Form 10-Q
August 02, 2018

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-Q

(Mark One)

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended June 30, 2018

or

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____

Commission File Number 1-32729

PotlatchDeltic Corporation

(Exact name of registrant as specified in its charter)

Delaware 82-0156045
(State or other jurisdiction of (IRS Employer
incorporation or organization) Identification No.)

601 West First Avenue, Suite 1600
Spokane, Washington 99201
(Address of principal executive offices) (Zip Code)

(509) 835-1500

(Registrant's telephone number, including area code)

Edgar Filing: POTLATCHDELTA CORP - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act).

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange act).

Yes No

The number of shares of common stock of the registrant outstanding as of July 30, 2018 was 62,755,062.

Notes to Condensed Consolidated Financial Statements

For purposes of this report, any reference to “PotlatchDeltic,” “Potlatch,” “the company,” “we,” “us” and “our” means PotlatchDeltic Corporation and all of its wholly-owned subsidiaries, except where the context indicates otherwise.

We are a leading timberland real estate investment trust (REIT) with operations in seven states where we own nearly 2 million acres of timberland, six sawmills, an industrial grade plywood mill, a medium density fiberboard (MDF) plant and real estate development projects.

NOTE 1. BASIS OF PRESENTATION

Our unaudited condensed consolidated financial statements provide an overall view of our results and financial condition and include the results of Deltic Timber Corporation (Deltic) beginning February 21, 2018, the first full business day following the merger of Deltic into Portland Merger, LLC, a wholly-owned subsidiary of Potlatch (see Note 3: Merger with Deltic). Potlatch was renamed PotlatchDeltic Corporation immediately after consummation of the merger.

Intercompany transactions and accounts have been eliminated in consolidation.

The accompanying unaudited Condensed Consolidated Financial Statements reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of our financial position, results of operations and cash flows for the interim periods presented. Except as otherwise disclosed in these Notes to Condensed Consolidated Financial Statements, such adjustments are of a normal, recurring nature. The Condensed Consolidated Financial Statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission pertaining to interim financial statements. Certain disclosures normally provided in accordance with accounting principles generally accepted in the United States have been omitted. This Quarterly Report on Form 10-Q should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2017, as filed with the Securities and Exchange Commission on February 16, 2018. Results of operations for interim periods should not be regarded as necessarily indicative of the results that may be expected for the full year.

RECLASSIFICATIONS

Components of prior year pension plan and other postretirement benefit plan costs were reclassified to non-operating pension and other postretirement benefit costs to conform to the 2018 presentation. See Note 2: Recent Accounting Pronouncements.

NOTE 2. RECENT ACCOUNTING PRONOUNCEMENTS

New Accounting Standards – Recently Adopted

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers: Topic 606 (ASU No. 2014-09), which requires an entity to recognize revenue when promised goods or services are transferred to customers in an amount that reflects the consideration that is expected to be received for those goods or services. ASU No. 2014-09 also included other guidance, including the presentation of a gain or loss recognized on the sale of a long-lived asset or a nonfinancial asset. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers (Topic 606), Deferral of the Effective Date, which deferred the effective date of ASU No. 2014-09 by one year. We adopted ASU

No. 2014-09 on January 1, 2018 using the cumulative effect method. There was no adjustment to accumulated deficit upon adoption. Adoption of this ASU resulted in expanded disclosures, but did not have a material impact on our condensed consolidated financial statements, processes or internal controls. See Note 5: Revenue Recognition for our expanded disclosures.

In March 2017, the FASB issued ASU No. 2017-07, Compensation – Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, which requires an entity to present service cost within compensation expense and the other components of net benefit cost outside of income from operations. We adopted this ASU retrospectively on January 1, 2018, and have reclassified non-service costs from operating income to non-operating costs. There was no change to income before income taxes. The adjustments made to the Consolidated Statements of Income for the three and six months ended June 30, 2017 are as follows:

	For the Three Months Ended June 30, 2017			For the Six Months Ended June 30, 2017		
	Previously	Effect of	As	Previously	Effect of	As
(Dollars in thousands)	Reported	Change	Adjusted	Reported	Change	Adjusted
Operating income	\$40,773	1,286	\$42,059	\$64,682	3,192	\$67,874

In October 2016, the FASB issued ASU No. 2016-16, Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory, which reduces the complexity in the accounting standards by allowing the recognition of current and deferred income taxes for an intra-entity asset transfer, other than inventory, when the transfer occurs. We adopted this ASU on January 1, 2018 on a modified retrospective basis through a \$1.3 million cumulative-effect adjustment directly to accumulated deficit as of January 1, 2018.

In January 2017, the FASB issued ASU No. 2017-1, Business Combinations (Topic 805): Clarifying the Definition of a Business. The standard provides guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or a business. We adopted this ASU on January 1, 2018 and accounted for the merger with Deltic as an acquisition of a business.

In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging (Topic 815), Targeted Improvements to Accounting for Hedging Activities, which amends and simplifies existing guidance in order to allow companies to more accurately present the economic effects of risk management activities in the financial statements. ASU 2017-12 requires that when a hedge is deemed effective, hedge accounting must be applied to the entire change in fair value of the hedging instrument eliminating the notion of ineffective portions of the hedge relationship. The entire change in the fair value of the hedging instrument will be recorded in the same income statement line item as the hedged item and the ineffective portion will no longer be separately recognized in earnings. This ASU is effective for public entities for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years. Early adoption is permitted in any interim period. ASU 2017-12 is required to be adopted using a modified retrospective approach with the presentation and disclosure requirements only required on a prospective basis. We adopted ASU 2017-12 effective April 1, 2018, which resulted in no material impact to our financial statements.

In February 2018, the FASB issued ASU No. 2018-2, Income Statement – Reporting Comprehensive Income (Topic 220), Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income, which allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the December 22, 2017, H.R. 1, Tax Cuts and Jobs Act (the Act). This ASU is effective for us on January 1, 2019, with early adoption permitted. We adopted this ASU on January 1, 2018 and reclassified the income tax effects of the Act on pension and other postretirement employee benefits and a cash flow hedge within accumulated other comprehensive loss to accumulated deficit. In future periods, our accounting policy will be to release income tax rate change effects from accumulated other comprehensive loss to accumulated deficit. Upon adoption, accumulated other comprehensive loss was increased by \$23.3 million, with a corresponding decrease to accumulated deficit. See Note 12: Components of Accumulated Other Comprehensive Loss.

New Accounting Standards – Recently Issued

In February 2016, the FASB issued ASU No. 2016-02, Leases. The objective of the new standard is to establish principles for lessees and lessors to report information about the amount, timing and uncertainty of cash flows arising from a lease. Under the new requirements, a lessee will recognize in the statement of financial position a liability to make lease payments (the lease liability) and the right-of-use asset representing the right to the underlying asset for the lease term. For leases with a term of 12 months or less, the lessee is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities. The standard, along with subsequent amendments, is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early application of the amendment is permitted. We expect to adopt the standard on January 1, 2019. We have operating leases covering office space, equipment and vehicles expiring at various dates through 2033, which would require a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, to be recognized in the statement of financial position. Lease costs would generally continue to be recognized on a straight-line basis. We continue to assess and document the effects of this ASU and subsequent revisions either made or being contemplated by the FASB. This assessment and documentation process includes

reviewing all forms of leases, performing a completeness assessment over the lease population and analyzing the practical expedients. We expect the adoption of this ASU will result in expanded financial statement disclosures and minor refinements to our controls over financial reporting. We expect our right-of use assets and lease liabilities recorded upon adoption will approximate our current future minimum lease payments required under our operating leases, which were \$14.4 million at December 31, 2017.

NOTE 3. MERGER WITH DELTIC

On February 20, 2018 (merger date), Deltic merged into Portland Merger, LLC, a wholly-owned subsidiary of Potlatch. Deltic owned approximately 530,000 acres of timberland, operated two sawmills and a medium density fiberboard plant and was engaged in real estate development primarily in Arkansas. The merger creates a combined company with a diversified timberland base of nearly 2 million acres, including approximately 930,000 acres in Arkansas. It uniquely positions us to expand our integrated model of timberland ownership and lumber manufacturing, provide significant tax savings on Deltic's timber harvest earnings and increase our exposure to the fast-growing Texas housing market.

Under the merger agreement, each issued and outstanding share of Deltic common stock was exchanged for 1.80 shares of Potlatch common shares, with cash paid in lieu of any fractional shares. Upon consummation of the merger, all outstanding Deltic stock options (which fully vested as of the merger date) and restricted stock units (RSUs) were converted into Potlatch stock options and RSUs, after giving effect to the 1.80 exchange ratio. Because the Deltic stock options are fully vested and relate to services rendered to Deltic prior to the merger, the replacement stock options are also fully vested and their fair value is included in the consideration transferred. A portion of the replacement RSUs relate to services to be performed post-merger and therefore are not included in consideration transferred. See additional details about replacement share-based payment awards in Note 13: Equity-Based Compensation.

