SEASPAN CORPORATION

Notes to Interim Consolidated Financial Statements

For the three months ended March 31, 2018 and 2017

(Unaudited)

(Tabular amounts in thousands of United States dollars, except per share amount and number of shares)

1. Significant accounting policies:

(a) Basis of presentation:

Except for the changes described in note 1 (b), the accompanying interim financial information of Seaspan Corporation (the “Company”) has been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”), on a basis consistent with those followed in the December 31, 2017 audited annual consolidated financial statements. The accompanying interim financial information is unaudited and reflects all adjustments, consisting of normal recurring adjustments, which, in the opinion of management, are necessary for a fair presentation of results for the interim periods presented. These unaudited interim consolidated financial statements do not include all the disclosures required under U.S. GAAP for annual financial statements and should be read in conjunction with the December 31, 2017 annual consolidated financial statements filed with the U.S. Securities and Exchange Commission in the Company’s 2017 Annual Report on Form 20-F.

Certain prior periods’ information has been reclassified to conform to current financial statement presentation.

(b) Recently adopted accounting pronouncements:

Revenue recognition

Effective January 1, 2018, the Company adopted Accounting Standards Update (“ASU”) 2014-09, “Revenue from Contracts with Customers”, that introduced a new five-step revenue recognition model to determine how an entity should recognize revenue related to the transfer of goods or services to customers in an amount that reflects the consideration the entity is entitled to receive for those goods or services.

The Company’s revenue is comprised primarily of time charter revenue and interest income from leasing. The time charter revenue includes a lease element, which is evaluated under Accounting Standards Codification (“ASC”) 840 “Leases”, and a service element, which is evaluated under ASU 2014-09. Under current accounting standards, service revenue is recognized when the amounts are fixed or determinable, services have been rendered and collectability is reasonably assured. Under ASU 2014-09, recognition of such service revenue will occur when the services are provided and the performance obligations are satisfied. The Company evaluated the service revenue under ASU 2014-09 and determined that the amounts recognized and the pattern of recognition would be substantially the same as the existing revenue standard. The Company adopted ASU 2014-09 using the modified retrospective method and applied the new standard only to contracts not completed as of January 1, 2018. There is no impact on the Company’s consolidated financial statements.

Definition of a Business

Effective January 1, 2018, the Company adopted ASU 2017-01, “Clarifying the Definition of a Business”, which provides a new framework for determining whether transactions should be accounted for as acquisitions of assets or

businesses. The Company has analyzed its March 13, 2018 acquisition of Greater China Intermodal Investments LLC under this standard (see note 2).

Statement of Cash Flows – Restricted Cash

Effective January 1, 2018, the Company adopted ASU 2016-18, “Statement of Cash Flows – Restricted Cash”, which requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents and restricted cash. In addition, the amounts of restricted cash and nature of the restrictions are required to be disclosed. The Company’s consolidated statements of cash flows and supplemental cash flow note reflect the changes as required.

SEASPAN CORPORATION

Notes to Interim Consolidated Financial Statements

For the three months ended March 31, 2018 and 2017

(Unaudited)

(Tabular amounts in thousands of United States dollars, except per share amount and number of shares)

1. Significant accounting policies (continued):

Equity-linked financial instruments with down round features

Effective January 1, 2018, the Company elected to early adopt ASU 2017-11, which changes the classification analysis of certain equity-linked financial instruments with down round features. When determining whether certain financial instruments should be classified as liabilities or equity instruments, a down round feature no longer precludes equity classification when assessing whether the instrument is indexed to an entity's own stock. The standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018, with early adoption permitted. There is no impact on the Company's consolidated financial statements.

(c) Recent accounting pronouncements

Leases

In February 2016, the Financial Accounting Standards Board ("FASB") issued ASU 2016-02, "Leases", which requires lessees to recognize all leases, including operating leases, with a term greater than 12 months on the balance sheet, for the rights and obligations created by those leases. The accounting for lessors will remain largely unchanged from the existing accounting standards. The standard is effective for fiscal years beginning after December 31, 2018, including interim periods within those fiscal years.

Under ASU 2016-02, each lease agreement will be evaluated to identify the lease components and non-lease components at lease inception. The total consideration in the lease agreement will be allocated to the lease and non-lease components based on their relative standalone selling prices. Lessors will continue to recognize the lease revenue component using an approach that is substantially equivalent to existing guidance for operating leases (straight-line basis). Sale-type and direct financing leases will be accounted for as financing transactions with the lease payments being allocated to principal and interest utilizing the effective interest rate method.

In March 2018, the FASB approved amendments to ASU 2016-02 that would allow lessors to elect, as a practical expedient, to not separate lease and non-lease components and allow these components to be accounted for as a single lease component if both (i) the timing and pattern of transfer to the lessee of the lease component and the related non-lease component are the same and (ii) the lease component, if accounted for separately, would be classified as an operating lease. In addition, a company is permitted to use its effective date as the date of initial application. Therefore, a company electing this option will not restate comparative period financial information, will not make the new required lease disclosures in comparative periods beginning before the effective date and will recognize its cumulative effect transition adjustment as of the effective date. Under the practical expedient mentioned above, it is expected that time charter revenue and service revenue will be presented under a single lease component presentation.

2. Acquisition of Greater China Intermodal Investments LLC:

On March 13, 2018, the Company acquired the remaining 89.2% that it did not own of Greater China Intermodal Investments LLC (“GCI”) from affiliates of The Carlyle Group and the minority owners of GCI. GCI’s fleet of 18 containerships, including two newbuilds, is comprised of 10000 TEU and 14000 TEU eco-class vessels.

(Unaudited)

(Tabular amounts in thousands of United States dollars, except per share amount and number of shares)

2. Acquisition of Greater China Intermodal Investments LLC (continued):

The aggregate purchase price was \$498,050,000, comprised of:

Cash	\$316,680
1,986,449 of the Company's Series D preferred shares	47,158
2,154,996 of the Company's Class A common shares	13,908
Settlement of intercompany balances	56,503
Carrying value of previously held equity interest	61,891
Transaction fees	1,910
Aggregate purchase price	\$498,050

Under the Agreement and Plan of Merger (the "Merger Agreement"), \$10,000,000 was deposited in escrow for settlement of potential indemnifiable damages. If there are no claims for indemnification, the escrowed amount will be released within two business days after March 13, 2019.

The value of the Company's Series D preferred shares and Class A common shares was determined based on the closing market price of those shares on March 13, 2018, which was the date the acquisition closed. As the initial holders of the 1,986,449 Series D preferred shares have a right commencing on September 13, 2019 and ending on October 13, 2019 to cause the Company to repurchase any of these shares they hold at that time for a price of \$24.84 per share, these Series D preferred shares are recorded as temporary equity.

For the three months ended March 31, 2018, the Company incurred \$1,910,000 of acquisition-related costs that have been capitalized as a cost of the net assets acquired.

The Company accounted for the transaction as an asset acquisition as substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable group of similar identifiable assets. Accordingly, the consideration has been allocated on a relative fair value basis to the assets acquired and liabilities assumed.

The following table summarizes the fair value of the identifiable assets acquired and liabilities assumed;

Cash and cash equivalents	\$70,121
Current assets	5,316
Vessels	1,369,628
Vessels under construction	28,924
Other assets	107,407

Edgar Filing: Seaspan CORP - Form 6-K

Total assets acquired	1,581,396
Debt assumed	1,038,081
Current liabilities	31,115
Other long-term liabilities	14,150
Net assets acquired	\$498,050

The Company purchased identifiable intangible assets (time charters) with an estimated useful life of 5.3 years and is recorded in Other assets.

3. Related party transactions:

(a) Prior to March 13, 2018, the Company had a 10.8% equity interest in GCI. The Company purchased the remaining 89.2% interest in GCI on March 13, 2018 (see note 2) and as of March 31, 2018 consolidated GCI and eliminated all significant intercompany balances and transactions.

The Company had no amounts (December 31, 2017 – \$318,500) due from other related parties included in accounts receivable.

The income or expenses with related parties relate to amounts paid to or received from individuals or entities that are associated with the Company's directors or officers and these transactions are governed by pre-arranged contracts.

In 2017, transaction fees were paid to the Company's former chief executive officer ("CEO") in connection with services he provided related to newbuild contracts and purchase or sale contracts, and these fees were capitalized to vessels. Transaction fees were paid either in cash or, at the Company's discretion, a combination of cash and up to 50% in the Company's common shares (note 11(b)). The former CEO's employment ended on December 31, 2017 and as of that date he was no longer a related party.

Interest income was earned on loans to affiliate, prior to March 13, 2018. Management fees were earned from GCI for the management of GCI's vessels, prior to March 13, 2018, and are included in revenue.

