

MEREDITH CORP
Form 10-K
August 30, 2010

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549
FORM 10-K
ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended June 30, 2010

Commission file number 1-5128

MEREDITH CORPORATION
(Exact name of registrant as specified in its charter)

Iowa
(State or other jurisdiction of incorporation or
organization)

42-0410230
(I.R.S. Employer Identification No.)

1716 Locust Street, Des Moines, Iowa
(Address of principal executive offices)

50309-3023
(ZIP Code)

Registrant's telephone number, including area code: (515) 284-3000

Securities registered pursuant to Section 12(b) of the Act:

Title of each class

Name of each exchange on which
registered

Common Stock, par value \$1

New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act:

Title of class

Class B Common Stock, par value \$1

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Edgar Filing: MEREDITH CORP - Form 10-K

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The registrant estimates that the aggregate market value of voting and non-voting common equity held by non-affiliates of the registrant at December 31, 2009, was \$1,072,000,000 based upon the closing price on the New York Stock Exchange at that date.

Shares of stock outstanding at July 31, 2010

Common shares	36,338,132
Class B shares	9,086,411
Total common and Class B shares	45,424,543

DOCUMENT INCORPORATED BY REFERENCE

Certain portions of the Registrant's Proxy Statement for the Annual Meeting of Shareholders to be held on

November 3, 2010, are incorporated by reference in Part III to the extent described therein.

Meredith Corporation and its consolidated subsidiaries are referred to in this Annual Report on Form 10-K (Form 10-K) as Meredith, the Company, we, our, and us.

PART
I

ITEM 1. BUSINESS

GENERAL

Meredith Corporation is one of the nation's leading media and marketing companies. Meredith began in 1902 as an agricultural publisher. In 1924, the Company published the first issue of Better Homes and Gardens. The Company entered the television broadcasting business in 1948. Today Meredith engages in magazine publishing and related brand licensing, television broadcasting, integrated marketing, interactive media, and video production related operations. The Company is incorporated under the laws of the State of Iowa. Our common stock is listed on the New York Stock Exchange under the ticker symbol MDP.

The Company operates two business segments: national media and local media. Prior to fiscal 2010, national media was called publishing and local media was called broadcasting. Other than changing the names of the segments, there have been no changes in the basis of segmentation. The national media segment includes magazine publishing, brand licensing, integrated marketing, interactive media, database-related activities, and other related operations. The local media segment consists primarily of the operations of network-affiliated television stations, related interactive media operations, and video production related operations. Financial information about industry segments can be found in Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations and in Item 8-Financial Statements and Supplementary Data under Note 14.

The national media segment focuses on the home and family market. It is a leading publisher of magazines serving women. More than twenty-five subscription magazines, including Better Homes and Gardens, Family Circle, Ladies' Home Journal, Parents, American Baby, Fitness, and More, and approximately 120 special interest publications were published in fiscal 2010. The national media segment also includes integrated marketing, which has relationships with some of America's leading companies; a large consumer database; an extensive Internet presence that consists of more than 30 websites and mobile applications and strategic alliances with leading Internet destinations; brand licensing activities; and other related operations.

The local media segment includes 12 network-affiliated television stations located across the United States (U.S.) and one AM radio station. The television stations consist of six CBS affiliates, three FOX affiliates, two MyNetworkTV affiliates, and one NBC affiliate. The local media segment also includes more than 35 websites and mobile applications, and video production related operations.

The Company's largest revenue source is advertising. National and local economic conditions affect the magnitude of our advertising revenues. Television advertising is seasonal and cyclical to some extent, traditionally generating higher revenues in the second and fourth fiscal quarters and during key political contests, major sporting events, etc. Both national media and local media revenues and operating results can be affected by changes in the demand for advertising and consumer demand for our products. Magazine circulation revenues are generally affected by national and regional economic conditions and competition from other forms of media.

BUSINESS DEVELOPMENTS

In July 2009, Meredith invested in The Hyperfactory, an international mobile marketing company that specializes in powering businesses and brands through the mobile medium with innovative and strategically creative initiatives. In July 2010, the Company completed its acquisition of The Hyperfactory.

1

During fiscal 2010, management committed to performance improvement plans related to Meredith's digital and Special Interest Media (SIM) operations. The repositioning, focused on reducing complexity and improving efficiency, led to a consolidation of SIM titles. Meredith's SIM titles are largely sold at newsstand and focused primarily on home improvement and do-it-yourself projects. In fiscal 2009, management committed to a performance improvement plan that included the closing of Country Home magazine following the publication of the March 2009 issue.

In December 2008, Meredith announced a licensing agreement granting John Wiley & Sons, Inc. (Wiley) exclusive global rights to publish and distribute books based on Meredith's consumer-leading brands, including the powerful Better Homes and Gardens imprint. Under the agreement, which was effective March 1, 2009, Meredith continues to create book content and retains all approval and content rights. Wiley is responsible for book layout and design, printing, sales and marketing, distribution, and inventory management.

During fiscal 2008, the Company continued to enhance the capabilities of Meredith Integrated Marketing with the acquisitions of Directive Corporation, a specialized customer intelligence firm, and Big Communications, a leading healthcare marketing communications firm.

In April 2008, the Company completed the sale of WFLI, a CW affiliate serving the Chattanooga, Tennessee market.

DESCRIPTION OF BUSINESS

National Media

National media represented 80 percent of Meredith's consolidated revenues in fiscal 2010. Better Homes and Gardens, our flagship brand, continues to account for a significant percentage of revenues and operating profit of the national media segment and the Company.

Magazines

Information for major subscription magazine titles as of June 30, 2010, follows:

Title	Description	Frequency per Year	Year-end Rate Base	(1)
Better Homes and Gardens	Shelter and women's service	12	7,600,000	
Family Circle	Women's service	15	3,800,000	
Ladies' Home Journal	Women's service	11	3,800,000	
Parents	Parenthood	12	2,200,000	
American Baby	Parenthood	12	2,000,000	
Fitness	Women's lifestyle	10	1,500,000	
More	Women's lifestyle (age 40+)	10	1,300,000	
Midwest Living	Travel and lifestyle	6	950,000	
Traditional Home	Home decorating	8	950,000	
Ser Padres	Hispanic parenthood	8	700,000	
Wood	Woodworking	7	500,000	
Siempre Mujer	Hispanic women's lifestyle	6	450,000	
Successful Farming	Farming business	12	420,000	
ReadyMade	Do-it-yourself lifestyle	6	325,000	

(1) Rate base is the circulation guaranteed to advertisers. Actual circulation generally exceeds rate base and for most of the Company's titles is tracked by the Audit Bureau

of
Circulations,
which issues
periodic
statements for
audited
magazines.

We publish approximately 120 special interest publications under approximately 80 titles, primarily under the Better Homes and Gardens brand. The titles are issued from one to eight times annually and sold primarily on newsstands. A limited number of subscriptions are also sold to certain special interest publications. The following titles are published quarterly or more frequently: 100 Decorating Ideas Under \$100, American Patchwork & Quilting, Beautiful Homes, Country Gardens, Diabetic Living, Do It Yourself, Heart Healthy Living, Kitchen and Bath Ideas, Kitchen & Bath Makeover, Quilts & More, Remodel, Renovation Style, and Scrapbooks etc.

Magazine Advertising—Advertising revenues are generated primarily from sales to clients engaged in consumer marketing. Many of Meredith's larger magazines offer regional and demographic editions that contain similar editorial content but allow advertisers to customize messages to specific markets or audiences. The Company sells two primary types of magazine advertising: display and direct-response. Advertisements are either run-of-press (printed along with the editorial portions of the magazine) or inserts (preprinted pages). Most of the national media segment's advertising revenues are derived from run-of-press display advertising. Meredith 360° is our strategic marketing unit providing clients and their agencies with access to the full range of media products and services Meredith has to offer, including many media platforms. Our team of creative and marketing experts delivers innovative solutions across multiple media channels that meet each client's unique advertising and promotional requirements.

Magazine Circulation—Subscriptions obtained through direct-mail solicitation, agencies, insert cards, the Internet, and other means are Meredith's largest source of circulation revenues. All of our subscription magazines, except American Baby, Ser Padres, and Successful Farming, are sold by single copy. Single copies sold on newsstands are distributed primarily through magazine wholesalers, who have the right to receive credit from the Company for magazines returned to them by retailers.

Meredith Interactive Media

Meredith's 30 websites provide ideas and inspiration to an average of 20 million unique visitors each month. These branded websites focus on the topics that women care about most, food, home, and entertaining and meeting the needs of moms; and on delivering powerful content geared toward lifestyle topics such as health, beauty, style, and

wellness. Page views grew more than 25 percent to almost 230 million per month in fiscal 2010 and the average number of videos viewed per month rose to over 3 million.

Other Sources of Revenues

Other revenues are derived from integrated marketing, other custom publishing projects, brand licensing agreements, ancillary products and services, and book sales and licensing agreements.

Meredith Integrated Marketing—Meredith Integrated Marketing is the business-to-business arm of the Company. It sells a range of customer relationship marketing products and services including direct, database, custom publishing, digital, and word-of-mouth marketing to corporate customers, providing a revenue source that is independent of advertising and circulation. Sometimes these services are sold in conjunction with Meredith's 85 million-name database of consumers to help clients better target marketing messages according to consumers needs and interests. Fiscal 2010 clients included Kraft, Nestlé, DirecTV, Honda Motors, Chrysler, Publix, and Kia Motors America.

Brand Licensing—Brand licensing consists of the licensing of various proprietary trademarks in connection with retail programs conducted through a number of retailers and manufacturers and multiple magazine licensing agreements that extend several of Meredith's brands internationally.

Meredith has a multi-year licensing agreement with Wal-Mart Stores, Inc. (Wal-Mart) for the design, marketing, and retailing of a wide range of home products based on the Better Homes and Gardens brand. Today we have nearly 2,000 SKUs at Wal-Mart stores across the United States and in Canada. Wal-Mart supports the line with a multi-media platform national advertising campaign that reaches millions of American consumers.

Other licensing activities include a long-term agreement to license the Better Homes and Gardens brand to Realogy Corporation, who is building a residential real estate franchise system based on the Better Homes and Gardens brand; a licensing agreement with Universal Furniture International, which includes a full line of wooden and upholstered furniture for living rooms, bedrooms, and dining rooms; and a partnership with Five Star Mattress for a Better Homes and Gardens mattress collection.

The Company has continued to expand its international reach through international licensing agreements. Meredith's titles are currently distributed in nearly 60 countries - including 20 licensed local editions such as Better Homes and Gardens in Australia, China, and India; Parents in China, Greece, Indonesia, and Turkey; and Diabetic Living in Australia and Italy.

The Company continues to pursue brand extensions that will serve consumers and advertisers alike and extend the reach and vitality of our brands.

Meredith Books—Prior to March 2009, Meredith published books under the Better Homes and Gardens trademark and other licensed trademarks that were directed primarily at the home and family markets. Meredith announced a licensing agreement effective March 1, 2009, granting Wiley exclusive global rights to publish and distribute books based on Meredith's consumer-leading brands, including the powerful Better Homes and Gardens imprint. Under the agreement, Meredith continues to create book content and retains all approval and content rights. Wiley is responsible for book layout and design, printing, sales and marketing, distribution, and inventory management. Wiley pays Meredith royalties based on net sales subject to a guaranteed minimum. Separate from Wiley, Meredith continues to publish and promote books under licensed trademarks such as The Home Depot®.

Production and Delivery

Paper, printing, and postage costs accounted for 40 percent of the national media segment's fiscal 2010 operating expenses.

The major raw material essential to the national media segment is coated publication paper. Meredith directly purchases all of the paper for its magazine production and its custom publishing business and a majority of the

4

paper for its book production. The decline in paper prices, which started in the second half of fiscal 2009, continued throughout fiscal 2010. Average paper prices decreased 16 percent in fiscal 2010. The price of paper is driven by overall market conditions and is therefore difficult to predict. Management anticipates paper prices will rise in the high-single digits and fiscal 2011 average paper prices will be flat to up slightly compared to fiscal 2010 average prices. The Company has contractual agreements with major paper manufacturers to ensure adequate supplies for planned publishing requirements.

Meredith has printing contracts with several major domestic printers for its magazines. The Company has a contract with a major U.S. printer for the majority of its book titles.

Because of the large volume of magazine and subscription promotion mailings, postage is a significant expense of the national media segment. We continually seek the most economical and effective methods for mail delivery including cost-saving strategies that leverage worksharing opportunities offered within the postal rate structure. Postage on periodicals accounts for approximately 75 percent of Meredith's postage costs, while other mail items—direct mail, replies, and bills—accounts for approximately 25 percent. The Governors of the United States Postal Service (USPS) review prices for mailing services annually and adjust postage rates each May. Prior to fiscal 2010, rate increases had been implemented by the USPS in each of Meredith's last four fiscal years. There was no rate increase in fiscal 2010. In July 2010, the USPS Governors recommended increasing the price of a first-class stamp 2 cents to 46 cents. The price of a postcard would increase 2 cents to 30 cents. The Postal Regulatory Commission must approve the recommended price changes. The increases would go into effect on January 2, 2011. Meredith continues to work with others in the industry and through trade organizations to encourage the USPS to implement efficiencies and contain rate increases. We cannot, however, predict future changes in the efficiency of the USPS and postal rates or the impact they will have on our national media business.

Fulfillment services for Meredith's national media segment are provided by third parties. National magazine newsstand distribution services are provided by a third party through multi-year agreements.

Competition

Publishing is a highly competitive business. The Company's magazines and related publishing products and services compete with other mass media, including the Internet and many other leisure-time activities. Competition for advertising dollars is based primarily on advertising rates, circulation levels, reader demographics, advertiser results, and sales team effectiveness. Competition for readers is based principally on editorial content, marketing skills, price, and customer service. While competition is strong for established titles, gaining readership for newer magazines and specialty publications is especially competitive.

