate indebtedness subjects us to the risk of higher interest rates, which could cause our future debt service obligations to increase significantly.

Our substantial leverage could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry, expose us to interest rate risk to the extent of our variable rate debt and prevent us from meeting our obligations under our indebtedness.

We are highly leveraged. As of December 31, 2015, our total indebtedness was approximately \$1,601.3 million. Our high degree of leverage could have important consequences, including the following: (i) a substantial portion of our cash flow from operations is dedicated to the payment of principal and interest on indebtedness, thereby reducing the funds available for operations, future business opportunities, share repurchases pursuant to the Share Repurchase Program and capital expenditures; (ii) our ability to obtain additional financing for working capital, capital expenditures, debt service requirements, acquisitions and general corporate purposes in the future may be limited; (iii) certain of the borrowings are at variable rates of interest, which will increase our vulnerability to increases in interest rates; (iv) we are at a competitive disadvantage to less leveraged competitors; (v) we may be unable to adjust rapidly to changing market conditions; (vi) the debt service requirements of our other indebtedness could make it more difficult for us to satisfy our financial obligations; and (vii) we may be vulnerable in a downturn in general economic conditions or in our business and we may be unable to carry out activities that are important to our growth.

Our ability to make scheduled payments of the principal of, or to pay interest on, or to refinance indebtedness depends on and is subject to our financial and operating performance, which in turn is affected by general and regional economic, financial, competitive, business and other factors beyond our control, including the availability of financing in the international banking and capital markets. If unable to generate sufficient cash flow to service our debt or to fund our other liquidity needs, we will need to restructure or refinance all or a portion of our debt, which could cause us to default on our obligations and impair our liquidity. There can be no assurance that any refinancing of our indebtedness will be possible and any such refinancing could be at higher interest rates and may require us to comply with more onerous covenants that could further restrict our business operations. We from time to time may increase the amount of our indebtedness, modify the terms of our financing arrangements, issue dividends, make capital expenditures and take other actions that may substantially increase our leverage.

Despite our significant leverage, we may incur significant additional amounts of debt, which could further exacerbate the risks associated with our significant leverage.

We may not realize the benefits of acquisitions or other strategic initiatives.

Our business strategy may include selective expansion, both domestically and internationally, through acquisitions of assets or other strategic initiatives, such as joint ventures, that allow us to profitably expand our business and leverage our brands. The success of our acquisitions depends on effective integration of acquired businesses and assets into our operations, which is subject to risks and uncertainties, including realization of anticipated synergies and cost savings, the ability to retain and attract personnel, the diversion of management's attention from other business concerns, and undisclosed or potential legal liabilities of an acquired businesses or assets. Additionally, any international transactions are subject to additional risks, including foreign and U.S. regulations on the import and export of animals, the impact of economic fluctuations in economies outside of the United States, difficulties and costs of staffing and managing foreign operations due to distance, language and cultural differences, as well as political instability and lesser degree of legal protection in certain jurisdictions, currency exchange fluctuations and potentially adverse tax consequences of overseas operations.

Our insurance coverage may not be adequate to cover all possible losses that we could suffer and our insurance costs may increase.

We seek to maintain comprehensive insurance coverage at commercially reasonable rates. Although we maintain various safety and loss prevention programs and carry property and casualty insurance to cover certain risks, our insurance policies do not cover all types of losses and liabilities. There can be no assurance that our insurance will be sufficient to cover the full extent of all losses or liabilities for which we are insured, and we cannot guarantee that we

will be able to renew our current insurance policies on favorable terms, or at all. In addition, if we or other theme park operators sustain significant losses or make significant insurance claims, then our ability to obtain future insurance coverage at commercially reasonable rates could be materially adversely affected.

We may be unable to purchase or contract with third-party manufacturers for our theme park rides and attractions.

We may be unable to purchase or contract with third parties to build high quality rides and attractions and to continue to service and maintain those rides and attractions at competitive or beneficial prices, or to provide the replacement parts needed to maintain the operation of such rides. In addition, if our third-party suppliers' financial condition deteriorates or they go out of business, we may not be able to obtain the full benefit of manufacturer warranties or indemnities typically contained in our contracts or may need to incur greater costs for the maintenance, repair, replacement or insurance of these assets.

Our operations and our ownership of property subject us to environmental requirements, and to environmental expenditures and liabilities.

We incur costs to comply with environmental requirements, such as those relating to water use, wastewater and storm water management and disposal, air emissions control, hazardous materials management, solid and hazardous waste disposal, and the clean-up of properties affected by regulated materials.

We have been required and continue to investigate and clean-up hazardous or toxic substances or chemical releases, and other releases, from current or formerly owned or operated facilities. In addition, in the ordinary course of our business, we generate, use and dispose of large volumes of water, including saltwater, which requires us to comply with a number of federal, state and local regulations and to incur significant expenses. Failure to comply with such regulations could subject us to fines and penalties and/or require us to incur additional expenses. Although we are not now classified as a large quantity generator of hazardous waste, we do store and handle hazardous materials to operate and maintain our equipment and facilities and have done so historically.

We cannot assure you that we will not incur substantial costs to comply with new or expanded environmental requirements in the future or to investigate or clean-up new or newly identified environmental conditions, which could also impair our ability to use or transfer the affected properties and to obtain financing.

The suspension or termination of any of our business licenses may have a negative impact on our business.

We maintain a variety of business licenses issued by federal, state and local authorities that are renewable on a periodic basis. We cannot guarantee that we will be successful in renewing all of our licenses on a periodic basis. The suspension, termination or expiration of one or more of these licenses could materially adversely affect our revenues and profits. In addition, any changes to the licensing requirements for any of our licenses could affect our ability to maintain the licenses.

Affiliates of Blackstone will continue to be able to significantly influence our decisions and their interests may conflict with ours or yours in the future.

Affiliates of Blackstone beneficially own approximately 22.2% of our common stock. As a result, investment funds associated with or designated by affiliates of Blackstone will have the ability to elect members of our Board of Directors and thereby continue to influence our policies and operations, including the appointment of management, future issuances of our common stock or other securities, the payment of dividends, if any, on our common stock, the incurrence or modification of debt by us, amendments to our amended and restated certificate of incorporation and amended and restated bylaws and the entering into of extraordinary transactions, and their interests may not in all cases be aligned with your interests. In addition, Blackstone may have an interest in pursuing acquisitions, divestitures and other transactions that, in its judgment, could enhance its investment, even though such transactions might involve risks to you. For example, Blackstone may be interested in making acquisitions that increase our indebtedness or in selling revenue-generating assets. Additionally, in certain circumstances, acquisitions of debt at a discount by purchasers that are related to a debtor can give rise to cancellation of indebtedness income to such debtor for U.S. federal income tax purposes.

Blackstone is in the business of making investments in companies and may from time to time acquire and hold interests in businesses that compete directly or indirectly with us. For example, Blackstone has several investments in the leisure and hospitality industries.

Our amended and restated certificate of incorporation provides that none of Blackstone, any of its affiliates or any director who is not employed by us (including any non-employee director who serves as one of our officers in both his director and officer capacities) or his or her affiliates will have any duty to refrain from engaging, directly or indirectly, in the same business activities or similar business activities or lines of business in which we operate.

Blackstone also may pursue acquisition opportunities that may be complementary to our business, and, as a result, those acquisition opportunities may not be available to us. So long as affiliates of Blackstone continue to own a significant amount of our combined voting power, even if such amount is less than 50%, Blackstone will continue to be able to influence our decisions and, so long as Blackstone and its affiliates collectively own at least 5% of all outstanding shares of our stock entitled to vote generally in the election of directors, it will be able to appoint individuals to our Board of Directors under the stockholders agreement. In addition, Blackstone will be able to influence the outcome of all matters requiring stockholder approval and prevent a change of control of the Company or a change in the composition of our Board of Directors and could preclude any unsolicited acquisition of the Company. The concentration of ownership could deprive you of an opportunity to receive a premium for your shares of common stock as part of a sale of the Company and ultimately might affect the market price of our common stock.

Risks Related to Ownership of Our Common Stock

Our stock price may change significantly, and you may not be able to resell shares of our common stock at or above the price you paid or at all, and you could lose all or part of your investment as a result.

The trading price of our common stock has been, and is likely to continue to be, volatile. Since shares of our common stock were sold in our IPO in April 2013 through December 31, 2015, our common stock price has ranged from \$15.43 to \$38.92. In addition to the risk factors discussed in this Annual Report on Form 10-K, the trading price of our common stock may be adversely affected due to a number of factors, many of which are beyond our control, including:

- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates and investment recommendations by securities analysts and investors;
- declines in the market prices of stocks generally, or those of amusement and theme parks companies;
- strategic actions by us or our competitors;
- announcements by us or our competitors of significant contracts, new products, acquisitions, joint marketing relationships, joint ventures, other strategic relationships or capital commitments;
- changes in general economic or market conditions or trends in our industry or markets;
- changes in business or regulatory conditions;
- future sales of our common stock or other securities;
- repurchases of our common stock pursuant to the Share Repurchase Program;
- investor perceptions or the investment opportunity associated with our common stock relative to other investment alternatives;
- the public's response to press releases or other public announcements by us or third parties, including our filings with the SEC;
- announcements relating to litigation;
- guidance, if any, that we provide to the public, any changes in this guidance or our failure to meet this guidance;
- the development and sustainability of an active trading market for our stock;
- actions by institutional or activist stockholders;
- changes in accounting principles; and
- other events or factors, including those resulting from natural disasters, war, acts of terrorism or responses to these events.

We cannot assure you that we will continue to pay dividends on our common stock, and our indebtedness could limit our ability to continue to pay dividends on our common stock.

We intend to continue to pay cash dividends on our common stock, subject to our compliance with applicable law, and depending on, among other things, our results of operations, financial condition, level of indebtedness, capital requirements, contractual restrictions, restrictions in our debt agreements and in any preferred stock, business prospects and other factors that our Board of Directors may deem relevant. However, the payment of any future dividends will be at the discretion of our Board of Directors and there can be no assurance that we will continue to pay dividends in the future.

We cannot guarantee that our allocation of capital to various alternatives will enhance long-term stockholder value, and in some cases, our Share Repurchase Program could increase the volatility of the price of our common stock.

Our goal is to invest capital to maximize our overall long-term returns. This includes spending on capital projects and expenses, managing debt levels, and periodically returning capital to our shareholders through share repurchases and dividends. There can be no assurance that our capital allocation decisions will enhance shareholder value. During 2015, we repurchased a total of 2,413,803 shares of common stock at an average price of \$18.62 per share and a total cost of approximately \$45.0 million leaving \$190.0 million available for future repurchases under the Share Repurchase Program as of December 31, 2015. Repurchases of our common stock pursuant to the Share Repurchase Program could affect our stock price and increase its volatility. The existence of the Share Repurchase Program could cause our stock price to be higher than it would be in the absence of such a program and could potentially reduce the market liquidity for our stock. There can be no assurance that any share repurchases will enhance stockholder value because the market price of our common stock may decline below the levels at which we repurchased shares of stock. Although the Share Repurchase Program is intended to enhance long-term stockholder value, there is no assurance that it will do so and short-term stock price fluctuations could reduce such program's effectiveness.

If securities analysts do not publish research or reports about our business or if they downgrade our stock or our sector, our stock price and trading volume could decline.

The trading market for our common stock relies in part on the research and reports that industry or financial analysts publish about us or our business. We do not control these analysts. Furthermore, if one or more of the analysts who do cover us downgrade our stock or our industry, or the stock of any of our competitors, or publish inaccurate or unfavorable research about our business, the price of our stock could decline. If one or more of these analysts ceases coverage of the Company or fails to publish reports on us regularly, we could lose visibility in the market, which in turn could cause our stock price or trading volume to decline.

Future sales, or the perception of future sales, by us or our existing stockholders in the public market could cause the market price for our common stock to decline.

The sale of a substantial number of shares of our common stock in the public market, or the perception that such sales could occur, could harm the prevailing market price of shares of our common stock. These sales, or the possibility that these sales may occur, also might make it more difficult for us to sell equity securities in the future at a time and at a price that we deem appropriate.

Shares held by the Partnerships and certain of our directors, officers and employees are eligible for resale, subject to volume, manner of sale and other limitations under Rule 144. In addition, pursuant to a registration rights agreement entered into in connection with the 2009 Transactions, we granted the Partnerships the right, subject to certain conditions, to require us to register the sale of their shares of our common stock under the Securities Act.

As restrictions on resale end or if the Partnerships exercise their registration rights, the market price of our shares of common stock could drop significantly if the holders of these shares sell them or are perceived by the market as intending to sell them. These factors could also make it more difficult for us to raise additional funds through future offerings of our shares of common stock or other securities.

In addition, the shares of our common stock reserved for future issuance under the Omnibus Incentive Plan will become eligible for sale in the public market once those shares are issued, subject to provisions relating to various vesting agreements, lock-up agreements and Rule 144, as applicable. A total of 15,000,000 shares of common stock were reserved for issuance under the Omnibus Incentive Plan, of which 10,776,041 shares of common stock remain available for future issuance as of December 31, 2015. In the future, we may also issue our securities in connection with investments or acquisitions. The amount of shares of our common stock issued in connection with an investment or acquisition could constitute a material portion of our then-outstanding shares of our common stock. Any issuance

of additional securities in connection with investments or acquisitions may result in additional dilution to you.

Anti-takeover provisions in our organizational documents could delay or prevent a change of control.

Certain provisions of our amended and restated certificate of incorporation and amended and restated bylaws may have an anti-takeover effect and may delay, defer or prevent a merger, acquisition, tender offer, takeover attempt or other change of control transaction that a stockholder might consider in its best interest, including those attempts that might result in a premium over the market price for the shares held by our stockholders.

These provisions provide for, among other things:

- a classified Board of Directors with staggered three-year terms;
- the ability of our Board of Directors to issue one or more series of preferred stock;
- advance notice for nominations of directors by stockholders and for stockholders to include matters to be considered at our annual meetings;
- certain limitations on convening special stockholder meetings;
- the removal of directors only for cause and only upon the affirmative vote of the holders of at least 66 2 / 3 % in voting power of all the then-outstanding shares of stock of the Company entitled to vote thereon, voting together as a single class; and
- that certain provisions may be amended only by the affirmative vote of the holders of at least 66 2 / 3 % in voting power of all the then-outstanding shares of stock of the Company entitled to vote thereon, voting together as a single class.

These anti-takeover provisions could make it more difficult for a third party to acquire us, even if the third-party's offer may be considered beneficial by many of our stockholders. As a result, our stockholders may be limited in their ability to obtain a premium for their shares.

Non-U.S. holders who own or owned more than a certain ownership threshold may be subject to United States federal income tax on gains realized on the disposition of our common stock.