In April 2015, the Company entered into an agreement with MSC to bareboat charter five 11000 TEU vessels for a 17-year term, beginning from the vessel delivery dates. Pursuant to the Company's right of first refusal agreement with GCI, the Company retained three of the vessels and GCI acquired the remaining two vessels. In June 2016, two of the five 11000 TEU vessels and associated bareboat charter contracts were acquired by the Company from GCI. At the end of each 17-year bareboat charter term, MSC has agreed to purchase each vessel for \$32,000,000. Each transaction is considered a direct financing lease and accounted for as a disposition of vessels upon delivery of each vessel.

In 2017, four of the five 11000 TEU vessels delivered and commenced their 17-year bareboat charters. During the quarter ended March 31, 2018 the fifth 11000 TEU vessel delivered and commenced its 17-year bareboat charter.

(a) Revolving facilities

In February 2018, the Company cancelled its \$120,000,000 364-day, unsecured revolving loan facility which had not been drawn.

At March 31, 2018, the one month average LIBOR was 1.8% (December 31, 2017 – 1.5%) and the margins ranged between 0.5% and 0.9% (December 31, 2017 – 0.5% and 1.4%) for revolving credit facilities. The weighted average rate of interest, including the margin, for our revolving credit facilities was 2.5% at March 31, 2018 (December 31, 2017 – 2.2%). Interest payments are made monthly.

(b)Term loan credit facilities

In March 2018, the Company entered into a secured term loan facility for \$100,000,000 which bears interest at LIBOR plus a margin. The facility is secured by 11 vessels currently owned by the Company which were previously unencumbered.

As part of the acquisition of GCI on March 13, 2018, the Company assumed long-term debt which was recorded at its fair value of \$1,038,081,000 (see note 2). The assumed long-term debt consists primarily of 12 term loans to finance the 16 operating vessels. The term loans bear interest at LIBOR plus a margin.

At March 31, 2018, the one month, three month and six month average LIBOR was 1.9%, 2.0% and 2.2%, respectively (December 31, 2017 – 1.6%, 1.5% and 1.5%, respectively) and the margins ranged between 0.4% and 4.8% (December 31, 2017 – 0.4% and 4.8%) for term loan credit facilities.

For certain of our term loan credit facilities with a total principal outstanding of \$75,094,000, interest is calculated based on the Export-Import Bank of Korea (KEXIM) rate plus 0.7% per annum.

8. Long-term debt (continued):

For one of our unsecured term loan facilities with a total principal outstanding of \$29,000,000, interest is a fixed rate of 7.0%.

The weighted average rate of interest, including the margin, was 4.1% at March 31, 2018 (December 31, 2017 – 3.6%) for term loan credit facilities. Interest payments are made in monthly, quarterly or semi-annual payments.

Waivers

For one of the Company's term loan credit facilities, the Company initially obtained a waiver from the lender extending the grace period for securing acceptable replacement charters for two of the vessels to the fourth quarter of 2017. In September 2017, the Company received another waiver from the lender which extends the grace period for securing replacement charters to October 2020. If either of the vessels remains unemployed for a consecutive period of more than 90 days, then the waiver will be terminated. For four GCI vessels financed by the same lender, a similar waiver was received by GCI.

For another one of the Company's term loan credit facilities, the Company entered into a supplement to the loan agreement with the lender for one vessel, extending the grace period for securing an acceptable replacement charter for the vessel to the fourth quarter of 2018. In March 2018, the Company entered into another supplement to the loan agreement with the lender to remove the requirement to secure an acceptable replacement charter by the fourth quarter of 2018. In connection with this supplement to the loan agreement the Company prepaid \$10,000,000 of the loan balance in March 2018. The final maturity of this facility is December 2022.

(c) Credit facilities – other terms

As of March 31, 2018, our credit facilities, including those of GCI, are secured by first-priority mortgages granted on 74 of our vessels, together with other related security, such as assignments of shipbuilding contracts and refund guarantees for the vessels, assignments of time charters and earnings for the vessels, assignments of insurances for the vessels and assignments of management agreements for the vessels.

The Company may prepay certain amounts outstanding without penalty, other than breakage costs in certain circumstances. In certain circumstances a prepayment may be required as a result of certain events, including the sale or loss of a vessel, a termination or expiration of a charter (and the inability to enter into a charter suitable to lenders within a period of time). The amount that must be prepaid may be calculated based on the loan to market value. In these circumstances, valuations of our vessels are conducted on a "without charter" basis as required under the credit facility agreement.

Each credit facility, other than credit facilities of GCI's subsidiaries, contains financial covenants requiring the Company to maintain minimum liquidity, tangible net worth, interest coverage ratios, interest and principal coverage ratios, and debt-to-assets ratios, as defined. For GCI, each borrower under each facility is a special purpose entity and subsidiary of GCI. Each facility is guaranteed by GCI and as the guarantor, GCI must meet certain consolidated financial covenants under these term loan facilities including maintaining certain minimum tangible net worth, cash requirements and debt to asset ratios. Some of the facilities also have an interest and principal coverage ratio requirement for the subsidiary borrower. The Company was in compliance with these covenants at March 31, 2018.

(d) Senior notes due 2025

In February 2018, the Company issued to certain affiliates of Fairfax Financial Holdings Ltd. ("Fairfax"), in a private placement, \$250,000,000 aggregate principal of 5.50% senior notes due 2025 ("Fairfax Notes") and warrants ("Fairfax Warrants") to purchase 38,461,539 of the Company's Class A common shares for an aggregate issue price of \$250,000,000. The Fairfax Notes are guaranteed by certain of the Company's subsidiaries. The proceeds of the Fairfax Notes and Fairfax Warrants were allocated to each security on a relative fair value basis.

⁽²⁾ The Series F preferred shares can be converted to Class A common shares at a conversion price of \$18.00 per share. The Company has the right to call the Series F preferred shares at par plus any accumulated and unpaid dividends any time.

(c) Warrants:

The Fairfax Warrants entitle the holder to purchase one share of the Company's Class A common stock at an exercise price of \$6.50. Each warrant is exercisable within seven years and the exercise price of the Fairfax Warrants is subject to customary anti-dilution adjustments. The Company can elect to require early exercise of the warrants, at any time after February 14, 2022, if the volume weighted average price of the Company's Class A common shares,

averaged over a 20-day period, equals or exceeds twice the exercise price of the Fairfax Warrants at that time. The proceeds of the Fairfax Notes and Fairfax Warrants were allocated to each security on a relative fair value basis.

In January 2018, the Company granted the CEO stock options to acquire 500,000 Class A common shares at a price of \$7.20 per share. The options expire on January 8, 2028. The stock options vest equally on each of the first five anniversaries of the CEO start date in January 2018.

During the three months ended March 31, 2018, the Company amortized \$627,000 (March 31, 2017 - \$1,844,000) in compensation cost related to the above share-based compensation awards.

At March 31, 2018, there was (i) \$2,370,000 (December 31, 2017 - \$4,178,000) of total unamortized compensation costs relating to unvested share-based compensation awards, which are expected to be recognized over a weighted-average period of 22 months and (ii) 2,107,091 (December 31, 2017 - 2,952,896) shares remaining for issuance under the Company's Stock Incentive Plan, as amended.

(a) Restricted shares and phantom share units:

Class A common shares are issued on a one-for-one basis in exchange for the cancellation of vested restricted shares and phantom share units. The restricted shares generally vest over one year and the phantom share units generally vest over three years. During the three months ended March 31, 2018, the fair value of restricted shares vested was \$841,000 (March 31, 2017 - \$880,000).

As vested outstanding phantom share units are only exchanged for common shares upon written notice from the holder, the phantom share units that are exchanged for common shares may include units that vested in prior periods. At March 31, 2018, 650,334 (December 31, 2017 – 587,001) of the outstanding phantom share units were vested and available for exchange by the holder.

(b) Other share-based awards:

During the three months ended March 31, 2018, the Company incurred \$568,000 in transaction fees (March 31, 2017 – \$65,000) that were capitalized to vessels all of which were paid in Class A common shares. The number of shares issued under each of these arrangements is based on volume weighted-average share prices as defined in the underlying agreements.