Local Media

Local media represented 20 percent of Meredith's consolidated revenues in fiscal 2010. Certain information about the Company's television stations at June 30, 2010, follows:

Station, Market	DMA National Rank (1)	Network Affiliation	Channel	Expiration Date of FCC License	Average Audience Share (2)
WGCL-TV Atlanta, GA	8	CBS	46	4-1-2005 (3)	5.2 %
KPHO-TV Phoenix, AZ	12	CBS	5	10-1-2006 (3)	6.7 %
KPTV Portland, OR	22	FOX	12	2-1-2007 (3)	5.9 %
KPDX-TV Portland, OR	22	MyNetworkTV	49	2-1-2007 (3)	2.2 %
WSMV-TV Nashville, TN	29	NBC	4	8-1-2005 (3)	12.1 %
WFSB-TV Hartford, CT New Haven, CT	30	CBS	3	4-1-2007 (3)	12.1 %
KCTV Kansas City, MO	32	CBS	5	2-1-2006 (3)	11.1 %
KSMO-TV Kansas City, MO	32	MyNetworkTV	62	2-1-2006 (3)	2.1 %
WHNS-TV Greenville, SC Spartanburg, SC Asheville, NC Anderson, SC	36	FOX	21	12-1-2004 (3)	5.1 %
KVVU-TV	42	FOX	5	10-1-2006 (3)	4.1 %

Flint, MI					
Saginaw, MI					
Bay City, MI					

WSHM-LP	111	CBS	3	4-1-2007 (3)	7.0 %
Springfield, MA					
Holyoke, MA					

(1) Designated Market Area (DMA) is a registered trademark of, and is defined by, Nielsen Media Research. The national rank is from the 2009-2010 DMA ranking.

(2) Average audience share represents the estimated percentage of households using television tuned to the station in the DMA. The percentages shown reflect the average total day shares (9:00 a.m. to midnight) for the November 2009, February 2010, and May 2010 measurement periods.

(3) Renewal application pending. Under FCC rules, a license is automatically extended pending FCC processing and granting of the renewal application. We have no reason to believe that these licenses will not be renewed by the FCC.

Operations

The principal sources of the local media segment's revenues are: 1) local advertising focusing on the immediate geographic area of the stations; 2) national advertising; 3) retransmission of our television signal to satellite and cable systems; 4) advertising on the stations' websites; and 5) payments by advertisers for other services, such as the production of advertising materials. The advertising revenues derived from a station's local news programs make up a significant part of its total revenues.

The stations sell commercial time to both local/regional and national advertisers. Rates for spot advertising are influenced primarily by the market size, number of in-market broadcasters, audience share, and audience demographics. The larger a station's share in any particular daypart, the more leverage a station has in setting advertising rates. As the market fluctuates with supply and demand, so does a station's rates. Most national advertising is sold by independent representative firms. The sales staff at each station generates local/regional advertising revenues.

Typically 30 to 40 percent of a market's television advertising revenue is generated by local newscasts. Station personnel are continually working to grow their news ratings, which in turn will augment revenues. The Company broadcasts local newscasts in high definition (HD) at three of our stations.

The national network affiliations of Meredith's 12 television stations influence advertising rates. Generally, a network affiliation agreement provides a station the exclusive right to broadcast network programming in its local service area. In return, the network has the right to sell most of the commercial advertising aired during network programs. Network-affiliated stations generally pay networks for certain programming and services such as professional football and news services. The Company's FOX affiliates also pay the FOX network for additional advertising spots during prime-time programming.

The Company's affiliation agreements for its six CBS affiliates have expiration dates that range from December 2011 to April 2016. Affiliation agreements for our two MyNetworkTV affiliates expire in September 2011; the FOX affiliation agreements expire at the end of June 2012; and the agreement for our NBC affiliate expires at the end of December 2013. While Meredith's relations with the networks historically have been excellent, the Company can make no assurances they will remain so over time.

The Federal Communications Commission (FCC) has permitted broadcast television station licensees to use their digital spectrum for a wide variety of services such as high-definition television programming, audio, data, mobile applications, and other types of communication, subject to the requirement that each broadcaster provide at least one free video channel equal in quality to the current technical standards. Several of our stations are broadcasting a second programming stream on their digital channel. Our Las Vegas, Phoenix, and Hartford stations currently broadcast a weather channel, our Nashville station broadcasts Telemundo network programming, and Flint-Saginaw has a MyNetworkTV affiliate.

The costs of locally produced programming and purchased syndicated programming are significant. Syndicated programming costs are based largely on demand from stations in the market and can fluctuate significantly. The Company continues to increase its locally produced news and entertainment programming to control content and costs and to attract advertisers.

Meredith has consolidated many back-office station functions such as traffic, accounting, and research into centralized hubs in Atlanta and Phoenix. Centralization of master control should be completed by the end of calendar 2010.

Meredith has been successful in creating several nontraditional revenue streams in the local media segment. Our unique Cornerstone programs leverage our national media brands by packaging content from our magazines with print

and on-air advertising from local advertisers. Several of Meredith's stations are running obituaries on air and on their websites.

7

Meredith Video Studios (MVS) produces broadcast-quality video for use by Meredith's television stations and our local and national media websites, and is producing custom video for clients as well. MVS's video sites, Better.tv and Parents.tv, offer more ways for users to interact with our content. Better.tv features over 20 channels of video information on topics including food, family, home, style, entertainment, fitness, and health. Parents.tv provides all-original parenting content based on the editorial backbone of Parents, American Baby, and Family Circle magazines. Sponsorship opportunities include video billboards, product integration, channel sponsorships, and custom videos.

Our daily lifestyle television show - Better - expanded its reach in fiscal 2010, signing up 50 new markets. Beginning in the fall of 2010, it will reach more than 80 markets nationwide and more than half of all U.S. television households.

Competition

Meredith's television stations and radio station compete directly for advertising dollars and programming in their respective markets with other local television stations, radio stations, and cable television providers. Other mass media providers such as newspapers and their websites are also competitors. Advertisers compare market share, audience demographics, and advertising rates and take into account audience acceptance of a station's programming, whether local, network, or syndicated.

Regulation

The ownership, operation, and sale of broadcast television and radio stations, including those licensed to the Company, are subject to the jurisdiction of the FCC, which engages in extensive regulation of the broadcasting industry under authority granted by the Communications Act of 1934, as amended (Communications Act), including authority to promulgate rules and regulations governing broadcasting. The Communications Act requires broadcasters to serve the public interest. Among other things, the FCC assigns frequency bands; determines stations' locations and operating parameters; issues, renews, revokes, and modifies station licenses; regulates and limits changes in ownership or control of station licenses; regulates equipment used by stations; regulates station employment practices; regulates certain program content, including commercial matters in children's programming; has the authority to impose penalties for violations of its rules or the Communications Act; and imposes annual fees on stations. Reference should be made to the Communications Act, as well as to the FCC's rules, public notices, and rulings for further information concerning the nature and extent of federal regulation of broadcast stations.

Broadcast licenses are granted for eight-year periods. The Communications Act directs the FCC to renew a broadcast license if the station has served the public interest and is in substantial compliance with the provisions of the Communications Act and FCC rules and policies. Management believes the Company is in substantial compliance with all applicable provisions of the Communications Act and FCC rules and policies and knows of no reason why Meredith's broadcast station licenses will not be renewed.

On December 18, 2007, the FCC adopted a decision that revised its newspaper/broadcast cross-ownership rule to permit a degree of same-market newspaper/broadcast ownership based on certain presumptions, criteria, and limitations. The FCC at that time made no changes to the currently effective local radio ownership rules (as modified by its 2003 ownership decision) or the radio/television cross-ownership rule (as modified in 1999). Also in December 2007, the FCC adopted rules to promote diversification of broadcast ownership, including revisions to its ownership attribution rules. The FCC's media ownership rules, including the modifications adopted in December 2007, are subject to further court appeals, various petitions for reconsideration before the FCC, and possible actions by Congress. We cannot predict the impact of any of these developments on our business. In particular, we cannot predict the ultimate outcome of the FCC's media ownership proceedings or their effects on our ability to acquire broadcast stations in the future or to continue to freely transfer stations that we currently own. Moreover, we cannot predict the impact of future reviews or any other agency or legislative initiatives upon the FCC's broadcast rules.

The Communications Act and the FCC also regulate relationships between television broadcasters and cable and satellite television providers. Under these provisions, most cable systems must devote a specified portion of their channel capacity to the carriage of the signals of local television stations that elect to exercise this right to

8

mandatory carriage. Alternatively, television stations may elect to restrict cable systems from carrying their signals without their written permission, referred to as retransmission consent. Congress and the FCC have established and implemented generally similar market-specific requirements for mandatory carriage of local television stations by satellite television providers when those providers choose to provide a market's local television signals.

In 2006, Sprint Nextel Corporation (Nextel) was granted the right from the FCC to claim from broadcasters in each market across the country the 1.9 GHz spectrum to use for an emergency communications system. In order to claim this signal, Nextel must replace all analog equipment currently using this spectrum with digital equipment. All broadcasters have agreed to use the digital substitute provided by Nextel. The transition was being completed on a market-by-market basis. We recorded pre-tax gains of \$2.7 million in fiscal 2010, \$2.5 million in fiscal 2009, and \$1.8 million in fiscal 2008, that represent the difference between the fair value of the digital equipment we received and the book value of the analog equipment we exchanged.

Congress and the FCC have under consideration, and in the future may adopt, new laws, regulations, and policies regarding a wide variety of matters that could affect, directly or indirectly, the operation, ownership transferability, and profitability of the Company's broadcast stations and affect the ability of the Company to acquire additional stations. In addition to the matters noted above, these include, for example, spectrum allocation, spectrum usage fees, regulation of political advertising rates, restrictions on the advertising of certain products (such as alcoholic beverages), program content restrictions, and ownership rule changes. Other matters that could potentially affect the Company's broadcast properties include technological innovations and developments generally affecting competition in the mass communications industry for viewers or advertisers, such as home video recorders and players, satellite radio and television services, cable television systems, newspapers, outdoor advertising, and Internet delivered video programming services.

The information provided in this section is not intended to be inclusive of all regulatory provisions currently in effect. Statutory provisions and FCC regulations are subject to change, and any such changes could affect future operations and profitability of the Company's local media segment. Management cannot predict what regulations or legislation may be adopted, nor can management estimate the effect any such changes would have on the Company's television and radio broadcasting operations.

EXECUTIVE OFFICERS OF THE COMPANY

Executive officers are elected to one year terms each November. The current executive officers of the Company are:

Stephen M. Lacy—Chairman, President, and Chief Executive Officer and a director of the Company since 2004. Formerly President and Chief Executive Officer (2006 - 2010) and President and Chief Operating Officer (2004 - 2006). Age 56.

Thomas H. Harty—President-National Media Group. Formerly President-Consumer Magazines (2009 - 2010) and Vice President-Magazine Group (2004 - 2009). Age 47.

Paul A. Karpowicz—President-Local Media Group (2005 - present). Age 57.

Joseph H. Ceryanec—Vice President-Chief Financial Officer (2008 - present). Prior to joining Meredith, Mr. Ceryanec served as President, Central Region for PAETEC Corporation (February 2008 - October 2008). Prior to PAETEC's acquisition of McLeodUSA, Mr. Ceryanec served as McLeodUSA's Group Vice President, Chief Financial Officer from 2005 to 2008. Age 49.

John S. Zieser—Chief Development Officer/General Counsel and Secretary (2006 - present). Formerly Vice President-Corporate Development/General Counsel and Secretary (2004 - 2006). Age 51.

EMPLOYEES

As of June 30, 2010, the Company had approximately 3,115 full-time and 110 part-time employees. Only a small percentage of our workforce is unionized. We consider relations with our employees to be good.

OTHER

Name recognition and the public image of the Company's trademarks (e.g., Better Homes and Gardens and Parents) and television station call letters are vital to the success of our ongoing operations and to the introduction of new business. The Company protects its brands by aggressively defending its trademarks and call letters.

The Company had no material expenses for research and development during the past three fiscal years. Revenues from individual customers and revenues, operating profits, and identifiable assets of foreign operations were not significant. Compliance with federal, state, and local provisions relating to the discharge of materials into the environment and to the protection of the environment had no material effect on capital expenditures, earnings, or the Company's competitive position.

AVAILABLE INFORMATION

The Company's corporate website is Meredith.com. The content of our website is not incorporated by reference into this Form 10-K. Meredith makes available free of charge through its website its Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to those reports filed or furnished to the Securities and Exchange Commission (SEC) pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 as soon as reasonably practical after such documents are electronically filed with or furnished to the SEC. Meredith also makes available on its website its corporate governance information including charters of all of its Board Committees, its Corporate Governance Guidelines, its Code of Business Conduct and Ethics, its Code of Ethics for CEO and Senior Financial Officers, and its Bylaws. Copies of such documents are also available free of charge upon written request.

FORWARD LOOKING STATEMENTS

This Form 10-K, including the sections titled Item 1-Business, Item 1A-Risk Factors, and Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations, contains forward-looking statements that relate to future events or our future financial performance. We may also make written and oral forward-looking statements in our SEC filings and elsewhere. By their nature, forward-looking statements involve risks, trends, and uncertainties that could cause actual results to differ materially from those anticipated in any forward-looking statements. Such factors include, but are not limited to, those items described in Item 1A-Risk Factors below, those identified elsewhere in this document, and other risks and factors identified from time to time in our SEC filings. We have tried, where possible, to identify such statements by using words such as believe, expect, intend, estimate, anticipate, will, likely, project, plan, and similar expressions in connection with any discussion of future operating or financial performance. Any forward-looking statements are and will be based upon our then-current expectations, estimates, and assumptions regarding future events and are applicable only as of the dates of such statements. Readers are cautioned not to place undue reliance on such forward-looking statements that are part of this filing; actual results may differ materially from those currently anticipated. The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

ITEM 1A. RISK FACTORS

In addition to the other information contained or incorporated by reference into this Form 10-K, investors should consider carefully the following risk factors when investing in our securities. In addition to the risks described below, there may be additional risks that we have not yet perceived or that we currently believe are immaterial.