The following table summarizes the total consideration transferred in the merger:

(Dollars in thousands, except share and per share amounts)	
Number of shares of Deltic common stock outstanding ¹	12,121,223
Number of Deltic performance awards ²	90,515
	12,211,738
Exchange ratio ³	1.80
Potlatch shares issued	21,981,128
Price per Potlatch common share ⁴	\$51.95
Aggregate value of Potlatch common shares issued	\$1,141,920
Cash paid in lieu of fractional shares	14
Fair value of stock options and RSUs ⁵	841
Consideration transferred	\$1,142,775

¹Number of shares of Deltic common stock issued and outstanding as of February 20, 2018, net of fractional shares.

²Number of shares of Deltic performance awards for pre-combination services rendered that vested upon closing of the merger.

³Exchange ratio per the merger agreement.

⁴Closing price of Potlatch common shares on February 20, 2018.

⁵Fair value of Deltic stock options for pre-combination services rendered that vested upon closing of the merger, as well as RSUs for pre-combination services rendered.

The company entered into a two-year consulting agreement for \$1.85 million with Deltic's former Chief Executive Officer. While the agreement was terminated in the first quarter of 2018, payments are required to be made through the end of the two year term. This agreement was considered a separate transaction from the business combination, therefore the \$1.85 million was recorded as merger costs in the first quarter of 2018.

We expensed approximately \$1.0 million and \$20.3 million of merger-related costs during the three and six months ended June 30, 2018, respectively. See Note 14: Merger, Integration and other Costs for the components of merger-related costs. These costs are included in Deltic merger-related costs in our Condensed Consolidated

Statements of Income.

The amount of revenue and income before income taxes from acquired Deltic operations included in our Condensed Consolidated Statement of Income for February 21, 2018 through June 30, 2018 are as follows:

	Three Months Ended June 30, 2018	Six Months Ended June 30, 2018
(Dollars in thousands)		
Net sales	\$80,053	\$108,859
Income before income taxes	\$16,724	\$7,613

Summarized unaudited pro forma information that presents combined amounts as if this merger occurred at the beginning of 2017 is as follows:

(Dollars in thousands, except per share amounts)	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2018	2017	2018	2017
Net sales	\$268,233	\$218,582	\$506,793	\$421,478
Net earnings attributable to PotlatchDeltic common shareholders	\$47,225	\$20,984	\$80,928	\$33,829
Basic earnings per share attributable to PotlatchDeltic common Shareholders	0.71	0.32	1.22	0.51
Diluted earnings per share attributable to PotlatchDeltic common shareholders	0.71	0.31	1.21	0.51

Pro forma net earnings attributable to PotlatchDeltic common shareholders excludes \$1.0 million and \$25.7 million of non-recurring merger-related costs incurred by both companies during the three and six months ended June 30, 2018, respectively, of which \$5.4 million were incurred by Deltic prior to the merger. No non-recurring merger-related costs were incurred during the three and six months ended June 30, 2017. Pro forma basic and diluted earnings per share assumes issuance of approximately 22.0 million shares at the beginning of 2017 that were issued upon merger. Pro forma basic and diluted earnings per share also assumes issuance of 3.9 million additional shares at the beginning of 2017, which is the approximate amount of the stock dividend to be issued in connection with the earnings and profits (E&P) distribution. Prior to December 31, 2018, Deltic's E&P will be distributed to shareholders of the combined company in a special distribution consisting of 80% stock and 20% cash. Pro forma data may not be indicative of the results that would have been obtained had these events occurred at the beginning of the periods presented, nor is it intended to be a projection of future results.

PotlatchDeltic has accounted for the merger transaction as the acquirer and has applied the acquisition method of accounting. Under the acquisition method, the assets acquired and liabilities assumed from Deltic were generally recorded as of the date of the merger at their respective estimated fair values.

Our June 30, 2018 Condensed Consolidated Balance Sheet includes the assets and liabilities of Deltic, which have been measured at fair value as of the merger date. The fair values of the assets acquired and liabilities assumed were preliminarily determined using the income, cost and market approaches, as applicable. The fair value measurements were generally based on significant inputs that are not observable in the market and thus represent Level 3 measurements as defined in ASC 820, Fair Value Measurements and Disclosures, with the exception of certain long-term debt instruments assumed in the acquisition that can be valued using observable market inputs and are therefore Level 2 measurements. The income approach and cost approach were primarily used to value acquired timber and timberlands. The income approach was primarily used to value the acquired real estate held for development and sale. The income approach estimates fair value for an asset based on the present value of cash flow projected to be generated by the asset. Projected cash flows are discounted at rates of return that reflect the relative risk of achieving the cash flows and the time value of money. The cost approach, which estimates value by determining the current cost of replacing an asset with another of equivalent economic utility, was used, as appropriate, for property and equipment. The cost to replace a given asset reflects the estimated reproduction or replacement cost for the property, less an allowance for loss in value due to depreciation. The market approach was primarily used to value long-term debt instruments. The market approach estimates fair value for an asset based on values of recent comparable transactions.

During the three months ended June 30, 2018, we continued to revise our valuation of the net assets acquired as of the merger date, including the following adjustments to the preliminary estimated fair values of the identifiable assets acquired and liabilities assumed:

(Dollars in thousands)	Amount recognized as of:		
	March 31, 2018	Measurement Period Adjustment	June 30, 2018
ASSETS			
Cash and cash equivalents	\$3,419	—	\$3,419

Net assets acquired	\$1,142,775	—	\$1,142,775

The mineral rights measurement period adjustment of \$6.2 million related to certain oil and gas royalty payments from third party extractive activities on the acquired land. This amount is included in other long-term assets in the condensed consolidated balance sheets. The other long-term asset measurement period adjustment of \$1.5 million was related to sales and use tax credits from the State of Arkansas. The property, plant and equipment adjustment of \$4.6 million related to further refinement of the value associated with acquired buildings and equipment. The \$2.0 million adjustment to timber and timberlands is a combination of the separation of the mineral rights value previously included in the timber and timberlands, offset by further revisions to the underlying valuation assumptions. Other measurement changes were not significant and mainly a result of continued refinement of information as of the merger date that have been factored into the valuation. As a result of these adjustments, during the second quarter of 2018 we recorded approximately \$0.2 million of additional depreciation, depletion and amortization expense as measurement period adjustments.

These estimated fair values are preliminary in nature and subject to adjustments, which could be material. We have not identified any material unrecorded pre-merger contingencies where the related asset, liability or impairment is probable and the amount can be reasonably estimated. We are currently in the process of finalizing our valuations related to the following:

- Timber and timberlands, including mineral rights
- Property, plant and equipment
- Real estate held for development and sale
- Intangible assets, which includes trade names and customer relationships

Other contractual rights and obligations

Income taxes

Our valuations will be finalized when certain information arranged to be obtained has been received, our review of that information has been completed and our review of the underlying assumptions within the valuation models has been completed. Prior to the finalization of the purchase price allocation, if information becomes available that would indicate it is probable that such events had occurred and the amounts can be reasonably estimated, such items will be included in the final purchase price allocation.

10

NOTE 4. EARNINGS PER SHARE

The following table reconciles the number of shares used in calculating basic and diluted earnings per share:

(Dollars in thousands, except per share amounts)	Three Months Ended		Six Months Ended June 30,	
	June 30, 2018	2017	2018	2017
Net income	\$46,148	\$24,244	\$60,745	\$41,165
Basic weighted-average shares outstanding	62,979,660	40,822,726	56,739,012	40,802,057
Incremental shares due to:				
Performance shares	302,815	355,844	298,883	305,625
Restricted stock units	33,816	40,399	90,125	36,013
Diluted weighted-average shares outstanding	63,316,291	41,218,969	57,128,020	41,143,695
Basic net income per share	\$0.73	\$0.59	\$1.07	\$1.01
Diluted net income per share	\$0.73	\$0.59	\$1.06	\$1.00

We issued 22.0 million shares in connection with the Deltic merger. See Note 3: Merger with Deltic.

For the three and six months ended June 30, 2018, there were 70,318 and 51,723 stock-based awards that were excluded from the calculation of diluted earnings per share because they were anti-dilutive. Anti-dilutive stock-based awards could be dilutive in future periods. For the three and six months ended June 30, 2017, there were 0 and 18,289 stock-based awards that were excluded from the calculation of diluted earnings per share because they were anti-dilutive.

NOTE 5. REVENUE RECOGNITION

The majority of our revenues are derived from the sale of delivered logs, manufactured wood products, residual by-products and real estate. We recognize revenue in accordance with ASC Topic 606, Revenue from Contracts with Customers.