17. Financial instruments:

(a) Fair value:

The carrying values of cash and cash equivalents, short-term investments, restricted cash, accounts receivable, loans to affiliate and accounts payable and accrued liabilities approximate their fair values because of their short term to maturity. As of March 31, 2018, the fair value of the Company's revolving and term loan credit facilities, excluding deferred financing fees is \$3,024,371,000 (December 31, 2017 - \$1,940,215,000) and the carrying value is \$3,124,532,000 (December 31, 2017 - \$2,050,137,000). As of March 31, 2018, the fair value of the Company's long-term obligations under capital lease, excluding deferred financing fees, is \$689,849,000 (December 31, 2017 - \$653,007,000) and the carrying value is \$684,760,000 (December 31, 2017 - \$648,840,000). The fair value of the revolving and term loan credit facilities and long-term obligations under capital lease, excluding deferred financing fees, are estimated based on expected principal repayments and interest, discounted by relevant forward rates plus a margin appropriate to the credit risk of the Company. Therefore, the Company has categorized the fair value of these financial instruments as Level 3 in the fair value hierarchy.

As of March 31, 2018, the fair value of the Company's listed senior unsecured notes is \$413,858,000 (December 31, 2017 - \$423,184,000) and the carrying value is \$417,925,000 (December 31, 2017 - \$417,925,000). The fair value of senior unsecured notes is calculated based on a quoted price that is readily and regularly available in an active market. Therefore, the Company has categorized the fair value of these financial instruments as Level 1 in the fair value hierarchy.

As of March 31, 2018, the fair value of the Fairfax Notes is \$172,470,000 (December 31, 2017 - nil) and the carrying value is \$172,470,000 (December 31, 2017 - nil).

The Company's interest rate derivative financial instruments are re-measured to fair value at the end of each reporting period. The fair values of the interest rate derivative financial instruments have been calculated by discounting the future cash flow of both the fixed rate and variable rate interest rate payments. The discount rate was derived from a yield curve created by nationally recognized financial institutions adjusted for the associated credit risk. The fair values of the interest rate derivative financial instruments are determined based on inputs that are readily available in public markets or can be derived from information available in publicly quoted markets. Therefore, the Company has categorized the fair value of these derivative financial instruments as Level 2 in the fair value hierarchy.

17. Financial instruments (continued):

(b) Interest rate derivative financial instruments:

As of March 31, 2018, the Company had the following outstanding interest rate derivatives:

Fixed per annum swapped for LIBOR	Notional amount as of March 31, 2018	Maximum amount ⁽¹⁾	Effective date	Ending date
5.87 %	594,069	594,069	August 31, 2017	November 28, 2025 ⁽²⁾

1.60 %	46,667	46,667	April 7, 2014	March 20, 2019

⁽¹⁾ Over the term of the interest rate swaps, the notional amounts increase and decrease. These amounts represent the peak notional amounts over the remaining term of the swap.

⁽²⁾ Swap counterparty has an early termination right in August 2019 which may require the Company to settle the swap early than the termination date.

⁽³⁾ Prospectively de-designated as an accounting hedge in 2008.

If interest rates remain at their current levels, the Company expects that \$32,769,000 would be settled in cash in the next 12 months on interest rate swaps maturing after March 31, 2018. The amount of the actual settlement may be different depending on the interest rate in effect at the time settlements are made.

(c) Fair value of asset and liability derivatives:

The following provides information about the Company's derivatives:

	March 31, 2018	December 31, 2017
Fair value of financial instruments asset	\$ 319	\$ —
Fair value of financial instruments liability	140,094	168,860

The following table provides information about gains and losses included in net earnings and reclassified from accumulated other comprehensive loss (“AOCL”) into earnings:

	Three months ended March 31,	
	2018	2017
Loss on derivatives recognized in net earnings:		
Change in fair value of financial instruments	\$ 19,322	\$(3,417)

- (e) In May 2018, the Company amended Section 3.1 of Article III of the Company's Restated and Amended Articles of Incorporation to increase the number of authorized Class A common shares from 200,000,000 to 400,000,000, with corresponding increases in the number of authorized common shares from 225,000,100 to 425,000,100 and in the number of authorized shares of capital stock from 375,000,100 to 575,000,100. This amendment was approved by the shareholders at the Company's annual general meeting held on April 27, 2018.

ITEM 2 — MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

We are a leading independent charter owner and manager of containerships, which we charter primarily pursuant to long-term, fixed-rate time charters with major container liner companies. As of March 31, 2018, we operated a fleet of 108 containerships and have entered into contracts for the purchase of an additional four newbuilding containerships which have scheduled delivery dates through the second quarter of 2018. All of these newbuilding containerships will commence operation under long-term, fixed-rate charters upon delivery. As of March 31, 2018, the average age of the 108 vessels in our operating fleet was approximately five years, on a TEU-weighted basis.

We primarily deploy our vessels on long-term, fixed-rate time charters to take advantage of the stable cash flow and high utilization rates that are typically associated with long-term time charters. As of March 31, 2018, the charters on the 108 vessels in our operating fleet had an average remaining term of approximately five years, on a TEU-weighted basis, excluding the effect of any charterers’ options to extend certain time charters.

Customers for our operating fleet as at March 31, 2018 were as follows:

Our primary objective is to continue to grow our business through accretive vessel acquisitions as market conditions allow. Please read “Our Fleet” for more information about our vessels and time-charter contracts. Most of our customers’ containership business revenues are derived from the shipment of goods from the Asia Pacific region, primarily China, to various overseas export markets in the United States and in Europe.

Significant Developments

Vessel Acquisitions and Deliveries

In January 2018, we accepted delivery of MSC Yashi B, an 11000 TEU vessel. This vessel was constructed at HHIC and commenced a 17-year fixed-rate bareboat charter with MSC. Upon completion of the bareboat charter period, MSC is obligated to purchase the vessels for a pre-determined amount.

In February 2018, we purchased two second-hand 2006-built geared 2500 TEU vessels and entered into fixed-rate time charters with Maersk. The time charters are for a term of four years with options up to an additional two years at increasing charter rates.

Fairfax Investments

On February 14, 2018, we issued to affiliates of Fairfax Financial Holdings Limited (collectively, “Fairfax”), in a private placement for an aggregate purchase price of \$250 million, an aggregate principal amount of our 5.50% interest bearing, debentures due 2025 (the “Fairfax Notes”), and 38,461,539 warrants, each exercisable for one share of our Class A common shares at an exercise price of \$6.50 per share. Each warrant is exercisable within seven years. We can elect to require early exercise of the warrants, at any time after February 14, 2022, if the volume weighted average price of our common shares, averaged over a 20-day period, equals or exceeds twice the exercise price of the Fairfax warrants at that time. For additional information about this private placement, please read our Reports on Form 6-K furnished to the SEC on February 15, 2018 and February 22, 2018.

On March 13, 2018, we and Fairfax entered into a subscription agreement pursuant to which we agreed to sell, and Fairfax agreed to purchase, \$250 million aggregate principal amount of 5.50% interest bearing debentures and warrants to purchase 38,461,539 Class A common shares of the Company, par value of \$0.01 per share, for an aggregate purchase price of \$250 million (the “Second Fairfax Investment”). The Second Fairfax Investment follows the prior investment by Fairfax which closed in February 2018 and is expected to close in January 2019, subject to customary closing conditions. For additional information about the Second Fairfax Investment, please read our Report on Form 6-K furnished to the SEC on March 14, 2018.

Acquisition of GCI

On March 13, 2018, we acquired the remaining 89.2% that we did not own of Greater China Intermodal Investments LLC (“GCI”) from affiliates of The Carlyle Group and the minority owners of GCI. GCI’s fleet of 18 modern containerships, including two newbuilding containerships, is comprised of 10000 TEU and 14000 TEU eco-class vessels. For additional information about the acquisition please read our Report on Form 6-K furnished to the SEC on March 14, 2018.

The aggregate purchase price of \$498.1 million includes the following:

Cash	\$ 316,680
1,986,449 of the Company's Series D preferred shares	47,158
2,154,996 of the Company's Class A common shares	13,908
Settlement of intercompany balances	56,503

Edgar Filing: Seaspan CORP - Form 6-K

Carrying value of previously held equity interest	61,891
Transaction fees	1,910
Aggregate purchase price	\$498,050

Debt Financing

In March 2018, we closed and drew on a secured credit facility for \$100.0 million at an interest rate of LIBOR plus a margin. The facility is secured by 11 previously unencumbered vessels currently owned by us.

Recent Developments

Change in Senior Management

In April 2018, David Spivak, our Chief Financial Officer (“CFO”), gave notice that he is exercising his right to terminate his employment with us effective June 29, 2018 to pursue other opportunities. Mr. Spivak will continue in his current role until May 5, 2018, after which Mr. Ryan Courson will be appointed CFO and Mr. Spivak will continue with us as Special Advisor to the President and Chief Executive Officer through the end of June.

In April 2018, Mark Chu, our Chief Operating Officer, General Counsel and Corporate Secretary gave notice that he plans to terminate employment with us effective August 31, 2018 to pursue other opportunities. Mr. Chu will remain in his current roles until successors are appointed, and will continue with us through to the end of August to help facilitate a seamless transition.