Advertising represents the largest portion of our revenues. In fiscal 2010, 56 percent of our revenues were derived from advertising. Advertising constitutes about half of our national media revenues and almost all of our local media revenues. Demand for advertising is highly dependent upon the strength of the U.S. economy. During an economic downturn, demand for advertising may decrease. The growth in alternative forms of media, for example the Internet, has increased the competition for advertising dollars, which could in turn reduce expenditures for magazine and television advertising or suppress advertising rates.

Circulation revenues represent a significant portion of our revenues. Magazine circulation is another significant source of revenue, representing 20 percent of total revenues and 26 percent of national media revenues. Preserving circulation is critical for maintaining advertising sales. Magazines face increasing competition from alternative forms of media and entertainment. As a result, sales of magazines through subscriptions and at the newsstand could decline. As publishers compete for subscribers, subscription prices could decrease and marketing expenditures may increase.

Client relationships are important to our integrated marketing businesses. Our ability to maintain existing client relationships and generate new clients depends significantly on the quality of our services, our reputation, and the continuity of Company and client personnel. Dissatisfaction with our services, damage to our reputation, or changes in key personnel could result in a loss of business.

Paper and postage prices may be difficult to predict or control. Paper and postage represent significant components of our total cost to produce, distribute, and market our printed products. In fiscal 2010, these expenses accounted for 27 percent of national media's operating costs. Paper is a commodity and its price has been subject to significant volatility. All of our paper supply contracts currently provide for price adjustments based on prevailing market prices; however, we historically have been able to realize favorable paper pricing through volume discounts and multi-year contracts. The USPS distributes substantially all of our magazines and many of our marketing materials. Postal rates are dependent on the operating efficiency of the USPS and on legislative mandates imposed upon the USPS. Although we work with others in the industry and through trade organizations to encourage the USPS to implement efficiencies that will minimize rate increases, we cannot predict with certainty the magnitude of future price changes for paper and postage. Further, we may not be able to pass such increases on to our customers.

World events may result in unexpected adverse operating results for our local media segment. Our local media results could be affected adversely by world events such as wars, political unrest, acts of terrorism, and natural disasters. Such events can result in significant declines in advertising revenues as the stations will not broadcast or will limit broadcasting of commercials during times of crisis. In addition, our stations may have higher newsgathering costs related to coverage of the events.

Our local media operations are subject to FCC regulation. Our broadcasting stations operate under licenses granted by the FCC. The FCC regulates many aspects of television station operations including employment practices, political advertising, indecency and obscenity, programming, signal carriage, and various technical matters. Violations of these regulations could result in penalties and fines. Changes in these regulations could impact the results of our operations. The FCC also regulates the ownership of television stations. Changes in the ownership rules could affect our ability to consummate future transactions. Details regarding regulation and its impact on our local media operations are provided in Item 1-Business beginning on page 8.

Loss of affiliation agreements could adversely affect operating results for our local media segment. Our broadcast television station business owns and operates 12 television stations. Six are affiliated with CBS, three

with FOX, two with MyNetworkTV, and one with NBC. These television networks produce and distribute programming in exchange for each of our stations' commitment to air the programming at specified times and for commercial announcement time during the programming. The non-renewal or termination of any of our network affiliation agreements would prevent us from being able to carry programming of the affiliate network. This loss of programming would require us to obtain replacement programming, which may involve higher costs and which may not be as attractive to our audiences, resulting in reduced revenues.

We have two classes of stock with different voting rights. We have two classes of stock: common stock and Class B stock. Holders of common stock are entitled to one vote per share and account for approximately 30 percent of the voting power. Holders of Class B stock are entitled to ten votes per share and account for the remaining 70 percent of the voting power. There are restrictions on who can own Class B stock. The majority of Class B shares are held by members of Meredith's founding family. Control by a limited number of individuals may make the Company a less attractive takeover target, which could adversely affect the market price of our common stock. This voting control also prevents other shareholders from exercising significant influence over certain of the Company's business decisions.

Further non-cash impairment of goodwill and intangible assets is possible, depending upon future operating results and the value of the Company's stock. Although the Company wrote down certain of its intangible assets (including goodwill) by \$294.5 million in fiscal 2009, further impairment charges are possible. We test our goodwill and intangible assets, including FCC licenses, for impairment during the fourth quarter of every fiscal year and on an interim basis if indicators of impairment exist. Factors which influence the evaluation include the Company's stock price and expected future operating results. If the carrying value of a reporting unit or an intangible asset is no longer deemed to be recoverable, a potentially material impairment charge could be incurred. Although these charges would be non-cash in nature and would not affect the Company's operations or cash flow, they would adversely affect stockholders' equity and reported results of operations in the period charged.

Acquisitions pose inherent financial and other risks and challenges. On occasion, we will acquire another business as part of our strategic plan. These transactions involve challenges and risks in negotiation, valuation, execution, and integration. Moreover, competition for certain types of acquisitions is significant, particularly in the field of interactive media. Even if successfully negotiated, closed, and integrated, certain acquisitions may not advance our business strategy and may fall short of expected return on investment targets.

The preceding risk factors should not be construed as a complete list of factors that may affect our future operations and financial results.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Meredith is headquartered in Des Moines, IA. The Company owns buildings at 1716 and 1615 Locust Street and is the sole occupant of these buildings. These facilities are adequate for their intended use.

The national media segment operates mainly from the Des Moines offices and from leased facilities at 125 Park Avenue and 375 Lexington Avenue in New York, NY. The New York facilities are used primarily as advertising sales offices for all Meredith magazines and as headquarters for Ladies' Home Journal, Family Circle, Parents, Fitness, More, Siempre Mujer, and the American Baby Group properties. We have also entered into leases for integrated marketing operations and national media sales offices located in the states of California, Illinois, Michigan, Texas, and Virginia. The Company believes the capacity of these locations is sufficient to meet our current and expected future requirements.

The local media segment operates from facilities in the following locations: Atlanta, GA; Phoenix, AZ; Beaverton, OR; Rocky Hill, CT; Nashville, TN; Fairway, KS; Greenville, SC; Henderson, NV; Springfield, MA; and Saginaw, MI. All of these properties are adequate for their intended use. The property in Springfield is leased, while the other properties are owned by the Company. Each of the broadcast stations also maintains one or more owned or leased transmitter sites.

ITEM 3. LEGAL PROCEEDINGS

There are various legal proceedings pending against the Company arising from the ordinary course of business. In the opinion of management, liabilities, if any, arising from existing litigation and claims will not have a material effect on the Company's earnings, financial position, or liquidity.

PART
IIITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS, AND
ISSUER PURCHASES OF EQUITY SECURITIES

MARKET INFORMATION, DIVIDENDS, AND HOLDERS

The principal market for trading Meredith's common stock is the New York Stock Exchange (trading symbol MDP). There is no separate public trading market for Meredith's Class B stock, which is convertible share for share at any time into common stock. Holders of both classes of stock receive equal dividends per share.

The range of trading prices for the Company's common stock and the dividends per share paid during each quarter of the past two fiscal years are presented below.

	High	Low	Dividends
Fiscal 2010			
First Quarter	\$ 33.17	\$ 23.61	\$ 0.225
Second Quarter	32.43	25.83	0.225
Third Quarter	35.08	29.00	0.230
Fourth Quarter	38.08	31.02	0.230

	High	Low	Dividends
Fiscal 2009			
First Quarter	\$ 31.31	\$ 23.02	\$ 0.215
Second Quarter	28.30	12.06	0.215
Third Quarter	19.49	10.60	0.225
Fourth Quarter	30.10	16.40	0.225

Meredith stock became publicly traded in 1946, and quarterly dividends have been paid continuously since 1947. Meredith has increased its dividend in each of the last 17 years. It is currently anticipated that comparable dividends will continue to be paid in the future.

On July 31, 2010, there were approximately 1,345 holders of record of the Company's common stock and 710 holders of record of Class B stock.

COMPARISON OF SHAREHOLDER RETURN

The following graph compares the performance of the Company's common stock during the period July 1, 2005, to June 30, 2010, with the Standard and Poor's (S&P) 500 Index and with a Peer Group of six companies engaged in multimedia businesses primarily with publishing and/or television broadcasting in common with the Company.

The S&P 500 Index is comprised of 500 U.S. companies in the industrial, transportation, utilities, and financial industries and is weighted by market capitalization. The Peer Group selected by the Company for comparison, which is also weighted by market capitalization, is comprised of Belo Corp.; Gannett Co., Inc.; The McGraw-Hill

Companies, Inc.; Media General, Inc.; The E.W. Scripps Company; and The Washington Post Company.

The graph depicts the results for investing \$100 in the Company's common stock, the S&P 500 Index, and the Peer Group at closing prices on June 30, 2005, assuming dividends were reinvested.

ISSUER PURCHASES OF EQUITY SECURITIES

The following table sets forth information with respect to the Company's repurchases of common stock during the quarter ended June 30, 2010.

Period	(a) Total number of shares purchased ⁽¹⁾	(b) Average price paid per share	(c) Total number of shares purchased as part of publicly announced programs	(d) Maximum number of shares that may yet be purchased under the programs
April 1 to April 30, 2010	13,921	\$35.59	13,921	1,324,063
May 1 to May 31, 2010	12,284	35.37	12,284	1,311,779
June 1 to June 30, 2010	3,550	32.73	3,550	1,308,229
Total	29,755	35.16	29,755	1,308,229

(1) Total number of shares purchased includes the purchase of 28 shares of Class B stock in April 2010.

In May 2008, Meredith announced its Board of Directors had authorized the repurchase of up to 2.0 million additional shares of the Company's stock through public and private transactions.

For more information on the Company's share repurchase program, see Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations, under the heading "Share Repurchase Program" on page 34.

ITEM 6. SELECTED FINANCIAL DATA

Selected financial data for the fiscal years 2006 through 2010 is contained under the heading "Eleven-Year Financial History with Selected Financial Data" beginning on page 82 and is derived from consolidated financial statements for those years. Information contained in that table is not necessarily indicative of results of operations in future years and should be read in conjunction with Item 7-Management's Discussion and Analysis of Financial Condition and Results of Operations and Item 8-Financial Statements and Supplementary Data of this Form 10-K.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) consists of the following sections:

	Page
<u>Executive Overview</u>	<u>16</u>
<u>Results of Operations</u>	<u>20</u>
<u>Liquidity and Capital Resources</u>	<u>31</u>
<u>Critical Accounting Policies</u>	<u>35</u>
<u>Accounting and Reporting Developments</u>	<u>38</u>

MD&A should be read in conjunction with the other sections of this Form 10-K, including Item 1-Business, Item 6-Selected Financial Data, and Item 8-Financial Statements and Supplementary Data. MD&A contains a number of forward-looking statements, all of which are based on our current expectations and could be affected by the uncertainties and risk factors described throughout this filing, particularly in Item 1A-Risk Factors.

EXECUTIVE OVERVIEW

Meredith Corporation is the leading media and marketing company serving American women. Meredith combines well-known national brands - including Better Homes and Gardens, Parents, Ladies' Home Journal, Family Circle, American Baby, Fitness, and More - with local television brands in fast growing markets such as Atlanta, Phoenix, and Portland. Meredith is the industry leader in creating content in key consumer interest areas such as home, family, health and wellness, and self-development. Meredith then uses multiple distribution platforms - including print, television, online, mobile, and video - to give consumers content they desire and to deliver the messages of its marketing partners. Additionally, Meredith uses its many assets to create powerful custom marketing solutions for many of the nation's top brands and companies.

Meredith operates two business segments. The national media group consists of magazine publishing, interactive media, integrated marketing, brand licensing, database-related activities, and other related operations. The local media group consists of 12 network-affiliated television stations, one radio station, related interactive media operations, and video-related operations. Both segments operate primarily in the U.S. and compete against similar media and other types of media on both a local and national basis. In fiscal 2010, the national media group accounted for approximately 80 percent of the Company's \$1.4 billion in revenues while local media group revenues contributed approximately 20 percent.

Fiscal 2010 marked a return to earnings growth for Meredith as the Company strengthened its businesses across the board. While the economy remained weak relative to historic measures, Meredith continued its outperformance of the magazine and television industries and gained market share in fiscal 2010.

During fiscal 2010, Meredith established a three-year strategic plan called Vision 2013 that builds on its previously enacted Performance Improvement Plan. Vision 2013 is a detailed roadmap designed to position Meredith for both near and long-term growth. It consists of six key strategies:

Exploit the economic recovery—Meredith's share of overall magazine industry advertising revenues increased to 12.3 percent in fiscal 2010—the highest in history—and up from 9.5 percent two years ago, according to Publishers Information Bureau data. This marked the fifth consecutive year of magazine market share gains for Meredith. In addition, Meredith's television stations outperformed the industry in fiscal 2010, according to Television Bureau of Advertising data.

Optimize our core businesses—Meredith accomplished a series of re-engineering initiatives inside its national and local media groups, including the content creation, sales, and consumer marketing functions. These initiatives resulted in efficiencies and improved products. These initiatives also helped improve Meredith's cost structure. The Company reduced debt another 20 percent in fiscal 2010, following a 22 percent reduction in fiscal 2009.