We believe that we are currently a U.S. real property holding corporation for U.S. federal income tax purposes. So long as our common stock continues to be regularly traded on an established securities market, a non-U.S. stockholder who holds or held (at any time during the shorter of the five year period preceding the date of disposition or the holder's holding period) more than 5% of our common stock will be subject to United States federal income tax on the disposition of our common stock. Non-U.S. holders should consult their own tax advisors concerning the consequences of disposing of shares of our common stock.

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

The following table summarizes our principal properties, which includes approximately 400 acres of land available for future development.

Location	Size	Use
Orlando, FL	76,360 sq ft	Leased Office Space (corporate headquarters)
Orlando, FL	9,636 sq ft	Leased Office Space (call center)
San Diego, CA	190 acres ^(a)	Leased Land
Chula Vista, CA	66 acres	Owned Water Park
Orlando, FL	279 acres	Owned Theme Park
Orlando, FL	58 acres	Owned All-inclusive Interactive Park

Edgar Filing: SeaWorld Entertainment, Inc. - Form 10-K

Orlando, FL	81 acres	Owned Water Park
Tampa, FL	56 acres	Owned Water Park
Tampa, FL	306 acres	Owned Theme Park
Dade City, FL	109 acres	Owned Breeding and Holding Facility
Langhorne, PA	55 acres	Owned Theme Park
San Antonio, TX	415 acres ^(b)	Owned Theme Park
Williamsburg, VA	222 acres	Owned Water Park
Williamsburg, VA	422 acres	Owned Theme Park
Williamsburg, VA	5 acres	Owned Warehouse Space
Williamsburg, VA	5 acres	Owned Seasonal Worker Lodging

(a) Includes approximately 17 acres of water in Mission Bay Park, California.

(b) Includes both a theme park and water park which is accessible to guests for an additional fee. In 2016, the water park will be converted into a stand-alone, separate admission park that guests can access through an independent gate without the need to purchase admission to the theme park.

We believe that our properties are in good operating condition and adequately serve our current business operations.

Lease Agreement with City of San Diego

Our subsidiary, Sea World LLC (f/k/a Sea World Inc.), leases approximately 190 acres from the City of San Diego, including approximately 17 acres of water in Mission Bay Park, California (the “Premises”). The current lease term commenced on July 1, 1998 and extends for 50 years or the maximum period allowed by law. Under the lease, the Premises must be used as a marine park facility and related uses. In addition, we may not operate another marine park facility within a radius of 560 miles from the City of San Diego.

The annual rent under the lease is calculated on the basis of a specified percentage of Sea World LLC’s gross income from the Premises, or the minimum yearly rent, whichever is greater. The minimum yearly rent is adjusted every three years to an amount equal to 80% of the average accounting year rent actually paid for the three previous years. The current minimum yearly rent is approximately \$10.4 million, which is subject to adjustment on January 1, 2017.

Item 3. Legal Proceedings

We are subject to various allegations, claims and legal actions arising in the ordinary course of business. While it is impossible to determine with certainty the ultimate outcome of any of these proceedings, lawsuits and claims, management believes that adequate provisions have been made and insurance secured for all currently pending proceedings so that the ultimate outcomes will not have a material adverse effect on our financial position.

Securities Class Action Lawsuit

On September 9, 2014, a purported stockholder class action lawsuit consisting of purchasers of the Company’s common stock during the periods between April 18, 2013 to August 13, 2014, captioned Baker v. SeaWorld Entertainment, Inc., et al., Case No. 14-CV-02129-MMA (KSC), was filed in the U.S. District Court for the Southern District of California against the Company, the Chairman of the Company’s Board of Directors, certain of its executive officers and Blackstone. On February 27, 2015, Court-appointed Lead Plaintiffs, Pensionskassen For Børne- Og Ungdomspædagoger and Arkansas Public Employees Retirement System, together with additional plaintiffs, Oklahoma City Employee Retirement System and Pembroke Pines Firefighters and Police Officers Pension Fund (collectively, “Plaintiffs”), filed an amended complaint against the Company, the Chairman of the Company’s Board of Directors, certain of its executive officers, Blackstone, and underwriters of the initial public offering and secondary public offerings. The amended complaint alleges, among other things, that the prospectus and registration statements filed contained materially false and misleading information in violation of the federal securities laws and seeks unspecified compensatory damages and other relief. Plaintiffs contend that defendants knew or were reckless in not knowing that Blackfish was impacting SeaWorld’s business at the time of each public statement. On May 29, 2015, the Company and the other defendants filed a motion to dismiss the amended complaint. The Plaintiffs filed an opposition to the motion to dismiss on July 31, 2015. The Company and the other defendants filed a reply in further support of their motion to dismiss on September 18, 2015. The Company believes that the class action lawsuit is without merit and intends to defend the lawsuit vigorously; however, there can be no assurance regarding the ultimate outcome of this lawsuit.

Shareholder Derivative Lawsuit

On December 8, 2014, a putative derivative lawsuit captioned Kistenmacher v. Atchison, et al., Civil Action No. 10437, was filed in the Court of Chancery of the State of Delaware against, among others, the Chairman of the Board of Directors, certain of the Company’s executive officers, directors and shareholders, and Blackstone. The Company is a “Nominal Defendant” in the lawsuit. On March 30, 2015, the plaintiff filed an amended complaint against the same

set of defendants. The amended complaint alleges, among other things, that the defendants breached their fiduciary duties, aided and abetted breaches of fiduciary duties, violated Florida Blue Sky laws and were unjustly enriched by (i) including materially false and misleading information in the prospectus and registration statements; and (ii) causing the Company to repurchase certain shares of its common stock from certain shareholders at an alleged artificially inflated price. The Company does not maintain any direct exposure to loss in connection with this shareholder derivative lawsuit as the lawsuit does not assert any claims against the Company. The Company's status as a "Nominal Defendant" in the action reflects the fact that the lawsuit is maintained by the named plaintiff on behalf of the Company and that the plaintiff seeks damages on the Company's behalf. On May 21, 2015, the defendants filed a motion to stay the lawsuit pending resolution of the Company's securities class action lawsuit. On September 21, 2015, the Court granted the motion and ordered that the derivative action to be stayed in favor of the securities class action captioned Baker v. SeaWorld Entertainment, Inc., et al., Case No. 14-CV-02129-MMA (KSC).

Consumer Class Action Lawsuits

On March 25, 2015, a purported class action was filed in the United States District Court for the Southern District of California against the Company, captioned Holly Hall v. SeaWorld Entertainment, Inc., Case No. 3:15-cv-00600-CAB-RBB (the “Hall Matter”). The complaint identifies three putative classes consisting of all consumers nationwide who at any time during the four-year period preceding the filing of the original complaint, purchased an admission ticket, a membership or a SeaWorld “experience” that includes an “orca experience” from the SeaWorld amusement park in San Diego, California, Orlando, Florida or San Antonio, Texas respectively. The complaint alleges causes of action under California Unfair Competition Law, California Consumers Legal Remedies Act (“CLRA”), California False Advertising Law, California Deceit statute, Florida Unfair and Deceptive Trade Practices Act, Texas Deceptive Trade Practices Act, as well as claims for Unjust Enrichment. Plaintiffs’ claims are based on their allegations that the Company misrepresented the physical living conditions and care and treatment of its killer whales, resulting in confusion or misunderstanding among ticket purchasers, and omitted material facts regarding its killer whales with intent to deceive and mislead the plaintiff and purported class members. The complaint further alleges that the specific misrepresentations heard and relied upon by Holly Hall in purchasing her SeaWorld tickets concerned the circumstances surrounding the death of a SeaWorld trainer. The complaint seeks actual damages, equitable relief, attorney’s fees and costs. Plaintiffs claim that the amount in controversy exceeds \$5.0 million, but the liability exposure is speculative until the size of the class is determined (if certification is granted at all).

In addition, four other purported class actions were filed against the Company and its affiliates. The first three actions were filed on April 9, 2015, April 16, 2015 and April 17, 2015, respectively, in the following federal courts: (i) the United States District Court for the Middle District of Florida, captioned Joyce Kuhl v. SeaWorld LLC et al., 6:15-cv-00574-ACC-GJK (the “Kuhl Matter”), (ii) the United States District Court for the Southern District of California, captioned Jessica Gaab, et. al. v. SeaWorld Entertainment, Inc., Case No. 15:cv-842-CAB-RBB (the “Gaab Matter”), and (iii) the United States District Court for the Western District of Texas, captioned Elaine Salazar Browne v. SeaWorld of Texas LLC et al., 5:15-cv-00301-XR (the “Browne Matter”). On May 1, 2015, the Kuhl Matter and Browne Matter were voluntarily dismissed without prejudice by the respective plaintiffs. On May 7, 2015, plaintiffs Kuhl and Browne re-filed their claims, along with a new plaintiff, Valerie Simo, in the United States District Court for the Southern District of California in an action captioned Valerie Simo et al. v. SeaWorld Entertainment, Inc., Case No. 15:cv-1022-CAB-RBB (the “Simo Matter”). All four of these cases, in essence, reiterate the claims made and relief sought in the Hall Matter.

On August 7, 2015, the Gaab Matter and Simo Matter were consolidated with the Hall Matter, and the plaintiffs filed a First Consolidated Amended Complaint (“FAC”) on August 21, 2015. The FAC pursues the same seven causes of action as the original Hall complaint, and adds a request for punitive damages pursuant to the California CLRA.

The Company moved to dismiss the FAC in its entirety, and its motion was granted on December 24, 2015. The United States District Court for the Southern District of California granted dismissal with prejudice as to the California CLRA claim, the portion of California Unfair Competition Law claim premised on the CLRA claim, all claims for injunctive relief, and on all California claims premised solely on alleged omissions by the Company. The United States District Court for the Southern District of California granted leave to amend as to the remainder of the complaint. On January 25, 2016, plaintiffs filed their Second Consolidated Amended Complaint (“SAC”). The SAC pursues the same causes of action as the FAC, except for the California CLRA, which, as noted above, was dismissed with prejudice. The Company intends to file a motion to dismiss the SAC.

On April 13, 2015, a purported class action was filed in the Superior Court of the State of California for the City and County of San Francisco against SeaWorld Parks & Entertainment, Inc., captioned Marc Anderson, et. al., v. SeaWorld Parks & Entertainment, Inc., Case No. CGC-15-545292 (the “Anderson Matter”). The putative class consists of all consumers within California who, within the past four years, purchased tickets to SeaWorld San Diego. On May 11, 2015, the plaintiffs filed a First Amended Class Action Complaint (the “Amended Complaint”). The Amended

Complaint alleges causes of action under the California False Advertising Law, California Unfair Competition Law and California CLRA. Plaintiffs' claims are based on their allegations that the Company misrepresented the physical living conditions and care and treatment of its killer whales, resulting in confusion or misunderstanding among ticket purchasers, and omitted material facts regarding its killer whales with intent to deceive and mislead the plaintiff and purported class members. The Amended Complaint seeks actual damages, equitable relief, attorneys' fees and costs. Based on plaintiffs' definition of the class, the amount in controversy exceeds \$5.0 million, but the liability exposure is speculative until the size of the class is determined (if certification is granted at all). On May 14, 2015, the Company removed the case to the United States District Court for the Northern District of California, Case No. 15:cv-2172-SC.

On May 19, 2015, the plaintiffs filed a motion to remand. On September 18, 2015, the Company filed a motion to dismiss the Amended Complaint in its entirety. The motion is fully briefed. On September 24, 2015, the United States District Court for the Northern District of California denied plaintiffs' motion to remand. On October 5, 2015, plaintiffs filed a motion for leave to file a motion for reconsideration of this order, and contemporaneously filed a petition for permission to appeal to the Ninth Circuit, which the Company opposed. On October 14, 2015, the United States District Court for the Northern District of California granted plaintiffs' motion for leave. Plaintiffs' motion for reconsideration was fully briefed. On January 12, 2016, the United States District Court for the Northern District of California granted in part and denied in part the motion for reconsideration, and refused to remand the case. In that order, the United States District Court for the Northern District of California noted that it will defer ruling on the Company's motion to dismiss until the Ninth Circuit rules on plaintiffs' petition for permission to appeal. On January 22, 2016, plaintiffs filed a petition for permission to appeal the January 12, 2016 order to the Ninth Circuit, which the Company intends to oppose. Both of plaintiffs' petitions for permission to appeal remain pending.

California Coastal Commission Lawsuit

On October 8, 2015, the California Coastal Commission approved our plan to build a new killer whale habitat (the "Blue World Project") in San Diego, but attached certain conditions to its approval. Those conditions included, among other things, a prohibition against breeding killer whales or transporting killer whales to or from the habitat. On December 29, 2015, we filed a lawsuit against the California Coastal Commission in the Superior Court of the State of California for the County of San Diego, captioned SeaWorld LLC v. California Coastal Commission, Case No. 37-2015-00043163-CU-WM-CTL. The lawsuit challenges those conditions on the grounds that the California Coastal Commission decision was outside the scope of its authority in imposing such conditions because it does not have jurisdiction over killer whales, which are regulated under federal law.

Item 4. Mine Safety Disclosures

Not applicable.

PART II.

Item 5. Market for the Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Market Information

The Company's common stock is listed on the New York Stock Exchange ("NYSE") under the ticker symbol "SEAS." As of February 19, 2016, there were approximately 932 holders of record of our outstanding common stock. This does not include persons who hold our common stock in nominee or "street name" accounts through brokers or banks. The following table sets forth the high and low closing sales prices per share of our common stock during the periods indicated and the amount of cash dividends declared per share:

Calendar Period	High	Low	Cash Dividend Declared Per Share
2015			
Quarter ended March 31, 2015	\$20.77	\$16.45	\$ 0.42
Quarter ended June 30, 2015	\$21.82	\$18.44	\$ 0.21
Quarter ended September 30, 2015	\$19.47	\$17.10	\$ 0.21
Quarter ended December 31, 2015	\$20.18	\$16.96	(a)
2014			
Quarter ended March 31, 2014	\$35.11	\$27.79	\$ 0.20
Quarter ended June 30, 2014	\$31.75	\$28.00	\$ 0.21
Quarter ended September 30, 2014	\$29.59	\$18.00	\$ 0.21
Quarter ended December 31, 2014	\$19.25	\$15.43	(b)

(a) Cash dividend of \$0.21 per share was declared on January 5, 2016 to all common stockholders of record at the close of business on January 15, 2016, which was paid on January 22, 2016.

(b) Cash dividend of \$0.21 per share was declared on January 5, 2015 to all common stockholders of record at the close of business on January 13, 2015, which was paid on January 22, 2015.