Amendment to Restated and Amended Articles of Incorporation

At our April 27, 2018 annual general meeting shareholders approved a resolution to amend our articles of incorporation to increase the number of authorized Class A common shares from 200,000,000 to 400,000,000, with corresponding increases in the number of authorized common shares from 225,000,100 to 425,000,100 and in the number of authorized shares of capital stock from 375,000,100 to 575,000,100.

Amendment to Bylaws

On February 22, 2018, our Board of Directors approved an amendment to Section 4.2 of our bylaws to revise the structure of the standing committees of the Board of Directors, such amendment to be effective April 27, 2018 (the “Bylaw Amendment”). Pursuant to the Bylaw Amendment, the Board of Directors shall have the following standing committees: Audit Committee, Compensation and Governance Committee and Executive Committee.

Vessel Financing

In April 2018, we entered into a secured term loan facility for up to \$120.0 million to finance two 10000 TEU vessels which are scheduled to be delivered in the second quarter of 2018. The loan bears interest at LIBOR plus a margin.

Dividends

On April 11, 2018, our board of directors declared the following quarterly cash dividends on our common and preferred shares for a total distribution of \$35.4 million. The annual rate of the Series F preferred shares dividend increased to 10.5% on January 1, 2018:

⁽¹⁾This vessel is leased pursuant to a lease agreement, which we used to finance the acquisition of the vessel.

⁽²⁾Hapag-Lloyd extended their initial charter for an additional period for a minimum of 10 months up to a maximum of 12 months.

⁽³⁾ Given that the term of the charter is less than three years (excluding any charterers' option to extend the term), this vessel is being chartered at current market rates.

⁽⁴⁾MOL has an initial charter of eight years with a charter rate of \$37,500 per day for the initial term and \$43,000 per day during the two-year option.

⁽⁵⁾ Maersk has an initial charter of five years with a charter rate of \$37,150 per day for the initial term, \$39,250 per day for the first one-year option and \$41,250 per day for the second one-year option.

⁽⁶⁾ This vessel commenced a short-term charter with Ocean Network Express Pte. Ltd in April 2018 at market rates for a minimum of two months up to a maximum of 2.5 months, where the exact period is at Ocean Network Express Pte. Ltd's option.

⁽⁷⁾ CSCL Asia has a charter of 12 years with a charter rate of \$34,000 per day for the first six years, increasing to \$34,500 per day for the second six years.

⁽⁸⁾ COSCON has an initial charter of 12 years with a charter rate of \$42,900 per day for the initial term and \$43,400 per day for the three one-year options.

⁽⁹⁾ K-Line has an initial charter of 12 years with a charter rate of \$34,250 per day for the first six years, increasing to \$34,500 per day for the second six years, \$37,500 per day for the first three-year option period and \$42,500 per day for the second three-year option period.

⁽¹⁰⁾ CSCL Asia has a charter of 12 years with a charter rate of \$16,750 per day for the first six years, increasing to \$16,900 per day for the second six years.

⁽¹¹⁾Maersk has an initial charter rate of \$8,800 per day and increases to \$9,500 per day for the fourth year. The rate for the option period is \$10,650 per day.

New Vessel Contracts

Our primary objective is to continue to grow our business through accretive vessel acquisitions as market conditions allow.

As of March 31, 2018, we had contracted to purchase four newbuilding containerships which have scheduled delivery dates through to the second quarter of 2018. Details of the newbuilding containerships are as follows:

Vessel	Class	TEU	Length of Charter ⁽¹⁾	Charterer	Scheduled Delivery Date	Shipbuilder
CMA CGM Mundra	10000	3 years + option for up to 3 years	CMA CGM	2018	New Jiangsu and Jiangsu Xinfu	
CMA CGM Mumbai	10000	3 years + option for up to 3 years	CMA CGM	2018	New Jiangsu and Jiangsu Xinfu	
CMA CGM Cochin	10000	3 years + option for up to 3 years	CMA CGM	2018	New Jiangsu and Jiangsu Xinfu	
CMA CGM Chennai	10000	3 years + option for up to 3 years	CMA CGM	2018	New Jiangsu and Jiangsu Xinfu	

⁽¹⁾Each charter is scheduled to begin upon delivery of the vessel to the charterer.

The following table indicates the estimated number of owned, leased and managed vessels in our fleet based on scheduled delivery dates as of March 31, 2018:

	Quarter Ended March 31, 2018	Scheduled for the Year Ended December 31, 2018
Owned and leased vessels, beginning of year	89	89
Deliveries ⁽¹⁾	3	7
Acquired ⁽¹⁾	16	16
Total Fleet	108	112
Total Capacity (TEU)	865,900	905,900

⁽¹⁾Our acquisition of GCI on March 13, 2018 included 16 operating vessels and two vessels under construction.

Quarter Ended March 31, 2018 Compared with Quarter Ended March 31, 2017

The following is a discussion of our financial condition and results of operations for the quarter ended March 31, 2018. The following provides information about our fleet as of March 31, 2018:

Number of vessels in operation	108
Average age of fleet (TEU-weighted basis)	5 years
TEU capacity	865,900
Average remaining initial term on outstanding charters (TEU-weighted basis)	5 years

At the beginning of 2018, we had 89 vessels in operation. We purchased two 2500 TEU vessels, accepted delivery of one 11000 TEU vessel and acquired six 14000 TEU vessels and ten 10000 TEU vessels as part of the GCI acquisition during the three months ended March 31, 2018, bringing our fleet to a total of 108 vessels in operation as at March 31, 2018. Revenue is determined primarily by the number of operating days, and ship operating expense is determined primarily by the number of ownership days.

	Quarter Ended		Increase	
	March 31, 2018	2017	Days	%
Operating days ⁽¹⁾	7,777	7,255	522	7.2%
Ownership days ⁽¹⁾	8,030	7,917	113	1.4%

Our vessel utilization for the quarters ended March 31, 2018 and 2017 is as follows:

	First Quarter	
	2018	2017
Vessel utilization:		
Ownership Days ⁽¹⁾	8,030	7,917
Less Off-hire Days:		
Scheduled Off-hire	(104)	—
Unscheduled Off-hire ⁽²⁾	(149)	(662)
Operating Days ⁽¹⁾	7,777	7,255
Vessel Utilization	96.8 %	91.6 %

⁽¹⁾Operating and ownership days include leased vessels and exclude vessels under bareboat charter.

⁽²⁾Unscheduled off-hire includes days related to vessels off-charter.

Our consolidated financial results for the quarters ended March 31, 2018 and 2017 are summarized below:

Financial Summary	Quarter Ended	
	March 31, 2018	2017
(in millions of US dollars)		
Revenue	\$224.8	\$201.3
Ship operating expense	49.5	45.6
Depreciation and amortization expense	53.9	49.9
General and administrative expense	7.3	7.5
Operating lease expense	31.2	26.5
Interest expense and amortization of deferred		
financing fees	39.0	28.5
Change in fair value of financial		
instruments	(19.3)	3.4

Revenue

Revenue increased by 11.7% to \$224.8 million for the quarter ended March 31, 2018, compared to the same period in 2017, primarily due to the addition of 16 operating vessels from the acquisition of GCI on March 13, 2018, interest income from leasing five bareboat charter vessels to MSC, and the impact of the delivery of one 14000 TEU vessel in 2017. These increases were partially offset by a decrease in revenue due to the sale of four 4250 TEU vessels in 2017.

The increase in operating days and the related financial impact thereof for the quarter ended March 31, 2018, relative to the same period in 2017, is attributable to the following:

	Quarter Ended	
	March 31, 2018	
	\$ Impact	
	Operating	Impact
	Days	of US
	Impact (in millions of US dollars)	
2018 vessel deliveries	92	\$ 0.8
Full period contribution for 2017 vessel delivery	90	4.1
Addition of vessels from acquisition of GCI	288	9.8
Changes in daily charter hire rates and re-charters	—	(0.7)
Unscheduled off-hire	513	4.2
Scheduled off-hire	(104)	(1.8)
Vessel disposals	(357)	(0.5)
Interest income from leasing	—	8.8
Other	—	(1.2)
Total	522	\$ 23.5

Vessel utilization increased for the quarter ended March 31, 2018, compared to the same period in 2017, primarily due to fewer unscheduled off-hire days.

During the quarter ended March 31, 2018, Seaspan completed dry-dockings for five 2500 TEU vessels, one 3500 TEU vessel and one 4250 TEU vessel, one of which occurred while the vessel was off-charter.

