**Textron is segregated into a Manufacturing group and a Finance group, as described in Note 1 to the consolidated financial statements. The Finance group's pre-tax income in excess of dividends paid is excluded from the Manufacturing group's cash flows. All significant transactions between the borrowing groups have been eliminated from the consolidated column provided on page 5.*

See Notes to the consolidated financial statements.

6.

TEXTRON INC.
Notes to the Consolidated Financial Statements (Unaudited)

Note 1: Basis of Presentation

The consolidated interim financial statements included in this quarterly report should be read in conjunction with the consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 30, 2006. In the opinion of management, the interim financial statements reflect all adjustments (consisting only of normal recurring adjustments) that are necessary for the fair presentation of our consolidated financial position, results of operations and cash flows for the interim periods presented. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year.

Our financings are conducted through two separate borrowing groups. The Manufacturing group consists of Textron Inc., consolidated with the entities that operate in the Bell, Cessna and Industrial segments, while the Finance group consists of the Finance segment, comprised of Textron Financial Corporation and its subsidiaries. We designed this framework to enhance our borrowing power by separating the Finance group. Our Manufacturing group operations include the development, production and delivery of tangible goods and services, while our Finance group provides financial services. Due to the fundamental differences between each borrowing group's activities, investors, rating agencies and analysts use different measures to evaluate each group's performance. To support those evaluations, we

7

present balance sheet and cash flow information for each borrowing group within the consolidated financial statements. All significant intercompany transactions are eliminated from the consolidated financial statements, including retail and wholesale financing activities for inventory sold by our Manufacturing group that is financed by our Finance group.

Note 2: Inventories

<i>(In millions)</i>	June 30, 2007	December 30, 2006
Finished goods	\$ 785	\$ 665
Work in process	1,794	1,562
Raw materials	463	435
	3,042	2,662
Less progress/milestone payments	524	593
	\$ 2,518	\$ 2,069

Note 3: Finance Receivables

In the first quarter of 2007, we adopted Financial Accounting Standards Board (“FASB”) Staff Position No. 13-2 “Accounting for a Change or Projected Change in the Timing of Cash Flows Relating to Income Taxes Generated by a Leveraged Lease Transaction” (“FSP 13-2”). FSP 13-2 requires a recalculation of returns on leveraged leases if there is a change or projected change in the timing of cash flows related to income taxes generated by the leveraged leases. The impact of any estimated change in projected cash flows must be reported as an adjustment to the net leveraged lease investment and retained earnings at the date of adoption. Our Finance group has leveraged leases with an initial investment balance of \$209 million that we estimate could be impacted by changes in the timing of cash flows related to income taxes. Upon the adoption, we reduced retained earnings for the \$33 million cumulative effect of a change in accounting principle, and reduced our investment in these leveraged leases by \$50 million and deferred income tax liabilities by \$17 million.

7.

Note 4: Comprehensive Income

Our comprehensive income for the periods is provided below:

<i>(In millions)</i>	Three Months Ended		Six Months Ended	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Net income	\$ 210	\$ 69	\$ 406	\$ 237
Other comprehensive income:				
Currency translation adjustment	27	-	29	(3)
Net deferred gain on hedge contracts	27	12	22	14
Recognition of prior service cost and unrealized losses on pension and postretirement benefits	14	-	29	-
Other	(1)	(4)	-	(2)
Comprehensive income	\$ 277	\$ 77	\$ 486	\$ 246

Note 5: Earnings per Share

We calculate basic and diluted earnings per share based on income available to common shareholders, which approximates net income for each period. We use the weighted-average number of common shares outstanding during the period for the computation of basic earnings per share. Diluted earnings per share includes the dilutive effect of convertible preferred shares, stock options and restricted stock in the weighted-average number of common shares outstanding.

The weighted-average shares outstanding for basic and diluted earnings per share are as follows:

<i>(In thousands)</i>	Three Months Ended		Six Months Ended	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Basic weighted-average shares outstanding	124,851	128,453	125,013	129,185
Dilutive effect of convertible preferred shares, stock options and restricted stock	2,285	2,841	2,357	2,817
Diluted weighted-average shares outstanding	127,136	131,294	127,370	132,002

Note 6: Share-Based Compensation

The compensation expense we recorded in net income for our share-based compensation plans is as follows:

<i>(In millions)</i>	Three Months Ended		Six Month Ended	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Compensation expense, net of hedge income or expense	\$ 28	\$ 18	\$ 41	\$ 40
Income tax benefit	(17)	(5)	(19)	(18)
Total net compensation cost included in net income	\$ 11	\$ 13	\$ 22	\$ 22
Net compensation costs included in discontinued operations	\$ -	\$ 1	\$ -	\$ 2
Net compensation costs included in continuing operations	\$ 11	\$ 12	\$ 22	\$ 20

8.

Stock option activity under the 1999 Long-Term Incentive Plan for the six months ended June 30, 2007 is as follows:

	Number of Options <i>(In thousands)</i>	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Life <i>(In years)</i>	Aggregate Intrinsic Value <i>(In millions)</i>
Outstanding at beginning of year	5,420	\$ 63.77		
Granted	929	91.70		
Exercised	(1,159)	59.25		
Canceled, expired or forfeited	(65)	78.25		
Outstanding at end of period	5,125	\$ 69.67	6.52	\$ 104
Exercisable at end of period	3,275	\$ 59.49	5.12	\$ 99

There were no significant issuances of stock options in the second quarter of 2007 or 2006.