Dividends

Our Board adopted a policy to pay, subject to legally available funds, a regular quarterly dividend. We declared cash dividends of \$0.84 in 2015 and \$0.62 per share in 2014. Our ability to declare dividends and make other restricted payments is limited by covenants in our senior secured credit facilities pursuant to a credit agreement dated as of December 1, 2009, as amended (the "Senior Secured Credit Facilities").

The fiscal amount available for dividend declarations, share repurchases and other restricted payments under the covenant restrictions in the debt agreements adjusts at the beginning of each quarter. See "Management's Discussion and Analysis of Financial Condition and Results of Operations" for a description of the restrictions on our ability to pay dividends and Note 11-Long-Term Debt in the notes to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

We intend to continue to pay cash dividends on our common stock, subject to our compliance with applicable law, and depending on, among other things, our results of operations, financial condition, level of indebtedness, capital requirements, contractual restrictions, restrictions in our debt agreements and in any preferred stock, business prospects and other factors that our Board may deem relevant. However, the payment of any future dividends will be at the discretion of our Board and our Board may, at any time, modify or revoke our dividend policy on our common stock. For tax purposes, a portion of the dividends paid in 2014 and 2015 were treated as a return of capital to stockholders and we expect a portion of the dividends paid in 2016 will also be treated as a return of capital to stockholders.

Our ability to pay dividends depends on our receipt of cash dividends from our operating subsidiaries, which may further restrict our ability to pay dividends as a result of the laws of their jurisdiction of organization, agreements of our subsidiaries or covenants under any existing and future outstanding indebtedness we or our subsidiaries incur. In particular, the ability of our subsidiaries to distribute cash to SeaWorld Entertainment, Inc. to pay dividends is limited by covenants in the Senior Secured Credit Facilities.

Securities Authorized for Issuance Under Equity Compensation Plans

The information called for by this item is incorporated by reference from our definitive proxy statement relating to our 2016 Annual Meeting of Stockholders, which we will file with the SEC within 120 days after our December 31, 2015 fiscal year end.

Stock Price Performance

This performance graph shall not be deemed “filed” for purposes of Section 18 of the Exchange Act, or incorporated by reference into any filing of SeaWorld under the Securities Act or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

The following graph shows a comparison from April 19, 2013 (the date our common stock commenced trading on the New York Stock Exchange) through December 31, 2015 of the cumulative total return for our common stock, the Standard & Poor’s (“S&P”) 500 Index, the S&P Midcap 400 Index and the S&P 400 Movies & Entertainment Index. The graph assumes that \$100 was invested in the Company’s common stock and in each index at the market close on April 19, 2013 and assumes that all dividends were reinvested. The stock price performance of the following graph is not necessarily indicative of future stock price performance.

	4/19/2013	12/31/2013	12/31/2014	3/31/2015	6/30/2015	9/30/2015	12/31/2015
SeaWorld Entertainment, Inc.	\$ 100.00	\$ 108.53	\$ 69.15	\$ 76.27	\$ 73.71	\$ 72.02	\$ 79.63
S&P 500 Index - Total Returns	\$ 100.00	\$ 120.66	\$ 137.17	\$ 138.48	\$ 138.86	\$ 129.92	\$ 139.07
S&P Midcap 400 Index	\$ 100.00	\$ 121.01	\$ 132.84	\$ 139.89	\$ 138.41	\$ 126.65	\$ 129.95
S&P 400 Movies & Entertainment Index	\$ 100.00	\$ 137.70	\$ 127.70	\$ 142.07	\$ 142.08	\$ 114.98	\$ 126.13

Unregistered Sales of Equity Securities

There were no unregistered sales of equity securities during the year ended December 31, 2015.

Purchases of Equity Securities by the Issuer

The following table sets forth information with respect to shares of our common stock purchased by the Company during the periods indicated:

Period Beginning	Period Ending	Total Number of Shares Purchased ⁽¹⁾ per ⁽²⁾	Average Price Paid per Share	Purchased as Part of Publicly Announced Plans or Programs	Maximum Number
					Total Number of Shares (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans
October 1, 2015	October 31, 2015	152	\$ 18.50	—	\$ 220,000,016
November 1, 2015	November 30, 2015	124	\$ 17.99	—	220,000,016
December 1, 2015	December 31, 2015	—	\$ 18.99	1,577,835	190,000,035
		276		1,577,835	\$ 190,000,035

(1) Pursuant to the Share Repurchase Program, in December 2015, we repurchased a total of 1,577,835 shares of common stock at an average price of \$18.99 per share and a total cost of approximately \$30.0 million. All of the common stock is held as treasury shares at December 31, 2015. See Note 19—Stockholders' Equity in our notes to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further information on the Share Repurchase Program.

(2) Except for the shares of our common stock repurchased as described in footnote (1) above, all other purchases were made pursuant to the Company's Omnibus Incentive Plan, under which participants may satisfy tax withholding obligations incurred upon the vesting of restricted stock by requesting the Company to withhold shares with a value equal to the amount of the withholding obligation.

Item 6. Selected Financial Data

The following tables set forth our selected historical consolidated financial and operating data as of the dates and for each of the fiscal years ended December 31, 2015, 2014, 2013 and 2012 and selected historical consolidated financial and operating data as of and for the fiscal year ended December 31, 2011.

The selected financial data as of December 31, 2015 and 2014 and for each of the fiscal years ended December 31, 2015, 2014 and 2013 has been derived from our audited consolidated financial statements included elsewhere in this Annual Report on Form 10-K. The selected financial data as of December 31, 2013, 2012 and 2011 for the fiscal years ended December 31, 2012 and 2011 have been derived from our audited consolidated financial statements not included in this Annual Report on Form 10-K.

The following tables should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and the consolidated financial statements and the notes thereto included in “Financial Statements and Supplementary Data.”

(a) All share and per share amounts reflect an eight-for-one stock split of our common stock effected on April 8, 2013.

(b) Calculated as total revenue divided by total attendance.

37

(c) In 2015, the Company elected to early adopt Accounting Standards Update (“ASU”) 2015-03, Interest – Imputation of Interest (Topic 835): Simplifying the Presentation of Debt Issuance Costs which simplifies the accounting for debt issuance costs by requiring such costs to be presented as a direct deduction from the related debt liability rather than as an asset. This ASU has been applied retrospectively as a change in accounting principle for all periods presented. As a result, the Company reclassified \$20.0 million, \$27.5 million, \$35.1 million and \$36.2 million of unamortized debt issuance costs at December 31, 2014, 2013, 2012 and 2011, respectively, from other assets to long-term debt in the selected historical consolidated financial data table above. The adoption of this ASU did not impact the Company’s consolidated results of operations, stockholders’ equity or cash flows. See Note 3–Recently Issued Accounting Pronouncements and Note 11–Long-Term Debt to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further details.

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion contains management’s discussion and analysis of our financial condition and results of operations and should be read together with “Selected Financial Data” and the historical consolidated financial statements and the notes thereto included in “Financial Statements and Supplementary Data”. This discussion contains forward-looking statements that reflect our plans, estimates and beliefs and involve numerous risks and uncertainties, including but not limited to those described in the “Risk Factors” section of this Annual Report on Form 10-K. Actual results may differ materially from those contained in any forward-looking statements. You should carefully read “Special Note Regarding Forward-Looking Statements” and “Risk Factors.”

Business Overview

We are a leading theme park and entertainment company providing experiences that matter and inspiring guests to protect animals and the wild wonders of our world. We own or license a portfolio of recognized brands, including SeaWorld, Busch Gardens and Sea Rescue. Over our more than 50 year history, we have built a diversified portfolio of 11 destination and regional theme parks that are grouped in key markets across the United States, many of which showcase our one-of-a-kind zoological collection representing more than 800 species of animals. Our theme parks feature a diverse array of rides, shows and other attractions with broad demographic appeal which deliver memorable experiences and a strong value proposition for our guests. During the year ended December 31, 2015, we hosted approximately 22.5 million guests, including approximately 3.3 million international guests. In the year ended December 31, 2015, we had total revenues of \$1.37 billion and net income of \$49.1 million.

In November 2015, we communicated our roadmap to stabilize our business to drive sustainable growth. This plan encompasses five key points which include (i) providing experiences that matter; (ii) delivering distinct guest experiences that are fun and meaningful; (iii) pursuing organic and strategic revenue growth; (iv) addressing the challenges we face; and (v) financial discipline. The plan is intended to build on our strong business fundamentals by evolving the guest experience to align with consumer preferences for experiences that matter. Through family entertainment and distinct experiences and attractions, we provide our guests an opportunity to explore and to learn more about the natural world and the plight of animals in the wild, to be inspired and to act to make a better world. The plan includes a new approach to in-park activities as well as “turning parks inside out” by taking our guests behind the scenes to provide a better understanding of our veterinary care and animal rescue operations. Other elements of the plan include implementing a simplified pricing model, targeted capital investments in new attractions across our parks, and an ongoing focus on cost control as part of a larger commitment to overall financial discipline. Additionally, we announced a new resort strategy that will include evaluating opportunities which could include purchasing or developing resort properties in or near some of our parks.

Key Business Metrics Evaluated by Management

Attendance

We define attendance as the number of guest visits to our theme parks. Attendance drives admissions revenue as well as total in-park spending. The level of attendance at our theme parks is a function of many factors, including the opening of new attractions and shows, competitive offerings, weather, global and regional economic conditions, and overall consumer confidence in the economy.

38

Total Revenue Per Capita

Total revenue per capita, defined as total revenue divided by total attendance, consists of admission per capita and in-park per capita spending:

- **Admission Per Capita.** We calculate admission per capita for any period as total admissions revenue divided by total attendance. Theme park admissions accounted for approximately 62% of our total revenue for the year ended December 31, 2015. Over the same time period, we reported \$37.69 in admission per capita, representing a decrease of 1.8% from \$38.37 for the year ended December 31, 2014. Admission per capita is driven by ticket pricing, the admissions product mix and the park attendance mix. The admissions product mix is defined as the mix of tickets purchased such as single day, multi-day or annual passes and the park attendance mix is defined as the mix of theme parks visited. The mix of theme parks visited can impact admission per capita based on the theme park's respective pricing.
- **In-Park Per Capita Spending.** We calculate in-park per capita spending for any period as total food, merchandise and other revenue divided by total attendance. For the year ended December 31, 2015, food, merchandise and other revenue accounted for approximately 38% of our total revenue. Over the same time period, we reported \$23.32 of in-park per capita spending, representing an increase of 0.8% from \$23.14 for the year ended December 31, 2014. In-park per capita spending is driven by pricing changes, penetration levels (percentage of guests purchasing), new product offerings, the mix of guests (such as local, passholders, domestic or international guests) and the mix of in-park spending.

Trends Affecting Our Results of Operations

Beginning in the second quarter of 2014, we experienced negative attendance trends, which we believe resulted from a combination of factors affecting our destination parks, including negative media attention in California and a challenging competitive environment in Florida. To address these challenges, we adjusted our attraction and marketing plans, launched a new reputation campaign and executed a cost savings plan which delivered approximately \$50.0 million of cost savings by the end of 2015 (the "Cost Savings Plan"). The impact of these cost reductions were more than offset by normal inflationary increases in labor and other expenses, along with an increase in marketing and legal costs.

In 2015, overall attendance improved by 0.3% when compared to 2014, reflecting increased attendance at all but two of our park locations, Texas and California. Excluding these park locations, attendance in 2015 primarily benefitted from increased promotional offerings, strong passholder visitation and additional consumer event programs, along with a favorable operating schedule due to the later timing of Labor Day in 2015.

The decline in California primarily relates to continued SeaWorld brand challenges as discussed above; however, in 2015, we have seen a meaningful reduction in the rate of decline. Looking ahead, we remain cautious as we recognize that fully resolving our brand challenges in California requires sustained focus and we expect our marketing and reputation campaigns will be on-going in nature as we continue to evolve our brand to generate a more positive connection with the changing expectations of our guests.

The decline in Texas primarily relates to a reduction in passholder visitation due to changes made to pass products for this location, reduced promotional offerings, a lack of significant competitive offerings at this location and the impact of record levels of rainfall during the second quarter. To address some of these challenges, we have changed the structure of our pass products for Texas and will open a new attraction in 2016, Discovery Point, which will include a new dolphin habitat and underwater viewing area and will offer guests an opportunity to interact and swim with the dolphins.

Our ability to attract and retain customers depends, in part, upon the external perceptions of our brands and reputation. Adverse publicity concerning our business generally could harm our brands, reputation and results of operations. The considerable expansion in the use of social media over recent years has amplified the impact of negative

publicity. Recently, our SeaWorld-branded parks have been the target of negative media attention, particularly in the state of California, and we believe we have experienced demand pressures in California, due to such media attention. We have introduced a number of initiatives, including new marketing and reputation campaigns to address public perceptions, share facts and correct misinformation. We also introduced a number of promotions in an effort to increase demand. For a discussion of certain risks associated with adverse publicity, see “Risk Factors—Risks Related to Our Business and Our Industry.”

Our success depends on our ability to grow our business, in part through targeted capital investments to improve our existing theme parks, rides, attractions and shows. Our growth and innovation strategies require significant commitments of management resources and capital investments designed to improve guest satisfaction and generate returns. As a result, we make annual investments to support and improve our existing theme park facilities and attractions. Maintaining and improving our theme parks, as well as opening new attractions, is critical to remain competitive, grow revenue, and increase our guests' length of stay. In addition to the new attraction for our Texas location mentioned above, we will introduce new roller coasters, Mako and Cobra's Curse, at two of our Florida theme parks in 2016.

In 2014 we announced a plan to build new killer whale habitats at all three of our SeaWorld locations (the "Blue World Project"). The San Diego habitat was expected to open to the public in 2018 with new killer whale habitat to possibly follow at SeaWorld Orlando and SeaWorld San Antonio based on our experience in San Diego. The total investment was expected to be approximately \$100.0 million per park by the project's completion. For an update on the status of the Blue World Project, see the "Regulatory Developments" below.

Our success also depends to some extent on discretionary consumer spending, which is heavily influenced by general economic conditions and the availability of discretionary income. Severe economic downturns, coupled with high volatility and uncertainty as to the future global economic landscape, have had and continue to have an adverse effect on consumers' discretionary income and consumer confidence. Difficult economic conditions and recessionary periods may adversely impact attendance figures, the frequency with which guests choose to visit our theme parks and guest spending patterns at our theme parks. Generally, our revenue and attendance growth have been correlated with domestic economic growth, as reflected in the gross domestic product ("GDP") and the overall level of growth in domestic consumer spending.