Ship Operating Expense

Ship operating expense increased by 8.6% to \$49.5 million for the quarter ended March 31, 2018, compared to the same period in 2017, primarily due to an increase in ownership days from vessel deliveries and acquisitions and higher spending on spares and repairs from planned maintenance of vessels less than 8500 TEU in size.

Depreciation and Amortization Expense

Depreciation and amortization expense increased by 8.0% to \$53.9 million for the quarter ended March 31, 2018, compared to the same period in 2017, primarily due to the addition of vessels from the GCI acquisition and an increase in the number of vessels which dry-docked during the quarter.

General and Administrative Expense

General and administrative expense decreased by 2.9% to \$7.3 million for the quarter ended March 31, 2018, compared to the same period in 2017, primarily due to lower share-based compensation expense.

Operating Lease Expense

Operating lease expense increased by 17.7% to \$31.2 million for the quarter ended March 31, 2018, compared to the same period in 2017, primarily due to the delivery of one vessel in 2017 that was financed through a sale-leaseback transaction and an increase in LIBOR.

Interest Expense and Amortization of Deferred Financing Fees

The following table summarizes our borrowings:

(in millions of US dollars)	March 31,	
	2018	2017
Long-term debt, excluding deferred financing fees	\$3,714.9	\$2,807.4
Long-term obligations under capital lease, excluding deferred financing fees	684.8	492.4
Total borrowings	4,399.7	3,299.8
Less: Vessels under construction	(80.6)	(310.4)
Operating borrowings	\$4,319.1	\$2,989.4

Interest expense and amortization of deferred financing fees increased by \$10.5 million to \$39.0 million for the quarter ended March 31, 2018, compared to the same period in 2017, primarily due to the borrowings related to the delivery of five 11000 TEU vessels on bareboat charters, debt assumed as part of the acquisition of GCI, an increase in LIBOR, and additional interest from the debentures issued to Fairfax.

Change in Fair Value of Financial Instruments

The change in fair value of financial instruments resulted in a gain of \$19.3 million for the quarter ended March 31, 2018 and was primarily due to an increase in the forward LIBOR curve.

The fair value of interest rate swaps is subject to change based on our company-specific credit risk and that of the counterparty included in the discount factor and the interest rate implied by the current swap curve, including its relative steepness. In determining the fair value, these factors are based on current information available to us. These factors are expected to change through the life of the instruments, causing the fair value to fluctuate significantly due to the large notional amounts and long-term nature of our derivative instruments. As these factors may change, the fair value of the instruments is an estimate and may deviate significantly from the actual cash settlements realized during the term of the instruments. Our valuation techniques have not changed and remain consistent with those followed by other valuation practitioners.

The fair value of our interest rate swaps is most significantly impacted by changes in the yield curve. Based on the current notional amount and tenor of our interest rate swap portfolio, a one percent parallel shift in the overall yield curve would be expected to result in a change in the fair value of our interest rate swaps by approximately \$46.0 million. Actual changes in the yield curve are not expected to occur equally at all points and changes to the curve may be isolated to periods of time. This steepening or flattening of the yield curve may result in greater or lesser changes to the fair value of our financial instruments in a particular period than would occur had the entire yield curve changed equally at all points.

The fair value of our interest rate swaps is also impacted by changes in our company-specific credit risk included in the discount factor. We discount our derivative instruments with reference to publicly-traded bond yields for our comparator group in the shipping industry and composite Bloomberg industry yield curves. Based on the current notional amount and tenor of our swap portfolio, a one percent change in the discount factor is expected to result in a change in the fair value of our interest rate swaps of approximately \$4.0 million.

All of our interest rate swap agreements were marked-to-market with all changes in the fair value of these instruments recorded in “Change in fair value of financial instruments” in the Statement of Operations.

Please read “Item 11. Quantitative and Qualitative Disclosures About Market Risk” in our 2017 Annual Report for additional information.

Unencumbered Assets

Seaspan currently has 12 unencumbered vessels in its operating fleet, consisting of two 2500 TEU, two 3500 TEU, six 4250 TEU and two 9600 TEU vessels.

Liquidity and Capital Resources

Liquidity

At March 31, 2018, our cash and cash equivalents and short-term investments totaled \$333.2 million and our restricted cash totaled \$14.1 million. Our primary short-term liquidity needs are to fund our operating expenses, debt repayments, lease payments, payment of our quarterly dividends, the purchase of the containerships we have contracted to build and repayment of our 6.375% senior unsecured notes due 2019 (“2019 Notes”). Our medium-term liquidity needs primarily relate to debt repayments and lease payments and the redemption of the puttable preferred shares. Our long-term liquidity needs primarily relate to potential future acquisitions, lease payments, debt repayments including repayment of our 7.125% senior unsecured notes due 2027 (“2027 Notes”) and the Fairfax Notes, and the future potential redemption of our Series D, Series E, Series F, Series G and Series H preferred shares.

Our Series D preferred shares have an annual dividend rate of 7.95% per \$25.00 of liquidation preference per share and our Series D preferred shares are redeemable by us at any time on or after January 30, 2018. Our Series E preferred shares have an annual dividend rate of 8.25% per \$25.00 of liquidation preference per share and our Series E preferred shares are redeemable by us at any time on or after February 13, 2019. Our Series F preferred shares have an annual dividend rate of 10.5% per \$25.00 of liquidation preference per share. Our Series G preferred shares have an annual dividend rate of 8.20% per \$25.00 of liquidation preference per share and our Series G preferred shares are redeemable by us at any time on or after June 16, 2021. Our Series H preferred shares have an annual dividend rate of 7.875% per \$25.00 of liquidation preference per share and our Series H preferred shares are redeemable by us at any time on or after August 11, 2021.

We anticipate that our primary sources of funds for our short and medium-term liquidity needs, which include funding the estimated remaining installments of approximately \$281.2 million on the four vessels we have contracted to purchase, will be cash, cash from operations, committed and new credit and lease facilities and capital markets financings. We anticipate our long-term sources of funds will be from cash from operations, credit and lease facilities and capital markets financings.

- (2) On March 13, 2018, we and the Fairfax Investors entered into a subscription agreement where the Fairfax Investors agreed to purchase \$250.0 million aggregate principal amount of 5.50% debentures and warrants to purchase 38,461,539 Class A common shares. This transaction is expected to close in January 2019.
- (3) At March 31, 2018 our operating borrowings were approximately \$4.3 billion (December 31, 2017 — \$3.0 billion). The remaining amount of our borrowings relate to the construction of newbuilding vessels.

Our Long-Term Debt

As of March 31, 2018, our revolving credit facilities, term loan credit facilities, our 2019 Notes, our 2027 Notes, and our Fairfax Notes provided for borrowings of up to approximately \$3.8 billion, of which approximately \$3.7 billion was outstanding and \$0.1 billion was available to be drawn by us. We primarily use our credit facilities to finance the construction and acquisition of vessels.

Revolving Credit Facilities

In February 2018, we cancelled our \$120.0 million 364-day, unsecured revolving loan facility which had not been drawn.

Interest payments on our revolving credit facilities are based on LIBOR plus margins, which ranged between 0.5% and 0.9% as of March 31, 2018.

Term Loan Credit Facilities

As part of the acquisition of GCI on March 13, 2018, we assumed long-term debt which was recorded at its fair value of \$1.0 billion. The assumed long-term debt consists primarily of 12 term loan credit facilities to finance the 16 operating vessels.

In March 2018, we entered into a secured term loan facility for \$100.0 million which bears interest at LIBOR plus a margin. The facility is secured by 11 previously unencumbered vessels currently owned by us.

Interest payments on our term loan credit facilities are based on either LIBOR plus margins, which ranged between 0.4% and 4.8% as of March 31, 2018. For a portion of one of our term loans, interest is calculated based on the reference rate of KEXIM plus a margin, which was 0.7% as of March 31, 2018. For one of our unsecured term loan facilities, interest is a fixed rate of 7.0%.

Waivers

For one of the our term loan credit facilities, we initially obtained a waiver from the lender extending the grace period for securing acceptable replacement charters for two vessels to the fourth quarter of 2017. In September 2017, we received another waiver from the lender which extends the grace period for securing replacement charters to October 2020. If either of the vessels remains unemployed for a consecutive period of more than 90 days, then the waiver will be terminated. For four GCI vessels financed by the same lender, a similar waiver was received by GCI.

For another one of the our term loan credit facilities, we entered into a supplement to the loan agreement with the lender for one vessel, extending the grace period for securing an acceptable replacement charter for the vessel to the fourth quarter of 2018. In March 2018, we entered into another supplement to the loan agreement with the lender to remove the requirement to secure an acceptable replacement charter by the fourth quarter of 2018. In connection with this supplement to the loan agreement we prepaid \$10.0 million of the loan balance in March 2018. The final maturity

of this facility is December 2022.