Note 7: Retirement Plans

Edgar Filing: TEXTRON INC - Form 10-Q

We provide defined benefit pension plans and other postretirement benefits to eligible employees. The components of net periodic benefit cost for these plans for the three months ended June 30, 2007 and July 1, 2006 are as follows:

<i>(In millions)</i>	Pension Benefits		Postretirement Benefits Other Than Pensions	
	2007	2006	2007	2006
Service cost	\$ 34	\$ 36	\$ 2	\$ 3
Interest cost	73	69	11	10
Expected return on plan assets	(99)	(96)	-	-
Amortization of prior service cost (credit)	5	4	(1)	(2)
Amortization of net loss	12	12	5	5
Net periodic benefit cost	\$ 25	\$ 25	\$ 17	\$ 16

The components of net periodic benefit cost for the six months ended June 30, 2007 and July 1, 2006 are as follows:

<i>(In millions)</i>	Pension Benefits		Postretirement Benefits Other Than Pensions	
	2007	2006	2007	2006
Service cost	\$ 67	\$ 71	\$ 4	\$ 5
Interest cost	146	138	21	20
Expected return on plan assets	(198)	(192)	-	-
Amortization of prior service cost (credit)	9	9	(2)	(3)
Amortization of net loss	25	24	11	11
Net periodic benefit cost	\$ 49	\$ 50	\$ 34	\$ 33

Note 8: Income Taxes

We adopted the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes – An Interpretation of FASB Statement No. 109" ("FIN 48") at the beginning of fiscal 2007, which resulted in an increase of approximately \$22 million to our December 31, 2006 retained earnings balance. FIN 48 provides a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in income tax returns. Unrecognized tax benefits represent tax positions for which reserves have been established.

9.

As of the date of adoption, our unrecognized tax benefits totaled approximately \$356 million, of which \$225 million in benefits, if recognized, would favorably affect our effective tax rate in any future period. The remaining \$131 million in unrecognized tax benefits are related to discontinued operations. We do not believe that it is reasonably possible that our estimates of unrecognized tax benefits will change significantly in the next 12 months.

We conduct business globally and, as a result, file numerous consolidated and separate income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. In the normal course of business, we are subject to examination by taxing authorities throughout the world, including such major jurisdictions as Belgium, Canada, Germany, the United Kingdom and the U.S. With few exceptions, we are no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations for years before 1997 in these major jurisdictions.

We recognize interest and penalties related to unrecognized tax benefits in income tax expense in our consolidated statements of operations. At the date of adoption, we had \$77 million of accrued interest included in other liabilities on our consolidated balance sheet.

Note 9: Commitments and Contingencies

We are subject to legal proceedings and other claims arising out of the conduct of our business, including proceedings and claims relating to private sector transactions; government contracts; compliance with applicable laws and regulations; production partners; product liability; employment; and environmental, safety and health matters. Some of these legal proceedings and claims seek damages, fines or penalties in substantial amounts or remediation of environmental contamination. As a government contractor, we are subject to audits, reviews and investigations to determine whether our operations are being conducted in accordance with applicable regulatory requirements. Under federal government procurement regulations, certain claims brought by the U.S. Government could result in our being suspended or debarred from U.S. Government contracting for a period of time. On the basis of information presently available, we do not believe that existing proceedings and claims will have a material effect on our financial position or results of operations.

In connection with the 2002 recall of certain of our Lycoming turbocharged airplane engines, a former third-party supplier filed a lawsuit against Lycoming claiming that the former supplier had been wrongly blamed for aircraft engine failures resulting from its crankshaft forging process and that Lycoming's design was the cause of the engine failures. In February 2005, a jury returned a verdict against Lycoming for \$86 million in punitive damages, \$2.7 million in expert fees and \$1.7 million in increased insurance costs. The jury also found that the former supplier's claim that it had incurred \$5.3 million in attorneys' fees was reasonable. Judgment was entered on the verdict on March 29, 2005, awarding the former supplier \$9.7 million in alleged compensatory damages and attorneys' fees and \$86 million in alleged punitive damages. While the ultimate outcome of the litigation cannot be assured, management strongly disagrees with the verdict and believes that it is probable that the verdict will be reversed through the appellate process.

The Internal Revenue Service ("IRS") has challenged both the ability to accelerate the timing of tax deductions and the amounts of those deductions related to certain leveraged lease transactions within the Finance segment. These transactions, along with other transactions with similar characteristics, have an initial investment of approximately \$209 million. Resolution of these issues may result in an adjustment to the timing of taxable income and deductions that reduce the effective yield of the leveraged lease transactions. In addition, resolution of these issues could result in the acceleration of cash payments to the IRS. Deferred tax liabilities of \$172 million are recorded on our consolidated balance sheet related to these leases at June 30, 2007. We believe that the proposed IRS adjustments are inconsistent with the tax law in existence at the time the leases were originated and intend to vigorously defend our position.

Armed Reconnaissance Helicopter Program

Bell Helicopter is performing under a U.S. Government contract for System Development and Demonstration ("SDD") of the Armed Reconnaissance Helicopter ("ARH"). In March 2007, we received correspondence from the U.S. Government that indicated limitations of funding on the ARH SDD contract. Accordingly, in the first quarter of 2007 we provided for losses of \$25 million related to the ARH program, consisting of \$7 million in SDD costs and supplier obligations which exceeded the original SDD contract funding limit and \$18 million in supplier obligations incurred in the first quarter for long-lead, low-rate initial production ("LRIP") ARH component production.

10.

In the second quarter of 2007, the Army agreed to re-plan the ARH program and we reached a non-binding memorandum of understanding ("MOU") related to aircraft specifications, pricing methodology and delivery schedules for 62 LRIP aircraft in two lots. The re-planned program also included additional funding for SDD costs through the end of the second quarter of 2007, which resulted in recovery of the \$7 million in SDD costs previously expensed in the first quarter. Further, we have agreed to conduct additional SDD activities on a funded-basis.

Based on the plan outlined in the MOU and our related estimates of aircraft production costs, including costs related to risks associated with achieving learning curve and schedule assumptions, it is our best estimate at this time that we will lose approximately \$73 million on the production of the 62 LRIP aircraft. Accordingly, a net charge of \$48 million was recorded in the second quarter, reflecting an additional charge of \$55 million for LRIP-related costs, offset by the \$7 million of SDD cost recovery. We anticipate that the contract awards will be finalized beginning in 2008, and we expect that these awards will be based on the terms outlined in the MOU.

The U.S. Government continues to have an option related to production of 18 to 36 aircraft under the original ARH program. However, it is unlikely that the option would be exercised before its term expires in December 2007 due to certain additional development requirements under the SDD contract that must be met before the option can be exercised. As a result, the U.S. Government has agreed in the MOU to include the units under this option within the 62 LRIP aircraft specified in the MOU.

Note 10: Guarantees and Indemnifications

As disclosed under the caption “Guarantees and Indemnifications” in Note 17 to the consolidated financial statements in our 2006 Annual Report on Form 10-K, we have issued or are party to certain guarantees. As of June 30, 2007, there has been no material change to these guarantees.