Fluctuations in foreign currency exchange rates also impact our business due to the effect a strong dollar has on international tourist spending. International attendance has declined in 2015 which we believe results from the strengthening of the U.S. dollar against a variety of foreign currencies. To manage this going forward, we have modified our international marketing to reflect more appropriate ticket offers in light of the foreign currency exchange rate pressures and are working with our wholesalers in key international markets to increase our competitive positioning.

Both attendance and total revenue per capita at our theme parks are key drivers of our revenue and profitability, and reductions in either can materially adversely affect our business, financial condition, results of operations and cash flows.

Regulatory Developments

On July 16, 2015, Senator Dianne Feinstein (D-CA) offered an amendment to the Fiscal Year 2016 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies spending bill during consideration of the bill by the full Committee on Appropriations. The amendment directed the U.S. Department of Agriculture's Animal and Plant Health Inspection Service (APHIS) to issue updated regulations for the display of marine mammals in domestic zoos and aquaria within six months of enactment. While that amendment was not included in the final Fiscal Year 2016 Omnibus Appropriations Bill, APHIS released a proposed rule on February 3, 2016 to amend the Animal Welfare Act regulations concerning the humane handling, care and treatment of marine mammals in captivity (the "Proposed APHIS Regulations").

On October 8, 2015, the California Coastal Commission approved our plan to build a new killer whale habitat (the "Blue World Project") in San Diego, but attached certain conditions to its approval. Those conditions included, among other things, a prohibition against breeding killer whales or transporting killer whales to or from the habitat. On December 29, 2015, we filed a lawsuit against the California Coastal Commission on the grounds that the California Coastal Commission decision was outside the scope of its authority in imposing such conditions because it does not

have jurisdiction over killer whales, which are regulated under federal law.

On November 16, 2015, Representative Adam Schiff (D-CA) introduced the Orca Responsibility and Care Advancement Act (the “ORCA Act”). The bill has been referred to the Natural Resources and Agriculture Committees. It is unclear whether this bill will be enacted into law, but if enacted, this bill would amend the Marine Mammal Protection Act of 1972 and the Animal Welfare Act to prohibit the breeding, the taking (wild capture), and the import or export of killer whales for the purposes of public display.

For a discussion of certain risks associated with the Proposed APHIS Regulations, the California Coastal Commission’s decision, and the ORCA Act, see “Risk Factors—Risks Related to Our Business and Our Industry—We are subject to complex federal and state regulations governing the treatment of animals, which can change, and to claims and lawsuits by activist groups before government regulators and in the courts.”

On February 8, 2016, the San Diego City Council decided to put a proposal on the June 7, 2016 primary ballot for voters to decide whether the city of San Diego should have a higher minimum wage than the \$10 per hour required by the State of California. If approved by a simple majority of San Diego voters, the proposal would make the city's minimum wage \$10.50 as soon as the election results are certified, and then increase it to \$11.50 on January 1, 2017. Two years later in January 2019, annual increases to the San Diego minimum wage based on the consumer price index would start to be implemented. For a discussion of certain risks associated with the foregoing proposal, see "Risk Factors—Risks Related to Our Business and Our Industry— Increased labor costs and employee health and welfare benefits may negatively impact our operations."

International Development Strategy

We believe that in addition to the growth potential that exists domestically, our brands can also have significant appeal in certain international markets. We are currently assessing these opportunities while maintaining a conservative and disciplined approach towards the execution of our international development strategy. Thus far, we have identified our international market priorities as well as our international partners within select markets. The market priorities were developed based on a specific set of criteria to ensure we expand our brands into the most attractive markets. On February 17, 2016, we moved to the next phase of our international development strategy with our partner in the Middle East (the "Middle East Project") by (i) extending the exclusive negotiating period under our previously announced Memorandum of Understanding and (ii) executing an Interim Advisory Services Agreement. Pursuant to the Interim Advisory Services Agreement, we will commence certain advisory services pertaining to the planning and design of the Middle East Project, with funding from our partner in the Middle East offsetting our internal expenses. The Middle East Project is subject to, among other things, the parties completing the design development phase of such project and the mutual agreement of definitive documents. For a discussion of certain risks associated with our international development strategy, including the Middle East Project, see "Risk Factors—Risks Related to Our Business and Our Industry— We may not realize the benefits of acquisitions or other strategic initiatives."

Seasonality

The theme park industry is seasonal in nature. Historically, we generate the highest revenues in the second and third quarters of each year, in part because six of our theme parks are open for a portion of the year. Approximately two-thirds of our attendance and revenues are generated in the second and third quarters of the year and we typically incur a net loss in the first and fourth quarters. The mix of revenues by quarter is relatively constant, but revenues can shift between the first and second quarters due to the timing of Easter and spring break holidays or between the first and fourth quarters due to the timing of Christmas and New Year. Even for our five theme parks open year-round, attendance patterns have significant seasonality, driven by holidays, school vacations and weather conditions. One of our goals is to continue to generate cash flow throughout the year to maximize profitability and minimize the effects of seasonality, in particular at our theme parks that are open year-round. In recent years, we have begun to drive attendance during non-peak times by offering a variety of seasonal programs and events, such as shows for kids, special concert series, and Halloween and Christmas events. In addition, during seasonally slow times, operating costs are controlled by reducing operating hours and show schedules. Employment levels required for peak operations are met largely through part-time and seasonal hiring.

Principal Factors Affecting Our Results of Operations

Revenues

Our revenues are driven primarily by attendance in our theme parks and the level of per capita spending for admission to the theme parks and per capita spending inside the theme parks for culinary, merchandise and other in-park experiences. The level of attendance in our theme parks is a function of many factors, including the opening of new attractions and shows, competitive offerings, weather, fluctuations in foreign exchange rates and global and regional economic conditions, travel patterns of both our domestic and international guests and consumer confidence.

Admission per capita is driven by ticket pricing, the admissions product mix and the park attendance mix. In-park per capita spending is driven by pricing changes, penetration levels (percentage of guests purchasing), new product offerings, the mix of guests (such as local, domestic or international guests) and the mix of in-park spending. For other factors affecting our revenues, see “Risk Factors—Risks Related to Our Business and Our Industry.”

In addition to the theme parks, we are also involved in entertainment, media and consumer product businesses that leverage our intellectual property. While these businesses currently do not represent a material percentage of our revenue, they are important strategic drivers in terms of consumer awareness and brand building.

Costs and Expenses

The principal costs of our operations are employee salaries and benefits, advertising, maintenance, animal care, utilities and insurance. Factors that affect our costs and expenses include commodity prices, costs for construction, repairs and maintenance, other inflationary pressures and attendance levels. A large portion of our expenses is relatively fixed because the costs for full-time employees, maintenance, animal care, utilities, advertising and insurance do not vary significantly with attendance. For factors affecting our costs and expenses, see “Risk Factors—Risks Related to Our Business and Our Industry.”

As part of the Cost Savings Plan, in December 2014, we implemented a restructuring program (“the Restructuring Program”) which involved the elimination of approximately 300 positions in an effort to centralize certain functions and reduce duplication to increase efficiencies. In the fourth quarter of 2015, as part of a cost savings initiative and ongoing review of departmental structures, certain additional positions were eliminated. For further details, refer to Note 4—Restructuring Program and Separation Costs in our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further details.

In January 2016, we made a decision to remove deep-water lifting floors from the killer whale habitats at each of our three SeaWorld theme parks. The deep-water lifting floors were intended as another safety tool for conducting in-water training in the deeper pools. The lifting floors located in the medical pools, where our killer whale in-water training currently takes place, will not be affected. That training will continue as an essential part of our overall safety program. Having safely and successfully conducted in-water training in the medical pools for almost 4 years, our safety and zoological professionals determined that the deep-water lifting floors in the deeper pools are no longer needed. This change will provide more space for the animals, and increase the time that the deep-water pool is available by eliminating downtime for maintenance and cleaning. As a result, in the first half of 2016, we expect to record approximately \$33.0 million of accelerated depreciation related to the disposal of these lifting floors.

On February 22, 2016, the Board declared a cash dividend of \$0.21 per share to all common stockholders of record at the close of business on March 14, 2016, which will be paid on April 1, 2016. Based on this dividend declaration, certain performance-vesting restricted shares (the “2.25x Performance Restricted shares”) held by some of our equity plan participants will vest on April 1, 2016. We expect to recognize approximately \$28.0 million of equity compensation expense and record approximately \$3.4 million of accumulated dividends related to these 2.25x Performance Restricted shares during the first quarter of 2016. See Note 18—Equity-Based Compensation to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

We barter theme park admission products for advertising and various other products and services. The fair value of the admission products is recognized into admissions revenue and related expenses at the time of the exchange and approximates the estimated fair value of the goods or services received or provided, whichever is more readily determinable.

Results of Operations

The following discussion provides an analysis of our consolidated financial data for the years ended December 31, 2015, 2014 and 2013. This data should be read in conjunction with our consolidated financial statements and the notes thereto included in “Financial Statements and Supplementary Data.”

Edgar Filing: SeaWorld Entertainment, Inc. - Form 10-K

Comparison of the Years Ended December 31, 2015 and 2014

The following table presents key operating and financial information for the years ended December 31, 2015 and 2014:

	For the Year Ended		Variance	
	December 31, 2015	2014	\$	%
Statement of Comprehensive Income Data: (In thousands, except per capita data and %)				
Net revenues:				
Admissions	\$846,922	\$859,426	\$(12,504)	(1.5 %)
Food, merchandise and other	524,082	518,386	5,696	1.1 %
Total revenues	1,371,004	1,377,812	(6,808)	(0.5 %)
Costs and expenses:				
Cost of food, merchandise and other revenues	103,980	109,024	(5,044)	(4.6 %)
Operating expenses (exclusive of depreciation and amortization shown separately below)	708,745	727,659	(18,914)	(2.6 %)
Selling, general and administrative	214,072	189,369	24,703	13.0 %
Restructuring and other related costs	2,268	11,567	(9,299)	(80.4 %)
Separation costs	—	2,574	(2,574)	(100.0%)
Secondary offering costs	—	747	(747)	(100.0%)
Depreciation and amortization	182,503	176,275	6,228	3.5 %
Total costs and expenses	1,211,568	1,217,215	(5,647)	(0.5 %)
Operating income	159,436	160,597	(1,161)	(0.7 %)
Other expense (income), net	129	(198)	327	(165.2%)
Interest expense	65,571	81,543	(15,972)	(19.6 %)
Loss on early extinguishment of debt and write-off of discounts and debt issuance costs	20,905	461	20,444	NM
Income before income taxes	72,831	78,791	(5,960)	(7.6 %)
Provision for income taxes	23,698	28,872	(5,174)	(17.9 %)
Net income	\$49,133	\$49,919	(786)	(1.6 %)
Other data:				
Attendance	22,471	22,399	72	0.3 %
Total revenue per capita	\$61.01	\$61.51	(0.50)	(0.8 %)

NM-Not Meaningful

Admissions revenue. Admissions revenue for the year ended December 31, 2015 decreased \$12.5 million, or 1.5% to \$846.9 million as compared to \$859.4 million for the year ended December 31, 2014. The decrease in admissions revenue was a result of a decrease of 1.8% in admission per capita to \$37.69 in 2015 from \$38.37 in 2014, offset slightly by an increase of 0.3% in attendance. The change in admission per capita primarily relates to an increase in promotional offerings and passholder visitation along with an unfavorable shift in the park attendance mix compared to the prior year period. Attendance for 2015 primarily benefited from an improvement at all but two of our park locations, due to increased promotional offerings, strong passholder visitation, additional consumer event programs and a favorable operating schedule due to the later timing of Labor Day in 2015. The positive impact of these factors was largely offset by reduced attendance in Texas and California. The decline in Texas primarily relates to a

reduction in passholder visitation and promotional offerings, a lack of significant competitive offerings at this location and the impact of record levels of rainfall during the second quarter. The decline in California primarily relates to continued SeaWorld brand challenges.

Food, merchandise and other revenue. Food, merchandise and other revenue for the year ended December 31, 2015 increased \$5.7 million, or 1.1% to \$524.1 million as compared to \$518.4 million for the year ended December 31, 2014. This increase was primarily a result of a 0.8% increase in in-park per capita spending to \$23.32 in 2015 from \$23.14 in 2014, along with an increase in attendance.

Costs of food, merchandise and other revenues. Costs of food, merchandise and other revenues for the year ended December 31, 2015 decreased \$5.0 million, or 4.6%, to \$104.0 million as compared to \$109.0 million for the year ended December 31, 2014. These costs represent 19.8% and 21.0% of related revenue earned for the years ended December 31, 2015 and 2014, respectively. The decrease as a percent of related revenue primarily resulted from the impact of cost reduction initiatives including improved leveraged buying efforts.

Operating expenses. Operating expenses for the year ended December 31, 2015 decreased by \$18.9 million, or 2.6% to \$708.7 million as compared to \$727.7 million for the year ended December 31, 2014. The decrease was primarily a result of cost savings initiatives including a reduction in headcount resulting from the Restructuring Program implemented in December 2014 and a decrease in entertainment-related costs due primarily to reduced show offerings in 2015 resulting from cost savings initiatives. Operating expenses were 51.7% of total revenues in 2015 compared to 52.8% in 2014.

Selling, general and administrative. Selling, general and administrative expenses for the year ended December 31, 2015 increased by \$24.7 million, or 13.0% to \$214.1 million as compared to \$189.4 million for the year ended December 31, 2014. The increase was largely related to: (i) additional third party consulting costs, (ii) an increase in labor related costs primarily associated with new equity grants awarded in 2015, (iii) an increase in marketing costs associated with our reputation campaign and (iv) an increase in legal fees when compared to the prior year period. As a percentage of total revenue, selling, general and administrative expenses were 15.6% in 2015 compared to 13.7% in 2014.

Restructuring and other related costs. Restructuring and other related costs for 2015 include \$2.0 million in severance associated with certain positions eliminated in the fourth quarter of 2015, and \$0.3 million related to severance for individuals with continuing service obligations through the second quarter of 2015, which were impacted by the Restructuring Program announced in December 2014. Restructuring and other related costs of \$11.6 million for the year ended December 31, 2014 represent severance and other related expenses incurred in connection with the Restructuring Program. The Restructuring Program involved the elimination of approximately 300 positions across our eleven theme parks and corporate headquarters in an effort to centralize certain operations and reduce duplication of functions to increase efficiencies.

Separation costs. Separation costs for the year ended December 31, 2014 represent costs incurred pursuant to the previously announced separation of our former Chief Executive Officer and President.

Secondary offering costs. On April 9, 2014, the selling stockholders completed an underwritten secondary offering of our common stock. Pursuant to the Registration Rights Agreement, we paid all expenses related to the offering, other than underwriting discounts and commissions. No shares were sold by us in the secondary offering and the selling stockholders received all of the net proceeds from the offering. In connection with this secondary offering, we incurred fees and expenses of \$0.7 million for the year ended December 31, 2014.