General

As of March 31, 2018, our credit facilities are, or will be upon vessel delivery, secured by first-priority mortgages granted on 74 of our vessels, together with other related security, such as assignments of shipbuilding contracts and refund guarantees for the vessels, assignments of time charters and earnings for the vessels, assignments of insurances for the vessels and assignments of management agreements for the vessels.

We may prepay certain amounts outstanding without penalty, other than breakage costs in certain circumstances. In certain circumstances a prepayment may be required as a result of certain events, including the sale or loss of a vessel, a termination or expiration of a charter (and the inability to enter into a charter suitable to lenders within a period of time). The amount that must be prepaid may be calculated based on the loan to market value. In these circumstances, valuations of our vessels are conducted on a “without charter” basis as required under the credit facility agreement.

Each credit facility, other than credit facilities of GCI’s subsidiaries, contains financial covenants requiring the Company to maintain minimum liquidity, tangible net worth, interest coverage ratios, interest and principal coverage ratios, and debt-to-assets ratios, as defined. For GCI, each borrower under each facility is a special purpose entity and subsidiary of GCI. Each facility is guaranteed by GCI and as the guarantor, GCI must meet certain consolidated financial covenants under these term loan facilities including maintaining certain minimum tangible net worth, cash requirements and debt to asset ratios. Some of the facilities also have an interest and principal coverage ratio requirement for the subsidiary borrower. We were in compliance with these covenants at March 31, 2018.

Our Notes

Our 2019 Notes mature on April 30, 2019 and bear interest at a fixed rate of 6.375% per year, payable quarterly in arrears. Our 2027 Notes mature on October 30, 2027 and bear interest at a fixed rate of 7.125% per year, payable quarterly in arrears. Our 2027 Notes are callable at par plus accrued and unpaid interest, if any, any time after October 10, 2020. Our Fairfax Notes, issued in February 2018, mature on February 14, 2025 and bear interest at a fixed rate of 5.50% per year, payable quarterly in arrears. Our Fairfax Notes are guaranteed by certain of our subsidiaries. In the event of certain changes in withholding taxes, at our option, we may redeem our 2019 Notes, 2027 Notes and/or our Fairfax Notes, in each case in whole, but not in part, at a redemption price equal to 100% of the outstanding principal amount, plus accrued and unpaid interest, if any. Upon the occurrence of a Change of Control (as defined in the applicable Notes), each holder of such Notes will have the right to require the Company to purchase all or a portion of such holder’s Notes at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to but excluding the date of purchase. On or after February 14, 2023, we may, at our option at any time, redeem all or any portion of the Fairfax Notes. The redemption price will equal 100% of the principal amount of the Fairfax Notes being redeemed, plus accrued and unpaid interest, if any, to the redemption date and any certain additional amounts.

Our Lease Facilities

We use our lease facilities to finance the construction and acquisition of vessels. Our lease facilities, which do not include our operating leases, are provided by bank financial leasing owners who own or will own our 10 leased vessels. These banks are also granted other related security, such as assignments of time charters and earnings for the vessels, assignments of insurances for the vessels and assignments of management agreements for the vessels.

As of March 31, 2018, our lease facilities provided for borrowings of approximately \$684.8 million. Under our lease agreements, we may voluntarily terminate a lease agreement, subject to payment of a termination fee in certain circumstances. We are also required to prepay rental amounts, broken funding costs and other costs to the lessor in certain circumstances, such as a termination or expiry of a charter (where we do not enter into a charter suitable to the lessors within a required period of time). If we default under our lease facilities, our lessors could declare all outstanding amounts to be immediately due and payable and realize on the security granted under the lease facilities.

For additional information about our credit and lease facilities, including, among other things, a description of certain related covenants, please read “Item 5. Operating and Financial Review and Prospects—C. Liquidity and Capital Resources” in our 2017 Annual Report.

Cash Flows

The following table summarizes our sources and uses of cash for the periods presented:

(in thousands of US dollars)	Quarter Ended	
	March 31, 2018	2017
Net cash flows from operating activities	\$69,560	\$76,918
Net cash flows from financing activities	291,318	(133,831)
Net cash flows used in investing activities	(280,898)	(9,133)

Operating Cash Flows

Net cash flows from operating activities were \$69.6 million for the three months ended March 31, 2018, a decrease of \$7.4 million compared to the same period in 2017. The decrease in net cash flows from operating activities for the quarter ended March 31, 2018, compared to the same period in 2017, was primarily due to a decrease in cash related to changes in working capital of \$15.2 million, partially offset by an increase in net earnings excluding non-cash items of \$7.8 million. The decrease in cash related to changes in working capital resulted primarily from non-cash timing differences, which are in the normal course of our operations. The increase in net earnings excluding non-cash items was primarily due to an increase in revenue, partially offset by a change in fair value of interest rate swaps. For further discussion of changes in revenue and expenses, please read “ Quarter Ended March 31, 2018 Compared with Quarter Ended March 31, 2017”.

Financing Cash Flows

Net cash flows from financing activities were \$291.3 million for the three months ended March 31, 2018, an increase of \$425.1 million in cash from financing activities, compared to the same period in 2017. The increase in cash from financing activities for the quarter ended March 31, 2018, compared to the same period of 2017, was primarily due to the issuance of Fairfax notes and warrants, draws on credit facilities, increases in long-term obligations on capital lease, lower repayments of long-term debt and lower dividends on common shares. These increases were partially offset by a decrease in common shares issued and an increase in financing fees.

Investing Cash Flows

Net cash flows used in investing activities were \$280.9 million for the three months ended March 31, 2018, an increase in cash used of \$271.8 million, compared to the same period in 2017. The increase in cash used for the three months ended March 31, 2018 was primarily due to the acquisition of GCI and an increase in expenditure for vessels.

Ongoing Capital Expenditures and Dividends

Ongoing Capital Expenditures

The average age of the vessels in our operating fleet is approximately five years, on a TEU-weighted basis. Capital expenditures primarily relate to our regularly scheduled dry-dockings. During the quarter ended March 31, 2018 we completed seven dry-dockings, respectively. For the remainder of 2018, we expect up to four vessels to undergo their dry-docking.

We must make substantial capital expenditures over the long-term to preserve our capital base, which is comprised of our net assets, in order to continue to refinance our indebtedness and to maintain our dividends. We will likely need to retain additional funds at some time in the future to provide reasonable assurance of maintaining our capital base over the long-term. We believe it is not possible to determine now, with any reasonable degree of certainty, how much of our operating cash flow we should retain in our business and when it should be retained to preserve our capital base. Factors that will impact our decisions regarding the amount of funds to be retained in our business to preserve our capital base, include the following:

- the remaining lives of our vessels;
- the returns that we generate on our retained cash flow, which will depend on the economic terms of any future acquisitions and charters, which are currently unknown;
- future market charter rates for our vessels, particularly when they come off-charter, which are currently unknown;
- our future operating and interest costs;
- future operating and financing costs, which are unknown, and our use of foreign currency contracts and interest rate swaps to manage certain currency and interest rate risks;
- our future refinancing requirements and alternatives and conditions in the relevant financing and capital markets at that time;
- capital expenditures to comply with environmental regulations; and
- unanticipated future events and other contingencies.

Please read “Item 3. Key Information—D. Risk Factors” in our 2017 Annual Report for factors that may affect our future capital expenditures and results.

Dividends

The following table reflects dividends paid or accrued by us for the periods indicated:

(in thousands of US dollars, except per share amounts)	Quarter Ended	
	March 31, 2018	2017
Dividends on Class A common shares		
Declared, per share	\$0.1250	\$0.3750
Paid in cash	9,326	39,278
Reinvested in common shares through a dividend reinvestment plan	7,164	417
	\$16,490	\$39,695
Dividends on preferred shares (paid in cash)		
Series D	\$2,500	\$2,475
Series E	\$2,793	\$2,769
Series F	\$2,833	\$2,433
Series G	\$3,998	\$3,998
Series H	\$4,442	\$4,430

On April 11, 2018, our board of directors declared the cash dividends on our common and preferred shares indicated above under “Recent Developments—Dividends”.

Critical Accounting Estimates

We prepare our consolidated financial statements in accordance with U.S. GAAP, which requires us to make estimates in the application of our accounting policies based on our best assumptions, judgments and opinions. Our estimates affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosures. We base our estimates on historical experience and anticipated results and trends and on various other assumptions that we believe are reasonable under the circumstances. However, because future events and their effects cannot be determined with certainty, actual results could differ from our assumptions and estimates, and such differences could be material. For more information about our critical accounting estimates, please read “Item 5. Operating and Financial Review and Prospects—D. Critical Accounting Policies and Estimates” in our 2017 Annual Report.