We provide limited warranty and product maintenance programs, including parts and labor, for certain products for periods ranging from one to five years. We estimate the costs that may be incurred under warranty programs and record a liability in the amount of such costs at the time product revenue is recognized. Factors that affect this liability include the number of products sold, historical and anticipated rates of warranty claims, and cost per claim. We assess the adequacy of our recorded warranty and product maintenance liabilities periodically and adjust the amounts as necessary.

Changes in our warranty and product maintenance liability are as follows:

<i>(In millions)</i>	Six Months Ended	
	June 30, 2007	July 1, 2006
Accrual at the beginning of period	\$ 315	\$ 318
Provision	93	95
Settlements	(89)	(73)
Adjustments to prior accrual estimates	2	(19)
Accrual at the end of period	\$ 321	\$ 321

Note 11: Recently Announced Accounting Pronouncements

In September 2006, the FASB issued Statement of Financial Accounting Standards (“SFAS”) No. 157, “Fair Value Measurements.” This Statement replaces multiple existing definitions of fair value with a single definition, establishes a consistent framework for measuring fair value and expands financial statement disclosures regarding fair value measurements. This Statement applies only to fair value measurements that already are required or permitted by other accounting standards and does not require any new fair value measurements. SFAS No. 157 is effective for the first quarter of 2008, and we currently are evaluating the impact of adoption on our financial position and results of operations.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment to FASB Statement No. 115." SFAS 159 allows companies to choose to measure eligible assets and liabilities at fair value with changes in value recognized in earnings. Fair value treatment for eligible assets and liabilities may be elected either prospectively upon initial recognition, or if an event triggers a new basis of accounting for an existing asset or liability. SFAS 159 is effective in the first quarter of 2008, and we currently are evaluating the impact of adoption on our financial position and results of operations.

Note 12: Segment Information

Our four reportable segments are: Bell, Cessna, Industrial and Finance. These segments reflect the manner in which we manage our operations. Segment profit is an important measure used to evaluate performance and for decision-making purposes. Segment profit for the manufacturing segments excludes interest expense and certain corporate expenses. The measurement for the Finance segment includes interest income and expense. Provisions for losses on finance receivables involving the sale or lease of our products are recorded by the selling manufacturing division when our Finance group has recourse to the Manufacturing group.

A summary of continuing operations by segment is provided below:

<i>(In millions)</i>	Three Months Ended		Six Months Ended	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006

Income from continuing operations before income taxes	\$ 297	\$ 255	\$ 581	\$ 468

12.

Note 13: Subsequent Events

On July 18, 2007, the Board of Directors approved a two-for-one split of our common stock, which will be effected in the form of a 100% stock dividend to be distributed on August 24, 2007 to shareholders of record on August 3, 2007. As a result of the stock split, we will issue approximately 125 million additional shares of common stock to our shareholders. The stock split will require restatement of all historical shares and per share data in the third quarter of

2007.

Pro forma earnings per share for income from continuing operations amounts on a post-split basis for the three years ended December 30, 2006 would be as follows:

	2006	2005	2004
Basic			
As reported	\$ 5.53	\$ 3.86	\$ 2.73
Pro forma (unaudited)	\$ 2.76	\$ 1.93	\$ 1.37
Diluted			
As reported	\$ 5.43	\$ 3.78	\$ 2.68
Pro forma (unaudited)	\$ 2.71	\$ 1.89	\$ 1.34

Quarterly unaudited pro forma earnings per share for income from continuing operations amounts on a post-split basis would be as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Basic				
As reported	\$ 1.72	\$ 1.38	\$ 3.30	\$ 2.59
Pro forma	\$ 0.86	\$ 0.69	\$ 1.65	\$ 1.30
Diluted				
As reported	\$ 1.69	\$ 1.34	\$ 3.24	\$ 2.53
Pro forma	\$ 0.85	\$ 0.67	\$ 1.62	\$ 1.27

The Board of Directors also approved the retirement of approximately 85 million shares of treasury stock to reduce annual exchange listing costs. The retirement will result in a reduction in treasury stock of approximately \$4.9 billion, which is offset by reductions in capital surplus of approximately \$764 million and retained earnings of approximately \$4.1 billion, with no impact on total shareholders' equity.

13.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Consolidated Results of Operations

Revenues and Segment Profit

Second Quarter of 2007

Revenues increased \$415 million, or 15%, to \$3.2 billion in the second quarter of 2007 compared with the corresponding quarter in 2006. This increase is primarily due to higher manufacturing volume and product mix of \$240 million, higher pricing of \$83 million, more revenues in our Finance segment of \$47 million, favorable foreign exchange impact of \$30 million in the Industrial segment and the benefit from acquisitions of \$32 million, largely due to Overwatch Systems. These increases were partially offset by the 2006 divestiture of non-core product lines of \$16 million in the Industrial segment.

Segment profit increased \$58 million, or 18%, to \$386 million in the second quarter of 2007, compared with the corresponding period in 2006. This increase is primarily due to higher pricing of \$83 million, a net benefit from higher volume and product mix of \$34 million and more profit in the Finance segment of \$12 million. These increases were partially offset by inflation of \$60 million and unfavorable cost performance of \$20 million, which included a charge for Bell Helicopter's Armed Reconnaissance Helicopter ("ARH") program of \$48 million in the second quarter of 2007.

First Half of 2007

Revenues increased \$747 million, or 14%, to \$6.2 billion in the first half of 2007 compared with the corresponding period in 2006. This increase is primarily due to higher manufacturing volume and product mix of \$397 million, higher pricing of \$154 million, more revenues in our Finance segment of \$75 million, favorable foreign exchange impact of \$65 million in the Industrial segment and the benefit from acquisitions of \$59 million, largely due to Overwatch Systems, and the reimbursement of costs related to Hurricane Katrina of \$28 million. These increases were partially offset by the 2006 divestiture of non-core product lines of \$32 million in the Industrial segment.

Segment profit increased \$132 million, or 22%, to \$744 million in the second half of 2007, compared with the corresponding period in 2006. This increase is primarily due to higher pricing of \$154 million, a net benefit from higher volume and product mix of \$48 million, favorable cost performance of \$23 million and more profit in the Finance segment of \$15 million. These increases were partially offset by inflation of \$110 million. Our favorable cost performance includes the reimbursement of costs related to Hurricane Katrina of \$28 million and is net of a charge for Bell Helicopter's ARH program of \$73 million.