Depreciation and amortization. Depreciation and amortization expense for the year ended December 31, 2015 increased by \$6.2 million, or 3.5% to \$182.5 million as compared to \$176.3 million for the year ended December 31, 2014 due primarily to approximately \$5.0 million of accelerated depreciation related to the closure of the Gwazi wooden rollercoaster at our Busch Gardens Tampa park along with additional depreciation due to the impact of new asset additions, offset by fully depreciated assets and asset retirements.

Interest expense. Interest expense for the year ended December 31, 2015 decreased \$16.0 million, or 19.6% to \$65.6 million as compared to \$81.5 million for the year ended December 31, 2014, due to the \$260.0 million redemption of the 11.0% unsecured senior notes in April 2015 which were refinanced with additional term loans under our senior secured credit facilities at a lower interest rate (effective rate of 4.33% as of December 31, 2015). See Note 11—Long-Term Debt to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K and the “Our Indebtedness” section which follows for further details.

Loss on early extinguishment of debt and write-off of discounts and debt issuance costs. Loss on early extinguishment of debt and write-off of discounts and debt issuance costs of \$20.9 million for the year ended December 31, 2015 relates to a \$14.3 million premium paid for the early redemption of \$260.0 million of our Senior Notes, along with a write-off of approximately \$6.0 million in related discounts and debt issuance costs and a \$0.6 million write-off in discounts and debt issuance costs related to the voluntary prepayment of \$30.0 million on our

Senior Secured Credit Facilities during the fourth quarter of 2015. See Note 11—Long-Term Debt to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K and the “Our Indebtedness” section which follows for further details. Loss on early extinguishment of debt and write-off of discounts and debt issuance costs of \$0.5 million for the year ended December 31, 2014 relates to a write-off in discounts and debt issuance costs related to the voluntary prepayment of \$31.5 million on our Senior Secured Credit Facilities during the third quarter of 2014.

Provision for income taxes. The provision for income taxes for the year ended December 31, 2015 was \$23.7 million compared to \$28.9 million in the year ended December 31, 2014. The change primarily results from the impact of a decline in the effective tax rate (from 36.6% to 32.5%) along with a decrease in pretax income in 2015 compared to 2014. Our effective income tax rate decreased primarily due to the benefit of prior year adjustments, federal tax credits, and an adjustment to certain state net operating loss carryforwards as a result of restructuring. These benefits were offset in part by a valuation allowance recorded on charitable contribution carryforwards expiring in 2016, a valuation allowance recorded on certain state net operating losses not expected to be entirely utilized prior to expiration, as well as the impact of non-deductible costs, including certain equity compensation awards.

Edgar Filing: SeaWorld Entertainment, Inc. - Form 10-K

Comparison of the Years Ended December 31, 2014 and 2013

The following table presents key operating and financial information for the years ended December 31, 2014 and 2013:

Statement of Comprehensive Income Data:	For the Year Ended		Variance	
	December 31, 2014	2013	\$	%
(In thousands, except per capita data and %)				
Net revenues:				
Admissions	\$859,426	\$921,016	\$(61,590)	(6.7 %)
Food, merchandise and other	518,386	539,234	(20,848)	(3.9 %)
Total revenues	1,377,812	1,460,250	(82,438)	(5.6 %)
Costs and expenses:				
Cost of food, merchandise and other revenues	109,024	114,192	(5,168)	(4.5 %)
Operating expenses (exclusive of depreciation				
and amortization shown separately below)	727,659	743,322	(15,663)	(2.1 %)
Selling, general and administrative	189,369	187,298	2,071	1.1 %

Separation costs	2,574	—	2,574	ND
Termination of advisory agreement	—	50,072	(50,072)	(100.0 %)
Secondary offering costs	747	1,407	(660)	(46.9 %)
Depreciation and amortization	176,275	166,086	10,189	6.1 %
Total costs and expenses	1,217,215	1,262,377	(45,162)	(3.6 %)
Operating income	160,597	197,873	(37,276)	(18.8 %)
Other income, net	(198)	(241)	43	(17.8 %)
Interest expense	81,543	90,622	(9,079)	(10.0 %)
Loss on early extinguishment of debt and write-				
off of discounts and debt issuance costs	461	29,858	(29,397)	(98.5 %)
Income before income taxes	78,791	77,634	1,157	1.5 %
Provision for income taxes	28,872	25,714	3,158	12.3 %
Net income	\$49,919	\$51,920	(2,001)	(3.9 %)
Other data:				
Attendance	22,399	23,391	(992)	(4.2 %)
Total revenue per capita	\$61.51	\$62.43	(0.92)	(1.5 %)

ND-Not Determinable

Admissions revenue. Admissions revenue for the year ended December 31, 2014 decreased \$61.6 million, or 6.7%, to \$859.4 million as compared to \$921.0 million for the year ended December 31, 2013. The decrease in revenue was a result of a 4.2% decline in attendance combined with a decrease of 2.6% in admission per capita from \$39.37 in 2013 to \$38.37 in 2014. Attendance for 2014 declined as the negative trends we experienced in the second quarter of 2014 primarily at our destination parks in California and Florida extended into our third quarter, with attendance for the third quarter of 2014 down 5.2% compared to the third quarter of 2013. These trends showed some improvement in the fourth quarter of 2014 with attendance down 2.2% compared to the fourth quarter of 2013, due in part to the success of our seasonal events. We believe the overall decline in attendance for 2014 results from a

combination of factors, including negative media attention in California, along with a challenging competitive environment, particularly in Florida. Part of the challenges in Florida relate to significant new attraction offerings at competitor destination parks and a delay in the opening of one of our new rides at our Busch Gardens Tampa park. The prior year also included the impact from the opening of Antarctica: Empire of the Penguin at our SeaWorld Orlando park which helped drive record revenue for 2013. Attendance for 2014 was also impacted, to a lesser extent, by adverse weather during the first quarter in the Florida and Texas markets. The decrease in admission per capita was primarily a result of an unfavorable change in the park attendance mix along with an increase in promotional offerings.

Food, merchandise and other revenue. Food, merchandise and other revenue for the year ended December 31, 2014 decreased by \$20.8 million, or 3.9%, to \$518.4 million as compared to \$539.2 million for the year ended December 31, 2013. This decrease was primarily a result of the decrease in attendance offset slightly by a 0.4% increase in in-park per capita spending from \$23.05 in 2013 to \$23.14 in 2014.

Costs of food, merchandise and other revenues. Costs of food, merchandise and other revenues for the year ended December 31, 2014 decreased \$5.2 million, or 4.5%, to \$109.0 million as compared to \$114.2 million for the year ended December 31, 2013. These costs represent 21.0% of related revenue earned for the year ended December 31, 2014 and 21.2% of related revenue earned for the year ended December 31, 2013.

Operating expenses. Operating expenses for the year ended December 31, 2014 decreased by \$15.7 million, or 2.1%, to \$727.7 million as compared to \$743.3 million for the year ended December 31, 2013. The decrease was primarily a result of a reduction in variable labor costs and other cost mitigation efforts employed by our park operators. Operating expenses were 52.8% of total revenues in 2014 compared to 50.9% in 2013.

Selling, general and administrative. Selling, general and administrative expenses for the year ended December 31, 2014 increased by \$2.1 million, or 1.1%, to \$189.4 million as compared to \$187.3 million for the year ended December 31, 2013. The increase was primarily related to marketing costs driven by reputation initiatives along with the launch of our SeaWorld brand 50th anniversary celebration. These increased costs were partially offset by the elimination of the 2009 Advisory Agreement fees due to the termination of this agreement in April 2013 and a decrease in equity compensation when compared to the prior year period. As a percentage of total revenue, selling, general and administrative expenses were 13.7% in 2014 compared to 12.8% in 2013.

Restructuring and other related costs. Restructuring and other related costs for the year ended December 31, 2014 represent severance and other related expenses incurred in connection with the Restructuring Program which we implemented in December 2014. The Restructuring Program involved the elimination of approximately 300 positions across our eleven theme parks and corporate headquarters in an effort to centralize certain operations and reduce duplication of functions to increase efficiencies. The Restructuring Program was part of our previously announced company-wide cost initiative to deliver approximately \$50.0 million of annual cost savings by the end of 2015, as compared to our cost structure in fiscal 2014. These cost savings have been largely offset by annual inflationary pressures and increased spending on marketing and advertising initiatives.

Separation costs. Separation costs for the year ended December 31, 2014 represent costs incurred pursuant to the previously announced separation of our former Chief Executive Officer and President.

Secondary offering costs. On April 9, 2014 and December 17, 2013, the selling stockholders completed underwritten secondary offerings of our common stock. Pursuant to the Registration Rights Agreement, we paid all expenses related to the offerings, other than underwriting discounts and commissions. No shares were sold by us in the secondary offerings and the selling stockholders received all of the net proceeds from the offerings. In connection with these secondary offerings, we incurred fees and expenses of \$0.7 million for the year ended December 31, 2014 and \$1.4 million for the year ended December 31, 2013.

Termination of advisory agreement. In connection with the completion of our initial public offering on April 24, 2013, the 2009 Advisory Agreement was terminated. In connection with such termination, we paid a termination fee of \$46.3 million to an affiliate of Blackstone and recorded a write-off of \$3.8 million in 2013 prepaid advisory fees.

Depreciation and amortization. Depreciation and amortization expense for the year ended December 31, 2014 increased by \$10.2 million, or 6.1%, to \$176.3 million as compared to \$166.1 million for the year ended December 31, 2013 due to the impact of new asset additions along with accelerated depreciation on certain assets impacted by our cost reduction initiatives offset by fully depreciated assets.

Interest expense. Interest expense for the year ended December 31, 2014 decreased \$9.1 million, or 10.0%, to \$81.5 million as compared to \$90.6 million for the year ended December 31, 2013, primarily reflecting the effects of the redemption of \$140.0 million of our Senior Notes and the repayment of \$37.0 million in term loan under our Senior Secured Credit Facilities in April 2013 with a portion of the net proceeds from our initial public offering as well as the impact of Amendment No. 5 to our Senior Secured Credit Facilities, which reduced the interest rate applicable to

borrowings under our Senior Secured Credit Facilities.

Loss on early extinguishment of debt and write-off of discounts and debt issuance costs. Loss on early extinguishment of debt and write-off of discounts and debt issuance costs of \$0.5 million for the year ended December 31, 2014 relates to a write-off in discounts and debt issuance costs connected to the voluntary prepayment of \$31.5 million on our Senior Secured Credit Facilities during the third quarter of 2014. Loss on early extinguishment of debt and write-off of discounts and debt issuance costs of \$29.9 million for the year ended December 31, 2013 primarily relates to a \$15.4 million premium paid for the early redemption of \$140.0 million of our Senior Notes with a portion of the net proceeds from our initial public offering in April 2013, along with a write-off of approximately \$5.5 million in related discounts and debt issuance costs and the write-off of approximately \$8.1 million of certain debt issuance costs in connection with Amendment No. 5 to our Senior Secured Credit Facilities.

46

Provision for income taxes. The provision for income taxes for the year ended December 31, 2014 was \$28.9 million compared to \$25.7 million in the year ended December 31, 2013. The change primarily results from an increase in pretax income in 2014 compared to 2013, along with an increase in our effective income tax rate (from 33.1% to 36.6%). Our effective income tax rate increased primarily due to a valuation allowance recorded on charitable contribution carryforwards expiring in 2015, a change in the income mix of the affiliated entities, and the impact of non-deductible costs, including certain officer compensation and certain equity compensation awards, which was offset in part by the benefit of prior year adjustments and tax credits.

Liquidity and Capital Resources

Overview

Our principal sources of liquidity are cash generated from operations, funds from borrowings and existing cash on hand. Our principal uses of cash include the funding of working capital obligations, debt service, investments in theme parks (including capital projects), common stock dividends and share repurchases. As of December 31, 2015, we had a working capital deficit of approximately \$120.3 million. We typically operate with a working capital deficit and we expect that we will continue to have working capital deficits in the future. The working capital deficits are due in part to a significant deferred revenue balance from revenues paid in advance for our theme park admissions products and high turnover of in-park products that results in a limited inventory balance. Our cash flow from operations, along with our revolving credit facilities, have allowed us to meet our liquidity needs while maintaining a working capital deficit.

As market conditions warrant and subject to our contractual restrictions and liquidity position, we, our affiliates and/or our major stockholders, including Blackstone and its affiliates, may from time to time repurchase our outstanding equity and/or debt securities, including our outstanding bank loans in privately negotiated or open market transactions, by tender offer or otherwise. Any such repurchases may be funded by incurring new debt, including additional borrowings under the Senior Secured Credit Facilities. Any new debt may also be secured debt. We may also use available cash on our balance sheet. The amounts involved in any such transactions, individually or in the aggregate, may be material. Further, since some of our debt may trade at a discount to the face amount among current or future syndicate members, any such purchases may result in our acquiring and retiring a substantial amount of any particular series, with the attendant reduction in the trading liquidity of any such series. Depending on conditions in the credit and capital markets and other factors, we will, from time to time, consider other financing transactions, the proceeds of which could be used to refinance our indebtedness or for other purposes.

Dividends

The Company's Board of Directors (the "Board") has adopted a policy to pay, subject to legally available funds, a regular quarterly dividend. Dividends paid to stockholders were \$72.3 million, \$72.1 million and \$36.2 million in the years ended December 31, 2015, 2014 and 2013, respectively. Subsequent to December 31, 2015, on January 5, 2016, the Board declared a cash dividend of \$0.21 per share to all common stockholders of record at the close of business on January 15, 2016, which was paid on January 22, 2016. On February 22, 2016, the Board declared a cash dividend of \$0.21 per share to all common stockholders of record at the close of business on March 14, 2016, which will be paid on April 1, 2016. The amount and timing of any future dividends payable on our common stock is within the sole discretion of the Board. For tax purposes, a portion of the dividends paid in 2014 and 2015 were treated as a return of capital to stockholders. The Company also expects that for tax purposes, a portion of the dividends paid in 2016 will be treated as a return of capital to stockholders. See "Market for the Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities-Dividends."

Approximately \$0.4 million of dividends declared through December 31, 2015 relate to unvested time restricted shares and unvested performance restricted shares with a performance condition considered probable of being achieved and will be paid if the awards vest in accordance with their terms. Dividends on certain performance-vesting

restricted share awards that are not considered probable of vesting as of December 31, 2015, were approximately \$5.6 million and will accumulate and be paid only if and to the extent the shares vest in accordance with their terms. Due to the dividend declaration on February 22, 2016, certain performance-vesting restricted shares (the “2.25x Performance Restricted shares”) held by some of our equity plan participants will vest on April 1, 2016. We will recognize approximately \$28.0 million of equity compensation expense and record approximately \$3.4 million of accumulated dividends related to these 2.25x Performance Restricted shares during the first quarter of 2016. See Note 18–Equity-Based Compensation and Note 19–Stockholders’ Equity to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further details on our dividend activity and the “Covenant Compliance” section which follows for further details on covenants that could restrict our ability to make certain restricted payments, including dividend payments and share repurchases.