Recent Accounting Developments

Leases

In February 2016, the Financial Accounting Standards Board, or FASB, issued Accounting Standards Update, or ASU, 2016-02, “Leases”, which requires lessees to recognize all leases, including operating leases, with a term greater than 12 months on the balance sheet, for the rights and obligations created by those leases. The accounting for lessors will remain largely unchanged from the existing accounting standards. The standard is effective for fiscal years beginning after December 31, 2018, including interim periods within those fiscal years.

Under ASU 2016-02, each lease agreement will be evaluated to identify the lease components and non-lease components at lease inception. The total consideration in the lease agreement will be allocated to the lease and non-lease components based on their relative standalone selling prices. Lessors will continue to recognize the lease revenue component using an approach that is substantially equivalent to existing guidance for operating leases (straight-line basis). Sale-type and direct financing leases will be accounted for as financing transactions with the lease payments being allocated to principal and interest utilizing the effective interest rate method.

In March 2018, the FASB approved amendments to ASU 2016-02 that would allow lessors to elect, as a practical expedient, to not separate lease and non-lease components and allow these components to be accounted for as a single lease component if both (i) the timing and pattern of transfer to the lessee of the lease component and the related non-lease component are the same and (ii) the lease component, if accounted for separately, would be classified as an operating lease. In addition, a company is permitted to use its effective date as the date of initial application. Therefore, a company electing this option will not restate comparative period financial information, will not make the new required lease disclosures in comparative periods beginning before the effective date and will recognize its cumulative effect transition adjustment as of the effective date. Under the practical expedient mentioned above, it is expected that time charter revenue and service revenue will be presented under a single lease component presentation.

Off-Balance Sheet Arrangements

At March 31, 2018, we had no off-balance sheet arrangements that have or are reasonably likely to have, a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

FORWARD-LOOKING STATEMENTS

This Report on Form 6-K for the quarter ended March 31, 2018, contains forward-looking statements (as such term is defined in Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act) concerning our operations, cash flows, and financial position, including, in particular, the likelihood of our success in developing and expanding our business. Statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “continue,” “expects,” “anticipates,” “intends,” “plans,” “believes,” “estimates,” “projects,” “forecasts,” “will,” “may,” “potential,” “should” and similar expressions are forward looking statements. These forward-looking statements represent our estimates and assumptions only as of the date of this Report and are not intended to give any assurance as to future results. As a result, you are cautioned not to rely on any forward-looking statements. Forward-looking statements appear in a number of places in this Report. Although these statements are based upon assumptions we believe to be reasonable based upon available information, they are subject to risks and uncertainties. These risks and uncertainties include, but are not limited to:

- future growth prospects and ability to expand our business;
- our expectations as to impairments of our vessels, including the timing and amount of currently anticipated impairments;
- the future valuation of our vessels and goodwill;
- potential acquisitions, vessel financing arrangements and other investments, and our expected risks and benefits from such transactions;
- future time charters and vessel deliveries, including future long-term charters for certain existing vessels;
- estimated future capital expenditures needed to preserve the operating capacity of our fleet including, our capital base, and comply with regulatory standards, our expectations regarding future dry-docking and operating expenses, including ship operating expense and general and administrative expenses;
- our expectations about the availability of vessels to purchase, the time that it may take to construct new vessels, the delivery dates of new vessels, the commencement of service of new vessels under long-term time charter contracts and the useful lives of our vessels;
- availability of crew, number of off-hire days and dry-docking requirements;
- general market conditions and shipping market trends, including charter rates, increased technological innovation in competing vessels and other factors affecting supply and demand;
- our financial condition and liquidity, including our ability to borrow and repay funds under our credit facilities, to refinance our existing facilities and to obtain additional financing in the future to fund capital expenditures, acquisitions and other general corporate activities;
- our continued ability to maintain, enter into or renew primarily long-term, fixed-rate time charters with our existing customers or new customers, including, among other vessels, four of our 10000 TEU newbuilding containerships;
- the potential for early termination of long-term contracts and our potential inability to enter into, renew or replace long-term contracts;
- the introduction of new accounting rules for leasing and exposure to currency exchange rates and interest rate fluctuations;
- conditions inherent in the operation of ocean-going vessels, including acts of piracy;
- acts of terrorism or government requisition our containership during periods of war or emergency;
- adequacy of our insurance to cover losses that result from the inherent operational risks of the shipping industry;
- lack of diversity in our operations and in the type of vessels in our fleet;
- conditions in the public equity market and the price of our shares;
- our ability to leverage to our advantage our relationships and reputation in the containership industry;

- compliance with and changes in governmental rules and regulations or actions taken by regulatory authorities, and the effect of governmental regulations on our business;
- the financial condition of our customers, lenders, refund guarantors and other counterparties and their ability to perform their obligations under their agreements with us;
- our continued ability to meet specified restrictive covenants and other conditions in our financing and lease arrangements, our Notes and our preferred shares;
- any economic downturn in the global financial markets and export trade and increase in trade protectionism and potential negative effects of any recurrence of such disruptions on our customers' ability to charter our vessels and pay for our services;
- the recent departure of our former chief executive officer, the upcoming departures of our current chief financial officer and our current general counsel, secretary and chief operating officer and the ability to retain key employees in the future;
- some of our directors and investors may have separate interests which may conflict with those of our shareholders and they may be difficult to replace given the anti-takeover provisions in our organizational documents;
- taxation of our company and of distributions to our shareholders;
- our exemption from tax on our U.S. source international transportation income;
- the ability to bring claims in China and Marshall Island, where the legal systems are not well-developed;
- potential liability from future litigation and; and
- other factors detailed in this Report and from time to time in our periodic reports.

Forward-looking statements in this Report are estimates and assumptions reflecting the judgment of senior management and involve known and unknown risks and uncertainties. These forward-looking statements are based upon a number of assumptions and estimates that are inherently subject to significant uncertainties and contingencies, many of which are beyond our control. Actual results may differ materially from those expressed or implied by such forward-looking statements. Accordingly, these forward-looking statements should be considered in light of various important factors listed above and including, but not limited to, those set forth in "Item 3. Key Information—D. Risk Factors" in our 2017 Annual Report and in the "Risk Factors" in Report on Form 6-K filed on April 13, 2018.

We do not intend to revise any forward-looking statements in order to reflect any change in our expectations or events or circumstances that may subsequently arise. We expressly disclaim any obligation to update or revise any of these forward-looking statements, whether because of future events, new information, a change in our views or expectations, or otherwise. You should carefully review and consider the various disclosures included in this Annual Report and in our other filings made with the Securities and Exchange Commission, or the SEC, that attempt to advise interested parties of the risks and factors that may affect our business, prospects and results of operations.

ITEM 3 — QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk from changes in interest rates and foreign currency fluctuations. We use interest rate swaps to manage interest rate price risks and we have entered into foreign currency forward contracts to manage foreign currency fluctuations. We do not use these financial instruments for trading or speculative purposes.

Interest Rate Risk

As of March 31, 2018, our variable-rate credit facilities totaled \$3.0 billion, of which we had entered into interest rate swap agreements to fix the rates on a notional principal amount of \$1.3 billion. These interest rate swaps have a fair value of \$140.1 million in the counterparties' favor and \$0.3 million in our favor.

The tables below provide information about our financial instruments at March 31, 2018 that are sensitive to changes in interest rates. In addition to the disclosures in this interim report, please read notes 10 and 11 to our consolidated financial statements included in our 2017 Annual Report, which provide additional information with respect to our existing credit and lease facilities.

Operating Leases ⁽³⁾	116,628	153,996	154,002	154,216	148,196	652,089

⁽¹⁾Represents principal payments on amounts drawn on our credit facilities that bear interest at variable rates. We have entered into interest rate swap agreements under certain of our credit facilities to swap the variable interest rates for fixed interest rates. For the purposes of this table, principal payments are determined based on contractual repayments in commitment reduction schedules for each related facility.

⁽²⁾Represents payments, excluding amounts representing interest payments, on amounts drawn on our lease facilities that bear interest at variable rates.

⁽³⁾Represents payments under our operating leases for certain vessels that we have entered into sale-leaseback transactions where the lease term commenced upon delivery of the vessels. Payments under the operating leases have a variable component based on underlying interest rates.

As of March 31, 2018, we had the following interest rate swaps outstanding:

⁽²⁾ Swap counterparty has an early termination right in August 2019 which may require us to settle the swap early at the early termination date.

⁽³⁾ Prospectively de-designated as an accounting hedge in 2008.