Expand our digital business—Meredith enhanced its online consumer experience and took steps to better monetize growing online traffic. The Company launched mobile platforms for three key brands—Better Homes and Gardens, Parents and Fitness—and introduced several new mobile applications at its television stations. In July 2010, Meredith completed the acquisition of The Hyperfactory, one of the world's leading mobile marketing companies. Also in fiscal 2010, the Company joined publishing and broadcasting industry consortiums to further develop the mobile and eTablet platforms for consumers and advertisers.

Significantly grow Meredith Integrated Marketing—In the last four years, Meredith has doubled revenues in this business and acquired six firms to provide sought-after expertise in digital, viral, social, mobile, health care, and database marketing. In fiscal 2010, these new services helped to partially offset market-driven weakness in Meredith Integrated Marketing's custom publishing operations.

Enhance and extend key brands—Meredith has built Better Homes and Gardens into one of the most successful media brands in the industry, with extensions into most media platforms.

Build shareholder value over time—Meredith grew value for shareholders in fiscal 2010, including an increase to its dividend for the 17th consecutive year. Over the last two years - and at a time when many media companies cut or eliminated their dividends - Meredith has increased its annual dividend by 14 percent.

Meredith clearly improved its competitive position across the business in fiscal 2010. However, while fiscal 2010 was a better year for Meredith in most respects, there is significant work ahead to regain and surpass the performance achieved prior to the recession. That said, Meredith made strong progress toward that goal in fiscal 2010, and the Company is committed to building shareholder value over time.

NATIONAL MEDIA

Advertising revenues made up 48 percent of fiscal 2010 national media revenues. These revenues were generated from the sale of advertising space in our magazines and on our websites to clients interested in promoting their brands, products, and services to consumers. Changes in advertising revenues tend to correlate with changes in the level of

economic activity in the U.S. Indicators of economic activity include changes in the level of gross domestic product, consumer spending, housing starts, unemployment rates, auto sales, and interest rates. Circulation levels of Meredith's magazines, reader demographic data, and the advertising rates charged relative to other comparable available advertising opportunities also affect the level of advertising revenues.

Circulation revenues accounted for 25 percent of fiscal 2010 national media revenues. Circulation revenues result from the sale of magazines to consumers through subscriptions and by single copy sales on newsstands, primarily at major retailers and grocery/drug stores. In the short term, subscription revenues, which accounted for 74 percent of circulation revenues, are less susceptible to economic changes because subscriptions are generally sold for terms of one to three years. The same economic factors that affect advertising revenues also can influence consumers' response to subscription offers and result in lower revenues and/or higher costs to maintain subscriber levels over time. A key factor in Meredith's subscription success is our industry-leading database. It contains approximately 85 million entries that include information on about three-quarters of American homeowners, providing an average of 700 data points for each name. The size and depth of our database is a key to our circulation model and allows more precise consumer targeting. Newsstand revenues are more volatile than subscription revenues and can vary significantly month to month depending on economic and other factors.

The remaining 27 percent of national media revenues came from a variety of activities that included the sale of integrated marketing services and books as well as brand licensing, product sales, and other related activities. Meredith Integrated Marketing offers integrated promotional, database management, relationship, and direct marketing capabilities for corporate customers, both in printed and digital forms. These revenues are generally affected by changes in the level of economic activity in the U.S. including changes in the level of gross domestic product, consumer spending, unemployment rates, and interest rates.

National media's major expense categories are production and delivery of publications and promotional mailings and employee compensation costs. Paper, postage, and production charges represented 40 percent of the segment's operating expenses in fiscal 2010. The price of paper can vary significantly on the basis of worldwide demand and supply for paper in general and for specific types of paper used by Meredith. The production of our publications is outsourced to printers. We typically have multi-year contracts for the production of our magazines, a practice which reduces price fluctuations over the contract term. Postal rates are dependent on the operating efficiency of the USPS and on legislative mandates imposed on the USPS. The USPS increased rates most recently in May 2009 and has proposed rate increases that would be effective in January 2011 if approved. This came after increases in each of Meredith's prior three fiscal years. Meredith works with others in the industry and through trade organizations to encourage the USPS to implement efficiencies and contain rate increases.

Employee compensation, which includes benefits expense, represented 25 percent of national media's operating expenses in fiscal 2010. Compensation expense is affected by salary and incentive levels, the number of employees, the costs of our various employee benefit plans, and other factors. The remaining 35 percent of fiscal 2010 national media expenses included costs for magazine newsstand and book distribution, advertising and promotional efforts, and overhead costs for facilities and technology services.

LOCAL MEDIA

Local media derives almost all of its revenues—90 percent in fiscal 2010—from the sale of advertising both over the air and on our stations' websites. The remainder comes from television retransmission fees, television production services, and other services.

The stations sell advertising to both local/regional and national accounts. Political advertising revenues are cyclical in that they are significantly greater during biennial election campaigns (which take place primarily in odd-numbered fiscal years) than at other times. MVS produces video content for Meredith stations, non-Meredith stations, online distribution, and corporate customers. Meredith continues to expand its Cornerstone program to leverage our national media brands. The program packages material from our national magazines with local advertising to create customized mini-magazines delivered to targeted customers in the markets our television stations serve. We have

generated additional revenues from Internet activities and programs focused on local interests such as community events and college and professional sports.

Changes in advertising revenues tend to correlate with changes in the level of economic activity in the U.S. and in the local markets in which we operate stations, and with the cyclical changes in political advertising discussed previously. Programming content, audience share, audience demographics, and the advertising rates charged relative to other available advertising opportunities also affect advertising revenues. On occasion, unusual events necessitate uninterrupted television coverage and will adversely affect spot advertising revenues.

Local media's major expense categories are employee compensation and programming costs. Employee compensation represented 52 percent of local media's operating expenses in fiscal 2010, and is affected by the same factors noted for national media. Programming rights amortization expense represented 10 percent of this segment's fiscal 2010 expenses. Programming expense is affected by the cost of programs available for purchase and the selection of programs aired by our television stations. Sales and promotional activities, costs to produce local news programming, and general overhead costs for facilities and technical resources accounted for most of the remaining 38 percent of local media's fiscal 2010 operating expenses.

FISCAL 2010 FINANCIAL OVERVIEW

- National media group revenues decreased 3 percent from the prior year primarily due to reductions in revenues at Meredith Books, which was expected due to the March 2009 licensing agreement with Wiley. While advertising and integrated marketing revenues increased in the second half of the fiscal year, full year results were lower than the prior-year primarily due to the weakened economic conditions that existed during the first part of our fiscal year. Brand licensing revenues increased compared to the prior fiscal year. National media group operating profit increased 11 percent, primarily as a result of the Company's ongoing initiative to reduce operating costs.
- Local media group revenues were \$282.4 million in fiscal 2010, up 3 percent from the prior year despite \$14.3 million less in net political advertising revenue. Fiscal 2010 local media operating profit was \$52.9 million compared to a year-ago loss of \$257.8 million, which included a \$294.5 million non-cash impairment charge. Excluding the impairment charge in the prior fiscal year, fiscal 2010 local media group operating profit increased 44 percent from \$36.8 million in fiscal 2009.
- In fiscal 2010, management committed to performance improvement plans that included the realignment of our national media group digital operations and the repositioning of our SIM operations. In connection with these plans, the national media group recorded pre-tax restructuring charges of \$3.9 million for severance and benefit costs and the write-off of various assets of our SIM operations of \$3.3 million. During fiscal 2010, the Company recorded \$2.7 million in reversals of excess restructuring reserves accrued in prior fiscal years.
- Diluted earnings per share increased to \$2.28 from a loss of \$2.38 in fiscal 2009. Excluding the impairment charge of \$4.11 per share, diluted earnings per share were \$1.73 in the prior year.
- In fiscal 2010, we generated \$191.7 million in operating cash flows, invested \$24.7 million in capital improvements, and eliminated \$80.0 million of our debt. The quarterly dividend was increased 2 percent from 22.5 cents per share to 23.0 cents per share effective with the March 2010 payment.

RESULTS OF OPERATIONS

Years ended June 30, (In millions except per share data)	2010	Change	2009	Change	2008

NM - not meaningful

OVERVIEW

Following are a brief description of discontinued operations and a discussion of our rationale for the use of financial measures that are not in accordance with accounting principles generally accepted in the United States of America (GAAP), or non-GAAP financial measures, and a discussion of the trends and uncertainties that affected our businesses. Following the Overview is an analysis of the results of operations for the national media and local media segments and an analysis of our consolidated results of operations for the last three fiscal years.

Discontinued Operations

Unless stated otherwise, as in the section titled Discontinued Operations, all of the information contained in MD&A relates to continuing operations. Therefore, results of Country Home magazine, which was closed in fiscal 2009, and WFLI, which was sold in fiscal 2008, are excluded for all periods covered by this report.

Use of Non-GAAP Financial Measures

Certain Consolidated Statement of Earnings (Loss) and local media segment operating profit (loss) line items excluding the impact of the local media impairment charge taken in fiscal 2009 are non-GAAP financial measures. We are providing this information to facilitate a meaningful comparison of results for the last three fiscal years and because we believe it is useful to investors in evaluating our ongoing operations. Non-GAAP financial measures are intended to provide insight into selected financial information and should be evaluated in the context in which they are presented. These measures are of limited usefulness in evaluating our overall financial results presented in accordance with GAAP and should be considered in conjunction with the consolidated financial statements, including the related notes included elsewhere in this report.

A reconciliation of results excluding the local media impairment charge (non-GAAP) to reported results (GAAP) for fiscal 2009 follows.

Twelve Months ended June 30, 2009	Excluding Impairment Charge	Impairment Charge	As Reported
(In thousands except per share data)			
Total operating expenses	\$ 1,249,396	\$ 294,529	\$ 1,543,925
Income (loss) from operations	159,401	(294,529)	(135,128)
Income taxes	(56,658)	109,400	52,742
Earnings (loss) from continuing operations	82,622	(185,129)	(102,507)
Net earnings (loss)	78,045	(185,129)	(107,084)
Diluted earnings (loss) from continuing operations	1.83	4.11	(2.28)
Diluted earnings (loss) per share	1.73	4.11	(2.38)
Local media operating profit (loss)	36,755	(294,529)	(257,774)

Our analysis of local media segment results includes references to earnings from continuing operations before interest, taxes, depreciation, and amortization (EBITDA) and adjusted EBITDA, which is defined as EBITDA before impairment charge. Fiscal 2010 and fiscal 2008 do not include an adjustment to EBITDA for impairment. EBITDA, adjusted EBITDA, and EBITDA margin are non-GAAP measures. We use EBITDA and adjusted EBITDA along with operating profit and other GAAP measures to evaluate the financial performance of our local media segment. EBITDA is a common alternative measure of performance in the broadcasting industry and is used by investors and financial analysts, but its calculation may vary among companies. Adjusted EBITDA is used to facilitate a meaningful comparison of results for the last three years. Local media segment EBITDA and adjusted EBITDA are not used as measures of liquidity, nor are they necessarily indicative of funds available for our discretionary use.

We believe the non-GAAP measures used in MD&A contribute to an understanding of our financial performance and provide an additional analytic tool to understand our results from core operations and to reveal underlying trends. These measures should not, however, be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

Trends and Uncertainties

Advertising demand is the Company's key uncertainty, and its fluctuation from period to period can have a material effect on operating results. Advertising revenues accounted for 56 percent of total revenues in fiscal 2010. Other significant uncertainties that can affect operating results include fluctuations in the cost of paper, postage rates and, over time, television programming rights. The Company's cash flows from operating activities, its primary source of liquidity, is adversely affected when the advertising market is weak or when costs rise. One of our priorities is to manage our businesses prudently during expanding and contracting economic cycles to maximize shareholder return over time. To manage the uncertainties inherent in our businesses, we prepare monthly internal forecasts of anticipated results of operations and monitor the economic indicators mentioned in the Executive Overview. See Item 1A-Risk Factors in this Form 10-K for further discussion.

NATIONAL MEDIA

The following discussion reviews operating results for our national media segment, which includes magazine publishing, integrated marketing, interactive media, brand licensing, database-related activities, and other related operations. The national media segment contributed 80 percent of Meredith's revenues and 76 percent of the combined operating profit from national media and local media operations in fiscal 2010.

In fiscal 2010, national media revenues decreased 3 percent while segment operating profit rose 11 percent. In fiscal 2009, national media revenues declined 8 percent and segment operating profit declined 20 percent. National media operating results for the last three fiscal years were as follows:

Years ended June 30, (In millions)	2010	Change	2009	Change	2008
Revenues	\$ 1,105.3	(3)%	\$ 1,134.2	(8)%	\$ 1,233.8
Operating expenses	(937.9)	(5)%	(983.2)	(6)%	(1,045.5)
Operating profit	\$ 167.4	11 %	\$ 151.0	(20)%	\$ 188.3

National Media Revenues

The table below presents the components of revenues for the last three fiscal years.

Years ended June 30, (In millions)	2010	Change	2009	Change	2008
Revenues					
Advertising	\$ 526.4	(1)%	\$ 530.1	(15)%	\$ 620.2
Circulation	282.5	1 %	280.8	(7)%	300.6
Other	296.4	(8)%	323.3	3 %	313.0
Total revenues	\$ 1,105.3	(3)%	\$ 1,134.2	(8)%	\$ 1,233.8

Advertising Revenue

The following table presents advertising page information according to PIB for our major subscription-based magazines for the last three fiscal years:

Years ended June 30,	2010	Change	2009	Change	2008
Better Homes and Gardens	1,780	10 %	1,618	(15)%	1,898
Family Circle	1,766	7 %	1,645	(1)%	1,670
Parents	1,368	(3)%	1,413	(10)%	1,567
Ladies' Home	1,161	(5)%	1,217	(12)%	1,391

Journal							
More	889	(1)%	895	(18)%	1,089
Fitness	856	12	%	762	3	%	737
Traditional Home	640	5	%	610	(20)%	762
American Baby	486	(11)%	544	(18)%	660
Midwest Living	526	—	%	524	(28)%	726

Magazine advertising revenues and total advertising pages decreased approximately 2 percent in fiscal 2010 as average net revenue per page was approximately flat. On the strength of Better Homes and Gardens and Family Circle, our women's service titles increased advertising revenues and pages in fiscal 2010. Fitness also grew ad revenues and pages. Parenthood, shelter, mens, and Hispanic titles were down in our fiscal year. Among our core advertising categories, household supplies, automotive, prescription drugs, food and beverage, and toiletries and cosmetics showed strength while demand was weaker for the home, non-prescription drug, and travel categories. Online advertising revenues in our interactive media operations increased 13 percent in fiscal 2010 as compared to the prior-year period due to strong demand.