Share Repurchases

In 2014, our Board authorized a share repurchase program of up to \$250.0 million of our common stock (the “Share Repurchase Program”). Under the Share Repurchase Program, we are authorized to repurchase shares through open market purchases, privately-negotiated transactions or otherwise in accordance with applicable federal securities laws, including through Rule 10b5-1 trading plans and under Rule 10b-18 of the Exchange Act. The Share Repurchase Program has no time limit and may be suspended or discontinued completely at any time. The number of shares to be purchased and the timing of purchases will be based on the level of our cash balances, general business and market conditions, and other factors, including legal requirements, debt covenant restrictions and alternative investment opportunities.

Pursuant to the Share Repurchase Program, during 2015, we repurchased a total of 2,413,803 shares of common stock at an average price of \$18.62 per share and a total cost of approximately \$45.0 million, leaving \$190.0 million available for future repurchases as of December 31, 2015. See Note 19–Stockholders’ Equity to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further details.

Other

In June 2015, we entered into five forward interest rate swap agreements (“the Forward Swaps”) to effectively fix the interest rate on the three month LIBOR-indexed interest payments associated with \$1.0 billion of our outstanding long-term debt. The Forward Swaps have an effective date of September 30, 2016, have a total notional amount of \$1.0 billion and mature on May 14, 2020.

In April 2015, we executed a new interest rate swap agreement to effectively fix the interest rate on \$250.0 million of the Term B-3 Loans under the Senior Secured Credit Facilities, as defined below. The interest rate swap became effective on June 30, 2015, has a notional amount of \$250.0 million and is scheduled to mature on September 30, 2016. See Note 11–Long-Term Debt and Note 12–Derivative Instruments and Hedging Activities to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further details.

We believe that existing cash and cash equivalents, cash flow from operations, and available borrowings under the Senior Secured Credit Facilities will be adequate to meet the capital expenditures, dividends and working capital requirements of our operations for at least the next 12 months.

The following table presents a summary of our cash flows provided by (used in) operating, investing and financing activities for the periods indicated:

	For the Year Ended December 31,		
	2015	2014	2013
	(In thousands)		
Net cash provided by operating activities	\$286,274	\$261,532	\$286,461
Net cash used in investing activities	(157,377)	(156,546)	(166,376)
Net cash used in financing activities	(153,832)	(177,921)	(48,919)
Net (decrease) increase in cash and cash equivalents	\$(24,935)	\$(72,935)	\$71,166

Cash Flows from Operating Activities

Net cash provided by operating activities was \$286.3 million during the year ended December 31, 2015 as compared to \$261.5 million during the year ended December 31, 2014. The change in net cash provided by operating activities

was primarily impacted by a reduction in costs along with slightly favorable changes in working capital accounts, offset by a decrease in revenue in 2015 primarily due to a decline in admissions per capita when compared to the prior year.

Net cash provided by operating activities was \$261.5 million during the year ended December 31, 2014 as compared to \$286.5 million during the year ended December 31, 2013, which included a cash payment of \$46.3 million for the 2009 Advisory Agreement termination fee paid in conjunction with our initial public offering in April 2013. The change in net cash provided by operating activities was also impacted by a decrease in total revenue in 2014 primarily related to a decline in attendance offset by favorable changes in our working capital accounts when compared to 2013.

Cash Flows from Investing Activities

Investing activities consist principally of capital investments we make in our theme parks for future attractions and infrastructure. Net cash used in investing activities during the year ended December 31, 2015 consisted primarily of capital expenditures of \$157.3 million largely related to future attractions.

Net cash used in investing activities during the year ended December 31, 2014 and 2013 consisted primarily of capital expenditures of \$154.6 million and \$166.3 million, respectively, largely related to attractions which opened in 2014 and 2015.

The amount of our capital expenditures may be affected by general economic and financial conditions, among other things, including restrictions imposed by our borrowing arrangements. We generally expect to fund our 2016 capital expenditures through our operating cash flow.

Cash Flows from Financing Activities

Net cash used in financing activities during the year ended December 31, 2015 was primarily attributable to the following: (i) \$306.2 million in repayment of long-term debt, which included the early redemption of \$260.0 million of our Senior Notes and a voluntary prepayment of \$30.0 million in Term B-3 Loans, (ii) \$72.3 million in cash dividends paid to common stockholders, (iii) \$50.7 million used for treasury stock purchases, of which \$5.7 million relates to treasury stock purchases in December 2014 which settled in January 2015, (iv) \$14.3 million paid as a redemption premium related to the Senior Notes, and (v) \$4.6 million paid in debt issuance costs related to the new Term B-3 Loans, offset by \$280.0 million in proceeds from the issuance of the Term B-3 Loans under the Senior Secured Credit Facilities, as defined below, and a net draw on the Revolving Credit Facility of \$15.0 million.

Net cash used in financing activities during the year ended December 31, 2014 was primarily attributable to \$72.1 million in cash dividends paid to common stockholders, \$60.1 million used to repurchase 2.6 million shares of our common stock and \$45.5 million paid on our Term B-2 Loan under the Senior Secured Credit Facilities, as defined below, which included a voluntary prepayment of \$31.5 million.

Net cash used in financing activities during the year ended December 31, 2013 was primarily attributable to the receipt of \$253.8 million proceeds from our IPO, net of underwriter discounts and commissions, offset by the following: (i) repayments of \$189.3 million of debt which consisted primarily of a redemption of \$140.0 million of our Senior Notes and a repayment of \$37.0 million of indebtedness under our then existing Term B Loan, (ii) \$44.2 million used to repurchase 1.5 million shares of our stock, (iii) payments of \$36.2 million in cash dividends, (iv) \$15.4 million paid in a redemption premium for the Senior Notes, (v) \$10.6 million paid in debt issuance costs, (vi) \$4.7 million in costs incurred in connection with our initial public offering and (vii) \$3.0 million related to a note payable which was due on September 1, 2013 for the November 2012 acquisition of Knott's Soak City from an affiliate of Cedar Fair L.P.

Our Indebtedness

The Company is a holding company and conducts its operations through its subsidiaries, which have incurred or guaranteed indebtedness as described below.

Senior Secured Credit Facilities

SeaWorld Parks & Entertainment, Inc. ("SEA") is the borrower under our senior secured credit facilities (the "Senior Secured Credit Facilities") pursuant to a credit agreement dated as of December 1, 2009, by and among SEA, as borrower, Bank of America, N.A., as administrative agent, collateral agent, letter of credit issuer and swing line lender and the other agents and lenders party thereto, as the same may be amended, restated, supplemented or modified from time to time.

On March 30, 2015, SEA entered into an incremental term loan amendment, Amendment No. 7 (the "Incremental Amendment") to its existing Senior Secured Credit Facilities. On April 7, 2015, SEA borrowed \$280.0 million of additional term loans (the "Term B-3 Loans") pursuant to the Incremental Amendment. The proceeds, along with cash on hand, were used to redeem all of the \$260.0 million outstanding principal of the Senior Notes at a redemption price

of 105.5% plus accrued and unpaid interest and pay fees, costs and other expenses in connection with the Term B-3 Loans. The redemption premium of \$14.3 million along with a write-off of approximately \$6.0 million in related discounts and debt issuance costs is included in the loss on early extinguishment of debt and write-off of discounts and debt issuance costs on the accompanying consolidated statements of comprehensive income for the year ended December 31, 2015. See Note 11—Long-Term Debt to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further details.

As of December 31, 2015, our Senior Secured Credit Facilities consisted of a \$1,338.4 million senior secured term loan facility (the “Term B-2 Loans”), and \$247.9 million in Term B-3 Loans which will mature on May 14, 2020 along with a \$192.5 million senior secured revolving credit facility (the “Revolving Credit Facility”), of which \$15.0 million was outstanding as of December 31, 2015. The Revolving Credit Facility will mature on the earlier of (a) April 24, 2018 and (b) the 91st day prior to the maturity date of any indebtedness incurred to refinance any of the term loans, and includes borrowing capacity available for letters of credit and for short-term borrowings referred to as the swing line borrowings. As of December 31, 2015, SEA had approximately \$14.3 million of outstanding letters of credit, leaving approximately \$163.2 million available for borrowing. The outstanding balance under the Revolving Credit Facility is included in current maturities on long-term debt on the accompanying consolidated balance sheet as of December 31, 2015 included elsewhere in this Annual Report on Form 10-K, due to the Company’s intent to repay the borrowings within the next twelve months. Subsequent to December 31, 2015, SEA borrowed an additional \$60.0 million under the Revolving Credit Facility for general working capital purposes.

The obligations under our Senior Secured Credit Facilities are fully, unconditionally and irrevocably guaranteed by each of the Company, any subsidiary of the Company that directly or indirectly owns 100% of the issued and outstanding equity interests of SEA, and, subject to certain exceptions, each of SEA’s existing and future material domestic wholly-owned subsidiaries (collectively, the “Guarantors”). Our Senior Secured Credit Facilities are collateralized by first priority or equivalent security interests, subject to certain exceptions, in (i) all the capital stock of, or other equity interests in, substantially all of SEA’s direct or indirect material wholly-owned domestic subsidiaries (subject to certain exceptions and qualifications) and 65% of the capital stock of, or other equity interests in, any of SEA’s first tier foreign subsidiaries and (ii) certain tangible and intangible assets of SEA and those of the Guarantors (subject to certain exceptions and qualifications).

Our Senior Secured Credit Facilities contain a number of customary negative covenants. Such covenants, among other things, restrict, subject to certain exceptions, the ability of SEA and its restricted subsidiaries to incur additional indebtedness; make guarantees; create liens on assets; enter into sale and leaseback transactions; engage in mergers or consolidations; sell assets; make fundamental changes; pay dividends and distributions or repurchase SEA’s capital stock; make investments, loans and advances, including acquisitions; engage in certain transactions with affiliates; make changes in the nature of the business; and make prepayments of junior debt. Our Senior Secured Credit Facilities also contain covenants requiring SEA to maintain specified maximum annual capital expenditures, a maximum total net leverage ratio and a minimum interest coverage ratio.

See Note 11–Long-Term Debt to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further details.

Senior Notes

On December 1, 2009, SEA issued \$400.0 million aggregate principal amount of unsecured senior notes which were due December 1, 2016 (the “Senior Notes”). We used a portion of our net proceeds from our IPO to redeem \$140.0 million aggregate principal amount of the Senior Notes in April 2013 at a redemption price of 110%. The redemption premium of \$15.4 million, along with a write off of approximately \$5.5 million in related discounts and debt issuance costs were recorded as a loss on early extinguishment of debt and write-off of discounts and debt issuance costs on the accompanying consolidated statements of comprehensive income for the year ended December 31, 2013. See Note 11–Long-Term Debt to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further details. We redeemed the remaining Senior Notes in April 2015 using the proceeds from the Term B-3 Loans.

Covenant Compliance

As of December 31, 2015, we were in compliance with all covenants in the credit agreement governing the Senior Secured Credit Facilities.

The credit agreement governing the Senior Secured Credit Facilities provide for certain events of default which, if any of them were to occur, would permit or require the principal of and accrued interest, if any, on the loans under the Senior Secured Credit Facilities to become or be declared due and payable (subject, in some cases, to specified grace periods).

Under the credit agreement governing the Senior Secured Credit Facilities, our ability to engage in activities such as incurring additional indebtedness, making investments, refinancing certain indebtedness, paying dividends and entering into certain merger transactions is governed, in part, by our ability to satisfy tests based on covenant Adjusted EBITDA.

The Senior Secured Credit Facilities generally defines “Adjusted EBITDA” as net income (loss) before interest expense, income tax expense (benefit), depreciation and amortization, as further adjusted to exclude certain unusual, non-cash, and other items permitted in calculating covenant compliance under the Senior Secured Credit Facilities. Adjusted EBITDA as defined in the Senior Secured Credit Facilities is consistent with our reported Adjusted EBITDA.

The Senior Secured Credit Facilities contain a number of covenants that, among other things, restrict our ability and the ability of our restricted subsidiaries to, among other things, make certain restricted payments (as defined in the Senior Secured Credit Facilities), including dividend payments and share repurchases. See Note 11—Long-Term Debt to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K for further details concerning the calculation of the Total Leverage Ratio (as defined in the Senior Secured Credit Facilities). As of December 31, 2015, the Total Leverage Ratio as calculated under the Senior Secured Credit Facilities was 4.38 to 1.00, which results in a \$120.0 million capacity for restricted payments in the year ending December 31, 2016. The amount available for dividend declarations, share repurchases and certain other restricted payments under the covenant restrictions in the debt agreements adjusts at the beginning of each quarter as set forth in Note 11—Long-Term Debt to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

Adjusted EBITDA

We believe that the presentation of Adjusted EBITDA is appropriate as it eliminates the effect of certain non-cash and other items not necessarily indicative of a company’s underlying operating performance. We use Adjusted EBITDA in connection with certain components of our executive compensation program. In addition, investors, lenders, financial analysts and rating agencies have historically used EBITDA related measures in our industry, along with other measures, to evaluate a company’s ability to meet its debt service requirements, to estimate the value of a company and to make informed investment decisions. The presentation of Adjusted EBITDA also provides additional information to investors about the calculation of, and compliance with, certain financial covenants in the Senior Secured Credit Facilities.

Adjusted EBITDA is not a recognized term under accounting principles generally accepted in the United States of America (“GAAP”), and should not be considered in isolation or as a substitute for a measure of our liquidity or performance prepared in accordance with GAAP and is not indicative of income from operations as determined under GAAP. Adjusted EBITDA and other non-GAAP financial measures have limitations which should be considered before using these measures to evaluate our liquidity or financial performance. Adjusted EBITDA, as presented by us, may not be comparable to similarly titled measures of other companies due to varying methods of calculation.