Backlog

Backlog in the Cessna and Bell Helicopter businesses grew to \$14.0 billion at the end of second quarter of 2007, compared to the end of 2006, reflecting an increase of approximately \$1.9 billion at Cessna and \$500 million at Bell Helicopter, primarily for the V-22 Lot 11 contract. At Cessna, new business jet orders outpaced deliveries by 2.5 to 1 in the first half of 2007, essentially filling out the 2008 delivery plan of approximately 470 jets. In comparison, we expect to deliver about 380 jets in 2007.

Corporate Expenses and Other, net

Corporate expenses and other, net increased \$18 million in the second quarter of 2007, compared with 2006, primarily due to \$12 million of higher compensation expenses, primarily as a result of our stock price appreciation, and \$4 million of higher professional fees.

14.

Corporate expenses and other, net increased \$19 million in the first half of 2007 compared with 2006, primarily due to \$5 million of higher compensation expenses, \$5 million of increased costs for divested operations and \$5 million of higher professional fees.

Income Taxes

A reconciliation of the federal statutory income tax rate to the effective income tax rate is provided below:

Three Months Ended		Six Months Ended	
June 30,	July 1,	June 30,	July 1,

Edgar Filing: TEXTRON INC - Form 10-Q

	2007	2006	2007	2006
Federal statutory income tax rate	35.0%	35.0%	35.0%	35.0%
Increase (decrease) in taxes resulting from:				
State income taxes	1.4	1.6	1.3	1.6
Foreign tax rate differential	(1.6)	(3.7)	(1.6)	(3.7)
Manufacturing deduction	(1.6)	(0.6)	(1.6)	(0.6)
Equity hedge income	(1.9)	(1.0)	(1.0)	(0.9)
Export sales benefit	-	(1.1)	-	(1.1)
Canadian functional currency	-	-	(0.3)	-
Favorable tax settlements	(3.3)	-	(1.7)	(2.6)
Other, net	(0.4)	0.4	(1.2)	0.7
Effective income tax rate	27.6%	30.6%	28.9%	28.4%

The effective tax rate for the full year is expected to be in the range of 31% to 32%.

Segment Analysis

Our four reportable segments are: Bell, Cessna, Industrial and Finance. These segments reflect the manner in which we manage our operations. Segment profit is an important measure used to evaluate performance and for decision-making purposes. Segment profit for the manufacturing segments excludes interest expense and certain corporate expenses. The measurement for the Finance segment includes interest income and expense.

Bell

<i>(In millions)</i>	Three Months Ended		Six Months Ended	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Revenues	\$ 915	\$ 805	\$ 1,854	\$ 1,588
Segment profit	59	65	150	134

U.S. Government Business

In the second quarter of 2007, revenues increased \$70 million, compared with 2006 primarily due to higher net volume of \$50 million and the benefit from acquisitions of \$22 million. The volume increase is primarily due to higher V-22 volume of \$47 million, more Armored Security Vehicle (“ASV”) deliveries worth \$31 million and higher Intelligent Battlefield Systems (“IBS”) volume of \$11 million, partially offset by \$26 million in lower helicopter spares and service sales, and lower volume of \$17 million for Joint Direct Attack Munitions (“JDAM”). Our ASV deliveries are well ahead of last year and a recent order from the U.S. Army will allow us to continue current production levels well into 2008.

In the second quarter of 2007, profit in our U.S. Government business decreased \$40 million, compared with 2006, primarily due to unfavorable performance of \$45 million. We recorded a \$48 million charge in the second quarter of 2007 for the ARH program resulting in higher charges of \$42 million over the corresponding quarter of 2006. In addition, we had lower profitability for the V-22 program of \$12 million that was partially offset by

15.

favorable ASV performance of \$11 million. The lower profitability in the V-22 program is primarily due to a \$7 million award fee received in 2006. Additionally, higher overhead costs incurred and absorbed into inventory in 2006 have negatively impacted current year V-22 margins. V-22 aircraft delivered in 2007 were in production during 2006 and absorbed higher overhead costs resulting from our prior year investments to improve operational systems. Improved ASV performance reflects overhead improvements of \$5 million as well as other manufacturing efficiencies.

In the first half of 2007, revenues increased \$199 million, compared with 2006 primarily due to higher net volume and mix of \$137 million, the benefit from acquisitions of \$38 million and a cost reimbursement related to Hurricane Katrina of \$28 million. The volume increase is primarily due to more ASV deliveries of \$94 million, higher H-1 revenue of \$59 million, higher V-22 volume of \$39 million and higher IBS volume of \$26 million, partially offset by \$42 million in lower helicopter spares and service sales, and lower volume of \$31 million for JDAM.

In the first half of 2007, profit in our U.S. Government business decreased \$28 million, compared with 2006. The decrease was primarily due to unfavorable performance of \$31 million and the net impact from inflation and pricing of \$13 million, partially offset by higher net volume and mix of \$13 million. The unfavorable performance reflected higher charges recorded for the ARH program of \$64 million and lower V-22 profitability of \$20 million, partially offset by the Hurricane Katrina cost reimbursement of \$28 million and favorable ASV performance of \$11 million.

ARH Program - Bell Helicopter is performing under a U.S. Government contract for System Development and Demonstration ("SDD") of the ARH. In March 2007, we received correspondence from the U.S. Government that indicated limitations of funding on the ARH SDD contract. Accordingly, in the first quarter of 2007 we provided for losses of \$25 million related to the ARH program, consisting of \$7 million in SDD costs and supplier obligations which exceeded the original SDD contract funding limit and \$18 million in supplier obligations incurred in the first quarter for long-lead, low-rate initial production ("LRIP") ARH component production.

In the second quarter of 2007, the Army agreed to re-plan the ARH program and we reached a non-binding memorandum of understanding ("MOU") related to aircraft specifications, pricing methodology and delivery schedules for 62 LRIP aircraft in two lots. The re-planned program also included additional funding for SDD costs through the end of the second quarter of 2007, which resulted in recovery of the \$7 million in SDD costs previously expensed in the first quarter. Further, we have agreed to conduct additional SDD activities on a funded-basis.