Performance Obligations

A performance obligation, as defined in ASC 606, is a promise in a contract to transfer a distinct good or service to a customer. A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue at the point in time, or over the period, in which the performance obligation is satisfied.

Performance obligations associated with delivered log and residual sales are typically satisfied when the logs and residuals are delivered to our customers' mills. Performance obligations associated with the sale of wood products are typically satisfied when the products are shipped (FOB shipping point) or upon delivery to our customer (FOB destination). Shipping and handling costs for all wood product and residual sales are accounted for as cost of goods sold.

ASC Topic 606 requires entities to consider significant financing components of contracts with customers, but allows for the use of a practical expedient when the period between satisfaction of a performance obligation and payment receipt is one year or less. Given the nature of our revenue transactions, we have elected to utilize this practical expedient. Substantially all of our performance obligations are satisfied as of a point in time. We have also elected to use the practical expedient to not disclose unsatisfied or partially satisfied performance obligations as all unsatisfied contracts are expected to be satisfied in less than one year.

Performance obligations associated with real estate sales are generally satisfied at a point in time when all conditions of closing have been met.

Contract Estimates

The transaction price for log and residual sales is determined using contractual rates applied to delivered volumes. The contractual rates are generally based on prevailing market prices and payment is generally due from customers within one month or less of delivery. For log and residual sales subject to long-term supply agreements, the transaction price is variable but is known at the time of delivery. For wood products sales, the transaction price is generally the amount billed to the customer based on the prevailing market price for the products shipped but may be reduced slightly for estimated cash discounts.

There are no significant contract estimates related to the real estate business.

Contract Balances

In general, a customer receivable is recorded as we ship and/or deliver wood products, logs and residuals. We generally receive payment shortly after products have been received by our customers. As of June 30, 2018 and December 31, 2017 we recorded \$3.7 million and \$1.7 million, respectively, for contract liabilities related to hunting lease rights. These contract liabilities are being amortized over the term of the contracts, which is typically less than twelve months. Other contract asset and liability balances, such as prepayments, are immaterial. For real estate sales, we typically receive the entire consideration in cash at closing.

Major Products

The following table represents our revenues by major product. For additional information regarding our segments, see Note 17: Segment Information.

NOTE 8. DEBT

MEDIUM-TERM NOTES

We repaid \$14.3 million of our medium-term notes during the six months ended June 30, 2018.

REVENUE BONDS

We assumed the obligations relating to the Letter of Credit supporting Deltic's \$29.0 million Union County, Arkansas Taxable Industrial Revenue Bonds 1998 Series due October 1, 2027. Neither the State of Arkansas nor Union County, Arkansas has any liability under the bonds. Contemporaneously with the issuance of the bonds, Deltic's subsidiary (Del-Tin) and Union County entered into a lease agreement that obligated Del-Tin to make lease payments in an amount necessary to fund the debt service on the bonds. Under the terms of the loan agreement, a standby letter of credit to benefit the holders of the bonds is required. The irrevocable standby letter of credit was amended and re-issued on February 20, 2018, in the amount of \$29.7 million, expiring April 13, 2023. These bonds bear interest at a variable rate determined weekly by the remarketing agent. Interest is payable monthly.

TERM LOANS

On March 22, 2018, we entered into a Second Amended and Restated Term Loan Agreement, which amended the existing term loan agreement dated December 14, 2014. The agreement includes an additional \$100 million of new loans used to refinance Deltic's \$106 million credit facility and a \$100 million loan assumed in connection with the Deltic merger. The interest coverage ratio and leverage ratio financial covenants are unchanged (at least 3.00 to 1.00 and no more than 40%, respectively). The limitation on timberland acre sales was eliminated.

The \$100 million repayment of Deltic's credit facility funded by a \$100 million borrowing under our revolving credit facility was subsequently refinanced with two tranches of term loans aggregating \$100 million under the Second Amended and Restated Term Loan Agreement.

The following summarizes the three term loan tranches added in the first quarter of 2018:

- one \$100 million tranche maturing 2025 with a fixed rate of 4.05% assumed in connection with the merger;
- one \$65 million tranche maturing 2028 at a variable rate based on one-month LIBOR plus 1.95%; and
- one \$35 million tranche maturing 2028 at a variable rate based on one-month LIBOR plus 1.95%.

The \$65 million and \$35 million tranches added in the first quarter of 2018 were hedged to yield a fixed-rate of 4.80%. There were no additional term loan tranches added in the second quarter of 2018. See Note 9: Derivative Instruments.

CREDIT AGREEMENT

On February 14, 2018, we entered into a Second Amended and Restated Credit Agreement with an expiration date of April 13, 2023. The amended agreement increases our revolving line of credit to \$380 million, which may be increased by up to an additional \$420 million. It also includes a sublimit of \$75 million for the issuance of standby letters of credit and a sublimit of \$25 million for swing line loans. Usage under either or both subfacilities reduces availability under the revolving line of credit.

Pricing is set according to the type of borrowing. LIBOR Loans are issued at a rate equal to the LIBOR Rate, while Base Rate Loans are issued at a rate equal to the Base Rate, which is a fluctuating rate per annum equal to the highest of (a) the Federal Funds Rate plus 1/2 of 1.00%, (b) the rate of interest in effect for such day as publicly announced from time to time by KeyBank as its prime rate and (c) the sum of the LIBOR that would apply to a one month Interest Period plus 1.00%. The interest rates we pay for borrowings under either type of loan include an additional Applicable Rate, which can range from 0.875% to 1.70% for LIBOR loans and from 0% to 0.70% for Base Rate loans, depending on our current credit rating. As of June 30, 2018, we were able to borrow under the bank credit facility with the additional applicable rate of 1.30% for LIBOR Loans and 0.30% for Base Rate Loans, with facility fees of 0.20% on the \$380 million of the bank credit facility.

The interest coverage ratio and leverage ratio financial covenants are unchanged (at least 3.00 to 1.00 and no more than 40%, respectively). The limitation on timberland acre sales was eliminated.

NOTE 9. DERIVATIVE INSTRUMENTS

From time to time, we enter into derivative financial instruments to manage certain cash flow and fair value risks. Derivatives designated and qualifying as a hedge of the exposure to changes in the fair value of an asset or liability to a particular risk, such as interest rate risk, are considered fair value hedges. We had three fair value interest rate swaps with notional amounts totaling \$14.3 million, which matured during the first quarter of 2018. A \$50 million notional fair value swap associated with our senior notes was terminated in December 2017 at a cost of \$0.4 million. The termination cost has been recorded as a reduction to the carrying value of our long-term debt and will be amortized to earnings through the original maturity date of November 2019. Approximately \$0.2 million will be recorded as interest expense over the next twelve months.

Derivatives designated and qualifying as a hedge of the exposure to variability in the cash flows of a specific asset or liability that is attributable to a particular risk, such as interest rate risk, are considered cash flow hedges. We have four interest rate swaps to convert variable-rate debt, comprised of 1-month and 3-month LIBOR plus a spread, to fixed-rate debt. Our cash flow hedges are expected to be highly effective in achieving offsetting cash flows

attributable to the hedged interest rate risk through the term of the swaps. Therefore, changes in fair value are recorded as a component of other comprehensive income and will be recognized in earnings when the hedged interest rates affect earnings. The amounts paid or received on the swaps will be recognized as adjustments to interest expense. As of June 30, 2018, the amount of net losses expected to be reclassified into earnings in the next 12 months is \$0.5 million.

The following table presents the gross fair values of derivative instruments on our Condensed Consolidated Balance Sheets:

(Dollars in thousands)	Location	Asset Derivatives		Location	Liability Derivatives	
		June 30, 2018	December 31, 2017		June 30, 2018	December 31, 2017
Derivatives designated in fair value hedging relationships:						
	Other assets,					
Interest rate contracts	current	\$—	\$ 13		\$—	\$ —
Derivatives designated in cash flow hedging relationships:						
	Other assets,			Other long-term		
Interest rate contracts	non-current	\$2,108	\$ 1,156	obligations	\$ 473	\$ —

The following table details the effect of derivatives on our Consolidated Statements of Income:

(Dollars in thousands)	Location	Three Months Ended June 30,		Six Months Ended June 30,	
		2018	2017	2018	2017
Derivatives designated in fair value hedging relationships:

Long-term debt, including current portion (Level 2):				
Term loans	\$(538,844)	\$(536,146)	\$(343,500)	\$(345,222)
Senior notes	(149,657)	(156,375)	(149,528)	(161,063)
Revenue bonds	(94,735)	(93,880)	(65,735)	(63,967)
Medium-term notes	(3,000)	(3,456)	(17,250)	(18,227)
Total long-term debt ¹	\$(786,236)	\$(789,857)	\$(576,013)	\$(588,479)
Company owned life insurance asset (COLI) (Level 3)	\$2,424	\$2,424	\$1,996	\$1,996

¹The carrying amount of long-term debt includes principal and unamortized discounts.