The following table reconciles Adjusted EBITDA to net income for the periods indicated:

	For the Year Ended December 31,		
	2015	2014	2013
	(In thousands)		
Net income	\$49,133	\$49,919	\$51,920
Provision for income taxes	23,698	28,872	25,714
Loss on early extinguishment of debt and write-off			
of discounts and debt issuance costs ^(a)	20,905	461	29,858
Interest expense	65,571	81,543	90,622
Depreciation and amortization	182,503	176,275	166,086
Equity-based compensation expense ^(b)	6,527	2,349	6,026
Other non-cash expenses ^(c)	6,285	5,036	9,556

Edgar Filing: SeaWorld Entertainment, Inc. - Form 10-K

Other business optimization costs ^(d)	2,219	11,567	—
Other adjusting items ^(e)	1,435	3,331	843
Other items, net of tax of \$529 in 2015 ^(f)	901	—	—
Estimated cost savings ^(g)	1,949	10,000	—
Secondary offering costs ^(h)	—	747	1,407
Termination of advisory agreement ⁽ⁱ⁾	—	—	50,072
Advisory fees ^(j)	—	—	2,799
Debt refinancing costs ^(k)	—	—	4,225
Adjusted EBITDA ^(l)	\$361,126	\$370,100	\$439,128

- (a) Reflects a \$14.3 million premium paid for the early redemption in April 2015 of \$260.0 million of our Senior Notes, along with a write-off of approximately \$6.0 million in related discounts and debt issuance costs and a \$0.6 million write-off of discounts and debt issuance costs related to the voluntary prepayment of \$30.0 million to our Senior Secured Credit Facilities in the year ended December 31, 2015. For the year ended December 31, 2014, reflects the write-off of discounts and debt issuance costs relating to the voluntary prepayment of \$31.5 million on our Senior Secured Credit Facilities. For the year ended December 31, 2013, reflects a \$15.4 million premium paid for the early redemption of \$140.0 million of our then existing Senior Notes using net proceeds from our initial public offering in April 2013, along with a write-off of approximately \$5.5 million in related discounts and debt issuance costs and a write-off of approximately \$8.1 million of certain capitalized debt issuance costs in connection with Amendment No. 5 to our Senior Secured Credit Facilities.
- (b) Reflects non-cash compensation expenses associated with the grants of equity compensation.
- (c) Reflects non-cash expenses related to miscellaneous asset write-offs and non-cash losses on derivatives.
- (d) Reflects business optimization costs incurred in the fourth quarter ended December 31, 2015 primarily related to \$2.0 million of restructuring and related costs associated with severance and other employment expenses for certain positions eliminated in the fourth quarter of 2015 as a result of cost saving initiatives. Business optimization costs for the year ended December 31, 2014 represent restructuring and other related costs and consist of \$8.6 million related to severance and other employment expenses and \$3.0 million related to third party consulting costs associated with the development of the cost savings plan and Restructuring Program. The Adjusted EBITDA calculations presented in the table above do not reflect certain 2015 other business optimization costs incurred prior to the fourth quarter of 2015 due to limitations as described in footnote (l) below.
- (e) Reflects non-recurring product and intellectual property development costs incurred for the three months ended December 31, 2015 and for the year ended December 31, 2014. The product and intellectual property development costs were not material in 2013. For the year ended December 31, 2015, also includes state franchise taxes paid of \$0.2 million. State franchise taxes were not included in the prior years and were not material. For the year ended December 31, 2013, other adjusting items reflects costs related to our acquisition of the Knott's Soak City Chula Vista water park and pre-opening costs related to Aquatica San Diego. The Adjusted EBITDA calculations presented in the table above do not reflect certain 2015 other adjusting items incurred prior to the fourth quarter of 2015 due to limitations as described in footnote (l) below.
- (f) Reflects the impact of certain items during the year ended December 31, 2015 which we are permitted to exclude, net of tax, under the credit agreement governing our senior secured credit facilities due to the unusual nature of the items.
- (g) For the year ended December 31, 2015, reflects estimated 2015 cost savings related to certain actions on cost savings initiatives. For the year ended December 31, 2014, reflects estimated 2014 cost savings related to the previously announced Restructuring Program for the year. These estimated cost savings are a non-GAAP Adjusted EBITDA item only that does not impact the Company's reported GAAP net income. Pursuant to the credit agreement governing our Senior Secured Credit Facilities, we are permitted to reflect in our calculation of Adjusted EBITDA, subject to certain limitations, estimated cost savings resulting from certain specified actions, including restructurings and cost savings initiatives. The credit agreement governing our Senior Secured Credit Facilities limits the amount of estimated cost savings that do not result from acquisitions or dispositions which may be reflected in the calculation of Adjusted EBITDA to \$10.0 million for any applicable consecutive four quarter period and \$30.0 million in the aggregate, of which we have utilized approximately \$12.0 million through December 31, 2015.
- (h) Reflects fees and expenses incurred in connection with the secondary offering of our common stock in April 2014 for the year ended December 31, 2014 and fees and expenses incurred in connection with the secondary offering of our common stock in December 2013 for the year ended December 31, 2013. Pursuant to the Registration Rights Agreement, we paid all expenses related to the offerings, other than underwriting discounts and commissions. No shares were sold by us in the secondary offerings and the selling stockholders received all of the net proceeds from the offerings.
- (i) Reflects a one-time fee of \$46.3 million paid to an affiliate of Blackstone in connection with the termination of the 2009 Advisory Agreement, and a related write-off of prepaid advisory fees of \$3.8 million. In connection with our initial public offering, the 2009 Advisory Agreement was terminated on April 24, 2013 in accordance with its

terms.

(j) Reflects historical fees paid to an affiliate of Blackstone under the 2009 Advisory Agreement.

(k) Reflects costs which were expensed related to the amendments to our Senior Secured Credit Facilities.

(l) For covenant calculation purposes under our credit agreement, the amount which we are able to add back to Adjusted EBITDA for other business optimization costs and certain other adjusting items, including restructuring costs and product and intellectual property development costs, is limited to \$10.0 million for any four consecutive quarters (with certain unused amounts carried over from the prior fiscal year). Due to these limitations, the Adjusted EBITDA calculations presented in the table above do not reflect \$0.3 million of restructuring and other related costs and \$2.5 million of product and intellectual property development costs incurred in the first three quarters of 2015.

52

Contractual Obligations

The following table summarizes our principal contractual obligations as of December 31, 2015:

	Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
	(In thousands)				
Long-term debt (including current portion) ^(a)	\$1,601,287	\$31,850	\$33,700	\$1,535,737	\$—
Operating leases ^(b)	362,659	16,185	31,884	26,462	288,128
Purchase obligations ^(c)	81,580	81,580	—	—	—
Total contractual obligations	\$2,045,526	\$129,615	\$65,584	\$1,562,199	\$288,128

- (a) Represents principal payments of long-term debt and does not include estimated interest obligations of \$58,372; \$133,932; and \$87,618 payable in less than one year, 1-3 year, and 3-5 year periods, respectively, calculated using interest rates at December 31, 2015. The outstanding balance under the Revolving Credit Facility at December 31, 2015 is included in the less than 1 year classification due to our intent to repay the borrowings within the next twelve months.
- (b) Represents commitments under long-term operating leases, primarily consisting of the lease for the land of our SeaWorld theme park in San Diego, California, requiring annual minimum lease payments.
- (c) We have minimum purchase commitments with various vendors through 2017. Outstanding minimum purchase commitments consist primarily of capital expenditures related to future attractions, infrastructure enhancements for existing facilities and information technology products and services.

Off-Balance Sheet Arrangements

We had no off-balance sheet arrangements as of December 31, 2015.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities, revenues and expenses, and disclosure of contingencies during the reporting period. Significant estimates and assumptions include the valuation and useful lives of long-lived tangible and intangible assets, the valuation of goodwill and other indefinite-lived intangible assets, the accounting for income taxes, the accounting for self-insurance and revenue recognition. Actual results could differ from those estimates. We believe that the following discussion addresses our critical accounting policies which require management's most difficult, subjective and complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain.

Property and Equipment

Development costs associated with new attractions, rides and products are generally capitalized after necessary feasibility studies have been completed and final concept or contracts have been approved. Interest is capitalized on all active construction projects.

Property and equipment additions are recorded at cost and are depreciated on a straight-line basis over the estimated useful lives. It is possible that changes in circumstances such as technological advances, use of an asset, changes to our business model or changes in capital strategy could result in the actual useful lives differing from the original

estimate. In cases in which we determine that the useful life of property and equipment should be shortened, we depreciate the remaining net book value in excess of the salvage value over the revised remaining useful life, thereby increasing depreciation expense evenly through the remaining expected life.

Impairment of Long-Lived Assets

All long-lived assets, including property and equipment and finite-lived intangible assets, are reviewed for impairment upon the occurrence of events or changes in circumstances that would indicate that the carrying value of the assets may not be recoverable. Assets are grouped and tested at the lowest level for which identifiable, independent cash flows are available.

The impairment indicators considered important that may trigger an impairment review, if significant, include the following:

- underperformance relative to historical or projected future operating results;
- changes in the manner of use, sale or disposal of assets;
- decreases in the market value of assets;

53

- adverse change in legal factors or business climate; and
- other macroeconomic conditions.

An impairment loss may be recognized when estimated undiscounted future cash flows expected to result from the use of the asset, including disposition, are less than the carrying value of the asset. The measurement of the impairment loss to be recognized is based upon the difference between the fair value and the carrying amounts of the assets. Fair value is generally determined based upon a discounted cash flow analysis. In order to determine if an asset has been impaired, the determination of both undiscounted and discounted future cash flows requires management to make significant estimates and consider an anticipated course of action as of the balance sheet date. Subsequent changes in estimated undiscounted and discounted future cash flows arising from changes in anticipated actions could impact the determination of whether impairment exists. There was no impairment of any long-lived asset groups in 2015, 2014 or 2013.

Goodwill and Other Indefinite-Lived Intangible Assets

Goodwill and other indefinite-lived intangible assets are reviewed for impairment annually, and as of an interim date should factors or indicators become apparent that would require an interim test, for ongoing recoverability based on applicable reporting unit performance and consideration of significant events or changes in the overall business environment.

In assessing goodwill for impairment, we may choose to initially evaluate qualitative factors to determine if it is more likely than not that the fair value of a reporting unit is less than its carrying amount. We consider several factors, including macroeconomic conditions, industry and market conditions, overall financial performance of the reporting unit, changes in management, strategy or customers, and relevant reporting unit specific events such as a change in the carrying amount of net assets, a more-likely-than-not expectation of selling or disposing all, or a portion, of a reporting unit, and the testing of recoverability of a significant asset group within a reporting unit. If the qualitative assessment is not conclusive, then the impairment analysis for goodwill is performed at the reporting unit level using a two-step approach. We may also choose to perform this two-step impairment analysis instead of the qualitative analysis. The first step is a comparison of the fair value of the reporting unit, determined using the income and market approach, to its recorded amount. If the recorded amount exceeds the fair value, the second step quantifies any impairment write-down by comparing the current implied value of goodwill to the recorded goodwill balance.

Significant judgments required in this testing process may include projecting future cash flows, determining appropriate discount rates and other assumptions. Projections are based on management's best estimates given recent financial performance, market trends, strategic plans and other available information which in recent years have been materially accurate. Although not currently anticipated, changes in these estimates and assumptions could materially affect the determination of fair value or impairment. It is possible that our assumptions about future performance, as well as the economic outlook and related conclusions regarding the valuation of our assets, could change adversely, which may result in impairment that would have a material effect on our financial position and results of operations in future periods. At December 1, 2015, a qualitative assessment was performed on one of our reporting units and a quantitative assessment was performed on the other. Based on the assessments, we determined that neither reporting unit was considered impaired. For the quantitative assessment that was performed, we calculated that the estimated fair value of the reporting unit exceeded its respective carrying value by 19%. A key assumption utilized in the goodwill analysis was a weighted average cost of capital of 8.5%.

At December 1, 2014, a quantitative assessment was performed and we determined that we had no reporting units that were considered impaired as a result of this goodwill impairment test. During this quantitative assessment, we calculated that the fair value of the reporting units exceeded their respective carrying values by 12% and 106%. A key assumption utilized in the goodwill analysis was a weighted average cost of capital of 9%.

At December 1, 2013, a qualitative assessment was performed and we determined, after assessing the totality of relevant events and circumstances, that it was not more likely than not that the carrying value exceeded the fair value

of the reporting units. Accordingly, based upon the qualitative assessment tests that were performed in 2015 and 2013, and the quantitative assessments that were performed as of December 1, 2015 and 2014, we had no reporting units that were considered at risk of failing step one of the goodwill impairment tests.

Our other indefinite-lived intangible assets consist of certain trade names/trademarks and other intangible assets which, after considering legal, regulatory, contractual, and other competitive and economic factors, are determined to have indefinite lives and are valued annually using the relief from royalty method. Significant estimates required in this valuation method include estimated future revenues impacted by the trade names/trademarks, royalty rate by park, and appropriate discount rates. Projections are based on management's best estimates given recent financial performance, market trends, strategic plans, brand awareness, operating characteristics by park, and other available information which in recent years have been materially accurate. Changes in these estimates and assumptions could materially affect the fair value determination used in the assessment of impairment. At December 1, 2015, we performed a qualitative assessment of certain trade names/trademarks and a quantitative assessment on the remaining trade names/trademarks. At December 1, 2014, a quantitative assessment was performed and at December 1, 2013 a qualitative assessment was performed. Based on these assessments, there was no impairment as the estimated fair value of trade names/trademarks were substantially in excess of their carrying values. For the December 1, 2015 quantitative assessment, we calculated that the estimated fair value of the trade names/trademarks exceeded their carrying values by 63% to 77%. Key assumptions utilized in the analysis were a discount rate of 11.5% and an estimated royalty rate of 3%. For the December 1, 2014 quantitative assessment, we calculated that the estimated fair value of the trade names/trademarks exceeded their carrying values by 68% to 85%. Key assumptions utilized in the analysis were a discount rate of 12.0% and an estimated royalty rate ranging from 2% to 3%.

Accounting for Income Taxes

We are required to estimate income taxes in each of the jurisdictions in which we operate. This process involves estimating actual current tax exposure together with assessing temporary differences resulting from differing treatment of items, such as depreciation periods for property and equipment and deferred revenue, for tax and financial accounting purposes. These differences result in deferred tax assets and liabilities, which are included within our consolidated balance sheet. We must then assess the likelihood that deferred tax assets (primarily net operating loss and charitable contribution carryforwards) will be recovered from future taxable income. To the extent that we believe that recovery is not more likely than not, a valuation allowance against those amounts is recorded. To the extent that we record a valuation allowance or a change in the valuation allowance during a period, we recognize these amounts as income tax expense or benefit in the consolidated statements of comprehensive income. Section 382 of the Internal Revenue Code of 1986, as amended (the "Code") contains rules that limit the ability of a company that undergoes an ownership change, which is generally any change in ownership of more than 50% of its stock over a rolling three-year period, to utilize its net operating loss carryforwards in years after the ownership change. These rules generally operate by focusing on ownership shifts among stockholders owning directly or indirectly 5% or more of the stock of a company and any change in ownership arising from shares of stock sold by these same stockholders.