Based on the plan outlined in the MOU and our related estimates of aircraft production costs, including costs related to risks associated with achieving learning curve and schedule assumptions, it is our best estimate at this time that we will lose approximately \$73 million on the production of the 62 LRIP aircraft. Accordingly, a net charge of \$48 million was recorded in the second quarter, reflecting an additional charge of \$55 million for LRIP-related costs, offset by the \$7 million of SDD cost recovery. We anticipate that the contract awards will be finalized beginning in 2008, and we expect that these awards will be based on the terms outlined in the MOU. We expect that any contracts for lots subsequent to the initial two LRIP lots will be priced to fully recover costs plus a reasonable profit.

The U.S. Government continues to have an option related to production of 18 to 36 aircraft under the original ARH program. However, it is unlikely that the option would be exercised before its term expires in December 2007 due to certain additional development requirements under the SDD contract that must be met before the option can be exercised. As a result, the U.S. Government has agreed in the MOU to include the units under this option within the 62 LRIP aircraft specified in the MOU.

Commercial Business

In the second quarter of 2007, commercial revenues increased \$40 million, compared with 2006 primarily due to higher pricing of \$21 million, the benefit from acquisitions of \$10 million and higher volume of \$9 million. Higher volume reflects more helicopter deliveries of \$39 million, partially offset by lower spares and service volume of \$13 million and lower Huey II kit deliveries of \$12 million.

In the second quarter of 2007, commercial profit increased \$34 million, compared with 2006 primarily due to higher pricing of \$21 million, favorable cost performance of \$15 million and lower engineering, research and development

expense of \$13 million, partially offset by inflation of \$10 million. The lower engineering, research and development expense resulted from the delay of spending for such cost to the second half of 2007.

In the first half of 2007, commercial revenues increased \$67 million, compared with 2006 primarily due to higher pricing of \$40 million and the benefit from acquisitions of \$21 million. Volume increased slightly as higher helicopter deliveries of \$52 million were partially offset by lower Huey II kit deliveries of \$34 million and lower spares and service volume of \$11 million.

In the first half of 2007, commercial profit increased \$44 million, compared with 2006 primarily due to higher pricing of \$40 million, favorable cost performance of \$22 million and lower engineering, research and development expense of \$17 million, partially offset by inflation of \$19 million and the net impact of unfavorable product mix of \$14 million.

Cessna

<i>(In millions)</i>	Three Months Ended		Six Months Ended	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Revenues	\$ 1,203	\$ 1,005	\$ 2,171	\$ 1,874
Segment profit	200	153	355	270

Cessna has continued to grow its revenues and segment profit due, in part, to its increased international deliveries, as over half of our 95 Citation business jets in the second quarter of 2007 went to international customers, primarily in Europe and Latin America. We delivered a total of 76 jets in the second quarter of 2006. In May, the Mustang became the first new-generation entry level jet to be certified in Europe. We have continued to ramp up our Mustang production with 10 aircraft delivered in the second quarter of 2007.

Revenues at Cessna increased \$198 million in the second quarter of 2007, compared with 2006 due to higher volume of \$147 million, primarily related to Citation business jets, and higher pricing of \$51 million. Segment profit increased \$47 million at Cessna in the second quarter of 2007, compared with 2006 primarily due to higher pricing of \$51 million and the impact of the higher volume of \$31 million, partially offset by inflation of \$26 million and increased product development expense of \$9 million. Favorable warranty performance of \$9 million resulting from lower point of sale warranty costs for aircraft sold during the second quarter of 2007, compared with 2006, was offset by other favorable warranty performance of \$10 million recorded in 2006.

Revenues at Cessna increased \$297 million in the first half of 2007, compared with 2006 due to higher volume of \$202 million, primarily related to Citation business jets, and higher pricing of \$95 million. Segment profit increased \$85 million at Cessna in the first six months of 2007, compared with 2006 primarily due to higher pricing of \$95 million and the impact of the higher volume of \$47 million, partially offset by inflation of \$44 million and increased product development expense of \$16 million. Favorable warranty performance of \$16 million resulting from lower point of sale warranty costs for aircraft sold during the first half of 2007, compared with 2006, was offset by other favorable warranty performance of \$19 million recorded in 2006.

Industrial

<i>(In millions)</i>	Three Months Ended		Six Months Ended	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Revenues	\$ 878	\$ 818	\$ 1,725	\$ 1,616
Segment profit	59	54	119	103

Revenues in the Industrial segment increased \$60 million in the second quarter of 2007, compared with 2006 primarily due to higher volume of \$34 million, favorable foreign exchange impact of \$30 million and higher pricing of \$13 million, partially offset by the divestiture of non-core product lines of \$16 million. Profit in the Industrial segment increased \$5 million in the second quarter of 2007, compared with 2006 mainly due to \$13 million of higher pricing, \$7 million of improved cost performance and \$2 million each in higher volume and favorable foreign exchange, partially offset by \$19 million of inflation.

Revenues in the Industrial segment increased \$109 million in the first half of 2007, compared with 2006 primarily due to favorable foreign exchange impact of \$65 million, higher volume of \$52 million and higher pricing of \$23 million, partially offset by the divestiture of non-core product lines of \$32 million. Profit in the Industrial segment increased \$16 million in the first half of 2007, compared with 2006 mainly due to \$26 million of improved cost performance and higher pricing of \$23 million, partially offset by \$38 million of inflation.

Finance

<i>(In millions)</i>	Three Months Ended		Six Months Ended	
	June 30, 2007	July 1, 2006	June 30, 2007	July 1, 2006
Revenues	\$ 239	\$ 192	\$ 449	\$ 374
Segment profit	68	56	120	105

The Finance segment continued to grow its managed finance receivables with a 5%, or \$507 million, increase since the end of 2006. In addition, our already strong portfolio quality statistics continued to improve.

Revenues in the Finance segment increased \$47 million in the second quarter of 2007, compared with 2006. The increase was primarily due to a \$26 million increase related to higher average finance receivables and a \$21 million gain on the sale of a leveraged lease investment. Average finance receivables increased primarily due to growth in the aviation, distribution and resort finance businesses, partially offset by an increase in the level of distribution finance receivables sold.