Counterparties to these financial instruments may expose us to credit-related losses in the event of non-performance. As of March 31, 2018, these financial instruments are primarily in the counterparties' favor. We have

considered and reflected the risk of non-performance by us and our counterparties in the fair value of our financial instruments as of March 31, 2018. As part of our consideration of non-performance risk, we perform evaluations of our counterparties for credit risk through ongoing monitoring of their financial health and risk profiles to identify funding risk or changes in their credit ratings.

Counterparties to these agreements are major financial institutions, and we consider the risk of loss due to non-performance to be minimal. We do not require collateral from these institutions. We do not hold and will not issue interest rate swaps for trading purposes.

PART II — OTHER INFORMATION

Item 1 — Legal Proceedings

None.

Item 1A — Risk Factors

Our substantial debt levels and vessel lease obligations may limit our flexibility in obtaining additional financing and in pursuing other business opportunities.

As of March 31, 2018, we had approximately \$3.8 billion in aggregate principal amount of debt outstanding under our credit facilities, our 6.375% senior unsecured notes due 2019, our 7.125% senior unsecured notes due 2027 and our 5.50% senior notes due 2025 (collectively, our “Notes”), and capital lease obligations of approximately \$684.8 million.

On March 13, 2018, we also entered into a subscription agreement with Odyssey Reinsurance Company, Allied World Assurance Company, Ltd., Northbridge General Insurance Corporation, United States Fire Insurance Company, Zenith Insurance Company and Riverstone Insurance Limited (collectively, the “Fairfax Investors”) for an additional investment of \$250 million in our 5.50% senior notes due 2026 to be issued in January 2019 in a private placement with the Fairfax Investors.

Our level of debt and vessel lease obligations could have important consequences to us, including the following:

- our ability to obtain additional financing, if necessary, for working capital, capital expenditures, acquisitions or other purposes may be impaired or such financing may not be available on favorable terms, or at all;
- we may need to use a substantial portion of our cash from operations to make principal and interest payments on our debt or make our lease payments, reducing the funds that would otherwise be available for operation and future business opportunities;
- our debt level could make us more vulnerable to competitive pressures, a downturn in our business or the economy generally than our competitors with less debt; and
- our debt level may limit our flexibility in responding to changing business and economic conditions.

Our ability to service our debt and vessel lease obligations will depend upon, among other things, our financial and operating performance, which will be affected by prevailing economic conditions and financial, business, regulatory and other factors, some of which are beyond our control. If our results of operations are not sufficient to service our current or future indebtedness and vessel lease obligations, we will be forced to take actions such as reducing or delaying our business activities, acquisitions, investments or capital expenditures, selling assets, restructuring or refinancing our debt, or seeking additional equity capital or bankruptcy protection. We may not be able to effect any of these remedies on satisfactory terms, or at all.

We may not be able to timely repay or be able to refinance amounts incurred under our credit facilities, Notes and capital and operating lease arrangements.

We have financed a substantial portion of our fleet and acquisitions with indebtedness incurred under our existing credit facilities, Notes and capital and operating lease arrangements. We have significant normal course payment obligations under our credit facilities, our Notes and capital and vessel operating lease arrangements, both prior to and at maturity, including as of March 31, 2018 and including the assumption of debt in connection with the acquisition of GCI, approximately \$432.9 million in 2018 and an additional \$5.2 billion through 2027. In addition, under our credit facilities and capital and operating lease arrangements, a payment may be required in certain circumstances as a result of events such as the sale or loss of a vessel, a termination or expiration of a charter (where we do not enter into a

replacement charter acceptable to the lenders within a required period of time) or termination of a shipbuilding contract. The amount that must be paid may be calculated based on the loan to market value ratio or some other ratio that takes into account the market value of the relevant vessel (with the repayment amount

increasing if vessel values decrease), or may be the entire amount of the financing in regard to a credit facility or a pre-determined termination sum in the case of a capital or operating lease.

If we are not able to refinance outstanding amounts at an interest rate or on terms acceptable to us, or at all, we will have to dedicate a significant portion of our cash flow from operations to repay such amounts, which could reduce our ability to satisfy payment obligations related to our securities, our credit facilities, Notes and capital and operating lease arrangements or may require us to delay certain business activities or capital expenditures or cease paying dividends. If we are not able to satisfy these obligations (whether or not refinanced) under our credit facilities, Notes or capital or operating lease arrangements with cash flow from operations, we may have to seek to restructure our indebtedness and lease arrangements, undertake alternative financing plans (such as additional debt or equity capital) or sell assets, which may not be available on terms attractive to us or at all. If we are unable to meet our debt or lease obligations, or if we otherwise default under our credit facilities, Notes or capital or operating lease arrangements, the holders of such debt or lessors could declare all outstanding indebtedness to be immediately due and payable and in the case of (i) our credit facilities and capital or operating lease arrangements, foreclose on the vessels securing such indebtedness and (ii) in the 2025 Notes, foreclose on the equity of GCI, which entity is an intermediate holding company that owns the equity of a number of our indirect vessel owning subsidiaries. Additionally, most of our debt instruments contain cross-default provisions, which generally cause a default or event of default under each instrument upon a qualifying default or event of default under any other debt instrument. If we are unable to repay outstanding borrowings when due, holders of our secured debt also have the right to proceed against the collateral granted to them that secures the indebtedness. The market values of our vessels, which fluctuate with market conditions, will also affect our ability to obtain financing or refinancing, as our vessels serve as collateral for loans. Lower vessel values at the time of any financing or refinancing may reduce the amounts of funds we may borrow.

A decrease in the level of export of goods or an increase in trade protectionism will harm our customers' business and, in turn, harm our business, results of operations and financial condition.

Most of our customers' containership business revenue is derived from the shipment of goods from the Asia Pacific region, primarily China, to various overseas export markets, including the United States and Europe. Any reduction in or hindrance to the output of China-based exporters could negatively affect the growth rate of China's exports and our customers' business. For instance, the government of China has implemented economic policies aimed at increasing domestic consumption of Chinese-made goods. This may reduce the supply of goods available for export and may, in turn, result in a decrease in shipping demand.

Our international operations expose us to the risk that increased trade protectionism will harm our business. If global economic challenges exist, governments may turn to trade barriers to protect their domestic industries against foreign imports, thereby depressing shipping demand. In particular, the current U.S. administration recently proposed tariffs on a variety of products exported by China. China has responded in kind which has resulted in further proposals by the current administration to impose tariffs on other Chinese products. In addition, the current U.S. administration has stated that it may seek to implement more protective trade measures not just with respect to China but with respect to other countries in the Asia Pacific region as well. Increasing trade protectionism in the markets that our customers serve has caused and may continue to cause an increase in (a) the cost of goods exported from Asia Pacific, (b) the length of time required to deliver goods from the region and (c) the risks associated with exporting goods from the region. Such increases may also affect the quantity of goods to be shipped, shipping time schedules, voyage costs and other associated costs.

Any increased trade barriers or restrictions on global trade, especially trade with China, would harm our customers' business, results of operations and financial condition and could thereby affect their ability to make timely charter hire payments to us and to renew and increase the number of their time charters with us. This could harm our business, results of operations and financial condition.

Our continuing compliance with the requirements of the Sarbanes-Oxley Act of 2002 will depend, in part, on our ability to integrate effectively the internal controls and procedures of GCI with our own.

In connection with the acquisition of GCI, we may be required to assess and make any necessary adjustments to GCI's internal controls and procedures in order to maintain the overall effectiveness of our internal controls and

procedures, to ensure that we continue to deliver accurate and timely financial information and to ensure ongoing compliance with Section 404 of the Sarbanes-Oxley Act of 2002. We have not yet completed our evaluation of GCI's internal controls. Our failure to accomplish this on a timely basis or at all could compromise our compliance with the Sarbanes-Oxley Act of 2002 and the timeliness and accuracy of our financial reporting, which could reduce investor confidence in our publicly reported consolidated financial statements.

We may experience disruption as a result of the recent and pending departures of a number of members of our senior management.

We have recently experienced a number of changes in our senior management.

Our former chief executive officer, Gerry Wang, retired on November 3, 2017 and formally ceased employment on December 31, 2017. Our new president and chief executive officer, Bing Chen, commenced employment in January 2018.

Our current chief financial officer, Mr. David Spivak, provided notice that he is exercising his right to terminate his employment with us effective June 29, 2018 to pursue other opportunities. Mr. Spivak will continue in his current role until May 5, 2018, after which Mr. Ryan Courson will be appointed chief financial officer. Mr. Spivak will continue with us as special advisor to the president and chief executive officer through the end of June 2018.

Our general counsel and chief operating officer, Mark Chu, provided notice he is exercising his right to terminate his employment with us effective August 31, 2018. Mr. Chu will continue in his current roles until successors are appointed, and will continue with us through to the end of August to facilitate a transition.