In fiscal 2009, magazine advertising pages and revenues showed double-digit declines on a percentage basis at nearly all our titles. Both magazine advertising pages and revenues were down approximately 15 percent in fiscal

2009 as average net revenue per page was approximately flat. Among our advertising categories, toiletries and cosmetics and consumer electronics showed strength, while demand continued to be weaker for most other categories. In fiscal 2009, online advertising revenues decreased 5 percent.

Circulation Revenues

Magazine circulation revenues increased 1 percent in fiscal 2010. Subscription revenues decreased 1 percent while newsstand revenues increased 4 percent for the period. The decrease in subscription revenues was primarily due to there effectively being two less issues of Fitness in the current year as compared to the prior year as a result of a double issue in June of fiscal 2009. The increase in newsstand revenues was primarily the result of stronger sales of our SIM publications.

Magazine circulation revenues decreased 7 percent in fiscal 2009, reflecting declines in both newsstand and subscription revenues. Subscription revenues were down in the low-single digits on a percentage basis while newsstand revenues were down approximately 20 percent. While subscription revenues were down, subscription contribution was up 12 percent. The decrease in newsstand revenues was primarily due to a weaker retail market that affected most of our magazines' newsstand revenues and a change in the mix of as well as a reduction in the number of special interest publications and craft titles.

Other Revenues

Other revenues within the national media group declined 8 percent in fiscal 2010. Integrated marketing revenues declined 7 percent due to cutbacks in existing programs, primarily related to the automotive and retail sectors, as well as fewer new programs launched compared to the prior year. Brand licensing revenues grew 36 percent in fiscal 2010, buoyed by an expansion of our Wal-Mart relationship. The number of SKUs of Better Homes and Gardens products increased to 2,000, including many holiday items. Additionally, we introduced a new line of branded paint and expanded the licensing agreement to more than 200 Wal-Mart stores in Canada.

Fiscal 2010 book revenues declined due to the change in the business model. Previously, Meredith published books under the Better Homes and Gardens trademark and other licensed trademarks. Effective March 1, 2009, Wiley acquired the exclusive global rights to publish and distribute books based on Meredith's consumer-leading brands. Meredith continues to create book content and retain all approval and content rights. Wiley is responsible for book layout and design, printing, sales and marketing, distribution, and inventory management. Wiley pays Meredith royalties based on net sales subject to a guaranteed minimum.

Integrated marketing revenues increased 13 percent in fiscal 2009. The acquisition of Big Communications in June 2008 more than offset a reduction in revenues in integrated marketing's traditional and certain of its online businesses, which was primarily due to certain non-recurring programs in the prior year and due to the timing of delivery of certain projects. Revenues from magazine royalties and licensing were up 14 percent in fiscal 2009. The introduction of the Better Homes and Gardens line of home products at Wal-Mart primarily fueled this growth. Book revenues declined 9 percent in fiscal 2009, primarily due to a significant reduction in the number of new book releases and the change in the business model that was effective March 2009 as discussed above. The aggregate effect of the changes in integrated marketing, brand licensing, and book operations was that other national media revenues increased 3 percent in fiscal 2009.

National Media Operating Expenses

National media operating expenses decreased 5 percent in fiscal 2010. Book manufacturing costs decreased due to the changes made in the book business model. Paper costs decreased primarily due to a reduction in average paper prices of 16 percent. Following integrated marketing's revenues, integrated marketing production expenses also declined. Circulation expenses declined in fiscal 2010. These cost reductions were partially offset by increased processing costs,

performance-based incentive accruals, pension and other retirement plan costs, and postage.

In fiscal 2010, the national media group recorded the write-off of subscription acquisition costs of \$1.8 million and of manuscript and art inventory of \$1.5 million related to the repositioning of our SIM operations and recorded \$3.9

23

million in severance and benefit costs related to the repositioning of our SIM operations and the realignment of our digital operations. The national media group also recorded an impairment of an investment of \$2.2 million. Partially offsetting these charges was a \$2.1 million reversal of excess restructuring accrual previously recorded by the national media segment.

National media operating costs decreased 6 percent in fiscal 2009. In fiscal 2009, severance and related benefit costs of \$7.7 million were recorded in the national media segment related to the companywide reduction in workforce. With regard to ongoing operating expenses, processing, other delivery expenses, amortization expense, advertising and promotion, and travel and entertainment expenses declined. Book manufacturing, art, and separations expense decreased due to the changes made in the book business. Circulation expenses also declined. While performance-based incentive expense declined, employee compensation costs increased slightly. Paper expense rose as increases in paper costs of approximately 10 percent more than offset decreases in paper consumption due to the decline in advertising pages sold.

National Media Operating Profit

In fiscal 2010, national media operating profit grew 11 percent compared with the prior-year period. Increases in operating profit in our magazine and brand licensing operations more than offset lower operating profits in our integrated marketing, book, and interactive media operations.

Fiscal 2009 national media operating profit decreased 20 percent. The decline primarily reflected the weak demand for advertising and higher paper prices partially offset by increased operating profits in our book, integrated marketing, and brand licensing operations.

LOCAL MEDIA

The following discussion reviews operating results for the Company's local media segment, which currently consists of 12 network-affiliated television stations, one radio station, related interactive media operations, and video production related operations. The local media segment contributed 20 percent of Meredith's revenues and 24 percent of the combined operating profit from national media and local media operations in fiscal 2010.

Local media revenues increased 3 percent in fiscal 2010 as higher non-political advertising and other revenues more than offset a \$14.3 million reduction in political advertising. Costs and expenses declined 3 percent. Due to an impairment charge in the prior year, local media operations went from an operating loss of \$257.8 million in fiscal 2009 to an operating profit of \$52.9 million in fiscal 2010. Excluding the impairment charge in fiscal 2009, local media operating profit increased 44 percent in fiscal 2010.

In fiscal 2009, the television industry experienced one of the most difficult advertising environments in its history. Local media revenues declined 14 percent in fiscal 2009, as \$23.5 million in political advertising was not enough to offset lower non-political advertising, particularly in automotive. Costs and expenses declined 1 percent and an impairment charge of \$294.5 million was recorded in the local media segment. Due to the impairment charge, the local media operations reported an operating loss of \$257.8 million. Absent the impairment charge, local media would have had an operating profit of \$36.8 million.

Local media operating results for the last three fiscal years were as follows:

Years ended June 30, (In millions)	2010	Change	2009	Change	2008
Revenues	\$ 282.4	3 %	\$ 274.5	(14)%	\$ 318.6
Costs and expenses	(229.5)	(3)%	(237.8)	(1)%	(240.7)
Impairment of goodwill and other intangible assets	—	(100)%	(294.5)	—	—
Operating profit (loss)	\$ 52.9	NM	\$ (257.8)	NM	\$ 77.9

NM - not meaningful

Local Media Revenues

The table below presents the components of revenues for the last three fiscal years.

Years ended June 30, (In millions)	2010	Change	2009	Change	2008
Revenues					
Non-political advertising	\$ 245.5	5 %	\$ 233.5	(23)%	\$ 304.9
Political advertising	9.3	(61)%	23.5	335 %	5.4
Other	27.6	58 %	17.5	111 %	8.3
Total revenues	\$ 282.4	3 %	\$ 274.5	(14)%	\$ 318.6

While local media total revenues increased 3 percent in fiscal 2010, they increased 20 percent in the last half of the fiscal year as advertising started to rebound. Non-political advertising revenues increased 5 percent, reflecting improvement of 3 percent in the local market and of 11 percent in national advertising sales. Fiscal 2010 net political advertising revenues declined 61 percent, or \$14.3 million. The fluctuations in political advertising revenues at our stations, and in the broadcasting industry, generally follow the biennial cycle of election campaigns (which take place primarily in our odd-numbered fiscal years). Online advertising revenues increased 5 percent as compared to the prior year.

Other revenues, which is primarily retransmission fees, increased 58 percent. The increase was primarily due to the new retransmission agreements we have with cable and satellite operators in our markets that started in fiscal 2009.

Local media revenues decreased 14 percent in fiscal 2009. Net political advertising revenues related primarily to the November 2008 elections totaled \$23.5 million compared with \$5.4 million in the prior year. Political advertising may displace a certain amount of non-political advertising; therefore, the revenues may not be entirely incremental. The recession continued to impact non-political local media advertising. Non-political advertising revenues decreased 23 percent in fiscal 2009. Local non-political advertising revenues declined 24 percent while national non-political advertising revenues decreased 23 percent. Automobile advertising revenues declined nearly 45 percent in fiscal 2009, accounting for approximately half of non-political advertising declines. Online advertising declined 14 percent

compared to the prior-year period.

Other revenues more than doubled in fiscal 2009. Similar to fiscal 2010, this increase was primarily due to new retransmission agreements Meredith has with the major cable and satellite operators in our markets.

Local Media Costs and Expenses

Local media costs and expenses decreased 3 percent in fiscal 2010. Lower bad debt expense, employee compensation, film amortization, depreciation, and studio production expenses were partially offset by higher performance-based incentive accruals and pension and other retirement plan costs. A credit of \$2.7 million to

expenses for a gain on the Sprint Nextel Corporation equipment exchange and a reversal of \$0.6 million in previously recorded restructuring costs reduced operating expenses.

Local media costs and expenses decreased 1 percent in fiscal 2009 as compared to the prior year. In fiscal 2009, severance and related benefit costs of \$5.4 million related to a companywide reduction in workforce and the write-down of certain fixed assets at the television stations of \$0.4 million were recorded in the local media segment related to the centralization of certain functions across Meredith's television stations. Performance-based incentive accruals, employee compensation costs, depreciation, advertising and promotion expenses, and film amortization declined. Bad debt and legal service expenses increased. A credit of \$2.5 million to expenses for a gain on the Sprint Nextel Corporation equipment exchange contributed to the decline.

Local Media Impairment of Goodwill and Other Intangible Assets

The Company performs its annual impairment testing as of May 31. In fiscal 2009, the recession's impact on local advertising lowered future cash flow projections. The evaluation resulted in the carrying values of our broadcast stations' goodwill and certain of their FCC licenses having carrying values that exceeded their estimated fair values. As a result, the Company recorded a pre-tax non-cash charge of \$211.9 million to reduce the carrying value of its FCC licenses and \$82.6 million to write-off goodwill in fiscal 2009.

Local Media Operating Profit (Loss)

Fiscal 2010 local media operating profit was \$52.9 million, compared to a year-ago loss of \$257.8 million, which included a \$294.5 million non-cash impairment charge. Excluding the impairment charge, fiscal 2010 local media operating profit was up 44 percent from \$36.8 million the fiscal 2009, which is primarily due to an increase in non-political revenue and lower operating costs as a result of the Company's ongoing initiative to reduce operating costs.

Local media operations resulted in a \$257.8 million loss in fiscal 2009 reflecting the \$294.5 million non-cash impairment charge to reduce the carrying value of our FCC licenses and write-off the segment's goodwill. Absent the impairment charge, local media operating profit would have been \$36.8 million, a decrease of 53 percent from fiscal 2008. The decline reflected weakened economic conditions and their effect on non-political advertising revenues, which more than offset the strength of political advertising revenues.

Supplemental Disclosure of Local Media EBITDA and Adjusted EBITDA

Meredith's local media EBITDA is defined as local media segment operating profit (loss) plus depreciation and amortization expense. Adjusted EBITDA is defined as local media EBITDA before impairment charge. EBITDA and adjusted EBITDA are non-GAAP financial measures and should not be considered in isolation or as a substitute for GAAP financial measures. See the discussion of management's rationale for the use of EBITDA and adjusted EBITDA in the Overview of this section. Local media EBITDA, adjusted EBITDA, EBITDA margin, and adjusted EBITDA margin were as follows:

Years ended June 30, (In millions)	2010	Change	2009	Change	2008
Revenues	\$ 282.4	3 %	\$ 274.5	(14)%	\$ 318.6
Operating profit (loss)	\$ 52.9	NM	\$ (257.8)	NM	\$ 77.9
Depreciation and amortization	24.4	(3)%	25.2	(5)%	26.6
EBITDA	77.3	NM	(232.6)	NM	104.5
Impairment of goodwill and other intangible assets	—	(100)%	294.5	—	—
Adjusted EBITDA	\$ 77.3	25 %	\$ 61.9	(41)%	\$ 104.5
EBITDA margin	27.4 %		(84.7)%		32.8 %
Adjusted EBITDA margin	27.4 %		22.6 %		32.8 %

NM - not meaningful

UNALLOCATED CORPORATE EXPENSES

Unallocated corporate expenses are general corporate overhead expenses not attributable to the operating groups. These expenses for the last three years were as follows:

Years ended June 30, (In millions)	2010	Change	2009	Change	2008
Unallocated corporate expenses	\$ 37.9	34 %	\$ 28.4	7 %	\$ 26.5

Unallocated corporate expenses increased 34 percent in fiscal 2010. Increases in performance-based incentive accruals, consulting fees, pension and other retirement plan costs, and Meredith's investment in Next Issue Media more than offset decreases in legal services expense and medical costs.