15

For cash and cash equivalents and any revolving line of credit borrowings, the carrying amount approximates fair value due to the short-term nature of these financial instruments.

The fair value of interest rate swaps are determined using discounted cash flow analysis on the expected cash flows of each derivative. The analysis reflects the contractual terms of the derivatives, including the period to maturity and uses observable market-based inputs, including interest rate forward curves.

The fair value of our long-term debt is estimated based upon quoted market prices for similar debt issues or estimated based on average market prices for comparable debt when there is no quoted market price.

The contract value of our company owned life insurance is based on the amount at which it could be redeemed and, accordingly, approximates fair value.

NOTE 11. PENSION AND OTHER POSTRETIREMENT EMPLOYEE BENEFITS

The following tables detail the components of net periodic cost (benefit) of our pension plans and other postretirement employee benefits (OPEB):

(Dollars in thousands)	Three Months Ended June 30,

Balance at June 30, 2017	\$116,121	\$(6,943)	\$109,178

¹Amortization of prior service credit (cost) and amortization of actuarial loss are included in the computation of net periodic cost (benefit).

² See Note 2: Recent Accounting Pronouncements discussing the \$23.4 million reclassification from AOCL to accumulated deficit.

FUNDED STATUS OF ACQUIRED PENSION PLAN ASSETS AND ASSUMED BENEFIT OBLIGATIONS

Consistent with accounting for the merger as the acquirer in a business combination (see Note 3: Merger with Deltic), pension assets acquired and benefit obligations assumed were remeasured to reflect their funded status as of the date of the acquisition. This included updating asset values and updating discount rates to reflect market conditions as of the date of the merger. The funded status of plan assets and the benefit obligations as of February 20, 2018 were as follows:

- \$38.7 million qualified pension plan assets
- \$62.0 million qualified and non-qualified pension plan projected benefit obligation
- \$13.5 million OPEB accumulated benefit obligation

FUNDING AND BENEFIT PAYMENTS

During the six months ended June 30, 2018 and 2017, we paid non-qualified supplemental pension benefits of \$0.8 million and \$0.8 million, and OPEB benefits of \$1.5 million and \$1.6 million, respectively. During the six months ended June 30, 2018 we made qualified pension benefit contributions of \$8.1 million. No qualified pension benefit contributions were made during the six months ended June 30, 2017.

NOTE 12. COMPONENTS OF ACCUMULATED OTHER COMPREHENSIVE LOSS

The following table details the changes in our accumulated other comprehensive loss (AOCL) on our Condensed Consolidated Balance Sheets for the six months ended June 30, 2018, net of tax.

Edgar Filing: POTLATCHDELTIC CORP - Form 10-Q

(Dollars in thousands)	Gains and losses on cash flow			
	hedge	Pension Plans	OPEB	Total
Balance at December 31, 2017	\$(705)	\$100,611	\$(5,055)	\$94,851
Amounts arising during the period	(64)	(6,207)	2,800	(3,471)
Amounts reclassified from AOCL to interest expense	(195)	—	—	(195)
Amounts reclassified from AOCL to accumulated deficit	(150)	23,787	(372)	23,265
Net change	(409)	17,580	2,428	19,599
Balance at June 30, 2018	\$(1,114)	\$118,191	\$(2,627)	\$114,450

Amounts in parenthesis indicate credits.

Amounts reclassified from AOCL to accumulated deficit reflect the adoption of ASU No. 2018-2, Income Statement – Reporting Comprehensive Income (Topic 220), Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income. See Note 2: Recent Accounting Pronouncements. See also Note 9: Derivative Instruments and Note 11: Pension and Other Postretirement Employee Benefits for additional information regarding amounts arising during the period.

NOTE 13. EQUITY-BASED COMPENSATION

As of June 30, 2018, we had three stock incentive plans under which performance shares, restricted stock units (RSUs) and deferred compensation stock equivalent units were outstanding. These plans have received shareholder approval. We were originally authorized to issue up to 1.6 million shares and 1.0 million shares under our 2005 Stock Incentive Plan and 2014 Stock Incentive Plan, respectively. At June 30, 2018, approximately 0.4 million shares were authorized for future use under those plans. Upon closing of the merger with Deltic, we assumed Deltic's stockholder-approved 2002 Incentive Plan and set aside and reserved 0.25 million shares for issuance under the plan. We issue new shares of common stock to settle performance shares, restricted stock units and deferred compensation stock equivalent units.

The following table details equity-based compensation expense and the related income tax benefit:

(Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
Employee equity-based compensation expense:				
Performance shares	\$1,074	\$905	\$2,010	\$1,773
Restricted stock units	454	286	934	575
Accelerated share-based termination benefits in connection with the merger	86	—	1,764	—
Total employee equity-based compensation expense	\$1,614	\$1,191	\$4,708	\$2,348
Deferred compensation stock equivalent units expense	\$53	\$161	\$181	\$322
Total tax benefit recognized for share-based expense	\$73	\$96	\$184	\$189

Employee equity-based compensation expense includes restricted stock unit awards issued to directors.

PERFORMANCE SHARES

The following table presents the key inputs used in the Monte Carlo simulation to calculate the fair value of the performance share awards in 2018 and 2017:

	Six Months Ended June 30,	
	2018	2017
Stock price as of valuation date	\$54.00	\$43.60
Risk-free rate	2.46 %	1.61 %
Expected volatility	23.74 %	24.22 %
Expected dividends	2.96 %	3.44 %
Expected term (years)	3.00	3.00

Edgar Filing: POTLATCHDELTAIC CORP - Form 10-Q

Fair value \$75.37 \$53.85

The following table summarizes outstanding performance share awards as of June 30, 2018 and changes during the six months ended June 30, 2018:

		Weighted-Avg. Grant Date	Aggregate Intrinsic Value
(Dollars in thousands, except grant date fair value)	Shares	Fair Value	
Unvested shares outstanding at December 31, 2017	200,631	\$ 39.19	
Granted	67,747	\$ 75.37	
Forfeited	(5,082)	\$ 47.90	
Unvested shares outstanding at June 30, 2018	263,296	\$ 48.33	\$ 13,389

As of June 30, 2018, there was \$6.8 million of unrecognized compensation cost related to unvested performance share awards, which is expected to be recognized over a weighted-average period of 1.3 years.

RESTRICTED STOCK UNITS

The following table summarizes outstanding RSU awards as of June 30, 2018 and changes during the six months ended June 30, 2018:

(Dollars in thousands, except grant date fair value)	Shares	Weighted-Avg.	
		Grant Date	Aggregate
		Fair Value	Intrinsic Value
Unvested shares outstanding at December 31, 2017	67,871	\$ 32.87	
Granted	42,193	\$ 51.59	
Vested	(1,000)	\$ 42.92	
Forfeited	(3,694)	\$ 45.36	
Unvested shares outstanding at June 30, 2018	105,370	\$ 39.84	\$ 5,358

The fair value of each RSU equaled our common share price on the date of grant. As of June 30, 2018, there was \$2.4 million of total unrecognized compensation cost related to unvested RSU awards, which is expected to be recognized over a weighted-average period of 1.2 years.

DEFERRED COMPENSATION STOCK EQUIVALENT UNITS

Through December 31, 2017, a long-term incentive award was granted annually to our directors and payable upon a director's separation from service. Effective May 2018, directors received restricted stock unit awards that may be deferred. Directors may also elect to defer their quarterly retainers, which may be payable in the form of stock. All stock unit equivalent accounts are credited with dividend equivalents. As of June 30, 2018, there were 144,770 shares outstanding that will be distributed in the future to directors as common stock.

Issuance of restricted stock units awarded to certain officers and select employees may also be deferred. All stock unit equivalent accounts are credited with dividend equivalents. As of June 30, 2018, there were 74,263 RSUs which had vested, but issuance of the related stock had been deferred.

REPLACEMENT RESTRICTED STOCK UNIT AWARDS

The replacement RSUs issued as a result of the merger with Deltic have four-year vesting terms. During the vesting period, the grantee may vote and receive dividends on the shares, but the shares are subject to transfer restrictions and are all, or partially, forfeited if a grantee terminates employment. Expense for replacement RSUs will continue to be recognized over the remaining service period unless a qualifying termination occurs. A qualifying termination of an awardee will result in acceleration of vesting and expense recognition in the period that the qualifying termination occurs. Qualifying terminations during the six months ended June 30, 2018 resulted in accelerated vesting of approximately 35,000 replacement RSUs and recognition of \$1.8 million of expense. This accelerated expense recognition is included in merger-related integration costs as described in Note 14: Merger, Integration and other Costs.

NOTE 14. MERGER, INTEGRATION AND OTHER COSTS

In connection with the merger with Deltic, we incurred costs such as advisory, legal, accounting, valuation and other professional or consulting fees. Restructuring costs relate to termination benefits and integration costs to combine

business processes and locations.