Significant management judgment is required in determining our provision or benefit for income taxes, deferred tax assets and liabilities and any valuation allowance recorded against net deferred tax assets. Management has analyzed all available evidence, both positive and negative, using a more likely than not standard in assessing the need for a valuation allowance against its deferred income tax assets. This assessment considers, among other matters, the nature, frequency and severity of recent losses, forecast of future profitability, the duration of the statutory carryback and carryforward periods and tax planning alternatives. The assumptions about future taxable income require the use of significant judgment and are consistent with the plans and estimates we use to manage the underlying business.

For the year ended December 31, 2014, a valuation allowance of approximately \$1.5 million was recorded on charitable contribution carryforward deferred tax assets which expired on December 31, 2015. This valuation allowance reversed at such time due to the expiration of those unused charitable contributions. However, an additional valuation allowance of \$0.9 million was recorded for the year ended December 31, 2015 for the charitable contributions we expect will expire in 2016 and be unutilized.

Due to the uncertainty of realizing the benefit from the deferred tax asset recorded for certain state net operating loss carryforwards, we have recorded a valuation allowance of \$0.6 million, net of federal tax benefit, on the deferred tax

assets related to those state net operating losses. We believe it is more likely than not that the benefit from these state net operating loss carryforwards will not be realized.

Although the secondary offerings that were completed in December 2013 and April 2014 gave rise to an ownership change under Section 382, we believe that the resulting limitations imposed by Section 382 will not affect our ability to use our existing net operating loss carryforwards. Any future ownership change may, however, result in further limitations imposed by Section 382. Any such limitation may have the effect of reducing our after-tax cash flow in future years and may affect our need for a valuation allowance on our deferred tax assets related to federal and state net operating loss carryforwards.

Self-Insurance Reserves

Reserves are recorded for the estimated amounts of guest and employee claims and expenses incurred each period that are not covered by insurance. Reserves are established for both identified claims and incurred but not reported (“IBNR”) claims. Such amounts are accrued for when claim amounts become probable and estimable. Reserves for identified claims are based upon our own historical claims experience and third-party estimates of settlement costs. Reserves for IBNR claims are based upon our own claims data history, as well as industry averages. All reserves are periodically reviewed for changes in facts and circumstances and adjustments are made as necessary.

Revenue Recognition

We recognize revenue upon admission into a theme park for single day tickets and when products are received by customers for merchandise, culinary or other in-park spending. For season passes and other multi-use admission products, revenue is deferred and recognized based on the terms of the admission product and its estimated usage and is adjusted periodically.

We have entered into agreements with certain external theme park, zoo and other attraction operators, to jointly market and sell single and multi-use admission products. These joint products allow admission to both a Company park and an external park, zoo or other attraction. The agreements with the external partners specify the allocation of revenue to us from any jointly sold products. Whether the Company or the external partner sells the product, our portion of revenue is deferred until the first time the product is redeemed at one of our parks and recognized over its related use, in a manner consistent with the Company’s own admission products.

Recently Issued Financial Accounting Standards

Refer to Note 3—Recently Issued Accounting Pronouncements, in our notes to the consolidated financial statements included elsewhere in this Annual Report on Form 10-K.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

Inflation

The impact of inflation has affected, and will continue to affect, our operations significantly. Our costs of food, merchandise and other revenues are influenced by inflation and fluctuations in global commodity prices. In addition, costs for construction, repairs and maintenance are all subject to inflationary pressures.

Interest Rate Risk

We are exposed to market risks from fluctuations in interest rates, and to a lesser extent on currency exchange rates, from time to time, on imported rides and equipment. The objective of our financial risk management is to reduce the potential negative impact of interest rate and foreign currency exchange rate fluctuations to acceptable levels. We do not acquire market risk sensitive instruments for trading purposes.

We manage interest rate risk through the use of a combination of fixed-rate long-term debt and interest rate swaps that fix a portion of our variable-rate long-term debt.

The effective portion of changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in accumulated other comprehensive loss and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. The ineffective portion of the change in fair value of the derivatives is

recognized directly in earnings. Amounts reported in accumulated other comprehensive loss related to derivatives will be reclassified to interest expense as interest payments are made on our variable-rate debt. During the next 12 months, our estimate is that an additional \$5.3 million will be reclassified as an increase to interest expense.

After considering the impact of interest rate swap agreements, at December 31, 2015, approximately \$1,250.0 million of our outstanding long-term debt represents fixed-rate debt and approximately \$336.3 million represents variable-rate debt. Assuming an average balance on our revolving credit borrowings of approximately \$40.0 million, a hypothetical 100 bps increase in 3 month LIBOR on our variable-rate debt would lead to an increase of approximately \$3.3 million in annual cash interest costs due to the impact of our fixed-rate swap agreements.

Item 8. Financial Statements and Supplementary Data

Our consolidated financial statements and the notes thereto are provided in Part IV, Item 15 of this Annual Report on Form 10-K.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Regulations under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), require public companies, including us, to maintain “disclosure controls and procedures,” which are defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act to mean a company’s controls and other procedures that are designed to ensure that information required to be disclosed in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and that such information is accumulated and communicated to management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required or necessary disclosures. In designing and evaluating our disclosure controls and procedures, management recognizes that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. The design of any controls and procedures also is based on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Additionally, in designing disclosure controls and procedures, our management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. Our management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation and subject to the foregoing, our principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, the design and operation of our disclosure controls and procedures were effective to accomplish their objectives at a reasonable assurance level.

Changes in Internal Control over Financial Reporting

Regulations under the Exchange Act require public companies, including our Company, to evaluate any change in our “internal control over financial reporting” as such term is defined in Rule 13a-15(f) and Rule 15d-15(f) of the Exchange Act. There have been no changes in our internal control over financial reporting during the fiscal quarter ended December 31, 2015 that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

Management’s Report on Internal Control over Financial Reporting

As required by the SEC’s rules and regulations for the implementation of Section 404 of the Sarbanes-Oxley Act, our management is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of our consolidated financial statements for external reporting purposes in accordance with accounting principles generally accepted in the United States of America. Our internal control over

financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements in our consolidated financial statements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2015. In making these assessments, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control — Integrated Framework (2013). Based on our assessments and those criteria, management determined that the Company maintained effective internal control over financial reporting as of December 31, 2015.

Report of Independent Registered Public Accounting Firm

The Company's independent registered public accounting firm has issued a report on the Company's internal control over financial reporting. This report appears on page F-2 in this Annual Report on Form 10-K.

Item 9B. Other Information

Rule 10b5-1 Plans

Our policy governing transactions in our securities by our directors, officers and employees permits such persons to adopt stock trading plans pursuant to Rule 10b5-1 promulgated by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended. Our directors, officers and employees have in the past and may from time to time establish such stock trading plans. We do not undertake any obligation to disclose, or to update or revise any disclosure regarding, any such plans and specifically do not undertake to disclose the adoption, amendment, termination or expiration of any such plans.

Iran Threat Reduction and Syria Human Rights Act of 2012

Pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012, which added Section 13(r) of the Exchange Act, the Company hereby incorporates by reference herein Exhibit 99.1 of this report, which includes disclosures publicly filed and/or provided to Blackstone, an affiliate of our major stockholders, by Travelport Worldwide Limited and Hilton Worldwide Holdings, Inc., which may be considered the Company's affiliates.

PART III.

Item 10. Director, Executive Officers and Corporate Governance

The information required by this item will be included in our definitive proxy statement to be filed not later than 120 days after the end of the fiscal year covered by this Annual Report on Form 10-K and is incorporated herein by reference.

Item 11. Executive Compensation

The information required by this item will be included in our definitive proxy statement to be filed not later than 120 days after the end of the fiscal year covered by this Annual Report on Form 10-K and is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by this item will be included in our definitive proxy statement to be filed not later than 120 days after the end of the fiscal year covered by this Annual Report on Form 10-K and is incorporated herein by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this item will be included in our definitive proxy statement to be filed not later than 120 days after the end of the fiscal year covered by this Annual Report on Form 10-K and is incorporated herein by reference.

Item 14. Principal Accounting Fees and Services

The information required by this item will be included in our definitive proxy statement to be filed not later than 120 days after the end of the fiscal year covered by this Annual Report on Form 10-K and is incorporated herein by reference.

PART IV.

Item 15. Exhibits, Financial Statement Schedules

(a) The following documents are filed as part of this report:

1. Consolidated Financial Statements

Report of Independent Registered Public Accounting Firm F-2

Consolidated Balance Sheets F-3

Consolidated Statements of Comprehensive Income F-4

Consolidated Statements of Changes in Stockholders' Equity F-5

Consolidated Statements of Cash Flows F-6

Notes to Consolidated Financial Statements F-7 to F-40

2. Financial Statement Schedules

Schedule I—Registrant's Condensed Financial Statements F-41 to F-47

Schedules not listed above have been omitted because the information required to be set forth therein is not applicable or is shown in the financial statements or notes herein.

3. Exhibits

See the Exhibit Index beginning on page 62.

Edgar Filing: SeaWorld Entertainment, Inc. - Form 10-K

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

SeaWorld Entertainment, Inc.

Date: February 26, 2016

/s/ JOEL K. MANBY

Name: Joel K. Manby

Title: President and Chief Executive Officer, Director

Pursuant to the requirements of the Securities Exchange Act of 1934, this report has been signed below by the following persons on behalf of the Registrant and in the capacities indicated:

Signature	Date	Capacity
/S/ JOEL K. MANBY Joel K. Manby	February 26, 2016	President and Chief Executive Officer, Director (Principal Executive Officer)
/S/ PETER J. CRAGE Peter J. Crage	February 26, 2016	Chief Financial Officer (Principal Financial Officer)
/S/ MARC G. SWANSON Marc G. Swanson	February 26, 2016	Chief Accounting Officer (Principal Accounting Officer)
/S/ DAVID F. D'ALESSANDRO David F. D'Alessandro	February 26, 2016	Director

Exhibit Index

Exhibit No.	Description
3.1	Amended and Restated Certificate of Incorporation of SeaWorld Entertainment, Inc. (incorporated by reference to Exhibit 3.1 to the Registrant's Current Report on Form 8-K filed on April 24, 2013) (No. 001-35883)
3.2	Amended and Restated Bylaws of SeaWorld Entertainment, Inc. (incorporated by reference to Exhibit 3.2 to the Registrant's Current Report on Form 8-K filed on December 12, 2014) (No. 001-35883)
4.1	Stockholders Agreement, dated as of April 24, 2013, among SeaWorld Entertainment, Inc. and the other parties thereto (incorporated by reference to Exhibit 4.1 to the Registrant's Current Report on Form 8-K filed on April 24, 2013)
10.1	Amendment No. 4, dated as of April 5, 2013, to the Credit Agreement, among SeaWorld Parks & Entertainment, Inc. (f/k/a SW Acquisitions Co., Inc.), the guarantors party thereto from time to time, Bank of America, N.A., as administrative agent, collateral agent, letter of credit issuer and swing line lender, Bank of America, N.A., as lead arranger and bookrunner, and the other agents and lenders from time to time party thereto (the amended and restated Credit Agreement is included as Exhibit A hereto) (incorporated by reference to Exhibit 10.41 to the Registrant's Registration Statement on Form S-1 (No. 333-185697))
10.2	Amendment No. 5, dated as of May 14, 2013, to the Credit Agreement, among SeaWorld Parks & Entertainment, Inc. (f/k/a SW Acquisitions Co., Inc.), the guarantors party thereto from time to time, Bank of America, N.A., as administrative agent, collateral agent, Letter of Credit issuer and swing line lender, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Bank of America, N.A., as joint lead arrangers, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Barclays Capital, Deutsche Bank Securities Inc., Goldman Sachs Lending Partners LLC, J.P. Morgan Securities LLC, Macquarie Capital (USA) Inc. and Mizuho Corporate Banks, Ltd. as joint bookrunners, Deutsche Bank Securities Inc. and Barclays Bank plc, as co-syndication agents, and the other agents and lenders from time to time party thereto (the amended and restated Credit Agreement is included as Exhibit A hereto) (incorporated by reference to Exhibit 10.1 to the Registrant's Quarterly Report on Form 10-Q filed on May 23, 2013) (No. 001-35883)
10.3	Amendment No. 6, dated as of August 9, 2013, to the Credit Agreement, among SeaWorld Parks & Entertainment, Inc. (f/k/a SW Acquisitions Co., Inc.), the guarantors party thereto from time to time, Bank of America, N.A., as administrative agent, collateral agent, Letter of Credit issuer and swing line lender, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Bank of America, N.A., as joint lead arrangers, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Barclays Capital, Deutsche Bank Securities Inc., Goldman Sachs Lending Partners LLC, J.P. Morgan Securities LLC, Macquarie Capital (USA) Inc. and Mizuho Corporate Banks, Ltd. as joint bookrunners, Deutsche Bank Securities Inc. and Barclays Bank plc, as co-syndication agents, and the other agents and lenders from time to time party thereto (incorporated by reference to Exhibit 10.7 to the Registrant's Quarterly Report on Form 10-Q filed on August 14, 2013) (No. 001-35883)
10.4	Amendment No. 7, dated as of March 30, 2015, to the Credit Agreement, dated as of December 1, 2009, among SeaWorld Parks & Entertainment, Inc. (f/k/a SW Acquisitions Co., Inc.), the guarantors party thereto from time to time, Bank of America, N.A., as administrative agent, collateral agent, Letter of Credit issuer and swing line lender, Deutsche Bank Securities Inc. and Barclays Bank plc, as co-syndication agents,

Edgar Filing: SeaWorld Entertainment, Inc. - Form 10-K

Mizuho Corporate Banks, Ltd., as documentation agent, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Deutsche Bank Securities Inc., as joint lead arrangers, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Barclays Capital and Deutsche Bank Securities Inc. as joint bookrunners, and the other agents and lenders from time to time party thereto (incorporated by reference to Exhibit 10.1 to the Registrant's Quarterly Report on Form 10-Q for the quarter ended March 31, 2015) (No. 001-35883)

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of

SeaWorld Entertainment, Inc.

Orlando, Florida

We have audited the accompanying consolidated balance sheets of SeaWorld Entertainment, Inc. and subsidiaries (the "Company") as of December 31, 2015 and 2014, and the related consolidated statements of comprehensive income, changes in stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2015. Our audits also included the financial statement schedule listed in the Index at Item 15. We also have audited the Company's internal control over financial reporting as of December 31, 2015, based on criteria established in Internal Control — Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for these financial statements and financial statement schedule, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on these financial statements and financial statement schedule and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of SeaWorld Entertainment, Inc. and subsidiaries as of December 31, 2015 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2015, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein. Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based on the criteria established in Internal Control — Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission.
