**ITEM 1.01 Entry into a Material Definitive Agreement**

On December 1, 2005, 1st Source Bank, a wholly-owned subsidiary of 1st Source Corporation, entered into a license and service agreement with Fiserv Solutions, Inc., a subsidiary of Fiserv Inc. The agreement is an integral part of the decision by 1st Source to replace the majority of its core and ancillary data processing systems. 1st Source expects the implementation of this project will increase the effectiveness and efficiency of its operations and facilitate future growth.

Under the agreement, 1st Source and its affiliates are licensing integrated core technology and ancillary systems from Fiserv. The core technology licensing includes a loan system, deposit system, general ledger system and customer information file system. Fiserv is obligated to provide professional services for installation of the technology and training, and maintenance support services. The agreement provides an initial five year maintenance period to begin no later than March 2007, the target period for completion of the installation of the technology. The agreement provides for automatic renewal of the maintenance period, after the initial five year term, unless either party notifies the other of its intent not to renew. 1st Source is subject to termination fees for early termination of the maintenance period. 1st Source expects the cost will be approximately \$6.0 million for the technology licenses, professional fees for installation and training, and hardware delivered under the Fiserv agreement.

1st Source also expects that, over time, this investment in its core systems will be offset by elimination of current costs for ongoing support of the current technology platform.