	For the Three Months Ended June 30,	For the Six Months Ended June 30,
(Dollars in thousands)		
Merger costs	\$ 362	\$ 10,623
Restructuring costs:		
Termination benefits	224	8,782
Professional services	353	655
Other	79	213
	656	9,650
Total merger and restructuring costs	\$ 1,018	\$ 20,273

During the three and six months ended June 30, 2018, we incurred termination benefits, which included accelerated share-based payment costs, for qualifying terminations. Employee termination benefits considered postemployment benefits are accrued when the obligation is probable and estimable, such as benefits stipulated by human resource policies. If the employee must provide future service greater than 60 days, such benefits are expensed ratably over the

future service period. Accrued termination benefits are recorded in accrued payroll and benefits within accounts payable and accrued liabilities as detailed in Note 6: Certain Balance Sheet Components. Accrued termination benefits at June 30, 2018 are expected to be paid within one year.

Changes in accrued severance related to restructuring were as follows:

(Dollars in thousands)	
Accrued severance as of December 31, 2017	\$—
Charges	8,782
Payments	(8,227)
Accrued severance as of June 30, 2018	\$555

NOTE 15. INCOME TAXES

As a real estate investment trust (REIT), we generally are not subject to federal and state corporate income taxes on income of the REIT that we distribute to our shareholders. We conduct certain activities through our taxable REIT subsidiaries (TRS), which are subject to corporate level federal and state income taxes. These taxable activities are principally comprised of our wood products manufacturing operations and certain real estate investments. Therefore, income tax expense or benefit is primarily due to income or loss of the TRS, as well as permanent book versus tax differences.

Deltic's REIT qualifying activities were also not subject to federal and state corporate income taxes commencing on the date of the merger. Deltic's wood products manufacturing operations and real estate activities, which are conducted through TRS subsidiaries, are subject to corporate level federal and state income taxes.

On December 22, 2017, H.R. 1, commonly known as the Tax Cuts and Jobs Act (the Tax Act), was enacted. The Tax Act contained significant changes to corporate taxation, including the reduction of the corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. The primary impact of the Tax Act provisions in 2018 was a reduction in our TRS's effective tax, resulting in \$4.4 million and \$6.5 million in lower taxes during the three and six months ended June 30, 2018, respectively.

NOTE 16. COMMITMENTS AND CONTINGENCIES

In January 2007, the Environmental Protection Agency (EPA) notified us that we were a potentially responsible party under the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) and the Clean Water Act for cleanup of a site known as Avery Landing in northern Idaho. We owned a portion of the land at the Avery Landing site, which we acquired in 1980 from the Milwaukee Railroad. The land we owned at the site and adjacent properties were contaminated with petroleum as a result of the Milwaukee Railroad's operations at the site prior to 1980. On July 5, 2011, the EPA issued an Action Memorandum for the Avery Landing Site selecting contaminant extraction and off-site disposal as the remedial alternative. On May 23, 2012, we signed a consent order with the EPA pursuant to which we agreed to provide \$1.75 million in funding for EPA cleanup on a portion of our property (including the adjacent riverbank owned by the Idaho Department of Lands). The EPA cleanup was completed in October 2012. On April 4, 2013, the EPA issued a unilateral administrative order requiring us to remediate the portion of the Avery Landing site that we own. Our remediation was completed in October 2013. In 2016, the EPA confirmed that Potlatch had completed the cleanup and subsequent monitoring required by the unilateral order. On September 25, 2015, the EPA sent us a letter asserting that the EPA and the Department of Transportation (the current owner of a portion of the adjacent property remediated by the EPA) (DOT) had incurred \$9.8 million in unreimbursed response costs associated with the site and that we were liable for such costs. We

executed six tolling agreements with the EPA and DOT suspending the statute of limitations on the claim until March 31, 2018 in order to facilitate negotiations of a final settlement. On December 22, 2017, we sold the land at Avery Landing. On April 10, 2018, the United States District Court for the District of Idaho entered a Consent Decree negotiated by the parties releasing us and our affiliates from any further liability for past response costs incurred by the United States Government in exchange for a final settlement payment of \$6 million, which was paid in April 2018.

NOTE 17. SEGMENT INFORMATION

Our businesses are organized into three reportable operating segments: Resource, Wood Products and Real Estate. Management activities in the Resource segment include planting and harvesting trees and building and maintaining roads. The Resource segment also generates revenues from non-timber resources such as hunting leases, recreation permits and leases, mineral rights leases, oil and gas royalties, biomass production and carbon sequestration. The Wood Products segment manufactures and markets lumber, plywood and MDF. The business of our Real Estate segment

20

includes the sale of land holdings deemed non-strategic or identified as having higher and better use alternatives. The Real Estate segment also engages in master planned communities and development activities.

Effective February 20, 2018, we changed our operating segment disclosures in order to reflect the new measure of operating profit discussed below that management uses to allocate resources and assess performance. Management adopted the new measure due to the merger with Deltic. The significant increase in the company's post-merger assets and the related fair value purchase accounting adjustments to acquired Deltic assets created a lack of comparability associated with the historical performance measures. This change has been reflected in the segment information for the three and six months ended June 30, 2018. The segment information presented for comparative purposes for the three and six months ended June 30, 2017 has also been revised to reflect this change.

The reporting segments follow the same accounting policies used for our Condensed Consolidated Financial Statements, with the exception of the valuation of inventories. All segment inventories are reported using the average cost method and the LIFO reserve is recorded at the corporate level. Management primarily evaluates the performance of its segments and allocates resources to them based upon Adjusted EBITDDA. EBITDDA is calculated as net income (loss) before interest expense, income taxes, basis of real estate sold, depreciation, depletion and amortization. Adjusted EBITDDA excludes certain specific items that are considered to hinder comparison of the performance of our businesses either year-on-year or with other businesses. Although Adjusted EBITDDA is not a measure of financial condition or performance determined in accordance with GAAP, the company uses Adjusted EBITDDA to compare the operating performance of its segments on a consistent basis and to evaluate the performance and effectiveness of its operational strategies. The company's calculation of Adjusted EBITDDA may not be comparable to that reported by other companies.

The following table summarizes information on revenues, Adjusted EBITDDA, depreciation, depletion and amortization and basis of real estate sold for each of the company's reportable segments and includes a reconciliation of total Adjusted EBITDDA to income before income taxes:

Edgar Filing: POTLATCHDELTAIC CORP - Form 10-Q

(Dollars in thousands)	Three Months Ended		Six Months Ended	
	June 30, 2018	2017	June 30, 2018	2017

Real Estate	\$2,896	\$1,047	\$6,619	\$5,856
Eliminations and adjustments	(76)	(65)	(194)	(84)
Total basis of real estate sold	\$2,820	\$982	\$6,425	\$5,772

¹ Intersegment revenues are based on prevailing market prices of logs sold by our Resource segment to the Wood Products segment.

² The effect on cost of goods sold for fair value adjustments to the carrying amounts of inventory acquired in business combinations.

³ For integration and restructuring costs related to the merger with Deltic see Note 14: Merger, Integration and Other Costs.

⁴Bond discounts and deferred loan fees are reported within interest expense, net on the Condensed Consolidated Statement of Income.

A reconciliation of our business segment total assets to total assets in the Condensed Consolidated Balance Sheet is as follows:

(Dollars in thousands)	June 30, 2018	December 31, 2017
Total assets:		
Resource ¹	\$ 1,725,559	\$ 670,240
Wood Products	457,370	154,479
Real Estate ²	89,595	—
	2,272,524	824,719
Corporate	124,625	128,360
Total consolidated assets	\$ 2,397,149	\$ 953,079

¹ We do not report rural real estate separate from Resource as we do not report these assets separately to management.

² Real Estate assets primarily consist of real estate development acquired with the Deltic merger.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Information

This report contains, in addition to historical information, certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including without limitation, expected \$50 million in annual synergies and operational improvements by 2019, fair value of hedging instruments and swaps, expected return on pension assets, recognition of compensation costs relating to our performance shares and RSUs, the distribution of Deltic's earnings and profits prior to December 31, 2018, required contributions to pension plans, expected amortization of unrecognized compensation cost of performance share awards and RSUs, payment of accrued termination benefits within one year, the U.S. housing market, expected improvement in Southern sawlog prices, 2018 capital expenditures and similar matters. Words such as "anticipate," "expect," "will," "intend," "plan," "target," "project," "be," "seek," "schedule," "estimate," "could," "can," "may" and similar expressions are intended to identify such forward-looking statements. These forward-looking statements reflect our current views regarding future events based on estimates and assumptions and are therefore subject to known and unknown risks and uncertainties and are not guarantees of future performance. Our actual results of operations could differ materially from our historical results or those expressed or implied by forward-looking statements contained in this report. Important factors that could cause or contribute to such differences include, but are not limited to, the following:

- changes in the United States and international economies;
- changes in interest rates and discount rates;
- changes in the level of residential and commercial construction and remodeling activity;
- changes in tariffs, quotas and trade agreements involving wood products;
- changes in demand for our products;
- changes in production and production capacity in the forest products industry;
- competitive pricing pressures for our products;
- unanticipated manufacturing disruptions;
- weather;
- transportation disruptions; and
- our ability to successfully realize the expected benefits from the merger with Deltic.