Unallocated corporate expenses increased 7 percent in fiscal 2009. In fiscal 2009, severance and related benefit costs of \$1.0 million were recorded in unallocated corporate expenses related to the companywide reduction in workforce. Increases in pension costs, share-based compensation, consulting fees, Meredith Foundation contributions, and legal services expense partially offset decreases in performance-based incentive expenses, travel and entertainment, and

depreciation expense. The increase in share-based compensation is due to certain employees becoming retirement eligible in fiscal 2009 and thus their share-based compensation expense was fully expensed during fiscal 2009.

CONSOLIDATED

Consolidated Operating Expenses

Consolidated operating expenses for the last three fiscal years were as follows:

Years ended June 30, (In millions)	2010	Change	2009	Change	2008
Production, distribution, and editorial	\$ 574.8	(11)%	\$ 646.6	(4)%	\$ 673.6
Selling, general, and administrative	589.6	5 %	560.2	(5)%	590.0
Depreciation and amortization	40.9	(4)%	42.6	(13)%	49.2
Impairment of goodwill and other intangible assets	—	(100)%	294.5	—	—
Operating expenses	\$ 1,205.3	(22)%	\$ 1,543.9	18 %	\$ 1,312.8

Production, Distribution, and Editorial Costs

Production, distribution, and editorial costs decreased 11 percent in fiscal 2010. Declines in book manufacturing costs, integrated marketing production expenses, local media film amortization, and national media paper expense more than offset increases in national media processing and postage. In fiscal 2010, a write-off of manuscript and art inventory of \$1.5 million was recorded in production, distribution, and editorial costs related to the repositioning of our SIM operations.

Fiscal 2009 production, distribution, and editorial costs declined 4 percent. Book manufacturing, art, and separation expense decreased due to changes in our book operations discussed above. In addition, declines in processing, other delivery expenses, and film amortization more than offset increases in paper costs.

Selling, General, and Administrative Expenses

Selling, general, and administrative expenses increased 5 percent in fiscal 2010. Increases in performance-based incentive accruals, pension and other retirement plan costs, and consulting fees were partially offset by decreases in bad debt, employee compensation, circulation expenses, and legal expenses. In fiscal 2010, the national media segment recorded \$3.9 million in severance and benefit costs, the write-off of deferred subscription acquisition costs of \$1.8 million related to the repositioning of our SIM operations, and a \$2.2 million impairment of an investment. Partially offsetting these charges was a \$2.7 million reversal of excess restructuring reserves.

Fiscal 2009 selling, general, and administrative expenses decreased 5 percent. Declines in performance-based incentive accruals, advertising and promotion expenses, and travel and entertainment were partially offset by increases in pension costs, consulting fees, bad debt expenses, and legal expenses. Subscription acquisition costs also decreased. In fiscal 2009, severance and related benefit costs of \$15.1 million related to the companywide reduction in workforce were recorded in selling, general, and administrative expenses.

Depreciation and Amortization

Depreciation and amortization expenses decreased 4 percent in fiscal 2010 primarily due to lower computer equipment depreciation. Depreciation and amortization expenses decreased 13 percent in fiscal 2009 primarily due to the customer list intangibles acquired in fiscal 2006 being fully amortized in fiscal 2008.

Impairment of Goodwill and Other Intangible Assets

Based on the Company's annual impairment testing of goodwill and other long-lived intangible assets in fiscal 2009, the Company recorded a non-cash impairment charge of \$211.9 million to reduce the carrying value of our FCC licenses and \$82.6 million to write-off our local media segment's goodwill in fiscal 2009.

Operating Expenses

Employee compensation including benefits was the largest component of our operating costs in fiscal 2010. Employee compensation represented 33 percent of total operating expenses in fiscal 2010 compared to 25 percent in

fiscal 2009 and 30 percent in fiscal 2008. National media paper, production, and postage combined expense was the second largest component of our operating costs in fiscal 2010, representing 31 percent of the total. In fiscal 2009 these expenses represented 26 percent, and in fiscal 2008 they were 32 percent. In fiscal 2009, the impairment charge recorded was the third largest component. It represented 19 percent of total fiscal 2009 operating expenses. Absent this impairment charge, national media paper, production, and postage combined expense represented 32 percent and employee compensation costs represented 31 percent of total operating costs.

Income (Loss) from Operations

Income from operations was \$182.4 million, compared to a year-ago loss from operations of \$135.1 million, which included a \$294.5 million non-cash impairment charge. Excluding the impairment charge, fiscal 2010 income from operations increased 14 percent from \$159.4 million in fiscal 2009, which is primarily due to lower operating costs as a result of the Company's ongoing efficiency initiative.

The fiscal 2009 loss from operations was \$135.1 million, reflecting the non-cash impairment charge of \$294.5 million. Absent this impairment charge, fiscal 2009 income from operations would have been \$159.4 million, a decline of 33 percent from fiscal 2008. The decline reflects the recession and its effect on advertising revenues.

Net Interest Expense

Net interest expense was \$18.5 million in fiscal 2010, \$20.1 million in fiscal 2009, and \$21.3 million in fiscal 2008. Average long-term debt outstanding was \$338 million in fiscal 2010, \$455 million in fiscal 2009, and \$445 million in fiscal 2008. The Company's approximate weighted average interest rate was 5.5 percent in fiscal 2010, 4.6 percent in fiscal 2009, and 5.0 percent in fiscal 2008.

Income Taxes

The Company's effective tax rate on income (loss) from continuing operations was 36.6 percent (on pretax income, including one-time benefits discussed below) in fiscal 2010, 34.0 percent (on a pretax loss) in fiscal 2009, and 39.1 percent (on pretax income) in fiscal 2008. Fiscal 2010 results included a benefit of \$3.0 million reflecting a favorable adjustment made to deferred income tax liabilities as a result of state and local legislation enacted during the first quarter, a benefit of \$1.9 million due to the resolution of a tax contingency, and a benefit of \$2.5 million due to federal and state statutes of limitations expiring. Excluding these benefits of \$7.4 million, the fiscal 2010 effective tax rate was 41.1 percent. This rate is higher than the fiscal 2009 rate of 40.7 percent excluding the benefit of the impairment charge, due primarily to accruals for tax contingencies. The lower effective tax rate in fiscal 2009 as compared to fiscal 2008 is primarily due to the tax effect of the impairment charge for local media goodwill. Absent the impairment charge, the effective tax rate for fiscal 2009 of 40.7 percent was higher than in the prior year primarily due to accruals for tax contingencies.

Earnings (Loss) from Continuing Operations and Earnings (Loss) per Share from Continuing Operations

Fiscal 2010 earnings from continuing operations were \$104.0 million (\$2.28 per diluted share), compared to a loss from continuing operations in fiscal 2009 of \$102.5 million (\$2.28 per diluted share). Fiscal 2009 results included a non-cash impairment charge of \$185.1 million (after-tax). Excluding the impairment charge from fiscal 2009 results, fiscal 2010 earnings from continuing operations increased 25 percent from fiscal 2009. The increase was primarily due to the Company's ongoing efficiency initiative that reduced operating costs, income tax benefits recorded in fiscal 2010, and lower restructuring charges recorded in the current year than in the prior year.

Fiscal 2009 loss from continuing operations was \$102.5 million (\$2.28 per diluted share), compared to fiscal 2008 earnings from continuing operations of \$133.0 million (\$2.79 per diluted share). Fiscal 2009 results included a non-cash impairment charge of \$185.1 million (after-tax). Excluding the impairment charge, fiscal 2009 earnings from continuing operations would have been \$82.6 million (\$1.83 per diluted share), a decrease of 38 percent from fiscal 2008. The declines reflect the economic recession and its effect on advertising revenues.

Discontinued Operations

For fiscal 2009, loss from discontinued operations represents the operating results, net of taxes, of Country Home magazine. In connection with the closing of Country Home magazine, the Company recorded a restructuring charge of \$6.8 million in the second quarter of fiscal 2009 which included the write down of various assets of Country Home magazine of \$5.8 million and severance and outplacement costs of \$1.0 million. Most of the asset write-down charge related to the write-off of deferred subscription acquisition costs. These fiscal 2009 charges are reflected in the costs and expenses line below.

For fiscal 2008, income from discontinued operations represents the operating results of Country Home magazine, the operating loss of WFLI, the CW affiliate serving the Chattanooga, Tennessee market; a loss on the disposal of WFLI; and the reversal of a portion of the restructuring charge recorded in fiscal 2007 related to the discontinuation of the print operations of Child magazine. The reversal of a portion of the Child restructuring charge is a result of changes in the estimated net costs for vacated leased space and employee severance and is reflected in the costs and expenses line below.

The revenues and expenses for each of these properties have, along with associated taxes, been removed from continuing operations and reclassified into a single line item amount on the Consolidated Statements of Earnings (Loss) titled income (loss) from discontinued operations, net of taxes, for each period presented as follows:

Years ended June 30, (In millions except per share data)	2009	2008
Revenues	\$ 16.8	\$ 35.4
Costs and expenses	(24.2)	(32.2)
Loss on disposal	—	(0.4)
Earnings (loss) before income taxes	(7.5)	2.8
Income taxes	2.9	(1.1)
Income (loss) from discontinued operations	\$ (4.6)	\$ 1.7
Income (loss) from discontinued operations per share:		
Basic	\$ (0.10)	\$ 0.04
Diluted	(0.10)	0.04

Net Earnings (Loss) and Earnings (Loss) per Share

Fiscal 2010 net earnings were \$104.0 million (\$2.28 per diluted share), compared to a net loss in fiscal 2009 of \$107.1 million (\$2.38 per diluted share). Fiscal 2009 results included a non-cash impairment charge of \$185.1 million (after-tax). Excluding the impairment charge from fiscal 2009 results, fiscal 2010 net earnings increased 32 percent from fiscal 2009. The increase was primarily due to the Company's ongoing efficiency initiative that reduced operating costs, income tax benefits recorded in fiscal 2010, lower restructuring charges recorded in the current year than in the prior year, and the absence of a loss from discontinued operations.

In fiscal 2009 a net loss of \$107.1 million (\$2.38 per diluted share) was recorded compared to net earnings of \$134.7 million (\$2.83 per diluted share) in the prior year. Fiscal 2009 results included a non-cash impairment charge of \$185.1 million. Excluding the impairment charge, the Company would have reported fiscal 2009 net earnings of \$78.0 million (\$1.73 per diluted share), a decrease of 42 percent from fiscal 2008. The decline reflects the economic recession and its effect on advertising revenues. In addition, loss from discontinued operations of Country Home

magazine as compared to the income from discontinued operations in the prior year contributed to the decline in net earnings in fiscal 2009. Lower net earnings were partially offset by the accretive effect of the reduction in Meredith's average diluted shares outstanding. Average basic shares outstanding decreased approximately 4 percent as a result of our share repurchase program. Average diluted shares outstanding decreased approximately 5 percent. Certain outstanding common stock equivalents were not included in the computation of

dilutive earnings per share for 2009 because of the antidilutive effect on the earnings per share calculation (the diluted earnings per share becoming less negative than the basic earnings per share). Therefore, the common stock equivalents were not taken into account in determining the weighted average number of shares for the calculation of diluted earnings per share in fiscal 2009.

LIQUIDITY AND CAPITAL RESOURCES

Years ended June 30, (In millions)	2010	2009	2008
Cash flows from operating activities	\$ 191.7	\$ 180.9	\$ 256.0
Cash flows from investing activities	(52.2)	(29.0)	(95.4)
Cash flows from financing activities	(118.8)	(161.6)	(162.2)
Net cash flows	\$ 20.7	\$ (9.7)	\$ (1.6)
Cash and cash equivalents	\$ 48.6	\$ 27.9	\$ 37.6
Long-term debt (including current portion)	300.0	380.0	485.0
Shareholders' equity	688.3	609.4	787.9
Debt to total capitalization	30 %	38 %	38 %

OVERVIEW

Meredith's primary source of liquidity is cash generated by operating activities. The Company continues to generate significant cash flow from operating activities in spite of the downturn in advertising revenues due to the recession. Debt financing is typically used for significant acquisitions. Our core businesses—magazine and television broadcasting—have been strong cash generators. Despite the introduction of many new technologies such as the Internet, cable, and satellite television, we believe these businesses will continue to have strong market appeal for the foreseeable future. As is true in any business, operating results and cash flows are subject to changes in demand for our products and changes in costs. Changes in the level of demand for magazine and television advertising or other products can have a significant effect on cash flows.

Historically, Meredith has been able to absorb normal business downturns without significant increases in debt and management believes the Company will continue to do so. We expect cash on hand, internally generated cash flow, and available credit from financing agreements will provide adequate funds for operating and recurring cash needs (e.g., working capital, capital expenditures, debt repayments, and cash dividends) into the foreseeable future. At June 30, 2010, we had up to \$100 million available under our revolving credit facility and up to \$25 million available under our asset-backed commercial paper facility (depending on levels of accounts receivable). While there are no guarantees that we will be able to replace current credit agreements when they expire, we expect to be able to do so.

SOURCES AND USES OF CASH

Cash and cash equivalents increased \$20.7 million in fiscal 2010; they decreased \$9.7 million in fiscal 2009 and \$1.6 million in fiscal 2008. Over the three-year period, net cash provided by operating activities was used for acquisitions, debt repayments, stock repurchases, capital investments, and dividends.

Operating Activities

The largest single component of operating cash inflows is cash received from advertising customers. Advertising accounted for approximately 60 percent of total revenues in each of the past three years. Other sources of operating cash inflows include cash received from magazine circulation sales and other revenue transactions such as integrated marketing, book, brand licensing, and product sales. Operating cash outflows include payments to

31

vendors and employees and payments of interest and income taxes. Our most significant vendor payments are for production and delivery of publications and promotional mailings, broadcasting programming rights, employee benefits (including pension plans), and other services and supplies.