Profit in the Finance segment increased \$12 million in the second quarter of 2007, compared with 2006 primarily due to a \$21 million gain on the sale of a leveraged lease investment and a \$12 million increase related to higher average finance receivables, partially offset by a \$12 million increase in the provision for losses and \$8 million related to the impact of competitive pricing pressures. The increase in provision for losses is primarily attributable to \$5 million of higher provision for losses related to specific reserving actions taken on one account in the media finance portfolio, and a \$6 million reduction in 2006 in the rate utilized to establish the allowance for losses in several portfolios due to improvements in credit quality.

Revenues in the Finance segment increased \$75 million in the first half of 2007, compared with 2006. The increase was primarily due to a \$59 million increase related to higher average finance receivables, a \$21 million gain on the sale of a leveraged lease investment and a \$15 million increase from a higher interest rate environment, partially offset by \$13 million in lower leveraged lease earnings due to an unfavorable cumulative earnings adjustment attributable to the recognition of residual value impairments. Average finance receivables increased primarily due to growth in the aviation, distribution and resort finance businesses, partially offset by an increase in the level of distribution finance receivables sold.

Profit in the Finance segment increased \$15 million in the first half of 2007, compared with 2006 primarily due to a \$28 million increase related to higher average finance receivables and a \$21 million gain on the sale of a leveraged lease investment, partially offset by \$13 million in lower leveraged lease earnings due to an unfavorable cumulative earnings adjustment attributable to the recognition of residual value impairments, \$12 million related to the impact of

competitive pricing pressures and an \$8 million increase in the provision for losses, largely due to one account.

18.

The following table presents information about the Finance segment's portfolio quality:

<i>(Dollars in millions)</i>	June 30, 2007	December 30, 2006
Nonperforming assets	\$ 89	\$ 113
Nonaccrual finance receivables	\$ 51	\$ 75
Allowance for losses	\$ 86	\$ 93
Ratio of nonperforming assets to total finance assets	1.00%	1.28%
Ratio of allowance for losses on receivables to nonaccrual finance receivables	171.3%	123.1%
60+ days contractual delinquency as a percentage of finance receivables	0.56%	0.77%

The Finance segment has continued to sustain improvements in portfolio quality as indicated by an improved nonperforming assets percentage and 60+ days contractual delinquency percentage. Net charge-offs as a percentage of average finance receivables increased to 0.52% during the first half of 2007 as compared with 0.35% for the corresponding period of 2006. The increase in the percentage reflects charge-off activity in 2007 that primarily relates to accounts for which a specific allowance for losses had been established in previous periods. As a result of these charge-offs, the allowance for losses on receivables decreased by \$7 million in the first half of 2007. This decrease corresponds with a \$24 million decrease in nonaccrual finance receivables during the same period and results in an increase in the allowance for losses as a percentage of nonaccrual finance receivables.

Liquidity and Capital Resources

Our financings are conducted through two separate borrowing groups. The Manufacturing group consists of Textron Inc., consolidated with the entities that operate in the Bell, Cessna and Industrial segments, while the Finance group consists of the Finance segment, comprised of Textron Financial Corporation and its subsidiaries. We designed this framework to enhance our borrowing power by separating the Finance group. Our Manufacturing group operations include the development, production and delivery of tangible goods and services, while our Finance group provides financial services. Due to the fundamental differences between each borrowing group's activities, investors, rating agencies and analysts use different measures to evaluate each group's performance. To support those evaluations, we present balance sheet and cash flow information for each borrowing group within the consolidated financial statements.

Through our Finance group, we provide diversified commercial financing to third parties. In addition, this group finances retail purchases and leases for new and used aircraft and equipment manufactured by our Manufacturing group, otherwise known as captive financing. In the consolidated statements of cash flows, cash received from customers or from securitizations is reflected as operating activities when received. However, in the cash flow information provided for the separate borrowing groups, cash flows related to captive financing activities are reflected based on the operations of each group. For example, when product is sold by our Manufacturing group to a customer that is financed by the Finance group, the origination of the finance receivable is recorded within investing activities as a cash outflow on our Finance group's statement of cash flows. Meanwhile, the Manufacturing group records the cash received from the Finance group on the customer's behalf within operating cash flows as a cash inflow on our Manufacturing group's statement of cash flows. Although cash is transferred between the two borrowing groups, there is no cash transaction reported in the consolidated cash flows at the time of the original financing. These captive financing activities, along with all significant intercompany transactions, are reclassified or eliminated from the consolidated statements of cash flows, as detailed below in the operating cash flows of continuing operations section.

The debt (net of cash)-to-capital ratio for our Manufacturing group as of June 30, 2007 was 28%, compared with 29% at December 30, 2006, and the gross debt-to-capital ratio as of June 30, 2007 was 38%, compared with 40% at December 30, 2006. Our Manufacturing group targets a gross debt-to-capital ratio that is consistent with an A rated company.

We have a policy of maintaining unused committed bank lines of credit in an amount not less than outstanding commercial paper balances. These facilities are in support of commercial paper and letters of credit issuances only, and neither of these primary lines of credit was drawn at June 30, 2007 or December 30, 2006.

Our primary committed credit facilities at June 30, 2007 include the following:

<i>(In millions)</i>	Facility Amount	Commercial Paper Outstanding	Letters of Credit Outstanding	Amount Not Reserved as Support for Commercial Paper and Letters of Credit
Manufacturing group – multi-year facility expiring in 2012*	\$ 1,250	\$ -	\$ 20	\$ 1,230
Finance group - multi-year facility expiring in 2012	\$ 1,750	\$ 1,624	\$ 12	\$ 114

*The Finance group is permitted to borrow under this multi-year facility.

At June 30, 2007, our Finance group had \$2.7 billion in debt and \$475 million in other liabilities that are payable within the next 12 months.

Operating Cash Flows of Continuing Operations

<i>(In millions)</i>	Six Months Ended	
	June 30, 2007	July 1, 2006
Manufacturing group	\$ 280	\$ 326
Finance group	153	155
Reclassifications and elimination adjustments	(310)	(321)
Consolidated	\$ 123	\$ 160

Our consolidated operating cash flows decreased in the first half of 2007 compared with the first half of 2006 primarily due to the timing of payments of accounts payable for the Manufacturing group, as well as a \$49 million increase in inventory levels to support continued growth in our Cessna and Bell Helicopter businesses, partially offset by an increase in income from continuing operations and a \$40 million decrease in accounts receivable and captive finance receivables.