For a discussion of some of the factors that may affect our business, results and prospects and a nonexclusive listing of forward-looking statements, refer to Cautionary Statement Regarding Forward-Looking Information on page 1 and Risk Factors in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2017.

Forward-looking statements contained in this report present our views only as of the date of this report. Except as required under applicable law, we do not intend to issue updates concerning any future revisions of our views to reflect events or circumstances occurring after the date of this report.

Non-GAAP Measures

To supplement our financial statements presented in accordance with generally accepted accounting principles in the United States (GAAP), we use certain non-GAAP measures on a consolidated basis, including Cash Available for Distribution, (CAD) and Adjusted EBITDDA, which are defined and further explained in Performance and Liquidity Measures below. A reconciliation of such measures to the nearest GAAP measures can also be found in Performance and Liquidity Measures below. Refer to Note 17: Segment Information of the condensed consolidated financial statements for information related to the use of segment Adjusted EBITDDA and a reconciliation of such measures as required by GAAP. Our definitions of these non-GAAP measures may differ from similarly titled measures used by others. These non-GAAP measures should be considered supplemental to and not a substitute for, financial

information prepared in accordance with GAAP.

24

Our Company

We are a leading timberland real estate investment trust (REIT) with operations in seven states where we own nearly two million acres of timberland, six sawmills, an industrial grade plywood mill, a medium density fiberboard plant and real estate development projects. Our business is organized into three business segments: Resource, Wood Products and Real Estate. Our Resource segment supplies our Wood Products segment with a portion of its wood fiber needs. These intersegment revenues are based on prevailing market prices and typically represent a significant portion of the Resource segment's total revenues. Our other segments generally do not generate intersegment revenues.

In our discussions of consolidated results of operations, our revenues are reported after elimination of intersegment revenues. In our discussion by business segment, each segment's revenues are presented before the elimination of intersegment revenues.

The operating results of our Resource, Wood Products and Real Estate business segments have been and will continue to be influenced by a variety of factors, including cyclical fluctuations in the forest products industry, changes in timber prices and in harvest levels from our timberlands, weather conditions, competition, timberland valuations, demand for our non-strategic timberland for higher and better use purposes, changes in lumber and panel prices, the efficiency and level of capacity utilization of our wood products manufacturing operations, changes in our principal expenses such as log costs, asset or business acquisitions or dispositions and other factors.

Merger with Deltic

On October 22, 2017, Potlatch, Portland Merger, LLC, a wholly owned subsidiary of Potlatch, and Deltic entered into an Agreement and Plan of Merger (Merger Agreement). At the effective time on February 20, 2018, Deltic merged into Portland Merger, LLC, with Portland Merger, LLC continuing as the surviving entity. Following the merger, Potlatch Corporation was renamed PotlatchDeltic Corporation (PotlatchDeltic). See Note 3: Merger with Deltic for additional details surrounding the merger.

Synergies

PotlatchDeltic has identified a target of \$50 million in annual CAD synergies arising from the merger with Deltic. The \$50 million annual synergy run rate is expected to be achieved by 2019. Synergies are being tracked in four categories: 1) increased sustainable harvest; 2) expanded lumber production; 3) REIT tax savings; and 4) lower selling, general and administrative expenses and other improvements. The following table summarizes the target savings.

	Target Savings	Run Rate Savings to Date	Description
(Dollars in millions)			
Sustainable harvest	\$ 10	\$ 10	Increased harvest to sustainable levels in line with industry standards
Expanded lumber production	18	13	Lumber production gains from capital investments in additional drying capacity, increased operating hours and additional improvements
REIT tax savings	7	7	Qualified Deltic assets taxed as a REIT
SG&A and other	15	10	Personnel reductions, system and process integration along with a number of small operational improvements
	\$ 50	\$ 40	

Business and Economic Trends

The demand for timber is directly affected by the underlying demand for lumber and other wood-products, as well as by the demand for pulp, paper and packaging. Our Resource and Wood Products segments are impacted by demand for new homes in the United States housing market and by repair and remodeling activity.

During the second quarter of 2018, new home demand and repair and remodeling activity continued to reflect moderate improvement supported by low unemployment, wage growth, household formation and consumer confidence. The millennial generation has started to form households and have children, which combined with the favorable economic backdrop, should support an ongoing recovery in new single-family home construction.

Increased lumber demand coupled with transportation issues pushed lumber prices higher and contributed to our strong results in Wood Products. We index a significant portion of our Idaho sawlogs to the price of lumber under long-term supply agreements. The Northern region of the Resource segment saw favorable log pricing as a result of the strength in lumber markets. The Southern region of the Resource segment has seen pine sawlog prices remain at relatively low

levels as markets continue to have ample log availability to meet growing demand. However, new lumber capacity and continued demand growth should begin to narrow the supply-demand gap over time.

Consolidated Results

The following table sets forth changes in our Consolidated Statements of Income. Our Business Segment Results provide a more detailed discussion of our segments.

(Dollars in thousands)	Three Months Ended June 30,			Six Months Ended June 30,

¹ See Performance and Liquidity Measures for a reconciliation of Adjusted EBITDDA to net income, the closest comparable GAAP measure, for each of the periods presented.

Second Quarter 2018 Results Compared with Second Quarter 2017

Revenues

Revenues were \$268.2 million, an increase of \$105.0 million, or 64%, compared with the same period in 2017. Excluding \$80.0 million of revenues attributable to acquired Deltic operations, revenue increased \$25.0 million, or 15%, primarily due to higher realizations on sawlogs stemming from the effect of higher lumber prices on indexed Idaho sawlogs, higher lumber volumes and more acres sold, including 8,000 acres of non-strategic timberlands in Minnesota to a conservation entity for \$900 per acre.

Cost of goods sold

Cost of goods sold increased \$69.6 million, or 62%, compared with the same period in 2017. Excluding \$60.7 million of cost of goods sold attributed to acquired Deltic operations, cost of goods sold increased \$8.9 million, primarily due to higher per unit log costs for Wood Products in the Northern region and increased depletion rates in the South due to the merger.

Depletion, depreciation and amortization increased primarily due to the following:

• Depletion increased \$8.1 million due to the addition of Deltic's harvest volumes that were not present during the three months ended June 30, 2017. Excluding the impact of Deltic harvest volumes, depletion increased \$2.1 million

compared with the same period in the prior year due to increased depletion rates in the South. As we calculate depletion in a Southern depletion pool which includes both Potlatch and Deltic timberlands, depletion expense increased approximately 75% for harvesting activities on legacy Potlatch timberlands in the South as a result of the merger.

• Depreciation increased \$4.3 million primarily from the addition of Deltic's two sawmills and the MDF plant.

• Excluding the impact of Deltic, the basis of land sold was \$1.1 million and \$1.0 million for the 3 months ended June 30, 2018 and 2017, respectively.

Selling, general and administrative expenses

Selling, general and administrative (SG&A) expenses for second quarter 2018 were \$16.9 million compared with \$13.1 million during the same period in 2017. The increase includes \$2.9 million of SG&A expenses attributable to acquired Deltic operations and \$0.9 million attributable to higher administrative costs as part of the integration. These costs are expected to decline once the integration is complete.

Deltic merger-related costs

Merger-related costs for the second quarter 2018 were \$1.0 million. This included \$0.4 million in merger costs for various professional fees including legal fees, accounting and appraisal fees. Restructuring costs were \$0.6 million, consisting primarily of costs associated with systems integration.

Interest expense, net

Interest expense was \$9.4 million, compared with \$7.3 million for the same period in 2017. The \$2.1 million increase was primarily due to the \$230 million in long-term debt assumed or refinanced in connection with the Deltic merger. Refer to Note 8: Debt for a more detailed discussion of our borrowings.

Income tax provision

Provision for income taxes for the second quarter 2018 was \$12.0 million compared with \$9.2 million for the prior year period. Income taxes are primarily due to income or loss from our taxable REIT subsidiaries (TRS). For the three months ended June 30, 2018, the TRS's income before income tax was \$46.1 million. For the same time last year, the TRS's income before income tax was \$25.9 million. The increase in the TRS's income before income tax was primarily the result of higher lumber prices and the acquired Deltic wood products operations.

On December 22, 2017, the Tax Act was enacted, which contained significant changes to corporate taxation, including the reduction of the corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. The primary impact of the Tax Act provisions in 2018 was a reduction to our TRS's effective tax rate, resulting in \$4.4 million in lower taxes in the second quarter of 2018.