Cash provided by operating activities totaled \$191.7 million in fiscal 2010 compared with \$180.9 million in fiscal 2009 as increased net earnings before the impairment charge and increased accounts payable and accruals more than offset an increase in accounts receivable resulting from higher advertising revenues in the fourth quarter as compared to the prior year.

Cash provided by operating activities totaled \$180.9 million in fiscal 2009 compared with \$256.0 million in fiscal 2008, a decrease of 30 percent. The largest factor affecting cash flows from operating activities was the effect of the recession and its negative impact on the Company's operating results. Also affecting cash provided by operating activities was increased pension payments. These items more than offset substantially lower income tax payments.

Changes in the Company's cash contributions to qualified defined benefit pension plans can have a significant effect on cash provided by operations. We contributed \$10.0 million in fiscal 2010 and \$9.0 million in fiscal 2009. We made no contributions in fiscal 2008. We do not anticipate a required contribution in fiscal 2011.

Investing Activities

Investing cash inflows generally include proceeds from the sale of assets or a business. Investing cash outflows generally include payments for the acquisition of new businesses; investments; and additions to property, plant, and equipment.

Net cash used by investing activities increased to \$52.2 million in fiscal 2010 from \$29.0 million in fiscal 2009. We paid out more in contingent payments on strategic acquisitions in the current year than we did in the prior year primarily due to the timing of payments.

Net cash used by investing activities decreased to \$29.0 million in fiscal 2009 from \$95.4 million in fiscal 2008 as we reduced spending on both strategic acquisitions and capital expenditures.

Financing Activities

Financing cash inflows generally include borrowings under debt agreements and proceeds from the exercise of common stock options issued under share-based compensation plans. Financing cash outflows generally include the repayment of long-term debt, repurchases of Company stock, and the payment of dividends.

Net cash used by financing activities totaled \$118.8 million in fiscal 2010 compared with \$161.6 million in fiscal 2009. In fiscal 2010, long-term debt was reduced a net \$80.0 million as compared to it being reduced by a net \$105.0 million in fiscal 2009. In fiscal 2010, \$6.3 million was used to purchase Company stock whereas in fiscal 2009, \$21.8 million was used to purchase Company stock.

Net cash used by financing activities totaled approximately \$161.6 million in fiscal 2009 compared with \$162.2 million in fiscal 2008. In fiscal 2009, long-term debt was reduced by a net \$105.0 million and \$21.8 million was used to purchase Company stock. In fiscal 2008, \$150.4 million was used to purchase Company stock and long-term debt increased by a net \$10.0 million.

Long-term Debt

At June 30, 2010, long-term debt outstanding totaled \$300 million (\$175 million in fixed-rate unsecured senior notes, \$75 million under an asset-backed commercial paper facility and \$50 million outstanding under a revolving credit facility). Of the senior notes, \$50 million are due in the next 12 months. We expect to repay these senior notes with cash from operations and credit available under existing credit agreements. The fixed-rate senior notes are

repayable in amounts of \$25 million and \$50 million and are due from June 16, 2011, to July 13, 2014. Interest rates range from 4.70 percent to 7.19 percent with a weighted average interest rate of 5.72 percent.

In connection with the asset-backed commercial paper facility, we entered into a revolving agreement in April 2002. Under this agreement, we currently sell all of our rights, title, and interest in the majority of our accounts receivable related to advertising and miscellaneous revenues to Meredith Funding Corporation, a special-purpose entity established to purchase accounts receivable from Meredith. At June 30, 2010, \$156.5 million of accounts receivable net of reserves were outstanding under the agreement. Meredith Funding Corporation in turn sells receivable interests to an asset-backed commercial paper conduit administered by a major national bank. In consideration of the sale, Meredith receives cash and a subordinated note that bears interest at the prime rate (3.25 percent at June 30, 2010) from Meredith Funding Corporation.

The revolving agreement is structured as a true sale under which the creditors of Meredith Funding Corporation will be entitled to be satisfied out of the assets of Meredith Funding Corporation prior to any value being returned to Meredith or its creditors. The accounts of Meredith Funding Corporation are fully consolidated in Meredith's consolidated financial statements. The asset-backed commercial paper facility has a capacity of up to \$100 million and will next renew on March 29, 2011. The interest rate on the asset-backed commercial paper facility changes monthly and is based on the average commercial paper cost to the lender plus a fixed spread. The interest rate was 1.62 percent in June 2010.

The interest rate on the revolving credit facility is variable based on LIBOR and Meredith's debt to trailing 12 month EBITDA ratio. The weighted average effective interest rate for the revolving credit facility was 2.95 percent at June 30, 2010. This facility has capacity for up to \$150 million outstanding with an option to request up to another \$150 million. At June 30, 2010, \$50 million was borrowed under this facility. The revolving credit facility expires June 16, 2013.

We believe our debt agreements are material to discussions of Meredith's liquidity. All of our debt agreements include financial covenants, and failure to comply with any such covenants could result in the debt becoming payable on demand. A summary of the most significant financial covenants and their status at June 30, 2010, is as follows:

	Required at June 30, 2010	Actual at June 30, 2010
Ratio of debt to trailing 12 month EBITDA ¹	Less than 3.75	1.3
Ratio of EBITDA ¹ to interest expense	Greater than 2.75	13.0

1. EBITDA is earnings before interest, taxes, depreciation, and amortization as defined in the debt agreements.

The Company was in compliance with these and all other debt covenants at June 30, 2010.

Contractual Obligations

The following table summarizes our principal contractual obligations as of June 30, 2010:

Contractual obligations (In millions)	Total	Payments Due by Period			
		Less than 1 Year	1-3 Years	4-5 Years	After 5 Years
Long-term debt	\$ 300.0	\$ 50.0	\$ 175.0	\$ 75.0	\$ —
Debt interest ¹	27.2	10.0	12.8	4.4	—
Broadcast rights ²	38.5	19.6	17.2	1.7	—
Contingent consideration ³	34.4	20.9	13.5	—	—
Operating leases	65.7	19.4	15.9	8.3	22.0
Purchase obligations and other ⁴	86.9	25.9	30.0	23.5	7.6
Total contractual cash obligations	\$ 552.7	\$ 145.8	\$ 264.4	\$ 112.9	\$ 29.6

1. Debt interest represents semi-annual interest payments due on fixed-rate notes outstanding at June 30, 2010.
2. Broadcast rights include \$19.6 million owed for broadcast rights that are not currently available for airing and are therefore not included in the Consolidated Balance Sheet at June 30, 2010.
These amounts include contingent acquisition payments. While it is not certain if and /or when these payments
3. will be made, we have included the payments in the table based on our best estimates of the amounts and dates when the contingencies may be resolved.
4. Purchase obligations and other includes expected postretirement benefit payments.

Due to uncertainty with respect to the timing of future cash flows associated with unrecognized tax benefits at June 30, 2010, the Company is unable to make reasonably reliable estimates of the period of cash settlement. Therefore, \$49.4 million of unrecognized tax benefits have been excluded from the contractual obligations table above. See Note 6 to the Consolidated Financial Statements for further discussion of income taxes.

Purchase obligations represent legally binding agreements to purchase goods and services that specify all significant terms. Outstanding purchase orders, which represent authorizations to purchase goods and services but are not legally binding, are not included in purchase obligations. We believe current cash balances, cash generated by future operating activities, and cash available under current credit agreements will be sufficient to meet our contractual cash obligations and other operating cash requirements for the foreseeable future. Projections of future cash flows are, however, subject to substantial uncertainty as discussed throughout MD&A and particularly in Item 1A-Risk Factors beginning on page 11. Debt agreements may be renewed or refinanced if we determine it is advantageous to do so. We also have commitments in the form of standby letters of credit totaling \$1.0 million that expire within one year.

Share Repurchase Program

We have maintained a program of Company share repurchases for 22 years. In fiscal 2010, we spent \$6.3 million to repurchase an aggregate of 188,000 shares of Meredith Corporation common and Class B stock at then current market

prices. We spent \$21.8 million to repurchase an aggregate of 882,000 shares in fiscal 2009 and \$150.4 million to repurchase an aggregate of 3,225,000 shares in fiscal 2008. We expect to continue repurchasing shares from time to time subject to market conditions. In May 2008, the Board of Directors approved a share repurchase authorization for 2.0 million shares. As of June 30, 2010, approximately 1.3 million shares were remaining under this authorization for future repurchase. The status of the repurchase program is reviewed at each quarterly Board of Directors meeting. See Item 5-Issuer Purchases of Equity Securities of this Form 10-K for detailed information on share repurchases during the quarter ended June 30, 2010.

Dividends

Meredith has paid quarterly dividends continuously since 1947 and we have increased our dividend annually for 17 consecutive years. The last increase occurred in January 2010 when the Board of Directors approved the quarterly dividend of 23 cents per share effective with the dividend payable in March 2010. Given the current number of shares outstanding, the increase will result in additional dividend payments of approximately \$0.9 million annually. Dividend payments totaled \$41.3 million, or 91 cents per share, in fiscal 2010 compared with \$39.7 million, or 88 cents per share, in fiscal 2009, and \$37.3 million, or 80 cents per share, in fiscal 2008.

Capital Expenditures

Spending for property, plant, and equipment totaled \$24.7 million in fiscal 2010, \$23.5 million in fiscal 2009, and \$29.6 million in fiscal 2008. Current year spending primarily relates to the initiative to consolidate back-office television station functions such as traffic, master control, accounting, and research into centralized hubs in Atlanta and Phoenix. The spending in the prior two fiscal years related primarily to digital and high definition conversions being completed at all of the Company's broadcast stations and the construction of a new data server room. Prior years spending also included expenditures for local media technical and news equipment, information technology systems and equipment, and improvements to buildings and office facilities. The Company has no material commitments for capital expenditures. We expect funds for future capital expenditures to come from operating activities or, if necessary, borrowings under credit agreements.

CRITICAL ACCOUNTING POLICIES

Meredith's consolidated financial statements are prepared in accordance with GAAP. Our significant accounting policies are summarized in Note 1 to the consolidated financial statements. The preparation of our consolidated financial statements requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Some of these estimates and assumptions are inherently difficult to make and subjective in nature. We base our estimates on historical experience, recent trends, our expectations for future performance, and other assumptions as appropriate. We reevaluate our estimates on an ongoing basis; actual results, however, may vary from these estimates.

The following are the accounting policies that management believes are most critical to the preparation of our consolidated financial statements and require management's most difficult, subjective, or complex judgments. In addition, there are other items within the consolidated financial statements that require estimation but are not deemed to be critical accounting policies. Changes in the estimates used in these and other items could have a material impact on the consolidated financial statements.

GOODWILL AND INTANGIBLE ASSETS

The Company has a significant amount of goodwill and indefinite-lived intangible assets that are reviewed at least annually for impairment. Goodwill and intangible assets totaled \$1,041.5 million, or approximately 60 percent of Meredith's total assets, as of June 30, 2010. See Note 4 to the consolidated financial statements for additional information. The impairment analysis of these assets is considered critical because of their significance to the Company and our national media and local media segments.

Management is required to evaluate goodwill and intangible assets with indefinite lives for impairment on an annual basis or when events occur or circumstances change that would indicate the carrying value exceeds the fair value. The determination of fair value requires us to estimate the future cash flows expected to result from the use of the assets. These estimates include assumptions about future revenues (including projections of overall market growth

and our share of market), estimated costs, and appropriate discount rates where applicable. Our assumptions are based on historical data, various internal estimates, and a variety of external sources and are consistent with the assumptions used in both our short-term financial forecasts and long-term strategic plans. Depending on the assumptions and estimates used, future cash flow projections can vary within a range of outcomes. Changes in key assumptions about the national media and local media businesses and their prospects or changes in market conditions could result in an impairment charge.

In fiscal 2009, the Company recorded a pre-tax non-cash charge of \$211.9 million to reduce the carrying value of broadcast FCC licenses and \$82.6 million to write-off our local media segment's goodwill.

BROADCAST RIGHTS

Broadcast rights, which consist primarily of rights to broadcast syndicated programs and feature films, are recorded at cost when the programs become available for airing. Amortization of broadcast rights is generally recorded on an accelerated basis over the contract period. Broadcast rights valued at \$8.4 million were included in the Consolidated Balance Sheet at June 30, 2010. In addition, we had entered into contracts valued at \$19.6 million not included in the Consolidated Balance Sheet at June 30, 2010, because the related programming was not yet available for airing. Amortization of broadcast rights accounted for 10 percent of local media segment operating expenses in fiscal 2010. Valuation of broadcast rights is considered critical to the local media segment because of the significance of the amortization expense to the segment.

Broadcast rights are valued at the lower of unamortized cost or net realizable value. The determination of net realizable value requires us to estimate future net revenues expected to be earned as a result of airing of the programming. Future revenues can be affected by changes in the level of advertising demand, competition from other television stations or other media, changes in television programming ratings, changes in the planned usage of programming materials, and other factors. Changes in such key assumptions could result in an impairment charge.

PENSION AND POSTRETIREMENT PLANS

Meredith has noncontributory pension plans covering substantially all employees. These plans include qualified (funded) plans as well as nonqualified (unfunded) plans. These plans provide participating employees with retirement benefits in accordance with benefit provision formulas. The nonqualified plans provide retirement benefits only to certain highly compensated employees. Meredith also sponsors defined healthcare and life insurance plans that provide benefits to eligible retirees.

The accounting for pension and postretirement plans is actuarially based and includes assumptions regarding expected returns on plan assets, discount rates, and the rate of increase in healthcare costs. We consider the accounting for pension and postretirement plans critical to Meredith and both of our segments because of the number of significant judgments required. More information on our assumptions and our methodology in arriving at these assumptions can be found in Note 7 to the consolidated financial statements. Changes in key assumptions could materially affect the associated assets, liabilities, and benefit expenses. Depending on the assumptions and estimates used, these balances could vary within a range of outcomes. We monitor trends in the marketplace and rely on guidance from employee benefit specialists to arrive at reasonable estimates. These estimates are reviewed annually and updated as needed. Nevertheless, the estimates are subjective and may vary from actual results.