Reclassifications between operating and investing cash flows and eliminations adjustments are summarized below:

<i>(In millions)</i>	Six Months Ended	
	June 30, 2007	July 1, 2006

Reclassifications from investing activities:		
Finance receivable originations for Manufacturing group inventory sales	\$	(525) \$ (521)
Cash received from customers and securitizations for captive financing		354 316
Other		(4) (36)
Total reclassifications from investing activities		(175) (241)
Dividends paid by Finance group to Manufacturing group		(135) (80)
Total reclassifications and adjustments	\$	(310) \$ (321)

20.

In the first quarter of 2007, the Finance group paid a \$135 million dividend to the Manufacturing group compared to \$80 million paid in 2006, representing the distribution of its retained earnings to achieve its targeted leverage ratio.

Investing Cash Flows of Continuing Operations

	Six Months Ended	
	June 30,	July 1,
<i>(In millions)</i>	2007	2006
Manufacturing group	\$ (137)	\$ (130)
Finance group	23	(971)
Reclassifications to operating activities	175	241
Consolidated	\$ 61	\$ (860)

Our consolidated investing cash flows increased largely due to a \$639 million increase in proceeds from receivable sales and securitizations, including the sale of \$588 million of receivables into the distribution finance revolving securitization, and a net increase of \$316 million in finance receivable collections, net of originations.

Financing Cash Flows of Continuing Operations

	Six Months Ended	
	June 30,	July 1,
<i>(In millions)</i>	2007	2006
Manufacturing group	\$ (283)	\$ (728)
Finance group	(156)	832
Dividends paid by Finance group to Manufacturing group	135	80
Consolidated	\$ (304)	\$ 184

Cash flows received from consolidated financing activities decreased during the first half of 2007 primarily due a reduction in short-term debt borrowings in the Finance group of \$613 million and higher payments on long-term debt in the Finance group of \$337 million. These amounts were partially offset by less cash used to repurchase our stock of \$377 million and a reduction in the cash used to pay dividends of \$50 million due to the timing of payments.

Stock Repurchases

In the first half of 2007 and 2006, we repurchased 2,271,292 and 6,979,672 shares of common stock, respectively, under Board-authorized share repurchase programs for an aggregate cost of \$219 million and \$610 million, respectively.

Dividends

We paid a quarterly dividend of \$0.3875 per share in the first and second quarters of 2007 and 2006. Dividend payments to shareholders totaled \$97 million in the first half of 2007, compared with \$147 million in the first half of

2006. The decrease in dividend payments reflects the fourth quarter 2005 dividend that was paid in the first half of 2006, while the fourth quarter 2006 dividend was paid in the fourth quarter.

On July 18, 2007, the Board of Directors approved a two-for-one split of our common stock, which will be effected in the form of a 100% stock dividend to be distributed on August 24, 2007 to shareholders of record on August 3, 2007. Accordingly, we will issue approximately 125 million additional shares of common stock to our shareholders. The Board of Directors also approved the retirement of approximately 85 million shares of treasury stock to reduce annual exchange listing costs, which will result in a reduction in treasury stock of approximately \$4.9 billion, which is offset by reductions in capital surplus of approximately \$764 million and retained earnings of approximately \$4.1 billion, with no impact on total shareholders' equity.

Also on July 18, 2007, the Board of Directors approved a 19% increase in our annualized common stock dividend rate from \$1.55 per share to \$1.84 per share (\$0.775 per share to \$0.92 per share on a post-split basis) and authorized the repurchase of up to 24 million shares of our common stock on a post-split basis.

21.

Capital Resources

Under a shelf registration statement previously filed with the Securities and Exchange Commission, our Manufacturing group may issue public debt and other securities in one or more offerings up to a total maximum offering of \$2.0 billion. At June 30, 2007, we had \$1.6 billion available under this registration statement.

Under a previously filed registration statement, the Finance group may issue an unlimited amount of public debt. Our Finance group issued \$640 million of term debt and CAD 140 million of term debt during the first half of 2007 under this registration statement. In addition, during the first quarter of 2007, the Finance group issued \$300 million of 6% Fixed-to-Floating Rate Junior Subordinated Notes, which mature in 2067. The Finance group has the right to redeem the notes at par beginning in 2017, and is obligated to redeem the notes beginning in 2042.

Foreign Exchange Risks

Our financial results are affected by changes in foreign currency exchange rates and economic conditions in the foreign markets in which our products are manufactured and/or sold. For the first half of 2007, the impact of foreign exchange rate changes from the first half of 2006 increased revenues by approximately \$65 million (1.2%) and increased segment profit by approximately \$4 million (0.7%).

Recently Announced Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 157, "Fair Value Measurements." This Statement replaces multiple existing definitions of fair value with a single definition, establishes a consistent framework for measuring fair value and expands financial statement disclosures regarding fair value measurements. This Statement applies only to fair value measurements that already are required or permitted by other accounting standards and does not require any new fair value measurements. SFAS No. 157 is effective for the first quarter of 2008, and we currently are evaluating the impact of adoption on our financial position and results of operations.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment to FASB Statement No. 115." SFAS 159 allows companies to choose to measure eligible assets and liabilities at fair value with changes in value recognized in earnings. Fair value treatment for eligible assets and liabilities may be elected either prospectively upon initial recognition, or if an event triggers a new basis of accounting for an existing asset or liability. SFAS 159 is effective in the first quarter of 2008, and we

currently are evaluating the impact of adoption on our financial position and results of operations.