Adjusted EBITDDA

Adjusted EBITDDA for second quarter 2018 was \$94.2 million, an increase of \$48.1 million or 104% compared with the same period in 2017. Excluding \$30.8 million of Adjusted EBITDDA attributable to acquired Deltic Operations, Adjusted EBITDDA increased \$17.3 million, or 38%, from the same period in 2017. The increase in Adjusted EBITDDA, excluding Deltic, was driven primarily by higher realizations on sawlogs due to the effect of higher lumber prices on indexed Idaho sawlogs, higher lumber volumes and 8,000 acres of non-strategic timberland sales to a conservation entity described above. Refer to the Business Segments Results below for further discussions on activities for each of our segments.

See Performance and Liquidity Measures for a reconciliation of Adjusted EBITDDA to net income, the closest comparable GAAP measure, for each of the periods presented.

Year to Date 2018 Results Compared with Year to Date 2017

Revenues

Revenues were \$468.1 million, an increase of \$155.2 million, or 50%, compared with the same period in 2017.

Excluding \$108.9 million of revenues attributable to acquired Deltic operations, revenue increased \$46.3 million, or 15%, primarily due to higher realizations on sawlogs due to the effect of higher lumber prices on indexed Idaho sawlogs, higher lumber volumes and increased land sales for the period.

Cost of goods sold

Cost of goods sold increased \$96.2 million, or 43%, compared with the same period in 2017. Excluding \$86.5 million of cost of goods sold attributed to acquired Deltic operations, cost of goods sold increased \$9.7 million, primarily due to higher per unit log costs for Wood Products and increased depletion rates in the South due to the merger.

Depletion, depreciation and amortization increased primarily due to the following:

• Depletion increased \$11.0 million due to the addition of Deltic's harvest volumes for 129 days in the current year period that were not present in the prior year. Excluding the impact of Deltic harvest volumes, depletion increased

27

\$3.3 million compared with the same period in the prior year primarily due to increased harvest activities in the North due to favorable hauling conditions and increased depletion rates in the South due to the merger.

• Depreciation increased \$6.0 million primarily from the addition of Deltic's two sawmills and the MDF plant.

• Excluding the impact of Deltic, the basis of land sold decreased \$2.3 million due to the mix of sales compared with the same prior period in 2017.

• At the merger date, Deltic's lumber and panel inventory was recorded at fair value, resulting in \$1.8 million of additional cost of goods sold from the sale of the inventory.

Selling, general and administrative expenses

Selling, general and administrative (SG&A) expenses for the six months ended June 30, 2018 were \$30.5 million compared with \$24.4 million during the same period in 2017. The increase includes \$4.7 million of SG&A expenses attributable to acquired Deltic operations and \$1.4 million attributable to higher administrative costs as part of the integration, which are expected to decline once the integration is complete.

Deltic merger-related costs

Merger-related costs for the six months ended June 30, 2018 were \$20.3 million. This included \$10.6 million in merger costs for investment banking fees, legal fees, accounting and appraisal fees and other costs related to filing the joint proxy/prospectus for the merger. Restructuring costs were \$9.7 million, consisting primarily of termination benefits, which included accelerated share-based payment costs for qualifying terminations.

Interest expense, net

Interest expense was \$15.0 million, compared with \$12.3 million for the same period in 2017. The \$2.7 million increase was primarily due to the \$230 million in long-term debt assumed or refinanced in connection with the Deltic merger. Refer to Note 8: Debt for a more detailed discussion of our borrowings.

Income tax provision

Provision for income taxes for the six months ended June 30, 2018 was \$17.7 million compared with \$11.2 million for the prior year period. Income taxes are primarily due to income or loss from our taxable REIT subsidiaries (TRS). For the six months ended June 30, 2018, the TRS's income before income tax was \$69.1 million. For the same time last year, the TRS's income before income tax was \$31.6 million. The increase in the TRS's income before income tax was primarily the result of higher lumber prices and the acquired Deltic wood products operations.

On December 22, 2017, the Tax Act was enacted, which contained significant changes to corporate taxation, including the reduction of the corporate tax rate from 35 percent to 21 percent, effective January 1, 2018. The primary impact of the Tax Act provisions in 2018 was a reduction to our TRS's effective tax rate, resulting in \$6.5 million in lower taxes in the six months ended June 30, 2018.

Adjusted EBITDDA

Adjusted EBITDDA for six months ended June 30, 2018 was \$158.9 million, an increase of \$75.9 million or 92% compared with the same period in 2017. The increase in Adjusted EBITDDA was driven primarily by increased Southern harvests and wood products volumes due to the addition of Deltic operations, higher lumber pricing and higher realization on Northern sawlogs. Excluding \$39.5 million of Adjusted EBITDDA attributable to acquired Deltic operations, Adjusted EBITDDA increased \$36.4 million, or 44%, from the same period in 2017. The increase in Adjusted EBITDDA, excluding Deltic, was driven primarily by higher realizations on sawlogs due to the effect of higher lumber prices on indexed Idaho sawlogs, higher lumber volumes, lumber prices and increased acres sold. Refer

to the Business Segments Results below for further discussions on activities for each of our segments.

See Performance and Liquidity Measures for a reconciliation of Adjusted EBITDDA to net income, the closest comparable GAAP measure, for each of the periods presented.

²Management uses Adjusted EBITDDA to evaluate the performance of the company. See Note 17: Segment Information.

Adjusted EBITDDA

The following table summarizes Adjusted EBITDDA variances for three and six months ended June 30, 2018, compared with the three and six months ended June 30, 2017.

(Dollars in thousands)	Three Months Ended	Six Months Ended
Adjusted EBITDDA June 30, 2017	\$23,823	\$43,166
Volume - Northern	4,744	13,710
Price / mix - Northern	6,489	14,785
Volume-Southern	21,952	29,510
Price / mix - Southern	2,764	2,184
Logging and hauling costs	(13,826)	(20,733)
Other forestry costs	(2,583)	(1,844)
Selling general and administrative expenses	(309)	(526)
Other costs, net	637	1,136
Adjusted EBITDDA June 30, 2018	\$43,691	\$81,388

Upon our merger with Deltic, we acquired approximately 530,000 acres of timberland, primarily in Arkansas. The revenues and Adjusted EBITDDA associated with these additional acres from the merger date through the end of second quarter 2018 are included in the results of our Resource segment. Results include other ancillary benefits from land ownership, such as revenues from hunting leases and oil and gas royalties.

Second Quarter 2018 Results Compared with Second Quarter 2017

Segment Adjusted EBITDDA for the second quarter of 2018 was \$43.7 million, an increase of \$19.9 million, or 83%, compared with the same period in 2017. The increase in Adjusted EBITDDA is a primarily the result of the following:

Northern increased \$4.7 million due primarily to a 43,710 ton increase in the volume of sawlogs harvested. In addition, prices increased \$16 per ton, or 14%, compared to the same prior period in 2017 which resulted in a \$6.5 million increase in segment Adjusted EBITDDA. The price increase reflects the effect of higher lumber prices on indexed Idaho sawlog volumes.

Southern increased \$22.0 million in volume sold and \$2.8 million in pricing primarily due to the addition of a full quarter of Deltic operations which were not present in the same period in 2017. We harvested 1.1 million tons in the South during the second quarter of 2018 which was up 145% compared to the same period in 2017. Our sawlog prices were \$43 per ton for the three months ended June 30, 2018 compared to \$39 per ton for the three months ended June 30, 2017. The increase in price per ton was primarily due to harvesting more valuable large diameter Deltic sawlogs and a more favorable mix of higher priced hardwood sawlogs.

These increases were partially offset by the following:

Logging and hauling costs increased \$13.8 million primarily due to the higher harvest volumes in the South and the North.

29

Other forestry costs increased \$2.6 million primarily due to the addition of the Deltic operations.
Year to Date 2018 Results Compared with Year to Date 2017

Adjusted EBITDDA for the six months ended June 30, 2018 was \$81.4 million, an increase of \$38.2 million, or 88%, compared with the same period in 2017. The increase in Adjusted EBITDDA is primarily the result of the following:

Northern increased \$13.7 million due primarily to a 138,388 ton increase in the volume of sawlogs harvested. In addition, prices increased \$18 per ton, or 18%, compared to the same prior period in 2017 which resulted in a \$14.8 million increase in segment Adjusted EBITDDA. The price increase reflects the effect of higher lumber prices on indexed Idaho sawlog volumes.

Southern increased \$29.5 million in volume sold and \$2.2 million in pricing primarily due to the addition of Deltic operations for 129 days during 2018 which were not present in the same period in 2017. We harvested 1.8 million tons in the South during the six months ended 2018 which was up 94% compared to the same period in 2017. Our sawlog prices were \$42 per ton for the six months ended June 30, 2017 compared to \$40 per ton for the six months ended June 30, 2017. The increase in price per ton was primarily due to harvesting more valuable large diameter Deltic sawlogs and a more favorable mix of higher priced hardwood sawlogs.