Meredith expects to use a long-term rate of return on assets of 8.25 percent in developing fiscal 2011 pension costs, the same as used in fiscal 2010. The fiscal 2011 rate was based on various factors that include but are not limited to

the plans' asset allocations, a review of historical capital market performance, historical plan performance, current market factors such as inflation and interest rates, and a forecast of expected future asset returns. The pension plan assets earned 16 percent in fiscal 2010. They lost 21 percent in fiscal 2009. If we had decreased our expected long-term rate of return on plan assets by 0.5 percent in fiscal 2010, our pension expense would have increased by

\$0.5 million.

Meredith expects to use a discount rate of 4.50 percent in developing the fiscal 2011 pension costs, down from a rate of 5.75 percent used in fiscal 2010. If we had decreased the discount rate by 0.5 percent in fiscal 2010, there would have been no effect on our combined pension and postretirement expenses.

Assumed rates of increase in healthcare cost levels have a significant effect on postretirement benefit costs. A one-percentage-point increase in the assumed healthcare cost trend rate would have increased postretirement benefit costs by \$0.7 million in fiscal 2010.

REVENUE RECOGNITION

Revenues from the newsstand sale of magazines are recorded net of our best estimate of expected product returns. Net revenues from newsstand sales totaled 7 percent of fiscal 2010 national media segment revenues. Allowances for returns are subject to considerable variability. Return allowances may exceed 65 percent for magazines sold on the newsstand. Estimation of these allowances for future returns is considered critical to the national media segment and the Company as a whole because of the potential impact on revenues.

Estimates of returns from magazine newsstand are based on historical experience and current marketplace conditions. Allowances for returns are adjusted continually on the basis of actual results. Unexpected changes in return levels may result in adjustments to net revenues.

SHARE-BASED COMPENSATION EXPENSE

Meredith has a stock incentive plan that permits us to grant various types of share-based incentives to key employees and directors. The primary types of incentives granted under the plan are stock options, restricted shares of common stock, and restricted stock units. Share-based compensation expense totaled \$10.8 million in fiscal 2010. As of June 30, 2010, unearned compensation cost was \$5.5 million for restricted stock and \$5.1 million for stock options. These costs will be recognized over weighted average periods of 1.6 years and 1.5 years, respectively.

Restricted shares and units are valued at the market value of traded shares on the date of grant. The valuation of stock options requires numerous assumptions. We determine the fair value of each option as of the date of grant using the Black-Scholes option-pricing model. This model requires inputs for the expected volatility of our stock price, expected life of the option, and expected dividend yield, among others. We base our assumptions on historical data, expected market conditions, and other factors. In some instances, a range of assumptions is used to reflect differences in behavior among various groups of employees. In addition, we estimate the number of options and restricted stock expected to eventually vest. This is based primarily on past experience.

We consider the accounting for share-based compensation expense critical to Meredith and both of our segments because of the number of significant judgments required. More information on our assumptions can be found in Note 10 to the consolidated financial statements. Changes in these assumptions could materially affect the share-based compensation expense recognized as well as various liability and equity balances.

INCOME TAXES

Income taxes are recorded for the amount of taxes payable for the current year and include deferred tax assets and liabilities for the effect of temporary differences between the financial and tax basis of recorded assets and liabilities using enacted tax rates. Deferred tax assets are reduced by a valuation allowance if it is more likely than not that some portion or all of the deferred tax assets will not be realized. Income tax expense was 36.6 percent of earnings

before income taxes in fiscal 2010. Net deferred tax liabilities totaled \$118.4 million, or 11 percent of total liabilities, at June 30, 2010.

We consider accounting for income taxes critical to our operations because management is required to make significant subjective judgments in developing our provision for income taxes, including the determination of deferred tax assets and liabilities, any valuation allowances that may be required against deferred tax assets, and reserves for uncertain tax positions.

The Company operates in numerous taxing jurisdictions and is subject to audit in each of these jurisdictions. These audits can involve complex issues that tend to require an extended period of time to resolve and may eventually result in an increase or decrease to amounts previously paid to the taxing jurisdictions. Any such audits are not expected to have a material effect on the Company's consolidated financial statements.

ACCOUNTING AND REPORTING DEVELOPMENTS

Codification—In June 2009, the Financial Accounting Standards Board (FASB) approved its Accounting Standards Codification (Codification) as the source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Codification does not change current GAAP, but is intended to simplify user access to authoritative literature related to a particular topic.

Because the Codification does not change or alter existing GAAP, its adoption did not have any impact on the Company's financial position or results of operations. Its adoption did affect the way the Company references GAAP in its consolidated financial statements and accounting policies.

Fair Value—In September 2006, the FASB issued new guidance that defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. The guidance was effective for the Company at the beginning of fiscal year 2009 for all financial assets and liabilities and for nonfinancial assets and liabilities recognized or disclosed at fair value in the Company's consolidated financial statements on a recurring basis (at least annually). The guidance for nonfinancial assets and nonfinancial liabilities was effective for the Company at the beginning of the Company's 2010 fiscal year. The implementation of the fair value guidance did not have a material impact on the Company's consolidated financial statements.

In April 2009, the FASB issued authoritative guidance on interim disclosures about fair value of financial instruments. This guidance requires disclosures about fair value of financial instruments in interim reporting periods of publicly-traded companies that were previously only required to be disclosed in annual financial statements. The Company adopted this guidance in the first quarter of fiscal 2010. Its adoption expanded the Company's disclosure about fair value of our financial instruments in our interim consolidated financial statements.

In January 2010, the FASB issued guidance to amend the disclosure requirements related to recurring and nonrecurring fair value measurements. The amended guidance requires disclosure of transfers of assets and liabilities between Level 1 and Level 2 of the fair value measurement hierarchy, including the reasons and the timing of the transfers and information on purchases, sales, issuances, and settlements on a gross basis in the reconciliation of the assets and liabilities measured under Level 3 of the fair value measurement hierarchy. The Company adopted the new disclosure requirements on January 1, 2010, except for the requirement concerning gross presentation of Level 3 activity, which is effective for fiscal years beginning after December 15, 2010. The adoption of the Level 1 and Level 2 disclosure guidance did not have an impact on the Company's consolidated financial position or results of operations.

Pension Assets—In December 2008, the FASB issued new accounting guidance relating to an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan. Since plan assets measured at fair value are reported net of benefit obligations in an employer's statements of financial position, the disclosures

38

are intended to increase transparency surrounding the types of assets and associated risks in the employer approved benefit plans. Companies are required to disclose information about how investment allocation decisions are made in the plans, the fair value of each major category of plan assets at each annual reporting date for each individual plan, information that would enable users to assess the assumptions and valuation techniques used in the development of the fair value measurements at the reporting date, and information that provides an understanding of significant concentrations of risk in plan assets. The disclosures are not required for earlier periods that are presented for comparative purposes. The new guidance affects disclosures only and therefore the adoption as of June 30, 2010, had no impact on the Company's results of operations or financial position.

Business Combinations—In December 2007, the FASB revised the authoritative guidance for business combinations, which establishes principles and requirements for how the acquirer in a business combination (i) recognizes and measures the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree, (ii) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (iii) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. The Company adopted this revised business combinations guidance on July 1, 2009. This guidance did not have any impact on the Company's consolidated financial statements upon adoption. The Company expects the guidance to have an impact on its accounting for future business combinations, but the effect will be dependent upon the acquisitions that are made in the future.

Useful Lives of Intangible Assets—In April 2008, the FASB issued authoritative guidance on determination of the useful lives of intangible assets, which amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of an intangible asset. This guidance applies prospectively to intangible assets that are acquired individually or with a group of other assets in business combinations or asset acquisitions. This guidance did not have any impact on the Company's consolidated financial statements upon adoption on July 1, 2009. The Company expects it to have an impact on its accounting for future transactions, but the effect will be dependent upon the transactions that are made in the future.

Participating Securities—In June 2008, the FASB issued authoritative guidance on determining whether instruments granted in share-based payment transactions are participating securities. Under the guidance, unvested share-based payment awards that contain rights to receive nonforfeitable dividends (whether paid or unpaid) are participating securities, and should be included in the two-class method of computing EPS. The Company adopted this authoritative guidance effective July 1, 2009. Its adoption did not have an impact on the consolidated financial statements.

Subsequent Events—On June 30, 2009, the Company adopted guidance issued by the FASB on subsequent events. The guidance establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. Specifically, it sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements, and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. It provides largely the same guidance on subsequent events which previously existed only in auditing literature. The adoption had no impact on the consolidated financial statements as management already followed a similar approach prior to the adoption of this standard.

In February 2010, the FASB issued amended guidance on subsequent events. Under this amended guidance, SEC filers are no longer required to disclose the date through which subsequent events have been evaluated in originally issued and revised financial statements. This guidance was effective immediately and the Company adopted these new requirements for the period ended March 31, 2010.

Revenue Arrangements with Multiple Deliverable—In September 2009, authoritative guidance on revenue arrangements with multiple deliverables was issued. This guidance addresses how to determine whether an arrangement involving multiple deliverables contains more than one unit of accounting and how the arrangement

consideration should be allocated among the separate units of accounting. This guidance is effective for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. The Company is assessing the potential impact of this guidance on our financial position and results of operations.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Meredith is exposed to certain market risks as a result of its use of financial instruments, in particular the potential market value loss arising from adverse changes in interest rates. The Company does not utilize financial instruments for trading purposes and does not hold any derivative financial instruments that could expose the Company to significant market risk. There have been no significant changes in the market risk exposures since June 30, 2009.

Interest Rates

We generally manage our risk associated with interest rate movements through the use of a combination of variable and fixed-rate debt. At June 30, 2010, Meredith had \$175.0 million outstanding in fixed-rate long-term debt. There are no earnings or liquidity risks associated with the Company's fixed-rate debt. The fair value of the fixed-rate debt (based on discounted cash flows reflecting borrowing rates currently available for debt with similar terms and maturities) varies with fluctuations in interest rates. A 10 percent decrease in interest rates would have changed the fair value of the fixed-rate debt to \$189.1 million from \$187.7 million at June 30, 2010.

At June 30, 2010, \$125.0 million of our debt was variable-rate debt. The Company is subject to earnings and liquidity risks for changes in the interest rate on this debt. A 10 percent increase in interest rates would increase annual interest expense by \$0.3 million.

Broadcast Rights Payable

The Company enters into broadcast rights contracts for its television stations. As a rule, these contracts are on a market-by-market basis and subject to terms and conditions of the seller of the broadcast rights. These procured rights generally are sold to the highest bidder in each market, and the process is very competitive. There are no earnings or liquidity risks associated with broadcast rights payable. Fair values are determined using discounted cash flows. At June 30, 2010, a 10 percent decrease in interest rates would have resulted in a \$0.2 million increase in the fair value of the available broadcast rights payable and the unavailable broadcast rights commitments.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders
Meredith Corporation:

We have audited the accompanying consolidated balance sheets of Meredith Corporation and subsidiaries (the Company) as of June 30, 2010 and 2009, and the related consolidated statements of earnings (loss), shareholders' equity, and cash flows for each of the years in the three-year period ended June 30, 2010. In connection with our audits of the consolidated financial statements, we also have audited the related financial statement schedule (as listed in Part IV, Item 15 (a) 2 herein). We also have audited the Company's internal control over financial reporting as of June 30, 2010, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these consolidated financial statements and the financial statement schedule, for maintaining effective internal control over financial reporting, and for their assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting (as included in Part II, Item 9A). Our responsibility is to express an opinion on these consolidated financial statements and the related financial statement schedule and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the consolidated financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Meredith Corporation and subsidiaries as of June 30, 2010 and 2009, and the results of their operations and their cash flows for each of the years in the three-year period ended June 30, 2010, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all

material respects, the information set forth therein. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of June 30, 2010, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

REPORT OF MANAGEMENT

To the Shareholders of Meredith Corporation:

Meredith management is responsible for the preparation, integrity, and objectivity of the financial information included in this Annual Report on Form 10-K. We take this responsibility very seriously as we recognize the importance of having well-informed, confident investors. The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and include amounts based on our informed judgments and estimates. We have adopted appropriate accounting policies and are fully committed to ensuring that those policies are applied properly and consistently. In addition, we strive to report our consolidated financial results in a manner that is relevant, complete, and understandable. We welcome any suggestions from those who use our reports.

To meet our responsibility for financial reporting, internal control systems and accounting procedures are designed to provide reasonable assurance as to the reliability of financial records. In addition, our internal audit staff monitors and reports on compliance with Company policies, procedures, and internal control systems.

The consolidated financial statements and the effectiveness of the Company's internal control over financial reporting have been audited by an independent registered public accounting firm in accordance with the standards of the Public Company Accounting Oversight Board (United States). The independent registered public accounting firm was given unrestricted access to all financial records and related information, including all Board of Directors and Board committee minutes.

The Audit Committee of the Board of Directors is responsible for reviewing and monitoring the Company's accounting policies, internal controls, and financial reporting practices. The Audit Committee is also directly responsible for the appointment, compensation, and oversight of the Company's independent registered public accounting firm. The Audit Committee consists of four independent directors who meet with the independent registered public accounting firm, management, and internal auditors to review accounting, auditing, and financial reporting matters. To ensure complete independence, the independent registered public accounting firm has direct access to the Audit Committee without the presence of management representatives.

At Meredith, we have always placed a high priority on good corporate governance and will continue to do so in the future.

/s/ Joseph H. Ceryanec
