Item 8.01 Other Events.

During the three months ended March 31, 2015, Flowserve Corporation (the "Company") made composition changes to its Engineered Product Division ("EPD") and Industrial Product Division ("IPD") reportable segments to take into consideration the acquisition of SIHI Group B.V. ("SIHI") that was finalized on January 7, 2015. Effective January 1, 2015, certain activities, primarily related to engineered pumps and seals, that were previously included in the IPD business segment will now be reported in the EPD business segment. These changes did not materially impact segment results or segment assets. The Company did not change its business segments, management structure, chief operating decision maker or how the Company evaluates segment performance and allocates resources. Beginning with the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2015, the Company will report its financial information reflecting the EPD and IPD reportable segment composition changes, and prior periods will be retrospectively adjusted as periodic reports are filed to conform to the new reportable segment composition.

To assist investors in comparing the Company's historical segment financial information with the Company's future segment financial information, Exhibit 99.1 filed with this Current Report on Form 8-K includes retrospectively adjusted supplemental unaudited historical segment financial information for EPD, IPD and Eliminations and All Other (which includes the Company's corporate headquarters costs and other minor entities that do not constitute separate segments) for each of the four quarters of the year ended December 31, 2014, and for each of the years ended December 31, 2014, 2013 and 2012.