These increases were partially offset by the following:

Logging and hauling costs increased \$20.7 million primarily due to the higher harvest volumes in the South and the North.

Other forestry costs increased \$1.8 million primarily due to the addition of the Deltic operations.

Freight, logging and hauling - lumber	(5,258)	(8,244)
Finished goods inventory change - lumber	5,118	6,771
Cost of sales	(12,669)	(16,016)
Selling general and administrative expenses	(743)	(1,250)
Adjusted EBITDDA June 30, 2018	\$51,566	\$80,516

Upon the with Deltic merger, we acquired two sawmills and one medium density fiberboard (MDF) plant in Arkansas. The sales and Adjusted EBITDDA of these facilities from the merger date to the end of the second quarter 2018 are included in the results of our Wood Products segment.

Second Quarter 2018 Results Compared with Second Quarter 2017

Adjusted EBITDDA for second quarter 2018 was \$51.6 million, an increase of \$28.1 million, or 119%, compared with the prior year period. The increase in Adjusted EBITDDA is primarily the result of the following:

• Lumber shipments increased 69.5 million board feet to 259.2 million board feet in the second quarter of 2018 compared to 189.8 million board feet in the second quarter of 2017. The increase is primarily due to the addition of the Deltic mills. Lumber sales prices increased 20% to \$517 per MBF compared with \$431 per MBF during the same period in 2017 due to stronger demand coupled with industry supply constraints including transportation challenges experienced by Canadian lumber mills.

• The contribution of panels increased \$4.0 million due to the addition of the Deltic MDF plant as well as strong demand and pricing for industrial grade plywood.

Residuals and other contributed \$6.7 million more primarily due to the addition of the Deltic sawmills.

Lumber inventories increased due primarily to the addition of the two Deltic sawmills. In addition, we experienced truck and rail shipping challenges in the second quarter of 2018 which delayed shipment of approximately 16 million board feet of lumber. We expect to catch up on lumber shipments in the second half of 2018.

These increases were partially offset by the following:

Costs incurred by the sawmills for logs and freight, logging and hauling increased \$21.1 million and \$5.3 million, respectively, primarily due to the higher lumber shipment volumes.

Other lumber costs of sales increasing \$12.7 million due primarily to the addition of the two Deltic sawmills during 2018.

Year to Date 2018 Results Compared with Year to Date 2017

Adjusted EBITDDA for the six months ended June 30, 2018 was \$80.5 million, an increase of \$46.3 million, or 135%, compared with the prior year period. The increase in Adjusted EBITDDA is a primarily the result of the following:

Lumber shipments increased 106.1 million board feet to 463.4 million board feet during the six months ended June 30, 2018 compared to 357.3 million board feet in comparable prior period of 2017. The increase is primarily due to the addition of the Deltic mills. Lumber sales prices increased 21% to \$495 per MBF compared with \$410 per MBF during the same period in 2017 due to stronger demand coupled with industry supply constraints including transportation challenges experienced by Canadian lumber mills.

The contribution of panels increased \$7.0 million due to the addition of the Deltic MDF plant as well as strong demand and pricing for industrial grade plywood.

Residuals and other contributed \$10.0 million more primarily due to the addition of the Deltic sawmills.

Lumber inventories increased due primarily to the addition of the two Deltic sawmills. In addition, we experienced truck and rail shipping challenges in the second quarter of 2018 which delayed shipment of approximately 16 million board feet of lumber. We expect to catch up on lumber shipments in the second half of 2018.

These increases were partially offset by the following:

Costs incurred by the sawmills for logs and freight, logging and hauling increased \$33.9 million and \$8.2 million, respectively, primarily due to the addition of the two Deltic lumber mills and increased lumber shipments.

•

Other lumber costs of sales increasing \$16.0 million due primarily to the lumber shipment volumes and the addition of the two Deltic sawmills during 2018.

The following table summarizes Adjusted EBITDDA variances for the three and six months ended June 30, 2018 compared with the three and six months ended June 30, 2017.

(Dollars in thousands)	Three Months Ended	Six Months Ended
Adjusted EBITDDA June 30, 2017	\$6,779	\$20,239
Rural real estate sales	4,533	(1,138)
Real estate development sales	1,876	3,095
Selling, general and administrative expenses	(263)	(681)
Other costs, net	(625)	(1,213)
Adjusted EBITDDA June 30, 2018	\$12,300	\$20,302

Upon the Deltic merger, we acquired an established real estate development project in Little Rock, Arkansas known as Chenal Valley. The revenues and Adjusted EBITDDA of this operation from the merger date to the end of the second quarter are included in the results of our Real Estate segment.

Second Quarter 2018 Results Compared with Second Quarter 2017

Adjusted EBITDDA for the second quarter of 2018 was \$12.3 million, an increase of \$5.5 million, or 81%, compared with the same period in 2017. The increase in Adjusted EBITDDA is a primarily the result of the following:

- An increase in rural real estate sales of approximately \$4.5 million compared to the prior period of 2017. The increase in rural sales includes an 8,000 acre sale of non-strategic timberlands in Minnesota to a conservation entity for \$900 per acre. This 8,000 acre sale represents about one fifth of a larger multi-year option involving this entity and state and federal agencies that use conservation funding to purchase land holdings.

- Real estate development sales of 13 residential lot at an average price of \$74,000 per lot in the Chenal Valley development.

These increases were partially offset by the following:

- The average price per acre of rural real estate declining \$409 per acre primarily as a result of less HBU and recreational real estate in the sales mix during the three months ended June 30, 2018 compared to the prior period in 2017. The average price per acre fluctuates based on both the geographic area of the real estate and product mix.

- Selling, general and administrative expenses and other expenses increasing primarily due to the addition of the real estate development and Chenal Country Club activities in 2018 following the Deltic merger.

Year to Date 2018 Results Compared with Year to Date 2017

Adjusted EBITDDA for the six months ended 2018 was \$20.3 million compared with \$20.2 million for the same period in 2017. The increase in Adjusted EBITDDA is a primarily the result of the following:

- Rural real estate sales declined \$1.1 million compared with the same period in 2017. This decrease is mainly a result of the mix of sales with less HBU and recreational real estate sales during the six months ended June 30, 2018

compared to the prior period of 2017. The average price per acre fluctuates based on both the geographic area of the real estate and product mix.

Real estate development sales consisted of 25 residential lot at an average price of \$86,000 per lot in the Chenal Valley development.

Selling, general and administrative expenses and other expenses increasing primarily due to the addition of the real estate development and Chenal Country Club activities in 2018 following the Deltic merger.

Edgar Filing: POTLATCHDELTIC CORP - Form 10-Q

Liquidity and Capital Resources

Overview

As of June 30, 2018, our cash and cash equivalents were \$125.7 million, an increase of \$5.3 million from December 31, 2017. The increase in cash and cash equivalents was primarily the result of an increase in cash generated by operations due to stronger lumber prices, partially offset by debt repayments and higher dividend payments.

Net Cash from Operations

Net cash provided from operating activities was \$95.4 million for the first half of 2018, compared with \$79.4 million in the first half of 2017. This \$16.0 million increase in net cash provided by operating activities was primarily attributable to \$129.4 million of additional cash received from customers, partially offset by \$87.6 million cash paid to our suppliers.

In addition to the increased cash received from our customers and increased payments to suppliers in 2018 compared to 2017, cash provided by operating activities in 2018 was affected by:

- Cash payments of \$19.7 million associated with the \$20.3 million of merger expense.
- Cash contributions to our qualified pension plans of \$8.1 million. There were no qualified contributions during the first six months of 2017.
- An increase in cash interest payments of \$3.2 million, primarily due to debt assumed in connection with the Deltic merger.

Net Cash Flows from Investing Activities

Net cash used in investing activities was \$14.7 million for the six months ended June 30, 2018, compared with \$14.9 million used in 2017.

- For the six months ended June 30, 2018, we used \$18.7 million for capital expenditures primarily in our Wood Products and Resource segments. This was partially offset by cash acquired from the merger with Deltic of \$3.4 million.

Net Cash Flows from Financing Activities

Net cash used in financing activities was \$75.4 million and \$36.7 million for the six months ended June 30, 2018 and 2017, respectively.

In the first half of 2018, we repaid a net \$20.3 million of long-term debt and revolving line of credit, as well as paid \$2.4 million in loan fees.

Dividends to stockholders were \$50.2 million, compared with \$30.5 million paid in the first half of 2017. Our quarterly dividend increased approximately \$10.0 million due to the issuance of approximately 22.0 million additional shares related to the merger, and the increase of our quarterly dividend from \$0.375 per share to \$0.40 per share starting in December 2017.