Forward-Looking Information

Certain statements in this Quarterly Report on Form 10-Q and other oral and written statements made by Textron from time to time are forward-looking statements, including those that discuss strategies, goals, outlook or other non-historical matters; or project revenues, income, returns or other financial measures. These forward-looking statements speak only as of the date on which they are made, and we undertake no obligation to update or revise any forward-looking statements. These forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those contained in the statements, including the following: [a] changes in worldwide economic and political conditions that impact demand for our products, interest rates and foreign exchange rates; [b] the interruption of production at Textron facilities or Textron's customers or suppliers; [c] Textron's ability to perform as anticipated and to control costs under contracts with the U.S. Government; [d] the U.S. Government's ability to unilaterally modify or terminate its contracts with Textron for the U.S. Government's convenience or for Textron's failure to perform, to change applicable procurement and accounting policies, and, under certain circumstances, to suspend or debar Textron as a contractor eligible to receive future contract awards; [e] changes in national or international funding priorities and government policies on the export and import of military and commercial products; [f] the ability to control costs and successful implementation of various cost-reduction programs; [g] the timing of new product launches and

22.

certifications of new aircraft products; [h] the occurrence of slowdowns or downturns in customer markets in which Textron products are sold or supplied or where Textron Financial Corporation offers financing; [i] changes in aircraft delivery schedules or cancellation of orders; [j] the impact of changes in tax legislation; [k] the extent to which Textron is able to pass raw material price increases through to customers or offset such price increases by reducing other costs; [l] Textron's ability to offset, through cost reductions, pricing pressure brought by original equipment manufacturer customers; [m] Textron's ability to realize full value of receivables; [n] the availability and cost of insurance; [o] increases in pension expenses and other postretirement employee costs; [p] Textron Financial Corporation's ability to maintain portfolio credit quality; [q] Textron Financial Corporation's access to debt financing at competitive rates; [r] uncertainty in estimating contingent liabilities and establishing reserves to address such contingencies; [s] performance of acquisitions; [t] the efficacy of research and development investments to develop new products; [u] the launching of significant new products or programs which could result in unanticipated expenses; and [v] bankruptcy or other financial problems at major suppliers or customers that could cause disruptions in Textron's supply chain or difficulty in collecting amounts owed by such customers.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There has been no significant change in Textron's exposure to market risk during the six months ended June 30, 2007. For discussion of Textron's exposure to market risk, refer to Item 7A. Quantitative and Qualitative Disclosures About Market Risk contained in Textron's 2006 Annual Report on Form 10-K.

Item 4. CONTROLS AND PROCEDURES

We have carried out an evaluation, under the supervision and with the participation of our management, including our Chairman, President and Chief Executive Officer (the "CEO") and our Executive Vice President and Chief Financial Officer (the "CFO"), of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Act")) as of the end of the fiscal quarter covered by this report. Based upon that evaluation, our CEO and CFO

concluded that our disclosure controls and procedures are effective in providing reasonable assurance that (a) the information required to be disclosed by us in the reports that we file or submit under the Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and (b) such information is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in Textron's internal control over financial reporting during the fiscal quarter ended June 30, 2007 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

23.

PART II. OTHER INFORMATION

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

ISSUER REPURCHASES OF EQUITY SECURITIES

	Total Number of Shares Purchased	Average Price Paid per Share (Excluding Commissions)	Total Number of Shares Purchased as Part of Publicly Announced Plan**	Maximum Number of Shares that May Yet Be Purchased Under the Plan**
Month 1 (April 1, 2007 – May 5, 2007)	53,731*	\$ 103.15	50,000*	2,575,208
Month 2 (May 6, 2007 - June 2, 2007)	107,700	\$ 105.82	107,700	2,467,508
Month 3 (June 3, 2007 - June 30, 2007)	351,000	\$ 108.57	351,000	2,116,508
Total	512,431	\$ 107.42	508,700	

*During the first month of the second quarter of 2007, Textron received a total of 3,731 shares as payments for the exercise price of employee stock options, which are not included in the publicly announced repurchase plan.

**These shares were purchased pursuant to a plan authorizing the repurchase of up to 12 million shares of Textron common stock that had been announced on January 26, 2006, and had no expiration date. On July 18, 2007, Textron's Board of Directors approved a new share repurchase plan under which Textron is authorized to repurchase up to 24 million shares of common stock (equivalent of 12 million shares prior to the two-for-one stock split in the form of a stock dividend to be distributed on August 24, 2007). The new plan has no expiration date and supercedes the existing repurchase plan, which was cancelled effective July 18, 2007.

24.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

25

Edgar Filing: TEXTRON INC - Form 10-Q

At Textron's annual meeting of shareholders held on April 25, 2007, the following items were voted upon:

1. The following persons were elected to serve as directors in Class II for three year terms expiring in 2010 and received the votes listed.

Name	For	Against	Abstain
Kathleen M. Bader	106,395,916	4,099,063	1,408,580
R. Kerry Clark	77,636,120	31,651,038	2,616,399
Ivor J. Evans	77,145,801	32,069,071	2,688,955
Lord Powell of Bayswater			
KCMG	74,350,733	34,935,484	2,617,614
James L. Ziemer	106,568,550	3,792,374	1,542,908

The following directors have terms of office which continued after the meeting: H. Jesse Arnelle, Paul E. Gagne, Dain M. Hancock, Thomas B. Wheeler, Lewis B. Campbell, Lawrence K. Fish and Joe T. Ford.

2. The Textron Inc. Short-Term Incentive Plan was approved by the following vote:

For	Against	Abstain	Broker Non-Votes
104,270,558	6,448,285	1,184,508	0

3. The Textron Inc. 2007 Long-Term Incentive Plan was approved by the following vote:

For	Against	Abstain	Broker Non-Votes
85,343,991	11,142,924	1,138,657	14,278,263

4. The appointment of Ernst & Young LLP by the Audit Committee as Textron's independent registered public accounting firm for 2007 was ratified by the following vote:

For	Against	Abstain	Broker Non-Votes
109,058,147	1,821,746	1,023,667	0

5. A shareholder proposal relating to a report related to foreign military sales was rejected by the following vote:

For	Against	Abstain	Broker Non-Votes
6,662,476	78,399,832	12,564,073	14,277,454

Item 5. OTHER INFORMATION

Because this Quarterly Report on Form 10-Q is being filed within four business days from the date of the reportable event, we have elected to make the following disclosure in this Quarterly Report on Form 10-Q instead of in a Current Report on Form 8-K under Item 5.03 - Amendments to Articles of Incorporation or Bylaws; Change in Fiscal Year.

Effective as of July 25, 2007, Textron's Board of Directors amended and restated Textron's By-Laws to allow Textron's securities to be eligible for issuance under the direct registration system to comply with paragraph 501.00(b) of the New York Stock Exchange Listed Company Manual, to reflect changes previously made in corporate governance practices at Textron, to update the By-Laws and to revise them to be gender-neutral.

Item 6. EXHIBITS

3.1	Amended and Restated By-Laws of Textron Inc.
